## House tax cut to Senate

By EDMOND Le BRETON

WASHINGTON (AP) — The \$16.3 billion tax cut approved by the House is on its way to the Senate, where the figure is likely to grow - perhaps to

**METRO EDITION** 

Ignoring President Carter's call months ago for a \$25 billion tax cut and his last-minute \$18.1 billion compromise effort, the House on Thursday adopted, 362-49, the measure written by its Ways and Means Com-

Indeed, most of the president's tax recommendations failed to survive House scrutiny, including his proposed curbs on the so-called threemartini lunch and a capital gains tax

He's also unlikely to prevail in the Senate, where Sen. Russell B. Long, D-La., the Finance Committee chairman, has said a \$16.3 billion reduction wasn't enough. He wants to add about \$4 billion to offset inflation and next

year's Social Security tax increase. Long, who shepherds tax bills through the Senate, generally has his way on such legislation. His panel begins hearings on the tax cut bill

vide income tax savings of \$62 for a typical family of four with \$10,000 income, \$77 for a \$15,000 family, and

For single taxpayers in correspond-

ing brackets, the savings would be

\$15, \$71 and \$105. In passing the committee bill, the House dealt Carter a blow by defeating, 225-193, his compromise which would have cut taxes an additional \$1.8 billion and would have directed the reductions more to those with

incomes below \$15,000. At the White House, presidential press secretary Jody Powell issued a terse, one-sentence comment: "If you make \$50,000 or more, the House vote

House Speaker Thomas P. O'Neill, D-Mass., despite strained relations with the White House, made the final plea for the adminstration measure, terming it more equitable than the committee version and saying Carter

would sign it. At the same time, however, he said the administration had been tardy in bringing in its compromise, saying, "If it had been brought in four or five months ago, it would have sailed through Congress."

In adopting the Ways and Means Committee version, the House further ignored Carter by voting to retain a Republican-backed addition that would take inflation into account beginning in 1980 when taxing capital

The amendment would have no immediate effect, but ultimately, according to estimates, could cost the

### \$146 for a \$20,000 family. Treasury \$4 billion a year. It would Stanton suit charges

STANTON - Four Mexican-Americans earlier this week filed a class action lawsuit in federal court in Midland against Martin County officials in seeking equitable voting precincts

The four men allege that "discriminatory treatment" denies them and other Mexican-American residents "fair and equitable representation" in Martin County voting precincts.

The county seat of Martin County is Stanton. The suit was filed Wednes-

Filed by San Antonio civil rights lawyer Luis M. Segura, the suit names Bonitacio Arguello, Santos Guevara, Ricardo Parra and Joe Luis Salgado as plaintiffs.

The men charge in the suit that the existing method of apportioning Martin County commissioner precincts involves "excessive population deviations" which makes the system "un-

constitutional." Defendants named include Martin County Judge Jimmy Mathis and commissioners Troy Bradsaw, M.D. Goggin, Ronnie Deatherage and Earle Newcomer.

The plaintiffs claim members of their race suffer from "common, adverse and distinct problems in the fields of education, employment, health, politics, economics and

The suit further contends that the Martin County Commissioners' Court

racial discrimination last allotted "county commissioners precincts according to law many years ago and such apportionment now contains a population disparity in

the neighborhood of 100 percent.' They also charge that this situation "divides the Mexican-American communities of Martin County in such a way as to dilute and minimize their

impact on elections." Reached for a comment Thursday, County Judge Jimmy Mathis said, "I haven't been served with papers involving this yet. Evidently it has something to do with the way voting is going on; misalignment of voting pre-

He said the subject is on the Martin County Commissioners' Court agenda for 10 a.m. Monday to be discussed at

cut capital gains receipts in half.

Those gains are the profits from sales

The provisions most opposed by the administration would reduce the top tax on capital gains to 35 percent, from the present theoretical maximum of 49 percent. It also would eliminate the minimum tax on capital gains which is imposed on the very wealthy who would otherwise pay little or no taxes.

As a concession to the administration, the committee wrote in an alternative tax designed to insure that even if sheltering devices were used, capital gains would be taxed at least 5 percent.

The bill also would give homeowners a break by providing that, once in a lifetime, a taxpayer could sell his or her principal residence and pay no tax on a gain of up to \$100,-

ODESSA - "We are getting covered with paper," declared Jack Minor, administrator of the Odessa Municipal Court.

Minor said the Odessa Municipal Court is figuratively snowed under with "thousands of appeals to process" because the agency is not a court-of-record as is Midland Municipal Court.

Judge William B. Ahders presides over the Midland Municipal Court while Judge Otis Moore is in charge of the Odessa Municipal Court system. While Odessa Municipal Court strains to process the thousands of cases appealed to the Ector County Court level, Midland Municipal Court boasts a record of only one appeal in

the last three years, Ahders said.
"I would say-there have been thousands of cases of appeals — probably 3,000 or more — and this is just in the last year," reported Minor.

He said an appeal in a non-court-ofrecord "is very easy. For example, people appeal their traffic violation convictions to the county court level in order to avoid paying higher auto insurance rates.

In Texas, only Midland, Houston, Wichita Falls and Sweetwater boast courts-of-record status, according to "In Odessa Municipal Court, you

have the right to appeal a case

Court, the only way you can appeal a case decision is if there has been a mistake shown by the judge, jury or prosecuting attorney," he added. He estimated Odessa Municipal

Court may have several hundred cases which never come to trial because these are appealed from the municipal court level and dismissed by a higher court. "It's a rampant statewide problem." Midland gained court-of-record sta-

tus in 1975 as a result of a bill approved by the Texas Legislature and authored by state Sen. W.E. "Pete" Snelson, R-Midland. State Rep. Tom Craddick, D-Midland, also backed the Opponents of Senate Bill 354 argued

that a court-of-record designation in Midland would deny citizens the right to appeal to the county court such misdemeanor violations as traffic

However, Ahders said the law allows the defendant 10 days in which

to appeal following a judgment.

When a case is appealed, to the county court level, and the conviction is upheld, there still is the possibility of the case being heard before the Court of Criminal Appeals in Austin. Even there, Ahders said, the case is heard on the basis of earlier errors by

However, he said more could have been done. "I think you will probably see more done in the area of tax relief

day and Tuesday. The majority of the 1,600 telephone interviews were completed before it was

announced that Carter would

meet with Israeli Prime Minister Menachem Begin and Egyptian President Anwar Sadat at Camp David next month to try to restart the stalled Middle

East peace talks. Two-thirds of those interviewed said that, in general, Carter has not been tough enough as president in trying to get things done. About 25 percent said he has set the right tone and 3 percent said he has

been too tough. Six percent were not sure. This perception is related to Carter's low job rating. Among those who think Carter

has set the right tone in the Oval Office, his job rating is a split 49-49. But among those who say he hasn't been tough enough, his rating is 19-80.

Overall in this week's poll, 26 percent of the public gave Carter a "good" or "excellent" job rating. But 73 percent labeled his performance "only fair" or poor". One percent were undecided.

In the June AP-NBC News poll, 27 percent gave Carter good or excellent marks while 70 percent rated his work only fair or poor. Since the error margin for a poll of 1,600 people is 3 percent, it cannot be said that this change is a significant one.

The perception of a lack of toughness in Carter's actions goes beyond this country's dealings with the Soviet Union — the

## Odessa's city court 'covered with paper'

(Continued from Page 1A)

a judge, prosecuting attorney or a

Before the change, now three years ld, Midland Municipal Court shouldered the same burden which Odessa Municipal Court now carries, said

After a defendant was convicted in in municipal court, he appealed his case to the Midland County Court level. The cases were transferred over to the county court whether or not error was committed earlier, he said.

There, the case was tried "de novo" or from the very beginning which required witnesses, law officers and others to re-assemble, recalled Ahders.

A court reporter takes notes of all trials in a court-of-record which develops a transcript to allow higher courts to search for error in such proceedings, Ahders said.

Municipal courts are where such cases as traffic, drunkeness, minor theft, disorderly conduct and criminal trespassing violations are heard. Even violations of city laws do not escape the review of municipal courts, said Ahders.

