A key part of Midland's extraordinary growth during the past 10 years has been the Industrial Foundation of Midland and its well-planned industrial park. Staff-Writer Linda Hill and photographer Mike Kardos examine this element of the "Midland Story" in Sunday's Reporter-Telegram.

## What's the hold-up?

Although construction of an Exhibit Center in Midland was approved by voters in December 1976, no visible sign of it has been seen. For Sunday, staff writer Lana Cunningham interviews an architect and others about the delays and changes.

# Rebels holding; Reserves called

By TOM FENTON

MANAGUA, Nicaragua (AP) -Nicaraguan commandos backed by tank-like vehicles and machine gunfiring helicopters pressed their assault today on the city of Leon. But the rebels there and in two other northern cities appeared to be holding on as Managua braced for a possible attack to coincide with the country's independence day.

Leon, Nicaragua's second largest city with a population of 100,000, has been occupied since Saturday by Sandinista guerrillas seeking the overthrow of President Anastasio Somoza. The leftist guerrillas and ordinary citizens supporting them also hold two other major cities in northwest Nicaragua, Esteli and Chinandega.

The rebels have lost control of the southern city of Masaya and reportedly were repulsed in an attack on Penas Blancas on the Costa Rican border. However, they were still entrenched in Diriamba, 20 miles south of Managua, Jinotepe, five miles south of Diriamba, and Rivas, 55 miles further south.

Somoza has mobilized reserves of the national guard, the nation's army, to counter the rebel attacks, declared martial law and placed Managua under 8 p.m.-to 5 a.m. curfew. The Red Cross estimates 500 persons have been killed in the week's fighting nationwide, but Somoza admits to

only 30 guardsmen slain. Some 38 truckloads of troops rolled

# Women Jaycees: 'Not right nov

to 35.

By GUY SULLIVAN R-T Staff Writer

Should women be allowed in the Midland Jaycees?

That's an increasingly tough bone of contention, according to the presidents of both the Midland Jaycees and the Jaycee-ettes, a wives auxiliary group which is also open to single

During the National Jaycees convention held earlier this year, a majority of members voted to exclude women from their fraternal ranks.

Despite the vote, some "pilot" project clubs were allowed to let females into their ranks in Washington,

However, the Texas Jaycees delegation voted against the idea of allowing women into Jaycees clubs during this year's national convention, according to Lynn Williams, president of the Midland Jaycees.

Williams said, "I think it's possible that women will become members of the Midland Jaycees. However, I don't think it will happen right

But Mrs. Ray Peacock, president of the Midland Jaycee-ettes, said, "I think with the passage of time women will be banging on the door of the Midland Jaycees.

"I personally would like to see women join: I think it's useless to omit anyone who wants to belong to She said said she disagrees with banning people from joining a group on the basis of sex.

"I happen to think that women have

a lot to contribute. Women can become good leaders," Mrs. Peacock She cited Judge Barbara Culver

and Assistant District Attorney Timothy Ann Sloan as two of the area's best women leaders.

But Barry Kennedy, national president of the Jaycees, recently was, quoted as saying that, while members don't have anything against women, they want to retain the concept of a men's club restricted to those ages 18

In fact, more than 100 chapters in the country have women members.

But since the national membership defeated a proposal to admit women into the organization last June, Kennedy has warned, "All chapters now admitting women as regular members have until Dec. 1 to come into compliance with the policy and bylaws of the United States Jay-

"To the best of my knowledge no woman has ever asked to belong to the Midland Jaycees," said Mrs. Pea-

"However, I think the Midland Jaycees chapter will let women join eventually because it's a pretty progressive club. Their leaders han-

Museum garners award

ABILENE - The Permian Basin Petroleum Museum, Library and Hall of Fame at Midland has been announced as one of four recipients of the coveted West Texas Chamber of Commerce Cultural Achievement

Lou Cooley of Borger, chairman of the WTCC Cultural Affairs Committee, said presentation of the awards will take place during WTC-C's mid-year meeting, scheduled Oct.

12-13 at El Paso. Ms. Cooley aaid the Permian Basin Petroleum Museum was selected for

the award in the category of Historical Preservation and Development. The institution combined fine paintings with documents and objects to describe the historical heritage of the Permian Basin.The museum has collected the world's largest assemblage of antique drilling equipment.

John Ben Shepperd of Odessa, another award winner, was selected for his support, and as a patron, of the arts. Shepperd was the organizer and

(Continued on Page 2A)

# (Continued on Page 2A) Bees, honey, worms, grapes, cows, milk; it doesn't add up to peanuts

Agriculture in Midland County is more than cotton and cattle.

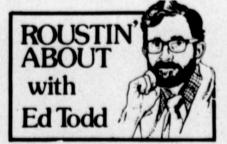

It's bees and honey, worms for fishing and food (maybe), a vineyard and table wine, cows and milk production, orchards and shelled pecans, sheep, wool, hogs, alfalfa, wheat, maize and

And it's not exactly peanuts either unless you pit the \$13 million agricultural income against Midland's 'umpteen million-dollar petroleum in-

Still, it ain't hay. It's like Ron Brice observed: The oil-and-gas ecomonic impact simply "overshadows" the agricultural in-

Ag activities in Midland are beginning to shine more and more and would really have the sun to their back if the rains had been timed right to help the scrawny cotton crop. The drought is "doing in" the boll crop. Otherwise, diversified agriculture

is showing promise here. And Brice, engineer-salesman who's mostly bound to the office and desk, was among 147 Midlanders who

got a glimpse into agriculture here

For some, like Charlie Green, the county's agricultural agent, it was the

But to many, the farm-and-ranch tour Midland County was an experience into a new world that's been read about more than seen. It's one thing to read about it; it's earthy and downright interesting to see.

The three-bus tour was compliments of the Midland Chamber of Commerce's farm and ranch committee, county extension service headed by Green, and the county's soil and water conservation district,

headed up by Dick Hagelstein, district conservationist.

After the 100-mile tour was winding down and most everybody had had his fill of bees, worms, cotton, cows, grapes, alfalfa, pecans, rangeland, bush and mesquite, Hoot Leonard and the Midland Farmers Cooperative made sure everybody had filling portions of barbecue, potatoes, and beans and the trimmings at Scharbauer No. 1 Ranch headquarters just southwest of Midland.

Green did the traveling commentary on bus No. 1; Charlie Welch, chairman of the chamber's farm and ranch committee, did the same on bus No. 2, and Fort Stockton's George Sultemeier, a range specialist from the Texas Agricultural Extension Service (TAEX), gave the facts and ramblings on bus No. 3. One by one, here's an accounting of

Texas area forecasts

membership voted as a whole. A spokesman for the national organization said the proposal to admit women gained support "from chapters in metropolitan areas where men and women of Jaycee age interact

and compete in the business world on a daily basis." He pointed out that with membership restrictions, "many corporations in those areas will no longer sponsor or pay dues for their employees to belong to an organization which discriminates on the basis of sex.

"Much of the opposition to the proposed changes comes from more rural areas where there are fewer women pursuing career opportunities and where corporate pressure is not present," the spokesman said.

'The large majority of chapters have never had a woman indicate a desire to join their Jaycee organization. Opposition then, is based not on chauvinistic grounds, but simply on the belief that there is nothing wrong with a private organization being lim-

ited to only one sex," he added. Jaycees officials said the courts have upheld restrictions for private

# More cotton

(Continued from Page 1A)

Fort Stockton said at the Charles Fisler Apiary south of Stanton. By that, he meant primarily honey for food and pollination by it worker bees in their foraging.

