Schools constructed in violation of safety codes, records indicate

By KEN HERMAN

EDINBURG, Texas (AP) Thousands of South Texas students are attending school in buildings apparently built in violation of state laws aimed at insuring structural safety, building records show.

A state board of engineers investigator in Austin confirmed that the Associated City-County Economic Development Corp. here did not use registered engineers on school and city projects in the area.

'You'd think it was a sad state of affairs," Stan Gilbert told newsmen for The Associated Press and the Brownsville Herald.

Top elected officials - including Gov. Dolph Briscoe, Attorney General John Hill, U. S. Rep. Kika de la Garza of Mission and U.S. Sens. John Tower and Lloyd Bentsen - were notified of the apparent violations by the Harlingen chapter of the Associated General Contractors beginning in

The anti-poverty agency's records list "unknown" as the engineer on many of the projects. The records also include names of non-engineers as engineer on some projects.

Luis Ramirez, acting director of ACCEDC, provided names of engineers on several of the projects but had no comment on the matter.

The records list Homer Elizondo of Harlingen as engineer on a City of Mercedes project. Elizondo said Wednesday he is not an engineer and does not know why his name was

West Texas Coffee Equipment Co. of Abilene is listed as engineer on a La Villa school project. The general manager for the Abilene firm said his company has no staff engineers and that the listing "must have been a mistake."

A plaque on the La Joya city hall built by ACCEDC lists Aaron Sandoval as architect for the building. Gilbert said Sandoval, an ACCEDC employee whose name is misspelled on the plaque, is not an architect.

Included among the projects are school facilities in La Villa, La Joya, Edcouch-Else and Mercedes. City projects in apparent violation include buildings in La Joya, San Juan, Mercedes, Donna, Alamo and Edcouch. Officials in those cities said they had assumed ACCEDC would take care of the engineer require-

Gilbert said the state law requiring a registered engineer on public projects was approved shortly after a New London, Texas, school explosion in 1937 that killed 295 persons.

However, he added, the two-year statute of limitations on the potential misdemeanor cases has expired on most of the projects. He said city, school and ACCEDC officials could have been prosecuted but probably

"The board decided not to go into the courthouse and beat them over the head." he said. Randy Fleuriet, AGC general

manager, said that following a meeting with Tower in Austin in late 1976, the senator promised an investigation of the matter. After several months of calling Tower's office. Fleuriet said he was told by a Tower aide to "settle your differences

Hill's office was informed of the apparent violations and the board of engineers' investigation in a threepage letter from the AGC in September 1976. Fleuriet also alleged violations of bidding and bonding requirements by ACCEDC.

De la Garza wrote the U.S. Department of Labor in 1974 in behalf of the AGC. The congressman was told that the Edinburg agency would be required to achere to bidding requirements.

Bentsen's Washington office received numerous letters from the AGC, the latest in March 1977 detailing the

Blaze threatening Davis resort

By ED TODD

FORT DAVIS - The rangeland fire that has burned over 20,000 acres has spread from the McIvor Ranch and now is threatening the Davis Mountains Resort about 15 miles west of

"We have some property just right at the fence line burning and at four or five different locations as well," Ann Scudday, who was manning the resort's office, said this morning.

She said "four or five" houses at the resort have "come close" to being lightning late Friday on the 60-section

This morning, many of the 200 volunteer firefighters who Wednesday were attacking the spreading fire with wet tow sacks were back out this morning, she said. Most spent the

The front of the fire is about 10 miles wide, Mrs. Scudday said. And much of the fire is unseen; it has spread to canyons and crevices in this mountainous and rugged country.

"In a lot of areas, we had to wait until it burned down before we could get to it. We have had to fight mostly on the ground with just wet (gunny) sacks," she said.

Joining the townspeople and ranchers in battling the fire are students from Sul Ross State University in Alpine and from Alpine and Fort Davis High schools, she said.

She said her husband Roy was among the firefighters.

On the resort, which is just off Texas Highway 166 about 15 miles west of here, are 22 permanent residences "and many, many mobile homes" owned by out-of-towners who come here on weekends and vacations, she said.

"We still are looking for volunteers" to fight the fire, she said. "Of course, young people can really climb the mountains and fight.

"They're the kind that can really work and climb these mountains,

she said, referring to the students.

The fire encroaching on the 9,000acre resort is laying down heavy smoke. "You can hardly see through it," she said.

On Wednesday, a unit from the Texas Forestry Service at Lufkin, in the piney woods of East Texas, flew in to make aerial surveys of what Mrs. Scudday called a "vast" and "immense" fire.

However, she said the forestry service was prepared for the vastness of this and the terrain.

Up on Mount Livermore, where the fire began, the broad blaze has almost burned out, said Sally McIvor, wife of rancher Donald McIvor, who was

"It's just not spreading," she said this morning. "The only parts that are burning are inside the burn," she

Though the fire has been contained on the McIvor's upper ranch (Mount Livermore), it has spread to the "lower ranch."

"It's still burning off the side of it (Mount Livermore)," she said.

Mrs. McIvor said between 40 and 45 men were fighting the rangeland fire with wet gunnysacks Wednesday. They were back this morning, she said.

Although relatively small, it was a 'very efficient crew,' she said.

No one yet has been injured in fighting the fire. And no property, other than grass, shrubs and trees, has been damaged, she said.

Apparently not endangered is McDonald Observatory, which sits on ount Locke

The fire is about "three or four" miles from the observatory but would have flat land to burn over and a highway to cross before it could start burning up the side of the mountain, an observatory staffer said this morning.

But if the fire were to get to the flat,

it would be "a lot easier to control' because of the short grass and an-ticipated low burning of the fire, the staffer said.

Cracks in the walls of the city municipal building are pointed out by San Juan, Texas city secretary Aracelie Gutierrez. At some points the cracks are large enough for the insertion of a plastic comb. (AP Laserphoto)

Leaders to meet over Margaret

LONDON (AP) - Prime Minister James Callaghan and Queen Elizabeth II meet tonight amid ex-pectations that they will discuss the public outery over Princess Margaret's relationship with playboy Roddy Llewellyn.

Callaghan was going to Windsor Castle for the weekly audience at which he advises the queen on political and constitutional affairs. Both have remained publicly aloof from the controversy over the queen's younger sister. But it was considered certain that they could not ignore the criticism of the 47-year-old princess for her close association with the 31year-old brewery heir and would-be night club singer.

Buckingham Palace refused to comment on a report in the Sun Wednesday that the queen had ordered Margaret to give up Roddy or give up public life. But the Dally Mirror reported today that Prince Philip, the queen's outspoken husband, told Margaret to quit public life because she is hurting the royal

The princess is certain to be the target of more criticism in the House of Commons Friday when the

Judges hear arguments on transfer

ODESSA — Three judges from the Texas Court of Civil Appeals Wednesday heard arguments about the transfer of rape charges against a 16-year-old Midlander from juvenile to district court.

The judges, meeting in Odessa, heard oral presentations from attorneys in the case of Glenn Bryce Billingsley, Billingsley, who was 16 at the time of his arrest, was certified an adult by then-Juvenile Judge Barbara Culver. He was indicted on a charge

Culver. He was indicted on a charge of aggravated rape.

The Billingsley family is appealing the certification, primarily on the contention that Judge Culver, who also was county judge, had no jurisdiction to be juvenile judge.

Randali Lundy and Tom McCall argued the case for Billingsley before the appellate judges Wednesday, and County Attorney Leslie Acker represented Midland County.

Neither Lundy nor Acker would predict when a ruling might be expected from the court.

Billingsley is free on \$15,000 bond.

civil list, the tax-free allowance paid by the state to 11 members of the royal family to compensate them for the public duties they perform and to pay for the maintenance of their

The list last year totaled 2.9 million pounds, or \$4.51 million. The Times of London reported a 10-percent in-crease was likely. Margaret got 55,000 pounds (\$95,000), and an an-nouncement of an increase for her is certain to bring a howl from left-wing members of Callaghan's Labor party.

Left-wing Laborites have been the most vocal critics of the princess since she spent a winter vacation recently in the Caribbean with Liewellyn while Britons at home were struggling with winter cold, high prices, unemployment and inflation. They accuse her of not doing her share and of not living up to the standards of conduct expected of the royal family.

Margaret was at Windsor with the queen after an announcement Mon-day that she had the flu and the royal doctors had put her to bed. Buckingham Palace reported that she got up for lunch Wednesday with the queen and her children. But another announcement said she was not able to attend the confirmation of her daughter, 13-year-old Lady Sarah

Examiners to confer

ODESSA — A peace justice here has confirmed that three pathologists involved in the investigation of the Jan. 22 death of Ector County Jail inmate Larry Lozano are scheduled to meet here Friday for a conference.

Peace Justice Virgil Lumpee said he is aware of a proposed meeting

Peace Justice Virgil Lumpee said he is aware of a proposed meeting between Dr. Kris Challapalli of Odessa, Dr. Frederick Bornstein of El Paso and Harris County medical examiner Dr. Joseph Jackmczyk.

"They will talk about whatever doctors talk about," said Lumpee today of the meeting on Friday.

At 10 a.m. Tuesday, Lumpee has scheduled to begin an inquest into the death of Lozano. Lumpee said it seemed likely the inquest would continue for several days.

seemed likely the inquest would continue for several days.

Ector County sheriff's officials contend Lozano committed suicide by banging his head on the window of his padded isolation cell. Dr. Bornstein, who was hired by the Lozano family to perform a second autopsy, has said that the death was homicide.

Error-strewn effort has an odor

Complacency is not his trade mark.

Improving on garbage is.
"Whatever we're doing, it can be improved on now," said Jack Dillard, who sees a dire need for bettering

He's a pioneer in "research recovery" from shredded — milled — It was Dillard who, with the "waste-filled" knowledge of Dr. Geoffrey

Stanford, set up Odessa's garbage-to-pasture waste disposal system about five years ago. But all is not well, although Dillard

and Odessa can be given an A for at least doing something about trying to turn waste into man's greatest material blessing: good, fertile soil.

Crackerjack, humus-filled soil rates right up there with the sun, air and water. You've got to have them all to make hay.

Stench offends nostrils. And back in 1973 or so, Dillard saw garbage being piled high and wide and being buried in waste-land trenches called "sanitary land fills."

