## Soviet court sends dissident to labor camp

MOSCOW (AP) -- Soviet dissident Yuri Orlov was sentenced today to seven years in a labor camp plus five years internal exile, meaning banishment from Moscow

A Moscow court gave Orlov the maximum sentence on a charge of anti-Soviet agitation and propaganda, based on documents he wrote and distributed to Western correspondents and embassies.

Orlov has been held incommunicado since his arrest 15 months ago.

The verdict was handed down after Soviet police arrested Nobel Peace Prize winner Andrei D. Sahkarov and his wife and drove off with them after the couple struck officers outside the court.

Sakharov, the 56-year-old leader of the Soviet dissident movement, demanded that police allow him and his wife, Yelena, to enter the courthouse, from which they had been barred during the first three days of the trial.

The tall, balding Sakharov shouted: "Let me in! Under Soviet law all citizens are allowed in when the sentence is read."

The police appeared to be trying to calm the situation. But there was a scuffle, witnesses said Mrs. Sakharov slapped a policeman in the face, and her husband hit a policeman who was trying to restrain him.

The police then seized Sakharov by his arms, bundled him and his wife into a green bus and drove away with years ago they struck policemen at a courthouse in Omsk, in Siberia, when they were barred from the trial of Mustafa Djemilev, a Tatar nationalist who was sentenced to 21/2 years in a labor camp.

Orlov, held incommunicado since his arrest 15 months ago, was charged with anti-Soviet agitation and propaganda. His trial after a two-year Kremlin crackdown on dissidents began Monday, and Western reporters and other dissidents were barred from the heavily guarded courtroom.

Orlov, a 53-year-old physicist, was a founder of a group to publicize Soviet failure to comply with the human rights provisions of the 1975 Helsinki agreements. Since its creation two years ago, the group has passed scores of documents to Western correspondents and embassies.

The prosecution sought to establish Orlov's guilt by presenting documents he wrote and distributed as head of the group and bringing witnesses to reject the charges in the documents.

Orlov's wife Irina told reporters her husband made his own summation Wednesday, but the judge and laughing spectators constantly interrupted him with taunts of "spy" and "traitor."

She said she was stripped and searched on her way out of the courthouse at the end of the day by three plainclothes security men and two women.

Zaire rescue operation pondered

KINSHASA, Zaire (AP) - Rebel tribesmen in southern Zaire are reported on the move from the Kolwezi area, where 14 Americans and more than 2,500 Europeans are trapped, but the Zaire government claimed the airport there has been recaptured. e Belgian government's crisis

but a senior defense official in Washington said it was "very unlikely" any American troops would be used in an international rescue operation. He indicated the United States might be willing to supply transport planes.

Reports reaching Kinshasa said the rebels in Shaba Province, source of most of Zaire's copper exports, were breaking out of the Kolwezi area which they occupied late last week and were moving toward the government's air base at Kamina, 130 miles to the north.

living in exile.

The government news agency AZAP said paratroops dropped into the area earlier this week recaptured the Kolwezi airport Wednesday after three hours of heavy fighting.

Foreign correspondents have not been allowed into the area, and none of the various reports on the fighting could be confirmed. Nor was there any information on government or rebel casualties.

ees and members of their families to safety by truck and helicopter.

The State Department in Washington said there was no interference with the evacuation from the company compound eight miles outside of Kolwezi. The Americans were trucked 60 miles to Musonoi and then flown to Kananga, 400 miles from the fighting. Morrison-Knudsen said two of its employees, William Starkey of Boise, and Lonnie W. Glen of Yerrington, Nev., and Glen's wife and child missed the evacuation. Also remaining were eight missionaries, a tourist and a copper company employee.

"Nobel Prize for Orlov!" Sakharov shouted as the bus drove away. It was the second time the Sakharovs were involved in an incident outside a Soviet courthouse. Two

Orlov's two sons by a previous marriage, Alexander and Dimitri, also were searched, she said, and their tape recorders were confiscated Tuesday.

committee held its third emergency meeting in 24 hours to discuss the plight of the stranded Europeans. Prime Minister Leo Tindemans said his goverment was considering a rescue operation in which the U.S., British and French governments would join

> About 1,500 U.S. paratroopers remained on alert at Fort Bragg, N.C.,

## Absentee voting set

Absentee voting for the June 6 Democratic and Republican runoff primary elections begins Wednesday and continues from 8 a.m. to 5 p.m. May 25, 26 and 30 in the county clerk's office in the Midland County Courthouse. Republican voters will be selecting a nominee for the 19th Congressional District seat, and Democratic voters will be selecting a nominee for Texas Railroad Commission.

George W. Bush of Midland and Jim Reese of Odessa will be vying for the congressional post. Running for railroad commissioner are Jerry Sadler and John Poerner.

Absentee voting is open to those who plan to be out of the county on election day, persons 65 years old or older, and certain other persons for whom it is difficult to vote on election day.

However, other reports said the insurgent forces were headed west toward Angola, where they have been

The Morrison-Knudsen construction firm of Boise, Idaho, which is building an electric transmission line to Kolwezi, staged an evacuation Wednesday and took 77 of its employ-

## Women's lib: Free to be enslaved?

Women's lib has been skirting. rarely courting, "man's domain" far longer than the virile side of mankind might want to admit.

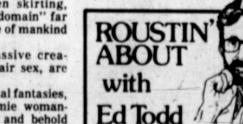

Those once-wholly passive crea-tures, though ever the fair sex, are coming on strong. Cast aside your nocturnal fantasies,

ye men who would stymie womankind's competitive will, and behold the real world ... wherever it might be. It, too, is full of dreams.

One aspiration, which has passed the fantasy stage; is woman's right to work in whatever field she desires and to be paid handsomely for her labors, chores, toils, brainstorming, decision-making, cunning and, yes, efficiency. Of course, in that regard, equality has not exactly swept over the men of the world.

Women, should they so choose and barring the enslavement of childbearing, have the right to be work-oholics outside the home.

Being liberated, in all its glory, may mean being tied down to a job,

there is to find the means. Liberate womankind. Free woman that she might be enslaved. \* \* \*

In the ideal, enslavement, like humiliation, is but a state of mind. So, too, you might reason, is liberty and, therefore, women's lib. But in the real world, the state of mind often reflects physical binds and shack-

"Women's lib is not a recent happening by any means," declares a colorful centerpiece placard on a restaurant table. It depicts a mug of cool beer, and said more: "During the Middle Ages, the art of brewing was

done in the households, mostly by vomen.

If that's an aspect of liberation, then work must be play. If brewsters were liberated women back then, well, you can view all the fore-mothers who cooked from scratch as free souls. They were as bound to the kitchen and hearth as their men were to the soil they tilled or the cattle they herded.

Reformist Martin Luther, though gravely concerned about the "soul" and the restrictions on spiritual liberties of his time, nevertheless declared that "Women should remain at home, sit still, keep house, and bear and bring up children." His protestations, of course, bent toward the religious. And women's lib, like so many causes and manias, can evolve into a religion. If so, may it be one of reason and logic for the benefit of mankind.

\* \* \* Golda Meir, Israeli political leader and the nation's former prime minister, offered this view on The Lib: "Whether women are better than men I cannot say - but I can say they are

## certainly no worse." Billy has them buzzing, not over his guzzling

ARAPAHOE, Colo. (AP) - On the cactus-studded plains of eastern Colorado, celebrities are few and far between. So folks were abuzz at the filling station and Connie's Cut 'n' Curl when Billy Carter came to town to speak to Arapahoe High School's

nine graduating seniors. They cleaned up the town, fed him a potluck supper and gathered a crowd of 2,000 for standing ovations before and after the Wednesday night speech, made from atop hay bales covered with boards.

The members of the Class of '78 shared the makeshift stage. Four of the seven boys will go on to college and three plan to stay on their families' farms and ranches. Both girls in the class are already married.

In his first ever commencement address, prepared by his agent, Carter noted that if he'd had just eight others in his high school class, he would have graduated in the top 10. Carter stumbled a bit in making the

speech, then put/down his notes and said, "This is the proudest moment of

my life." Few people ever stop in Arapahoe.

limit remains 55 mph on U.S. 40 through the half mile of town. None of the 65 townsfolk could re-

member the last time a "name" came to town. Over at the Shamrock Gas Station, where locals shop for gas, fertilizer, bubblegum and ice cream, Bob Roberts thought a long time but couldn't remember "anyone near far mous" during his 28 years in town. "Ron, didn't Teddy Roosevelt stop

near here with some Russian duke to shoot buffalo?"

### Attendant Ron Robinson nodded. "Course that was before our time. he added.

Not everyone took to Arapahoe's moment of fame. At the gas station, town character "Smiley" told a reporter and photographer "where to put their camera" when they asked for a photo, said Robinson.

Some students, like senior Phil Lewis, said they thought "a regular, quiet little graduation" might have been nicer — and less trouble. Carter cited his own small town

background in agreeing to come to Arapahoe and waiving his usual speech-making fee.

Temperatures dropped early today Area towns reported clear to partly as a small front moved through the cloudy skies and warm temperatures. area between 6 and 7 a.m., but it still No chance of rain was forecast in any was expected to get into the high 90s of the towns. again today, according to the weath-

## Tokyo route proves success for 'Air Mike'

## By CHARLES HILLINGER The Los Angeles Times

SAIPAN - Touching down at a secret U.S. base, flying low over the world's largest sunken fleet and viewing the ships lying on the bottom. being greeted by bare-breasted native women.

These are but a few of the highlights on one of the most exotic, regularly scheduled flights by any U.S. airline. Air Micronesia is making its 10th anniverary of flying an 8,000-mile transpacific route serving 11 tiny islands between Hawaii and Japan.

It has been a costly venture. The airline showed a profit for only one year - 1975, and then it was a mere \$25,000. Total losses to date have exceeded \$11 million.

Continental Airlines, Los Angeles, owns 32 percent of United Micronesia Develoment Association, which in turn owns 60 percent of Air Micronesia. Continental owns 30 percent of Air Micronesia and the remaining 10 percent is owwned by Honolulu-based Aloha Airlines.

**AIR MICRONESIA** expects to wind up in a profitable position this year. The difference - inauguration last Oct. 1 of daily Tokyo-Saipan-Guam round-trip flights.

'During the first seven months the load factor on Air Micronesia's new route is a sensational 60 percent. This is what we've been waiting for ever since the airline was launched in 1968 the Tokyo connection," says Don Beck, 52, the airline's president.

"The Micronesian islands are to Japan what the Caribbean is to New York and Boston - lush tropical islands ringed by gorgeous beaches and lagoons, perfect places to get away from pollution, congestion and cold winter weather in Japan."

