Coming Sunday . . .

What is the Permian Basin Graduate Center and what does it do?

An institution in transition, with plans afoot to move into a new facility, the PBGC under the direction of Patricia Beck of Midland serves a distinct purpose in this area. Staff writer Brooks Keller has taken an in-depth look at the PBGC. Look for his story in Sunday's edition of The Reporter-Telegram.

Rhodesia power transfer agreed

By LARRY HEINZERLING **Associated Press Writer**

SALISBURY, Rhodesia (AP) -Prime Minister Ian Smith and three black leaders signed an agreement today to pave the way for the transformation of white-ruled Rhodesia to black Zimbabwe by Dec. 31.

The agreement laying down the guidelines for the transition to black majority rule in the next 10 months was signed at the former British gov-

ernor's residence, now a government training center.

Bishop Abel Muzorewa, who claims the largest political following among the black leaders, wore a cloth cap and a flowing blue and white West African gown over his clerical attire. The other two, the Rev. Ndabaningi Sithole and Chief Jeremiah Chirau.

wore business suits, and so did Smith. After the signing, Smith beamed and shook hands with each of the black leaders. Backs were slapped,

and some of the black leaders' aides raised clenched fists in black power

Elsewhere, there was a general atmosphere of gloom in Salisbury. The agreement has been repudiated by Joshua Nkomo and Robert Mugabe. the leaders of the guerrillas fighting the white regime for the past 51/2 years, and they vow to keep up their war. There is also widespread belief that Britain, the legal colonial authority, and the United States will not

However, Muzorewa told a news conference the settlement would dissuade guerrillas from continuing the war. And Sithole, who founded one of the two guerrilla movements, said "the overwhelming majority" of the estimated 40,000 black fighters will back the agrreement.

Meanwhile. Nkomo flew from his headquarters in Lusaka, Zambia, to Maputo, Mozambique, to meet with Mugabe. Sources in Lusaka said they would plan their new strategy in response to the signing of the agree-

The signing capped three months of talks in which Smith and the three moderate black leaders agreed on constitutional safeguards for the 268, 000 whites in the future nation of 6.7 million blacks, the makeup of the future army, universal suffrage, the

that will write the new constitution and the principles to be incorporated into the constitution.

The last hurdle was overcome Thursday when the negotiators compromised on the composition of the transition cabinet.

Smith and the three black leaders will form an Executive Council immediately to take over the powers of the prime minister and plan Rhodesia's first election by universal suffrage. Chairmanship of the Council will rotate among Smith, Muzorewa, Sithole and Chirau. Beneath them will be a council of ministers or cabinet. The final compromise was that a black and a white will share each portfolio. The black leaders had been demanding that each of the four factions in the talks be represented equally in the interim government, meaning 25 percent white and 75 per-

Monimbo resists Somoza

By VICENTE MORALES

MONIMBO, Nicaragua (AP) - The people of dirt-poor Monimbo are becoming a national symbol of the fight against dictator Anastasio Somoza in which at least 45 persons have died and more than 100 have been injured in the past three weeks.

The Monimbons are descendants of Nahor Indians who emigrated from Mexico, and at least 21 have been killed battling Somoza's national guard with rocks, bottles, bullets and firebombs in their slum 21 miles

southeast of Managua. The soldiers patrol the dirt streets with jeeps and armored vehicles mounted with machine guns or swoop down with helicopters firing tear-gas rockets and bullets.

The Monimbo uprising began Feb. 10 when national guardsmen used tear gas to breakup a memorial mass for longtime Somoza foe Pedro Joaquin Chamorro, a newpaper publisher assassinated a month earlier in Man-

"The guard threw tear gas inside the church," Turi De Mejia, a Red Cross official, said. "It angered a lot of men and they began making and throwing firebombs at the soldiers."

That night, bands of armed townspeople took to the streets, firing shotguns and hunting rifles and lobbing rocks and firebombs at soldiers. The troops responded with machine-gun

Factory lunchroom in which 18 were wounded Thursday in shooting spree is visible through shattered plate glass window. (AP Laserphoto)

Police seek motive for lunchroom shooting spree

weeks of silence and brooding by a young factory laborer erupted in a barrage of shotgun blasts that wounded 18 co-workers, including his stepfather, as they scrambled for cover in a crowded lunchroom, police say.

Leslie Bernard Torrey, 21, was arrested Thursday in a parking lot outboots and a nylon windbreaker, the tall, slender Torrey-spoke only to his

ordered when she was surrounded by reporters in the tiny courtroom. Torrey refused advice from friends to hide his face from photographers.

"Don't say anything to them," he

'Why? I did it," he told them. The judge said bail was set relatively high "for the safety of the community" and because of threats

against Torrey's life. Police were puzzled by the attack. "We just haven't come up with a motive," said Detective Michael

Co-workers said Torrey had been unusually quiet for the past two weeks but had given no indication of what was bothering him. They said he left

He then turned his weapon on the workers, first firing through a plate glass window into the two-story buildA mass of cold Arctic air from Canada swooped into the Permian Basin late Thursday, signaling the return of winter with a seeming Temperatures on Thursday may

have warmer than usual, with a high of 72 degrees, but the expected high temperature for today, near 40

degrees, is cooler than the norm. And according to the National the Midland Weather Service at Regional Air Terminal, normalmeaning warmer-temperatures

won't return until Sunday.

Large snowflakes fell briefly shortly after 8 a.m. today, giving way to a steady flow of snow mixed with sleet that fell steadily much of the morning that built a visible accumulation of snow and ice on cars and roadways Department of Public Safety officials reported that driving conditions were hazardous this morning on Interstate highway 20 east of Big Spring.

The overnight low this morning of

28 degrees represented a drop of 44 degrees from the high Thursday.

"This is a very strong front. There's a lot of moisture behind it," a weather forecaster in Midland said this morning. The probability for continued

precipitation today was 40 percent.

The low tonight is predicted in the middle 20s and the high temperature Saturday in the mid-40s. There is a 20 percent chance of precipitation tonight and Saturday.

Snow mixed with sleet was reported in the early morning hours today in Big Lake, Stanton, Lamesa, Andrews, Odessa and Rankin. Unofficial low temperatures of 25 degrees were reported in Andrews and Lamesa.

Freezing rain and drizzle was reported as far south as Abilene early today and some sleet and snow fell during the pre-dawn hours as far east as the Dallas-Fort Worth metroplex.

Dense fog reduced visibilities to near zero over much of the Texas Gulf Coast, making driving, flying and almost any form of transportation haz-

Early today, a cold front was mov-

ing southward along a line from near Guadalupe Pass in West Texas to Laredo to near Corpus Christi. Behind the front, wind gusts of near 35 m.p.h. were common.

Early morning temperature readings ranged from the middle teens in the Panhandle to the upper 60s along the gulf coast. Extremes ranged from 15 at Dalhart in the Panhandle to 68 at Brownsville in the Lower Rio Grande

Winter unusually

KANSAS CITY, Mo. (AP) - The National Weather Service has a few words for many who steadfastly claim they can't remember a colder winter - you may be right.

The winter of 1977-78 is the coldest in recorded history in many areas of the United States, the weather service's National Severe Storms Forecast Center reported Thursday.

The Rocky Mountains were the dividing line between regions ex-periencing extremely cold or generally mild weather, the center reported.

The December-through-February period was the coldest since weatherkeeping records were started in such far-flung locations as Birmingham, Ala.; Key West, Fla.; Kansas City and St. Louis, Mo.; Nashville, Tenn.; Lubbock, Texas; Roanoke, Va., and North Platte, Neb. Weather records have been kept in all areas since at least the turn of the century, the

weather service said. Temperatures this winter have averaged 13 degrees-or 11 degrees below normal-at Great Falls, Mont., and 24 degrees—or 10 degrees below

(Continued on Page 2A)

Natural gas pricing stalemate may end

WASHINGTON (AP) - Key Senate energy negotiators say they are close to breaking a three-month deadlock on the natural gas pricing part of President Carter's energy plan, but that some obstacles remain.

The negotiators were to resume their deliberations today after failing on Thursday to produce the overall agreement that might put Carter's plan back on course.

"I think we're close to it, but we're not there yet," reported Sen. Henry M. Jackson, DWash., leader of the Senate bargaining team.

Energy Secretary James R. Schlesinger has been meeting with the group to lend administration support to the effort to break the

Senate conferees must settle their own differences before formal bargaining sessions with the House on a compromise energy bill can proceed.

