

Drouth Ends; It Rained!

★ ★ ★

Rains, which dumped 1 inch on the Muleshoe area this week brought farm work to a virtual standstill but it put broad smiles on the faces of farmers, especially those who operate dryland farms.

And the rains darn near ruined a first-class drouth over which eastern writers had wept copious tears onto their type-writers, predicting a return of the dust-bowl days.

It had become a habit by writers from Dallas to Washington to view with alarm the dry weather which had plagued West Texas these many months, and many of the writers were practically checking West Texas off the books as a second Sahara desert in the making. Rains this week drowned out the gloom spreaders.

★ ★ ★

The rains came just before grain sorghum-planting time. A few hardy souls on irrigated land had already seeded their lands to the county's biggest crop, but most farmers considered any planting before May 1 a bit premature. This was especially true of the dryland farmers who had readied their lands and were sitting anxiously on their front porches, waiting for the rains to come, and they did!

Corn planting had been underway for several days, a corn-chip variety lending new interest to corn growers. The county has stepped its corn acreage up to as much as 4000 acres.

Planting of cotton has been set back several days by the rains, the moisture cooling the

★ ★ ★

soils below the recommended 65-degree mark. Farmers use as a rule of thumb a 65-degree reading at eight inch depth for five days consistently.

The county will plant around 100,000 acres of cotton this year, the county's allotment being 103,786.1 acres.

The rains were general throughout the Muleshoe area, measuring from .32 inches to a peak of 1 1/2 inches. Muleshoe seemed to be in the center of the rain belt, half an inch being recorded in Sunday night's drouth-breaker. Monday's slow rains were a boon to all plants. Ranchers, too, were pleased by the heavy downpour which prodded lackadaisical plants out of crusty soil.

Prematurely hot weather,

★ ★ ★

which has seen the thermometer go mad at 99 degrees, had further darkened the agricultural outlook and had caused the drouth-prediction boys to point with an "I told you so" finger at the Panhandle. Last week it had appeared as if they might be right; this week's rains gave the lie to the finger-pointers.

The rains also will prove of value to vegetable growers. While they do not depend on nature to supply the needed water, bed preparation is easier if at least some of the water comes from the sky.

Most experts who looked over the early week's rains said farm operations had been set back by at least a week but, as one farmer put it, "what a wonderful way to stop farm work."

Mary Toombs, Three Way, won first for individuals in beef cattle grading at the annual contests in Lubbock Saturday. A total of 331 teams composed of 1500 pupils, took part in the day-long event at Tech for agriculture students. Three Way's team also finished second in the same contest.

Mr. and Mrs. Sam Damron and Mr. and Mrs. Philip Johns attended the West Texas Pharmacists Convention in Lubbock Thursday through Sunday.

Pre-school day will be held at the Three Way Schools Tuesday, May 4. All children residing in the school district who are six years of age or will be six before Sept. 1 are invited to attend. It is recommended that the pre-school students ride the school buses to school rather than being accompanied by parents so that their visit will closely resemble an actual school day. Lunch will be served for 30 cents. Parents should pick up their children at 12:30. Pre-school students will be located in Room 1 near the south entrance to the main building.

Mr. and Mrs. Neal Dillman and children enjoyed the Easter holidays with a trip to Granite Shoals where they visited Mr. and Mrs. C. D. Garton and to Fredricksburg. A highlight was the several glimpses of President LBJ's assemblage in the area of his Johnson City ranch.

A Believe-It-Or-Not story truly happened early Saturday morning when Mrs. Benny Penna and daughters were preparing to leave for Lubbock Science Fair (with exhibits already locked in the car trunk). The car keys fell into the air conditioning unit tube pandemonium naturally prevailed until daughter Cathy brought out here Girl Scout "collection" of 100-plus keys and believe-it-or-not finally one of them fit the car and they were able to proceed on their trip!

Mr. and Mrs. Phil Johns and sons were Easter guests of their parents. Mr. and Mrs. Raymond Johns and Mr. and Mrs. Jack Chapman, in Odessa.

