Local Farm Producers Will Receive \$3.5 Million

Around Muleshoe

ON MONDAY, SEPTEMBER 26, 1983, SCHOOL WILL DISMISS AT 2 P.M. FOR STUDENTS TO ATTEND THE LUBBOCK FAIR. THOSE STUDENTS BRINGING NOTES FROM HOME WILL BE DISMISSED ALL DAY FOR ATTENDANCE AT THE FAIR AS WE HAVE DONE IN THE PAST.

A light frost was recorded in Muleshoe on Wednesday morning, September 21, 1983 as the temperatures dipped to 28 degrees for a short time that morning.

The American Ag Movement of Texas will hold their State Convention at the Holiday Inn in Plainview on November 4 and 5. Agenda and speakers will be announced at a later date, but make plans to attend now.

Muleshoe students making the dean's honor rolls in the six colleges of Texas Tech University during the 1983 second summer term included Nancy A. Allison, 222 E. Cedar and Viki J. Turner of 618 W. 18th St. in Muleshoe.

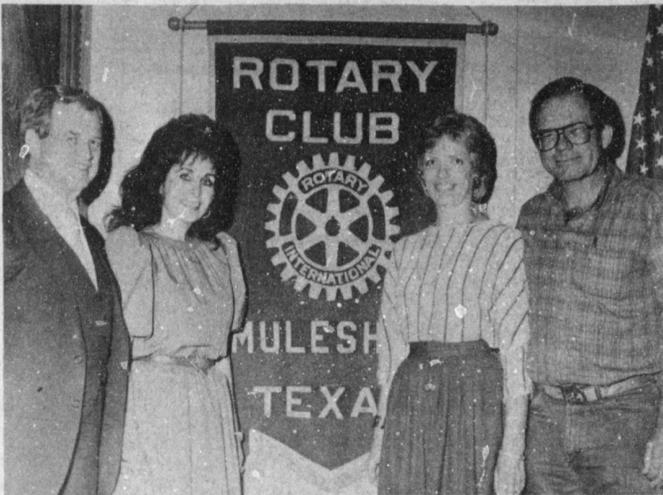

Local agri-business man, J.D. Cage of Muleshoe was recently elected as first vice president of the Ranching Heritage Association Board of Overseers at the annual meeting of that organization on Saturday, September 17. Elections took place during Ranch Day at the Center.

Justin Ray Collins, 3 year old grandson of Mr. and Mrs. Charles Farmer recently had his first haircut, compliments of Frank and Curtis at the Sanitary Barber Shop along with all the trimmings of free balloons and bubblegum. A good time was had by all.

Whalin Wins First, Weir Pulls Ahead

Well, football fans, look like the fun is about to begin. Entries for this last contest seemed to multiply and fans are really beginning to get into the swing of things. The extra contest square added this past week seemed to create some confusion for several entries, but most made it past the barrier without undue fuss. There will be another additional entry on this week's contest too, so don't let it throw you.

Now for the good news! First place winner was Sam Whalin who missed three games and was 25 points off in the tie breaker

ROTARY HAS SPECIAL GUESTS...Dr. John H. Selby, Rotary District Governor, his wife, Carolyn and Lynn and Buck Campbell are shown at Tuesday's regular Rotary meeting. The District Governor was a special guest for the occasion. Campbell is the local Rotary president.

1983 Tax Rebates Stay Up For City Of Muleshoe

State Comptroller Bob Bullock Wednesday sent checks totaling \$41.1 million in local sales tax payments to the 974 cities that levy the one-percent city sales tax.

"Last September, we were reporting the biggest allocation based on a single month's tax collections in the history of our state," Bullock said. "This month, with sales tax receipts running about one percent behind last year, shows us just how fast things can change."

In Bailey County, the City of Muleshoe continues to maintain their sales tax rebate amounts, showing higher percentages for the year to date than the previous 1982 payments.

Muleshoe's net payment for the period ending September 7, 1983 amounted to \$12,675.44, down slightly from the \$13,545.26 com-

parable payment of 1982 at this same time. Total 1983 payments to date however, reflect \$152,188.56 for 1983, as compared to \$142,511.23 in 1982 to date. This shows a 6.79 percent change to date for Muleshoe.

In Dimmitt, the largest reporting city in Castro County, net payment for the period just past amounted to \$9,055.13, down from \$9,838.21 of 1982. Dimmitt's 1983 payments to date were down considerably, showing a \$96,357.84 for 1983 to date as compared to the \$105,078.45 of 1982 payments to date. This reflects a minus 8.30 percent change for the City of Dimmitt. Castro County overall showed a minus 6.37 percent change to date.

Sales tax rebates in Morton were down by minus 6.59 percent to date, according to Bullock's report. Net payment for Morton this period was \$2,268.67 as compared to \$3,104.50 comparable payment for last year. Total 1983 payments to date for the City of Morton have reached \$33,360.91, down from the \$35,713.42 of 1982 to date. Cochran County's total reflected a minus 14.70 per-

cent change to date. Hereford, in Deaf Smith County, reflected a net payment for the just past period in the amount of \$26,547.45, down from the \$32,475.87 of 1982. Total 1983 payments to date for Hereford are \$375,317.93, up from the \$358,276.55 of 1982 payments to date, reflecting a 4.76 percent change. Only one town in Deaf Smith County and that is Hereford.

Littlefield, which is the largest reporting city in Lamb County showed a net payment this past period of \$15,297.40, down from the \$16,256.51 of 1982. The city, however is up for total 1983 payments to date, showing \$185,305.22 for '83 as compared to \$181,041.46 for 1982 payments to date. This reflects a 2.36 percent change to date. Overall county total for Lamb reflected a 1.72 percent change to date, with only one city, Earth, showing a minus percentage change.

In Farwell (Parmer County), the net payment reflected this period was \$1,303.02, as compared with \$1,130.59 for 1982. Total 1983 payments to date for Farwell show \$18,202.23, up from the \$17,103.20 of 1982 - a 6.43 percent change to date.

The Wildcats returned about 23 lettermen this year and are backed up by about 40 more boys besides that. Coach Ritchie told the Journal on Monday that his squads have managed to stay free of injury so far this year.

Idalou senior quarterback, Jeff Rogers (6-2, 150) will be at the helm Friday and according to Coach Windy Williams is a good man to have. His top receivers will be in Randall Reid, 6 foot, 170 pound split end, Jason Noble, 6-2, 165 tight end and Stacy Phillips, 5-0, 150 pound wingback. All three of these boys have some good speed, and can catch the football. Coach Ritchie told the Journal that his team was not large, size-wise, however, some of their

players run in the 247 to 235 pound range, so that may be in the eyes of the beholder. Ritchie was complimentary to the team about the depth. "We have a lot of boys out, in fact almost the whole school; but, we lack in the size department."

Ritchie said of the Mules: "The Mules are a super good team, and getting better every game. Idalou has not played a team this year that is the quality of Muleshoe's Mules. We are looking forward to it, and dreading it at the same time, because we know it will be a hard-hitting, heads-up football game. The Mules are well-coached and the athletic program there is outstanding.

Anybody who has ever watched a Mule-Wildcat game, knows that it will be a real football battle. Both teams always are on the up side for each other and looking for a win, where ever they play. Idalou has a lot more than Ritchie is willing to admit, both offensively and defensively.

Annual County Fair Activities Underway

The Bailey County West Plains Fair will open on Thursday morning September 22 at 9 a.m. in the coliseum for exhibitors to begin bringing in their wares for display and will remain open until 9 p.m.

County To Get \$24,861 For Roads Construction

On September 8, Texas Treasurer Ann Richards sent out checks totaling \$7.3 million in grants to the state's 254 counties for road construction and maintenance projects.

According to totals furnished, Bailey County will receive \$24,861.32 in the grant for the established purpose. Cochran County will receive \$16,665.90; Hockley County \$34,051.14 and Lamb County will get \$17,392.48.

The eighteen counties in the Lubbock area are receiving a total of \$438,000 in grant funds. These funds are disbursed each year by the State Treasurer as appropriated by the legislature for the Lateral Road Program. The grants may be used by counties for the purchase of right of way and for construction and maintenance of lateral roads, farm-to-market roads or state highways.

Richard indicated the \$7.3 million is allocated to each county under a formula based on the Cont. Page 8, Col. 1

City Will Keep 1983 Tax Rate Another Year

The Muleshoe City Council met in a regular meeting on Tuesday, September 20 in City Hall primarily to take care of matters concerning budgets for 1982-83 and for 1983-84.

Members of the Council passed an ordinance amending the budget for the fiscal year of 1982-83, agreeing to accept the budget as presented.

Regarding the 1983-84 city budget, an ordinance was approved adopting the budget for the fiscal year beginning October 1, 1983 and ending September 30, 1984 with no increase in taxes levied. The rate for last year was 63 cents per \$100 of value, and will remain the same. City manager Dave Marr emphasized there would be no increase in water, sewer or trash charges for the coming year. The ordinance levying the taxes was for the use and support of the Municipal Government of the City of Muleshoe and to provide for the interest and sinking fund for the year 1983-84

and provide for the time and manner of paying ad valorem taxes levied. Several transfers were made which reverted delinquent accounts to bad debts on city services. A file is kept, Marr explained, on these bad debts and they must be paid before an individual can get a re-connection of services. The deposit taken by the city is applied against the outstanding balance in the case of delinquent accounts.

Some discussion of matters regarding the operation of the Municipal Airport was had by Council members, since the current agreement is about to expire.

Varsity, JV Cross Country Place Second

Muleshoe's Cross Country teams traveled to Brownfield last Saturday, September 17 for an open meet in that city. Several districts were represented with both varsity and junior varsity athletes performing.

Coach Jerry Johnson's Mule Varsity team placed second in the meet with Tony Luna coming in, in third place, Aldo Almanza in thirteenth place and Tony Rojas in 16th place.

The Junior Varsity boys Cont. Page 8, Col. 7

PIK Corn, Grain Sorghum Entitlements Due Soon

Danny Noble, Bailey County ASCS Executive Director told the Journal Tuesday that PIK (Payment In Kind) entitlements for corn and grain sorghum for Bailey County producers who are eligible to receive them would be mailed out of the local office by October 1, 1983. Corn and grain sorghum entitlements will be worth approximately \$3.5 million dollars on today's markets to local producers. According to information from the USDA, 40,315,576 pounds of corn has been earmarked for PIK purposes in the county. With corn currently priced at \$6 per hundred pounds, that PIK entitlement would be worth \$2.4 million in cash.

Grain sorghum entitlements will bring about \$1.1 million into the local economy, with 20,687,500 pounds set aside for PIK entitlements. Grain sorghum prices at local elevators in Muleshoe on Tuesday were \$5.40 per hundred and are the amounts used to determine the total amount of money which will ultimately come from the entitlements. Grain for Bailey County will come from Muleshoe, Earth, Summerfield and Bledsoe elevators, says Noble; and, all of the entitlements will come from Commodity Credit Corporation inventory.

The amounts of corn and grain sorghum mentioned in the above paragraphs does not include PIK that will come from commodity loans; but is just in PIK entitlements alone.

Noble also told the Journal that at the request of the State office, the Bailey County Emergency Board

held a special meeting on Monday, September 19 to gather and submit a damage assessment report on all county commodities, including native pasture. This report, if approved by Governor Mark White will give farmers in this County the eligibility for lower interest rates from Farmers Home Administration for operating loans in 1984.

The assessment report provided for the Governor's office, a projection of yields for 1983 for Bailey County Crops, as well as averages per acre of actual planted crops.

The results of the assessment report indicated that cotton is expected to yield 206 pounds per acre off of 67,611 acres of cotton planted and remaining here in 1983. Cotton also showed a loss of about 20,000 acres, since the normal

planted acreage for the county is 160,000 acres.

Wheat averages about 25 bushels per acre off of the 41,352 acres in Bailey County. Normal wheat acreage is 67,000 acres.

Corn is projected to average 140 bushels per acre from 16,374 acres in cultivation in 1983 in the county. Normal corn acreage for Bailey County is 30,000 acres.

Grain sorghum is projected to average 27 bushels per acre off of 42,717 acres of sorghum. Some of this sorghum acreage is re-planted acreage and about 26,000 acres is generally considered normal for the county. Due to dry weather, hail and other problems, the county had the additional acreage on grain sorghum.

Other crops such as sunflowers and soybeans were projected to have been damaged by about 10 percent, leaving a 90 percent production estimate. Vegetables were estimated to have about an 85 percent production level and about 8,000 acres of hay was shown to have sustained a 10 percent loss in yield.

The assessment report also showed about 53,000 head of cattle in Bailey County with the normal yield of forage on native pasture to be about 1800 pounds per acre. The average yield per acre of native pasture in 1983 was reflected at 500 pounds per acre.

At this time out of 597 farmers in Bailey County, 400 sustained less than 20 percent loss. One hundred farmers sustained between 20 and 29 percent loss; 50 farmers sustained from between 30 to 39 percent loss.

Cont. Page 8, Col. 1

School Board Adopts Policy On Insurance

While the Muleshoe I.S.D. recognizes that insurance is a concern for both employees and employer, it will not be the administrative policy of this school to promote and/or sanction any policy other than the Health and Accident Group Policy offered to its employees.

Sales representatives from companies that already serve school employees will be allowed to contact individual principals (after receiving approval from the superintendent of schools) to set up a time to service already existing

HEART CHAPTER GETS AWARDS...Hugh Young, local President-Elect of the Bailey County Chapter of the American Heart Association recently accepted several awards on behalf of the Chapter. The awards were presented at the annual Regional Workshop held on the Ranching Heritage Center at Lubbock, Texas. Several other local members also attended the meeting.

WATERMELON FOR EVERYONE...The Jennyslippers held their annual Bike Parade and Watermelon Feast on Saturday, September 17 with plenty of watermelon for everyone. Justice of the Peace Jack Bates, shown here, and several other supporters helped with the cutting and distribution of the watermelon. A report of bike winners will be announced as soon as it is available.

"Heat" Wins Mixed League Competition

In Muleshoe's Mixed League softball schedules, team winners for the past season were recently named. The team of "Heat" with Charles Briscoe as coach won first place in the League. Players for the Heat team included Roland Perez, Andy Perez, Diamond Perez, Freddie Perez, Margaret Graves, Sandra Williams, Betty Ovalle, Carmen Kirven, John Williams, Gordon Blevins and Ivan Williams.

The "Sting" team won second place, under the coaching of Evelyn Pope and players were Gary Pope, Darrell Matthews, Carott Rand, Steve Pollard, Gary McDaniels, Joel Sinclair, Mary Villalobos, Raymond Villalobos, Cynthia Noble, Treena Matthews, Danny Noble, and Denise Wilson.

Taking third place in the

4-H BB Gun Safety Course Offered Here

The Bailey County 4-H Clubs will sponsor a BB Gun Safety Course on October 3-7, at the new city park at 4:30 p.m. each afternoon. Basic gun and hunter safety will be taught by Kirby Rankin, Bailey County Extension Agent and by adult volunteers.

Area boys and girls may participate and do not have to be enrolled in 4-H to take the course. Those youth who wish to participate do not have to own a BB gun, but may use their own if they do have one. BB's will be furnished. There will be no need to bring a gun on the first day.