Odessa was growing. And whatever grows must cast out waste. On that account, man is No. 1.

"It was getting out of hand pretty fast," said Dillard, who then was the city's director of utilities. Today, he

oversees Odessa's housing and community development.

His assignment was to make a stab at solving Odessa's garbage disposal

problems. Just burying the stuff seemed like such of a waste. It was like sweeping dust and dirt under the

So Dillard sought the advice of one Geoffrey Stanford, an Englishman well-versed and learned in turning garbage into fertilizer and humus.

But what followed, to hear Dillard tell it, was a "comedy of errors."

Most early experiments are.

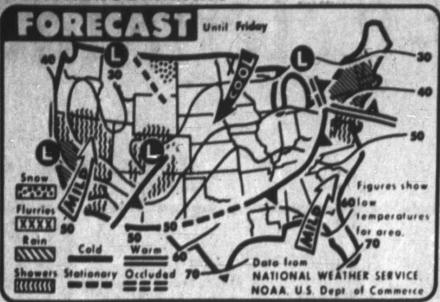

"I had never messed with garbage," said Dillard, who was about to get his hands dirty.

First, the city got permission to

First, the city got permission to dump shredded and milled garbage on a 1,500-acre tract of typical semi-

Texas area forecasts

By HARRY NELSON The Los Angeles Times

LOS ANGELES — Doctors will soon be able to predict which child is destined to develop high blood pressure later in life, a federal health

"Essential hypertension (high blood pressure) which blossoms in adulthood has its beginning in childhood. Our problem has been to recognize it in childhood when the blood pressure is still normal," said Dr. Sidney Blumenthal.

To solve the problem, researchers have collected blood pressures on a large number of children of all ages and developed what are known as normal distribution curves for each age

Just as 6-year-olds, for example, may vary in height and weight and still be considered normal, they also vary in blood pressure, Blumenthal said in an interview.

Researchers at the National Heart,
Lung and Blood Institute, where
Blumenthal is special assistant to the
director, want to focus attention on
the children whose blood pressure
falls within the upper 5 percent of the
normal distribution curve.

It is this group that researchers believe are destined to become victims of high blood pressure later on, Blumenthal said as he spoke at the National Conference on High Blood Pressure Control.

Boom beginning to ease Cairo's hotel shortage

By THOMAS W. LIPPMAN The Washington Post

CAIRO-A hotel construction boom is under way in Egypt's teeming capital, and not a minute too soon. Cairo's chronic and acute shortage

of decent hotel rooms is right up there with the telephone mess and the traffic chaos as an irritant to life, a drag on the national economy and a sure fire topic of conversation

As one Egyptian hotel man put it, "A hotel in Egypt is like a gold mine," and the gold rush is on. Almost every major international chain has a hotel under construction here, and a score of other projects by independent developers are also in the works. Nearly every foreigner here has his

favorite hotel horror story. There's the one about the Iranian tour group that arrived with confirmed reservation only to be turned away and sent to Alexandria, 140 miles north, to find rooms. Or the assistant manager who waits in his hotel's coffee shop each morning while the guests who slept on rollaway beds in his office are shooed

Or the airline crew that was turned away after a long flight because the rooms their airline rents permanently had been given to someone else. Or the California tourists urgently notified not to come because the government preempted their rooms for a visiting delegation — a frequent occurrence that escalates confusion

Cairo, a metropolitan area of aout 11 million residents and a major political, religious and tourist center, has only about 1,600 hotel rooms that meet international standards.

In the words of the practical guide published by the American University, "do not hope to get reservations at major hotels on short notice. They are generally booked full for months ahead, in or out of the tourist season."

The statistics bear this out. At the Cairo Sheraton, the occupancy rate for February was 99.8 percent and the hotel has stopped taking reservations through April. The lowest occupancy rate among the four major hotels was that of the Mena House Oberoi, at the edge of town near the geat pyramids, where it was 95.4 percent. In the United Staes a hotel can break even at 60 percent occupancy and is doing nicely at 70 percent, hotel officials

just an inconvenience. It is a serious drag on an economy in which tourism is the principal earner of foreign currency and a deterrent to the foreign businessmen whom Egypt is trying to

According to the minister of tourism. Moheb Stino, tourism brought in about \$640 million last year, more than oil, more than the Suez Canal, more than cotton. But that is only a fraction of what it could be if Egypt had enough airline seats and hotel rooms to meet the demand. Stino set a target of \$1.2 billion in tourist revenue by 1980, and the hotels that could make that attainable are under construction.

A second Hilton of 900 rooms, more

than twice the size of the existing one. is being built right on the Nile in Central Cairo. Sheraton is adding a second tower of 370 rooms to its present building and is working on a second Sheraton near the airport

Meridien, the Air France hotel chain, is also adding a second Cairo hotel near the airport. The Washington-based Marriott Corp. has construction crews working day and night in a rush to complete its first hotel in Egypt on the site of an old Nileside palace. Other chains that have hotels under construction are Hyatt, Intercontinental and Holiday Inns. Most of these will be Egyptian owned, with the foreign hotel chains providing the management services.

Error-strewn effort has odor

(Continued from Page 1A)

arid land just west of the city. The object was to transform poor soil into rich top soil with man's over

The city of Odessa (1) set up a shredding plant, (2) bought a compactor or so to ready the milled refuse for dumping (3) into 38-cubic yard trailers for hauling the "soil enrichers" to the needy soil.

Nothing worked exactly as planned. "We've had a lot of difficulty," Dillard said. Much of the 65,000 to 70,000 tons of milled and compacted garbage dumped onto the field didn't break up readily. It was chunky.

But Dillard was steadfast: "Shreaded garbage makes the greatest cover material. Murphy's law was working:

- Wrong transmissions were installed in the trucks. - The milled refuse was in clods.

And it didn't spread too evenly by the manure spreader. — "And the weather didn't work with us," said Dillard. "We put on (grass) seeds and (all) we had was

wind . . . no rain . . . drought and a late freeze." The experiment hasn't worked too

well on a large scale. But Dillard tried a mini-experiment in his own backyard. He enriched his soil with manure and milled refuse

and produced a good vegetable garden. Naturally, it's easier to water an cultivate a family garden than a

whole range. 'We have every hope that one of these days we're going to grow a pretty decent crop of grass," Dillard

He recognized what organic gar-deners and composters have known

"You can take garbage by itself and really grow superlative plants . . .

with sludge, even better.' "In West Texas," Dillard said, "we don't have any business wasting

anything that would help save us water. Garbage can do that, he said.

"Handled properly, it (garbage) can be a superlative asset."

In-bond industry helps Mexican families, angers U.S. laborites

By RANDY COLLIER

CIUDAD JUAREZ, Mexico (AP) -An international program is putting frijoles onto Mexican tables and cash into the tills of American firms. It's also putting a bitter taste into the mouths of labor union bosses.

It's called in-bond industry and it allows non-Mexican companies to assemble their products in Mexico, using cheaper Mexican labor, and then return the finished product to its home country. The sale of the finished product in Mexico is prohibited.

William L. Mitchell, director of marketing for the Antonio J. Bermudez Industrial Park located here. says American labor unions are blind if they think the in-bond program is taking away jobs that might be done in the United States.

"Just one facility in our park is operated by RCA. It makes XL100 picture tubes. We have factual information that shows there are 28,000 persons in the United States working for companies that are supplying parts that are used in making these tubes."

"Because RCA can assemble the tubes in Mexico, using cheaper labor, the company is able to compete worldwide with the Japanese electronics firms who can market their products at lower prices," he added.

Mitchell said the program is benefiting American labor as much as it is American business. "If labor

ever is successful in killing the program I'm certain they'll regret it.

"It will mean that these same companies will be moving their operations to Taiwan or Singapore rather than having only one assembly plant in Mexico," he said.

The program has created industrial complexes that employ more than 60,000 Mexicans, mostly women between the ages of 18 and 21, in more than 400 plants located in border cities from the Gulf of Mexico to Mexico's west coast.

A total of 28,000 persons work in two industrial parks here, and that figure is expected to more than double within the next five years.

Both Mexican government and industry officials in the in-bond program has had a social effect on the country, especially in cities such as Juarez where unemployment is near 38 percent.

'We would like to have more industry here that uses more men, but the industries currently located here need persons who can do tedious, intricate work

"Many men have been hired for various positions, but most of them find they don't have the nerves to keep up with the pace," said Mitchell.

The 90 percent female employment rate at the parks in Juarez may change soon though, because General Motors is building a massive installation at the Bermudez park that will hire primarily men.

about the social problems the industries have caused. "We will wrestle that problem when

we have to, but what we have to combat now is unemployment. We would have a much worse social problem if the 28,000 persons working at the parks now suddenly were without jobs," he said.

Mitchell said there are several reasons American companies want to open in-bond plants in Mexico other than because the labor is cheaper. He says it has proven to be more efficient and reliable.

"When a person is fortunate enough to get a job down here, they want to keep it ... they sure don't want to be

Comics upgraded COLUMBUS, Ohio

(AP) - Comics such as The Hulk and Tom & Jerry have taken their place alongside Tom Sawyer and other literary works at a public library

"I want some readers. This is another attempt to snag a couple more readers," says children's librarian Mary Ann Maginnity.

Mrs. Maginnity spends about \$40 on a bundle of comics every two mon-

"Once the kids see we have the comics, they will come back. Then, maybe we can suggest something else that might catch their fancy. If they never came in, we'd never have that chance," she said.

One shampoo that's strong enough to take care of dandruff's flakes and itches. Yet, gentle enough to leave your hair soft, shiny and manageable. Strong and gentle together in one shampoo. Head & Shoulders Whatever size you buy. It all adds up to terrific looking hair and terrific savings.

DEATHS

Maggie Duncan Eugene Crutcher Franklin Henson

MONAHANS — Maggie Lee Dun-can, 60, mother of Debra Lee Ward of Big Spring, died Monday in an Albuquerque, N.M., hospital.

Services were to be at 3:30 p.m. today in the First Baptist Church in Monahans, with burial in Pyote Cemetery directed by Wilson-Miller Funeral Home.

The Albuquerque resident was a former long-time Monahans resident. She was born April 19, 1917, in Texas and first moved to Monahans in 1948. She was married to E. W. Duncan in May 1948 while he was stationed at Pyote Air Force Base. The couple lived for 18 years in Monahans, where Mrs. Duncan operated Maggie Lee's Beauty Shop. They moved to New Mexico about six years ago.