Minor said: "In July of this year alone, we had in the neighborhood of 400 cases which defendants chose to

appeal to the county court level out of more than 2,500 cases that month!" That figure excludes misdemeanor parking violation cases, he added.

As a result, Minor said, the situa-

tion has caused a "burden" on his

office to process the appeals.

"We are obviously processing so many cases for appeal that we don't have the staff to really handle it. I've ordered more file containers to inity. More staffers are sought, too."

While some attempts have been made in the Texas Legislature to make all municipal courts in the state courts-of-record, such moves have consistently failed.

Minor speculated there may be a similar move on behalf of the Odessa Municipal Court during the next session. "Just to cut down on the number of appeals, it would be good if we became a court-of-record," he said.

"Naturally when a large number of cases being appealed continue to flow through a local legal system, this causes the county court dockets to become crowded in addition to the workload of the municipal court,"

Minor added. He said the city of Fort Worth once sought a special bill from the legislature designating their municipal court a court-of-record. However, he indicated the city never adopted a law finalizing such a change.

However, Minor said he remains optimistic that the Odessa City Council "would probably go along with the idea, if we had our own state law passed approving it."

Until then, Minor said his municipal court staff will strive to operate as normally as possible, despite the mountains of paperwork caused by citizens appealing their conviction cases to a higher judicial level.

## House-passed tax bill now goes to Senate

(Continued from Page 1A)

tions allowed for only half the cost of food and drinks at most meals, rather than the full amount.

In addition to rejecting the Carter plan, the House also voted down, 240-177, an official Republican Party proposal for a one-third slash in income tax rates over three years. Republicans have made that plan the spearhead of their fall congressional cam-

Although debate on the measure was sprinkled with references to a taxpayer revolt symbolized by California's property-tax-limiting Proposition 13, the final House bill was the the least costly - in terms of federal revenue lost - of the three major proposals.

The Republican proposal, embodying the heart of legislation pushed by Rep. Jack F. Kemp, R-N.Y., and Sen. William V. Roth Jr., R-Del., was estimated to cut taxes by \$31.9 billion in 1979, \$69.8 billion in 1980 and \$120.7 billion in 1981. Kemp and others argued, however, that the revenues would be made up by stimulating the economy through lower unemployment and greater investment.

After the House vote, Kemp and Roth told reporters the fight for their bill would continue in the Senate. "We'll win later," Roth said.

Kemp said, "I'm not going to let up. I'm looking at a proposal for a citizens' referendum to demand lower taxes.

The House refused to allow a vote on a proposed amendment for an offset to the Social Security tax increases going into effect next year. The amendment would have allowed a taxpayer to subtract from income taxes 5 percent of the amount of Social Security taxes paid.

Democrats divided sharply between the committee-produced and the administration-favored bills, but the vote on the Republican proposal closely followed party lines.

### Warm weather making return?

For the first time in about a week, residents in the Midland-Odessa area were exposed to 90-degree weather Thursday as an unseasonal August cooling trend appeared to break into

warmer weather. The National Weather Service at Midland Regional Airport recorded a high of 91 degrees Thursday and was forecasting highs in the middle 90s for today and Saturday. The record high for August 10 was 104 degrees set

The evening temperatures overnight warmed up a little, but did hit a low of 64 early this morning. The record low for today is 60 degrees set back in 1931.

## Crackdown on police brutality cases promised

CORPUS CHRISTI, Texas (AP) -A top assistant to Attorney General Griffin Bell says new guidelines are being worked out to protect the rights of Mexican-Americans mistreated by law enforcement officers.

He told Mexican-American leaders the Justice Department will be more aggressive in the future regarding allegations of civil rights violations.

Drew S. Days III, head of the Justice Department's civil rights section, said a major stumbling block in the past has been that the U.S. attorney general has learned of many of the controversies months after they occurred. He urged those at a workshop on

police brutality here Thursday to make sure the complaints are forwarded to Washington as soon as possible. The workshop was held during the 30th national American GI Forum convention in Corpus Christi. Days said said the Justice Depart-

ment is establishing specific guide-lines to determine which cases disposed of by state and local law enforcement officials will be investi-

Days said he will outline specific proposals after he returns to Washhe will tell Bell speedier methods should be implemented to investigate and prosecute civil rights violations.

His comments followed a verbal barrage by Mexican-Americans against the federal government's alleged sluggishness in prosecuting civil rights violations and cases of police brutality against Mexican Americans.

Days said Bell directed him to "make assessments and report back to him on the steps I think he should take" regarding the Mexican-Americans' complaints about their treatment by law enforcement officials. Ruben Bonilla, state director of the

League of United Latin American Citizens, called on the Justice Department to allow U.S. attorneys to investigate and prosecute civil rights cases without prior authorization from Washington.

Days was accompanied by several U.S. law enforcement officials in Texas. Nine federal officials met Thursday morning with 10 to 15 state and local Hispanic leaders during a closed session. The U.S. officials also held a private meeting to discuss possible ways to hasten investigations, Days said.

## ington. Among other things, he said Midland County solons 'agree,' with difference

(Continued from Page 1A)

ing a \$450 milliom "School District" Reimbursement Fund" is expected to compensate systems during 1978-79 and 1979-80 for revenue they would lose to property tax relief measures.

In addition, lawmakers, passed a constitutional amendments package which backers claim would cut property taxes for homeowners, farmers and ranchers. Main feature of the proposal, which voters will decide upon this fall, is the taxing of all farm and ranch land based on its productivity instead of its market value (selling

Another aspect of the proposed amendment would restrict state spending increases to the same percentage as the Texas economy's growth rate.

Lawmakers specifically repealed the four percent state sales tax on residential gas and electric bills while they also raised the inheritance tax exemptions from \$25,000 per person to \$200,000 per person. The state sales tax cut - which could cut \$4 from a \$104 electric bill kes effect with billings after Oct. 1.

The inheritance tax reducitons apply to persons who die after Sept. Cost of the inheritance tax and sales tax reductions was estimated at \$491 million through Aug. 31, 1981.

Craddick said the constitutional amendment which voters will decide upon in November, "could have been a lot stronger than it is." He said it could habve been stronger if the issue was voted on during regular session with more time.

Still, he said the amendment to be voted upon does have "a lot of good features such as the farm/ranch land provision.'

He said he doubts if counties and school districts will be hurt by the provision because the state will reimburse them funds to take up the slack caused by the absence of formerly regular sources of government revenue.

Snelson said if the measure is approved by Texans, agricultural land will be taxed on the basis of productivity, not market value. "The way it is now, if farmers or ranchers have a bad year and their land market value is still high, they get taxed to death. That's why this revision is so important to agricultural producers."

Craddick said the spending limitation placed into the amendment should cut down state costs. "Increases can only develop at the same percentage as the Texas economy's growth rate under this amendment. The Texas economy is booming statewide. But we also have vast state surpluses as a result.

Snelson said he is pleased that the inheritance tax exemption has been increased because, "It will help a lot of people, especially the families of those persons who die and have property. It will basically help lighten the tax load of the families of those who have died.'

Craddick said he is happy lawmakers were able to pass bills which will have the effect of decreasing the state's budget surplus by roughly \$1 billion during the session.

In addition, Snelson expressed equal optimism at the increase granted taxpayers in their homestead exemption. "Not only will it require a homestead exemption of \$5,000 on their property, but it will also open up the possibility that those over age 65 may receive even higher exemptions by legislative action.

Snelson said the legislature could set up criteria based on need in this area. "Older people on fixed incomes, in this way, would be provided some relief."

He explained that the exemption has been on the books a long time, adding that the latest action merely increases the amount of the exemption affecting every homeowner in He agreed with Craddick, that the

good because we will have a state treasury surplus when the legislature convenes in January.

Snelson also expressed satisfaction school districts will receive some reimbursement funds. "The proposed constitutional amendment will save local taxpayers about \$450 million with the state required to make up the difference of what is lost as a result exemption increases. This helps school districts.

