Capital murder trial jury panel dismissed

The jury panel for the capital mur-der trial of Anthony Dewayne Scott was dismissed Wednesday after a hearing before 238th District Court Judge Vann Culp on alleged irregu-larities in the panel selection process. The trial was postponed to June 19.

Culp ordered a new panel to be drawn up at 2 p.m. today. He orderedthe district clerk to return to the jury wheel all names of jurors drawn since August 1977 and not replaced before the jury panel for Scott's trial was selected May 23, except those jurors who already have served four

After two years of fighting to keep

its present method of electing school

trustees, Midland school board mem-

bers apparently are resigned'to yield-

ing without appeal to a recent federal court ruling ordering them to go back

to an at-large system.

School officials were notified of the decision this week.

A three-judge panel in Dallas has ruled that the school district must

give up the place system with majori-

ty requirement used in Midland since

1973 and go back to an at-large system

in which all candidates' names are

listed on the ballot together. The lat-

ter method was used this year by the

Midland County Hospital District. The legal fight began two years ago

when the Justice Department filed an

objection to the place system under

the Voting Rights Act. That law was

applied to Texas in 1975 and was

appears resigned

Culp's ruling did not address the defense attorneys' allegations that state laws concerning access to the wheel had been violated. Culp also rejected a defense motion to dismiss the charges against Scott be-cause he allegedly has been unable to get a speedy trial.

Culp did accept a motion made by defense attorney Bill Smith, joined in by District Attorney Vern Martin, to restrict "all those actively involved" in the case from discussing it with the

Charles Tighe, attorney for the

year's April election as scheduled.

staff and sheriff's department attached to the case from talking to reporters about this case. He said the media still has access to the trial, court records and their own files.

Following the ruling, defense attorney Allen McFall said, "We don't feel that by putting names back (in the jury wheel), you cure the error." He said the defense objected to using the present list of names on the wheel because it "had been put together

Earlier, Scott's defense attorneys contended there were at least 17 alleged irregularities in the manner in which names have been drawn this year from the jury wheel, as well as access to the wheel.

During the hearing, Smith moved

to dismiss the jury panel drawn in the case "because the names in the wheel are illegally there." He said representatives from the district clerk's office, county clerk's office, sheriff's department and county tax assessor-collector's office are required by law to meet every year to reassemble the jury wheel, from which names of the jury panel are drawn.

District Clerk Madge Wallis testified Wednesday that only she and a maintenance staff member met Aug. 15, 1977, to reassemble the jury wheel which has been used since that date.

Furthermore, Smith said only the district clerk, county clerk, sheriff and county and district judges are allowed by law to have access to the jury wheel, but testimony We inesday indicated peace justice and municipal court employees also had access to

Smith said because some 7,000 names of persons pulled for earlier jury duty allegedly were not replaced before the jury panel for Scott's trial was drawn May 23, people were deprived of their right to serve on the jury, and Scott was deprived of his right to have them on the jury. Representatives of the various clerks' offices testified that a total of 7.345 names had been taken from the wheel for jury service from Au-

gust 1977 to May 1978. Smith said since these names allegedly were not replaced in the wheel he could not choose experienced jurors for the panel as he preferred.

Other violations, Smith said, involved how the names were prepared for the jury wheel and use of a computer in gathering a list of names to go in the wheel. According to Midland County Tax Assessor-Collector Elmo Linebarger's testimony, names for the wheel are taken from the voter registration list, which is sent to Western Data Processing in Waxahachie for compilation.

Smith also contended there is "no direct evidence" of where the names

Seafaring Naomi James, standing with her husband Rob, acknowledges cheers of crowd upon her arrival today at Dartmouth Harbor. (AP Laserphoto)

Dad didn't keep

DARTMOUTH, England (AP) - Naomi James, a farmer's daughter from New Zealand. sailed into Dartmouth harbor this morning to end a solo circumnavigation of the globe that clipped two days off a round-theworld record set by the late Sir Francis Chichester.

Hundreds of people in small boats and along the banks of the River Dart cheered as the 29year-old housewife took her 53foot sloop, Express Crusader, across the finish line after 272 days at sea on a voyage covering nearly 30,000 miles.

She set off from this yachting mecca on England's south coast last Sept. 9 in the 10-ton, fiberglass sloop that normally takes a crew of 10. Her east-west circumnavigation was via the treacherous waters off Cape Horn at the tip of South America, the graveyard of many a

Many old salts shook their heads and said it couldn't be done. But Mrs. James, who only started sailing a couple years ago, defied their misgivings and completed the fastest solo voyage around the world. Chichester was knighted after he set his record of 274 days in Gypsy Moth IV in 1966-67.

Nobody was more amazed than Naomi's mother, Mrs. Joan Power, who came to Britain with her husband Bob to be on hand for their daughter's arriv-

"Naomi normally can't find her way out of a paper bag," Mrs. Power old reporters. "When she went into Woolworth's as a kid she always got

A cannon fired at the local yacht club when Mrs. James crossed the finish line. Then, as a helicopter flew overhead and small boats swarmed around, she made a triumphant circuit of the harbor and a pass beside the village of Kingsweay across the River Dart where she lives with her husband Rob, 30, a former merchant sailor.

"The best moment of the voyage was when I heard the gun signalling that I had made it." Mrs. James said on dry land as she kept a tight grip on her husband's hand. She looked radiant in a white pants suit after nine months at sea.

She said she once nearly turned back. "That's when I was off Cape Horn with a damaged yacht," she said. "I thought about it long and hard. But I couldn't stand the thought of going back, so I carried on."

The Express Crusader was severely damaged in a gale Feb. 24 in the desolate waters of the southern Pacific some 2,000 miles west of Cape Horn. With the sloop's tottering mast held up by temporary lashings, Mrs. James managed to round the treacherous cape and put in at the Falkland Islands for repairs

That was only one of a catalo-gue of setbacks. Only 24 hours after Mrs. James set out from Dartmouth she narrowly avoided being mown down at night in the English Channel by a foreign

Wright favors N.Y. aid

WASHINGTON (AP) — House Majority Leader Jim Wright declined to predict how many of his Texas colleagues will support New York City's bid for financial aid today but said he believes the total will be more than the two who voted for it last time.

Wright said Wednesday it would be "downright stupid" not to save the nation's largest city from bankruptcy and urged members of the Texas delegation to stand with the city in its bid for \$2 million in long-term federal guarantees for its municipal bonds.

New York City officials have said the city would be bankrupt by July without such congressional action.

The New York City Financial Assistance Act has the backing of President Carter, who expressed his favor of the bill during a Wednesday break-fast meeting with Wright and other Democratic leaders.

When the city first came to Congress in 1975 for badly-needed financial assistance, the Texas delegation overwhelmingly opposed the bill. Of the 24 members, only Wright and Barbara Jordan voted in favor of helping. Wright said he was confident more than two Texans will cast "aye" votes today but would not predict how

One Texan who has emphatically stated he will vote against it is Re-publican Jim Collins. He delivered a speech to the House Tuesday noting that the city's leaders had committed "financial suicide" by opting for "politically profitable" methods of solving their town's monetary woes.

Rep. Jim Mattox, a Dallas Democrat and House banking committee member, said Wednesday he was still undecided, although he voted for the bill when it came through that com-

However, his office released Feder-al Reserve Board and Federal Deposit Insurance Corp. figures revealing that eight Texas banks had from 20 to 50 percent of their capital invested in New York City bonds.

The banks, which were not identified, hold a total of \$131 million in New York City bonds. Six of the banks have at least 20 percent of their capi-tal invested in the beleaguered city and two have more than 50 percent invested in New York City or New York state bonds.

Mattox office also reported that private companies in Texas have contracts with New York City totalling \$151 million and of that, \$26 million is listed as outstanding liabilities that the city would have "difficulty pay-ing" if Congress doesn't pass the aid bill.

Wright said New York City has "tightened its belt and accomplished every internal reform it pledged to acomplish in 1975"...trimming its payroll by 60,000, closing hospitals and reducing its budget deficit from \$1.8 billion to approximately \$760 mil-

He said the the city is "asking now only for a loan guarantee to see it safely over the hump in long-term securities" and added the bankruptcy of New York would "send shock waves throughout the entire economy...and have an extremely adverse effect upon the bond market of every

Mule Train pub an untidy attic of artifacts, yesteryear's junk

RANKIN - Were J. Frank Dobie still around and rummaging for lore, he might be obliged to feel out ol' J.C. Carroll and his Mule Train museumpub for a tale or two.

The place certainly has atmosphere; there's no denying that. It takes on the appearance of a dusty and unkempt attic where the discards of cowboys, oilfield workers, injuns, travelers, pioneers, fliers and home bodies have wound up.

Today, they call 'em artifacts. They were yesteryears' junk, wares, tools Carroll is a rotund and colorful sort

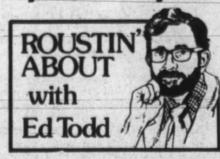

whose humor is no less just because he often gets around better in a wheelchair than he does on foot. He came to this country in 1927,

when he was "barely a kid" (3 years old), got his learnin' and into trouble often enough at Rankin, and worked in the oil patch until he and his trim spouse Georgia settled down to the Mule Train west of town some years

He recalled just one of the pranks and misbehavings he and one of his school chums, Joe Salman, used to pull and get into

"Me and ol' Joe got caught spitting tobacco juice in an inkwell (of a pupil's desk)," Carroll said. "Got to stinking and souring. We got in trouble over that."

He chewed tobacco for years beyond his school days.

"I used to chew tobacco when I worked outside, but I quit." Now that his time is mostly spent indoors and in piddling around the "museum," he smokes cigars and cigarettes. His choice of a smoke depends on which is the most convenient.

"I've been thinking about it (quitting smoking)," Carroll said. Just the same, he shoved cigarette after cigarette into a holder, lighted up again and again, and puffed with the pleasure of an addicted smoker. "But," he said, "I get so fat you can't see my eyeballs. I smoke like a steamship all day long."

"He took it to auction, but it (the bidding) was so low, he pooh-poohed it, and took it right home." Carroll enjoys recalling the time when an older fellow from New York was passing through a few years ago and stopped by the Mule Train for a

The season was either Thanksgiving or Christmas, and Carroll and his helpmate had already loaded down the tables with a potpourri of festive foods, both fowl and formerly hoofed. He has been throwing these seasonal treats since back in the '50s and will be keeping it up "if I hang

Anyway, this out-of-state traveler comes in and fills his needs.
"That old man enjoyed himself fully," Carroll recalled. "He was hellbent to pay for the food."
The proprietor wouldn't allow that.

"When I get back to New York,"
Carroll said the guest told him, "I'm
gonna tell them that they've never

ILA brass under arrest

MIAMI (AP) - Officers of three International Longshoremen's Association locals - including an international vice president - have been arrested in connection with a threeyear probe of maritime union activi-ties, the FBI said today. FBI spokesman Welton Merry said

eight men, including the presidents of ILA locals in Miami, Jacksonville, Fla., and Atlanta were arrested early this morning. He said more arrests

The arrests follow the return of a 100-page indictment The Miami Herald says charges at least 15 union leaders and businessmen with a range of crimes along major Atlantic and Gulf Coast ports.

The newspaper quoted sources as saying those arrested in the massive probe face charges including extertion, sacketeering and labor and tax

Merry identified those arrested

Landon Williams, president of ILA Local 1408 of Jacksonville and international vice president of the unio George Barone, president of ILA Local 1922 of Miami; Cleveland Turner, president of ILA Local 1416 of Miami; Elizah Jackson, president of ILA Local 1408 of Atlanta; James Vanderwyde, the office manager of ILA 1922; Cornelius Vanderwyde, an office worker with Local 1922.

Also arrested were Max Forman identified as a Miami accountant and Oscar Mories, vice president of Flori-da Welding Service Inc.

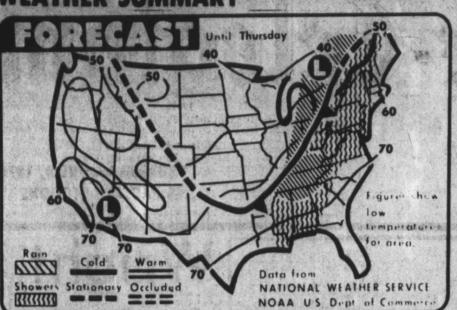

Merry said Turner and Jackson were arrested in Atlanta; Williams was arrested in Jacksonville. The others were arrested in Mlami. Harone's local represents about 100

clerks and checkers who catalogue goods flowing through the Port of Miami. Turner's local has a membership of 800 longshoremen in Miami and Fort Lauderdale.

The Herald says Barone organized the Miami local after he lost his license to work on New York docks for refusing to answer questins posed by the New York Waterfront Commis-

U.S. Magistrate Charlene Sorrentino ordered the indictment sealed until arrests were made. Officials declined to comment on the investigation until all suspects were in cus-

A federal strike force began the investigation in Miami, but it has spread to major ports along the Atlantic and Gulf of Mexico.

SHOWERS AND RAIN are forecast today from the central Gulf to the Midwest, mid-Atlantic and Northeast. Warm weather is forecast for the East and far West, but temperatures for most of the country are expected to be mild with generally clear skies. (AP Laserphoto Map)

Swimming classes led by MARC

A six-week swimming program for mentally retarded youngsters and adults is being held weekdays from 5: 15 to 6: 15 p.m. at the Midland High

School swimming pool, said H. Wade Whiteley, a program leader.

The swimming sessions are being sponsored by the Midland Association of Retarded Citizens (MARC) and are open without charge to any retarded citizen, said Whiteley, who helped organize both MARC and the

swimming program 19 years ago.
So far, 30 persons have enrolled in
the program, which is for beginning,
intermediate and advanced swimmers, he said. The program was launched, Whiteley said, "because it (swimming) is

the best recreational activity for anybody" and it might prevent drown-

Basic swimming skills and strokes are taught in the program.
"You teach the kids to overcome fear of water and, as they progress, you take them into deeper water and teach them the strokes and to develop their potential," Whiteley said.

