Big tax cut

fight looms

WASHINGTON (AP) — President Carter is making a last-minute plea to

Congress to hold down the size of next

year's tax cut, as Republicans launch

a final attempt to assure additional cuts in 1980 and beyond.

Carter arranged a meeting today with Sen. Russell B. Long and Rep. Al

Ullman to spell out how their Senate-

House conference committee could

Meanwhile, Republicans were ask-

ing the House to instruct its members

on the conference committee to en-

dorse a Senate provision that would

reduce taxes in 1980 through 1983 by

an extra \$164.5 billion if the growth of

year's budget on Aug. 16, a similar proposal failed by only five votes.

tions less than four weeks away, out-

numbered Republicans are hoping to gain enough strength from Demo-

crats to ensure that the Senate mea-

sure - with its combination of tax

cuts, spending cuts and promise of a

balanced budget - will be retained by

Carter, viewing an economy strug-

gling against inflation and unemploy-

ment, is said to oppose any action that

would lock in tax cuts beyond 1979. Carter also says he thinks the Sen-

ate's proposed \$29.3 billion tax cut for

1979 is too big. All of the tax cuts

contained in the bill for 1979 would

tailor the tax bill more to his liking.

Idi Amin threatens anti-America action

NAIROBI, Kenya (AP) -President Idi Amin said today that very soon he is going to make "a very drastic and serious decision on America or anyone connected with America' because of the U.S. ban on trade with Uganda over human rights violations.

There was no immediate indication what moves are planned by Amin, whose remarks were carried by Uganda Radio. But in February 1977, Amin barred all Americans from leaving Uganda for several days following President Carter's criticism of "horrible murders" in the coun-

Vance, delivers Carter's best wishes

minister, Prince Sultan. Vance, who spent about two hours here Wednesday before flying back to Washington, said he brought only "the president's best wishes" to the ailing mon-

VA agrees to act on Agent Orange

WASHINGTON (AP) - The Veterans Administration says it will provide medical treatment for any Vietnam War veteran who says he's suffering ill effects from the herbicide Agent Orange.

VA officials said Wednesday the government has begun a broad research program to learn whether veterans might suffer long-term health effects from the herbicide, used to defoliate Vietnamese jungle areas that sheltered enemy troops.

U.S. OKs Russian grain deal increase

WASHINGTON (AP) - The United States, anxious to sell off huge supplies of wheat and corn, has given the Soviet Union approval to increase its American grain purchases.

However, the Soviets gave no immediate indication Wednesday whether they planned any grain buys above the minimum they are required to make under a purchase agreement now in its third year.

Austrian newsman expelled by Russia

MOSCOW (AP) - Erhard Hutter, the only Austrian correspondent in the Soviet Union, left for Vienna today after Soviet authorities withdrew his visa in a move that amounted to expulsion, an Austrian diplomat

Harry Campbell, a youth specialist

come into play on individual income tax returns filed in early 1980.

Carter says both the Senate measure and the \$16.3 billion version passed by the House are much too generous to the high-income investors who would benefit most from a big cut in capital gains taxes.

Republicans, who pressed hardest for a bigger tax cut and more for investors, have a different idea.

Their favorite tax-cut plan, the Kemp-Roth proposal for a one-third cut in individual tax rates over a three-year period, was rejected by the House and Senate.

Now they are claiming as their own the Senate amendment, sponsored by a bipartisan coalition headed by Democrat Sam Nunn of Georgia, which would allow multi-year tax cuts if, and only if, Congress can sharply reduce the growth of federal spend-

"The Senate has adopted the essen-tial elements of Republican tax policy," Senate Republican Leader Howard Baker said at a news conference Wednesday.

Opponents of the Nunn proposal say it would tie the hands of Congress and make it more difficult to stimulate the economy in times of recession and slow it down when inflation threa-

Nikita: 'Left no one indifferent'

By NIKKI FINKE

MOSCOW (AP) - Some Russians still place small bunches of flowers on his grave, but time has not been kind to Nikita S. Khrushchev, deposed by colleagues in the Communist Party 14 years ago this weekend.

Visitors to the grave in a corner of Novodevichy Cemetery are quick to move on, almost embarrassed to be seen at the gravesite of the former premier and party chief, whose memory has been tarnished and left bereft of all official tribute.

"The only thing I can say is that he left no one indifferent," Khrushchev's computer-engineer son, Sergei, said at his father's simple funeral in 1971. "There are people who love him, and people who hate him, but no one can pass him by without turning to look.'

Khrushchev's widow, Nirta Patrovna, now 78, lives on a small pension in a villa outside of Moscow. Their daughter, Rada, is still deputy editorin-chief of the magazine Science and Life, the job she held when the other leaders of the party met secretly in Moscow on Oct. 14, 1964, to purge her father while he was vacationing on the Black Sea.

Khrushchev had been first secretary of the party since 1953 and premier since 1958. Leonid I. Brezhnev succeeded him as party chief and now has been in power three years longer than his predecessor lasted. The purged leader died in peaceful obscurity seven years ago at the age of

Khrushchev's de-Stalinization program three years after the death of Josef Stalin in 1953 deserves remembrance from the historians, Soviet intellectuals say.

