# Mother sobs heart, mind 'torn' by Israeli bombs

By ALY MAHMOUD

BEIRUT, Lebanon (AP) - Five of her eight children are missing. She says the other three have been deaf mutes since Israeli bombers screamed down on their village in south Lebanon.

"My heart is torn, my mind is torn, I hardly feel I'm alive," sobbed Suad Sorour, a 32-year-old Lebanese Moslem, as she sat by her tent in the refugee camp on the southern edge of

Tears streamed down her face as

"They are innocent children as you can see. They can never harm any Israeli or Palestinian. Why should my children suffer?"

Mrs. Sorour's home in Tair Harfa, about a mile north of the Israeli-Lebanese border, was one of the first hit when Israeli forces punched into south Lebanon on March 15 to rid the area of Palestinian guerrillas. Her single-story stone house lay near sev-eral guerrilla bases and her family

snatch dead flesh. The Israeli planes ravaged our house and the neighborood," the woman said

"We ran out, my husband carrying two children and me one. The children were trembling, their teeth chatter/

Her other five children panicked. They ran out of the house when the Israeli planes were bombing our village. I haven't seen them since.'

Her husband, Mohammed Sorour, went in search of the five, hoping they ought shelter somewhere in the nearby hills. When he couldn't find them,

the family crept through muddy plan-tations until they reached a hamlet about five miles north of Tair Haifa.

"We spent a day and a night in an orange grove. The whole world around us was burning. It was hell," said Mrs. Sorour.

They trudged about 10 miles farther northward and found a deserted house where they slept intermittent-

"But the vultures came again. Deafening explosions terrified us. "The children were fast asleep dethat time that they had become deaf and speechless.

Her husband feared the Israelis were about to blow up the house, so they fled to an olive grove. White smoke filled the air and craters lined the hillside roads.

The family spent the night in a

Hungry and tired, the family continued on its journey the next day with children on their shoulders. A few miles north of Tyre, a truck picked them up and brought them to Beirut.

They were taken to one of the tent centers the Lebanese government set up around the capital for Lebanese refugees. Palestinian refugees from the south are housed in the Palestinian refugee camps the United Nations has operated for nearly 30 years.

Mohammed Sorour visited several refugee camps looking for his missing children. They were not there.

# "They were like vultures diving to she patted the three bodies huddled spite everything. We did not know at REGISTRATION TITLE TRANSFERS DUT STATE TITLES

# Poerner says coal looms big in state's future

In the future, Texan's more and more will be spelling energy C-O-A-L.
That's the belief of Texas Railroad Commissioner John Poerner. Poerner, who was appointed to the commission in January, is running for an unexpired two-year term. He was in Midland Tuesday on a campaign swing through West Texas.

In the history of energy production in Texas, coal has accounted for only 0.4 percent of total production, Poerner said. But, he added, coal comprises 40 percent of the state's

energy reserve. Poerner said the Railroad Commission, which regulates energy production in Texas, has ordered industry to begin converting from natural gas to coal for boiler heat. "We have directed these companies to reduce endence on natural gas to 25

percent by 1985," he said. The candidate said the state attorney general, on instructions from the commission, has filed suit against the federal government to block enforcement of the federal surface min-

Among the onerous requirements of that bill, he said, is one that would require coal companies to remove soil on "prime farm land" in layers and replace it in the same layers. "When you do that, the economics is shot," he said.

"It's all theory," Poerner said of federal energy policy. "They've never been in the field."

Poerner pledged to fight any feder-al gas bill which includes control of intrastate oil and gas. "We are not going to allow or permit the rape of Texas' natural resources," he said.

Poerner is one of five Democrats running for the unexpired term in the

May 6 primary. He said the Railroad Commission can help influence national energy policy by making sure that the data it accumulates is credible to federal energy planners. "They must believe we're telling the truth." He believes the comission now has "a good reputation" for accuracy.

Another responsibility of the commission is to make the people "believe we're being fair.

Of the sometimes conflicting interests of energy producers and consumers, Poerner said he thinks the present Railroad Commission strikes "a pretty happy balance between the

In the past, he said, the commission was more closely aligned to producers, but that was in the days of "cheap energy," when consumers were not as interested in the workings of the commission.

Next year, he said, the commission will have a "full-time job for five months" advising the Texas Legislature on the effects of various proposed laws affecting energy and transportation. His six years in the Legisla-ture will help him do that, he said.

He also said his own special interest, as a land surveyor by profession, is in getting better maps for Texas. Currently available maps are "absolutely deplorable," and do not make use of existing technology.

# Airport foes bomb hotel

NARITA, Japan (AP) — Helmeted militants threw about 20 firebombs into Japan Air Lines' new Narita airport hotel early today, smashing windows and damaging lobby furniture in the continuing fight against Tokyo's new international airport.

Police said 10 men drove a small truck up to the hotel, hurled the bombs and fled. A private guard was slightly injured.

The opening of the billion-dollar airport 41 miles north of Tokyo has been delayed again because the con-trol tower was wrecked during a mob attack Sunday and the foes of the installation have promised more vio-

The opening, postponed from Thursday, is now six years behind schedule. The Cabinet is to meet Friday to set a new date, with one in May predicted.

# peoples," the president said. "The industrial nations share the same Mailey 'pleased, relieved, by defeat of injunction

livery Service 682-5311 Want Ads 682-6222 Other Calls 682-5311 ble" to stop the elections at this late

The Justice Department sought to delay the Midland elections because it felt the school's election system was in violation of the 1965 federal Voting Rights Act.

Tighe said the school district now must file briefs with the three-judge panel in Dallas within 25 days concerning whether the Voting Rights Act applies to school districts which made changes in their election systems prior to Texas becoming subject to the act.

Texas came under the Voting

Rights Act in 1975. The Midland school district changed to the place system of elections in 1973.

problems and cannot by themselves bring about world economic recov-

ments in basic commodities.

world trade.

Tighe said it will be up to the judges to decide whether a constitutional question is involved. He said he rather doubts another hearing will be scheduled.

The federal government also sought an injunction to stop elections in the Hereford Independent School District at the Tuesday hearing but were turned down. Hereford school dis-trict, like Midland's, had changed its elections system to the place method

# Chartered boat capsizes; divers find no survivors

PORT ARTHUR, Texas (AP) - A chartered boat capsized after a near-collision with a tanker in the Intracoastal Waterway near Sabine early today, and Coast Guard searchers were unable to locate survivors by

Divers from the Port Arthur Fire Department were called to the scene.

It was not known how many people were aboard the charter boat.

The boat capsized following a near-collision with the tanker "Zapata

Ranger" about 4 a.m., according to a spokesman at the Coast Guard search nd rescue headquarters in New Or-A Coast Guard boat and a helicop-

ter from Houston located only debris, including life rings bearing the name "Miss Brazosport" out of Galveston.

A spokesman at the Sabine Coast Guard Station said the boat was believed to have gone down in 17 feet of water near Buoy 32 after being flipped by the tanker's wake.

In addition, Carter said he was proposing "a U.S. foundation for tech-nological collaboration." Beyond pledging that "we in the United States will do our part," Carter did not elaborate. But he noted that he has asked Congress to increase economic assistance funds by

- And strengthen the technological

base in the poorer countries.

28 percent and that his administration is prepared to increase American contributions to the International Monetary Fund.

Carter spoke from a lofty, ornate dais to a packed chamber of legisla-(Continued on Page 2A)

Dr. Geoffrey Stanford, a waste management expert, talks about his proposals for the "greening" of the Midland-Odessa area with sludge, composted refuse and 'green water.' (Staff Photo)

# Expert views wasted waste as forest means

Can't you just see the headlines?

Midland, Odessa United!

**Forest Joins Cities** 

Officials Toast 'Green Water' And the gist of the stories is this:
"Refuse, sludge, garbage are common to the Permian Basin cities."

That may or may not come to pass. The two competing cities are markedly different. They're more like Cain andAbel than they are the Bobbsy

Just look to the skylines and then glance to the industrial rows.

Gaze upon the rich, the new-rich, the not-doing-so-badly mid-crust, the solid, the redit-riddled, the fair-to-middling masses and, finally, the

barely-making-it groups.

Check out the work force - the blue-collar versus the white-collar: - Clout versus Finesse.

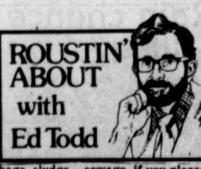

Poker versus Bridge

Rodeoing versus Polo.

Boldness versus Caution.

The two cities are as different as Fort Worth is from Dallas. Yet, something is as common to them as air and

Yes. It's that unpleasant but everpresent "stuff" called refuse, gar-

bage, sludge -- sewage, if you please. And an Englishman, Dr. Geoffrey Stanford, has a plan that, in one respect, would unite the two cities. His proposal is connected to his forte: waste management

His plan calls for dumping and processing the waste between the two cities somewhere just north of Midland Regional Air Terminal. He recommends the spreading of composted sludge and refuse here and there, planting seed and seedling, and then "take your green (settled sewage) water and build a forest where you want to."

Given enough time and composted waste, Stanford could transform the between-cities idle land into a plush garden. And utilized properly, waste could yield "more food, more fuel," Stanford said.

He was in Midland on Tuesday to laud the uses of waste, rather than (Continued on Page 2A)

how to dispose of it. His audience was made up of farmers, ranchers, stockmen, waste-specialty people and conservationists from Paint Rock to the unlike twins, Midland and Odessa. Noticeably lacking were the opinionmakers, the politicans, bankers, wheelers-dealers, and others high in the power structure.

The occasion was a meeting of the West Texas Association of Soil and Water Districts. About 90 attended. The setting was the Midland County Exhibit Building.

And the white-haired and plain-spoken-though his English wasn't the clearest to the West Texans-doctor proposed solutions to the waste prob-

He pointed to a map of the Midland-Odessa "metroplex," which took in neighboring towns and communi-

He visualized his plan: the greening of Midland and Odessa and their environs. "All of this becomes very desireable agricultural land or valuable country club land . . . for picnicking, horse riding," Stanford said.

If implemented, the plan would requires year before fruition.

'And we can feed our grandchildren for the next hundred years, because we planned today," he said. He was not dazzled by comments

and questions. However, he seemed to amuse himself and his listeners with irrelevant nonsense, such as: "Throw up a kite and see if lightning strikes

For awhile, he took leave of the Midland-Odessa scene and wound up in Saudi Arabia and Venezuela. There, new riches generated by pe-troleum findings have generated the mark of affluence: refuse, garbage and waste problems never before experienced in those countries. And ose people are at a loss on what to

"For 20,000 years they haven't wasted anything," he said. Perhaps he would include waste itself.