Other survivors include her husband, a daughter, three sisters and four grandchildren.

Nelson C. Smith

GRAND JUNCTION, Colo. Services for Nelson C. Smith, 85, of Grand Junction and formerly of Midland were held Monday in Martin's Mortuary chapel.

Smith died Friday following a fourmonth illness. He was born Aug. 8, 1892, in Mc-

Shan, Ala., and moved with his family to Cherokee County in 1901. As a young man, he taught school in a number of Texas communities and served as superintendent of the Oklahoma Lane school district four

In 1928, Smith began working as a rural mail carrier at the Farwell post office, retiring in 1961. He had lived in Midland prior to moving to Grand Junction. He married Stella McGuire Dec. 25, 1916. Later, he married Kate Acker of Jacksonville and then Mary Leo Baldridge of Midland.

Smith was a past president of the Texas Rural Letter Carrier's association. He was secretary of the Farwell school board 10 years. A 32nd-degree Mason, he was recognized for being a Master Mason

STANTON - Eugene Crutcher, 75. died Wednesday in a Stanton hospital following a lengthy illness.

Services were to be at 3 p.m. today in Stanton Church of Christ with burial in Evergreen Cemetery directed by Gilbreath Funeral Home.

Crutcher was born Oct. 30, 1902, in Limestone County. He moved to Stanton in 1950 from Coleman. He married Dehlia Smith Dec. 23, 1928, in Coleman.

Survivors include his wife, and two sisters. Hattie Young of Coleman and Bertha Cleveland of Wellington.

H. Alexander

Services for Hawthorne B. Alexander, 72, a retired welder and 25-year Midland resident, were at 2 p.m. Wednesday in Newnie W. Ellis Funeral Home chapel.

Officiating were the Rev. Bill Skaggs, assistant pastor of Kelvlew Heights Baptist Church, and the Rev. William Hedrick, pastor of Trinity Presbyterian Church. Burial was in Resthaven Memorial Park.

Alexander died Monday at his 3304 Cunningham Drive residence. He was born Dec. 27, 1905, in Como. He was a member of the Baptist

church. Since his retirement from welding in 1970. Alexander had been a parking lot attendant for the Midland County Public Library.

Survivors include his wife, Sarah Anne Alexander; two daughters, Mrs. Tommy Joe Stewart of Freemont, Calif., and Dorothy Wade of Lewisville; three stepdaughters. Margarete Munger of Pleasant Hill, Calif., Marilyn Hellgren of Englewood, Colo., and Patricia Powell of Madison, Wis.; a brother, T.

W. Alexander of Seminole; four sisters, Martha Ray of Winnsboro, Ella Madison of San Angelo, Dora White of Brownfield and Ora Henley of Tueson, Ariz., and 13 grandchildren.

Pallbearers were Freddie Wade, Dee McMillen, Ray Greer. Elmer Caldwell, Johnny Grey and Jimmy Carter.

STANTON - Franklin William Henson, 81, died Wednesday afternoon in a Martin County hospital after a brief illness.

Services will be at 2 p.m. Friday in the Church of Christ in Stanton with burial in Evergreen Cemetery directed by Gilbreath Funeral Home. A longtime resident of Martin County, Henson was born July 3, 1896, in Bell County. He was a World War I veteran. He was a member of the Church of Christ in Stanton. He married Mae Douglas in 1924 in Stanton.

Survivors include his wife; two sons, Homer Henson of Stanton and Guy Henson of Hanford, Calif.; one daughter, Mrs. Mary Ivy Briggs of Midland; 10 grandchildren, including Fawn Meeks of The Midland Reporter-Telegram oil department, and two great-grandchildren.

Roy Sumners

DENVER CITY - Roy Sumners, 50, father of David Sumners of Mc-Camey, died Tuesday in a Yoakum County hospital.

Services were held Wednesday in the Church of Christ.

Burial was to be at 10 a.m. today in the Cottonwood Cemetery near Cross Plains, directed by Singleton Funeral Sumners was born June 7, 1927, in

Coleman County. He was a gas operator for El Paso Natural Gas and had lived here since 1957. He married Viola Champion Aug. 23, 1947, in Cross Plains. He was a member of the Church of Christ.

Other survivors include his wife, a son, a daughter, two sisters, two brothers and five grandchildren.

Jimmie Leamons

ODESSA - Services for Jimmie Sybil Leamons, 65, mother of Mrs. James Roy of Midland, were to be at 10 a.m. today in Easterling Funeral Home. Burial was to be in Sunset Memorial Gardens.

Mrs. Leamons died at her residence

here Tuesday of an illness.

She was born March 13, 1913, in Goodwin, Ark, She moved to Odessa from Arkansas in 1945. She was a Baptist. She was married to Clyde C. Leamons on April 12, 1935, in Eldorado, Ark.

Survivors include her husband; one son. Conrad Leamons of Odessa: another daughter, Mrs. Richard Neel of Golden, Colo.; a brother, Ray Doom: two sisters, Iola Leamons of San Francisco, Calif., and Mrs. C. W. (Mary) Hodges of Arizona; seven grandchildren and one great-grand-

E. K. Snider

CANYON - E. K. Snider, 79, of Canyon, father of Merrilyn Walker of Midland, died Wednesday morning in an Amarillo hospital following a brief

Services will be at 2 p.m. Friday in the Schooler-Gordon Funeral Home chapel in Canyon. Officiating will be the Rev. Baldwin Stribling, pastor of the First Presbyterian Church in Canvon.

Masonic graveside rites be held in a Canyon cemetery.

Snider, an insurance agent, had been associated with the Business Men Assurance Co. since 1934. He was born Dec. 1898, in Indian

Territory. He had lived in Canyon 18

vears. Survivors, other than his daughter in Midland, include his wife, a son, a daughter, seven grandchildren and five great-grandchildren.

Robert A. Ervin

SAN ANGELO - Robert A. Ervin. 94. father of Mrs. John (Mary Etta) Stringer of Midland, died Wednesday in a San Angelo hospital.

Graveside services were to be at 4 p.m. Thursday in Fairmont Cemetery with the Rev. Merle Waters of the First United Methodist Church officiating. Arrangements were to be directed by Johnson's Funeral Home. He was born Nov. 17, 1883, in Pea

Ridge, Ark. He married Allie B. Williams Oct. 5, 1904, in Afton, Okla. They had lived in San Angelo since

1924. He retired from the railroad in 1947, after being a conductor for 45 years.

Other survivors include three sons, two daughters, nine grandchildren, six great-grandchildren and two great-great grandchildren.

The family requests memorials be made to the First United Methodist Church in San Angelo or to a favorite

Vance McCaslin

ANDREWS - Services for Vance Doran McCaslin, 72, will be at 2 p.m. Friday in Lakeview Christian Church here with the Rev. James Royse, pastor, officiating. Burial will be in Eunice, N.M., Cemetery at 4 p.m. McCaslin died Tuesday at his home

in Andrews.

Survivors include his wife, Ethel McCaslin; a son, John A. McCaslin of Greenriver, Wyo.; four daughters, Carlene Sheets of Greenriver, Wyo., Shirley Swartz of El Paso, Leta Carter of Jal, N.M., and Audrey Henson of Eunice, N.M.; a sister, Leta Stassel of San Marcos, 13 grandchildren and seven greatgrandchildren.

Pallbearers will be S. O. Dickey, Roby Dorman, Keith Henson, Wayne Henson, Larry Henson and Lloyd

Jimmy Ray Fox wants to work on appeal

Jimmy Ray Fox, who received a 50year sentence after pleading guilty to the murder of Janice Abernathy, said in a letter to the Midland County district clerk that he wants to work on an appeal of the conviction.

In the letter, received Wednesday, Fox asked the clerk to send him the numbers of his case and indictment because he "would like to start working on my appeal."

District Attorney Vern Martin said Wednesday an appeal from Fox would not come as a surprise to him.

Attorney Tom Parker, who represented Fox, said there was no plan for an appeal when Fox was transferred from the Midland County Jail to the Texas Department of Corrections.

Parker said he thinks Fox plans to get the records of the case for a possible appeal later on the basis of whether the county court had jursidiction to certify him an adult for trial. Fox was 16 at the time of his arrest. Mrs. Abernathy died from multiple

stab wounds in her home June 14. She was 23 years old and was eight months pregnant.

Suit filed to stop college bonds on new construction

AUSTIN, Texas (AP) - Rep. Wayne Peveto, D-Orange, has filed a suit he hopes will keep 17 Texas state colleges and universities from issuing bonds on new construction for the next 10 years.

Peveto told a news conference Wednesday that Comptroller Bob Bullock has until June 1 to allocate the next 10 years' proceeds from the state 10- cents property tax to the colleges and universities. 'Shortly thereafter, the institutions

currently participating in the fund can be expected to issue bonds secured by their estimated receipts from the fund. Because obligations under the bonds would then have to be honored, the only way to stop the commitment of funds over the next decade must necessarily come through court action," Peveto said. 'The effect of the suit will be to put the pledged tax proceeds under a legal cloud and the issuance of bonds will likely be delayed."

Peveto said he hoped the effect of his suit will be to repeal the 10 cents state property tax and finance new college buildings out of the state's general revenue fund.

Police look into motel 'ring'

Telephone company denies wiretapping

Southwestern Bell Telephone Co. Wednesday denied accusations of wiretapping leveled Tuesday by Royce Brookmole, former Bell district manager in Midland.

"Royce Brookmole's reported allegation that Southwestern Bell had wiretapped his telephone - and that of his friend - is totally untrue," said Bob Dunbar, Bell division manager in

'We hope it is not retaliation to his recent removal as district manager (in) Midland," he said.

Brookmole said Tuesday he is certain the phone at his home in Midland and the home phone of former Southwestern Bell executive James Ashley in San Antonio were tapped by the company after Ashley was fired in October 1974.

Also on Tuesday, Brookmole, 47, revealed he has been transferred to Bell's Lubbock offices to serve as district staff supervisor-business office.

Dunbar, in a prepared press release, said allegations similar to those made by Brookmole were 'aired and thoroughly discredited in testimony during the 1976 invasion of privacy trial.'