He dismantled Stalin's regime of terror, which took an estimated 80 million lives through executions, concentration camps and famine resulting from botched agricultural planning. At a party congress in 1956 he denounced the old dictator and his despotism, and de-Stalinization

spread to the rest of the Soviet Bloc 'For that alone, the country should forgive him," one intellectual

But many Russians are slow to remember Khrushchev's achievements and quick to recall his failures.

"Khrushchev?" replied one woman when asked her feelings toward

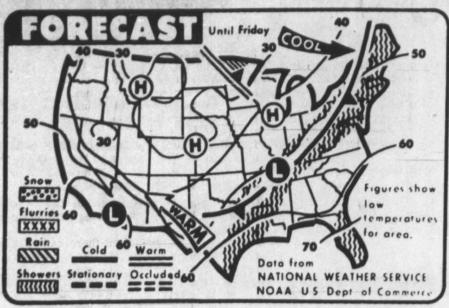

him. "That was the guy who wanted to plant corn everywhere, and then everything went to hell." Most persons interviewed recalled him with a certain air of contempt, a man full of "hare-brained schemes" that never worked out.

Agriculture was his main domestic concern, and his campaigns to force farmers into unprofitable corn growing were bitterly resented. When he moved in, Brezhnev put the emphasis back on wheat and other traditional

WEATHER SUMMARY

Showers are expected today through Friday morning from the western Gulf to the Northeast and for Florida. The National Weather Service also predicts mostly sunny skies from Mississippi to the Pacific. Warm temperatures are forecast for the Southwest, but most of the nation is expected to be seasonably mild. (AP Laserphoto Map)

Today's satellite cloud picture, recorded at 3 a.m., shows a frontal cloud band extending southwestward through the Great Lakes into Missouri, where thunderclouds are seen, another broken cloud band extending southward through western New York and Pennsylvania and trailing into West Virginia, and broken high clouds across Florida. (AP Laserphoto)

Border states forecasts

Fewer persons registered for November balloting

When the polls open Nov. 7, a total of 34,929 Midlanders will be eligible to cast ballots.

That may sound like a lot, but in October 1977 there were 39,-

Midland County Voter Regis-tration Deputy Janeice Builta said today more than 1,000 of the almost 35,000 registered signed up last week, just in time to beat the deadline for being eligible to

In spite of the decrease in total numbers, said Mrs. Builta, a large number of new voters have been added to the rolls.

The problem is almost 10,000 were purged when their new yellow voter registration cards were returned by the post office as undeliverable.

Mrs. Builta said she checked 47 pages of the telephone book and found an average of five persons per page who were on the "strike list," but who were listed as living at another Midtand address. She said the 1977 figure un-

doubtedly included hundreds of persons who had moved but neglected to change their address. "That's the reason for the strike list, to make them change

their address," she said. Until the strike list pared the number of voters, the number of persons registered in Midland County had climbed steadily since 1965, when there were only

Warm days continuing into autumn

Autumn weather is giving way to summer temperatures during the daytime, according to the weather-

Fair skies are forecast for the Permian Basin through Friday. Cooler temperatures tonight and

Friday are anticipated, said a spokesman for the National Weather Service at Midland Regional Airport.

Friday's high is forecast to be in the middle 70s. The low tonight is expected to be in the low 50s.

The high Wednesday was 86 degrees. The overnight low was 53 de-

A high of 79 degrees was forecast for today. The record high for October 11 is

92 degrees set in 1947. The record low for today is 40 degrees set in 1946. Area town weather watchers reported clear skies and brisk early

morning temperatures. Early today the temperature in Andrews was 58 degrees with 62 degrees tallied in Stanton and 64 degrees recorded in Rankin.

Fair skies and Indian Summer temperatures prevailed over most of Texas today, but cooler weather was

Quiet, clear and very pleasant conditions prevailed over the state during the night. Very cool pockets of air settled over the high valleys of Southwest Texas, but warm temperatures were the rule elsewhere.

Low clouds developed over several south central locations early this morning and there were patches of fog scattered in South Texas.

Fair and warm weather was forecast to continue across most of the state today, with afternoon high temperatures reaching into the 80s and

Carter, Congress argue tax cuts

(Continued from Page 1A)

passed tax cuts for 1979, the Nunn amendment would provide individual reductions averaging about 25 percent over the next five years.

The Nunn amendment is only one of many problems facing the Senate and House conferees as they try to piece together a tax cut that will be acceptable to all sides and allow Congress to adjourn for the year on Saturday.

The Senate bill would provide larger 1979 tax reductions for individuals, investors and businesses than would the House version.

Senators also voted special new tax relief for the elderly and the working poor, and delayed for two years the onset of a 1976 law increasing taxes on inherited property - an item of considerable controversy,

Also attached to the Senate bill, but missing from the House version, are a handful of welfare provisions and several items of tax relief that would affect relatively few persons.