However, broad outlines of a proposed compromise are taking shape, with Senate negotiators

reporting informal agreements that

-Lift price controls from newly discovered natural gas after 1984 but give the president and Congress the power to reimpose them if prices to consumers skyrocket. -Immediately raise the price

ceiling on natural gas from the present \$1.47 per 1,000 cubic feet to somewhere between \$1.84 and \$1.88 and then allow it to rise gradually until the price lids came off.

-Give the prsident emergency power to order natural gas planned for industrial use in producing states moved to cold-weather states if necessary to heat homes, schools and Such a compromise would be more

costly to consumers than the Carter administration plan for continued price controls, passed by the House, but less expensive than the original Senate-passed bill for deregulation after two years. Conferees said a major unresolved

issue entails coming up with a com-promise definition that would determine how much natural gas would be considered newly discovered and thus qualify for the higher prices and deregulation in

Jackson and other adminstration allies on the Senate bargaining team want to keep this definition as tightly drawn as possible so only new discoveries of gas can get the

premium prices. But senators representing the in-dustry view are holding out for a broader definition that would not only include newly discovered gas but

side the factory after he walked up to police and said, "I'm the man you want," according to Jackson Police Capt. Calvin Watson. Moments before, a man carrying a

shotgun had walked into the lunchroom at the Pittsburgh Forgings Co., which manufactures forgings for auto and related industries, and fired a volley of shots.

Two of the victims - Jerry Pelham, 47, of Cement City and Oliver Strine, 59. of Jackson - were in serious condition at Jackson Foote Hospital.

Sixteen others, including Torrey's 52-year-old stepfather, Ernest Baynes, were treated for minor wounds and released.

Torrey, who had worked at the plant for almost a year, stood motionless Thursday afternoon as 13th District Court Judge Robert Crary set bond at \$35,000 on a single charge of assault with intent to commit murder. Torrey was held at Jackson County Jail and ordered to appear for a preliminary hearing March 13.

Wearing gray pants, heavy work

at lunchtime, returned shortly before the break was to end and began firing at cars in the parking lot.

Jailed farmers still won't pay bond

EDINBURG Texas (AP) - Defiant striking farmers, sticking to their demands that charges against them be dropped, completed their second night in jail here today.

About 200 American Agriculture supporters from several states were arrested Wednesday during a violent skirmish at an international bridge at

. The jailed farmers unanimously voted to stay locked up after a twohour session with Attorney General John Hill and local officials.

The protesters have refused to pay

the \$18.75 that would free them. "They decided they'd spend the night and talk things over among themselves," spokesman Gerald McCathern of Hereford said upon emerging from the negotiating ses-

sion in the county jail. Hill, a gubernatorial candidate, said the discussions were "positive." But he told one farmer that the chances for dismissal of all the charges did not seem good.

obstruction of a passageway after they blockaded the international

'I proposed the use of personal

recognizance bonds be considered," Hill said after a courthouse meeting with local district attorney Oscar McInnis and other officials. Hill also said there is a possibility

of reducing the charge to a class C misdemeanor. The attorney general was cheered

when he arrived but booed when he made his statement. Hill said his office will "definitely"

investigate) the bridge incident. The farmers had been corraled into a fenced area by nightstick wielding police who had tossed tear gas canisters into the crowd.

Several farmers suffered cuts and brusies and one woman was taken to a local doctor several hours after the

The strikers are protesting the import of Mexican beef and produce. The scuffles came after they had blockaded a produce truck. Officials said force was used be-

cause the farmers did not keep their word to disperse peacefully at the bridge. The American Agriculture supporters said no such agreement had been made.

molejo, who had ordered the bridge

cleared Wednesday, said the crowd that gathered outside the jail Thursday could stay as long as they were not blocking traffic.

After a line of about 75 tractors and trucks rolled onto the scene, two deputies headed out to direct traffic. The sheriff called them back and, looking at the billy clubs, said, "put those damn sticks away."

The gathering in the parking lot broke up at sundown after the prisoners' decision was announced. Mccathern said the sheriff had suggested it would be better not to spend the night outside the jail.

He said it could be a problem. We could get hard to get along with. Maybe one or two fellows get to drinking and the crowd can get rowdy." McCathern said, adding he agreed that a night's rest after the day in the hot South Texas sun was a

. Helmeted riot squads stood by most of the day as the crowd swelled to about 300. Tow trucks were also

Throughout the day, as it became apparent the prisoners were prepared to hold to their demands, requests went out for provisions. Farmers outside the walls quickly returned with sacks of cigarettes, soft drinks and

Mccathern said the farmers decided to spend the night in a grassy jail yard. He said the prisoners were being treated well and that officials were seeking cots for them to sleep

The jailed strikers had spent the first night on the damp grass.

Many of the demonstrators who collected here were Rio Grande Valley farmers. The local group had not been vociferous in its support before

"It's good to see these local boys get off their duffers," one out-of-town

Arnold Paulson, a spokesman from the National Organization of Raw Materials in Minnesota, called the pris-oners "heroes" of the movement and urged demonstrators to rally behind

"This demonstration here has done more to unite the American Agriculture movement than anything they've done until now. I think McAllen has done American Agriculture one hell of a favor by doing exactly what this city has done," he said.

Mondale says tactics 'undermine' treaties

By RICHARD PYLE

WASHINGTON (AP) - Vice President Walter F. Mondale accused opponents of the Panama Canal treaties Thursday of delaying the Senate debate and said the tactic would undermine their cause.

But he stopped short of calling it a "filibuster," and said any move to cut off the debate at this time would be "a harsh remedy" and "premature."

Mondale voiced his opinion as the Senate turned down another move by freaty foes aimed at keeping U.S. military forces in Panama after the year 2000. The Senate later rejected two other opposition-backed amend-

Emerging from a meeting with Majority Leader Robert C. Byrd, D-W.Va., Mondale said it was time to

Savings branch sets opening

The new branch office of First Savings and Loan Association of Midland has opened in San Miguel Square, and the grand opening of the new facility is scheduled for Saturday.

Beginning at 9 a.m. Saturday, visitors to the branch office will have the opportunity to receive a house plant and to register for \$2,000 in cash prizes to be given away by drawing. The drawing is scheduled for 2:30

The branch is located at Wadley Avenue and Midkiff Road and will offer all savings and loan services. Branch manager is Carol Whitsitt.

"We are pleased to make this expansion because it will enable first Savings to provide more and convenient services to all customers," President T. L. Cauthen said. "We are very proud of our location, our facilities and our staff." off dead center.

Byrd has made evident in recent days his impatience with the treats foes who are arguing relentlessly about canal security issues.

Thursday's first-proposed amend ment, defeated 59-36, would have ena bled the president to retain forces ir Panama if he decided it was controlled by a foreign power or a Com munist regime when the canal was turned over in the year 2000.

That proposal, like others offered in previous days, was termed "frivo lous" by Sen. Frank Church, D-Idaho floor leader for the treaties.

Later the Senate dealt its sharpes defeat yet on any treaty issue, rejecting 67-22 a proposal by Sen. Orrir Hatch, R-Utah, requiring Panama to endorse the Monroe Doctrine by declaring it would resist expansion of influence in the Western Hemisphere

by any European nation. Then it defeated 63-15 a proposal by. Sen. James Allen, D-Ala., to guarantee the permanent neutrality of any new canal built in Panama.

Allen, widely regarded as the Senate's most skilled user of parliamentary rules, has occupied the floor much of the time, arguing on behalf of

his amendments. The treaties call for transfer of the waterway to Panamanian control by the year 2000, and Allen contends they fail to provide adequate guarantees that the canal would be kept open and

available to U.S. ships after that date Every amendment offered to strengthen these provisions has been voted down by a wide margin. But with treaty critics stillintroducing changes, Senate leaders suspect they are now simply trying to tie up the de-

Senate leaders fear that any amendments - other than two clarifying changes they intend to introduce - would scuttle the treaties by forcing them to be renegotiated or submitted to a second plebiscite in

New retirement guidelines likely

By JANET STAIHAR

* WASHINGTON (AP) - Most American workers could stay on the Job until age 70 under a bill expected to whisk through Congress soon, while federal employees could stay on the payroll indefinitely.

A House-Senate conference committee ironed out final details Thursday of legislation that abolishes most

requirements in private business that workers retire at age 65. It also does away with the federal government's age-70 limit.