Mr. and Mrs. Guy Nickels, Mrs. Claude Riley and Mike, Nicky Nickels and Kerma Nickels were in Harlington for the Easter holidays.

Mr. and Mrs. Edward Ganton and daughters Donna and Susan and Joe Pat Riley spent the Easter holidays in Rockport deep sea fishing.

Mr. and Mrs. Kenneth Precure and family enjoyed deep sea fishing and a vacation at Rockport over the long Easter weekend.

City To Crack Down On Roaming Dogs; Stiff Penalties Imposed

Free-roaming dogs that have been roaming Muleshoe streets in packs, will find themselves in difficulties soon. The city council has passed an ordinance forbidding free-roaming pooches, and a fine of as much as \$2.00 can be levied against the owners of dogs who refuse to keep

them penned up. Specifically, the ordinance says, "the owner must keep his animal under restraint at all times and shall not permit such animal to be at large off the premises or property of the owner, unless under the control of a competent person."

The new law also requires that all dogs in the city limits be licensed by the city and be vaccinated against rabies. The city fee has been reduced to \$1 for all dogs six months or older, but before the license can be procured, the owner will have to show a receipt from a veterinarian showing the animal has had a rabies vaccination.

The new ordinance will go into effect the second week in May and immediately city officers will launch a campaign which should put free-roaming dogs out of commission.

City Manager Albert Field said the city probably will set up a "mass vaccination and license" day sometime in May

as in past years. License fees can be bought at that time, and a veterinarian will be on hand to vaccinate the pets. One year, more than 125 dogs were vaccinated in a single afternoon.

The new ordinance is not limited to dogs; cats too are included in its provisions, and owners of cats and dogs must be vaccinated.

Says the ordinance, "the owner shall provide each dog with a choke chain, collar or harness

which shall be worn by the dog at all times. Each owner shall keep the license tag and vaccination tag securely fastened to the dog's choke chain, collar or harness.

Meantime, the library's open house, sponsored by the Muleshoe Study Club, was highly successful. Scores dropped by the Library Tuesday to have coffee and cookies.

The library will continue to observe National Library week. See LIBRARY, Page Five

Teach Your Pupils To Think Not Memorize, Educator Urges

"The old memorizing system is obsolete — teach them to think instead."

This was the advice of Floyd D. Manry, superintendent of Plainview Schools, for members of the Muleshoe Unit of the Texas State Teachers Association at their annual banquet Monday night.

"Teaching," charged the Plainview educator, "has been in a rut. It followed this pat-

tern: The teacher memorized a lot of facts in college. Then he went into the classroom and gave those same facts to his pupils, who in turn memorized them and gave them back to the teacher. That was education."

"But this system is obsolete. Just memorizing a lot of facts is of no importance unless the pupil learns how to think at the same time. For example, teach-

ers have blue-penciled pupils' writing efforts to such an extent that the pupils' imaginations were killed. Forget some of the rules, and let their imaginations show through, let them do their own thinking."

The Plainview superintendent also charged that the parent-teacher relationship had not been good. "We need to get a better method of communication between the teacher and the parent so they can work hand-in-hand to teach Junior to think and to arrive at his own decisions."

Along with this "communication" between the teacher and the parent, Manry said, "we need to build a better public image for the teacher — in other words, the teacher needs to do a better public relations job. He is a part of the community, not an aloof being in an ivory tower."

He also charged that the teacher needs to be "warm and to teach his pupils the meaning of love," he charged. "In the world today there is too much hate. Love is forgotten. Let's teach our pupils to love their fellow man — not hate him. In fact, hate is at the bottom of all our troubles today, worldwide."

He said schools had made significant strides in mathematics, science, social studies and language, "but we still need to sub-

Band, Choir Seeking Honors At Tri-State

Muleshoe bands and choirs, totaling 112, their egg money tucked away in the directors' pockets' rolled out of Muleshoe at 8 o'clock Wednesday morning for Enid, Okla. to take part in the southwest's biggest musical contest, the Tri-State Band and Choir Festival.

It was egg money, figurative-

ly speaking, which will provide the food and lodging money for the young musicians who will foot and sing for three days in competition with the best of the west.

