Physicians buy hospital

chased the 60-bed Parkview Hospital in Midland, hospital officials announced this morning.

The purchase was effective April 1, pending final approval by the Securities and Exchange Commis-

Dr. Ernest F. Vernezobre is president of the new corporation, named Gaddisons after the doctor in Chaucer's Canterbury Tales. Vernezobre said Dr. Viola Coleman and Dr. Jack Walton are vice presidents and Dr. Albert Courtney is

Vernezobre said other Midland physicians also are involved in the purchase, but he refused to disclose the names of the other doctors. "I can't disclose the number, either. We're still in negotiations with some others," Vernezobre said.

The president of the new corpora-tion also refused to disclose the purchase price.

The hospital previously was owned by Pell Industries, headquartered in

In a prepared release, hospital

tion program already is in progress at the hospital. Work on both patient wings of the hospital and the surgical departments has been completed, and all 60 rooms are ready for patients. the release indicated.

Sam Johnson is to continue serving

Vernezobre said negotiations for the purchase began in January. The doctors bought the hospital "because

MIRACULOUSLY, Gary Lynn Holley, 20, of Route escaped serious injury in a traffic accident Monday afternoon. Holley, driver of the car, was northbound, coming off of U.S. Highway 80 onto the service road. Barbara Jean Bittmer, 21, of Midland

was eastbound in the truck on the north service road when the two vehicles collided. Holley, the only one injured in the accident, was treated at Midland Memorial Hospital and released. (Staff

Proposed nuclear waste site near potential Midland water source

By JIM STEINBERG R-T Staff Writer

CARLSBAD, N.M. - The first of three public hearings is scheduled to begin here today on a proposed nuclear waste disposal site deep within underground salt formations 30 miles southeast of this city of 28,500.

If approved, the Carlsbad Waste Isolation Pilot plant, as the proposal is called, ultimately would place large quantities of radioactive waste material within 30 to 40 miles of a potential future source of Midland's water beneath the T-Bar Ranch, in Loving County on the New Mexico-

The city has water rights to the 920,000 acre-feet of water beneath the ranch. At the city's present consumption rate, city officials have said this derground water would supply Midland's water needs for the next 62

The WIPP is the first attempt on the part of the nation to form a policy on nuclear waste.

One of the proposals contemplated in the project would be to move military wastes kept at the plutonium production plant at Savannah River, S.C., to Carlsbad.

About 70 million gallons of radioactive military waste have been accumulating over the past 25 years and an additional seven million gallons is added every year.

Although there has been talk of establishing an atomic waste "garbage policy" for some 20 years, no action has been taken.

At today's meeting, Department of Energy Deputy Secretary John O'Leary and Director of Energy Research Dr. John Deutch will explain the present WIPP proposal and seek imput from persons at the hearing on both this proposal and on the direction of U.S. policy regarding nuclear waste disposál, explained George Dennis, director of public affairs for the Albuquerque Operations Office of the Department of Energy.

Today's hearing will begin at 1 p.m. in the Rodeway Inn here. A se cond session will begin at 7 p.m.

On April 12, two public hearing sessions will be held in Albuquerque and two more will be held in Santa Fe on

Expected to be present at the hearing today will be Carlsbad Mayor Walter Gerrells, who along with fellow city councilmen, Eddy County

commissioners, the Carlsbad Chamber of Commerce and numerous civic groups, feels the \$370 million project will benefit the local economy. Expected to be present also will be

opposition to the project - both local and statewide. Among the WIPP opponents ex-

pected to testify is Dr. Charles Hyden, physicist and member of the Albuquerque-based Southwest Research and Information Center. Hyden has disputed studies for the

government by the Sandia Corp. in Albuquerque which maintains the salt mines will remain stable in the face of high temperatures resulting from radiation storage 2,000 feet below the earth's surface. The resulting heat build-up could

cause a shift in the salt domes of up to 1,500 feet, John Liebendorfer, a Monday in an interview with The Reporter-Telegram.

'In 30 years all that radioactive waste could be floating up from the ground," Liebendorfer said.

Nuclear wastes, such as those contemplated for storage in the Carlsbad Waste Isolation Plant remain "hot" for 100,000 to 300,000 years, according to the Department of Energy.

The protective order asked by Orr's

on that basis," he said.

ODESSA - The first of 40-odd people subpoenaed to testify in connection with the jailhouse death of Larry Lozano is expected to appear in an inquest hearing here today.

Lozano, 27, of Odessa, died in the Ector County Jail Jan. 22 of injuries said by Sheriff Elton Faught to have been self-inflicted. Others have alleged Lozano was beaten by sheriff's deputies.

The inquest was to be before a sixmember jury presided over by Peace Justice Virgil Lumpee.

On Monday, San Angelo Standard-Times reporter Richard Orr, who reportedly has Lozano-related notes and tapes wanted by the inquest jury, lost an attempt in 70th State District Court to have a protective order granted.

Orr has written numerous stories on the incident.

He gave up his notes and tapes Monday under the threat of being jailed.

Neither Orr nor his attorneys commented to the news media after Orr had appeared before an Ector County grand jury Monday.

However, Ector County District Attorney John Green told reporters that the San Angelo newspaper had "misled the public of Ector County."

Basin pair 'missing, presumed drowned'

By KAY HORD

DEL RIO - Two Permian Basin men are "missing and presumed drowned" in Amistad Reservoir, National Park Service Chief Ranger Eldon Cohlman said Monday.

A third Permian Basin man, Ken Holder of Odessa, managed to sur-vive, although he is unable to explain how, rangers said they were told.

Theodore J. "Bud" Portley of Midland, Oscar H. "Doc" Barker of Odessa and Holder were fishing in Devil's River, just above Rough Canyon Marina, Cohlman said. They were using a 16-foot bass boat, registered to Odessa Butane, a sub-sidiary of J. D. Ward and Sons Inc.

Holder is vice president of J. D. Ward and Sons Inc. and Tandy Tire Co. of Odessa. Co. of Odessa.

"We don't have any idea what happened. Holder said he was facing the back of the boat tending his fishing gear when all of a sudden he ended up in the water, and the boat was running out of control," Cohlman Holder was pulled from the water by another boater, Pat Lewis of the Buchanan Dam area. Holder reportedly told him that two partners

were in the water.
Two National Park Service divers were sent into the lake to search for

were sent into the lake to search for the two men, but their search was called off because of poor visibility.

"When the two divers inspected the area, the found visibility about 75 feet down was about one foot. They could not see anything. Also, there's a lot of brush they had problems with.

"This has also created quite a problem with dragging equipment.

problem with dragging equipment tangling in old submerged trees and brush that was along the river before the lake. This is also a naturally rocky area, so this creates problems," Cohlman said.

"We're just doing the best we can under these adverse conditions. "Another problem is that we don't know the exact location because

Explosion damages plant

ODESSA—An explosion Monday morning at the shredder plant operated by the city of Odessa caused extensive damage but no injuries. Dwayne Dobbs, sanitation superintendent, said today.

The suspected cause of the explosion was several paint or aerosol-type cans, Dobbs said.

"We have guite extensive damage."

"We have quite extensive damage at this time, although we don't have a

Cold touch

almost over

Midland's little touch of winter is just about over, according to the National Weather Service at Midland Regional Air Terminal.

The high Wednesday ahould be back in the low 80s, the weatherman predicted. The high temperature today should be in the mid-70s and the low for tonight in the mid-40s. Southerly winds of 5 to 10 miles pet hour should prevail.

dollar estimate," he said.

The explosion tore the housing around the shredder's rotor, tore ceilings off offices and blew windows out of the control room.

"It will take four or five days to get it patched up and running again. As for permanent repairs, they will have to buy a new housing and get it in-stalled, which might take two or three months," Dobbs said.

"We just feel real fortunate not to have any injuries. We've never has any injuries since the plant opened in \$974," he said.

Dobbs said there was no way to tell people not to put explosive items in the trash containers.

"They put anything in them (the containers), including gasoline cans. And we don't have anyway of sorting this material. We do try to pick out the things we see coming through that are hazardous to us, but lots of times we don't see them," he said.

Dobbs also said plant officials had been unable to discover how many aerosol cans would be necessary to create this powerful an explosion.

Ex-FBI director, 2 aides indicted

(Continued from Page 1A)

December in a dispute with Bell. Bell said the alleged illegal conduct by Kearney and other middle level FBI officials was not excused by the "mere fact" they were following orders. "It will not be so considered (an excuse) in the future." he said.