A state district court jury in San Antonio in December 1976 found that Bell invaded the privacy of Ashley and his wife by wiretapping their home telephones. The court ordered Bell to pay the Ashleys \$1 million in

damages. But Bell appealed the verdict and the 11th Court of Civil Appeals in Eastland recently reversed the jury finding and nullified the \$1 million award. The appeals court said there

was insufficient evidence at the trial to support the jury's verdict for

Now, Ashley is asking the Texas Supreme Court to overturn the appeals court action and reinstate the jury verdict and damages.

Brookmole's accusations first were made in a sworn affidavit filed with, the court as part of Ashley's

"Joe Wilson, then district plant manager (in) Midland and the technical service expert, testified in the trial that he personally surveyed Mr. Brookmole's residence phone and found no evidence of wiretapping. The survey was conducted at Mr. Brook-

mole's request," said Dunbar.
"Edwin McKaskel, security manager, also testified in the trial and denied under oath that he wiretapped Ashley's phone," he said. 'Contrary to public assertions, Brookmole was never trained to be a wiretapping expert by the Bell System. The Bell System does not

"Ashley and his attorney, Pat Maloney, had almost three years to take the sworn deposition of Mr. Brookmole, just as they had done with more than 100 witnesses, but the deposition was never taken.

'The published allegations are unfounded. The fact remains we do not wiretap and we have never wiretapped.

Efforts Wednesday to contact Brookmole, who still is in Midland and has been undergoing doctors' tests, were unsuccessful.

He is to be succeeded as Midland district manager by Juanita Bryant.

all doors are closed," said Arnold Pinkney. president of the school

Polls opened at 6:30 a.m. and close at 7:30 p.m. at 649 precincts. About 30 percent of the city's 290,000 registered voters are expected to cast ballots.

School officials have

Fire department agrees on proposal

By KAY HORD

LAMESA - Once again, Lamesa

has a fire department. Training Chief Cecil Levacy said Wednesday morning that the city's paid firefighters had voted unanimously early this morning to accept a compromise raise proposed by the Lamesa City Council following a

hour meeting Tuesday night. "We feel it's over with, and we've gone back to work. From the start we wanted to be reasonable about it, and when we received a reasonable offer. we accepted it. And we did accept it with a great deal of relief. None of us wanted to resign," he said.

The salary increase is retroactive to April 1, 1978, when the city's new budget went into effect, Levacy said.

The raise would necessitate an increase in Lamesa's ad valorem taxes and an amendment to the budget. Taxes would be increased by two cents per \$100 valuation, raising Lamesa's ad valorem tax from 80 cents to 82 cents per \$100 valuation.

Mayor Lloyd Cline also explained during the meeting that an 11th member of the paid fire department who retired earlier would not be replaced. Funds allotted in the budget for the 11th member will be used toward the salary increase and reorganization within the fire department, Cline said.

The 10 members of the Lamesa paid Fire Department submitted resignations or papers for retirement Tuesday morning to City Manager Carroll Taylor. About 60 days ago, the firemen began petitioning the council to increase their salaries to be equal to that of city policemen.

The lowest paid fireman was

making \$760 a month, compared to \$881 made by equal-ranking police officers, Cline said.

Firemen met with councilmen Monday night in an attempt to resolve the issue, ending with the council's denial of the request. The council suggested the firemen reorganize and renegotiate their request through proper channels.

said the city council considered the threats of the firefighters serious enough to have formulated plans for an emergency fire department. He refused to explain what those plans were, but later mentioned that police officers from area towns would be called in if this ever happened in the police department.

New juvenile judge chosen

The Midland County Juvenile Board Wednesday designated County Court at Law Judge Willie DuBose to be the county's juvenile judge.

The board, composed of the county's three district judges, county judge and county court at law judge, met this morning.

Judge DuBose will replace 318th District Court Judge Barbara Culver as chairman of the board and juvenile judge. Judge Culver was juvenile judge for the 16 years she was county

She said this morning the board agreed that she should be available to help the other district judges clear the district court docket. Judge DuBose said he has the time

to serve at juvenile judge.

Intercollegiate rodeo get under way today

BIG SPRING - Rodeo cowboys and cowgirls from colleges in Texas and New Mexico will be competing in a five-performance National Intercollegiate Rodeo Association rodeo beginning at 7:30 p.m. today in the Rodeo Bowl Arena on the Howard County Fairgrounds here.

Between 250 and 300 contestants from NIRA's Southwest Region are to compete in the four-day event.

TCU chancellor

visits Midland

As part of the school's general recruiting program,

Texas Christian University Chancellor J. M. Moudy was in Midland Tuesday and Wednesday to talk with

prospective students from Midland and area high

Moudy was accompanied by two TCU students from Abilene, two admissions office staff members

and a faculty member who is an advisor for students

Moudy said Wednesday the university "goes coast to coast" to recruit new students, visiting most cities in Texas. He said the university expects to admit 1,000 freshmen next school year. Enrollment at TCU

Performances will begin at 7:30 p.m. today, Friday and Saturday. Matinee runs will be at 2 p.m. Saturday and Sunday. Skipper Driver, Howard College's

rodeo coach, and HC Rodeo Club president Mack Altizer are in charge of the rodeo here.

The NIRA was founded in 1948 by a group of students at Sul Ross State University in Alpine.

Newport not sure it wants Navy to come back

By GEORGE C. WILSON The Washington Post

NEWPORT, R.I. - This historically Navy town — which feared it would sink when the fleet abandoned it as a homeport four years ago — is being asked to welcome back four

But because of a sea change in public attitude, Newport now believes it has had about all the Navy it can stand. The town does not want House Speaker Thomas P. O'Neill Jr., D-Mass., to do it any more favors by pressuring the Navy to send the whole fleet back to Newport where it could fleet back to Newport where it could be near Massachusetts shippards for

repair work.
The Navy, after ordering the

destroyer fleet of about 35 ships out of Newport in 1973 to concentrate operations in Norfolk, Va., reversed course last month and announced it is sen-ding four warships back to Newport "to improve the strategic dispersal of the Atlantic Fleet."

The Navy announcement said the first of the four ships, either destroyers or frigates, will arrive this fall. "The Navy anticipates that between 1,000 and 1,200 officers and enlisted men will be moved. Between 40 and 50 percent of these are expected to have dependents, and these families are expected to reside in available Navy housing and in nearby civilian communities."

To some Newporters, that Navy announcement brought back warm

STORE HOURS

memories of the good old days. But to a seemingly larger number it was bad

Most Newporters do not seem willing to return to the era of "Blood Alley," an area of garish bars and loud music and prostitutes; of drunken sailors slugging it out on the pavement, of shore patrol vans wheeling onto the scene, sirens screaming.

Since the last of the fleet sailed out of Newport in 1974, Blood Alley has reformed. It is a prim street of elegant shops and stone walks. A sailor would go thirsty if stranded on his old street today.

Tobacco heiress Doris Duke has helped change the tone of the town by contributing money to restore colonial homes all over Newport. Urban renewal, which was just getting started when the fleet sailed away, has made a big difference, too, by transforming the Newport waterfront into attractive shops and fancy restaurants.

Outsiders seem to like this new Newport. The Chamber of Commerce says the number of tourists jumped from 890,000 in 1974 to 3 million in 1977 - thanks in part to the America's Cup yachting classic.

Members of Newport's power structure fear too many sailors might scuttle this orderly transition.

"Look," said one Navy captain, ex-plaining why he can appreciate the fears of Newport's leaders. "They had a reception the other night at the Sheraton for the crew of the new

frigate Oliver Perry when she came through here. There was lots of booze, sailors got drunk. Then there were fights inside and out in the parking lot. Who the hell wants to go through that again?"

Newport's Democratic Mayor Humphrey "Harp" Donnelly said he is a big supporter of the Navy, still the biggest employer here because of all its land installations like the Naval War College and research laboratories, but he fears what would happen if the full 35-ship fleet should

"They couldn't handle it, and we couldn't handle it," said Donnelly, principally because there is not enough housing available. Anything more than about eight ships, said the mayor, would overwhelm the town's housing and its schools.

Not everybody, of course, is against the Navy sailing back to Newport in full force. "I've seen the yachtsmen get drunk, too," said Buck Ossick, owner of the Pier Restaurant on the Newport waterfront.

There are plenty of tourists in Newport during the summer, said Ossick, but "it's still a long, cold winter. So everything that can help I think is beneficial." Re

as

The real test of how well Newport can do without the fleet, said Mayor Donnelly, will come this summer when there will be no extravaganza to draw people here. Last summer the America's Cup races were the big

By GARTH JONES Associated Press Writer

Texas Republicans think their best bet for picking up an additional congressional seat in 1978 may be in the 19th District, but there will be plenty of Democratic opposition.

Rep. George Mahon, D-Texas, dean of the Congress and chairman of the House Appropriations Committee, is

calling it quits at the age of 77.

The spirited contest to fill his shoes in the district that includes Lubbock and stretches along the New Mexico border from Deaf Smith County to Midland and a part of Odessa will be the first all-out campaign since Mahon first took office in 1935.

There will be three Republican candidates in the GOP primary and two Democrats in their primary. Some see the possibility of a GOP runoff due to the campaign activity of

At any rate Mahon's successor will not be settled until the November

The Republican race is mainly between Jim Reese, 46-year-old former Odessa mayer who got 45 percent of the vote gainst Mahon in 1976, and George W. Bush, 31-year-old Midland independent oilman and son of the former ambassador to China and former director of the Central Intelligence Agency. Also in the race is Joe Hickox, 41, of Lubbock, a retired Air Force officer who formerly commanded now-closed Reese Air

Force Base. Reese, now an Odessa stockbroker, has been traveling extensively, stressing the plight of farmers in the 19th District. He is outspoken on "the ongoing follies of the Carter administration in Washington in terms of energy and practically everything else." He has called for an across-theboard tax cut and pushed for 100

percent parity for farmers through reducing production costs.

Bush claims being the youngest of the candidates is an asset because "people are ready for a young, energetic congressman." He acknowledges that his father's well-known name will give him and dentification edge but stresses that he tification edge but stresses that he will be his own man. He says he is a onservative who will work for three things — keeping the government out of the free market system, a sound energy policy calling for deregulation, and agriculture policies that will give farmers a living wage.