But executives "in a high policymaking capacity" who would have retirement incomes of \$27,000, minus Social Security, would be exempt from the legislation. Businesses could still retire them at 65. Senate and House conferees pre-

dicted the bill will whisk through Con-

Public's 'low opinion' 'disappoints' Carter

Carter says he is disappointed at the low ratings he is receiving in opinion polls, but attributes the showing to a willingness to take on controversial

The president touched on the subject Thursday at an appearance before the National Press Club during which he also discussed the decline of the dollar abroad, his intervention in the coal strike, and Soviet activities in

The most recent Associate Press-NBC poll in late February, showed that only 34 percent of the persons asked thought Carter was doing a good or excellent job. It was the lowest rating he has received.

"We have had to deal with, and have decided to deal with, some longstanding, very difficult controversial issues that in some instances had not been adequately addressed by my predecessors, Carter said.

Among the issues he listed were the need for an energy policy, holding down inflation, reducing unemployment and addressing questions in the Middle East "that have been long ignored."

During a question and answer period, Carter predicted the dollar would stabelize on foreign money markets, but said he would take direct action to support the dollar if necessary. He said he thought the dollar would "remain in good shape" without help once Europeans realize the dollar's true worth.

On other subjects, the president: -Refuted suggestions that he might have waited too long before intervening in the national coal strike. He said he wanted collective bargaining to work and that he had to make "a carfully balanced judgment about what we ought to do...

-Said the Soviet Union's shipment of arms to Ethiopia could affect the Strategic Arms Limitation Treaty being negotiated between the United States and Russia. Carter said continued Soviet "violations" of the principals of neutrality in the war between Ethiopia and Somalia could lessen the liklihood of a treaty being ratified by the U.S. Senate.

-Said he probably would go along with a recommendation to retaliate if it is shown that Britain specifically violated an Anglo-American treaty on air fares. However, Carter said he does not believe Britain violated the treaty by blocking Braniff Airways' low-fare flights between London and Dallas-Forth Worth.

-Expressed hope that Israel and Egypt will resume direct negotiations on a Middle East settlement. The president said he would encourge a resumption of such talks during his upcoming meeting with Israeli Prime Minister Menachem Begin.

During his speech to the press club, Carter outlined a package of proposals which he said were aimed at reforming the civil service system.

Highlighes of the proposals include provisions that would make it easier to fire consistently mediocre employees, end automatic pay raises for managers earning \$26,000 or more, end preferences toward hiring veterans, protect employees who expose gross mismanagement, and restructure the Civil Service Com-

Park reveals 'seamy' details to committee

WASHINGTON (AP) - Tongsun Park is reportedly giving the House ethics committee what two members call seamy, odious and ugly details on using commissions from U.S. rice deals in an alleged attempt to buy congressional influence for South

covered the most odious episode in the story today," Rep. Bruce Caputo, R-N.Y., said after Thursday's closeddoor questioning of

"It was a conspiracy of American businessmen, congressmen and Koreans to make blatantly improper payments over a sustained period of time with U.S. taxpayers' money,' Caputo said.

'he details are revolting," he

Rep. Millicent Fenwick, RN.J., "the whole thing is ugly." Reps. Fenwick and Caputo refused under committee secrecy rules to reveal any of Park's testimony but said he gave new details on payments that already have been disclosed.

Witnesses at the committee's public hearings in October said Park got more than \$9 million in rice commissions as South Korea's only U.S. rice buyer and used some of that money to try to buy influence in

Park denies the influencebuying charge and says he contributed to more than two dozen congressmen because they were his friends and because he hoped to further his rice

Country has bitter winter

(Continued from Page 1A)

normal-at St. Louis. Winter readings have been nine degrees below normal at Evansville, Ind., and Peoria, Ill.; eight degrees below normal at Springfield, Mo., and Wichita, Kan., and seven degrees below normal at Indianapolis, Dubuque, Iowa, Oklahoma City and Dallas.

On the other side of the Rockies, temperatures were generally a little above average. Salt Lake Citywhere the temperature averaged 38 degrees-recorded its warmest winter ever. Temperatures there have been about eight degrees above nor-

Fred Otsby, deputy director of the storm forecast center, said the big difference between this winter and the winter of 1976-77 was temperatures during February. Last year, he said, temperatures moderated in February after record low readings in January

This year, he said, the cold continued through February, and even intensified in some areas. Such widely scattered areas as Shreveport, La., Muskegon, Mich., Jacksonville, Fla., and Louisville, Ky., reported the coldest February on record.

Acres de la constante de la co

Former Rep. Richard P. Hanna, D-Calif., goes on trial next month on charges of helping convince the South Korean government to make Park his rice dealer and of conspiring with Park to try to buy influence in

Former Director Kim Hyung Wook of the South Korean Central Intelligence Agency has testified he helped make Park Seoul's rice dealer after Hanna promised some of the commission money would be spread among other congressmen "to help Korea's cause."

Much of the U.S. rice on which Park earned his \$9 million commission was bought for South Korea through the U.S. Food for Peace program.

Meanwhile, special counsel Leon Jaworski said Thursday he had met with Secretary of State Cyrus Vance on the ethics committee's efforts to have former South Korean officials testify. But he said "no agreement's been reached.

Vance has publicly supported South Korea's position that diplomatic immunity prohibits its turning the officials over to the committee for questioning.

Jaworski had said earlier that the committee needs the testimony of Park and several former South Korean officials including former Ambassador Kim Dong Jo to determine whether there was any misconduct by congressmen:

Deadlock may end (Continued from Page 1A)

some gas from existing fields.

Other remaining disputes are over deciding how fast prices should escalate between now and the deregulation date and over the wording of a proposal that would require industries to initially absorb the brunt of the more expensive deregulated gas.

There is no guarantee that House conferees will go along with the Senate-produced compromise, if one is ever achieved. But key House conferees have indicated great flexibility on the matter, saying they want to get the energy bill off dead-

peanut eater

WESTFIELD, Mass. (AP) Westfield city councilors can't decide if eating peanuts in session is proper, so they've referred the question to

At Thursday night's meeting City Council President Edwin Morawiec became annoyed by colleague Charles Medeiros, who sat shelling and eating peanuts.

Morawiec asked other councilors to support his complaint against Medeiros. gress in a few weeks. No opposition is expected from President Carter.

'It's of monumental significance to the nation's workforce," said the 77year-old chairman of the House Aging Committee, Rep. Claude Pepper, D-

The age-70 ceiling for private business would go into effect Jan. 1, 1979. The ban on forced retirement for federal workers would take effect this

The bill applies to workers whose employer has 20 or more persons on the payroll - about 70 percent of the labor force. It also allows two years for age-65 retirement clauses to be phased out of existing labor union contracts.

Almost all the nation's three million federal workers are subject to the current age 70 forced retirement reg-

Pepper said he was confident even the age-70 retirement cap for private business will be eliminated one day.

"We are establishing the federal government as a model employer which will use competence, not age, to determine whether a person should retain a job. This experiment will demonstrate the desirability of a complete ban on mandatory retirement in the private sector," he said.

The exemption for top executives was added after employers argued it would permit women, minorities and younger persons to fill the executive spots vacated. Employers also say they would have been hurt financially by having to keep highly paid employees, who otherwise could be replaced by lower-salaried younger people. Under an amendment sought by

forced retirement age to 70 for professors doesn't go into effect until July 1, 1982. This would give college administrators time to adjust hiring and tenure policies.

The wording of that amendment was a compromise. Some senators contended that colleges need bright young persons as educators but are closed out by tenured faculty members. Pepper, along with other House members, argued that older people

make fine teachers too. The bill orders the labor secretary to study the feasibility of a total abolition on mandatory retirement.

It law does not change 65 as the age at which most retirees can start collecting their maximum Social Securi-

Hill to speak at LULAC meet

SAN ANGELO — Attorney General John Hill will be the keynote speaker at the quarterly state executive board meeting held by the League of United Latin American Citizens at the Holiday Inn here Saturday.

The speech will highlight a two-day LULAC executive council conference focusing upon the areas of reform of the administration of the justice system in Texas and upon minority business opportunity and develop-

LULAC State Director Ruben Bonilla was to hold a press conference at the Holiday Inn at 2 p.m. today.

Suits on energy issue pledged by candidate

By LINDA HILL

Pledging to file a variety of suits seeking a national energy policy favorable to Texas, Mark White brought his campaign for the job of state attorney general to Midland Thursday.

White, who resigned as secretary of state to campaign for attorney general, was in Midland to visit with potential voters and to raise money for his campaign. He is facing former Speaker of the Texas House Price Daniel Jr. in the Democratic primary.

Speaking at a press conference, White said he also has a Republican opponent,"but I don't remember his name." (Jim Baker, who was former President Gerald Ford's 1976 campaign manager, is the Republican

White said energy legislation pro posed in Congress threatens to "make

Texas an economic wasteland.' He predicted regulation of intrastate gas will be included in the final national energy package, and said he would file suit, if elected, to block such regulation, which he believes is unconstitutional.