'I have decided, weighing all the factors, that it would not be just to prosecute Mr. Kearney or others on his level for activities which are not likely to recur given the present at-titude and safeguards in the FBI and the Department of Justice."

The indictment against Gray, Felt and Miller cites break-ins of five different homes in the New York City area in late 1972 and early 1973. The inhabitants were all U.S. citizens and acquaintances or relatives of Weatherman fugitives.

The break-ins violated those citizens constitutional rights to have their homes protected against unreasonable searches and seizures. the indictment said.

It traced a series of acts in which Miller allegedly sent memos to Felt about persons whose homes were later entered surreptitiously by FBI agents. Gray, at one point, is alleged to have approved the agenda for the Weatherman in-service training course at Quantico where, the indictment charges, the lecture on break-in techniques was given.

Miller and Felt both have acknowledged publicly that they

John Kearney

approved such break-ins.
Felt said Monday, "In my own career up against mobsters, criminals, spies and the mad bombers of the Weather Underground, I never approached a case with ciminal intent and never got any personal gain from a case."

Gray, now a lawyer in Connecticut, said through his attorney Alan I. Baron: "I never participated in or knowingly authorized any illegal conduct during my tenure as acting director of the FBI."

2 missing, 'presumed drowned'

(Continued from Page 1A)

Holder was swimming and the boat continued to run," he said.

The National Parks Service is working in cooperation with the Texas Parks and Wildlife Department in the search for the two missing men.

"We still are conducting operations - dragging the area and surface observation, and we will continue in the hopes of finding them or until we feel that it is impossible to do any more. And then we will continue to patroi the area and see it they float to

The Texas Parks and Wildlife Department game wardens are making periodic checks of the area, along with National Parks rangers. Also, a border patrol airplane, when in the area, will be making surface checks, he said.

"We are presuming they did drown, although we won't have any proof of that until we recover the bodes.' Cohlman said.

L. Patrick Gray III

Thomas Kennelly, who is Miller's attorney, said Monday that his client "emphastically denies any wrongdoing. I think when the smoke clears he will emerge as a good man who at all times acted in the best interests of the United States."

Edward Bennett Williams, who was Kearney's attorney, said in a phone interview that he was pleased that the government had dropped "a case they couldn't win." He said he had urged the department to do so in several

Williams planned to base Kearney's defense in part on grounds that the FBI officials actions were warranted becuase the Weather Underground was a threat to the national security. In doing so, he had made extensive discovery motions for government documents relating to similar conduct by other agents.

Kennelly declined to comment on whether Miller and the others might make similar arguments in their defense, but added that he thought discovery proceedings would be 'extensive and lengthy.'

Barnet D. skolnik, the successful prosecutor of former Vice President Spiro T. Agnew and suspended Maryland Gov. Marvin Mandel, will

While the Secret Service was issuing a nationwide alert for the

periencing car trouble in Springfield.

be the government's chief trial at-torney in the case against Gray, Felt and Miller, Bell said.

Gray was appointed acting FBI director in May 1972 after the death of long-time bureau chief /J. Edgar Hoover Gray never was approved as permanent director becaue of his role in destroying evidence in the Watergate scandal.

A former top Hoover aide, the late William C. Sullivan, told reporters that he had passed on to Kearney Hoover's personal wishes that "any available means" be used to catch the member of the Weather Undergound who had been accused of bombing the

U.S. Capitol in 1971. Bell refused to say Monday whether his investigators found evidence that Hoover had given such orders.

Current FBI Director William H. Webster issued a statement Monday saying there has been "concern" in the bureau "that a just resolution be achieved in this matter as early as

Webster added that the ongoing disciplinary proceedings of other bureau agents "should nt be allowed to cast a pall" on the dedicated work on FBI employees.

Bell asked Webster to take disciplinary action - from censure to dismissal — "where appropriate" against current FBI agents who participated in the illegal break-ins, wiretaps or mail openings.

Disciplinary proceedings against LaPrade will be handled by the Justice Department's office of professional responsibility because of his rank as an assistant director, according to Benjmain R. Civiletti, acting deputy attorney geneal.

Bell rejected a recommendation to indict LaPrade for perjury last year and instead appealed to him pesonally to tell the truth. LaPrade's later testimony was helpful in other potential cases, Justice Department sources said.

In bringing an end to the longrunning internal investigation Monday, Bell said he had followed the unanimous recommendations of his prosecutors because he beleved they were "fair and just and in the public

Humble, Texas man jailed for Carter threat

LEBANON, Mo. (AP) - A bizarre chain of events that allegedly involved a threat on the life of President Carter and a 2,000-mile journey ended Monday with an FBI agent overpowering a suspected tow-truck

The 37-year-old, Humble, Texas man arrested was identified as the same man the Secret Service earlier had said was suspected of threatening the life of the president because of the Panama Canal treaties.

The man remained in the Greene County Jail at Springfield, Mo., today while authorities determined whether state or federal charges would be filed

The Missouri Highway Patrol said the car driven by the suspect had been stolen Thursday in Pecos, Texas. One of the hitchhikers had been picked up in Flagstaff, Ariz., and the other two in Albuquerque, N.M. They were dropped off at Henryetta, Okla,

The journey from Pecos northwest into Flagstaff and northeast to Lebanon, Mo., took the stolen vehicle more than 2,000 miles.

The drama began early Monday when three hitchhikers told Oklahoma authorities of riding with a man who had a gun and said he was on his way to Washington to kill the

Mo. Officials said he called a tow truck driver and, after the car was hooked up to the truck, pulled a gun later found to be a .22-caliber blank pistol. They said he showed them a note that said he was insane and was going to Washington to discuss the Panama Canal treaties with Carter.

"We were going - no doubt about it," said the truck driver, Bruce Fetters. "We tried to talk him into taking a plane into St. Louis, but he didn't want no damn plane; he wanted to go in the wrecker.

The Missouri Highway Patrol and FBI learned of the hostage situation after a motorist heard the gunman trying to raise an FBI agent on the truck driver's CB radio and notified the patrol.

Davis tire contained

FORT DAVIS - Members of the Texas Forest Service left Fort Davis Monday afternoon and returned to Lufkin, turning the fighting of a rangeland fire that has burned for more than a week back over to local officials, Wanda Adams, county judge, said this morning.

"They did not consider it (the fire) out, but they did consider it contained," she said.

The Forest Service recommended that several areas be monitored for several days by local fire depart-ments to see that the fire did not

break out again. "Any fire still burning is in the already burned areas. The Forest Service's recommendations to me were that we should monitor Merrill Canyon and Twin Tanks, two areas very close to Mount Livermore," Ms. Adams said.

The fire began when lightning struck dry grass on Mount Liver-

At various times, students from Sul Ross University, Fort Davis' high school, two firefighting units from New Mexico's Lincoln National Forest and area residents were helping fight the fire, aided by two helicopters capable of dropping 150 gallons of water at a time.

Tension rose late last week as the fire threatened Fort Davis Mountain Resort. One of the remaining hot spots, Merrill Canyon, is four miles west of the resort.

A major break came Sunday when fire-fighters, aided by rain, secured a two-mile wide fire line, a Texas Forest Service official said.

unpleasant things overlooked before familiarity sets in.

If anything anywhere, up and down the ranks, went awry, the unfortunate (and short-lived) aide got the brunt and the ax.

"If the chief of staff goofed," recalled Walne, "it's your (the aide's)

work for the general. You can drive down Big Spring

He simply had no aspirations to

Street day after day and not see and feel the impact of the unsightly riprap called trash along the way.

Such cluttering is the fate of just

about any heavily trafficked thoroughfare that's not mopped up

daily by the city's street sweepers.

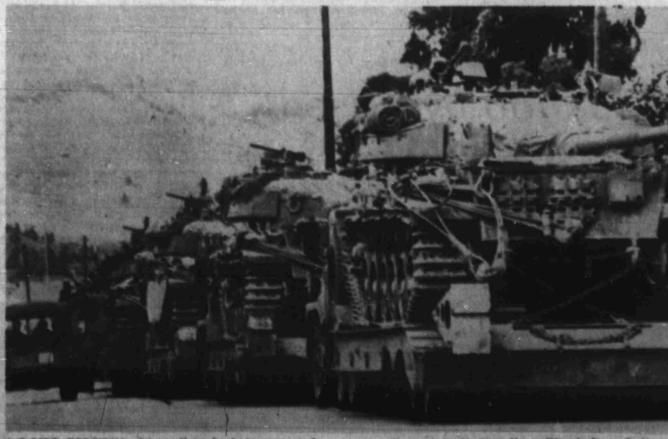

Take a stroll, a jog or cycle along.
You'll be amazed and, perhaps,

slightly repulsed by what you see.

