\$2 million Lockheed bond is questioned

BIG SPRING - The validity of an ordinance passed in February by the Big Spring City Council authorizing the issuance of \$2.2 million in certificate of obligation to help lure Lockheed Aircraft here remained a question mark today.

City officials averted a bond election through a state law enacted last year which enables government bodies to declare a state of emergency and go ahead and issue the certificates without public approval.

Citizens, though, can still ensure a bond election if five percent of the voters sign a petition, according to

City Manager Harry Nagel said Tuesday a recent petition drive calling for a bond election will not affect the city's plans to build a 90,000 square foot airplane hangar and accomplish other modifications at Big Spring Air Industrial Park in order to interest Lockheed in locating in the

City.

However, former City Commissioner Jack Watkins, organizer of the petition, Tuesday said he is convinced the petition is a valid one since, he said, the petition was filed before the state Comptroller's Office issued the

"I called up the bond division of the Comptroller's Office Friday and was told that no bonds had yet been issued. The way the law reads, only after the Comptroller's office of public accounts issues the bonds is it uncontestable," Watkins told The Reporter-Telegram.

Jim Riggs of the state attorney general's office said today he knows of no certificate of obligation filed with either the state attorney general's officer or the comptroller.

Nagle said the petition is an invalid one because he claims that many who signed have since requested their names be stricken. He claimed Tuesday that some of the signers were given misinformation about the construction project.

But Watkins, a Big Spring proprerty owner, later Tuesday insisted

(Continued on Page 4A)

Carter, allies square off

WASHINGTON (AP) - Most of President Carter's most powerful allies in Congress will be voting against him in the confrontation over the \$10.2 billion public works bill the president has labeled "inflationary ... wasteful ... absolutely unaccept-

Carter told reporters Tuesday he will veto the bill later this week. He decided on the action knowing the Democratic leadership of the

House and Senate will support efforts to enact the measure over his veto and also aware that the fight may cost him votes on his energy package.

A two-thirds majority in the House and Senate is required to override a veto. The measure passed by far more than two-thirds in both chambers, but that is rarely a true test of the vote on a motion to override, especially when the veto is by a president of the same party which controls

Rep. Tom Bevill, D-Ala., floor manager of the bill in the House, which will vote first, said the override vote will occur the same day Carter sends

his veto message to Congress. "It's very close," said Bevill. "It could go either way, but we believe we're going to override."

Sen. Alan Cranston, D-Calif., assistant Senate majority leader, said if the House overrides Carter's veto, he is certain the Senate will follow suit. "I'm confident that a strong major-

ity of Democrats and a strong majority of Republicans will vote to override," said Cranston. Normally a strong administration

supporter, Cranston plans to vote to Other key defectors from the ad-

ministration camp are Majority

Delivery Service 682-5311 Want Ads 682-6222 Other Calls 682-5311 BALTIMORE (AP) — The CIA fears that former agent John Paisley may have been murdered by Soviet Secret police because of his connection with the agency's satellite surveillance system, the Wilmington

In a copyright story, the News Journal quoted unnamed high-level CIA sources as saying that Paisley was still serving as a consultant with the CIA at the time of his death.

Paisley's body was recovered from the mouth of the Patuxent River Sunday. He had 40 pounds of diving weights strapped around his waist and a bullet hole in his head.

The chief spokesman for the CIA denied that the agency had any fears Paisley had been murdered by Soviet

"That is ridiculous," said CIA spokesman Herbert E. Hetu. "Why would they murder him because he knew about the satellite surveillance program. I know as much about satellite surveillance as he did and I have

Hetu said Paisley was "an analyst. He wasn't a spy," and confirmed that Paisley was still serving as a consultant with the CIA at the time of

He also denied that the CIA was taking any active role in the investigation beyond cooperating with Maryland State Police. The News Journal, however, reported that the CIA is taking an active

role in the investigation.

Meanwhile, Maryland State Police continued their investigation of Paisley's death.

Paisley retired from the CIA in 1974 after serving as deputy director of the CIA's Office of Strategic Re-search. He had worked as a consultant to the accounting firm of Coopers & Lydrand for the past six months.

CIA spokesman Dale Peterson in Washington earlier characterized Paisley's work as "analytical, not covert." Peterson said the Office of Strategic Research analyzes foreign military programs, especially those of the Soviet Union.

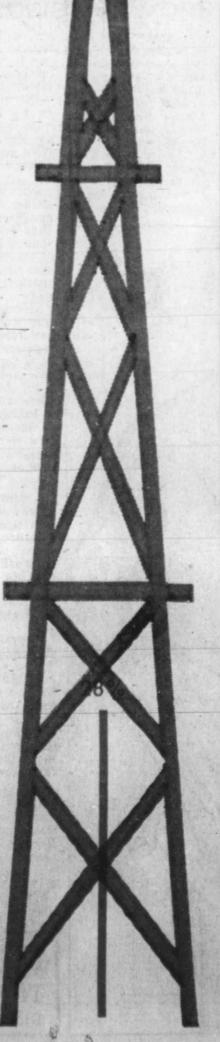

Cpl. John Murphy of the Maryland State Police was quoted by the News Journal as saying that numerous CIA documents were aboard Paisley's 31-foot sloop when it was found the day after the 55-year-old Washington resident disappeared.

"The Coast Guard turned the documents over to us and we turned them over to Mrs. Paisley," said Murphy.
Positive identification of the body was made through dental records by the state medical examiner's office on Tuesday. An autopsy revealed that Paisely died from a .38-caliber gun-

shot wound just behind the left ear.

Bill Clark, a state police spokesman, said tests indicated the weapon was touching Paisley's head at the time it was fired. That could mean either a suicide or an execution-type

murder, according to Clark.
No weapon has been recovered.

Stella Taylor

Hates to lose, may try again

By JOHN PLATERO

FORT LAUDERDALE, Fla. (AP) — Defeated twice in her attempt to swim across a mighty river in the ocean, Stella Taylor says she may try once more to outwit the Gulf Stream — by reversing directions.

"I hate to lose," the gutsy 46-year-old British-born marathon swimmer murmured through parched lips Tuesday after abandoning her Baha-mas-to-Florida swim 28 miles short of victory.

She swam a remarkable 51 hours and covered, by one ship captain's estimate, at least 160 miles before reluctantly quitting at 1:40 p.m. EDT - two days and three hours after leaving Orange Cay, Bahamas. Sharks, swelling, venomous jellyfish, scorching sun and bone-weary-ing fatigue had hindered Miss Taylor but not stopped her. In the end, her

swim succumbed for a second time to the Gulf Stream, an ocean current greater than a thousand Mississippi Rivers. In this swim and her attempt in August, she could never break out of

the current and into safe waters near shore, although her first swim brought her to within 12 miles of Florida. "She bounced against it like a rubber barrier," crewman Joe Edwards

said of the strong northward flow. But as she ate scrambled eggs Tuesday night and wondered what went wrong, Miss Taylor was already dreaming of another try, this time

heading the other way. "I think I'm going to do the Keys to the Bahamas," she told The Associated Press by telephone from a friend's home where she was resting after turning down a doctor's advice to go to a hospital. She said she couldn't afford a hospital stay, since she spends most of time training

Miss Taylor was still stroking Tuesday when trainer Bob Dunkle paddled alongside her on a surfboard to persuade her the effort was hopeless. "I could have gone some more," she said later.

But when she arrived at a Fort Lauderdale pier after being ferried in, she appeared drained from the ordeal. She could scarcely speak. Her face was painfully sunburned. The 51-hour salt water soaking left her lips and hands puffed

She estimated she had suffered 200 jellyfish stings. Ralph Mazzoli, captain of the press boat Idle Day that accompanied the expedition, estimated Miss Taylor's zig-zag odyssey covered at least 160 miles. But he said the true figure may never be known since calculating-

swimming distance at sea is difficult. Nearly a dozen sharks were sighted while she plowed through the sea. None attacked, but she was forced out of the water periodically while worried aides frightened the sharks away.

Miss Taylor, a Bristol, England, native, who once studied in a Buffalo, N.Y., convent but never took her final vows as a nun, has conquered the English Channel twice.

While her talk of another try was not specific, her chief coordinator, Doug O'Donnell, said nothing would surprise him.
"She's not a quitter," said O'Donnell. "She's liable to do anything once

United Way fund drive reaches 28 percent mark

United Way of Midland campaign volunteers today reported that a total of \$262,733, or about 28 percent, has been pledged toward the 1979 campaign goal of \$928,686.

The figures were announced at the campaign's first weekly report meeting this morning.

In addition, Midland police and firemen officially opened their cam-paign to solicit contributions from about 360 intermediate-sized Midland husinesses.

The two departments will be in touch with an equal number of city businesses, trying to outdo each other in friendly competition, United Way officials said.

Assistant Fire Marshal Jerry Petree and Police Inspector Joe Miles will lead the departments in this un-usual competition, according to Salvation Army Capt. Bob Vincent, coordinator of the effort.

Also at the report meeting today, The First National Bank and Frank See Chevrolet representatives received awards for 100 percent employee participation in the United Way campaign.

See employees also were com-mended for a 262 percent increase over last year.

The two firms - First National and See Chevrolet — were among 13 bu-sinesses and organizations which par-ticipated in a pilot campaign designed to train solicitors and to set a pace for the general campaign, campaign chairman Tom Brown said today.

The next campaign report meeting will be at 9:30 a.m. Oct. 11 in the Texas Electric Service Co. Reddy Room.

Fear, grief expressed by workers from refinery

By BARRY HANSON

COMMERCE CITY, Colo. (AP) -The weeping Vietnam War veteran said he wouldn't return to work at the Continental Oil Co. refinery where thundering explosions killed three persons and injured 12 others.

"You're looking at one person who's not coming back to work here," said the man, who asked not to be identified because company officials had

the money from Park.

We don't know how," he said.

He said the blast was believed to have been centered in a \$2.5 million catalytic polymerization unit that had been in operation only two weeks.