Those taking lessons range in ages

from 3 to 28, he said. Instructors helping out in the pro-gram include volunteers from Teens Aid the Retarded, Whiteley said. However, he said additional volunteer

swimming instructors are needed.

What MARC is looking for in instructors are those who are "willing, loving, understanding and compassionate . . . and are not afraid of water," Whiteley said.

Teaching these floating youngsters the basics of swimming in a learn-to-swim program sponsored by the Midland Association for Retarded Citizens are Susie Alexander, 17, left, and Susie Kirkpa-

trick, 17. Learning to float on their backs are Kathy Kirkpatrick, 18, and Mike Fisher, 13. The two instructors working with the retarded are with the Teens Aid the Retarded. (Staff Photo)

Stacy Reservoir decision delayed

Austin Bureau

AUSTIN - Dozens of supporters of the proposed Stacy Reservoir in West Texas, including representatives from Midland and Ector counties, packed into the Texas Water Commistion for that Colorado River project.

sion hearing room Wednesday for the start of that three-member panel's consideration of the permit applica-

Church now approves lifting embargo on arms shipments

WASHINGTON (AP) - Sen. Frank Church, a member of the Senate Foreign Relations Committee, emerged from a meeting with President Carter today to announce he now favors lifting an embargo on arms shipments to Turkey.

Church, D-Idaho, was in a bipartisan Senate delegation that heard Carter argue for repeal of the 3-yearold embargo.

Sen. George McGovern, D-S.D., said the Cabinet Room session produced a "general consensus" in favor of resuming arms shipments to Tur-key, eastern anchor of the North Atlantic Treaty Organization.

Church said the issue would be

notly debated in the Senate, but he rated prospects for repeal of the embargo as "generally good."
"I think the case the president

makes is a very strong one," said Church, who previously opposed lift-

Declaring that the embargo "obviously hasn't worked" to promote a Cyprus settlement between Greece and Turkey, Church said, "I don't think we should perpetuate a policy that has failed."

Voicing similar sentiments, McGovern told reporters: "The embargo

has served whatever purpose it's

going to serve. The Foreign Relations Committee last month rejected a proposal to repeal the embargo.

School board resigned

(Continued from Page 1A)

will be a problem, because the incumbent still will have the advantage of name identification.

Mrs. Page said she has been told by "people who have served on the board for a long time" that it will be harder

Ramsoure, the only minority trustee, said he does not see much difference in the likelihood of minorities being elected under the two systems. He said he believes it might be slightly easier under the place system, since candidates don't have to run against "the entire field."

Because of the relatively small number of minority voters, he said, and the high cost of school board campaigns in recent years, "it's pretty difficult either way.'

"I've always felt the only real solu-tion (to the difficulty of electing minority candidates) would be single member districts," Ramsoure said. And, he said, it will be difficult to

elect minority candidates under either system because it "looks like an insurmountable task to try to raise \$5,000 or \$6,000 just to run for the

The proceedings, which attorneys witnesses for the reservoir sponsors estimate may take more than two weeks to complete, were delayed at the end of Wednesday's session until evidence. July 11 in order to give oppoents to the reservoir additional time to take depositions and to study the several boxed of evidence already collected in prehearing discovery matters.

The commission, however, did rule on the controversial motion to remove TWC member Dorsey Hardeman due to the possibility of a conflict of interest, with all three members voting to overrule that proposal.

Lower Colorado River Authority attorney Fred Werkinthin argued that Hardeman's representation of San Angelo as an attorney for the city in matter before the state's water agency and his political involvement with the region as a member of the State Senate from that area could cause the commission member to be biased. San Angelo is projected as a possi-ble customer for the Stacy Reservoir

"I think there's grounds for dis-

qualification for bias," Werkinthin told the panel. Commission member Joe Carroll

moved to overrule the motion to disqualify Hardeman. It was seconded by TWC Chairman Joe Carter and supported by Hardeman. The commission, however, sup-

ported a motion by Austin attorney Thomas George to delay the proceeding so that the opponents could take additional statements from two and to allow more time to study the material already submitted for Booth, and co-counsel James

Wilson of Austin, vigourously opposed the motion to continue the proceedings, saying that the opponents had had ample time to prepare their

The commission members, however, agreed to support the motion, delaying the proceeding until 10 a.m. July 11. After granting that motion, the

commission agreed to leave the record open to receive what chairman Carter termed "non-evidenciary" testimony, including statements and resolution from more than thirty West Texas governmental entities. Odessa May Dick McManigle Jr.

noted that the Odessa area is experiencing "unprecendented growth" and is most dependent on its water resources. Midland council member Gordon

Marcum II echoed McManigle, saying the region is experiencing a growth boom due to the energy crisis. 'We feel our growth rate now exceeds that of Houston," he said.

Other resolutions and statements were received from Big Spring, Coleman, San Angelo, Sweetwater, and the counties of Tom Green, Coleman, Runnels, Upton, Nolan, Coke, Sterling, Glasscock, Scurry, Midland and Ector. Also, support from various civic groups was tendered into the

Manor residents to find rents reduced in July housing, and sent a letter to the panel on his findings. He said in the letter

By LANA CUNNINGHAM

Residents at Hillcrest Manor will find their rents reduced when they receive their bills for July.

The Housing Authority of Midland Wednesday adopted a resolution approving the revised rent schedule for Hillcrest Manor. The housing is for elderly and handicapped persons. Their rent is based upon how much income they receive, according to Fred Kester, secretary for the Housing Authority.

All efficiencies and one bedrooms will be reduced by \$4, and the two bedroom units will go down by \$5, Kester said.

Texas Electric Service Co.'s rate increase last year is responsible for the rate reduction. Each tenant at Hillcrest pays his own utilities in the all-electric apartments, Kester said. When the utility rate goes up, the rent must drop. "HUD (Department of Housing and Urban Development) says when you make the tenant supply utilities, you have to give them gross rent," he said. **HUD** provided part of the funding

for Hillcrest Manor and the housing panel must follow the HUD regulations in operating the facility, he

The manor is filled to capacity with 100 residents, Kester reported, and applications are on file from 103 persons. Mayor Ernest Angelo Jr. checked into the possibility of getting more funding for the same type of

grams exclusively for the elderly and handicapped. "There are no solutions to our problems right now," Chairman Harry Clark said. "It looks like it comes in a package deal." One contract with General Electric was approved and another rejected by the panel. Accepted is a service contract for Zoneline heating and air conditioning units in the 58 efficiency apartments. It will cover the service

calls and all parts and labor, Kester

told the panel. The units are guaran-

teed for a year, but that time limit

expires on Aug. 28, he said. A check on problems with the units since the

facility has been open shows there

should be about 36 calls a year at an

the only program available from

HUD is a low-rent income with the

elderly and handicapped eligible only for 20 percent of that housing con-

structed. There are no HUD pro-

average of \$65 a call, he said. The contract will be for \$74.65 a unit for a total of \$4,329.70 for a period of four years.

The contract for stoves and refrigerators for each of the 101 units, including those in the maintenance area, was for \$6.70 a unit. But the panel decided it was not necessary since they have had no trouble with the appliances.

Private contributions for a home rehabilitation program total \$72,164, according to a report by Ruth Wenck. The money should be enough to restore 30 houses to meet acceptable building codes.

The panel also discussed actions being taken by the developer and builder of Hillcrest Manor to fix those things which have gone wrong with the facility since it was opened last August. The contract calls for the developer to take care of things which go wrong in the first year, Kester explained.

seen such hospitality in their life." On the dinner tables that season, Carroll recalled, were venison, quail, chicken, beef, the trimmings and loads of good will. "That damn Yankee couldn't get

over my Southern hospitality," Car-roll said, as he savored the true tale. Not long ago, a "dude from Dallas" stumbled across the Mule Train and offered me a helluva price for the building and all." Quite naturally, Carroll wouldn't

sell. He'd have nothing to do and no place to go were he to bid his place

He won't part with any of his museum pieces, especially that jukebox from the Hank Williams era. It's got mostly country music on it, some Western, some mixed, and a hint or two of jazz and rock 'n' roll.

Murder trial jury panel dismissed

(Continued from Page 1A)

for the jury wheel came from, which he said is in violation of state law. However, District Attorney Martin said he thinks the state laws on computer usage apply to selection of the jury panel, not to compilation of names for the wheel.

He said he is "far from certain any specific harm" was done to Scott because of the alleged irregularities in the jury panel selection process. "There is no indication anyone has done anything in bad faith," he said.
He did admit there were indications

that unauthorized persons have had

access to the jury wheel. But he said, this was done in "good faith."

Scott is charged in the Aug. 4, 1977, stabbing death of Jackie Goodrum Burleigh, a clerk at B&B Liquor Store here. She was killed during an alleged robbery at that store. Scott was arrested in Denver and was ordered extradited to Texas Aug. 9, 1977.

The effect of Culp's ruling and the efense allegations on other trials to be held by courts in Midland County between now and August was unclear today. However, Martin said Tuesday that the outcome of hearing would affect trials scheduled in all county courts until the jury wheel is reassembled in August for another year.

An ol' Tennessee Ernie Ford number, "Sixteen Tons," was spinning: " . . I owe my soul to the company

It fits right in with J.C. Carroll and the Mule Train. And the Mule Train boss says he'll

school board."

Plan's passage prompts response

AUSTIN, Texas (AP) - Most Texas officials and politicians agree that "it could happen here" if Texans ever ballot on a tax limit plan such as the one approved Monday in California. "It is time for a full scale holy war

on taxes," said Republican gubernatorial candidate Bill Clements. "The California vote confirms what

I found in my campaigning during the last five months — that property owners feel they're being victimized by endless increases in property taxes. It's obvious we need to put in our property tax laws some safeguard against the overuse of property taxes we saw in California," said John Hill, the Democratic nominee for gover-

"I anticipated its passage all along," said Texas House Speaker Bill Clayton. "I think the same thing would happen in Texas if it were put to a vote.

Proposition 13 in California limits to 1 percent of market value the amount that property can be taxed, with annual increases never to top 2 percent. Some California homeowners are paying up to 3 percent of market value on their property.

It will be up to to the California

Legislature to come up with a formu-la by which local taxing bodies such as cities, counties, school and water districts, do not collectively assess more than the 1 percent allowed. This means a homeowner with a

\$60,000 house, considered the average in California, would pay no more than \$600 a year in property taxes to all taxing bodies. Both Hill and Clements promised

immediate conferences with legislative leaders to prepare for property tax relief plans in the 1979 Texas Legislature. Hill talked briefly with Lt. Gov. Bill Hobby and Clayton Wednesday and

He said he would suggest that the Texas Legislative Council subcommittee on property taxes be given

set up a later meeting, probably next

additional authority to evaluate various types of property tax limitation

Clements said he would spell out "a tax expenditures plan" during his fall campaign against Hill.

"I will develop this plan in consul-tation with the legislative leadership whose associates must vote to put any such plan on the ballot," he said. "I will work hard to see that a constitutional amendment limiting state taxation and spending is submitted to voters of Texas."

Rep. Bob Krueger, Democratic nominee for U.S. Senate, told a news conference Wednesday in Austin that he did not know the immediate effect in Texas on the passage of Proposition 13 in California "but I believe we will see a pattern of people in other states sending that message to their legislators."

State Sen. Walter Mengden, R-Houston, who has unsuccessfully sponsored tax limitation measures in the past, promised he would have a new plan ready for the 1979 session. His past plans would limit state taxes to a designated percentage of the total economic wealth of the state.

Hill said he would offer the Legisla tive Council subcommittee the services of one of his top aides, Steve Biggerstaff, and hoped the group would come up with "some sort of tax relief without increasing any taxes." Hill said he was not prepared at this time to recommend if a "cap" or

maximum should be placed on state

and local taxation limits. Hill noted that Texaas does not have the initiative and referendum procedure that California has where citizens may petition to put an issue on the ballot and then vote directly to determine if it becomes law. In Texas all such measures must go through the legislature before reaching the "The discontent is there and the

discontent will grow stronger if we

don't try to answer it in a reasonable

way there will be trouble. There is a

tax rebellion now among property taxpayers," he said. Clements said in his statement that "the taxpayers of this country are

mad as hell. They are not going to take it any more... It is no longer enought to be in favor of economy in government. Politicians ways are at election time. It is time for a full scale holy war on taxes."

Comptroller Bob Bllock said he was unable to make an accurate estimate of the effect a Proposition 13 move would have in Texas, but it would have its greatest impact in urban areas where taxpayers are subject to high city tax levies.

Bullock estimated that ad valorem taxes in Harris and Dallas counties would be reduced by about one-half by Proposition 13 while collections in Travis, Bexar and Tarrant counties rould be reduced by a lower percent-

Rep. E. Douglas McLeod, D-Galveston, announced he would introduce legislation during the 1979 Legislature similar to Proposition 13. He said in a statement he would propose limiting property taxes to one percent of the current market value of all real prop-

If the Legislature approves, the proposed constitutional amendment will appear on the ballot next year, he

Flooding continues

By The Associated Press

already soaked Texas Panhandle

Fair skies to return

Sun worshippers may have their prayers answered. Midland should be returning to fair

skies and warm days with slight breezes, according to the weatherman with the National Weather Service at Midland Regional Airport. Fair skies and southeasterly breezes are predicted for Friday with a high temperature in the low 90s.

Low tonight should be near 60, the weatherman said. A high of 81 degrees was recorded Wednesday, making it one of the coolest highs on record, and much cooler than the record high of 106 degrees set in 1964. The overnight low was 60 degrees. The record low is 57 degrees

Only a 20 percent chance for rain will exist tonight, according to the weather service.

set in 1949.