These beneficiaries range from Michigan cattlemen whose herds were contaminated with the chemical PBB to a dozen big brokers who would benefit from a change in the tax rules affecting industrial development

Big Spring youth, 10, hospitalized

BIG SPRING - A 10-year-old Big Spring boy was under observation in Hogan-Malone Hospital here early today with head lacerations he received in a traffic accident Wednes-

Marty Deanda received the injuries late Wednesday afternoon when the bicycle he was riding and a car collided at the intersection of 9th and Bell streets here, said a Big Spring Police Department spokesman.

Officers said Lupe Fierro, 27, also of Big Spring, was driving the car. Fierro was unhurt, officers said.

McCrory likely to testify today

inhumane treatment of prisoners.

Chmelir said he gave little thought to the waterlike liquid he found spilled on his bags until he history of drug abuse. And he says he spent two opened them and found the substance had seeped inside and contaminated his clothes.

He put the bag outside his room because of the smell and laundered his clothes twice, but two days later became ill.

Medical personnel at Pensacola performed blood tests on Chmelir, but he says no tests were done on the clothes. He said blood tests, which did not include drug screening, proved inconclusive.

He later was transferred to Oak Knoll Naval Hospital in Oakland, Calif., for long-term psychistric

Drug tests were performed there and PCP was found in Chmelir's system. He was stamped a drug

abuser and the Navy moved to oust him. But a number of drug researchers and scientists believe he may have absorbed PCP through his skin from the clothing. If so, it would be the first reported case where the drug has entered the system

"It's plausible," said Steven Lerner, an expert on PCP and its effects. "It's highly unusual, but if you're in an enclosed environment with PCP you can become intoxicated.

through the skin, drug experts say.

the public right to know by actively responding to George Ellis of Miramar Naval Air Station's drug rehabilitation center at San Diego said it was possible for the drug to have entered Chmelir's body "However, it is the department's feeling that our either through the skin, or more likely, through his primary responsibility to insure institutional order mouth while eating. and the safety of inmates and staff has not been

Chmelir had his suitcase and clothes analyzed by outside researchers who found both the zipper liner and clothes contaminated with PCP and a substance used in manufacturing the drug.

Although he has lost one round in appealing his discharge from the service, he still has three more appeals.

His superior, Rear Adm. F.G. Fellowes of Miramar, declined comment other than to say Chmelir will have a chance to tell his side of the story at a

Statewide 'news blackout' in effect on prison strike

HUNTSVILLE, Texas (AP) - A statewide news blackout shrouds the Texas prison system today, leaving outsiders wondering about the status of a week-long hunger and work strike that has involved hundreds of inmates and triggered at least one shooting incident since last Thursday.

The no-news edict was issued Wednesday by Texas Department of Corrections Director W.J. Estelle as news agencies attempted to update their accounts. Tuesday night the episode rang a tense note as

prison officials put all but eight striking prisoners in their cells, some forcibly. Prison spokesman Ron Taylor said officials had

decided the protest had reached a "limit" after it reportedly spread to include half a dozen units of the prison system Tuesday. Taylor said there had been no incidents of violence,

but conceded that "some reasonable force" was used to return prisoners to their cells at the Coffield Unit near Palestine.

Late Tuesday night, Taylor said the strike was over "for today

However, when reporters attempted to learn if the protest had resumed Wednesday morning, they were told Estelle had clamped a blackout on all information releases from the system.

Taylor read a prepared statement he said was "authorized" by Estelle, who for the most part has declined comment on the continuing strike. Reading from the statement, Taylor said inmate

A game of 'I Spy'

Seventeen years after American spy satellites began photographing Soviet military installations, President Carter, in his speech at Cape Canaveral, became the first president to acknowledge the fact formally. This ostentatious admission that has long been an open secret begs an explanation.

Mr. Carter could not simply have been seeking to put the Russians on their best behavior. The satellite spy business is a two-way street and the Soviet satellite program surely gives the Russians a good idea of our capabilities.

Nor could the president's revelation have had much impact in the Senate, where knowledge of the importance of satellite reconnaissance is long established.

The most reasonable explanation, therefore, is that President Carter sought to allay public doubts about the wisdom of a new strategic arms limitation agreement by suggesting that satellite photography would keep the Russians honest.

To be sure, satellite reconnaissance is essential to the SALT verification process. Without it, strategic arms limitation agreements with the Russians would be impossible.

But as Mr. Carter undoubtedly knows, spy satellites have inherent limitations. Their photographs cannot reveal a missile's range or how many separate nuclear warheads are packed into its nose. They cannot directly determine the accuracy of a missile. They can probably be fooled by sophisticated camouflage and they certainly cannot peek inside Soviet laboratories and missile factories

to determine that weapons prohibited by a SALT treaty are not in fact under development.

It's apparent then that the next SALT agreement must rest as much on shared Soviet-American objectives of mutual security as on unilateral verification techniques.

What worries many Americans is a growing fear that mutual security may be a goal honored only in Washington. Six years after ratification of the first SALT agreements, the Soviets seem no less determined to forge ahead with military programs that would give them strategic superiority. They also seem to believe that a nuclear war might some day be waged - and won by the Soviet Union.