Fisler, who keeps more than 100 bee colonies, described each bee hive at a "factory or town."

"There's roughly 10 different trades" in a colony, he told the "tourists," who had left their buses to gather near the hives. "They (honey bees) work themselves to death roughly every six week — 42 days," said the bee admirer. "If there's any other creature on earth that will do that for us, I don't know what," Fisler said.

He likened bee colonies to the human communities: Some colonies make "lots of honey." Some produce mediocre honey. "Others barely make a living, and others have hard luck or whatever and can't make it." The foraging bees, who make up about 20 percent of 10,000-to-50,000bee colony, in Midland County gather their nectar mostly from the flowers of cotton, alfalfa, fruit trees and vege-

-No. 2, Cotton: The touring bunch looked over some experimental varieties of disease-resistant cotton on Roy Graham's irrigated farm near Greenwood. "I've had a number of farmers tell me it (new cotton strains) has helped increase production and income." TAEX plant pathologists Dr. Ken Lindsey and Harold Kaufman talked about the value of experimental varieties. Some cotton is developed to "get up and get going and make a crop" before the harmful insects move into the field. -No. 3, Earthworms: As a profit-

able "livestock" venture, earthworm farming has been "over-exaggerated," Green said on the George "Pat" Anderson worm farm in rural Midland County, First off, worms are marketable for fishing needs. "In Midland," Green noted, "we're a long way from the lakes.'

Patterson, who figures his worm farming will be paying off in a few years, talked about his African night crawlers, which must be "babied" and kept warm to survive, and his more hardy red wrigglers. Both are good fishing worms and, he said, someday they be used food for humans. Worm farmers already are going after the pet food market.

"People are eating them," Ander-son said. "They're dried up, and they're powdered ... and (are) just like taking protein in a capsule. Earthworms are about 95 percent protein, he said.

-No. 4, Grapes: At the 12-acre Greenwood, entrepreneur John Crosby Jr. and his vineyard manager, Viticulturist Rick Green, are cultivating vines for wine-making and marketing. "The grapes were great this year," said Crosby, who has been assured that this niche in West Texas has "the potential of making some of the finest wines in the state of Texas.'

-No. 5, Ranchland: The trip took in a non-stop brief tour of the Bradford Ranch, which was rootplowed to rid it of nusiance shrubs and bushes, such, as mesquite, and then was seeded with rangeland grasses. These included Sideoats grama, Green sprangletop, Lehmann lovegrass and Plains bristlegrass. Forage production in the treated area yields about three-times that of the native grassland areas.

-No. 6, Pecan: The three buses drove through the CA&L Pecan Co. commercial orchard managed by Harold Semple. The orchard, which was started in 1963, now has 5,000 trees watered by drip irrigation, as are the grape vines.

-No. 7, Cows & Milk: At the Roy Roy Dairy southeast of Midland, Roy Neely Jr. gave a run down of the 500-cow dairy operated since Neely and his father, Roy Neely Sr. The cows are milked three times daily in one of the largest dairy operations in the state.

'You've got to want to live with the level of pain of having to do it (the milking) three times at day," the younger Neely said. "If I had my way, we'd milk once a day and have weekends off."

-No. 8, Scharbauer No. 1 Ranch: Rancher Chris Scharbauer gave an account of mesquite-and-bush control on the spread, which, due to the dought, supports one head of cattle to each 64 acres. That's 64 head of Hereford cattle to the section, and the Scharbauers have 600 sections in the Southwest. The tourists also got a look at quarter horses the Scharbaurers breed for saddle horses for range work. Then, at the headquarters, where ranch foreman Ken Albus and his wife live, the touring bunch were treated to a feast of barbecue and the

## Summit ends at sundown

mittee, said in a telephone interview that he has kept in touch with the talks indirectly and declared, "I have not been dampened in my opti-

Declining to speculate on how or when the talks will end, Powell said he was trying to "strike a balance" between optimism and pessimism.

"An extreme in either direction is simply not justified by the facts of the matter," he said. "It is a very difficult situation in which we have to deal with a considerable amount of uncertainty.

When they are not performing on the ice, members of the Ice Capades are either changing into another costume for their next number or taking a rest. Frank Sweiding, left, of Chicago laces up his

skates in preparation for his next number Thursday night, while Ron Shaver of Canada lets his mind wander with an electronic game. (Staff photo by Mike Kardos)

# Soloists: lords of the Ice Capades

Once again, Odessa's Ector County Coliseum is the setting for glitter and glamour on ice, with the 38th edition of the Ice Capades opening Thursday to a capacity crowd.

The show's theme, "Make a Wish," carries the audience through a series of magical kingdoms inhabited by an assortment of creatures - lords and ladies, dancers and acrobats, comedians and clowns.

The true lords and ladies of the show would have to be the soloists. Showing versatility is Ron Shaver,

"Make a Wish" carries the audience through a series of magical kingdoms inhabited by an assortment of creatures - lords and ladies, dancers and acrobats, comedians and clowns.

a Canadian skating champion. He is seen in an upbeat "dance" to "You're the Top" and a dramatic intepretation of "Send in the Clowns." The first, an exercise of kicks and turns. admirably displays his skating strength, while the latter allows fuller showcasing of his fluid style.

Lynn Nightingale, another Canadian champion, performs an pleasing interpretation of "Tomorrow" and

helps give life to a production number entitled "Dreams for Sale." Playing a Keystone Cop and a girl determined to "dance all night," she has a stage presence that helps tie the varied elements together.

The Carmen Suite and a Russian medley, both skated by Americans Julie Johnson and Perry Jewell, round out a selection of fine music.

Other musical selections finding their way into the Ice Capades lineup demonstrate the influence of radio and television on all forms of entertainment "The Flintstone Frolics" features, first and foremost, cartoon charac-

ters Fred Flintstone, Barney Rubble, Scooby-Doo and Yogi Bear, accompanied by Mother Goose and flocks of Bo-Peeps, pink sheep and dancing Humpty Dumptys.
Their production includes an audition by a group of "Disco Ducks" and

a breath-taking look at four flourescent butterflies breaking into flight. Children of all ages seem delighted by their antics. The influence of one of television's leading mini-series, "Roots," is evi-

denced in "Jubilation!," a tribute to spirituals. It is here that the skating abilities of Richard Ewell, the troupe's only black soloist, are best displayed.

"Jubilation!" is also a showcase for 1978 U.S. Pair Champions Gail Hamula and Frank Sweiding.

The show's grandest production number, "An Oriental Fantasy," features Jannat Thompson, Gary Jones and Judy Roof. Though lighting and costuming are indeed beautiful, the number is flawed by the intrusion of somewhat peripheral solos by Sissy Moody and Perry Jewell. It was here that the show seemed to drag.

The show-stealers were the Fenton Kids, who first performed a gymnas-

### A review

tics number and later returned to the ice for some precision skating coupled with more gymnastics. Ranging in age from 11 to 19, they are well on their way to icy success

The show also has its quota of comedy, with the antics of Frenchman Jean-Pierre Romano and Englishmen Mike Course and Bob Young following predictable paths. Prat falls, water pistols and a number of off-stage explosions, however, keep

Also predictable is the show's closing, which features a bevy of beauties known as the Ice Capettes performing the traditional kicks and pinwheels all to a series of tunes honoring "girlhood.'