Ideally, he said, the United States, which gave the Arabs and the South Americans the technology to bring in oil wells, should teach them how to use (not get rid of) their garbage and sludge. But this country hasn't found satisfactory answers to that

Promptly, Stanford returned to the Permian Basin to talk about the wise to the west. He would create a forest between the two cities and thereby

unite them "It's not a dream. It's perfectly feasible," he said with conviction. "It's perfectly feasible if you people will get together and unite.

# Nations must work together

#### Q. What are your qualifications for the office you seek?

A. Active member of the Hospital Auxiliary and a past president of same. Tutor at Casa de Ninos. Member of Santa Rita Club of the Museum of the Permian Basin. Active member of N. A and Tennessee St. Church of Christ. Member of Parks and Recreation Commission for the city of Midland.

As president of the Auxiliary, I met each month with the Board of Trustees of the hospital so am familiar with hospital procedure.

Q. What do you hope to accomplish while in office?

A. Help get Midland Memorial Hospital off to a good start as a taxpayers' hospital. Try to see that full value is received for each dollar spent. Help the citizens of Midland County see Midland Memorial as their hospital in more than just name. and be willing to serve, if called upon, on committees related to the hospital.

Q. What is the single most important issue facing the body to which you seek election?

A. Making the first two years as a hospital district a model of har-monious change from a private hospital to a tax supports institution. This is an opportunity that will never come again to set a pattern fro all segments of the community to become involved in a productive way. in the way the hospital is run.

AGE: 58 ADDRESS: 3202 Racquet Club Midland, Texas 79701 OCCUPATION: Rancher

Q. What are your qualifications for the office you seek?

A. I am a native of Midland for 58 years, current director and president of the hospital district. Have served on many civic boards in Midland including the school board. I recently finished four years as a Midland hospital trustee and now realize how vital the hospital is to all of us. I have ranching and other business interest in Midland County and want to serve all of the people of Midland County.

Q. What do you hope to accomplish while in office?

wish to continue to help in th organization of the Hospital District and help in the change over from Midland Memorial Foundation operating under the hospital district. Of course, I want to see our construction program finished properly.

# W. P. Franklin

POSITION SOUGHT: Hospital District Board of Directors

ADDRESS: 2805 Sentinel OCCUPATION: Executive Vice President, The Midland National

Q. What are your qualifications for the office you seek?

A. I previously served a four-year term as a hospital trustee, then was appointed as one of the five original hospital district directors when the Midland County Hospital District was created. My knowledge of our hospital's organization, personnel, and financial structure would enable me to be an effective board member. For 20 years I have served in leadership positions with other non-profit organizations, including the United Way, YMCA, and other charitable organizations.

Q. What do you hope to accomplish while in office?

A. I hope to work toward a successful conclusion of our renovation program at Midland Memorial, and ensure that Midland has the finest medical services we can provode.

Frank Cowden Jr.

Taxes should be kept to a minimum.

We should not waste money and

tant issue facing the body to which

W. P. "Bill" Franklin

Q. What is the single most important issue facing the body to which you seek election?

A. Attracting qualified physicians in all specialties and in general practice to meet the needs of our growing community would be top priority. The single most important thing we can do to accomplish this is to provide the best medical facilities we can possibly afford.

# Owners of surface, mineral rights clash

ODESSA - Odessa City Councilmen Tuesday were caught in the middle of a controversy between owners of surface rights on drilling reservations and owners of mineral rights.

Four public hearings were set on requests to rezone the drilling reservations for single-family residential construction.

Tyron D. Lewis, requesting part of the rezoning, told the council that the land reserved for drilling sites is desperately needed for housing con-struction and that little, if any, drilling activity had taken place on drilling reservations in the city in recent

However, a number of representa-tives for firms holding mineral rights opposed the rezoning. Louis Rochester told council members that surface rights on drilling reservations often were sold with the stipulation that drilling sites be provided and that without that stipulation, those holding the mineral rights would not sell the surface rights, which would hinder the city's development.

### **DEATHS**

#### Robert H. Stewart, 72, of 2800 N. Midland Drive died Monday in a Midland hospital following an extended period of ill health.

Services will be at 2 p.m. Thursday in Alamo Heights Baptist Church with the Rev. Bob Porterfield, pastor of West Kentucky Avenue Baptist Chapel, officiating, assisted by the Rev. Milo Arbuckle, paster of Alamo Heights Church. Burial will be in Resthaven Memorial Park under direction of Ellis Funeral Home.

Stewart, born Feb. 14, 1906, at Mize, Miss., grew up in Mississippi and Louisiana. He moved to Pampa in the 1940s and to Midland last December. He was a pipe fitter.

Surviving are his wife, Vinnia E. Stewart of Midland; a son, the Rev. Robert Stewart Jr. of El Paso; three daughters, Mrs. William E. Roberts of Independence, Mo., Mrs. Bobby Mitchell of Kuwait and Mrs. Bobby L. Jones of Midland; a sister, Mrs. Ollie Pruitt of Nash, 14 grandchildren and 13 great-grandchildren.

Grandsons who will serve as pallbearers include Randy Jones. Eddie Roberts, Jeff Roberts, Drew Roberts, Tommy J. Davis, Greg Davis, William Kemper and Leonard

# Mrs. Willingham

Services were Tuesday in St. Ann's Catholic Church for Gladys Will ingham, 75, of 712 W. Michigan Ave. The Rev. Ed Vrazel of St. Ann's of ficiated. Burial was in Fairview Cemetery, directed by Newnie W Ellis Funeral Home.

Mrs. Willingham died Monday in Midland hospital.

Survivors include a son, a daughter, a sister and six grandchildren.

Pallbearers were W. C. Smith, Jack Leonard, Jack McClurg, Charles West, Jack Wallin and Boots Cain.

### Eleno Nunez

LAMESA -- Services for Eleno Nunez, 100, of Lamesa will be held at 11 a.m. Thursday in Eastside Baptist Church here with the Rev. Ricardo Gardon, pastor, officiating.

Burial will be in Lamesa Cemetery directed by Branon Funeral Home. The retired farmer moved to Lame-

sa 45 years ago from Ballinger and was born in Durango, Mexico. He and Julia Palacio, 102, were married in Mexico 86 years ago. Survivors include his wife; a son,

James Nunez of Los Angeles, Calif.; three daughters, Mrs. Santos Harris of Wichita Falls, Lucia Salazar and Mrs. Santos Salazar, both of Lamesa, 19 grandchildren and 23 greatgrandchildren.

### Bertha Hull

BIG SPRING -- Bertha Hull, 75, died Tuesday in a Big Spring hospital following a lengthy illness.

Services were to be at 3:30 p.m. today in Nalley-Pickle Funeral Home with burial in Trinity Memorial Park. Mrs. Hull was born May 11, 1902, in Erath County. She married Britton Hull in 1919 in Brownwood. They moved to Big Spring in 1928. She was a member of the Order of the

Eastern Star. Survivors include two sons, Clinton Hull and Noel Hull, both of Big Spring; two sisters, Mae Flowers o Brownwood and Ethel Heptinstall of Big Spring; a brother, Louis Adkisson of Abilene, three grandchildren and three great-grandchildren.

## I. Cunningham

PADUCAH -- Services for Isa Cunningham, 82, of Paducah will be at 2 p.m. Thursday in the First Baptist Church here with the Rev. Herman Lancaster, pastor, officiating. Burial will be in Buck Creek Cemetery here directed by Norris Funeral Home.

Mrs. Cunningham was the sister of Floyd Armstrong and Truman Armstrong, both of Midland.

She died Tuesday in a Paducah hospital after a short illness.

A native of Fannin County, Mrs. Cunningham had lived in Cottle County since 1909. She was a member of the First Baptist Church here.

Other survivors include a son, two daughters, two stepsons, three stepdaughters, three brothers, three sisters, seven grandchildren, eight great-grandchildren and a greatgreat-grandchild.

# Robert Stewart Minnie Wallace

Minnie L. Wallace, 80, of 4301 Leddy Drive died Tuesday morning in a Midland nursing home following an extended illness.

Services were to be at 1 p.m. today in the Newnie W. Ellis Funeral Home chapel. Officiating was to be the Rev. Harold Quarles, pastor of the First Church of the Nazarene. Burial was to be in Rose Hill Cemetery in Ardmore,

Mrs. Wallace was born Sept. 16, 1897, in Hardin County, Tenn., was reared at Ardmore and lived there and in Illinois, Arkansas, Kansas and in Oklahoma City before she moved to Midland five years ago.

She was a member of the First Church of the Nazarene. Survivors include a daughter.

Louise Ledeker of Midland, and a grandchild.

### **Russell Davis**

Services were to be at 10 a.m. today in Newnie W. Ellis Funeral Home for Russell L. "Russ" Davis, 70, of 505D W. Estes Ave. The Rev. Charles Lutrick, pastor of the First United Methodist Church, was to officiate. Burial was to be in Berwick Cemetery in Berwick, Iowa, directed by Hamilton Funeral Home of Des Moines Iowa

# Galaviz grand jury probe begins BIG SPRING - A Howard County

grand jury probing into the fatal shooting of a 19-year-old Mexican-American youth by a police sergeant last Dec. 8 began its deliberations Tuesday.

The jurors are expected to issue a report later this week Big Spring police Sgt. Leroy Spires

fatally wounded Juan Galaviz following a high-speed chase here on the night of Dec. 8, a Thursday. Police were in pursuit of a man who

had taken the car of Martha Poss, wife of Midland College Athletic Director Delnor Poss, on a parking lot at Howard College about 10 p.m.

The man apparently had tried to abduct Poss' wife following a basketball game between Midland College and Howard College.

The assailant reportedly pulled a knife on the woman and then fled in her car after she cried out for assistance.

Mrs. Poss was cut slightly on the

hand in the incident. Police pursued the car, which traveled up to 100 mph, and

ultimately stopped it with a road According to police reports, Sgt. Leroy Spires then ran up to side of the

car and told the driver not to move. Spires fired the fatal shot after Galaviz reached into his pocket. police said. Later, law enforcement officials

said a knife was found in Galaviz' pocket. Recently, Spires resigned from the

police force. He said he had been

"unduly harassed" following the Dec. 8 incident.

Prior to that, the Galaviz family in late January filed a \$2 million wrongful death suit against Spires and the city of Big Spring. The petition claimed the city was negligent in the training of its police officers and in failing to investigate previous acts of alleged misconduct by Spires and his fellow officers.

The sergeant's resignation was accepted "with regret" by Big Spring Police Chief Stanley Bogard. He said Spires was not pressured into leaving the police force.

# Odessa woman charged with knifing death

ODESSA - A 28-year-old Odessa woman charged with murder in the Sunday knifing death of a 29-year-old Odessa man was in city jail here this

morning in lieu of \$20,000 bond. Belinda Lopez Constancio is charged with the murder of Roberto Rojo Munoz about midnight Sunday outside the El Casino Lounge here.

Two other men hurt in the incident, Librado Quinonez, 21, and Salvador Adarco, 19, were in satisfactory condition in Medical Center Hospital this morning.