The first part of the week will concentrate on safety and proper handling of a weapon and the participants will be taught marksmanship during the latter part of the week. The final day will include a contest with a prize for the most accurate shot.

league was the team called "Get Lucky", coached by B.J. Loflin. The team members were Gary Hugg, Rhonda Hugg, Sabrina Loflin, Gary Gililand, Amy Gililand, Donna Thompson, Donna Fields, Mario DeHozzoro, Mart Davis, Joe Gear, Terry Field, Linda Francis and Danny Wilson.

The Heat team had ten wins and no losses; Sting had eight wins and two losses. Get Lucky had five and five.

The NightHawks came in fourth with 4 wins and 6 losses, Braxtons were fifth with 3 wins and 7 losses and the Wildbunch came in sixth with 1 win and 9 losses.

Local Man's Father Dies At Earth

Funeral services for L.H. "Chubby" Dent, 81, of Earth were held at 3 p.m. Tuesday, Sept. 20 in the Earth Church of Christ with Dwight Faulk, minister, officiating. Assisted by Bill Phillips of Lubbock.

Interment was in the Earth Cemetery under the direction of Parsons-Ellis Funeral Home. Dent died at 5:30 p.m. Saturday at Methodist Hospital in Lubbock following a brief illness.

Dent, a native of Cassville, Mo., was born March 7, 1902 and moved to Earth in 1923, from Olustee, Okla. He married Pansy Banks on Feb. 29, 1924, in Altus, Okla. and was a member of the Earth Church of Christ. He had been the John Deere implement dealer in the area since 1952. He operated a garage and Texaco service station in Springlake from 1925, until 1950.

Survivors include his wife, Pansy; four sons, Mike of Lubbock, Leon "Tuffy" of Muleshoe, Ronnie of Earth and Dale of Ft. Worth; two daughters, Mrs. Eddie Moudy of Earth and Mrs. Jenelle Price of Lake Elsinore, Calif.; two sisters, Mrs. Juanita Boone of Salem, Ore., and Mrs. Zola Wells of San Jose, Calif.; and 22 grandchildren.

Mrs. Elmore Services Held Wednesday

Services for Modine Elmore, 67, were held at 2 p.m. Wednesday, Sept. 21 in the Muleshoe Church of Christ with John Boor, minister, officiating.

Interment was in the Sudan Cemetery under the direction of Ellis Funeral Home of Muleshoe. Mrs. Elmore died at 3:25 a.m. Monday in West Plains Medical Center following a lengthy illness.

A native of Copperas Cove, Texas, Mrs. Elmore was born April 6, 1916 and moved to Muleshoe 11 years ago from Needmore. She married James Lester Elmore on May 2, 1937, at Circleback. She was a housewife and a member of

Mrs. Elmore

Mrs. Elmore Supervisors urged to think twice when giving raises

COLLEGE STATION—Many supervisors ought to think twice before giving higher salaries to prize employees who threaten to quit their jobs for another offer.

"Employers will sometimes do anything to keep high performers, but there's a limit to what's fair," said Dr. Michael Abelson, a Texas A&M University management professor.

"If you give an employee a 25 percent raise to compete with an offer from another employer, chances are other employees who perform as well but don't have similar offers will resent the action. They might ask for raises themselves."

the Muleshoe Church of Christ.

Survivors include her husband, Lester; one son, Dairl Elmore of Ashville, N.C.; two daughters, Arnetta Spencer of Lubbock and Julia Ary of Muckogee, Okla.; one sister, Mable Wiseman of Hereford; two brothers, Cleo Whitmire of Sudan and Lonnie Whitmire of Proctor; six grandchildren; and one great grandchild.

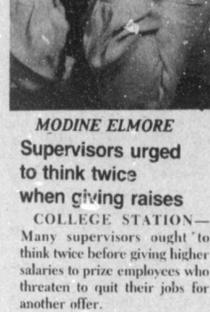

Grace Kemp Longtime Area Resident Dies

Services for Grace Kemp, 83, were held at 2 p.m. today (Thursday), Sept. 22 in the First United Methodist Church with the Rev. Bill Kent, minister, officiating.

Burial was in Bailey County Memorial Park under the direction of Ellis Funeral Home. Mrs. Kemp died Monday in Highland Hospital in Lubbock.

A long time Bailey County resident, Mrs. Kemp was born July 2, 1900, in Indian Territory, Okla. and moved to Bailey County in 1929, from Inadale. She was a housewife and a Methodist. Her husband, Walter A. Kemp died in 1970.

Survivors include three sons, W.A. Kemp, Jr. of New Castle, Colo., Ben Kemp of Sweetwater and Don Kemp of Portales, N.M.; 12 daughters, Mrs. Velma McDorman of Farwell, Mrs. Hester Robertson and Mrs. Lida Carby, both of Clovis, N.M., Mrs. Juanita Morris and Mrs. Oleta Bishop, both of Albuquerque, N.M., Mrs. Argilee Millen and Mrs. Doris Parker of Muleshoe, Mrs. Lola Mae Tipton of New Castle, Colo., Mrs. Cora Snyder of Friona, Mrs. Edwina Parker of Mexia, Mrs. Carol Depperman of Portales, N.M. and Mrs. Jerre Howell of Clovis, N.M.; one sister, Mrs. Mattie Savarene of Dallas; three brothers, Irby Fish of Archer City, Archer Fish of Plainview and Glen Fish of Skellytown; 40 grandchildren; 72 great grandchildren; and four great great grandchildren.

Mrs. Kemp

AF Falcons Meet BYU Cougars Saturday

Brigham Young was side tracked in league competition just one time last fall on its way to the Western Athletic Conference title. The Air Force Academy, in a high-scoring free-for-all, shot down the Cougars 39-38. The scoring lights could flash that often again as the Falcons host BYU Saturday. In post-season bowls last year, the Air Force surprised Vanderbilt in the Hall of Fame Bowl 36-28 while Brigham Young fell heavily to Ohio State in the Holiday Bowl. The Cougars were nudged 40-36 by Baylor in their season opener--the Air Force was 2-0 prior to last week's contest with Wyoming. The winner Saturday: Brigham Young - but close.

In an interesting intra-state match-up that pits the Missouri Valley Conference against the Big Eight, Tulsa challenges Oklahoma in Norman. Both teams have been in heavy combat recently. Tulsa lost to Arkansas by just 3 points two weeks ago and the Sooners hosted Ohio State last Saturday. The favorite has to be Oklahoma, but it shouldn't be a huge embarrassment to Sooners fans if Tulsa springs the upset.

Maryland isn't about to forget the last time it tangled with Pittsburgh. It happened in 1980, and it was a debacle. The Panthers destroyed the Terrapins, one

of their worst defeats in years, 38-9. Pitt went on to post a ten and one season while Maryland finished that year in the runner-up spot (8-3) in the Atlantic Coast Conference. The Panthers are 2 and 0 this

fall. The Terps opened with a 21-14 win over Vanderbilt, and played host to powerful West Virginia last week. Maryland is the host, but a slight underdog.

In a couple of top games

in the Southeast Conference Saturday, Florida is favored over Mississippi State, and Alabama, a squeaking 24-21 winner over Vanderbilt last year, should just slip by the Commodores again.

Computer Just Another Household Appliance

When it comes to household management, a home computer is just another appliance, says home economist Bonnie Piernot.

A home computer can assist in keeping household records of checks, mailing addresses, telephone numbers, special days and appointments. It can also maintain an accurate inventory of household goods or the stamps in your collection, she explains.

"But a computer will not make you a good record-keeper," says Piernot, who specializes in family resource management for Texas A&M University's Agricultural Extension Service. "Unless good household records are available, you will have nothing to put into the machine."

The computer simply organizes, retrieves and presents the information you give it in a useful form. Poor record-keepers who are looking for a way to organize their lives might be better off learning to use a simple paper and pencil system than investing in a home computer, says the specialist.

Home computers can also assist in financial decision-making. Financial modeling programs allow the household to do a cost-benefit analysis of large investments such as a home or car, rather than guessing at the financial consequences of a purchase decision, notes Piernot.

Programs that allow consumers to figure the cost of loans at variable interest rates and over different periods of time may be especially useful she says. For families with well-planned budgets, electronic spread sheet programs allow them to forecast the impact of a purchase on their budget.

Some computer programs will even help families compare their spending to that of families in similar circumstances, says Piernot. "Put the computer can't tell you how to budget," she adds, "since budgeting decisions rest on the family's value system and priorities."

Many public education agencies, including county Extension offices, now have financial decision-making and budgeting programs they will run for residents on their computer system at little or no cost, notes the home economist. Unless a family has an ongoing need for financial ana-

lysis, they might take advantage of such services rather than purchase a

Mrs Bishop

Hosts Retired

The first regular meeting for 1983-84, of the Muleshoe Area Retired Teachers Association was held in the home of Mrs. Carrie Lee Bishop at 3 p.m. Friday, Sept. 16.

The purpose of the meeting was to welcome the new members, to get better acquainted with each other and to inform members of some of the plans for the coming year.

Refreshments of cake and punch were served by the hostess, Mrs. Bishop, to Mrs. Beatrice Blackburn, Mrs. Mary Crane, Mrs. Jewell Griffiths, Mrs. Pauline Guinn, Mrs. Lela Gunter, Mrs. Lena Hawkins, Mrs. Blanche Johnson, Mrs. Ruby Lee Kerr, Miss Margie Moore, Mrs. Mary B. Obenhaus, Mrs. Maxine Ragsdale and Mrs. Katherine Sanders.

computer. According to Piernot, computer software is also available for monitoring household appliances. A security system, energy control and fire alarm can be controlled by computer. Other programs are available to improve diet and fitness by monitoring the nutritional value of foods eaten, analyzing health risk factors and even teaching exercises.

"Although a home computer can do a variety of household management tasks, its purchase price may not be warranted if used for that alone," state the specialist. But multiple functions such as providing educational programs and games for children, use in a family business, for farm and ranch management, or performing job tasks at home, may justify the investment.

Consumers should also recognize that unlike other household appliances, the major cost will not stop with purchase of the machine, cautions, Piernot. "You can expect to invest many more dollars in software to run a computer than in the computer itself," she notes.

MRS. SHERRI WILKERSON, AVERI LEIGH

Harper Family Reunion Held In Littlefield

The annual reunion of the "Jeff and Nancy" Harper family was held in the REA guest room in Littlefield Sunday, Sept. 11, with approximately 80 persons attending from Albuquerque, N.M., Amarillo, Dimmitt, Hereford, Muleshoe, Sudan, Amherst, Littlefield, Lubbock, Slaton, Munday and Quanah.

Lois Chambers of Slaton rendered piano selections, and Dorell Woodson of San Angelo gave a reading on "Am I Growing Older."

The family of Maude (Harper) Alexander received recognition of having the largest number in attendance with 26 members present. The second largest family was the L.M. Harper family of Sudan. W.F. Harper of Muleshoe was the oldest member present.

Others of the immediate family were Ivan and Ella (Harper) Gresham of Munday, Stafford and Mozell Harper Spruill of Amarillo, Harold and Dorell Harper Woodson of San Angelo and Edd and Jennie Harper Fowler of Hereford.

The youngest married couple was Mr. and Mrs. Lee Harper of Albuquerque who were married a week ago.

Jack D. Glasco, nephew of Mrs. L.M. Harper, was a special guest. His father was principal of the little Gilpin school which was located on the corner of Jeff and Nancy Harper's farm, six miles east of Newlin. Archie Glasco began his teaching at Gilpin in the early 1920's about the time Glasco was ready to begin attending school.

Glasco completed several of his grade school years in the Gilpin school. He is now employed as Lab Chief for Lockheed Photo Lab of

Baby Shower Honors

Mrs. Wilkerson, Daughter

Mrs. Sherri Wilkerson and daughter, Averi Leigh, was honored with a baby shower from 10 until 11:30 a.m. Saturday, Sept. 17 in the fellowship hall of the 16th. and Ave D Church of Christ.

Guests were greeted by Mrs. Wilkerson, Mrs. Sue Reese and Mrs. Kattie Wilkerson and registered by Vikki Carpenter and Laci Carpenter.

Shelli Carpenter and Elaina Chandler served fruit bread, fruit bowl and banana punch from silver appointments. The serving table was covered with a white lace cloth with a yellow underlay and accented with an arrangement of white daisies in a wicker parasol. The honoree's corsage was made of white daisies and yellow roses.

Special guests included: Mrs. J.T. Murphee, Mrs. Dimmitt Sets

Arts And Crafts

Bazaar Dec. 3

The Dimmitt Young Homemakers will be sponsoring an Arts and crafts bazaar Saturday, Dec. 3 from 9 a.m. until 6 p.m. in the Castro County Expo Building at Dimmitt.

This is their Annual Christmas Bazaar which they have had great success in the past.

Single display space will rent for \$20.00 and a double occupancy will be \$35.00. "Only 25 spaces will be available so you need to get your name in early!" says Dorenda Bentley.

Two banquet size tables (8x3 feet) will be available for each exhibitor and booth fees are not due until the day of the bazaar. Set-up time will be from 7:30 until 9 a.m.

A concession stand will be open with many different things to eat.

For further information you may call Dorenda Bentley at 647-3521 or Jennifer Miller at 647-4284.

Mr. and Mrs. Harvey Bass visited relatives over the weekend in Floydada.

Cars piled up at the filling stations in Muleshoe Saturday as gas stations began to close in the city. Sunday there were only a couple of gas stations open and pumping gas.

RECIPE

By Sarah Anne Sheridan

Veal With Sour Cream
1 lb. ground veal
1 clove garlic, minced
2 T chopped parsley
1 salt
salt, pepper
1/4 c milk
1 egg beaten
1/2 c dry bread crumbs
1/2 c fat
1 t kitchen bouquet
2 T flour
1 3 oz. can mushrooms sliced and broiled
1 1/2 c sour cream
1 6 oz. pkg. broad noodles

Combine veal, garlic, parsley, seasonings, milk, egg and crumbs. Mix thoroughly. Shape in small balls.

Melt fat; add kitchen bouquet. Brown meat balls in mixture. Remove meat balls. Stir in flour. Add mushrooms and sour cream.

Cook until thickened, stirring constantly. Add meat balls. Cover and cook over low heat about 20 minutes. Cook noodles in salted water, drain. Serve around meat balls and gravy.

Sudan Fireman's

Auxiliary

Meeting Held

The Firemen's Auxiliary of the Sudan Fire Department met Saturday night Sept. 10 in the home of Mr. and Mrs. Orville Hill for a hamburger supper.

Auxiliary members and their husbands enjoyed charcoaled hamburgers and all the trimmings with home made ice cream and cake being served after several games were played.

A short business meeting of the Auxiliary was held following the meal with several items of business discussed. It was decided to have a chili and bean supper prior to the Sudan-Amherst homecoming game on Oct. 7. Tickets will be on sale in the near future.

Those present included: Joe and Paula Wood, Philip and Mary Ann Gordon, Bob and Linda Sumner, Sam and Louise DeLaRiva, Harold and Doris May, Charles and Norma Burnett, Orville and Dorothy Hill, Ann Carson and Angie and Mike Hill.