The victims were identified as Stephen French, 24, and Ronald DeHerrera, 22, both of Adams County, and David Hobbs, 32, of Northglenn. The Adams County Communications Center initially reported four dead Tues-day morning, but later revised the

Although the plant employs 125 persons, only 14 men were working the 11 p.m. to 7 a.m. shift.

The unit retrieves waste gases such as propane and butane - from the refining process and combines them to make gasoline and other liquid petroleum products, Alexander said.

John Gehbauer, a Conoco public relations official, said the refinery supplied about 25 percent of the Denver area's petroleum products. But he said shortages were not expected and "there won't be any gas stations closing tomorrow."

The stunned worker said smoke and flames from the blast resembled pictures he had seen of the mushroom cloud at Hiroshima.

A friend walked with him just outside the explosion area, where twisted pipes still smoked and fire hoses spewed water onto smoldering debris. The friend carried the glove of a dead St. d atta acci Se day with ciati Mem W. E Co Gust atter He i Iberi Cont land

Jan Abel

ODESSA - Services for Jan Abel, 23, of Talahina, Okla., daughter of Donna Hollon of Midland, will be at 10 a.m. Thursday in Beacon Baptist Church here. Burial will be in Sunset Memorial Garden under direction of Hubbard-Kelly Funeral Home.

She died Sunday. Mrs. Abel was born June 21, 1955, in Kermit. She was married to Glenn Abel Sept. 21, 1974, in Odessa. She had lived in Odessa from 1961 to 1977. She was a Baptist.

Other survivors include her husband; a son, Glenn Victor Abel of Talahina: her father, Leonard Carman of Athens, Greece; three sisters, Dimple Ann Tatum of Odessa, Raynita Carman and Shannon Carman, both of Greece, and her paternal grandmother, Maudie Carman of Surprise, Ariz.

Dan 'Red' Scott

BIG SPRING - Dan "Red" Scott, 63, of 1007 Tarleton St. in Midland and formerly of Big Spring, died today in a Big Spring following a lengthy illness.

Services are pending at Nalley-Pickle Funeral Home in Big Spring. Scott was born Sept. 17, 1915, in Hubbard. He came to Big Spring in the early 1930s and moved to Midland in 1959. He was married to Roxie Mae Day on June 3, 1941, in Sterling City. She died Feb. 17, 1977. He was married to Jo Stevens McCullough on Jan. 31, 1978, in Big Spring.

Scott was a self-employed automobile appraiser.

He was a member of the First Assembly of God Church in Big

Survivors include his wife; a son, Larry Scott of San Angelo and for-Keller of Pearsall and formerly of Odessa; a stepdaughter, Gwyn Horbath of Tulsa, Okla., a sister, Laverne Blessing of Spokane, Wash., and 10 grandchildren.

Charles Garner

BIG SPRING - Services for Charles Garner, 83, are pending at Larry Sheppard Funeral Home. He died Monday in a Big Spring

hospital. He was born in Tennessee.

'Pop' Trantham

Services for L.A. "Pop" Trantham, 89, of 409 Weatherford St. will be at 4 p.m. Wednesday in Newnie W. Ellis Funeral Home with Don Mitchell of Fort Worth and Jax Streets Church of Christ officiating. Burial will be in Resthaven Memorial Park.

Trantham died Saturday in a Midland nursing home

He was born March 7, 1889, in Martin, Tenn., where he was reared. He moved in 1910 to Commerce, where he farmed. He was married to Mattie Buys in 1925 in Bosque County.

Trantham moved to Midland in 1948 and worked as a custodian for several years for the Midland Independent School District. He retired in 1964. He also worked for Asbury United Methodist Church. He was a member of the Church of Christ.

Survivors include his wife; five sons, Audie Trantham of California, Basil Trantham of North Kansas City, Mo., J.B. Trantham of Iowa Park, Wendell Trantham of Bogart, Ga., and L.A. "Alonzo" Trantham of Midland; five daughters, Gladys Rhea and Zora Henson of Midland, Opal Shelton of Goldthwaite, Edythe Younger of McFall, Mo., and Fronzo Ballard of Villegreen, Colo.; a brother, Robert Trantham of Tyler; a sister, Mrs. Bennie Harden of San Diego, Calif.; 28 grandchildren, 41 greatgranchildren and seven great-grand-

Pallbearers will be Printus Burkhart, E.W. Blankenship, Charlie Dodson, Hal Hall, James Quinn and Harmon Bielby

Honorary pallbearers will be Henry Wright, Bruce Alsobrook, Carl Langley, Marvin Langley and Roy Lang-

Carter may invite Rhodesia to peace conference in United States

WASHINGTON (AP) - The Carter Administration, fresh from its Camp David summit success, may now invite the leaders of Rhodesia's warring factions to a peace conference in the United States.

The administration has delayed a final decision on the U.S. visa applications from Rhodesia's new bi-racial leadership while it examines the possibility of convening an all-parties conference, U.S. officials say.

The officials, speaking privately, say a State Department decision on the Rhodesian issue may be announced today.

Prime Minister Ian Smith and his three black colleagues on Rhodesia's Executive Council applied for U.S. visas last month after accepting an invitation from 27 senators to visit the United States.

The administration has been reluctant to grant Smith unconditional access to the United States, citing United Nations sanctions against Rhodesia as well as the possibility of an angry reaction from black African nations Officials say the State Department

is exploring the idea of allowing Smith and his allies to come if his foes agree to join him here to try to work out their differences. The United States has been sounding out other black-ruled nations in

southern Africa on the idea, officials

said. These nations have some influence over Smith's black nationalist rivals, Joshua Nkomo and Robert Mugabe, co-leaders of the Patriotic Front guerrilla group. It was not clear what the State Department would do about the visa applications if the all-parties

conference proposal isn't successful. Meanwhile, the senators who invited Smith have become increasingly inpatient with the State Department's indecision on the visa applications, which are now two weeks old. Smith's supporters are a minority in the Senate, but they're quite vocal.

They see him as an anti-communist stalwart who is trying to achieve a democratic evolution in Rhodesia but who is being thwarted by a communist-supplied guerrilla group.

Under Smith's internal settlement plan, black majority rule would be attained through a one-man, one-vote system by the end of the year.

Social security check reported stolen

Ethel Lee Duson of the 900 block of South Clay Street told Midland police officers Tuesday afternoon of the apparent theft of a Social Security check made out to her brother, Andrew Lee Fitzpatrick of the 400 block

of South Calhoun Street. She told officers the check, which has a value of \$196, was removed from the top of her television set between 1:30 and 2 p.m. Tuesday, according to

Guadalupe Melaendrez Hernandez of the 200 block of East Louisiana Avenue told police late Tuesday afternoon of a burglary of his residence which resulted in the loss of \$13 in cash, an eight-track tape portable tape player and a red plastic case, according to reports.

Russian defector taken to hospital

LONDON (AP) - Anatoly Kuznetzov, a Russian author who defected to Britain in 1969 and was a friend of slain Bulgarian defector Georgio Markov, was hospitalized Tuesday night and reported in critical condition, police said.

Scotland Yard said there were no suspicious circumstances. But British newspapers said Kuznetzov, who suffered a heart attack three weeks ago, had been deeply affected by Markov's

death last month. Markov, a Bulgarian playwright who broadcast to his Communistruled homeland for the British Broadcasting Corp. and anti-communist Radio Free Europe, died Sept. 11

poison-tipped umbrella by a man in

from blood poisoning four days after he claimed he was stabbed with a

Scotland Yard said he was murdered and is still trying to determine if his poison-umbrella story was

Kuznetzov, 49, has been making weekly talks for another anti-communist radio station, Radio Liberty. Scotland Yard is also investigating

the suspicious death of another Bulgarian defector, Vladimir Simeonov, who was a friend of Markov and also broadcast to Bulgaria for the BBC.

Simeonov was found dead in his London home Monday. A police autopsy found he died from inhaling blood from a fractured nose after apparently falling down the stairs. Scotland Yard said Simeonov's

death was "highly suspicious." A third Bulgarian defector, Vladimir Kostov, survived a poison-dart attack in Paris in August.

t Arthur to Port O'Connor: East and northeast near 10 knots today, becoming southeasterly 10 to. ots through Thursday, Seas 2 to 3 feet. Widely red showers and thundershowers.

The record high for Oct. 3 was 95

The overnight low was 54 degrees.

The record low temperature for today

Cooler temperatures likely

The weatherman is predicting cooler temperatures for the Midland area tonight and Thursday.

The National Weather Service at Midland Regional Airport forecasts a low near 50 degrees tonight. Fair skies are expected Thursday, with a high in the low 70s

Winds tonight should be from the southwest, and, later, from the northeast at 10 to 15 mph.

corded at the airport was 73 degrees.

Tuesday's high temperature re-

degrees set in 1951.

is 41 degrees set in 1932. Cool temperatures were reported

throughout the Permian Basin early today, according to residents. Andrews was partly cloudy with 56 de-

Lamesa was clear and cool. Rankin was foggy and cool. Big Lake was clear and cool, as was Odessa, according to residents.

Band Boosters set car wash

The annual Midland High School Band Boosters Car Wash will be Saturday from 9 a.m. to 6 p.m. at the Village Gulf Service Station on the corner of Wall Avenue and O Street.

Tickets for the car wash, the first fundraising event of the year for the band boosters, are \$2 each and may be obtained from any band member or from the Midland High School band office, according to a booster spokes-

Funds from the sale will be used to finance a trip to a band contest this spring. Last year the band went to

Students work on the fundraising events to earn the money for the trip which receives no funding from the school district, band boosters said. Other fund raising events scheduled

this year include fruit cake sales, a chili supper and ad sales. Next band booster meeting will be at 7:30 p.m. Tuesday in the band hall at Midland High School.

Interested persons may obtain more information about the car wash or the band boosters from the Mid-land High School band office at 682-

Validity of ruling questioned

(Continued from Page 1A)

there are enough names among the 567 signatures to force the city to hold a bond election

"I think the city is putting out the misinformation about this. I don't think the public knows the full story on this," he said.