Mrs. Constancio told police she and Munoz argued when he asked her to dance and she refused. The stab-

bings occurred shortly afterwards.
Police were called to the bar when the bar manager reported a fight in progress. Police said there was no fight underway when they reached the bar, but a search of the area resulted in the discovery of Munoz' body in a pool of blood and the two other men nearby bleeding from stab wounds. Munoz had been stabbed repea-tedly in the chest and neck, detectives

The murder charge against Mrs. Constancio was filed Monday before Peace Justice Harold Sligar.

# Man in hospital after accident

An 18-year-old Odessa man was in undetermined condition at Midland Memorial Hospital this morning with two broken legs and a broken jaw after his truck and semi-trailer ran off an overpass on Interstate Highway 20 this morning, a Department of Public Safety spokesman said.

Gary Scott Weeden was westbound of I-20 about 6: 40 a.m. when his vehi-

cle ran off the road and the overpass at FM 715, the spokesman said.

# parking authorized

ceeded that figure by 20,000. The plan for the parking incorporated in the \$5 million terminal improvement project took into consideration a 7 to 8 percent annual a long-term study of parking there. Col. Wilson Banks, city director of growth rate. Banks said, adding that because of the addition of discount air fares and a major airline service, the growth rate of air travelers in Midland has been between 40 and 50

> percent. "I would feel better if we could open the terminal improvement project with 300 more spaces than we are

planning now," Banks said. Approximately 715 parking spaces are planned in the present terminal improvement project expected to be completed in March 1979.

After the council authorized the study by Parkhill, Smith & Cooper Inc. of Lubbock, Mayor Ernest Angelo Jr. said, "I think it is good to have a plan that can be implemented

when the time comes. Bennett Reeves of Parkhill, Smith & Cooper, Inc. told the council that the recent dramatic growth of airline passengers is not unique to Midland and also has been felt in Lubbock and

Amarillo. The council also approved a plan to construct a second baggage carrousel at the air terminal as an addition to the current building project.

Banks said that this addition would allow two airplanes to unload baggage at the same time.

The addition would not interrupt the flow of work in the present project, said Harry Hill, representing Hudgins, Thompson, Ball and Associates Inc. of Oklahoma City, architects and engineers for the terminal building project.

"Nothing is more maddening than to wait longer for your luggage than it took for your flight." said Banks. explaining the need for the second

# Five seek hospital directorships

EDITOR'S NOTE: Saturday, Midland voters go to the polls to elect, for the first time, Midland County Hospital District directors. The board of directors is the governing body of the district and contracts with the Midland Memorial Hospital Board of Governors to run the hospital. The governors, in turn, appoint the hospital trustees, who are responsible for the hospital's operation. Directors are elected at-large, with each voter selecting two from among the five candidates. The following are the responses from the candidates to questions from The Reporter-

### M. N. Burleson

POSITION SOUGHT: Hospital District Board of Directors ADDRESS: 708 W. Cuthbert OCCUPATION: Physician

Q. What are your qualifications for the office you seek?

A. I am a physician. I have spent over 25 years working in hospitals. I practice in Midland Memorial Hospital and am quite aware of its needs and methods of operation.

Q. What do you hope to accomplish while in office?

A. I will provide input from a medical point of view and help coordinate the various health resources in

how to dispose of it. His audience was made up of farmers, ranchers, stockmen, waste-specialty people and conservationists from Paint Rock to the unlike twins, Midland and Odessa. Noticeably lacking were the opinionmakers, the politicans, bankers, wheelers-dealers, and others high in the power structure.

The occasion was a meeting of the West Texas Association of Soil and Water Districts. About 90 attended. The setting was the Midland County Exhibit Building.

And the white-haired and plain-spoken-though his English wasn't the clearest to the West Texans-doctor proposed solutions to the waste prob-

He pointed to a map of the Midland-Odessa "metroplex," which took in neighboring towns and communi-

He visualized his plan: the greening of Midland and Odessa and their environs. "All of this becomes very desireable agricultural land or valuable country club land . . . for picnicking, horse riding," Stanford said.

If implemented, the plan would requires year before fruition! "And we can feed our grandchildren for the next hundred years, be-

cause we planned today," he said. He was not dazzled by comments and questions. However, he seemed to amuse himself and his listeners with irrelevant nonsense, such as: "Throw

up a kite and see if lightning strikes For awhile, he took leave of the Midland-Odessa scene and wound up in Saudi Arabia and Venezuela. There, new riches generated by pe-troleum findings have generated the mark of affluence: refuse, garbage and waste problems never before experienced in those countries. And those people are at a loss on what to

"For 20,000 years they haven't wasted anything," he said. Perhaps he would include waste itself.

Ideally, he said, the United States, which gave the Arabs and the South Americans the technology to bring in oil wells, should teach them how to use (not get rid of) their garbage and sludge. But this country hasn't found satisfactory answers to that . . .

Promptly, Stanford returned to the Permian Basin to talk about the wise to the west. He would create a forest between the two cities and thereby

"It's not a dream. It's perfectly feasible," he said with conviction. "It's perfectly feasible if you people will get together and unite."

# Nations must work together

(Continued from Page 1A)

tors who gave him a standing ovation when he arrived. And for the third time in two days, he complimented them by speaking in Spanish, giving his introductory remarks in that language. But he switched to English for the remainder of his address.

After his speech, Carter set aside time for more talks with Venezuelan President Carlos Andres Perez. They met for two hours Tuesday, but left touchy questions for today, including the price of oil. Venezuela is the third largest supplier of oil to the United

Following today's talks, Carter, his wife Rosalynn, 10-year-old daughter Amy and top U.S. officials including national security adviser Zbigniew Brzezinski and Secretary of State Cyrus R. Vance, were bound for the Brazilian capital of Brasilia. About 300 demonstrating university

students condemned Carter and his human rights policy Tuesday in Bra-silia. They declared the policy inval-id, saying the United States supports leaders like Agosto Pinochet of Chile and Anastasio Somoza of Nicarague, both accused of denying human

#### Today's 'new 20s' have more of most

NEW YORK (AP) - Today's "New 20s" are more mobile, more highly paid, more educated, more employed and have a wider choice of living styles and careers than ever before. says Kathleen Fury, editor of Your Place magazine, a publication aimed at the concerns of that age group.

Of this group. 57 percent have attended college — double the national average — and 81 percent work, according to Ms. Fury, who adds that "about the only thing they have less of is children."

## Nada Baulch

POSITION SOUGHT: Hospital District Board of Directors AGE: 54 ADDRESS: 3109 Humble, Midland

Texas. OCCUPATION: Housewife

#### Q. What are your qualifications for the office you seek?

A. Active member of the Hospital Auxiliary and a past president of same. Tutor at Casa de Ninos. Member of Santa Rita Club of the Museum of the Permian Basin. Active member of N. A and Tennessee St. Church of Christ. Member of Parks and Recreation Commission for the city of Midland.

As president of the Auxiliary, I met each month with the Board of Trustees of the hospital so am familiar with hospital procedure.

#### Q. What do you hope to accomplish while in office?

A. Help get Midland Memorial Hospital off to a good start as a taxpayers' hospital. Try to see that full value is received for each dollar spent. Help the citizens of Midland County see Midland Memorial as their hospital in more than just name. and be willing to serve, if called upon, on committees related to the hospital.

Q. What is the single most important issue facing the body to which you seek election?

A. Making the first two years as a hospital district a model of harmonious change from a private hospital to a tax-supported institution. This is an opportunity that will never come again to set a pattern fro all segments of the community to become involved in a productive way. in the way the hospital is run.

# Frank Cowden Jr.

POSITION SOUGHT: Hospital **District Board of Directors** ADDRESS: 3202 Racquet Club. Midland, Texas 79701 OCCUPATION: Rancher

#### Q. What are your qualifications for the office you seek?

A. I am a native of Midland for 58 years, current director and president of the hospital district. Have served on many civic boards in Midland including the school board. I recently finished four years as a Midland hospital trustee and now realize how vital the hospital is to all of us. I have ranching and other business interest in Midland County and want to serve all of the people of Midland County.

#### Q. What do you hope to accomplish while in office?

A. I wish to continue to help in the organization of the Hospital District and help in the change over from Midland Memorial Foundation operating under the hospital district. Of course, I want to see our construction program finished properly.

### Q. What is the single most important issue facing the body to which

A. We need to work toward as near excellence in patient care as possible. Attracting good doctors to our city is important in accomplishing this. An excellent hospital attracts doctors.

# W. P. Franklin

POSITION SOUGHT: Hospital District Board of Directors

ADDRESS: 2805 Sentinel OCCUPATION: Executive Vice President, The Midland National

#### Q. What are your qualifications for the office you seek?

A. I previously served a four-year term as a hospital trustee, then was appointed as one of the five original hospital district directors when the Midland County Hospital District was created. My knowledge of our hospital's organization, personnel, and financial structure would enable me to be an effective board member. For 20 years I have served in leadership positions with other non-profit organizations, including the United Way, YMCA, and other charitable organizations.

#### Q. What do you hope to accomplish while in office?

A. I hope to work toward a successful conclusion of our renovation program at Midland Memorial, and ensure that Midland has the finest medical services we can provode.

Frank Cowden Jr.

Taxes should be kept to a minimum.

We should not waste money and

should be very concerned of our ex-

W. P. "Bill" Franklin

Q. What is the single most important issue facing the body to which you seek election?

A. Attracting qualified physicians in all specialties and in general practice to meet the needs of our growing community would be top priority. The single most important thing we can do to accomplish this is to provide the best medical facilities we can possibly afford.

# Owners of surface, mineral rights clash

ODESSA -- Odessa City Councilmen Tuesday were caught in the middle of controversy between owners of surface rights on drilling reservations and owners of mineral rights.

Four public hearings were set on requests to rezone the drilling reservations for single-family residential construction.

Tyron D. Lewis, requesting part of the rezoning, told the council that the land reserved for drilling sites is desperately needed for housing con-struction and that little, if any, drilling activity had taken place on drilling reservations in the city in recent

However, a number of representa-tives for firms holding mineral rights opposed the rezoning. Louis Rochester told council members that surface rights on drilling reservations often were sold with the stipulation that drilling sites be provided and that without that stipulation, those holding the mineral rights would not sell the surface rights, which would hinder the city's development.

### DEATHS

## Robert Stewart

Robert H. Stewart, 720-of 2800 N. Midland Drive died Monday in a Midland hospital following an extended period of ill health.

Services will be at 2 p.m. Thursday in Alamo Heights Baptist Church with the Rev. Bob Porterfield, pastor of West Kentucky Avenue Baptist Chapel, officiating, assisted by the Rev. Milo Arbuckle, pastor of Alamo Heights Church. Burial will be in Resthaven Memorial Park under direction of Ellis Funeral Home.