The next meeting will be Monday, Oct. 10 at the community room of the First National Bank. Loretta Benton will give a program in cake decorating and all members are to take a salad for the supper.

The group assisted the firemen and Dr. Barry Cowart, of the Muleshoe Animal Clinic, in the Rabies clinic that was held on Wednesday afternoon, sponsored by the Sudan Volunteer Fire Department. Some 27 dogs and cats were given shots for rabies.

Reduce Calories With Sugar Substitute

Using sugar substitutes in home cooking is one way to reduce calories, says Nutritionist Mary K. Sweeten.

According to Sweeten, a specialist with Texas A&M's Agricultural Extension Service, recent research shows that recipes prepared with non-nutritive sweeteners such as saccharin or aspartame produce satisfactory results with only minor flavor differences.

But the non-nutritive sweeteners do have limitations as cooking ingredients, she adds.

"Be prepared for a few failures when cooking with non-nutritive sweeteners

Sudan Young Homemakers

Elect Officers

The Sudan Young Homemakers installed 1983-84 officers in their recent meeting. Those installed included: president, Mechel Edwards; first vice president, Deanna Humphreys; second vice president, Tonya Wall and Robin Gore; secretary, Neal Malherbe; and historian, Margaret Williams.

Mary Ann Harper and Pam Morris provided the refreshments. The group revealed their secret sisters and chose new ones. They also drew for secret grandfathers.

On Sunday afternoon, Oct. 2 the FHA Tea will be held in the Home Economics Room at the school from 3 until 4:30 p.m.

Money making ideas were discussed but were tabled until later.

Attending were: Ann Gaston, Julie Rigsby, Karen Sexton, Pam Humphreys, Ann Carson, Tonya Wall, June Pierce, Kim McClanahan, Jody Tennyson, Cindy Wiseman, Cathy Humphreys, Mary Ann Harper, Rity Conley, Paula Wood, Margaret Williams, Deanna Humphreys, Norma Burnett, Mechel Edwards and Neal Malherbe.

because the sugar-equivalency ratios given on the packages are not always reliable in cooking," says Sweeten. "Also, the degree of sweetness may vary according to the other ingredients in the recipe."

Saccharin can be used in quick breads and other simple baked goods with no adjustments, says the specialist, but it's risky to use in cakes, yeast breads and some cookies that require the carbohydrate of sugar for proper balance.

To reduce the aftertaste from saccharin, Sweeten suggests adding it after heating, rather than before or during the process.

While aspartame does not have a noticeable aftertaste, it cannot be used in cooking or baking, since it's chemical structure breaks down under high temperatures. But aspartame can be used in cold foods and dissolves easily when stirred into custards, creams or other liquids, says the specialist.

CAR CARE CORNER

Are you one of the 50 percent of drivers who, surveys show, are running their cars at least a quart low on oil? That could increase concentration of contaminants in your crankcase, reducing the effectiveness of your oil and leading to possible costly engine damage.

It's a good idea to check your oil level at least every other gasoline fill-up. A modern all-seasons synthetic like Mobil 1— assembled from chemical components selected for extra stability and other qualities, rather than conventionally refined from crude oil—offers superior engine protection, besides lasting longer and helping improve gasoline mileage.

Colorful, tasty and nutritious. A spectacular salad for a family summer supper or for casual entertaining.

Ripe Olive Buffet Salad

- | | |
|--------------------------------------|------------------------------------------|
| 2 lbs. small new potatoes | 1/4 teaspoon basil, crumbled |
| 1/2 cup chicken broth | 1/8 teaspoon paprika |
| 1/4 cup white wine or water | 1-1/2 cups pitted California ripe olives |
| 1 teaspoon onion powder | Butter lettuce |
| 1/2 teaspoon salt | 2 large tomatoes, sliced |
| 3 tablespoons vinegar | 1 cup cooked ham strips |
| 2 tablespoons oil | 1 cup cheddar cheese strips |
| 1 tablespoon finely chopped pimiento | 3/4 cup cooked peas |
| 2 teaspoons chopped parsley | 2 hard-cooked eggs, sliced |
| | Snappy Sour Cream Dressing |

Peel potatoes. Put potatoes in skillet and add broth and wine, 1/2 teaspoon onion powder and 1/4 teaspoon salt. Bring to a boil, reduce heat, cover and cook for 20 to 25 minutes, just until potatoes are tender. Drain, reserving liquid. Make up marinade for potatoes by mixing together 1/4 cup liquid from cooking potatoes, vinegar, oil, pimiento, parsley, basil, paprika, and remaining 1/2 teaspoon onion powder and 1/4 teaspoon salt. Drain olives and combine with potatoes. Mix marinade with potatoes and ripe olives and chill thoroughly. Shortly before serving, cover large salad plate with butter lettuce leaves. Drain potatoes and olives and arrange on plate with peas, sliced eggs, ham and cheese strips, and tomato slices. Serve with Snappy Sour Cream Dressing. Makes 4 to 6 servings.

Snappy Sour Cream Dressing

- | | |
|----------------------------------|-----------------------------|
| 1/2 cup dairy sour cream | 1 teaspoon prepared mustard |
| 1/4 cup mayonnaise | 1/4 teaspoon dill weed |
| 2 teaspoons prepared horseradish | 1/4 teaspoon salt |
| | Dash pepper |

Mix together sour cream and mayonnaise. Stir in horseradish, mustard, dill weed, salt and pepper. Makes about 3/4 cup salad dressing.

NOTES--- COMMENTS

Don't mistake vulgarity for originality.

Occasionally one learns that it's smarter not to talk so much.

We welcome a cold snap without any heat in the house.

Most people devote too much of their time to non-essentials.

A smart man figures out his excuses ahead of time.

The harm of pressure groups is the suppressing of individual thinking.

So far, science has developed no process to make pupils like to study.

To get to know life fully doesn't mean that one has to get down into the gutter.

Humor is a rare gift; if you can laugh at the world, and yourself, you're lucky.

Almost too busy to sew, much less tailor? Don't worry anymore - today's tailoring techniques forego all the hand work that is so time consuming. New fusing and machine techniques make tailoring fast and easy, so you can create those classic and versatile fashions for your wardrobe. If you have tried to purchase a quality made blazer during the past year, you know how expensive they are. Depending upon the fabric selected, a homemaker could make two to three blazers for the cost of one good ready made. That is a significant savings, plus being able to increase the number of garments in your wardrobe.

To assist homemakers in developing tailoring skills, a blazer construction workshop has been scheduled for October 18, November 7 & 14. These will be all day sessions in which participants will construct a fully lined blazer by machine for themselves. Attendance on all three days is required. Basic sewing skills are required and participants will need to furnish their own supplies and a sewing machine in good working order. This is important because we will not have time during the workshop to repair sewing machine problems. There will be no charge for the workshop other than supplies. The workshop will be taught by four area county extension agents. The workshop will be limited to the first 10 who pre-register by calling the Extension office at 272-4583. Should more than 10 call, we will try to schedule another workshop. If you work during the day and are unable to attend the workshop, but would be interested in night or Saturday classes, please call and let us know. If there

is enough interest, we will try to arrange another workshop. Call and register today to reserve a space early.

Extension programs are open to all persons regardless of race, color, creed, sex, religion or national origin.

Out To Lunch Bunch

The Out To Lunch Bunch held their regular luncheon Friday, Sept. 16. A special collection was taken for flowers for Donna Noriega. Ms. Noriega is secretary of the Out To Lunch Bunch. She is hospitalized in Lawton, Okla. at Southwest Hospital. A get well card was also signed by those present.

Pam Aklin and Rhonda Hugg reported on their meeting with the Jennyslippers on the previous Tuesday. The Jennyslippers will be preparing new welcome packets Tuesday. Those who have signed up to deliver welcome packets may pick them up at next Friday's luncheon.

Members present were: Ruth Davis and Jason, Shellye Pickering, Jarrod and Jake, Johnnie Ferris, Pat Mudford, Kathy Railsback, Pam Aklin, Mary Ann Ramirez, Rhonda Hugg and Amy, Patricia Mata, Dolores Scott and Josh, Kay Moncrief and Glenda Duncan.

Hostesses for next weeks luncheon are Johnnie Ferris and Kathy Railsback.

Most people can stand tragedy but few can master the small irritations of life.

There comes a time in the life of every man and woman when there is work to be done.

It is much better, a lot easier and less expensive, to keep your health than to regain it.

Highway signs reading "slow" are put up for your protection whether you obey them or not.

Local Heart Chapter Receives Awards

Several members of the Bailey County Heart Association attended the annual Regional Workshop on Tuesday, September 13. The Ranching Heritage Center in Lubbock was the location of the meeting.

Those members from Muleshoe attending were Mr. and Mrs. Hugh Young, Mr. and Mrs. D.O. Burel-Smith, Mrs. Vera Haire and Sue Haire, volunteer worker.

According to the Hugh Young, local President-elect, Bailey County received the Achievement Award for having raised the greatest amount of money per capita. This money amounted to \$1.03 per capita in the county. Young also accepted the

Llano Estacado

Civic Club

Meeting Held

The Llano Estacado Civic Club met Tuesday, Sept. 13 in the meeting room of Summit Savings and Loan with Betty Jo Carpenter and Mrs. Tom Lobough as hostesses.

Business was taken care of and then Mrs. Jessie Robinson introduced Donee Parker, Robin Kindle and Jeana Percy, members of the 4-H Club, who presented slides on their trip to Virginia and Tennessee this summer.

Ms. Carpenter said "This was a very interesting program depicting some of the preserved early American homes back to and including Thomas Jefferson's home. Mrs. Robinson showed pictures she took of places they visited and many interesting and historic things they saw." Mrs. Robinson was a sponsor on this trip.

Members present were: Cleta Williams, Glenna Raney, Betty Jo Carpenter, Jessie Robinson, Mrs. Tom Lobough and Mrs. Charles Harvey.

A backyard cookout was planned for Thursday, Sept. 22 at the Lobough home.

Outstanding Program Award in behalf of the Bailey County Division, as well as the top award in the state for Public Information and Public Relations. "We attribute much of our success to the good cooperation from the local media representatives," Young stated, underlining the Heart Association Radio Day as an example.

Two volunteer workers for the Bailey County Chapter were also awarded. Mrs. Vera Haire and Sue Haire, in honor of their late husband and father Loyd Haire, were recognized with a Research Grant Award in Haire's honor and for the continuation of his commitment to the AHA. The Research Grant Award is a result of funds being made available to specific research and is awarded in the name of an individual for outstanding endeavors within the American Heart Association.

The purpose of the recent workshops such as the one held in Lubbock according to Young, is to offer improved leadership qualities among volunteer workers and to exchange ideas on better distribution of information about heart disease, stroke and hypertension. He further added that heart disease is the nation's number one killer and knowledge about symptoms, warning signals, crucial first aid and the importance of prompt attention is often the difference between life and death.

It's remarkable how many foolish statements wise men make.

Does anyone want to go back to the time when people worked twelve and fourteen hours for a dollar a day?

Worry has never solved a problem and never will; so if you are worrying, try doing something about your problem.

ORDINANCE 237A AN ORDINANCE BY THE CITY COUNCIL OF THE CITY OF MULESHOE TEXAS AMENDING THE BUDGET FOR THE FISCAL YEAR 1982-83.

WHEREAS, the City Council of the City of Muleshoe desires to amend Section 2 and 4 of Ordinance No. 226A adopting a budget for the Fiscal Year beginning October 1, 1982 and ending September 30, 1983.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MULESHOE TEXAS:

THAT Section 2 and 4 of Ordinance No. 226A, dated September 21, 1982, adopting a budget for the City of Muleshoe for the Fiscal Year 1982-83 be amended to read:

18. LEGAL NOTICES

Section 2. That the sum of \$986,437 is hereby appropriated out of the General Fund for payment of operating expenses and capital outlay of the City Government, as set forth in detail in the budget.

Section 4. That the sum of \$442, 487 is hereby appropriated out of the Water & Sewer Revenue Fund for the paying of operating expenses, capital outlay, and debt service for the Water & Sewer Revenue Fund, as set forth in detail in the budget.

PASSED AND APPROVED THIS THE 20th DAY OF SEPTEMBER* 1983.

ORDINANCE NO. 238A AN ORDINANCE APPROVING THE ADOPTING OF A BUDGET FOR THE FISCAL YEAR BEGINNING OCTOBER 1, 1983 AND ENDING SEPTEMBER 30, 1984.

WHEREAS, the City Manager of the City of Muleshoe has prepared and submitted to the City Council a budget estimate of the expenditures and revenues for the City of Muleshoe of the fiscal year beginning October 1, 1983 and ending September 30, 1984, which has been approved and adopted.

NOW THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MULESHOE, TEXAS:

Section 1. That the budget estimate of the revenues of the City of Muleshoe and the expenses of conducting the affairs thereof for the ensuing fiscal year, beginning October 1, 1983 and ending September 30, 1984, as submitted to the City Council by the City Manager of said City, and as changed or amended by the City Council, be and the same is, in all things, adopted and approved as the budget estimate of all the current expenses as well as the fixed charges against said City for the fiscal year beginning the 1st day of October, 1983, and ending the 30th day of September, 1984.

Section 2. That the sum of \$1,074,432 is hereby appropriated out of the General Fund for payment of operating expenses and capital outlay of the City Government, as set forth in detail in the budget.

Section 3. That the sum of \$53,138 is hereby appropriated out of the General Debt Service Fund for the purpose of paying the accruing interest and redeeming the serial bonds and warrants as they mature, on the general debt service bonds and warrants as listed in detail in the budget.

Section 4. That the sum of \$404,955 is hereby appropriated out of the Water & Sewer Revenue Fund for the paying of operating expenses, capital outlay, and debt service for the Water & Sewer Revenue Fund, as set forth in detail in the budget.

Section 5. That the sum of \$79,603 is hereby appropriated out of the Revenue Sharing Fund for the payment of operating expenses and capital outlay of the City Government, as set forth in detail in the budget.

Section 6. That the sum of \$5,200 is hereby appropriated out of the Airport Fund for payment of operating expenses and capital outlay of the Municipal Airport, as set forth in detail in the budget.

PASSED AND APPROVED THIS THE 20th DAY OF SEPTEMBER, 1983.

ORDINANCE 239A AN ORDINANCE LEVYING TAXES FOR THE USE AND SUPPORT OF THE MUNICIPAL GOVERNMENT OF THE CITY OF MULESHOE, TEXAS, AND PROVIDING FOR THE INTEREST AND SINKING FUND FOR THE YEAR 1983-84, AND PROVIDING FOR THE TIME AND MANNER OF PAYING THE AD VALOREM TAXES LEVIED.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MULESHOE TEXAS:

Section 1. That there is hereby levied and there shall be collected for the use and support of the Municipal Government of the City of Muleshoe, Texas, and to provide Interest and Sinking Fund for the year Nineteen-Hundred and Eighty Three (1983), upon all property, real, personal and mixed, within the corporate limits of said City subject to taxation, a tax of sixty three cents (\$0.63) on each One Hundred Dollars (\$100.00) valuation of property, said tax being so levied and apportioned to the specific purpose herein set forth:

For the maintenance and support of the General Government and for the operation of the City Government to be placed in the General Fund, of the total amount received, being \$0.63 on each One Hundred Dollars (\$100.00) valuation of property.

