## Nine weeks is all grandparents want

DES MOINES, Iowa (AP) -The cherub-like face is swollen now and pricked by needles. Doctors say the boy is dead, but his grandparents fight for time.

**METRO EDITION** 

"Nine weeks. That's what I'm asking for. Only nine weeks. Then, well, maybe we'll have to bury him. But I have got to

Richard Schrier Sr., ex-plained why he's battling in a courthouse for custody of his 2-year-old grandson, Matthew, whose life may hinge on the legal determination of who should be entrusted with his

Matt has been attached to a respirator at Iowa Methodist Hospital since late June when he was injured and lapsed into a coma. Three doctors have stated that Matthew is cerebrally or "brain" dead.

Richard and Shirley Schrier, who have cared for the boy for much of his short life, want Matt kept alive as long as possible.

"He moves," Schrier said. "He moved his arms and legs last night ...like he was trying to kick me. And he moved his head the night before. I said, 'Matthew, c'mon, we gotta go fishin.' And he rolled his head. He knew.

His grandparents believe Matt was injured when a motor-cycle in their backyard fell on him. But Matt's father, Richard Schrier Jr., is accused of firstdegree sexual assault in an alleged attack believed to have caused the boy's injuries.

Schrier surrendered to authorities Tuesday following his escape a week earlier from a Clarinda mental health insti-

Matt's mother, Linda Schrier,

had applied for her son's custody in a divorce petition against her husband. Now, that custody request also asks that she have burial rights for Matt. "I believe the doctors," Mrs.

Schrier said. "I have accepted it. Now we have to let him go." Judge Richard Strickler of Polk County Juvenile Court issued an injunction July 24 pre-venting Matthew from being removed from the respirator until the legal tangles surrounding his custody are unraveled. The state has temporary custody.

Schrier is trying to buy time

that after nine weeks it can be determined whether Matt can

for Matt because he has read

"I know he might be brain da-maged," Schrier said. "But we'll raise him. We love him and that's all you need. Schrier said if Matt cannot

survive after the nine weeks, he will make "the right decision." And when his battle for Matthew is done, Schrier pledged, he will fight to prove his son's innocence.

"Ricky didn't do it," the elder Schrier said of his son, "He couldn't have done it. He loves

Shirley Schrier, trembling, visibly shaken by the tragedy, the battle and the nagging publicity, sat alone in the darkened

courtroom at a noon recess. Tears fell when she was asked whether the battle was worth

"I don't know," she said, fumbling for a handkerchief. "I don't know. Yes, he's worth it. When you've been with him like I have. He's like my own. I love him so much. He's worth all of

## House committee checks Kennedy two-gun theory

DALLAS (AP) - The House Assassinations Committee reportedly will send investigators to Dallas this month to check a report it has stating that two guns fired four shots when President John Kennedy was assas-

If true, it could mean that accused assassin Lee Harvey Oswald had an accomplice, a theory many have held for years. The Warren Commission concluded Oswald acted alone and that there was no conspiracy.

The Dallas News reported in today's editions the House committee was told aboout two weeks ago of the four - and possibly five - shots after an analysis was made of a tape recording of the shooting.

The shots which rang out on Dealy Plaza that fateful Nov. 22, 1963, were caught on tape at police headquarters because a Dallas police officer at the scene had his shortwave radio transmitter on during the crucial mo-

One committee source told the News that Police Chief Don Byrd has agreed to supply sharpshooters to reenact the crime when the committee visits Dallas Aug. 22. The plaza is to

Prices of crude goods, such as raw farm products, iron ore, crude oil and natural gas, were down 0.6 percent in

Lower prices for farm products ac-counted for all of this decline, dropping 2.5 percent.

Prices of products halfway through the processing stage, such as steel, lumber, flour and motor vehicle parts, rose 0.5 percent, slightly below average for this year.

The Producer Price Index for finished goods, the leading measure of wholesale prices, stood at 195.9 in July. This means that a product costing \$100 in the base period of 1967 cost

The Labor Department switched this year from its Wholesale Price Index to the new producer index, which it says is a better measure of future retail price changes. Officials said the old wholesale index often measured price increases more than once in various production stages, thus exaggerating the actual changes

In a recent report, the Agriculture Department said wholesale prices declined in July for cattle, hogs, corn, soybeans and lettuce. However, analysts said it may be September before the decline shows up in supermar-

Even with the decline, the department's Crop Reporting Board said the July prices were 19 percent higher than they were a year earlier. In June, the prices had hit their highest point in nearly five years.

So far this year, consumer prices have risen at a rate of 11:2 percent, if averaged over an entire year.

The Agriculture Department has said food prices should rise 10 percent this year but that most of the increase has already occurred.

# 'Red tape is costing Petroplex 450 jobs'

The Midland-Odessa area, which boasts one of the lowest unemployment rates in the country, may have lost 450 jobs this year because of stringent government regulations and unnecessary paperwork, according to the president of Texas Electric Ser-

"It's good out here now," said W.G. "Bill" Marquardt, citing an unem-ployment rate of less than 3 percent. 'But it could have been a whole lot

Marquardt, a former Midlander ho was one-time West Texas District Manager for TESCO, warned Midland Lions Club members Wednesday not to be content with today's prosperity. He urged them to spend more time "thinking about what might

He said West Texans ought to be concerned about an uncontrolled federal bureaucracy which costs the American taxpayer billions of dollars each year in all phases of daily life.

Marquardt, in arguing his point, pointed to the findings of a U.S. Chamber of Commerce report which analyzed the impact of 1977 Congressional legislation on the Midland-Odessa area.

"They say this year alone there will be over 450 fewer jobs out here than there might have been. By 1985 it'll be about 6,200 fewer jobs than there might have been. That means slower growth, less construction, lower retail sales, and a host of other

## Midland City Council grants feline repieve

Midland's cat population has been given a reprieve, but not for long. Midland City Council on Tuesday gave final approval to the proposed

animal ordinance which rules that cats must wear licensing tags. According to a spokesman with the animal control department, however, Midland's cats won't have to worry

until Nov. 1, when that part of the

ordinance becomes effective. The license fee, which has been \$5, will be cut to \$2 on that date and the 1979 tags will go on sale. The tags can be obtained at the animal control department or any city veterinarian when the animal is taken for a rabies

Under the old ordinance, cats were not required to wear the tags. The feline community now joins their canine counterparts in having to display

According to Dalton Byerly, animal control department head, the action was taken by the department in an effort to control the cat population in

The rest of the ordinance becomes effective Aug. 21, said the spokesman today. This includes the adoption policy and increased charges to the owner when the department has topick up the loose animal, he said.

The charge will be \$15 plus \$3 per day boarding fee when an owner re-claims his dog the first time it is picked up. The second time the department has to pick it up, the charge will double. The third time, the owner will be given a citation and a com-plaint against him will be filed in court, according to the new ordi-

To adopt an animal from the department, the prospective owner will have to pay the \$15 charge plus boarding fee in addition to a \$20 neutering deposit and sign a contract. In the contract the new owner agrees to have the animal neutered within 45 days or the animal control depart-

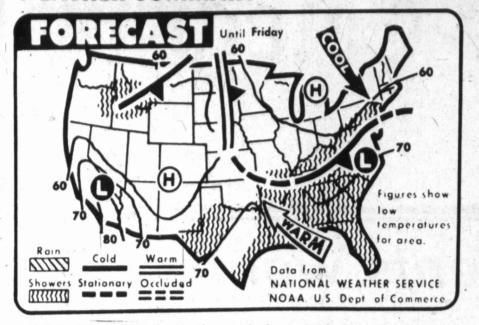

ment may reclaim the pet. If the animal is neutered within the time limit, the new owner should contact the department. The neutering deposit will be applied to the fee charged by the veterinarian who performed the surgery, according to the spokesman.

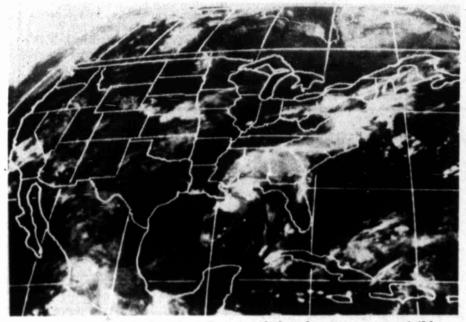

PHOTOGRAPHERS APPARENTLY don't do much for a recent newcomer to the Park Place Halfway House in Midland. Dispatched to take a picture of a refrigerator being donated to the local community service facility, Reporter-Telegram photographer Brian Hendershot came back instead

with this photograph of an angry young crow. According to Hendershot, the would-be pet ordinarily doesn't roam loose - or faultingly fly - around the premises...which may be beneficial to the welfare of any Midlander who happens to be passing by while toting a camera.

#### **WEATHER SUMMARY**

MOST OF TEXAS, the Southeast, the lower Midwest and southern New England are included in an area of showers forecast through Friday. Showers are also forecast in the northern Rockies. Cool weather is expected Y for the Great Lakes but most of the country will be warm. (AP Laserphoto Map)

CLOUDS COVER the East Coast and thunderstorms are visible near the Gulf Coast and the Ohio Valley in today's satellite cloud picture, recorded at 4 a.m. EDT. Partly cloudy conditions prevail through much of the central Plains and the Mississipi Valley and over the southern plateau. (AP Laserphoto)

## Odessa mobile home park owners fighting ordinance

ODESSA — A group of Odessa mobile home park owners have formed a committee to fight a proposed city ordinance which would call for 20 feet of space between mobile homes, public restrooms in mobile home parks and require park owners and operators to have licenses.

Committee members, who reportedly hired Odessa attorney Walter Wilson, have indicated they plan to come up with a compromise city law or else got to court if the city-proposed law takes effect. Members include mobile home park owners, single mobile home owners and dealers.

Loyd Freeman, a member who conducted a recent committee meeting, said the group does not wish to "to do battle" with city hall. Instead, he said members would like a compromise ordinance agreed to by both owners and city officials.