This will be particularly so should you cast your sight onto Scharbauer Draw. From the Big Spring Street vantage point, it looks like the beginning of a city dump.

Like it or not, it's a mess only a junk-yard dog would feel at home in.

Landmark civil rights bill signed 10 years ago today

By LEE MITGANG AP Urban Affairs Writer

Ten years ago today, as the nation mourned the assassination of Martin Luther King, President Lyndon Johnson signed a landmark civil rights bill that he hoped would end racial discrimination in housing.

Officially called the Civil Rights Act of 1968 but better known as the Fair Housing Law, it meant that never again could a real estate broker legally slam the door in a black person's face.

Or as NAACP official Nathaniel Jones explains it: "For the first time, it placed the majesty of the law on the side of those who wish to do the right thing. And it placed the brand of illegality on those who want to discriminate.

But merely passing a law making discrimination illegal did not make the evils magically disappear northern cities, real shaping a concerted open this turned out to be less Slow progress has been made, but those who still discriminate have found ways of doing so that are more subtle than doorslamming but just as effective.

President Carter, declaring April "Fair Housing Month" to mark the act's 10th anniversary, said a week ago, "Ten years after passage of the national fair housing law, many Americans still ex perience discrimination when they attempt to

Senate passes farm bill

WASHINGTON (AP) -An emergency one-year aid program for grain and cotton farmers has passed the Senate, but it faces a tough battle in the House and a presidential veto if it reaches the White House.

Senators approved the bill Monday by a 49-to-41 margin that would be too small to override a veto. U.S. senators from the Southwest were among those supporting the

Senators Tower and Bentsen voted "ves" from Texas, along with Senators Hodges and Bumpers of Arkansas Senators Schmitt and Domenici of New Mexico and Senators Johnston and Long of Louisiana.

The House Rules Committee is now setting terms for House debate later this week.

Farmers have been pressuring lawmakers for additional government action to raise prices they consider below production costs.

More than 200 supporters of the American Agriculture protest group were in the Senate gallery to watch Monday's vote. The bill would increase

the level of price supports in direct proportion to the amount of land a farmer took out of production.

According to the Congressional Budget Office, 5 percent of the nation's farmers would receive one-third of the benefits from the bill.

Agriculture Secretary Bob Bergland said the Senate vote was "never in doubt," but he declined to predict the House outcome

The administration and the budget office estimate that the measure would add 58 cents to \$2.14 to the weekly grocery bill of the three-person urban family. That family spent an estimated \$49.61 on food last year and is expected to spend \$53 to \$54 for the same food this

Choral concert tonight

An all-vocal concert by members of the Chorale of the Midland-Odessa Symphony will be presented tonight in the recital hall of the new Fine Arts Building at Midland College.

The 8 p.m. program will be open to the public at no charge.

HAVE YOU

A publisher's editorial representative will be interviewing local authors in a quest for finished manuscripts suitable for book publication by Carlton Press, Inc., well-known New York subsidy publishing firm. All subjects will be considered including fiction and non-fiction, poetry, drama, religion, philosophy, etc.

He will be in Midland in late May. If you have completed a book-length manuscript (or nearly so) on any subject, and would like a professional appraisal (without cost or obligation), please write immediately describing your work. State which part of the day (a.m. or p.m.) you would prefer for an appointment and kindly mention your phone number You will

receive a confirmation by mail for a definite time and place. Authors with completed manuscripts unable to appear may send them directly to the address below for a free reading and evaluation. Authors whose literary works are still in progress may also write.

> 195 South Beverly Drive Beverly Hills, California 90212 Tel. (213) 271-3350

CONTINENTAL CHICKENFEED

No restrictions and no lower fares anywhere we fly.

Continental's Chickenfeed Fares are the solution to the discount fares confusion. Pure and simple.

Chickenfeed Fares are simple. There are no lower fares anywhere

we fly. You'll save up to 69% to cities in Texas. And at least 40% on weekdays, 30% on weekends to our other mainland cities.

They're this pure. There are no restrictions of any kind. No buying your ticket a month in advance. No minimum stays. No maximum stays. Fly one way or round trip. And get a full refund if you cancel.

There are no fairer fares. We don't treat a Chickenfeed passenger foully. Your reservation has the same guarantees as regular Coach. Or First Class, for that matter.

The only limitation is the number of seats available. So don't wait.

We've taken off all restrictions. It's your turn to take off. Call your Travel Agent or Continental at 563-2100. Ask for the Chickenfeed Fare. Then make tracks for somewhere nice.

Sample One Way Fares Midland Odessa to:	Regular Coach Fare	Chickenfeed Fare	Percentage Savings
Dallas/Ft. Worth	¹ 50	115.	69%
Houston	63	25	60%
El Paso	44	15	66%
Los Angeles	104	62	40%
Denver	75	45"	40%

*Intra Texas Chickenfeed Fares apply now between 7:00 PM and 6:30 AM on weekdays, plus all day Saturday and Sunday; fares slightly higher all other times. **Chickenfeed Fares effective May 15. Weekdays (Monday-Thursday): weekends (Friday-Sunday). Fares shown above include a 3% general fare increase on file by all carriers for effectiveness May 1, 1978.

Subject to CAB approval.

We really move our tail for you. CONTINENTAL AIRL

Coup-ridden Benin tries Communism

By DAVID LAMB

COTONOU, Benin - The convulsions of revolution are nothing new for this West African nation. What is new is the paranoia that has come with its latest social experiment, this one in Marxist-Leninism. The experiment was born of desperation and

hopelessness as much as anthing, for in its first dozen years of independence Benin - formerly Dahomey - endured five mlitary coups d'tate, 10 failed coup attempts, 12 government and six con-Nowhere in Africa was instability so much a part

of life. It was as though Benin was poitically jinxed and that each regime came to power was destined to self-destruct through tribal, regional and personal

As one official put it, "For the rest of the world it must have seemed a comical farce. For us it was a Remarkably, in each successful coup the military

took over without firing a shot or killing a soul. But Benin was merely running place. In 1969 it produced the strange spectacle of four former presidents seeking re-election against the military regime which had disposed them.

Hardly an eyebrow was raised three years later when a young, French trained paratrooper named Mathieu Kerekou engineered the fifth coup. All he and his troops had to do was surround the presidential palace where the Ministerial Council was gathered at siesta time. In a matter of second the ministers' status changed from that of governor to that of prisoners.

BENIN HAS NOT been the same since. Lt. Col. Kerekou, 43, is leading this Pennsylvania-sized republic of 3 million people through one of Africa's most radical revolutions. From the red banners strung throughout the pleasant seaside capital -'death to traitors'' - to the Soviet, Cuban and North Korean advisors who scurry through the dusty streets, the signs of change are everywhere.

The government has abolished Christmas and Easter as legal holidays, banned the Jehovah's Witness sect and ordered its officers to undergo "demystification" training. Sorcerers have been forced into special asylums, an unpopular move because voodoo, still commonly practiced in Benin, was born here and spread from here to the New

Khaki-uniformed students spend their summer vacations working on farms, and at school they learn as much ideology as math. Beninese are forbidden to contact foreign embassies in Cotonou. In factories the omnipotent Benin People's Revolutionary Party has set up big-brother committees to watch the unionists who watch the workers.

To all these new regulations the gentle and genial Beninese comply with indifferent obedience. But beneath the silenced opposition and the government's strident rhetoric there lingers a fear and uncertainty of the future. The government knows full well that it is still vulnerable to both internal and ex-

MANY OF THE 27 members of the Central Committee, most of them young civilians, want to move further and faster to the radical left than the military siderations are so significant here that the government radio station broadcasts in 16 different tribal languages, and there are divisions between the poor. backwood Moslem northerners and the bettereducated and largely animist and Christian southerners.

Thousands of Beninese, including many intellectuals, have fled into exile in France, Belgium, Gabon, the Ivory Coast and Senegal. Hundreds of students studying abroad have refused to come home, a decision which results in the loss of their citizenship and the confiscation of any property they own in Benin. And the Paris-based Front For the Liberation and Rehabilitation of Dahomey has strong exile support, a sizeable constituency within Benin, and a simple goal: To carry out Benin's sixth

Although the Kerekou regime has avoided reponding to these threats with terror, killings or mass arrests, it has nevertheless developed a paranoia, marked by unpredictability and xenophobia. Its suspicions are directed particularly at whites, who are seen as potential mercenaries or spies. Three French tourists, for example, arrived at the

International Airport last year and asked a policeman for directions to their hotel. He politely replied that he would lead them - which he did, directly to jail. They spent six months there without being charged. (Prisoners generally are not mistreated but thir jailers do not provide food.)