Section 2. All monies collected under this ordinance for the specific items therein named, be and the same are hereby apportioned and set apart for the specific purpose indicated in each item and that the Assessor & Collector of taxes, the City Treasurer and the City Secretary shall keep these accounts so as to readily and distinctly show the amount collected, the amounts expended and the amount on hand at any time, belonging to such funds, it is hereby made the duty of the Tax Assessor & Collector and every such person collecting money for the City of Muleshoe to deliver to the City Secretary and the City Treasurer at the time of depositing any monies, a statement showing to what fund such deposit should be made and from what source received. All receipts for the City not specifically apportioned by this ordinance are hereby made payable to the General Fund of the City of Muleshoe.

Section 3. That the ad valorem taxes herein levied shall become due on the 1st day of October, 1983, and may be paid up to and including the following January 31st, without penalty, but if not paid, such taxes shall become delinquent on the following day, February 1st, and the following penalty shall be payable thereon, to-wit: if paid during the month of February, six percent (6%); during the month of March, seven percent (7%); during the month of April, eight percent (8%); during the month of May, nine percent (9%); during the month of June, ten percent (10%); and on and after the 1st day of July, 12 percent (12%). Such unpaid taxes shall bear interest at the rate of twelve percent (12%) per annum from February 1st, 1984.

Section 4. All taxpayers shall be allowed discounts for the payment of taxes under the following conditions: (a) three percent (3%) discount on ad valorem taxes due, if such taxes are paid ninety (90) days before February 1st;

18. LEGAL NOTICES

(b) two percent (2%) discount on ad valorem taxes due, if such taxes are paid sixty (60) days before February 1st; (c) one percent (1%) discount on ad valorem taxes due, if such taxes are paid thirty (30) days before February 1st.

SECTION 5. The taxes herein levied shall be a first and prior lien against the property upon which they are assessed and the first lien shall be superior and prior to all other liens, charges and encumbrances, and this lien shall attach to personal property to the same extent and with the same priorities as to real estate.

SECTION 6. The liens provided herein shall attach as of January 1, 1984.

SECTION 7. Should any part of this ordinance be declared invalid, for any reason, that invalidity shall not affect the remainder of the ordinance, which remainder shall continue in full force and effect.

PASSED AND APPROVED THIS THE 20th DAY OF SEPTEMBER, 1983.

Hypnosis becoming more common in police investigations

COLLEGE STATION— More and more police agencies have begun using hypnosis to help solve crimes, says a law enforcement training specialist at Texas A&M University.

"We often get a great deal more information from a witness who submits to hypnosis than we ordinarily would," said Bill McKay of the Texas Engineering Extension Service's Law Enforcement and Security Training Division. The division has been teaching law enforcement officers to use hypnosis for the past three years.

McKay said witnesses and victims often suffer shock and trauma from an incident and push memories of it down into the subconscious level of their minds.

He said a rape victim can often remember many more details while hypnotized and doesn't have to relive the traumatic incident.

New method tells age by using teeth

COLLEGE STATION—A new method using teeth to accurately determine the age of victims from natural disasters, fires or murders where bones are the only clues to identification is being developed at Texas A&M University.

Scientists have long known that teeth are held in their socket by a bony substance called cementum, explains veterinary scientist Dr. George Stott.

After a tooth first comes in, two new layers of cementum are added each year until the tooth is pulled or the person dies, said Stott. The two layers are known as an annulation, and each annulation leaves a ring like those on a tree trunk.

At Texas A&M, Stott and veterinary student Jay Naylor are devising a technique for staining thin sections of teeth so that the annulation rings are distinct enough to count. From that count, pathologists can determine the individual's age.

Stott said his research, supported by a two-year \$118,057 grant from the National Institute of Dental Research, may prove to be of major assistance in police and fire investigations where victims are unidentified.

If the method is perfected, he said, pathologists may be able to pinpoint the victim's age at death with just a half-dozen samples from any tooth.

Thought For Today
 It is important to build character. And, sometimes, it is important to rebuild.

PIK Entitlements

Con't From p.1

25 farmers sustained between 40 to 49 percent loss and 22 farmers sustained from between 50 and 59 percent loss in crops in 1983.

In other ASCS news, all producers who are eligible to receive PIK cotton from CCC inventory must "Harvest for PIK" - obtain loans on their 1983 production to satisfy 40 percent of their PIK needs. The other 60 percent will come from cotton already in CCC's inventory, Noble said.

Corn release levels for Reserve 4 and 5 and Reserve 4 Grain Sorghum has now been extended through September 30, 1983 and is still available for redemption. Noble stated that anyone wishing to redeem these commodities may do so from now through September 30.

The recent Emergency Grazing program which was initiated in Bailey County has now been expanded to include haying or harvesting of CUA. The same provisions of ownership of both land and livestock will apply and applicants must certify the number of livestock will apply and applicants must certify the number of livestock and the intent to graze or mechanically harvest. Producers must sign up for this program in the ASCS office prior to any action.

In addition to the rules established for the Emergency Grazing, additional ones will apply for mechanical harvesting. First, only livestock owned by the applicant on August 1, 1983 may be fed the roughage harvested from CUA.

Secondly, only CUA in which the applicant has an interest may be harvested.

Third, any acreage designated as a wildlife food plot or habitat may not be harvested, and fourth, any harvesting shall not remove the cover to the extent that the acreage is unprotected from weeds and from wind or water erosion. Any of these provisions not complied with will cause the producers to become ineligible for any program benefits for the 1983 farm program, Noble stated.

Tax Rebates

Con't From p.1

percent change to date. In the city of Friona, the largest in the county, a net payment for this September 7 reporting period was \$4,550.26, down from \$5,620.58 from this time last year. Payments to date for 1983 amount to \$68,602.07, down from the \$70,916.81 reported in 1982 to date. This reflects a minus 3.26 percent change to date for Friona. County wide totals show a minus 2.11 percent change to date. Other towns in Parmer County include Rovina.

Houston received the largest check-\$7.2 million bringing that city's nine-month 1983 total to \$102.7 million, 10 percent below the same period last year. Dallas' check was \$5.2 million, for a \$62.8 million yearly total, up 6 percent. San Antonio received \$2.5 million, making its yearly total \$31.1 million, an 8 percent increase.

Austin's September payment of \$1.6 million pushed its total to \$20.6 million, a 14 percent gain from last year. Fort Worth's check for \$1.2 million brought that city's 1983 total to \$19.6 million, up more than

Noble also told the Journal that many producers are continuing to ignore warning on CUA land. "This land must be maintained in workman-like order throughout the 1983 calendar year," he stated. CUA should be cleaned up and protected from wind or water erosion.

Aerial measurements are almost completed and notification will be forthcoming from the Bailey County ASCS office soon. A producer will have five days in which to adjust and certify acres to the ASCS offices, Noble said.

4 percent. El Paso received \$1 million for a year's total of \$11.6 million, a drop of 8 percent.

Bullock also sent checks to the state's two Metropolitan Transit Authorities. Houston's MTA payment was \$8.9 million, bringing the 1983 total to \$117.4 million. San Antonio's MTA check was for \$1.2 million for a 1983 total of \$17.1 million, up more than 9 percent from 1982.

September checks were for taxes collected on sales made in July and reported to the Comptroller by the end of August.

Too many people talk about patriotism when what they mean is the protection of their profits.

Contest...

Con't From p.1

her lead in the contest so far after adding her last week's first place win points. Debbie will receive \$2 and 4 points for her trouble. She has a total of 14 points overall.

Other winners to date include Gerald Shanks 10 points; Art Murillo and Deborah Noble, six points each and Raymond Villalobos and Marilyn Engelking four points each.

All of you contest buffs don't be discouraged though, we are only into the third week of the contest and there are a lot more to come. At this point, there is not enough lead for anyone to have an undisputed edge.

It would seem that the Muleshoe-Floydada game scores really threw a curve to those fans trying to figure the tie-breaker scores, since very few tiebreakers were even close. In the contest just past, the only entry with a tiebreaker score close to the actual score, missed about twelve games. Oh well, you can't win 'em all.

Okay fans, get busy and get some winning entries in here and let's really have a contest. Remember to co-ordinate your contest square numbers with the numbers on the contest entry and fill in the tie breaker score. Don't forget the name, address and etc. Good Luck and Go Big Mules.

Football Preview

Con't From p.1

Coach Windy Williams in an interview on Tuesday, was still in the afterglow of last Friday's big win over the Floydada Whirlwinds. He stated: "We made some defensive mistakes in the second half which allowed the Whirlwinds to move the ball and score on us like they did, but we got those mistakes worked out and came back in the third quarter, playing the kind of defense that we were supposed to." While there was some doubt in the fans' minds about some of the

penalty calls on the Mules, Williams said that a review of the film showed the called penalties to be legitimate ones. The catch that was ruled, however, was not a legal catch for the Winds.

"Idalou has a well-balanced team with a good quarterback," Williams stated. He added that the Mules would have to play an excellent defensive game, as well as offense this Friday against the Wildcats. The general feeling is that the game will be played in the trenches, rather than a passing game.

"The Mules are up for this one and are healthy," Williams stated.

Idalou is currently standing 3-0 in the 1983 season and so are the Mules. Both are ranked second in their district, respectively at this time, so the game should be a pretty evenly matched one. Games with Idalou tend to get pretty physical, so if you're looking for a little excitement in your life, get out and support the Muleshoe Mules as they go after their fourth win this season on Friday night in Idalou. GO BIG MULES.

They Are?

All women are alike, but they have different faces so you can tell them apart.

'Scholar loans' program to assist future teachers

COLLEGE STATION—While government officials in Texas and across the country talk about problems in the educational system, Texas A&M University has taken action in one critical area.

Teams...

Con't From p.1

team placed second also in the Brownfield meet. Norman Perez placed 13th, Anthony Orozco placed 19th and Jose Sanchez placed 20th.

In Varsity Girls' competition, Muleshoe's team placed sixth overall with Juanita Garcia running eighth in her race. Junior varsity girls placed ninth overall.

The next meet will be held on Saturday, September 24 in Plainview. This up-coming meet will be held in divisions and teams will be pitted against teams from their own districts, rather than it being an open meet. Muleshoe teams are hard at work, says Johnson, in preparation for District, Regional and State meets which are scheduled in late October and early November.

Starting this fall the College of Education will offer scholar loans to high-quality undergraduates who commit to teach math or science at the secondary level after they graduate.

The program is vital because almost 50 percent of teachers who teach math in Texas are not certified to teach that subject and the situation with science teachers is not much better, said Associate Dean Bryan Cole, who worked with the college's Development Council in developing the program.

Six of the scholar loans at \$2,000 each will be awarded this fall. To be eligible students must meet a number of qualifications including a combined SAT score of at least 1000 and a high school average of at least a B for incoming freshmen. Transfer students must have a B average on all college work to be eligible.

For each year that a scholar loan recipient teaches math or science after graduation, he will be forgiven a percentage of the loan based on the number of years he received assistance and the number of years he teaches.

When grating cheese, should you use the large, medium or small shredder? If the cheese is used for cooking, it will melt more quickly if grated in very fine bits. If the cheese is to go on salads, you may prefer the larger shreds to show the type of cheese.

Diez y Seis

FIESTA DAYS

September 16, 1983

Bailey County Coliseum, Muleshoe

A good crowd was on hand at the Bailey County Coliseum Friday night for the annual Diez y Seis Celebration as hosted by the local Knights of Columbus.

Pomp and ceremony were interspersed with fun and dancing to make an unforgettable evening for everyone who attended.

Grupo Bego de la Juarez, Mexico started off the fast-paced evening with lively dancing music for the persons attending. They played various types of popular Mexican Music. The six member band was dressed in black and were well-received by the people.

With a formal procession, led by Fernando Ramos carrying the Mexican Flag and Alfonso "Pancho" Posados carrying the Mexican Flag, the contestants for the annual Diez y Seis Queen entered the arena area.

Outgoing Queen, Sandra Martinez, relinquished her crown, velvet robe and scepter to the incoming queen, Rosa Irma Alarcon, who was proudly escorted by her grandparents, Mr. and Mrs. Benito Alarcon.

Queen Rosa Irma made the traditional walk around the arena, accompanied by Ramos and Posados with the flags, as she officially greeted her court.

Special tables were set up for the queen and her court to the side of the arena area.

Special entertainment was provided by "Ballet Folklorico" from Plainview. The dancers in their beautiful and colorful Mexican costumes dances traditional Mexican dances. As they dipped and swayed to the music, their colorful costumes flashed the various colors throughout the arena.

A Mexican rope specialist entertained with rope tricks, as practiced and used by vaqueros throughout the ages.

To wind up the evening's entertainment, the Ciudad de los Ninos Mariachi Band from monterrey, Mexico strolled into the arena and stole the hearts of everyone present.

Led by Jesus Angel Garcia, a psychologist from Monterrey, the members of the Mariachi band are from Ciudad de los Ninos (Boystown) and the teenagers are all orphans.

Garcia explained that Ciudad de los Ninos was founded 33 years ago in Monterrey by Padre Alvarez and currently houses 250 boys who are solely supported by the money earned by the Mariachi Band.

The band does not charge for their appearance anywhere, but do take up donations wherever they play. And they have played in many, many countries. They have played for the Queen in England, for Franco in Spain, for several Popes at the United Nations in New York and in Casablanca, as well as other countries.

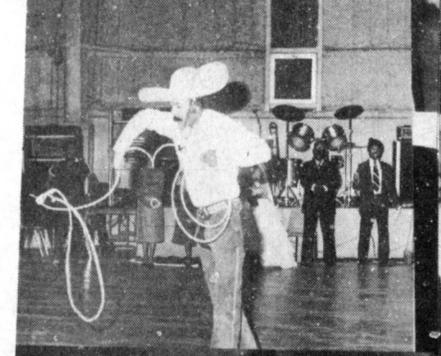

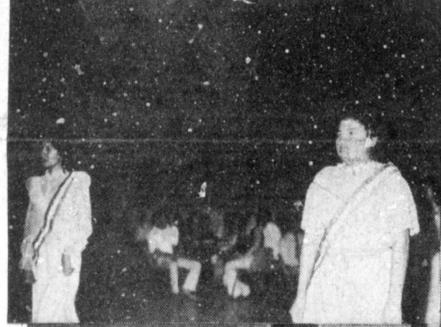

"We have found much success in the United States," said Garcia, "and have been well-received here. We have appeared all over the United States and on television in many cities."

He further explained that it takes \$5 per month to support one of the boys by a sponsor. The boy writes to his sponsor and the sponsors can visit, in fact, they encourage visitors to see what they are doing at the orphanage. Most of their students go on to universities and learn to be doctors, lawyers and other professional people. They live at the orphanage until their complete their schooling, then move out to their own.

By the way, the youngest member of the band was the soloist, eight-year old Benito Martinez, who quickly became quite popular as he really 'belted' the songs out.

The Mariachi group stayed in Muleshoe Friday night, and conducted a special mass at Immaculate Conception Catholic Church on Saturday night.