The candidate also predicted the next step would be allocation of intrastate energy resources, which he also pledged to fight in the courts. "The reason we've got it (oil and gas resources) down here is because we've paid for it.

The "biggest inequity I know of" in the energy field, White said, is the fact that interstate natural gas is regulated in price, but coal is not. With electric companies changing over from gas to coal generation, that will cause problems for Texas, he

Further, he said, Wyoming and Montana add a 30 percent tax to coal leaving those states. White promised to file suit "right after the first of January" to stop that tax as a

'burden to interstate commerce." He also said he would file suit to end regulation of prices on oil and gas from state lands. That would fall under the category of "taking without just compensation," he said, although he also indicated he would seek other forms of relief, too.

The former secretary of state said he would take the same "innovative approach" with the office of attorney general that he did in his previous job. As secretary of state, White said, he

improved services to the people of

Texas at the same time he returned \$4

million of the \$20 million appropriated for his office over a five-year period. White said he favors local government taking care of local problems, such as the investigation of the deaths of prisoners in the custody of law

enforcement officers. "If they can't or won't do it" at the local level, then the state or federal gowernment can intervene, he said.

Grand jury probe set

BIG SPRING - A tentative date had been set for a Howard County grand jury's investigation into the death of Juan Galaviz, who was killed by a policeman's bullet Dec. 8, 1977. According to District Attorney Rick

last two weeks of March. Hamby Thursday in Big Spring declined to give a more specific date. "I don't want this to be held under any kind of pressure. I want the grand jury to be free of any distraction,"

Hamby, the date will be during the

Hamby said. Galaviz was shot following the alleged assault of a Midland woman in front of the Howard College gymnasium following a basketball game. His death is one of several which was protested recently in Brown Beret demonstrations in Odessa and Big

MC has varied offering of non-credit courses

Advanced, non-credit courses in subjects ranging from microwave cooking to batik are among the continuing education classes scheduled to begin next week at Midland College.

A one-day class in microwave cooking, taught by Linda Cranfill, is being offered from 6 to 9 p.m. Tuesday in the Texas Electric Service Co. Reddy Room. Three full meals and party snacks will be prepared during class. The fee is \$5.

Intermediate classes in batik, the art of hand-printing textiles, will be held from 7 to 10 p.m. Wednesdays in room 100 of the occupational-technical building. The six-week course, taught by Edie Luce, is limited to 12 students. Students will design and complete individual

projects. The cost is \$19. Persons will learn the ancient art of knot tying in a beginning class in macrame, taught by Judy Osborn. Detailed instruction will be given on how to make plant hangers purses, belts, jewelry and wall hangings. The six-week course is scheduled from 7 to 9 p.m. Thursdays in room 104 of the 0-T building. A list of supplies, required for the course, may be obtained by calling the college. The class, limited

to 20 persons, costs \$12.

Jody Hawkins will teach an advanced course in cake decorating for those who have completed the first course. The class will cover methods of making different kinds of flowers and setting up wedding cakes. Class will meet from 7 to 9 p.m. Thursdays for six weeks in room 100 of the O-T building. The course, restricted to 25 students, costs \$12.

More detailed use of color, furniture and accessories will be included in the Interior Decorating II class, taught by Rusty Freeman. Class will be held from 7 to 9 p.m. Thursdays for six weeks in room 106 of the 0-T building. The fee is \$12. This course is restricted to 25 students.

Pre-registration for these courses now is in progress from 8 a.m. to 5 p.m. in room 140 of the 0-T building on the south side of the campus. For more information, persons may call

DEATHS

T. McWhorter

HOUSTON - Thomas O. Mc-Whorter, 57, a former Midland resident, died Wednesday in a Houston hospital following a long

Funeral arrangements are pending. McWhorter, who lived in Midland from 1959 to 1965, was a partner in the Midland law firm of Perkins, Bezoni, Kirwan, McWhorter and Hamilton. He was a member of First Presbyterian Church of Midland and was organizer and past president of the Midland chapter, Sons of the American Revolution. He was a graduate of the U.S. Naval Academy at Annapolis, Md., and of the School of Law of the University of Texas.

Survivors include his wife, Ina; a daughter, Ann McWhorter of San Marcos, and a son, Tom McWhorter

J. C. Henderson

ELECTRA - Services for John Cecil Henderson, 79, father of Helen Kimbro of Midland, were held here

Burial was in Electra Memorial Park.

Henderson, a retired gauger for the Texas Pipe Line Co., died Sunday at his Electra home following a brief illness. He had lived in Electra since

He had served 40 years as a member of the Electra Volunteer Fire Department. He was a Methodist. Other survivors include his wife, a

daughter, a son, a brother, six grandchildren and two greatgrandchildren.

Annie Long

Mrs. M. D. (Annie) Long, 89, died early Thursday in a Midland hospital. She resided at 2901 W. Ohio Ave.

Services will be in at 2 p.m. Saturday in the Newnie W. Ellis Funeral Home, with Dr. Daniel Vestal, pastor of First Baptist Church of Midland, officiating. He will be assisted by Rev. Ted Brian.

Burial will be in Big Valley. Mrs. Long was born May 4, 1888, in Big Valley. She married Dan Long in 1904 in Big Valley. They moved to

Raymond Bishop

Raymond C. Bishop, 50, died Wednesday at his residence at 3511 W. Ohio Ave., following a sudden illness.

Services will be at 2 p.m. Monday in Newnie W. Ellis Funeral Home with the Rev. Tommy Nelson, pastor of St. Paul United Church, officiating. Burial will be in Schenevus, N. Y.,

Bishop, born Jan. 28, 1928 at Gilbertsville, N. Y., grew up there and later lived in Oneonta, N. Y., following service with the U. S. Air Force in Europe and the Pacific during World War II. He moved to Bremerton, Wash., in 1959 and then to Miles City, Mont., where he worked as an air traffic controller for the FAA for 16 years. He moved to Midland last August and established Evergreen Exterior Decorators.

Bishop was a member of the Fraternal Order of Eagles and the United Methodist Church.

Surviving are his wife, Agnes; a son, Raymond D. Bishop of Midland; three daughters, Mrs. Kathy Webber of Sacramento, Calif., Mrs. Jani Lynam of Midland and Cindy Bishop of Miles City, Mont.; his mother, Mrs. Grace Bishop of Schenevus, N. Y., two sisters and three grandchildren.

John Dane Agee

NOCONA - Services for John Dane Agee, 77, a retired Montague County rancher and father of Willie Lemon of Midland, were held Wednesday in the Daugherty-McGaughy Funeral Home chapel. Burial was in the Nocona Cemetery.

Agee died Monday in a Nocona Other survivors include his wife, two sons, a daughter, two sisters, a brother, nine grandchildren and four great-grandchildren.

Walter Hord

BROWNFIELD - Services for Walter Hord, 78, of Brownfield, father of Tommy Hord of Hobbs, N.M., were to be at 10 a.m. today in the Presbyterian Church here. Burial was to be in Terry County Memorial Cemetery directed by Brownfield Funeral Home.

Hord died Wednesday in a Brownfield hospital after a long illness.

Lounge Chair Special

Born in Valley Mills, Hord grew up in Slaton where he was graduated from Slaton High School. He married Colleen Varden April 16, 1933, in Clovis, N.M. Hord was a car salesman. He came to Brownfield in 1941. He was a member of the Presbyterian

Other survivors include his wife.

G. Billingsley named to post

Striking Georgia farmers vote to send miners farm goods

UNADILLA, Ga. (AP) - Striking Georgia farmers, angered by the arrest of their friends at a Texas border town, met Thursday night to hear from a farmer who was there and to discuss how they could help

strikers in the nation's coal mines. "If there is any group of people in this world that deserves a fair living, it's miners," Terrell Hudson of Hawkinsville told about 300 farmers attending the meeting in a Unadilla auditorium.

"Even more so than farmers," Hudson said. "I don't risk getting killed when I go out to work."

The farmers voted to begin gathering farm produce including hogs, cattle and other goods today and to send the farm goods by truck to striking miners in the eastern and midwestern states.

But most of the meeting was devoted to reports of treatment received by leaders of the American Agriculture movement, which called the strike last December to protest low farm prices, during a melee Wednesday in Texas at which more than 200 farmers were arrested.

victims of police brutality in the clash

Georgia farmer Jack Brannen, who returned from Texas Thursday, told

of seeing a farmer "about 70 years old caught in the middle of the scuffle.