Air Micronesia is affectionately known as "Air Mike" by thousands of chief and often the only link with the outside world. A baby born to an islander on a flight between Truk and Ponape was named Air Mike by his parents.

Age-old island customs are follwed even aboard the 727s during islandhopping flights. Micronesian stewardesses bow low every time they walk up or down the aisle and pass chiefs or island kings and queens flying as passengers.

On Johnston Island - a 2-mile-long, one-half-mile-wide dot in the Pacific 822 miles southwest of Honolulu every time one of the Air Mike jets lands (6 times in and out each week) Col. Edmund Kane springs up the boarding ramp carrying ice cream bars, his greetings to the captain and crew

**JOHNSTON ISLAND** is off limits to all except the 175 military and 125 civilian peronnel stationed there. There are no women on the island. It's such a highly secret base no one gets off the plane except the men based there.

Johnston was a prime atmospheric nuclear testing facility until 1963 when the United States and Russia signed a treaty banning atmospheric testing. Now the island is used to store dangerous chemicals.

Approaching spectacularly beautiful Truk Lagoon, Air Mike planes pass low over many of the 60 large Japanese ships sent to the bottom in 1944 by U.S. fighter and torpedo bombers. Passengers can see many of the ships through the crystal clear water.

It's a 12-hour flight from Honolulu to Guam with 9 hours and 15 minutes in the air and the rest on the ground at Johnston, Majuro, Kwajalein, Ponape and Truk. Other flights continue to Yap, Palau, Rota, Tinian, Saipan and Tokyo.

Air Micronesia is the only air link through this part of the vast Pacific and consequently carries not only a colorful mix of islanders but a great variety of cargo, including chickens, pigs, tractor parts, sacks of sugar, rice and flour, beer, coconuts, watermelons and beef.

"We're the only guy in town," explains Beck. "We carry the mail, food and supplies and do medical evacs."

AT SAIPAN, capital of America's new Commonwealth of the Northern Mariana Islands, Gene Hassing, 36, vice president and general manager of the airline, tells of the high costs involved in flying thousands of miles of open ocean and in operatig on the tiny island airstrps.

There are corrosion problems to the airplanes that are unknown on the mainland. Coral runways are rough Pacific islanders who rely on it as the Fon tires. Coral dust stirred up on landings and takeoffs eats away at oil seals.

> "Full throttle takeoffs and landings on short runways like the one at Truk cut jet engine life to half that of domestic operations.

"We pay the highest fuel prices in the world - 57.6 cents a gallon compared to 34 1-2 cents in the United States.

But Beck, Hassing and everyone connected with the transpacific airline have great expectations for its future success.

"We are three hours away from the greatest population masses on earth and we offer many of the most beautiful islands in the world in an area where tourism is just now beginning to develop," Beck says.

DEDICATION ceremonies for Continental Airlines' new Jetfreight Building at Midland RegionaPAir Terminal were Wednesday, with officials from Midland and Odessa attending. Officials attending included Harrell Feldt, president of the Midland Chamber of Commerce; Midland Mayor Ernest Angelo Jr.; Curtis Webster, member of the Odessa City Council, and Gary Moore, representing the Ambassador Club of the Odessa Chamber of Commerce. Briefly describing the benefits of the new building is Chuck Logue, Continental Airlines regional director.

## Austin policeman killed following traffic stop

AUSTIN (AP) - An Austin policeman was shot to death early today after stopping a car on a routine traffic violation. Police later arrested and charged a man following an allnight search and an earlier gunfight in which a heavily armed man tossed a grenade at officers.

Municipal Judge Mark Schreiber accepted charges of capital murder against David Lee Powell, 27, in the slaving of Patrolman Ralph Allen Ablanedo, 26. He was held without bond. Police said Powell offered no resistance when he was found in a wooded area behind a South Austin high school. Police used dogs and a helicopter from the Department of Public Safety to aid in the search.

Police said Ablanedo stopped a car containing a man and a woman companion on a traffic violation. When Ablanedo walked up to the car, police said, he was shot twice in the chest and once in the arm.

Police said Powell was not armed when taken into custody and they would not comment on whether any weapons were found at the scene.

Ablanedo was shot at 12: 50 a.m. and Powell was arrested at 6:32 a.m., police said.

Ablanedo called for a warrant check after stopping the vehicle and ound that Powell was wanted on a

He called for a backup unit and when other officers arrived, they found the dying Ablanedo and exchanged gunfire with the suspect. An unidentified 27-year-old woman jumped out of the car with her hands up and surrendered.

It should clear in the west, but the weather-man said it would get cloudy in the east.

## Man voluntarily buried alive halfway to record

### By DANIEL Q. HANEY **Associated Press Writer**

NEW BEDFORD, Mass. (AP) -Buried 6½ feet underground, Country Bill White is a happy man. He only has to spend 109 more days in a plywood box six feet long, three feet ride and three feet high. White climbed into his wooden bur-

row on Jan. 29. Today he is halfway to setting the world's record for being

voluntarily buried alive. Although tired and grubby, he is confident he will conquer his goal: inclusion in the Guinness Book of World Records. Country Bill wants to beat the record of a Belgian who stayed below ground for 217 days, 31 minutes

The stunt, sponsored by radio sta-tion WBSM, is the 51st time White has

NOW! **Dial Direct** TO PLACE CLASSIFIED Want Ads 682-6222

gone underground. It is by far the longest.

White is a 44-year-old country and western singer from Tallahassee, Fla. His sideline is living in buried boxes to promote things like shopping centers and trailer dealerships. Until now, his personal record was 63 days, 22 hours, 31 minutes.

White's lair is dug in the backyard of the radio station. For 50 cents, the curious are allowed to enter a small building and peek down a wooden shaft. Through a 7½-inch opening, they can see the top of White's head or even his full-bearded face if he stares up at them.

The first question they usually shout down the hole is, "Why?" And White answers: "I just want the world record."

White wears blue striped pajamas and sits on a mattress. He is surrounded by a telephone, a television, a lamp and a CB radio. When he gets hungry, he orders meals on the telephone from a nearby motel.

Life in a box is not as boring as some might think. Word of his venture has gotten around, and White receives lots of calls from radio talk shows and well-wishers.

"I get about 600 phone calls a day from all over the country," White says. "I don't get lonely, just tired. I don't get no sleep. The phone rings all

## **Afghanistan leaders** rounding up foes?

NEW DELHI, India (AP) - Afghanistan's new rulers are rounding up top officials of the government that was ousted in a bloody coup last month, Western diplomatic sources said today.

One source said among the detainees are many members of the "royal line," descendants of the family that has dominated political life in Afghanistan since 1820.

President Mohammad Daoud, who was killed in the coup, and his prede-cessor, exiled King Muhammad Zahir Shah, both were members of the royal line.

## Teacher is shot, killed in school

AUSTIN, Texas (AP) - A 29-yearold junior high school teacher died today of gunshot wounds in the head and chest after he was shot with a 22-caliber rifle in his classroom.

Wilbur Rod Grayson died at Brackenridge Hospital around 10 a.m., hospital officials said. A 13-year-old student was arrested in the school's principal office in connection with the shooting.

Grayson taught seventh and eighth grades at the northwest Austin school and had been teaching only a year, said Charles Sansom, director of administrative services for the Austin Independent School District.

"He had been employed in other capacities as school driver and as a school monitor," Sansom said.

Sansom said this was the first fatal classroom attack on an Austin teach-

Grayson's wife teaches at nearby Lyndon B. Johnson High School.

## Midland man posts bond

Jimmy Wayne Post, 19, who was charged Wednesday with aggravated sexual abuse in connection with the alleged attempted rape Saturday of a 19-year-old Midland woman, was released Wednesday afternoon on \$25,-000 bond. Bond had been set earlier Wednesay by Peace Justice John Biggs.

Post, who lists his address in the 100 block of North Madison Street, was arrested Tuesday night.

Police Monday said the woman told them a man followed her into a north Midland apartment, where he reportedly pulled her into a bedroom and began to attack her. The man at some point apparently became frightened and left, she told officers.

## DEATHS H. Stoltzmann

Services for Harold H. Stolzmann, 65. of Route 3 were in the Church of Jesus Christ of Latter-Day Saints with Bishop Royce Griffin officiating. Burial was in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Stoltzmann died Sunday in a Midland hospital following a week-long illness

Pallbearers were Blaine. Bushman, Bob Stanton, Scott Wilson, Bob Silver, Ken Gray and Elder Gary-Whitehead.

proved expansion of the operating room staff by 11 persons. Cost of the added personnel will be approximately \$85,000, hospital Administrator Wayne Ulrich said.

Discussing the proposal for the increased personnel, Tevis Herd, vice president of the Board of Trustees, told the group that the present staff is not large enough to "operate the operating rooms in the manner they need to be."

Ulrich said the hospital now handles 100 to 115 more surgical cases each month than during the same period last year.

'We've got a situation now that's degenerating," said Dr. Ed Mickle. Dr. Ralph Greenlee said some surgeons already are handling surgical

cases at other hospitals. At the recommendation of the finance committee, the trustees voted to "charge off" \$84,936 for April, 10.5 percent of total billing. Trustee Jim Allison Jr. said much of that amount is accounted for by indigent care.

The trustees also passed a resolution of appreciation for services to the hospital by the late Frank Stubbeman and the late Mrs J. Howard (Veda) Hodge. Ulrich said minutes of the first meeting of interested citizens which led to the creation of the hospital show that both of those persons were in attendance.

## Woman reports rape attempt

Police today are looking for a man in his mid-20s who reportedly attempted to rape a Midland woman early today outside her east Midland apartment.

The woman told police that a man entered her locked apartment at approximately 3 a.m. today. She told the man that her roommate and roommate's children were in the apartment, and he then forced her outside into a parked vehicle where he tried to attack her, police were told.

Police said the woman, once in the vehicle, began screaming and pushing the vehicle's horn. The man, indicated officers, apparently became frightened and left on foot, headed west down a nearby alley.

## Indictment of Lockheed Justice recommendation

### The Los Angeles Times

WASHINGTON - Justice Department attorneys have recommended seeking a grand jury indictment of the Lockheed Aircraft Corp. and its former chief operating officer, A.C. Kotchian on charges arising from secret payoffs to Japanese government officials, sources said Wednesday.

The recommendation, which calls for the first criminal prosecution of a major corporate executive growing out of a 20-month probe into overseas payoffs, has not yet gone to Attorney General Griffin B. Bell, who customarily makes the final decision on whether to proceed with such major cases. Thus, no action is imminent.

Further, an attorney general or other high-ranking Justice Department officials can - and sometimes do - reject staff attorneys' recommendations on grounds of insufficient evidence or other weakness in the government cases.