Stewart, born Feb. 14, 1906, at Mize, Miss., grew up in Mississippi and Louisiana. He moved to Pampa in the 1940s and to Midland last December. He was a pipe fitter.

Surviving are his wife, Vinnia E. Stewart of Midland; a son, the Rev. Robert Stewart Jr. of El Paso; three daughters, Mrs. William E. Roberts of Independence, Mo., Mrs. Bobby Mitchell of Kuwait and Mrs. Bobby L. Jones of Midland; a sister, Mrs. Ollie Pruitt of Nash, 14 grandchildren and 13 great-grandchildren.

Grandsons who will serve as pallbearers include Randy Jones. Eddie Roberts, Jeff Roberts, Drew Roberts, Tommy J. Davis, Greg Davis, William Kemper and Leonard

## Mrs. Willingham

Services were Tuesday in St. Ann's Catholic Church for Gladys Willingham, 75, of 712 W. Michigan Ave. The Rev. Ed Vrazel of St. Ann's officiated. Burial was in Fairview Cemetery, directed by Newnie W. Ellis Funeral Home.

Mrs. Willingham died Monday in a Midland hospital.

Survivors include a son, a daughter, a sister and six grandchildren. Pallbearers were W. C. Smith, Jack Leonard, Jack McClurg, Charles West, Jack Wallin and Boots Cain.

### Eleno Nunez

LAMESA -- Services for Eleno Nunez, 100, of Lamesa will be held at 11 a.m. Thursday in Eastside Baptist Church here with the Rev. Ricardo Gardon, pastor, officiating.

Burial will be in Lamesa Cemetery directed by Branon Funeral Home. The retired farmer moved to Lamesa 45 years ago from Ballinger and was born in Durango, Mexico. He and Julia Palacio, 102, were married in

Mexico 86 years ago.

Survivors include his wife; a son, James Nunez of Los Angeles, Calif.; three daughters, Mrs. Santos Harris of Wichita Falls, Lucia Salazar and Mrs. Santos Salazar, both of Lamesa, 19 grandchildren and 23 greatgrandchildren.

## Bertha Hull

BIG SPRING -- Bertha Hull, 75, died Tuesday in a Big Spring hospital

following a lengthy illness. Services were to be at 3:30 p.m. today in Nalley-Pickle Funeral Home with burial in Trinity Memorial Park.

Mrs. Hull was born May 11, 1902, in Erath County. She married Britton Hull in 1919 in Brownwood. They moved to Big Spring in 1928. She was a member of the Order of the Eastern Star.

Survivors include two sons, Clinton Hull and Noel Hull, both of Big Spring; two sisters, Mae Flowers o Brownwood and Ethel Heptinstall of Big Spring; a brother, Louis Adkisson of Abilene, three grandchildren and three great-grandchildren.

## I. Cunningham

PADUCAH -- Services for Isa Cunningham, 82, of Paducah will be at 2 p.m. Thursday in the First Baptist Church here with the Rev. Herman Lancaster, pastor, officiating. Burial will be in Buck Creek Cemetery here

directed by Norris Funeral Home. Mrs. Cunningham was the sister of Floyd Armstrong and Truman Arm-strong, both of Midland.

She died Tuesday in a Paducah hospital after a short illness.

A native of Fannin County, Mrs. Cunningham had lived in Cottle County since 1909. She was a member of the First Baptist Church here.

Other survivors include a son, two daughters, two stepsons, three stepdaughters, three brothers, three sisters, seven grandchildren, eight great-grandchildren and a greatgreat-grandchild.

# Minnie Wallace

Minnie L. Wallace, 80, of 4301 Leddy Drive died Tuesday morning in a Midland nursing home following an extended illness.

Services were to be at 1 p.m. today in the Newnie W. Ellis Funeral Home chapel. Officiating was to be the Rev. Harold Quarles, pastor of the First Church of the Nazarene. Burial was to be in Rose Hill Cemetery in Ardmore,

Mrs. Wallace was born Sept. 16, 1897, in Hardin County, Tenn., was reared at Ardmore and lived there and in Illinois, Arkansas, Kansas and in Oklahoma City before she moved to Midland five years ago.

She was a member of the First Church of the Nazarene.

Survivors include a daughter, Louise Ledeker of Midland, and a

### **Russell Davis**

Services were to be at 10 a.m. today in Newnie W. Ellis Funeral Home for Russell L. "Russ" Davis, 70, of 505D W. Estes Ave. The Rev. Charles Lutrick, pastor of the First United Methodist Church, was to officiate. Burial was to be in Berwick Cemetery in Berwick, Iowa, directed by Hamilton Funeral Home of Des Moines, Iowa

Davis died Monday at his residence. Survivors include three sons, two sisters, six grandchildren and two great-grandchildren.

## **Burnice Keese**

ODESSA - Services for Burnice Edward "Skinny" Keese, 60, of Gardendale, father of Jimmie M. Anderson of Crane, were to be at 2 p.m. today in Hubbard-Kelly Funeral Home here with burial in Sunset Memorial Gardens.

Keese died Monday in a Big Spring hospital following a six-week illness. He was born Sept. 23, 1917, in Fisher County. He had lived in Odessa 30 years, moving to Gardendale six years ago. He was a retired mail carrier for the U.S. Postal Service. He married Ona Smith Aug. 9, 1946, in

Keese was a World War II veteran and belonged to the Veterans of Foreign Wars. He was a member of the National Association of Letter Carriers. He was a Baptist.

Other survivors include his wife; a daughter, Mitzi C. Dobbs of Gardendale; three brothers, Lee H. Keese of Irving, Bulan B. Keese of Fort Worth and Edgar H. Keese of Odessa, eight grandchildren and four great-grand-

# Explosion causes mass evacuation

LEWISVILLE, Ark. (AP) - Most of the 2,500 residents of Lewisville were evacuated early Wednesday morning after an explosion rocked this southwest Arkansas town

Authorities said the explosion occurred about 12:10 a.m. when a Cottonbelt Railroad train derailed. Authorities said the car which exploded, and as many as four other cars, were loaded with highly flammable liquid vinyl chloride.

By 5 a.m. only law enforcement officers, firefighters and a skeleton crew at the Lafayette County Hospital remained in Lewisville.

"It's like a ghost town here now," said Lafayette County Hospital Administrator Frank Schweitzer.

Arkansas State Police Capt. Milton 'Scrubs" Mosier said officials were concerned because the burning railroad car was near facilities of the J. & P. Petroleum Co. where tanks of liquid petroleum were stored. He said fire officials could do little but hope that the flames would not reach the

"They tell us not to put any water on it (the vinyl chloride)," he said. "We're just waiting for daylight

The Lafayette County Hospital's 28 patients, including two newborn infants and three seriously ill patients. were transferred by ambulance to Magnolia Hospital, about 25 miles away, apparently without incident.

# Odessa woman charged with knifing death

ODESSA - A 28-year-old Odessa woman charged with murder in the Sunday knifing death of a 29-year-old Odessa man was in city jail here this morning in lieu of \$20,000 bond.

Belinda Lopez Constancio is charged with the murder of Roberto Rojo Munoz about midnight Sunday outside the El Casino Lounge here.

Two other men hurt in the incident, Librado Quinonez, 21, and Salvador Adarco, 19, were in satisfactory condition in Medical Center Hospital

Mrs. Constancio told police she and Munoz argued when he asked her to dance and she refused. The stab-

bings occurred shortly afterwards.

Police were called to the bar when the bar manager reported a fight in progress. Police said there was no fight underway when they reached the bar, but a search of the area resulted in the discovery of Munoz' body in a pool of blood and the two other men nearby bleeding from stab Munoz had been stabbed repea-tedly in the chest and neck, detectives

The murder charge against Mrs. Constancio was filed Monday before Peace Justice Harold Sligar.

# Man in hospital after accident

An 18-year-old Odessa man was in undetermined condition at Midland Memorial Hospital this morning with two broken legs and a broken jaw after his truck and semi-trailer ran off an overpass on Interstate High-way 20 this morning, a Department of Public Safety spokesman said. Gary Scott Weeden was westbound of I-20 about 6: 40 a.m. when his vehi-

cle ran off the road and the overpass at FM 715, the spokesman said.

# Galaviz grand jury probe begins

BIG SPRING - A Howard County grand jury probing into the fatal shooting of a 19-year-old Mexican-American youth by a police sergeant last Dec. 8 began its deliberations

The jurors are expected to issue a report later this week

Big Spring police Sgt. Leroy Spires fatally wounded Juan Galaviz following a high-speed chase here on the night of Dec. 8, a Thursday. Police were in pursuit of a man who

had taken the car of Martha Poss, wife of Midland College Athletic Director Delnor Poss, on a parking lot at Howard College about 10 p.m.

The man apparently had tried to abduct Poss' wife following a basketball game between Midland

College and Howard College. The assailant reportedly pulled a knife on the woman and then fled in her car after she cried out for

# Let's vote the bonds!

City of Midland voters Saturday will have the opportunity of making the Tall City an even better and more enjoyable community in which to reside and do business.

This can and, hopefully, will be done by the voters in Saturday's city election by placing their stamp of approval on the proposed issuing of \$500,000 tn bonds to finance a much needed and long over due expansion project at the Hogan Park Municipal Golf Course.

The facility, Midland's only public golf course, is a definite community asset, just as it has been since it was built in 1959. It is the city's only public recreation facility which pays its own way insofar as operating costs are concerned. Last year, for instance, the course had a net income profit in excess of \$12,000. which went into the city's general fund.

The course is open to everyone, but the problem now is that the facility no longer is able to meet the ever-increasing public cemand, due to the city's tremendous population growth the last several years. The saturation point has been reached, making expansion essential if the demand is to be satisfied.

Rex Worrell, golf pro at the Hogan Park Course, in commenting on the overcrowded conditions, explained that the expansion project as proposed will mean that an additional 120 golfers can get on the course each day. During peak periods, that many or more golfers do not have access to the course because of limited facilities.

Midland Chamber of Commerce directors also have endorsed the proposed expansion project and the bond issue to finance it. President Harrell Feldt said the project is necessary in order "to keep up with the growth and development of the community."

Feldt also stressed the importance in this day and age of providing recreational facilities to serve the present residents and to attract new business and industry to the city. Having public golfing facilities also is of great importance in bringing conventions and trade association groups to Midland.

One of the first questions asked by business and industrial prospects has to do with the availability of adequate public recreation facilities for their employes.

Hogan golf course also is used extensively for tournaments staged by church, industrial and civic groups. Seventy-nine tourneys were held there last

Midland has two country clubs which have fine private golf courses, but both clubs have full memberships and lengthy waiting

This matter of adding another nine holes to the existing 18-hole golf course at Hogan is not a spurof-the-moment proposition. The city council was asked to submit a bond issue proposal in Saturday's balloting only after a complete. lengthy investigation of the overall problem. The results of the study made it quite evident that there is a definite and pressing need for the expansion program.