Hickox, another staunch conservative, said the concept of in-dividualism is being eroded by modern society. He is critical of U.S.-Soviet relations and claims the United States has fallen behind in military

Voters in the Democratic primary will choose between a lawyer and a

reacher.

Kent Hance, 35, Lubbock attorney, gave up a Texas Senate seat to make the race. His opponent is the Rev. Morris Sheats, 37, a flamboyant Lubbock minister who has asked his flock to tithe to his campaign as they do to the church.

Hance is running largely on his

Hance is running largely on his record in the Senate, stressing that he was instrumental in protecting rural West Texas districts from a cut in school aid and in obtaining \$8 million in state aid for the Lubbock County Hospital District. He says Democrats have an automatic edge in Washington when it comes to the legislative process — "it takes Democrats to get things done in

Hance said he believes his friend ship with most members of the Texas congressional delegation can help make him an effective first-termer in

MARCH OF DIMES 1969 poster child Tracy Greenwood, 14, of Midland greets Denise Nankivell of Elizabethville, Pa., this year's poster child, near the Aquila hangar at Midland Regional Air Terminal. Denise visited in Midland this past weekend. The 5year-old girl was born with vitamin Dresistant rickets. And when she began walking, the weight of her body caused her legs to bow. Surgery straightened her legs. and drug therapy and braces help to strengthen them. (Staff Photo)

AIM testing set next week

The Aptitude Inventory Measurement Service testing program will be administered April 13 through 15 at Midland College.

The testing program is designed to assist students in determining where their interests lie. The tests uncover areas of suitability as well as interest. They also incorporate other talents which may be included in the students' overall study program.

"The possibilities for outlining career goals through this process are helpful to students who have not been able to decide on what career they wish to pursue," Dr. Elizabeth Robinett, one of the counselors who works with the AIMS Foundation, said.

"For instance, if testing reveals that a student would be suited to a career in biology, it may also uncover that he is good at working with people. This might indicate a career in pharmaceutics where the individual would work in an executive capacity coordinating people and resources," she said.

Parents or students interested in applying for the test program may call Dr. Robinett at 684-7851, extension 123. An application and brochure will be

The April testing program already has been filled. but applications are being taken on a stand-by basis should vacancies arise. Registration for all AIMS testing should be done well in advance.

Students score at state event

Several Midland and Big Spring students distinguished themselves in competition at the recent 14th annual Texas French Symposium held at Midland College.

Seventh, eighth and ninth grade students from Trinity School of Midland were ranked fourth out of schools with enrollments of 75 or less. The Trinity Girls' Chorale took first place in choral ensemble competition.

The singers, accompanied by Kelly Callaway on the guitar, were Ginny Blakemore, Miss Callaway, Heather Dunbar, Angela Essman, Gilley Estes, Andrea Freeman, Nell Fullinwider, Renay Harger. Lyndee Knox, Kristi McClatchy, Michelle Mc-Fadden, Melissa McFadden, Suzanne Saikin, Tina Stimmel and Janet Stone.

Miss McClatchy also placed second in the ballet event, while Miss Dunbar won third place in prose. level I, and Miss Callaway earned honorable mention in prose, level II.

Lee High School student Susan Landenberger took first place in instrumental solo competition, and Larry McGlynn, also of Lee High, received a first-place rating in extemporaneous speaking, level I. Midland High School student Claire Iverson placed

first in vocabulary, level II, while David Fisk of Midland High earned third place in that event. Elizabeth Mashburn, also of Midland High, received honorable mention in ballet. Tom Boswell of Edison Freshman School won

fourth place in choral solo. Elaine Brown of Big Spring took third place in the traditional costumes event, while Big Spring student Forrest Pobst earned a fourth-place rating in projects.

Administrators plan to attend conference

COLLEGE STATION - Five Midland Independent School District administrators are planning to attend the conference on Leadership in Free Enterprise Education Friday and Saturday at Texas A&M

Dayle Binnion, James Bradford, Robert Carter, Merritt Hudson and Bertha Mae Starks are among 200 Texas school officials registered for the conference, sponsored by the university's Center for Education and Research in Free Enterprise.

The administrators will receive information to assist them and teachers in planning courses in free enterprise and economics. Subject areas to be discussed include new education laws for free en-terprise courses, staff development guidelines and

On March 16, 1974, upon her return from a six-day trip to South America, Pat learned that the president had decided to celebrate her birthday in Nashville, Tenn., at the opening of the new home of the Grand Ole Opry. (Nixon was not a country-western buff but the backing of the South was important to him in his fight against impeachment.)

Instead of proceeding to Washinton, her plane was diverted to Nashville. That evening, after a 5,000-mile trip from Brasilia, sick with the flu and running a fever, she went to Opryland, U.S.A., where an audience that included Tennessee's two Republican senators, Howard Baker Jr. and William Brock, was waiting.

The orchestra twanged out a bluegrass version of "Hail to the Chief" as the Nixons came on to the stage and took seats in front of a backdrop on which a large red barn was painted. Pat wore a bright green dress for St. Patrick's Day, of which this was the eve.

At the mike Roy Acuff suggested that the audience sing "Happy Birthday" to Mrs. Nixon, and would the president play the piano for them? He would and he did. The audience bellowed the song and Pat, looking embarrassed, sat and waved.

When the song ended she rose and came forward, her arms extended to hug her husband. He turned away from her. Her hands dropped to her sides and she went back to her chair. Nixon had a yo-yo in his hand. He attempted to spin the yo-yo but failed.

He told Acuff: "I'll stay here and try to learn how to use the yo-yo and you go up and be president." For 10 minutes the president of the United States stood before 4,400 people, trying to make a yo-yo spin up and down a string. Pat, flushed with fever, sat and watched him.

Even some of Nixon's own aides were shocked. For the president had not said one word to his wife all even-

Pat Nixon's young assistant press secretary, Terry Ivey, watched aghast. Several years later, looking back, she was still blazing: "He absolutely, in front of thousands of people, turned his back on her, totally ignored her, He turned his back! It was simply incredible."

The feeling was shared by Terry Ivey's immediate boss, press secretary Helen McCain Smith, who says today: "I shall never forget the expression on her face when he ignored her outstretched arms. It was one of the times some of us winced."

The trouble was that this was not an isolated happening. Nixon's public treatment of his wife during his presidency was so indifferent that close observers, especially members of the women's press corps, were putraged. In the words of Myra Mac-Pherson of The Washington Post: The press corps used to look in vain for some sort of emotion to pass between Pat and Dick Nixon; observers looked for anything that spoke of

One of Nixon's aides who conferred with him daily over an entire decade says: "In all that time Pat's name never came up in a conversation.

Not long after the yo-yo incident the Nixons attended a \$1,000-a-plate fundraising dinner in Washington. She sat behind him, and never once did he turn to look at her. Worse, he spoke for a long while on Latin American relationships, stressing the need for close and neighborly ties.

The first lady had just returned from a triumphant visit to Venezuela, the country where 16 years before she and her husband had been stoned and spat upon, and where she now had told her hosts that her husband had not been able to come but had sent "the closest thing to his heart, me.'

That evening in Washington, it did not look as though she was. He never mentioned her name or acknowledged her presence.

Once at a dinner at the Sheraton, Park Hotel for representatives of African nations, he arrived with Pat, made his customary "V" sign, delivered a brief address, and walked out of the ballroom.

"He left her standing there, right in the middle of the huge room," says Kandy Stroud, at the time Washington correspondent for Women's Wear Daily. "He didn't touch her or say goodbye, there was no 'See you later, no kiss, not even instructions of where to sit or where to go. He just dropped her in the middle of the floor in front

"If it had been my husband, I would have wept or been furious, or both. Pat just smiled as she stood there and finally, after a long embarrassing few minutes, someone came up and got

Another time was almost funny. They flew to San Antonio in separate planes for a party at Treasury Secretary John B. Connally's ranch. Nixon came down the ramp with Texas Sen. John G. Tower, who had flown down with him. Pat, who had landed first, began walking across the field to greet her husband. Tower reached her first and kissed her. Then

In June of 1970 a state dinner was held at the White House for Venezuelan President and Mrs. Rafael Caldera. At the end of the evening the Nixons stood at the North Portico, bidding goodbye to their guests. After they had gone, and while some of the other guests were still dancing, Nixon and Pat went toward their private elevator leading to their upstairs quarters.

He had his hand on her arm and he seemed to be leaning attentively toward her as people watched them depart. Then, as they moved down the hall out of sight of most of the remaining guests, the Nixons separated, moving apart as though they had concluded a little game. Writer Judith Viorst, who tells the story, concludes it thus: "Untouching and in silence. each walked on alone.

Nixon's friends point out that he was a reserved, undemonstrative man, decorous perhaps to a major fault in that he was unable to unbend with the eyes of the world upon him. At home, they say, he was considerate and tender, that he never intended to ignore her, that the family was warm, compact and affectionate.

Julie, indeed, always found him loving and kind, even impulsive, as he would exclaim: "Let's do something special tonight," or, on the spur of the moment, take them all out for a birthday or anniversary celebration.

Of course, Julie was seeing her father from a daughter's-eye view. which is not always the same as the view of a wife.

Pat, for example, would never intrude upon his work but Julie would not hesitate. Late one day in 1969 Nixon was working with William Safire on a foreign policy speech when his private phone rang. For many minutes the president launched into an elaborate discussion of this country's relations with its South American neighbors. Safire, listening patiently, thought that Henry Kissinger or Secretary of State Rogers was at the other end. It was the 21year-old Julie.

The following morning she was scheduled for an interview-discuss on Latin America and wanted a briefing. Still, there were just too many documented incidents of Nixon's cold behavior toward his wife to pass off as shyness or forgetfulness, or even total involvement with politics and the business of government. Nixon could be so wrapped in his own thoughts

unless there was a reason? The question is valid and prompts another: What was there true relationship as husband and wife? On the basis of the evidence I have arrived at two conculsions.

him. But why so often, and to Pat,

First, that the warmth and affection which existed between them in the early years of their marriage had cooled as the years passed.

Second, that the coolness came from his side, not hers. "She loved him very much," says AP correspondent Helen Thomas. "That was genuine." And all of Pat's close friends and staff aides to whom I spoke echoed the statement. There were many stories of her attituted toward him from too many people to believe otherwise.