Several members, however, did express an interest in taking the proposed issue to court, if necessary. Also, several committee members

said they fear the proposed mobile

and Urban Development.

home ordinance would jeopardize their licenses because it requires that mobile home park owners be responsible for seeing that individual homeowners within a park comply with city regulations. Under the proposal owners face losing their licenses, unless they comply with the regulation, according to officials.

Freeman said the law being proposed is similar to one which was passed in Austin. "It is basically the same law.... They had trouble enforc-ing the part holding the mobile home lot owner responsible for enforcement," he said.

He said most of the mobile home laws in Texas have been developed from guidelines developed by the League of Municipal Governments and the U.S. Department of Housing

Freeman called the section calling for 20 feet between mobile homes "ridiculous." He said many mobile home park owners claim the section would drive them out of business.

## Red tape is costing Petroplex 450 jobs'

(Continued from Page 1A)

things too," he said.

"This year your family purchasing power will be almost \$150 less than it might have been. By 1985, your purchasing power will be \$600 less than it could have been.

The report dealt with key legislation on economic stimulation, minimum wage, social security, price supports and increases in federal pay, said Marquardt.

The federal tax bill for West Texans this year will be almost \$70 higher because of last year's legislation and \$480 higher by 1985, according to Marquardt.

He criticized bureaucrats, while listing a series of "might have been"s had there not been so many government regulations:

-The 1978 car might have been \$700 cheaper without all the environmental and safety rules that are now required.

-The economy could have had 6 percent more capital investment vithout the costs of the Environmental Protection Agency and the Occupation, Safety and Health Adminis-

-Consumers might have had an extra \$32 billion to spend this year without all the federal paperwork.

-Many small business bankruptcies may have been avoided without the federal papershuffling which costs the businesses about \$20 billion per year.

-The oil companies could drill about 3,300 more wells per year if they didn't have to spend a half a billion dollars annually to pay 10,000 persons full time just to handle Department of Energy regulations.

much lower - maybe by as much as 30 percent - without over-regulation by the federal government. -An average sized family's income

-Bills for electricity would be

might be \$1,900 higher next year without a mass of regulations.

"A Washington University Research group estimates that it cost the country \$63 billion just to comply with federal rules back in 1976. Put another way, that year it cost every man, woman and child over \$300 each just to pay for complying with bueaucratic rules," said Marquardt.

"So the family of four might have had an extra \$1,200 to spend on needed goods and services that year except for the bureaucrats.

"But that's just a drop in the bucket. Next year - by 1979 - they estimate that the bill for regulations will go up to \$475 for every man, woman and child. Your family might have been \$1,900 richer next year, except for the bureaucrats.

Marquardt said a good example of over-regulation by the federal government is the endangered species act which ultimately blocked the construction of two power plants in recent years.

"In Maine, it was to save the Furbish Lousewort. The Furbish Lousewort is a weed," he said.

"People in Maine had to give up electric power that could have lit their homes, heated their rooms, and run their factories. All to save that weed that was in danger.'

He also mentioned how the concern for a three-inch fish called a Snail

#### Trend continues with cooler highs

Summer vacation for students has entered its final stage before the new year starts and the balmy weather so far this month seems to be designed for active youngsters.

The trend - an absence of usual scorching August temperatures continued with Wednesday's high recorded at 89 degrees, according to the weatherman.

The National Weather Service at Midland Regional Airport said it should be about the same Friday with a high near 90. Record high for Aug. 9 is 104 degrees set in 1947.

The mercury is hanging around the high 60 mark at night, with today's ow set at 67 degrees. The temperature should be about the same tonight, the weatherman said. Record low is 63 degrees set in 1975.

A 20 percent chance of rain exists for tonight, the weatherman said. Southeast winds of 10 to 15 mph should decrease to 5 to 10 mph to-

Isolated, widely scattered showers and thunderstorms were forecast across Texas today, but most of the state had clear to partly cloudy skies and warm temperatures.

Early morning showers and thunderstorms dumped light amounts of rainfall early today over portions of Southeast Texas. Some patchy fog was reported in Houston, reducing visibility to about five miles.

Highs today were expected to be mostly in the 90s. Forecasters said highs in West Texas would reach only into the upper 80s.

Elsewhere, skies were clear to partly cloudy and temperatures remained warm. Early morning readings were mostly in the 60s and 70s, with extremes ranging from 58 at Marfa to 80 at Austin.

Some early morning readings included 66 at Amarillo, 73 at Wichita Falls, 72 at Texarkana, 73 at Dallas-Fort Worth, 75 at Lufkin, 71 at Houston, 76 at Corpus Christi and Brownsville, 75 at Del Rio, 70 at San Angelo, 68 at El Paso and 66 at Lubbock.

Darter, which has no apparent value to the food chain, prevented a power plant from being built in Tennessee.

"The problem is that this act contains no provision for weighing costs and benefits. If something is endangered, it must be protected regardless of its value," Marquardt said.

"As written, the act is so rigid that it probably makes it illegal to spend federal money to kill off endangered life forms like polio virus, the anthrax bacillus and certain disease-carrying

"Now, there's something out of whack here. And this act is typical of a whole lot of federal regulations." He quoted Robert Strauss as saying

that almost three-fourths of the new rules could be avoidable if more reasonable standards were used.

The utility industry, particularly TESCO, has been hard hit in recent years to pay millions of additional dollars to comply with federal regulations, he said. In 1977, claimed Marquardt, one out of every dollar TESCO spent in building lignite plants was for environmental con-

That ratio has jumped to one out of every five dollars, according to Marquardt.

Even though TESCO burns a lowsulfur coal, the company is forced to put on it plants the same expensive environmental equipment as required for plants that burn high-sulfur coal, he added. The TESCO president predicted that new regulations would result in companies paying an additional \$50 million in plant construction costs by 1980.

"The total cost of just running the federal regulatory agencies themselves is going up faster than the budget - if you can believe that," Marquardt said.

"And faster than the population and faster than the Gross National Prod-

Stringent government regulations and unnecessary paperwork took jobs away from the Midland-Odessa area last year, said W.B. "Bill" Marquardt, president of Texas Electric Service Co., speaker for the Downtown Lions Club on Wednesday. (Staff

## Clements says recent session just 'beginning' of needed tax relief

By LINDA HILL R-T Staff Writer

SEMINOLE - Republican gubernatorial candidate Bill Clements Wednesday said the just-ended special legislative session was "a beginning" to meeting tax relief needs, but did not address "some of the really important issues.

Clements was on a West Texas campaign trip which took him Wednesday to Andrews, Seminole, Lamesa and Snyder.

The candidate said he is "terribly disappointed" the Legislature failed to pave the way for a constitutional amendment which would provide procedures for initiatives and a binding

He also expressed disappointment in the Legislature's failure to pass constitutional amendments prohibiting a state income tax and requiring a two-thirds vote of both houses of the Legislature for any new or increased

The group's failure to repeal the state ad valorem tax was "ridiculous." Clements said. During the primary campaign, he said, the major candidates of both parties all said they favored repeal of that tax.

Clements praised the Legislature's failure to pass the Peveto Bill, which would have established a statewide property assessment system. He said he does favor a standardized and simplified system for property asssessment, but "we don't need to move that control to Austin. Clements accused Attorney Gener-

al John Hill, his Democratic opponent, of acting as "as obstructionist" in the special session. Acting with "the liberal element of the Legislature," Clements charged, Hill tried to keep that body from passing meaningful tax reduction.

On the other hand, Clements praised Gov. Dolph Briscoe for calling the session. Clements said Briscoe wanted the special session-to return about \$2 billion of the estimated \$3 billion surplus expected for 1979-80 in tax relief, "and not allow the Legislature to go down there (in 1979) with this big watermelon...they'll spend every dime of it if it's there.

Clements said he is opposed to tax reform, which he said is "bureaucratic gobbledygook for 'I'm getting ready to raise your taxes."

The candidate said he favors "less government and better government. Those are not contradictory terms." He accused Hill of favoring a bigger state government.

Clements claimed three factors "absolutely beyond my control" are helping him in his campaign. The first of these factors, Clments said, is President Carter — "every time he opens his mouth he helps me." Second, Clements said, is tacit sup-

port from Briscoe. "Governor Briscoe" is not going to declare for me. I don't want him to. It would not be appropriate," Clements said. But, he said, "a strange series of

coincidences" has led to more than 90 former Briscoe campaign officials, and Briscoe's daughter, taking leadership roles in the Clements campa-

Finally, Clements said he has discovered a "tremendous negative vote against Hill." Many people are supporting him (Clements), not necessarily because they like him, but because they do not feel they can support Hill, said Clements.

Today, Clements was to make campaign apearances in Post and Lubbock, before going on to East Texas.

## Panel to study favoritism charge

AUSTIN, Texas (AP) - Allegations of mismanagement and favoritism in the State Insurance Department will be explored next week by the House General Investigating Committee.

Two former Houston insurance agents are expected to contend they lost their licenses because the department let them take the blame for a scheme hatched by Gulf Atlantic Life Insurance Co. "New evidence has come to light,"

said Daniel Hurlbut, one of the agents whose licenses were revoked in 1975. Hurlbut and A.C. Hovater went to

the committee this spring after failing to win reinstatement. "We want to develop the full facts of

the complaint you and Mr. Hovater have made. . . . If the information is detrimental to you, we are going to be just as harsh on you as on the insurance board," committee chairman DeWitt Hale, D-Corpus Christi, told Hurlbut Wednesday. The committee set a hearing for

Monday at 2 p.m. and planned to continue it Tuesday and Wednesday. Committee members also planned a

hearing later this month into complaints about the Corpus Christi State School, where a resident recently drowned in a shower.

Hale said committee investigators

#### Health seminar slated Friday

BIG SPRING - A Mental Health and Alcoholism seminar will be held Friday at Big Spring State Hospital. The seminar is the 34th in a series of bi-monthly sessions on the subject of

had searched complaint files at the Richmond State School and planned to delve into those of the Mexia State School.

