We're holding more youngsters in

thing" for practically everyone.

Dennis said Wednesday.

"It is true that we do have a decline

"We'll be back next year," Tom Marsden, spokesman for the Midland Educators Association and the Classroom Teachers Association, said Wednesday following the Midland public schools Board of Education's approval of a teacher salary schedule amounting to 25 percent above the state-required minimum.

Effective for the 1978-79 school year, the new schedule raises the salary of a beginning teacher with a bachelor's degree from \$9,752 to \$10,-675, a 9.5 percent increase, according to school administration figures. Teachers with master's degrees and no experience will receive \$11,388,a 9.5 raise from the current salary of \$10,400, while those with a master's degree and 30 hours of graduate work will earn \$11,888, a 9.1 increase from

this year's income of \$10,900.

Marsden said he is "not happy" or "satisfied" with the board's decision, adding that he thinks Midlanders want quality education and are willing to pay for it. He said the salary increase "barely matches with infla-

Earlier, a joint teacher salary committee had proposed a salary schedule which would have increased incomes at the bachelor's degree level to \$12,252; at the master's degree level to \$12,900, and at the level of those with master's degrees plus 30 hours of graduate work to \$13,400.

"We're just staying even. We're not gaining anything. In fact, we've lost out in the last five to six years,' Marsden, a chemistry teacher at Lee High School, said.

He said he thinks the school trustees could have given teachers a

larger increase, but they "felt pressure from certain factions of the community," apparently referring to taxpayers who recently have had public meetings in Midland on how they might keep property tax rates

Board President Johnny Warren denied the trustees were "pressured" into their decision. He said he thinks the acceptance of the new salary schedule represented the consensus of the board.

Only one board member, James Ramsoure, voted against the new schedule. Warren did not vote since he is president, but, he said he favored the adopted schedule.

In addition, the trustees decided to limit the 1978-79 school year budget to \$24,638,031, the estimated amount for the total expenditure budget under the new schedule. This amount represents a 9.9 percent increase over the present total budget of \$22,412,810, according to administration figures.

During the hour-and-a-half discussion; board member Ed Runyan said, 'We don't have unlimited funds. The total budget should be some fixed number that we should stay in." He said the budget increase should not exceed the rate of inflation and that the school district should limit its expenditures within a 10 percent property tax rate increase.

On the other hand, said Ramsoure, he thinks the trustees shouldn't have "put a cap on expenditures." Ramsoure saidhe supported a 30 percent salary levelover the state-required minimums since it gave more reward to career teachers.

The board earlier defeated Ramsoure's motion to raise the salaries to 30 percent over the state schedule by a 4 to 2 vote. It also turned down an amendment to that motion, made by Runyan, which would have limited the total budget to \$24,356,007, the estimated amount of expenditures under a salary schedule 22.5 percent higher than the state schedule.

In his reaction to the board's decision, Ron Britton, a spokesman for the taxpayers, said he thinks it is 'excellent' that the trustees agreed to limit the budget. During the meeting, prior to approval of the increase. Britton told board members that if a teacher salary increase were granted, it would necessitate a tax rate increase. He said this would be

"taken poorly" by the taxpayers. The initiative, he said, to stop infla-

SWING YOUR PARTNER round and round is the command obeyed by Alfred Garcia as he dances with Jennifer Farango in an event Wednesday in the Head Start Mini-Olympics. Other events were a race with spoons and limes, a backward walk race, a 20-yard dash, a Hula Hoop contest, a somersault competition and a fleece ball contest. Each of the 120 participants received a ribbon in the Olympics, which marked the last day of classes for Head Start students. (Staff Photo by Mike Kardos)

Front Street, Nome, Alaska, 1978. Most of the all seven of its bars, are located along here. (AP historic gold mining town's businesses, as well as Laserphoto)

What to do in Nome but roam if you can't get a slug of rye?

NOME, Alaska (AP) - A church-backed group, working on the premise that alcohol is the root of health and crime problems in this hard-drinking Gold Rush town, has gotten a proposition on the ballot that would ban the sale of liquor.

Disgruntled opponents of the proposal say the town has to live up to its wild and woolly past tokeep the tourists coming.

The Rev. John Shaffer, minister to both the Presbyterian and Methodist churches here and prime mover of the proposition, said Nome has one of the highest alcohol consumption rates in the world - about four gallons a year for every resident over the ag5 of 15. That is 57 percent above the national average.

Nome also has a suicide rate 10 times the national average, and Shaffer said alcohol is part-

Bill Dann, executive director of Nome's hospital, does not endorse the ban but said, "Alcohol usually figures in our suicides, homicides, emergency room beatings.

Shaffer organized a petition drive that gathered 264 signatures, 40 more than were required in this predominantly Eskimo town of 2,500 people. The proposal was certified Wednesday, and voters will make their decision in October.

"I think Nome will become a ghost town," said Albro Gregory, publisher of the Nome Nugget. "There won't be any tourism, property values will go to hell and taxes will go up sky-

Gregory said taxes from liquor sales provided \$89,600 of the \$443,500 collected from sales taxes in Nome in 1977 - 20.2 percent of the total.

In a compromise effe bar owners, a local minister and two other citizens have formed a committee to try to find ways to reduce alcohol abuse without banning it.