## **Further Biko** probe termed

## unnecessary

CAPE TOWN, South Africa (AP) -Justice Minister James T. Kruger says a probe he ordered into the death of black leader Steve Biko found some of the policemen involved made "errors in judgement" but that further inquiries are unnecessary.

Biko died of brain injuries in police detention last September. A magistrate's inquest ruled no one was to blame but it did not determine how Biko received the injuries that killed him.

Kruger told parliament Wednesday that after the inquest he was dissatisfied with three aspects of the probe and ordered a senior police official to conduct an investigation.

He said he wanted to know why Biko had not been taken to a local hospital, why police interrogating Biko had not made more frequent reports to superiors, and why they decided to transport him naked 750 miles in a landrover.

In light of the Biko affair, Kruger said existing regulations governing treatment of detainees would be tightened up.

He said doctors will be called to treat prisoners as soon as they show signs of being sick, government officials will be notified when prisoners

clined comment as well. The Justice Department also refused to comment. The recommendation, first reported by United Press International and confirmed by the Los Angeles Times, calls for no action aginst Lockheed's former chairman, Daniel J. Haughton. Both men resigned from the aerospace firm n early 1976.

It could not be learned what criminal statutes are involve in the proposed action. However, when the Justice Department created a special unit to investigate overseas payoffs in October, 1976, possible violations cited included wire and mail fraud laws, making false statements to government lending agencies and the Bank Secrecy Act.

Lockheed spent almost \$38 million for bribes and payoffs to help sell its aircraft in foreign countries, according to a company report filed last year with the Securities and Exchange Commission. Top government officials in Japan,

the Netherlands and Italy were involved in the scandal. Most of the payoffs were distributed

between 1970 and 1975 when the company was suffering severe financial problems.

Lockheed distributed large amounts of cash in direct payoffs, and kept secret records and bank accounts to hide the bribes.

Kotchian, who was chief operating officer, said in congressional testimony that Lockheed had paid \$2 million to Japanese government officials and more than \$1 million to a member of the Dutch government.

"We don't condone this, but...it was the only way we could sell aircraft," Kotchian told the Senate Foreign Relations subcommittee on multi-national corporations during an appearance in Feb., 1976.

The money was given away "to establish a climate of goodwill and a climate in which our product would receive exposure," Kotchian told the subcommittee.

To settle an SEC lawsuit, Lockheed agreed to prepare a report on its payoffs: Outside corporate directors, board members who did not work for Lockheed, supervised the 14-month investigation. The report, filed with the SEC last year, said the company spent nearly \$38 million for bribes and payoffs. Recipients of the bribes were not identified because of the "grave damage" that the company said might be caused by disclosure.

Haughton and Kotchian "encouraged a distortion of ethical values in the company's marketing overseas, which resulted in most of the questionable forign payments and practices," the report said.

## Economist favors price controls for large companies

**The Los Angeles Times** 

WASHINGTON - The government should fight inflation by setting price controls for large companies - those with 1,000 or more workers - and by limiting wage increases in union contracts, economist John Kenneth Galbraith said Wednesday.

Small firms, which suffer most from high interest rates and complex government regulations, should be exempt from any controls, he told the antitrust subcommittee of the House Small Business Committee.

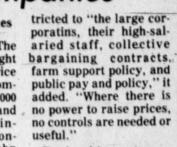

Galbraith, a former president of the American Economic Association and a Democrat. was invited to testify before the subcommittee. He also has been visiting members of Congress this week to present his views on inflation an unemployment.

The Carter administraton's campaign for voluntary restraint on wages and prices won't work because "it gives a special premium to the man who is a . Galbraith said in an interview.

He explained that a voluntary program "penalizes" the company that cooperates while other firms ignore the government and raise prices.

Controls on the powerful segments of the economy "do not intérfere with free market operations," Galbraith wrote in a memorandum he is distributing to the Democratic Study Group, an organization of liberal Democratic congressmen, and the Black Caucus. He made a copy available to The Los Angeles Times.

"When the prices of the thousand largest corporations are fixed, you are fixing prices that, in 'effect, are already fixed," the memorandum said. "It is private price-fixing that makes

**During his testimony** in a hearing room crowded with executives from small businesses, Galbraith said modern economic policies discriminate against all but the largest corporations. Fighting inflation by restricting bank lending makes it harder for small companies to raise money, he said, adding

that big firms are better off because they have more cash on hand and can easily pass along the impact of higher interest rates.

In the regulatory field, Galbraith said, big firms can easily handle reporting rules and paperwork, while small companies with overworked owners

are hard-pressed. Small firms are also prey to being gobbled up by bigger companies, he said. He called for a "much more alert" reaction by the Justice Department and Federal Trade Commission to possible antitrust violations in takeover efforts

by large firms. After Galbraith's testimony, Rep. Berkley Bedell, D-Iowa, said, "I've been amazed at the power of big business in determining what na-

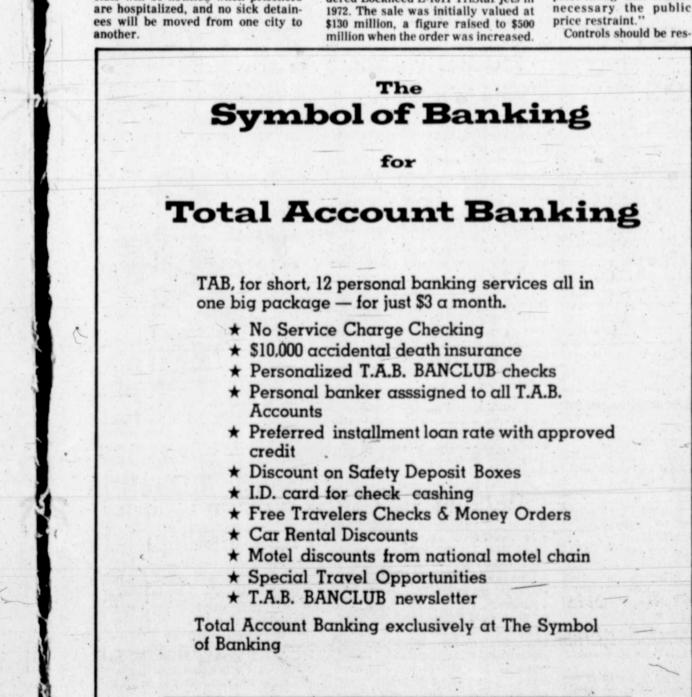

tional policy shall be.'

## Of sickness, health

A sick, weak Leonid Brezhnev faltered a few times during his three-day visit to West Germany. but he could go home with the satisfaction that his summit meeting with Chancellor Helmut Schmidt was worth the strain.

It was more of a Soviet show than a German one all along. When it was over, the Russians could count it a plus, even if it confirmed the rumors around Moscow that Brezhnev's health was going from bad to worse.

The illness of the Soviet president feeds speculation about the future of the Kremlin leadership, but it should not detract from the significance of what was going on in Bonn.

Brezhnev, ailing or not, has jumped into the middle of **President Carter's problems with** Germany and our other European allies.

Brezhnev went into the heart of the Western camp to let it be known that Mr. Carter's attempt to finesse the issue of the neutron bomb is not going to work. There will be no reduction in the Warsaw Pact tank forces in Eastern Europe. Mr. Carter had hoped for such a tit for tat so he could cancel production of the new U.S. weapon designed to help counterbalance the superiority of those forces.

Instead, Brezhnev used his Bonn visit to get in another lick at the "inhumanity" of the neutron weapon, keeping Mr. Carter on the defensive. The Soviet government will carry its propaganda campaign against the weapon to a special United Nations meeting on disarmament in New York this month. Schmidt, whose government has acknowledged that West Germany would be safer if the new field weapon were deployed. was left to swallow his embarrassment and join Brezhnev in a declaration on arms control and disarmament - the platitudes of "peace" which the well-armed Russians scatter wherever they go Indeed, the principal message Brethney was carrying was that the Soviet Union remains dedicated to detente, and that it is Mr. Carter's neutron bomb, and not the Soviet arms buildup in Eastern Europe and Russian adventuring elsewhere in the world, that most imperils it.

scored again, at the expense of the United States of America.

West Germans, who live under the muzzle of the Soviet threat. have warmed to the subject ever since former Chancellor Willy Brandt launched "Ostpolitik" with a Soviet friendship treaty in 1970

The 25-year trade agreement emerging from the Brezhnev-Schmidt meeting is Ostpolitik revisited - a new attempt by the Russians to draw German attention to the possibilities of economic cooperation with the Soviet Union.

With U.S. inflation and trade deficits straining the economic dialogue between Bonn and Washington, this was a well-timed move by Moscow.

Somehow the Red rulers always know how and when to slip in to gain the advantage and to get the upper hand.

There is nothing hesitant or infirm about Soviet foreign policy even if the man who represented it in Bonn is battling three different diseases.

Moscow is as adept as ever at exploiting weakness in the West right now, the vacillation of President Carter on an issue important to the defense of central Europe and the worries of West Germans about the ability of their Western trading partners, including the United States, to deal with the problems in their own economies.

whole lot of Americans un

## approved the sale of an executive jet liner, with a 7,000-mile range, to

By JACK ANDERSON WASHINGTON - Terrorist activity around the world has been traced to Libya, whose austere leader Muammar Qaddafi looks upon himself as a world revolutionary. He is an international Don Quixote. with his own peculiar Muslim-Marxist philosophy and a confused notion that he heads a new world order

Qaddafi is widely regarded as one of the world's most dangerous and irresponsible leaders. Without much

Qaddafi. But the department has had second thoughts about allowing Lockheed to deliver eight C-130 transport planes that Qaddafi has already paid for. The department has also blocked the export of spare parts for C-130s that have already reached Libya; called home an American government.

maintainance team servicing the C-130s in Libya, and disapproved the sale of two giant 727 jets to Qaddafi.

### In a return letter, Krogh not only defended Qaddafi's grant but actually praised his regime. "I went to Libya," he wrote, "spent better than a week there and came away with the impression that the government there was providing humanely for its people and doing the best it could with limited traditions and knowledge of

"In the process, they have been trying to evolve a form of government not unlike the system of New England town meetings, which is where our country began when it had a population about the size of Libya's."

with person who holds it

Let's not confuse office

## By CHARLEY REESE

CHARLEY REESE:

Sun Belt Syndicate ORLANDO, Fla. — Occasionally a reader will charge me with the use of "intemperate" language as, for example, when I refer to Jimmy Carter as a two-bit South Georgia politician and a liar.

The president, these people say, deserves more respect. I disagree. I think the people deserve more respect than Carter has shown for their intelligence.