A FOREIGN RESIDENT, whose hobby is astrology, recently was defied permission to place a 12-inch telescope in his home on the grounds that it might have some sort of radar capability. And an American visitor last week received a 6 a.m. call in his hotel from the police department, asking his occupation and business in Benin. A U.S. consular officer in Cotonou has spent \$600 of

his own money in the past six months feeding a handful of Americans who have been in and out of jail, usually for no discernable reason, and the American embassy here has put out a travel advisory for U.S. tourists: Don't come. To a large extent the government's paranoia is

rooted in a bizarre invasion 15 months ago. Early on the morning of Jan. 16, 1977, an unmarked passenger plane landed at Cotonou, disgorging about 100 men, many of them French-speaking whites. The men secured the airfield without difficulty and

strolled in full battle gear the six miles to town, rifles slung casually over their shoulders, cigarettes dangling from their mouths. They exchanged pleasantries with the civilians, stopped for a few beers and shot up some public buildings, including the presidential palace, where Kerekou does not live. They left behind six dead Beninese soldiers and

several empty champagne bottles. Then, as nonchalantly as they had arrived, they reboarded their plane and disappeared into the noonday skies, destination unknown.

A UNITED NATIONS commission heard testimony that the mercenaries had been trained in Morocco and flown to Gabon to launch their invasion, a charge that both countries denied. It is presumed here that they were part of the Liberation Front for Dahomey, but to this day their identity, purpose and employer remain a mystery.

Since then Soviet arms have begun arriving to equip Benin's 2,600-man security force and Soviet warships pay an occasional visit to Cotonou, a major transit point for goods going to Nigeria and Niger and one of Benin's few visible assets.

Relations with the West, which keeps this resource-poor, poverty-gripped former French colony afloat with \$15 million to \$20 million a year, have deteriorated as ties with the East have improved. Both the United States and France have withdrawn their ambassadors, and the 2,000 French expatriates who live here are the frequent subject of attack in the daily eight-page newspaper and on the state-owned

The Little White Doves, third grade Blue Bird group of the Midland Council of Camp Fire Girls, knows the meaning of service. The girls just com-pleted a project to help a Midland blind boy, Kevin

Pat Knox, itinerant teacher of the visually impaired, whose office is in Carver Learning Center, visited a meeting of the Blue Birds and explained to them how they could help Kevin, who lost his

eyesight at an early age.

Through various learning activities. Kevin is learning to utilize his other senses and to develop them, so the girls collected several different items and created learning activities, according to

Kaylene Burgard, group leader.

One activity consisted of baby food jars with a cotton ball inside each one. A particular scent was placed on each ball and, said Mrs. Burgard, the name of the scent will be written in Braille on a tape which will be placed on the outside of the jar by the girls. This particular activity will help develop the sense of smell, as well as identify in Braille the

Different objects collected also were placed in baby food jars. This activity will involve identifying by feel and reading the Braille lables on the jars.

Pairs of matching buttons and fabric swatches will be used as an exercise relying on the sense of feel. Also, unusual size and shaped jars with lids were found and this will involve manual ability of unscrewing lids and then matching up the right lids with the right jars.

Kevin, son of Mr. and Mrs. Roy L. Ratliff, is "a bright, active 7-year-old who happens to be totally blind." said Mrs. Knox.

"Kevin developed bilateral retinoblastomas as an infant," added Mrs. Knox. "This is a type of cancer of the retina, and it developed in both eyes. When he was about a year-and-a-half years old, both eyes were removed because of the advanced stage of the disease. Kevin has been clear of any symptoms not for more than five years."

Kevin is in the public school kindergarten program at Bowie School for half-a-day and in the early childhood program at Opportunity Center for the other half. He also receives daily the services of Mrs.

Mrs. Knox works with Kevin on reading and writing Braille, orientation and pre-cane skills and preparation of special materials.

job of raising Kevin and encouraging his independence because they love him. Every parent knows it is easier to do it yourself. It takes an extra amount of 'let go' to support a handicapped child's' efforts to do it alone. They have succeeded to the extent that visitors to Kevin's class have a difficult time finding the blind child they have been told about' "explained Mrs. Knox.

Mrs. Ratliff is learning Braille from Mrs. Knox to

DEATHS

Horace C. Kimbrow

H. C. Kimbrow

Horace C. Kimbrow, 65, of 117 Thornridge Drive died Sunday in a Midland hospital.

Services will be at 10 a.m. Wednesday in Newnie W. Ellis Funeral Home with Earl Danley of Odessa officiating. Burial will be in Resthaven Memorial Park.

Kimbrow was born Nov. 12, 1912, in Alvarado. He taught school near Olney five years. He began work with Shell Oil Co. in Olney. He moved to Hobbs, N.M., in 1947 and was transferred to the Midland office of Shell in 1950, where he was with the treasury department. He later became a safety representative. He retired Feb. 1, 1977, after 33 years with Shell.

Survivors include his wife. Elizabeth Kimbrow; four sons, Jack Kimbrow of Baton Rouge, La., John Kimbrow of Kansas City, Mo., Mike Kimbrow of Midland and Alan Kimbrow of Austin; two sisters. Ila Orr of El Paso and Jane Bean of Rock Springs, and three grandchildren.

Pallbearers will be Calvin Wright. Cecil Gerber, Lynn Trott, Alton Hat-field, Ira Marchbanks and Hughie Lillie.

L. A. Braddy

BRECKENRIDGE - Services for L. A. Braddy, 92, of Breckenridge, father of Clovis Braddy of Midland, were to be at 2 p.m. today at Sat-terwhite Funeral Home.

The Rev. James Johnson, pastor of First United Methodist Church in Coolidge and former pastor of St. Paul's Methodist Church in Breckenridge, were to officiate. Burial was to be in Breckenridge

Cemetery. Braddy died Saturday. Born May 20, 1885, in Wolf City, he married the former Rosy May Smith Dec. 25, 1907, in Leonard. They far-med in Fannin County in eastern Oklahoma before moving to Stephens County in 1923. He was employed by Mid-Kansas Oil and Gas Co. until 1940. He retired from Trans-Pacific Coal and Oil Co. in 1945. He was a member of St. Paul's United Methodist Church.

Other survivors include a son, a brother, two sisters, 11 grand-children, 23 great-grandchildren and a great-grandchild.

Bessie S. Mayo

SAN ANGELO — Services for Mrs. Bessie Sylvania Mayo, 76, mother of Melba Kirkpatrick of Midland, will be at 10:30 a.m. Wednesday in Johnson's Funeral Home here. Burial will be in Fairmont Cemetery

Mrs. Mayo died Sunday in a San

Angelo hospital.

She was born Jan. 30, 1902, in San Saba. She had lived in San Angelo for 51 years. She was employed by Model Laundry for 32 years.

Other survivors include her husband, five sisters, three brothers, eight grandchildren and 11 great-grandchildren.

Bessie Strey

ALBANY - Services for Bessie Strey, 76, were at 4:30 p.m. Monday in First Baptist Church of Albany. She was the sister of R. D. Reece and Cleo Reece, both of Midland.

The Rev. Dewey Lamb, church pastor, officiated. Burial was in Albany Cemetery directed by Godfrey Funeral Home. Mrs. Strey died at her home here

Saturday. Born Bessie Reece July 26, 1901, in Gustine, she had lived in Albany for 55 years. She married Fred Runke May 14, 1922, in Gustine. He died in 1962. She married Alvin Strey in 1970.

She was a retired school teacher and former manager of the Eastern Star Home in Arlington. She was a past worthy matron of the Order of the Eastern Star.

She was a member of the Bluebonnet Study Club and the Retired Teachers' Association. She was a receptionist for Dr. L. S. Key for 10 years. She was a member of First Baptist Church in Albany. She attended CIA College in Denton.

Other survivors include her husband, two daughters, two brothers, two sisters, two grandchildren and two great-grandsons.

Joe H. Smith

Sue Johnston of Lamesa, Dianne Collins of San Angelo, Janet Evans of Lubbock and Shannon McGilvray of Andrews: five sisters, Ruby Bond of Gainesville, Er-ma Gene McGilvray of Gainesville, Ina Faye Allen of Fort Worth, Lula Mae Edwards of Oklahoma and Bessie Lena Huey of Gainsville; four brothers, Fred McGilvray of Keller, Ocus McGilvray of Illinois; Johnny McGilvray of Gainesville and James McGilvray of Fort Worth and eight grandchildren.