Area towns reported clear to partly cloudy skies early today with the cool morning temperatures warming rap-

Asked about possible differences with the Council or its staff, replied, "None what-soever." He said his resignation was " resignation was "very amicable," adding, "I support their goals 1,000 percent." Selling real estate fits into his "retirement plans," Bowman said.

Six win degrees at A&M

COLLEGE STATION -Six students from Midland recently were awarded degrees during Texas A&M University's spring graduation cere-monies here.

They were John R. Ellis, summa cum laude, applied medical science; William T. Mayne, magna cum laude, civil engineering; Barry L. Moak, cum laude, zoology; Robert W. Neus-taedter, cum laude, finance; Blake P. Weissling, cum laude, geophysics, and Susan J. Wells, educational curriculum and instruction.

Houser graduated cum laude

WICHITA FALLS -Charles Lynn Mouser of Midland recently was graduated magna cum laude with a bachelor of science degree and an associate degree of applied science in electronics technology at Midwestern State University

He was among 691 students who received their degrees during the school's 55th commencement ceremonies.

Four area students make list

COMMERCE - Four Midland and area town students recently made the Deans' List for the 1978 spring semester at East Texas State University here. To qualify, students

must have earned at least a 3.25 grade point average on a 4.0 scale. They were Barbara L. Fairbanks of Midland, David Henry of Andrews, and Ronda Taylor and Kenneth S. Williamson, both of Big Spring.

Midlander

wins degree

Pkg.

DALLAS - Shelley E. Wright of Midland recently was graduated with a B.A. degree during spring commencement ceremonies at the University of Dallas.

She is the daughter of Mr. and Mrs. Fred S. Wright Jr. of 1613 N. H St. in Midland.

Hamilton wins

law degree

LEXINGTON, Va. — Scott L. Hamilton of Midland recently received a juris doctor degree from the School of Law at Washington and Lee University here.

He is the son of Mr and Mrs. Richard S. Hamilton of 3704 W. Kan-sas Ave. in Midland.

BANGKOK, Thailand — Vietnamese unwilling to stay on under the Communists are finding it more cooperatives.

'Jiggly' program under heavy fire

By BILL KAUFMAN

It's an outstanding example of what has been dubbed "jiggly" programming, and by far one of television's sexiest shows. As such, "Three's Company" has drawn criticism for its questionable taste, not to mention its mindless plots, so it's only natural that the series is among the top five shows on TV. Millions tune in their local ABC station each Tuesday night to watch a show that is based on a far-fetched storyline: For financial reasons, an unmarried man can defy most conventional social mores by sharing an apartment with two luscious,

mores by sharing an apartment with two luscious, single young women, if he makes believe he's gay. "Three's Company" probably has more double entendres per foot of videotape than any other sitcom. The trio's machinations are geared for the contemporary, more liberal-minded generation—the viewers for whom TV-titillation is increasingly

appealing.

The format is especially prevalent at ABC, where "Three's Company" and one of its sister shows (if that's the word for it), "Charlie's Angels," are high

that's the word for it), "Charlie's Angels," are high on the list of sexually provocative programing.

In fact, both shows were among a batch of eight that recently lost the advertising of Sears Roebuck. Wiley Brooks, a Sears spokesman, said that both were "potentially shows which could offend people." As far as "Three's Company" goes, Brooks said, "It's basically a one-joke show."

That one joke has consistently kept "Three's Company" ratings high. Last February, for example, it drew a bigger audience than the boxing match between Muhammad Ali and Leon Spinks on CBS, according to Nielsen ratings.

The show also has firmly established the careers of

The show also has firmly established the careers of its three title actors: John Ritter playing Jack Tripper, who shares his digs with Chrissy Snow (played by Suzanne Somers) and Janet Wood

(played by Joyce DeWitt.)
Ritter is the son of the late country-music idol and cowboy star, Tex Ritter. The show also features Norman Fell as the landlord who has more or less accepted the fact that it's okay for the fellow to

live with the two women, because he's ostensibly a homosexual.

Like a handful of other popular shows, "Three's Company" is an adaptation of a British program — Thames Television's "Man About the House." That show used the same basic plot and was one of the hottest shows on the telly.

The American version has catapulted Suzanne Somers into a celebrity status of almost Farrah-Fawcett-Majors proportions, more than likely be-cause her proportions are similar to Fawcett-Majors'. There are Somers posters hanging in locker rooms and on dormitory walls from coast to coast, and her features have been displayed on the pages of many national magazines — unclothed in a couple.

Somers' character in the show has also drawn fire

from women's-rights groups, who object to her stereotyped projection as — you guessed it — a dumb blonde who is built like a brick library.

To offset Somers' naive sexuality, the show's other starlet, Joyce DeWitt, portrays the somewhat brighter, wittier roommate.

The trio has made it clear that there will be no

hanky-panky between them in the arrangement, but the show has Ritter often dropping lecherous lines. On occasion Ritter is seen to make a half-hearted pass at one of the girls, but the audience is condi-tioned to the fact that nothing will ever come of

"John's nose is absolutely flat from all the doors we've closed on it in the whow," Somers said. DeWitt recently explained that she didn't feel that the series was all that salacious. "It's mild, far milder than 'Soap,'' she said. "I think that there's been too much of a thing made of what we're

"Our show is genuinely a reflection of the times. Things are constantly changing. We may be at a point where television didn't dare go 20 years ago, but that doesn't mean we're peddling porn, the way

some people have criticized us."

Ritter, who got married last fall, appeared on the set the day after his wedding in pajamas and a bathrobe, to point up the claim a bridegroom was entitled to spend the day after a marriage ceremony in bed, not working.

Ritter said his early years naturally were spent

listening to country music, but his comedic sense apparently was developed then, too. "When I was a kid, I sat for hours, glued to the TV set," Ritter said. "I watched Dick Van Dyke and Mary Tyler Moore. I saw every Charlie Chaplin flick available. Those people had terrific timing. They were my idols."

Agence France-Presse

LUSAKA, Zambia - Zambia's official party newspaper Wednesday described as "repugnant" and 'frightening" the setting up of a pan-African security force, and also attacked French policy in Africa.

The Times of Zambia said "plotting a strategy to bring succor to the beleaguered economy of Zaire is one thing. Trying to set up a 'security force' headed by the Western countries is quite another."

The newspaper said the frightening project of cetting up a security force "must be rengant to all

setting up a security force "must be repgnant to all Africans who cherish their hard-won independence. In critizing the United States and France, it said the two countries were "obsessed" by the interven-

tion of the Soviet Union and Cuba in Africa . "France appears to have decided on a deliberate policy of recolonization in Africa. The recent right-wing victory seems to have given President (Valery)

Giscard d'Estaing carte blanche to act as he wishes," the newspaper said.

Odessa approves downtown projects

ODESSA - Four downtown renovation projects here were approved Tuesday by the Odessa City

The projects are estimated to cost \$20.2 million and were approved to be included in the city's application for an Urban Development Action Grant (UDAG). The city is asking in the application for \$2.5 million in UDAG money. It will be used to match \$14 million from private developers and \$3.7 million from the city to remodel the downtown area.

The four projects are expansion of the Imperial Motel, owned by the Odessa Family YMCA; expansion of the Inn of the Golden West; construction of a four-phased aparment complex which would include two, three and four bedroom units, and construction of the construction of the construction of a four-phased aparment complex which would include two, three and four bedroom units, and construction of the construction of a four-phased aparment complex which would include two, three and four bedroom units, and construction of the construction of a four-phased aparment complex which would include two. The projects are estimated to cost \$20.2 million and

include two, three and four bedroom units, and con-struction of a combination professional office building and apartment units.

DEATHS

Lenorah Epley

Lenorah Epley

STANTON — Lenorah Briggs Hancock Epley, 88, former Martin County district and county clerk and a busin-esswoman here since 1919, died early Tuesday in her abstract company of-

Services were to be at 11 a.m. today in the First United Methodist Church with the Rev. Davis B. Edens, pastor,

Burial, directed by Newnie W. Ellis Funeral Home of Midland, will be in Evergreen Cemetery of Stanton. The Martin County community of

Lenorah was named after Mrs.

She was born Jan. 25, 1890, in Palouse, Wash., moved with her family to Martin County in 1896, and was married to John Franklin Epley on May 6, 1908. The couple ranched north

Mr. Epley died in 1941. Mrs. Epley was district and county clerk here from 1941 to 1946.

Survivors include two grandsons, James F. Epley of Round Rock and John E. Epley of Midland; three great-grandchildren, John V. Epley and Laura C. Epley, both of Round Rock, and M. Ryan Epley of Midland, and two sisters, Doris McCasland of Visalia, Calif., and Laura Lemieux of Redwood City. Calif. Redwood City, Calif.

Pallbearers will be Jimmy Stallings, Page Eiland, Roy Crain, Dan Saunders, Roy Pickitt and A. L.

Utah Cox

Utah Charles Cox, 49, died early Wednesday in his home at 506 S. Main St. Services are pending at Newnie W. Ellis Funeral Home.

He was born Oct. 11, 1928, in Haworth, Okla. He lived there until 1943 when he moved to California. He served in the Army during the Korean Conflict. He moved to Midland in 1953. He was a bricklayer until his retirement in 1966. He was member of the Baptist Church.

He is survived by a son, Edward Charles Cox of Los Angeles, Calif.; his parents, Mr. and Mrs. Sid Cox of Midland; a brother, Gerald Cox of Midland, and two sisters, Viola Mar-tin of Midland and Eunice Walker of Visalia, Calif.

Annie Garrett

Graveside services for Annie L. Garrett, 92, of McCamey and formerly of Midland, were held Wednesday in Fairview Cemetery. Burial was directed by Newnie W. Ellis Funeral

Mrs. Garrett, a former piano teacher, died Tuesday in a McCamey hospi-

She was born Oct. 29, 1885, in Colorado City, and moved to Midland in 1899. Her husband, Al Garrett, was a Midland businessman. The Garretts moved to McCamey in 1926. Garrett died 10 years later.

Survivors include three sons, Haley Garrett of McCamey, A.H. Garrett Jr. of Monahans and Paul Garrett of Big Spring; four daughters, Louise Dunlap of Big Spring, Annie Mae Harris of Midland, Margaret Nye of Palestine and Geraldine Hein of Poughquag, N.Y., nine grandchildren and nine great-grandchildren.

'Ed' Singleton Sr.

BIG SPRING - W.E. "Ed" Singleton Sr., 76, of Big Spring died Wednesday in a Big Spring hospital after a

Services will be at 2 p.m. Friday in Big Spring with Dr. Weldon Butler of the First United Methodist Church officiating. Burial will be in Tahoka Cemetery directed by Nalley-Pickle Funeral Home.

Singleton was born Sept. 21, 1901, in Jefferson. He moved to West Texas in 1914. He was a former mayor of O'Donnell and a member of the O'Donnell school board.

He owned and operated Singleton Hardware and Mercantile Co. in O'Donnell and was a farmer.

He married Lois D. Coston in 1954 in Lovington, N.M., and was a resident of Big Spring the past 24 years, moving here from O'Donnell. He was a Methodist. He was a member of the O'Donnell Masonic Lodge No. 1187, the Big Spring Shrine Club and the Khiva Temple of Lubbock.

Survivors include his wife, Lois Singleton; a son, W.E. "Bill" Singleton Jr. of Zapata; a daughter, Marie Louise Strech of San Antonio; a brother, Sam Singleton of Lamesa; two sisters, Ethel Hoffman of Albuquerque, N.M. and Mrs. Mate Kelly Lee of Marlo, Okla.; four grandchildren, and threeTgreat-grandchildren.

Mrs. Bill Keith

EASTLAND - Sandra Ellen Keith, 34, a native of Crane, died Wednesday at her residence in Eastland following

a lengthy illness. Services will be at 3: 30 p.m. Friday in Baker Funeral Home here with Ernie Christie, pastor of the Daugherty Street Church of Christ officiating, assisted by Gary Adams of Cisco. Burial will be in Eastland Cemetery.

Mrs. Keith was born July 3, 1943, in Crane. She was graduated from East-land High School in 1961. She married Bill Keith March 16, 1963, in Merkel. She was a resident of Abilene for 13 years, moving back to Eastland in

Survivors include her husband; her parents, Mr. and Mrs. George T. Pogue of Eastland; a son, Mike Keith of the home; three daughters, Julie Keith, Kay Keith and Michelle Keith, all of the home; a brother, Vernon Pogue of Merced, Calif.; a sister, Patsy Holt of Midland; her grandmother, Bridgette Aaron of Seminole, two aunts and an uncle.

Bessie Bridges

LEVELLAND - Services for Bessie Bridges, 69, of Levelland, mother of Jackie Bridges of Andrews, were to be at 2 p.m. today in Smith Funeral Billy Ray Brummett, pastor of First Assembly of God Church.

Burial was to follow in the Levelland Cemetery.

Mrs. Bridges died Tuesday in a Levelland hospital after a brief illness. She was a native of Kaufman County and had lived in Hockley County 31

Survivors include her husband, two daughters, two other sons, 16 grandchildren and seven great-grandchil-

Police arrest 17-year-old man

Police Wednesday afternoon ar-rested a 17-year-old Midland man for alleged burglary of a residence and burglary of an automobile, in connection with the burglary of a mail truck earlier Wednesday.

Employees of the Graves Station of the U.S. Post Office Wednesday told

police a man had approached a mail vehicle parked on Parkdale Drive between Leisure and Wilshire drives. While the postman made deliveries. the employees said, the man lowered an unlocked window in the mail vehicle, reached in and removed an unknown quantity of mail. He then

got into a pickup and left, they said.

Later Wednesday, officer Ronnie
Wilson stopped a vehicle matching
the description of the pickup. Wilson later said he saw some mail on the floorboard of the pickup. Further search revealed what police said they believed to be the stolen mail.