A person who says something that is not true and that he knows at the time he says it is not true is a liar. He may also be the President of the United States but he remains a liar and "liar" is a perfectly good word. In the vernacular of the South, a

two-bit politician is an office holder who is undistinguished by accomplishment and distinguished by a habit of saying whatever he has to, to win a vote. Carter's only accomplishments of note are winning two elections, both of which he won by saying what people wanted to hear regardless of his own beliefs, intentions or abilities. Hence, he is a two-bit politician

I don't wish to play games, though. understand the concern of people who feel a deep respect for the institutions and offices in our government. They are, however good their intentions, falling into a dangerous trap. For our own good, we must never confuse the office with the human being who holds it nor must we allow the office to cloak the individual with virtues he does not possess.

For all the chatter about the socalled post-Watergate syndrome, most Americans maintain a split attitude toward their officials. They damn them as a group but when it gets down to individuals, they generally support them.

The politician knows he can sell their souls to the devil so long as he answers their mail, slaps them on the back when he meets them and occasionally does them some small personal favor.

I've seen people beam because a congressman answered their letter. Why shouldn't he answer it? They pay him a fat salary plus about a half a million bucks for aides, stationary; stamps, and secretaries.

The fundamental error in most people's thinking is to believe that because a man or woman becomes an office holder that he or she is automatically special. That's wrong, wrong, wrong

Anybody can become a skillful political campaigner. There are certain skills that have to be developed, but none of them require either great intelligence or high moral character. With the mass marketing techniques available today I would not be surprised to see a robot elected president.

From my personal experience with successful politicians, I have concluded that most of them are interchangeable with actors and that the two trades require almost identical skills and traits...stamina, good looks, verbal skills, and the ability to project emotions. Both trades tend to attract people with big egoes.

The point we Americans must keep in mind is that the country belongs to us. We create the government and we create the wealth which the government confiscates and re-distributes. We hire politicians to perform jobs and we have every right to criticize their performance and to fire them.

Reverence for politicians is a deviation from the American tradition which was to treat them as equals, not superiors. Even the criticism leveled at Richard Nixon is mild compared to the broadsides that were fired at men like Thomas Jefferson and Andrew Jackson.

Jackson, by the way, rode to Washington on horseback to assume the presidency. We have come a long way indeed when today we spend \$50,-000 a year to hire personal aides for

## THE BIBLE CAN YOU QUOTE IT?

## By LAVINA ROSS FOWLER

1. Bethany (now Lazurieh) and Bethphage were located on what large mountain? Luke 19:29

2. What miraculous event happened to Christ, when he led his disciples as far as Bethany? Luke 24: 50-51

3. How did Thomas finally believe that Christ had risen from the dead? John 20: 27

4. Why is the account of Jesus' death and resurrection, as written in the Bible, so important? John 20:31

"Whosoever therefore shall be ashamed of me and my words in this adultrous and sinful nation; -' Mark 8: 38

Four correct...excellent. Three correct...good

thought for the consequences, he has organized, trained, funded and armed an international network of terrorists. Most of them are anarchists who pay lip service to his strange ideology as long as he is handing out free weapons.

Yet despite his long history of senseless terrorist acts, the mercurial Qaddafi appears to be developing a cozy relationship with some American political, business and academic leaders.

The Commerce Department, for example, is close to approving the sale of 400 heavy-duty trucks to Libya. Competent sources claim these could be used as tank transports.

The Federal Aviation Administration has agreed to train 18 Libyans as navigational aides at its Oklahoma City training academy. The 32-week schooling will begin June 1. An additional 10 Libyans will take a 24-week course in technical aviation skills at the FAA academy

The State Department has also

Our sources say that Libya. meanwhile, has been able to procure U.S. arms through the back door. These include 110 Smith and Wesson night sights smuggled out of France for Libya's tank force, as well as several Boeing-Virtol Chinook

Italian subsidiary. To enhance his influence. Qaddafi has pledged to contribute \$750,000 to Georgetown University's respected foreign service school, which graduates more U.S. foreign service officers than any other university. The grant would promote Arab studies, and the first \$150,000 install-

helicopters sold to the Libyans by an

ment already has been paid. This has provoked a still protest from Rabbi Stephen Listfield who wrote privately to Dean Peter Krogh at Georgetown: "I surely don't need to tell you that the government of Libya gives financial, physical and moral support to some of the world's most brutal terrorists. The government of Libya has harbored some of the world's most vicious hijackers."

**DOLEFUL DOLE:** A conscientious Sen. Robert Dole, R.-Kan., seeking information about human rights violations in communist countries, established a committee of ethnic experts last year to give guidance on events behind the Iron Curtain.

One of the unpaid advisors Dole appointed was an aging refugee named Jozef A. Mikus who now lives in this country. We have discovered that Mikus was formerly the chief of protocol for Adolf Hitler's Slovak stooge, Joseph Tiso.

These facts are undisputed: Mikus became a key diplomatic official for Tiso when the latter was installed as Hitler's Slovakian puppet during the Holocaust days of the Nazi conquest. Mikus was posted as secretary of the Slovak embassy in Rome and as charge d'affaires in Madrid before being promoted to Tiso's chief of protocol from September 1944, to March, 1945.

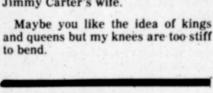

Reliable historians report that the Tiso cat's paw regime relentlessly persecuted Slovak Jews and other unfortunates. In 1942, an estimated 65,000 Jews were transported to Germany, most of then marked for the gas chambers.

There is no evidence that Mikus was directly involved in any of the genocides of his government. But to this day, he staunchly defends Tiso who was hanged as a war criminal when the communists took over Czechoslovakia.

"To say that Tiso was a Nazi collaborator is nonsense," Mikus expostulated

Our associate Gary Cohn asked the former college professor if he regretted serving the Hitler-imposed government in his homeland. "I don't regret it." he replied with a note of pride. "I worked for the better future of my country, and I don't have anything to regret."

Our sources informed us that Dole was totally unwitting of Mikus's background when naming him to the advisory ethnic council and that the Slovak exile attended the group's first meeting on March 30, 1977. Soon therafter. Dole's office received a phone call warning of Miku's troubled past, and he was never invited to further meetings of the panel.

**The Country Parson** by Frank Clark

"Most of our faults are less bothersome to us than they are to those around us.

says

## **INSIDE REPORT:**

## By ROWLAND EVANS And ROBERT NOVAK

CLEVELAND-Skinny, 5-foot-6 Mayor Dennis Kucinich, looking younger than his 31 years and seemingly overwhelmed by events as he sits behind the huge desk in his highdomed office asks plaintively: "Is that any reason to throw me out?"

He is referring to widespread outrage over his appointment of a 21year-old woman, undereducated and inexperienced, as assistant director of safety supervising the police department. That is only one of the many bizarre events during the seven months since his election which have generated pressure for his recall from office. Yet even political enemies privately agree with Kucinich that no documentary case can be made for his ouster.

Rather, his sudden decline quickly following his spectacular rise reflects the pathology of American politics today, particularly in the big city. With the breakdown of party organization and of ideological loyalties, the neo-populism of a Kucinich only superficially fills the political vacuum. While embarrassed Clevelanders call events here a "national joke." the "joke" is but an exaggerated form of what is happening everywhere.

Cleveland's problem is familiar. The middle-class exodus to the suburbs has reduced the city's population by one-third over the last 25 years, leaving disproportionate numbers of the poor, the old, the unskilled, the black and the hopeless. City employee salary demands strain

Organized crime infiltrates the power structure

Cleveland situation reflects pathology pf politics

After inadequate administrations in city hall. Kucinich-called Dennis by enemy and friend alike-suddenly emerged as the savior. He became advocate of the city's white ethnic West . Side a decade ago as the boy city councilman attacking black Mayor Carl Stokes and is a steadfast foe of school busing ordered to begin here soon. But his basic campaign appeal in 1977, transcending mere racism, was his challenge to the calcified establishment, vowing higher taxes on big business.

Kucinich became a national figure overnight, celebrated in the news magazines. In an eccentric political departure, he hired Richard Hongisto, the permissive sheriff of San Francisco, as police chief and thereby gained a gilt-edged liberal passport. After his oratory brought standing ovations from ultra-liberals at a California convention, politicians here wondered: could it possibly be Dennis-for-president on the 1984 Democratic ticket?

His sudden decline has no rational explanation. Firing Hongisto over live television was the climax, not the cause. Harsh treatment of opponents, arrogance, brashness of young aides and overblown rhetoric hurt Kucinich. But. as with the 21-year-old woman running the police depart-, ment, he justifiably asks of all this: "Is that any reason to throw me out?" Certainly, Hongisto never substantiated the charges of corruption in Dennis' city hall that got him sacked. How, then, did the mayor's base on

the budget. Racial conflict threatens. the West Side erode to the point that today he would probably lose a recall election if the courts decide recall petitions are valid? The best answer is that a despondent electorate chose Kucinich to champion them in their misery and turned against him when he proved merely mortal, or perhaps shade less. Lacking clear philosophy, he now lacks a base.

"I am ecclectic." he told us. He listed his political heroes: Richard J. Daley, Bobby Kennedy and Huey Long. He also admires Republican Gov. James Rhodes of Ohio and Vice President Mondale. After praising Chicago's Daly as "a very good mayor." Kucinich said somewhat confusingly: "They say you can't fight city hall, but I did-I fought city hall.

That reflects a condition not unknown to Washington-the outsider in power, still fighting city hall. For the mayor this is compounded by reliance on his assistant: Sherwood (Bob) Weissman, a former radical turned labor leader who set the administration's abrasive tone when he informed business leaders meeting at the exclusive Union Club that the mayor did not need their help. That contemptuous tone is echoed in the mayor's refusal to encourage construction projects by SOHIO and Republic Steel desperately needed in Cleveland.

Are "special interests" behind the effort to recall him? Kucinich warmed to the question: real estate and banking, the privately owned electric utility, the regular Democratic party of Cuyahoga Counand, mostly, organized crime, ty

"The recall," he added, "is an attack on our system of government. I believe it is un-American.' His immediate problem is not so

grandiose: the spector of municipal bankruptcy. Kucinich inherited severe fiscal problems. He intensified them a little by generous municipal wage hikes and a lot by refusing to sell a municipal light plant. The mayor concedes the city will be flat

broke if a bond sale is not approved. But this fall from grace was not caused by mundane fiscal problems. Instead, Kucinich is both product and victim of a new political rhetoric. We asked a young liberal Democrat politician here, spawned in the protest of Vietnam, whether he preferred the structured old politics that produced Cleveland's stodgy mayors of the 1950s and early 1060s or the unstructured new politics that produced Dennis Kuchinich. He quickly opted for the good old days.

### President Carter's popularity has slipped in the polls. Let's all get together and make him look better. On your mark, get set - lower your expectations.