Juan M. Lopez

LUBBOCK - Rosary for Juan M Lopez, 89, father of Nick Lopez of Lamesa, was at 8 p.m. Monday in Franklin-Bartley Funeral Home. Mass was to be at 3 p.m. today in St. Patrick's Catholic Church here with the Rev. George Buckley of St. Patrick's officiating.

Burial was to be in Peaceful Gardens Memorial Park. Lopez died Sunday in a Lubbock

hospital following a lengthy illness. He moved to Lubbock in 1950 from Edinburg. He was a retired cabinet maker. He was a member of St. Patrick's Catholic Church.

Other survivors include three sons. three daughters, 34 grandchildren, 33 great-grandchildren and two greatgreat-grandchildren.

Emergency grant available to ease burden of fuel costs

If you meet federal poverty guidelines and had a heafty fuel bill

this winter, you may be in luck. The Midland Community Action Agency has received an \$8,000 emergency grant to help meet the burden caused by those fuel costs, said MCAA executive director Alexandra Morris at the agency's regular monthly meeting Monday night.

The emergency grant from the Community Services Administration must be used by May 1. Persons who feel they may qualify under the rigid federal poverty guidelines should call Albert Jones at 682-2822 for further information.

The amount of relief is limited to \$250 per household, Jones said. Applications will be accepted from

HEW to require more financial need evidence

WASHINGTON (AP) - The Department of Health, Education and Welfare says it will require 200,000 college students each year to submit extra evidence to back up their requests for federal grants.

Leo Kornfeld, HEW's student aid chief, said the applications "will be randomly selected by computer in the way federal income tax returns are selected for validation."

An HEW audit report last week estimated that the department paid out \$120 million in Basic Educational Opportunity Grants in fiscal 1977 to students who were not eligible or who got too much.

The 200,000 students will not be able to receive their grants from college financial aid officers until they provide information to back up their

residents of Midland, Loving, Reeves. Ward and Winkler counties, he added.

At the meeting Monday, Mrs. Morris told board members that the agency had received an addition \$31,400 in basic administrative funding from the CSA for the 1978-79 fiscal year. The increase will be used to hire three fulltime cutreach workers, increase staff salaries and improve employee benefits, Mrs. Morris added.

The base grant for the funding agency now totals \$76,400.

MCAA staff members Albert Jones told board members that since January 1978, 15 houses have been insulated and weatherproofed in fivecounty target area under the agencyrun weatherization program. Midland lead the counties of Loving, Reeves, Ward and Winkler with eight residences completed, Jones noted.

Jones said that the reason for the labor shortage was, in part, caused by delays in the necessary paperwork on the part of other agencies participating in the project. Jones received the board's ap-

allowing a limited number of senior citizens to work 20 hours per week on weatherization projects at no additional cost to the agency.

Weather raises water demand

BIG SPRING - Reduced deliveries of surface water to oil companies and a cool spring combined to hold water demands down for the Colorado River Municipal Water District in the first guarter of 1978, a district spokesman said today.

As weather warmed toward the end of March, there was a resurgence of demand by the cities, which required 1,110,874,000 gallons for the month, a 17.2 percent gain.

March deliveries included Odessa 464,511,000 gallons, up 19.1 percent; Big Spring, 225,361,000 gallons, down 26 percent; Synder, 75,437,000 gallons up 10.3 percent; Stanton, 10,097,000 gallons, up 199 percent; Midland, 328,210,000 gallons, up 28.9 percent.

Edmund G. southern neighbor, La Brown Sr., to greatly expand the University of California and state the impact of locally to the masses and big campuses grew in what had been sleepy, conservative communities.

The political effect of the students is tempered by another force, something that did not face the activist generation of the '60s That is the dreary reality of some of the worst It is, said Professor economic problems Alexander Astin of the students have faced since flation and a shortage of jobs.

In debt for their educations, scrambling for admission to graduate school, worried about future employment, these students fear they may never attain something many of their parents took for granted - the American dream of a house and a family.

This preoccupation with economic problems is another reason, the experts said, that students have less time and energy to devote to political activity of the sort that emerged during

"This is the first time a

college generation faces doing less well materially than their parents," said Tom Hayden, who organized students in his unssuccessful 1976 U.S. to work with them in his liberal Campaign for

A picture of the bleak reality was provided in the Astin poll of college freshmen. It showed that the parents of 41.1 percent of the freshmen earned less than \$15,000 a year and 58.4 percent earned less than \$20,000 annually.

If you want to know what that means, meet Sabrina Avant, 21, a senior at California State University, Los Angeles. Ms. Avant, who is black, majors in social welfare. She intends to get a master's degree in public administation at either the University of Southern California the University of California, Irvine and then go to law school.

Her parents' income, she said, is under \$15,000 a year. She has a sister at UC Irvine, a brother at Biola College, a sister at the Fashion Institute in Los Angeles and a sister who graduated from California State University, Los Angeles.

Ms. Avant works parttime at the Women's Resource Center on the Cal state, Los Angeles, campus. Each morning she boards a bus for the 40-mile ride from her parent's home. At night, she takes the bus home. waiting at the campus bus station where, according to campus sources, rapes have been

and said professor felt it was important to Shirley Better, who keep up with political teaches and practices affairs and only 15.7 psychology. "you can percent said it was imtake the stress for two or portant to influence the three years if you know political structure.

if you're in the business of take the stress."

The public opinion Such pressure puts survey of freshmen great stress on students, showed only 39.9 percent

students - 56.6 percent placed themselves in the political middle of the road, rather than the left or the right, the areas that traditonally produce activists.

But the poll also showed something that encourages political organizers. A total of 81.8 percent said government should discourage energy use; 81.2 percent said government was not controlling pollution and 71.2 percent said government was not protecting the consumer.

Murder charged

A 20-year-old Midland woman was charged Monday with murder the stabbing death of a 19-year-old Lee High School student. Peace Justice John Biggs set bond at \$25,000.

Police said witnesses Sunday night told them that Patsy Garcia Martinez, 19, got into an argument with Delma Carrasco Mancha, 20, about 4:30 p.m. in Hogan Park. Miss Martinez was taken to Midland Memorial Hospital with stab wounds,

police said. Emergency room nurses notified police that a woman was being treated for stab wounds.

Miss Martinez died a short time after arriving at the hospital. Ms. Mancha of the 1100 block of East Parker Avenue was arrested

Man running for post without others' funds

By JIM STEINBERG

John Thomas Henderson is running for the position of Railroad Commissioner on his own.

On Monday, in Midland, Hen-derson said he does not ask for nor does he accept contributions from

"If I win, I won't owe anyone but the citizens of Texas." Henderson said.

"The minute you take money you are not a free man. I don't care who you are or what you do. I don't see how commissioners who take money from oil companies are going to Henderson said.

Henderson is seeking to unseat present Texas Railroad Commission Chairman Mack Wallace. The threemember railroad commission regulates oil and gas production in the state as well as drilling, railroad rates

and trucking rates. "The name (of the commission) is really a misnomer dating back to the late 1800's," said Henderson, who lives near Austin. "It's amazing to me as I travel the state how many people don't realize what the state's most important regulatory body does or who the members are," said Henderson, who has taken his one-man

campaign to 75 Texas cities so far. "I stop off in all the little towns I can along the way. It's amazing how many little newspaper editors tell me that I am the first candidate seeking state office to appear in their town. Well, I think they are important." said Henderson, who admitted some of the state's major daily newspapers are ignoring his campaign.

'The only thing I promise if I am elected is that the people will get an honest and open railroad commissioner. At this stage of the game I'm not out to make a fast buck," said Henderson, age 71.

John T. Henderson

"I'm often asked if I'm an expert on various items the commission considers. Well, I don't think someone who is an expert on strip mining necessarily knows anything about carrier rates. Nobody is an expert on all the matters considered by the commission. All I can do is tell you will get the advice of the best minds of the state before I decide an issue,' Henderson said.

Henderson said he once owned eight wholesale beauty supply houses in Houston. After selling those businesses, he said, he became a manufacturers' sales representative for several companies in Louisiana, Texas, Arkansas and Oklahoma. For the past two years, he has been a volunteer in the Adult Probation Department of Travis County.

While Henderson is on the road, his wife keeps up correspondence and mans the telephone at home, he said. Henderson said he planned to drive to Lubbock and Amarillo after leaving

Mrs. Johnson's recorded message part of forum

Because of severe weather between Midland and her home in Johnson City, Mrs. Lyndon B. Johnson was unable to attend Monday's ribboncutting ceremony to open the Lyndon Baines Johnson Educational Forum at Midland College, College President Dr. Al Langford, said this morning.