By contrast, the United States has long since renounced in word and deed any effort to obtain superiority in arms over the Soviets. And Washington's nuclear strategy remains rooted in deterrence with little thought to survivability if deterrence fails.

The point is this: as vital as will be the debate over this country's ability to verify Soviet compliance with terms of a new SALT treaty, its prospects for ratification will likely depend as well on a more general assessment of the Soviet Union's ultimate political and military goals. Many Americans already suspect, not without reason, that a country determined to cheat on treaty limits might do so despite satellite photography.

In persuading the American people that a SALT II treaty is in their best interests, President Carter will have to do more than publicly acknowledge that American satellites take photographs of Russian missiles.

Stuffing, indeed

The potato growers of the nation votes for stuffing. are beginning to fight back. They're angry over those television commercials of husbands choosing stuffing over mashed potatoes.

You know the one. The wife appears before the TV camera and predicts her husband will pick mashed potatoes over stuffing and then he comes on the tube and

Fed up to the ears with the scene. The National Potato Promotion Board has decided to launch a counterattack.

Currently the potato board is running an advertisement that states potatoes have a third the daily vitamin C requirement for adults and that stuffing has none.

The whole thing sounds like stuff and nonsense.

ART BUCHWALD Jingle bells, jingle bells and Christmas tree bills

WASHINGTON - You've probably heard of a Christmas tree bill but you are not sure exactly what it is. This is

Traditionally, Congress celebrates Christmas two months before the rest of the country, by passing out presents to its constituents in the closing weeks of its fall session. This is a time when everyone is anxious to get home, and no one is paying too much attention to what someone wants to add on to a bill. The wiser senators and congressmen always wait until the last minute before they add their own decorations, hoping no one will challenge them in debate.

Let us say Cong. Goodfeeling proposes a bill to make Columbus an honorary citizen of this country because he discovered America.

Cong. Glucose rises to his feet and says, "I am in full agreement with this bill which honors one of the greatest men in history, and I wish to propose just an amendment. To show our appreciation for everything Columbus has done, we vote \$6 billion for the building of a new nuclear aircraft carrier to be called the 'Santa Maria.

Cong. Hogtipple says, "I will accept the amendment, but it seems to me that we could do this explorer greater honor if we lowered the present capital gains tax to 25 percent, so business will have an incentive to invest in this great continent that Columbus opened up to Western civilization.'

Art Buchwald

"Are you proposing this in the form of amendment?"

"Mr. Speaker," a congressman from Texas says, "when we speak of Columbus, we must not forget some other great explorers. I am talking of the men who drill for oil and gas and who are risking their lives and fortunes to find new sources of energy. I would like to add an amendment to the Columbus bill, taking all restrictions off the price of crude oil and gas, so that our modern-day explorers can make this country the great industrial empire Columbus dreamed it would someday be.'

"Are there any other amend-

ments?" "Mr. Speaker, as you know I come from the state of Ohio. Our capital is named after this great man. The Ohio State football team plays all its home games there. I would like to offer my own amendment in keeping with the spirit of this excellent bill. My amendment calls for immediate tariffs on imported steel, as well as automobiles and soybeans. We cannot compete in the marketplace when Europe and Japan are constantly underpricing our product. If Columbus were alive he would be the first to criticize this unfair competition.'

"Are there any seconds?" "I second the motion, Mr. Speaker, and wish to add an amendment of my own. The EPA has just ruled that the Spangle Hanger Co., which is in my district, must either clean up the pollution in the Spangle River or close down. My amendment asks that the Spangle Hanger Co. be given an extension of 20 years to comply with this

"What has this got to do with Columbus?'

"If the Spangle Hanger Co. has to shut down 34 Italian-Americans will lose their jobs.

"That puts a different light on things. It's getting late. Are there any more amendments?'

"Mr. Speaker. I have one. My amendment would raise the pensions of all congressmen and senators by \$10,000 a year or the cost of Columbus' trip to America, whichever is

"All those in favor says 'Aye." "AYE."

"All those against?"

(Silence)

"The 'Ayes' have it. Making Columbus a citizen is one bill that even the President wouldn't dare veto.'

THE BIBLE **CAN YOU QUOTE IT?** By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. The republic of Israel was founded in 1948 and covered 7,993 square miles. When did the name "Israel" come into existence? Gensis 32

2. Why do many believe the second coming of the Lord will be from out of the east? Matthew 24:27

3. Why is the great exodus from Egypt considered to be a time of proving? Deuteronomy 8

4. Why did Paul defend himself by speaking in Hebrew at Jerusalem? Acts 21: 37-40 5. Where did the expression "feet of

clay" come from? Daniel 2: 32-35 Four correct...exellent. Three correct...good.

WASHINGTON MERRY-GO-ROUND

Mafia aides use pension funds

BY JACK ANDERSON WASHINGTON -

Machiavellian bosses of the underworld, the valued currency is not money, but power; the price of failure is not bankruptcy, but death. However, the supposedly legitimate

businessmen who front for the Mob are cut from a different piece of cloth. It's the bait of easy money and high living that lures them into the fringes of the Mafia. That is as far as they go; they never reach the inner circle of ultimate gangland power.