Tickets to Ice Capades performances, set at 8 p.m. nightly except Sunday, with 2 p.m. matinees on Saturday and Sunday, are available at the coliseum box office. The show closes Wednesday.

first chairman of the Texas Fine Arts Commission (now renamed the Texas Commission on Arts and Humanities). He now is serving as the first chairman of the Lone Star Historical Drama Association and is active in historical groups at local, regional and state levels. He is a past president of the West Texas Chamber of Commerce.

Dr. Barton Warnock, biology professor at Sul Ross State University at Alpine, was mamed as an award recipient for his role as an educator, author, scientist and naturalist. Dr. Warnock has served since 1947 as chairman of the Department of Biology at Sul Ross

Mr. and Mrs. Bill Moore of Canyon, directors of the popular "Texas" pageant held each summer in Palo Duro Canyon, were also selected to receive the award. They are in constant demand as consultants, advisers, coaches and teachers, but their international claim to fame is their direction of "Texas." The outdoor drama has played to more than 950,000 persons since its debut 12 years ago.

The annual awards luncheon will be held the second day of the El Paso

buted a statement calling for an uprising, and speculation mounted they might be planning an attack on Nicaragua's 157th anniversary of independence from Spain.

National guardsmen carried case loads ammunition through the lobby of the Intercontinental Hotel.

A contingent of soldiers was stationed on the top floor and the hotel and the adjacent military compound which houses Somoza's offices were surrounded by steel barricades and barbed wire. Troops with automatic weapons

were checking identification, vehicles and packages of everyone who approached the hotel and military complex.

Peace Corps volunteers said fellow workers in troubled areas had been sent to Managua about two weeks ago. There are 110 volunteers in Nicaragua and members of the group said 56 were returning to the United States.

The Sandinista message called on people to take to the streets and demand a provisional government.

"The Sandinista army and the Sandinista people should point their rifles

#### DEATHS

#### Jesse Kirkland

LAMESA - Services for Jess Merle Kirkland, 58, of Lamesa will at 2 p.m. Saturday here in the Brann Funeral Home with Bishop Loel, pastor of the Church of Jesus Chri of Latter-Day Saints in Big Spring offi-ciating. A military burial will flow in Lamesa Memorial Park under the direction of Branon Funeral Hone.

Kirkland died Thursday moring in a Big Spring hospital after long

He was born Feb. 3, 1920, Anson. He was married to Anna Myrble) Parker on April 21, 1946.

Kirkland was a veterar of World War II, and was a post commander of the VFW in Lamesa. Je lived in Dawson County for manyyears.

Survivors include his wife; three sons, James Kirkland, David Kirkland and Eddie Kirkland, all of Lub-bock; a daughter, Mrs. Charles Hage-man of Lamesa; two sters, Dorothy Megason and Ida Jo Freston, both of Amarillo; three brothers, Alton Kirkland of San Angelo, Jub Kirkland of Fort Worth and JD. Kirkland of Breckenridge, and agrandchild.

#### Don Huffman

Services for Dor G. Huffman, 46, of 3106 Sentinel Ave. were at 4 p.m. Wednesday in the Calvary Baptist Church with the Rev. Glenn Shoemake, pastor, officiating. Burial was in Fairview Cemetery under the direction of Newnie W. Ellis Funeral

Huffman died at his home Monday after a long illness.

He was born Oct. 30, 1931, in Eureka Springs, Art. He entered the U.S. Air Force in 1950 and retired in 1971. He was married to Ann Wells in Midland in 1953.

Huffman was a member of the Baptist Church, the Masonic Lodge -Basin Spring Lodge 386, Eureka Springs Lodge 320 and the Shrine

Survivors include his wife; a son Ronald R. Huffman of Midland; his parents, Mr. and Mrs. E.L. Huffman of Eureka Springs; a brother, Ronald Huffman of Eureka Springs, and four sisters, Mrs. C. Mantooth of Fort Worth, Mrs. Bill Robbinson of Texarkana, Ark., Mrs. Robert Boehm of Springfield, Mo., and Mrs. Keith Stonerock of Metarie, La.

The family has requested memorials be sent to the Scottish Rite Cripple Children's Hospital in Dallas.

Pallbearers were Ed Darnell, R.H. Gifford, Burl Timmons, James Mims, Thomas Friday and Jack Nobles.

#### Geneva Johnson

RANKIN — Geneva Johnson, 74, of Rankin died Wednesday in a Rankin hospital after an illness of one year. Services were at 2:30 p.m. Friday in

the First Baptist Church here. Burial was in the Rankin Cemetery directed by Larry D. Sheppard Funeral Home of McCamey

She was born Geneva Roach on Sept. 30, 1903, in Clefte. She was married to L. Porter Johnson. She was a member of the First Baptist Church and the Order of the Eastern Star.

Survivors include three sisters, Grace Roach of Rankin, Mrs. Ted Dawson of Electra and Estelle Rogers of Leonard, and two brothers, J. Garland Roach of Greenville and James F. Roach of San Antonio.

### **Dorothy Barlow**

ROSWELL, N.M. - Services for Dorothy Louise Barlow, 54, of Roswell, N.M., mother of Charlotte Myers of Midland, were at 10 a.m. Friday in the First Baptist Church with Dr. John S. Rasco, pastor, offi-ciating, assisted by Rev. David Moore, visitiation minister. Burial was in South Park Cemetery.ry. Mrs. Barlow died Tuesday in a Ros-

well hospital. She was born Nov. 16, 1923, in Florala, Ala., and was married to Aubrey Barlow on March 22, 1941, in Bloomburg. He died in July 1975. She was an executive supervisor of business offices for Mountain Bell Telephone Company. She was a member of the First Baptist Church in Ro-

sewell. Other survivors include three sis-

# Congress violates own budget law

WASHINGTON (AP) — Congress is violating its four-year-old budget law by failing to agree 15 days in advance on a federal budget spending and taxing plan for the fiscal year begin-

ning Oct. 1. The failure became official and hopes for a quick recovery were killed Thursday when the full Senate voted 63-21 not to back down in a \$2 billion dispute with the House.

The issue is a special public works program advanced as part of President Carter's urban assistance plan that is aimed at the disadvantaged unemployed. Opponents contend it has swollen and been diverted from its goal so it bears little resemblance to the original Capter proposal.

The House included \$2 billion in

ultimate spending authority for the program in its version of the budget resolution. The Senate provided no

A Senate-House conference failed Wednesday to achieve a compromise. Sen. Edmund S. Muskie, D-Maine, the chief Senate conferee and an opponent of the program, went back to his chamber with a resolution directing the Senate conferees to stand fast.

When the Senate adopted the resolution Thursday, the conference broke up with only an informal agree-ment for Muskie to meet with his House counterpart, Rep. Robert N. Giaimo, D-Conn., to try to resolve the few other differences between the House and Senate versions of the

resolution. Before the public works deadlock developed, the conference had been close to agreement on a budget that would have included a sharply trimmed deficit of about \$40 billion and room for the Senate to enlarge be at least \$2 billion the \$16.3 billion tax

cut already voted by the House. House conferees said, however, they could not expect their colleagues to accept a budget killing the public works program.

The budget law specifies that if a Senate-House conference fails to agree within seven legislative days on a budget resolution setting mandafloors, the House conferees must report failure.