While searching the pickup, officers said, they also found a 16-gauge shot-gun, two 20-gauge shotguns, a 12-gauge shotgun and a 357-magnum pistol under a blanket in the back of the pickup. The man driving the pickup reportedly told police the firearms had been loaned to him by David Shanks and that they belonged to Shanks' brother, Carl Shanks.

Carl Shanks, when notified, identified the weapons, which were valued at \$1,640, police said. Officers said a bedroom door had been kicked in at the Shanks' residence in the 3300 block of Cimarron Drive and a gun cabinet had been broken into.

Girl treated after crash

A 16-year-old Midland girl was treated Wednesday at Midland Memorial Hospital and released following a traffic accident involving a Midland Police Department car driven by Maj. Michael Sidney Corley.

Corley is assistant police chief for the Midland Police Department. Police said a vehicle driven by Susan Ethlene Huggins of Box 1214 was stopped at a stop sign at the intersection of Neely Avenue and Garfield Street. The police car driven by Corley was northbound on Gar-

field, using emergency lights and siren, officers said. The two vehicles collided at the

Corley was en route to the scene of an armed robbery, police said.

Midland Airport boardings expected near 400,000 this year, says Banks

Progress made to date in the tremendous expansion and remodeling program under way at Midland Regional Airport was reviewed for members of the Downtown Lions Club at their Wednesday noon meeting in the Midland

The speaker was Col. Wilson Banks, director of aviation for the City of Midland, who also told of some of the many and varied problems encountered in attempting to operate a busy airport in the midst of such a construction program

Banks, who was introduced by Fred Baker, reviewed briefly the numerous improvements which have been made at the airport since 1972; described what is going on now, and mentioned plans for the future. He said that approximately \$20 million have been spent in capital improvements at the facility in recent years.

In speaking of future plans, beyond the present project, Banks, a retired Air Force colonel, said that in all of his more than 30 years in aviation, "I have never seen a completed air-

The extensive runway paving project at the airport was finished last year, the speaker said, with the main ramp paving project now under way, along with the terminal building and parking lot projects.

Banks said boardings at the airport last year soared to 340,000, an increase of almost 50 percent over 1976. He expects the figure to be in the neighborhood of 400,000 this year. Boardings last month exceeded 37,000, a record high.

'Yet with all of this increased activity, we still must try to operate with the least inconvenience possible to airport users," Banks said. "But it isn't easy — for us or for the customers."

He expressed appreciation to all patrons of the facility for their patience and understanding during the period of construction, adding that 98 or 99 percent of the people understand the problem "and are nice

"We don't like to issue tickets or to tow cars away," the airport executive explained, "but we have to have some regulations in order to maintain a semblance of order under difficult circumstances.

Banks lauded the Federal Aviation

cooperation in working with the city to provide a first-class airport here. He said the agency has approved "everything we have asked for in the way of essential improvements."

In discussing the terminal and parking lot construction projects, Banks said several expansions (parking facility, baggage claim area and others) have been authorized since construction was started. He said these have been made necessary by increased activities at the airport.

He said completion date is set for March 1979, "but if we keep adding to, who knows.'

The new baggage claim area may be open for use within six weeks or so,

he said, with the parking lot com-

pletion date set for November. Banks also told of the numerous improvements made at Midland Air

Park, while stressing the importance of general aviation to the city and

MOSCOW (AP) — The Soviet Union, in an unusually speedy response to President Carter's foreign policy speech, attacked U.S. policies in Africa and accused Washington and NATO of trying to be "global policemen." said. Con years to preside the control of the contr ist government which the Soviet Union and Cuba suppport. But Zaire President Mobutu Sese

The first Soviet answer to Carter was given in a Tass, the Soviet news agency, a few hours after the president spoke Wednesday at the U.S. Naval Academy.

Speaking of Soviet and Cuban military support for revolutionary forces in Africa, Carter said: "All too often they seem ready to exploit any ... opportunity" to promote instability. Tass said this "put the blame at the wrong door" for Africa's current conflicts.

"The USA, jointly with some other NATO countries, is intervening in Zaire by using the ser-vices of the ruling circles of those African states which follow in the wake of neocolonialist policy," the Soviet dispatch con-

This was a reference to the troops from Morocco, Senegal and Gabon which the U.S. Air Force is flying to Zaire to bol-ster the army of Presi-dent Mobutu Sese Seko.

Tass also accused Carter of giving a false picture of the situation in Angola when he charged that the Soviet Union was using Cuban "proxy

forces" there.
"The president assured that Washington wanted a peaceful settle-ment in Angola although it was precisely the USA that is known to have supported and supplied disruptive groupings in that country," Tass

West Texas Swim Meet opens Friday

The 2nd annual Allison Swimming Meet gets underway Friday at Alamo Pool.

Bullets end frustrations by winning title, 105-99

SEATTLE (AP) — Finally, Wes Unseld can look in the mirror and see the face of a champion.

various

995

"I don't know how I'm supposed to act," Washington's veteran center said with a sideburn-to-sideburn smile and a shrug of his massive shoulders following the Bullets' thrilling 105-99 victory over the Seattle SuperSonics Wednesday night in the deciding game of the National Basketball Association championship se-

The triumph before a disappointed capacity crowd of 14,098 at the Seattle Center Coliseum ended 10 years of playoff frustration for the Bullets, the only team to make the NBA playoffs every year in the past decade.

And Unseld has been a Bullet each

of those 10 years.
"This is the first time for me on this

side," said the 6-foot-7, 245-pound Unseld, who was voted the Most Valuable Player in the championship series that went the limit, creating a winner-take-all situation in the seventh game to determine the league

UNSELD. WHO scored 15 points and sank two big free throws in the final two minutes, twice before had been to the finals with Washington only to lose in four straight games -

to Milwaukee in 1971 and to Golden State in 1975.

"This is really something nice," the 10-year veteran from Louisville said of the first championship in Washington's 17-year history. "We've all waited a long time for this day." The loss put a damper on an incredi-

ble season for the Sonics, who got off to a disastrous 5-17 start but turned around under the guidance of Coach Lenny Wilkens and came within one game of the coveted championship. "The players never gave up," said

Wilkens. "A couple of breaks one way or the other and we could have gotten closer. I was proud of the team. We were in it until the end. We didn't give it away.

Guard Charles Johnson and forward Bobby Dandridge led the Bullets' victory in the title game with 19 points apiece. But it was a threepoint play by second-year reserve forward Mitch Kupchak and Unseld's free throws that cooled a Seattle rally in the final, frantic minutes.

The Sonics, who shot just 39 percent for the game to Washington's 45 percent, trailed 79-66 after three periods Seattle closed to within 98-94 in the final two minutes before Kupchak hit a three-point play with 1:30 to go.

FRED BROWN sank a free throw

and hit a bank shot and Paul Silas hit a layup to bring the Sonics to within 101-99 with 18 seconds on the clock. But six seconds later, Unseld sank two free throws to clinch the victory that ended, once and for all, the Bullets' status as the NBA's perennial

"I was just standing there and the ball bounced through (Seattle center Marvin) Webster's legs," said Kup-chak, who grabbed the loose ball in a crowd of Sonic players under the bas-ket. "I just laid it in."

"That was a big play for Washington," said Wilkens. "It was a super play on Kupchak's part. Things were going well until then.'

Then, with 12 seconds left and the Bullets ahead by two points, Unseld was fouled intentionally and had three chances to make two at the free throw line. He missed the first but made the next two.

"I just stand up there and shoot and hope they go in," said Unseld. "The Fat Lady is singing for us

tonight," said Bullets Coach Dick Motta in the noisy Washington locker

League rivals.

lets' battle cry has been, "The Opera Ain't Over 'til the Fat Lady Sings." Motta picked up the slogan from a San Antonio sportscaster because he felt its never-say-die sentiment fit his

team perfectly.

THE BULLETS had avoided elimination on Sunday when they routed the Sonics 117-82 at Landover, Md., to even the series at three victories apiece. And then they won the biggest game of all - on the road Wednesday

night.
"This team never gave up," said Motta. "I'm so proud of them. Nobody expected us to go this far, but here we are - NBA champions. Motta also praised the losing

"These are two very fine basketball teama," he said. "It's too bad one had to lose, but I'm glad we were not the

"No one except those involved knew how far we came," said Wilkens, "A lot of people around the country looked past us, even when we were winning. We proved to them we are a good ball club.

night and you have to give them credit for the championship."

"There's no reason for anybody to hang their heads," said Sonics guard Gus Williams. "We had a great season, one we can be proud of. Washing-ton beat us tonight but that's nothing to be ashamed of. They're a good team and so are we.'

Hayes, who scored 12 points before fouling out with 8:05 on the clock and Washington ahead 85-74, won his first championship ring in 10 seasons.
"I knew all the time we were going

to win it," said Hayes, hoisting the championship trophy above his head. "We just got the lead, the composure was there tonight and it was our game all the way.

"THIS IS the greatest. There's nothing like it in the world. There's nothing like this team in the world. We're the world champions."

Silas said when Hayes fouled out the Bullets seemed to play harder.
"I think it kind of charged them a little," said Silas. "It charged up Mitch. I'm happy for them. I thought when we got it to two (points), we'd be okay. Our only hope was fouling Wes

and the big guy came through." Webster, Seattle's 7-1 center, played his best game of the series, scoring 27 points and hauling down 19

"I think it was a case tonight that we just didn't play very well," said Webster. "They hit every crucial shot they had. They hit some shots when time was running out. What can you

This year's Allison meet to highlight international talent

By TERRY WILLIAMSON

The Allison West Texas Invitational Swim meet will kick off a three day run at the Alamo pool Friday at 9 a.m. when over 400 of the top age group and senior swimmers from across the United States and Mexico take to the

The meet will run through Sunday and prelimaries will begin each day at 9 a.m. with finals slated for 6 p.m. daily. The meet is open to the pub-

The meet will offer Midlanders a chance to see many swimmers who will be competing for Olympic berths in 1980, and future Olympic hopefuls.

The strongest division in the field will be in the senior boys competition since the Texas Swimming Circuit attends for the first time. The Dr. Pepper Swim Club of Dallas, made up mostly of SMU swimmers, should be the strongest team in the field. Major competition will be added by the El Monte Swim Club of California and the powerful Dad's Club of Houston.

BILL GLASSTETTER, a Dr. Pepper entry who recently swam for SMU in a duel meet against the Russians in Austin, leads the way while team-mates Kim Davis and Billy Redinger. Dad's Club will feature Kyle Ditzler, a student at the University of Ala-bama who was a finalist in the NCAA meet this year. Marshall Shoemaker is another Alabama swimmer in the field for the Houston team and Jimmy Chapman is a Texas state champion high schooler.

The City of Midland Swim Team will also have some fire power from Brad Swendig, an Auburn University national finalist in the NCAA meet who has been Midland's most successful senior swimmer. Bob Franz, who won the 50 freestyle state championship for Midland Lee, is also a COM member as is James Brown, who will

be strong in the sprints.

The Mexican National Team will also have Jose Urueta, a University of Texas at Arlington product, and Mario Santiesteban. The Wichita Swim Club features Brad Wells, Mike Tammney and Brian Singleton, all top swimmers, and David Hall of the Jefferson City Swim Club is another top swimmer. Some national cords might be in store from this division.

THE SENIOR girls division will also be very strong as the Dad's Club and Mexican National teams bring a lot of fire power. Dad's Club features Sarah Irwin, a national finalist, along with Laura Dockerty and Monica Pope. Topeka, Kan., star Kim York, another national finalist is also in the field. SMU swimmers Beth Lutz and Martina Bebin will also represent the Dr. Pepper squad. The Mexican Nationals will feature two fine swimmers in Martha Espinoza and Mar-gurita Arreguin. This division will also be the strongest field in the girls compeition.

The age group competition will also have the top swimmers from two

In the boys 13-14 age group, the Dallas Swim Club will feature Mike Heath, a holder of several 12-year-old national records. Pat Nitsch of Dad's Club is also a holder of nationa records in the 12-year-old division. The Dad's Club and Nashville, Tenn... will be strong in this division team-

wise.
The El Monte girls look strong in the 13-14 girls division. They were third overall in the nation a year ago. Jodi Sterkel, sister of gold and silver medal winner Jill Sterkel, leads the El Monte team, but there is also Michelle Hampton and Linda White. COM will have Carrie Mays and Emily Murrah in this division, both strong in the breast stroke compei-tion. Mays is also a good IM swim-

J. D. TUCKER of the Dallas Swim Club is by far the most outstanding entry in the 11-12 boys age group. Tucker is the state age group champion, and a holder of two national records. COM coach Doug Ingram thinks that national records are pos-

SPORTS

sible from Tucker in this meet. COM will also have Andy Williams in the back stroke and freestyle competi-

tions as a strong entry.

The 11-12 girls will feature a strong team race with four or five teams capable of winning top honors. Jessica Hall of Dallas, Monica Ramirez of the Mexican National Team and Genny Honhne of El Monte are the feature swimmers.

The boys 10-Under competition will feature top 10 swimmers Robert Genc of Aneheim, Calif., and G. Dunwoody and T. Brink of Houston's Dad's Club. The El Monte girls will be strong in this division also with Wendy Bullick, Lori Horne and Stacye Albanese, all top 10 swimmers in the nation.

COM HAS one big strike against them in this meet, however. Gretchen Koch, who is yearly a top 10 swimmer in the nation, will miss the meet. She is in California, and will not be back in time to compete. "That really hurts because she is worth 50 points in any

meet," coach Ingram said.

The format for this year's meet is entirely new to United States swimming. Swimming at the National level requires extensive team travel and substantial expense. This year the Fred M. Allison contribution toward these expenses will be divided on the basis of team standing at the conclusion of the meet. First place will receive \$4,000 to be placed in the team's travel fund while second place will receive \$2,000 and third place \$1,000. The top eight teams will re-ceive lesser contributions.

It is easy to see that this type of competition drew the best swimmers around. Now for the assualt on the record book. It will probably be competely rewritten.