Instead, Mrs. Johnson sent a recorded message expressing her regrets at not being able to make the

opening ceremony.

In the recorded message which was played during the ceremony, she said. "Lyndon would have loved it." She said, "Lyndon loved the history of presidents. He was intrigued with gadgets and would have headed for

The console contains hundreds of broadcast items to which a listener can dial.

"Lyndon believed education was the only valid passport to where a person is going in his life." she said. She said she will think of the forum as a passport to the dreams of all who visit there.

In Mrs. Johnson's place, Mrs. J. Howard Hodge, who conceived the idea of the forum three years ago, cut

the ribbon in the presence of hundreds of people at the ceremony. She was assisted by Langford, the Rev. Horace Doyle, college trustee, and Texas Secretary of State Steven Oaks. Oaks was present to give the dedicatory speech for the opening of the new Fine Arts Building.

In his address, he said when Midland College was founded in 1969, it was very small, but now "it is the focal point of cultural, civic and in-tellectual development of the city that

He said the college "is the very best avenue" for persons who will be returning to society and assuming leadership responsibilities.

"I think this building best

represents that the people want to provide the very best in educational surroundings," Oaks said.

Extending his best wishes to the college, Oaks praised Mrs. Hodge for working with him in encouraging the development of the arts in the state.

During the dedicatory address, the Midland College Choir provided the entertainment with special greetings extended by Midland Mayor Ernest Angélo.

Settlement snag eased

AUSTIN, Texas (AP) - A potential snag in the Lo-Vaca Gathering Co. settlement plan was smoothed over Monday as Coastal States Gas Producing Co. agreed to furnish information on a Corpus Christi refinery.

Coastal States attorney Tracy DuBose at first threatened to go to court over a Texas Railroad Commission hearing examiner's order to give the information to Charter International Oil Co.

DuBose told Examiner Tom Hill that some of the material dealt with patented refinery operations. After consulting with Coastal officials, DuBose agreed to furnish, the in-

Charter became a party in the settlement hearing because it buys gas from Lone Star Gas Co., a Lo-Vaca customer. Coastal States Gas Corp. is the parent company of both LoVaca and Coastal States Gas Producing Co.

Charter opposes the plan on grounds that the profitable Corpus Christi refinery would remain in Coastal's hands, instead of being transferred to a new gas supply company, Valero Corp., created under the settlement

In addition, Charter buys gas at a fixed contract price from Lone Star, but the settlement plan would allow Lone Star to pass on gas costs to its customers.

The settlement would end lawsuits totaling \$1.6 million for natural gas charges by Lo-Vaca in excess of the prices called for in contracts signed in the 1960s.

It would create a new company, Valero Corp., to replace Lo-Vaca as the customers' supplier, transfer valuable lignite properties from Coastal to Valero and commit Coastal to a gas exploration program costing \$180 million to \$230 million.

A Coastal vice-president, Bernard Shrader, was cross-examined Monday by a Charter lawyer about the company's refinery operation.

Bob Burleson asked Schrader if Coastal had concentrated its recent spending on refining instead of its gas utility division because it knew it would end up with the refinery under a settlement plan.

'Absolutely not," Shrader replied. Refining is a risky business, he

James R. McMichael

Paul M. Thompson

Texaco hands retire

Two Midlanders, Paul M. Thompson and James R. McMichael, have announced their retirements from Thompson, who worked for the

company 38 years, retired April 1. He was assigned to the Geophysical Department, Midland Division, Producing Department-Central U.S.

He is a native of Valera and joined Texaco as a recorder on a gravity meter crew in West Texas in 1940.

Subsequently, he served as party chief, geophysicist-gravity, gravity supervisor and geophysicist (interpreter) in various locations in the West Texas, Rocky Mountain, Louisiana-Arkansas and Midland divisions. He became geophysicist (advanced interpretation) in Midland

He belongs to the Elks Lodge No. 1826 and the Permian Basin Geophysical Society. McMichael, a veteran of 27 years

and six months with Texaco, took early retirement April 1. He was in the Land Department of

the Midland Division. He is a native of Linden and attended The University of Texas at Austin. He joined Texaco in Fort Worth in 1950 as a clerk.

He also worked as a scout in Midland and as a leaseman and landman in Wichita Falls and Midland. He became a land representative in 1977.

McMichael belongs to the Permian Basin Landmen's Association and is group commander, 16th Group, Civil

Sunbelt may be hurt

SAN ANTONIO, Texas (AP) -Federal anti-pollution rules may have a more severe economic impact on the developing cities of the Sunbelt than on parts of the nation which already are heavily industrialized. says an official of the U.S. Environmental Protection Agency.

"On the surface, it seems like Texas could be at an economic disadvantage because it is not as industrially developed as some other states," said Adlene Harrison, EPA Region 5 administrator from Dallas

If completed from that pay it will be

Beth Havlicek (right) and son Chris turn their eyes toward Hondo during a halftime tribute to the retiring Celtic Sunday. Havlicek hung up his sneakers after 16 years and eight world championships with the Boston club. (AP Laserphoto)

A tearful farewell for Hondo

"To meet, to know, to love - and then Is the sad tale of many a human heart.'

Samuel Coleridge

He said there would be no tears, but for one of the few times in his life. John Havlicek couldn't deliver. As he walked off the checkerboard floor of Boston Garden for the last time Sunday to the sound of a standing ovation.

The long run had ended. The curtain had finally come down on one of the greatest acts in National Basketball Association history and it was time to say good-bye and he cried. In the end, the man that has been called everything form super-human to a perpetual motion machine, proved that he's just as human as the next

There were no regrets. He thought is over long and hard months ago and came to this decision. "I didn't want to hang around and end up some old geezer who's getting 15 to 18 minutes of playing time, with most of that being charity," he said. "That would be

depressing. I'd rather go out a year early than a year late.

AND THAT'S exactly what he did. At the age of 38, very few of his basketball skills have eroded. He walked off that court Sunday still regarded as one of the finest players in the game. He's anything but an old geezer.

Sixteen years, 1,441 games, eight world championships and more than 30,000 points after he put on that legendary kelly green and white Celtic uniform for the very first time. John Havlicek took it off - for the very last time. Needless to say, no one. will ever wear that unifrom again. On

another day very soon, it will be officially retired, and the number 17 will hang high above the floor of Boston Garden, up there with the numerals of other Celtic immortals like Cousy, Russell, Sharman, Jones,

And if Hondo's teammate, Dave Cowens had his way, they would take things even a step further. "They ought to retire his number from the whole NBA," Cowens said. "They ought to just take 17 and stash it up there in lights."

Havlicek was one of the very few athletes who was loved by all children, adults and fellow players. A guy like Joe Namath was a hit with the younger set, but the older generation despised his playboy image and many of his teammates resented him. Steve Garvey is the All-American boy and fans of every age admire him. But his teammates resent his goody-goody image.

HONDO HAD no dissenters. The kids worshipped him, the adults wanted their sons to grow up just like him and his teammates would walk through fire for him.

I think the secret to Hondo's popularity was the fact that your average man on the street could identify with him. Hondo was Everyman. He was the underdog. A white man in a black man's game who rose to the top. At 6-foot-4 and 205 pounds, he looked frail compared to other guys that size in the league.

But appearances are deceiving. He may have looked frail, but Hondo probably had more stamina and drive than anyone who ever laced on a pair of sneakers. He never coasted. He never slowed to a trot. From his first game as a rookie to his last game Sunday, Havlicek only knew one way

to play - full out.
IT'S A funny thing really. If

league mark.

somebody asked you to name the top five shooters in the history of basketball, Havlicek's name would not come to mind. There were at least a dozen better. Maybe more. The same goes for the top playmakers, rebounders or any other facet of the game. Hondo was the jack of all trades, but the master of none. There were many better, but then again, there were none better.

It is good that Havlicek is retiring now. The once proud Celtic dynasty has crumbled. Where once there was a kingdom, ashes now lie. This season, for only the third time in 28 years, Boston failed to make the playoffs. What was once a team of champions is now a conglomeration of greedy, lazy dissidents, and Hondo deserves better. Much better.

He shouldn't have to play alongside poor excuses for basketball players like Curtis Rowe, who emerged from the shower after an embarrassing 30point defeat earlier this season and asked cooly, "What's everybody upset about? The W's and L's don't show up on the paychecks."

So, the time is right for him to leave. The image of legends should not be tarnished. We should remember them for their best, not for their worst. And for Hondo, there were nothing but bests.