"He got caught by that gas, and they hit him while he was down," Brannen said.

Local schools make plans for Public School Week

During Public School Week, Monday through March 10, Midland public schools have planned receptions and other special programs to encourage residents to visit them.

Schools Superintendent Dr. James Mailey said Public School Week is a time "to emphasize the importance of public schools in the community." He urged residents to attend classes, look over school facilities and familiarize themselves with activities and programs during this week.

"I think it is an excellent opportunity to have people attend schools, to come and have lunch with their children and get better acquainted with us," he said. Public School Week was born 28 years ago out of the efforts of a group of Texans who thought citizens didn't care enough about their schools.

Civic groups and other organizations are invited to call any public school here and arrange for their group to have lunch with students in a school cafeteria.

Speakers from the new Public School Speakers' Bureau and a slide presentation, featuring Midland school programs, are available to clubs during the week and at any

Prisoner dead from stabbing

TEXARKANA, Texas (AP) - A prisoner at the Federal Correction Institution here was found stabbed to death in his cell this morning, according to Ray Farrow, executive assistant to the warden.

Farrow identified the victim as Barry Lynn Beaupre, 21.

Farrow said that no one shared the cell with

The FBI has joined the investigation. Beaupre, whose last known address was Austin, Texas, was serving five years for violation of the Motor Vehicle Act. He was sentenced March 7, 1977 from the Eastern District of Louisiana.

Farrow said the time of death had not been

dramatic decline

The best news to come out of the annual meeting of the American Association for the Advancement of Science in Washington recently was that of a dramatic decline in birthrates around the world.

Especially among poorer nations, there has been a worldwide decline in the rate of population growth. The rate appears to have peaked about 1970, scientists now say. But the decline went unnoticed until recently.

No one can say with certainty why there has been a reversal of the trend which has been upward for many years as life expectancy has increased and infant death rates have decreased due to improved public health services and better medical care.

Birth control programs may have been an important factor in many countries but scientists are by no means agreed that such programs by themselves can defuse the population bomb.

In fact, it appears that improving economic conditions,

Oklahoma City claims the

An editorial appearing recently

CHARLEY REESE:

Columnist will not watch Academy Awards Show

By CHARLEY REESE Sun Belt Syndicate

ORLANDO, Fla. - I am not going to watch the Academy Awards show this year. They've nominated Jane Fonda for an Oscar.

It is an understatement to say that I do not like Jane Fonda. I wouldn't throw a bucket of dirty water on her if she was on fire.

It's not that she was opposed to the Vietnam War. A lot of good people were opposed to the war. In the latter stages, when it became evident that our politicians were not going to permit the American military to win it. I also opposed it. No, Fonda didn't oppose the war.

She supported the war - on the Communist side. When she went to Hanoi, she berated and insulted American prisoners of war, called them criminals, told them they were right where they deserved to be.

In saner times, she would have been ostracized when she returned to the U.S. Instead, she has become a heroine. She supported the side in that war that as a matter of policy indulged in wholesale butchery, the side that executed 300 children outside an orphanage in Danang.

Appropriately, she has been nominated for best actress for the movie, "Judith," which is based on the life of Lillian Hellman, another leftist who has been elevated to heroine status in these schizophrenic

"Let me put it this way," explained

Godfather."

than anti-Israeli.

dried milk."

Footnote: We were unable to reach

Hellman was the great defender of Joseph Stalin, one of the world's all time champion butchers, so there is no surprise that Jane Fonda, the great defender of Hanoi, would participate in the current orgy of rewriting history.

The surprise is that the American people tolerate it.

It has nothing to do with being left or right really. It is a matter of humanity and morality. I do not hate Communists for ideological reasons. I hate them for what they have done to human beings in every place on the globe where they have come to power. I hate them for their murders, their tortures, their stifling of the human

My feelings about the Vietnam War are also non-ideological. I think it was mistake to commit American ground troops to a war that had to be won by the South Vietnamese or not at all. I think it was nutty to fight communism there while simultaneously trading with it in Eastern Europe and protecting it in

But, once our fellow Americans are committed to combat, I feel it's elementary that we do nothing that will get more of them killed and maimed and do everything to support

Fonda engaged in active support and propaganda in behalf of the red dictatorship which was at that time torturing American prisoners and killing other Americans on the battlefield

She is not stupid. She knew what she was doing. She made a choice. She could not be charged with treason because there was no declaration of war and therefore no official and legal enemy, but she certainly aided and gave comfort to the people who were our enemies in a real sense if not in a legal sense.

Those people she helped killed 56,962 American boys and another 153,329 are living with scars, without eyes, without legs. They didn't start the war. They simply obeyed, as they swore an oath to do, their civilian commander-in-chief whom you and I elected.

It seems to me elementary justice that no American should approve, support or condone any person who actively aided the Hanoi government.

All anti-war protestors inadvertently helped Hanoi but the great majority had no intention of doing so and did not support the Hanoi regime. A few, and Fonda is one of them, did it consciously, deliberately, and with malice for America

That she prospers is a disgrace.

Mark Russell says

There was a super-secret meeting in the Senate on alleged Panamanian drug trafficking by General Torrijos' family. You might call it a joint

Whether any exhibits were at the meeting is unknown. No senators were about to comment. Some weren't able to function.

This gives the Panama story a new twist - at each end of the cigarette.

Treaty supporter John Wayne said that although he didn't know about the drug matter, "It sure beats the hell out of Datril."

THE BIBLE CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER

1. What a great television personality Solomon would have made with all his glamour in the time of Israel's greatest splendor (1000 B.C.). He organized an elaborate government, erected the Temple at Jerusalem and fostered a thriving sea trade. With his extravagance he almost bankrupted the nation. What was his real downfall? 3 Kings 11 (Douay), 1 Kings 11 (King James)

2. What did Peter's strange vision teach him? Acts 10 3. Name the strong judge of Israel.

Judges 15 4. What commandment did Jesus

contribute to the Decalogue? Matthew 22:37-39 5. Why are many hospitals named "Bethesda?" John 5:2-4

Four correct . . excellent. Three correct . . . good.

BIBLE VERSE

But as for me, I will walk in mine integrity: redeem me, and be merciful unto me. - Psalm 26:11.

by Brickman

DOES THAT MEAN HE'S SELF-EMPLOYED?

WASHINGTON MERRY-GO-ROUND

Mob strong-arming health units

By JACK ANDERSON WASHINGTON - In past columns,

we have told how the criminal godfathers are scheming to get their hands upon the ultimate financial prize: the U.S. Treasury. This is another installment.

There is disturbing evidence that the mob is already siphoning off federal funds intended for the care of the sick and elderly. Criminal figures have threatened doctors and clinics with violent reprisals unless they kick back a share of their federal

These seamy underworld connections have remained hidden behind a murky curtain of legitimate enterprises, dummy corporations and holding companies. Notorious mobsters like Meyer Lansky and Joe Colombo reportedly have been linked to nursing homes, hospitals and clinical laboratories, though their ownership has been obscured by this corporate web.

In 1976, a federal grand jury heard secret testimony that some mobsters have used fraud, extortion, arson, assault and other strong-arm tactics against Medicald practitioners in New York City. Witnesses testified that Joseph Pagano, a member of the Vito Genovese crime family, was

involved. grazed the back of the doctor's head.

"I knew they'd get me," the doctor reportedly gasped as he was rushed to

been following the case since the psychiatrist was brought before the grand jury. The doctor is still in jeopardy, so some details must be withheld to protect his identity. But much of the story can now be told.

The case began, according to federal prosecutors, when the psychiatrist was caught bilking the Medicaid program. Inspectors discovered that he had inflated his billings to the government by more than \$10,000 in a single year.

When confronted with this evidence, the psychiatrist agreed to charged that crime lords had

The doctor told federal officials that Pagano was a silent partner in the Bronx welfare clinic where he practiced. Pagano allegedly received 20 to 25 percent of the facility's net income, the doctor said. As the price for practicing his profession, the psychiatrist was ordered to make monthly payments to an associate of

He also described other organized crime operations. The mob threatened owners of Medicaid clinics with beatings or vowed to burn down their buildings if they didn't cough up the monthly payments. In return, they were offered political "assistance" and "protection" from competition.

one Medicaid practitioner from a a hospital. battered section of the Bronx. "I can Our reporter Bill Halamandaris has guarantee nobody will open up another clinic within 20 blocks of my

cooperate with the prosecutors. He arranged for hundreds of thousands of dollars to be siphoned off fron federal health programs.