"I'm not against Lockheed coming in here. The bond issue is a matter of principle as far as I'm concerned. I feel that the citizens are entitled to vote. And I resent the fact that three persons are going to tell us that we have to like it or lump on \$2.2 mil-Watkins was referring to an ordi-

nance signed Feb. 6 authorizing the publication of notice to bidders and notice of intention to issue certificates of obligation for \$2.2 million under a declared emergency situation. The former city official said he was

disturbed that Mayor Wade Choate and one of the four city councilmen was absent from that meeting. A \$1 million federal grant and ap-

proximately \$400,000 in city money will be used to construct the hangar, according to Nagel. However, Watkins maintained the

ordinance passed by the city in effect allows officials to spend up to \$2.2 million of city funds if necessary. "It seems to me that the citizens ought to have a say so when there's

that kind of money involved," he A copy of Watkins' petition was filed Friday with City Secretary Tom Ferguson, State Attorney General John Hill and State Comptroller Bob

Watkins said questions as to whether his petition or the city's ordinance is valid will ultimately have to be

answered by Hill or Bullock. Meanwhile, Nagel and other city officials advocate moving swiftly on construction of the hangar, saying that not to do so will endanger the city's chances of Lockheed locating

The purpose of constructing the hangar is in case Lockheed is awarded a multi-million contract to modify the U.S. Navy version of the supersonic McDonnell Aircraft Corp. F-4 Phantom II attack fighter.

However, according to most everyone involved, it is unknown whether Lockheed will definitely get the contract since the company has to bid against several major aircraft companies and a decision will not be reached until mid-December.

Nagel said Tuesday the city has other prospects who are interested in the facility should Lockheed not get the contract.

In photo at right, Robinson, left, clings to bridge pilings and to the man, identified as William E. King, 33, Akron, Ohio. King is in guarded condition in a Chicago hospital. (AP Laserphotos)

Second papal funeral scheduled today; Television coverage set

VATICAN CITY (AP) - The rains that drenched mourners for Pope John Paul I for the past three days subsided to an occasional drizzle today, and the Vatican hoped to be able to hold the pope's funeral outside in St. Peter's Square this afternoon.

The Congregation of Cardinals was to decide around noon whether to go ahead with the outdoor ceremony, where 200,000 could be present, or move the funeral into St. Peter's Basilica, which has a capacity of 30,-

The second papal funeral in less than two months was to begin at 4 p.m. (11 a.m. EDT). Like that of Pope

Veto opposed

(Continued from Page 1A)

Leader Robert C. Byrd, D-W.Va., who said he would work to muster the votes to override, and House Speaker Thomas P. O'Neill Jr., D-Mass.

O'Neill raised the possibility that the water projects fight could cost Carter votes on the natural gas bill scheduled for House action.

Bevill and Rep. John T. Myers of Indiana, Republican floor manager for the bill, agreed with the speaker.

Paul VI on Aug. 12, it was to be televised around the world. The basilica reopened at 7 a.m.

today, and for the sixth day a steady stream of mourners filed past the catafalque containing the pope's body. More than 600,000 nad viewed it when the basilica doors closed Tuesday night.

The public viewing was to continue until shortly before the funeral. Then the body was to be placed into the traditional triple coffin, cypress, then lead, then oak on the outside.

The funeral Mass was to be celebrated jointly by all the cardinals in Rome, just as they concelebrated the requiem for Paul VI and with John Paul concelebrated his joyous inaugural Mass on the steps of St. Peter's on Sept. 3. Cardinal Carlo Confalonieri, the 85-year-old dean of the College of Cardinals, was to preside and give the eulogy, just as he did at the funeral of

The pope was to be buried in the grotto of St. Peter's under the basilica, close to the tombs of the two immediate predecessors from whom he took his papal name, Pope Paul and Pope John XXIII. President Carter, who sent his wife,

Rosalynn, to Pope Paul's funeral, sent his mother, Miss Lillian, to head the U.S. delegation for John Paul's. It also included Sen. Thomas F. Eagleton, D-Mo., Gov. Ella Grasso of Connecticut, Mayor Edward Koch of New York and Rep. Michael Blouin, D-

Eight of the nine American cardinals eligible to participate in the conclave to choose a new pope were in

Rome. They were Terence Cooke of New York, Timothy Manning of Los Angeles, Humberto Medeiros of Boston, William Baum of Washington, John Krol of Philadelphia, John Dearden of Detroit, John Cody of Chicago and John Carberry of St.

Louis. The ninth, Cardinal John Wright of Pittsburgh, was still recuperating from the eye surgery that kept him away from the funeral of Pope Paul and the election of John Paul. But he was expected for the electoral con-

clave beginning Oct. 14. The Vatican has not made public John Paul's will. But the pope's secretary, the Rev. Diego Lorenzi, told the

Italian news agency ANSA: "Certainly it exists. However, I don't know how long it is or what it says. But I remember the pope referred to it over lunch some 15 days before he died. He said his brother Edoardo had spoken to him enthusiastically about the testament of Paul VI. 'My testament,' John Paul I said, will, however, be of a different type

and less extended."" The Vatican released Paul VI's 13page will the day before his funeral. In it he demanded a simple funeral and burial and asked pardon for his

failings. Lorenzi said John Paul was sitting up in bed when he was found dead at dawn Friday. He said the pope was clutching, with both hands, four or five sheets of paper in his own handwriting, probably notes for the sermon he planned to make as usual at noon from the window of his apartment the following Sunday.

Forum, scheduled Thursday, to bring candidates together

More than four months after the Republican runoff was held in the 19th District, George Bush of Midland will be face-to-face with his Democratic opponent, Kent Hance of Lubbock, at a forum in Midland on Thursday. Atlantic Richfield and Sun Oil Co.

are sponsoring the forum to begin at 5:30 p.m. in the Coors Building on West Highway 80. The two men are vying for the

Congressional seat being vacated by George Mahon, a Democrat who is retiring from the post he held 44

Hance, a State Senator, won the Democratic nomination in the May primary. Bush, a Midland independent oil

and gas producer, received the Republican nomination in a June runoff against Jim Reese of Odessa. Barbecue and refreshments will be served at 6 p.m. and the candidates

will begin speaking about 6:45 p.m. After giving opening statements, the forum will be opened for a question and answer session.

The program is being sponsored for Arco employees who are members of

the Civic Action Program and those at Sun who are in the Responsible Citizen Program, according to Neal McCaskill with the Arco program.

He said the program was started to involve employes in the political system and "to get them to vote." While this will be the third year for

Arco to sponsor a forum, it will be a first for Sun, according to a spokesman for that company.

By MICHAEL GRANT Copley News Service

Dr. Guerard Piffard is a professor of languages at San Diego, Calif. State University, and that institution's resident philologist — a philologist being one whose inquiries include human speech as an illuminator of cultural history.

I wanted to ask Dr. Piffard a few questions about slang, i.e., where did an expression like "where's your head at" come from, and how soon might we expect it to leave.

Let me say, first off, that I like slang, in its place. It lends the tongue a nice little pinch of seasoning. But when it begins to dominate discourse,

provide a proportion of the company of the company

That is why I think the con-temporary "head" slang ("psychobabble," they're calling it) is the pits, because it has become entirely too much.

I couldn't say the professor shared this particular prejudice, though he would agree with the overkill thesis. He was discussing subcultures as

slang sources when he recalled the experience of his wife's younger

"My wife and sister are about seven years apart," he said, "and when Sally was in school, my wife couldn't understand her. But since she's gotten out and spent some time in the 'real world,' her language has stabilized,

and she is able to communicate much

'Stabilized" is the operative word there. I think

Dr. Piffard had not yet mentioned "school" as a subculture, but of course it was, and perhaps the richest slang wellspring of all before the 'mind" cult became so entrenched.

My own generation brought into use countless slang words, from the generic "cool," which could exalt any number of qualities or quantities, to the very singular "reputation," which had one application only, as an eitheror gauge of supposed promiscuity among females, as in: "She has a good (bad) reputation."

I say "supposed" because it was a

judgment made not so much on anything observable in her behavior as on an opinion of the guys she dated, so that it was not her reputation at all, but theirs. A remarkable semantical development

"Every culture, or subculture, will have its own way of saying things," said Dr. Piffard. "And a certain number of these words are bound to come into the official language."

"Cool," as in the sense of "cool cat," is in Webster's Second Collegiate Edition, but "reputation," as in "She has a ...," is not.

I am the originator, incidentally, of the slang term, "shotgun," as it applies to the right front seat in a passenger car. The first group to yell

it, when a cruise has been proposed, lays claim to that seat, which is very bighly prized.

Of course, I can't prove that I coined the usage (though I have held firm against any number of detractors since the eighth grade), which is illustrative of an important point.

"It is extremely difficult to find the exact origin of a slang word," said the professor. "You may sometimes quote an early usage, but you can't pinpoint the origin." (This is true of the word "slang," itself.)

One has to have been there. My sense of privilege over "shotgun" is

Country-style furniture SALE!

thus intensified. Dr. Piffard feels privy, too, to a slang birth, though his experience is slightly more second-hand than my

A friend told him of her college friendship with a girl named Barbara, whose nickname was Bubu. The girls studied drama together, and as they worked around the stage of the college theater, Barbara, or Bub, proved herself a regular Ms. Maladroit.

"She could never do anything right," said the professor. "And every time she knocked something else over, they would say, 'Oh, Bubu.' Of course, I can't say that that is positively the origin of the word."

As 'cozy' as ever

By ROBERT LOCKE

SAN DIEGO (AP) The building seems to be filled with little people all dressed up in black tuxedos and waddling about like they were at a formal cocktail party.

But the party's held on four tons of crushed ice and some of the guests keep diving - tuxedo and all - into the icy swimming pool. The hors d'oeuvres are raw fish, swallowed whole

The temperature is below freezing, which is just about right if you're trying to convince some 250 penguins that they're still in the vicinity of the South Pole.