Nitz blanks Sports, 1-0

By The Associated Press Rick Nitz pitched a three-hitter and Kelly Snider and Myron White provided the offensive power Wednesday night as San Antonio took a 1-0 Texas League baseball victory over Shreve-

In other Texas League action. Tulsa and El Paso split a doubleheader with Tulsa winning the first 3-1 and El Paso taking the second, 5-3; Jackson shut out Midland, 4-0, and Arkansas

edged Amarillo, 4-2.

Nitz gave up only three hits before leaving the game with two out in the ninth. Relief pitcher Dave Patterson, who got the final out, picked up his 14th save of the season. Nitz is now 4-3. Randy Tate, now 0-3, took the

Terry Keenan gave up only four hits as Tulsa took the open-er from El Paso, 3-1. Tulsa's Marty Scott and Brian Nakomoto each homered for Tulsa.

El Paso's Steve Eddy turned the tables on Tulsa in the nightcap, giving up only four hits as he pitched El Paso to a 5-3 vic-

Allen mesmerizes Cubs as Mets post 4-0 win

By TED BATTLES

If Neill Allen hadn't signed a pro baseball contract, he'd probably be playing quarterback at Oklahoma, Ohio State or Kansas State. As far as the Midland Cubs are concerned, Allen made a lousy choice.

Midland had just finished going 0for-the-season against the second year pro from Kansas City after he mesmerized Cubs' batters, 4-0, on six hits Wednesday night at Cubs Sta-

COMBINED WITH his 5-0 win over Midland at Jackson a couple of weeks ago, that gave him 18 shutout innings against Midland this year and Wednesday was the last look the Cubs will get at him this season, a revelation that brings a collective sigh of relief.

The win was the fourth of the year for Allen, who relies soley on heat.
"I wanted to learn how to throw the

slider," Allen confessed, "but Bill Monbouquette (the Mets' pitching coach) told me he'd break my arm off and beat me with it if he ever caught me messing with a slider."

Allen added he wasn't necessarily a one-pitch man, "Last year at Lynch-

burg, Jack Acker, our minor league pitching coach, showed me how to throw the change up and they let me throw it when I'm way ahead. Maybe you noticed but I throw it without a follow-through, so I can take something off it. Tonight I threw one to Randall (Aaron) and I thought I had made a mistake. I could just see him waiting to kill it." Fortunately for Allen, he didn't get a good piece of

ALLEN WAS asked about those six losses on his record, by a disbelieving

reporter.
"Well, there was 1-0, 1-0, 2-0 and I think a 3-2 and 2-1. In the other game I

Player dismissed

ATHENS, Ga. (AP) — Steve Rogers, who started two games at quarterback last season for the University of Georgia, has been dismissed from the team for the coming season for disciplinary reasons, Head Coach Vince Dooley announced

Dooley would not elaborate. Rogers was a backup quarterback to Jeff Pyburn last season and was moved to the defensive backfield this past spring.

just got bombed by Arkansas."
Although recruited by the Universi-

ty of Oklahoma and Ohio State, Allen says he was leaning toward Kansas State, "Because they told me I could start as a freshman. I really planned to sign and a week before the baseball draft in 1976, Oakland and Baltimore contacted me and I told them of my intentions. I hadn't even talked to the Mets and they picked me in the eleventh round.

"Despite my intentions, when you offer an 18-year-old kid a big bonus, it's a temptation. Besides my dad is blind and I thought I could help the family by playing pro ball. Still, I miss my football."

ALLEN WAS well below his usual strikeout pace, whiffing just five to raise his season's total to 84 in 82 innings. But he got a big on Jimmy Buckner in the third with runners the bases loaded and no one out.

"I just held my breath on that ball Buckner hit to right in the first, I thought it might be out. Then, in the third I got a fast ball by him. He didn't complain. He just left the plate cussing and I told him I owed him one." He got out of the jam by feeding Greg Keatley a double play ball. In

fact the Mets backed him up with four The final one, after a walk and single by Javier Fierro ended the game and tied the record for most double plays in a Texas League game

beefed-up police detail were assigned outside the Coliseum. But the disappointed fans were as sane and collected after the game as spectators at an auto show, boat show or garden display.
"I have no plans now," shrugged
Adrian Moroles, 27, of Seattle. He held

a green and yellow sign reading "Go Sonics" at his side, about knee-level. He had shaken it high over his head in expectation and excitement throughout the game. Four of his relatives who traveled

in from Yakima to help celebrate the hoped-for victory "probably will go right home," he said. His t-shirt read "Sonics - the Best

in the West," and Moroles said, "They can't take that away from us," referring to the Sonics' West Division championship.
Sam Schulman, the short, tense
Sonics owner, leaped to his feet sever-

al times during the game moaning about foul calls against his players. But he refused to be dismayed after

"The SuperSonics are a super team and it was a super year. Next year

Police reported the Coliseum area of Seattle quiet in defeat. The only ruckus was pretty ordinary — six kids who used a coat hangar to pry open a door to sneak into the championship game were ushered out.

Eagles release veteran lineman

PHILADELPHIA (AP) - Veteran defensive lineman Art Thoms was released by the Philadelphia Eagles Wednesday, and three other players were signed, the National Football League team said.

Thoms, 31, was acquired in the 1977 preseason from the Oakland Raiders for a seventh-round choice in the recent NFL draft. He had been the Raiders' first-round pick out of Syracuse in 1969.

Free agent punter Mitch Hoope who had previous experience with Dallas, San Diego and St. Louis, was signed, as were rookies Billy Campfield and Charles Williams.

Van Horn paces final statistics

Craig Van Horn led the way during the baseball season for the Robert E. Lee Rebels, state quarterfinalists, as the senior hit the ball at a .410 clip in

Van Horn, District 5-4A's Most Valuable Player, not only wound up htting .410, but also led the team in runs-batted-in with 30. The 170pounder, wound up hitting .391 in the district and had a mound record of 5-0 in walking 32 while striking out 36 in

While Van Horn hit .410, teammates Richard Josefy and Tyler Alcorn also hit well on the year with averages of A63 and .400, resectivley. Alcorn will return again next season along with Clay Calhoun, John White, Terry Willis, Steve Pitts, Mark Denny and Lee Johnson, Johnson, actually, was brought up from the junior varsity which finished 14-4 and didn't get in any playing time on the varsity

any playing time on the varsity.

Lee wound up hitting .337 as a team on the season in racking up a 26-11 record which included bi-district and regional victories over Wichita Falls and Arlington Sam Houston. The Rebs also beat Lubbock Monterey, 6-4, in the opening round of the quarterfinals series, but dropped a pair to the Plainsmen in Lubbock by scores of 5-4 amnd 7-6.
Centerfielder Pat Moore, who hit

the ball at a .451 clip in district play, winds up hitting .378 on the year followed by Calhoun's .359 average and a .352 mark by Todd Clements and a .350 average by White. Next came Doug Schmidt with a .310 mark, giving the Tall City team plenty of sock at the plate.

State meet opens today

AUSTIN - Lubbock Monterey (32-5), takes on Corpus Christi Moody (29-5) in the opening round of the Class AAAA state baseball tournament today at 9 p.m. In the other semifinal battle, Duncanville (34-4) battles Houston Bellaire (36-8) in the 7 p.m. game with the winners playing for the state championship at 9 p.m. Friday at beautiful Disch-Falk Field which has artificial turf.

Monterey and Duncanville are the two seeded teams in the tourney. The Plainsmen last won the state title in 1974 and also won it in 1972 while Duncanville's Panthers won state crowns in 1975 and 1976 and were state runnerup last year to Houston Sharpstown. The Pan-thers are playing in their fourth consecutive state tournament.

In Class AAA semifinals today, Mount Pleasant (24-4), takes on Brazosport of Freeport (27-6) at 1 p.m. and Jasper (29-6), battles Burkburnett (20-10) in the 3 p.m. contest. The AAA state championship will be at 7

p.m. on Friday.

Duncanville is led by Leland
Creel who is hitting .431 on the
year and has a mound record of
13-1 while Ron Reevs (15-1), is
the mound ace for Monterey.
The top hitter for the Plainsmen is Eric Voyles with a .408 average. Top gun for Moody is Bill Griffin with a robust .483 aver-age while Bellaire's attack is led by shortstop Rick Roberts with a .325 average, but the news is the Cardinals' pitching ace Johnny Moses who is 16-2 on the year. The senior righthander has struck out 236 batters in 133 innings, averaging more than 16 strikeouts per game.

Southern Cal nips Tar Heels in World Series

College World Series Wednesday night.
The powerful Trojans, top-ranked in the nation and unbeaten in the series, could not solve Tar Heel pitcher Greg Norris. Southern Cal capitalized on two passed balls and a wild pitch in scoring their runs in the last two innings.

six hits to lead the Sun Devils to an 11-3 victory over Miami of Florida, and to a showdown with the

the series because of a sprained ankle, struck out six

hitting Trojans at bay through seven innings. The underdog Tar Heels, sent home with a 38-17 record by the loss, gave USC its toughest game thus far in the series. Norris struck out five USC batters and

game-winning run. North Carolina took a 1-0 lead in the first inning, when Mike Fox led off with a single and was doubled

home by Roy Clark.

The Trojans, 53-9, tied the game in the eighth, capitalizing on two passed balls by North Carolina catcher Lloyd Brewer.

Doug Stokke walked to open the inning and went to second on a passed ball. Chris Smith singled Stokke to third and Stokke came home on a fielder's choice, with Smith moving to third. Smith scored on Brewer's second passed ball of the inning, setting the stage for Wells' sacrifice fly in the Tninth.

in the West," and Moroles said, "They can't take that away from us," referring to the Sonics' West Division championship.

Sam Schulman, the short, tense Sonics owner, leaped to his feet several times during the game moaning about foul calls against his players. But he refused to be dismayed after

"The SuperSonics are a super team and it was a super year. Next year Police reported the Coliseum area

of Seattle quiet in defeat. The only ruckus was pretty ordinary - six kids who used a coat hangar to pry open a door to sneak into the championship game were ushered out.

Eagles release veteran lineman

PHILADELPHIA (AP) — Veteran defensive lineman Art Thoms was released by the Philadelphia Eagles Wednesday, and three other players were signed, the National Football League team said.

Thoms, 31, was acquired in the 1977 preseason from the Oakland Raiders for a seventh-round choice in the recent NFL draft. He had been the Raiders' first-round pick out of Syracuse in 1969.

Free agent punter Mitch Hoopes, who had previous experience with Dallas, San Diego and St. Louis, was signed, as were rookies Billy Campfield and Charles Williams.

Golf Tournament. Singletary shot a 73 Wednesday to Singletary's two day total of 142 go with a first round 69 which helped Van Horn paces

final statistics

Craig Van Horn led the way during the baseball season for the Robert E. Lee Rebels, state quarterfinalists, as the senior hit the ball at a .410 clip in

37 games. Van Horn, District 5-4A's Most Valuable Player, not only wound up htting .410, but also led the team in runs-batted-in with 30. The 170pounder, wound up hitting .391 in the district and had a mound record of 5-0 in walking 32 while striking out 36 in

While Van Horn hit .410, teammates Richard Josefy and Tyler Alcorn also hit well on the year with averages of .403 and .400, resectivley. Alcorn will return again next season along with Clay Calhoun, John White, Terry Willis, Steve Pitts, Mark Denny and Lee Johnson, Johnson, actually, was brought up from the junior varsity which finished 14-4 and didn't get in any playing time on the varsity.

Lee wound up hitting .337 as a team on the season in racking up a 26-11 record which included bi-district and regional victories over Wichita Falls and Arlington Sam Houston. The Rebs also beat Lubbock Monterey, 6-4, in the opening round of the quar-terfinals series, but dropped a pair to the Plainsmen in Lubbock by scores of 5-4 amnd 7-6.

Centerfielder Pat Moore, who hit the ball at a .451 clip in district play, winds up hitting .378 on the year followed by Calhoun's .359 average and a .352 mark by Todd Clements and a .350 average by White. Next came Doug Schmidt with a .310 mark, giving the Tall City team plenty of sock at the plate.

Southern Cal nips Tar Heels in World Series

OMAHA, Neb. (AP) - John Wells' sacrifice fly in the top of the ninth broke a 2-2 tie and gave Southern California a 3-2 come-from-behind victory over North Carolina in a magnificent pitching duel in the College World Series Wednesday night.

The powerful Trojans, top-ranked in the nation and unbeaten in the series, could not solve Tar Heel pitcher Greg Norris. Southern Cal capitalized on two passed balls and a wild pitch in scoring their runs in the last two innings.

Earlier, Arizona State's Casey Lindsey scattered six hits to lead the Sun Devils to an 11-3 victory over Miami of Florida, and to a showdown with the Trojans tonight.

Trojan Jeff Wick, 2-0, relieved a tiring Ernie Mauritson in the top of the eighth to earn the victory. Mauritson, who hadn't pitched for a month before the series because of a sprained ankle, struck out six Tar Heels in his seven innings of work.

Norris, 14-2, and an All-American, kept the hardhitting Trojans at bay through seven innings. The underdog Tar Heels, sent home with a 38-17 record by the loss, gave USC its toughest game thus far in the series. Norris struck out five USC batters and walked four. With the score tied 2-2 in the ninth, Larry Fobbs

and came home on Wells' sacrifice fly with the game-winning run. North Carolina took a 1-0 lead in the first inning, when Mike Fox led off with a single and was doubled

singled, went to second on a wild pitch, stole third

home by Roy Clark. The Tar Heels got their second run in the sixth on a lead-off triple by Cbark, and a single by Jim Atkin-

The Trojans, 53-9, tied the game in the eighth, capitalizing on two passed balls by North Carolina catcher Lloyd Brewer.

Doug Stokke walked to open the inning and went to second on a passed ball. Chris Smith singled Stokke to third and Stokke came home on a fielder's choice, with Smith moving to third. Smith scored on Brewer's second passed ball of the inning, setting the stage for Wells' sacrifice fly in the Tninth.