Persons who wish to help support the Ciudad de los Ninos can send their contributions to "Ciudad de los Ninos, P.O. Box 1200, Monterrey, N.L., Mexico."

Sudan News

By Evelyn Ritchie

Mr. and Mrs. Freddie Legg and children have returned from vacationing.

Becky Churchman, Scott and Penny of Muleshoe, visited Tuesday with Mr. and Mrs. G.C. Churchman and were here to attend the birthday party for Dustin Provence.

Mr. and Mrs. Herman Synastchik of Anton and Susan Nettles, Krista and Danielle of Lubbock visited during the holidays with their parents, Mr. and Mrs. Glen Cardwell.

Mr. and Mrs. Glen Chester vacationed at Red River last weekend.

Totsie Noles has been visiting in Oklahoma City with their daughter, Mr. and Mrs. Tracy Bowling and Cedric Lear.

Bonfire wood is still needed for the Homecoming bonfire.

Mr. and Mrs. L.S. Fields and Mr. and Mrs. Jim Fields, Kit and LaRhonda were at Lake Proctor during the holidays. Gary, a student at SPC met them there. Their daughter, Mr. and Mrs. Sam Bingham and Alyson met them for a few days at Brownwood.

Mr. and Mrs. Edwin Harper, Chris, Greg and Ginger Gore, Mr. and Mrs. Tim Nix and Cameron vacationed during the holidays at Ruidoso, N.M.

Mr. and Mrs. Claude Flowers were in Abilene during the holidays for a reunion with his sisters, Mr. and Mrs. F.C. Jones, Mrs. Don Krall, Mrs. Helen Suite, Mr. and Mrs. George Lane and Leslie and Scott Jones.

Mr. and Mrs. Calvin Vernon were in the mountains during the holidays.

Ray Dudgeon of Eules visited recently with his mother, Winona Dudgeon.

The Ruth Sunday School class of the FBC will be having their September

meeting Monday night, at 7:30 at the church in the fellowship hall for a salad supper. All class members and associate members are urged to attend.

The members of the T.E.L. Sunday School class of the FBC will have their Sept. social on Tuesday night at the church. All class members are invited and urged to attend.

Visiting in the home of Mr. and Mrs. R.B. Knox during the holidays were his brother, Mr. and Mrs. Billy Knox and niece, Mononette all of Chico.

Visiting during the holidays with Mr. and Mrs. Damon Provence were her sisters, Sharron Wood and Crystal of Big Spring and Sheila Chase, Damon and Heather of Levelland.

Recent visitors with Mrs. Louzelle Serratt were her son, Kenneth of Amarillo and Mr. and Mrs. Lonnie Whitmire of Proctor, Mr. and Mrs. Bill Turner and Betty Wiseman, Mrs. Opal Dodd and a friend all of Friona.

Mrs. Nolan Earlan and John were in Olney to visit their aunt and uncle, Mr. and Mrs. Shephard in Olney. Their daughter, Ann Marshall and children accompanied them.

Norma Bellar and Geneva Thomasson have been patients in the Muleshoe Hospital recently.

Mr. and Mrs. Terry Tennyson and children were at Roaring Springs Ranch during the Labor Day holidays.

Mr. and Mrs. Al Harrison and children were in Red River during the holidays.

Mr. and Mrs. James Mike Nix and girls were at Horse Shoe Bend for the holidays.

Mr. and Mrs. Wayne Kittley of Kerns Texas visited during the Labor Day holidays with his aunt, Mrs. Edna Dent.

Winona Dudgeon was in Merkel during the holidays to visit her son, Mr. and Mrs. Roy Don Dudgeon and attended their first

football game. Ron Don, Line Coach, and his team won their first game over Hawley.

Rev. and Mrs. Jack Riley of Levelland and former pastor of the Sudan Meth-

odist Church were Sudan visitors last week. Among those they visited were Son Qualls and Mr. and Mrs. Bob Drake.

The Bula area received over an inch of rain Tues-

day evening during an electrical storm that also brought a blanket of hail.

Band officers for 1983-84 will be President-Kim Powell; Vice-pres-Missy Fisher; Reporter-Shawni DeLoach;

Sec.-Tammy Gore; Treas-Danene Cox; Historian-Christi Schuster; Chaplains-Kevin King; Drum Majors-Danene Cox and Christi Schuster and twirlers are Tammy Gore, head and Sherri Powell.

FFA Officers for 1983-84 are President-Randall Dameron; Vice Pres-David Harper; Sec.-Brad Byerley; Reporter-Charlie Fisher; Treasurer-Wade Donell; Sentinel-James Clay. Sweet-

heart is Shawnda Masten and Plowgirl is Tammy Gore.

An after game fellowship will be held Friday night after the Sudan-Farwell Football game

TILLAGE DISCOUNTS

John Deere discounts these new tillage tools by 5 to 10 percent and waives finance charge to **March 1, 1984**

Just as you're getting into the fall/spring tillage season, John Deere announces a big dollar-saving offer on major tillage tools. Depending on the tillage tool you buy (see the chart), your dealer will deduct 5 or 10 percent from the latest base machine price. For example, the discount on an 18 1/2-foot 235 Disk would save you more than \$1,100.

On any of these you can save even more by financing with John Deere. Finance charge will be waived to March 1, 1984, for qualified buyers.*

Machine	Discount from Suggested Retail Price
Moldboard Plows	5 percent
Chisel Plows	10 percent
Field Cultivators	10 percent
Disks	10 percent
Mulch Tillers	10 percent
Mulch Finishers	10 percent

*Availability of John Deere financing plans subject to approval of credit. This offer may be reduced in value or withdrawn at any time.

Winter Pasture Requires Grazing Management

Some stockmen may not be too keen on winter pastures because of past problems in getting their money's worth, but it all boils down to "grazing management."

"Grazing management is the key to making winter pastures (wheat, oats or ryegrass) pay for themselves," says Dr. David Bade, a forage specialist with the Texas Agricultural Extension Service, Texas A&M University System. "Producers who say they are not getting their money's worth out of winter pastures likely are not using them properly."

Concerns often voiced by producers regarding winter pastures are poor stands, failure to get grazing when needed, and high costs, says Bade. (Variable costs can run \$60 to \$100 per acre, depending on whether pastures are sodseeded or planted in prepared seedbeds.)

"It's important to get the grass ahead of cows or calves so that there will be adequate carryover of forage into the critical winter months," he points out. "This means making sure that the grass is well established and growing vigorously before grazing. Have 6 to 8 inches of growth before grazing and then graze down to 3 to 4 inches."

By limiting grazing to only several hours a day, an acre of winter pastures fairly inexpensive compared to the cost of protein feed. Bade says that winter pastures offer a number of

advantages. They extend the grazing season through the fall and winter and into early spring, they provide high quality forage, and they can lower the winter feed bill.

Winter pastures also provide several alternatives in livestock production. These included grazing stockers or replacement heifers, cow-calf operations or creep-grazing systems.

Stockers can make good weight gains on winter pastures, notes Bade. About one-and-a-half pounds of

Dairy Herd Diagnosed As Tuberculosis

A herd of dairy cattle diagnosed to be infected with tuberculosis is under a Texas Animal Health Commission quarantine pending final disposition, Dr. John W. Holcombe, executive director, Texas Animal Health Commission, said today.

The herd involved is the El Oro Dairy at Clint, near El Paso.

The infection was discovered during a routine post-mortem inspection in a meat packing plant in San Antonio.

"The herd was placed under quarantine August 22, 1983. Fortunately, we do not have many situations of this type any more, but it is a reminder that our cooperative state-federal program enables us to take necessary action," Dr. Holcombe said.

The herd consists of 317 head. The entire herd has been tested. A total of 48 animals reacted to the tuberculosis test. They were removed from the herd, and they were sent to slaughter.

Three Way News

By Mrs. H.W. Garvin

Mr. and Mrs. George Tyson was supper guests in the home of their daughter the D.A. Williams Monday to help celebrate their grandsons birthday.

Mrs. Adolph Wittner spent the first part of the week in Lubbock with sister Dorothy Neutzler.

Mrs. Rayford Masten and Mrs. Robert Kindel were in Lubbock Monday shopping.

Mr. and Mrs. Carrol Fleming from Brownfield visited their aunt and uncle the George Tysons and their aunt Mrs. H.W. Garvin Monday afternoon.

Mrs. Jack Furguson was in Lubbock Wednesday on business.

The Three Way Football boys hosted the New Life Christian high school football boys in a game on the home field Friday with Three Way winning 45-0.

Mr. and Mrs. Rayford spent Friday in Littlefield on business.

Mrs. Wanda Locke from Lubbock spent Sunday with her daughter the James Kindel family.

Miss Sandy Figley from Andrews formerly of Maple was honored at the Three Way home ec room Sunday afternoon.

Mr. and Mrs. S.G. Long was dinner guests in the Bill Key home at Enochs Sunday.

Tuesday evening the community received rain amounts varied from 1/4 of an inch up to 1 1/2 inches.

B.A. Dickerson from Plainview preached at the Three Way Baptist Church Sunday.

Mr. and Mrs. Joe Sowder were in Lubbock Tuesday to visit the T.D. Davis family and Dorothy Neutzler.

Mr. and Mrs. J.D. Butler and Mr. and Mrs. Burris Butler from Sherman spent the weekend visiting the Jack Furgesons.

in the fall (rather than marketing them) and carrying them over until next spring can mean \$20 to \$50 extra income per cow depending on market conditions, points out the forage specialist.

Through a creep-grazing system for nursing calves, stockmen can get 50 to 100 pounds of extra weight on calves before moving them to market, notes Bade, and that also means additional income.

Texas Crude Production Down

Texas crude oil production decreased by just over half of one percent during the first half of this year as compared to the same period last year, according to preliminary reports to the Railroad Commission.

The latest production totals available show that oil production totaled 432,987,257 barrels during the first six months of 1983. Through June of 1982, Texas produced 435,533,131 barrels of oil.

In June 1983, Texas crude oil production totaled 70,214,469 barrels, the state produced 72,558,167 barrels in May 1983 and 71,358,946 barrels in June 1982.

Texas oil production averaged 2,340,484 barrels daily in June, up from 2,332,490 barrels daily in May but down from 2,378,632 barrels daily in June 1982.

"Winter pastures have the potential for meeting all the requirements of a cow weaning a 600-pound calf," contends Bade. "They are a much better alternative than feeding low quality hay and expensive protein supplement during the winter. Using these pastures wisely through grazing management can mean a little more profit due to increased weight gains and reduced feed costs."

Senator Bill Sarpalius Reports

Amendment No. 1

AUSTIN — There have been justices of the peace in Texas ever since Stephen F. Austin set up his colony in 1824 and every constitution since that time has provided for such an office. The office of constable has co-existed primarily to deliver legal documents and to assist the justice courts.

On November 8, Texas voters will be asked to allow their local commissioners court to determine the number of precincts for justices of the peace and constables. The proposed amendment to the constitution would allow the commissioners court to determine the number of JPs and constables within established state standards.

Proponents say there are many counties that do not need as many as four justices and four constables as is now required by the Constitution. The local court could reduce the number to as few as one justice and one constable.

Those who favor the amendment also say that paying the salaries of several JPs and constables when there is not a real need imposes an unnecessary financial burden on county taxpayers.

Those who oppose altering the Constitution say that if the number of justices and constables is reduced that other judges or some other county officials may have to perform some of the duties and that the county judicial system is already overburdened.

If the number is reduced, opponents say, people in those areas will be burdened with longer and more inconvenient trips to receive the services of the justice of the peace or constable.

Under the amendment, a county with a population of 30,000 or more may not have less than four or more than eight precincts. A county with less than 18,000 population would be designated a single precinct unless the local court finds a greater need. Those counties between 18,000 and 30,000 would have not less than two or more than five precincts. In cities with 18,000 or more population, the amendment would call for two justices in each precinct.

If you have any questions about this or the other 10 amendments please contact me by writing Senator Bill Sarpalius, Box 12068, Austin, Texas 78711.

Government Spends 'Little' On All Cotton Programs

Government expenditures for cotton programs, as now constituted, averaged only about \$266 million annually over the past ten years, says the president of the National Cotton Council, Gerald Brewer of Fresno, California.

He made that statement here today in rallying to the defense of the much maligned payment-in-kind (PIK) and other farm programs.

"Without question, farm program costs have increased, but in all fairness, those outlays should be measured over a period of years and not just on the special conditions of the past two seasons," Brewer commented in a report opening the afternoon session of the Council's fall board meeting.

"But the important points are that supply and demand are being brought into better balance. We are beginning to see some price recovery and the cost of deficiency payments is going down."

"Despite its shortcomings, PIK can still be defended on the grounds it alleviated a crisis among farmers facing potential bankruptcy," the industry leader quoted from an editorial in the Lubbock-Avalanche Journal. The newspaper circulates throughout the world's heaviest cotton producing area.

Reiterating that current farm programs are designed to help farmers only when they need help.

Brewer reviewed the history of cotton programs since passage of the 1973 farm act, noting there were no deficiency payments for cotton for the first seven years. They were triggered for the first time in 1981 by a record yield coming onto the market in the deepest worldwide recession since the 1930's, he said.

"When people talk about \$22-23 billion in farm program outlays, they generally include all price support loans in the bottom line," Brewer said. "What they fail to mention is that most of these loans are repaid with both interest and storage charges."

He noted that some \$7 billion of the so-called cost is repaid.

FCC Access Charge

The Chairman of the Energy and Commerce Committee of the U.S. House of Representatives said in a Washington Post story this week that, under a recent FCC access charge decision, AT&T, ITT, MCI and other long-distance carriers will be subsidized by local telephone customers.

Congressman John Dingell of Michigan stated, "The decision shifts billions of dollars of costs associated with the copper wires, telephone poles and drop lines that are used for both long-distance companies to local customers." He cited a study just completed for the Kansas Public Utility Commission which concluded that "local telephone companies are undercompensated for investments they have made to upgrade the local network for long-distance service." Until recently, no one has questioned the principle that both local and long-distance users of local equipment should share the cost of jointly used plant.

Dingell said, "The FCC, however, in a radical reversal of telephone industry pricing philosophy, decided that long-distance companies should pay nothing at all for the use of this local equipment."

Dingell and Representative Tim Wirth of Colorado have introduced the Universal Telephone Service Preservation Act (H.R. 3621) which would mitigate rate increases and preserve the national policy stated in the 1934 Communications Act: "make available, so far as possible to all the people of the United States a rapid, efficient, nationwide and worldwide wire and radio communications service with adequate facilities at reasonable charges."

Dingell points out that "long-distance companies and other special interest groups that do not want to pay their fair share of telephone network costs have already mounted a media and congressional campaign to defeat this legislation."

Worried About Higher Phone Bills? You CAN do something about it.

Bills have been introduced in both houses of the U.S. Congress that would help to insure that telephone service will continue to be available to everyone who needs it.

LET YOUR LEGISLATORS KNOW YOU ARE CONCERNED. A personal letter or phone call from you is the MOST effective way to contact the people who represent you in Washington. Please write or call or sign and mail the form below. The addresses of your representatives are:

Congressman Kent Hance
Rm. 1214 Longworth Bldg.
Washington, D.C. 20515
Telephone 202-225-4005

Senator John Tower
Rm. 142 Russell Bldg.
Washington, D.C. 20510
Telephone 202-224-2934

Senator Lloyd Bentsen
Rm. 240 Russell Bldg.
Washington, D.C. 20510
Telephone 202-224-5922

This Advertising Paid For By: Five Area Telephone Cooperative, Inc.