The deception seems to work. Scott Drieschman, assistant curator at the Sea World aquarium here, said the penguins living in the 38-by-52-foot refrigerated room are breeding successfully and seem quite happy after as long as two years in their new

Part of the trick, Drieschman said, is to manipulate the room's electric lights to simulate the long darkness of the Antarctic winter and

the sunshine of summer. He said some biologists had worried the birds might become neurotic with nothing to do all day but play and sleep on the artificial ice, swim in the two artificial ponds and stand around on stubby

But Drieschman said two collecting trips to the Antarctic convinced him that "all they do down there is eat, play around, sit around and sleep. There's not really a whole lot to do in Antarc-

Penguins have been grounded for millions of years, ever since the wings of their ancestors evolved into short, powerful flippers used mostly for swimming in a kind of modified beast stroke. Their outer feathers fold into a hard, watertight shell that protects a layer of soft

down. Thoroughly adapted to life in one of the world's harshest environments Antarctica - penguins "must have very specific requirements met just to keep them alive," Drieschman

He's trying, with his miniature Antarctica, to build the country's first self-sustaining colony of penguins - "sort of like a penguin bank where researchers can come and study the birds."

The colony also is planned as a commercial attraction at Sea World, a popular aquatic zoo.

Drieshman likes to haul out architects' plans for a \$2 million facility, complete with artificial snowstorms, that should allow penguins, scientists and tourists to co-

He said construction may begin late next year and "there would be nothing like it anywhere in the world."

The penguin colony, which is not open to the public, was collected by the Hubbs-Sea World Research Institute, Sea World's nonprofit research arm.

Drieschman said the idea of a permanent colony began with the National Science Foundation, which has contributed about \$8,900 toward expenses he estimates at \$250,000.

The first crop of 14 adelie penquin chicks, conceived in the refrigerator, hatched last December and January.

Lebanese radio reports continuation of fighting

NICOSIA, Cyprus (AP) - Lebanese radio stations reported that Syria's war on the Lebanese Christians continued without letup today, and Beirut's Christian Voice of Lebanon claimed more than 500 persons were killed or wounded in the 24 hours ending at dawn.

The Lebanese police reported Tuesday that 250 Lebanese had been killed and more than 500 wounded by Syrian artillery, rocket and machine-gun attacks on East Beirut and adjacent Christian areas since the latest round of undeclared warfare began last Wednesday. Today all telephone and telex communications to Lebanon were cut, and radio broadcasts were the only source of information on the

"Shelling is continuing while political moves are proceeding to end this situation," said the Lebanese government radio

The Christian radio claimed Syrian forces were repulsed at three points when they tried to storm the Christian sector, leaving "tens of killed and wounded and tens of damaged armored vehicles behind.

It said Christian militiamen forced Syrian troops to fall back in house-tohouse fighting on either side of the strategic Qarantina Bridge, one of two linking the Christian sector of the capital with the Christian hinterland along the coast to the north.

The Christian station said Beirut was enveloped in a pall of black smoke from a burning oil storage

tank hit during shelling Tuesday.
It also reported that an unidentified naval vessel began shelling the coastal Christian area north of the capital just before dawn but withdrew when Christian guns returned the fire. It said Syrian shelling extended as far north as Junieh, the Christian port 13 miles north of the capital.

The government radio said President Elias Sarkis called a Cabinet meeting during the day "to discuss the newly deteriorated situation and to solve the crisis that is threatening all citizens both in their homes and in their shelters.'

The government is doing all it can "to serve the urgent needs of the population that is suffering from the hell of the fighting," the radio

Later in the morning the government radio broadcast an urgent appeal to all telephone workers to report back to their posts in Moslem West Beirut, which is largely unaffected by

money, including such

- It's baffling. It's confusing. It's preposterous. It is, as you might suspect, something that could happen only in the United States govern-

But the closing of the Office of Endangered Species has created a 'Catch-22" situation that

The government is seeking compliance with the Endangered Species Act. But the act is impossible to obey because it requires the active participation of the Office of Endangered Species, a governmental agency no longer in business.

"We have to obey the law - and can't," says Keith Schreiner, head of the now-defunct Office of **Endangered Species.**

The office went out of business over the weekend because Congress failed to pass legislation to fund its activities for the fiscal year beginning Oct. 1.

The congressional delay stems in part from anger over the law itself, which blocked completon of the Tellico Dam in Tennessee because the project threatened the survival of a three-inch fish known as the snail

Not until Congress restores funds for the office - if it does - will the agency reopen for busi-

The Endangered Species Act, still on the books, is designed to protect assorted wild plants, animals, fish, insects, reptiles and mollusks that are threatened with extinction.

Among other things it requires that all federal agencies consult with the Office of Endangered Species before undertaking any project that might threaten the survival of an imperiled

The idea is designed to find workable alternatives to protect the threatened species.

Teen found in cage

ATOKA, Okla. (AP) Authorities say they are not certain why a teen-ager was abducted and locked for 36 hours in a steel cage with three bobcats.

Jerry Lewis Atkinson, 17, was found Tuesday by an Oklahoma Highway Patrol trooper in a cage behind a rural welding shop. He had been ab-ducted from his parents' home Sunday night. The patrol said he was

unharmed, except for a bite on his toe.

Atoka County Sheriff Cecil Frazier said the owner of the shop, John Williams, 31, was taken into custody and charged with assault with a dangerous weapon and kid-

napping.
Trooper Harold Roland said he received a tip from a truck driver that the boy was locked in the

There are still openings available for a tour of England planned by the Museum of the Southwest slated to depart Midland at 3:54 p.m. Friday, Nov. 3. Participants will arrive in London via non-stop flight from Dallas at 9 a.m. Saturday.

Tourists will be transferred by luxury coach to Stratford, stopping at Oxford en route. While in Stratford, sightseeing will take place in Wyne Valley, border of Wales, historic market town of Monmouth and the remains of the castle where Henry V was born. A tour of Shakespeare's Stratford, including Anne Hatheway's cottage, Shakespeare's birthplace, etc., will be taken and an evening will be spent at Stratford Memorial

From there, participants will tour Bath and York, where the Minster Cathedral, Folk Museum and the Shambles will be seen. Then, a drive north along the foothills of the Pennines to Hexham before crossing Scotland to Edinburgh. Sightseeing tour there of the castle and the Palace of Holywood House will be a high-

Then on to London to see Buckhingham Palace, Whitehall, Houses of Parliament, Westminster Abbey, Tate Gallery, Windsor House, and to take in a London show and to visit the British Museum

Those taking part in the tour will have time for persozal sightseeing and-or shopping in each of the cities. All transfers and sightseeing by private motorcoach.

Price of the tour is \$1,515, based on double occupancy of rooms in first class hotels.

Additional information can be obtained from Leila Seal, coordinator of museum services, at 683-2882.

... A SOCK HOP is scheduled for the Ninth Grade Junior Cotillion. It will be held from 7: 15-9: 30 p.m. Thursday in the Lee High Youth Center, according to Corinne Thompson, spokesman for the event. The dance is a '50s Sock Hop and the dress is casual instead of the usual coat and tie ...

...ONE THOUSAND CARS are expected to be shined up by members of the Lee High School Band when they stage a car wash at the Village Gulf at 2110 W. Wall Ave, said Van Ragsdale, LHS band director. About 50 band members and some parents will be on hand to vacuum, clean all windows, dashboard, etc. "About an \$8 job for \$2," said Ragsdale. The car wash will be all day Saturday and is sponsored by the Lee Band Booster Club...

.. MARY DUNN of Midland reports she recently returned from Korea and brought with her a 10-month-old daughter, Shil, she and her husband adopted through the Holt Adoption Agency in Eugene, Ore. Eighteen parents from over the United States took part in the tour of the orphanage.

Mrs. Dunn spent two weeks in Seoul, where she was exposed to the music and culture of Korea, and she visited Panmunjon, site of the signing of the Korean War peace treaty.

The Dunns have another son, Jodie, 9, they adopted two years ago from another orphanage in Seoul. The couple also has six natural children. They are Julie, Pam, Mike, Elicia, Susie and Dani.

Mrs. Dunn is active in the Midland Council for the Deaf and Hard of Hearing Children...

...IT HAS BEEN ANNOUNCED there will be a coffee at 10 a.m. Thursday at the Midland Racquet Club honoring Linda Gale White, wife of Mark White, who is running for Texas Attorney General on the Democratic ticket. Mrs. White is on tour of several Texas towns, including Abilene, Andrews, Colorado City, Big Spring, Seminole and others, campaigning for her husband. It has been requested that interested persons telephone Mrs. Harrell Feldt, hostess for the coffee, at 682-8986, for additional information...

...ST. ANN' Altar Society is having beginning at 7 p.m. Sunday, a movie entitled "Our Lady of Satima," in the St. Ann's Church. The movie will be open to the public. For more information, call Mathilda Downs at 682-

..MIDLAND WINNERS in Grand National Pairs competition held recently for area duplicate bridge winners were Mrs. J. T. Dickerson and Mrs. Toni LaVigne, who won first overall. Other Tall City winners were R. E. Myers, G. A. Buehler, Mrs. L. S. Mitchell, Mrs. W. W. Roye, Mrs. W. B. Smith, Mrs. Charles Dellenback, Mrs.

R. A. Myers and Mrs. G. A. Buehler. These winners will join the area winners for district play-off to be held in Austin, where they will meet other unit play-off winners from all over Texas. They will be aiming for master point awards and expense paid trips to the national finals.

Americans learn to manage their bills

By LOUISE COOK **Associated Press Writer**

Americans are piling up record debts in an effort to stretch shrinking paychecks to cover rising costs, but there are signs that families have learned to manage their bills better and fewer people are going broke.

As of the end of July, outstanding consumer installment debt - not counting mortgages — totaled just over \$237 billion. That's more than \$1,000 for every man, woman and child in the country.

Total debt, including mortgages, had topped \$1 trillion by the end of last year, and outstanding personal debt represented an all-time high of 79 percent of personal, after-tax in-

"We prepare people for the world of work, but we are not equipping them to make good financial decisions," said Robert E. Gibson, president of the National Foundation for Consumer Credit, a non-profit agency with 219 counseling centers across the coun-

The increase in borrowing has some people worried, but individuals apparently are keeping their financial heads above water.

H. Kent Presson of the Administrative Office of the U.S. Courts said the

number of people filing for relief under federal bankruptcy laws has declined steadily in recent years after reaching an all-time high in 1975 when the recession was at its worst.