**Richard Nixon's Memoirs cost** \$19.95. So why not wait until it comes out in paperback which will be \$22.50.

A recent conclave of Catholic bishops reaffirmed the Church's opposition to the practice of birth control among its members. This can be compared to standing on the stage at Caesar's Palace in Las Vegas lecturing on the virtues of thrift.

DEATHS

Officiating will be Dr. Guy D. Newman, chancellor of Howard Pavne University in Brownwood, and Dr. Daniel Vestal, pastor of the First Baptist Church here. Burial, directed by Newnie W. Ellis Funeral Home, will be in Resthaven Memorial Park. Mrs. Hodge, the widow of pioneer

Midland theater owner J. Howard Hodge, died Wednesday in a Midland hospital following an illness. She was president of the Midland

**College Foundation Board of Trustees** and was president of the Howard Payne University's Board of Trust-

"Midland College has lost a great friend and supporter," Midland College President Dr. Al G. Langford said of Mrs. Hodge.

She had been a member of that board since its founding in 1973 and was elected board president in February 1977.

"Veda Hodge was a benefactor of Midland College," Langford said, 'but even more important, she was a vocal supporter for Midland College and for higher education throughout Texas.

Mrs. Hodge, a graduate of Howard Payne, was a longtime member of the board of that Baptist-support university. Both she and her late husband had been conferred honorary doctoral degrees from Howard Pavne.

"She was a most remarkable woman," Chancellor Guy D. Newman of Howard Payne said today. "Her diversity of interest was one of the most I've ever known."

Newman said that Mrs. Hodge "was the determining factor" in his decision to leave the vice presidency of Baylor University in Waco in 1955 to become president and later chancellor of Howard Payne.

"She was very persuasive in helping me to make up my mind to be president of Howard Payne in 1955," he said. For some time before that, Mrs. Hodge was on the university's board of trustees.

Her last trip to Howard Payne was in early May, when she, ailing and accompanied by a nurse and her physician, attended the dedication of the Howard Hodge Memorial Towers and Carillon on campus.

"One of her fondest hopes was to see the dedication of the memorial to Howard (Hodge)," Newman said.

On Oct. 2, 1975, the Hodge Carillon Tower was dedicated on the Midland College campus. That landmark was donated by Mr. and Mrs. J. Howard Hodge and Nancy Rodman Hodge in memory of Sandford J. Hodge, who was a nephew of the Hodges and husband of Nancy Rodman Hodge. Another friend of the Hodges, Re

porter-Telegram Publisher Jim N.

Allison Jr., characterized Mrs. Hodge

as "an outstanding citizen of this

Jose Ayala Sr. to Midland to open the first of a chain of theaters in the Permian Basin.

ODESSA - Jose Ayala Sr., 69, of Abilene, father of Linda Sheene of Hobbs, N.M., and Josie Garcia of Big Spring, died Wednesday in an Abilene hospital after a lengthy illness.

Services will be at 1 p.m. Friday in St. Joseph's Catholic Church. Burial will be in Odessa Cemetery, directed by Hubbard-Kelly Funeral Home.

He was born July 13, 1908, in Seguin. He married Francisca Lozano on Dec. 11, 1930, in Brownsville. He moved in 1974 to Abilene from Odessa. He was a member of St. Vincent's Catholic Church in Abilene.

Other, survivors include his wife; five other daughters, two sons, 35 grand8children and 11 great-grandchildren.

## Henry Whitaker

BIG SPRING - Henry "Frank" Whitaker, 67, of Big Spring, died Wednesday morning in a Big Spring hospital.

Services are pending at Nalley-Pickle Funeral Home.

He was born May 17, 1911, in Vincent. He was a lifetime resident of Howard County. He was a retired farmer and a Baptist.

Survivors include two sons, Dan Whitaker of Vincent and Jimmy Whitaker of Austin; four brothers, Sherman Whitaker, John Whitaker and Fred Whitaker, all of Big Spring, and Tom Whitaker of DeLeon; a sister, Mrs. Delphia Gordon of Big Spring, and three grandchildren.

## C. Woods Jr.

DALLAS - Clarance Woods Jr. 55, of 2203 E. California Ave. in Midland died Monday afternoon in a Dallas hospital after a lengthy illness. Services are pending at Cedar Crest Funeral Home in Dallas.

Woods was a Midland resident 26 years. He formerly worked for the Midland Country Club.

Survivors include his father. Clarance Woods Sr., his stepmother, a son, Curtis Woods of Los Angeles; a daughter, Gale Hayes of Whittier, Calif.; two brothers, Charles Woods of Los Angeles and Danny Woods of Dallas, and three sisters.

## Mrs. L. Alexander

Mrs. Lawrence E. (Robbie) Alex-ander Sr., 85, of 217 E. Circle Drive died early Wednesday in a Midland hospital.

Graveside services will be 2: 30 p.m. Friday in Oakwood Cemetery in Waco with the Rev. Dick Jenkins, pastor of the Woodway Methodist Church in Waco, officiating. Services will be directed by Wilkirson-Hatch Funeral Home in Waco.

Mrs. Alexander was born Jan. 28 1893, in Hempstead: She married Lawrence E. Alexander Sr. July 4, 1914. After his death in 1925 in Marlin, she moved to Waco, where she lived before moving in 1957 to Midland.

Mrs. Alexander was active in the Midland Volunteers to the Big Spring State Hospital, American Association of Retired Persons, Golden Agers and Senior Citizens. She was a member of the Austin Avenue Methodist Church in Waco.

Dominican vote count dependent on country

a sure from the same with the second s

SANTJ DOMINGO, Dominican Re-public (AP) — President Joaquin Balaguer's government says vote counting in the presidential election will resume as soon as the country vote is

Amid rumors of a power struggle among four military factions, Balaguer's chief opponent, left-of-center Antonio Guzman, claimed victory and asked President Carter for help.

National police invaded the central election headquarters in Santo Domingo early Wednesday and stopped the count of votes cast in the election Tuesday after Guzman rolled up a big lead over the more conservative Balaguer. But leaders of the armed forces denied that they were trying to take control of the country, as rightwing military commanders did in 1963 when they ousted the founder of Guzman's Dominican Revolutionary Party, President Juan Bosch.

Political sources said the U.S., government was urging that the electoral process be carried out without further interference.

"There is all kinds of pressure against the military," said one source

The State Department issued a statement in Washington reiterating its "concern that the electoral process and the results of the election be respected."

The electoral board said as soon as it "receives the statements of voting in each municipality and the national district it will proceed to the tabulation of the votes for national elections." But it gave no indication when it expected that to happen.

'In carrying out its duties, the

board will continue, as it has until now, acting with strict adherence to the legal norms and the impartiality that have guided its actions," the statement said.

At the time the police stopped the vote count, more than a fourth of the vote had been counted and Guzman was leading the 70-year-old president 326,027 to 218,073 votes. Balaguer, a leftover from the Trujillo dictatorship who was first elected in 1966, is seeking his fourth four-year term.

"It is up to the electoral board to declare me the winner," Guzman, a 67-year-old businessman and landowner, told a news conference. "We will not allow the official election results to be altered.

## Cyclone levels island seaport

RANGOON, Burma (AP) — A cy-clone has virtually wiped out the island seaport of Kyaukpyu, 200 miles northwest of Rangoon, according to incomplete reports reaching here today

Details of damage and casualties were not available as officials rushed relief operations to the island.

The reports said the cyclone, with 100-mile-an-hour winds, struck Kyaukpyu on Wednesday evening, almost leveling the town in three hours.

Most of the buildings, including the jail, were destroyed and some prisoners escaped. A village on the outskirts of Kyaukpyu was completely wiped out, the reports said.

Survivors include a daughter, Mrs. Harold G. Clark of Midland; two sons, retired Col. L. E. Alexander Jr. of Waco and retired Lt. Col. R. A. Alexander of Albuquerque, N.M., 11 egrandchildren and 15 great-grandchildren. Pallbearers will be the grandsons.

## **Californians** survive as samurai swappers

## By NANCY SKELTON The Los Angeles Times

SAN DIEGO - When Dick Dodge says he will make a sharp trade for his surplus automobile, it is more than an empty promise from a used-car salesman with a catchy name.

The 43-year-old San Diegan took out this brief classified ad in a local newspaper.

"Honda. '77 Accord, 5 spd, 12,000 mi, \$4,950 or tod his wife Kayoko - whom he met in a Tokyo sword shop - own two Hondas, plus a recently purchased motor home.

"It's no joke," Dodge explains, "I'm a Japanese sword broker. I want to get rid of an extra car so I figured I'd combine that with work. There is a large retired military population in San Diego. Many people brought these things back as souvenirs

Dodge says he will take one or several swords in exchange for his sedan. The swords, he says, range in value from \$100 to \$100,000, depending on age and condition.

Dodge says he was a discontented PBX installer in the early 1960s when his interest in old weapons took him to a Disneyland gun show. He purchased

## Hearing slated on health care

BIG SPRING - Public testimony on health care for the elderly and disabled will be heard May 26 here by a state legislative panel. The hearing will begin at 9 a.m. in the Dora Roberts Student Union Building at Howard County Junior College, a spokesman for the Texas Department of Human Resources said.

The hearing is one of seven being held across the state.

Created by Senate Bill 548 to study the needs of Texas' elderly and disabled citizens the panel will report its findings and recommendations to the 66th Legislature.

The public hearings are aimed at making sure all parties interested in home and community care get a chance to be heard, the spokesman said. Testimony is expected from service providers, service recipients and their families and various experts on the subject, he said.

## Unusual contest planned in June

SEATTLE (AP) - The winner of the contest will be the pilot whose craft flies into the open sun roof of a new car parked inside the Kingdome arena. The prize: the car itself.

what turned out to be a rather valueless 20th century Japanese military sword and "from then on, I was always looking for the difference."Dodge and his wife live half the year here and half in Japan, where they trade their wares at auction.

"I take the swords back (to Japan) and sell them myself for double the price," he said.

Dodge would like to claim higher motives for his profession, that his underlying drive is to return the prized artifacts to their homeland, "but basically, it's themoney. I suppose there is a secondary benefit in returning the swords. Also you could say I'm helping out the flow of dollars in a very minute way." It was in 1969 that Dodge took a six-month leave

from the telephone company, went to Tokyo, met Kayoko, bought some swords, came back home and quit his job. "Now I not only make double what I did, but I don't

have to work every day and I have a much better outlook on life. Partly, it's knowing about something rather rare," he said." Samurai swords are more than just weapons. They are history. Maybethey don't bring as much as a Picasso painting, but they are as fine a work of art.'

Meanwhile, Dodge says, he isn't worried about unloading the Honda. "People who have swords ought to realize they are worth 20 percent to 30 percent more than they were a year ago because the yen is getting stronger," he pitches.