Hale said an Austin grand jury that investigated the insurance department last summer believed "there were administrative deficiencies . . . that would warrant this committee probing further.'

State Insurance Board files show Hurlbut and Hovater sold health insurance policies to some 260 groups, including the Pasadena Independent School District, in the name of Nation-Wide Health Insurance Trust.

Former board lawyer Hector De-Leon reported that evidence showed Nation-Wide "was an unexecuted doc-

ument," meaning it didn't exist. Hurlbut and Hovater told the insurance board they were the fall guys for Guff Atlantic. They claimed Nation-Wide was established by Gulf.

Further up the line, they said, was Nationwide Corp., parent of Gulf At-

The claimed Gulf Atlantic set them up in Houston, paid for their telephone, secretary and rent and, furnished them an office.

## Lozano investigation may be subject of brutality seminar

CORPUS CHRISTI - A federal grand jury investigation into Larry Lozano's death Jan. 22 in the Ector County Jail may be the subject of speculation today as principal figures connected with the case are expected to participate in a seminar on "police brutality. The American G.I. Forum will open

its 30th annual national convention with a potentially volatile panel discussion which is expected to focus attention on several cases involving the Hispanic Community across the country, including the Lozano case, which is currently being studied by U.S. Justice Department officials in Washington, D.C.

Participating in the discussion will be Ruben Sandoval, the San Antonio civil rights attorney who is representing the Lozano family, and Drew Days, in charge of the Justice Department's Civil Rights Division.

It is Days who may be one of the officials making a decision whether to recommend indictments on alleged civil rights violations committed against the 27-year-old former Pecos man during the 12 days he spent in jail in Odessa prior to his death.

Also participating in the discussion will be Jamie Boyd, the U.S. Attorney who helped present evidence to a federal grand jury which recessed in Midland last month after hearing testimony from 66 witnesses during a week-long session.

## Mourners, 12 abreast, view body of Pope Paul

By EDWARD MAGRI

VATICAN CITY (AP) - The body of Pope Paul VI was removed from its coffin during the night and put on a low catafalque in front of the great altar of St. Peter's Basilica to be viewed by thousands filing past it. Vatican officials hurried the

mourners 12 abreast past the bier. But at noon, 4½ hours after the great bronze doors of St. Peter's were opened, there was a 20-minute wait in line, and the crowd was growing.

Although the body had been embalmed, deterioration appeared to be setting in. The facial features were deformed, and the skin had a brow-

Four ventilating fans were installed around the catafalque.

The plain oak coffin was brought to Christendom's largest church early Wednesday evening from the papal summer residence at Castel Gandolfo, 13 miles south of Rome, where the 80-year-old leader of the world's Roman Catholics died Sunday night after a heart attack.

The coffin was closed before it left Castel Gandolfo, and Vatican officials said earlier that it would remain

sealed. But cardinals and other prel-ates arriving from abroad asked that it be opened so they could pay hom-

Lines began forming at dawn in St. Peter's Square, commencing two days of public homage before the funeral and burial Saturday. The great bronze doors of the basilica opened at 7:30 a.m., and the crowd walked silently along a corridor of barricades.

Four Swiss guards, dressed in their ancient multi-colored uniforms and steel helmets, stood rigid at the four corners of the bier. It was flanked by a crucifix and a single burning candle, symbolic of eternal life.

A black Mercedes hearse brought the papal casket to the Vatican from Castel Gandolfo, where more than 60,000 persons viewed the body in the three days before it was placed in the triple coffin of cypress, lead and

More than 4,500 police and security men lined the route and guarded the motorcade against attacks from the left-wing terrorists who have plagued Italy for months. It was the biggest concentration of security forces since Premier Aldo Moro.

As helicopters buzzed overhead, the 11-car motorcade stopped briefly at the Basilica of St. John Lateran, the pope's cathedral as bishop of Rome

the kidnapping and murder of former where Pope Paul prayed three months ago for his murdered friend Moro. Cardinal Ugo Poletti, the vicar of Rome, read the prayers for the dead before a crowd of several thou-

sand, and the motorcade got under

way again. Cloth-draped barricades held back a one-third-capacity crowd of 35,000 as Vatican ushers in formal dress bore the undraped coffin through St. Peter's Square. A group of cardinals

and several hundred other prelates holding burning candles chanted the litany for the dead as the body was placed before the altar where Pope Paul and his predecessors had said

## Negotiations with Vietnam could begin soon

ready to discuss the establishment of diplomatic relations with Vietnam, but actual talks may be a month off, according to State Department officials.

"It's all a matter of timing," one official said.
The officials, who asked not to be identified, said the response to Vietnamese overtures might occur sooner except that the Carter administration wants to give Congress time to finish work on the 1979 foreign assistance bills.

Until that legislation is cleared, the administration fears any negotiations with Vietnam could prompt the introduction of amendments to tie its hands, just as Congress did on the question of Rhodesian eco-

With the foreign aid bills presumably cleared by late September, the officials said, high-level talks may begin in New York when Secretary of State Cyrus R. Vance attends the opening of the United Nations General Assembly session.

The officials also said that any American eager-

WASHINGTON (AP) - The administration is ness to exchange ambassadors with Hanoi might offend China as an intrusion into its bitter dispute with Vietnam, which has seen the expulsion of thousands of Chinese shopkeepers from Vietnam.

The State Department is weighing the advantages of establishing relations with Vietnam against the possible irritation to relations with Peking such a move could entail.

Hanoi has been signaling loudly in recent weeks that it wants to establish diplomatic relations with the United States.

Thus, Vietnamese officials have been telling interviewers and American citizens that they no longer

terms.

ALEXANDRIA, Egypt (AP) — The Camp David summit casts the United States in a decisive role in the search for a Mideast settlement. It also puts President Carter's neck on the line, one of his senior advisers concedes.

If under Carter's direction, Egyptian President Anwar Sadat and Israeli Prime Minister Menachem Begin can clear a path to peace next month, he will get a lot of the credit.

A peacemaker image can pay off in the polls and overcome domestic political reverses.

But if they don't break the deadlock, or if Carter is heavy-handed with Israel, he could slip even further in public esteem. This is a risk Carter has decided is worth taking, even though the Arab-Israeli conflict has persisted for 30 years, defying all attempts at military and diplomatic solutions.

America's involvement in the situation has been deep ever since the United States helped to engineer

the cease-fire in the 1973 Yom Kippur war.
That intercession began a gradual shift toward "even-handedness" on Washington's part and away from often unvarnished support for Israel.

Intensive diplomacy by Secretary of State Henry A. Kissinger untangled the Egyptian and Israeli armies in the Sinai and then forced the Israelis to pull back on the Sinai and Golan Heights fronts in 1974 and 1975.

Sadat insisted that the United States, as the mediator, holds "99 percent of the cards." By this he meant the power to prod Israel into making conces-

A number of American diplomats question Sadat's assumption. As an independent country, and a parliamentary democracy as well, Israel can be both stubborn and independent even of its chief source of military and economic aid.

It didn't like the terms arranged by Kissinger in his first attempt at a Sinai agreement in 1975 and blocked the deal until they were revised. To help Israel make up its mind Kissinger had President Ford declare a "reassessment" of U.S.

support. This implied a slowdown in vital arms

The revised terms accepted by Israel later that year were not radically different from the terms that have been rejected. In his 1976 campaign, Carter capitalized on the concern for Israel and promised there would be no

"reassessments" as long as he was president. There have been none. However, in a number of major issues, he has come down on the Arab side of the conflict with Israel — trying, meanwhile, to win for Israel the recognition the Arabs were never willing to give until Sadat's dramatic visit to Jerusalem last No-

Carter said the Palestinian Arabs had "legitimate rights" to a homeland that would be carved out of Israeli-held territory. He said Israel must withdraw on all fronts, including the West Bank of the Jordan

And, for a while last year, he tried to find a way for the Palestine Liberation Organization to participate in negotiations. The PLO lost out by refusing to ease its stand against Israel.

Carter has given Sadat support far beyond the issues. He has helped burnish the Egyptian president's image, proclaiming him to be "the world's foremost peacemaker."

And he has authorized the first shipment of jets to

Egypt and to Saudi Arabia as a reward for their moderate" policies.

Now by taking on the role of "full partner" in the stalled negotiations, Carter is acceding to another

According to Egyptian and American officials Washington and Cairo are in full agreement on the meaning of that role. By upgrading its participation, the Carter administration makes it possible for Sadat to do a graceful

## Sambo's has tiger by tail, 'butters up' Northeast

BROCKTON, Mass. (AP) — Almost 80 years after "Little Black Sambo" first lulled children to sleep, the tale about a boy who watched tigers turn to butter is tripping up a national restaurant chain.

Pickets, political debates, outraged petition drives and threats of court suits have popped up since the chain decided to branch into the Northeast. And all because of its name -

'Sambo'' is offensive, the opponents say, because the word was once an insulting nickname for black peo-

When the California-based string of restaurants began putting up Sambo's signs in New England, protests followed. Now, one town is holding up its permit while officials consider banning the name. Another dow that said 'kike' ... Wouldn't the has the town lawyer looking into the same thing.

Because of the opposition, the chain has changed the names of 13 of its restaurants to "Jolly Tiger." But Sambo's does not like to do that because these restaurants cannot take advantage of Sambo's national advertising, says the chain's spokesman, David Severson.

The chain, though aware that some find "Sambo's" insensitive, says it has a legal right to keep its name and plans to do so.

Opponents say the issue is more than a matter of nursery stories. They worry that Sambo's signs will stir up racial trouble.

"What if black people opened a restaurant and put a sign in the win-

Jewish community be upset?" asked Rudy Santos of Brockton, a leader of the opposition.

Severson said Sambo's has been operating for 21 years, but the name brouhaha is new. "We're expanding all over the country, and the Northeast is where the objections have come from," he said.

Sambo's was started in Santa Barbara, Calif., has restaurants in 47 states and plans to open its 1,000th next month. Severson says the name does not come from the children's story but was a combination of the names of the founders, Sam Battistone and Newell Bohnett.