The seven days expire at midnight Monday, and unless some breakthrough is achieved in the meantime,

Congress will find itself in an unprec-edented situation. Although the lack of a budget plan would not obstruct action on appropriations bills, eventu-al approval of a budget resolution might force revisions of those bills to fit spending ceilings.

### Man indicted for \$10,000 theft

The Midland County Grand Jury has indicted a Richmond, Ind., man for alleged violations of state securities laws and for alleged theft of \$10,000 or more.

A spokesman for the warrant office in the Midland County Sheriff's Department said today that a warrant has been issued for the arrest of Alex. S. Beloff. Authorities have located Beloff, but do not have the man in

Beloff previously was indicted in Travis County on a related transac-

custody yet, the spokesman added.

tion and pleaded guilty April 11 to selling unregistgered securities in American Heritage Acceptance

He received a 10-year probated sen-tence and was ordered to make restitution of \$5,000 in the case.

The state Securities Board said Thursday Beloff allegedly told a Mid-land investor that an investment in the common stock of American Heritage Acceptance Corp. would provide an estimated return of at least 42.84 percent, without any risk.

# Merited recognition

gratulations are in order for Charles Priddy, prominent Midland businessman-developer and civic leader, who has been named "Volunteer Industrial Developer of the Year" by the Texas Industrial Development Council.

The 52-year old president of Magnatex Industries of Midland also is chairman of the Midland Area Foundation, Inc.

It was for his outstanding leadership role in organizing and promoting the plan for improving. revitalizing and beautifying Midland's downtown area that he was cited for the award.

And Charles Priddy most certainly merits special recognition in this regard. The project, now well under way, has evolved into one of the most exciting and extremely rewarding activities ever attempted here. And it will benefit and be enjoyed by residents for a long time to come. It has attracted widespread attention and undoubtedly will be used as a model by other cities.

But the important thing is that Charles Priddy recognized a community need - and he did something about it.

Community-wide con- gained chamber of commerce and city council support, and then interested other community leaders and businesses in founding and funding the Midland Area Foundation, Inc. Priddy has been recognized as the "driving force" behind the proposed 25,000 square-foot convention center which, hopefully, soon will be under construction on property acquired for this specific purpose. Members of any number of civic and service clubs will remember hearing Priddy discuss the subject in a most effective manner at their respective meetings, prior to successful city balloting.

> The Foundation, guided by Priddy and his associates, was instrumental in acquiring properties for park and parking areas and for the planned center. Shying away completely from any thought of or appeal for federal funding. Priddy and his coworkers raised more than \$250,000 in private contributions for funding the project.

Charles Priddy also has numerous other community endeavors and achievements to his credit. The award presented by the Texas Industrial Development Council Astainly is well-

Another Japanese invasion of mainland China appears on the horizon.

This time battle troops will not be storming ashore to seize Manchuria and terrorize Nanking. Instead Japanese businessmen with industrial proposals, technicians with knowhow and tourists with a yen for spending will be the invaders.

Since World War II, the Chinese have displayed little interest in importing goods and ideas from other countries. They said they could look after their population of more than 900 million without outside help.

Things now have changed. however. China is showing signs of "westernization." There are huge crowds in Peking lined up to see the movies "Rocky" and "Star Wars."

Now they're talking about building themselves into one of the world's most modern powers,

developing the country's oil potential and opening the whole country to tourism. Japan stands ready in the wings to aid with the

The stage was set last month with the conclusion of a Sino-Japanese Peace and Friendship Treaty. The way seems clear for Japan to provide bullet trains which travel at 150 mph. technology for producing oil off the China coast, cars and buses, and even tourists.

And one important point about the new attitude is that China is seeking new friendships in the world and looking for help from a nation which lies this side of the Iron Curtain.

#### BIBLE VERSE

Repent ye therefore, and be converted, that your sins may be blotted out, when the times of refreshing shall come from the presence of the Lord; - Acts 3:19.

**WASHINGTON MERRY-GO-ROUND** 

# 'Payoff' styles have changed

By JACK ANDERSON

WASHINGTON - The anatomy of a political payoff, Robert Vesco-style, has undergone considerable sophistication since the Watergate

In 1972, the corporate freebooter delivered \$200,000 to the Richard Nixon campaign chest in an attempt to fix his case before the Securities and Exchange Commission (SEC).

By today's standards, it was a gross transaction. The cash - \$100 bills bound in brown paper wrappers was stuffed into an old leather briefcase. Two couriers picked up the briefcase in Vesco's New Jersey office, flew to Washington in a chartered plane and plunked the leather bag on the desk of Nixon's chief fundraiser. Maurice Stans.

"Mr. Stans, here is your currency," one courier said tersely. He opened the briefcase, tilted it toward Stans to reveal the stacks of \$100 bills and asked if he wished to verify the \$200,000.

said Stans, "that won't be necessary." No receipt was asked; no receipt was given. The cash was later used to help finance the Watergate burglary.

Vesco later sent Nixon another \$50,000 check which, unlike the cash, was properly recorded. Vesco told us he also laundered another \$250,000 through a Nassau gambling casino. and handed the cash to a White House courier. There is no mention in all the Watergate annals of this mysterious

On the same afternoon that the \$200,000 down payment was deposited

on Stans' desk, a Vesco aide called upon former Attorney General John Mitchell who picked up a telephone and arranged an immediate appointment for the aide to sit down with then-SEC Chairman Bill Casey. This was followed by other meetings, which failed to resolve Vesco's SEC troubles. The disappointed Vesco felt

obliged to skip the country. Four years later, he was ap-proached in Costa Rica by a group of Georgians who offered to fix his problems in Washington for an appropriate financial consideration. One who turned up in Costa Rica was Spencer Lee IV, a close friend of Hamilton Jordan who had masterminded Jimmy Carter's successful presidential campaign.

Lee was brought to Costa Rica by R.L. Herring, a wheeler-dealer, who had made the original contact with Vesco. According to Herring's sworn account, he discussed with Lee how much they should soak Vesco for pulling the right strings in Washington.

Vesco refused to make a cash offering, citing his unhappy Watergate experience. But he laid out a complex financial shell game that he promised would net the Georgians the \$10 million they wanted. He spelled out the elaborate details at a meeting with Herring and Lee at his luxurious Costa Rican retreat on the eve of Carter's inauguration.

The fugitive financier produced a thick portfolio of his holdings - "the whole complex of companies, 70 to 80 companies that had been set up,' recalled Herring. The flagship of this

corporate fleet is Property Resources Limited, a cash-rich. Bahamas-based company known in financial circles simply as PRL.

with combatting racism I don't know.

but since it was founded in 1977 under

the chairmanship of Sen. George

McGovern, the World Council's Pro-

Vesco showed the Georgians how, through a series of paper tran-sactions, they would wind up owning a huge bloc of PRL stock for a mere fraction of its value. The Georgians' share had a paper value of \$12 million and an anticipated cash value of \$10 million

"It was briefly discussed," attested Herring, "me handling it for 10 percent and the Carter people getting the rest of it ... I was going to get \$1 million ... and Spencer was told he would have \$9 million to distribute."

The two elated Georgians returned home with Vesco's financial portfolio in a fat brown folder and with a detailed memo from Vesco spelling out what he wanted in return for the \$10 million deal. Herring reported that Lee delivered the portfolio to Carter's trusted friend and unofficial adviser, Charles Kirbo. Lee confirmed that he and Herring had met with Kirbo but said Kirbo had refused to become involved. Kirbo said he had no recollection of the meeting.