And if the small ad does not draw any swords, there is still the \$4,950 cash. Dodge says he is willing to slash that

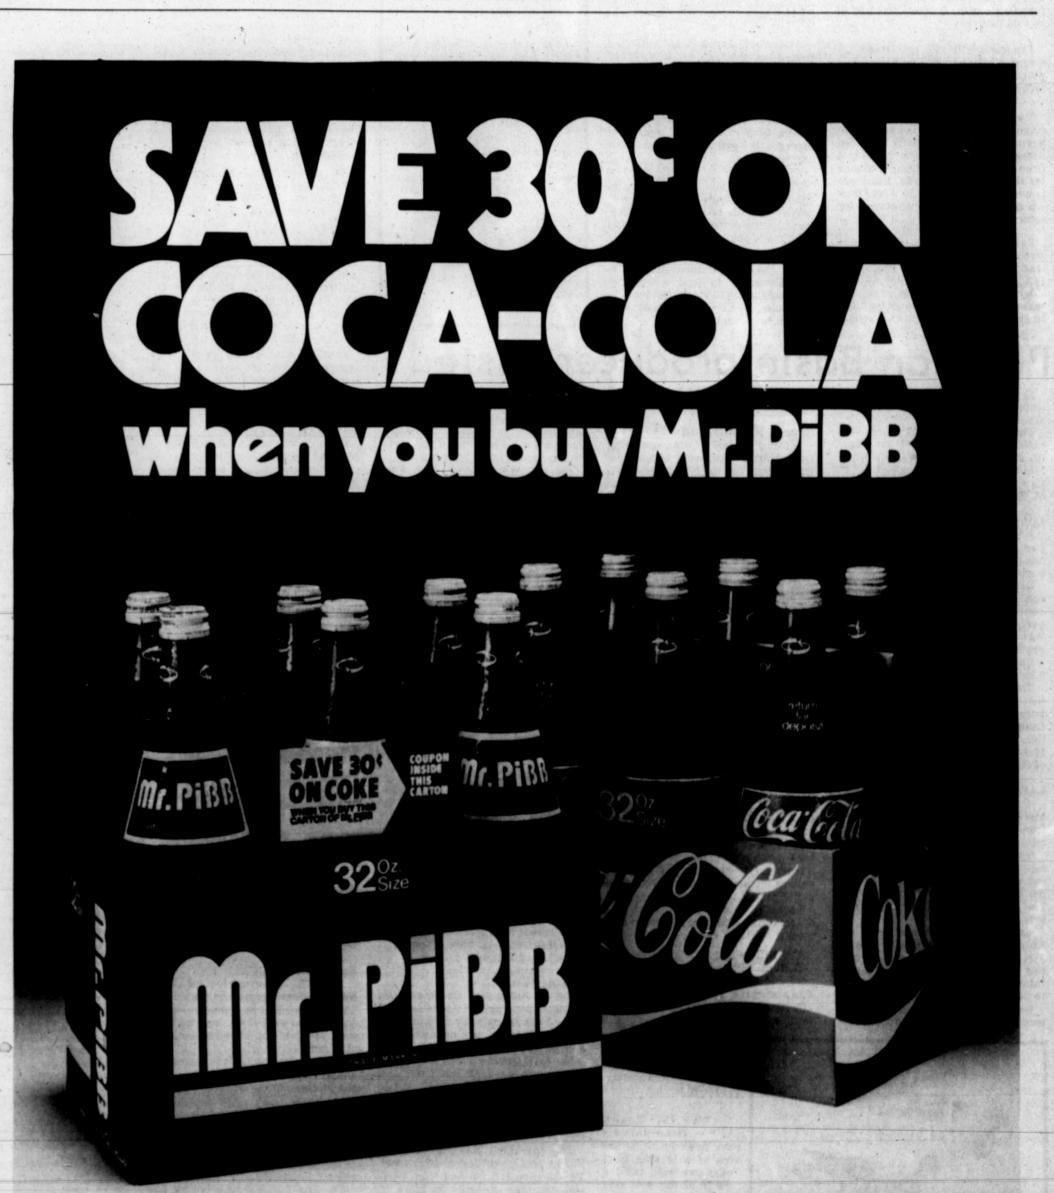

Dick Dodge holds a samurai sword, ready to make a sharp deal on the Honda in rear. Dodge, a swapper in San Diego, Calif.; says he will swap the car for two swords. which range in value from \$100 to \$100,000. Dodge and his

## Japanese makes new for surplus crude oil

### By WILLIAM CHAPMAN The Washington Post

TOKYO - The Japanese government has revived a plan, once rejected by the United States, to buy large supplies of the Alaskan crude oil that is producing a glut in the American West Coast markets.

Prime Minister Takeo Fukuda has instructed officials to come up with details for an arrangement that would permit Japan to exchange some of the oil it buys from the Middle East for Alaskan oil

He reportedly was encouraged during his recent trip to Washington to believe that the U.S. government might look more favorably on such an arrangement than it did last year.

**Present American law prohibits** foreign sales of the Alaskan oil to any countries except Canada and Mexico. If Congress did not object, however, President Carter could waive that restriction to serve the national inter-

Last summer, the Carter administration considered such a swap but eventually turned it down. One reason for that was a fear that the public would not take seriously a national energy conservation program if supposedly precious domestic oil was to be sold overseas.

Japanese officials this week referred to two changes that have taken place since last July, when Carter turned down the swap.

The United States at that time still counted on using all of the 1.2 million barrels of oil flowing daily from the Alaskan Pipeline, which carries it from Prudhoe Bay to a southern port for shipment to California. But there is now a glut of oil on the West Coast which is expected to continue for some time.

Secondly, Japan is now under stronger U.S. pressure to reduce its trade surplus, which runs more than \$8 billion with the United States alone. A big oil purchase could substantially reduce the surplus. Although the United States is more interested in seeing Japan import manufactured goods, not raw materials, the oil deal would at least make the trade books look better.

Japanese sources said Fukuda raised the possibility with Carter at their meeting in the White House on May 3. Some reports have described Carter's reaction as favorable, but one source said wednesday Carter was merely "neutral," indicating only that he would consider the suggestion again.

Fukuda also was encouraged, the official said, when American congressmen raised the possibility of an oil swap during his meetings with them in the capital.

Japanese officials have been cautious about raising the issue because they realize it touches some sensitive political nerves in Washington. One high-ranking official said, "if America thinks it can do this politically, I am sure we could accommodate that wish."

Japan's proposal is to send some of the Middle East oil it normally buys directly to the United States in exchange for Alaskan oil shipped to Japanese ports. The government calculates that both countries could save on transportation costs. The Middle Eastern oil would go directly to U.S. ports on the East Coast, where it is most needed.

At present, Japan is not suffering from an oil shortage, but it is always eager to locate new supply sources, such as Alaska. Even before the Alaska swap plan was revived, the government was considering stockpiling oil in tankers off the southern coast of Japan, both to ensure a supply for emergencies and to reduce its trade surplus.

Fukuda has told the Ministry of International Trade and Industry to prepare details of an oil-swap plan. No estimates of the amount of oll have been made public.

The Fukuda Administration is reportedly eager to send a workinglevel delegation to Washington within a month to discuss the plan with American officials.

THE MIDLAND REPORTER-TELEGRAM, THURS., MAY 18, 1978

## **Devonian discovery** Field work reported

Sojourner Drilling Co. of Abilene No. 1-B Lewis Johnson is a new test in the Five-N field of Fisher County, three miles southwest of Hamlin.

The project, which will be drilled on a 5,500-foot contract, is 1,650 feet southwest of the Strawn discovery of the pool.

The location is 2,150 feet from south and west lines of secion 198, block 1, BBB&C survey.

## TOM GREEN TEST

Simpson-Mann Oil Producers and J. D. Thomas, both of San Angelo, staked location for a south offset to the two-well Lora (Strawn) field of Tom Green County.

The 4,750-foot test is 467 feet from south and 1,093.33 feet from west lines of section 165, block 11, SPRR survey and seven miles south of Wall. It will be operated as No. 1 Frank J. Holik Jr.

### ANDREWS TESTER

Texaco Inc. announced plans to re-enter and plug back for completion in the Strawn at its No. 249-A-1 J. E. Mabee, former Silurian-Ellenburger well in the Lowe multipay field of Andrews County

The project is 1,750 feet from north and 800 feet from west lines of section 37, block 40, T-2-N. G&MMB&A survey. It is 2,725 feet northwest of production. The location is 22 miles southeast of Andrews.

### HOWARD PROJECT

WES-TEX Drilling Co. of Abilene No. 5 J. L. Jones Heirs is a new test in the five-well Vincent (Clear Fork) pool of Howard County, 22 miles northeast of **Big Spring**.

Slagted for a 4,500-foot bottom, it is 2,640 feet from south and 1,988 feet from west lines of section 11, block 26, H&TC survey.

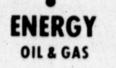

opens Pecos gas field Hillin Production Co. of Odessa No.

1-7 Thigpin has been completed as a Devonian gas discovery in Pecos County, 11.5 miles northeast of Sheffield

The strike, one mile west of the JNT (Pennsylvanian) field, was finaled for a calculated, absolute open flow potential of 2,075,000 cubic feet of gas per day, through perforations from 7,910 to 7,920 feet. No fluid was made with the gas.

Operator acidized the pay with 3,500 gallons.

The well is 1,200 feet from north and

467 feet from east lines of section 7, block C-3, EL&RR survey.

Total depth is 9,427 feet and 41/2 -inch casing is cemented at 8,026 feet. The plugged back depth is 7,984 feet. Operator called the following formation tops on ground elevation of

2,301 feet: Rustler 444, Yates 1,150; Clear Fork 3,390; Wichita-Albany 4,-780; Wolfcamp 5,925; Pennsuylvanian 6,944; detrital 7,870; Devonian 7,910; Silurian 8,096; Fusselman 8,103; Simpson 8,248, Ellenburger 9,050.

### PUCKETT TEST

C&K Petroleum Co. No. 1 Kirk is to be drilled as a 14,000-foot project in the Puckett (Ellenburger) field of Pecos County, 19 miles southwest of Bakersfield

The project is 3/4 mile northwest of Ellenburger production and 1,995 feet from north and 660 feet from east lines of section 16, block 126, T&StL survey.

### STEPOUT PROJECT

The Apache Corp. of Tulsa, Okla, will re-enter and deepen to 15,750 feet the former Kimball' Production Co. No. 1-20 Slaughter-State, a Pecos County dry hole 7/8 mile south of the Grey Ranch (Devonian and Ellenburger) field.