"By increasing the homestead exemption, we decrease the tax base of school districts. So in this case, the state will make up the difference of what is lost to these systems as a result of the increased homestead exemption.

He estimated the latter action will save Texas taxpayers \$450 million over the next three years. Also, he said,"The utility and inheritance tax moves will save state taxpayers \$450 million over the next three years.'

Craddick, a businessman, has served 10 years in the 68th District which includes Midland, Glasscock, Reagan and Upton counties. He said he believes there is a "definite possibility" more Republicans may be elected to the Texas Senate and House because of retirments and trehnds in the state.'

Snelson, an advertsing executive, who represents Midland county and 33 others in West Texas encompassing his 25th Senatorial District, ranks sixth in seniority in the Senate. He was first elected to the House in 1960, later being elected to the Senate in 1964. He indicated although the legislature took some tax relief action, "now it will be up to cities to determine if they wish to eliminate the one percent sales tax."

## Major effects of tax bill at a glance

(Continued from Page 1A)

volving the capital gains tax. These gains are profits from the sale of property such as stocks and real estate held at least a year.

Cut the top tax rate on capital gains from 49 percent to 35 per-cent; repeal an alternative 25 percent tax on the first \$50,000 of gains; take inflation into account beginning in 1980; and create a special once-in-a-lifetime capital gains tax break, allowing a \$100,000 exemption on the sale of a main home.

While removing capital gains from the so-called minimum tax on the rich, the bill would subject them to a new alternative minimum tax.

CARTER: Raise rather than lower capital gains taxes, by repealing the alternative 25 percent levy.

HOUSE: End the federal ite-

mized deduction for state and local gasoline taxes. Abolish itemized deduction for political contributions, while retaining the alternative credit for them.

Revise the medical expenses deduction to tighten and some-

what simplify the provision. CARTER: End the gasoline tax deduction, abolish the political contributions deductions and keep the credit. Combine the deductions for medical expenses and casualty and theft losses into a single deduction for hardship losses.

HOUSE: Rejected changes Carter sought in his attempt to curb business deductions for entertainment.

CARTER: Recommended only half the cost of business-related entertainment be deducted, rather than the full amount. The proposed cut was Carter's attack on the so-called threemartini lunch.

## Hill calls tax package 'important first step

By LINDA HILL R-T Staff Writer

LUBBOCK — Texas Attorney General John Hill Thursday said the tax relief package passed by the Legislature in special session is within the realm of reason...at least

an important first step."
Hill claimed all of the tax relief measures had been part of his platform in his campaign for governor.

The Democratic candidate was in Lubbock Thursday as part of a West Texas campaign trip. He and his opponent, Republican Bill Clements, had press conferences in the same room an hour apart. Asked about Clements' charges

that Hill had acted to block tax relief legislation, Hill said, "Nothing could be further from the truth." He said he had been a "constructive and positive force throughout the session. He also said he is "comfortable"

with all of the measures passed, and urged voters to approve the constitutional amendment package. Futher tax cuts, he said, can be considered during the next Legislature after the amount of surplus reve-

nue is determined. He said he would have liked the Legislature to have enacted some sort appraisal for tax purposes. However, Hill said he is against state enforce-

ment of those guidelines. On Clements public challenge to debate, Hill said he had appeared on the same platform with his opponent four times. "Had he stayed today, I

points," Hill said. Scheduling a formal debate, he said, would be up to staff members who handle his itin-

Although Clements had accused Hill of favoring the labor reform act and the U.S. House-Senate energy compromise, Hill said he is opposed to both those bills. Hill said he would oppose the energy proposal as long as it extends natural gas price regulation to intrastate gas.

The Democrat said he does not think President Jimmy Carter will be an issue in the gubernatorial race.

"They (Texans) will vote for or against me...I've never been on Jimmy Carter's payroll or Richard Nixon's," he said.

Hill said Republican efforts to link him and other Democratic candidates with Carter are "a diversionary tactic because they can not run againt the records we have compiled." Hill also said he has "no com-

plaints" about the amount of political support he is receiving from Governor Dolph Briscoe, who Hill defeated in the May Democratic primary. "He has wished me well. He said he

would support me and the ticket,"

Hill said. Also Thursday, Hill attended a fund-raising reception in Lubbock at was raised. Among those attending were State Senator Kent Hance, Democratic candidate for the 19th Congressional District seat, and other area legislators.

State House Speaker Bill Clayton telegraphed Hill his regrets about not being able to attend.

### would be glad to discuss these Stanton suit charges racial discrimination

(Continued from Page 1A)

that time. "I believe the plaintiffs are apparently saying that we have more people in one precinct than in another one and by doing that it dilutes their voting power and violates the consti-

He said he could not comment further until he had been served with the lawsuit

"I have been talking to legal counsel and I don't care to comment further. The only thing they are seeking is to apparently redistrict county precincts. In the end, I'll make a statement at the proper time.'

Segura, reached late Thursday, said "We filed this lawsuit after these people came to me about a month ago and complained of a disproportionate number of persons - resident-voters - in some county precincts. This has meant that the larger number of voters in one precinct dilutes the power of voting residents of another district." He said that under the federally

mandated one person-one vote rule,

each individual ought to count the

another.

not to have their voting power diluted by gerrymandering," he said. Gerrymandering is defined as di-

special advantages to one group. Segura claimed that there has been a "lack of redrafting and redrawing of county precinct lines. We are suing Martin County because of the dilution of the Mexican-American vote there, Their voting power is in direct correlation to their ability to elect office-

### Poll shows Carter slipping when matched against potential

(Continued from Page 1A)

area usually mentioned in relation to presidential toughness. Fifty-three percent said Carter has not been tough enough with the Russians, while 4 percent said he had been too tough. Thirty-four percent said he has set the right tone. Nine

percent were not sure. The major bright spot for Carter is the public's trust rat-

Forty-seven percent said you can trust Carter to do what's right at least most of the time. Half said you can trust him only sometimes or almost never.

That 47-50 split compares to the 45-53 trust rating found in the June survey. Prior to June, the rating of the president who had made trust a major campaign pledge had fallen steadily since he took office.

Another major finding of the poll was a substantial base of generalized opposition to a Carter re-election bid in 1980. Half of those questioned said

they do not want Carter to run for re-election. Thirty-eight per-cent said they would like to see him run. Twelve percent were undecided. The nation's Democrats were

split on a Carter re-election bid. Half of the members of his own party said they want Carter to run for re-election. The remaining half were not so sure: 39 percent don't want him to run and 11 percent were undecided. Among Republicans, 26 per-cent would like Carter to run, with 66 percent saying they

don't want him to run. The rest were undecided. The crucial and large group of independent voters split 53-33 against a Carter re-election

Looking at those who said they voted for Carter in 1976, half of those said they want to see Carter run for re-election in 1980. But 37 percent of his 1976 supporters don't want to see Carter try again.

In recent months, AP-NBC News poll4s and others have shown Carter facing trouble

1980 primary of general election opponents in 1980. But such findings are a reflection of the potential opponent's popularity as well as Carter's. The finding of this poll is sig-

nificant because it shows substantial opposition to a Carter re-election bid, regardless of who the opponent is. As with any sample survey, the results of the AP-NBC News

polls could differ from the results of interviews in the sam-For polls with 1,600 interviews, the results should vary no

more than three percentage points either way simply because of sample errors. That is, there is only one chance out of 20 that the results of interviews with American adults would vary from these results by more than three percentage points.

Of: course, the results could vary from other polls because of differences in the wording of questions, timing of interviews or the method of interviewing.

same in one county precinct as in "This involves the right of citizens viding an area into political units in an unnatural and unfair way to give

## **GOP** Clements calls for stiffer teacher requirements

POST - Bill Clements, Republican candidate for governor, Thursday called for stiffer teacher certification requirements.

Clements was finishing a West Texas campaign trip which began Tuesday in Odessa.

Speaking to a textile mill political action committee, Clements called quality of public school education 'the number one issue so far as the people are concerned."