No doubt, the game of basketball will survive Havlicek's retirement. But something's going to be missing without him. It will never be quite the same again. "White Christmas" just isn't "White Christmas" unless old Bing is chirping the tune. New Year's Eve is only a shadow of what it used to be now that Guy Lombardo has moved on to The Great Beyond. And basketball just won't be basketball without Hondo.

Parting is indeed the sad tale of many a human heart. For the parter as well as the parted.

EORGE'!

A lot of things can happen today and probably will.

The first half of the District 5-4A baseball race will wind up today or

Robert E. Lee's Rebels entertain the Midland Bulldogs at the Lee diamond at 4 p.m., but there are three more games in the league just as important as the Tall City showdown

Lee, Abilene and Odessa Permian share first place with 4-2 records followed closely by Midland and Abilene Cooper with 3-3 marks not to mention San Angelo Central's Bobcats with a 3-2-1 reading.

Victories by the Rebels, Eagles and Panthers will bring about a three-way tie, that is if the Bobcats lose to Big Spring, but if Central gets by the Steers and goes ahead and wins the 8-8 tie with Odessa High, then the Concho Cats would make it a four-way finish for first.

CONFUSING YOU SAY? Well, you aint heard nothing yet. Lets say that Cooper, Midland and Odessa High beat Abilene, Lee and Permian. That would give five teams 4-3 marks and that's not including the outcome

of the San Angelo-Big Spring game. The Bobcats could sneak into first place all alone if the above teams won and Central beat Big Spring and went on to nail down a win over OHS in the 8-8 game that would have to be continued since it would have a bearing

something about Mike Paxton.

AP Sports Writer

'competitor.'

out the final outcome of the first half.

It would be a lot simpler if say Lee and Permian won while Abilene lost today. Then Coach Ernie Johnson's Rebs and the Panthers of Gene Mc-Canlies would share the first half title.

Anyway, it could prove to be a very interesting day once the four games are completed. The best thing that could happen to Lee would be for the Rebels to win and hope that both Abilene and Mojo lose, right? Wrong, not if San Angelo wins and than comes through with a win over OHS. That would mean a two-way between Central and Lee, but should the Bobcats stumble along with Permian and Abilene, then Lee would be in first place all alone with the others all having three losses each.

OF COURSE all of this would not have happened if Lee would have beaten Abilene. Then, at least it would have only one league loss going into today's confrontation with MHS.

Lee takes a 14-7 season record into the game with the Purple Pack while Midland is 9-10, but has played well in its last three games.

Last year, Lee beat Midland three times by the scores of 8-3, 12-10 and 6-5. The 8-3 win came in the Tournament of Champions at Cubs

Lee took a 7-3 over the Pack in this year's Tournament of Champion. The Rebels had to score seven runs

the Indians went on to win 5-4 on Ron

Stadium diamond and then won, 6-5 in the bottom of the seventh at the Lee diamond last year.

LARRY PEEL, Midland coach will call upon either Tracy Gann (2-3) or Ricky Goode (2-3) to throw for his Bulldogs while Johnson will call upon Terry Willis (3-2) for his Rebels.

Joining either Gann or Goode in the Midland lineup will be Mark Mead at first base; either Gann or Mike Mowles at second; Steve Cole at short and Jimmy Zachry at third.

In the outfield will be Steve Cooper in left; Goode or Joe Mowles in center and either Joe Mowles or David Brigham in right, depending on who pitches. James Allen will handle the catching chores.

For Lee, David Brenner will be at first base; Don Rasure at second; Steve Pitts at shortstop and Craig Van Horn at third. In the outfield, it will be Todd Clements in left; Pat Moore in center and John White in right with Clay Calhoun catching.

IN OTHER 5-4A games, Permian is at Odessa High; Abilene Cooper at Abilene and Big Spring at San Angelo.

Larry Hix of Permian, has taken over the batting lead along with Sam Houston of Cooper. Both are hitting at Richard Josefy of Lee is next with a

455 average followed by Permian's Dean Fields and Glen Stirman of Abilene with .438 averages. Both Calhoun and Willis of Lee are

hitting at a .429 clip along with Brian

"The guy is a bulldog," said Manager Jeff Torborg. "He gave me

three strong innings for the second

time in three days. He may be a

starter before too long, but what he's

doing right now is what we've really

needed. I like knowing he's out there

in that bullpen. Boy, is that a good

Hays adds Kiser to Midland staff

plans to insert as the designated teresting day indeed.

By PAUL DOMOWITCH

Midland High football coach Dennie Hays announced Monday the addition of Jack Kiser to his staff of assistants. Kiser, who coached the Edison Gold freshman team last fail, will serve as the Pack's offensive line coach.

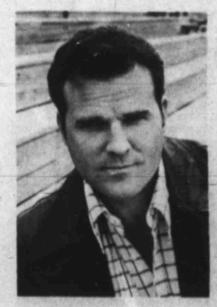

"I'm very pleased to havack on our staff," said Hays of the appointment. "He likes to work with young kids and he is extremely knowledgable about the game of football. He's going to be a great asset.'

The 29-year-old Kiser is a graduate of Abilene Christian University, where he received a Bachelor of Science degree in education and a masters degree in school administration.

He began his coaching career as a graduate assistant at the University of Texas in 1972, and has also served hitches as an assistant at Palestine, Abilene and Lockhart high schools, before taking the job at Edison last year.

"I'm really looking forward to working under Denny," Kiser said. "I enjoyed coaching the younger kids, but this offers more of a challenge and an opportunity to be a little more complex in your approach because of the age factor.'

Hays, who became the Bulldog chief less than two weeks ago, succeeding Jerry Hopkins, is a firm believer in the

Jack Kiser

"promoting from within" approach, and the hiring of Kiser is proof of that.

"I think it's good to keep it in the system like this if you've got the capable people to bring up." Hays explained. "And we've got the capable people."

Midland opens spring practice on May 1, and will conclude their off-season camp on May 20 with the annual Bill Mims charity

Astros taking an early beating

By KEN RAPPOPORT **AP Sports Writer**

Both the Cincinnati Reds and Los Angeles Dodgers know the value of a hot start in a pennant race and are making the most of their early games in the 1978 baseball season. They're also making a shambles of

the Houston Astros. The Reds started off the season in high style by beating Houston four straight games. Then on Monday night, the Dodgers also pumped up their record to 4-0 by whipping the

beleagured Astros 5-2. The repeated beatings have left no psychological marks on the Houston team, according to Manager Bill Virdon, but they have left the National League's West Division whipping boys with a sorry 0-5 record, the worst

Ron Cey tagged a solo home run and run-scoring single to highlight the Dodger victory. Cey led off the second inning with his first homer of the season to stake Rau to an early 1-0 lead and later belted a runscoring single in the seventh to put the Dodgers in control at 3-1.

Winner Doug Rau, who has now won seven of his last nine games against Houston, needed help from reliever Terry Forster in the seventh inning.

Cardinals 11, Pirates 2 Mike Tyson drove in four runs, three with a home run that capped a six-run burst in the first inning, to

help St. Louis whip Pittsburgh in a rain-delayed Cardinals' home opener. Keith Hernandez stroked four hits for the Cardinals and drove in two runs. His RBI were matched by Gerry Morales and Ted Simmons in a 14-hit St. Louis attack

"We can score," said Simmons. "If we put it together like we did tonight, we're going to be a tough club."

Braves 8, Padres 7

Darrel Chaney's two-run homer with two out in the ninth inning gave Atlanta a comeback victory over San Diego. The victory was Atlanta's first of the season and snapped a threegame losing streak.

Chaney's homer off reliever Bob Shirley followed Barry Bonnell's twoout single to center field. The Braves had trailed 5-0 in the third inning after San Diego's Dave Winfield drove in four runs with a tworun homer and a

Mets 6, Cubs 0 Craig Swan pitched a five-hitter and Steve and Ken Henderson each drove

in three runs to lead New York over The Mets got two runs off Dennis

Lamp in the fourth inning when Tim Foli, Steve Henderson and Ken Henderson each doubled. They wrapped it up in the eighth against reliever Paul Reuschel, scoring four runs when Foli/singled, Steve Henderson hit his third homer of the year, Ed Kranepool singled and Ken Hender-son hit his first homer.

Swan, making his first appearance of the season, allowed only two Cubs to reach second base.

ODESSA - The University Gar-

dens Spring Open Tennis Tournament

will be held April 15-17, at the plush, new Odessa tennis complex.