Dear Sir:

Will you please support telecommunications legislation to insure that telephone service will continue to be available in rural areas and small towns at rates that everyone can afford to pay.

At Muleshoe Junior High

8th Grade Mules Get Revenge

As you recall last year, Morton beat the Mules; however, not so this year as the Mules' explosive offense and outstanding defense proved different with a 28-12 score.

The Mules struck early in the first quarter as Armando Del Toro rambled in for a touchdown. The PAT failed and the Mules were ahead 6-0. The Indians came back in the first quarter with about a 55-yard touchdown by a Morton running back. The

Annual Staff Organizes

The annual staff of 1983-84 has been organized. The annual class is working very diligently toward a fine annual. The annuals will be 9.00 dollars due to the fact that our publication cost have increased.

The students may pay the full price now or 5.00 down, with the balance due when the annuals arrive in April. The staff will also be selling memory mates for Athletics and Band later in the years.

This year the Annual Editor is Misti Brewer and the Co-editor is Jennifer Green. The Paper Editor for this year is Mary Jane Sanchez and the Co-editor is Lisa Silguero. Sergio Gonzales will be the Photographer for the Annual staff. The other students in annual include: Torey Cox, Scotty Spies, Richie Tillema, Shelly Berry, Norma Del Toro, Jeff Hickey, and Edward Hurtado.

Another project the annual staff will be doing is the F.B.I. which is published weekly in the Muleshoe Journal. It is a possibility that the annual staff will be sponsoring a movie later in the year.

PAT failed and the score was 6-6. Morton scored another touchdown later in the second quarter. The PAT failed, which made the score 12-6. Morton. The Mules came back late in the second quarter. In doing so, they had to overcome the problem of illegal procedures. Joe Mendoza then ran around the end for a touchdown which made the score 12-12. The PAT failed for the Mules.

The Mules recovered a Morton fumble and started a drive toward the end zone with time running out in the half. They scored on a 15-yard touchdown pass

The eighth grade Mules undefeated streak came to an end when the Floydada Breezers beat the Mules 38-0.

Some of the factors contributing to the loss were the speed of Floydadas running backs on quick pitches and kick off returns. Also there was confusion on the Mules offensive line due to the late defensive.

Coach Donaldson said, "The second team offensive line was a big spark. They executed their blocks well and cheered loud." Some of the outstanding players were offensively Joe Mendoza and defensively Russel Brown. "The Mules had lots of hustle" said Coach Donaldson, "And our mistakes can be worked out."

If you missed this game we encourage you to come see the Mules play September 22 at Idalou.

For those of you who missed the Muleshoe Morton game we would like to say the Mules beat Morton 28-12 in a hard hitting contest.

from Johnny Garcia to Jerry Mendoza. The PAT was good by Armando Del Toro, which made the score 20-12, Mules, at the half.

The second half showed great defense by the Mules, led by the pluggers Russell Brown and Armando Del Toro. The 3 technique, Jesus Agundis, and defensive end, Marvin Arrendondo. Marvin received an injury in the third quarter and had to sit out the rest of the game. The Mules scored once more in the game by another touchdown by Joe Medoza, with the PAT good, making the score 28-12.

Coach Donaldson commented, "Our whole offense looked good. We were able to move the ball successfully. It's hard to pick out one outstanding player since it is a team effort and everyone is doing their best."

The Mules' next game will be against the Floydada Whirlwinds, at Floydada, September 15. Come out and cheer the Mules to victory.

Breezers Blow Mules Away In Thursday Game

The first out of town game for the seventh grade Mules ended in a terrible defeat by the Floydada Breezers over the Muleshoe Mules at Floydada last Thursday September 15.

The game started 2 to 0 in the first quarter with a safety for the breezers. Then near the end of the quarter the Breezers running back ran through the defensive line for a touchdown, which led to the two extra points to make the score 10 to 0 for the Breezers.

In the second quarter the Breezers ran in for another touchdown from a quick pitch to the fullback. They tried for the two extra points and, disappointingly, they made it. At the end of the half the score was 18 to 0 in favor of the Breezers.

At the second half the Mules held the Breezers during defense and also on offense with some great passes by David Sanders, the quarterback. An incredible play was also made with a fake punt when

Lots Of New Faces At MJHS

At the beginning of the school year everyone is excited and eager to see familiar faces and friends at MJHS. Of course there are always a lot of new faces among the crowd too. One of the less familiar but bright faces belongs to Mrs. Kay Griswold. Mrs. Griswold, who will be working here at MJHS for the 1983-84 school year, is an aide helping in the Jr. High Special Education Department.

Mrs. Griswold has lived in Muleshoe 30 years and attended school at the Muleshoe Schools. She is married to Dale Griswold, who is a self employed contractor. The Griswolds have three children, Steve, who is a sophomore at MHS, Chad, a 6th grader at MJHS, and Kimberly, a Kindergarten student at Neal B. Dillon Elementary School. Mrs. Griswold's favorite hobbies are cooking and selling Tupperware.

When asked how she felt about the upcoming year here at MJHS, Mrs. Griswold answered, "I am really looking forward to this year meeting all of the students and getting to know them. I know we will have a great year."

Welcome to Mrs. Griswold.

We would like to welcome Mrs. Cynthia Noble to MJHS and also to Muleshoe. Before moving to Sierra Blanca, Texas, she was an aide at Mary De Shazo. Now she is back in Muleshoe and she is one of the new aides. She works with Sue Espinoza in the Computer Assisted Program. The computers deal with math and reading.

Mrs. Noble graduated from Muleshoe High School. She and her husband, Danny, have two children. Jeffrey is eleven and is attending MJHS. Johnny is nine years old and is a student at Mary De Shazo.

Mrs. Noble said she is really looking forward to this year working with all the students on the computers. She commented, "It's going to be a great year full of learning and fun."

Her hobbies include softball, volleyball, jazzercise, cooking, and reading.

Again we welcome MRS. CYNTHIA NOBLE TO MJHS!

There's a new face at MJHS, Miss DeAnn Halford. She is a new seventh grade girls' athletic coach. Her home town is Childress, Texas, and she played basketball for two years in Jr. High and also played four years in high school. She attended Amarillo Jr. College for two years, then transferred to West Texas State University in Canyon, Texas. Her major has always been physical education, and her minor is English. She also has coached several camps, but this is her first teacher/coach assignment.

Her comments for the year for her athletes are for them to become as one, a team. She wants them to master the basic skills and techniques she is teaching. And last, but by no means least, she wants them to become winners, not necessarily to win every game or track meet, but to be winners in themselves.

When asked what her feelings were about Muleshoe, she commented, "It's the greatest! I was raised in a small town, so I am used to it. But I've never been greeted with more hospitality." Muleshoe is the best. I'm proud to be here."

Mrs. Roxie Johnson is a new face on the MJH campus. She comes from Pampa, Texas, and is

David Sanders was attempting to punt the ball on fourth down. Instead, Shane Burris passed the ball to the fullback, Micheal Dunham for a first down. Although the Mules made some good plays they also made some mistakes which lead to a heart breaking loss of 18 to 0 for the Breezers. Don't miss the next game when the Mules encounter the Idalou Wildcats at Idalou next Thursday 22 of September. The Mules expect to win the next game because, in the words of Coach Roy Donaldson, "A good athlete doesn't make the same mistake twice."

Understanding Taxes Program Offered

High school teachers and administrators across the country are again being offered the opportunity by the Internal Revenue Service to teach their students how our nation's tax system works and an overview of the U.S. budgetary system.

The free instructional program reaches millions of

students each year. It typically lasts 4 to 6 weeks and students can be expected to finish the course, the IRS says, with an understanding of how to handle their own tax matters, as well as a much better concept of the economics of our tax system.

Study guides, teacher's manuals, and films are supplied by the IRS to schools participating in the program. School personnel interested in presenting an Understanding Taxes program should contact the IRS.

Enochs News

By
Mrs. J.D. Bayless

Mrs. Winnie Byars visited relatives, Mr. and Mrs. Carson Watt at Brian also Mr. and Mrs. Henry Conaway at College Station during the Labor Day weekend.

We express our sympathy to Mrs. Ivan Clawson and family in the loss of their loved one, Ivan, his funeral was 4:00 p.m. Friday at the Bula Methodist Church.

The baptist women met 9:00 Tuesday morning for their Week of prayer for State Missions, Title of the program was "In Time Like These HOPE" Mrs. Buford Peterson was in charge of the program. Those taking parts on the program were, Mrs. Etta Layton, Mrs. Mike Heady, Mrs. J.E. Layton, Mrs. Johnnie Cox, Mrs. Chester Petree, The songs sang by Mrs. Petree with Mrs. Heady at the piano were "In Time Like These, You Need A Savior," "Open My Eyes That I Might See," "The Haven Of Rest," "Solid Rock, How Firm A Foundation," and "Work For The Night Is Coming." There was a salad luncheon at noon. Everyone present led in prayer, those present were Mrs. Clifford Snitker, J.D. Bayless, J.E. Layton, Chester Petree, Bill Key, Mike Heady, and Kerri, Etta Layton, Johnnie Cox, and Buford Peterson.

Mr. and Mrs. Howard Aubrey of Muleshoe visited Mrs. Winnie Byars also Mr. and Mrs. Jerry Thomas Sunday.

Mr. and Mrs. J.D. Bayless were in Muleshoe Saturday afternoon and visited her brother, Mr. and Mrs. Claud Coffman.

Robert Layton of Dell City visited his grandmother, Mrs. Etta Layton during the weekend.

Mrs. Oleta Burris of Wellman came Friday morning and spent till Saturday afternoon with her sister, Mr. and Mrs. J.E. Layton.

Dinner guests in the home of Mr. and Mrs. Chester Petree, Labor Day were their son, Mr. and Mrs. Donnie Petree and children and her sisters, Mrs. Audra Hill and Mrs. Clara Williamson of Lubbock, Chesters brother, Mr. and Mrs. Andrew Petree of Levelland.

Mrs. Etta Layton visited her sister, Mrs. Juanita Snow in Muleshoe Sunday afternoon.

Mr. and Mrs. W.L. Welch visited her sister and husband the G.H. Ligon at Whitharral Sunday and helped Mr. Ligon celebrate his birthday.

Mr. and Mrs. Chester Petree received word that his brother-in-law, Jimmy Pickett of Midland, died Sunday night in the Big

Springs Veterans Hospital following a lengthy illness.

The first load of grain was harvested by J.N. Sam Bannet and brought to the Enochs Farmers Co-op Elevator, Friday, September 9th.

The drouth is broken, we hope, it rained .2 tenths at the Bayless's Monday afternoon, the 12th and two inches Monday night there was light showers to 1.2 in other places.

The Senior Citizens met at the Bula and Enochs Community Center Monday night, 12th, this was game night, they had 4 new members, Mr. and Mrs. Jim Claunch, and Mr. and Mrs. John Latham, members present were, Mrs. Winnie Byars, Mrs. Etta Layton, Mrs. Bill Key, Mr. and Mrs. Marvin Long, Mr. and Mrs. Clifford Snitker, Mr. and Mrs. Chester Petree, Mr. and Mrs. Stuff Jones, Mr. and Mrs. Bob Newton, Mr. and Mrs. J.D. Bayless and Mr. and Mrs. E.N. McCall.

Mrs. J.D. Bayless honored her brother, Claud Coffman and his wife, Clara, of Muleshoe with a dinner on his birthday, Monday, September 12, he was 84 years of age. They enjoyed the afternoon visiting and playing 42.

5. When the clouds are right on the ground and there is no visibility.
6. In the winter.
7. September 1, 1939.
8. Under God, the People Rule.
9. Approximately four cups.

Home Water Conservation Measures Important

Depletion of the water supply is a major problem facing Texas.

While manufacturing, energy production and agriculture are the biggest users of water, home consumption is also significant, says Dr. Marjorie Smith, a family resource management specialist with Texas A&M's Agricultural Extension Service.

Estate Guide Tell How To Live And Die

LATEST EDITION OF TEXAS ESTATE PLANNING GUIDE TELLS HOW TO AVOID EXCESSIVE TAXATION AND NEEDLESS LEGAL ENTANGLEMENTS

"Changes in the Texas inheritance tax law, when combined with the 1982 changes in the federal tax law, have created a truly simplified inheritance tax system for Texas residents and property subject to Texas jurisdiction," says Charles A. Saunders, editor of the new, fourth edition of *How to Live-and Die-with Texas Probate*.

This new book clearly explains the advantages of proper planning and probate of estate under the supervision of competent legal counsel. Written by more than 30 leading Texas attorneys practicing in estate planning and probate, it explains how careful planning can protect a family from the additional pain and confusion created by needless legal entanglements and excessive taxation.

"Even if you have a large estate, you don't necessarily have to pay taxes on it when you die-if you take the appropriate steps under the Economic Recovery Tax Act of 1981," states Saunders.

How to Live-and Die-with Texas Probate is specifically designed for Texans and deals only with Texas probate law and the appropriate federal laws. This book has been carefully prepared to avoid any unnecessary legal words and phrases, easing comprehension.

Topics include when an estate is valued and why, how debts are paid after death, the federal estate tax, the Texas inheritance tax, the marital deduction, pitfalls in a homemade will, revocable and irrevocable trusts, life insurance as a will substitute, probate and tax saving through gifts, what probate will cost, and more.

Each person uses about 80 gallons of water a day at home.

About five percent of that water goes for drinking and cooking, 20 percent for laundry and dishes, 30 percent for bathing and 45 percent for toilets, says the specialist.

By changing our casual

habits, says Smith, we can conserve water and also reduce energy costs for heating it.

According to the specialist, a few simple conservation measures can help save water at home:

Take shorter showers. You can also purchase an inexpensive flow-limiter, restrictor, or controller for the shower head. A standard shower uses 5 to 10 gallons of water per minute, but a water-saving head will cut that amount in half.

Use a water-saving aerator on each of the other faucets in your home to cut usage.

Turn off the water while you shampoo or soap up. You can also buy a flow cut-off valve and install it on the shower head for that purpose.

Don't fill the bathtub too full. Every inch of water in the tub is about 4 1/2 gallons, so a half-filled tub uses about 25 gallons of water.

When brushing your teeth, washing dishes and washing your hair or your hands, don't let the water run the entire time. Four to 5 gallons of water will run down the drain every minute.

Reduce the amount of water required to flush the toilets in your home. Some people have placed bricks in their toilet tanks to save water. But bricks will sometimes crumble and damage the fixture or pipes. Instead, weight two one-quart plastic bottles with stones or fill them with water. Replace the caps on the bottles and

lower them into the toilet tank, making sure they are clear of moving parts. Or you can purchase a toilet tank insert which cuts the amount of water used by one-third.

Wash only full loads in the dishwasher or clothes washer.

Letting the water run to get a cold drink sends a lot of good water down the drain. For cold drinking

water, put a bottle of water in the refrigerator.