It will be operated as No. 1-20 Slaughter-State. The site is 1,320 feet from north and east lines of section 20, block 129, T&StL survey and 35 miles southeast of Fort Stockton.

### WINKLER EXPLORER

Gifford, Mitchell & Wisenbaker of Midland spotted location for a 1% mile northeast outpost to the closest production in the Cheyene (Capitan) field of Winkler County, 10 miles northwest of Kermit.

two barrels of water per day, through perforations from 2,503 to 2,509 feet. The gas oil-ratio was not reported. The discovery is bottomed at 2,600

feet and 41/2-inch casing is cemented at total depth.

The location is 1½ miles southeast of the Herradura Bend (Delaware) field and 1,650 feet from south and 2,-310 feet from west lines of section 8-223s-28e ...

### MORROW TEST

Harvey E. Yates Co. of Roswell, N.M., announced location for a 12,400foot Morrow operation in Eddy County, four miles south of Otis.

It is No. 2-21 Mobil-State, 1,980 feet from south and west lines of section 21-23s-27e and done mile west and one mile southeast of production in the southeast edge of the Carlsbad, South (Morrow) field.

### LEA WILDCAT

### **REVELATION WELL**

Monsanto Co. No. 1 Catclaw-Federal is a new well in the Revelation (Morrow) field of Eddy County.

It completed for a daily flow of 356,000 cubic feet of gas per day, through a 48/64-inch choke and perforations from 10,654 to 10,782 feet after a 40,000-gallon fracture treatment.

The well extends the field 3/4-mile north.

Location is 1,880 feet from north and 1,980 feet from east lines of section 10-22s-25e and nine miles west of Carlsbad. Total depth is 11,038 feet.

reported, and three barrels of water, Belco Petroleum Corp., operating through a 16/64-inch choke and perfo-

rations from 3,142 to 3,226 feet. The pay was treated with 1,700 gallons of acid and 20,000 gallons of fracture fluid.

Permian Basin producers listed

Seven new wells are among operations reported in Permian Basin areas.

Two of the new producers are in the Lehn-Apco, South field of Pecos County, one completed by I. W. Lovelady of Midland and the other finaled by C. F. Lawrence & Associates, Inc., also of Midland.

lines of section 102, block 10, H&GN survey.

## GLASSCOCK PUMPER

from Midland, reported 24-hour potential test for its No. 2 Edwards, 1,513 feet north of other production in the Deadwood (Fusseelman) field of

The operator's No. 3-A Fox Tail was completed for a daily flowing potential of 49 barrels of oil, gravity not

### LOVELADY WELL

I. W. Lovelady No. 1-A Chalkley has been completed from the Wichita-Albany pay in the Lehn-Apco, South pool

Operator reported a calculated, absolute open flow potential of 4,111,000 cubic feet of gas per day, through perforations from 4,398 to 4,555 feet. Gas-liquid ratio is 250,892-1, with gravity of the liquid 68 degrees.

The pay section was acidized with 5,500 gallons.

The well, now a dual producer, earlier was completed from the Ellenburger zone. Wellsite is 3,459 feet from south and 660 feet from west lines of section 4, block 110, Mrs. L. Merchant survey and 11 miles south of Imperial.

### LAWRENCE PRODUCER

C. F. Lawrence & Associates No. 2 Merchant-State also was completed from the Wichita-Albany to become a dual producer with the Ellenburger.

Operator reported a calculated, absolute open flow potential of 3,000,000 cubic feet of gas per day, through perforations from 4,190 to 4,336 feet. The pay was acidized with 4,000 gal-

Earlier, the well finaled from the Ellenburger from 4690 to 4,748 feet for a 24-hour flowing potential of 92 barcels of 39-gravity oil, with a gas-oil ratio of 350-1. The flow was through a 10/64-inch choke.

Wellsite is 467 feet from the southwest and 1,980 feet from the northwest **Glasscock County** 

The well finaled from the Fusselman for a 24-hour pumping potential of 54 barrels of 50-gravity oil and 354 barrels of water, through perfora-tions from 10,006 to 10,018 feet. Gas-oil is set at total depth. ratio was 2,722-1. SECOND WELL

The pay section was acidized with 6,000 gallons and fractured with 19,000 gallons

Total depth is 10,054 feet and 51/2inch casing is set on bottom. The plugged back depth is 10,020 feet. The well is nine miles north of

### Garden City. MITCHELL OILER

Sun Oil Co. No. 13-D V. T. McCabe is a new well in the Jameson, North (Strawn) field of Mirtchell County, four miles north of Silver.

On 24-hour potential test it flowed 103 barris of 42-gravity oil and three barrels of water, through a 14/64-inch choke and perforations from 6,135 to 6,161 feet. Gas-oil ratio is 1,281-1.

Total depth is 6,201 feet and 516-inch pipe is set at that point. The plugged back depth is 6,180 feet.

Operator treated the pay with 500 gallons of acid and fractured with \$0,000 gallons of fluid.

Location is 724 feet from south and 660 feet from east lines of section 227, block 1-A, H&TC survey.

### WINKLER WELLS

Gifford, Mitchell & Wisenbaker of Midland has announced potential tests on three wells in the Cheyene (Capitan) pool of Winkler County, 13 miles northwest of Kermit.

killed

Animals

### Location is 2,987 feet from south and 1,000 feet from east lines of sec-

Slagted for a 3,400-foot bottom, No. tion 17, block C-23, psl survey. Total 2 Comanche Unit is 467 feet from depth is 3,228 feet and 51/2-inch casing north and 560 feet from west lines of

Gifford, Mitchell & Wisenbaker No. 3 Black Kettle was completed for a daily flow of 50 barrels of oil and three barrels of water, through a 16/64-inch choke and perforations from 3,117 to 3,177 feet after 1,400 gallons of acid and 30,000 gallons of fracture solution. Total depth is 3, 198 feet and 51/2-inch casing is set at that point. Gas-oil ratio is 1,160-1.

The well is 1,330 feet from north and 467 feet from east lines of section 7, block '74, psl survey.

### THIRD WELL

Gifford, Mitchell & Wisenbaker No. 1-A Black Kettle was finaled in the Cheyene (Capitan) field for a daily pumping potential of 52 barrels of oil and 105 barrels of water, through perforations from 3,148 to 3,217 feet. Gas-oil ratio is 920-1.

The pay was acidized with 900 gallons and fractured with 15,000 gallons. Total depth is 3,230 feet and 51/2-inch

casing is cemented on bottom. Wellsite is 2,630 feet from north and 1,980 feet from east lines of section 7.

## block 74, psl survey. ECTOR PROJECTS

Amoco Production Co. announced locations for a pair of Atoka projects in the Fasken multipay area of Ector County. The pool has no Atoka production at this time.

No. 1-BE David Fasken is 1,700 feet from north and 1,900 feet from west lines of section 26, block 42, T-1-N, G&MMB&A survey and 16 miles north of Odessa.

The project will be drilled to 10,532 feet.

The operator's No. 2-AV Midland Farms will be drilled to 10,425 feet. The location is 1,980 feet from north and west lines of section 36, block 42, T-1-N, G&MMB&A survey and 17 miles north of Odessa.

### AMENDED DESIGNATION

Wagner & Brown of Midland No. 1 Edmundson, scheduled as an 8,400foot project in the Conger (Pennsylvanian) area of Glasscock County, has been amended as a 10,200-foot wildcat.

Location is 660 feet from south and east lines of section 29, block 32, T-5-S. T&P survey and 15 miles southeast of Garden City

The project was drilling below 8,485 feet on last report.

### WILDCAT SITE

Union Texas Petrileum Corp. No. 1 Floyd is to be drilled as an 11,800-foot wildct in Terry County, 12 miles southeast of Wellman.

Location is 1,650 feet from south and west lines of section 2, block C-38, psl survey and 1/2 mile west of production in the Corrigan pool.

Elevation is 3,175 feet.

section 13, block C-23, psl survey.

## WINKLER WELL

Gifford, Mitchell & Wisenbaker No. 4 Black Kettle has been finaled as a new well in the Cheyenne (Capitan) field, 8 miles northwest of Kermit.

On 24-hour potential test it floqwed 86 barrels of oil, gravity not reported, through a 24/64-inch choke and perforations from 3,100 to 3,174 feet. The well also made 12 barrels of water on the potential test.

Operator acidized with 1,700 gallons and fractured with 24,000 gallons. Total depth is 3,188 feet and 51/2-inch

casing is set at 3,188 feet. Location is 1,227 feet from north

mond Mound-reserver, and the feet in lime: Bass Enterprises No. 57 Big Eddy Unit, pumped 68 barrels water and no oil in 24 hours. CITGO No. 1-A Polk; td 12,574 feet, set blanking plug at 10,592 feet. and 1,666 feet from east lines of section 7, block 74, psl survey. STERLING TRY GLASSCOCK COUNTY **D&H Enterprises of Sterling City** Monsanto No. 1 Hyer; td. 9,819 feet,

spotted location for a northwest offset Pennzoil Co. No. 2 L. C. Clark td 9,763 feet, in lime, churt, moving off rotary. Mapco Inc. No. 1 Fluor Williams, drilling 1,530 feet. Bass Enterprises No. 1 Bass-Currie; drilling 633 feet. Amoco No. 1-B Winnie Powell Coo-per; testing on pump, squeezed perfo-rations from 3665-3721 feet, cleaned out to 8,440 feet, acid perforations from 8,206-8,246 feet with 2,200 Gallons, recovering load, recovered 63 barrels load water and no oil in 72 hours. to the lone producer in the Crandell (San Andres) field of Sterling County, 10 miles southeast of Sterling City.

The 1,500-foot test is 1,845 feet from north and 1,772 feet from east lines of section 30, block 11, SPRR survey.

### **RUNNELS WILDCAT**

James K. Anderson, Inc., of Dallas No. 1 Bredemeyer is to be drilled as a 4,250-foot wildcat in Runnels County. one location west of the depleted Nora multipay field and 3.5 miles southeast of Winers

The location is 3,722 feet from south and 3,978 feet from west lines of Elisha Mather survey No. 535.

### **IRION PROJECT**

ty Lands survey.