One of the bar owners is Greg Tabor, manager of the Anchor Tavern and president of the Nome Bar Owners' Association. 'We've changed our hours, we're policing ourselves better," Tabor said.

Copter careers across sky in foiled hijack bid

MARION, Ill. (AP) - A former Vietnam combat pilot wrestled a gun from a would-be hijacker and shot her to death while his helicopter reeled out of control 600 feet above the ground near the U.S. penitentiary at

Allen Barklage, 30, of St. Louis said Barbara Oswald, in her mid-40s, also of St. Louis, had ordered him to land Wednesday night in an exercise yard at the maximum-security prison where some of America's most dangerous criminals are confined.

He quoted her as saying they would be carrying off three convicts.

Barklage said the woman chartered the helicopter in St. Louis under the pretense of flying to Cape Girardeau, Mo., about 35 miles beyond the prison, which is about 90 miles by air southeast of St. Louis.

flight, he said, she pulled a .44-caliber pistol and ordered him to fly to the

Less than three miles from the prison, Barklage saw his chance.

"She was trying to open the doors and she switched her weapon from her left hand to her right hand," he said. "She put her finger on the trigger guard and not on the trigger." "I let go of the helicopter controls

and let it do whatever it wanted," he said. "I grabbed for the gun and we had a 10- or 15-second struggle."

The Bell Jetranger II helicopter was pitching and turning wildly, he said. It was so erratic, "that I shot four times - shot all five times but one misfired - and I only hit her once. And she was only two feet away

Barklage righted the aircraft and set it down about 70 feet from the entrance to the prison administration building, which is linked by barred doors and a hallway to the main

Leaving the helicopter with the dead woman slumped over the back seat, a bullet wound in her head, the pilot bolted for the administration

"I started running around looking for a guard. That was a mistake. The guards almost shot me because they didn't know what was going on," he

The FBI, which took over the investigation, refused to allow prison authorities to identify the convicts who were to be plucked out of the exercise yard. The yard was in use by other inmates at the time as part of the normal institution routine

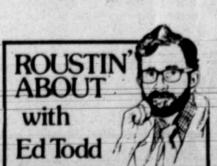

New book of quotations 'hot stuff'

Who among the learned and the pseudo-intellectuals hasn't run through John Bartlett's "Familiar Quotations" in search of "the perfect quote" to express an idea? Probably few on the American

It's arranged so you can find just about any of the memorable ideas and phraseologies of Shakespeare, Bacon, Homer, Thoreau, Lincoln, Twain, Mill and others up and down the ages of

Bartlett's book, you might say, is a classic from the "Great Classics" and lesser known works.

And, like the classics, today it mostly stays unruffled on the library shelf as if it were old and staid. Possibly Bartlett's work and the classics are going the way of that grand, ol' mainstay, "McGuffey's Eclectic Reader." Perhaps the latter should be considered for re-adoption by the school systems. It's a cut, and then some, above the ho-hum tripe and trivia of some of the so-called readers in this advancing age of education.

But back to Bartlett's and on to

Peter's.

There's a new book of quotations that's sure to get more popular use than the 123-year-old Bartlett tome. It's called "Peter's Quotations: Ideas for Our Time." At's from that learned one, Dr. Laurence Peter, who pre sented the Western World with the "Peter Principle," a study of human foibles and the American way of promoting a climber to his level of indence and . . . tragically, to failure. Laten Petercame out with a remedy to the Peter Principle.

Peter's lifted quotes are refreshing. Here's a sampling:

"Every hero becomes a bore at last." (Emerson)

-"As soon as a man acquires fairly good sense, it is said that he is an old

fogy." (Ed Howe) -"Hope is independent of the apparatus of logic." (Norman Cousins)

"Private enterprise is ceasing to be free enterprise." (FDR) -Ingorance is no excuse - it's

the real thing," (Irene Peter) "Racism is the snobbery of the poor." (Raymond Aron)

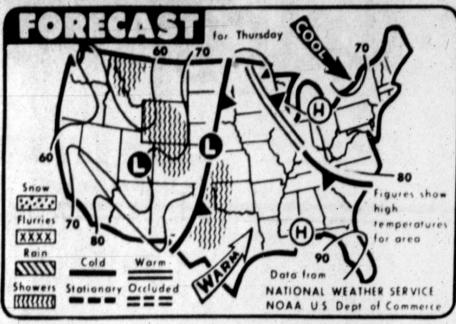

-"Wise men learn more from fools than fools from wise men." (Marcus Porcius Cato)

-"To read without reflecting is like eating without digesting." (Edmund -"Liberty is always dangerous,

but it is the safest thing we have. (Harry Emerson Fosdick)

Peter's latest is so replete that the compiler quotes himself freely.
Maybe he has thoughts of appearing

WEATHER SUMMARY

SHOWERS ARE FORECAST for parts of Idaho, Wyoming, Montana, Colorado, Kansas, Oklahoma, and Texas for today says the National Weather Service. (AP Laserphoto map.)

TODAY'S SATELLITE cloud picture shows a band of heavy thunderstorms that extends from central Kansas to northeastern North Dakota, and there is also a heavy thunderstorm area in southern Texas. Variable cloud cover lies over the Rocky Mountains and states westward. High thin clouds cover southern New England. (AP Laserphoto)

Lubbock baron tosses support to George Bush

LUBBOCK — Former Republican gubernatorial nominee Dr. James Granberry Wednesday endorsed George W. Bush of Midland for the 19th Congressional District seat being vacated by U.S. Rep. George Mahon.