The present 18-hole facility is recognized as a good course to play. It will be even better, with approval of the bond issue. because better maintenance can and will be provided with less crowded conditions, and it will be enjoyed by many, many more citizen golfers who presently do not have the opportunity of getting on the course.

All this is why approval of the bond issue will tend to make of Midland an even better community. This explains the overall importance of the proposition.

It has been said, and rightly so. that "golf is not just white collar - it's everybody.

The Reporter-Telegram again proclaims its endorsement of the Hogan Park Municipal Golf Course expansion program and urges its approval by the voters Saturday.

Forward Midland!

Bless them which persecute you: bless and curse not. - Romans 12:14.

**HEMISPHERE REPORT:** 

# For Petroleos Mexicanos, life begins at age '40'

By WILLIAM GIANDONI Copley News Service

Mexico's economic life may be beginning at 40.

The Aztec republic observed the 40th anniversary of the expropriation of most U.S. and British oil companies then working in the country. March 18, 1938, with the highest of hopes.

Already Mexico is producing much more fuel in one of its newly discovered oil fields in the southeastern states of Chiapas and Tabasco than is being taken out of those highly touted fields in the North

Already Mexico can claim to be the ninth most important petroleumproducing nation in the world. Already the government oil company, Petroleos Mexicanos, can boast that it is among the most active, if not the biggest, drilling company in the world.

And enthusiastic Mexican oilmen

say this is just the start. It is a far cry from that day in 1938 when then President Lazaro Cardenas ordered the takeover of most of the foreign oil companies working in

His bold gesture marked the first time in modern history that a proud but relatively small country had so defied the great powers, particularly one of them, the United States, its closest neighbor.

As an army general who had commanded troops in the oilproducing regions of Mexico's gulf

which requires that he be praised in

Equatorial Guinea:

Giandoni

coast. Cardenas was well aware of the high-handed tactics of the oil companies and of their defiance of the Mexican government. Eventually, as president, he decided to put an end to it all. And he did.

Mexico suffered initially but, because the onset of World War II diverted British and U.S. attention to Europe, Mexico was spared the threat of armed intervention from abroad long enough for passions to cool. By the end of the war, both the United States and Britain had calmed down to the point where they were willing to negotiate a financial settlement of the expropriation debt. That debt has long since been paid off.

However, the expropriation did shake investor confidence in Mexico and, particularly, the foreign oil companies steered clear of Mexico, preferring rather to develop the petroleum potential of Venezuela and the Arab countries

Mexico, which had been the world's No.1 oil producer in the 1920s, saw its output fall drastically to where it became a net importer.

But Mexico never gave up In the early 1970s, the nation's fortunes changed and Petroleos Mexicanos, or Pemex, as it is better known, began bringing in new fields in the southeastern states of Chiapas and Tabasco. Those general areas had been explored as much as a quarter of a century earlier, but at a time when, for example, drilling to a depth of 10,000 feet was the exception rather than the rule. Now Pemex can go twice as deep.

The results have been nothing less than spectacular.

Whereas a few years ago the average Pemex well produced 120 barrels a day, now the average is 5,500 bpd.

Three of the newly discovered fields - the Antonio J. Bermudez, the Sitio Grande and Cactus - each are equal to or bigger than the Poza Rica field. Poza Rica was Mexico's most important during the period of foreign operation of Mexican of

The Bermudez field, named after the modern Mexican patriot who was director-general of Pemex from 1946 to 1958, and who put it back on a business footing, already produces more than the North Sea.

Mexico has a number of high potential wells, capable of making 18,000 barrels of oil a day, and indications are that some may go to 20,000-25,000

Pemex engineers proudly proclaim that the fields that they are developing off the southern coast of the Gulf of Mexico, in the Gulf of Campeche, offer far more attractive propsects than those in the North Sea.

For one thing, North Sea wells are located around 135 miles out to sea. Mexico's are from 12 to 50 miles off the coast. North Sea drillers work in waters 500-600 feet deep; Pemex, in only 200 foot waters. Finally, the weather in the North Sea is such that oil men can be sure of only 45 good days a year; in Mexico, they have to worry about only 45 bad days a year.

As one Mexican oil man, Adolfo Lastra Andrade, Pemex' assistant production manager, put it recently, 'In 1938, all our oil fields were old. Today, all our fields are new." That's why life is beginning at 40,

for Mexico's oil industry at least.

# WASHINGTON MERRY-GO-ROUND

# F. Macie rules with terrorism

By JACK ANDERSON

WASHINGTON - The white supremacist regimes of southern Africa have been justifiably condemned for oppressing the blacks. But the worst African oppressors are often the blacks themselves.

This has been brought to our attention by black leaders who have urged us to expose the tyrants, both white and black

A blood-curdling- example is Francisco Macie, the President-for-Life of Equatorial Guinea, This tiny, west African kingdom consists of an island, Fernando Po. and a small province on the mainland. It was once known for its tropical beauty, its coffee and its top-quality cocoa.

Now it has become best known in the African community for the atrocities committed by Macie against its people. During the nine years of his terroristic reign. Macie has slain an estimated 50,000 persons. Another 150,000 have fled the country.

Cold statistics simply fail to reflect the horror that Macie is perpetrating in Equatorial Guinea. The United States broke relations with him in 1976. Other non-communist nations have done the same, but Macie still enjoys the support of the Soviet Union, China and Cuba.

Macie is "stark raving mad, a fascist who keeps himself in power by using leftist rhetoric." one State Department official told us. Commented Herbert Spiro, the last American ambassador to Equatorial Guinea: "Compared to Macie, Idi Amin ... is a great statesman."

From refugees and diplomats who once served in Equatorial Guinea, our reporter Murray Waas compiled a vast file of Macie's heinous crimes. His barbaric cruelty should shock the

Two years ago, for example, Macie celebrated Christmas with his national militia in a Fernando Po soccer stadium. As a recording of 'Those Were the Days, My Friend' blared over the stadium's loudspeakers. Macie's troops shot and hanged 150 of the regime's opponents.

The year before, a similar grisly mass execution was publicly performed on Christmas Eve. One anguished refugee told us his mother and another close relative were among the victims. Dissent in Equatorial Guinea

means certain death. A foreign minister, Dr. Atansio Ndongo, died when Macie ordered him thrown from the third-floor window of the presidential palace. On another occasion. Macie invited the head of the general assembly. Pastor Torao, to his office. The dictator reached into his desk drawer, whipped out a gun and shot Torao dead without warning.

Those Guineans who have decided to remain in their homeland suffer a miserable existence. Macie has imposed forced labor on all males over the age of 15. He has ordered mass arrests of workers and assigned them to his own cocoa, coffee and timber plantations.

With megalomaniacal fervor. Macie has ordered a new law passed

with a prop jet and assigned two Russian pilots to fly him around. More ominously, there are some 300 to 500 Cubans in Equatorial Guinea. which Havana blithely describes as 'educational and health advisers."

> training of the national militia. All of the help the mad despot receives, however, does not come from behind the Iron Curtain. Various United Nations agencies have provided him with \$3.5 million in aid over the past five years. Plans call for another \$5 million of UN assistance in

the coming five years. The World Bank recently sent two technical experts to Equatorial Guinea to weigh the prospect of a loan to Macie's government. They reported favorably to their Washington superiors that "Macie was capable of managing any aid in a responsible manner and there were no visible human rights violations, although (we were) not there long enough to make a definitive judgment."

Footnote: A World Bank spokesman told us the organization's charter does not allow them to consider human rights violations as a factor in extending aid to a country.

WASHINGTON WHIRL - Women employees at the Energy Department are fuming at their pipe-smoking boss James Schlesinger - not for the tobacco he puffs but for discrimination in his promotion policies. Of 650 supervisory jobs at the newest Cabinet-level agency, only 11 have been filled by women. Several class action suits have already been filed against the agency.

### **INSIDE REPORT:**

# Carter in rapid reverse on fleet rebuilding project

By ROWLAND EVANS And ROBERT NOVAK

WASHINGTON - No sooner had President Carter delivered his stirring preparedness speech at Wake Forest University March 18 than he went into full-speed reverse on a course that has slashed over twothirds of his previous commitment to rebuild the U.S. fleet.

That decision was revealed by the President at 1:30 p.m. March 23 in the Oval Office to a surprised, unhappy V. Graham Claytor, Secretary of the Navy. But since dissent is tolerated in this administration, the fight is not finished. Claytor made clear to Mr. Carter he cannot publicly endorse this naval defeat. Efforts for faster shipbuilding will be pushed in Congress, with Claytor's backing.

Thus, questions during the 1976 campaign about where Jimmy Carter really stands on defense policy are still unanswered. How does the President's overdue challenge to Moscow square with the drastic cutback facing the Navy? Certainly. that cutback taints the spirit of Wake Forest, and must so be perceived in the Kremlin. "This proves that we can afford words but not hardware." Pentagon official told us. Similarly. defense-oriented critics in Congress advise: watch what the President does, not what he says.

During the 1976 campaign, Mr. Carter, the Naval Academy's first gift to the presidency, pledged naval expansion (while also promising defense cuts). In his first year, he approved a tentative five-year program to build 160 ships, 40 more

than President Gerald R. Ford Pentagon and National Security

Council advisers immediately began chipping away. Leading the crusade for a Navy designed for convoy duty but not control of the seas was Russell Murray, assistant secretary of Defense (one of Robert S. Mc-Namara's now aging whiz kids). By year's end, shipbuilding was reduced sharply and the doctrine of 'maritime supremacy' was downgraded.

But Claytor, a Washington lawyer and railway executive (who was a World War II lieutenant commander), proved a vigorous advocate. He pushed hard for naval expansion and was making progress with Secretary of Defense Harold Brown. Testifying before the Senate Armed Services Committee a few weeks ago. Brown cheered proponents of naval power by declaring: "Since as a nation we depend upon maritime lines of communications more than the Soviets do, we need to have more capability than the Soviets.

This was in harmony with the tough talk at Wake Forest March 17. But later that day aboard the nuclear carrier Eisenhower, the President conferred with Brown about a decision on shipbuilding. The final intense arguments followed the next week in Washington.

Unknown to Claytor, the President selected the lowest possible option. The 160 new ships over five years were cut to 70, of which only 46 were combatant vessels (including six

strategic rather than sea-control purposes). This points to a 375-ship Navy, gradually whittled down from the 800 goal as the 1970s began.

Trident missile submarines, for

Oblivious to this decision, Claytor was called at 8 a.m. March 23 and asked to join Brown and the President at the White House that afternoon. In the morning, in top secret testimony to the Senate Armed Services Committee, he defended the existing policy as he then knew it. Claytor testified he could live with reduced naval spending for the coming fiscal year, but added that additional shipbuilding in the years ahead is imperative. Both he and Adm. James Holloway, chief of naval operations. spoke favorably of an extra nuclear

Leaving Capitol Hill, Claytor went to the White House for the President's unpleasant surprise. Mr. Carter urged everybody to support the presidential decision. Claytor replied he could not publicly endorse the stripped-down shipbuilding program. The President responded with his smile, familiar but enigmatic.