But what about him? He was not unlike other authoritative husbands who place their work and home lives in separate compartments. As time passed and he was advanced in office. he communicated with her less and less abour his work and his career. Pat admitted he had not asked her opinoin about running for a second term in 1973. He never talked about affiars with her as President Johnson would do with Lady Bird, Harry Truman with Bess, as Jimmy Carter with Rosalynn. One former staff assistant. One former staff assistant observed: "I can' see Dick saying: Awful thing happened in Cambodia today, Pat."

Once Pat was asked if her husband had tried out any of his State of the Union speeches on her. Her reply: 'He never tries anything out." Not until the Watergate crisis did he "try anything out" on his family.

She gave so much and got so little of what was really meaningful to a women, says Washington journalist Kandy Stroud. "Sometimes he was so brutally indifferent I wept for her.

Wauhilla La Hay, former Scripps-Howard White House corresponent, put it this way: "She is a wonderful person whom most of us love deeply, a person of incredible courage and this can be desvastating to a woman.

"She's the one thing we worry about. The hell with him. Let's understand something. This man was the biggest male chauvinist pig of

Black Sheep' segment to feature Frampton

By JERRY BUCK

LOS ANGELES (AP) - Even Peter Frampton's most avid fans never purued him as hotly as did the seven Japanese soldiers chasing him through the jungle and onto the beach. But, as luck would have it, plus the

presence of a native with an outrigger and a Navy seaplane waiting offshore. Frampton got away. Minutes later, the Japanese soldiers did shoot him — but only with cameras they kept as handy as their World War II

Rock superstar Peter Frampton, attired in khakis and a digger hat, plays a downed British airman and island coastal watcher in an episode of NBC's "Black Sheep Squadron" airing tonight. His album "Peter Frampton Comes Alive" is the alltime best-seller at 14 million.

The unlikely casting came about through a chance meeting between Frampton and series star Robert Con-rad at "The People's Choice Awards" earlier this year.

"I told Robert it was my favorite show." Frampton recalled, "and as a joke I said if you ever need a walk-on part I'll do it. He asked me about my long hair and suggested maybe hiding it under a flying helmet. I said, 'If you're serious, I'll cut it.'''

There was no need to cut his long blond hair, however. A script was written especially for him as a downed airman marooned on a Pacific island, providing a reason for he long hair and preserving his identity for Frampton fans who would be attracted to the show. It should be the iggest rating yet for the show, which has had an on-again, off-again history

"I'm honored that they wrote a part for me," said Frampton, 27, who donated his salary to UNICEF. "I just

LOS ANGELES (AP) - CBS is

inkering with a variety show in which he hostess is a cartoon character.

Now that Carol Burnett is leaving.

d Red Skelton, Jackie Gleason and

Milton Berle are long since gone, is this what television variety is coming

It could be. ABC has "Donny and Marie." CBS has signed Mary Tyler Moore for one stint, and Dick Clark is putting together a show for NBC. After that, it's anybody's guess.

Maybe it'll be cartoons and puppets.
At least, says one executive, they won't ask for bigger dressing rooms

or fancier times.

Variety, which once ruled the airwaves and sold more TV sets than

RCA, is in a sorry state.

"It's very difficult to come to grips with today," says Bud Grant, head of programming for CBS. "Other than Mary I can't think of too many performers who can front a variety show

"There was a period when we could ake a Sonny and Cher, a Captain and Cennille — people who are basically ecording artists — and put them in a

one-hour series. They'd have to do comedy sketches and other things they hadn't done before."

Dick Ebersol, NBC's vice president for comedy and variety, says, "I think one of the principal problems with variety shows is that they have lost

NBC is stringing along a puppet

TV's variety shows need

variety, producers say

expected a short part. The show's really written around me. In the end I don't get killed and don't go back to their base with the pilots. I just paddle off. I wonder if that doesn't meanthey'll want me back."

Frampton was so eager that he memorized the entire script, an unheard-of thing for an actor. Usually, an actor will learn only the lines he will say that day.

The English-born rock singer

previously appeared in "Sgt. Pep-per's Lonely Hearts Club Band," but

quires him to sing.
"This is the first acting I've ever done," he said. "When I was in school they never let me act in the plays. I was the musician so I was always in

the pit.
"Sgt. Pepper' was a good way to get into the movies. I was really playing myself, when I was a starving musician trying to make it. But I only

got my toes wet doing that. I was dying to do more." His manager, Dee Anthony, who is also executive producer of "Sgt. Pepwas at Paradise Cove near per," was at Paradise Cove near Malibu to watch his client act. He said he saw the television episode as just

another part of his career. "His first movie isn't out yet, but why should we hide him until then?" Anthony asked. "He sings, he acts, he writes. Keeping him under wraps — that's old hat."

Frampton said he plans another movie next year and hopes to write the music for it. "I want to get into all aspects of filmmaking." he said. "Ac-ting, writing, scoring. And being a gadget freak. I want to learn the technical side, too.

"It's a whole new challenge. Music is still my one true love, but it's nice to get away from it and get a whole new influence that will help my music.

their mystery. They've lost their

mystery because of all the magazines

like People and Us and the Star and all the talk shows.

"You no longer hear people say, 'Hey, we got to see what Milton Berle's doing this week.' They

already know more about Milton than they want to know. The mystery is

Comedian Dick Martin, who starred

in "Laugh-In" with Dan Rowan, echoes a similar opinion.

"I think it's pretty hard to get anyone to watch variety if five days a

week they can watch it in the af-ternoon," says Martin. "Mike ternoon," says Martin. "Mike Douglas, Dinah Shore, Merv Griffin.

They're not talk shows. Pure and

simple, they're variety shows. Pure and simple, they're variety shows.

"Just try to get on one of those shows to plug a book. But if you can sing and dance"

Dick Van Dyke, whose NBC variety show failed, says, "There are no more Carol Burnetts, Jackie Gleasons or

Red Skeltons around any more. What

variety you have now is mostly music.
They're headed by singers. So whatever comedy they do is incidental.

"I think variety has to be headed by

a comedian like Carol Burnett, who

can do everything. Chevy Chase would have a good chance. Richard Pryor, I think, went too far into left field. He left the public behind. I thought Redd Foxx was exceedingly

good handling his show."

Even stars suffer from secret fears

By DICK MAURICE Copley News Service

What do DEAN MARTIN, ANNETTE FUNI-CELLO and ANN-MARGARET have in common? They have secret fears that scare them to death.

Elevators give DEAN MARTIN the creeps, so much so that when he's on tour, he always arranges for a second-floor hotel room that he can walk up to. And if he has to travel by plane, he tries to calm his fears by taking along his collection of rabbits' feet, lucky charms and religious medals.

ANNETTE FUNICELLO feels the same way. She

ENTERTAINMENT

won't get on a plane without a stuffed toy dog she got as a present when she was a kid, and has been carrying for luck on flights ever since.

For some stars, there are lingering fears that they can trace back to terrifying incidents in childhood.

ANN-MARGARET is haunted by memories of her earliest days in this country when her mother, a recent immigrant from Sweden, had to take a job as a receptionist in a funeral parlor. Part of her salary included living quarters for the Olsson family behind the funeral parlor, and Annie can still recall hearing rats in her room each night. Not surprisingly, she

It's hush-hush so far—even to official denials—but MARY TYLER MOORE is working up a new TV series called "Happy Together," about a couple of rock stars who form a recording company. A pilot show is being taped behind closed doors.

still wakes up with nightmares about rats.

ZSA ZSA GABOR'S pet rabbit Harvey is selling for a neat \$15.95 in a pet sore in the San Fernando Valley—but just hand a pair of mistress' diamond sparklers on his ears and it ups the price to a mere

The reason Zsa Zsa felt she had to get rid of the pet was because her German shepherd kept trying to eat

it for dinner. By the way, the rabbit hops along on a leash and is excellently trained. Any offers?

The fellow who played the rich son on TV's "Rich Man, Poor Man," PETER STRAUSS, has been tapped for a film: He'll get the lead in "Oliver's Story, the sequel to "Love Story."

Of course, RYAN O'NEAL played the original film but his asking price for tis one was so astronomical the producers lost interest.

EDDIE MEKKA is spending in excess of \$40,000 getting his Las Vegas act together.

The "Laverne and Shirley" star started life as a dancer and now wants desperately to get back into being a song-and-dance man. Hopefully he'll reach Vegas by June.

Watch out for PENNY MARCHALL'S and CINDY WILLIAMS' mothers guesting on a forthcoming

episode of "Laverne and Shirley." Perhaps they'll get their own spin-off and have their famous daughters do a guest spot for them

STEVE MARTIN is making his movie debut in a film he wrote called "Easy Money"— and some say that should be the title of his autobiography.

LORNE GREENE says his most unforgettable ESP experience happened in Las Vegas when he was standing at a roulette table.

"I heard a voice inside my head whisper, 'Put \$10 on 23 and let it ride on 24!"

He ignored the voice then watched both numbers come up and another player win \$10,000.

When I got back to my room, my wife opened the door and asked, 'Did you play 23 and put it all on 24? Did you? Then she told me, 'I had this flash you were going to play those numbers and win a lot of money."

PARKER STEVENSON was very nervous at fellow "Hardy Boy" SHAUN CASSIDY'S recent Forum concert which was a 17,500 sellout. Suddenly the frantic audience broke into a chant of

"We love Parker" and host TONY ORLANDO went backstage to try to persuade Parker to make a stage appearance. Parker said a firm no and when Tony returned to the screaming mob without him, the crowd erupted. Back went Tony and he begged Parker to go on-"You don't even have to say one word...just let them see you." he urged.
So Parker went on and the roof nearly lifted off.

Earlier in the show DONNY and MARIE made a guest appearance and were disappointed that they didn't create half as much excitement as Shaun and Parker. Well, that's show biz.

KATE JACKSON had to tell WARREN BEATTY to cool it and to stop calling her. She even instructed her answering service not to put his calls through.

But Kate, and all pretty girls in Hollywood-know by now that Beatty just wants what he can't have. Warren's friends now predict he'll go after JACLYN SMITH if he can catch her boyfriend, DENNIS COLE, not looking.

It was a great candlelit dinner in Nashville, with BURT REYNOLDS and LORETTA LYNN-but don't figure it as one more of Burt's romances.