Fix leaking faucets. The Texas Department of Water Resources estimates that a slow drip wastes as much as 170 gallons of water each day or 5000 gallons per month.

To be able to read is not the same as to know what to read.

New Sandhill Crane Zones Established

Sandhill crane hunters will be able to pursue their sport in a wider area of the state this winter because of action taken Wednesday (Aug. 31) by the Texas Parks and Wildlife Commission.

The Commission authorized establishment of a third zone covering most of South Texas, the prairie west of Houston, southern portions of the Edwards Plateau and as far west of Sonora and Del Rio.

The new zone, named "Zone C," will have open season dates of Jan. 14-Feb. 12, 1984. Shooting hours and bag limits will be the same in all three sandhill crane hunting zones: 30 minutes before sunrise to sunset; three sandhill cranes per day, six in possession.

Boundaries for Zones A and B are unchanged from last year. The Zone A season, which includes Bailey

County, will be Nov. 12, 1983, through Feb. 12, 1984; the Zone B season will be Dec. 3, 1983, through Feb. 12, 1984.

The new Zone C boundaries include a buffer zone along the coast to assure protection for endangered whooping cranes which spend the winter in and near the Aransas National Wildlife Refuge at Austwell.

Establishment of the third zone in effect opens roughly the western half of the state to sandhill crane hunting during the open season.

As in the past, hunters in all zones are required to obtain free sandhill crane hunting permits from the department. To obtain the permits, write Bernie Rittenhouse, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744, and provide name, address and county of residence of all persons who intend to hunt.

LUBBOCK, Friday, September 16, 1983

Extreme caution and careful planning are a must for cotton producers this Fall if problems in meeting "Plant for PIK" requirements are to be avoided, according to officials of Lubbock-based Plains Cotton Growers, Inc.

USDA announced early this month that producers without enough cotton in the loan to cover their payment in kind entitlements would be required to satisfy 40 percent of those entitlements by putting 1983-crop production in the loan. Producers who laid out entire farms under the PIK program, and those without sufficient 1983 production to meet the mandate, USDA said, will receive their in-kind payment from government-owned Commodity Credit Corporation stocks.

The producer who has 1983 production that is owed to CCC under the plant for PIK requirement, says PGC Executive Vice President Donald Johnson, will do well to make absolutely sure that such cotton goes to the loan.

Failure to do so, "for whatever reason," Johnson continues, will put the producer out of program compliance and may leave him liable for liquidated damages of 15.2 cents per pound. Washington sources at this writing aren't sure if liquidated damages will be assessed. But the loss of deficiency payments, in-kind

payments and loan eligibility are more penalty than most producers can stand, Johnson states.

Producers may put 1983 plant-for-PIK cotton into the loan at any time during the PIK availability period, i.e. any time before March 15 on the High Plains. But the danger, Johnson points out, is that some producers may be tempted to sell early-harvested bales into the market and take a chance on meeting plant-for-PIK needs later. "Taking that risk will be very costly if the weather should destroy, or even reduce yields on, cotton intended for late harvest."

Johnson also notes that producers may be able to profit from judicious selection of the bales to be put in the loan and the bales to be sold. For example, he says, qualities in greatest demand could go to market, with plant for PIK requirements met by qualities commanding lower market premiums—a strategy that would suggest holding all cotton until the harvest is complete.

Another producer consideration that may require more delicate calculations is what USDA calls its "special purchase program." This program allows producers two choices: (1) put cotton under loan in the regular manner and receive in-kind payment after quality adjustments, or (2) enter cotton in the loan without having it classed, at the loan price for Strict Low Middling Light Spot one inch (42-32), and receive the same bales, pound for pound, as payment in kind.

Under this procedure the grower will need to contrast the advantage of getting 42-32 loan price (48.05 cents) for a lower quality cotton against a possible advantage of having additional pounds to sell in the

In the late 1500s, perfumed gloves were much prized and it was the fashion to give them away at weddings.

market, or in some cases to meet the terms of a forward contract.

One final word of caution is in order, Johnson says. "The rules of the game are still subject to change, and no producer should make final decisions without first checking with his county FASCS office."

Scientists in Texas, California announce recent breakthrough

COLLEGE STATION—Scientists in Texas and California have jointly announced a breakthrough that would double the production of rubber from a wild desert plant and could free the United States from its dependence on rubber from Southeast Asia.

The chemical treatment used in greenhouse experiments on the shrub guayule (pronounced why-oo-lee) increases rubber production by regulating the chemical and physical processes

that lead to the formation of rubber in the plant. The researchers said the same technique could be used on other food crops.

The discovery was made by a team of scientists headed by Dr. Chauncey Benedict of Texas A&M University and Dr. Henry Yokoyama of the U.S. Department of Agriculture in Pasadena, California. Their findings were reported to the National Science Foundation which funded the research.

Sudan News

By Evelyn Ritchie

The Junior class will have a supper before the Sudan-Farwell game that will be held September 16th. Tickets may be purchased from any junior class member.

The FTA will have a hamburger supper September 23 before the Sudan-Nazareth game. Tickets may be purchased from any FTA member.

The 4-H Banquet will be held on Sept. 17 in Littlefield.

You may order a Homecoming Mum from Kim Powell or any Student Council member or by calling the school. This is the last week to order.

Charlie Fisher was named Outstanding Offensive Hornet during the Sudan-Meadow game Friday night and James Clay was named Outstanding Defensive Hornet with Terry Peck receiving The Sting award.

Mr. and Mrs. Nolan Harlan and John attended the annual Monument School reunion in Graham on Sunday Aug. 21. Their daughter, Ann and granddaughters, Melanie and Christine of Littlefield accompanied them.

Visiting last week with Mr. and Mrs. Acie Daniell were their daughter, Darlene Hall of Urica, N.Y. They all went to Red River and visited the scenic Vietnam Memorial and shopped in Amarillo enroute home. Mrs. Hall returned home by plane on Friday.

Visiting this week with Mrs. Daisy Ford has been her son, Lowell Ford of Gladewater and Ferrel Ford of Seymour and her daughter, Mrs. Ruby Davis of Seagoville. They also visited with their sister, Mr. and Mrs. R.B. Knox and other family members.

Recently visiting Mr. and Mrs. Nolan Harlan and John were his sister, Mr. and Mrs. James Corder of LaPine, Oregon, his niece, Mr. and Mrs. Gordon Krose and Lisa, and Amy, Mr. and Mrs. Loyd Goracke all of Adams, Nebraska; Mr. and Mrs. Rodney Marshall and Maline and Christine of Littlefield. They all went to Lake Graham to meet a nephew, Brigadier General John Corder and his wife and children who are back in the states after being at Clark Air Base in the Philippines for some time.

Mr. and Mrs. Harvey Grigaby of Optima, Okla. visited her sons, Mr. and Mrs. Damon Provenge and children and Mr. and Mrs. Darren Provenge and boys, and were here to attend a party for her grandson, Dustin's third birthday.

Visiting with Mr. and Mrs. J.C. Wells last week were his brother, Mr. and Mrs. W.W. Wells of Pampa.

Mr. and Mrs. Darren Provenge and children vacationed recently at Tres Ritos, N.M.

Mr. and Mrs. Bob Nelson were in Andrews during the holidays to attend the 50th wedding anniversary celebration of his parents. Marge also attended her family reunion at Seymour. Her sister, Mrs. Sue Haley of Arizona visited with them also.

Mr. and Mrs. B.A. Beauchamp attended a family reunion in Lipan near Dallas during the Labor Day holidays.

Mr. and Mrs. John Williams were in Snyder Sunday to visit her brother, Mr. and Mrs. George Lowe. Their daughter, Jon Ann, a student at Angelo State met them there.

Mr. and Mrs. Bo Lance and Danya were in Baird during the Labor Day holidays to visit her parents, Mr. and Mrs. Gillett and other family members. Mrs. Charlie Lowe accompanied them to Snyder where she visited her son, Mr. and Mrs. George Lowe and family.

Edith Ruggerillo of Ft. Worth visited during the holidays with her grandmother, Mrs. Opal Pennington.

Mr. and Mrs. Mike Fisher, Tanya and Sharon were in San Angelo during the Labor Day holidays to visit her parents, Mr. and Mrs. Bill Jackson.

Mr. and Mrs. R.C. Williams visited in Lubbock during the holidays with their daughter, Mr. and Mrs. Johnnie Bates and Jason and Mrs. Leona Bates. Jason celebrated his sixth birthday while they were there.

Mr. and Mrs. Ralph Granger of Brownfield visited during the holidays with her mother, Mrs. Josephine Fisher and Missy.

Son Qualls had sold 58 Sudan Booster Club membership cards as of noon Monday.

The easiest way to finish a hard job is to get to work. After the start is made the finish is near at hand.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS

SPECIAL ELECTION

NOVEMBER 8, 1983

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 91 proposes a constitutional amendment which requires a county with a population of 30,000 or more to be divided into not less than four nor more than eight justice of the peace precincts. A county with a population of 15,000 or more but less than 30,000 shall be divided into not less than two nor more than five justice of the peace precincts. A county with a population of less than 15,000 shall be designated as a single justice of the peace precinct or, upon a finding of necessity by the commissioners court, shall be divided into more than one justice of the peace precinct but not more than four. The amendment provides further, that in any precinct in which there is a city with a population of 18,000 or more, two justices of the peace shall be elected. The amendment allows a justice of the peace, constable or commissioner to continue in office until the expiration of his term, although a change in precinct boundaries results in the officer no longer being a resident of the precinct for which he was elected or appointed and allows a justice of the peace or constable to continue in office until the expiration of his term even though a change in precinct boundaries results in the abolishment of the precinct or more than one justice of the peace or constable serving the precinct. Vacancies in the office of justice of the peace or constable that result from a precinct boundary change shall be filled by the commissioners court until the next general election. The amendment would take effect on January 1, 1984, and counties with populations of less than 30,000 and with more than four justice of the peace and constable precincts would have until January 1, 1987 to comply with the amendment.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing fewer justice of the peace and constable precincts in counties with a population of less than 30,000 and providing for continuous service by justices of the peace, constables, and county commissioners when precinct boundaries are changed."

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 105 proposes a constitutional amendment which would limit a homestead in a city, town or village to a lot or lots amounting to not more than one acre of land, together with any improvements on the land. The constitutional requirement that, at the time of

designation, an urban homestead not exceed ten thousand dollars in value without reference to the value of any improvements on the land would be eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment replacing the limitation on the value of an urban homestead with a limitation based on size."

PROPOSITION NO. 3 ON THE BALLOT

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes the Legislature to enact legislation that permits representative associations of agricultural producers to collect refundable assessments on their product sales to be used solely to finance programs of marketing, promotion, research and education relating to those products. It provides, further, that adoption of the proposed constitutional amendment will bring into effect Senate Bill 607, Acts of the 68th Legislature, Regular Session, 1983, with rejection of the amendment resulting in Senate Bill 607 having no effect.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment providing for the advancement of food and fiber production and marketing in this state through research, education, and promotion financed by the producers of agricultural products."

PROPOSITION NO. 4 ON THE BALLOT

House Joint Resolution 30 proposes a constitutional amendment which authorizes the Legislature to enact laws to provide for the succession of members of the Legislature in the event of enemy attack and allows the suspension of procedural rules imposed by the Constitution in the event of, or immediate threat of, enemy attack. The amendment empowers the Governor, after consultation with the Speaker of the House and the Lieutenant Governor, to suspend the constitutional requirement that the Legislature hold its sessions in Austin and allows the suspension of procedural rules by the Governor issuing a proclamation in which the House of Representatives and Senate concur by resolution approved by a majority of the members present. Suspension of the constitutional rules may not exceed a period of two years under a single proclamation; however, the Governor may renew the suspension by issuing a new proclamation concurred in by the House of Representatives and the Senate through a resolution approved by a major-

ity of the members present.

The amendment will appear on the ballot as follows: "The constitutional amendment authorizing statutory provisions for succession of public office during disasters caused by enemy attack, and authorizing the suspension of certain constitutional rules relating to legislative procedure during those disasters or during immediate threat of enemy attack."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 12 proposes a constitutional amendment that authorizes the Legislature to enact legislation providing for the use of the permanent school fund and income from the permanent school fund to guarantee bonds issued by school districts. The amendment provides, further, that the Legislature may appropriate part of the available school fund for administration of the permanent school fund or of a bond guarantee program established pursuant to the amendment.

The constitutional amendment will appear on the ballot as follows: "The constitutional amendment authorizing use of the permanent school fund to guarantee bonds issued by school districts."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 1 proposes a constitutional amendment which would permit the Legislature to provide for the garnishment of wages to enforce court-ordered child support payments. The garnishment remedy would not be available for other purposes.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment allowing the Legislature to provide for additional remedies to enforce court-ordered child support payments."

PROPOSITION NO. 7 ON THE BALLOT

Senate Joint Resolution 14 proposes a constitutional amendment that authorizes the Veterans' Land Board to provide for, issue, and sell general obligation bonds of the State of Texas in an amount not to exceed \$800 million to provide financing to veterans of the state. The amendment requires that three hundred million dollars of the state bonds be dedicated to the Veterans' Land Fund. The Fund is to be used to purchase land to be sold to veterans under such terms, rules and regulations as may be authorized by law. The amendment creates the Veterans' Housing Assistance Fund and requires that \$500 million of the state bonds authorized by the amendment be dedicated to the Fund. The Veterans' Housing Assistance Fund will be utilized by the Veterans' Land Board for the purpose of making home mortgage loans to veterans for housing within the state and for the administrative

costs of administering the fund and issuing the bonds.

The amendment provides, further, that if there is not money in either the Veterans' Land Fund or the Veterans' Housing Assistance Fund available for payment of principal and interest on the general obligation bonds issued pursuant to the amendment, then money coming into the Treasury in each fiscal year is appropriated in an amount sufficient for payment of principal and interest due in that fiscal year.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment for financial assistance to veterans and to authorize the issuance of \$800 million in bonds of the state to finance the Veterans' Land Program and the Veterans' Housing Assistance Program."

PROPOSITION NO. 8 ON THE BALLOT

Senate Joint Resolution 1 proposes a constitutional amendment that authorizes political subdivisions to exempt veterans' organizations from ad valorem taxation on their property. The amendment requires that the veterans' organizations be chartered by the United States Congress, be composed of members or former members of the United States Armed Forces, and be organized for patriotic and public service purposes. The amendment provides, further, that political subdivisions may exempt fraternal organizations from ad valorem taxation on their property. The amendment requires that the fraternal organizations be organized to perform and be primarily engaged in charitable or benevolent functions. The Legislature would be authorized to enact laws that prescribe eligibility requirements for fraternal organizations to benefit from the exemption and to pass legislation limiting the types or amount of property owned by a fraternal organization which may be exempted from ad valorem taxation.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment allowing the Legislature to provide for additional remedies to enforce court-ordered child support payments."

PROPOSITION NO. 9 ON THE BALLOT

House Joint Resolution 70 proposes a constitutional amendment to authorize the Legislature to provide, by local or general law, a method by which judges of statutory courts may be assigned to any other statutory court with probate jurisdiction and to any constitutional county court in any county in the state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for assignment of judges of statutory probate courts to other statutory county courts with probate

jurisdiction and to county courts."