Claytor will not wage an openmouthed campaign courting his own dismissal. But responding to questions from Congress, he will give the Navy's view and give it strongly. That will assure extra naval spending ordered by Congress, possibly reaching \$2.4 billion (including \$2 billion for that extra nuclear carrier). Brown, perhaps the most knowledgeable and certainly the least revealing Secretary of Defense, is expected to keep playing the sphinx.

The real enigma is not Brown. however, but the President. The decision to emasculate shipbuilding was clearly his, not the secretary's. Why did he do it? Defense-oriented members of Congress, including powerful Democrats, say this strongly suggests - some say proves that the Wake Forest speech merely appeased hawkish political sentiment and that the President

really distrusts military power: The true source of the Navy's defeat may be not so much presidential perfidy as confusion. In the spirit with which he twice reversed himself philosophically on natural gas deregulation and defied history by

calling Marshal Tito a champion of human rights, the President throws down the gauntlet to Moscow while savaging his most politically visible arm. It could be that Mr. Carter simply fails to see how his actions undermine the credibility of his

Democratic candidate Blake Hansen, 28, Tuesday became Midland County judge, filling the vacancy left by now-District Judge Barbara Culver.

The appointment is effective until Jan. 1, 1979.

Hansen's appointment came during a public hearing before county commissioners this morning after two motions to appoint others to the post died for lack of a second.

For the first half hour of the hourand-a-quarter meeting, the commissioners debated whether to delay the hearing because of the absence of Republican candidate William B. Ahders. Ahders is in Helena, Mont., to attend his father-in-law's funeral. He sent a resume to the commissioners.

Win Brown, the only Republican on the Commissioners Court, reiterated his position that the commissioners should not use the public hearing method to select and interim judge. But, he said he saw no reason not to go

The purpose of the meeting, Brown said, was to "give a whitewash to the appointment and make the commissioners look good.'

Commissioner Durward Wright, who presided at the meeting, said he thought the best course would be to delay until both declared candidates

for the job could appear in person. A motion by Jack Leonard to postpone the hearing died for lack of a

Republican official Bob Monaghan attacked the method of selection and accused the commissioners of trying 'to embarrass Judge Ahders.'

"What other information do you need to get in order to make a decision you've already made?" Monaghan asked the commissioners.

Wright defended the process, saying it was designed to be fair to all candidates.

Postponement also was requested by Hansen, "in all fairness to Judge Ahders." After the meeting, Hansen said he thought the proceeding was fair because the commissioners primarily considered the resumes of the two candidates.

After a half-hour of consideration and a five-minute recess. Wright said. "We seem to be getting nowhere fast." He said the group would "do our best to hold a public hearing" since no motion to postpone could be

considered. Brown asked Hansen whether he. had been told before he filed for the post of county judge that he would be recommended for an interim appointment, should one be necessary.

"There was no promise ever made," Hansen replied. "I was told I would be considered as would every other candidate."

Wright said he had decided to set aside his prepared questions because Ahders was not present, but asked Hansen several questions about his familiarity with county government and his philosophy of county govern-

'You will be doing less and less bench work and more and more paper-work," Wright told Hansen.

Several persons in the audience requested that the commissioners appoint someone other than the two declared candidates. Wright pointed out that the hearing had received a good deal of publicity and that no one had been excluded from consideration.

Brown first asked attorney Ron Tefteller if he would be interested in

"I should point out that I am actively working as campaign manager and treasurer for Blake Hansen," Tefteller replied. Brown said he knew that and repeated the question.

because he saw "some conflict" of

who had urged the commissioners to leasing practices before rescheduling appoint a third party, if he was an the auction.

When Bettis answered yes. Brown said, "Would you consider the job?" Bettis said he wasn't interested,

either. When J. H. "Timber" Floyd asked if the commissioners had no one else to consider other than the two

declared candidates, Brown said: "Mr. Floyd, I did not want to exclude you. Would you consider being

the county judge.' Floyd said he would consider it "if it would help the county.

Brown at that point moved to appoint Floyd, but, in spite of support from two persons in the audience, the motion died for lack of a second.

At the end of the public hearing. Brown moved to appoint Ahders to the job. That motion, too, died for lack of a second

Commissioner Charlie Welch then moved to appoint Hansen, saying "the people who have aspired for offices in county government have traditionally been young people."

The motion passed, with Welch and Leonard, who seconded the motion, voting for and Brown ab-

"Blake, welcome to the court You can expect full cooperation from me." Brown said after the vote.

## Delay requested

# Hance hits opponent's deregulation position

Calling his opponent's support of phased-in deregulation of natural gas prices "weak," 19th Congressional District candidate Kent Hance said Tuesday in Midland he is for "immediate deregulation.

A Democrat from Lubbock, Hance is running against Morris Sheats, also a Democrat from Lubbock, in the Democratic primary for the seat held by Congressman George Mahon who is retiring at the end of his current

Hance said he believes the people of the Permian Basin want immediate deregulation of gas prices.

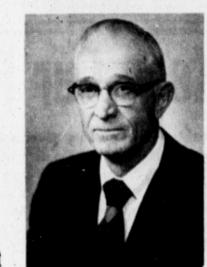

"You've got to take a hard-line stand on gas deregulation," he said. Sheats' position on phased-in deregulation, he said, might lead to gas price controls for several more

Sheats was quoted in his campaign literature as saying he is in favor of gradual decontrol of gas, saying that those who supported "instant deregulation" were "both naive and irresponsible."

However, Hance said Sheats was starting out in a "weak" position and "will end up even weaker." He said decontrol of gas prices will lead to more production.

"Conservation would not solve 5 percent of the (energy) problem." he

In addition, Hance said new production is needed for national defense reasons. He said if the Middle East oil cartel cut off energy supplies to the United States, the country would be in a "vulnerable" position since current production would not be able to fill the gap.

# Baker favors inflexible sentencing

By JIM STEINBERG

"Criminals are by nature gamblers and our present hit or miss system of justice fosters a criminal's belief that by playing the odds he can get off easy." said Republican state Attorney General candidate Jim Baker in Midland today.

To remedy the inequalities for punishment of crimes. Baker said he would muster the power and prestige of the attorney general's office to ask the Texas legislature to develop specific, inflexible sentences for specific crimes.

Baker said this method of sentencing, called determinant sentencing, is used in Maine, Illinois and California. He said Texas should take a careful look at its application here.

Baker said he thinks the determinant sentencing practice would eliminate "a certain disrespect for the criminal justice sysem because of lack of certainty in sentencing.

As the lone Republican in the state attorney general's race, Baker said it is important for Texas to have a strong two-party system. Opposing each other in the Democratic primary,

are former speaker of the Texas House Price Daniel Jr. and former Secretary of State Mark White.

Baker said that whichever Democrat wins, he would be in a better position to "stand up to the presi-Baker noted that he is independent of the political

power structure of the state. "I owe no one anything and they don't owe me anything," he said. Although Baker has no opposition for the May

primary, he has been on the road campaigning four days a week, he said because he realizes that as a Republican in Texas, he is the underdog. Baker was undersecretary of commerce under the Ford administration before he was asked by former

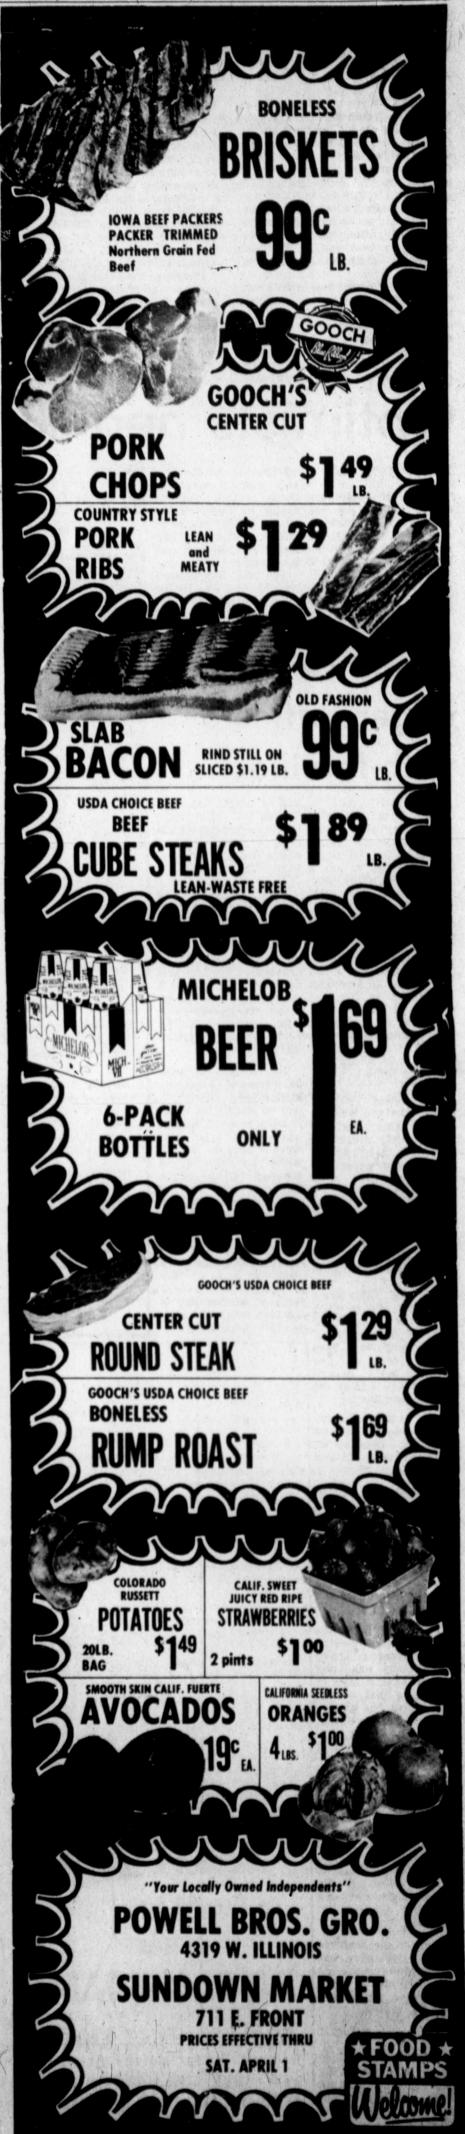

President Gerald Ford to direct his election cam-If elected attorney general, the Houston attorney said he would take a hard look at the budget increases of the office. He added, however, that he pro-

bably would expand the attorney general's organized Baker said Texas, all "Sun Belt" states, is ripe for increased organized crime activities.