However, the chain capitalized on the coincidence. Signs at its older restaurants show a little black boy

and a tiger. Murals from the book decorate the walls.

Now, however, Severson says that tigers are the only vestige of the story left in the new restaurants' decor. The anti-Sambo's movement has

gained intensity in New York and New England, but it seems to be strongest in southeastern Massachusetts, a mostly white area of mill cities, fishing ports, wealthy suburbs and trendy ocean resorts.

In Brockton, a mill city south of Boston, the License Commission is withholding the restaurant's license while the city solicitor decides whether the commission can order Sambo's to change its name.

"When we issue a license, and we see that the name is going to cause problems, it is our busines to look into it." said Matthew A. Vosgerchian, one member of the commission. At a meeting packed with Sambo's

foes, the City Council voted 8-1 to ask the commission to ban the Sambo's

If the restaurant eventually wins city approval, Santos says, the opponents will try to get a court order to

On Cape Cod, selectmen in Hyannis also have asked the town lawyer to see what can legally be done to get the name changed.

families, the new Sambo's was picketed when it opened this summer. And nearby in Rockland, people are organizing a petition drive against a Sambo's planned there. In two other communities, North

In Raynham, a town with four black

Dartmouth and Fall River, Sambo's agreed to rename the restaurants "Jolly Tiger."

One Urban League branch requested the state attorney general to prohibit use of the word on restaurant signs. "Using the word 'Sambo' is tantamount to yelling fire in a crowded theater," said Emergy N. Jackson, president of the Urban League of Eastern Massachusetts. "It stirs up such hostilities."

WASHINGTON (AP) A top government scientist says a smoker can consume a pack a day of some new cigarettes on the market "without apparent risk."

'We don't want to call them safe. We don't think there is such a thing. But some are so low (in tar and other toxic substances) as to cause no observable hazard," says Gio Batta Gori, head of the smoking and health program at the National Institutes of Health.

The tobacco industry has developed these new cigarettes with the help of millions of dollars in government research

Gori and Cornelius J. Lynch of Enviro Control Inc., the government's prime contractor on what has become known despite their objections — as "safe cigarette research," have identified the "tolerable levels" of smoke for 27 cigarette brands with relatively low tar.

The levels are based on the maximum amount of tar, nicotine and four other toxic substances found in the smoke that an average smoker might consume before his death rate rises above that of a nons-

A person could smoke 23 cigarettes a day of Carlton Menthol - over a pack - before reaching the tolerable level, Gori and Lynch said. Tolerable levels of the other brands range from 18 cigarettes a day for Now Menthol to three a day for King Sano, King Sano Menthol, Merit, Merit Menthol, Real and

Gori said details of their findings are to be published soon in the Journal of the American Medical Association.

The two define tolerable levels in terms of cigarettes before 1960, when tar and nicotine contents were much higher than today and studies first identified the long-term risks of cigarette smoking. Gori said studies have

shown that people who smoked no more than two pre-1960 cigarettes a day had no higher death

rate than nonsmokers. Therefore, he ex-plained, if one could reduce the various toxic substances in cigarettes below the pre-1960 levels, a smoker presumably could smoke more of the new, "low-hazard" cigarettes without increasing the risk of dying from lung cancer, heart dis-

#### Rankin girl wins honors

RANKIN — This Upton County community has quite a lot to boast about: twice area girls have earned the honor of being named Miss Texas Pecan.

This year Lerri Fitzhugh, 17, daughter of Mr. and Mrs. Sam Fitzhugh, nabbed the crown during competition among 12 contestants from Texas and the Southwest.

Miss Fitzhugh, a high school junior, will make a series of appearances this year during regional pecan festivals — including one slated to be held this winter in Midland, according to members of her family.

The honors student acquired her queen's title in late July during the Kerrville Pecan Festival. Mrs. Fitzhugh said her daughter plans to at-tend Angelo State University a year from now. She intends to study clothing design.

#### MidTran date changed

Board of directors for MidTran will meet at 9 a.m. Tuesday, instead of Thursday as had previously been announced.

The group will meet in the Chamber of Commerce conference room to discuss sources of funding and to announce a new MidTran director, according to John Ingram, MidTran presiease or the various other ailments associated with

cigarette smoking. Gori said the government research project has tested more than 150 modifications of the ordinary cigarette in efforts to reduce the hazards and some of those modifications are showing up smoke's toxicity, he on the market.

By changing the porousness of the paper, the soil in which the toleaf's texture, the curing process, the filter, the burning temperature and the method of manufacture, scientists have smoking is hazardous. substantially lowered the

turned over to the tobac- believed to be the chief co industry, and "some cancer-causing agent, bacco is grown, the cut of these new cigarettes while nicotine is known are a direct result of this to have short-term adwork," Gori said, al- verse effects and is suthough the industry has spected of causing addicnever admitted cigarette tion, peptic ulcers and other damage.

> Tar, the total particu-Gori and Lynch also late matter found in ciga- compared the amounts

> > DIFFERENCE POLICY

The results have been rette smoke, is generally of four other hazardous substance reduced least years for most smoking- smoke in their lungs substances in cigarette from pre-1960 levels. smoke: carbon monoxide, hydrogen cyanide, nitrogen oxides and acrolein.

> While some brands showed higher tolerance levels in some substances, the total tolerance level was determined by the hazardous

That means the brands ranked least hazardous aren't necessarily the ones with the lowest tar and nicotine, the substances shown in cigarette advertisements.

Gori conceded that be- rettes, either because cause it takes many people tend to hold the

related diseases to show longer or because new up it will be some time before there is specific scientific evidence to prove or disprove his as-

sumptions. And some recent studies question the value of low tar and nicotine cigaadditives in the tobacco and paper may prove

"But we feel confident," Gori said, "that these cigarettes will be useful to the point you will have people smoking a pack a day without apparent risk."

"Each of these advertised items is required to be readily available for sale at or below the advertised price in each store, except as specifically noted in

Services for David K. McAllister, 70, of 2200 N. Main St. will be at 2 p.m. Friday in Resthaven Mausoleum directed by Newnie W. Ellis Funeral Home. The Rev. Bill Skaggs of Kelview Heights Baptist Church of Midland will officiate.

McAllister died Sunday in a Midland nursing home.

He was born May 28, 1908, in Petersburg, Mich. His wife, Corinne, died Nov. 8, 1972.

McAllister worked for the Texas **Employment Commission from April** 1963 until his retirement in December

He had served as deacon and treasurer of Memorial Christian Church of Midland, treasurer of the United Council of Churches and as a board member and treasurer of Casa de Amigos, an east Midland service cen-

Survivors include a son, Robert E. McAllister of Groton, Conn.

## Ramona Freeman

LUBBOCK - Services for Ramona Freeman, 46, of Lubbock, mother of Mike Freeman of Midland, were to be at 2 p.m. today in Sanders Memorial Funeral Home here with the Rev. Bill Gibson, pastor of Temple Baptist Church, officiating, assisted by Hulen

Mrs. Freeman died Monday in a Lubbock hospital after a six-month illness.

Mrs. Freeman was a native of Crosby County and a graduate of Crosbyton High School. She married John Edwin Freeman Oct. 23, 1948, at Crosbyton and moved to Lubbock in the same year. She was the bookkeeper for her husband at Rhodes Safety

She was a member of Temple Baptist Church and a past president of the Ladies Auxiliary of the Veterans of Foreign Wars.

Survivors include her husband, two other sons, a sister and four grand-

#### Ted Miller Jr.

BIG LAKE - Services for Ted E. Miller Jr., 20, of Big Lake, brother of Teddia Miller of Midland, will be held at 10 a.m. Friday in First Baptist Church here with the Rev. J.B. Bitner, pastor, officiating. Burial will follow in Glen Rest Cemetery, Big Lake.

Local arrangements are under the direction of Robert Massie Funeral Home of San Angelo.

Miller died Wednesday in an automobile accident near Big Lake.

He was born July 9, 1958, in Big Lake. A lifelong resident of Big Lake, he was an oil field worker. He was a graduate of Big Lake High School and a Baptist.

Survivors include his parents, Mr. and Mrs. Ted E. Miller Sr., of Big. Lake; two other sisters, Mrs. Laura Jones and Julie Miller, both of Big Lake, and his grandparents, Mr. and Mrs. Clarence Gillaspy of San Ange-

#### J.V. Thornton Jr.

GOREE - Services for J. Van Thornton Jr., 54, brother of Glenda Thornton of Midland, were Tuesday in the First Baptist Church here. The Revs. Jarrell Sharp of Seymour and Roger Dwerinwater, pastor of the First Baptist Church, officated. Burial was in Goree Cemetery directed by McAuley-Smith Funeral Home of Munday:

Thornton died Sunday in a Wichita Falls hospital following an automobile accident.

He was the newly-elected president of the Texas Cowboys Reunion Association, an organization of oldtime cowboys.

Thornton was born Oct. 3, 1923, in Goree. He was a resident of Weatherford and was employed with the city's water department. He was a member of the First Baptist Church. He married Rudy Montgomery of

Fort Worth, July 23, 1963. Survivors include his wife, a son, two stepdaughters, another sister and five grandchildren.

#### **Anna Roberts**

BIG SPRING - Services for Mrs. Anna Roberts, 90, of Big Spring, were to be at 1 p.m. today in Nalley-Pickle Rosewood Funeral Home. Graveside services and burial will be at 10 a.m. Friday in Crown Hill Memorial Park, Dallas.

Mrs. Roberts died in a Big Spring nursing home at 5:15 a.m. Wednes-

She was born April 16, 1888, in Enis. She was married to Edward Roberts on April 22, 1910, in Denton. They lived in Dallas until 1954 when he died. She then moved to Big Spring.

Survivors include a daughter, Mrs. Brodie Cain of Big Spring; a grandchild, six great-grandchildren and three great-great grandchildren.