Bush is running against Jim Reese of Odessa in the June 3 runoff election for the Republican nomination to that

Granberry, also a fermer mayor of Lubbock, announced his support for Bush in a Wednesday night press conference at Granberry's home in Lub-

"I'm going to support the nominee, whoever he is, but I hope it's George Bush...I'm going to work for him and I'm going to vote for him," Granberry

Granberry said it is important to elect a Republican to serve Texas in Congress because a conservative Democrat would be "completely out of step with his colleagues" and would "have to go along in order to get

Bush is younger than his opponent Reese, Granberry said, and has the ability to get along with people and "debate in a reasonable manner." As a young conservative Republican, Bush would get top committee assignments in part because the party's national leadership would see a potential for his staying in Congress long enough to achieve seniority, Granberry said.

He said Bush is articulate and knowledgeable about the issues.

Bush said today he is "deeply grateful" for Granberry's support, and that of former Lubbock mayor protem Deaton Rigsby, who also endorsed Bush at the Wednesday press conference.

Bush said he would expect to stay in Congress if elected "as long as I can be effective. The people of this district are aware of their congressman and if I do a lousy job, I'll be a one-term congressman."

He said Granberry's endorsement "is going to add a lot more enthusiasm to our organization." His campaign, Bush said, has "a lot of momentum," and he said he will run an above-board campaign in the interest of party unity,

Energy plan on last lap

WASHINGTON (AP) — President Carter's long-delayed energy package is heading down the home stretch, but it may arrive at the finish line without the crude oil tax the president calls the centerpiece of the program.

With agreement on a natural gas pricing compromise, House-Senate conferees have now reached basic accord on all parts of the five-section program except taxes.

And there have been increasing ex-

pressions of doubt among lawmakers that the tax portion can be enacted this year — especially as congressional elections approach.

The crude oil tax — the most controversial part of the energy tax sec-

tion — is designed to make U.S. oil as expensive as foreign oil over a threeyear period.

Senate negotiators reached an accord on the natural gas portion of the plan late Wednesday, voting 10 to 7 to accept a proposed compromise that lifts price controls from newly found gas in 1985.

House negotiators broke a sixmonth deadlock Tuesday when they approved the natural gas measure on a 13-12 vote.

Carter and the House wanted to keep price controls on gas, but the Senate had voted for deregulation aftey two years. The compromise is a middle ground which congressional analysts say will cost consumers some \$9 billion between now and 1985 in higher heating

The deal was framed in lengthy informal negotiations among key conferees and Energy Secretary James R. Schlesinger.

The negotiators will meet again June 6 to take up 33 relatively minor but unresolved issues on the gas legislation.

Lawmakers hope to get the gas compromise to the Senate floor where it goes first — as soon as possible.

Clearing skies quash rain hopes

Cloudy skies greeted Midlanders when they awoke early today, but clearing had started later, chasing hopes that a few drops of rain might fall on the city. The weatherman still is predicting a 30 percent chance for rain tonight, decreasing to a 20 percent chance Friday.

cent chance Friday.
Winds of 15 to 25 mph should decrease to 10 to 15 mph tonight, according to the National Weather Ser-

vice at Midland Regional Airport.
Wednesday's high of 89 degrees did
not come near the record of 102 degrees set in 1964. The low of 68 degrees
also was a little warmer than the
record low of 50 degrees set in 1954.

Cloudy skies were reported in Rankin and Big Lake today while Crane, Odessa and Big Spring had sunny skies.

School board accepts bus route change subject to court approval

The Midland public schools Board of Education Wednesday accepted a change in Henderson Elementary School bus route no. 32, subject to court approval, due to overcrowded conditions at the school.

Schools Superintendent Dr. James Mailey said during the board's regular meeting Wednesday that he bus has been taking kindergarten through fourth-grade children to Henderson on one run, and then transporting fifth-graders to Houston Elementary School and sixth-graders to De Zavala Elementary School in another run.

Under the change, students in kindergarten through fourth grade will be taken to Long Elementary instead. Mailey said 71 children will be involved in this, according to current enrollment figures. The fifth-graders and sixth-graders will not be affected, he said.

The superintendent said the change is in keeping with the integration plan. He said most of these students live in mobile home parks which are expected to be expanded in the fu-

During the meeting, the school trustees heard a report, given by Betty Sumner, outgoing president of the Junior League of Midland, on programs handled by the league in cooperation with the school district.

In her presentation, she said the Junior League plans to continue training its members as volunteer guides at the Museum of the Southwest and the Permian Basin Petroleum Museum & Library Hall of Fame to lead tours for students. Also, the league will continue to show child protection films to students in kinder-

his own pistol.

Wednesday.

Dead man identified as

family man new to area

garten through third grade.

The league has voted to contribute an additional \$15,000 to Partners in Reading, a voluntary program designed to provide adult help to children in grades one through six who are having reading difficulties. This school year, she said, 379 parents agreed to help their children read, while 204 volunteers were recruited to work with other children. She said evaluations of how these students did will be forthcoming.