The main witness, a psychiatrist from a Bronx clinic, was nearly killed a few days after he testified. As the doctor drove home at night, a Mercedes sped alongside his car, and a shot rang out. A 45-caliber slug smashed through the car window and

Oklahoma City, would be willing to wager theirs are among the worst. It further is estimated that INSIDE REPORT: Carter's Saudi fighter plane deal could backfire WASHINGTON - Although

motivated by highest U.S. interests, President Carter's request for modern fighter planes for Saudi Arabia could backfire by prompting Israeli Prime Minister Menahem Begin to stall negotiations with Egypt and thereby endanger peace in the Middle East. The President's courageous

decision to confront Israel and the pro-Israeli-bloc in Congress by selling Saudi Arabia 60 F-15 aircraft, the West's best fighter plane, was based on the need for strong U.S.-Saudi links. This nation's economic future depends in major part on Saudi Arabia's friendship, because of both its leading price-setting role in the international oil cartel and its massive dollar holdings now invested within the United States.

If the Saudi aircraft deal (tied to lesser plane sales to Egypt and Israel) went to Congress today, it probably would escape the simple majority opposition of both House and Senate needed for a congressional veto. But by the time it reaches Capitol Hill in early April, Congress may be far less inclined to approve because of stalemated Mideast peace

The strong suspicion in official quarters here is that Begin's deepening intransigence is motivated in no small part by ', his opposition to the F-15s for Saudi Arabia. If peace is certainly not at hand in the Mideast, Congress can be more easily talked out of arms for Arabs.

The heart of the issue for Israel is not really concern over future Arab use of these aircraft against Israel, as

Begin asserts. Rather, it is deepseated Israeli fear that the Saudi-U.S. link is becoming strong enough to affect the 30-year alliance between Israel and the U.S.

For the first time since Israel became a state with U.S. aid, it is competing with an oil-rich Arab state Washington's favor. Gradual strengthening of economic and military links between Saudis and Americans was reinforced by the peace initiative of Egyptian President Anwar Sadat, now the Saudis' best

Israel, accustomed to having its way in Washington, worries about this new competition - as shown when Begin intimate Moshe Arens spoke privately to the House International Relations Committee recently. Arens. chairman of the Israeli parliament's security committee, attacked the Saudi aircraft deal as stupid for the U.S. His point was that if trouble threatens Saudi Arabia from Iraq or Libya or other extremist Arab states, let us - Israel - handle it for you. The message: it's Israel and the U.S.

together, and let's keep the Arabs out.

Given that fundamental Israeli policy. Begin's objective is to weaken the U.S.-Saudi link in every possible way and prevent the kingdom from expanding its U.S. political and economic base. One way to achieve that is to block the sale of the F-15s.

Incredibly, Israel is determined to block the deal even if Egyptian-Israeli peace prospects suffer. Begin himself has publicly given warning. On Feb. 16, he told the Israeli parliament that the proposed aircraft deal was a threat to "the process of negotiations" between Israel and

High Israeli officials are now using the F-15s for Saudi Arabia as a major new reason not to yield to Egypt three Israeli military airfields located on the Sinai Peninsula, particularly a major base near the Israeli Aqaba Gulf port of Eilat. Israel had not agreed to turn over the airfields anyway. But the Saudi aircraft deal is now being used as sudden new justification for retaining them, on grounds they are needed to guard against the Saudi air "threat."

Begin and his hard-line policy are in worsening political trouble in this country. This is shown by recent Gallup Poll results, reflecting more support for Egypt's Sadat than Israel's Begin (plus 2-to-1 approval for Mr. Carter's Mideast per

formance)., During Israeli Foreign Minister Moshe Dayan's recent visit here, his congressional briefings did not end with the habitual spontaneous outbursts of pro-Israel support. Instead, the mood was somber, even hostile.

Despite this clear cautionary signal, the American Jewish community is now gearing up the toughest campaign against an American President since Gerald Ford and Henry Kissinger were backed against the wall in their ill-fated "reassessment" of U.S. policy toward Israel in the spring of 1975. The new campaign is to teach Mr. Carter and Secretary of State Cyrus Vance, as Ford and Kissinger learned, that the pro-Israel bloc is too strong to be challenged - even in the present political climate. Behind the threatened aircraft sale

lies what remains of Sadat's peace initiative, now stalled in haggling and recrimination. Seeking to shore up his indispensible links with Saudi Arabia, President Carter made an understandable and quite likely unavoidable decision. But in so doing, he may have gravely undermined his great dreams for the Mideast.

and almost as much against the equally powerful West German mark. Though the grim international currency exchange crisis appears, on the surface, to make these European economic powers seem even stronger, the dollar's slide is, in the view of some influential people here, in fact a sign of growing American strength and European weakness. "We are very, very nervous about the fall of the dollar," said Claude Monnier, editor of the Journal de Geneve in an interview here Wednesday. "It is not because we won't be selling as many Mercedes in the U.S., but because it is proof that we are weak. We are weak because there is nothing we can do to stop the fall. We feel completely powerless. Monnier's comments, just two days after massive efforts by the Swiss government to stop the dollar's slide have already been overtaken by new decline. Monnier is not one of those who expresses overt anti-American views. But he believes that the dollar crisis has roots and implications that could force basic reallignment in the world. The editor believes that America essentially is now

doing what comes naturally, in other words, reclaiming the natural strength that was drained in Vietnam and by Watergate.

"Many people said when America left Vietnam it would be quiet. That it was finished for a while. But I never believed that. When you lose a liability you get "America is the strongest country in the world and its economy is growing fast, faster than we are. The gap is widening. We are weaker, too, because of the oil situation, an area in which America will eventually be pretty autonomous but Europe will not.

U.S. dollar

By MICHAEL GETLER

touch of anti-Americanism.

GENEVA - The dramatic and unprecedented

plunge of the U.S. dollar on overseas money markets to depths never before reached is stirring both a

feeling of helplessness among Europeans whose export industries are threatened and more than a

touch of anti-Americanism.

The resentment toward Washington has been evident for some time during the dollar's steady decline in recent months, especially here and in West Germany where the feeling is widespread that the Carter administration — despite pledges to the contrary — is perceived as encouraging a cheaper dollar to boost American exports and make it hard for Euorpeans to sell their goods in the United States.

Against the powerful Swiss franc, the dollar has

lost 20 percent of its value in the past four months

The Washington Post

"The basic surge of the United States today is involuntary," Monnier believes. "you have no choice but to be on top. It's just natural. But when a country gets too powerful it will be viewed as a threat and create new alliances. The fall of the dollar which can throw European goods out of the United States, will make people feel this threat and possibly cause a counterbalance, perhaps between West Europeans and Arabs. It would be difficult, but the dollar crisis might make people feel the urge to do something."

Monnier advocates some such alliance not he says, out of anti-Americanism but out of a feeling that

equilibrium is necessary in global economic forces. The Geneva editor believes that the dollar crisis is symptomatic of what he calls "the long, slow downward trend of European power. That trend was slowed after World War II due to American protection but in 1973," he says, in the aftermath of the one global oil crisis, "that protection disap-peared. With America's help in the past, we thought

we were stronger than we are."

Monnier also talked of an American "imperialism" linked in an unusual bit of historical timing to President Carter's appearance on the

"When Carter came people felt that America was going away from the bad boy Nixon to the good, Christian human being. But in foreign relations, to have a deep belief in what is good and bad," as the president seeks to personify, "leads to a source of moral imperialism and expansion of power. Now you can see that is exactly what is happening.

"I don't accuse Carter of being imperialistic, but when you want to be a saint, and you are the strongest actor in the play, and you say 'Do that' because you have a strong moral argument, what

Prev. Today day 658 669 513 1840 11 106 because you have a strong moral argument, what can others do? The problem of Carter" he says, "is due to the power of America."

Constitutional break-ins debated in court

By MORTON MINTZ The Washington Post

WASHINGTON — Congressional investigators 'probably' could break into a private home and take papers out of a locked drawer if they commmitted the burglary to get information for a legislative pur-pose, the federal government told the Supreme

Arguing on behalf of congressional investigators who obtained copies of papers ordered sequestered by a federal court, Deputy Solicitor General Frank H. Easterbrook told the court that the Constitution

by a federal court, Deputy Solicitor General Frank
H. Easterbrook told the court that the Constitution
provides absolute immunity to senators, representatives and their staffs "for any speech or debate in
either House," saying that "they shall not be questioned in any other palce."

"An immunity that would protect only when no
wrong was alleged to have been committed would be
no immunity at all," Easterbrook argued.

When asked by Justice Potter Stewart whether the
constitutional protection would extend to a burglary
of a private home, Easterbrook agreed that it
"probably" would but added that he didn't find the
notion of such a break-in "intuitively appealing."