The bands got their money, some \$1800, from a number of projects which have been carried on all of the school year. Magazine sales last autumn provided a big chunk of the expense money.

Last week's annual choral concert by the choirs put \$300 into the choir's travel funds, and earlier The Music Man production had netted \$200. Then they sold raincoats and ran a car wash and did other odd jobs to gather their travel funds together. See BAND, Page Five

Today's Meditation

Onesimus was a runaway slave. Philemon could have turned him over to his master, but he chose to love him. Paul commended Onesimus to his master. Truly this was the heart and work of Paul among people. Philemon could have had Onesimus put to death for his runaway, but he had run away from his lawless master.

But Christ made and still makes the difference. Paul was a Christian. Philemon was a

Christian. Onesimus was a Christian. Their common faith, belief and love for the Savior changed the ugly situation of law and judgment into a situation of love and forgiveness, over and above the fact that Onesimus was the slave of Philemon rose the fact that both belonged to Christ.

Slavery was not abolished for long centuries after Paul wrote his letter to Philemon. Slavery, to be honest, has not yet been abolished, however it has lost some of its horror. It would be completely abolished if all men loved God and followed Jesus Christ. The knowledge, love and spirit of Christ makes the difference.

"No longer as a slave but more than a slave, as a beloved brother." Phil: 16

TAILWATER RETURNED

Water is money to the Farmer! It means increased production and increased profit! Gifford Hill-Western can design and install a Tailwater Return System that can make your water produce more profit from your farm. Check these advantages:

1. 20 to 25 percent increase in additional water for irrigation purposes.
2. Use of a large head of water to get water to end of rows quicker, providing more uniform moisture penetration.
3. Improved plant growth because of warmer water temperature. Cold ground water causes a temporary cooling of the soil and reduces rate of growth for a few days.
4. Prevents ponding at lower end of field which interferes with plant development.

If the tag is lost, a duplicate must be had at the city hall for cents.
A change of ownership also requires a transfer fee costing cents.
The new ordinance also provides for impounding unlicensed dogs. It states: "When animals are found running at large and their ownership is known to the Chief of Police or his representatives, such animals need not be impounded, but the Chief of Police, may, in his discretion, cite the owners of such animals to appear in court to answer charges of violation of this ordinance."

Unlicensed animals found running at large, says the ordinance, "shall be taken up by the chief of police... and impounded in a suitable animal shelter which shall be under the control of the chief of police. If the animal is unlicensed or unidentified, it shall be confined

for a period of three days and thereafter disposed of." The law also provides that owners of licensed animals will be confined "for a period of not less than three days and may thereafter be disposed of if not claimed by their owners."

Owners of impounded pets will be required to pay a \$3 fee, plus \$1 a day for each day the dog is kept before they can recover their dogs.

As to penalties, the ordinance states: "Any person who shall violate any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not to exceed \$200, and if such violation be continued, each day's violation shall constitute a separate offense."

(The complete ordinance appears in this issue of The Journal.)

Band directors who are making the trip are Bill Bradley and Bob Breckenridge.
The Muleshoe boys and girls will enter just about every contest they'll have on the Enid schedule - concert band, stage band, stage band, symphony. Then full chorus, ensembles, a madrigal group and solos. All instrumentalists also will compete in the solo parts.

Muleshoe also hopes to place several members on the "honor organizations." That's the best performers for choir and band who will make up the all-star bands and choirs, so to speak. Those groups will be picked at the Festival and then will be presented in super concerts late in the festival.

Zing into spring! Chevrolet Impala

Chevrolet Impala Super Sport Coupe—one of two bucket-seated beauties for '65.

People who buy other big expensive-looking cars get one thing you won't (big expensive-looking payments)

It looks like a big car. And is—by almost any standard you want to apply.
Width? Nobody builds a car as much as one inch wider. Length? It grew three inches this year. Roominess? Every closed model's got three inches more shoulder room, front and rear, and more leg and foot room up front too. Luxury? Nice little touches like the look of mellow walnut across the Impala's instrument panel. And big touches. Like the fineness of the same Body by Fisher workmanship that makes some of America's most expensive cars look so expensive. How about the ride? Chevrolet engineers took the Jet-smooth one and smoothed it out even more this year. Also made it more stable by widening the wheel stance. Price? That's where Chevrolets fall way short of the other big expensive-looking cars. But we wouldn't have it any other way. Would you?
One last question: How soon can you make a good spring buy on a Chevrolet? One last answer: Just as soon as you can get down to your Chevrolet dealer's.