In other cooperative programs, the Junior League has revised its Midland Community Theatre guide program and will provide volunteers who will make background presentations of the plays to enhance the students' enjoyment of them. It also plans to teach eardiopulmonary resuscitation (CPR) to all ninth-grade health classes. Mrs. Sumner said a student who took the CPR course was able to save an infant's life.

For the upcoming school year, the league expects to sponsor a Cultural Arts Pilot Program with the school district which is designed to offer a program of fine arts to second-grade children at Carver Culture Center.

In other action, the trustees approved the request of the Midland Chamber of Commerce's Sports Committee to use the Midland Memorial Stadium for a football game between Ranger Junior College and the University of New Mexico Oct. 5. It appointed Peat Marwick Mitchell & Co. as independent auditors for the school district and authorized the district to sign commitment forms for data processing and media services, totaling approximately \$53,800, with the West

Texas Education Center.

Board members awarded bids for teaching supplies, adding up to \$57,-898 and for janitorial supplies, \$26,358.

They accepted bids totaling \$12,478 from Boyds Carpet of Midland for replacing tile at South Elementary School, the Midland High School Youth Center and Austin Freshman School. They also awarded a \$2,595 to Glasco Glass Co. of Midland to install aluminum doors at Lee High School.

num doors at Lee High School.

The school board recessed about an hour and a half to attend a meeting of the Board of Equalization for information purposes. The trustees met in executive session to discuss a personnel and real estate matter, but no action was taken. The scheduled report on the vocational program was postponed until the next regular meeting.

Teachers' pay raised

(Continued from Page 1A)

tion must start here.

Board member Ann Page pointed out that the state government "doesn't carry the weight of teacher salaries," but that the local governments must decide what salaries should be.

In addition, Warren said, unlike the city government, the school district does not have a sales tax. In the past, he said, teachers have gotten "what was left over" in the budget. This year, the trustees decided to set salaries before the rest of the items were budgeted, he said.

Britton said the school board would be in violation of state law if they approved a tax rate increase at the meeting, but Warren said the board members are not setting a tax rate now in deciding a budget figure. He said the tax rate is expected to be set later this summer, and the district will follow proper legal procedures before deciding what the rate should be.

According to Business Manager Don Furgeson, based on estimated property valuations for the upcoming fiscal year, tax rates will have to be increased from the current rate of \$1.17 per \$100 assessed valuation to \$1.208. However, he said, this rate may change since property valuations have not been finalized yet.

Board member Joe Dominey noted that for several years, the tax rate remained stable and that this past year, the schools lowered their tax rate. In defense of raising teacher salaries, Roy Dennis, a Midland High School teacher, told the board that teachers should not be blamed for inflation. On the contrary, he said, teachers are being hurt by escalating costs. He said they only are asking to restore their buying power to the 1968 spending level.

Board member Ann Page said the

Board member Ann Page said the Midland school district has dropped from 22nd to 65th this past year compared to all the other districts in the state, based on the salary levels it offers to teachers.

Also, board member Marshall

"Mac" McCrea said he thinks the district should emphasize employing the "best people" in the public schools. He said, "The best equipment and the best buildings aren't worth a darn if you don't have the best people."

Although he thinks the board agrees.

Although he thinks the board agrees that teachers deserve a pay raise, Runyan said the trustees need "to take a look at the total numbers" in the school budget. He said they need to ask themselves, "Are we spending money wisely?"

Warren said by granting the sales:

Warren said by granting the salary hike to the teachers, the community has "every right" to expect better performance from the schools, including raising test scores and getting disciplinary matters straightened out.

Emma Shults, 87, of 702 N. Kent, Apt. B, died Tuesday in a Midland hospital following a lengthy illness. Services were to be at 2 p.m. today in the Westside Church of Christ with Owen Cosgrove officiating. Burial was to be in Resthaven Memorial

Funeral Home. Mrs. Shults was born Aug. 16, 1890, in Hillsboro. She was reared in Evergreen, Jonesboro and Hamilton. She moved to Midland in 1951 from Abilene, where she had lived for 30 years. She was a member of the Westside

Park directed by Newnie Ellis

Church of Christ. Survivors include three sons, Richard Shults of Midland, Roy Shults of Pittsburg, Texas, and Eual Shults of Houston; six daughters, Laura Jones of Dumas, Irene Phillips of Belton, Mrs. Frank Turney of Mid-land, Mrs. J.C. Porter of Midland, Mrs. Steve Hastings of Abilene ad Mrs. J.P. Rankin of Abilene; a brother, James Fowler of Abilene; three sisters, Ida Shults of Abilene, Eula **Oustad of Hamilton and Stella Anders** of Oklahoma City, 24 grandchildren and 31 great-grandchildren.

Pallbearers will be Allen Phillips. Milford Phillips, Don Jones, Charley Phillips, Jimmy Porter, Duane Turney and Douglas Phillips.

Honorary pallbearers will be Ricky Shults, Randy Shults, Richie Shults, Darrell Shults, Robert Rankin and Sean Hastings.