Easterbrook's adversary, Morton Stavis, counsel
for Alan and Margaret McSurely, agreed that the
grant of immunity is absolute, but argued that it applies only to such legislative activities as voting,
making speeches and issuing committee reports. It
does not mean burglaries or free-roaming field investigations by congressional sleuths who "snoop
around or break the law," he told the justices.

In the McSurely case, the central issue is whether
"speech and debate" clause protected the actions of
the late Sen. John L. McClellan, D-Ark., chairman in
the 1960s of the permanent subcommittee on investigations and three subcommittee staff members,
two of them now dead.

COMMERCIAL REAL ESTATE

Texas firm interested in Commonwealth Oil

SAN JUAN, Puerto Rico (AP) - A Texas oil company has expressed an interest in the troubled Commonwealth Oil Refining Company (CORCO) in Puerto Rico, a government spokesman said Thursday

A Puerto Rican state department source, who declined to be indentified. said the interested company was Charter Oil of Houston. "The Texas company is not big enough to enter the deal by itself but it has the backing of the Khassoggi brothers of Saudi

"There is nothing definite," he said. "We are only at the very preliminary stage.

The statement came as a clarification after it was reported Wednesday in a San Juan newspaper, the San Juan Star, that the U.S. Commonwealth government had begun nego-

Field try scheduled

Gulf Oil Corp. spotted location for a 13,500-foot test in the Worsham-Bayer area of Reeves County, 17 miles southeast of Pecos.

It is No. 7 L. Harry and others, 1,088 feet from south and 1,300 feet from east lines of section 49, block 6, H&GN

The drillsite is one mile north of the field's depleted Pennsylvanian discotiations with the Khassoggi brothers, who are international oil financiers, and E.F. Hutton of New York, a brokerage firm.

The state department official said Intton was not negotiating but only trying to help bring all parties involved in CORCO together.

CORCO, a refinery on Puerto Rico's south coast, is the main source of the island's multi-million dollar petrochemical industry but because of financial reverses CORCO is dangerously near bankruptcy.

One of the brothers, Essam Khossoggi, traveled to Puerto Rico last Sunday on his private jet and met with acting Gov. Reinaldo Paniagua and Government Development Bank president Mariano Mier, the source

Khossoggi left Puerto Rico Mon-

The new attempt to sell the majority interest in CORCO to Charter Oil and the Arabs comes after another company, Ashland Oil, Inc., of Ashland, Ky., recently pulled out of negotiations to control CORCO.

Tesoro corporation, of San Antonio, Texas, is the majority CORCO stockholder now.

If the effort fails to find a new investor, CORCO has said repeatedly that bankruptcy was likely.

CORCO owes an estimated \$400 million to a group of nine banks headed by Citibank of New York, W. R. Grace and Company, Gulf Oil Refining Company, Exxon Corporation and the government of Puerto Rico.

Wildcats, field tests reported in WT areas

A 6,800-foot wildcat has been staked in Schleicher County by Fortune Drilling Co. of San Angelo.

It is No. 1-1157 Williams, 12 miles southeast of Mertzon and 467 feet from north and 2,173 feet from west lines of section 1157, GC&SF survey.

The location is % mile southwest of Fortune's No. 1-1203 Williams, recently completed Canyon gas disco-

OUTPOST SET

HNG Oil Co. of Midland spotted location for a two-mile south outpost to the Eldorado (Canyon gas) field in Schleicher County

Scheduled as No. 1-83 Emmons, it is 933 feet from north and 2,334 feet from east lines of section 83, block A, HE&WT survey and 31/2 miles southwest of Eldorado.

The location is separated from the Eldorado pool by a 6,666-foot dry hole.

ADOBE TEST

An offset project has been staked by the Adobe Oil & Gas Corp. of Midland in the Hackberry Creek (Canyon oil and gas) field of Edwards County.

The project, scheduled for a 2,900foot bottom, is No. 2 Schoolfield 81/4 miles southwest of Lula. The location is 2,319 feet from south

and 2,113 feet from west lines of section46, block 1, GWT&P survey. The field has one oil well and five gas producers.

VAL VERDE TRY

The Devil's River (Strawn gas) field in Val Verde County gained a new project with the staking of National Exploration Co. of Houston No. 3 Bertha Glasscock. The new test is one location south and west of produc-

The drillsite is 91/2 miles northeast of Juno and 2,263 feet from south and 2,400 feet from west lines of section 6. block G, GWT&P survey.

EDDY WILDCAT

Amoco Production Co. No. 1-J Federal will be drilled as a 12,000-foot wildcat in Eddy County, N. M., eight miles south of Black River.

Location is 21/4 miles southwest of an undesignated Strawn discovery and 1,980 feet from north and 660 feet from west lines of section 6-26s-27e.

COTTON PROJECT

Cotton Petroleum Corp., operating from Midland, announced location for a new test in the King (Devonian and Wolfcamp) area of Lea County, N. M., seven miles south of Gladiola

It is No. 1 Lowe Land, 1,980 from south and 990 feet from east lines of

It is to drill to 12,400 feet.

CROCKETT WELL

J. Cleo Thompson No. 1-A J. W. Childress has been completed as the fourth wellin the Ozona, Northeast (Ellenburger) field of Crockett County, 10 miles northeast of Ozona.

The project was completed for a calculated, absolute open flow potential of 1,800,000 cubic feet of gas per day, from open hole section from 8,704 to 8.744 feet.

Gas-condensate ratio was 20,710-1, with the condensate gravity 63.2 de-

The pay section was acidized with 300 gallons. Total depth is 8,744 feet and 11/2-inch casing is set at 8,704 feet. Location is 660 feet from south and east lines of section 17, block GH, GC&SF survey.

Test, wells reported

nounced locations for a pair of tests in the Tom Tom (San Andres) field of Chaves County, N.M.

The projects, 14 miles southwest of Kenna, will be drilled to 4,050 feet. No. 3 Miller-Federal is 1,980 feet from north and east lines of section 33-7s-31e.

No. 4 Miller-Federal will be dug 660 feet from north and east lines of section 33-7s-31e.

QUEEN WELL

Mewbourne Oil Co. of Tyler and Midland has completed its No. 1-F Federal as a new well in the Querecho Plains (Queen) field of Lea County, N. M.

On potential test, the well flowed 745,000 cubic feet of gas per day, through a 14/64-inch choke and perforations from v 4,132 to 4,163 feet afte 1,000 gallons of acid and 40,000 gallons of fracture solution.

Total depth is 4,300 feet and 41/2-inch casing is set at 4,300 feet. There was no petroleum fluid produced with the

No. 1-F Federal is one location northwest of production in the sixwell field and 1,630 feet from south and 990 feet from west lines of section 23-18s-32e and eight miles south of Maljamar.

MORROW WELL Amoco Production Co. has an-

nounced potential test for its No. 1-EO State, new well in the Antelope Ridge (Morrow) field of Lea Count The producer finaled for a calculat-

ed, absolute open flow potential of 6.3 million cubic feet of gas per day, through perforations from 12,995 to 13,003 feet after 300 gallons of acid. Gas-oil ratio was 34,426-1.

The new well is bottomed at 13,871 feet and plugged back to 13,464 feet. Five-Inch liner is set at 13,868 feet.

Wellsite is 660 feet from north and 1,980 feet from west lines of section 26-23s-34e and 17 miles northwest of Jal. It is 11/4 miles northeast of other Morrow production.

The Sams Ranch Grayburg field of Chaves County, N.M., gained a new well with the completion of C. E, Larue and B. N. Muncy Jr. No. 2 Hanland-Federal.

Operators reported a calculated, absolute open flow potential of 1,402,-000 cubic feet of gas per day, from open hole section at 1,730-1,760 feet. natural. No liquid was produced on the potential test.

Total depthyis 1,767 feet and 51/6-inch. casing is set at 1,730 feet.

Location is 1,980 feet from south and west lines of section 15-14s-28e and 12 miles east of Hagerman. The new well extends the field 1/9 mile

BURTON FLAT WELL

Flag-Redfern Oil Co. of Midland No. 1 Keystone is a new producer in the Burton Flat (Morrow) field of

Eddy County. The company reported a potential of 700,000 cubic feet of gas per day, through a 20/64-inch choke and perforations from 11,155 to 11,490 feet. The pay was acidized with 4,950 gallons.