"It's far too easy for a teacher to get a certificate," Clements said, adding that he believes teachers are

"improperly prepared." He also said he advocates establishing a standardized "hard-core curriculum with standardized textbooks and tests. The standardization would allow better evaluation of "the prod-

Clements also promised, if elected, to give the Texas Rangers a mission

in the Midland Hilton. Kloesel, president of **Drilco Industrial Division** of Smith International Inc., also is a director of the chamber, chairman of the National Affairs Committee of the West Texas Chamber of Commerce, a director of the Texas State Chamber of Commerce, and president of Junior Achievement of Midland,

He traced the history of the Midland Industrial Foundation, which was sponsored in 1968 by the Midland C. of C., and told of the opening in 1970 of the first phase of its Midland Industrial Park. The second phase was opened in 1974, and land for the third phase, which now is being developed, was acquired in recent

months. He said the number of persons employed in manufacturing here has increased from 300 in 1968 to more than 3,000 at the present time.

Kloesel said the Chamber of Commerce, earlier this year established and staffed a new department to deal with the city's industrial

growth and potentials. Methods used in locating, contacting and dealing with industrial prospects were cited by the speaker, who was introduced by Rotarian Bill Browder. He also described materials used in telling the Midland story and mentioned special information developed for interested clients. Much of the information, he said, reflects what Midland has to offer in the areas of education, culture, schools, recreation, climate, citizen attitudes, and business and tax

## Housing authority approves plan for Hillcrest Manor lawn

By LANA CUNNINGHAM'

Concerned that Hillcrest Manor may look "rundown" in the future, the Housing Authority of the city of Midland Wednesday approved plans to provide for lawn and tree care around the facility.

An agreement will be worked out with Permian Basin Community Center for Mental Health-Mental Retardation for a crew to take care of the lawns at Hillcrest Manor two days a week during the growing season and less often at other times.

Fred Kester, secretary for the Housing Authority, first recommended using the crew two days a week every other week. But Smith Ray, council member, said the first plan

was not enough during the summer. "People in that neighborhood were concerned about putting this housing there and that it would eventually look run down," Ray said. Member Ruth Wenck agreed, saying she had received the same complaints from people in that neighborhood.

The council also approved hiring a Hillcrest Manor resident to water the lawns with the salary to be about \$175 a month for the part-time job.

Mrs. Wenck reported the Midland Commission for Local Community Development had completed 20 houses and the First Baptist Church had finished four. She noted that the church still has some money for more houses as does the Human Relations

Susan Edwards of the council said she only has two more applications for houses to be repaired while the council has money for at least six

Mrs. Wenck added in her report that more than \$99,000 had been collected by the housing committee.

In answer to a question from a member of the audience as to what type of housing qualifies for the program, Mrs. Edwards said the owner must live in the house and make a limited income, be at least 62 years of age or older or qualify for Social Security benefits and not own more than \$20,000 in property.

While a proposed housing@program from the Department of Housing and Urban Development was limited to a geographic region in the city, Mrs. Edwards said the city program is not limited geographically.

A review of the Housing Authority's fiscal year which ended June 30 showed the group to be "in good shape," Chairman Harry Clark said.

Since the housing group did not begin the fiscal year until September 1977, the report is based only on 10 months. "Our operating base is adequate," Clark added.

The group approved extending a fence along the west property line at Hillcrest Manor to the northwest corner to cut down on the increased amount of traffic through the area. Clark explained increased development and street paving in the area has caused an increase in the traffic.

## 1,100 Memphis police walk off the beat

MEMPHIS, Tenn.. (AP) -Sheriff's deputies patrolled the streets of Memphis today after 1,100 police officers walked off their beats and onto picket

Mayor Wyeth Chandler said a state of civil emergency existed and that National Guard troops would be brought in to help protect this city of 650,000, Tennessee's largest. National Guardsmen were used five weeks ago when firemen struck for three

The walkout came as thousands of tourists flocked to Memphis for a week of activities marking the first anniversary of rock 'n' roll idol Elvis Presley's death Aug. 16.

David Baker, president of the Memphis Police Association, said Thursday night that the presence of tourists and Presley fans in the city had been a consideration in the decision to

Picket lines went up at police headquarters and all four precinct stations and police headquarters at 11 p.m. CDT, 41/2 hours after officers voted 528-266 against the pay proposal.

tracts since July 1.

The offer called for a 6.653 percent increase retroactive to July 1 with raises of \$22.50 a month and 7.5 percent by Oct. 1,

1979. The package would have boosted a veteran officer's monthly pay from \$1,148 to \$1,-

Chandler asked citizens to stay home unless travel was absolutely necessary. During the firefighters' strike, he imposed a dusk-to-dawn curfew after hundreds of fires broke out.

224 immediately

Major Gen. Van Nunally, Tennessee deputy adjutant general, said he would meet with his staff before deciding which National Guard units would be brought to

## Water needs told during reservoir hearing

Austin Bureau

AUSTIN-Using "conservative" projections, the Colorado River Municipal Water District will need at least 12,800 acre-feet of water by 1990 to meet the water demands of the district's West Texas service area, a consulting engineer told the Texas Water Commission Wednesday.

F.W. Freese, Fort Worth, further testified that projected deficit could be supplied from the proposed Stacy Reservoir.

The CRMWD is asking the Texas Water Commission for authority to build the Stacy project on the Colorado River in Runnels, Concho and Coleman

The Lower Colorado River Authority, the city of Austin and four other entities are opposing the pro-

Most of Wednesday's testimony centered on Freese's estimate of the district's water requirements for the 1980 - 2030 period, with opponents challenging several points.

Freese said he used Texas Department of Water study, with that data showing a deficiency of zero in ing a memo from CRMWD General Manager Owen a basin, Werkenthin complained.

1980, climbing to 101,430 acre-feet of water in 2030. He stressed that although the state water agency has high, medium and low projections for per capita municipal use of water, he used the low, "more con-

servative" series of figures. A "leveling off" in the per capita use of water occured in 1974, Freese said. This would be reflected by the water agency's low figures, which he called more

LCRA attorney Fred Werkenthing objected to the use of the water agency projections, saying the

department has not presented evidence in this hearing to substantiate those figures.

The commission, however, allowed Freese to continue, acknowledging his testimony relating to those figures was to show how he formed his conclusions not to the validity of the data.

Werkenthin also objected to data included by jected. Freese in his estimates which shows the district's Martin County and Ward County well fields dropping from their 1976 combined productions of 8,877 acrefeet of water to zero by 2000.

Freese acknowledged he reduced earlier estimates Resources per capita water-use projections in his of the remaining supply from the wells after receiv- where the line is drawn between the upper and lower

Ivie that cited high production levels from those fields in recent years.

Freese conceded, on questioning by Werkenthin. that he had not made engineering studies of the wells to determine their capacities but rather had relied upon his own experience and the opinion of Ivie in reaching his conclusions.

A map and accompanying data prepared by Freese was introduced showing that while the Colorado River Basin counties above the Stacy Dam site have 40.2 percent of the basin population, that same

area receives 17.3 percent of the total basin runoff. This, Freese said, would indicate the per capita runoff above the dam site is 0.97 acre-feet per year compared to 3.11 acre-feet per year below that site.

"I can't see the purpose in this," Werkenthing ob-

The map shows "folks in your area have more water per capita than those in West Texas." CRMWD co-counsel Jim Wilson of Austin maintained!

## Researchers probing the effects of TV violence

By BOB BAKER The Los Angeles Times

LOS ANGELES - For years government researchers and private education groups have been hammering at the way television viewing molds children's minds.

The pressure has mounted since 1972, when a surgeon general's report ordered by Congress concluded that children often emulate the violence they see on

These days the war is being led by the national Parent-Teacher Association, which is threatening a boycott of firms that sponsor violent or otherwise offensive pro-

What is television doing to them?

So far, most research have been speculative. Example: Is TV pro-

gramming making senior citizens more afraid to leave their homes? Dr. David Pearl, chief of the National Institute of Mental Health's Behavioral Sciences Research Branch, offers two observations and a tentative conclusion.