Presson said that from fiscal 1975 to fiscal 1978, the number of individuals filing bankruptcy petitions dropped from 224,354 to 172,423, a decrease of 23 percent. The overall number of bankruptcy petitions, from individuals and businesses, declined 20 percent in the three-year period. In 1975, individuals accounted for just over 88 percent of all those filing bankruptcy petitions; in 1978, they accounted for 85 percent of the filers.

Why the decrease? "Your judgment is as good as mine," Presson said. "Credit granters have much tighter control over their credit cards. Also, the debtors manage bet-One way people may be managing to pay their bills is by saving less. In

7.5 percent of their after-tax income. In 1977, they saved only 5.1 percent. The trend contrasts with the situation in other major industrial nations where savings are increasing. In West Germany, for example, the amount of after-tax income saved

went from 11.3 to 14 percent in the

1967, Americans saved an average of

The way people may be managing to pay their bills is by saving less. In 1967, Americans saved an average of 7.5 percent of their aftertax income. In 1977, they saved only 5.1 per-

10-year period.

Another reason for the lower bankruptcy rate may be that while inflation in worse - the Carter administration is predicting an 8 percent increase in consumer prices this year compared to a 7 percent boost in 1975 — unemployment is much lower - averaging about 6 percent, compared to 9 percent in 1975.

Economists have mixed opinions about the rise in outstanding debt. Andrew F. Brimmer, a former member of the Federal Reserve Board, was quoted recently as saying: "The expansion of the credit has been a major source of the expansion of the

Board Chairman G. William Miller, on the other hand, has said the level of debt is a cause for concern because it could mean individuals will trim spending in the future, touching off more widespread financial difficul-

Gibson said the biggest danger for the individual is "using credit as a supplement to income," buying something you can't really afford without knowing where the money will come from to pay for it.

You also are in trouble if you find yourself dipping into savings to cover routine bills, if you charge everyday purchases like groceries, if you are always behind on credit-card charges and always pay only the minimum amount and if your family argues often about money

As a rule, monthly installment payments should not amount to more than 20 percent of monthly take-home pay. Average installment indebtedness, Gibson said, equals about 16 percent of take-home pay.

The foundation counseling centers offer debt management programs to help individuals pay off bills without running into legal troubles. The centers work out agreements with creditors who often allow borrowers extra time for payments.

In recent years, however, creditors have become less willing to wait for their money, Gibson said. They do not want to lose the interest they could earn by lending the money elsewhere 'We're seeing more and more families who are beyond our help and need legal assistance," Gibson said. "They're really coming to us too

The federal government, meanwhile, announced Monday it has started an investigation to determine whether bill collectors are complying with a new law, which took effect March 20, prohibiting threats, harassing telephone calls and other abusive tactics. The Federal Trade Commission said it had received more than 1,000 complaints about bill collectors since the law took effect.

For further information on credit counseling, contact the National Foundation for Consumer Credit, 1819 H Street, N.W., Washington, D.C.,

There was no average 1977 taxpayer to earn \$13,263

By MICHAEL DOAN **Associated Press Writer**

WASPINGTON (AP) - If there were such a thing as an average American taxpayer, he or she or they would have earned \$13,263 last year and paid 13.7 percent of it in federal income taxes. That meant working the first seven weeks of the year just to come up with the \$1,814 due Uncle

Those who earned less had to work a shorter time to pay their federal taxes and those who earned more had to work longer, sometimes a lot

For example a person with an income of \$50,000 or more a year probably owed at least 31.1 percent of it in federal taxes and was still working for the government when May 1 rolled around.

But there is no "average" taxpayer - just millions and millions of ordinary people lumped into categories by Internal Revenue Service com-

The IRS said Monday that on 85.2 million 1977 returns processed so far, taxpayers reported \$1.13 trillion in adjusted gross income. Of that, \$154.6 billion went for federal income

The income and tax of the "average" taxpayer - which could be a couple filing a joint return - is found by dividing the total income and total taxes paid by the total number of returns processed.

But since the report includes so many individuals with so many different factors affecting their lives and tax returns, the mythical average taxpayer does not fit precisely into some of these further breakdowns provided by the IRS report:

-Those 42 million taxpayers making under \$10,000, by far the largest group, accounted for less than twotenths percent of the total adjusted gross income reported and paid 5.9 percent of the taxes, or \$9.2 billion. Paying 4.7 percent of their income in federal income taxes, they had to work about 21/2 weeks to get the

-The 14.1 million taxpayers reporting from \$10,000-\$15,000 income accounted for 15.4 percent of total income and paid 10.6 percent of the taxes, or \$16.5 billion. In a 9.4 percent bracket, it took them about five weeks to work out their taxes.

-The second largest group of returns, 27.7 million, was from taxpayers reporting \$15,000 to \$50,000 income. That broad and varied group loosely referred to as the middle-income level accounted for 57.5 percent of the income and paid 60.2 percent or the taxes, or \$93.2 billion. In a 14.3 percent bracket, they had to work 71/2 weeks or more to earn their federal

Commission defends its actions

By JEFFREY MILLS **Associated Press Writer**

WASHINGTON (AP) - Although the Consumer Product Safety Commission has been criticized in the past for not monitoring the safety of cellulose home insulation, it is defending itself from claims that now it is doing

In a speech prepared for delivery today in Dallas, Susan King, commission chairwoman, mentioned the criticism that began coming from portions of the home insulation industry at nearly the same time she became head of the agency in August.

"Some of you may think that the commission is zeroing in unfairly on the cellulose industry. That's a concern we've heard at previous meetings," she said at the last of 13 regional meetings the CPSC has held since August to tell consumers and industry leaders about its plans to regulate home insulation.

However, she added, "CPSC does not want to put the cellulose industry out of business. The nation needs insulation to meet the Carter administration's energy conservation goals, and we want to keep the production lines open producing safe insula-

Cellulose insulation, one of the most common types used for homes, consists basically of ground-up paper

treated with flame retardant chemicals. Some types, though, have been found to be fire hazards or corro-

"We plan to inspect, with the assistance of state agencies, all known cellulose insulation manufacturers during the next six months," Ms. King said in the speech that was released in Washington.

There are about 500 manufacturers in the United States.

Before the CPSC's current gettough policy on home insulation, it was criticized by congressional panels and consumer groups for inac-

For example, Sen. Wendell Ford, D-Ky., saying the agency had not acted several years after its Denver

office pointed to possible dangers in home insulation, introduced a bill to require CPSC regulation to protect

Under the bill, signed into law July 11 by President Carter, the commission was required to issue an interim safety standard by Sept. 7. But, in the first commission action after Ms. King became chairwoman, the agency issued the standard two months ahead of time.

Under the action, all cellulose home insulation produced after Sept. 7 must. meet the standards for flame resistance and corrosiveness and a label must say that the standards have been met.

Eventually, the commission plans to develop a permanent standard.

Minnesota's DFL party shaken

By ROBERT SHOGAN The Los Angeles Times

ST. LOUIS PARK, Minn. - Evie Silverman left a debate among candidates for Minnesota's two U.S. Senate seats here last week shaking her head rueful-

"This is going to be a rough year," said Ms. Silverman, special projects director for the Jewish Community Center in this comfortable Minneapolis suburb and a lifelong Democrat. "Hubert Humphrey must be turning over in his grave.

At least Humphrey has been spared the pain of witnessing the convulsions that have shaken to its roots the Democratic-Farmer-Labor party that he helped to found more than three decades ago. Under DFL dominance Minnesota has been one of

the nation's last bastions of New Deal-style liberalism. But now this stronghold is rumbling, as Minnesotans, like many other Americans, seem to be spurning the brave dreams and soaring costs of big

The state's politicians, who used to compete to find new ways for government to serve the public, are now scrambling over each other to find new ways to slash spending and taxes. And the DFL, which has held both Senate seats for 20 years, is in danger this November of losing them both, along with the governorship, which it has controlled since 1970.

Nothing better dramatizes the turmoil in Minnesota politics than the spectacle of Robert Short, the blustery, free-wheeling multi-millionaire who is the DFL candidate for Humphrey's old Senate seat, striving to steal the Republicans' tax-cut thunder by vowing to lop \$100 billion off the federal budget. Short won the DFL nomination by edging out the

party's officially endorsed choice, liberal Rep. Don Fraser, in a bitterly fought primary Sept. 12. His campaign theme was summed up by a series of three slogans featured on billboards around the state:

"Big Government, Enough is Enough. Taxes, Taxes, Taxes, Enough is Enough. Inflation, Inflation, Enough Is Too Much.

"Ninety percent of the people today believe government spends too much and wastes too much," Short declared in an interview. "People didn't care when that spending didn't hurt them. But today the bite of taxes and the pinch of inflation is so severe that it threatens to make the poverty level all-encompassing."

Even a good many DFLers who resent Short's harsh criticism of Fraser during the primary concede he might have a point. "A lot of people are beginning to say, 'We don't know if we can afford big government anymore," acknowledged Bill Kuretsky, a Minneapolis businessman and DFL

Perhaps just as important, if less tangible than the economic anxiety, is the growing feeling that whatever the cost, government and politicians don't deliver the promised goods.

As he campaigns around the state, shaking hands in office buildings and coffee shops, David Durenberger, Short's Republican opponent, has found this skepticism to be a major aspect of Minnesota's 1978

"People look at me and say, 'How the hell are you going to make any difference?" Durenbrger said.

Lorraine Waller, a Minneapolis office worker, said she looks more skeptically at politicians' promises now than when she voted for Humphrey two years ago. "I'm that much older and that much smarter." And, she added, "I pay more taxes now."

Suspicion of politicians and resentment of taxes is spreading everywhere in the country these days. But the widespread disenchantment among Minnesota voters is all the more striking because of the state's well-earned reputation as a laboratory for liberal-

"There's something special about Minnesota and this party," Vice President Walter F. Mondale, the most prominent legatee of the Humphrey tradition, proudly told the DFL state convention last June. This party of ours has been the source of more progressive ideas and more challenges to conscience than any other political party in the U.S."