Ilene Sumrow

LAMESA - Ilene H. Sumrow, 80, of Hereford and formerly of Lamesa died Wednesday in a Hereford hospi-tal following a lengthy illness. Services will be at 10:30 a.m. Fri-

day in Northridge United Methodist Church here with the Rev. DeWitt Seago, chapiain of King's Manor Methodist Convalescent Home in Hereford, officiating. Assisting will be the Rev. W.O. Rucker, pastor of Northridge Methodist Church, and the Rev. David Hamlin of Muleshoe. Burial will be in Lamesa Memorial Park directed by Branon Funeral

Mrs. Sumrow married D.E. Sumrow in 1942. She moved to Lamesa in 1968. She had lived at the King's Manor Methodist Convalescent Home for the past three years.

Survivors include her husband: three daughters, Mrs. Neal (Bernice) Duke and Mrs. Jimmy (Jo) Thomas, both of Lubbock, and Mrs. Tom (Belle) Harris of Amarillo; four sons, Elmer D. Sumrow of Lamesa, Floyd E. Sumrow of Houston, Don F. Sumrow of Seminole and Bobby R. Sumrow of Amarillo; two sisters, Maggie Austin of Oklahoma and Inez Lokey of McKinney; a brother, Jesse Thurman Fleming of Vernon, 13 grandchildren and 15 great-grand-

grandchildren and four great-grand-Isaac Rogers

LAMESA - Services for Isaac June Rogers, 76, of Lamesa were to be at 2 p.m. today in North Fourteenth Street Church of Christ here. Officiating was to be Eugene Cardinal, minister. Burial was to be in Lamesa Memorial Park directed by Branon Funeral

Rogers died Tuesday evening in a Lamesa hospital after a brief illness. He was born in Nacogdoches and had lived in Dawson County for 53 years. He was a farmer. He was a veteran of World War II. He married Juanita Allen on Aug. 29, 1975. He was a member of the Church of Christ.

Survivors include his wife; three stepchildren, Vineta Woodrum of Lamesa, Geneva Weaver of Midland and Jo Harison of Chicago, Ill.; and two sisters, Annie Morgan of Douglas and Maggie Stinson of Nacogdoches.

Cigarette sales still going up

WASHINGTON (AP) - Per capita cigarette consumption declined slightly in 1975, although domestic sales of cigarettes set a record in that year, the Federal Trade Commission

The 1975 figures were released Monday in a statistical supplement to the FTC's report on cigarette labeling and advertising. The supplement was long delayed by litigation with tobacco companies and the figures for 1976 and 1977 should be available in a few months, the FTC said.

Feds recalling Carnation foods

WASHINGTON (AP) - The federal government says it's recalling 14.1 million Carnation brand Breakfast Bars and Slender Diet Meal Bars because some may contain pieces of

While some of the products may still be on store shelves, all of them have been reclaimed from warehouses, the company said. The Food and Drug Administration said Wednesday it had not confirmed the company's report and the recall was still in effect.

A spokesman for the Los Angelesbased company, George Wilkins, said, "We do not believe there is any significant health hazard."

He said the wires, "about a quarter-inch long and the thickness of a paper clip," apparently got into the processed bars through a contaminated shipment of raw material.

FDA spokesman Wayne Pines agreed that the wire "is not likely to cause adverse health consequences.

The agency identified the recalled products as 4.3 million Carnation breakfast bars in chocolate crunch, chocolate chip, peanut butter and granola flavors and 9.8 million Carnation Slender Meal Bars for Weight Control in chocolate, vanilla and cinnamon flavors.

The breakfast bars bear the code: KC806 through KC810, KC813 and KC814. The diet bars bear the codes KB821 through KB828 and KC801 through KC804.

Wilkins suggested that 4 consumers return these products to the place of

Truck rams tourist bus, seven killed, four injured

OSLO, Norway (AP) - Seven American tourists were killed and four seriously injured when a load of lumber broke free from a truck and sliced through their bus in the mountains of central Norway, police reported. The victims' names were not immediately available.

Witnesses said the truck skidded into the bus on a twisting mountain road Wednesday and that the wood broke free and rammed through the left side of the bus. They said the bus driver was abie to keep the bus on the road, preventing it from plunging into

a river bed below.

Police said the group, made up of 14 American couples, was headed for Tyin, a lake resort town about 100 miles northwest of Oslo. The accident occurred near Ljoesome in the Sogn district of western Norway.

The Americans left the United States May 18 and stayed in Copenhagen before traveling to Norway, officials said. They said the tour was arranged by a Norwegian tourWgroup called "Winge Tours" in association with the Boston-based firm "Selective

Two Yanks jailed in Manila

MANILA. Philippines the neck and chest outwere sentenced today to 10 to 17 years in prison for the attempted murder of an Indian Embassy official. They said they were innocent and would appeal.

Steven Michael Dwyer, 28, of Wichita, Kan., and Victoria Sheppard, 31, of Maryland, also were ordered to pay the victim, Jyoti Sarup Vaid, \$13,333 plus the cost of the three-month trial.

Vaid was stabbed in

The operator reported a 24-hour pumping potential of 552 barrels of 31.4-gravity oil, no water, with a gasoil ratio of 1-1. The production is through perfora-

tions from 11,390 to 11,431 feet after a 5.500-gallon acid treatment.

Total depth is 11,602 feet and 51/2inch casing is cemented at 11,544 feet. The plugged back depth is 11,475 feet. Location is 560 feet from south and 1,980 feet from east lines of section

301, block G, CCSD&RGNG survey. The Wolfcamp was topped at 9,058 feet, the lower Mississippian was entered at 10,620 feet and the Devonian was found at 11,390 feet. Ground level elevation is 3,426.3 feet.