Factor A: It has been shown that heavy viewers of television develop an exaggerated notion of the dangers that confront them in the real world.

Factor B: An annual said. "content amalysis" of

But what about adults? television programming that is television doing finds that a sizable percentage of victims in TV shows "turn out to be on TV's influence on among the powerless in adult behavior seems to society, including senior citizens," Pearl said.

Those two observations - combined with extensive TV viewing by many seniors - lead researchers to worry that the elderly are "bound in a sense by what goes on TV," Pearl said. "Their expectations of violence and trauma are apt to be exaggerated, and they are even more likely to restrict their activities."

But there is no proof of that theory. "There's a lot of work which really needs to be done," Pearl

"It's the kind of work

that Dr. Roderic Gorney, watched a steady diet of angrily and violently toa University of California at Los Angeles professor of psychiatry, has been pursuing for several years.

Gorney, director of UCLA's Program on **Psychosocial Adaptation** and the Future, is one of a handful of American researchers to tackle the question of how adult behavior is influenced by the kind of television shows watched.

A 1977 report published by his research group claimed to be one of the first studied to prove that television dramas have "meaningful and measurable psychosocial effects on adults."

The study was based on a survey of 183 husbands who watched a special set of programs coordinated by the researchers and Theta Cable Television of Santa

Gorney and his collegues said that men who

Village Cobbler Shop

"pro-social" TV dramas ward the children. engaged in significantly less "hurtful" family behavior than men who were exposed to other types of programming.

Now Gorney wants to move into a more specific question: Do certain types of TV dramas influence child abuse? He hopes to compare his television research with existing data on child abuse and see which links seem worth test-

His interest in the connection was sparked by a woman who found that after her family purchased a large color TV set and increased its

What had once been ordinary "hurtful" behavior - losing his temper

while driving the car, for example - turned to child-beating, Gorney

"So we've begun to wonder - and we're still exploring - if there is a correlation between TV watching and child abuse," Gorney said.

"Certain personalities who are predisposed to child abuse may be driven there by a variety of circumstances - for example, a large number of children in the house, or a loss of job. One of the factors that may contrib ute may be the dosage

## Senate votes to continue food aid to South Korea

The WashingtonPost

WASHINGTON - The Senate voted Thursday to continue food aid to South Korea in light of a recent agreement to allow congressional investigators to question a former Korean ambassador suspected of mak-

ing payoffs. After an appeal by Sen. Adlai Stevenson III, D-Ill., chairman of the Senate Ethics Commitee, the Senate rejected an amendment by Sen. Lowell Weicker, R-Conn., to cut \$56 million earmarked for Food for Peace aid to Korea from the Agriculture Department appropriations

"All these idle threats and bombast have made it hard to win Korean cooperation," Stevenson said in a phone interview after the vote. "Each time the House has made another threat, the Koreans have closed the door to negotiations."

The House voted in June to trim the \$56 million in food aid from the budget because the Koreans refused to make former Ambassador Kim Dong Jo available for questioning. He is suspected of making or directing illegal cash payoffs to as many as 10 current House mem-

bers: Last week, however, the Koreans agreed to let Kim answer written questions about his dealings with members of

Congress. 'Confrontation has produced nothing," Stevenson said. "If his (Kim's) answers are disingenuous or we're not allowed the follow up (questioning) that has been promised, then it will be timely to consider reprisals."

House sources agreed Thursday that the Senate vote was appropriate be-cause of the new agree-ment. They also noted the House might recede in conference committee

### Coronary care course to start

A coronary care nursing course at Midland Memorial Hosital will start Aug. 21, according to Ellen Kennedy, nursing inservice director.

This will be an intensive course designed for MMH registered and vocational nurses interested in coronary care nursing," Mrs. Kennedy said. She added that the course is being offered now in preparation for the opening early next year of the expanded Critical Care Pavilion.

The course will be held from 8 a.m. to 2 p.m. each Monday through Wednesday from Aug. 21 through Sept. 20.

"We will use the RO-COM System of instruction," Mrs. Kennedy said. This system will cover cardiac arrhythmias, cardiac pacing, techniques of nursing and recognizing myocardial infarctions plus various problems of intensive coronary heart disease, she said.

The course will concentrate on classroom presentations with a number of Midland physicians and hospital department heads lecturing on various coronary nursing problems and methods.

to be restored if Kim's responses are adequate.

The questions might be ready to send to Korea this weekend, one source close to the House inves-

NAACP Distric

One, for example, might have many debts that must be covered in the event of death or disability. Another might have a huge mortgage. Another might have a disabled child. But some might have no Consider another popular rule: Your cash savings should at least equal six months income. Though

cited just the other day in a conversation with a government finance offficial, it shouldn't be accept-Again, individuals and families differ. And times

Fate a big factor

**AP Business Analyst** 

direction altogether.

ing of the Rule of 72 suggests.

can be used for that calculation too.

Try dividing 10 into 72. Shocking?

difficult time living within the rule.

fate.

in economic thought

NEW YORK (AP) - Those rules of thumb by

which we gauge our economic performance should

be reviewed every so often, said the financial ad-

viser, if only because they get bruised by fickle

Fate, in this instance, generally is the persistence

of inflation, a factor so generally ignored by many

rules of thumb that they point people in the wrong

Consider, for example, the Rule of 72, often used in

calculating the number of years it takes for savings

to double at specific rates of interest. The answer comes from dividing the interest rate into 72.

At today's maximum passbook rate of 5.25 per-

cent, for example, it takes about 13.7 years, which

works out to about 13 years, 8 months. In that time, to carry the illustration further, \$1,000 becomes \$2,-

Yes, and something else might happen also: The buying power of those dollars could shrink to under

\$1,000 rather than grow to \$2,000, as our understand-

In truth, the problems lies not so much with the

rule as it does with the incomplete use of it, i.e., with

not using it to estimate the erosion of inflation also. It

The Rule of 72 states that if you divide the rate of

inflation into 72 you'll obtain a rough idea of how long

it takes to cut in half the buying power of your dollar.

A familiar rule of thumb — that you should spend no more for a home than 2½ times your annual

income — is also becoming bruised by attempts to make it fit today's inflated economy.

To illustrate: The median family income now is approaching \$16,000 a year, which suggests, accord-

ing to the rule, that the typical house might be selling

for about \$40,000. But it isn't; it's over \$50,000.

This doesn't mean the rule has failed; not at all.

Financial advisers still maintain it as a measure.

But it does indicate that many families are having a

Another rule might also be examined, the one that

says a family man should maintain life insurance in an amount four to five times his annual income. Watch out for that one; inflation does a job on it.

The assumption is that your family should be left a sum sufficient to enable it to maintain its standard of living at least during a readjustment period. And that the sum should pay for educations also.

But often do not apply at all. While the "four to

five times" rule often is cited by salesmen, the truth

is that each family's needs are different.

change. The six months rule dates to pre-Social Security, pre-medical insurance, pre-jobless benefit times. We are, it is claimed, more secure today. While this contention might be disputed, some financial advisers now suggest that savings equal to

three months income is sufficient to bring many families through an emergency, such as a job loss. Pointing this out isn't to suggest that people shouldn't save, but it should be understood that there are more ways to save than to save in cash. Stocks

and other investments might also be construed as Contrary to the image they have of themelves, Americans already are rather reluctant savers, putting away considerably less of their income than do residents of Japan and many other industrial

It could be, perhaps, that they are aware of the Rule of 72 - not as it applies to length of time it takes for one's money to double, but the length of time it takes inflation to cut it in half.

## San Antonio man killed in one-car accident

OZONA - A San Antonio man was killed and three passengers also from San Antonio were injured in a one-car accident at 9 p.m. Thursday on Texas 163, about 18 miles south of here, said a spokesman for the Department of Public Safety. Authorities said Jose Francisco Casares Jr., 31, of San Antonio, died at the scene.