#### Birdie Russell

BROWNFIELD - Services for Birdie Russell, 94, of Brownfield and formerly of McCamey will be at 10 a.m. Friday in Brownfield Memorial Chapel with the Rev. Alton West offi-

Burial will be at 4 p.m. Friday in McCamey Cemetery directed by Brownfield Funeral Home. She died Wednesday in a Brown-

field nursing home after a lengthy illness.

Mrs. Russell was born in Katemey. She was married to William A., Russell in Monahans on Aug. 26, 1906. They moved to McCamey in 1926 and she moved to Brownfield in 1975. Her husband died Sept. 28, 1964. She was a Baptist.

Survivors include five daughters, Jewell Mason of Brownfield, Laura ford of McCamey, and Loretta Evans and Ruby Wilson, both of Odessa; a brother, Ervin Beauford of Odessa; 10 grandchildren, 40 great-grandchildren and eight great-great-grandchil-

#### Mary Thorp

LAMESA — Mary Etta Thorp, 95, of Big Spring died Wednesday in a La-

mesa hospital after a brief illness. Services will be at 10 a.m. Friday in Crestview Baptist Church with the Rev. C.G. Grigg, pastor, officiating. Assisting will be the Rev. Clarence Howell of Hemphill. Burial will be in Lamesa Memorial Park directed by

Brannon Funeral Home. Mrs. Thorp was born in Pike County, Ark. She was married to George Thorp on Dec. 17, 1904, in Munday. They moved to the Dawson County community of Klondike in 1921 and lived there 30 years. Her husband died Nov. 19, 1952. She was a Bap-

Survivors include three daughters, Hazel Turnbow of Loving, N.M.; Leta Howell of Hemphill and Jewell McKinney of Lamesa; two sons, O.T. Thorp of Albuquerque, N.M., and Woodrow Thorp of Kansas City, Mo.; 13 grandchildren, 28 great-grandchildren and three great-great-grandchil-

we can't wait to tell you! Opening soon in our annex,

"THE VAULT"

our new MEN'S store.... plus our new portrait studio... all new for you. It won't be long...

#### Herman Gannon

HENRIETTA - Services for Herman H. Gannon, 75, of Henrietta, brother of Mrs. C.C. Lippincott of Andrews, were Monday in the Henrietta Church of God, with Travis Porter, former pastor, officiating. Burial was in Hope Cemetery here.

A retired carpenter, Gannon was born Oct. 26, 1902, in Oklahoma. He had been a resident of Henrietta since

Survivors include four sons, two daughters, two other sisters, 17 grandchildren and 29 greatgrandchildren.

#### Laura Wylie

BIG SPRING — Services for Laura Mary Wylie, 67, of Big Spring were to be at 4 p.m. today in Sheppard Funeral Home with burial in Trinity Memo-She died Wednesday in a Big Spring

hospital following a lengthy illness.

Born March 24, 1911, in El Paso, she was a legal secretary. She was a member of the Church of Christ, Sci-Pallbearers will be Carroll Coates, Carl Ford, Knox Pitzer, Kenneth

Ptitzer and James Pettigo, all of Big

#### Juan Arguello

STANTON - Services for Juan Arguello, 88, of Stanton were to be at 10 a.m. today in St. Joseph's Catholic Church here with the Rev. Frank Chavez of Odessa officiating. Burial was to be in St. Joseph's Cemetery directed by Nalley-Pickle Funeral

Arguello died Tuesday in a Big Spring hospital after a lengthy ill-

He was born June 12, 1890, in Mexico. He was married to Andrea Castilleja on May 3, 1913, in Mexico. He moved to Texas in 1923 and to Stanton

Survivors include his wife, Andrea; six sons, Cruz Arguello and Bonifacio Arguello, both of Stanton, Juan Argeullo and J.G. Arguello, both of Big Spring, Y.C. Arguello of Odessa and Paul Silva of Lansing, Mich.; four daughters, Macaria Chavez of Big Spring, Mary Marquez and Francis Valles, both of Stanton, andElisa Marquez of Odessa, 46 grandchildren and 32 great-grandchildren.

#### William Blair

ANDREWS - Services for William L. Blair, 81, of Andrews, will be at 3 p.m. Friday in Mean's Memorial United Methodist Church. Burial will be in Andrews Cemetery under direction of Singleton Funeral Home.

Blair died Wednesday in an Andrews hospital.

He was born June 9, 1897, in May, Texas, and had been a resident of Andrews for the past 36 years. He was former manager of Forest Lumber Co. in Andrews. He was also the retired former owner of Andrew8s Lumber Co., which was established in the 1940s.

Survivors include his wife, Lola; a sister, Mary Donna Killion of May, and several nieces and nephews.

REFLECTIONS OF MORE downtown construction are seen in windows of the not—quite—completed First National Bank building as the Texas and U.S. flags wave in the background. Midland continues to improve on its nickname of the Tall City with downtown construction - mostly of the sky-challenging variety booming these days. (Staff Photo by Mike Kardos)

## Rank explorer opens gas field in Culberson

Atlantic Richfield Co. No. 1 Covington-State, rank wildcat in Culberson County, 22 miles southwest of Orla, has opened a Pennsylvanian carbonate gas field. Operator filed a calculated, absolute open flow potential test of 972,000 cubic feet of dry gas per day with the Railroad Commission of

The strike was completed through perforations from 11,637 to 11,954 feet after a 30,000-gallon acid treatment. Total depth is 13,146 feet and seven and five-eighths-inch casing is cemented at 13,090 feet. The plugged

The discovery is 14 miles northwest of the King Edward (Silurian) gas

back depth is 13,040 feet.

Wellsite is 1,320 feet from north and east lines of section 7, block 114, psl

Operator reported the following tops on ground elevation of 3,748 feet: Bell Canyon 1,365, Cherry Canyon 2,-282, Brush Canyon 3,502, Leonard 4,-646, Dean 7,227, Wolfcamp7,723, Pennsylvanian carbonate 11,249, basal carbonate 11,834, Barnett 12,-614, Mississippian lime 12,992, Woodford shale 13,015 and Silurian 13,060

#### WILDCAT PROJECT

nk build-

kground.

City with

ariety —

Getty Oil Co., operating from Mid-land, announced location for a 22,250foot wildcat in Ward County, 15 miles southwest of Wink.

It is No. 1-27-19 University, 2,200 feet from north and 1,000 feet from east lines of section 27, block 19, University Lands survey.

The location is 2.5 miles northwest of the War-Wink (Atoka and Woldfcamp) field and one mile east of a 145,296-foot dry hole.

#### LUBBOCK EXPLORERS A pair of wildcat operations have

been staked in Lubbock County. Sun Oil Co. No. 1 K. F. Becton will be drilled in the northeast part of the county 17 miles northeast of Lub-

Scheduled for a 9,500-foot bottom, it is 660 feet from north and 1,980 feet from east lines of section 109, block C, AB&M survey. It is 5.5 miles northeast of the recently opened Hickville

(Strawn oil) pool. H. L. Brown Jr. of Midland No.1 Vivial will be drilled as a 5,200-foot wildcat in South Lubbock County, 1/2 mile west of a 5,076-foot dry hole. There is no nearby production.

Location is 660 feet from north and 1,320 feet from west lines of section 8, block 20, HE&WT survey and seven miles west of Slayton.

#### DISCOVERY OFFSET

Monsanto Co., Midland, announced location for a 19,250-foot project 5/8 mile southwest of the discovery well and only producer in the Rodgers (Ellenburger) field of Ward County, 4.5 miles north of Pyote.

The project is No. 1-17-5 University, 1,320 feet from north and east lines of section 5, block 17, University Lands

#### VAL VERDE WELL .

Resources Investment Corp. of Midland No. 1-8 Arledge has been completed in the Will O (Ellenburger gas) area of Val Verde County, 8.5 miles northeast of Pandale.

The well, 1.5 miles northwest of other production, finaled for a calculated, absolute open flow potential of 6 million cubic feet of gas per day, through perforations from 13,285 to 14,176 feet after 14,000 gallons of

Hole is bottomed at 14,682 feet and 5.5-inch casing is set on bottom. Wellsite is 1,320 feet from south and west lines of section 8, block Q-4,

TCRR survey.

DAWSON RE-ENTRY

Getty Oil Co. announced plans to re-enter the depleted discovery well of the Knigh-Miller (Fusselman) field of Dawson County and attempt recompletion.

The project, originally completed in 1972, is No. 1 I. L. Graham. Location is 660 feet from north and west lines of section 6, block 35, T-4-N, T&P survey. It originally was completed by Knight & Miller Oil Corp. of Mid-

The re-entry is one location south of the only other producer in the field.

Operator will test above 10,400 feet. Total depth is 11,685 feet and 4.5-inch

casing is set one-foot off bottom. The well was potentialed initially for a daily pumping gauge of 75 barrels of 42-gravity oil, with a gas-oil ratio of 1,000-1, through perforations from 11,633 to 11,638 feet.

#### CONCHO WILDCATS

Leede Oil & Gas, Inc., of Midland staked two wildcats in Concho County, 10 miles southwest of Eden.

No. 2 J. R. Canning is 467 feet from south and 1,845 feet from west lines of section 61, block 8, H&TC survey. It is 1,200 feet east of Leede No. 1 J. R. Canning, recently completed undesignated Goen oil discovery. The new test is scheduled for a 4,000-foot bottom. No. 1 Canning was completed through perforations at 3,761-3,771 feet for a daily flow of 226 barrels of 39-gravity oil, through a 12/64-inch

choke. Gas-oil rato was 1,575-1. Leed No. 3 J. R. Canning is one location northeast of No. 1 Canning and 1,667 feet from south and 1,980 feet from west lines of section 61, block 8; H&TC survey. It also will be drilled to 4,000 feet.

#### CROCKETT TESTER

Andover Oil Co. of Tulsa No. 1-17-38F University is a new 4,200-foot wildcat in Crockett County, eight, miles southeast of Barnhart.