PROPOSITION NO. 10 ON THE BALLOT

Senate Joint Resolution 17 proposes a constitutional amendment that authorizes the Legislature to enact laws which would allow a city or town to expend public funds to relocate or replace sanitation sewer laterals on private property if done in conjunction with the replacement or relocation of sanitation sewer mains serving the property. The amendment requires that the law authorize the city or town to affix a lien on the private property, with the consent of the owner, to cover the costs of the replacement or relocation of the sewer laterals on the property. The lien may not be enforced until five years have expired since the date the lien was affixed. The amendment provides, further, that the law require that the costs of the replacement or relocation of the sewer laterals on the private property be assessed against the property with repayment to be amortized over a period not to exceed five years and at an interest rate provided by law.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to permit a city or town to expend public funds and levy assessments for the relocation or replacement of sanitation sewer laterals on private property."

PROPOSITION NO. 11 ON THE BALLOT

Senate Joint Resolution 13 proposes a constitutional amendment that would change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and would eliminate the Governor's power to revoke paroles. The Legislature would be authorized to establish the Board of Pardons and Paroles and to require it to maintain records of its actions and the reasons for its actions. The amendment would empower the Legislature to enact parole laws. Constitutional language specifying the qualifications and terms of office for members of the Board of Pardons and Paroles is eliminated. The constitutional language governing the composition of the Board of Pardons and Paroles and the manner of filling vacancies on the Board is eliminated.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment to change the Board of Pardons and Paroles from a constitutional agency to a statutory agency and to give the board power to revoke paroles."

PROPOSITION NO. 12 ON THE BALLOT

House Joint Resolution 70 proposes a constitutional amendment to authorize the Legislature to provide, by local or general law, a method by which judges of statutory courts may be assigned to any other statutory court with probate jurisdiction and to any constitutional county court in any county in the state.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment providing for assignment of judges of statutory probate courts to other statutory county courts with probate

BACK TO SCHOOL
(Financing College Education)

Parents can provide funds for college education in a number of ways. Perhaps the simplest method is to invest a certain amount each month so you'll have the necessary dollars when the child starts college. The need to start early in your child's life is made evident by the following illustration.

If your child is now entering high school at age fourteen, let's assume that you'll need \$25,000 to pay for his college education. You must invest \$444 earning 8% after taxes each month for the next four years in order to accumulate \$25,000. Suppose instead that your child is now six years old. By the time he enters college, the \$25,000 you think necessary to educate a child will have grown, assuming 6% annual inflation, to \$40,000. Investing your money at 8%, you will need to put aside \$166 a month. If the child is a newborn, the \$25,000 required today will grow with 6% inflation to \$56,000 by the time the child is ready for college, and you will need to put aside \$117 a month at 8%. As a practical matter, this is seldom done.

Another way of financing your child's education is by gifting to him an income producing asset and allowing the income to fund the college education. Placing income producing assets in a short term trust with the college student as the beneficiary, or making an interest-free loan to the child to pay his college expenses might also be considered.

Assuming the child has little or no other income, these techniques will have shifted income from your higher bracket tax return to the child's low bracket or no tax return, and you'll be using tax dollars saved to help pay for college.

These techniques should be reviewed with your accountant to be sure that the income you expected to be taxed to your child is not taxable to you.

Estos son los informes explicatorios sobre las enmiendas propuestas a la constitucion que aparecerán en la boleta el día 8 de noviembre de 1983. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/252/9602 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.

Change Lifestyle To Beat Back Pain

Back pain now rivals the common cold as a major health complaint of Americans. According to the American Medical Association and insurance company data, some 22 million Americans experience back discomfort during the course of a year; over 16 million of them will visit their doctors; and about 2 million will be hospitalized. Only about 20 percent of back problems are caused by actual disease of the bones and joints of the back. "The vast majority of back problems are simply due to poor daily lifestyle habits," says health educator Dr. Mary Ann Shirer.

A major cause of back pain is improper body mechanics or poor posture when standing, sitting, bending and lifting, and lying down, says Shirer, a specialist with Texas A&M University's Agricultural Extension Service. Improving posture and body alignment in all daily activities -- whether sitting at a desk, doing housework, or driving a tractor -- will relieve back strain, protect the back from injury and slow down "back wear" from the aging process, notes the specialist. Poor muscle tone, weak muscles and a lack of flexibility also cause back pain. Faithfully following an ex-

ercise program to strengthen abdominal and back muscles and to increase body flexibility can alleviate existing back problems and reduce the risk of developing back problems. But an exercise program takes a daily commitment to be effective, says Shirer, and should not be started while you have severe back pain. It's also a good idea to get your doctor's approval, especially if you have back problems, other medical conditions, or are over 35 years of age, cautions the specialist. Being overweight or obese is another contributing factor to back pain. Excess weight shifts the body's center of gravity and puts an added strain on the back, especially if the excess weight is carried around the abdomen, she explains. "Even mental stress and anxiety can play a role by causing the back muscles to become tense and aggravate back pain," says Shirer. For the person who has weak muscles, poor posture, is overweight and has poor stress management skills, even the slightest mechanical stress can cause a back injury or strain, whether the person does heavy lifting or not.

By Spencer Tanksley
County Extension Agent

Applying nitrogen for small grains this fall will be important, says Spencer Tanksley, county agent with the Texas Agricultural Extension Service, Texas A&M University System. He lists four important reasons why wheat and other small grains need nitrogen at planting or a short time afterward: --aid in developing of good root system, --for early grazing, --to hasten decomposition of excess residual straw, and --for high production of forage and grain. Sufficient fall growth for early grazing cannot be expected without adequate nitrogen at planting, emphasizes Tanksley. The advantages of early planting and favorable fall growing conditions can be lost if nitrogen fertilization is delayed until late fall. Establishing a good uniform stand with good tillering requires nitrogen, and most years in thy sight...? 6. In 1939, what did the average American house and lot cost?

Answers to Who Knows

1. The mockingbird.
2. Lake Itasca, Minnesota.
3. September 21, 1784, in Philadelphia.
4. Harpo.
5. "Are as a watch in the night."
6. About \$4,600.

Foundation Giving Free Trees

Ten free flowering trees will be given to people who join the National Arbor Day Foundation during September, 1983. The free trees are part of the Foundation's effort to promote tree planting throughout America. The Foundation will give two White Dogwood, two American Redbud, two European Mountain Ash, two Washington Hawthorn, and two Flowering Crab trees to members joining during September. The six to twelve inch trees will be shipped this fall postage paid with enclosed planting instructions. These trees were selected because they will give a colorful flowering of pink, white, and red blossoms throughout the spring, according to the Foundation. The National Arbor Day Foundation, a nonprofit organization, is working to improve the quality of life throughout the country by encouraging tree planting. The Foundation will give the ten free trees to members contributing \$10 during September. To become a member of the Foundation and to receive the free trees, a \$10 membership contribution should be sent to FLOWERING TREES, National Arbor Day Foundation, 100 Arbor Avenue, Nebraska City, NE 68410, by September 30, 1983.

Evidence from another study, of 900 motorcycle accidents in Southern California, showed that although the motorcyclists had been riding an average of three years, when faced with an accident situation they didn't know what to do. They either took no evasive action or carried out the maneuver incorrectly. Rider education programs -- for new and experienced riders -- emphasize handling emergency situations. Perhaps if more of these riders had taken a training program they would have been better able to handle an emergency when it cropped up. Dr. Hartman is president of the Motorcycle Safety Foundation, an organization which encourages and develops motorcycle safety education program on a nationwide basis.

'83 Farm Safety Week Centered On Children

Protecting rural children and teaching them safety measures is the emphasis of National Farm Safety Week September 18-24, according to George R. Gustafson, Executive Vice President of the Texas Safety Association. The 40th annual observance of rural safety has been proclaimed by President Ronald Reagan and is being sponsored by the National Safety Council and the U.S. Department of Agriculture. Farm safety is a particular concern in Texas, where 100 persons lost their lives in farm accidents last year, according to Gustafson. The statistics are tabulated by the Texas Farm Bureau, based on data furnished by the Texas State Health Department. These records show that of the 100 deaths, most were related to tractors, firearms, drowning, electric current, and machinery, he said. Safety leaders estimate that the incidence of these rural-type accidents is actually much greater than those numbers reported, he said. Although farm fatalities are a major concern, farmers and ranchers should also be aware that up to 20,000 disabling injuries

and up to 250,000 serious injuries requiring medical attention occur to Texas farmers and ranchers each year, according to Dr. Gary S. Nelson, Extension Specialist Safety Engineering, Texas A&M University and Texas Safety Association Vice President for Agriculture. According to Nelson, "If you are a farmer or a rancher, the probability of experiencing a serious injury this year is 1 in 5." Many riders agree that some form of training program should be available for motorcyclists, but when it comes to their own training they're not so sure. In a survey of nearly 5,000 motorcyclists, Wisconsin Department of Transportation officials found that over 75 percent believed rider education should be available. But when the respondents were asked if they would take such a course, only 44 percent said they would attend.

HEALTH

Lawrence E. Lamb, M.D.

Tired from laboring

By Lawrence Lamb, M.D.

DEAR DR. LAMB — Like many other people with regular office jobs, I am a weekend laborer. When I do a lot of physical work over the weekend I am tired for three or four days afterward. I don't mean my muscles are sore. I'm in better shape than that but my energy is really gone.

Everyone says exercise is good for you and will make you have more energy. Then what is this three to four day period of exhaustion all about? Does it have anything to do with blood sugar? I can eat sweets when I get tired like this but I'm still tired. Any explanation?

DEAR READER — One explanation could be your muscle sugar rather than your blood sugar. What really counts is the glucose level inside your cells, in this case muscle fibers, not what is in the bloodstream.

Your muscles are loaded with glycogen, a large sugar or starch molecule that is formed by connecting together several molecules of glucose. This glycogen is available to your muscles for fuel to release energy when you work your muscles.

When you expend a lot of muscular effort over a period of a day, even if it is not peak exercise, you will gradually use that muscle glycogen.

When it is gone, it is gone. This major source of energy stores needs to be replaced before your muscles can do the same level of work again. It takes two or three days for your body chemistry system to replenish the muscle glycogen stores. During that period, while your muscles are recharging so to speak, your energy level will be low and you will not have the physical stamina you had before.

It is important to include enough carbohydrate in your diet to provide adequate amounts of muscle glycogen. Don't think that sugar and sweets are all bad for you. To help you have a balanced view of their real role in your body, I am sending you The Health Letter 19-4, Sugar and Sweets: Good and Bad. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

DEAR DR. LAMB — I have a problem with blood in my urine. It all started when I was mowing the lawn. I came in to use the bathroom and noticed very dark, almost black urine. The next morning it cleared up, I thought. But a couple of weeks later my urine was the color of cherry soda.

I have had X-rays of my kidneys, ultrasound tests, a CAT scan and a surgeon did a cystoscopy on me. They found four spots on my kidneys that turned out to be cysts, but no cancer, no polyps and no stones.

I still pass blood and even when there is none I can see, there is still some in my urine. Can you shed some light on my problem? I'm 73 years old.

DEAR READER — There are many causes for blood in urine. It can be from the kidneys, bladder, prostate or anywhere along the system.

Your age suggests that you do not have polycystic kidney disease, which can cause painless bleeding, but you can have painless bleeding caused by a solitary cyst of the kidney. Since you have four cysts at least, that could be one explanation.

Many other causes, such as a stone, should be ruled out by your examination results. Some people do develop blood in the urine from vigorous exercise.

Don't use aspirin or medicines containing salicylates as these can increase your tendency to bleed.

DEAR DR. LAMB — I read your column about the person who had a spastic colon that was caused by drinking milk. I too had gas, cramps, sometimes mild diarrhea, but most of all those terrible pains from bloating. After reading about her problem I decided that perhaps my spastic colon was really milk intolerance so I quit all milk and stopped eating anything made with milk.

In a week's time I was a different person. No more pain, distention and feeling uncomfortable just to bend over. It is wonderful. It annoys me that I suffered all those years when the solution was so simple.

Now the problem is how I can get my calcium. I suppose I could take pills but I would like to have some

milk. I have heard that people who cannot tolerate cow's milk can use goat's milk. Will that be all right? How about dried milk powder?

DEAR READER — I wish the solution were that easy. Milk is produced by lactation and contains a sugar called lactose. You won't be able to get any milk that doesn't contain lactose unless it has been treated. In other words, goat's milk and dried milk powder do contain lactose and will cause your old symptoms again.

You may be able to use a reasonable amount of milk by using LactAid. It is an enzyme that you can add to the milk and it will split the lactose double sugar before you drink the milk. That makes up for your own digestive system not providing the enzyme to do the same job. You can get it from SugarLo Co., P.O. Box 1100, Pleasantville, NJ 08232.

I have discussed the lactose problem in more detail in The Health Letter 7-2, Milk Products: Good and Bad, which I am sending you. Others who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

And you may be able to use one of the soybean milk substitutes usually provided for infants. Look on the label, though, and be sure that lactose or milk powder is not included in the ingredients.

DEAR DR. LAMB — I hope you will be able to advise me about my nightly leg cramps. The pain may occur within two hours after I am in bed but it is sure to occur by 4 a.m. The cramps are in the leg muscles and go down into the feet. I have to get up and walk to relax the muscles. I have taken many different medicines including quinine, which was the best. But it increased the ringing in my head.

I am 82 and this has been going on for 10 years now.

DEAR READER — Try something simple first. Learn to sleep in such a way that your toes don't drop down. When your toes are turned down it contracts your calf muscles and this is conducive to leg muscle cramps. Lie on your side or put a board on edge at the bottom of your bed to hold the covers off your feet. You can put your feet against the board to hold your toes up.

Also stretch your calf muscles each night before going to bed. Lean forward against the wall until you feel the pull on your Achilles' tendon and hold it for 30 seconds, repeat several times. Good stretching exercises before going to bed often help.

Then wear warm socks up to the knees to keep your legs warm.

If all this fails, you might try vitamin E.

DEAR DR. LAMB — I have always heard that the male determines the sex of the child but I am wondering if that is always true.

I am the mother of four healthy boys and I love them all but I have always wanted a daughter. I have a slight to moderate hormone imbalance, too much male hormone. I have noticed through the years that any other woman who also displays symptoms of having a hormone imbalance usually has all male children. It seems to be true too often to be just a coincidence. Is there anything to that theory? Surely, I am not the first to notice it.

DEAR READER — We have two chromosomes that determine our sex. A female has two X chromosomes (XX) and a male has one X and one Y chromosome (XY). One chromosome comes from the mother and the other from the father. A woman always produces X chromosomes, that is her ova all carry one X chromosome.

When the cell splitting occurs to form sperm cells, some sperm cells will get the father's X chromosome and others his Y chromosome. If a Y sperm cell unites with the X carrying ovum it will produce an XY child or male. If an X sperm unites with the X carrying ovum it will produce an XX child or female.

There is no evidence that a woman's hormone balance has anything to do with it. If a man is prone to producing lots of Y sperm cells he is more likely to produce males but if he is more prone to produce X sperm he will father females.