The groundwork for this record was laid in 1944 when the DFL was created, merging the populist energies of the state's previously independent Farmer-Labor party with the organizational skills and national resources of the Democrats.

Dress club's dolls for someone's holiday joy

Got the Christmas spirit? Here's an excellent suggestion on how to do your Christmas shopping early and get a custom dressed doll. Or you can help the Salvation Army with their annual Christmas baskets.

The Doll Club of the Permian Basin is planning its second annual "Dress-A-Doll Contest" and the dressed dolls will be displayed by merchants in the Dellwood Plaza Mall, who are furnishing the prize money

The contest is divided into four categories and a prize of \$20 will be awarded the winners in each group. A grand prize of \$75 will be given, also. The categories are baby fashion, historical, storybook and international.

The dolls must be dressed and returned to Geneva Caruthers at 4407 Gulf Ave. by Oct. 16 to be included in the Oct. 21 judging. The bidding on the dolls, which will be furnished by the doll club, will be held from Oct. 23-27. The dolls will stay on display from Oct. 16-27 and will be returned to the owners at 2 p.m. that day. Members of the doll club will be on hand to accept the bids.

The public can participate, but the dolls don't have to be purchased. Participants just check them out, dress them and return them for judging and, hopefully, they will win some of the prize money.

A substantial portion of the proceeds from the sale will be turned over to the Salvation Army, according to Mrs. Caruthers. The remaining amount will be used by the club to put on educational programs, such as slide presentations, speakers, shows and exhibits.

The doll or dolls can be secured from Mrs. Caruthers by telephoning 697-1543 or by dropping by her address listed above.

Residents of surrounding towns also are welcome to enter the contest, said Mrs. Caruthers.

The Doll Club of the Permian Basin meets the first Thursday of each month at Lancaster Garden Center under the leadership of Wilma Dawkins. Judy Collins served as first president of the group, which boasts a membership of 46 women working to preserve dolls for the sake of posteri-

Basin work includes field tests, producers

BTA Oil Producers of Midland No. 1 Davis has been completed in the Welch, Southeast (Spraberry) field of Dawson County, 10 miles northwest of

Operator reported a daily pumping potential of 58 barrels of 38.5-gravity oil and 58 barrels of water, with gasoil ratio too small to measure, through perforations from 7,734 to

The pay was acidized with 250 gallons and fractured with 20,000 gal-

Total depth is 7,860 feet and 5.5-inch casing is cemented on bottom. The well is 1,150 feet from south and

990 feet from east lines of section 3, block 4, D. L. Cunningham survey and one location northeast of other Spraberry production.

REAGAN PROJECT

Tamarack Petroleum Corp. of Midland No. 1-46 Aldwell will be drilled as an 8,100-foot test in the Spraberry Trend Area field of Reagan County, eight miles northwest of Stiles.

The drillsite is 1,320 feet from south and east lines of section 46, block C, L&SV survey.

EXTENDER FINALS

Methane Gas Co. of Dallas No. 3-H Seahorn is a new well in the Adams-Baggett Ranch (Canyon sand gas) area of Crockett County.

Three-fourths mile northeast of other wells from the same pay, the new well finaled for a calculated, absolute open flow potential of 475,000 cubic feet of gas per day, through perforations from 5,025 to 5,224 feet. The zone was acidized with 5,000 gallons and fractured with 24,200 gal-

Total depth is 5,383 feet and 4.5-inch pipe was landed on bottom. Hole is plugged back to 5,303 feet. Wellsite is 793 feet from the most

easterly south line and 1,181 feet from the most easterly east line of D. Y. Jackson survey No. 8.5.

Gulf Oil Corp. No. 3-WZ State has been completed in the Caprito (Middle Delaware) field of Ward County, 4.5 miles northwest of Pecos. Operator reported a daily flowing

potential of 171 barrels of 37.7-gravity oil, through a 10/64-inch choke and perforations from 6,032 to 6,042 feet. The pay section was acidized with 200 gallons and fractured with 11,470

Operator bottomed the well at 6,600 feet, set 5.5-inch casing at 6,599 feet and plugged back to 6,483 feet.

Wellsite is 660 feet from north and 1,980 feet from east lines of section 38, block 17, University Lands survey and 1,320 feet west of other produc-

CULBERSON AREA

The Geraldine (Ford) pool of Culberson County gained a new well with the completion of Gulf Oil Corp. No. 9-CX TXL NCT B.

On 24-hour potential test it pumped 12 barrels of 36.7-gravity oil and 93 barrels of water, through perforations from 2,574 to 2,578 feet. The pay was treated with 250 gallons and fractured with 400 barrels of load and 400 gallons of acid.

Total depth is 2,677 feet and 5.5-inch casing is cemented at 2,676 feet. The plugged back depth is 2,606 feet. Ground elevation is 3,097 feet.

Location is 330 feet from north and west lines of section 11, block 58, T-2, T&P survey.

MITCHELL WELLS

TJH Drilling Corp. of Midland announced potential tests on three wells in the Westbrook, West (Clear Fork) area of Mitchell County.

The No. 1 Merritt-Pond, 1/2 mile southwest of other production, completed for a 24-hour pumping potential of 22 barrels of 26-gravity oil and 145 barrels of water, through perforations from 2,662 to 2,716 feet after 3,000 gallons of acid and 20,000 gallons of fracture fluid.

Total depth is 3,235 feet and 4.5-inch pipe is set at 2,919 feet.

Site is 990 feet from north and 467 feet from east lines of section 27, block 29, T-1-N, T&P survey and 15 miles northwest of Big Spring.

TJH No. 2 Merritt-Pond completed for a daily pumping potential of five barrels of 26-gravity oil and 17 barrels of water, through perforations at 2,-510-2,700 feet after 3,000 gallons of acid and 20,000 gallons of fracture solution.

Total depth is 2,744 feet and 4.5-inch pipe was landed at total depth. Wellsite is 467 feet from north and

east lines of section 27, block 29, T-1-N, T&P survey. The third new Turner-Gregory

(Clear Fork) well is TJH No. 3 Merritt-Pond. It completed for a daily pumping potential of 189 barrels of oil and 58 barrels of water through perforations

from 2,500 to 2,690 feet. The pay was treated with 500 gallons of acid and fractured with 30,000 gallons. Total depth is 2,690 feet and 4.5-inch

casing was set at 2,500 feet. Location is 660 feet from south and 800 feet from east lines of section 27, block 29, T-1-N, T&P survey.

BTA Oil Producers of Midland No. 9-R 7406 JV-S Lea is a new well in the Comanche State Line field of Lea County, N. M.

It finaled for a daily pumping potential of 101 barrels of 31.5-gravity oil, with a gas-oil ratio of 1,386-1. through perforations from 3,159 to Total depth is 3,270 feet and 5.5-inch

pipe is set on bottom. Location is 700 feet from north and 990 feet from west lines of section 28-26s-36e and nine miles southwest of

STERLING PRODUCER

Texaco Inc. No. 4-O Sterling Fee has been finaled in the Conger (Pennsylvanian) pool of Sterling County, 16 miles southwest of Sterling City.

On 24-hour potential test it flowed 33 barrels of 149-gravity oil and one barrel of water, through a 24/64-inch choke and perforations from 7,850 to 8,265 feet after 3,600 gallons of acid and 43,000 gallons of fracture solution. Gas-oil ratio is 5,454-1.

Hole is bottomed at 8,350 feet, 5.5inch casing is set on bottom and plugged back depth is 8,335 feet. Wellsite is 1,650 feet from north and

660 feet from west lines of section 23, block 32, T-5-S, T&P survey.

GAINES EXTENDER

Texas Oil & Gas Corp. No. 2-B Nelson is a 1/2-mile estender in the GMK, South pool of Gaines County, nine miles northeast of Seminole.

It completed for a calculated, absolute open flow potential of 5.1 million cubic feet of dry gas per day, through perforations opposite the Yates from 3,475 to 3,546 feet after a 1,000-gallon acid treatment.

Tiotal depth is 3,600 feet and 4.5inch casing is set on bottom.

Location is 660 feet from north and 1.980 feet from west lines of section 47. block G, WTRR survey.

ANDREWS WELL

Sun Oil Co. No. 3-7 University has been completed as the fourth Wichita-Albany well in the Fullerton multipay field of Andrews County, 14 miles northwest of Andrews.

On 24-hour potential test it pumped three barrels of oil and 40 barrels of water, through perforations from 7,-919 to 7,982 feet after 3,000 gallons of

A re-entry project, it was an 8,500foot oil producer.

Location is 660 feet from south and east lines of section 20, block 13, University Lands survey.

Congress ready to give insulation credit

By TOM RAUM

ods

ompany

WASHINGTON (AP) - Congress is ready to give consumers an income tax credit for making their homes more energy efficient, but it will be for only 15 percent instead of the 20 percent previously approved by each chamber.

House-Senate negotiators, heeding calls for trimming the federal budget, also agreed to make the maximum tax credit for such purchases \$300 instead of the \$400 in the earlier ver-

But they stuck by one previous decision: the tax credits will be retroactive to April 20, 1977, the day President Carter submitted his energy plan to Congress.

The conferees were to meet again today to consider two new energy taxes - on fuel-inefficient cars and on industrial use of oil and natural gas after reaching agreement late Tuesday on a \$1 billion energy tax-credit program.

Agreement on these remaining tax issues would wrap up efforts begun last October to reconcile House and Senate versions of Carter's energy

program. The home insulation credits would cover insulation, storm doors and windows and certain other home energy conservation purchases. The 15 percent credit would apply only to the first \$2,000 in total cost -

thus the \$300 maximum.

And it would be taken directly off a person's tax liability. For instance, a homeowner could

reduce 1978 income taxes by \$150 if he or she purchased \$1,000 worth of insulation anytime since April 20, 1977. Conferees also agreed to a tax cred-

it for home applications of solar, wind or geothermal energy - up to a maximum credit of \$2,200.