PGA tour sees course mark set

YMCA day camp opens first summer session

By JOYCE CRAWFORD

Just about everyone has a daycamp memory stored way back in a closet of the mind, a closet which rarely gets opened except when the summer sun grows hot and hoards of children are seen waiting for the buses to take them to camp.

The Midland YMCA opened its first session of Camp Chaparral Monday at Cole Park. Yet plans for the five sessions of summer camp have been under way for quite a while, according to Craig Reynolds, community program director of the Central Y and director of Camp Chaparral. He said camp officials have learned a lot from year to year about which programs are good and thus should be continued the next summer.

Some of the planning the director must cover includes filing for a license, setting the goals, intervewing and hiring the staff and in general making sure everything is ready to go before that first day of camp, said Reynolds. He said an important aspect is the staff.

"I hire a staff I feel can accomplish the camp goals," he said. The goals cover a wide spectrum and include making sure the campers have good time, are taught to share keep their minds and bodies active and to do this through the Christian principals of the Y, explained Reynolds.

'We have a tremendous group and I think it is a good indicator that some of the staff has returned from last year," he said. "We complement each other; what one person doesn't know another one does.

Each staff member undergoes a week of training prior to the beginning of camp. During this time the entire staff is trained or retrained in emergency medical proceedures, camp goals and even in how to relate with the campers.

"They are taught to detect which kid is a leader and how to react to this," Reynolds said. "The focus is on the positive. Instead of reprimanding a camper who is behaving badly, the counselor is taught to praise the camper who is doing the job right. This way they (the campers) will

learn through positive enforce-

A problem Reynolds said often occurs at camp is that a counselor thinks the good camper is the quiet camper, but that is not always the case. He said that often the quiet camper is in need of special attention and is overlooked because he is

Camp Chaparral is trying to help this problem by keeping the number of campers per counselor to a workable number. Reynolds said generally tries to keep the enrollment at 35 campers to a session, but that he has 53 participating in the current camp.

The way the program is set up, each counselor is in charge of a group of campers for the entire session. The staff can handle a group of ten, but one to seven is a good figure, he

"By having the counselor stay with the same group of kids all day, all week they can get to know each other better than if they were sent from counselor to counselor," Reynolds said. "The idea is to develop a companionship-type thing and to get to know the kids. Even after a week, we don't know them as well as we want to or would like to."

The theme of Camp Chaparral is different every session and each camper is grouped according to age because, as Reynolds said, their needs and abilities are different. Each group takes the name of an Indian tribe or some other name they want and that is that group's

throughout the session. The camp day begins at 8:00 a.m. when the bus picks up the first group of campers and ends about 4:30 p.m. when they are dropped off. The starting time for each camper will vary according to the bus schedule, said Reynolds. He said that transportation is a number one problem for some families and that is why the Y supplies the bus as an alternative.

Activities begin as upon arrival at the campsite. There is a unit time for each tribe and then they move on to the scheduled activities such as riflery, archery, nature lore and camp crafts. Reynolds said these were only some of the activities. Each session also has a special in-town activity planned, and new this year is a day of horseback riding. The day ends with swimming at the Central Y's pool.

The staff consists of Catherine Hennesey, assistant director; Kelly Glenn, senior counselor, returned from last summer; Marita Mercurio, senior counselor; Scott Stoval, junior counselor; and Jim LaFontaine, junior counselor, also returned from last summer. Each has receivedtraining so he or she will be able to teach every activity, Reynolds said. The only area treated differently is the horseback riding, which is taught and supervised by Jeanie Roper, the owner of the horses.

Reynolds is looking forward to a good summer at Camp Chaparrel. We have a positive approach," he said. "For example, we try to let the kids establish the rules. We know what the rules are, but by letting them contribute they are more likely to follow them and that way more time is spent having fun."

'Lights out' policy cuts vandalism, saves money

ation

/ind-

WASHINGTON (AP) - Rep. Jack Brinkley can make a statement no other House member can: The Georgia Democrat is President Carter's congressman.

Early last year, three friends made an all-in-fun presentation to the 47-year-old Brinkley. Their gift was a pad of "Carter's Ink" and a rubber

stamp that reads: "Automatic 'Yes' Vote - Jack Brinkley - the President's Congress-

Bestowing the unique gift were three men who had numbered earlier presidents among their constituents — Reps. J. J. "Jake" Pickle, D-Texas, (Lyndon B. Johnson); Elford A. Cederberg, R-Mich.; (Gerald R. Ford), and former Rep. William Ran-

dall, D-Mo., (Harry Truman).

Adding a bit of spice to their joke, the trio told Brinkley they had waited 30 days after Carter's inauguration to make the presentation because it took Brinkley that long to cast a vote in the president's favor.

It's true that Brinkley, a former Columbus, Ga. lawyer, does not cast an automatic "yes" vote for adminis-tration legislation.

For example, he voted against scrapping the B-1 bomber, against creating a consumer protection agency, against last year's common situs picketing bill, and for building more

nuclear-powered aircraft carriers.

Two of these votes may have been influenced by the fact that military activity looms large in Brinkley's district, the home of Fort Benning.

his votes, which tend to be markedly more conservative than Carter's positions, are dictated by his conscience and by sentiment among "the people

who sent me" to Congress. At the same time, he said, "I try to cooperate with the president, whoever he is, because you'll have plenty of opportunities to do otherwise."

As evidence of his desire to help Carter, Brinkley noted he is due to become dean of Georgia's House delegation next year, upon the retirement

of Democrat John J. Flynt, Jr. Once that happens, Brinkley reported, he plans to convene regular delegation meetings in an effort to promote unity and "let Carter know we can be helpful."

He talked hopefully about Georgia's House Democrats gaining "input into the decision-making process.'

If Carter had run for Congress in 1966, as he once planned, Brinkley might still be practicing law in Columbus and Carter might well have destroyed any chance of becoming

But Carter, having prepared for that 1966 House race, changed his mind and ran for governor instead. So Brinkley, then a member of the Georgia House (Carter was a state senator), stepped into the void and has been in Congress ever since.

Which served Carter's larger ambitions just fine. As the latest "Almanac of American Politics" assessed the

"Brinkley's lopsidedly conserva-

tive voting record is probably similar

representing this district and wishing to be re-elected; and such a record would have disqualified him ... from the 1976 Democratic presidential nomination."

Brinkley guesses he sees Carter "a

But the 12-year House veteran isn't nearly as chummy with Carter as was Pickle with his constituent, LBJ. Much as Pickle misses his old friend and mentor, he told a reporter at a party he does not miss being identified as the president's congress-

little more than the average member." He visited the White House to argue against scrapping the B-1 and to attend a picnic on the lawn. He also flew to Georgia with the president aboard a flying military command

returned to the reporter and announced: "I just met a lady across the room who introduced me as 'Lady Bird's congressman!"" Air pollution meet scheduled June 22

By Austin Bureau

AUSTIN - Meetings have been scheduled around the state, including a June 22 session in Odessa, to allow members of the public to comment on what they feel should be the state's strategy for combatting the air pollu-

Information gathered at the 16 public hearings will be used in development of a "State Implementation Plan" by the Texas Air Control

That revised plan must be submitted to the Environmental Protection Agency by Jan. 1 for review. Failure to meet that deadline, or to have the plan approved by EPA by July 1, 1979, would result in several penalties being imposed against the state in-cluding a prohibition against the construction of any major industrial facility in the polluted areas of the state, a withholding of federal highway construction monies and a cutoff of federal grant monies for sewage treatment plant construction.

Among the issues which will be discussed at the public hearings are: the federal requirement for mandatory inspection and maintenance of motor vehicle emission systems in certain areas of the state, the need for transportation planning, alternatives to the controversial "emissions offset policy" as means of reducing pollution in certain areas, and the kind of pollution controls which should be applied in "clean areas" to retain that

That June 22 sessions will begin at 7 p.m. in the Pioneer Natural Gas Co. Flame Room, 519 N. Lincoln, Odessa.

PRACTICING HIS RESCUE technique is 8-year-old Cub Scout Kenny Barnett. Barnett is boning up on how to toss a rope to a drowning person, one of the skills he and other Midland scouts are learning this week at the Midland Cub Scout Day Camp. The camp, which ends Friday, is held at Hogan Park from 9 a.m. to

3:30 p.m. (Staff Photo by Brian Hendershot) American tourists again visiting Cuba

HAVANA, Cuba (AP) - Less than 10 miles from the Bay of Pigs, Kenneth Flint of Pascagoula, Miss., reeled in a six-pound, seven-ounce black bass as dark clouds and an orange ball of setting sun vied for attention on the horizon of Cuba's Treasure Lake.

Around a reedy point of the Zapata Swamp, Ernestine Bodsen and Mildred Glover, a couple of Little Rock, Ark., office workers, were reeling them in and throwing them back because the chunky bass were "too About two hours away by boat and bus, more than 100 American anglers

were trolling for blue and white mar-

tors in the annual Ernest Hemingway And to the east, at the beach resort of Verdero, another 250 Yankee boatmen were rocking in the surf, touring the countryside or enjoying a sump-tuous meal at the former DuPont

And the Cubans - who closed the

you might call a policy of renewed emphasis" for the American tourist dollar, said Miguel Arocha of the Cuban Institute of Tourism as he surveyed acre upon acre of sleek, expensive American yachts moored at Barlovento Marina on the outskirts of

at an average of \$125,000 each, the marina was the temporary home for more than \$5.6 million worth of U.S. Does this renewed emphasis on at-

tracting American travelers mean that individual tourists can now come here whenever they desire? "As a matter of policy, we are not against receiving any individuals," said Gary Gonzalez, special assistant to the head of the Cuban Tourist Institute, Luis Gongora. "But, right now, we are concentrating on small

groups, on special events such as these fishing tournaments and simi-lar things. We need advance notice of But, he said, "I don't think it will take more than the end of this year" before Americans can travel here as regular tourists on an individual basis. The U.S. State Department lifted all restrictions on travel of U.S.

citizens to Cuba last year.

Meanwhile, the Cubans have scheduled a sailfish tournament in October to take place in Oriente Province and plans are being made to bring Americans here in special packagetour groups for bird watchers, hunters, athletes and just plain sight-Top government officials will not

comment, but diplomats and other foreign observers here say the Cubans have long realized they have been losing huge sums of hard currency to the Caribbean nations which took over as tourists' destinations for Americans 20 years ago. Cuba used to be the tourist mecca in

this area before the 1959 revolution. "Today we have to go and seek the people," Arocha said. "But once we get these specialized activities (like the fishing tournaments) established, the people will come to the event." The marlin tournament, the Bara-dero junket, the bass fishing on Trea-

sure Lake next to the Bay of Pigs battlefields all appeared to justify the Cubans' optimism this past week.
Flint, the Pascagoula, Miss., air conditioning installer spending a week at the bass fishing resort, said,

"I am living my dream.

It is No. 1-BF David Fasken, 1,980 feet from north and 1,980 feet from east lines of section 20, block 42, T-1-N, G&MMB&A survey.

The site is 7/8 mile northwest of the tripple discovery of the Fasken, South Wolfcamp, Fusselman and Ellenburger) area. The Ellenburger zone is not producing.

ANDREWS EXPLORER

South Ranch Oil Co. of Midland No. 2-34-B Bitting-University is to be dug as a 12,700-foot wildcat in Andrews County, 20 miles northeast of An-

Location is 2,173 feet from south and 1,860 feet from west lines of section 34, block 6, University Lands survey. The project is in the Block 6, East multipay area.

WARD WILDCAT

Amoco Production Co. No. 1-FK University has been spotted as a 7,-650-foot wildcat to test for oil production in hte five-well Poquito (Delaware gas) field.

The operation is seven miles west of Pyote and 2,170 feet from south and 660 feet from east lines of section 18. block 18, University Lands survey.

REEVES PROJECT

MR Oil Co. of Midland No. 1 R. B. McGowen Jr. has been staked 1/3 mile northeast of Toyah as a 4,100-foot

Drillsite is1,433 feet from north and

Exploration condemned

WASHINGTON (AP) - The United States has condemned Israeli oil exploration in occupied Egyptian territory as beyond the legal authority of a "belligerent occupant" power.

Secretary of State Cyrus R. Vance outlined the U.S. view in a meeting last Friday in New York with Egyptian Foreign Minister Muhammad Ibrahim Kamel. It was reiterated Wednesday at the daily State Department press briefing by spokesman Hodding Carter.

Israeli forces overran the Egyptian Sinal desert during the 1967 Six-Day war. Having virtually no oil resources of its own, Israel used the Abu Rudeis Egypt as part of the 1975 Sinai disengagement agreement but Israel continues to explore for oil in both land and offshore areas belonging to Egypt and still under Israel's control.

"Our position," said Carter, "is that the development and exploitation of new oil fields in occupied territories is unprecedented and goes beyond the legal authority of a belligerent occu-

"Further, even previously developed mineral resources of occupied territory cannot be used for purposes beyond the needs of the occupation."

Six months ago the Israeli govern-ment said it had drilled a second well in the Gulf of Suez and planned to drill six others in the next few months near El Tur, off the coast of the Israeli-occupied Sinai deseht.

One of the offshore wells was producing about 5,000 barrels a day. Israel imports nearly all of its oil and is seeking new energy resources.

82 strikes complete

AUSTIN, Texas (AP) - The Railroad Commission reported Wednesday that 15 wildcat oil wells and 67 wildcat gas wells were drilled in Texas during the last half of May. The oil discoveries included four in

South Texas, three in the Panhandle two each in the San Antonio and Southeast Texas areas, and one each in East Texas, and the Lubbock, Midland and Wichita Falls areas.

The gas discoveries include 22 in the Refugio area, 21 in South Texas, 11 in Southeast Texas, three each in East Texas and the San Angelo and Lub-bock areas, two in the Panhandle and one each in West Central Texas and the Midland area.