Lee attended the inaugural festivities in Washington on Jan. 20, 1977. According to a telephone log authenticated by the secretary who kept it, he left a message that day for Herring. Lee reported that he had "talked to Hamilton and everything is fine."

A week after the inauguration, Lee was in Nassau setting up a corporation. He was accompanied by Herring's attorney, Fred Bartlett. They named the corporation Southern Ventures Limited, the same code name they had used in internal memos to identify the Vesco caper.

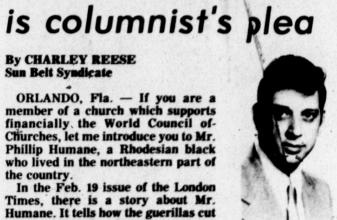

Herring identified Southern Ventures in his sworn account as "the company that would launder the money." Another member of the Georgia group, Norman Gay, stated in an affidavit that Lee had told him about "going to the Bahamas to set up a corporation or corporations for the purpose of bringing some of Vesco's money back into this country."

Thereafter, Vesco began the machinations that transferred the PRL stock to the Georgians. They have not been able, however, to cash in the stock. Our sources say Vesco holds the key to this final transaction and won't turn it until his legal problems have been settled.

Footnote: Lee emphatically denied that he had asked Hamilton Jordan or Charles Kirbo to fix Vesco's legal problems.

IT HAPPENED HERE - 30 YEARS AGO (Sept. 15, 1948);

The Altrusa Club of Midland, which was organized on August 31, will have its first regular meeting Tuesday in the Private Dining Roon of Hotel Scharbauer. Mrs. Katherine Knox Shriver is president of the new Midland club.

Quit funding \errorists

Charley

gram to Conbat Racism has contributed over a ouple of million bucks to various African guerilla groups and other leftist oganizations.

I am not a brn-again Christian but I have read the New Testament and I can't recall anywhere in it where Jesus said it was permissible to chop off people's earsprovided it was done in the name of afashionable cause.

So where does in outfit which calls itself Christian come off supporting killers and torturers? Where, indeed, does an outfit whch is, by its own definition, belligerently atheistic?

I realize it is extremely uncomfortable for many American Christians to take a stand on movality these days and, God forbid, they should be asked to express disapproval of Commu-nism, but would it be too much to ask that they do not send money to the man who cut off M:. Humane's

One day, perhaps when it's too late, you will realize that some people who profess Christianity are in fact communists who are using your religion, your money, and your organizations to destroy life, liberty and religion.

An old school chum of mine who majored in scotch and after 10 years ended up in philosophy said it was a common joke that some of the philosophy majors intended to go into the ministry even though they were atheists because it was the best paying job you could get with a degree in philoso-

I used to attend one of the major denominations but one day I picked up a folder from the rack and learned that it was the church's official position that the U.S. disarm, grant recognition to Red China and Cùba and break relations with South Afri-

When a friend called on me, I told him why I had not returned and wouldn't. "Well," he said, "I don't agree with those positions either, but you have to admit, others have a right to their opinions."
"Sure," I said, "but not at my ex-

pense and not with my tacit approv-

More recently, the National Council of Churches Ecumenical Bail Bond Fund helped David Truong post his \$256,000 bond after he was charged with spying for communist Vietnam.

The Rev. Billy Graham is allowing himself to be duped by the communist governments in Eastern Europe. He reminds me of the American officials who attended a ground-breaking ceremony in a Panamanian village for a school we had built and then sat there smiling stupidly while the local communist, in Spanish, took credit for building the school and denounced U.S. imperialism.

How you interpret your religion is your business, but in the name of humanity, quit financing terrorists.

NO. ONLY OUR CURE-DO YOU THINK OUR INFLATION 15 CHRONICZ

# Demonstration: How to self-inflict political damage

#### By ROWLAND EVANS AND ROBERT NOVAK

INSIDE REPORT:

CHICAGO - Failure to scent taxcut fever abroad in the land has quickly shoved aside Gov. James (Big Jim) Thompson's presidential dreams and substituted a struggle for mere survival.

Most politicians still consider Thompson a sure winner over his under-financed, listlessly-supported Democratic opponent, State Control-ler Michael Bakalis. A Republican poll shows otherwise. Kept top secret by the Thompson camp, it reveals Bakalis within striking distance; one insider reports the difference less than 5 percentage points. "When Jim read that poll," a Republican politician told us, "he couldn't believe he had gone down so fast."

Believe it or not, it at least temporarily ended talk of the blond, 6-foot-6 charismatic governor as the savior of the Republican party's moderate wing. Plans for Thompson to win friends and influence delegates by campaigning around the country this fall have been abandoned. Aides prevailed on Thompson not to attend the recent Governor's Conference in Boston where his presidential prospects would have been a center of media

Like California's Gov. Jerry Brown, Thompson missed the public's revulsion over high taxes; this summer he vetoed two tax-cut proposals. Unlike Brown, he bungled his recovery; the drive for a Thompson tax referendum has opened a snake's pit of political goblins undercutting his reputation as a crusading federal prosecutor which remains his basic political strength. As 1978 began, Thompson seemed

the sure winner for re-election and

Bakalis a sacrificial lamb. Neither he nor his aides were interested in taxcut measures introduced by state Rep. Don Totten, who ran Ronald Reagan's Illinois presidential campaign in 1976 and has promised to do so again in 1980.

When Totten visited Thompson to discuss a compromise version of his proposed constitutional amendment limiting state taxes, the governor turned thumbs down on any tax limitation. Thanks to Thompson's opposition, it died in the legislature. But the Democratic-controlled legislature did pass a Bakalis-backed tax rebate and a Totten bill to automatically lower taxes as inflation rises. Thompson vetoed both, though Republican politicians believe he should have used the item veto to get an amended

In following sound budgetary principles, Thompson was deaf to public anguish over rising tax burdens. Not until the hot breath of Proposition 13 reached the Midwest from California did the governor react. He personally drafted a proposition for the Novem-ber ballot asking whether the public wanted unspecified tax limitation at an unspecified time. With some justice. Bakalis called it "Proposition Zero. Now, the political pitfalls faced by

the outsider in office converged on Thompson. Republican party workers, ignored by him for 19 months, dragged their feet in collecting 589,000 signatures needed in a month to get the proposition on the ballot. Former Gov. Richard Ogilvie was among those ignored. While publicly denouncing Thompson's proposition, Ogilvie privately told Republican allies: "We've got to stop him." That was interpreted as opposing Thompson's drive for the White House.

Worst of all, Thompson did not appreciate the probability of forgery in an 11th-hour petition drive in Illinois. Despite highly publicized irregularities, the proposition has been put on the ballot, but court challenges and exposures persist. Fairly or not, it tarnishes Thompson's reputation as the U.S. attorney who put crooked politicians in jail — by Thompson's own assessment, still his political

longsuit. Nor has Thompson fully adjusted to the politics of tax revolt. When they debated over statewide television in Carbondale Sept. 6, Bakalis closed by accusing the governor of "one of the great flip-flops of all time" in joining the tax limiters. Oddly, Thompson ignored the remark and closed by refuting Bakalis' charges that the state has not claimed sufficient federal welfare funds.

Earlier that day, Totten unveiled a new proposed constitutional amendment (intended for the 1980 ballot) limiting both state and local taxes. Thompson called to kid him about stealing his thunder on the Thompson proposition. "Turnabout is fair play," Totten replied. Thompson told reporters after the debate he might support Totten's new proposal - about three

months too late.