Nevertheless, the respectable front men pose as serious a threat to society as the hoodiums they represent. They loot public corporations, endanger the actuarial soundness of the union pension funds they borrow from, and evade millions of dollars in taxes.

A team of federal investigators in Las Vegas is now trying to prove that Allen Glick, a real estate and casino tycoon, is just such a front man for Anthony "Tony the Ant" Spilotro, the most feared gangster in Glitter City. Overnight, Glick created a casino and hotel empire on the strength of loans from the Teamsters Union Central States Pension Fund in Chicago.

Glick's activities as head of the Argent Corporation, which operates the Stardust and Fremont hotelcasinos, have come under scrutiny by the Securities and Exchange Commission. The SEC charged in a complaint that Glick, using fictitious

names, forced Argent to grant him \$317,500 in inside loans, which he used to pay off personal debts, to remodel his home and to maintain his luxurious life-style.

But a federal judge refused to grant the SEC lawyers an injunction to curtail these transactions. He ruled that Glick posed only a potential, not an actual, threat to Argent's financial

Although Argent defaulted on a pension fund loan and lost \$10,652,000 between 1974 and 1976, the corporation is now doing well. SEC sources told us the casino-hotels are profitable enough now to withstand Glick's alleged shenanigans.

Glick clearly owes his phenomenal success to the Teamsters' pension fund. He once, for example, received a \$62.7 million loan from the Central States Pension Fund within nine days of his application - without even submitting' a personal financial statement.

The Justice Department has spent vast amounts of money and manpower investigating Glick. At one point, according to secret intelligence reports, they thought they had hit pay dirt: Tamara Rand, an aide to Glick and a reputed courier for the Mob, had a falling-out with her boss and was threatening to tell federal agents everything she knew. But she was executed, gangland-style, before she could talk. The G-men are still investigating her murder.

trepreneurs who have had easy access to the Central States Pension Fund. Another of the lucky ones is Hyman Green, a land developer and investor who divides his time between Florida and New York. He maintained a mysterious relationship with former Teamsters boss Jimmy Hoffa, who allegedly was cut into some of Green's business deals. Since 1960, Green has been allowed

Glick is only one of several en-

to borrow more than \$40 million from the pension fund, despite a default record that would discourage a loanshark.

He started with a \$4 million loan to invest in Honeymoon Island, in the Gulf of Mexico off Dunedin, Fla. A year after the loan was approved, Green's firm received an angry letter from the pension fund. "The Pension Fund has repeatedly requested ... that you furnish the Fund detailed income and expense statements of

Honeymoon Isle Development Cor-"the letter said. "This corporation has been in business since June of 1960, and yet you have continued to advise us that no statements have been prepared."

Green evidently cleared up his complaint, because the pension fund lent him an additional \$6 million to develop the island. He missed his payments, the loan went into default and Green decided to unload the property on the state of Florida. The state initially agreed to pay

\$75,000 an acre, but the deal was held up while a federal grand jury investigated allegations that a scheme was in the works to offer a \$1 million bribe to a state official in connection with the sale. No one was either charged or exonerated. But when negotiations resumed, the state lowered the price to \$64,000 per acre. Recently, the state discovered that Green had exaggerated the acreage of Honeymoon Island, and the original sale price of \$25.5 million was cut to \$23.7 million. Green was also involved in another

loser that was financed by the pension fund. The Beverly Ridge Estates Corp. received more than \$10 million from the fund to develop a residential and golf course complex in Beverly Hills, Calif. Again there were allegations that key officials took payoffs for their approval. The corporation eventually defaulted on the

When his favorite source of cash, the Central States Pension Fund, dried up in the heat of federal action, Green turned to Teamsters Union Local 282 in New York. The local's pension fund recently okayed a \$20 million loan to finance construction of a hotel and casino in Las Vegas. But this time there'll be no default.

The Labor Department, with the help of the Professional Drivers Council, a dissident Teamsters group, sued to block the loan, and won.

the small society

HOO-BOY! IF THIS INFLATION CONTINUES ... WE'RE GOING TO HAVE TO DO WITHOUT THINGS OUR PARENTS NEVER HAD.

NICK THIMMESCH

Black juries can be as sophisticated as any other

Nick

Thimmesch

WASHINGTON - During the most acrimonious sessions of the Watergate trials, some defenders of the Nixon gang complained that the accused whites couldn't get a fair hearing from the predominantly black juries because of Nixon's unpopularity with citizens of that hue. In a word, black jurors could not be

trusted to make dispassionate judgments if there was any racial aspect in the case. A fair number of people in this town have made the same cynical observation over the years, and some courtroom lawyers have indulged in racial grandstanding. But now both the complaint and the

observation have lost considerable water. It was a predominantly black jury, hearing testimony for black witnesses, which found the Republic's senior black Congressman, Charles C. Diggs Jr., guilty of 29 counts of mail fraud and criminally diverting salary money of his congressional employees to pay his own bills.