Last Friday, Senate conferees had voted to eliminate the home insulation credit entirely, claimining it would be an \$827 million drain on the

Treasury each year. But House negotiators argued that many homeowners had bought insulation in anticipation of getting the credits approved by both chambers and that Congress had an obligation

to deliver something.

Rep. Thomas Ashley, D-Ohio, a top
House negotiator, said that 15 percent "is within reason.

Conferees rejected, 14-8, a proposal by Rep. Clarence Brown, R-Ohio, to restore the full 20 percent credit.

Of the \$1 billion package, the home insulation and home solar credits account for rougly \$700 million a year.

Gas well potentials

Exxon Corp. has announced potential test for its No. 2-1 Leede Gas Unit, new well in the Soda Lake (Fusselman) area of Ward County, 10miles southeast of Mentone.

The well finaled for a calculated, absolute open flow potential of 12,082,000 cubic feet of gas per day, through perforations from 19,107 to 19,187. The project was drilled to 19,-

495 feet and five-inch casing was cemented at 19,493 feet. The plugged back depth is 19,370 The well is 966 feet from

northwest and southwest lines of

section 7, block 1, W&NW sur-

REAGAN TESTS

Rial Oil Co. of Midland spotted two projects in the Farmer (San Andres) pool area of Reagan County, 10 miles southwest of

No. 1-23-B University is 2,310 feet from north and east lines of section 23, block 48, University

Lands survey.

Each of the projects will be drilled to 2,800 feet.

Prospectors announced in 3 counties

MGF Oil Corp. of Midland spotted location for a 7,550-foot wildcat in Mitchell County, two miles east of Colorado City.

It is No. 1 Bitchey, 660 feet from north and east lines of section 35, block 26, T&P survey. There is no nearby production.

CONCHO WILDCAT

Karma of Sam Angelo spotted location for a 3,350-foot wildcat in Concho County, two miles north of Millers-Scheduled as No. 1 Hartgrove, it is

1,100 feet from south and 467 feet from east lines of E. D., Miller survey No. 32. Elevation at drillsite is 2,415 feet.

The location is one and threeeighths miles west of the one-swell Bussey (1,000 oil) pool and separated from it by a 1,147-foot dry hole.

RUNNELS RE-ENTRY

E. B. Fletcher of Dallas announced plans to re-enter the former Campana Petroleum Co. No. 1 Pendergrass, former Fry sand oil producer in the Lloyd field of Runnels County.

He will plug bac from 4,400 feet to 2,906feet for tests as a wildcat. The location, surrounded by depleted oil and gas producers, is five miles

northwest of Winters and 786 feet from south and 467 feet from east lines of H. E. Baggs survey No. 94. Some maps show the location to be in section 94, block 64, H&TC survey. Ground elevation is 1,950 feet.

Work halts at storage

BATON ROUGE, La. (AP) - The Louisiana Conservation Department has ordered a temporary halt to maintenance work at the federal oil storage facility in West Hackberry, where a fiery explosion last month killed one person.

Ray Sutton, head of the department, said Tuesday that all cavity storage pressure must be relieved to zero in the five salt dome caverns at West Hackberry which are to be used to store crude oil.

"I made a-determination that this would be a safety feature and would avoid reoccurance of what happened," Sutton said. "Under the police powers granted to the state, we have authority to do this."

Gov. Edwin Edwards was out of state and could not be reached for However, Sutton said he had the

governor's approval. Meanwhile, a spokesman for the contracting firm handling the maintenance work for the U.S. Department of Energy, said that the department already had established a policy to do no maintenance work while the domes were under pressure.

Most of the pressure was relieved after the six-day fire was put out, federal authorities have said. A spokesman for the Department of

Energy, said the order would have no immediate effect on the oil storage program. "It applies only to maintenance work," the New Orleans-based spokesman said.

The Sept. 21 explosion, which killed a worker and seriously injured another, occurred as a crew was changing a casing in a drilling rig above one of the dome caverns.

Officials said they believed a spark from metal striking metal ignited the oil, which was under 600 pounds of pressure per square inch. The oil spewed out, ignited and burned for nearly a week.

Official charges Carter didn't consider 'impact'

By DON OBERDORFER The Washington Post

WASHINGTON — A senior Defense Department official and a Pentagon consultant testified Tuesday that the Carter administration approved the sale of sophisticated drilling technology to the Soviet Union without coming to grips with the most important issue whether or not it is in the U.S. national interest to assist Soviet oil and gas development.

Under Secretary of Defense for Research and Engineering William J. Perry told the Senate Investigations Subcommittee that there is "no doubt" that the controversial export of a complete plant for making rock drilling bits will give the Soviet Union an enhanced capability for producing

Perry said the major policy question is the "profound economic and political impact" of the plant on the Soviet future rather than "a red herring" issue of diversion to military uses. he reported that late in August, the Pentagon recommended that export of the plant by Dresser Industries of Dallas be halted pending a review of overall U.S. policy toward Soviet petroleum development.

President Carter on Sept. 6 rejected advice from the Pentagon, Energy Department and his national security aviser, Zbigniew Brzezinski, that the sale be suspended. Siding with the Commerce and State Departments, he allowed the export to go forward while he ordered a study, now underway, of the basic U.S. interest involved.

President J. Fred Bucy of Texas Instruments Inc., who studied the export in late August 2s a special Pentagon consultant and recommended against it, called sale of the plant and its technology to the Soviet Union a decision which "can change the course of history." Bucy said the drilling technology can assist the Soviet Union to develop their energy resources independent of further U.S. and Western support and may give Russia the capability in the late 1990s to compete aggressively with the U.S. in drilling operations in the major oil producing areas of the world.

Bucy urged that the U.S. retain its options by withholding export of the plant until the broad question of aid to Soviet development is settled in a national debate

The Soviet Union is the world's leading oil producing country but, according to some forecasts, will be unable to produce enough to meet its needs and commitment in the mid-One school of thought in the govern-

ment, and elsewhere, is that troubles for Russia are benefits to the United States and that Washington should do nothing to alleviate them. An opposing school of thought is that forestalling a future Soviet energy crisis, and therefore easing the worldwide oil shortage, is in U.S. as well as Russian interest. Senior Vice President John J.

Murphy of Dresser, the firm which is exporting the drilling equipment plant to the U.S.S.R., told the subcommittee that a French firm contacted by the Soviet Union could have provided essentially the same deal if the American companies were ruled out of the running. Murphy said the Soviets are more active and sophsiticated in deep well drilling than Bucy's report to the Pentagon indi-

Sens. Henry M. Jackson, D-Wash., and Charles H. Percy R-Ill., chairman and ranking Republican on the investigations subcommittee, pro-

Cheyenne wells final

Gifford, Mitchell & Wisenbaker of Midland has finaled two more wells in the Cheyenne (Capitan) area of Winkler County, nine miles northwest of Kermit.

No. 3 Comanche Capitan was completed for a daily pumping potential of 38 barrels of 32.2-gravity oil and 31 barrels of water, through perforations from 31,43 to 3,200 feet. The gas-oil ratio is 2,947-1.

Hole is bottomed at 3,242 feet and plugged back to 3,240 feet, with 5.5inch casing set at total depth.

The same operator completed No.

18, block C-23, psl survey.

4-A Fox Tail for a daily pumping potential of 30 barrels of 32.5-gravity oil and 34 barrels of water, gthrough perforations from 3,193 to 3,209 feet after 1,200 gallons of acid and 28,700 gallons of fracture solution.

The gas-oil ratio is 533-1. Hole is bottomed at 3,226 feet and 5.5-inch casing was landed on bottom. Plugged back depth is 3,226 feet.

Location is 1,132 feet from north and 467 feet from east lines of section 17, block C-23, psl survey.

tested Pentagon foot-draggig in supplying information about the course of decision-making on the Dresser

According to staff investigator Peter M. Sullivan, the original Pentagon technical evaluator of the proposed sale, Dr. Lloyd Lehn of the Office of Defense Research and Engineering, prepared a written recommendation May 25 that the export license be denied on military grounds. However, a higher level official, Col. John Hager, instructed Lehn to change his memo so that it only summarized technical facts and did not state a recommendation, accord-

The investigator reported that the Pentagon on May 30 approved the initial Dresser export license, and that action was put through on a rush

Sullivan reported that during the eight days before their approval, Pentagon officials in charge of the case received telephone calls from J.V. Jones, chairman of the board and chief operating officer of Dresser and from Assistant Secretary of Commerce Frank Weil urging speedy action. Theinvestigator said Weil's calls to the Pentagon were prompted by a call from Jones.

CHICAGO (AP) - board of Top Rank Inc., a Two-time Olympic heav- promotion firm which has handled many of Ali's previous fights. Arum's announcement

was made in the office of Ali's manager, Herbert Muhammad. It coincided with presentaton by Top Rank and Arum's law firm of \$15,000 each to the Herbert Muhammad Foundation, which will provide housing and scholarships for the underpriveleged.

"I SPOKE TO Muhammad about it on the telephone, but that's all," Herbert Muhammad said. "He told me, 'This will be really a biggie." Arum said that all five bouts would be threeround matches and that

nate the entire program. "They wouldn't technically be exhibitions and they wouldn't technically be championship fights.' Arum said. "The format is a device to enable Ste-

Top Rank would coordi-

teur championship. Our plan is to involve Madison Square Garden, the Los Angeles Forum and three other locations. Possibly, Chicago will be

Teofilo Stevenson gets Cuba's permission

to meet Ali in series of three-round bouts

one of them." According to Arum, Stevenson would not be paid for the matches, but the Cuban Boxing Federation would receive a sum of money for his participation.

"THE CUBANS ARE sincere and committed,' he said. "The whole thing came about through a gentleman named Ben Thompson, a promoter in Los Angeles. He succeeded where I failed and Madison

He persuaded the amateur boxing authorities and the government of Cuba that it would be a good thing for Stevenson and Ali to fight. He contacted me in mid-September and I'm in the process of making the matches a reality. Thompson is involved in

the promotion.' But, Arum cautioned "everything is very, very preliminary. I still have to reach a financial agreement with Herbert Muhammad and Muhammad Ali. Once a deal is made with them, you never have to worry. They have always more than lived up to both the

letter and spirit of their

venson to retain his ama- Square Garden failed. agreements with me," Arum said.