Ministers Back Praise Schools, Textbook Group

Bailey County Ministerial Alliance Tuesday adopted a resolution praising local schools. "We appreciate the Christian atmosphere exhibited, and look to our public school teachers to give the students their very best sound, moral and ethical influence," the resolution read.

The ministers' resolution said, "we encourage the administration and the textbook committee in selecting textbooks that they give full emphasis to selecting those books that ex-

emplify the God-given way of life."

All eight members in attendance present signed the resolution. These included the Rev. Troy Walker, president, Rev. Ernest Bailey, the Rev. Charles Grow, the Rev. Father Clifton Corcoran, the Rev. Bill Felts, the Rev. Alvin Keswater, the Rev. Ira Waddell and the Rev. J. Frank Peery.

The ministers were invited to be guests of the Soil Conservation services at a breakfast May 17 in Paul's Restaurant and afterward go on a tour of Bailey county to inspect soil, water and farming practices sponsored by the Soil Conservation Service. The invitation was extended by Dale Fischgrabe, head of SCS here who told of Soil Conservation week May 23-30.

The organization also had as guests Steve Jones and Bob Park of the Tri-Co Bowling alley who presented a plan of recreation and fun designed to "reach all children, young people and family groups of this area."

Tuesday's meeting was held in the Chapel of The First Methodist Church.

Legislators Lock Horns Over Longer Terms, 8 Proposed New Districts

By Vern Sanford
Texas Press Association
AUSTIN — In the stormiest week of the 59th Legislature, House and Senate deadlocked over the entwined issues of longer terms of office and addition of eight more senatorial districts.

Whatever the outcome, many feared resulting hard feelings from the feud would so dent harmony that finishing up necessary business at hand without a special session would be difficult indeed.

Big problem began when some representatives, as the price of going along with a constitutional amendment to give statewide officials four-year terms, demanded the same consideration.

House tacked onto a Senate proposal to increase membership of the upper house from 31 to 39 (and increase senatorial terms to six years) a provision for four-year terms for representatives, too.

Senate had decided its proposed constitutional amendment to enlarge membership to 39 should be submitted to an election on August 7 without the controversial term attachment.

House stripped a Senate compromise calling for a November election on lengthened terms for both houses (as a separate proposal) of the six-year senatorial term provision.

Senate retaliated by threatening to block the House version of legislative redistricting and leave reapportionment up to federal courts.

Also caught in the backwash of the feud were such major legislative items as the state budget, congressional redistricting and teacher pay raises.

Both houses played a rough game of bluff, bluster and brinkmanship in efforts to break the logjam to their own advantage. Even the best solution appeared likely to leave some deep scars on the face of harmony.

FARM LAND TAX DEFERENTIAL — Resolution authorizing a constitutional amendment to give special tax consideration to farm land needs six more House votes for passage. Constitutional amendments require 100 votes for passage, but the resolution's sponsors, Rep. Bill Dugan of McKinney, Rep. Alonzo Jamison of Denton and Rep. Wayne Connally of Floresville, could muster only 96.

If passed by the Legislature and approved by voters, the

amendment would require tax assessor-collectors to put two values for agricultural land on tax rolls — the valuation based on income from agricultural purposes and the non-agricultural (or speculative) valuation.

Land owner would pay taxes based on the presumably lower agricultural valuation. However, if he sold the land, he'd have to pay the difference between the two values for the three previous years.

Valuation would affect all taxes — city, county, state and school district.

TAXES TALKED — Top-level lawmakers are speculating on possibility of a two-

Mel Evans Talks To Study Club

Muleshoe Study Club met in the home of Mrs. W. T. Andrews at 4:30 Thursday afternoon, with Mrs. John Farley directing the program. She read a scripture from Psalms 31:15.