The location is 660 feet from north and west lines of section 17, block 38, University Lands survey. The site is one location northeast of Andover No. 1-18-38C University, discovery well of the one-well Block 38 (Ellenburger

#### FISHER EXPLORER

Jones Co., Ltd., of Albany announced location for a 3,900-foot Hope lime wildcat in Fisher County, five miles northeast of Rotan.

The project is No. 2 Hattie Howard, 1,320 feet from north and 1,100 feet from west lines of section 180, block 2, H&TC survey.

The site is one mile northeast of the four-well Hope lime pool but separated from it by depleted producers.

#### Delaware well finals

Gulf Oil Corp. No. 5-OB State has been completed in the Caprito (middle Delaware) field of Ward County, four miles northwest of Pyote.

It completted for a daily pumping potential of 20 barrels of oil and 113 barrels of water, through perforations from 5,994 to 6,193 feet after 1,000 gallons of acid and 21,010 gallons of fracture solution.

Gravity of the oil is 39.4 degrees and the gas-oil ratio is 4,200-1.

Total depth is 6,600 feet and the plugged back depth is 6,487 feet. Wellsite is one location south of other production and 1,980 feet from

south and west lines of section 23,

block 17, University Lands survey.

## Appeals court decides to stay out of quarrel

NEW ORLEANS (AP) -- To the relief of the State Department, a federal appeals court decided Wednesday it has no role in the bitter quarrel over the rich oil rights of the Sheikhdom of Umm al Quaywayn in the Persian Gulf.

At issue before the 5th U.S. Circuit Court of Appeals was an attempt by Occidental of Umm al Qaywaynb, Inc., to seize tanker loads of oil arriving at U.S. ports from offshore wells near Umm.

Occidental contends that in 1969 Umm granted it the exclusive right to oil within Umm, on its continental shelf or in its territorial waters for 40

A similar concession was granted a month later by the nearby sheikhdom of Sharjah to Butte Oil Co.

Conflict developed in 1970 when Butte decided to drill in an offshore area claimed by Occidental.

Iran' army and navy got into the ensuing scramble, on Sharjah's side, and the countries involved finally settled the dispute. Their agreement left Butte in place and the Occidental Petroleum Corp. and its Umm subsidiary out in the cold.

Butte sold slices of its splendid holdings to Ashland Oil Inc., Kerr McGee Corp., Skelly Oil Co. and Cities Service Co.

After losing a federal court fight with Butte, claiming it was ousted from Umm by conspiracy, Occidental began trying to seize tanker loads of

Butte oil under admiralty law claim-

ing unlawful conversion of property. The cargo of the Dauntless Colocotronis and two other tankers was seized in 1974, though later released to the defendants pending the outcome of this legal fight.

U.S. District Judge Edwin F. Hunt-er Jr. of Lake Charles, La., had granted a summary judgment for the defendants against claims cited in the admiralty case because a decision would call into question the acts of foreign states."

"We dismiss on the slightly different ground that the question presented is political, being both constitu-tionally devolving on the executive and judicially unmanageable, and therefore, not a 'case or controversy' within Article III of the Constitution,'

## Fisher gains edge project

Rhodes Drilling Co. of Abilene will drill No. 1-C Sam Swann as a project on the south edge of the three-well Adas (Canyon reef) field of Fisher County, 6 miles northeast of Eskota.

The 5,000-foot test is 4,243 feet from south of the northeast corner of R. S. Speirs survey No. 283, then 990 feet west to location.

### Meeting denied

NEW YORK (AP) — Officials of the Organization of Petroleum Exporting Countries are denying published reports the oil cartel plans a special meeting next month to raise oil

"We do not know anything here about an extraordinary meeting," OPEC spokesman Hamid Zaheri said in Vienna today. The organization next regular meeting is scheduled for December.

Zaheri's statement echoed one made Tuesday in New York by OPEC Secretary-General Ali M. Jaidah. In New York for a session of the American Bar Association annual meeting, Jaidah said, "There hasn't been a final decision made on whether there will be a meeting next month."

According to the reports, OPEC would meet Sept. 19 at Taif, Saudi Arabia, to raise prices 5 percent in the first half

OPEC oil ministers are reportedly concerned about the declining value of the U.S. dolfar, the currency they use for oil pricing. An OPEC study is said to have found that the current \$12.70 per barrel price of oil is actually worth only \$7.70 because of the dollar's decline in value on world foreign exchange

OPEC members have been discussing ways to make up for the slumping purchasing power of their dollars, including raising oil prices and dropping the dollar as their chief curren-

## Brazil plans to grow fuel

By RICHARD W. FOSTER Associated Press Writer

BRASILIA, Brazil (AP) - With vast land areas and a surplus of farm labor, Brazil has launched a massive program to grow the fuel it needs for motor vehicles - replenishing the supply each new crop year.

If expert predictions hold up, Brazilians will be getting their fuel from the country's sugar cane fields in the next few years. A three-year-old program to convert sugar cane into alcohol as a gasoline substitute is fully under way, with 187 new distilleries under construction.

Even now, alcohol is being blended in 20 percent mixtures with gasoline in eight major Brazilian cities. The telephone companies in Brasilia and Sao Paulo have converted their fleets of Volkswagen Beetles to burn 100 percent alcohol. One government research institute predicts that nearly 40,000 cars will be running on pure alcohol in Brazil by 1980.

The alcohol drive first was regarded as a joke, especially because sugar cane alcohol is used to make Brazil's most popular drink, a rum-like beverage called cachaca.

But now, because of pressing economic reasons, the government is committed to spending \$1.6 billion to boost the nation's annual alcohol output to over a billion gallons by the end of the decade. Brazil is now the world's largest producer of sugar

When the alcohol program began in 1975, production was only 125 million gallons

Brazil now imports 80 percent of its crude oil, at a cost of \$4 billion a year. Partly because of this drain, the nation's annual economic growth rate fell from 11 percent in 1973 - when the first big oil price hike hit - to 3.9 percent last year.

Brazil's ultimate goal is to produce "gasohol" not only from sugar cane but also from the common cassava plant and from the babacu palm which grows wild in the Amazon jun-

"I don't accept the term 'energy crisis'," says physicist Jose Bautista Vidal, Stanford University-educated head of industrial research in Brazil's Commerce and Industry Ministry. "There is plenty of energy. It's simply that petroleum is a finite, rapidly disappearing fuel, while alcohol - in a country such as Brazil with abundant sunlight and land and surplus farm labor - is constantly replenishable and potentially cheap.

There are some bottlenecks, however, in the alcohol expansion pro-

As alcohol production increases, Petrobras, Brazil's state oil-refining monopoly, will have to modify its present equipment to produce relatively less gasoline in comparison to other petroleum by products. Otherwise there will be a gasoline glut. This will be expensive and time consum-

Nonetheless, the alcohol program is gaining support. Sugar refineries avidly are backing it - not surprisingly - but so are automobile companies. Fiat and Volkswagen, both of which have large Brazilian operations, are conducting alternate fuel research in collaboration with the

## Carter decides to sell Soviets equipment plant

By DON OBERDORFER The Washington Post

**THURSDAY, AUG. 10, 1978** 

WASHINGTON - The Carter administration, in a decision with political and economic significance for relations with the Soviet Union, has decided to allow the sale to that country of a large plant for producing oil-well drilling bits.

The \$144 million deal worked out by Dresser Industries, a Dallas firm, was the subject of widespread speculation and a new round of government policy-making when President Carter ordered reprisal action last month for the political trials of dissidents Anatoly Shcharansky and Alexander Ginzburg.

At that time, Carter canceled the sale of a computer to Tass news agen-cy and decided to ban most travel to the Soviet Union of policy-level U.S.

Carter also announced that future exports of oil technology to the Soviet Union would be placed under a highlevel review

Most of the Dresser sale had been previously approved, but a \$1 million segment to provide a sophisticated electron beam-welding machine was subjected to study under the president's order. This machine contains a computer of its own.

According to Deputy Assistant Secretary of Commerce Stanley Marcus,

## Investigation underway

OKLAHOMA CITY (AP) - FBI agents are in the "preliminary stages" of an investigation into what

onfirmed Wednesday.

Oliver "Buck" Revell, FBI special agent in charge for Oklahoma, said the probe was initiated based on information from "people in the oil business."

Divided to the probability of th

Revell also confirmed agents have interviewed several Tulsa oilmen at the request of FBI agents in Houston and Florida. He said the U.S. Department of Energy also asked for interviews as part of an investigation into alleged schemes to sell old oil at higher prices being brought by newly produced oil.

"There are a lot of allegations and we're a long way from proving anything," Revell said, while refusing to identify the oilmen interviewed thus far or say what firms or individuals the probe is aimed at.

He said investigators are attempting to determine if a "pattern and practice" found in other states extends into Oklahoma

In a scandal uncovered last year in Florida, old oil was resold several times and companies tampered with their books to conceal its origins so it could be sold at new oil prices.

Oil from wells completed prior to 1973 has a \$5.50 a barrel price ceiling while new crude has a \$12.75 per barrel ceiling. Officials of several major Oklaho-

ma of companies contacted Wednesday said none of their officers have been interviewed in connection with the investigation.

### Sledge test completes

H. G. Sledge of Midland has filed potential test for his No. 1-1 Jann, project in the Big Salute, North (Canyon) field of Sterling County, 17 miles east of Garden City.

The well potentialed for a daily flow of 69 barrels of 47.5-gravity oil and two barrels of water, through a 14/64inch choke and perforations from 7,-531 to 7,932 feet. The gas-oil ratio is

The pay section was acidized with 2,000 gallons and fractured with 40,000

Total depth is 8,130 feet and 4.5-inch casing is cemented at total depth. Wellsite is 2,310 feet from south and 1,980 feet from west lines of section 19, block 22, H&TC survey.

## Fourth well potentials

C. F. Lawrence & Associates, Inc. of Midland No. 3-B Hobbs has been finaled as the fourth Wolfcamp gas well in the Clara Couch multipay field of Crockett County, 16 miles east of

The well fiinaled for a calculated, absolute open flow potential of 1,015,-000 cubic feet of dry gas per day, through perforations from 5,616 to 5,632 feet.