The commission said 288 oil wells were completed in the last half of May, 46 fewer than in the same period of 1977. A total of 304 gas wells were completed, 119 more than in the same

time last year. The commission reported that 109 dry holes were drilled in the May 15-31

Allowable increases

AUSTIN, Texas (AP) — Texas' average calendar day oil allowable as of June 1 was 3,569,778 barrels, an increase of 3,500 barrels a day from

May 15, the railroad commission reported Wednesday.

The commission said 180,454 wells were on allowable schedules, 687 fewer than on May 15.

The commission said there are 8,962 oil fields in the state.

467 feet from east lines of section 11, D. W. Washburn Survey.

The site is 1,000 feet northwest of a 4,065-foot dry hole. There is no nearby production.

FISHER TEST

R. L. Atkins of Sweetwater announced plans to drill No. 1 Keener as a 5,600-foot wildcat in Fisher County. 4.5 miles northwest of Roby.

Location is 353 feet from south and 467 feet from east lines of section 37, block 2, H&TC survey. It is in the depleted Elsie Mae (Canyon sand)

TWO PROJECTS

Stoltz, Wagner & Brown of Midland announced locations for a pair of projects in the Conger (Pennsylvanian)field of Sterling County.

No. 26-4 Hildebrand will be dug to 8,400 feet, 760 feet from south and east lines of section 4, block 21, H&TC survey and 10 miles southwest of Ster-

It is 2,154 feet northeast of production.

Stoltz, Wagner & Brown No. 27-2 Hildebrand is to be drilled to 8,400 feet, 1,320 feet from north and east lines of section 2, block 21, H&TC survey and 11 miles southwest of Ster-

The location is 2,740feet north of production.

EDDY WILDCAT

O.H. Berry of Midland No. 1 Amoco-State is to be drilled as a 3,600-foot wildcat in Lea County, N. M., 8 miles northwest of Jal and 4.5 miles northwest of the Jal, West (Delaware) field.

Location is 800 feet from north and 1,650 feet from east lines of section 36-24s-35e. Ground elevation is 3,368 feet.

DE BACA EXPLORER

C. I. G. Exploration, Inc., of Denver, Colo., staked a 7,000-foot wildcat in De Baca County, N. M., 50 miles north of Elida.

The project is No. 1-18 SEA, 1,980 feet from north and 1,980 feet from east lines of section 18-2s-27e.

MORROW TRY

Carl A. Schellinger of Roswell, N. M., spotted location for a 3/4-mile northwest stepout to the Angell Ranch (Morrow) field of Eddy County, 15 miles north of Carlsbad.

The 11,000-foot test is No. 1 Reddy-GTrigg, 1,980 feet from north and 660 feet from east lines of section 35-19s-

AMOCO LOCATION

Amoco Production Co., operating from Levelland, announced location for an 11,200-foot test in the Empire, South (Morrow) pool of Eddy County,

Location for No. 20 Empire South Deep IUnit is 1,980 feet from north and 2,200 feet from east lines of section 12-18s0-28e. It is 3/4 mile north and the same distance south of production in the west side of the field.

OFFSET SPOTTED

Al G. Hill Jr. of Abilene No. 2-A Mae Davis is a new project in the two-well Heather (Noodle Creek) field of Fisher County, six miles southwest of

It is a south offset to production and 2,867 feet from north and 467 feert from west lines of secton 56, block 2, H&TC survey.

Contract depth is 4,000 feet.

TERRY TEST

Texland, Rector & Schumacher No. 1 Maudie Young is to be drilled as a 7,000-foot test in the Warhorse (upper Clear Fork) field of Terry County.

The sigte is six miles southeast of Sundown and 467 feet from north and west lines of section 17, block D-14, SK&K survey. Elevation is 3,478

PECOS WELL

The Putnam (Wolfcamp) field of Pecos County has been extended 7/8 mile southwest with completion of Gulf Oil Corp. No. 16 I. H. Millar and

Operator reported a calculated, absolute open flow potential of 3 million cubic feet of gas per day, through perforations from 5,160 to5,230 feet. The well, eight miles west of Ba-

kersffield, is separated from produc-tion by depleted producers. Location is 1,470 feet from north and 467 feet from east lines of section 47, block 11, H&GN survey.

MCCULLOCH WILDCATS

J. B. Production Co. of Denton staked two 1,500-foot oil or gas wildcats in McCulloch County, five miles north of Lohn.

No. 2 Mrs. J.K. Shelton is 2,637 feet from the north and 1,233 feet from west lines of Bernard Huperz survey

No. 3 Mrs. J. K. Shelton is 1,977 feet from north and 170 feet from west lines of Bernard Huperz survey No.

The projects are near production in the Lojon (Strawn gas) field. SHALLOW TESTS

R. H. Chambers of Brownwood staked two shallow wildcat in McCulloch County, three miles northwest of

Mercury. The are contracted to 850 feet. No. 1 S. E. Cox, a norrtheast offset to an active wildcat and 2.5 miles northeast of Marble Falls gas produc-

tion in the Heart of the Texas field, is 150 feet from south and west lines of David Pape survey No. 941. Elevation

No. 2 S. E. Cox, a twin to a 1,003-foot failure, is three and five-eighths miles northeast of the Heart of Texas field. Location is 90 feet from north and 1,823 feet from west lines of Fisher & Miller survey No. 2482. Elevation is

test staked

Mobil Oil Corp. announced location for a one and three-quarter-mile northeast outpost to Ellenburger production in the Will-O multipay field of Val

Verde County.
Contracted from a 15,500-foot bottom, it is No. 1 Arledge Unit, 1,577 feet from south and 1,498 feet from west lines of section

11, block Q4, TCRR survey.

The projdect also is one and three-quarters miles from the Wolflcamp oil discovery and only producer from that formation in the Will-O field.

It also is one mile southeast and the same distance west of the Morrison (Ellenburger)

The location is nine miles

Allowable announced

northeast of Pandale.

AUSTIN, Texas (AP) - Texas' average calendar day oil allowable as of June 1 was 3,569,778 barrels, an increase of 3,500 barrels a day from May 15, the railroad commission reported Wednesday.
The commission said 180,454 wells

were on allowable schedules, 687 fewer than on May 15. The commission said there are 8,962

oil fields in the state.

Harvey E. Yates Co. of Roswell, N. M., No. 1-C-21 Mobil-State has been completed in the Carlsbad. South (Morrow) field of Eddy County, N.

Operator reported a calculated, absolute open flow of 6,375,000 cubic feet of gas per day, through perforations from 12,087 to 12,097 feet. Total depth is 12,300 feet.

Wellsite is 660 feet from north and 1,980 feet from west lines of section 21-23s-27e and six miles west of Lov-

Producers complete

A pair of wells, one in Reeves and the other in Dawson County have been

Atlantic Richfield Co. No. 1-30 Hill has been completed to extend the Marsh, South (Delaware) field of Reeves County one mile east.

Operator reported a calculated, absolute open flow potential of 440,000 cubic fdeet of gas per day, from open hole section from 2,775 to 3,855 feet. The amount of stimulation, if any, has not been reported.

Location is 1,320 feet from north and west lines of section 30, block 57, T-3-S, T&P survey and 8.5 miles southwest of Orla.

Petroleum Exploration &Development Funds, Inc., of Midland No. 1 Clearman is a new well in the Patricia, Northeast (Spraberry) field of Dawson County, five miles southwest of Lamesa.

On 24-hour potential test it pumped 103 barrels of oil and 30 barrels of water, through perforations from 8,-176 to 8,180 feet and from 8,187 to 8,197 feet. The pay was acidized with 1,000 gallons and fractured with 30,000 gal-

The gravity of the oil is 39.8 degrees and the gas-oil ratio is 680-1. Wellsite is 660 feet from noth and west lines of section 28, block 36,

Eddy well potentials

T-5-N, T&P survey.

Texas Oil & Gas Corp. No. 1-G Indian Hills-State Communitized has been completed in the Cemetery (Morrow) field of Eddy County, N. M., 21 miles northwest of Carlsbad.

The well finaled for a calculated, absolute open flow potential of 2.286 million cubic feet of gas per day, through perforations from 9,278 to 9,534 feet after a 5,000-gallon acid treatment.

The new well is 1,650 feet from nroth and 1,980 feet from east lines of section 36-20s-24e.

Tri Service finals strike

Tri Service Drilling Co. No. 1 Fasken has been completed as a Wichita-Albany in Northeast Ector County, 22 miles northwest of Midland.

The strike, originally completed as the discovery well of the Circle Bar. East (Strawn) field, reported a daily flowing potential of 157 barrels of oil per day from the Wichita-Albany.

The production was gauged through a 12/64-inch choke and is from pay ehind casing perforations from 7,738 The zone had been acidized with

1,500 gallons. Gas-oil rato is 1.57-1. Total depth is 12,380 feet and ugged back depth is 7,920 feet. The 5.5-inch casing is cemented at 10,997 Wellsite is 660 feet from south and

,980 feet from eastIlines of section 31,

Val Verde Journal says motorists will have plenty of gas

TULSA-U. S. Motorists should have no trouble keeping their gasoline tanks full during the summer driving season, the Oil & Gas Journal re-

Despite record demand predicted for the year, refiners have excess plant capacity and enough empty storage space to boost output if more gasoline is needed than analysts now

In addition, most refiners have recieved waivers from the Environmental Protection Agency's lead pha-

ENERGY OIL & GAS

sedown requirements that would have lowered gasoline yields.

Oil industry analysts tell the Journal that demand, expected to reach record 7.3 million barrels a day this year, is growning slower than before. Nationwide demand growth this year is expected to be 2.3 percent, compared with 2.9 percent last year and 4.5 percent in 1976.

But the outlook isn't entirely rosy, the Journal points out in its June 5

The lead phasedown waivers are only temporary, and refiners next year must meet even more stringent requirements than those that were waived. And the EPA plans to ban MMT, an octane booster refiners use in place of lead.

Unable to use either lead or MMT. refiners would have to sacrifice gasoline yield (the amount of gasoline produced from each barrel of crude oil) in order to meet actane requirements. That could produce supply problems as early as next year if regulations take effect as scheduled the Journal says.

For different reasons, gasoline supplies already are tight on the West Coast, with refiners having to import an estimated 2 million barrels of gasoline from the Gulf Coast.

A big problem on the West Coast is that refiners there are handling an increasing amount of crude oil from the North Slope of Alaska. That crude yields proportionally more fuel oil and less gasoline than most other

Midlanders complete two wells

Gifford, Mitchell & Wisenbaker announced potential tests for a pair of Capitan producers in the Cheyenne multipay field Winkler County.

The No. 1 Fox Tail was completed for a daily pumping potential of 72 barrels of oil and three barrels of water, through perforations from 3,-125 to 3,178 feet after 1,000 gallons of and 10,000 gallons of fracture solution. Gas-oil ratio is 530-1.

Total depth is 3,382 feet and location is 467 feet from south and 1,000 feet from east lines of section 17, block C-23, psl survey. SECOND WELL

Gifford, Mitchell & Wisenbaker No. 7 Little Wolf was finaled from the Capitan for a daily flowing potential of 110 barrels of oil and 42 barrels of water, through a 20/64-inch choke and perforations from 3,129 to 3,193 feet. The formation was treated with 1,400 gallons of acid and fractured with 30,000 gallons of fluid.

Gas-oil ratio is 620-1. Location is 1,092 feet from south and 1,660 feet from deast lines of section 16, block C-23, psl survey. Total depth is 3,202 feet. The wells are 13 miles northwest of Kermit.

REAGAN WELL
Texas Oil & Gas Corp. of Midland No. 1-8 Noelke has been completed in the Benedum, Northeast (Bend lime gas) field of Upton County, six miles west of Stiles.

Operator reported a calculated, absolute open flow potential of 7.3 mil-lion cubic feet of gas per day, through perforations from 10,418 to 10,528

The new producer is one location south of the only other producer from the Bend gas pay in the field.

Location is 500 feet from north and

3,850 feet from east lines of section 8, block M. TCRR survey. The pay section was acidized with

MENARD WILDCAT Ventures, Ltd., of San Angelo

staked location for a 3,500-foot wildcat in Menard County, eight miles northwest of Menard. It is No. 1 Wilkinson Estate, 1,980

section 28, Louis Le Minn survey, abstract 1702. Elevation is 2,087 feet. The location is two and five-eighths miles south of the Ferris (King sand and Hope) field and 1/2 mile south-east of a 3,559-foot dry hole.

SUTTON EXPLORER

HNG Oil Co. of Midland No. 1-53 Wade is to be drilled as a 4,100-foot Strawn wildcat in Sutton County, 22 miles southeast of Sonora.

Operator staked location 1,183 feet from north and 933 feet from east lines of section 53, block 7, TW&NG survey. Elevation is 2,190 feet.

The closest production is one and three-quarters miles norrthwest in the Miers, East (Cisco A gas) pool.

Consequently, West Coast fuel oil supplies built up this spring. At the same time, demano' dropped as stiff California clean-air rules forced utilities to burn cleaner fulls and heavy rains boosted hydropower.

To keep from running out of storage space for fuel oil, efiners cut back their crude runs. And a number of them shut down refining units for maintenance.

As a result, less gasoline was produced. The Gulf Coast shipments, however prevented a shortage.

Meanwhile, refiners have been selling some of their fuel-oil products at less than market prices to create more storage space. So refinery operating levels habe begun to climb

During the week ending May 19, West Coast refineries were operating at 80.6 percent of capacity. That's still less than the 90.3 percent rate nationwide but greater than the February levels of 70 to 75 percent, the Journal

As refinery utilization increases, West coast gasoline supplies should return to normal levels. Refiners say the gasoline shipments from the Gulf Coast already are being discontin-

Nationwide, gasoline stocks are less than they were last year but considered adequate. For the week ending May 19, stocks totaled 216.4 million barrels, compared with 226,7 million barrels at the same time last year.