Injured passengers were reported to be Juan Luna, 31, Jose Reyes, 48, and Jerry Gonzales, 17, all of San Antonio. They received cuts and bruises, according to a spokesman. Authorities said the vehicle was northbound on

Texas 163 when it failed to negotiate a curve. The

vehicle reportedly overturned three or four times

and went through a fence. Faller 🖪

### DEATHS

Rev. V.T. Herron

### Rev. V.T. Herron

Services for the Rev. V.T. Herron, 74, 400 S. Benton St., will be at 2:30 p.m. Saturday in the Greater St. Luke A.M.E. Church with the Rev. A.J. Davis, presiding elder, officiating. Assisting will be the Rev. John Hurst Adams, presiding bishop of the Tenth **Episcopal District African Methodist** Episcopal Church.

Burial will be in Fairview Cemetery directed by Jackson Funeral Home. Herron died Tuesday in a Lubbock hospital after a sudden illness. He had been scheduled to speak at the Northwest Texas Annual Conference in

Lubbock. He was born Sept. 27, 1905, in Seguin. He attended Paul Quinn College. He was married to Willie Inez Miles

on Aug. 15, 1935. Herron's first pastoral assignment was in Sweetwater. He served as a pastor for churches in Lubbock, Mineral Wells, Ballinger, Cleburne, Austin, Cameron, Hillsboro, Taylor, El Paso, Beaumont and Temple before moving to Midland six years ago. St. Paul A.M.E. Church in Beaumont was started under his direction. He also was responsible for the Wayman Chapel housing project in Temple.

The pastor was elected a delegate to the A.M.E. Church General Conference several times and he served as secretary for the conference. He also served as secretary for the Texas, Central Texas and Northwest Texas conferences.

While living in Midland, Herron was a member of the Interdenominational Ministerial Alliance and served as vice president, Midland Council of Churches, Tall City Lions Club, Senior Citizens and the United Negro College Fund. He was a member of the Prince Hall Free and Accepted Masons, Mount Burnell Lodge No. 2 in Aus-

He is survived by his wife, Inez; a sister, Elizabeth Wade of Los Angeles, two nephews and four nieces. Pallbearers will be ministers of the Northwest Texas Conference African

Methodist Episcopal Church. Honorary pallbearers will be members of the Interdenominational Ministerial Alliance.

### Hozie Rumfield

HAMLIN - Services for Hozie A. Rumfield, 81, of 3307 Mariana Ave. will be at 2 p.m. Saturday in the Four Square Church of Hamlin with the Rev. Charles Hedges, pastor of the Big Spring Baptist Church, and Claude Rumfield of Santa Ana, Calif., officiating. Burial will follow in Nienda Cemetery in Hamlin.

Arrangements are under the direction of the Bill Foster Funeral Home of Hamlin

Runefield died Thursday morning in a Big Spring hospital following a lengthy illness.

He was born July 13, 1897, in Tarrant County, moving to Jones County in 1900. He spent his early life farming and ranching near Hamlin. He moved to Stanton in 1933, where he farmed until 1950, before moving to the Rio Grande Valley, where he famed until 1958. He later returned to Hamlin, retiring in 1972 to Midland, where he lived the past six years with his daughter.

He was married to Ruth Abercrom

bia Dec. 15, 1918, in Hamlin. She preceded him in death in 1968 in Hamlin. Rumfield was a member of the Baptist church.

SSurvivors include four sons, Cecil Rumfield of Midland, Claude Rumfield of Santa Ana, Calif., Turner Rumfield of Seattle, Wash., and R.D. Rumfield of Mineola; three daughters, Wanda Coomer of Midland, Minnie Corley of Hereford and Jerry Burns of San Antonio; four sisters, Mrs. Ray Boyd of Sweetwater, Mrs. Monroe Tabb, Mrs. Charlie Shipman and Mrs. Cecil Brown, all of Hamlin; 20 grandchildren, 11 great-grandchildren and several nieces and neph-

### Slim F. Hubble

Slim F. Hubble, 74, 1303 S. Johnston St. died Wednesday at his residence after a lengthy illness.

Services were to be at 4 p.m. today in Newnie W. Ellis Funeral Home with the Rev. Frank Johnson, pastor of Kelview Heights Baptist Church. officiating. Burial was to be in Fairview Cemetery.

Hubble was born Sept. 22, 1903, in Killeen. He was reared in Coryell County. He moved to Midland in 1951 from Ralls. He was a carpenter. Hubble also owned and operated Hubs Grocery. He was married to Mary Ruth Gilliland in 1940 in Odessa.

He was a member of the Baptist Church and of the International Order of Foresters Lodge in Hobbs, N.M. Survivors include his wife; a broth-

er, Eucie Hubble of Bakersfield, Calif., and a sister, Dovie Herring of Gatesville.

### Joseph McCall

Services for Joseph N. McCall, 95, of 2800 W. Illinois were to be at 10 a.m. today in the Newnie W. Ellis Funeral Home with Dr. Ray Riddle, associate minister of the First Presbyterian Church, officiating. Burial was to follow at Resthaven Memorial Park. McCall died early Thursday in a Midland hospital.

He was born April 5, 1883, in Red Cloud, Neb. McCall spent his early life on a farm near Red Cloud and in Innavale, Neb. In his twenties he moved to southeastern Idaho, settling in Pocatello. He was in the livestock and meatpacking retail and wholesale business for more than 40 years. He moved to California in 1930, settling in Redlands and becoming involved in the same business. McCall moved to Midland in 1970. He lived in a local rest home since that

Survivors include a son, Jack O. McCall of Midland, two grandchildren and five great-grandchildren.

Pallbearers were to be D.G. Roberts. William M. Cotton. and Robert F. Bailey.

### Jewel Green

EDEN - Mrs. Eddie (Jewel Hazel) Green, 83, of Eden, sister of Ruby West of Lamesa, died Wednesday in an Eden Hospital following a long illness.

Services were to be 4 p.m. today in Day-Loveless Funeral Home. Burial was to follow in Eden Cemetery.

Other survivors include her husband, four daughters, three sons, 16 grandchildren and 21 great grand-

### Norma Arnold

HOBBS, N.M. - Norma Sue Arnold, 50, of Hobbs, N.M., died Thursday in Farwell after a long illness.

Services will be at 2 p.m. Saturday in the First Baptist Church with the Rev. Tom Clayton, pastor, officiating. Burial will follow in Prairie Haven Cemetery under the direction of Petterson Funeral Home.

Survivors include her husband, Al. Arnold; four sons, Larry Arnold of Odessa and Lyn Arnold, Ronnie Arnold and Roger Arnold, all of Hobbs; three sisters, two brothers and three grandchildren.

## Krueger lauds Mahon record

WASHINGTON — U.S. Rep. Bob Krueger Thursday praised retiring House Appropriations Chairman George Mahon for "succeeding in leading the House of Representatives in passage of a record defense bill to guarantee the military preparedness of the nation.

'The 14th and final year of George

Carter was "absolutely livid" at

## efforts to implement damaging across-the-board defense cuts,"

Krueger said. Krueger was referring to proposals

offered to cut defense expenditures including an amendment to cut \$2.2 billion, a proposal to cut 1 percent of the total defense budget and another which would have cut \$643.2 million.

**DEDICATED SERVICE** recently was honored when Audrey Gill, left, former principal of Midland High School, was presented the Distinguished Service Award of the Vocational Agriculture Teachers Association of Texas by C.D. Adams, president of the group. The award was presented to Gill in Fort Worth in recognition of his dedicated service as a school administrator.

OF

19

Foy Boyd Associates and M. T. Stallter announced plans to re-enter a 5,650-foot failure in Reeves County, 13 miles southwest of Mentone, and deepen to 19,250 feet for tests of the

The project will be operated as No. 1-16 State. It is 660 feet from south and east lines of section 16, block 55, T-4, T&P survey

It originally was drilled and plugged by Exxon Corp. as No. 1 Monagas-State. The site is 21 miles northwest of Pecos. There is no nearby production.

BONE SPRINGS TEST

Amoco Production Co. No. 1-D-B Queen is to be drilled as a 9,800-foot Bone Springs wildcat in Eddy County, three miles southeast of Loving.