I. W. Loveladhy of Midland No. 1 Doss is to be drilled as a rank wildcat in Gaines County, 16 miles east of Seminole.

Contracted to 13,000 feet, it is 660 feet from south and 1,980 feet from east lines of section 24, block C-3-, psl

Gulf Oil Corp. No. 1-D Shearn-Federal Communitized has been completed in Eddy County, N. M., 1/2 mile north of a recently completed dual Strawn and Morrow discovery.

The well, completed through Strawn perforations from 9,520 to 9,-578 feet, finaled for a calculated, absolute open flow potential of 3.55 million cubic feet of gas per day.

Total depth is 11,350 feet and 51/2 inch casing is cemented at total depth. The plugged back depth is

Wellsite is 1.980 feet from south and east lines of section 15-23s-25e and 11 miles southwest of Carlsbad.

Texas International Petroleum Corp. of Oklahoma City, Okla., has staked its No. 1 Walker as a 5/8-mile southwest stepout to Strawn gas production in the Jameson, North pool in Nolan County.

Slated for a 7,500-foot bottom, it is 2,087 feet from north and 1,870 feet from west lines of section 229, block 1-A, H&TC survey and 19 miles south of Garden City.

WINKLER TEST

Rendova Oil Co. of Midland No. 2-47 University Unit is to be drilled 11/2 miles north of the War-Wink, South (Fusselman) field of Winkler County, 15 miles southwest of Wink.

The 19,000-foot operation is 773 feet from north and 3,413 feet from east lines of section 47, block 20, University Lands survey.

Parker & Parsley of Midland No. 1-A Snyder is a new pumper in the Spraberry Trend Area field of Martin County, five miles southwest of Stan-

Operator reported a daily potential of 65 barrels of 40-gravity oil and 97 barrels of water, through perforations from 8.564 to 8.831 feet.

Total depth is 8,950 feet and 41/2-inch casing is set on bottom. The plugged back depth is 8,903 feet. The pay section was acidized with

4,500 gallons and fractured with 160,-

000 gallons. Gas-oil ratio-is 1,4770-1. The well is 1,485 feet from north and 1,980 feet from west lines of section 25, block 37, T-1-S, T&P survey.

Corpus Christi makes bid for deep port

CORPUS CHRISTI, Texas (AP) -The Port of Corpus Christi is making a bid to become a major world port by deepening its channel to handle large crude oil tankers.

By expanding the depth from 45 to 72 feet, the port hopes to become the United States' first deepwater harbor

facility. The project, named "DEEPORT," also entails construction of a turning and docking basin to accomodate the world's most modern ocean-going

vessels. The facility is planned to later provide for multi-purpose use. Thus it would be able to handle ore, minerals and agricultural products as well as

The Nueces County Navigation District, which is sponsoring the project, has applied for the necessary permits

object to further dredging. Ned Fritz of Dallas, spokesman for the Texas Committee on Natural Resources, said it objects to heavy dredging of any kind along the coast because it wipes out the habitat for water fowl.

Fritz said Tuesday that heavy dredging is the worst kind because it takes away land for wildlife and also ruins the area where the dredging spoils are dumped.

Fritz said his committee did not object to offshore terminals because no coastline was damaged.

PORT project, a spokesman said.

GLASSCOCK OILER

Atlantic Frichfield Co., operation from Midland, has reported potential test for its no. 6-38 W. M. Schrock in the Spraberry Trend Area (Dean) field of Glasscock County, 25 miles southeast of Midland.

The well completed on the pump for 88 barrels of 38.3-gravity oil and 38 barrels of water, through perforations from 8,362 to 8,535 feet. The pay was acidized with 1,500 gallons and fractured with 80,000 gallons.

inch casing is set at 6,945 feet. Hole is plugged back to 8,580 feet.

Location is 660 feet from north and east lines of section 38, block 37, T-4-S. T&P survey. The well, a re-entry project, is a former Spraberry pro-

Gas-oil ratio is 1,155-1.

TOM GREEN TEST

Fortune Drilling Co., Inc., of San Angelo No. 1-B Probandt has been staked as an 8,600-foot wildcat in Tom Green County, 20 miles south of Ster-

The project will be dug 2,010 feet from north and 660 feet from east lines of section 42, block 7, H&TC survey. Ground elevation is 2,4560

The drillsite is 53/4 miles south of the WAM, South (Fusselman oil and gas) field and one location north of of an 8,610-foot failure. If completed from the Canyon, it will be assigned as the eighth well in the Probandt (Canyon) field.

RE-ENTRY TEST

Thomas D. White Jr. of Midland announced plans to re-enter the former Fortune Drilling Co., Inc., No. 1 F. J. Holik Jr., second well in the Lora (Strawn) field of Tom Green County, and test for completion as a gas dis-

The project is five miles southwest of Wall and 1,980 feet from south and 2,293 feet from west lines of section 165, block 11, SPRR survey.

It originally was drilled to 4,707 feet by Roger E. Canter and completed in 1964 through perforations from 4,655 to 4,657 feet. On potential test it flowed 134.75 barrels of 34-gravity oil, with a gas-oil ratio of 540-1.

Operator will test the section from 4,330 to 4,334 feet.