Location is 1,667 feet from north and 467 feet from west lines of section 5, block GG, H&OB survey.

the decision was made Wednesday to approve the export license for the welding machine, which will permit the entire Dresser deal to go forward.

White House officials said Carter had decided to allow the case to be decided on its bureaucratic and technical merits, without regard for the state of U.S.-Soviet political relations.

The effect of the decision is to limit, at least for now, U.S. economic reprisals for the dissident trials to a single case, the Tass computer.

There had been a sharp division of opinion within the administration about such actions, with Secretary of State Cyrus Vance and Secretary of Commerce Juanita Kreps opposing the use of trade as political leverage, and presidential assistant Zbigniew Brzezinski and some of his National Security Council staff on the other

Several senators, including Henry M. Jackson, D-Wash., had called for cancellation of the Dresser oil deal. **Jackson expressed regret Wednesday** night that the final element of the arrangement has been approved, and said his permanent subcommittee on investigations will look into the matter. He said providing such sophisticated technology was a poor idea — when the United States is attempting to persuade the Soviet Union to "live up to its commitments' on human

Advocates and critics of the Dresser deal agreed it would enhance the Soviet Union's ability to exploit its potentially vast oil reserves. Proponents of the sale said, among other things, it is in the U.S. interest that the Soviet Union be relatively selfsufficient in petroleum rather than be forced to draw large amounts of oil from the tight international market expected in the 1980s.

#### Irion area gains oiler

MWJ Producing Co. of Midland No. 2-B Ranch has been completed as the second well in the Tucker (Canyon) field of Irion County, 13 miles north of

Operator reportted a 24-hour flowing potential of 12 barrels of 39-gravity oil and one barrel of water, through a 12/64-inch choke and perforations from 7,719 to 7,870 feet after a 40,000gallon fracture treatment.

Location is 1,320 feet from north and west lines of section 66, block 14, H&TC survey 3,770 feet northwest of the other well.

The operator reported the following tops on ground elevation of 2,438 feet: upper Spraberry 4,730 feet, middle Spraberry 5,290 feet, lower Spraberry 5,595 feet, Dean 6,155 feet and Canyon

The well is surrounded by Spraberry producers.

## Three killed, two hurt in oil field explosion

Loving, 13,300.

TEMPLE, Okla. (AP) - A salt water storage tank and a transmission line leading to it exploded at an oil field lease near here Wednesday killing three roustabouts and injuring

Cotton County Sheriff Paul McKown identified the men as Archie Milburn, 58; Joe Lewis, 61, and Euall Ray Douglass, about 30, all of Temple and all employed by the Kewanee Oil Co. of Wichita Falls, Texas. Thomas Newsom and Robert Rid-

dle, two other members of the work crew, were treated and released at a local hospital. McKown said the men had dug a two-foot deep trench to reach a transmission line about eight feet away

from a 5,500 gallon salt water storage

"They were welding, cutting on a pipe, and I guess some gas backed up and exploded. They were killed instantly" by pieces of pipe and debris propelled by the explosion, McKown He said one victim still was clutch-

ing a welding torch in his hand when

cers had originally thought the tank

that exploded was an oil storage

## Mitchell, Haldeman parole board decision due Friday

WASHINGTON (AP) - John N. Mitchell and H.R. Haldeman expected to learn today or Friday whether the full U.S. Parole Commission will let them out of prison earlier than scheduled.

Lawyers for the two Watergate figures appeared before the commission on Wednesday asking for reconsideration of the release dates set recently by a commission panel: Dec. 20 for

Haldeman and Jan. 19 for Mitchell. By then Haldeman will have served 18 months at the minimum security prison in Lompoc, Calif., and Mitchell

will be credited with having served 19

months, although only 14 months will have been spent in the prison camp at Maxwell Air Force Base, Ala. Mifchell was out on medical furlough the rest of the time.

Each man was convicted of con-

spiring to obstruct justice and of ob-

structing justice in the cover-up of

White House involvement in the Wa-

tergate affair, and of multiple counts of lying under oath. They were the last of 25 men sentenced to prison to begin their terms and they remain the only Water-

gate defendants still imprisoned.

## Inflation holds blacks back

LOS ANGELES (AP) - Inflation has prevented blacks from making the same economic progress as whites, the president of the Bank of America has told the 6th annual Conference of the National Urban

"In the recent environment of slow, labored growth and high inflation,

black family income has not grown in relative terms," A.W. Clausen told the 2,000 delegates at the conference Tuesday

United Auto Workers President Douglas Fraser told the delegates that the blame for inflation should be placed "on the doorstep of Conesignated (Mor-K Mesa Petroleum 1 Weed-State, 1,t from north and et from west lines ion 24-18s-24e. 10 ortheast of Arte-

## CETA better managed than Manpower, study says

By OWEN ULLMANN

AP Labor Writer
WASHINGTON (AP) — Despite disclosures of widespread abuses, the federal government's huge public jobs program known as CETA has been better managed than its predecessor, according to a new report.

But an independent research group also concluded in two studies released this week that CETA - the Comprehensive Employment and Training Act — has been less successful in reaching the poor and hard-core unemployed than the jobs program operating during the 1960s - the Manpower Development and Training

In its studies, the National Re-search Council, a branch of the independent National Academy of Sciences, noted several shortcomings with CETA, but recommended that the \$11 billion program be extended with changes that would target more aid toward the most needy.

The council's endorsement came as the House voted Wednesday night to cut back up to 100,000 CETA-funded jobs as it considered an \$11 billion,

four-year extension of the program. The House also voted to set a \$12,000 wage ceiling for CETA workers.

Under present law, individual salaries in some areas can be as high as \$15,000 so long as the averages for all CETA jobs in the area was not over Unlike the centralized Manpower program, CETA shifted control to

state and local governments, which hire and train people with federal CETA, enacted in 1973, is subsidizing 725,000 jobs this year intended to

go to the long-term unemployed and those with low incomes. The program requires that local governments not use federal money to pay for existing, locally funded

However, there have been numerous disclosures of local or state mismanagement and fraud involving CETA funds. Alleged abuses have ranged from hiring friends or relatives to financing local services so a

city treasury could save money. The Labor Department has said the abuses affect only a tiny portion of CETA programs, but it nevertheless has created a special investigative unit to root out those abuses.

In one study, the research council concluded that CETA has been more effective in managing the nation's employment and training program than the earlier Manpower program in terms of greater community participation in planning, better allocation of funds and closer management and accountability.

"CETA has definitely improved the management of training programs," said Philip J. Rutledge, chairman of one of the studies. "But the delivery of training services to those most in need has been reduced in the transi-

Other criticisms were that CETA emphasizes programs that provide temporary employment rather than permanent job-training programs; that the percentage of CETA trainees

finding jobs has declined to 35 percent from 50 percent under the pre-CETA program, and that 35 percent of the CETA-funded jobs existed previously on local payrolls. A separate report examined a 1977

CETA expansion program, sponsored by the Carter administration, that more than doubled the previous pro-

That study found that the administration met its goal of creating jobs

#### Marine Corps recruiting probed

CLEVELAND (AP) - Gen. Louis H. Wilson, commandant of the Marine Corps, has ordered an investigation of recruiting practices following reports of abuses in the Cleveland area.

Wilson said Wednesday he had directed Lt. Gen. Kenneth McLennan, manpower chief of the Marines, to check the situation in all six of the Corps' districts.

Cleveland newspapers have reported that Marine recruiters falsified school and police records to allow the acceptance of potential recruits. The allegations surfaced after a Marine recruit from Cleveland who attempted suicide charged that recruiters made promises which never were ference Wednesday an investigation of recruiting practices in the Cleveland area showed no evidence of undue pressure to meet quotas.

Brig. Gen. Roy E. Moss, assistant commander of the Marine Recruit Depot at Parris Island, S.C., said the Corps double checks the backgrounds of recruits to control any potentially fraudulent recruiting practices.

More than a half-dozen present and past recruiting sergeants have given sworn statements to congressional investigators stating they were subjected to intense pressure by a former Cleveland recruiting chief, Maj. Klaus D. Schreiber, to come up with recruits

Schreiber, now stationed in San

for 400,000 unemployed people in nine

The study also found that the expanded program showed a sharp increase in the number of low-income people employed through CETA, from 44 percent in 1976 to 66 percent in

"But speed did take its toll," the study added, noting that in creating so many jobs in such a short period, CETA managers failed to follow a number of eligibility requirements.

As a result, the study found that one in 10 participants did not meet entry requirements.

In addition, half of the projects were found to be extensions of ongoing activities, increasing the possibility that CETA money was being used

improperly on local services. The administration, which supports extension of the program, has credited CETA for a drop in the unemploy-ment rate during the last year from 7 percent to just over 6 percent.

#### Tax group qualifies

CARSON CITY, Nev. (AP) - A group trying to get a tax relief plan approved in Nevada turned in about 36,000 signatures to the secretary of state's office and qualified for the November ballot.

Deputy Secretary of State Dave Howard said Tuesday that the People's Advocate committee had to turn in at least 20,890 signatures and a partial count showed that 22,890 of the signatures were valid.

The proposal calls for a 60 percent property tax cut and would restrict the ability of the Legislature and local governments to boost any taxes.

## British tourist hit by sniper on San Francisco cable car

SAN FRANCISCO (AP) — A sniper fired a single shot at a crowded cable car on Nob Hill, wounding a British tourist who called himself "a lucky man" for surviving.

Terrence Carney, 45, was in satisfactory condition at Mission Emerency Hospital today with a bullet lodged in his side, below his right armpit and inches from his heart. Police said he was shot at 6:50 p.m.

Wednesday as the No. 9 cable car rolled down the north slope of Nob Hill on Powell Street, two blocks from the city's famed Fairmont and Mark Hopkins hotels.