The operation is 1/2 mile northwest of Amoco No. 1 Pardue Farms, recently complted Strawn gas discovery, and 7/8 mile southwest of the Culebra Bluff (Atoka gas) pool.

The location is 760 feet from north

and 990 feet from west lines of section

CROCKETT STRIKE

International Oil & Gas Corp. No. 1-2 Dudley has been completed as an unidentified discovery in Crockett County, 28 miles southwest of Ozona.

The stike was completed from open hole section at 10,276, where 4.5-inch casing is set, and total depth of 10,950

It completed for a calculated, absolute open flow potential of 1.34 million cubic feet of gas per day.

It is 610 feet from south and 780 feet from west lines of section 2, W. L. Lacey survey, abstract 5326, and four miles north of the Cox (Canyon and Strawn gas) field.

STEPOUT FINALS

Harvey E. Yagtes of Midland No. 18 Empire South Deep Unit is a new well in the Empire, South (Morrow gas) pool of Eddy County, 7.5 miles west of Loco Hills.

Opertor reported a calculated, absolute open flow potential of 14,721,000

cubic feet of gas per day. Completion was through perfora-

tions from 10,722 rto 10,758 feet. The wellsite is 1,980 feet from noth and west lines of section 30-17s-29e and 1/2 mile northwest of production on the north side of the pool.

TURKEY TRACK WELL

Hondo Drilling Co. of Midland No. 2 SWright-Federal Communitized is a new well in the Turkey Track, North (Morrow) area of Eddy County.

It finaled for a 24-hour flow of 500, 000 cubic feet of gas per day, through a 1/2-inch choke and perforations from 11,012 to 11,152 feet after 5,000 gallons of acid.

Total depth is 11,300 feet and the plugged back depth is 11,254 feet. It is 1/2 mile northeast of other production and 1,980 feet from north and east lines of section 29-18s-29e and 20 miles southeast of Artesia.

BASS PROJECTS

Perry R. Bass of Midland spotted three new tests in the Indian Flat (Delaware) area of Eddy County, 12 miles east of Carlsbad.

The field has four producers. Each of the projects will be drilled

to 3,900 feet. No. 62 Big Eddy Unit is 330 feet from south and 2,310 feet from west lines of section 35-21s-28e

No. 63 Big Eddy Unit is 330 feet from south and 990 feet from west lines of section 35-21s-28e.

No. 64 Big Eddy Unit is 330 feet from south and 2,310 feet from east lines of section 35-21s-28e.

LINCOLN WILDCAT C. R. LaRue and B. N. Muncy of

Artexia will drill a 4,000-foot wildcat in Lincoln County, N. M., 12 miles north of Carrizozo and about 100 miles west of the closest production.

The remote wildcat is No. 1 Dimmitt Band, 835 feet from north and 1,650 feet from west lines of section 36-5s-10e. Elevation is 5,756 feet. ground level.

ANDREWS TEST

Amoco Production Co. No. 13 University Consolidated V is to be drilled one location northwest of the threewell Fullerrton (Ellenburger) pool of Andrews County, 14 miles west of

It is 2,173 feet from north and 2,640 feet from east lines of section 20. block 13, University land survey. It is to drill to 11,300 feet.

STERLING OUTPOST

Crown Central Petroleum Corp. of Midland No. 3-143 GTerry is to bedrilled 1/2 mile south of the Jameson (Strawn) field of Sterling County, 11

miles northeast of Sterling City. The project, scheduled for a 7,400foot bottom, is 660 feet from south and west lines of section 142, block 2, H&TC survey. Ground elevation is 2,604 feet.

Amoco also staked location for its No. 1-J Teledyne, 13,300-foot Morrow wildcat five miles northeast of Lov-

It is two miles northeast of the Culebra Bluff (Atoka) field and two and three-quarters miles northwest of the Laguna Grande (Morrow) field.

The site is 1,800 feet from south and 2,180 feet from east lines of section

GARZA WILDCAT

Knox Industries, Inc. No. 1 Lott has been spotted as an 8,700-foot wildcat in Garza County, 14 miles south of

It is 660 feet from north and 2,173 feet from west lines of section 1, block 30, T-7-N, B&B survey. Ground elecvation is 2,513 feet.

The drillsite is two and five-eighths miles southeast of the Lazy JL, Southwest (Strawn) areq and two miles southwest of the Happy (Strawn) pool.

TOM GREEN EXPLORER

Texcan Resources Corp. of Houston No. 2 Johnson is to be drilled as a 6.300-foot wildcat in Tom Green Coun-

ty, 4.5 miles northeast of Christoval. The prospector is 2,354 feet northeast of Texcan No. 1 Johnson, discovery well of the one-well Christoval, North (Palo Pinto gas) field.

The location is 1,600 feet from southwest and 1,800 feet from southeast lines of Johann Heinrich survey No. 537. Ground elevation is 2,002

DISCOVERY FINALS

Sunex Energy Corp. of San Angelo No. 1 Herbert Untermeyer has been finaled as a Canyon sand oil discovery in Tom Green County, four miles southeast of Wall.

Operator reported a daily pumping potential of 36.3 barrels of 41-gravity oil and 41 barrels of water, through perforations from 4,207 to 4,247 feet. NkThe gas-oil ratio is 643-1.

The pay section was fractured with 7,000 gallons.
The location is 1,980 feet from south

and east lines of section 137, block 11, SPRR survey and 1/2 mile north of the Susan Peak, North (Canyon) field. It is separated from that field by

a dry hole. Pinto at 3,970 feet, the Canyon sand at 4,204 feet and the Strawn lime at 4,546 feet on ground elevation of 1,923 feet.

D. B. Baxter of Midland reported potential test for a Bone Springs discovery in Eddy County, one mile north of the Texas-New Mexico state The strike, No. 5-K Ross Draw, was

completed from open hole section at 8,235-8,500 feet for a calculated, absolute open flow potential of 514,000 cubic feet of dry gas per day.

A re-entry project, the project origi-nally was drilled by Peneroc as No. 5 Ross Draw to 16,326 feet in the Morrow and plugged.

The discovery is 1,980 feet from south and west lines of section 27-26s-30e and 20 miles southeast of Malaga. It is one location north of the Ross Draw field's Delaware discovery.

(more to come) EDDY GASSER Amoco Production Co. No. 1-G-GF

State is to be dug as a southeast offset to production in the west side of the Millman, South (Morrow) field of Eddy County, 15 miles northwest of Scheduled for an 11,000-foot bottom,

it is 1,980 feet from south and east lines of section 14-19s-27e.

PHOENIX TEST Phoenix Resources Co. No. 6-L

Gardner Draw Unit is to be drilled a a recently opened two-well Morrow area in West Eddy County, 10 miles south of Hope. Slated for a 7,300-foot bottom, it is

1,980 feet from south and 800 feet from west lines of section 16-19s-21e. The location is one and one-fourth

miles northeast of Phoenix Resources No. 1 Gardner Draw Unit, the discovery well.

Dorchester Exploration Corp. completed a new well and staked location in the Four Mile, Draw, West (Morrow) field of Eddy County.

The new well is No. 1-J Liggett, 1,980 feet from south and east lines of section 6-19s-26e and 12 miles southwest of Artesia

It finaled for a calculated, absolute open flow potential of 4,604,000 cubic feet of dry gas per day, through perforations from 9,166 to 9,246 feet. Amount of stimulation, if any, was not

reported. The well is 1/2 mile west of field

Dorchester staked its No. 1-G Lossee and others Communitized as a 1/2 mile north offset to No. 1-J Liggett.

Contracted for a 9,400-foot bottom, it is 1,650 feet from north and 1,980 feet from east lines of section 6-19s-

CHAVES TEST

Fred Pool Drilling Co. of Alto, N. M., No. 2-D Sunshine is to be drilled as a 2,300-foot project in the Chisum East (San Andres) field of Chaves

County, N. M. The project, 3/8 mile north of production in the north side of the field, is 990 feet from north and 330 feet from west lines of section 10-11s-28e and 25 miles east of Roswell.