Baker said he would have considerable reservations about instituting a statewide grand jury, as it would be open for political abuses. He said he could envision its use, however, in the case where a local judge refused to call a grand jury.

Baker said he believes criminal law enforcement should be left at the local level. In "clear-cut" cases of the abuse of power at the local level, Baker said he would be in favor of an investigation by the attorney general, who would then turn his information findings over to federal officials for prosecution. This authority for the attorney general is currently on the

Baker said that the next Texas attorney general will have to battle with the federal government on energy matters. Baker added that he has been endorsed by former California governor and presidential candidate Ronald Reagan.

Public flaws understanding of economics

NEW YORK (AP) - Our understanding of today's economy is just as flawed as were our economic conceptions during the Great Depression of the 1930s, according to two professors with international

As a result, they say, we have entered an economic era of confusion and rapid fluctuations, attended by optimism or even elation that is shortly replaced by pessimism or even dejection.

We don't understand the forces moving contemporary economies, say George Katona and Burkhard Strumpel, long known for the ir economic analyses at the University of Michigan. Just as John Maynard Keynes identified failure of

demand as a cause of the Great Depressi on, "we are in urgent need of a post-Keynesian paradigm in order to understand the contemporary economy. Lacking that - lacking strategies for d ealing with specific problems - they say, the certifinty of the

post-World War II era has already given way in this decade to disorientation. Katona and Strumpel aren't the first to declare a new economic era, but their insight is perhaps unique. Instead of studying num bers and

equations, they studied psychological at titudes, or consumer behavior. As they view it, early in this decade the economy that had delivered so many consumer goods and provided people with better jobs and great er security

gradually became a source of concern rather than Because of inflation, millions failed to improve their living standards. Unemployment prevailed while jobs went begging. Private and publi c services

We didn't understand why. The simple concepts of the 1960s didn't provide answers, for example, as to why prices continued to rise in the midst of plenty

The belief in inevitable economic improvement faded. Laymen received little help from the experts Economists of the 1960s assured us they had learned to tame the economic cycle. We learned the y had not

- that they couldn't even foretell the rec ession of Katona, a pioneer in consumer behavior studies and a founder of the Institute for Social Elesearch, and Strumpel, now a professor at the Free Univer-

sity of Berlin, say we badly need new econ omic in-"There must be something wrong with the law of supply and demand when prices keep going: up both in good times and bad times, both when demand is

high and when it is low," they write in "A New Nothing original in the title, published by Elsevier Inc., but plenty in the contents. Our failure to understand, they suggest, might be a consequence of our proclivity for analyzing numbers rather than

people.

The difficulties, that is, might be qualitative rather than quantitative. "It may be less the quantity of the product than its composition that has become the problem in the 1970s," they write.

Penalties deter Singapore crime

By KENNETH L. WHITIN

SINGAPORE (AP) - The latest crime statistics confirm that Singapore is one of the safest cities of its size in the world.

Credit alert police work and severe punishm ent for the continuing law and order, says Police: Commissioner Tan Teck Khim. "Murders, attacks on women and robber les are

crimes of violence which hold many cities in fear, and while these are now very low in numbers ... they must continue to receive our priority attention." Tan told a recent graduating class at the police ac a demy.

More non-violent crime, which carries less rigorous punishment, increased the overall orime rate last year. However, Tan said the 1976 crime rate was the lowest in two decades for this city of 2.2 million and among the lowest in the world for cities of comparable size and population.

Lawyers say Singapore is safe because the cops are capable and the courts efficient. Others observe it's relatively hard for a lawbreaker to hide in an island state and that mugging and other street crimes are not part of the local scene.

Many agree with Tan that severe penalties deter serious offenders.

Death on the gallows may be ordered for four, categories of crime: murder, kidnapping, use or attempted use of guns and drug frafficking. T welve persons were sentenced to hang last year. A longer list of offenses carries prison terms, as-is

customary elsewhere. Unlike in most countries, systematic beatings face those convicted of al most 30 crimes, in addition to a stretch in jail. Pushers of an ounce or more of morphine or a half-

ounce or more of heroin may be hanged. Those dealing in lesser amounts of the two drugs face 20 years and 15 lashes from a cane known as the rotan." which can leave scars for life.

Convicted armed robbers get at least 10 lashes in addition to a prison term. Six lashes plus prison punish those who possess a firearm, knife or thass

knuckles. Vandalism, which can include writing on public walls, may draw three strokes, which might explain

the lack of graffiti here. Females, those sentenced to death and prisoners

older than 50 are not beaten. In addition to civil crimes, members of the ar med forces found guilty of "aggravated disciplinary barrack offenses" may get a maximum of 12-lashes.

The offenses include mutiny, escape and gross

# Adventurous man, 72, ends grueling race

By GAY LORD SHAW The Los Angeles Times

NOM E, ALASKA - By almost any measure, Norman Vaughn already had enj oyed a full life of adventure.

In 19 29, he explored the Antarctic with A.1m. Richard Byrd. In 1937, he represented the United States in the winter Olympics, the only time the games have featured sled dog racing In World War II, he hauled wounded soldier's by dog sled through the snows of France and Belgium. In 1977, he equipped a dog sled with wheels and rolled down Pennsylvania Avenue in Jimm: / Carter's inaugural parade.

But one of life's goals had eluded Vaughn: completing the world's longes t dog sled race, a 1,000-mile trek from Anchorage to Nome through the heart of Alaska's trackless wilderness. Twice he entered the Iditarod Trial race, as the grueling contest is known, and twice he failed to finish. Once he was forced to quit by frostbite, the other time when lais sled broke beyond repair.

Thirs year, at age 72, Vaughn entered again, and this time he made it to No me. He was on the trail 22 days, 3 hours., 29 minutes and 41 seconds, more than a week longer than the winners, and only three seconds ahearl of the last place team, but residents of this Bering Sea coast comi nunity greeted him late Sunday as if he had finished first.

Hundreds lined Front Street to cheer, the town's siren wailed a welcome and a special banquet was arranged for the retired Air Force

"May goodness, you'd have thought I Vaughn said of the reception. "A ctually, I enjoyed it more than anycine else," he said of the journey through blizzards and sub-zero cold.

forbidding mountains and virgin forests, across frozen tundra and icecovered rivers.

"The front-runners didn't have time to look around ... I did, and what a beautiful place this is that God has given us," he said. "I enjoyed the scenery more, and the people more, but the excitement of the race never left me.

Vaughn was running a lonesome last when he pulled into Unalakleet, a village 270 miles from Nome. There he encountered Andrew Foxie, a 25year-old Eskimo who had decided to drop out of the race because his own village was nearby and he didn't have the air fare home from Nome.

"He's a very fine young man, and I arranged for his air fare home so he could finish the race." Vaughn said. 'We joined up and came on ... We had a great trip together.

Vaughn said when they heard that the first and second place mushers had finished the race only a second apart. "we decided that if the frontrunners could end up with a onesecond separation, then the rearrunners could have a close finish, too." So as Vaughn and Foxie neared Nome, they began a sprint for the finish line. Vaughn beat his younger

friend by three seconds. Afterwards, the white-haired Vaughn said the trek was "quite easy by comparison to what I thought it was going to be." And he laughed about an unexpected detour

"I was coming down over the shoulder of McKinley Pass. It was night, and the dogs were going at a fast lope down the hill, down and down and down. The moon was out full blast, and I was looking around at this beautiful sight, when a white jack rabbit ran across the trail in front of

# Expansion approved

**AUSTIN—The Railroad Commission** of Texas has approved a 14-acre expansion of the permit area of Exxon Minerals Co.'s Fellder uranium operation in South Texas.

Chairman Mack Wallace and Commissioners Jon Newton and John H. Poerner acted on the reccomendation of the commission's Surface Mining and Reclamation Division.

The Felder operation is located five miles northeast of Three Rivers in Live Oak County. March 31, 1977, Exxon was issued a surface mining permit covering a project area of 1.500 acres.

The commission approved these additions to the Felder operation permit area: nine acres adjacent to and immediately east of Exxon's J. C. Felder lease and five acres immediately south of the old Ray Point Mill at the site of an old ore pad.

In its original permit application, Exxon indicated it expected to mine 200,000 tons of ore annually until

# Charged with fraud

SHREVEPORT, La. (AP) - Donald G. Gardner - once questioned in the Jim Leslie slaying — has been charged with an oil stock swindle

Federal marshals arrested the former professional wrestler Tuesday on charges of fraud in the sale of oil and gas securities stemming from a fourcount indictment returned Friday by a federal grand jury in Alexandria. The indictment was secret.

Gardner was arrested last year in connection with the shotgun slaying of Shreveport advertising executive Leslie in Baton Rouge and in connection with the Concordia Parish killing of Russell Griffin. None of those charges still stand, and he was never brought to trial on any of them.

The federal indictment alleges that Gardner - who formed Encore Enterprises - sold more shares of oil leases than he owned; misrepresented himself, his staff and company as being experienced and successful in the oil business; lied about the expected returns from the wells drilled on leases owned by Encore, and issued false and misleading progress

reports on drilling operations.

The indictment says that between January and June, 1976, Gardner's company sold \$584,260 worth of shares in five wells being drilled on the Max-well lease. It also says that between April and September of that year, he diverted \$171,000 of that money to bank accounts of other, unrelated companies and still more of the inves-

tors' funds to his personal use. Federal authorities say Gardner also bilked a drilling contractor of part of the money due the contractor, thereby preventing completion of the five wells in which Encore had sold

In each of the four counts, Gardner is accused of using the United States mails to carry checks obtained through fraud.

civil suit in connection with Encore's perations and was ordered to return oney to four investors.

#### spotted location for a 4,400-foot test in the Ha-Ra (Clear Fork) field of Crosby County, two miles southwest of Robertson.

The operation is No. 1 Robertson, 1,980 feet from north and 660 feet from east lines of section 1054, block 1, HE&OB survey.

It is 1/2 mile east of production.

DRILLSTEM TEST

Gas surved and oil was recovered on a drillstem test in the Pennsylvanian at F. W. Holbrook of Midland No. 1 Winston, wildcat one mile southwest of Snyder in Scurry

County. Operator tested the zone from 6,825 to 8,865 feet, with tool open two hours. Gas surfaced in 12 minutes at an unestimated rate. There was a good blow throughout the test.

Recovery Was 1,280 feet of oil and

Logs were being run. Location is 2,425 feet from north and 467 feet from west lines of section 12, block 1, J. P. Smith survey.

# Methane slates Canyon tester

The Methane Gas Co. of Dallas No. 3-H Seahorn has been spotted one mile northeast of the Adams-Baggett Ranch (Canyon gas) field of Crockett

County, 30 miles south of Ozona. Slated for a 5,600-foot bottom it is 793 feet from the most easterly south line and 1,181 feet from the mosteasterly east line of D. Y. Jackson survey No. 81/2, abstract 4635.