"THE BOUTS probably would be scheduled over a period of two or three weeks in 1979, and Ali would be prohibited from fighting any other matches in the interim,"

Arum said. Ali recently won the World Boxing Council heavyweight boxing championship for an unprecedented third time by taking a 15-round decision from Leon Spinks. "I've had offers from some other people," Herbert Muhammad said. "I've got a \$10 million offer from government of Iran and another \$31/2 million offer, but I don't wish to reveal the name of the proposed boxers."

Ali, who won an Olympic gold medal in 1960, has been working in Mississippi on a movie called "Freedom Road." The movie is scheduled to be completed Dec. 10.

WINNIPEG, Manitoba—Scott Ledoux, Minneapolis, knocked out Sylvester Wilder, Cleveland, heavyweights, 2; Leroy Caldwell, Milwaukee, stopped Harold Carter, Cleveland, heavyweights, 8; Clem Tucker, Minneapolis, knocked out Terry Jesmer, Winnipeg, middle-Jonesboro, Ark. Joe King Birmingham, Ala. Don Bridge Norfolk, Neb. Eagles play game of punter roulette

By BRUCE LOWITT **AP Sports Writer**

Call them Mr. Inside and Mr. Outside. At the moment, Rick Engles is in and Mitch Hoopes is out, but the way the Philadelphia Eagles' revolving door has been whirling, things could change at any moment. It is a tale of two punters - and it is

78-75-153

not to be believed.

It started in training camp where Hoopes, who had kicked around with Dallas, San Diego and Detroit, showed up as a free agent. Engles, who had played for Seattle and Pittsburgh, was traded to the Eagles for a middling draft choice.

ON AUG. 15: Hoopes is released. On Aug. 22: Engles is released and Hoopes is brought back.

On Aug. 28: Hoopes is released again and Engles is brought back. On Sept. 25: Engles is released again and Hoopes is brought back

again. And on Sept. 30: Hoopes is released yet another time and Engles is brought back once more.

"Dick Vermeil called me last Friday night," Engles said of the Eagles' head coach. "I was home in Tulsa. When I got cut I drove 26 straight hours from Philly to get home. Made' it Wednesday about 2 p.m. Now here it is, Friday at 5, and the coach is telling me, 'We're thinking of bringing you back in. We've got no confidence in Hoopes. Stay by the phone,'

'He calls me again on Saturday, 11 in the morning. At 11:40 I'm on a plane. Right in the airport in Chicago I meet Hugh Ortman (the team's ticket manager, dispatched with a contract) and sign. It was about 1:30. They had to have a contract signed by 4. And on Sunday I'm punting in Baltimore.

"WHEN I REJOINED the team some of the veterans said they thought my mind would be blown, the way everything was happening. And a couple of 'em said I should've held the team up, held out for maybe 10 thousand bucks more. They would've had to give it to me or find someone else in a hurry. But that's not me."

That doesn't mean Engles isn't em-

"I think if you sign a contract and are good enough to make it through training camp and, say, the first regular game, your salary should be guaranteed for the season," he says. 'Then the team says, 'We've got money invested in this kid and we're going with him.' Punters aren't like quarterbacks or even linemen. We don't have playbooks to learn. We can come right in and start kicking, so we tend to get shipped in and out more.

'The players' contract is a unilateral contract. We're bound to it. The teams aren't. I believe we should have a guaranteed contract. They do it with coaches. They should do it with us, too. At least I think I deserve something after what I've gone through the last few months.'

One bad game and you're gone.

HOOPES, NATURALLY, has more to be bitter about.

"How can you have confidence in yourself when nobody else does? Think about it; the Eagles call me,

say, 'Come on back.' I tell 'em, 'Hey, I've got a good job." He made something like \$12 an hour drilling core samples of the earth in Oregon. 'They tell me they can't guarantee me anything but they sure give me a big vote of confidence. On Saturday I'm just warming up, trying to get my rhythm down. I didn't know then that Saturday was all that crucial.

"Then everyone's getting on the bus (for the trip to Baltimore). Vermeil tells me, 'I'm afraid you'll lose the game for us. I was shocked. I mean, if they're watching you kick and saying you're not going good, I could accept that. But slapping me on the back, telling me everything's fine ... My old boss tells me, 'Mitch, we've already filled your position.' I've lost a good job for the third time.'

MURRAY, THE EAGLES' GW. notes: "I can appreciate the emotional trauma Rick and Mitch are going through. It's a very tough part of this business, cutting a player. It's lousy. It's the worst part of pro football.

"I'm very sensitive to messing with a guy's mind. I don't want to hurt anybody. But you look at the number of chances they had and you see the other side of the coin is hope.

To which Hoopes responds: "You get so many shots, people think something's the matter with you. Vermeil himself said of me, 'He kicks great on the field but he's been cut before.'

MHS volleyball team notches win

ABILENE - The Midland High volleyball team started off strong and then had to ward off a strong Abilene High charge in the second set but ended up with a 15-1, 15-13 district win Tuesday night. The win, on the heels of second place finish in the Key City tournament here over the weekend and a Thursday victory over defending district champion Big Spring, pushes MHS to 2-1 in district competi-

In the Key City tournament Midland downed Lubbock Coronado, Graham and Amarillo Palo Duro before losing to San Angelo in the finals.

Diann Shiplet and Cheryl Strack of Midland High were named to the alltournament team. The Midland junior varsity also

won, 15-13, 15-3. Next action for the Midland High volleyball team is Thursday when they get a chance for revenge against San Angelo on the road.

16 questions may offer key to businesses

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) — Has your employer ever rejected your "better mousetrap" idea? If your answer is yes you might possess one of the qualities or experiences that could contribute to business

Bill McCrae, chairman of The Entrepreneurship Institute, has distilled 16 questions he feels can tip off a would-be business person on his or her chances of success. The better mousetrap question is one of

"More companies are started for negative reasons than for positive ones," he answers, "and the rejection of your better mousetrap idea is a common negative reason.

Corporations frequently do more to encourage entrepreneurship than they know, McCrae says, referring to a host of small electronics companies begun by frustrated ex-employees of larger firms.

"Their (the corporations) reason is valid to them - a \$5 million market is too small for a \$500 million company - but not for you, the entrepreneur,' he says. Based on experience, of the 500,000 or 600,000

companies formed each year, one-half will have disappeared within five years, and the most common explanation offered will be "bad manage-

Interesting, but the term is such an amorphous catchall it conveys little information. It might mean poor relations with people, but it can also mean inferior record-keeping and inadequate capitaliza-

McCrea, himself an entrepreneur, thinks it also involves experiences and traits that can be pre-measured, helping to steer potential failures away from business or aiding them in overcoming weaknesses.

McCrae is founder of the nonprofit institute and, with the best legal, financial, management and other brains he can find in a given area, conducts entrepreneurial seminars throughout the country. A pilot program for woman entrepreneurs, for example, is scheduled for Dallas on Nov. 3 and 4. And

a regional seminar for serious beginners and small operators is scheduled Dec. 2 and 3 in New York. In addition, the institute operates Project ICONE (International Congress on New Enterprise) to help small companies from industrially developed nations invest jointly with concerns in developing

nations. From these projects and seminars, McCrae and his staff distilled their 16 questions.

Question: Do I have a close relative that is or was

in business for himself or herself? Significance: "The available data show that the majority of entrepreneurs had a father or other close relative in business for himself.

"The importance of a role model is well documented. To make being in business for yourself credible, it is considered important that you see people in

action who have started firms. 'Strangely, studies show that a close relative entrepreneur will frequently discourage entrepreneurship, so don't be dismayed if everyone tells

you how tough it is and why you shouldn't do it."

Have you been fired? McCrae and his staff say most entrepreneurs rebel at working for others. Are you a loner? A lot of entrepreneurs are, but successful ones quickly learn to work well with others.

The institute offers the questions, their significance, and a rating guide to those who might benefit. (90 E. Wilson Bridge Road, Suite 247, Worth-

ington, Ohio 43085.) McCrae cautions poor scorers not to be overly discouraged, since they remain in rather good company. "Have you considered," he asks, "that there are more than 200 million Americans who are not entrepreneurs?"

UTPB says enrollment up

of Texas of the Permian are on the upswing. Basin continues to climb, as a record 1,601 students are attending classes this fall.

UTPB director of admissions Robert Warmann said a heavy turnout of late registrants tipped the scales to

break the 1,600 figure. Last fall enrollment stood at 1,575. Warmann pointed out the university, having recently completed its fifth year of classes in the Permian Basin, has grown by 44 percent since its beginning with a

gradual increase in students each year. Student head count in the fall of 1973 was 1,-

112. While growth in student head count increased slightly for the fall semester, Warmann said student credit hours, the basis on which formula funding is computed, showed an increase of 3.4 percent, indicating more students

He likes it quiet

OMAHA, Neb. (AP) James Lawrence, who says he needs a wideopen area to practice in, has been fined \$100 for playing golf at Evergreen Cemetery.

Lawrence, 25, was ticketed for trespassing and pleaded guilty before Municipal Judge Robert Vondrasek.

Officers who wrote the ticket said they had warned Lawrence once before that he could not play golf in the ceme-

ODESSA — Enroll- are enrolling full time ment at The University and graduate students

Warmann said 22 students registered this fall in the university's new no-grade option for persons not interested in

pursuing a degree. In addition, several full-time students working on degrees opted to take one or two courses in addition to their regular degree work under

the no-grade plan. Registration is still open for persons wanting to take self-paced courses, Warmann said. Students involved in selfpaced courses attend few or no classes but work instead from highly structured and detailed course outlines.

"The BRONCO BUSTER

The BRONCO BUSTER was Remington's first and most famous sculpture. This bronze is not a scaled-down replica, but a casting derived from an original 22½ " gh bronze from the Earl E. Heikka Museum Collection.

\$1,250 plus tax and shipping (Sculpture sent on a chase-after-approval basis.) DO NOT SEND CASH.

For full information and color photographs on this and other Remington bronzes, contact:
