The interior of an Emergency Medical Services (EMS) ambulance contains equipment to stabilize an emergency victim until he arrives at a hospital.

## Schools lose bid for appeal

By LUANNA CROW

The Midland Independent School District has lost its fight to be heard by the U.S. Supreme Court.

Thornton Hardie Jr., attorney for the school district, received a telegram this morning telling him the petition for a writ of certiorari had been denied.

The writ, which would have given the Midland schools their day in the high court, was filed after the 3rd U.S. Circuit Court of Appeals in New Orleans overturned a lower court ruling which approved Midland's desegregation plan.

"The upshot is that the district court now will work with us on a new plan for De Zavala and Washington (elementary schools)," Hardie said.

De Zavala is almost all Mexican American in its enrollment, while Washington is almost all-black.

The attorney said the school board has the option of instructing him to file a petition for a rehearing. In the

meantime, the case is in the hands of the district court where it was remanded last August by the appeals court with instructions to "dismantle the dual system" of education.

Although it seems likely the case will be heard in the U.S. District Court for the Western District of Texas, Midland-Odessa Division, Hardie said he has not received official notification to that effect.

Dr. James H. Mailey, superintendent of schools, this morning said he is "very disappointed that the Supreme Court did not respond to our request for the writ."

"Perhaps the fact that the Justice Department did not include in their brief (filed with the Supreme Court) the three additional schools that had been injected at the circuit court level may have been an important reason for turning it down, since this was one of our important points in our request for the writ of certiorari."

The MISD had contended the circuit court's opinion was vague and con-

fusing because justices made reference to Milam, Crockett and Pease elementary schools, calling them racially identifiable.

In earlier court discussions, Justice Department attorneys had admitted those schools are the result of migrating population rather than de jure (willful) segregation.

When the Justice Department filed its brief with the Supreme Court, it indicated it does not seek to desegregate those three schools.

Whether or not those schools will be revamped still is unclear although school officials think they will be omitted from any court action at this

## Men hold embassy, hostages

BEIRUT, Lebanon (AP) — A Lebanese gunman claiming he was cheated out of a Canadian island by his wife took over the Canadian Embassy with six armed followers today and seized more than 20 hostages, police said.

But after about three hours of tense negotiations, eight women hostages were freed and driven off in a red patrol truck of the Palestinian Armed Struggle Command, a sort of Palestinian police force.

One of the women said 15 men remained captive inside the embassy.

"No one has been injured," an embassy spokesman, reached by telephone inside the building, said. "We're all okay."

Police said the raiders were led by Moahammed Haimour, a former resident of Canada who said he was bilked out of an island by his estranged wife and a Jewish doctor.

Haimour at first demanded that a Canadian doctor who declared him mentally incompetent in Canada and a Canadian judge who ordered him expelled be brought to Beirut, police said.

He then demanded that a Bekaa Valley member of parliament, Michel Maalouly, negotiate with the Canadian Embassy staff. But when Maalouly arrived and began speaking to him, negotiations quickly centered on surrender terms, officers on the scene said.

There were also reports that Haimour had two children in Canada who he was concerned about, but this was not confirmed.

## Regional EMS sets 1980 operative goal

By DEBBIE PIERCE

The Emergency Medical Services System (EMS), designed to be fully operative throughout the Permian Basin region by 1980, has been called the next best thing to putting a physician in the field at the scene of an emergency.

Approved by Congress and signed into law by former President Nixon in 1973, the EMS Act offers states, counties and communities a system of encouragement to improve emergency medical services through federal support and finances.

Here in the Permian Basin region, EMS got its beginning when a group of physicians identified such a system as the number two priority in the area. The first priority was the number of physicians in the region, they said.

The Permian Basin Regional Planning Commission (PRPC) was then prompted to apply for an EMS grant and received the go-ahead from the federal government.

Dean Williams, EMS director at the PRPC, said it's the planning commission's intent to play only a supportive role to the communities so that, at the end of the four-year grant period, they can be self-supporting.

He noted that a good EMS system in the communities would bring about a strong EMS plan regionally.

The EMS system works along the lines of the television show "Emergency," according to EMS

systems engineer Andy Anderson. In the case of an accident or medical emergency, contact is made through a centralized point to public safety services. Then, an ambulance crew is sent to the scene, along with police or fire units if necessary.

Two trained Emergency Medical Technicians (EMTs) arrive and immediately begin working to stabilize the patient. Vital statistics are radioed in to the emergency room of a hospital where a physician will authorize the crew to administer drugs or perform other functions to get the patient in a condition where he can be transported to the hospital for further care.

When the patient arrives at the hospital, emergency room staff personnel already know the nature of his problem and are able to assist in the necessary treatment. Anderson noted that all the ambulances used in this region would have radio contact with all area hospitals, and the nature of the patient's injury would determine to which hospital he would be transported.

Williams noted that the regional planning commission's objective is to make EMS available to every person in this region within at least a 30-minute period. He said, "There are some places in our region where an ambulance cannot leave, go to a certain point to pick up a patient and get back without having to fill up with gas."

For the system to work properly, according to Anderson, 15 components must be met. These include manpower to provide the service 24 hours a day, seven days a week, training and continuing education programs; communications linking medical personnel and services with the patient; transportation; easily accessible emergency medical service facilities providing care on a continuous basis; access to critical medical care units; effective utilization of public safety agencies; consumer participation in the

program; accessibility of all to care; transfer of patients from hospital to hospital or from doctor to doctor in cases of emergencies; a standardized patient record-keeping system; programs for public information and education; independent review and evaluation of emergency health care services in the area; disaster linkage; and mutual aid agreements with neighboring areas.

A big part of the system is

utilization of 911, a three-digit telephone number connecting citizens with a public safety agency in times of emergency. Anderson said the system is already operating in Odessa, but it won't be put to work in Midland until November.

Some advantages of the system, he said, are that it is an automatic priority system, is faster, easier to remember, more efficient and flexible.

## Midland firemen now prepared to operate ambulance service

By COURTNEY BARBER

Midland firemen have been preparing for city ambulance service for two years.

They took their first Emergency Medical Technician (EMT) course at Midland College in 1974 during the Spring semester.

Contrary to earlier reports in a statement made by Ernie Crawford, executive director of the Permian Basin Regional Planning Commission, a fireman with EMT training does not command a salary of \$12,000 a year.

In fact, Raymond Lewis, Midland Fire Department training chief, said they don't get paid "any more than a fireman" who doesn't have the EMT training. Lewis' basic salary is \$998 per month, he said.

Crawford also said the basic EMT course is 40 hours, which is incorrect. Midland firemen have completed 120 hours of basic training and recently participated, without pay for their time in class, in a 21-hour refresher course, Lewis said.

The EMT refresher course consisted of lectures from Midland doctors and workshop sessions conducted by firemen. Practical ap-

plications were performed in the workshops. Both types of classes were covered in an eight-day period which began Feb. 9, Lewis said.

Fractures, dislocations and injuries to the head were discussed by Dr. Charles Younger, orthopedic surgeon, and the workshop dealt with fractures and dislocations of the upper extremities of the body, taught by Glen Harris, fireman.

Dr. Gerald R. F. Landry, emergency room physician at Midland Memorial Hospital, presented the second phase of the EMT refresher course. He lectured on airway passage care, mouth-to-mouth

and nose resuscitation and discussed available medical aids to pulmonary resuscitation.

Fireman Jerry Petree held a workshop on cardiopulmonary resuscitation.

Bleeding and shock were jointly discussed by Dr. John F. Gillett, MMH emergency room doctor, and Jack Martin, RN at MMH.

Gillett spoke on diabetes, epilepsy, poisons, patient examination and triage, while Martin gave firemen information regarding vital signs.

No workshop was held for this third

(Continued on Page 2A)

## Houston elevator blast leaves at least 7 dead

GALENA PARK, Tex. (AP) — A seventh body was found today as searchers probed tons of debris at the waterfront site of an explosion that destroyed a grain elevator used as a major loading point for grain shipments to Russia.

The search for other bodies continued but was hindered by fear huge damaged sections of the steel and concrete elevator might collapse.

Three other men were known to be missing.

Six bodies were recovered Sunday.

The roof of the eight-story, 8.5-million bushel Goodpasture Inc. elevator on the Houston Ship Channel was blown off and about half the exterior walls collapsed. Chunks of concrete flew in all directions.

Three ships were tied up at the Goodpasture dock but were towed away with only minor damage. A dozen or more longshoremen were on the dock but escaped injury.

Luther Hosch, 50, said he was loading bulldozer blades on a trailer about 400 feet from the elevator.

"I got under that trailer and the cement kept coming," Hosch said. "It was like rain water hitting you, only a lot heavier. When the dust cleared my face was full of blood."

Hosch was treated at a hospital and released. He was among about 25 persons injured. Only three of the injured were hospitalized.

"We are certain we will find

others dead but we don't know how many," said Paul Carr, a Houston fire department spokesman. "It may be a couple of days before we can dig down and find the others. They may be buried under 60 feet of rubble." Officials said they were uncertain as to how many were in the area when the blast erupted.

Firemen blamed the jarring explosion—heard 10 miles away in industrial Pasadena—on grain dust possibly ignited by a welder's torch. The eruption hurled debris over a broad waterfront area as if blown from a shotgun.

Carr said a welding crew was working in the area at the time. He said, "We can't account for them and think they may be under the rubble. Their trucks and equipment are totally destroyed and under those rocks."

The dead: Delbert Payne, 46, Houston, heavy equipment mechanic.

Larry Lawrence Lopez Jr., 9, Channelview, son of a Goodpasture supervisor.

William L. Hendry, 58, Houston, export packing foreman.

W. J. Polley, 38, Houston, Goodpasture maintenance worker.

Jose E. Garza, 38, Galena Park, Goodpasture employee.

Jesus Garza Leal, 37, Galena Park, Goodpasture employee.

Truitt Kennedy, executive vice

president of Goodpasture Inc. elevator estimated damage at \$50 million.

The explosion and fires threatened briefly the numerous—and highly volatile—petroleum and chemical plants stationed along the bustling Houston Ship Channel, Coast Guardsmen said. Two fireboats sped to the scene to quench pier fires.

Galena Park's city limits are nearly surrounded by sprawling Houston.

Coast Guard helicopters whirled overhead the 100-foot-high elevator with searchlights shortly after the wrenching blast, playing their beamson the fire-ravaged building in a search for anyone stranded atop it. The fireboats and three utility boats stood by to battle minor dockside blazes.

Firemen worked through the night, wading through kneedeep grain, dousing water on stubborn but contained fires. Heavy equipment moved into the area to remove rubble while grayish smoke drifted through the eerie firelight.

The force of the explosion gouged out boulders of concrete and steel, heaving them into smaller storage tanks nearby which burst into flames.

 Record low for a Feb. 22 is 14 degrees, set in 1966.

Texas area forecasts

South Central and Southeast Texas: Fair through Tuesday. Cool again tonight. Low tonight 30s, north to the mid 40s along the coast. High Tuesday in the 70s.

Upper Coast: Variable winds becoming mostly southeast around 10 knots tonight and Tuesday. Seas three feet or less.

Lower Coast: Mostly northerly winds becoming variable to southeast around 10 knots tonight and Tuesday. Seas three feet or less tonight.

North Central and Northeast Texas: Fair and a little warmer tonight and Tuesday. High Tuesday 66 to 74, low tonight 40-45.

Northwest and Southwest Texas: Fair through Tuesday. Not as cold tonight. Low tonight 32 to 38 except low 30s mountains and upper 20s extreme west. Highs Tuesday 70 to 78 except 80s Big Bend.

New Mexico, Oklahoma

Oklahoma: Fair through Tuesday. Low tonight upper 30s, north to 40s elsewhere. High Tuesday in the 70s.

New Mexico: High cloudiness tonight. Partly cloudy Tuesday with increasing winds by afternoon. Low tonight 30s mountains and north to 30s elsewhere. High Tuesday 50s north to 80s south and east.

Mild days, cold nights in forecast

Daytime temperatures throughout the Permian Basin will be fair through Tuesday, but nights will be cold, with the mercury dipping into the middle 30s.

It was clear and cold in Andrews, Big Lake, Lamesa and Stanton this morning, with slight breezes reported in Big Lake and Stanton. Crane, Rankin and McCamey reported clear sunny skies, and said temperatures were cool but warming up. No winds were reported at these locations. Skies in Midland were clear and sunny, with cold temperatures.

Tonight should not be quite as cold as last night, with the temperature expected to dip into the middle 30s. Tuesday's high will be in the middle 70s, with winds from the southeast at 5-10 m.p.h. Tuesday's high is expected to reach the middle 70s.

Air service to be discussed

The Midland City Council will meet jointly with the Odessa City Council and the Midland-Odessa Air Service Committee at 11:45 a.m. Tuesday at Ranchland Hills Country Club.

Clint McCutcheon, economic consultant on air transportation matters from Washington, D.C., will report to the groups on the economics of air service matters at the Midland Regional Air Terminal.

Youngsters take honors

**FORT WORTH** — Several Midland and Garden City youngsters captured honors in the recent Southwestern Exposition and Fat Stock Show at Fort Worth. Garry Batla of Garden City had the reserve champion Spots barrow of the show.

Kathy Knox of Midland won first place in the mediumweight division for Shorthorn steers and in the junior heifer calves competition. Midlander Mark Durham took first place in the Charolais heifer calves division.

Other Midlanders receiving honors at the show were Judy Jones with a second place in the medium weight polled Hereford steers division, and Andy Haskins, fourth place for her

light weight polled Hereford steer.

Miss Knox also won a second place in the light weight European crossbreds and other breeds steer division and a fourth place in the senior heifer calves contest.

Garden City residents Garry and Kenny Batla won second and third places, respectively, for their crossbreds barrows, 216-230 lbs. Garry Batla's reserve champion sports barrow won second place in the 200-216 lbs. division.

Richard Batla, also of Garden City, took fifth place in the 231-250 lbs. class for Spots barrows. Dorothy Schwartz of Garden City won fifth place for her Hampshire barrow in the 216-230 lbs. division.

**"DON'T LOOK, ETHEL!"** is a recurring warning Ray Stevens shouts in his popular song, "The Streak." With David Judd portraying the Streaker (bare leg at right), Deniz West, left, tries to shield "Ethel" (Kim Wood) from watching as they promote Stevens' upcoming concert that will be for the benefit of the Youth Centers in Midland. The concert is scheduled March 15 at the Lee High Auditorium.

Man charged in robbery

Charges were filed against Antonio Rodriguez Nunez, 25, 305 E. Mississippi St., for robbery, and he was being held in lieu of \$5,000 bond set by Justice of the Peace Robert H. Pine.

Nunez allegedly robbed Benson Laverne May, 41, of Midland at North Tilden Street and Garden Lane, at 4 p.m. Friday, police said.

May told police Nunez took \$75 from him.

Cash stolen from SPCA

A cigar box containing \$332.75 was reported stolen from an unlocked safe at the Society for the Prevention of Cruelty to Animals (SPCA), 1601 Orchard Ln., police said.

The theft occurred between 3 p.m. Saturday and 10 a.m. Sunday, Janet Probrandt, a SPCA employe told officers.

The money came from private donations, she said.

Midland girl on Who's Who

DENTON — Brenda Rathjen, daughter of Mr. and Mrs. David H. Rathjen of 2510 Dengar St., Midland, has been named to "Who's Who in American Colleges and Universities" at Texas Women's University.

Regional EMS sets 1980 operative goal

(Continued From Page 1A)

fire department, sheriff's department, law enforcement agencies or private groups in others, and some places have no such service.

The region currently has 41 on-call ambulances in its 17-county region; however, only six meet national standards and many ambulance attendants need further training, Anderson said.

Thirteen modular vehicles will be used in the region under the EMS program, several of which have already been delivered and are ready for active use. The last ones should arrive sometime in April.

In its coordinating capacity, PBRPC operates under HEW grants to train EMTs through the area colleges, train school students in cardiopulmonary resuscitation, survey hospitals identifying useable improvements they need, secure ambulances to meet national standards at a 50-50 cost split between the city and the federal government, secure additional equipment for hospital emergency rooms on a similar basis, coordinate the implementation of the 911 emergency telephone connection system, and prepare a comprehensive communications plan for the region to be followed by securing the communications equipment on a similar basis.

PBRPC hopes to have good emergency medical service delivery

Officer says blacks lack useful image

By ED TODD  
R-T Staff Writer

HOBBS, N.M. — Young blacks are in dire need of revamped images and firm, church-oriented leadership to discourage their falling into crime patterns and to encourage their living wholesome, productive lives.

This was the gist of a black-crime symposium held here Sunday under the sponsorship of the Northwest Texas-New Mexico Conference of CME Churches and The Christian Call News Services.

The Rev. Bob Tieucl Jr., minister-director of the services, presented The Reporter-Telegram with a certificate of appreciation at the opening of the seminar: "What Can the Black Church Do to Curb Crime in Our Communities?"

The Midland newspaper publishes Tieucl's column, "The Black Experience — Ringing the Bell," each Sunday.

The black-crime symposium's featured speakers were black police officers Cora C. Ivory of Lamesa and Fulton Berry of Lubbock.

Berry told the gathering at the Ramada Inn here that the "biggest problem" facing young blacks is the lack of an image from which they might mold useful, productive lives.

"There's nobody there he can look to for an image," Berry said. "Image is something we've got to work on, especially in the black church." In the past, he said, the young black has tended to shape his life after those who gain affluence through crime.

Berry also dealt on the increasing frequency of black-on-black crimes.

"Our values are in the wrong places because of conditioning," Berry, a patrolman in the Lubbock Police Department, said.

Miss Ivory, whose talk paralleled Berry's, said that "There's no such thing as inherited crime. It's a learned habit."

She, like Berry, mentioned the soaring crimes against property within the black community.

Berry said the laws were, in effect, color blind. "It's law, period," he said, "and it has no color."

Miss Ivory agreed: "We ourselves have to back the laws in order to enforce the law."

Heretofore, she said, young blacks have been taught by examples that "crime is socially acceptable." She attributed that outlook in part on the black man's oppression under the reign of the white man.

Berry said black people should cease dwelling on that past oppression. Black people, he said, should stop complaining "that white man won't let me up" and start working and striving for the good life. "He (God) helps them who help themselves," Berry said.

Blacks must get away from crime as a livelihood

"Crime is the No. 1 thing that is holding blacks back," Miss Ivory said.

She specifically mentioned burglary, armed robbery, theft, pimping and prostitution, and narcotics.

Also speaking at the seminar was T. J. Patterson, editor of the West Texas Times, a black-oriented weekly tabloid published at Lubbock.

"The Good Lord wants us to pray and then get up and hustle," Patterson said.

Firemen now prepared to operate ambulances

(Continued From Page 1A)

day of lessons.

Childbirth, drowning, exposure to heat and cold were topics discussed by Dr. Michael N. Burleson, MMH emergency room doctor, during the fourth day of lessons.

Martin told firemen how to lift and move patients. Fireman Bill Sparks gave them information concerning fractures and dislocations of the lower part of the body in their workshop lesson.

Dr. Ralph Greenlee spoke on cardiac arrest, stroke, and stroke and dyspnea. Arnold Meckley talked to the eye. Eddie Klatt, and a welder on bandaging, concluded the fifth day of lessons.

To the chest, abdominal injuries, and burns were discussed by Dr. Thomas M. Aycock as part of the sixth lesson.

The legal aspects of emergency care was the topic Deke Austin, assistant city attorney, spoke on to the firemen.

Dr. J. B. Youngblood spoke on the emotionally disturbed, unruly, the alcoholic and drug users.

Fire Capt. R. L. Dudley held a workshop during the seventh lesson on how to extricate injured people from cars and other vehicles. John Davidson, a fireman, drilled men regarding injuries to the spine and the extrication from vehicles.

Written exams were given by the Texas Department of Health Resources, and 22 firemen along with two Thomas Ambulance employes passed the written test.

A practical skills test will be given to the 24 men Wednesday.

DEATHS  
C. Montgomery  
dead at 73

Cecil P. Montgomery, 73, of 1707 Bryant St., Midland resident since 1947, died at 1:05 p.m. Sunday in a Midland hospital.

Services will be held at 10 a.m. Tuesday in the Newbie W. Ellis Chapel with the Rev. Ted Brian, associate pastor of The First Baptist Church officiating.

Burial will be in Resthaven Memorial Park.

Montgomery was born Jan. 5, 1903, in Eastland County and was reared there and in Mitchell and Fisher counties.

He married Drucie Garrett in the Cook community in Eastland County on June 1, 1927.

Montgomery, who moved to Midland in 1927, retired in 1970 from the maintenance division of the Texas Highway Department, now the State Department of Highways and Public Transportation.

For four years after his retirement, he worked as a parking lot attendant at the Midland County Public Library.

He left that job due to declining health.

Montgomery was a member of the Baptist church.

Survivors include the widow, a son, Jack Montgomery of Alpine, two daughters, Mrs. Laveta O'Neil of Midland and Mrs. Fay Wilson of Lubbock, two sisters, Mrs. Nannie Swafford of Lamesa and Mrs. Elva Howard of Big Spring, a brother, Roy Montgomery of Grand Prairie, 10 grandchildren, a great-grandchild and several nieces and nephews.

Hector rites held today

ALPINE — Services for Mrs. Leona Easterwood Hector, 86, of San Angelo and formerly of Alpine, were to be today in the Geeslin Funeral Home chapel in Alpine. Burial was at Elm Grove Cemetery in Alpine. She was the grandmother of Kenneth Latta of Midland. She died Friday in a San Angelo nursing home.

Mrs. Hector was born in Milam County and married Ira Hector in Alpine in 1913. She was a graduate of Sul Ross University and had taught school in the Alpine and Fort Davis area before retiring. She moved to San Angelo in 1966.

Survivors include a daughter, a son, two other grandchildren and three great-grandchildren.

Midlander's mother dies

HEALDTON, OKLA. — Mrs. Annie Hawkins, 85, of Dallas, died Saturday following a brief illness. She was the mother of Leslie Hawkins of Midland.

Services are pending with Reisner Funeral Home of Healdton, Okla.

Mrs. Hawkins was born Oct. 17, 1890, in Lockhart.

Survivors include a daughter and three other sons.

Thelma Wells rites today

LAMESA — Services for Mrs. Thelma Ann Wells, 61, were to be today in the Branon Funeral Home chapel with the Rev. Abe Hester, pastor of Second Baptist Church, officiating. Burial was at Lamesa Cemetery.

Mrs. Wells died at 5 p.m. Friday in a Lamesa hospital following a brief illness.

She was born in Coryell County, but had lived in Lamesa eight years. She managed a poultry farm. She was a member of the Baptist Church.

Survivors include five sisters, Mrs. Pearl Harris of Lamesa, Mrs. Nell Medlock of Fort Worth, Mrs. F. A. Bassham of Hughes Springs, Mrs. Wilma Wells of Wichita Falls and Mrs. Ernestine Madry of Midland, and two brothers, Carl Rasco of Belle Chasse, La. and Earl Rasco of Tyler.

## Gardeners elect officers

The Midland Garden Club elected Mrs. A. P. Shirey president during a meeting in the Midland Woman's Club.

Other officers named for 1976-77 were Mrs. Paul Smyres, first vice president; Mrs. J. W. McCart, second vice president; Mrs. Harold S. Holt, corresponding secretary; Mrs. R. W. Pattenon, recording secretary; Mrs. L. H. Humphrey, treasurer; Mrs. C. E. Bissell, reporter; and Mrs. Jack Griffin, historian.

Mrs. Richard Denham, Mrs. Jack Griffin, Mrs. D. G. McMillan and Mrs. Bonnie Kent were the hostesses.

Mrs. Walter Putnam, program chairman, announced the next meeting will be at 9:30 a.m. March 4 in Lancaster Garden Center. Museum of the Southwest. Mrs. McCart will present a program on "Flower Arranging to

Meet Flower Show Schedules." Floral arrangements brought by members will be discussed by Mrs. Earl Chapman, Mrs. John Kelsey, Mrs. F. H. McGuigan, Mrs. John Grimland, Mrs. Humphrey and Mrs. O. H. Jones.

Mrs. Putnam also distributed schedules for the garden clubs' flower show to be held in the center April 29.

Mrs. W. C. Howard presented a program on gardens she toured in London, Amsterdam and Paris during the months of April and May. She illustrated her talk with color slides.

### COMING EVENTS

- Tuesday**  
 Alamo Heights Baptist WMU, 9:30 a.m. church.  
 Ashbury United Methodist WSCS, 9:30 a.m. church.  
 Midkiff Baptist WMU, 9:30 a.m. church.  
 Northside Baptist WMU, 9:45 a.m. church.  
 South Memorial Baptist WMU, 7:30 p.m. church.  
 Temple Baptist WMU, 7:30 p.m. church.  
**Tuesday Duplicate Bridge Club**, 10 a.m. Knights of Columbus Hall, 2401 W. Indiana St.  
 Midland Palette Club, 9:30 a.m. 804 N. Colorado St.  
 RHCC Women's Golf Association, 9 a.m. club.  
 Women's Missionary Council of the First Assembly of God Church, 9:45 a.m. church.  
 Sweet Adelines, 7 p.m., Midland Room, The Midland National Bank Director: Bill Carmack.  
 Science of Mind Study Group, 8 p.m., Rankin Highway Information: Roger Mallory, 683-6647.  
 Ladies Auxiliary of Tall City Baptist Church, 7 p.m., Fellowship House, 3505 Thomson Drive.  
 Texas T.O.P.S. Morning Chapter, 9 a.m. Christ Presbyterian Church.  
 Deser' Winds Chapter: Sweet Adelines Inc. 7:30 p.m., St. Mark's United Methodist Church Director: Mrs. Kathleen Stewart.  
 Texas T.O.P.S. Evening Chapter No. 848, 6 p.m., Covenant Presbyterian Church, 5200 W. Illinois St.  
 Ladies Auxiliary to Fraternal Order of Eagles, 8 p.m., Eagles Hall.  
 Articuladies Toastmistress Club, 7:30 p.m., Hospitality Room, The First National Bank.  
 Midland Women's Club Play Day, 10 a.m. 2:30 p.m., clubhouse.  
 Midland Ward of Church of Jesus Christ of Latter-day Saints, 9:30 a.m., cultural refinement lesson, 11 a.m., in-service lesson, church.  
 Licensed Vocational Nurses Association, Division 22, 7 p.m., 3rd floor Conference Room.  
 Preceptor: Alpha Omega Chapter of Beta Sigma Phi, 7:30 p.m., Mrs. Rudy Lay, 3322 Fannin St.  
 Twentieth Century Study Club, 1:15 p.m., Mrs. Jack C. Howard, 2106 Whitney Drive.  
 Midland Senior Center, 10 a.m. 2 p.m., stitchery with Bernice, 1 p.m., table games, First Christian Church.  
 Newtimers Bridge Club, 10 a.m., RHCC Reservations Mrs. Lewis McGuire, 682-0726, Mrs. Lee Woods, 684-7377.

**GOLDEN AGERS** Mr. and Mrs. Claude Ferguson, seated, were crowned king and queen at a dinner held by the Golden Agers in the First United Methodist Church. Making the presentation were Mr. and Mrs. Lee May, standing, sponsors of the group.

## Youthful driver meets difficulties

**SPOKANE, Wash.** (AP) — A 10-year-old driver caught by police after a high-speed chase told officers he had gone off the road four times. Once, he said, he was helped back by passerby.

The driver and his 11-year-old passenger, both from Colville, were arrested Wednesday after a 38-block chase. The small, stolen foreign car was stopped only after it missed a curve and hit a fence and house.

## YOUR HOROSCOPE

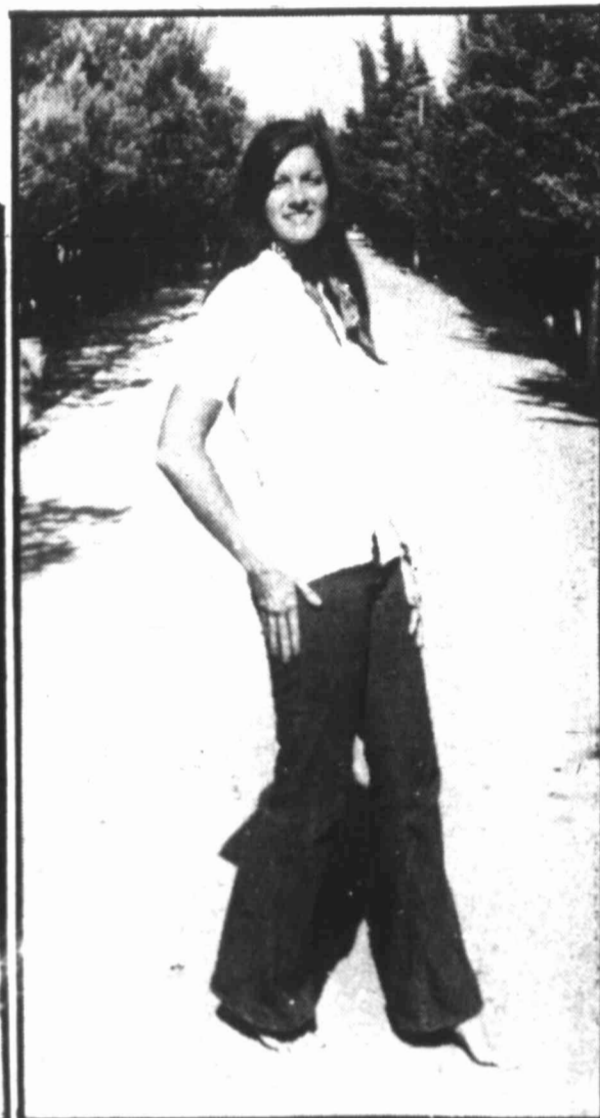

By CARROLL RIGHTER

(Tues. Feb. 24)  
**GENERAL TENDENCIES:** An unusually good day to put practical matters on a more solid and secure foundation. Evening may present snags in romance, entertainment or recreation.  
**ARIES (Mar. 21 to Apr. 19):** You can get the aid and backing you need from a bigwig in a.m., but avoid timelight in p.m. Good results from public work.  
**TAURUS (Apr. 20 to May 20):** A new outlet in a.m. can mean fine benefits. Avoid arguments in p.m. A new acquaintance of different experience helps.  
**GEMINI (May 21 to June 21):** Handling obligations in a most conscientious way brings right results, especially if you get an early start.  
**MOON CHILDREN (June 22 to July 21):** Try to please a rather demanding partner during day. Avoid sharp speech with this person in p.m. Handle civic matter.  
**LEO (July 22 to Aug. 21):** Get to work early, please coworkers more. Take healthful exercise in p.m. Add new pieces to your working wardrobe. Hold temper.  
**VIRGO (Aug. 22 to Sept. 22):** Enjoy delightful moments with friends during spare time, but don't spend much. Show special thought for mate. Be cagey to others.  
**LIBRA (Sept. 23 to Oct. 22):** Clear up differences at home for greater harmony. Get into a new interest early that can prove lucrative. Be practical.  
**SCORPIO (Oct. 23 to Nov. 21):** Work on a new plan early in the day, then clean up dull chores. Do shopping early, too. Perk up your health.  
**SAGITTARIUS (Nov. 22 to Dec. 21):** Use common sense in handling financial affairs and you have fewer problems. Don't be extravagant tonight.  
**CAPRICORN (Dec. 22 to Jan. 20):** Get charm and health improved with sensible methods by those who know their business. State aims to good friends who can help.  
**AQUARIUS (Jan. 21 to Feb. 19):** Plan ways to get affairs in better order. Accumulated chores can be polished off easily. Steer clear of tensions in p.m.  
**PISCES (Feb. 20 to Mar. 20):** Good day to discuss mutual problems with pals. Accept any invitations during the day, but stay home in p.m.

# REDUCE NOW

## For a new figure this Summer.

**AT PAT WALKER'S YOU JUST RELAX AND LET YOUR PERFECT FIGURE HAPPEN, WITHOUT EXERCISE OR CRASH DIETING OR DISROBING.**

## Caelli Armstrong is still keeping her Pat Walker figure after 2½ years (in Europe!)

"It's been 2½ years since Pat Walker's solved my figure problems. I still have the same weight and measurements that I had on my last treatment day. I had tried reducing with everything, but nothing had helped keep results. That is, nothing until the Pat Walker Program. I live in Europe now (all that food) but still live by the Program I learned. I'm 5'8", 125 pounds."

Thanks Miss Walker  
 Caelli Armstrong

SAVE 25.00  
 ON YOUR PERFECT  
 FIGURE  
 THIS MONTH ONLY!

Summer is fast approaching and that means that millions of women will be worrying about their figures. Get started now and you won't have to worry about yours after all. Our total approach to figure perfection has been working for over 23 years and it will work for you. Clip this coupon and call for your appointment for your courtesy treatment and figure analysis. There is no cost and no obligation.

Pat Walker

# "I'd rather explain higher gas bills than why you don't have gas."

Your natural gas bill is higher. And, you have every right to know why.

One reason is lower temperatures brought on by winter.

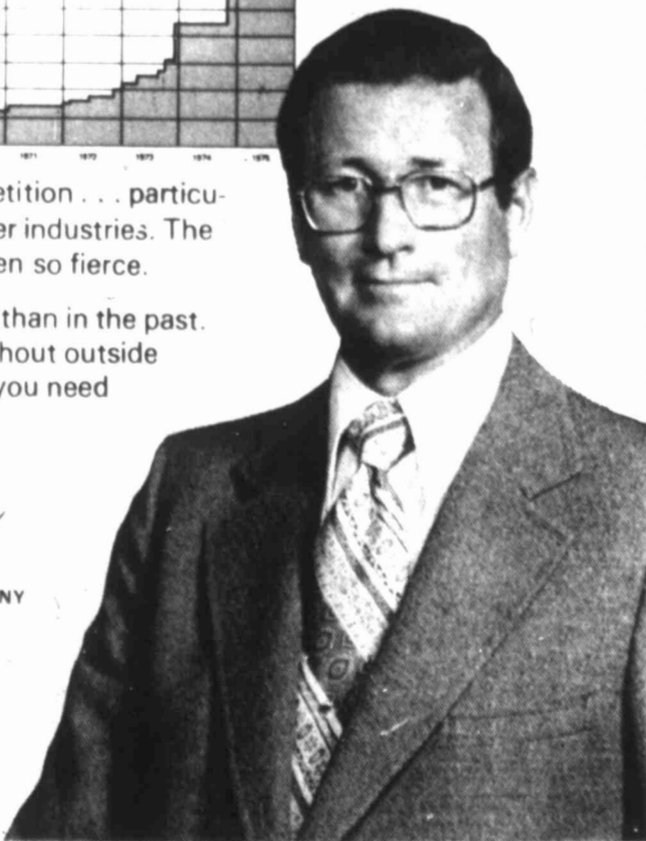

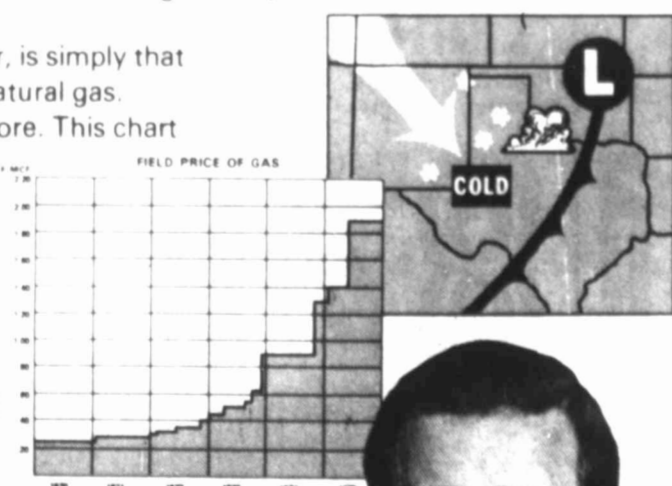

The main reason, however, is simply that you are paying more for natural gas. Because we are paying more. This chart shows how much:

This increase hurts both you and Pioneer. It adds to your bill and to our cost... a cost for which Pioneer is not entirely compensated. It is passed through without mark-up or additional charges.

Why does gas cost more? Competition... particularly from petrochemical and other industries. The competition for gas has never been so fierce.

We will have to pay more for gas than in the past. But by working together, and without outside interference, you'll have the gas you need today and in the future.

## Schick Center Returns to This Area!

3 Years ago, Chuck Connors broke the cigarette habit at the Schick Center in Los Angeles. At that time the Schick Stop Smoking Program was available only in a few large cities.

Now that the same famous service will be available right here in your own community for a limited time, Schick's Mobil Division will be on hand to help smokers break the habit in just 5 one-hour sessions... one week!

Schick offers the most officially commended, most honored and most successful stop smoking program in the world.

DEAR ABBY

# Bosoms noticed first by girl-watchers, figure next

By ABIGAIL VAN BUREN  
 DEAR READERS: I asked my readers to please send me a postcard telling me what they noticed first about the opposite sex. The response was almost equally divided between men and women, with slightly more men responding than women.  
 First, the responses from the men: The bosoms were out in front by a wide margin! However, many men

who said that the first thing they notice about a woman was her bosom added that the size of a woman's bust isn't important.  
 A Baltimore bosom-watcher wrote that he had become an expert on guessing whether a woman's breasts are "real," padded or enlarged by silicone implants. And anything phony turned him off.  
 From Seattle: "I'm only 28—not old

enough to be considered a dirty old man—but I have to admit that my eyes go right to a girl's bosom first. If she's not wearing a bra, I figure she's probably liberated.  
 After the bosom-watchers, the next highest percentage of men voted for a "figure," which included not only the way she was built but also other parts of her anatomy.  
 Connecticut men are "leg men,"

my mail disclosed. But most "fanny fanciers" live in California. One Encino girl-watcher wrote, "I prefer to see the rear view of a woman walking away rather than to see her walking toward me. In fact, I hardly ever notice a woman's face. The way she walks tells me more about her than her face does!"  
 Of those men who stated that they noticed a woman's figure first, more

than 50 per cent wrote that they preferred their women to be a little on the "meaty" side. And of all the men who stated a preference for "pleasingly plump" girls, most were from Illinois, Nebraska, Iowa, Kansas and Ohio!

The "eyes" came next. A government man in Washington, D.C., wrote, "Not only the eyes per se but also the 'expression' in her eyes."

"But liberated women are not necessarily pushovers. In fact, I've found that most liberated women are just the opposite. They refuse to be used as sex objects, and unless they're sure that you really care for them as a 'person,' it's no go."  
 From Milwaukee: "Big breasts have always been No. 1 with me," signed, "Seventy-nine and still looking!"

## Meetings planned by Midland groups

Two oil industry associations have scheduled meetings this week. The Permian Basin Landmen's Association will meet Tuesday at the Midland Country Club.

Dean Rippetoe, with Shell Oil Co. in Houston, will be the speaker. Topic of his address has not been released, but a PBLA spokesman said he is one of the most sought after speakers in the nation.

The event will get underway with a social hour at 6:30 p. m., with the dinner and program to begin at 7:30.

The West Texas Geological Society will hold its ladies night meeting

Wednesday at Ranchland Hill Country Club.

John A. Barnett of Denver, Colo., a former Midlander, will be the speaker. Barnett is with Hanson Oil Co. at Denver, and is a former park naturalist.

He will speak on "Glimps of Beauty of National Parks." His program will include a slide presentation.

The meeting gets under way at 6:30 p. m. with a social hour. Dinner will be served at 7:15 p. m. and the program will start at 8.

Reservations should be made by contacting the WTGS office by 5 p. m. Tuesday.

Caswell B. Windham Jr.

## Windham gets ARCO awards

Caswell B. Windham Jr., senior district production supervisor at Denver City for Atlantic Richfield Co., has been presented a 25-year service award and a 25-year safe worker award by the company.

The presentation was made recently by S. L. Smith, district manager in Midland.

Windham joined the company in 1951 as an engineer trainee at Corpus Christi. He was assigned to the Denver City area in 1962.

## MIT professor says nuclear plants safe

CAMBRIDGE, Mass. — A professor at Massachusetts Institute of Technology says nuclear plants are extremely safe, but that doubts expressed by three nuclear engineers who resigned their jobs should be carefully examined.

Prof. Norman Rasmussen, chairman of MIT's department of nuclear engineering, told a forum Friday night that nuclear accidents are 10,000 times less likely to happen than other accidents such as dam failures and plane crashes.

Rasmussen said it is more likely an airliner will crash into a crowded stadium than that a nuclear accident will occur.

Others at MIT's forum on nuclear reactor safety called for conservation of present energy sources and the development of alternative power sources such as solar, wind and hydroelectric production.

Three middle-level executives with General Electric's nuclear division resigned their jobs recently to warn the public of what they said is a nuclear power plant peril.

One of the three, Dale Bridenbaugh, told a news conference in Battleboro,

Vt., Friday that problems at the Vermont Yankee nuclear plant make a major accident a definite possibility.

Bridenbaugh said the design of Vermont Yankee's safety pressure

chamber is similar to that in 18 other reactors built by General Electric.

The Vermont Yankee plant reopened this week after being closed briefly for corrective work.

Asked about Bridenbaugh's claim, Rasmussen said, "I'm told all the other plants have different mechanisms, but we must consider that Bridenbaugh did work on those calculations."

Prof. Henry Kendall of MIT's physics department said, "If three people who devoted their professional

careers give up and tell me they are worried, I want to listen."

Rasmussen, director of an Atomic Energy Commission study on nuclear reactor safety, warned, "Historical sources of energy are being dried up. Nuclear opponents drop all the comparisons and say only that it is too dangerous. I can show you many other things that are more dangerous such as riding in elevators."

Rasmussen said the likelihood of a nuclear core melt down is one in 20,000 per plant per year, and the possibility of a major release of radioactivity is about one in 100,000 reactor years.

Prof. Barry Commoner, professor of environmental science at Washington University in St. Louis, claimed nuclear plants do have risks and said, "The benefits of nuclear power are zero."

MIT professor George Rathjens, chairman of the Massachusetts Governor's Commission on Nuclear Safety, said, "I see no move to clean up sulfur coal. I see no real move to conservation in this country."

"In view of this, I fear we are stuck with nuclear energy and I'm prepared to go along with it. It's probably safer than coal," he said.

## WT activity includes gas strike in Ward

Ward County gained a gas discovery and a field outpost site. A wildcat was staked in Howard County and a pool pay stepout was set in Ector.

Phillips Petroleum Co. has completed No. 1-BB University Lands as a Wolfcamp oil strike in Ward, nine miles northwest of Pyote.

The 24-hour flowing potential was for 431 barrels of 43-gravity oil and 118 barrels of water, with gas-oil ratio measuring 1.736-1.

Production was gauged on a 24-64-inch choke and perforations at 11,415-11,545 feet, which had been acidized with 10,000 gallons.

A former Atoka gas discovery, it is bottomed at 20,522 feet, and has a 7 3/4-inch lunge hung from 11,063-18,540 feet. The plugged-back depth is 12,005 feet.

The following tops were picked under ground elevation of 2,796 feet: Rustler, S57; Castile, 2,247; Lamar-Lamar-Delaware, 5,154; Bell Canyon of the Dewdney, 7,180; Cherry Canyon, 6,086; Bone Canyon, 7,128; Bone Springs, 8,825; Wolfcamp 1, 1,376; and Strawn, 16,393 feet.

It was completed May 8, 1975 as the opener of the War-Wink, West

(Atoka) gas field, for a calculated, absolute open flow of 4 million cubic feet of dry gas per day, through perforations at 17,166-17,171 feet.

Location is 1,980 feet from north and west lines of section 35, block 18, ULS.

**SITE SET**

GMW and Monaghan of Midland filed application to drill a 3/4-mile west stepout to Fusselman gas production in the Quito field of Ward, five miles north of Barstow. It is No. 1-1 Red Cloud.

Drill site for the 17,500-foot test is 660 feet from northeast and northwest lines of section 217, block 34, H&TC survey.

**HOWARD PROBE**

J. R. Todd Oil & Investments, Inc., Midland, will drill an 8,100-foot prospector in Northeast Howard five miles east of Luther, as No. 1-B Thompson.

Location is 760 feet from south and on the east line of section 21, block 27, H&TC survey, one location east of an existing well failure and two miles south-west of the depleted Vee-moor-Read (Canyon) oil field.

**ECTOR REENTRY**

Gulf Oil Corp. plans reentry and plugging back to around 8,900 feet at No. 1 University-Fogelson, former deep oiler, for recompletion attempt as a fourth Wolfcamp well and location east extension to that pay in the Jordan, South field of Ector.

It spots 662 feet from south and 680 feet from west lines of section 7, block 35, ULS, five miles south of Penwell.

## DRILLING REPORT

**BORDEN** — Brown No. 2-368 Miller, drilling 1,125 feet in redbeds, shale.

**COCHIRAN** — Williams No. 1 Masten, id. 7,909 feet, plugged and abandoned.

**COTTLE** — Bass No. 1 Havins, drilling 5,528 feet in shale, lime.

**CRANE** — Mobil No. 9-43 Hardwicke-University, drilling 12,200 feet in lime.

**CROCKETT** — Williams No. 1 Harris, drilling 9,025 feet in shale, lime.

**CRANE** — Mobil No. 9-43 Hardwicke-University, drilling 12,200 feet in lime.

**CRANE** — Mobil No. 9-43 Hardwicke-University, drilling 12,200 feet in lime.

**CRANE** — Mobil No. 9-43 Hardwicke-University, drilling 12,200 feet in lime.

**GIFFORD** — Mitchell & Wisenbaker No. 1 Comanche Unit, id.

## To The People I Serve:

No man could be more honored than I am to be your Sheriff, and to do the very best job of which I am capable. You have always supported good, clean, honest law enforcement, and we are dedicated to measuring up to those high standards.

I want to talk with you very frankly about law enforcement in these times. Unquestionably, the problems are here and they are growing each day. Although we have been fortunate in Midland, our nation is going through a period of unprecedented lawlessness which threatens to undermine the fabric of our American society. All of our skill and experience must be brought to bear in full force, if we are to overcome and contain those who have no regard for the law, for property, or even for life and human dignity.

Many of these elements are powerful and well-organized. In other areas, they are corrupting law enforcement, they are endangering the stability of our systems and institutions and in many cases are perverting and obstructing justice itself. We cannot and must not permit them to gain a foothold in our county, and I pledge to you that they will never do so while I am your Sheriff.

This job, and working for you, is my life. My health is excellent, and I want to use every ounce of my energy and ability in being the kind of Sheriff you want and expect me to be. If you stand with me for good, clean, honest law enforcement, then I ask your help in this re-election campaign to maintain our reputation as the cleanest county in Texas.

I'm always as near as your telephone, when you need me. I want to help, and so do the 29 fine, trained deputies in this department. We are here for just one purpose: to serve you in every possible way. Thank you very much!

Sincerely and gratefully,

Ed Darnell

**Re-Elect SHERIFF ED DARNELL**  
Democratic Primary, May 1st

Paid for by committee for Good Law Enforcement, Reese Cleveland, Chairman.

# JOIN THE SPIRIT OF '76 SAVERS

AT FIRST SAVINGS

It's easy and a good way to do your part in carrying on the great American tradition of putting a little bit aside for a better tomorrow.

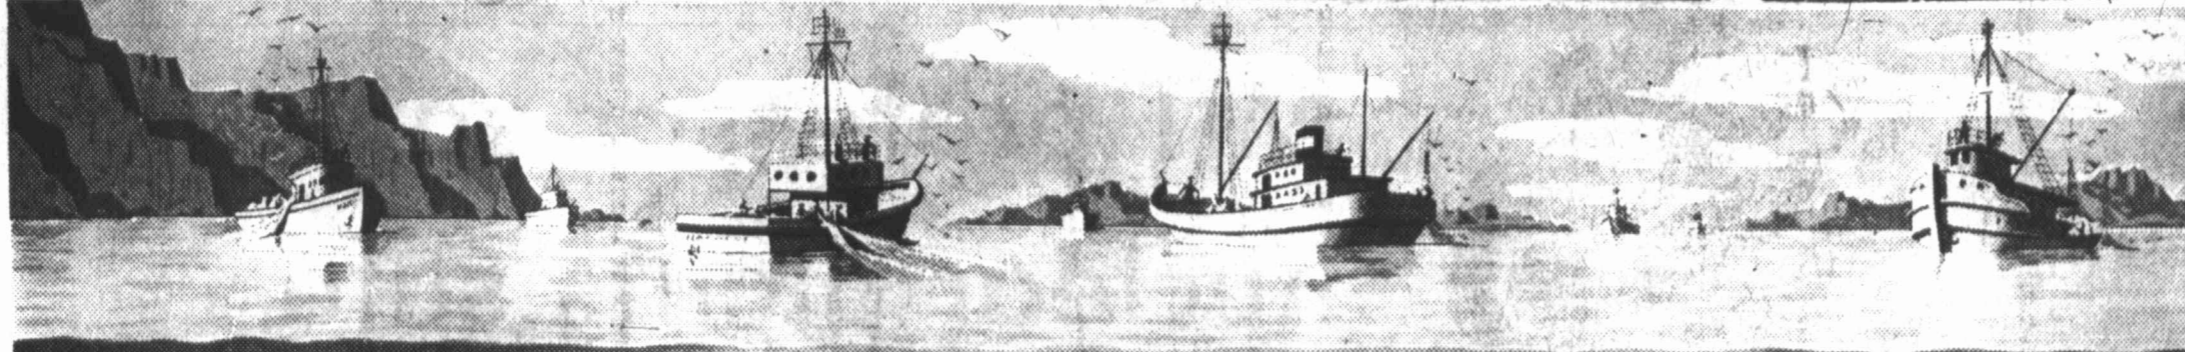

- ★ Start with \$7.60 a week. That adds up to \$395.20 a year plus interest.
- ★ \$76.00 per month mounts up to \$912.00 plus interest in 12 months.
- ★ Earn 5 1/4% per annum, paid quarterly... an effective yield of 5.39%.

Once you get into the spirit of our savings program you can really see your money grow... and before long you'll have that bundle to help make your dreams come true.

## FANCY FISH DISHES

Fancy fish dishes you can turn out for just a few pennies per portion! Made with the leading brands of seafoods we're featuring now. Talk about quality! And talk about variety! Serve seafood tonight... serve it often. Your family will enjoy the different flavor-treats. You'll enjoy the money you save, shopping Safeway!

1. Flavorful fish sticks for a deliciously different dinner! And so easy! Just heat to a golden brown in oven. Serve on a bed of broccoli with tart sauce.
2. Barbecued fish! Whole fish steaks and fillets take on an exquisite flavor when they're spread with barbecue sauce and grilled over hot coals or in broiler.
3. Fish feast. Broil salmon or halibut steak to a rich golden brown then top with Parmesan cheese and put under broiler again until cheese is melted. Real hearty!

MIDLAND DELTA GAMMA ALUMNAE ASSOCIATION has presented an American flag, as a Bicentennial project and as part of its aid to the blind and sight conservation. Blind persons may touch and recognize the flag of red velvet and white

grograin stripes and white embossed stars. Examining the flag made by the association are Mr. and Mrs. A. L. Lasater, center. Also shown are Mrs. Gordon Leach, right, and Mrs. A. J. Hankinson Jr. of the association.

## Patty awaits decision on crucial questioning

SAN FRANCISCO (AP) — With her lengthy testimony nearing an end, Patricia Hearst learns today whether she will be questioned about plans she helped draw up for bank robberies other than the one for which she is on trial.

U.S. District Court Judge Oliver J. Carter says he will rule today on whether Miss Hearst, 22, may be questioned about 17 documents found in her last fugitive hideout.

She is now on trial for a San Francisco bank robbery two months after she was kidnaped. Authorities say the notebooks and drawings could link her to planned bank heists in the Sacramento area, filling out part of the year on the run she has kept hidden from the jury.

The newspaper heiress, who has been on the witness stand since Feb. 13, has testified that her every move was in fear of her life, including her statements of allegiance to her Symphonese Liberation Army captors. She defended her admitted cooperation

with her terrorist kidnapers as her only means of survival.

"I was told I would be killed," she has said repeatedly when asked to explain her failure to surrender during a 19-month odyssey with the SLA.

U.S. Attorney James L. Browning Jr. seeks to ask Miss Hearst about the stack of documents recovered from her apartment the day of her capture, Sept. 18. Included is a floor plan of a Bank of America branch in Sacramento with observations on bank personnel in Miss Hearst's handwriting.

Other papers include a list of banks and a yellow spiral notebook containing notes on escape routes and methods of disguise. Chief defense attorney F. Lee Bailey has fought vigorously to keep the contents of the papers away from the seven-woman, five-man jury. He also refused to open up for questioning a full year — September 1974 to September 1975 — of Miss Hearst's life on the run.

Also at issue is a taped conversation between Miss Hearst and a childhood friend that occurred within 48 hours of her arrest and was recorded at the San Mateo County Jail in suburban Redwood City, where the newspaper heiress has been held without bail.

In the conversation, Miss Hearst complains bitterly to Patricia Tobin about her capture and says her politics are "revolutionary feminist" now.

The prosecution contends the tape reveals Miss Hearst's willing allegiance to revolutionary

philosophy. Her attorneys counter it is meaningless and occurred while she was still in fear of her life, with SLA member Emily Harris in the cell next to her.

During a hearing last week outside the presence of the jury, Miss Hearst calmly invoked the 5th Amendment 19 times, refusing to answer any questions about the documents.

Browning claims Miss Hearst spent the disputed year "casing banks" with surviving SLA members William and Emily Harris in the Sacramento and San Francisco area. Bailey contends that any testimony by his client of her activities during that year could leave her open to further prosecution.

Carter has upheld Miss Hearst's right to decline to answer any questions about 12 of the 19 months she spent underground after the SLA kidnaped her on Feb. 4, 1974.

If Browning is allowed to question Miss Hearst about the documents, however, the defendant would either have to answer or again invoke her constitutional protection against self-incrimination — this time in front of the jury.

Her attorney says he would like to avoid the potentially negative image such a situation might prompt in the minds of the jurors, who have been sequestered during the four-week-old trial.

Bailey particularly would like to avoid having his client asked questions about an April 21, 1975, holdup at a bank in the Sacramento suburb of Carmichael — more than one year after the robbery for which she is on trial.

## Back revenue sharing, Ford urges

By FRANCES LEWINE

WASHINGTON (AP) — President Ford today urged the nation's governors to support a renewal of federal revenue sharing and warned that the U.S. economic recovery would be imperiled if Congress fails to extend the program.

In a speech prepared for a meeting of the National Governors' Conference, Ford said, "The whole concept of federalism is at stake" and if movement toward more general revenue sharing fails this year, "there will be a new escalation in the categorical programs of an increasingly centralized government."

Ford said that some view federal-state relations as "the most deadly boring of all political issues." But he said the issue "really turns me on."

He pointed out that George Washington had warned 200 years ago against "the danger of the monolithic, centralized power of the federal government" and in recent years government has grown bigger and "more meddlesome, but not always more efficient nor more responsive to local needs."

He charged Congress with not moving with enough speed in response to his request last April to extend the current \$30.2-billion, five-year program of revenue sharing

which expires at the end of this year.

Ford told the governors, "the nation needs your help" and told them they were right "in saying that our present economic recovery would be endangered if the Congress were to end revenue sharing. It could force the states to fire workers, to increase state taxes and even to institute new taxation. You know and I know that we must join forces to keep revenue sharing alive."

Ford said he is sending to Congress programs for community services, Medicaid, and education, which would consolidate numerous categorical programs, which are federal grants for specific projects, into single multibillion dollar block grants that the states can use as they see fit in these areas.

He said no state would receive less federal money under these proposals than it did in fiscal 1976 under the programs to be consolidated.

The President said he also will propose reducing or ending requirements that states provide matching funds to qualify for federal aid.

The issue of renewing revenue sharing is creating a growing division between Democrats in Congress and Democrats who make up a majority of local government officials.

Although many Democrats in Congress are lukewarm to any extension, most local government officials are enthusiastic for the program and rely on it to bolster their governmental budgets.

And there is growing fear among governors, mayors and county of-

ficials that the program may not survive or will get at best a one-year extension to delay the crisis until after this year's elections.

"For a long time, we just couldn't believe it could be possible that Congress would not continue it," Gov. Robert Ray, R-Iowa, said in a news conference Sunday. "Now, we think so — unfortunately."

One of the problems is that revenue sharing was born as a Republican program in the Nixon administration. Another problem as far as Congress is concerned is the lingering reluctance of many lawmakers to bear the onus of raising the tax money and then give it back to the states to claim credit when it is spent.

Also of significance in this growing debate is the fact that the direct grants with few strings attached threaten the elaborate bureaucracies, which surveys show to be staffed largely by Democrats, which administer the traditional categorical grant programs.

On the other hand, local office holders, most of them Democrats, have become dependent on the federal money and the freedom to spend it where it is most needed rather than in mandatory channels.

Ray, a Republican, was reflecting the view of most local officials when he said it was "absolutely essential" that revenue sharing be saved. "They desperately need it," said Ray, chairman of the conference, "and, if we do not get it, I think you will find some catastrophic effects in local government."

## Kissinger pays visit to Colombian capital

By KENNETH J. FREED

BOGOTA, Colombia (AP) — Secretary of State Henry A. Kissinger conferred with Colombian President Alfonso Lopez today during an overnight visit to one of the few surviving democracies in South America.

A senior American official told newsmen traveling on Kissinger's plane that the secretary's original itinerary did not include Colombia because relations between the two countries are so good Kissinger thought he could use his time to better advantage in countries which present more problems.

Colombia was added to the tour after persistent appeals from President Lopez and Foreign Minister Indalecio Liewano. The American official said Kissinger wanted to demonstrate American support of the Lopez government, which has been plagued by violence, and that he believed the stop in Colombia would help ease criticism of his courtship last week of the dictatorial regimes in Peru and Brazil.

There were violent protests against the visit Friday in Bogota and

Medellin, and Kissinger on his arrival Sunday was driven from the airport to the seclusion of the president's ranch.

His only appearance in Bogota was to be for a luncheon he was giving for Liewano at the American ambassador's well-guarded residence. After the luncheon, he flies to Costa Rica, the fifth stop on his six nation tour.

On his arrival at the president's ranch, Kissinger told Colombian newsmen they should "not pay much attention to those rumors in Washington" that his prestige is declining and he may resign soon.

He said he intends "to continue as secretary of state as long as President Ford wants me to stay."

He added, "The foreign policy in my country is not dictated by just one person but through agreements by our two main political parties."

Kissinger said the agreement he signed in Brasilia Saturday recognizing Brazil as the only world power in Latin America "stems from the reality itself of a fact." But he said it does not mean that Brazil will be the only Latin American country to be consulted by the United States in formulating its policies.

## FBI sifts evidence seized in bomb raid

SAN FRANCISCO (AP) — The FBI is sifting through piles of explosives and radical writings seized from a makeshift bomb plant in an effort to pinpoint the source of Northern California terrorist attacks.

From 130 to 150 pounds of explosives were discovered Saturday in a pre-dawn raid by FBI and police SWAT teams on a Richmond, Calif., house. Three men and three women, surprised while sleeping, were arrested and face arraignment on explosives charges today.

A seventh person was arrested after a stakeout later Saturday in Oakland. Police identified him as David Miller, 21, wanted in Madison, Wis., for assaulting a policeman during a demonstration in 1973. He was held in lieu of \$100,000 bail on an explosives charge.

In the Richmond house

the FBI also said it found literature from the Emiliano Zapata Unit and New World Liberation Front (NWLF) — a group which recently issued communiques threatening Patricia Hearst and her family.

The San Francisco Chronicle quoted underground sources today as saying the seven persons arrested comprise almost the entire membership of the Emiliano Zapata Unit.

The newspaper said the terrorist group used for its front an aboveground bookstore and communication center called the New Dawn Collective in Berkeley.

FBI Special Agent-in-Charge Charles Bates said it would "take a little time" to determine to which group those arrested belonged. He said the raid resulted from information gathered

## Congress faces deadline on election commission

WASHINGTON (AP) — Under pressure of the Supreme Court's deadline of next weekend, Congress is working to revamp the Federal Election Commission to meet the court's objections and to keep public funds flowing into

presidential campaigns. The House Administration Committee was to begin consideration of a proposed bill today and continue most of the week. The Senate stood by to act promptly.

The Supreme Court ruled that the commission may not continue beyond this month to exercise executive functions, including the funds handling, so long as it consisted mainly of congressional appointees.

The law setting up the commission gave Congress the power to name a majority of commissioners, a power that the court said was rested in the executive

under the Constitution. The draft bill before the House panel would make the commissioners presidential appointees.

There was little hope of actually meeting the Feb. 29 deadline, but leaders planned action soon enough thereafter to avoid serious inconvenience to the presidential campaigns.

In other business, the Senate set debate today on a measure to extend the span of daylight saving time. Under present law, daylight saving runs for six months from the last Sunday in April to the last Sunday in October. The bill would, for this year and the next, have the clocks set forward the first Sunday of March and back the second Sunday of November, giving daylight savings for eight months and one week.

## ACC now ACU

ABILENE, Tex. (AP) — Abilene Christian College isn't the same today. It's Abilene Christian University now.

The school's board of trustees changed the college's name Sunday and named a new dean. It was the third name change for the school in 70 years and became effective at once.

Dr. Edward M. Brown, professor of communications at the school since 1959, was named dean and will assume that post Sept. 1. Dr. B. J. Humble had served as both dean and vice president of academic affairs.

Trustees said the name change was a "fact simply recognizing a fact" and that the university name was in keeping with national trends for four-year colleges with graduate programs. The board's annual meeting concludes today.

## Farm exports create surplus

WASHINGTON (AP) —

The Agriculture Department said today that the value of farm exports last year totaled \$21.9 billion, a slight dip from 1974's record of \$22 billion.

Despite the decline, 1974 exports provided a record U.S. trade surplus, the difference between the value of exports and imports.

Farm imports totaled \$9.3 billion last year, down from nearly \$10.3 billion in calendar 1974, the department's Foreign Agricultural Service said. That meant a U.S. farm export edge over imports of \$12.6 billion, up from the previous high of \$11.7 billion in 1974.

Meanwhile, in calendar 1975, exports of U.S. nonfarm products failed to keep pace with non-farm imports, the fifth successive year there has been a deficit in that trade exchange, the agency said.

But the huge farm export surplus more than offset the other gap, leaving U.S. over-all trade in the black in 1975

by a margin of \$10.3 billion. That was a record over-all trade surplus, that the value of farm exports last year totaled \$21.9 billion, a slight dip from 1974's record of \$22 billion.

# Oregon ends UCLA streak

By The Associated Press

Not even Pauley Pavilion could help the UCLA Bruins the way they were shooting.

"I don't recall a game that I've ever coached — in high school or college — where a team of mine had gotten off to such a horrible start," said Coach Gene Bartow.

The fifth-ranked Bruins hit only six of 27 shots from the floor in the first half — and didn't do that much better in the second Saturday night. The result was a shocking 65-45 loss to Oregon at Pauley Pavilion, breaking one of the most revered streaks in college basketball.

The defeat was the first for UCLA at home after 98 victories—or since March 6, 1970, when the Bruins lost to arch-rival Southern California.

"We were clearly the better team tonight," Oregon Coach Dick Harter said, buoyant with the dramatic victory. "We've played phenomenal basketball the last few weeks. We came in here to play with force, to make the Bruins play hard defense for 20 minutes each half."

"We haven't been shooting as well as we did in this game, but tonight we took excellent shots and used patience and poise."

It was a stunning achievement for

the Ducks, considering the way UCLA has played at home. The loss was only the third for UCLA in the last 169 games at Pauley.

"We shot terribly," Bartow said in an understatement, "and they played an outstanding game."

In other games, No. 1 Indiana defeated Minnesota 76-64; No. 2 Marquette stopped No. 19 Louisville 72-62; No. 3 North Carolina turned back Virginia 73-71; No. 4 Rutgers whipped American University 94-79; No. 6 Nevada-Las Vegas buried Hawaii 114-99; Duke upset No. 7 Maryland 69-67; No. 8 Notre Dame trimmed South Carolina 90-83; No. 9 Tennessee routed Mississippi 105-81, and No. 10 Alabama beat Mississippi State 65-61.

Elsewhere, 11th-ranked Washington ripped California 95-75; 12th-rated North Carolina State was upset by Clemson 103-90; DePaul stunned No. 13 Cincinnati 70-60; No. 14 Missouri defeated Nebraska 95-84 in overtime; 15th-ranked Michigan whipped Purdue 92-81; No. 16 St. John's coasted past Syracuse 100-78; No. 17 Western Michigan outscored Northern Illinois 91-74; 18th-rated Virginia Tech turned back Wake Forest 102-95, and No. 20 Centenary bested Houston Baptist 110-95.

Ron Lee and Greg Ballard led the Oregon scoring, as the aggressive Ducks took a 30-14 halftime lead. While the Bruins were shooting poorly from the floor in the first half, the Ducks made 13 of their 21 field goal attempts.

Ballard finished with 16 points and Lee 15. The Oregon victory cut UCLA's lead to one game in the Pacific-8 Conference race. The Ducks are one of three teams in second place with 8-3 marks.

Tom Abernethy and Scott May led Indiana on a second-half scoring

spurge that buried Minnesota. The Gophers' zone defense gave the nation's top-ranked team trouble in the first half before Abernethy and May started connecting.

Abernethy finished with 22 points, matching his career high, and May fired in 18. The victory was Indiana's 53rd straight in regular season play and 33rd in a row in Big Ten action—extending the Hoosiers' own conference record.

"We didn't have good defensive play from our forwards," said Minnesota Coach Jim Dutcher. "They were beaten very badly by Indiana's forwards."

Earl Tatum poured in 23 points and led a second-half rally to power Marquette over Louisville. The Warriors, who led only 30-27 at the half, stormed to leads as high as 17 points in the second half.

Marquette Coach Al McGuire had rare words of praise for his Warriors, who shot nearly 68 per cent from the field in the second half.

"Sometimes the rim becomes a tea cup, but not today," he said. "We got extremely good shooting in the second half."

Marquette's zone defense was equally as effective.

"The zone gave them a headache," McGuire said. "They just didn't get the outside shooting."

A tap-in by Mitch Kupchak with one second left gave North Carolina its victory over Virginia and moved the Tar Heels closer to the Atlantic Coast Conference regular-season title. The Tar Heels, 22-2, can clinch the crown, which is worth a berth in the NCAA tournament, by beating either Duke or North Carolina State next week.

"We can play much better—and we'll have to to beat North Carolina State," said North Carolina Coach Dean Smith.

Gary Nelson (55) of the University of Oregon, hits easy layup against UCLA Saturday as Ducks snapped 98-game winning

streak at home by Bruins, 65-45. Marques Johnson arrives too late to stop Nelson.

# Chaps end home season tonight

Midland College closes out its home basketball season tonight when the Chaparrals host New Mexico Junior College of Hobbs at 8 p.m.

It will be Fan Appreciation Night with fans admitted for half price, \$1 for adults and 50 cents for children.

The Chaps have a two game winning streak going and bring an 8-8 Western Junior College Conference record into the game. Their goal is to catch fifth place Frank Phillips, 9-7, in the final week of the season and perhaps earn a regional playoff berth.

NMJC is 4-12 in conference, but in the last couple of weeks has pulled upsets over Western Texas, the league leader with a 12-4, and New Mexico Military Institute, tied with Amarillo College for second place with 11-5.

RON DOYLE, a 6-4 freshman from El Paso, is the Thunderbirds' leading scorer with a 20.3 average. Coach Dale Caton's club in one respect resembles Midland College in that it is composed almost exclusively of

freshmen. Jesse Cleaver, a 6-7 sophomore from Albuquerque, N.M., is the lone letterman.

The team is home grown with only Eddie Daniel, 6-2 from Camden, N.J., hailing from outside the West Texas and New Mexico area. Three of the players, 5-9 Benny Hicks, 5-8 Junior Hutchings and 6-0 Mike Clappitt are from Hobbs.

Midland College is coming off a 73-72 upset win over South Plains at Levelland, a game in which Coach Chester Story did some lineup juggling that paid off.

TOMMY PARKS, the team's leading scorer with a 20.2 average, teamed up with Scott Stamp, who has been a sparkling playmaker for the Chaps in the last few games, at guards with 6-8 Dan Vanderzee at post, 6-6 Jackson Pace at forward while Ricky Daniel and Sim Nickerson alternated at the other forward.

Midland concludes its season Thursday night at Roswell against NMJC.

In the first meeting between MC and NMJC, the Chaps scored a 91-82 win as Parks scored 29 points while Cleaver and Doyle had 23 each for the Thunderbirds.

# UT-Arlington sweeps SMU

ARLINGTON, Tex. (AP) — Righthanders Bruce Marshall and Cliff Knowles allowed Southern Methodist just five hits in two games Sunday in pitching Texas-Arlington to a sweep of a college baseball doubleheader.

Marshall recorded a two-hitter in the second game for a 5-0 victory, after Knowles pitched a 3-hitter to the opener.

# Junior netters capture titles

Champions were crowned Sunday afternoon in the Midland Junior Round Robin Tennis Tournament with the two of Houdek and Schweinfurth taking first in the boys doubles while the girls doubles winners were Stoltz and Bedford.

Miss Stoltz also won the singles title with Sydney Jolliffe second. Carl Campbell won the boys singles crown and Lance Armstrong runnerup.

# Aggies face breather in Rice Tuesday night

By The Associated Press

The Texas Aggies, admittedly tired after a whirlwind round of crucial games, take a breather against last-place Rice Tuesday night while the rest of the Southwest Conference sets the pairings for a championship tournament which doesn't involve A&M for nearly two weeks.

Coach Shelby Metcalfe's Aggies played four games in seven days, climaxed by Saturday's 70-69 triumph over Arkansas that clinched a berth in the finals of the tournament March 6 in Dallas. Three rounds of games Feb. 28 and March 4-5 will determine the Aggies' opponent.

A&M, however, showed signs of fatigue. It blew an eight-point half-time lead and Arkansas cut a seven-point bulge with two minutes remaining to one point in the final seconds.

The Aggies' "Mr. Clutch", Sonny Parker, finished with 26 points but he missed six free throws late in the game, including two with five seconds to go that allowed the Razorbacks to get off a final desperation shot that

could have meant victory. "I was pressing too hard at the free throw line," said Parker. "I'm usually better than that. I guess I'm just tired."

Ray Roberts' "After all the mental strain we've been under and playing a game every other day this week."

"We're fortunate that we're going to get the bye to the finals," said Metcalfe. "I think we're ready for a break."

Although Rice gave the Aggies a good battle in their first meeting, the 3-23 Owls aren't A&M's biggest worry this week.

A hearing will be held in Houston by the SWC on Thursday to allow Aggie freshman players Karl Godine and Jarvis Williams to hear charges against them and face their accusers.