Bakalis has told Totten he might endorse the new proposal, beating the governor to the punch. But Bakalis, too, is plagued by ambivalence on taxes. He is eager for backing from the well-financed teachers' union, formidable foes of tax limitation. After the Carbondale debate, he told newsmen he opposed any "tax freeze" because "it puts government in a straitjacket" but the next day told us the Totten limitation is not a "freeze."

Thompson's greatest asset may indeed be Bakalis, who sounds like a liberal of the 1960s denouncing Thompson for not stressing rehabilitation at state prisons. Thompson comes over as a commanding presence, overpowering a colorless foe. Yet, that conceivably may not be enough. Big Jim Thompson has given a demonstration of how to self-inflict political damage in confronting the tax revolt.

In appreciation of 25 years of service to Midland Memorial Hospital, Nellie Roberts, second from left, and Susie Subia, far right, are given two weeks extra pay and a week's extra vacation by the hospital. Mrs. Frank Thompson, left, hospital administrator Wayne Ulrich, center and James Ramsure made the awards Thursday. (Staff

## withholding proposed WASHINGTON (AP)

Negative

A "negative withholding" proposal that would add money to — rather than take taxes from the paychecks of qualifying workers is part of a Senate Finance Committee tax cut plan for low-and middle-income Americans.

Negative withholding would apply only to workers from families earning less than \$12,000 a year. But the com-mittee indicates it will vote a tax cut large enough to ensure that, even with inflation and higher Social Security taxes, most people pay no more federal tax next year than they do in

The committee approved the first part of its tax cut package Thursday but delayed until early next week a vote on how to tailor cuts in tax rates to focus relief on those with yearly incomes below \$50,000.

The committee is certain to vote to cut taxes more than the House did in approving a \$16.3 bil-lion tax reduction last

# Court gets evidence on letter from 'Costa Rica gentleman'

NEW YORK (AP) - Evidence submitted in feder- months ago, Vesco left Costa Rica and is believed al court Thursday indicated that, around the time to be living in the Bahamas. President Carter assumed office, attempts were made to contact two of his closest advisers about helping "a Costa Rican gentleman." A court witness said she believed the man was fugitive Robert

Columnist Jack Anderson reported earlier this week that Vesco directed "a high pressure lobbying campaign" at the pair - Hamilton Jordan and Charles Kirbo - in an attempt to end his legal

Jordan called Anderson's story "an incredible fabrication and despicable lie." Kirbo called it "an absolute lie by an irresponsible reporter.

Both denied having made any effort to intercede on Vesco's behalf, and said they had not even been

Vesco fled to Costa Rica in 1973 to avoid trial on five indictments charging be stole millions of dollars from a publicly held corporation. He was also accused of offering a \$200,000 contribution to the 1972 campaign of former President Richard M. Nixon in order to win favorable treatment from the adminis-

despite years of efforts to extradite Vesco. A few discussed will be successful and also fruitful.

A pair of letters submitted during a Securities and Exchange Commission action in U.S. District Court showed that letters were written to Kirbo and Jordan, although there was no evidence that they either received the letters or intervened on anyone's

The documents were produced by SEC lawyer Gregory Glynn, who was seeking to have U.S. District Judge Charles E. Stewart cite Vesco for contempt for violating a 1973 order forbidding Vesco and others from dealing in certain stock issues including the PRL issue mentioned in the letter; to

The letters were submitted as Gerolyn Hobbs of Albany, Ga., former secretary for businessman R.L. Herring, testified that she received frequent "personal" calls during 1977 and this year about an unidentified man in Costa Rica she believed was

Both documents included the typed name of a Herring associate, Spencer Lee IV.

The letter to Kirbo, dated Jan. 14, 1977, read: Dear Charlie. Enclosed is a copy of how the Costa The U.S. attorney's office has been unsuccessful I had a long talk with him and I feel that the plan we Rican gentleman wishes to have his matter resolved.

# Briscoe said part of concerted effort to kill Raza Unida Party

AUSTIN, Texas (AP) — Gov. Dolph Briscoe wasn't County, two Raza Unida Party officials said Thurs-They said Briscoe's successful run at the Zavala

County Economic Development Corp. grant was just one part of a "concerted effort" by Democrats and Republicans to kill the Raza Unida Party in Texas. Zavala County and the economic development organization are dominated by Raza Unida.

Party treasurer Paul Velez of Austin and state executive committeman Robert Maggiani, also of Austin, said at a news conference the major parties are using the courts and the Legislature in their alleged effort to wipe out Raza Unida.

"We feel there is a planned, concentrated effort to

Velez said in some counties Raza Unida candidates are arrested, then the charges are dropped after election day.

He also said the Legislature stacked the deck in just acting out of pique when he persuaded President 1973 by raising the percentage of votes a party must Carter to block a million-dollar grant for Zavala get in order to have a primary from 2 percent to 20

This was a direct effort to stultify our efforts, and it did. We appealed to the Justice Department and it took resources we couldn't afford," Velez told a news

Maggiani said that at one time there were 30 lawsuits against Raza Unida activists in Zavala County, where the party controls local government in Crystal City but not the district court.

He said the attorney general kept a three-man staff in Crystal City full time for more than a year in an attempt to find evidence of wrongdoing. He said three persons were indicted but all were acquitted or the charges against them were dropped.

among the Mexican-American community," said velopment Administration grant to the Zavara community, among the Mexican-American community, said velopment Administration grant to the Zavara Community, organization was another example, he said. Briscoe portrayed the grant's purpose as creation of Briscoe portrayed the grant's purpose as creation of the state. a "Little Cuba" in South Texas. It was intended to purchase land for cultivation and start an import-export business to provide employment.

# Firefighters' strike moves to police

A strike by Wichita firefighters has spread to the city's police department where 40 patrolmen have been fired for refusing to work.

More than a quarter of the city's 391-man police force signed a strike petition Thursday supporting the walkout by the Wichita firefighters.

By early today, 37 police officers had turned in their badges and were fired by Police Chief Richard LaMunyon, who said others would be fired if they failed to report for work. The policemen planned

to gather at City Hall today when the next shift of officers reports and attempt to convince them to join their ac-"We have ample police

officers on the street and

# **Executives suffer** 'people ineptness'

NEW YORK (AP) - Ineptness in dealing with people is emerging in recent years as the fatal flaw for corporate chief executives, although a decade ago it was hardly even mentioned as a weakness.

The assessment comes from an analysis of top executive changes in the the nation's 500 largest industrial concerns by Euguene Jennings, among other things a confidential adviser to presidents and

A chief executive fired for "people ineptness" also has the most difficulty finding another job, Jennings found, mainly because he is branded as having a character deficiency nearly impossible to over-

Being fired for this reason was almost unheard of in the 1960s, said Jennings, who has spent more than 30 years studying corporations and executives, and who has written many basic volumes about them. In recent years, he observes, respect for authority

has diminished in the corporation as in some other institutions, while respect has grown for executives who lead by cooperation and team-building. The problem isn't uncommon, and it isn't neces-

sarily limited to the corporate institution. "If Jimmy Carter were a corporate president he'd get fired, said Jennings. Jennings, a Michigan State professor, came to his

conclusions about chief executives after studying the annual 12 percent egression rate of top people in the nation's 500 largest industrial companies About half left involuntarily, he estimates, al-

though various reasons were given for their depar-ture. Jennings grouped the firings into six cate-gories, of which people-ineptness was the most Such people; he said, cannot understand how to build a cohesive team or resolve conflict. In fact,

they have "a marvelous capacity for offending everyone eventually, and then claiming they get no When dismissed, such a person also spends the most time finding another job, takes the biggest pay cut, and is more likely than others to be forced into

accepting a position at a much smaller company. In contrast to being people-inept, those fired be-cause of conflicts over corporate strategy, in effect because of their strong convictions, find little diffi-

culty in landing on their feet. "It's the classiest way to go," said Jennings. "It's

almost a sign of competency."