There will be competition in seven divisions (singles and doubles play for both men and women), including championship, regular, 35-45, 18 and under, 16 and under, 14 and under, and 12 and under. There will also be mixed, junior mixed and husband and wife doubles events.

JIM MURRAY

Winning: It's a poor second

The Los Angeles Times Syndicate

SALISBURY, N.C. - We all know what a football coach looks like and is like. Barbed-wire beard, vocabulary of a ferryboat captain who has just run aground. Couth, he's not.

He knows every pool hall in the county because that's where he gets his football players. He'd suit up Hitler if it would help him win. The only time he invokes God is during the half when he's behind by two touchdowns or more and nothing else works. He beats up photographers at bowl games, or rips out sideline markers, and is a terrible loser.

Any way you look at it, Lou Holtz doesn't cut it. You shudder to think of him matching wits and strengths with guys named "Bear" or "Ox" or "Hunk." He looks — well, he looks like Woody Allen, to tell you the truth. He's only about 5-8 or 5-9. He was a 152-pound linebacker at Kent State, to give you an idea. He doesn't save God for halftime shows.

HE CAN'T see real good without glasses. He wears suits with vests, and looks a little like a kid on his way to his first communion.

He worked under Woody Hayes, but it didn't rub off. He has yet to punch his first linebacker for missing a

He's the only guy I know who came in the profession with three strikes

Holtz. . . the winner in the

against him. He coached in Carolina here and the Jets in pro football, but he left New York, because, he says, "the police had an unlisted phone number."

But, even with all this, nobody expected Lou Holtz to do what he did on the eve of last year's Orange Bowl

Practically the night before the game he kicked off the team three guys who had scored 75 percent of the team's touchdowns that year.

As near as anyone can figure it out, they didn't do anything Errol Flynn wouldn't do, and there are probably a thousand coaches in the U.S. who wouldn't even have looked up from their playbook over it.

I mean, these guys didn't rob the U.S. mail, sell secrets to the Russians, throw a brick through the Vatican, or set fire to the White House.

ABOUT 150 lawyers, by actual count, were willing to take their case. Practically everybody in Arkansas wanted coach Holtz treated for temporary insanity - or permanent and the bookmakers shrugged and took the Oklahoma-Arkansas game off the boards. Oklahoma was already

Most of us figured hotter heads would prevail, and coach Holtz would relent at the 11th hour if only to hold

He didn't. This little old bitty coach did what all those big growling hulks would never do. He demanded a standard of behavior of his athletes that not even society can bring itself to de-

Then, he went out and beat the Sooners, 31-6. And had the ball on their goal line again when they fumbled as the gun went off.

read about it in the newspapers, but coaches don't spend all their time on "X's," and "O's." They spend a lot of it in night court, or in the living rooms of outraged fathers whose daughters have just been scored on by the firststring backfield. Sometimes, they even have to return toasters and dark. Usually, the only thing they don't have to worry about their players stealing is books.

TV fans robbed of Hondo's finish

By JACK CRAIG The Boston Globe

BOSTON — the theme has repeated often enough to be tiresome. But it was borne out again on Sunday. Television exercises too much control over sports.

said CBS's Barry Frank-yesterday of his decision to cut away from the drama of John Havlicek's final moments to tune in the hushed atmosphere of the Masters.

"I'd do it again even if Havlicek scored 20 points in the final two minutes." Frank said with feeling. That was about John's scoring pace at the finish, too. He rolled in nine points in his final 55 seconds, producing an accelerating crescendo at Boston Garden while some 10 million persons who had been watching on TV were switched over to the Cadillac commercial and the reverent introductory remarks of the golfing analysts in Georgia.

FRANK TICKED off the factors that made his choice. The game was meaningless in the standings. The network had already devoted 216 hours to the Havlicek tribute. And the followup program was not just golf. It was the Masters.

"Besides, the Masters was running about 20 minutes ahead of time. We figured the last shot at 5:44 and it occurred at 5:25," Frank explained.

There's the problem. The only inventory television has to sell is time. And especially on sports, with the excessive rights fees the networks pay for events in competition among each other, time must be controlled with vigilance.

That was the tune on Sunday. CBS ordered the game to start 15 minutes early, as a hedge against the expanded halftime salute to Havlicek and other delays that might result from the adulation of the crowd. The 21/2- hour spread for the basketball game would minimize killing time between it and golf, too. Next to losing time, wasting it is the worst sin in

BUT CBS made a mistake at the outset of the telecast. It surrendered too much time, allowing prolonged applause for Havlicek to roll on and on, intending to signify no doubt, to the TV audience that this ordinarily unimportant basketball telecast was ignificant even if it was in competition with the first Sunday of the a 2-to-3 touchdown favorite.

the score down.

IT WAS the first victory fo the good guys since Tom Mix died. It was the first time Virtue ever won the Orange Bowl. You see, you may not always stereo sets that their student-athletes have acquired in the dorms after

The coaching fraternity, thus, couldn't have been more shocked if Lou Holtz had suited up a poetry ma-

When his whole squad threatened to walk out in sympathy with the suspended players. Lou just shrugged. NBC fell over in a dead faint. Guys who had bet on Arkansas and took the

baseball season. "I had to blackmail CBS into star-

ting even then," said Jeff Cohen, Celtics vice president who orginarily signals to the referee to tap off after he gets the signal from a TV official. "I told them that unless they agreed to start within 10 seconds I would start "It was not a tough call to make." it on my own." The threat worked. eight minutes into the telecast.

FRANK IMPARTED a certain respect for the Masters that CBS executives were duly trained to by the late Clifford Roberts, chairman of the tournament who died last year. Roberts actually banned the network's Jack Whitaker from Masters broadcasts after the latter had referred to a gathering as a "mob" at the

72nd hole one year. Still, Frank's deference to the Masters is challenged strictly on the grounds of TV appeal. The Masters was scheduled to run for two hours and CBS had more than 20 cameras ready to replay any chip shots into the cup that might have been missed by TV in letting the final roars for Havlicek to proceed.

To say there is only one Masters is incorrect. There is one every spring. and losing a little bit of one is not a sports sacrilege.

THE HAVLICEK drama was unique even if another basketball player comes upon the scene with the endurance and the on and off-court qualities to spark the emotional tribute that television had the opportunity to showcase on Sunday.

It was excitement personified, the real thing that television so often strains in vain to create.

The decision to go from the court frenzy to the solitude of the golfing green calls up another premise about network sports executives. Do they know enough about sports? Do they have the feel of what is happening? "We are the network of the entire

country, not just Boston," Frank rebuts challenges to his judgment on Sunday. Admittedly, the overflow of complaints to CBS's Boston affiliate and local newspapers was not mat-ched elsewhere. But Frank cannot measure the extent of disappointment

around the country either.

"Anyway, Heinsohn could have pulled Havlicek out before the end like that. He didn't have to wait so long." Frank said.

As yet, television does not control bench moves. And Heinsohn was not on the Celtic bench on Sunday. He was

spread began phoning hysterically to inquire if a little money spread around might help.

Arkansas beat more than Oklahoma that New Year's night. It beat a tradition, the one that says sports heros have to be exempt from ordinary behavior, that, just because a guy can run the 100 in 9.4 carrying a football or has a 22-inch neck, he has the right to carry on in society like a stormtrooper on leave, the one that says football players have to be pampered, forgiven, tutored and coddled all their lives or they might not win one for good old State when the chips are down and the Rose Bowl is

LOU HOLTZ showed his squad there is something more important than the Orange Bowl, or the UPI poll.

in the balance.

When they talk of great games in college football history. I hope they remember the Four Horsemen and Mr. Inside and Mr. Outside and all. But I also hope they remember Oklahoma-Arkansas in 1978. I hope they remember Mr. Upright, too.

Coach Principle.

Coaches used to like to claim they built character. But you could never tell it from their offensive tackles. I have to think Lou Holtz built a little sold-out home National character someplace New Year's Football League games. Eve. He taught a few guys that, while touchdowns have their place, they rank well below the Ten Commandments. Winning not only isn't everything, it's a poor second.

Lou Holtz was the breakfast speaker here at the National Association of Sportscasters and Sportswriters convention this week. He talked frankly of the suspension incident. "If the law had compelled me to reinstate the players, when the case and dispensing with the came to court, why, of course, I would have. That's why we have the judicial system. But it wouldn't have changed my mind - or my convictions."

If Virtue had gotten beat, as usual, 52-0, Holtz concedes, he might have found himself checking the want ads today instead of addressing a breakfast meeting.

But, as the saying goes, Virtue was its own reward. Thirty-one-6.