Godine and Williams were suspended last week by the SWC for the rest of the season but a federal judge in Dallas issued an injunction saying they must be allowed to play because they were denied due process.

The Thursday hearing could reinstate the suspensions and keep Godine and Williams out of the SWC tournament. In addition, the Dallas Morning News reported that the Aggies could be facing a two-year probation for recruiting violations involving the players.

In other games Saturday, Texas Tech outscored Southern Methodist 107-101. Baylor edged Houston 79-72 and Texas whipped Rice 90-70. The games all had a bearing on pairings in the tournament.

Tech has a 12-3 record that gives it second place, so the Raiders will host last-place Rice (1-14) in the first round next Saturday.

Despite its loss, SMU is 10-5 and will hold third place. The Mustangs will meet Texas Christian or Texas in the first round in Dallas. The Longhorns and Horned Frogs meet Tuesday in Fort Worth, with seventh place on the line.

Baylor's triumph tied the Bears with Arkansas for fourth place at 8-7.

# Golden Glove finals in Odessa tonight Young is third in Norway meet

ODESSA — Stanley O'Neal, Midland athlete, will face Arturo Sanchez of Crane tonight in the finals of the Novice Division of the 30th annual Regional Golden Gloves Tourney in the Ector County Coliseum.

He joins five other Midland fighters that will be seeking titles with the first bout set for 7:30 p.m.

Johnny Abila and Richard Abila of the Tall City, will be in the finals of the High School Division, facing Ronald Smythe, also of Midland and Eddie Ramos of Jalisco, N.M.

Nicky Wagner, 162-pounder from the Midland Boys' Club, battles Ted DeLaro in the finals of the Novice Division while in the Open Division, Midland's Roy Flores, squares off with Eddie Gonzales of Abilene with a shot at the state tourney in Fort Worth in March.

Feature of the evening will be an exhibition bout between James Cleveland, former state champion and Joe LaRocha, Odessa Boys Club Coach and veteran of 160 professional fights.

GJOEVIK, Norway (AP) — Sheila Young, the United States' triple medal winner at the recent Winter Olympic Games in Innsbruck, set two sprint records at the 1976 Women's World Speed Skating Championships, but the best she could do over-all was finish third.

Miss Young, the 25-year-old from Detroit, raced to records in the 500 meters in 42.26 seconds and the 1,000 meters in 1:28.69 in the two-day world championships held in a snow storm. But a sixth-place tie in the 1,500 in 2:19.44 and a dismal 14th in the 3,000 in 5:12.09 left her in third place, behind Sylvia Burka of Canada and Tatiana Averina of the Soviet Union.

Miss Young had won the 500 meter gold medal in the Olympics and a silver and a bronze in two other races.

Miss Burka, the first Canadian to win the world title, had a total of 184,840 points in beating Miss Averina, the favorite, who finished second with 185,283 points, and Miss Young, third with 185,540 points.

Miss Burka finished fifth in the opening 500 meters race Saturday, then won the 1,500 meters in 2:18.60 Sunday, she was third in the 1,000 meters race and seventh in the final 3,000.

Miss Averina, 25, winner of two gold and two bronze medals at Innsbruck, was fourth in the world 500, third in the 1,500, second in the 1,000 and ninth in the 3,000.

# Owners will decide about opening camps for spring training

NEW YORK (AP) — The baseball owners, who have threatened to delay spring training until there is a new labor contract, were expected to get a recommendation today from their player relations committee on whether to open the camps on time.

The owners' player relations committee was scheduled to meet today in the office of John J. Gaherin, their chief bargaining agent with the major league baseball players association.

Some things old and something new were to decide on the course of action.

On the old side was the possibility of the owners' liability if the camps do not open on time. Some players have contracts

calling for them to receive 1976 payments before the regular season. They may be able to demand payment, even if the camps are closed.

All the players, however, are entitled to daily spring training meal money and expense allowances once the camps open. Whether keeping the camps closed constitutes a breach was uncertain.

Gaherin said there is no explicit right to holding spring training and the owners would not be liable if the camps are closed. "The allowances are structured to compensate the player only for expenses incurred," he said.

Marvin Miller, executive director of the players association, said he hasn't made a legal

judgment yet on whether keeping the camps closed, and thus not paying allowances, would make the owners liable. "But it does open a new can of worms," he said.

A baseball source acknowledged that there is no contractual right for the players to bask in the spring training sun but "there is an indirect provision in the contract that contemplates spring training and one can get an implication of spring training from past practices."

Full spring training operations normally get underway March 1, with the pitchers and catchers reporting one week earlier. That would have been today, so the first delay of spring training already has been reported.

# Nastase upsets Jimmy Connors in World Indoor Tennis tourney

By The Associated Press  
Youngsters Bjorn Borg and Guillermo Vilas and veteran Arthur Ashe each survived one bad set of tennis to post impressive victories on the farflung World Championship Tennis circuit, while tempestuous Ilie Nastase maintained his best behavior and upset his buddy Jimmy Connors for the U.S. National Indoor Open title.

The match was highlighted by long rallies on the slow artificial surface. Borg dropped the first set and fell behind 0-3 in the second — "I was hitting the ball scared," Borg said — before getting untracked.

He earned a \$10,000 wintertake-all prize in the round-robin tournament. The top-seeded Vilas also got off to a slow start but rallied to beat Vijay Amritraj of India 46, 6-0, 6-4 in the \$60,000 St. Louis Classic.

"I'm just a slow starter," the 23-year-old Argentine said. "I was having trouble with my concentration."

Meanwhile, on the women's pro circuit, it was business as usual — another straight-set victory in the finals for Chris Evert.

Borg, the 19-year-old Swede, took awhile to get going but finally wore down Australia's John Newcombe 2-6, 7-5, 6-2, 6-4 in the third match of the \$320,000 WCT Challenge Cup tournament in Hawaii. The match was played in temperatures upwards of 100 degrees, and the heat took its toll on the 31-year-old Aussie.

"I knew what I had to do — I just couldn't do it," Newcombe said. The match was highlighted by long rallies on the slow artificial surface. Borg dropped the first set and fell behind 0-3 in the second — "I was hitting the ball scared," Borg said — before getting untracked.

## Whitworth nabs win over Stacy

SARASOTA, Fla. (AP) — "It's never boring to win," exclaimed Kathy Whitworth after capturing her 76th tournament title on the Ladies Professional Golf Association tour by one shot over Hollis Stacy.

The 35-year-old Richardson, Tex., golfer, who has been on the tour for 18 years, collected an \$8,500 first-place check Sunday in the \$60,000 Bent Tree Classic.

Miss Whitworth, the tour's all-time leading money winner nearing the \$600,000 plateau in career earnings, claimed the title when playing partner Miss Stacy, tied for the lead, bogeyed the final hole.

Miss Stacy drove her tee shot into the water on the 471-yard, par-5 18th hole. After taking a penalty shot, the 21-year-old Savannah, Ga., resident missed a 15-foot putt for par which would have forced a sudden death playoff. Miss Whitworth made her par putt.

Miss Stacy had gained a share of the lead when she birdied the par-3 17th hole and Miss Whitworth bogeyed.

"I got a little excited after that two-stroke swing on 17," said Miss Stacy, a third-year pro who was going for her first tournament title. "My heart was going about 1,000 beats a second."

"I kept telling myself, 'slow down,' but everything was in fast motion," she added. "I was a little quick with my driver. I'd hate to see that swing on instant replay."

Miss Stacy won only \$20,000 the past two years but took home a runner-up check for \$6,500 here.

"I know Hollis will relive that hole for weeks," Miss Whitworth said. "The next time she'll be a little more careful. Sometimes your mind just goes blank."

Miss Whitworth closed with a one-under-par 71 on the 6,111-yard Bent Tree Golf and Country Club course for a 54-hole total of 209. Miss Stacy had a 69 for 210.

## Akins is honored by Texas teammates

AUSTIN, Tex. (AP) — Texas Longhorn football players have elected quarterback Marty Akins their most valuable player for the 1975 season.

The Longhorn Club Sportsmanship Award went to Fred Sarchet, another defensive back and a team captain.

The Travis County Texas Exes Scholarship Award went to Joey Aboussie, offensive halfback.

Offensive end Tommy Ingram received the \$500 Bowie Duncan-Winston McMahon Scholarship, given by the Raymond Dickson Foundation.

Center Billy Gordon won the \$500 Lyndon B. Johnson Scholarship Award.

Offensive guard Will Wilcox received the V. W. Leed Memorial Scholarship.

## Bobcats Rote Superstars winner

ROTUNDA, Fla. (AP) — Kyle Rote Jr. managed to score points in all seven events he entered to regain the Superstars title he captured in 1974 and earn \$34,900.

But the Dallas Tornado soccer player, unseated Texas to an 87-79 victory over Abilene Christian in a first round game of the Lone Star Conference basketball tournament here Sunday.

Rote won tennis, took second in bowling and baseball, third in swimming, fourth in the obstacle course, fourth in the half-mile bike race for a total of 33 points on a 10-7-4-2-1 point system.

Swann won the obstacle course in 24.12 seconds, won the 100-yard dash in 10.23 seconds, came in second in the half-mile run to soccer player Bob Rigby's winning time of 2:07.7, and took fourth in baseball.

## Owls seeking bi-district win Tuesday

By TERRY WILLIAMSON  
ALPINE—The Reagan County Owls and the Socorro Bulldogs will tangle here Tuesday night in a Class AA bi-district basketball playoff contest on the campus of Sul Ross State University at 7 p.m.

Reagan County, carrying a 21-11 record into the fray, will be representing District 7-AA while Socorro, 18-9 on the year, is the 8-AA winner.

Coach Jack Kiser's Owls had hot and cold spells during the year. They have had the tendency to go cold in stretches, but when things are working right, the squad moves smoothly as a fine tuned Swiss watch.

The Owls won the first half championship with a perfect 4-0 mark while never skipping a beat, including what was considered an upset over defending champion Crane at the time. That big victory came during the Owls' second loop game, and they went on to smash the rest of the league.

The second half proved to be a rough road for the Owls, but after suffering through a defeat to the hands of Crane, they went on to win the rest of their games and the outright championship.

Ozona gave the Owls a bit of help by upsetting Crane to force the Golden Cranes and Reagan County to share the second half championship, but the Owls won the right to face Socorro by virtue of the uncontested first half title.

## HEAR YE! HEAR YE!

**BIG SAVINGS ARE COMING TO THE PERMIAN BASIN**

WATCH WEDNESDAY'S PAPER FOR DETAILS!

Post this where it will remind you to check your filter.

## Check furnace filters once a month and save money.

Why check filters regularly? A dirty filter makes your furnace work harder and use more electricity. Either replace a dirty filter or clean it as recommended by your furnace manufacturer.

Here are other ways to get your heating dollar's worth:

Set your thermostat lower. When you lower the thermostat setting, you also lower your energy use and cost.

Be sure your home meets the latest FHA home insulation standards. You can save as much as 20 percent or more on energy consumption if your home is well insulated.

Consider installing a humidifier. At lower thermostat settings, your home will be more comfortable with additional humidity.

Open draperies or shades on the sunny side of the house. Let the sunshine heat your home. When the weather is cold and gray, keep draperies closed to help keep the heat inside.

Weatherstrip doors and windows. Keep drafts out and seal in the heat. Also remember to keep the fireplace damper closed when it's not in use.

South, the Good Sport, took the first trick with the ace of spades and returned a low trump, losing dummy's jack to the ace.

East cashed a high spade and then led another spade through declarer. The Good Sport wondered whether to

ruff with an honor or with the nine, but nothing made any difference. West was sure to win a trick with the ten of hearts, and the ract was doomed.

South chuckled ruefully as he scored 100 points on the wrong side of the scorepad. "You boys are too tough," he said, and he beamed to the left and to the right.

**LIMITED BEAM**

South didn't beam ahead. Experience has taught the Good Sport that his partners seldom share his admiration for the opponents.