Total depth is 11,600 feet and 41/2inch pipe is cemented at 11,600 feet. Location is 1,980 feet from north and east lines of section 32-20s-28e and nine miles north of Carlsbad. It is 1/2 mile east of the closest other pro-

VATES WELL

Gifford, Mitchell & Wisenbaker has ompleted No. 1 Quanah Parker as a Yates oil well in an undesignated area,

of Lea County. The well finaled for a daily flow of 132 barrels of oil and 39 barrels of water, through a 14/64-inch choke and perforations from 3,123 to 3,162 feet after a 10,000 gallon fracture treat-

Gravity and gas-oil ratio were not

Wellsite is 330-feet from south and 2,130 feet from east lines of section 28-26s-36e and 10 miles southwest of Jal. It is a 1/4-mile north extension.

Eddy wells potential

Orla Petco, Inc., of Midland has completed two new wells in the Heradura Bend (Delaware) field of Eddy County, N. M., three miles north of Loving.

No. 1 Gourley, 1/2 mile southwest of production on the north side, finaled for a daily flow of 83 barrels of oil and 4 barrels of water, from open hole at 2,442, where 41/2-inch casing is set, at total depth of 2,452 feet. The pay was acidized with 250 gallons and fractured with 3,000 gallons. Gravity of the oil is 40 degrees. The flow was through a 34-inch

choke. Location is 2,310 feet from north and 330 feet from east lines of section 31-22s-28e.

SECOND WELL

The operator completed No. 2 Sanders, one location south of production, for a 24-hour pumping potential of 50 barrels of oil and 20 barrels of water. from open hole at 2,450 and 2,435 feet. Gravity of the oil is 40 degrees.

The pay was acidized with 250 gallons and fractured with 1,500

Wellsite is 1.650 feet from north and 660 feet from east lines of section 6-23s-28e.

Israel will import oil

MEXICO CITY (AP) - Israel will import \$120 million worth of Mexican petroleum this year, 35 per cent more than last year's figure, Israel minister of industry, Commerce and Touring, Igal Hovovitz said during the first meeting of a week-long trade mission.

The Mexico-Israel officials will discuss means for better economic assistance, international trade and the exchange of technology between the two

Horovitz said bilateral trade favors Mexico on account of petroleum and that Israel is interested in providing Mexico with advanced technology for high-yield crops, herbicides, drip-system irrigation, dairy and livestock technology, and building desalination

"Mexico will continue to sell petroleum to Israel, and it will offer technical services in petroleum engineering," Santigo Roel Garcia, foreign minister of Mexico, said.

SEG Exploration event signups set Wednesday

Registration for the 31st Annual Midwestern Exploration Meeting to be held in Midland will get under way at 1 p. m. Wednesday in the lobby of the Midland Hilton, headquarters for the three-day convention.

The Permian Basin Geophysical Society is host for the meeting. Wednesday's registration will con-

tinue to 5 p. m. and then resume at 7 p. m, and continue to 9 p, m. Additional registration will be from

8 a. m. to noon Thursday. The theme of the convention is 'Update on Exploration Expertise.' Fred Meyer, with Geo Search Corp. in Midland and general chairman of the event, said more than 500 delegates are expected to take part in the meet-

The first event will be an "icebreake" party in the Midland Hilton from 7 to 9 p.m. Wednesday.

The Kickoff Luncheon Thursday will feature an address by Robert R. Aitken, chief of the Exploration Division-Oil and Gas Division of the Department of Energy. He will talk on Where Will We Find Our New Oil?" Aitken's talk will be followed by a

question and answer session. The technical sessions will be held in the Cinema I Theater, with the first paper to be presented following a welcome at 9 a. m. by Midland Mayer Ernest Angelo Jr., the presidents address by Don Hibbitts of Midland, president of the Permian Basin Section, and the keynote address by E. J. Northwood, president of the Society of

Exploration Geophysicistsl. Norwood's address will be "The Emergence of the National Oil Com-

On the entertainment schedule is a dance from 8 p. m. to midnight Thursday in the Midland Hilton, with The Western Electric Band furnishing the music

The theme for the women's functions of the meeting is "A Touch of Class." A hospitality room will be in Suite 222 of the hotel

Aluncheon for the women will be held in the Midland Country club, including a book review, from 11 a.m. to 2 p. m. That event will be followed by a tour of the Permian Basin Petro-

Mack Wallace agrees with storied Houston

AUSTIN, Texas (AP) - "Texas," Sam Houston once said, "could exist without the United States, but the United States cannot, except at a very great hazard, exist without Texas."

'Amen, brother," chairman Mack Wallace of the railroad commission is wont to say.

Wallace and commissioners Jon Newton and John Poerner are shuttling from Austin to Washington preaching an oil and gas sermon that says "what's good for Texas is good for the nation.

Historically, Texas has produced 25 percent of the nation's energy and is now producing approximately 38 percent of the oil and gas consumed in this country

"Texas," says Wallace, "is bleeding itself white for the rest of the nation.

But so far, the commissioners' evangelism has fallen on deaf ears, and Wallace was interviewed recently about the Texas-federal split on

Q: Is there a growing effort in Washington to regulate Texas' oil and gas industry? A: Certainly.

Q: Why?

A: It's very simple - Texas has paid the price to develop a strong intrastate gas market, and the rest of the country has nowhere else to go on well finals the short term to acquire gas.

Q: Does Texas have any friends on energy outside of its own congressional delegation?

A: The (natural gas) deregulation issue was very close, but I don't view the situation as Texas needing friends. I view the situation as far more serious. I think the country needs analytical leaders who can lay aside the short-term demagogic statements about the production of energy and develop a base on which we can build national security. The political leadership has been too weak to convince the public that there's an energy shortage, simply because they will not bite the bullet. In Texas we've bitten the bullet. We've drilled off our shores more than 625,000 wells.

Q: How much of Texas' problem is lack of poltical clout? A: In the days of Lyndon Johnson and Sam Rayburn you had an expanding economy, and they had an impact on development of the econ omy. They're gone now, and I think we're paying the price for those days

of influence. Q: Are the tales about endless red tape real?

A: Yes. Some of the environmental impact statements fill boxes. There were 5,000 pages on one New York case (County of Suffolk vs. Secretary of Interior).

sion by the court on June 7, 1954.

Q: What's your chief gripe about the federal bureaucracy? A: They are unableJto make a deci-

that gave the FPC its wellhead price regulatory authority. The dispute can be traced to 1938

when Congress passed the Natural

Penn test completes

Stoltz, Wagner & Brown of Midland No. 23-12 Hildebrand is a new well in the Conger (Pennsylvanian) field of Sterling County, 11 miles southwest of

Sterling City. Operartor reported a daily flowing potential of 123 barrels of 39-gravity oil, through a 14/64-inch choke and perforations from 7,536 to 8,049 feet after a 100,000-gallon fracture treatment. 'Gas-oil ratio was 5,024-1.

Total depth is 8,250 feet and 41/2-inch casing is cemented at 8,210 feet. 'lugged back total depth is 8,194 feet. Wellsite is 660 feet from north and west lines of section 12, block 31, T-5-S, T&P survey.

Spraberry

A new well-has been added to the Spraberry Trend Area field of Martin County. It is Parker & Parsley, Inc., No. 1 Yates.

It completed on the pump for a daily potential of 24 barrels of 400gravity oil and 65 barrels of water, through perforations from 7,250 to 8,822 feet. The pay-section was acidized with 4,500 gallons and fractured with 160,000 gallons.

Gas-oil ratio was 1,446-1. Location is 2,057 feet from north and 825 feet from east lines of section 24, block 37, T-1-S, T&P survey and five miles west of Stanton.

Agreement revealed

VICTORIA, Texas (AP) - Vistron-Corp., the chemicals and plastic subsidiary of Standard of Ohio, has entered an agreement to purchase 2,300 acres of land 20 miles south of Victoria for development of a major petrochemical complex, company officials announced Thursday.

The tract is located on Green Lake and the Victoria Barge Canal near state highways 185 and 35 in Calhoun

Vistron will be joining Gulf Oil Co., which announced late last year that it would build a petrochemical plant near Vistron's site.

leum Museum, Library and Hall of

On Friday, a champagne brunch and jewelry style show conducted by Sam L. Majors will be held in the Midland Hilton Ballroom from 9:30 to

Transportation between outlying motels and convention activities around town will be provided for the delegates and their wives.

In his keynote address, Northwood, chief geophysicist with Chevron Overseas Petroleum, Inc., San Francisco, Calif., will examine the present status of national oil companies, especially the exploration and producing areas, and suggest whatele-

ments would affect their future. One of the feature technical papers will be presented by Roy O. Lindseth; president of Teknica, Ltd., Calgary,