IRION TEST

Saxon Oil Co. of Midland will drill a pair of projects in the Dove Creek (Canyon D) field of Irion County, eight miles southeast of Mertzon.

Both projects are to be drilled on 6.700-foot contracts. No. 1-F Winterbotham is 5/8 miles

east of production and 676 feet from south and 690 feet from west lines of section 23, block 21, H&TC survey.

No. 2-E Winterbotham is 1/2 mile southeast of oil production and 3/8 mile southeast of gas production. The site is 660 feet from north and east lines of section 29, block 21, H&TC

No. 1-82 Emmons is to be dug as a southeast offset to the two-well Eldorado, South (Canyon gas) field of Schleicher County.

The location is 2.5 miles southwest of Eldorado and 1,980 feet from north and 660 feet from west lines of section 82, block A, HE&WT survey. Contract depth is 7,000 feet and the ground elevation is 1,412 feet.

says President Carter

WASHINGON - House-Senate conferees Wednesday approved a compromise plan for natural-gas pricing that President Carter hailed as "a crucial breakthrough" toward enactment of long-delayed energy legislareasonable prices.'

The conferees' agreement on a plan to deregulate new natural gas prices by 1985 broke a six-month stalemate over Carter's energy program and cleared the last major hurdle to sending the natural-gas bill to the House and Senate floors. Senate conferees voted 10 to 7 to

concur in the compromise plan that House conferees approved, 13 to 12, Tuesday and then reaffirmed by the same vote Wednesday.

Congressional leaders have said they expect the compromise plan to clear both the House and the Senate by narrow margins. But they are prepared for a filibuster by liberal opponents of deregulation when the measure reaches the Senate.

Because the conferees must still resolve a few minor details on natural-gas regulation and because the compromise has not yet been put into legislative language, leaders of the conference committee do not expect legislation to reach the Senate or House before late summer.

In comments Wednesday, both the conferees and President Carter made it clear that they believed that a historic agreement had been reached.

"We came out of here with the resolution of a problem which has plagued us for 30 years," said Sen. Henry M. Jackson D-Wash., leader of the Senate conferees.

"A solution of the natural-gas issue has eluded presidents and Congresses for more than a quarter of a century," Carter said in a special statement. "I congratulate the conferees for their fine work.

The president called the compromise "a long overdue step toward creation of a truly national market for natural gas, as well as a crucial breakthrough toward enactment of the long-delayed national energy leg-

With Wednesday's action, the energy conference completed most of the work on all but one of Carter's five-part energy package. But the remaining portion is most central to Carter's program - the energy tax package that contains a proposed crude-oil tax designed to raise the price of domestically produced oil to the world market price, thus reducing consumption and imports.

Key lawmakers have warned that Congres is unlikely to pass a crude-oil tax this year.

Carter urged Congress again Wednesday to "begin in earnest on the crude-oil tax" and to "start moving toward final passage of the first four (energy) bills.' The protracted conference on natu-

ral gas legislation was required because the House and the Senate had passed widely different natural-gasbills. The House approved Carter's request for expanding current natural-gas regulation, while the original Senate bill called for quick deregulation of new natural-gas prices.

House energy analysts said the compromise adopted Wednesday would cost consumers an estimated \$9 billion by 1985, or anywhere from \$20 to \$50 per year for the family that uses gas for heating.

The compromise plan would extend current price controls on interstate gas to currently unregulated intrastate gas - gas consumed in the state

Brzezinski trip alters nothing--publicly, at least

The Washington Post

HONG KONG - The Chinese failed to publicly signal any significant change in policy toward Washington duing the visit of U.S. national security adviser Zbigniew Brzezinski.

Chinese words and actions during this week's trip were almost identical to those during the visit of U.S. Secretary of State Cyrus Vance in August, although the Chinese seem pleased with Brzezinski's tougher anti-Soviet remarks and appear more confident of U.S. commitment to improve relations with Peking.

Last year, the Chinese complained that the new Carter administration was being both too eager in its support of the Nationalist Chinese on Taiwan and too reluctant to stand up to China's more serious enemy, the Soviet Union.

In his opening banquet toast to Vance, Chinese Foreign Minister Huang Hua said then that "there are now still problems in the relations between our two countries." Huang is unlikely to have changed his opinion since Washington continues to recognize Taipei, but in an apparent gesture of increased onfidence he chose not to use those words in greeting

Instead he added the thought that "our countries do hold common or similar views on a number of questions in the present international situation," a phrase the Chiese often use during upswings in their relations with Washington.

Whatever small diplomatic gains Brzezinski made during his three days in Peking could still be blown away by the kind of careless post-visit assessments that irked the Chinese after Vance's trip. Veterans of the Vance trip like White House China-watcher Michel Oksenberg and Assistant Secretary of State Richard Holbrooke, who accompanied Brzezinski remember the harsh Chinese reaction and concerted diplomatic repair work that followed overly optimistic assessments of the Vance visit.

Brzezinski's greater willingness to express his suspicions of Moscow in public certainly delighted the Chinese, who heard a much softer line from Vance last August. Arriving at a convenient high point in Soviet adventures in Africa, Brzezinski struck out against "global or regional hegemony" in his banquet remarks and while on the Great Wall joked about looking for the "polar bear."

Like Vance, however, Brzezinski scrupulously avoided any comment that might suggest that the Chinese opposition to continue U.S. ties with Taiwan had softened. The Chinese appear not to have budget an inch on their demands that Washington cut all diplomatic and military ties with the Nationalist Chinese-held island, the key obstacle to full U.S.-Chinese diplomatic relations:

Peking's antennae quiver at the mere suggestion the issue, which Chairman Hua Kuo-feng's government apparently fears would be taken by its domestic critics as a sign it had softened on the issue.

Thus, despite all Vance's efforts in August to give reporters accompanying him very neutral statements on Taiwan, an optimistic interview apparently given by White House foreign policy staffers back in Washington had the Cinese grumbling before Vance even returned home.

President Carter's remarks on greeting Vance at Andrews Air Force Base, M.D., did not help much either, administration officials say. Most of the president's words were cautious, but the Chinese reacted sharply to his description of the trip as "a very important step forward in our ultimate goal of normalizing relations."

Vice Premier Teng Hsiao-ping reacted in Septem-ber by reportedly calling the Vance trip a "step backward" in an interview with American visitors. Other Chinese were similarly critical of U.S. ties with Taiwan, so for this trip Brzezinski advertised his intent to finesse the Taiwan issue and concentrate instead on the easier question of how to cooperate with Peking in frustrating Soviet interference in the developing world.

His disclaimer of any intent to use the trip to pressure Moscow on arms or other negotiations with Washington was phrased like a threat itself. He repeated it at both opening and closing banquets in Peking: "Only those aspiring to dominate others have any reason to fear the further development of American-Chinese relations.

The trip to the Great Wall had reportedly not been on Brzezinski's original, businesslike schedule, but he eventually succumbed to the lure of one of the wonders of the world like any first-time Peking

It proved a splendid forum for more anti-Soviet jibes. "If we get to the top first, you go in and oppose the Russians in Ethiopia," a French correspondent quoted him as telling his Chinese escorts. "If you get there first, we go in and oppose the Russians in Ethiopia." He posed for a picture with Chinese sailors, who reportedly dubbed him "the polar-bear

Brzezinski's trip had been preceded by friendly gestures on both sides. Peking named a new chief for its Washingon liaison office and Washington ordered the closing of a couple of American government libraries on Taiwan. But there was little chance of any agreement on Taiwan. Brzezinski spared him-self the nuisance of having to turn aside regular quesions on the issue by banning American reporters from the trip.

The official New China News Agency described Brzezinski's long talks with Huang, Teng and Hua who all saw Vance in August — as "candid" and "frank," an indication of disagreement and a sign of no progress on Taiwan. Even before Brzezinski left Peking, the news agency carried a harsh attack on Nationalist Chiese President Chiang Ching-kuo and U.S. support for his government on

To illustrate China's two-handed approach to for-eign policy, however, the day before Brzezinski arrived the same news agency carried a warm description of a Peking reunion between Chinese leaders and former U.S. Army officers who served in China during World War II.

"It requires great exertion and time to realize the normalization of relations," second-ranking Communist Party leader Yeh Chien-ying told the group.

*A peaceful and friendly cooperation between China and the United States which lie across the Pacific 5/25/78 Ocean will be favorable to world peace."

LET'S SEE YOU IN ACTION FIRST-

FUNKY WINKERBEAN

I'M GOING TO WRITE A LETTER TO THE SUPERINTEN -DENT HIMSELF ABOUT THOSE CUTS IN THE BAND BUDGET

THIS WAY I CAN COLLECT MY THOUGHTS IN A CALM, COOL, AND ORDERLY MANNER.

Dear Fathead... CLACK! CLACK

BLONDIE

MARY WORTH

JUDGE PARKER

NO HELGA! BY THE WAY CAN I GET YOU I'LL BE LEAVING THE HOUSE ANYTHING BEFORE FIRST THING IN THE MORN-I GO TO BED, MRS. .50 DON'T WORRY

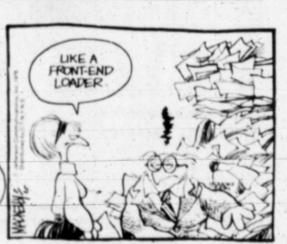

and their Minter Rempages and

IS THAT ALL

STEVE ROPER

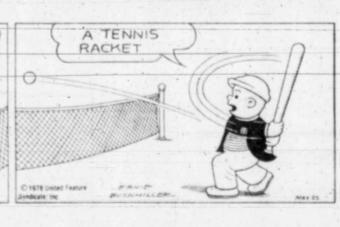

DICK TRACY

REX MORGAN M.D.

STEVE CANYON

MARMADUKE

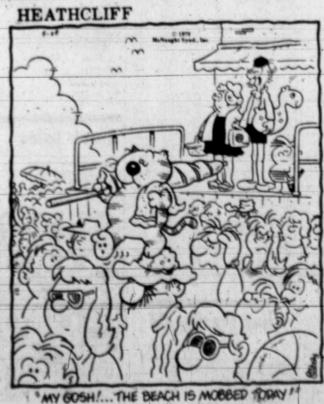

PEANUTS

"It happened when he decided to join the birds for a dip.

CUT OUT THE ROUGH HOUSIN' I CAN'T HARDLY HEAR COWBOY BOB!