Diggs' lawyers and outside-thecourtroom defenders certainly tried to go the racial route. Outside the courtroom, various black "leaders" were heard to say, what a shame for all blacks if Diggs, founder of the Black Caucus and Chairman of the House District Committee and the Subcommittee on Africa, goes down the tube. Inside, Diggs' lawyers produced black luminaries (Andrew Young, Coretta Scott King, Detroit Mayor Coleman Young, D.C. Delegate Walter Fauntroy and the Rev. Jesse Jackson) to testify to the high integrity and honesty of the accused.

But the 11 black jurors (there was one white) wouldn't buy it. "He was playing on people's sympathy, bringing in black leaders," Luvenia M. Williams, a black juror told the Washngton Star's Gloria Borger. "During

the trial there was always an emphasis on his being black. They didn't have to make it so obvious. It irritated

The jury foreman, a black, said this of Andy Young & Co.: "Even though they were famous black Americans, they simply were character witnesses and knew nothing of the issues in the case...If Diggs had done wrong, they would be the last to know...I made my decision based on the weight of evidence. I didn't consider whether I was harming a black leader.

The single question in the case was, as the prosecutor argued, did Diggs devise a scheme to defraud the United States? He evidently did. Three black congressional employees of Diggs testified that he inflated their salaries so that they could pay his personal bills and some congressional ex-

Another witness, black, testified she was put on Diggs' payroll with the understanding that she would spend about 80 percent of her time trying to collect bills owed Diggs' funeral home. Then there was George Johnson, also black, a Detroit accountant, who testified that Diggs repaid money he owed Johnson by putting him on a congressional payroll, and not requiring him to work for it.

The explanation for all this payroll hanky-panky was that Diggs was hopelessly in debt, although income tax returns showed that he and his wife had an average annual income of \$70,000 in recent years. The jurors hardly felt sympathy after hearing

"A man you can trust," Andy Young said of Diggs. "A man of dedication," declared Coretta Scott King. "We were boys together," proclaimed Mayor Young, who described his chum as a man of his word. Rev. Jackson upped it - he trusted Diggs "absolutely." Ditto from Fauntroy.

Diggs' lawyer was David Povich, a disciple in the House of Edward Bennett Williams, who has played this luminary-witness game before. In 1957 the feds thought they had Jimmy Hoffa cold in a bribery case and that he was headed for the slammer. Williams was Hoffa's lawyer. Who walks in the courtroom here to warmly greet Hoffa, in full sight of the predominantly black jury? Why it was Joe Louis, beloved and revered. That stunt and some points of law got Hoffa off. The late Robert Kennedy gnashed his teeth in anguish.

In 1975, John Connally was being tried here on a variety of charges stemming from contributions the milk industry made to the Nixon campaign. Again, the jury was predo-minantly black, and Williams was Connally's lawyer. Williams trotted out all manner of star character witnesses for Connally, including at least two who could make a black person's heart go pitty-pat - Lady Bird Johnson, whose late husband stands as second only to Abraham Lincoln in Presidents who helped blacks in epic fashion, and Barbara Jordan, a firstrate congresswoman greatly admired by blacks. Connally was found not

In the Diggs case, Povich not only

displayed an all-star black cast, he also declared that there was something "selective" and "unholy" in the prosecution, a scantily veiled charge that Diggs was hit because he is

black.

It's over now. Black juries can be as sophisticated as any other. As for Diggs, he says he'll surely be reelected in a district which hasn't sent a Republican to Congress in 50 years. Let it be so. He represents his district

The jury found him guilty of illegalities which other congressmen white or black - probably could also be charged with. There ought to be a congressional investigation of how the lopsided Democratic majority in Congress abuses the entire congressional staff system.

A number of congressmen and Senators have taxpayer funded payrolls of over \$1 million a year, and some of this so-called work isn't performed at all, or is performed for the political purposes of the Democratic officeholder'or the Democratic Party. But only an ass thinks the Democrats will investigate themselves.

Three-martini tax deduction ban runs into hopeless odds

By DAVID ESPO

WASHINGTON (AP) — President Carter did battle this year against the three-martini lunch.

He never had a chance. The Senate approved a bill Tuesday calling for about \$29.3 billion in income tax cuts for individuals and corporations, but making only minor changes in the tax deductions businessmen are allowed to take for entertainment.

Businessmen can take associates or customers to lunch, dinner or the theater and claim a tax deduction for their company, claiming the event was a necessary and ordinary part of

"I don't care how many martinis anyone has with his lunch," Carter declared at a news conference in Cranston, R.I., on Feb. 17, "but I am concerned about who picks up the

"I don't think a relatively small minority has some sort of divine right to have expensive meals, free theater tickets, country club dues and sporting events tickets paid for by higher taxes on everybody else," the president said then.

His tax proposals, sent to Congress in January, would have permitted a businessman to deduct only half the cost of a meal.

They would have disallowed tax deductions for all entertainment actvities and facilities, items such as country club dues, cruises, visits to hunting lodges and tickets to baseball and football games.

And instead of permitting a deduction for the entire cost of business-related air fare, it would have limited the break to the cost of regular air

The House Ways and Means Committee dismissed the proposals, along with other Carter administration-pro-posed "reforms," before sending the tax cut bill to the House floor, where the issue never came up.