Dismissing the publicly stated reasons and instead examining the actual reasons, Jennings found four additional categories of dismissals:

-Bad chemistry, usually with the board. A simple happenstance that, rather than being something personal, merely reflects a personality mistmach between the chief executive and the board of direc-

—Disparate social and political philosophies. The category involves the external environment of the corporation in regard to questions such as "Should we be the first to implement environmental stan-

Firings over such matters may involve a board worried about its image and a chief executive officer more concerned with the balance sheet. Again, "a problem I never heard about in the 1960s,"

—Technical incompetency. It might involve a man who spent his corporate life with a relatively narrow focus as marketing vice president or chief financial

officer being elevated into the top job. -Succession disputes. Who succeeds the chief executive? He might have one idea, the board another. The category also includes disputes over the nature of the chief's post-retirement asso-

ciation with the concern. the firing for being inept in dealing with people. A person so branded, said Jennings, never loses the

reputation and sometimes slides toward oblivion. Their problem is not one of general ineptness, and in authoritarian times they succeeded. Their firing, Jennings stated, "reflects the importance now placed on people management and team effective-

The problem of those termed people-inept, he concluded, "is not a problem of managing business as a business but of managing it as a people institu-

#### Son auctions Ford's crib

DETROIT (AP) - A man who claims to be the illegitimate son of Henry Ford said he is auctioning his mother's estate, including what he said are Ford's own baby crib and other gifts to his mother from the auto pioneer.

John Cote Dahlinger has been trying for three

months to sell the estate, a 37-room mansion in suburban Dearborn Heights valued at \$1.25 million. An weekend auction featured 600 items including the two dozen which Dahlinger says were gifts from Ford to his mother.

Dahlinger, 55, is the author of a book published last February, "The Secret Life of Henry Ford," in which he details his contention that he is Ford's illegitimate

Neither the Ford family nor the auto company he founded has ever commented on Dahlinger's

Mrs. Dahlinger, 84, lives in a Port Huron nursing

Declarer was Ron Anderson, of New York, who set a new record in 1977 for master points won in a single

When West continued trumps Anderson won the second trick with the king of hearts in order to lead spades from his hand.

West put up the queen, forcing out dummy's ace. Declarer then led dummy's jack of spades, discarding a club from his hand.

#### VALUABLE SEVEN

West won and led a club to dum my's ace. Declarer then led dummy's nine of spades and discarded his last club. West won with the ten of spades, but now dummy's seven of spades was good. South eventually used it to discard a diamond and could ruff the other diamonds in dummy to make his contract

If West hadn't started with two rounds of trumps Anderson would have lost the chance for brilliant play since he could easily ruff three diamonds in dummy and three spades in his hand to make sure of ten tricks.

DAILY QUESTION As dealer you hold: S-AJ97;, H-QJ109; D-4; C-AQ43. What do you

ANSWER: Using standard methods, bid one club. If partner responds in either major suit you plan to raise to three of his suit.

# DR. NEIL SOLOMON Skin bleaching helps liver spots

Dear Dr. Solomon: I have some liver spots on my hands that I would like to do something about. Are skin bleaches you can get at the drugstore safe? And do they work?-F.L. Dear F.L.: According to an expert

panel of the Food and Drug Administration, the only skin bleaching agent now being used, hydroquinone, is safe and effective. But only for the gradual lightening of so-called "age spots" or "liver spots," freckles, and melasma. (Melasma is the skin discoloration that often happens during pregnancy-the "mask of pregnancy"-or sometimes when a woman is on the Pill).

What a hydroquinone ointment does is to cut down abnormal pigmentation in the skin, usually in about a month and a half, although it may take longer

One thing that is very important is, of course, to avoid exposure to the sun because this would have just the opposite effect, and also because skin bleaches make the skin especially sensitive to the sun's rays. The FDA experts recommended that skin exposure be avoided indefinitely by using an effective sunscreen or sun block, or protective clothing.

I should like to add that hyperpigmentation (too much pigment in areas of the skin) may indicate some underlying health problem, so it is always a good idea to check with your doctor before undertaking any selftreatment.

(If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore. Md. 21208. Dr. Solomon cannot give personal replies but will answer as many questions as possible in his column.)

#### Father would approve

SACRAMENTO (AP) - Jerry Brown's dad says he would approve of Linda Ronstadt as a daughter-in-law. But former Gov. Pat Brown says he has no reason to expect that his son, the current governor, is about to marry the popular country-rock sing-

"I haven't the slightest idea about Jerry's intentions of marriage with Linda Ronstadt or anybody else," Brown said in a telephone interview. "I've never discussed his love life with him in any shape or manner.'

## Filibusters present real Senate threat WASHINGTON (AP) contractors.

 It's getting so a senator has to get in line if he wants to stage a filibus-

slogs toward its last hurrah, at least four filibusters are a very real threat in the Senate. When Capitol veterans

try to figure out why filibusters - or at least the threat of them - seem more commonplace these days, they often point to the more gentlemanly approach to filibustering that has evolved during the past few years.

They also note the time pressures members of Congress feel when they see election day closing in, as it is this year. Opponents of the natu-

ral gas bill now being debated in the Senate are threatening to use their right of unlimited debate to hold the floor and block a final vote on the measure.

Lined up behind them are threats to try to talk to death bills that would extend the deadline for I ratification of the Equal Rights Amendment, designate millions of acres of Alaska as park and wilderness and implement a \$931 million settlement of shipbuilding claims by two defense

Talk is a cherished pastime in the Senate chamber. And the filibuster is honored as the As the 95th Congress minority's defense against the majority.

> However, the majority is not defenseless against filibuster. A limit can be placed on debate by invoking cloture, which requires the support of 60 of the 100 senators. It all sounds very or

derly, but there's a feeling around the Capitol that something has gone wrong with the system.

Students of the rules, like the late Sen. James B. Allen, D-Ala., made a mockery of cloture by managing to prolong debate for days even after the majority had mustered 60 votes. An effort to tighten the rules to prohibit that was blocked. By a filibuster,

# **Graduate Center offers** two industry courses

ter will offer a Drilling Fluids School from 8: 30 to 11: 30 a.m. and from 1: 30 to 4: 30 p.m. Monday through Wednesday in the PBGC Building, 105 W. Illinois St., Midland.

The fee for the school is \$275, with a set of notes and materials included. Registration is limited.

The three-day course is designed for engineers, drilling foremen or mud engineers. It will discuss the basis of drilling fluids and their purposes. Also included will be mud systems, mud additives, mud problems, hole deterioration, stuck pipe, lost circulation and formation damage.

The instructor, Neal Adams, associate of Prentice & Records, Inc., is an honor graduate from Northeast Louisiana University.