He went to Tennessee to talk to Loretta about directing the movie version of her autobiog, "Coal Miner's Daughter."

She gave her OK and since what Burt want in Hollywood, he gets, he'll bloom now as a director. He won't be acting in the pic.

If anyone in H'wood can give LEE and FARRAH competition for the Gorgeous Couple Award, it's got-ta be JACLYN SMITH and her constant companion DENNIS COLE.

In fact, they met on the set, when the former star of "Felony Squad" and "Bracken's World" guested on "Charlie's Angels." The script called for him to spend most of his time with the others, but Dennis says Jackie was the Angel his eye was on from the

Since then, they've teamed at the March of Dimes Ball in Houston and almost outshone the principals when they showed up at the JIMMY CONNERS-ILIE NASTASE tennis match in Las Vegas and the LYN-DA CARTER wedding. Rumors that their own wedding is in the works

were given a boost by news that Jackie has already introduced Dennis to her folks.

"I'm just old-fashioned enough to introduce my dates to my parents," Jackie says demurely.

Probably the only other couple to compare are Jackie's "Angels" co-star, KATE JACKSON and her new love, NICK NOLTE. After all the rumors linking Nick with JACKIE BISSET while they filmed "The Deep," and the whispers of a hot romance between Kate and WARREN BEATTY, these two discovered each other suddenly and haven't looked at anyone else since. As for their future, like Jackie and her Dennis, it's still up in the air.

LEONARD NIMOY experienced telepathic communication with a spirit—the shade of the dead author EDGAR ALLEN POE.

While in Philadelphia visiting Poe's house, Leonard reveals, "I felt his mind was communicating with mine, not in words, but in a tremendous will to overcome the darkness and coldness of the room. It was relaxing and energizing and left me in no doubt that Poe's spirit had been in touch with

Was he surprised? Not at all. "I believe everyone has ESP," Leonard says, "ar he I certainly do."

Tough guy JOHN WAYNE has faced down armed villians on the screen during a film career that spans almost half a century, yet reveals one thing that scares him.

'I'm afraid of women," the Duke admits. "A woman lives and loves by her wits. And when it comes to plain, natural brains on the subject of sex, a woman is smarter than a man any time. That's why I'm afraid of them!"

MARLO THOMAS may finally be getting ready to

She explains that she was never ready before because she felt she couldn't successfully combine a career and marriage. And of course, Marlo has always been very career minded.

MCT plans Simon double-header

The sparkling comedies of American playwright Neil Simon dubbed "the master of laughter" have been among top favorites with Midland Community Theatre audiences during the last 15 years or

MCT has presented many of

Simon's best-known comedies over the years, including such rib-ticklers as "The Odd Couple," "Star Spangled Girl," "Plaza Suite," "Last of the Red Hot Lovers" and, most recently, "Come Blow Your Horn."

Now, two of Simon's newer comedies are scheduled back-to-back

Globe to open season with 'Sound of Music'

ODESSA — The Globe of the Great Southwest initiates its 1978 season in fine style this weekend with "The Sound of Music."

The beloved musical by Rodgers and Hammerstein will have 8 p.m. performances Friday and Saturday nights through April 22. Tickets, priced \$6 for adults, \$3 for all area students, will be for sale at the box office each performance night and may be ordered in advance by telephoning the theater at 332-1586.

The 1978 Globe season will, of course, be highlighted by the annual Shakespeare Summer Festival beginning in mid-June and continuing through mid-August. The festival this year will offer two Shakespearean plays, "Othello" and "Love's Labours Lost," plus a premiere production of a new play, "The House of Saul," by Agnes Sanford

The Globe season continues next fall with a revival of a classic

comedy, "Charlie's Aunt," and concludes with another comedy favorite, "The Matchmaker," based on Thornton Wilder' "The Merchamt of Yonkers."

Globe season tickets, offering considerable savings over the price of admissions purchased singly at the box office, are \$30 (good for 16 admissions), for family grou persons. Season ticket and senior citizens ar \$12, allowing eight admissions.

The season-opener, "The Sound of Music," is staged and directed by Jim Walters, a former Midland and Odessa resident who now lives in Los Angeles. The production stars Patsy Allen in the Mary Martin-Julie Andrews role of Maria Rainer, and Jeryl Hoover in the Theodore Bikel role of Capt. Georg vom Trapp. They are backed by a large cast of area singers, dancers and actors.

Exhibitions to honor museum's architect

FORT WORTH - The Kimbell Art Museum of Fort Worth, Whose modern new building has won prizes and high acclaim For its architect, the late Louis I. Kahn of Philadelphia, is currently offering two special exhibitions in honor of Kahn.

The two concurrent shows of works by the celebrated American architect are "Sketches for the Kimbell Art Museum," organized by the Kimbell, and "Travel Sketches," a touring show organized by the Pennsylvania Academy of Fine Arts.

The "Travel Sketches" exhibition reveals Kahn's artistic concerns prior to his major architectural com-missions of the 1950s and '60s. The show includes many sketches done by Kahn on his extensive European trips of 1928-29 and in 1951.

Sketches for the Kimbell Art

Museum" shows the conceptual development of the museum building's design during its evolution in the years 1967 to 1971. The Kimbell building received the 1975 Honor Award of the American Institute of Architects, as well as numerous other national awards. The exhibition includes 44 drawings by Kahn and 17 other drawings and four architectural models prepared under the architect's supervision. This display has been organized by David M. Robb Jr., chief curator at the Kimbell Museum. After its close here on June 4, the show will go to the Laguna Gloria Museum at Austin for exhibition July 4 through Aug. 28.

Louis I. Kahn was for many years professor of architecture at the University of Pennsylvania at Philadelphia before his death in 1974.

'Afternoon in the Arts' on OC's Sunday agenda

ODESSA - "An Afternoon in the Arts" will be presented for the third year at Odessa College Sunday.

The afternoon has been planned as a casual come-and-go party where the public may view almost a dozen arts presentations at leisure. Refreshments will be served and there will be no admission charge the events in the Jack Rodgers Fine Arts Center on the

'Tosca' next opera broadcast

NEW YORK — "Tosca," Giacomo Puccini's tensely-dramatic opera, will be the next-to-final broadcast of the season over the Texaco-Metropolitan Opera Radio Network.

"Tosca," the 19th operatic broadcast of the 1977-78 season, will be heard Saturday afternoon. ning at 1 p.m. CST.

Delmos Hickmott, associate professor of art at OC, is directorcoordinator of the project which will present various performing and visual arts activities, ranging from a jazz dance ensemble to dramatic scenes from a rock musical, "God-

spell."

The arts showcase will open to the public at 1 p.m. and continue until approximately 4 p.m.

An art exhibition in the OC gallery

will be on view throughout the af-ternoon and other performers and activities scheduled at intervals during the open house include planists Debbie Harville and Mary Ellen Johnson, the Globe Recorder Consort. vocalist Sherry Talley, the Jazz Dance Ensemble in a performance of "Pas de Deux Plus," the Odessa College Jazz Rock Ensemble, the OC drama department in a presentation of excerpts from "Godspell," and the Odessa College Singers in a special for the enjoyment of MCT audiences. "The Sunshine Boys," Simon's bittersweet but hilarious tale of a pair of feuding old vaudevillians, will be presented April 21 through May 6 as a

special production that will close Theatre Centre, MCT's home for the last 20 years. Scheduled as the opening production in MCT's ultra-modern new \$2 million home on West Wadley avenue later in May is Simon's "God's Favorite," a fresh and unusual treatment of the Biblical story of Job.

"God's Favorite" will be MCT's third

attraction of its 1978 membership "The Sunshine Boys" is not on the regular season lineup, but a special production aimed at raising funds to help pay off remaining indebtedness on the new theater building, which

Question of tax break in LoVaca case fizzles

By JACK KEEVER

AUSTIN, Texas (AP) - Efforts to find out whether Oscar Wyatt Jr. would get a tax break from a proposed settlement of \$1.6 billion in lawsuits against LoVaca Gathering Co. fizzled Wednesday.

Assistant Attorney General Piet Schenkkan asked accountant Palmer Moe of Houston about the "tax consequences" at a hearing before examiner Tom Hill of the railroad commission.

Moe said he had not reviewed the ffect of the settlement on the personal finances of Wyatt, who is board chairman and chief executive officer of LoVaca's parent, Coastal States

If assumptions Schenkkan spelled out were made, what would be the effect, Schenkkan asked.

"I can't answer that," Moe replied. He testified, however, that the complex 1,200-page settlement specifically prohibits Wyatt from owning stock in the proposed new Valero Corp., although he otherwise would be entitled to shares worth \$24

Lawyers Jose Fernandez Jr.,

representing Pearsall, and Tom Cowden, representing Products & Chemicals, Inc., sought to find out who determined which Coastal-LoVaca customers would negotiate the proposed settlement.

Moe also testified that Coastal could renege on a proposed \$180 million gas-search program — but only by paying that amount plus a \$150 million

He disclosed Coastal's option to "walk away" from the program under cross-examination by

The settlement replacing LoVaca with the customer-owned Valero includes provisions for Coastal to seek additional gas to make sure Valero can supply its customers.

Moe said that if Coastal chose not to conduct such a search, it would have to pay an extra \$150 million for "gas

"But it could walk away from the

"Yes," said Moe, "but it would be a devastating blow to the financial condition of the company." Moe said Coastal would have to pay \$330 million over 15 years.

Cryogenic Processing event starts Thursday

ODESSA — A two-day symposium on Cryogenic Processing, sponsored by the Permian Section of the American Institute of Chemical Engineers, will begin at the University of Texas of the Permian Basin Thursday.

The sessions will be held from 9 a.m. to 4:15 p. m. Thursday, and from 9 a.m. to foon Friday.

The keynote speaker will be Dr. Klaus D. Timmerhaus, associate dean of engineering at the University of Colorado in Boulder.

His topic will be "Why Cryogenics." Registration will be held from 8 .m. to 9 a.m. Thursday at the univer-

Dr. Timmerhaus will make his croyogenics talk at 9:15 a. m. Thur-

He also will be the speaker at the banquet Thursday in the Hereford Room of the Holiday Inn in Odessa. He will speak on "The Political Side of the Energy Crisis.

This event will begin with a social hour at 6:30 p. m. Dinner will be served at 7:30 p. m.