In the Senate, the Finance Committee voted to deny tax deductions in the future for entertainment facilities such as yachts, hunting lodges, fish-

ing camps and swimming pools. But it left untouched other provisions the administration objected to, including the meal deduction.

When the measure reached the floor of the Senate, Sen. Edward Kennedy, D-Mass., tried first to attach a provision that would eventually have ended a deduction for half of a business meal. That proposal was tabled, and thus killed, 49-9.

Then, Kennedy tried a three-part proposal to deny deductions for sport-ing events and entertainment, limit the deduction for business meals to \$25 per person per meal and restrict deductions for travel to coach fare. The vote was 70-22 against him:

DEATHS

C.C. Perkins

BROWNFIELD - Services for C.C. "Champ" Perkins, 61, of Plains, stepfather of Mrs. Bennie Green of Midland, were to be at 2:30 p.m. today in the First Baptist Church at Plains. The Rev. Jim Mosely, pastor of the First Baptist Church at Ackerly, was to officiate, with the Rev. Glenn Harlan, pastor of the Plains church, assisting.

Burial was to be in Terry County Memorial Cemetery directed by **Brownfield Funeral Home**

Perkins died Tuesday in a Brownfield hospital after a sudden illness. He was born in Stonewall County and moved to Terry County in 1938 from Lynn County. He was mar-

ried to Opal Clanahan Jan. 14, 1956, in Lubbock. He moved to Yoakum County that year. He was a member of the Masonic

Lodge here and the Scottish Rite. He was a deacon at the First Baptist Church at Plains. He was a World War II veteran.

Other survivors include his wife, a stepson, a stepdaughter, two brothers, five sisters, six grandchildren and two great-grandchildren.

Mrs. E.B. Boone

BIG SPRING - Mrs. E.B. (Era) Boone, 67, of Kingsland, formerly of Midland, died Wednesday afternoon

in a Burnet hospital. Services will be at 2 p.m. Friday at Nalley-Pickle Funeral Home with burial in Trinity Memorial Park

She was born Aug. 1, 1911, in Alba. She was married to E.B. Boone Jan. 20, 1935, in Bossier City, La. The couple had lived in Kingsland four years, moving there from Midland, where they lived from 1960 to 1974. She was a member of the Methodist Church.

Survivors include her husband, E.B. Boone of Kingsland; two sons, Douglas L. Boone of Midland and Don W. Boone of Houston; a daughter, Mrs. Carrol (Cherie) Holtzclaw of Midland; a sister, Nila Richbourg of Kingsland; a brother, John Paul Woodson of Mesquite and three grandchildren.

William McKay

Graveside services for William McKay, 94, of Houston, a former Midland resident, were to be at 11 a.m. today with Dr. Ray Riddle of the First Presbyterian Church officiating.

Burial was to follow in Resthaven Memorial Cemetery under the direction of Newnie W. Ellis Funeral Home.

McKay was born Nov. 19, 1883, in Youngstown, Ohio. He moved to last November from land. He was a retired accountant for the Skelley Oil Co.

McKay lived in Tulsa, Okla., for 50 years before moving to San Antonio. where he lived for 12 years prior to moving to Midland.

Survivors include a son, Bill McKay of Houston; a daughter, Mrs. Don (Betty Jo) DeBerry of Midland; a brother, Lloyd McKay of Meadeville, Pa., four grandchildren and two great-grandchildren.

B.B. Richards

SAN ANGELO - Services for B.B. Richards, 60, of San Angelo, father of Mrs. Weldon Rosser of Midland, were to be at 11:30 a.m. today in Johnson's Funeral Home here with the Rev. Neal Brilhart, pastor of Baptist Temple Church, officiating.

Burial was to be at 3:30 p.m. today in Elmwood Memorial Park in Abi-

Richards died Monday in a San Angelo hospital from injuries received in an industrial accident.

He was born March 6, 1918, in Jinks, Okla. He was a truck mechanic for J.E. Cox & Sons, Inc. He was a veteran of World War II. He was married to Myrtle Ray Sullivan Nov. 8, 1941, in Phoenix, Ariz. He was a member of Temple Baptist Church in Odessa.

Other survivors include his wife, a daughter, four sisters, a brother and six grandchildren.

Doss Allen

ROSCOE - Services for Doss Allen, 94, of Roscoe, mother of A.J. Allen of Big Spring, will be at 2 p.m. Friday in First Lutheran Church here. Burial will be in Dewey Cemetery, three miles west of Lawn, directed by McCoy Funeral Home here.

Mrs. Allen died Wednesday in a Roscoe nursing home.

She was born Nov. 12, 1883, in Ellis County. She was married to Dolph R. Allen Dec. 25, 1910, in Ellis County. He died April 17, 1933. She was a member of the Presbyterian Church.

Other survivors include two daughters, a sister, eight grandchildren, 26 great-grandchildren and five greatgreat-grandchildren.

Esther M. Clark

SAN ANGELO - Services for Esther M. Clark, 83, of San Angelo, sister of Lester Parker of Midland, were to be at 10 a.m. today in Johnson's Funeral Home here.