'I heard this loud pop. I felt a burning senation on my side then,

after a brief moment, I lost all feeling and realized I was bleeding," said Carney, manager of the Midlands Bank in Sheffield, England. He said he arrived in San Francisco only the day before for a long-awaited visit to the West Coast.

Police converged on the scene me ments after the shooting.

'You just don't know in a case like this," said Inspector William Bigarani. "We know there was a sniper, but we can't tell if he was in a building or firing from a passing car. It's just a weird situation.

Operators of the cable car said other passengers crowded on the vehicle did not panic.

## New cigarettes cause no observable hazard WASHINGTON (AP) - Aided by government

research, the tobacco industry has developed cigarettes that "cause no observable hazard" to health, a top government scientist says. But they still can't be considered safe, he adds quickly.

A smoker can consume a pack a day of some of the new cigarettes on the market "without apparent risk," Gio Batta Gori, head of the smoking and health program at the National Institutes of Health, said in an interview.

"We don't want to call them safe," he continued. "We don't think there is such a thing. But some are so low (in tar and other toxic substances) as to cause no observable hazard.' Gori and Cornelius J. Lynch of Enviro Control Inc.,

the government's prime contractor in the research project, have identified the "tolerable levels" of smoke for 27 cigarette brands with relatively low

The levels are based on the maximum amount of tar, nicotine and four other toxic substances found in the smoke that an average smoker might consume before his or her death rate rises above that of a

#### Citizens hear health concerns at hearings

ODESSA - A small audience of citizens heard that perinatal care, emergency medical services, heart and cancer diseases are at the top of the list of health concerns in the area, during a public hearing held in the Ector County Courthouse Monday to discover

The hearing was held by the Permian Basin Health Systems Agency in an attempt to gain public input for a revision of the 1978-79 Five Year and One Health care plans.

A similar hearing was held in Midland Monday where the main concern voiced by nine people attending was health care for the elderly, said offi-

cials. The plans are revised each year in accordance with U.S. Department of Health, Education and Welfare regulations for the health agency to retain

its full designation. Full designation gives the agency the power of review and approval of federal grant requests submitted by medical and other health-oriented or-

ganizations in the Permian Basin area. Each year 13 major health concern areas are given priorities by the governing body of the agency, along with suggested plans of action, before being sent to

HEW, said officials. During the short hearing, which lasted only 10 minutes, no comment was entered on any of the 13 areas outlined in-the 1978 plan, nor were any suggestions made, said officials.

One member of the audience, however, noted following the meeting that more attention should be given to health care for the elderly.

Comments received from the public hearings held

throughout the Permian Basin region will be given to agency task forces, which will then analyze problems, suggestions and silutions, said Joyce Wein, planning coordinator for the agency.

Officials said a similar public hearing was held Tuesday in Big Spring for the same purpose

10. "I'll Find It Where I Can," Jerry Lee Lewis

## Ronnie McDowell trying to escape 'ghost'

By JOE EDWARDS

NASHVILLE, Tenn. (AP) — One year after Elvis Presley's death, Ronnie McDowell still has trouble believing the king is gone.

McDowell became an instant celebrity last August when he recorded 'The King is Gone" immediately after Presley died last Aug. 16. Written in 30 minutes as McDowell sat in his car outside a nightclub in Bowling Green, Ky., the song sold more than 3 million copies.

"Sometimes I wonder if he really is dead," McDowell said while sipping a diet drink in a Music Row office. "I wonder if maybe he just wanted to be free to walk around. What gets me is

there's a trace of doubt.

"Things really haven't pier because life is ea-

changed that much," he sier. I don't have to play said. "The biggest in bars or wake up and change is that I don't get worry about the bills and to see my family that food. I'm doing what I alhave time for that."

"I'm a whole lot hap-

much. Also, I used to ways wanted to do. I've draw a lot and I don't had enough excitement to last a lifetime." He says he's happier in But minutes later, he his new lifestyle, but acknowledges: "Every day, I come in contact in some form with Elvis' name or something about him. I'll go into McDonald's and someone will say, 'You're the guy who does Elvis.' I haven't gotten away from that image. Some-times I wonder if I should have done it. But none of this (success) would

have happened if I hadn't." He's very sensitive Presley name. He sings only three Presley songs "Hurt," "Devil in Dis- Elvis," McDowell said.

WESTWOOD

guise" and "Way Down" and refused to perform in Detroit with a Presley impersonator on the first anniversary of

Presley's death. "I thought the capitalization would die down, and it has," he said. "But when someone sent me copies of his driver's license and report card, it

teed me off. "I didn't want the Elvis image to begin with. Time will heal that. You've got to be your-self; I learned that a long time ago."

Ironically, his wife is expecting their third child on about the anniversary of Presley's death. If it's a boy, he'll about capitalizing on the probably beWnamed Ronnie - not Elvis.

"He might grow up not during his shows - wanting to be branded

ANSWER TO PREVIOU

## S.O.S. assists advisers' search for lost benefits

NEW YORK (AP) - Bill Walker's heart always will be bigger than his wallet, and that says a lot. Bill isn't poor. "You can't help people without helping yourself," he says. "That's my motto."

Eight years ago when Bill was selling life insurance — more than a million dollars worth a year — a good friend died, leaving behind the usual confusion of records for his family to work through.

Somebody, he thought, should make a career of helping survivors determine their benefits. The idea possessed him, and so on Jan. 28, 1971, he founded S.O.S. in his hometown of Athens, Texas. Walker puzzled for months over how to market his

idea before offering to train bank and savings and loan personnel. They, he decided, were as involved as anyone in the family affairs of their communi-More than 900 institutions now offer the service free. On learning of a death in the community, the

local institutions's S.O.S. advisers contact the deceased's survivors, who generally can use the help.

The dimensions of the idea have grown, too. The Walkers now offer a "pre-organizational" service in which record-keeping materials are supplied to new-lyweds. A pre-retirement program is in the works. Working from a fact-filled manual, and using skills

learned at S.O.S. training seminars, advisers determine Social Security, insurance, pension and other benefits, some of them unknown to their clients. "We find thousands of dollars people didn't know they had," says Helen Walker, a trim, outwardly

serene home economics grad whose organizing abili-ty complements her husband's sales instincts. In the manual are the names and addresses of places to write for copies of birth, marriage, divorce and death certificates, and details of veterans, rail-

road, teachers retirement and union benefits. So armed, Marian Kueck, adviser at the First Bank of Commerce, Columbia, Mo., got thousands of dollars in Social Security benefits for a widower's children. He thought no benefits were available.

In another instance a widow worried about repaying \$17,000 in loans by her deceased husband. The S.O.S. adviser found the loans were covered by credit insurance the widow might never have learn-

The S.O.S. spirit is boundless. Asked by an adviser in Florida, her counterparts at Peoples National Bank in Tyler, Texas, went to the bedside of an automobile accident victim. Her husband had died in

Distressed and seriously injured, the victim was further upset by the loss of her eyeglasses, so the adviser obtained the prescription from a Florida doctor and had a pair made locally.

Stranded in a town far from home, the woman would have had few visits except for the S.O.S. people, Marjorie Jones and Louise Davis. When she was able to travel, they also took her to the air-

Grateful beyond words, the recipient of this S.O.S. hospitality expressed herself with beautiful bouquets at Christmastime for every desk in the Peoples The spirit is contagious. "Everyone benefits from

S.O.S.," says Walker, a hearty, husky, happy fellow whose enthusiasm awakens him around 2 a.m. "Everyone," he repeats. Banks, advisers, recipients. The Walkers benefit from exclusive territorial contracts with the banks and savings associations,

renewable automatically after three years, with the fee based on the institution's trading area. Almost invariably the institutions receive their payoff in goodwill and new accounts. One recipient, a

widow, returned the expression of goodwill with a Texas-size deposit — \$1 million. More typical is the experience of the Bank of Virginia, a statewide institution that in five years traced 7,300 new accounts, valued at \$30 million, to

its program. This year it expects to gain \$15 mil-S.O.S. — for Special Organization Services Inc. is now available in 30 states. "Our goal for this time next year," Bill says, "is to have 1,500 members and

be active in every state." If attained, it will be justified. "Most people know how to get one benefit or the other but we know it all," Bill claims perhaps immodestly. But there is more to the growth; it is the S.O.S. spirit.
"Helen and I are dedicated to helping people,

said Bill at the annual convention in Dallas earlier this year, "Very few people in a lifetime have the opportunity to help so many. We feel humble."

Any of the scores of S.O.S. advisers at the convention might have expressed themselves in the same words.

## Coping not tax deductible research

WASHINGTON (AP) - Trying to cope with the costs of living in America may seem like an experiment, but it's not tax deductible research. Carl R. Johnson of Atherton, Calif., told the U.S.

Tax Court that he was on the verge of evolving a theory that would result in a new form of economics "which would be a fantastic thing, both profitably for me and also for the country." Johnson, whose business is selling tax shelter annuity investments, claimed deductions for person-

al living expenses as research and development costs for working on his new economic theory. He contended that his research centered on the

gross national product, that his living expenses were part of that product, and his research also relates to the use of money, so everything he spent was part of Judge William H. Quealy first noted that research expenses, to be deductible, must be part of a taxpay-

ers business and Johnson was a salesman, not an economist. "We question whether petitioners are proceeding in good faith," Quealy added, "However, giving

them the benefit of the doubt, it is clear that nothing in the statute permits a taxpayer to deduct his personal living expenses as research and experimental expenses ....

ONE OR THE OTHER — If you take a tax deduction for business travel expenses, then reimbursement paid by your employer must be included in taxable income, the U.S. Tax Court says. Normally if you are reimbursed for expenses you

need only report amounts in excess of your actual costs, the court noted in the case of Mr. and Mrs. Harley L. Freshour of Big Lake, Minn.

Similarly, if you are reimbursed, you may only take a deduction for expenses in excess of the amount paid you. But if you have already deducted those business expenses from your taxable income, then the full

able income. ART DEDUCTIONS LIMITED - The Tax Court has rejected deductions claimed by a Michigan artist for donations of his work.

amount of reimbursement must be included in tax-