## New firm organized

HOUSTON (AP) - Resource Drilling Inc., a contract drilling firm, has been organized as a wholly-owned subsidiary of Superior Oil Co.

Bob R. Dorsey, chairman of the new firm, said Thursday orders have been placed for 16 land rigs at a cost of about \$70

Dorsey, former chairman of Gulf Oil Corp., said the first of the rigs are scheduled for early 1979 delivery with the remain-der to be delivered over the following 12 months.

**President of Resource Drilling** is M.D.Green, former general manager of The Offshore Co.

### Waste not big problem

WASHINGTON (API) — A senior government scientist said Wednesday that fears about the disposal of nuclear waste have been exaggerated.

"I don't feel that we are in the crisis state that some people feel we are," said Darleane C. Hoffman of the government's Los Alamos Scientific Laboratory in New Mexico.

Testifying before a Senate subcommittee on science and technology, Mrs. Hoffman said research is going ahead on new ways to safely dispose of the waste products of nuclear power plants of all types.

Despite the current controversy over reprocessing radioactive plutonium, Mrs. Hoffman said she is confident that ways will be found to use nuclear waste as a valuable source of

President Carter has opposed reprocessing plants using currently avaiable methods, in part because of fear that terrorists may obtain plutonium from which nuclear weapons can be easily devised.

But Mrs. Hoffman said methods now under investigation will permit plutonium to be recycled as fuel, while at the same time eliminating the terrorist threat and other safety A result of that, she said, will be a

clear waste produced because so much nuclear material will be Wherever possible, Mrs. Hoffman said, nuclear waste should be stored at the nuclear power plant where it is

sharp reduction in the amount of nu-

produced. There will come a'time, she said, when nuclear waste will be considered an energy boom instead of a

By 1985, she said, there will be an estimated 16.8 million tons of spent nuclear fuel.

## U.S. companies, China deal on oil development

By LARRY MARGASAK

WASHINGTON (AP) - Four U.S. oil companies and Chinese officials are attempting to negotiate agreements for sharing development of China's vast oil reserves, the State

Department confirmed today. Pennzoil, Exxon, Union Oil and Phillips Petroleum are talking with the Chinese, who have both offshore and onshore reserves and are in the midst of an oil development boom.

While it is not known whether the arrangements would bring Chinese oil to the United States, a U.S. oil expert said any significant increase in world production could make more oil available to this country. will affirm the four oil compan-

ies have been for some time involved

in business arrangements with the

Chinese government," said John F.

Cannon, a State Department public affairs adviser. "The nature of those arrangements are private and they do not involve the United States government. They involve oil exploration in various areas; but we're not in a position to characterize their (the companies') arrangements with China or the Chinese government's arrangements

with them. Although Cannon described the talks as "company-to-government," the negotiations have the backdrop of a major public and private effort here to increase trade with China.

U.S.-China trade, which totaled \$375 million last year, will probably top \$700 million this year, Commerce Secretary Juanita M. Kreps said in

According to the Interior Department, China's crude petroleum production increased by 13 percent from 1975 to 1976, from 571.6 million barrels to 645.9 million barrels. A barrel holds

While reserves of the world's most

populated nation are unknown - geologists say they're significant -Field work

announced Cobra Oil & Gas Corp. of Wichita Falls No. 2 B. J. Belew has been completed as the second Wolfcamp well in the Myrtle, North field of Borden County, 15 miles northeast of Gail.

It potential on the pump for 22 barrels of 42-gravity oil per day, with gas-oil ratio too small to measure. Completion was natural, through perforations from 7,818 to 7,826 feet. Total depth is 8,053 feet and the

plugged back depth is 8,005 feet. Location is 2,200 feet from south and 660 feet from west lines of section 480, block 97, H&TC survey. It is 1,650 feet northeast of the Wolfcamp disco-

### EDWARDS PROJECT

Amoco Production Co. No. 18 Stanley B. Mayfield has been staked 3/4 mile northeast of the Sawyer (Canyon sand) pool of Edwards County, 17 miles north of Rocksprings.

The 4.500-foot test is 1,289 feet from north and 6,368 feet from west lines of S. P. Blackwell survey No. 3, abstract

of Mertzon.

Amoco also will drill No. 1-E A. A. Sugg one and one-eighth miles southeast of the Rock Pen (Canyon oil) pool of Irion County, five miles southwest

It is 660 feet from north and west lines of section 63, block 1, H&TC survey.

Contract depth is 8,400 feet.

### DISCOVERY OFFSET

Simpson-Mann Oil Producers of San Angelo announced site for a southwest offset to its No. 2-34 Reva McMillan, discovery well and only producer in the Mim, Southwest (San Angelo) field of Irion County.

It is four miles southeast of Mertzon and 990 feet from north and 5,460 feet from east lines of section 24, GC&SF survey. It is to drill to 1,600 feet. Elevation at ground level is 2,326.8

SUTTON EXTENDER

A one and one-quarter mile southwest extension to the Aldwell Ranch (Canyon gas) field of Sutton County has been completed by Mitchell Energy Corp. of Houston.

The well, No. 1-19 Hunt, is 19 miles southwest of Sonora. It finaled for a calculated, absolute open flow of 1,-650,000 cjubic feet of gas per day, through perforations from 9,197 to 9,248 feet.

Total depth is 10,500 feet and 4.5inch casing is cemented at 9,487 feet. Location is 1,361 feet from north and 1,453 feet from east lines of section 19, block G, GWT&P survey. It is near the Crockett County line.

SUTTON PROJECT

Amoco Production Co. No. 12-D Edwin S. Mayer Jr. has been spotted 5/8 mile west of production in the Whithead (Strawn gas) pool of Sutton County, 14 miles northwest of Son-

Location for the 8,600-foot operation is 933 feet from north and 4,654 feet from west lines of McMulle County School Land survey No. 4, abstract China already has reached the point where it's exporting 47.1 million tons of crude oil to Japan over a five-year period. By 1985, China's share of the Japanese oil import market is expect-

percent. In a telephone interview with the Washington Post, J. Hugh Liedtke, Pennzoil chairman and chief executive officer, said he believes "the decision has been made in Peking and

ed to have risen from 2.6 percent to 4.9

at the highest political level" to sup-plement China's own exploration efforts by "more than one" outside

company.
"My guess is that this has an extremely high priority, and the pressure is on to get something done,"

e commented. Liedtke said within 30 days, Pennzoil will send China a proposal for exploration of a major offshore basin, probably in the South China Sea.

## Lea, Reeves, Upton wells final; test set

Grace Petroleum (formerly Cleary Petroleum Corp.) No. 2-A New Mexico-Federal is a new gas well in the Salt Lake, South (Morrow) pool of Lea County, N. M.

It finaled for a calculated, absolute open flow potential of 5,183,000 cubic feet of gas per day, through perforations from 13,314 to 13,693 feet after 800 gallons of acid.

Total depth is 13,823 feet and 5.5inch casing is cemented at 13,546 The well is 1,980 feet from north and

east lines of section 4-21s-32e and 26

miles east of Oil Center. It is an east

REEVES WELL Atlantic Richfield Co. No. 1-30 Hill has been completed to extend the Marsh, South (Delaware gas) field of Reeves County one mile south.

The well completed for a calculated, absolute open flow potential of 440,000 cubic feet of gas per day, from open hole at2,775-2,855 feet. Tubing pressure during four point tests varied from 538 to 895 pounds.

Location is nine miles southwest of

Orla and 1.32- feet from north and

west lines of section 30, block 57, T-3,

T&P survey, abstract 5483.

UPTON OILER John L. Cox of Midland No. 1-J Owens is a new well in Upton County, 15 miles northeast of Rankin.

Completed in the Spraberry Trend Area, it finaled for a 24-hour pumping potential of 92 barrels of 40-gravity oil and 15 barrels of water, through perforations from 7,134 to 8,573 feet after 130,000-gallon fracture treatment.

Location is 1,320 feet from south

and east lines of section 31, block B,

CCSD&RGNG survey.

Cox announced location for a 7/8mile southeast stepout to production in the Spraberry Trend Area pool of