### **DRY HOLES**

BORDEN — Hadson Ohio Oil Co. No. 1 Beaver, wildcat. 1,980 feet from morth and 660 feet from west lines of section 352, block 97. H&TC survey. 13½ miles northeast of Gail. td 8,310 feet.

CONCHO — Stanley H. Rosenthal No. 1 Fox-Melver, wildcat. 457 feet from morth and 1,787 feet from west lines of section 307, block 72, T&NO survey, three miles southeast of Paint Rock, td 3,675 feet.

CROCKETT — Methane Gas Co. No. 1 C. H. Kenley, wildcat, re-entry, 560 feet from morth and 660 feet from east lines of section 80, block 0, GM&SA survey, 30 miles south of Ozona, td 12,084 feet.

MITCHELL — Ram Exploration Co. No. 1-A Henderson Lease, wildcat, 660 feet from morth and 1,980 feet from west lines of section 10, block 28, T-1-5, T&P survey, two miles south of Westbrook, td 8,074 feet.

PECOS — C&K Petroleum, inc. No. 1-44 Hunt-State, wildcat, 660 feet from north and west lines of section 44, block C-4, GC&SF survey, 8½ miles southeast of Bakersfield, td 10,685 feet.

Cities Service Oil Co. No. 1-A Perry, wildcat, 1,220 feet from morth and east lines of section 2, block Z, TCRR survey, 15 miles northwest of Sheffield, td 9,630 feet.

Getty Oil Co. No. 1 Skeeter, wildcat, 1,320 feet from south and 880 feet from east lines of section 2, block Z, TCRR survey, 20 miles southeast of Bakersfield, td 5,500 feet.

REEVES — Chevron, USA, Inc. No. 1-12 Reeves-State.

feet.

REEVES — Chevron, USA, Inc., No. 1-12 Reeves-State. in the Marsh. South (Delaware) field. 1,980 feet from south and 467 feet from west lines of section 12, block 45, pal survey, nine miles southwest of Oria, td 2,938 feet.

REEVES — Chevron USA. Inc. No. 1-36 Reaves-State. March, South (Delaware gas) field. 1,220 feet from morth and 990 feet from west lines of section 36, block 45, pal survey, 12 miles southwest of Oria, td 3,006 feet. plugged back depth 2,860 feet.

# **Projects** staked

A. A. Archer Jr. of Monahans No. 1 J. B. Tubb is to be drilled as a 1/2-m1le north stepout to the Crawar (Fusselman) field of Ward County, nine miles northeast of Royalty.

The 6,500-foot test is 330 feet from north and east lines of section 17, block 20, psl survey.

ANDREWS TEST

Rial Oil Co. of Midland will drill an east offset to production in the Hutex (Dean) field of **Andrews County** 

It is No. 1-5 University, 660 feet from south and 1,980 feet from east lines of section 5, block 7, University Lands survey and 15 miles northeast of Andrews.

Contract depth is 10,000 feet.

# Wildcats scheduled

Amoco Production Co. staked site for a 10,600-foot wildcat in the Slaughter field of Hockley County, six miles southeast of Sundown

The project is No. 51-G Slatuger, 339 feet from south and 467 feet from east lines of labor 52, block 37, Zavalla County School Land survey, It will test the Abo, Wolfcamp and Cisco.

COTTEL TEST

Sojourney Drilling Corp. of Abilene No. 1 Chalk-Goodwin Unit is to be drilled as a 7,000-foot Atoka wildcat in Southeast Cottle County in the Chalk

It is 1/2 mile south of production in the Tippen, Southwest (Conglomerate) field and 1,386 feet from north and 1,452 feet from west lines of subdivision 9, Mary Anny Cook survey, abstract 65.

# Mitchell sets Irion project

Mitchell Energy Corp. No. 2 M. B. Noelke and others will be drilled as a 3,900-foot test in the Monument (Spraberry) area of Irion County.

Location is 8,316 feet from north and 467 feet from northwest lines of Tom Green County School Land survey No. 1. It is 10 miles southwest of Mertzon.

coming

#### The proposal has split the gas inthe conferee's plan. dustry, but supporters overlook the potentially serious effects the compromise could have on producers, producing states, and the nation, the Journal says. Some segments of the gas industry,

More bad than good

in pricing compromise

the prospect of regulation forever.

And, AGA worries that price con-

trols under the Federal Energy Regu-

which has unanimously opposed well-head price controls for almost a decade, are supporting the gas compromise because it provides a seven-year phaseout of price regulations.

TULSA, Okla.—There is more bad

than good in the gas-pricing compro-

mise worked out by U.S. Senate con-

ferees, the Oil & Gas Journal says in

its March 27 editorial.

But it also extends price controls into the intrastate market, the last surviving free market in the entire gas business.

Consideration must be given to the proposal's other drawbacks, the

For example, the measure's definition of new gas, which receives favorable price treatment, is restrictive. It includes only production from wells drilled at least 21/2 miles from existing holes, wells drilled 1,000 feet deeper than nearby wells and wells drilled into new reservoirs onshore.

But new wells that don't fit the compromise's definition still face soaring costs for drilling and production, the Journal points out.

And price increases wouldn't occur rapidly enough. At the end of the price-control phaseout, gas prices still would be dlower than competingfuel prices. So a gas-price jump would be likely, putting pressure on Congress to exgtend controls.

"The Senate, which voted for de-control twice in the last three years, network of its conferbetrayal of the mandate em," the Journal editorial compromise must be imserved acounts before it upport of the industry or several counts and it is set to several counts of the several counts before it upport of the industry or several counts and the several counts of the several counts ought to reject the work of its conferees as a betrayal of the mandate given to them," the Journal editorial says. "The compromise must be improved on several counts before it deserves support of the industry or Congress.

Two gas-industry associations, the American Gas Association (AGA) and the Interstate Natrual Gas Association (INGAA), support the compromise, although INGAA attaches some conditions.

AGA is attracted by immediate deregulation of gas from wells deeper than 15,000 feet deep. AGA says that would cover as much as one-third of the remaining U.S. gas potential. In addition, deregulation of other

new gas in seven years-or nine years if the President exercises his right to reimpose controls—seems better than

# Bombay hotel has a history

The Los Angeles Times

BOMBAY, India - It was an hour before daylight as the taxi sped through the streets to the airport, ending a brief visit in what many claim to be India's most sophisticated

Two healthy looking rats scurried beneath the glow of street lights to seek refuge from the coming dawn. Parking lights on the 10-year-old Indian-made Fiat served as warning to the sparse oncoming traffic.

People of the street were beginning to stir, too. Two homeless men squatted on the sidewalk by a small wood fire built for warmth during the cool night and to discourage intruding scavengers. In the faint glow of dawn other human forms could be seen

wrapped in blankets on the sidewalk. On the afternoon before, the guide had stood in Kamala Nehru Park overlooking Bombay's crescent harbor and Chowpatty Beach.

'At night we call it the Queen's necklace, because the lights glow like jewels," she said.

If the harbor lights are a necklace, then surely a pendant on the necklaceis the 75-year-old Taj Mahal Hotel overlooking the harbor and the bold Gateway of India that commemorates the visit of King George and Queen Mary in 1911.

Even Moghul emperor Shah Jahan, builder of the "real" Taj Mahal in Agra, would likely be glad to check in for a fortnight at Bombay's "Taj."

Sheiks in white flowing caftans cluster in one part of the busy lobby and a cacophony of French, German, English and some unidentifiable languages create an ambience fit for an international spy story

The charm of the hotel is in the "Old Taj," as both visitors and locals refer to the U-shaped stone hostelry that nestles in the shadow of the skyscraping Inter-Continental wing poignantly pegged the "New Taj."

Rooms are large, with parlor arrangements even in the lesser rooms. And for those who spurn the cool comfort of air conditioning. there's always the wide-blade overhead fan to stir the humid Bombay air.

Hallways are reminiscent of the Moghul era, with mezzanines on some levels overlooking simulated pools on the floors below.

In its time the Taj has had an impressive guest list, although records are more skimpy than in many of the world's grand hotels. A recent article commemorating the three-quarters of a century anniversary documents visits of John Barrymore, Duke Ellington, Somerset Maugham, Aly

Khan and others More recently a sheik reserved the Rajput Suite, one of four suites ranging in price from about \$185 to \$215 a night. That was for his personal use. He brought his harem along and reserved the entire 7th floor of the

New Taj for the ladies. Small suites in the Old Taj start at about \$62; a single room in either the old or new goes for about \$43, and a double for \$53 U.S.

For those venturing from the hotel's tradition of luxury, there's much to see in Bombay. A city sight-seeing tour hits the high points, but a few

areas deserve more time. Taxis are relatively easy to come by and fares low. It's about as cheap

to rent a car with driver and guide as it is to rent a drive-yourself car in the United States. (India rents cars only with driver.)

To gain a good insight of Indian people, visit Mani Bhawan, a house occupied periodically by Mahatma Gandhi between 1917 and 1934. On the ground level is a library of books about Gandhi, some of his own writings and part of his book

The second floor shows some of his few personal belongings, a sparse material collection. But of greater interest is a room filled with dioramas depicting Gandhi's life from the time of birth in 1869 until he was assassinated by a fanatic on Jan. 30,

Within walking distance of the Taj is the Prince of Wales Museum with good archaeological and natural history collections; among the works of art are intricate miniature paintings depicting scenes of the 18th

century and earlier. If there's a full day to spare, Juhu Beach in the suburbs is a good outing. Try lunch at the Sun and Sand Hotel there, overlooking the Arabian Sea.

Elephanta Island, about an hour by launch from the Gateway of India provides a full morning or afternoon of cave temples carved about 1,300 years ago and depicting stories in the life of the Hundus' Lord Siva. The Government Tourist Office can direct you to a launch with an Englishspeaking guide.

Bombay may be a shopper's mecca when stores of interest are sorted out. But not to be missed is Crawford Market, where everything, including fish and produce, is under one roof. It's virtually impossible to park there. so you might specify a time for your driver to pick you up after shopping.

There are fewer beggars in the hotel areas of Bombay than in some other metropolitan areas, although they're plentiful enough. Guides here, as well as in other Indian cities, explain that the government has provided housing and employment for many of the beggars, but they've found it more profitable to beg than to work in handicrafts.

"Adults are frequently arrested for begging, so often they send their children out to beg." one guide explained.

If that's the beggar's choice, it's a good one, because the brown-eyed little urchins are tough for Westerners to resist.

# Road work to begin

SAN ANGELO - Work is scheduled to begin this week on 10.5 miles of highway in Glasscock and Reagan counties, D. R. Watson, district engineer for the State Department of Highways and Public Transportation,

The new highway, RM 3093, will connect RM 2401 west of St. Lawrence to RM 1357 in Reagan County and