Dr. Timmerhause has held numerous offices in many professional associations, including AICHE and the Cryogenics Engineering Conference. Since 1965, he has been one of the six U.S.

members elected to the International Institute of Refrigeration, Commission I. He has published more than 60 research papers and has edited 24 volumes of Advances in Cryogenic Engineering.

Other papers to be presented Thursday include: "Molecular Sieves Dehydration for Cryogenic Applications," by Gred Hales and Russ Weaver, at 10:45 a. m.

'Demethanizer Systems in Olefin Plants," by Carl Albers, 1:30 p. m. "Improved Cryogenic Processing." by J. B. Lawrence, 2:15 p. m., and "Cold Box Application and Technology," by Jean-Pierre

Schaack, 3:15p.m. The Friday schedule will include: "LNG Processing and Tran-sportation," by John R. Wolflick, at 9

"The Advantage of Turbo Expanders Relative to Recovery Power and Utilizing This Power," by Sharif Mafi, at 10:15 a.m., and a summary session, from 11:15 a. m. to noon. This session will be led by Dr. Timmerhaus.

A registration fee of \$35 includes a ticket for the banquet Thursday. Additional tickets for the dinner can be purchased at the registration desk. College students are invited to attend the technical sessions free of

Mewborune Oil Co. of Midland nnounced locations for a pair of rojects in section 27-18s-32e in Lea

The operator spotted location for No. 1-G Federal in the Lusk, North

(Morrow gas) field. Slated for a 13,200-foot bottom, it is 1,980 feet from

Mewbourne No. 4-E Federal will be drilled as a Querecho Plans field project to 4,300 feet.

south and west lines of section 27-18s-

Location is 1,650 feet from north and 2,310 feet from east lines of section 27-

CHAVES TEST

Bill J. Graham of Midland No. 1 Williams will be drilled as a 2,900-foot test 1/2 mile southeast of Queen gas production in Chaves County.

Drillsite is 12 miles southwest of Caprock and 1,980 feet from south and 1,730 feet from west lines of section 3-13s-31e.

RANK WILDCAT

Jack F. Grimm and N. N. Hunt of Abilene spotted location for a rank wildcat in Mitley County, five miles east of Matador.

It is No. 1 Lizzie Archer, 660 feet from north and 2,266 feet from west lines of section 85, John H. Gibson survey, abstract 94.

Contract depth is 8,500 feet. Ground elevation is 2,270 feet.

PECOS WELL

Gulf Oil Corp. No. 1 USM-Hillin is a new well is the USM (Queen) field north of Fort Stockton in Pecos County.

The well potentialed for a daily pumping potential of 55 barrels of 34.8-gravity oil, plus 83 barrels of water, through perforations from 3,172 to 3,356 feet, after 2,000 gallons of acid and a 21,000-gallon fracture

treatment. Total depth is 3,475 feet and plugged back depth is 3,461 feet. The gas-oil ratio is too small to measure.

Location is 3% miles north of Fort Stockton and 1,807 feet from south and 853 feet from east lines of section 1, block 143, T&StL survey.

Enserch Exploration, Inc.,

Dallas No. 1-12 J. O. Stack Estate has been completed in the Reaves, North (3, 200) field of Reeves County.

Operator reported a calculated, bsolute open flow potential of 1,334,400 cubic feet of dry gas per day. through perforations from 3,130 to 3,144 feet.

The pay was acidized with 500 gallons and fractured with 2,50s. Total depth is 3,035 feet and 41/2-inch pipe is set on bottom. The plugged back depth is 3,276 feet.

lisite is 990 feet from south and 180 feet from west lines of section 12, block 57, T-3, T&P survey. It is 10 miles southwest of Orle.

Test, well reported

P&W Oil Co. of Andrews announced plans to re-enter a 13,345-foot failure in East Andrews County and clean out for tests at 5,000 feet.

The project, No. 1 Fasken, originally was drilled by Tesoro Petroleum Corp. as No. 1 David Fasken and plugged in 1972.

Location is 1,980 feet from south and 660 feet from east lines of section 4, block 41, T-3-N, G&MMB&A survey and 11 miles east of Andrews. There is no nearby production.

PECOS WELL

C. F. Lawrence & Associates, Inc., of Midland No. 3 Merchant St. has been completed in the Lehn-Apco, South (Queen) field of Pecos County, 14 miles west of

On potential test it pumped 22 barrels of 31-gravity oil and 15 barrels of water in 24 hours. through perforations from 1,550 to 1,585 feet. Gas-oil ratio is 700-

The pay was fractured with 20,000 gallons.

Location is 2,168 feet from southeast and 467 feet from southwest lines of section 102, block 10, H&GN survey.

Governor discusses Gulf port

WASHINGTON (AP) - Gov. Dolph Brisce and members of the Texas Deep Water Port Authority met with Transportation Secretary Brock Adams this morning to discuss "the most expeditious way in which to proceed" with the building of an offshore docking facility for super-

Briscoe said the state can either file for a new application to build the port or pick up the application completed by Seadock, a consortium of major oil companies that tried to build the massive offshore facility but was hit by anti-trust litigation.

Briscoe explained that the facility. to be located 25 miles from Freeport in the Gulf of Mexico, would not be plagued with the same legal problems because "the state would operate it and it would be open to everyone that wanted to use it.

The facility would have the capability of handling 21/2 million barrels of crude oil per day and could be equipped to handle highly volatile liquid natural gas, said authority chairman Bob Casey, who attended the morning meetings along with six other members of the group.

Briscoe acknowledged that the Seadock application expires April 20. He said the authority probably will decide by April 13 which avenue it will

The governor said the cost of delays in the project - estimated at between \$700 million and \$800 million - are rising at the rate of \$500,000 daily.

Briscoe said the state would operate the facility but will not put its credit on the line to insure construction. "We have to sell revenue bonds to build the facility but the state cannot stand behind the bonds. We have to get committments from the users of the facility to make the bonds more saleable. Of course, these bonds would be tax-free so that would make it a little easier.'

Discoveries complete; field work announced

A pair of discoveries have been completed, two pools have gained wells and a pair of field area projects have been staked in Southeast New Mexico areas.

Charles F. Harding of Dallas No. 1-3 State, 12 miles northeast of Caprock, has been completed as a Mississippian oil discovery.

The Lea County well was completed

ENERGY

for 51 barrels of oil, flowing through a 14-inch choke and perforations from 10,091 to 10,879 feet.

The strike is bottomed at 11.192 feet and 41/2-inch casing is cemented at 11,208 feet. The plugged back depth is 10,897 feet.

The discovery is 134 miles west of the Bar U (Pennsylvanian) field and 2,310 feet from north and 1,980 feet from east lines of section 3-9s-32e. The closest Mississippian field is 30 miles to the southeast in the Austin field.

Getty Oil Co. No. 1-2 State has been completed as a 142-mile northeast extension to the Grama Ridge (Morrow) field in Lea County, 18 miles southeast of Halway.

Operator reported a a daily potential of 1.965,000 cubic feet of gas per day, through various size chokes. Hole is bottomed at 13,381 feet and plugged back to 13,360 feet. Five-inch oil string is set at 13,379 feet.

The well is 1,980 feet from north and west lines of section 2-22s-34e.

ABO OPENER

Yates Petroleum Corp. No. 1-IX Federal has been potentialed as an Abo gas discovery in Chaves County. 16 miles southwest of Elkins.

It completed for a daily flowing potential of 200,000 cubic feet of gas per day, through a 1/2-inch choke and perforations from 4,810 to 4,822 feet.

ET town gets cash

WASHINGTON (AP) - A small East Texas town imperiled by a leaky natural gas system and plagued by bureaucratic red tape has recieved a \$500,000 grant to allevite its poten-

eople of Huntington who have had to live with the possiblity of an accident due to this leaky natural gas," said a Bentsen spokesman. The senator is currently in Red China participating in trade talks. "We hope the FHA moves expeditously and approves this loan and remove this cloud hanging over Huntington."

Total depth is 5,132 feet and 41/2-inch pipe is set at 5,014 feet. Plugged back depth is 4,960 feet.

Location is 1/2 mile north of an unnamed Wolfcamp gas discovery. There is no nearby Abo production. Wellsite is 2,180 feet from south and 660 feet from west lines of section 3-9s-

DUAL WELL

Yates Petroleum Corp. No. 1-IS Siegenthaller Communitized has been finaled as a dual well in the Kennedy Farms (Atoka and Morrow gas) field.

The Eddy county producer completed from the Atoka for a daily flowing potential of 6,700,000 cubic feet of gas per day, through a %-inch choke, with tubing pressure of 460 pounds. Completion was through perforations from 8,194 to 8,298 feet.

From Morrow perforations, at 8,404-8,430 feet, the well finaled for a daily rate of 3,750,000 cubic feet of gas per day, through a 1/2-inch choke, with tubing pressure at 570 pounds.

Total depth is 8,670 feet and 51/2-inch casing is set at 8,647 feet. The plugged

back depth is 8,607 feet. The well is 1,980 feet from south and 660 feet from east lines of section 21-17s-26e and one mile southeast of

LEA PROJECT

Amoco Production Co. No. 2-DR State is to be dug as a 10,000-foot Wolfcamp project in the Lusk, East field of Lea County, 14 miles southwest of Maljamar.

The project is 1,650 feet from north and 990 feet from east lines of section 16-19s-32e.

Exxon Corp. No. 2-CU New Mexico State will be dug as a 10,400-foot project in the Winchester (Cisco) field of Eddy County.

It is 660 feet from south and 1,980 feet from west lines of section 24-19s-28e and 14 miles southwest of Loco

\$500,000 grant to allevite its potentially explosive problem.

The community of Huntington will use the HUD funds to replace the city-owned natural gas system that has leaked thousands of dollars of gas while creating a hazardous situation for the nearly 2,000 residents.

The announcement of the grant—that had been stalled while federal officials searched for ways to skirt their own regulations — was made Wednesday by a spokesman for Sen.

HUD regulations specify a ceiling for community development grants.

HUD regulations specify a ceiling for community development grants.

The normal ceiling for a town Huntington officials estimate the cost of replacing the leaky gas lines at \$1.2 million. The other \$700,000 needed has been requested in the form of a Farm Home Administration loan.