Gulf Oil Corporation spotted No. 3-VE State 1,731 feet northwest of production in the four-well Irion 163 (Ellenburger) field of Irion County, two mildes southeast of Barnhart. The 9,500-foot operation is 1,980 feet from south and760 feet from west lines of sectidon 5, block 40, Universi-

## STEPOUT ANNOUNCED

MWJ Producing Co. of Midland No. 2-B Branch is to be drilled as a northwest stepout to the lone producer in the Tucker (Canyon oil) pool of Irion

County, 13 miles north of Barnhart. The test, slated for an 8,300-foot bottom, is 3,770 feet from production and 1,320 feet from north and west lines of section 66, block 14, H&TC survey. Ground elevation is 2,438 feet. The test is surrounded by production in the Ela Sugg (Wolfcamp gas)

C. E. LaRue and N. B. Muncy, both of Artesia, N. M., have completed their no. 1 Frances as a small Delaware discovery in Eddy County. N.M., three miles northwest of Lov-

Mater and its outres treas water, no show of oil or gas. Cleary Petroeleum No. 2-A New Mexico Pederal, drilling 13,317 feet in lime, shale and sand. Cleary Petroleum No. 1 Feimont-Federal, drilling 12,457 feet. ing The strike completed on the pump for five barrels of 41-gravity oil and-

## Acronyms fill mighty volume

PAGEOD

## By SAM HARTZ

WASHINGTON (AP) - MR Ed is not a HORSE. You can say DAMN and HELL without cussing. A SPADE's not always a SPADE, and who in the world belongs to GOODEGGS and HOTLIPS?

To the aid of the baffled comes AIAD, the Acronyms, Initialisms and Abbreviations Directory, a 757-page volume listing 130,000 of those shorties that help modern man save precious page space, ink and breath.

Keeping pace with them all, the Gale Research Co. of Detroit is rushing out a 6th edition in June.

The word "acronym" was coined in 1943 from the Greek words akros, meaning tip, and onyma, mean-ing name — "Name Tips." Like NAME (National Association of Media Educators or National Association of Minority Education) and TIPS (Total Integrated Pneumatic System or Test Information Processing System).

Or TIPS - To Insure Prompt Service, hopefully, in restaurants and elsewhere.

Initialisms are one-letter acronyms that stand for terms used in many fields of endeavor. Like A is for Army, Aerospace, Atom, Assists, Attendance, Ante, Alto, Ampere, Absolute, Answer, and 29 others listed in AIAD.

Acronyms didn't start in Washington, but go back to the folks who brought it the words capital, senate, forum and tribunal. Roman standards carried the letters SPQR, from the Latin for Senate and the People of Rome.

SPQR is listed in AIAD, but there's been a lot of progress in the last 2,000 years.

MR ED IS MASTER of Religious Education. If you work like a HORSE you work like a Heavy Operational Repair Squadron Engineer in the Air Force.

You may be a walking acronym, like ALFRED (Associative Learning from Relative Environmental Data); HELEN (Hydrogeneous Exponential Liquid Experiment); JIM (Job Instruction Manual) or MAUDE (Morse Automatic Decoder).

Or PAT - (Pattern Analysis Test, Peninsular Air Transport or Property and Accounting Technician (Navy)

Or JANIS - Joint Army-Navy Intelligence Stu-dies; ROSIE - Reconnaissance Orbiting Ship-Identification Equipment, and RON - Remaining Overnight (Aviation).

Poet Gertrude Stein said a rose is a rose is a rose. But acronymically a ROSE could be Remotely Operational Special Equipment (AEC) could be Retrieval by On-Line Search (data processing) could be Rising Observational Sounding Equipment. CALL A SPADE a SPADE and it's still not clear

what's intended - Signal Processing and Display Equipment, Spare Parts Analysis Document and Evaluation, or Sperry Air Data Equipment.

Should your car break down, be sure to phone the AAA (American Automobile Association) and not the American Arbitration Association or other American Associations for astronomers, albinos, airships, angus, Australians, or accounting.

When someone calls "HELP," don't assume he or she means Helicopter Electronic Landing Path (Army) or even Help Establish Lasting Peace.

An organic chemist who mutters "DAMN" may not be swearing but merely mentioning a tool of his

trade - Diaminomaleonitrile. HELL is Higher Education Learning Laboratory. AIAD isn't snooty, and will cheerfully consider

At a state

groups with tongue-in-cheek names. Thus we have HOTLIPS - Honorary Order of Trumpeters Living in Possible Sin, and GOODEGGS (a group of school teachers) - Geriatric Order of Old Dolls Who Encourage the Generation Gap Singlemindedly. The Ford administration's WIN (Whip Inflation Now) was opposed by LOSE (Let's Omit Superfluous Expenses), according to the directory.

THERE'S NO RULE on pronouncing acronyms, notes AIAD. Utter them like words or rattle off the individual letters. This could be a hard decision in ADCOMSUBORDCOMPHIBSAC, a Navy term for Administrative Command, Amphibious Forces, Pacific Fleet, Subordinate Command.

Treated as words, the more descriptive acronyms are of their long forms the better.

Thus, PLUTO - Pipeline Under the Ocean - was a natural for a British sub-oceanic pipeline project during World War II. Pluto, of course, is the god of the underworld in Greek mythology.

There are some standouts amid ho-hums here in Washington, acronym capital of the world with hundreds of alphabetical agencies.

Take NOAA, for National Oceanic and Atmospheric Administration. Should NOAA (pronounced NOAH) warn of heavy flooding, people are bound to sit up and take notice.

HAWK, an Army missile, gives both the picture and a mission — Homing All the Way Killer.

OTHERS INCLUDE AID for Agency for International Development, VISTA, Volunteers in Service to America: ACTION, Action To Improve Our Neighborhoods and the Postal Service's ZIP, Zone Improvement Plan.

But PA for Population Affairs was bad, and right-fully faded out. There was no MA to get equal credit.

That's about all - not to be confused with ALL -Accelerated Learning of Logic, Address Locator Logic, American Librarian League, Arc Laser Light, Augustana Luther League or Aircraft Landing Lamp.

## **Police suspect** house stealing

FARGO, N.D.(AP) - Police aren't sure yet, but they think somebody was trying to steal a house the whole thing.

Neighbors reported seeing two men work for two afternoons to put an 18- by 30-foot pink house on blocks, apparently to haul it away.

The house, owned by the Fargo-Cass County Mu-nicipal Industrial-Development Corp., is located on the city's north side.

Bob Everson, the corporation's executive director, said he knew of no legitimate attempt to have the house moved. Fargo's two commercial house movers also had not been contacted.

Police also were puzzled. They're investigating the incident.,

## Wallace's surprise move ends political saga

## The Washington Post WASHINGTON - Ala-

bama Gov. George C. Wallace's surprise pull-out from the 1978 Senate race has ended, at least temporarily, one of the most controversial and colorful American politi-cal sagas of the 20th century and has set the stage for a new kind of politics in his state.

At a news conference Wednesday in Montgomery, Wallace said little to clarify the reasons that lay behind his sudden announcement Tuesday night that he would withdraw from the contest to succeed retiring Sen. John J. Sparkman, D-Ala.

"I just decided I didn't want to run," said Wal-lace, 58, who has been confined to a wheelchair since an assassiation attempt during his third presidential campaign in 1972 left his legs perman-

## ANALYSIS

ently crippled. Completing his second consecutive term as governor, Wallace is ineligible to run for re-election, and Alabama's other Senate seat is held by his close friend, Sen. James B. Allen, D-Ala.

But Wallace - ever one to preserve a shred of suspense - told reporters, "I did not say I was necessarily retiring from politics, and I did not say that I am not." His withdrawal left

Howell Heflin, the former chief justice of the Alabama Supreme Court, as the front-runner in a Democratic pri-mary field that also in. cludes two young state senators, Donald W. Steward and John Baker.

Howver, there were indications at least one more serious challenger may enter the Sept. 6 primary. Rep. Walter Flowers, D-Ala., of Tuscaloosa, said through an aide he was "considering very seriously" joining the field, but would not decide until next week.

At the news confer-

who graduates from high

agers.

"My health is in good shape," but friends have school next month. "The family has been denied a father for a long been saying for months time," said Charles that they wondered Snider, who managed whether he was up to the demands of a tough bat-Wallace's last two presidential campaigns.

Polls that surfaced Wednesday in Montgom-Even though he was ery, Atlanta and Wash-Wednesday's news conference, Wallace often ington showed Wallace in a virtual dead heat with Heflin, even though the shouted at him from a governor enjoyed a dedistance of only a few cided advantage in name feet. His press secretary, familiarity — not a healthy situation in the standing behind the governor, repeated queseyes of campaign mantions for him.

But despite this dis-

Wallace told reporters,

his session with the reporters.

After repeated questions about how he available to finance a reached his decision. Wallace quipped: "Maybe a little fairy wearing a hearing aid at talked to me while I was asleep.'

He told the reporters did not hear questions his greatest regret in dropping out of the campaign is that "I won't have this crowd to kick around any more."

Wallace said he would not endorse any of the other candidates for

ability, Wallace flashed Sparkman's seat, and wered drolly: "It will some of his old humor in said he had no plans cause a great upheaval, after January, when his almost volcanic in na-

current term ends. ture." In 1964, Wallace Funds are reportedly made a surprisingly strong showing in three teaching chair for him at presidential primaries against stand-ins for the University of Alabama, but aides dis-counted the chances of President Johnson, vowing to "shake the eye teeth" of the "pointyhis taking such a post. Those same aides, headed bureaucrats" he

however, conceded they were caught by surprise by Wallace's Tuesday SANITARY night announcement. Asked what would be

the effect on Alabama politics of his apparent retirement, Wallace anssaid were running the country.

Two years later, barred by a since-repealed provision of the state constitution from seeking re-election, he ran his first wife, Lurleen, for the job and saw her win handily. When. she died of cancer in midterm, she was suc-

ence, Wallace warded off repeated attempts by reporters for details of his decision. "I have reasons known only to myself," he said. "Let's not make a federal case of it."

He said he made the decision after an overnight visit to Gulf Shores, a resort community not far from Mobile. "I had time to think, away from the telephone," he said. "I was by myself for a day and a half."

The dramatic announcement was tacked onto the end of an otherwise ordinary speech to state officials in Mobile. Wednesday, Wallace suggested he had been ambivalent about making the statement Tuesday night right up until he said it. "I almost did not make it," he said.

Wallace's saga was one of the most extraor-dinary of modern times. He controlled the Alabama state government for all but two of the last 16 years, and in that period ran four times for the presidency, developing a national constituency that numbered in the millions.

Yet, in the end, he was a lonely man, widowed once and then divorced, confined to a wheelchair and openly worried about funds and personal aides he needed to sur-vive as an invalid.

That was a far cry from the cocky little "fighting judge" who won the governorship on his second try in 1962 and used his inaugural to sound his cry of defiance to Washington: "Segre-gation now! Segregation tomorrow! Segregation forever!" There was widespread speculation that declining polls, fund-raising problems and the physical chal-lenge involved in a strenuous campaign may have contributed to Wal-lace's decision.

One campaign consultant involved in a rival's campaign said bluntly: "Wallace was either going to get out or he was going to get beat."

But Wallace discounted these problems, and a close friend said the main reason was pressure from his four hildren - two married daughters, a son in law school and a daughter