His experience in the drilling fluids industry has given him an extensive knowledge about drilling fluid techniques and problems. He has worked as a consultant for Drilling Well Control. He participates in the Gulf Coast School of Drilling Practices, and is the instructor for the Well Control School offered by Petroleum Training

The center also will offer "Applied Carbonate Petrology" in the PBGC classrooms from 7 to 10 p.m. Mondays, starting next week. The course will continue through Dec. 11.

Registration is limited and the fee

This 12-session course is designed for persons with a basic background in carbonate description and classification. It will include the types and characteristics of carbonate reservoir rocks, carbonate source rocks, critical evaluation of methods of kerogen analysis, microfacies analysis applied to environment and energy at time of deposition, comparative lithostratigraphy, genetic porosity classification, metasomatic and stratiform ore deposits in carbonates. and practical examination of impor-

tant carbonate reservoirs. Registrants will provide their own microscopes for transmitted and re-

The instructor is Dr. Karl W. Klement, Midland consulting geologist. He received his Ph.D. degree in Geology-Paleontology from the University of Tuebingen in West Germany in

He started his career as a research associate, then was a post-doctoral fellow at Scripps Institute of Oceonography in California. He was a sendior research scientist at Amoco Research Center in Oklahoma three years and associate professor of Geology at Texas Tech from 1964 to 1969. He was chairman and professor of Geology at the University of Texas at El Paso from 1969 to 1977.

# Midlander stakes tests

David Fasken of Midland announced locations for four projects in the Cemetary (Morrow gas) area of Eddy County, N. M.

# Compromise opponents start rally for new plan

WASHINGTON (AP) - Opponents of a natural gas compromise, having yielded their right to filibuster and having agreed to a showdown vote next Tuesday, now say their strategy is to rally senators behind a rival

But Sen. Henry M. Jackson, D-Wash., Senate manager of President Carter's energy proposals, contends the extra time opponents won in exchange for agreeing not to filibuster won't help them.

"You can draw your own conclusions," he said. "But they just don't

have the votes. Jackson predicted that enough additional uncommitted senators would announce their support for the plan today to put the White House over the

After days of delicate negotiations, the Senate unanimously agreed on Thursday to a timetable for voting on the legislation, averting the possibility of a filibuster.

The schedule calls for a vote at 3 p.m. EDT Tuesday on an opposition motion seeking to return the gas pricing plan to a House-Senate conference

committee for redrafting. If that motion fails - as Senate leaders and the administration are predicting - there would be a final

vote on the compromise Sept. 27. That is the first anniversary of an all-night session the Senate held in 1977 during another filibuster on natural xas deregulation.

Opponents of the compromise said next Tuesday's motion would include instructions to the conference committee on what to include in the redrafted bill.

One proposal is to replace the compromise with a plan that simply would give the president emergency powers to deal with natural gas shortages. Supporters of the motion say they're flexible and may suggest some other plan - if it means more

If the motion fails Tuesday, opponents say they may offer other re-drafting motions — lasting until the final Sept. 27 deadline.

The Senate leadership says any scheme to return the compromise to conference committee will doom the legislation this late in Congress.

The gas compromise, the sole surviving major part of President Carter's battered 17-month old energy program - would lift price controls from most natural gas in 1985 and allow a steady increase in prices between now and then.

After Thursday's agreement, each side was claiming a victory. Opponents said it gave them needed extra time to strengthen their forces, and supporters claimed they no longer

## Re-entries announced

Atlantic Richfield Co. reported plans to re-enter two former Spraberry Trend Area wells in Glasscock County and deepen for tests of the Dean-Wolfcamp. Chevron reported potential test for a well in the Marsh, South (Delaware) field of Reeves County

Atlantic Ricfield will deepen No. 3-36 J. W. Driver to 8,600 feet. It is 25 miles southwest of Garden City and 660 feet from north and 1,980 feet from west lines of section 36, block 37, T-4-S, T&P survey. The old total depth is 8,550 feet. The company will deepen No. 4-36 J.

W. Driver from 8,550 to 8,600 feet. It is 1,980 feet from south and west lines of section 36, block 37, T-4-S, T&P survey and 25 miles southwest of Garden City.

#### NEW WELL

Chevron reported potential test for its No. 1-38 L. H. Meeker in the Marsh, South (Delaware) field of Reeves County It finaled for a calculagted, abso-

lute open flow potential of 287,000 cubic feet of gas per day, through perforations from 2,861 to 2,862 feet after 1,000 gallons of acid and 6,000 gallons of fracture fluid. Total depth is 3,000 feet and the

plugged back depth is 2,960 feet, with 5.5-inch casing set at 2,995 feet. The well is 660 feet from north and

deregulated under current law."

Negotiator Robert Strauss.

# Bentsen sees more tape

WASHINGTON (AP) - Sen. Lloyd Bentsen believes President Carter "will be looking for another scapegoat to explain the weakening of the dollar" should the Senate pass the administration-backed natural gas compromise.

"The root cause of our economic problems are inflation, a huge federal deficit — which adds to the \$600 billion already held in foreign hands - too much government regulation, a tax structure that discourages investment and a growth rate that exceeds that of our trading partners, began the Texas Democrat in a Senate speech delivered late Thursday afternoon.

"These factors, when combined with policies that discriminate against American exports, are primarily responsible for our balance of trade problems," he added.

Bentsen also noted that the Department of Energy (DOE) has asked for an increase of \$87 million in its regulatory budget in anticipation of the bill's passage. The Federal Energy Regulatory

Commission would "literally cave in

under the weight of all that new red

Information Administration, an inde-

pendent branch of DOE, shows that in 985 the compromise bill will deregulate 37 percent of all flowing natural gas but under the status quo 55 percent would be deregulated. Under the Bentsen-Pearson bill 73 percent of all gas would be freed from federal control," continued Bentsen.

#### **FUNKY WINKERBEAN**

BRENDA HARPY HERE WITH THE 'ITTY BITTY CAM' AT WEST-VIEW HIGH SCHOOL, WHERE THEY'RE ABOUT TO OPEN THEIR HOME FOOTBALL SCHEDULE.

COACH, YOU WERE TELLING ME EARLIER THAT YOU EXPECT SEVERAL OF YOUR PLAYERS TO LETTER THIS YEAR.

THAT'S RIGHT! BY THE END OF THE YEAR I FIGURE THERE'LL BE SIX OR SEVEN GUYS WHO WILL BE ABLE TO PRINT THEIR ENTIRE NAMES!

#### BLONDIE

#### MARY WORTH

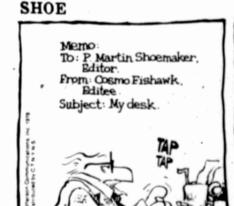

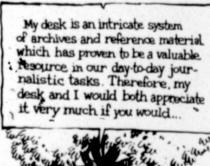

#### JUDGE PARKER

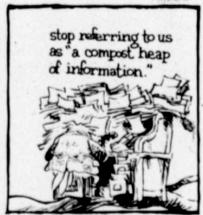

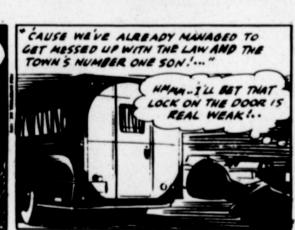

-I DO. WHEN THAT BLOKE TAKES A LASS OUT, E TAKES ER IN!

CH! AWFUL, AREN'T I ?