Distribution territory available for

KINE-FRAC Well Treatment Process

The KINE-FRAC process is a proven, cost-efficient well cleaning method which achieves selective formation fracturing or fracture initiation without severe stresses on well casings. While used primarily in oil and gas wells, the KNIT-FRAC process is also very suitable in water wells, fluid disposal wells, water injection wells and geothermal wells. Its excellent costto-benefit relationship has been demonstrated in numerous wells throughout the country. Documentation and test results are available upon request.

Distributorship is now available for west and south west Texas plus southeast New Mexico. The market requires a service-conscious organization with an established distribution network and a solid track record. Tremendous growth opportunity for the right technically-oriented company.

Applicants should send comprehensive company profile (including other products presently handled) to

Georgia ERA status irks some city mayors

porters have crossed Atlanta off the list of places they'd most like to visit. Now Georgia's non-ratifi-cation of the Equal Rights Amendment is even keeping some big city mayors from getting togeth-

At least seven mayors say they won't attend the U.S. Conference of Mayors, scheduled June 17-21 in Atlanta, primarily because of the status of ERA in President Carter's home state.

Many say they sympathize with Atlanta Mayor Maynard Jackson's position that the Georgia Legislature's anti-ERA posture is "absolutely contrary to the wises of the citizens of Atlanta."

But pressures from city councils, a fast-growing economic boycott of non-ERA states and political loyalty to pro-ERA constituents have prompted some mayors to dodge the meeting.

Figures from ERAmerica in Washington indicate that 22 local governments have passed resolutions disallowing expenditure of city funds for travel to non-ERA states. And since 1975, 170 organiz/ations—including the United Auto Workers and the Communication Workers of America — have indeed the nication Workers of America — have joined the boycott of non-ERA states.

Dennis Kucinich, mayor of Cleveland, said although the mayors voted last year to support the ERA, he's disappointed in the conference's failure "to exercise its political clout to promote passage." He doesn't plan to attend.

Paul Soglin, mayor of Madison, Wisc., said his only part in the conference will be to head a delegation of mayors from Atlanta to Cuba. His decision came as his city council was considering censuring him for disregarding a city ban on employee travel to non-

ERA states.

Los Angeles Mayor Tom Baradley, citing his city's planning for the summer Crympics, said he would not attend, but a spokesworman said Bradley's support of ERA and the boyrcott "figured in the decision." Mayors Phil Isenbrarg of Sacramento, Calir.; Ron Bair of Spokane, Wash.; Neil Goldschmidt of Portland, Ore., and Gerald Springer of Cincinnatials have announced they will not attend the conferalso have announced they will not attend the conference, which is expected to draw about 250 of the 500 ber mayors of cities with populations over

Bair and Isenberg cited schedule conflicts, but Bair said he "supports the will of the people" in his state who ratified the ERA. And Isenberg, a staunch ERA supporter, said that even if "I could

'Banıning' not worst method of punishment

JOPIANNESBURG, South Africa-C.F. Beyers Naud e was one of almost two dozen South Africans to rece'ive simple banning orders from their govern-

That means they cannot meet with more than one n at a time and their activities, such as bein quioted or giving speeches, are severely limited.

But it could be a lot worse.

The South African government sometimes adds to

hts bannings a "house arrest," restricting a person to his house between 6 p.m. and 6 a.m. weekdays and 6 p.m. Friday to 6 a.m. Monday.

Last year the government put a handful of people under house arrest.

The next step is being "banished and removed" that is, sent away from your home usually to a remote spot in the country, as happened last year to Winnie Mandela, wife of Nelson Mandela, a black nationalist leader, who is serving a life sentence in South Africa's Robben Island prison.

Within hours the police raided her home, loaded her belongings onto a truck and "removed" her to a remote area in the Orange Free State. She was allocated a house with no electricity, no stove and no running water.

The strategy of the South African government often is to ban whites and detain blacks. Detention is like jail, but with no specific charges, no trial and no

By the end of last year, according to statistics of the South Africa Institute of Race Relations, 119 blacks and 19 whites were under various "restric-

The majority were there because the government viewed them as endangering the "safety and security of the state;" in most cases that meant opposing its apartheid policies.

South Africa also bans organizations. Last year, it

banned 18 organizations and three publications as similar security risks. Bannings can create difficult situations. No ban-

ned person, for instance, can be quoted or even paraphrased in the press.

Donald Woods, editor of the Daily Dispatch newspaper until he was banned last October (he later fled the country) had complained that security police had doctored with a chemical a T-shirt sent through the mail to his daughter. When the girl put it on, her eyes were burned.

Last March, South Africa's Minister of Justice Jimmy Kruger hinted he had information showing Woods may have obtained the chemical himself and hence had something to do with the incident.

Since Woods is a banned man, his response that the allegations were absurd could not be printed unless prior permission from Kruger was given.

When a newspaper — after talking to Woods — tried to contact the minister, he was not available. It was only several press cycles later that the newspaper finally got Kruger's permission, and by that time, for many South Africans, Woods' case had been prejudiced.

Appeals court delays final action in case

AUSTIN—The Court of Criminal Appeals Wednes-day delayed final action on an appeal by Doyle Den-

ton from Howard County for theft over \$50.

Denton was sentenced to life imprisonment following his conviction, with two prior felonies used to nhance the sentence.

The court "abated" the appeal, saying that while the record shows Denton was represented by a courtappointed attorney, no brief apparently was filed by that attorney, while Denton filed a brief on his own

The court said the "rather confused record" leaves at unclear as to whether Denton was represented by unsel or whether he acted as his own attorney.

The court concluded the trial court should determine whether Denton's court-appointed attorney can bursue the appeal further, or whether a new attorney hould be appointed.

have worked it out, I probably wouldn't have gone. This issue is, worth making a statement about, even though I re gret making it to Maynard Jackson, who is a first-7 ate mayor."

Spring er announced last month that he wouldn't attend because of a city council resolution against

Jackson sent a letter last month to the 500 members of the conference, urging them to attend to "Impress upon the Georgia Legislature how important passage of this amendment is to the entire

Thirty-five states have ratified the amendment, but Idaho, Nebraska and Tennessee later voted to rescind approval, a move that remains in question. Kentucky's vote to rescind was vetoed by the

If the amendment is to become part of the U.S. Constitution, it must be ratified by 38 states before March 22, 1979. However, there is a move to extend that deadline for another seven years.

Many pro-ERA mayors say a chance to voice their support for ERA — and opposition to the boycott — prompts them to attend.

"I favor the states' rights, and Georgia has as much right not to (ratify the ERA) as this state has to," said Denver Mayor William McNichols. "I think it's (the boycott) a very poor use of the cause. This action will create animosity rather than help

"The boycott is a tactic which I do not support and Atlanta is a good example where a mayor is one of the strongest advocates for the ERA in any city hall in the nation and yet they are penalizing his city for an act of the Legislature, or rather a failure to act by the Legislature," said Richard Carver, mayor of Peoria, Ill., whose state is among 15 that have not ratified the ERA.

Frank Logue, mayor of New Haven, Conn., is attending despite the protests of a local alderman who has threatened to submit a resolution to prevent spending of city funds for travel in non-ERA

Mayors from cities in non-ERA states who say they will attend the meeting include Ted Wilson of Salt Lake City, Lewis C. Murphy of Tucson, Michael Bilandic of Chicago and Margaret Hance of Phoe-

Among the most vocal mayoral ERA supporters from a non-ERA state is David Vann, mayor of Birmingham, Ala., who is co-chairman of the conference's ERA task force.

"I don't subscribe to the idea that ERA helps itself by boycotting cities which frequently might have leaders who are strong supports of ERA but have little control over legislatures," said Vann.
"I think the time has come for ERA in this country

and it's not just a women's thing," he said. "It is for equality under the law regardless of sex and most ple in this country accept that principle."

Officials in Atlanta's Convention and Visitors Bureau say 12 organizations have canceled plans for conventions in the city through 1989.

Application approved

AUSTIN—The Texas Health Facilities Commission has approved an application by Ward County Nursing Home, Monahans, for a certificate of need to construct a 98-bed nursing

The request was one of a number of matters acted on at the THFC's regular weekly voting

"The Many Faces Of America"

The Midland Reporter-Telegram/West Texas Life 4th of July Photo Contest **TOTAL PRIZE VALUE *395!**

WHAT SUBJECTS? Almost anything dealing with the theme of "the many faces of America." People, places, representations of ideas. Only limitation is "good taste" and picture shot in the last two years.

WHO IS ELIGIBLE? Any amateur photographer. No professionals, no em-

ployees or agents of The Reporter-Telegram, or their families.

WHERE TO SUBMIT? Prints or slides must be delivered to the Reporter-Telegram, 201 East Illinois, between 8:00 a.m. and 5:00 p.m. weekdays.

WHY ENTER? Cash prizes worth a total of \$195 and West Texas Life Tshirts worth \$200, plus the honor of having top photos printed in West Texas Life July 2 edition in The Reporter-Telegram.

HOW TO PREPARE? Mount each print individually on poster board (4-inch border maximum). Write name, address and phone number on back. Same information for slides to be written on mount and on the envelope in which each slide is placed.

Three Categories To Win In!

	Black & White Prints	Color Prints	3. Color Slides
1st Prize	\$35.00	\$35.00	\$35.00
2nd Prize	\$20.00	\$20.00	\$20.00
3rd Prize	\$ 10.00	\$10.00	\$10.00

PLUS 50 Honorable Mentions: Red, white and blue WEST Texas Life T-shirts! VALUE \$200

Labor leader Jerry Wurf ends conflict with Meany

By LEE MITGANG

WASHINGTON (AP) - Brooklyn-born Jerry Wurf, physically slight, with a bum leg from a childhood bout with polio, has just turned the labor union he has led for 14 years into the largest in the AFL-CIO.

When he first became president of the American Federation of State, County and Municipal Employees in 1964, it was less than one-fourth its present size of 1.1 million dues-paying members.

"I remember the difficulties we had being treated seriously by the rest of the labor movement, by public officials. And here we are the largest union in the AFL-CIO. My God, what else can you do for me?" Wurf said in an inter-

AFSCME assumed the No. 1 spot in the AFL-CIO on April 21, when the 260,000-member New York Civil Service Employees Association voted to affiliate with Wurf's union. The New York union did so partly to end attempts by other public employee unions to raid its membership a problem Wurf says his

Tyler honor grad

NASHVILLE, Tenn. -Paul Tyler, son of Mr. and Mrs. Edward W. Tyler of Tulsa, Okla., and formerly of Midland, was graduated magna cum laude during recent commencement ceremonies at Vanderbilt

University here. Tyler was selected to join Phi Beta Kappa, a national honor society, of Phi Eta Sigma, a freshman honor society, and Scabbard & Blade, a

military honor society. He plans to attend the Washington University School of Law in St. Louis this fall.

Carson awarded doctorate

GALVESTON - Steven Douglas Carson, son of Mr. and Mrs. H.A. Carson Jr. of 3203 Sin-clair Ave. in Midland, recently was awarded a Ph.D. degree from the Graduate School of Bio-medical Sciences at The University of Texas Medical Branch here.

Carson majored in human genetics and cell biology.

Miss Rollo graduated

SAN MARCOS - Jeannette Rollo of Midland recently was graduated from Southwest Texas State University's para-legal program, which is designed to train assistants to work on a lawyer's staff.

She was among 16 graduates from this pro-gram, a part of the de-partment of political sci-ence here.

Houser initiated STA

Piano students present recitals

dditional piano recitals have been held in the city recently to showcase the accomplishments of students at conclusion of their year's keyboard

Mrs. Jeff George's piano students were heard in a pair of recitals in Mrs. George's home, 2809 Stutz

Participants in the events were Csrol Stilwell, Lisa Scoggin, Allison Dillard, James Heath, John Eberly, Anne Storrie, Andrea Neisig, Karen Eberly, Jennifer Neisig, Emily George, Khris Davis, Katherine George, Shannon Ashford, Kristy Sherman, Kimberly Sherman, Sandy Owens, Cherryl Owens, Laura Steele, Linda Nolan Nancy Southerland Linda Nolan, Nancy Southerland, Shelly Pope, Jana Housman, Marsha Southerland, Karen Kalit, Robin Black and Julie Keesey.

Following the programs, awards were presented students who participated in National Guild auditions here and James Heath was recognized as recipient of a memory contest

Two spring graduates of Midland High School joined in presenting a senior piano recital this week in the

home of their teacher, Mrs. E. F. Motter, 903 Princeton Ave.

They are Teresa Sawyers, daughter of Mr. and Mrs. Wayne Sawyers, and Karen Keaton, daughter of Mr. and Mrs. W. L. Keaton. Both plan to attend Midland College.

The dual recital consisted of works by J. S. Bach, Chopin, Haydn, Mozart

Miss Sawyers has been a member of the marching and concert bands at MHS, with flute as her instrument, and has been a member of the Future Secretaries Association. She has participated in annual auditions of the National Guild of Piano Teachers and has received the Guild's high school diploma in social music.

Miss Keaton also has participated in National Guild auditions and is receiving the Guild's high school diploma in social music. At MHS, she has been a Student Council representative and has been a member of the drama and French clubs. She has been a member of the performing company of Permian Civic Ballet for the last two years.

A reception honoring the two pianists was held following the recital.

LAS MANOS - "The Hands" - volunteer service auxiliary of the Museum of the Southwest, celebrated the 10th anniversary of its organization with a birthday party Sunday afternoon on the museum grounds. Above, Las Manos members Mr. and Mrs. Don Fergeson. left, and Mr. and Mrs. Joe Campbell enjoy their picnic meal. At right, Mark Schweinfurth, a longtime Las Manos member and former president of the service organization, assumes chef's duties during the afternoon. The birthday party incorporated Las Manos' annual meeting.