After winning the first trick with the ace of spades, South should cash the three high clubs, discarding two spades from dummy. Then South leads the king of hearts to force out the ace.

East can cash a spade, but then dummy is out of spades. If East leads a third spade, South ruffs; and then dummy's jack of trumps will keep West in check. South can easily draw trumps and knock out the ace of diamonds.

**DAILY QUESTION**

Partner opens with one spade, and the next player bids two diamonds. You hold: S-7543; H-J62; D-QJ852; C-6. What do you say?

**ANSWER:** Bid two spades. You have too many spades to do much damage to two diamonds. Besides, an immediate double would probably drive the enemy to a better spot in hearts or clubs.

**Many U.S. students now learn medicine in Italy**

ROME (AP) — Growing numbers of America's future doctors are being trained in Italy.

With admission to U.S. medical schools confined to about 4,500 new students a year, or about a tenth of the applicants, more than 1,500

Americans are now studying at 27 medical schools in Italy. It is the largest contingent of American medical students in Europe. A million-dollar organization, the Italo-American Medical Education Foundation, helps Italianize the

American students and then re-Americanize them after their Italian education.

About 600 Americans are now immersed in the foundation's "total orientation program."

To work as interns in American hospitals, those trained abroad must pass the examinations of the Educational Council for Foreign Medical Graduates. The president of the foundation, Albert Sehrager, says because of his organization's work, the student exiles' chances of passing the exams have gone up from 33 per cent four years ago to 75 per cent.

U.S. and Italian physicians concluded a three-day symposium in Rome Sunday on the problems of the student exiles and the ways of closing the differences between U.S. and Italian medical education.

Both students and doctors said that although American technology may give U.S. education a clinical edge over the Italian, the gap is due largely to deficiencies in the Italian educational structure resulting from overcrowding.

**Council to discuss possibility of razing run-down apartments**

By DEBBIE PIERCE

Midland City Council Tuesday will discuss advertising for bids to demolish the old Belmont and Columbia Apartments in the southeast section of town.

Some 15 tenants currently live in the Belmont, or "Lafayette" Apartments, bounded by Hicks, Belmont, Gist and South Main streets. About 40 persons reside in the Columbia Apartments, bounded by Colorado, Stokes, Gist and South Main streets.

The area has been called "a disgrace," and "a potential trouble area" for crime because of the run-down condition of the apartments.

Both city and school officials want the area razed or sold to someone for renovation. School officials are concerned mainly with the proximity of the apartments to Edison Freshman School with its 700 students, while city officials are concerned with the appearance and potential danger at the area.

Razing the property could prove costly, however. City Manager James Brown estimated the cost at \$37,000 two years ago.

Council will also consider approval of the lease agreement and appropriation of the city's half of the cost for three Emergency Medical services ambulances.

The three vehicles were delivered to the city the last week in January, but have not been officially accepted due to certain questions by the council on the lease agreement with the Permian Basin Regional Planning Commission. A committee of three council members, however, met last week with PBRPC officials, and agreed to recommend full council approval of the vehicles.

In other action, council will consider:

— Continuation of the rental agreement with Area Rent-A-Car for the service station site at Air Terminal, but at a new rental price.

— A report by the staff on the possible location of additional rent car agencies at Air Terminal, as well as possible franchise terms and conditions.

— A resolution awarding a contract for construction of an employe parking lot at Terminal and repairs to the existing public parking lot.

— A request by Ralph Mason of Sonic Drive-In for a zone change from local retail to another classification of local retail at 2100 West Wall St.

— A request by the Bicentennial Committee to close off several streets in the downtown area from July 1-6.

— A request for a passenger loading zone at the new Hilton Hotel.

— Appointments to the Board of Equalization.

— A request by Frederick Haltom for a zone change from office district and single-family district to commercial at 211 W. Carter St.

— A request by Louie C. Koonce for

a zone change from temporary single-family district to local retail on three-fourths acre north of FM 868 on Midkiff Street.

— A request by Landmark Properties to remove from the fire district 7.12 acres at the intersection of Tarleton and Wadley Streets.

— A request by Pierce, Pace & Associates to remove from the fire district 4.35 acres at Pecos and Scharbauer Drive.

— The second reading of a request by McDonald Construction Co. for a zone change from duplex with specific use permit to office district at 201 W. Cottonwood.

— The second reading of a request by G. A. Veloz for a zone change from local retail to local retail with a specific use permit for on-premise consumption of alcoholic beverages—restaurant, bar at 1501 N. Big Spring St.

— Approval of the 1976 map of the Urban Transportation System in the city.

— An ordinance on second reading amending a recently-approved ordinance to clarify action regarding secondhand dealers.

— A report on procedures of disposing of effluent.

— A report from the Housing Authority.

— A request by B'nith B'rith to hold a carnival at 3913 W. Wall St. March 8-14.

— A request to remove the restrictive covenants on a tract at the corner of Louisiana and McGoff Roads.

— Approval of a right-of-way license to TESCO on T-Bar Ranch property.

— A request by the Midland County Historical Survey Committee.

— A request by the Midland Chamber of Commerce to change the proposed uses of a portion of their allotted funds.

— An executive session to study land acquisition and personnel matters.

— A resolution accepting the swimming pool study by Freese, Nichols & Esmond, appropriating funds and authorizing payment of the study.

— A resolution authorizing the execution of a contract with Freese, Nichols & Esmond to prepare plans for the renovation and repairs of Half swimming pool.

— A request by the Midland Boys' Club for additional property to expand their building.

— A request by the Girl Scouts to use Wadley-Barron Park on March 12 and Elkin Park from June 7-11.

— A request by Andres Covarrubias to sell snow cones at Hogan Park on Sundays.

— A request by the Midland Ministerial Association to use Wadley-Barron Park July 4 for

Bicentennial services.

— A request for a refund of an over-size water line in Skyline Terrace Addition.

— An ordinance repealing a formerly accepted ordinance which granted exclusive use of portions of Texas and Colorado Streets to owners of the Shell Building.

— A resolution authorizing the execution of a maintenance agreement with the Railway Co. and the Highway Department for the grade crossing at Midkiff Street.

**Police seek armed robber**

Police are looking for an armed robber who took in excess of \$50 from 7-11 Store, 1912 N. Big Spring St., at 2:45 a.m. Sunday. Midland police said.

Employe George Anderson told police a Mexican male entered the store carrying a black revolver and demanded the money. Anderson and other witnesses described the robber as being in his 20s, 5-feet-5, 160 pounds, curly hair and was wearing a stocking over his face, green shirt with stripes or some type of design and khaki pants.

The man put all of the money in a pail and was last seen going south behind the store, witnesses told officers.

**Kuhlman service set**

PITTSBURGH (AP) — Dozens of persons often spent the night on the stone steps of the First Presbyterian Church to get front row seats at the faith healing services of Kathryn Kuhlman.

And an overflow crowd is expected to visit the Sixth Avenue church tonight for a service memorializing the late evangelist, self-described as "the handmaiden of the Lord."

Miss Kuhlman, who lived in nearby Fox Chapel, died Friday in Tulsa, Okla., where she'd been hospitalized since Christmas with a heart ailment.

She'll be buried in private ceremonies Tuesday in Forest Lawn Cemetery in Los Angeles Memorial services were set for today in Pittsburgh and Youngstown, Ohio.

— The refund of over- and double-payment of taxes;  
— Awarding a contract for a rescue tool for the fire department;  
— Awarding a contract for an estimated yearly supply of tires and tubes for the Municipal Garage;  
— Awarding a contract for an animal shelter pickup body; and  
— Authorizing the advertisement for bids for a multi-channel recorder system for the fire department.

**Television sets stolen**

Two color television sets, valued at \$600, were reported stolen from the home of Glenda Hurd, 1110 E. Dordard St., Friday, police said.

**Cattlemen lose bid on grading**

WASHINGTON (AP) — New federal definitions for the quality of beef Americans buy go into effect today, meaning the steak you buy as "prime" meat may have been graded only "choice" last week.

Under the new rules, standards for "prime" and "choice" beef will be widened to include meat with less marbling — or flecks of fat. The more marbling in the beef, the more tender and juicy it is.

The U.S. Agriculture Department, which had originally hoped to implement the new rating system almost a year ago, says consumers won't be able to tell the difference in appearance or taste but that the changes will cut costs for cattlemen, keep retail costs down and cut down the amount of grain used to feed the cattle Americans eat.

Historically, the tenderest and most expensive of the four grades of beef commonly seen in retail stores is "prime," which comes from cattle pampered and fed grain during much of their lives, particularly in the final few months before slaughter.

"Choice" beef contains less marbling than "prime," and "good" beef has less than "choice." "Standard" is the fourth category.

The rise in grain prices in recent years has caused many cattle farmers and feed-lot operators to claim they have lost money until recently. With a loosening of the standards for the top two classes of beef, producers will be able to feed less grain to animals and still have them qualify for the more expensive grades.

The new rules were initially planned for adoption last April 14, but they were delayed by court challenges from producers and others, including consumer groups which contended that shoppers would be charged higher prices for lower quality beef. The last legal hurdle was cleared Sunday.

U.S. District Court Judge Patrick Higginbotham of Dallas denied a temporary injunction that had been sought by the Texas baby beef industry, which claimed the new standards would dry up their industry and ultimately result in higher costs to consumers.

The baby beef raisers complained the new regulations would downgrade 20 to 50 per cent of their product from "good" to "standard" and argued that chain stores and consumers would not buy lowergraded baby beef.

Higginbotham said he denied the action because it was unlikely cattlemen could win their case in further proceedings. A hearing is still scheduled within 45 days on a motion for a permanent injunction.

# Fractometer Yields Secrets Of Tobacco Flavor.

Researchers use smoke analysis to isolate key flavor ingredients of tobacco—low tar MERIT with 'Enriched Flavor' achieved.

Not all ingredients of tobacco in cigarette smoke deliver the same amount of taste

Or tar.

That's what researchers at Philip Morris discovered using an analytical fractometer to "crack" cigarette smoke down into its various parts.

Relying on this very sensitive, very special instrument, over 2000 separate ingredients were isolated and analyzed.

What this analysis revealed was startling.

There are ingredients in cigarette smoke—key flavor-rich ingredients—that deliver taste way out of proportion to tar.

Ingredients that, when packed into a tobacco blend, result in a cigarette that delivers extraordinary flavor without the usual corresponding increase in tar.

The discovery is called 'Enriched Flavor.' It comes in the tobacco of a remarkable new cigarette: MERIT.

'Enriched Flavor' is extra flavor. Natural flavor. Flavor that can't burn out, can't fade out, can't do anything but come through for you.

In fact, MERIT delivers the flavor of cigarettes having more tar.

Up to 60% more tar.

Yet MERIT has only 9 mg. of tar. Lower

than 98% of all cigarettes being sold today.

If you're looking to become a low tar smoker, or don't particularly enjoy the taste of the low tar brand you smoke now, you'll be interested.

#### Taste-Tested By People Like You

9 mg. tar MERIT was taste-tested against five current leading low tar brands ranging from 11 mg. to 15 mg. tar.

Thousands of filter smokers were involved, smokers like yourself, tested at home.

The results were conclusive:

Even if the cigarette tested had 60% more tar than MERIT, a significant majority of all smokers tested reported new 'Enriched Flavor' MERIT delivered more taste.

Repeat: delivered more taste.

In similar tests against 11 mg. to 15 mg. menthol brands, 9 mg. tar MERIT MENTHOL performed strongly too, delivering as much—or more—taste than the higher tar brands tested.

You've been smoking "low tar, good taste" claims long enough. Now you've got the cigarette MERIT. Incredible smoking pleasure at one of the lowest tar levels in smoking today—only 9 mg. tar. From Philip Morris.

\*American Institute of Consumer Opinion Study available free on request. Philip Morris Inc., Richmond, Va. 23261.

9 mg. tar, 0.7 mg. nicotine av. per cigarette by FTC Method.

Warning: The Surgeon General Has Determined That Cigarette Smoking Is Dangerous to Your Health.

MERIT and MERIT MENTHOL