Club collect was lead by Mrs. O. N. Jennings.

Mrs. Farley introduced the guest speaker, Mel Evans of the game refuge who spoke on recreational areas in Texas.

Business was conducted by Mrs. Rufus Gilbreath with the club voting to join or renew their membership to friends of the library 100 per cent.

Refreshments were served to Mrs. J. G. Arnn, Mrs. S. L. Benefield, Mrs. Les Bruns, Mrs. Cecil Cole, Mrs. W. H. Elrod, Mrs. John Farley, Mrs. Rufus Gilbreath, Mrs. R. O. Gregory, Mrs. O. N. Jennings, Mrs. Mervin Witterding, Mrs. W. T. Andrews, hostess, the co-hostess Mrs. Ray Martin, and two visitors, Mr. and Mrs. Mel Evans.

cents - a pack cigarette tax boost and extension of the two per cent sales tax levy to all alcoholic beverages (now exempt).

Increased spending — including teacher pay raises and medicare costs — may make as much as \$100,000,000 in new taxation necessary, some believe.

About \$50,000,000 could be raised from the cigarette tax boost and \$21,000,000 from placing the retail sales levy on liquor and beer, according to reliable estimates.

Another \$12,000,000 could be gained by extending the "temporarily" increased corporation franchise taxation level, observers noted.

A joint conference committee continues to wrestle with the general budget bill, which has been delayed nearly two weeks beyond the "deadline" previously set by House Speaker Ben Barnes.

APPOINTMENTS — Gov. John Connally named Mills Cox of Gay Hill in Washington County, Groner A. Pitts of Brownwood and Robert B. Gilmore of Dallas to Texas Water Development Board.

Cox, succeeding C. Y. Mills of Mission, was designated chairman.

SHORT SNORTS

Senate tentatively passed Texas "Little Hoover Commission" bill, sponsored by Sen. Bill Patman of Ganado and Rep. R. H. Cory of Victoria, to study state governmental economy, after 22-day delay.

Bill by Sen. Walter Richter of Gonzales raising the per diem of State Soil Conservation members from \$10 to \$20 a day is for the governor's signature.

House Speaker Ben Barnes of DeLeon (at 26, the youngest Speaker ever elected to the House since Reconstruction days) was feted during the biennial "Speaker's Day" on Tuesday (April 27).

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm probably is looking too far into the future this week, but you never know.

Dear editor:

I don't know how many cars there are right now in the United States, I may have read the figure in a newspaper somewhere and probably put it in my files for future use but it's too far down to get to, which may need explaining. I file newspapers by stacking them in a corner and if something I want is on top it's readily accessible but if it's a few feet down I hesitate to pull it out, I've got forethought, I don't want the whole stack toppling over on me. You run your business and I'll run mine.

At any rate, there must be at least 30 million automobiles in the U. S. right now, maybe a lot more, but 30 million is a good enough figure for my purposes.

What I'm getting at is that I read in a newspaper last night that the automobile industry expects to produce nine million cars this year. This is first-rate business news, but it has its drawbacks. I mean, we're producing cars a lot faster than we're getting rid of them. Makes no difference how hard and conscientiously people try, they can't get the wreck rate up to the production rate.

Therefore, say we're gain-

ing four or five million cars a year. In ten years, instead of having 30 million, we'll have 75 or 80 million. In twenty years, 125 million. In thirty years, 150 million.

Have you stopped to think that in a hundred years from now we'll have over 500,000,000 automobiles in the United States?

Do you realize that if they all started in one direction at the same time, those stacked up behind would never get there?

Is Congress working on legislation now to establish Driving Days, as it should be? What I mean is, with that many cars, driving will have to be prorated, with one group allowed out on Monday, one on Tuesday, etc. I can see some smart people right now buying seven cars so they can drive one every day in the week, but Congress will catch on and plug that loop hole before it spreads.

Then there'll be the problem of developing underground farming, as most of the land will be paved.

I tell you, there are vast problems coming up in the future that are going to take a lot of forethought.

Yours faithfully,
J. A.