Officiating was to be the Rev. James Andrews, associate pastor of First Baptist Church. Burial was to be in Fairmount Cemetery.

Mrs. Clark died Tuesday. She was born April 14, 1895, in Texas. She had lived in San Angelo 60 years. Her husband, Robert Clark, died in 1962.

Other survivors include a daughter, a son, three sisters, three grandchildren and three great-grandchildren.

Bettie J. Hughes

SEYMOUR - Services for Bettie J. Hughes, 88, of Seymour, mother of Ileta Gore of Midland, were Wednesday in the First United Methodist Church in Vera. Burial was in Vera Cemetery directed by Seymour Memorial Funeral Home

Mrs. Hughes died Tuesday in a Seymour hospital following a lengthy She was born April 24, 1890, in

Boonesboro, Miss. She was married to George A. Hughes April 26, 1913, in

Beirut's Armenians war's innocent victims

BEIRUT, Lebanon (AP) - The plight of Beirut's Armenian community, sandwiched between Syrian and Christian guns in Lebanon's latest bloodletting, proves once again the validity of the maxim that innocent civilians are war's greatest victims.

Beirut's tightly-knit Armenian community, members of an automonous Christian church, remained neutral in the fighting between Syrian troops and Maronite Christian militiamen. But Armenian neighborhoods in predominantly Maronite East Beirut were among the hardest hit.

About 90 killed and more than 500 wounded were reported in the Armenian community in the 10 days of Syrian-Christian conflict before the cease-fire Saturday. Some of the Armenians openly blamed the Christian militiamen, as well as the Syrians.

Because one Armenian enclave, in the Bourj Hamoud district, is built on marshland, its residents did not have the basement shelters that afforded some protection in other parts of East

"We had to organize quickly and find interior shelters on the ground floor," said a spokesman for the Armenian Tashnag Party, which runs the district. "We put most of our top-floor residents in schools, which are more strongly constructed here than other buildings.

The northeastern suburb of Dora also was hard hit. "Fires were so bad that some people were incinerated in their cars as they were trying to escape," said John Sarkissian, a local

Tashnag Party officials, anxious not to make relations with the militias any worse, played down assertions of damage by militia guns. But other Armenians were less tactful.

One old woman, sweeping broken glass from the doorstep of her apartment, blamed "the Kataeb," the Arabic name for the Christian Phalange Party militia.

Suspicions between the two Chris-

menians' refusal to join the Maronites in the 1975-76 civil war against the leftist Lebanese Moslems and their Palestinian allies.

The Armenians defend their neutrality, saying they lost too many sons in the previous civil war in 1958. Armenians are particularly sensitive to survival since the Ottoman Turks massacred an estimated 1.5 million

Armenians between 1894 and 1915. Maronite extremists freely admit their anger. They say the Armenians enjoyed the fruits of the Maronite domination of Lebanon for nearly 60 years and they should have fought to preserve them.

"While we were spilling blood, they were making money," said one spokesman for former President Camille Chamoun's National Liberal

The Armenians deny they profited from the civil war. They say they suffered more than 500 fatalities and provided medical care, rescue services and shelter for both Christians and Moslems.

MC trustees eye Chapparal Center's use

Midland College trustees are expected to rule on the future use of the Chapparal Center for the Shrine Circus at their regular meeting Tues-

Board members also are scheduled to review the food service concession contract for the center at the 4 p.m.

Reports on the success of the community service classes and total enrollment figures also will be presented to the board at the meeting.

Six Basin counties gain wildcat testers

Six Permian Basin areas have drawn wildcat projects.

MGF Oil Corp. of Midland spotted its No. 1 Santa Fe Railway as a 5,100-foot wildcat in Lea County, N. M., nine miles southeast of Crossroads.

The project is 760 feet from north and east lines of section 13-10s-36e. Ground elevation is 3,979 feet.

The drillsite is three and threeeighths miles northeast of the Dickison (San Andres) field and one location eqst of a 5,010-foot dry hole.

RUNNELS PROJECTS

SECTION

W. W. West of Midland staked a Runnels County wildcat and announced plans to fre-enter another project and test it as a wildcat.

The new project is No. 4 H. F. Bredemeyer, 2.5 miles northwest of

It is 2,140 feet from north and 1,850 feet from east lines of section 73,

block 63, HT&B survey.

The site is one mile east of the Fennell (Breckenridge, Cisco reef, Goen, King sand) field. It is scheduled to 4,700 feet for tests of the King sand.

W. W. West will re-enter a west offset to the Morris gas discovery of the P.W.C. multipay field and deepen to 4,000 feet for wildcat tests.

The project is No. 2 J. L. Hoffman, one mile northeast of Benoit and 910 feet from north and 1,660 feet from east lines of section 161, ETRR survey. It was abandoned in 1966 at total depth of 2,411 feet.

MCCULLOCH WILDCATS

A trio of wildcats have been announced for McCulloch County. Cook's Producing Co. of Goldwaithe

will drill two 1,600-foot wildcats five miles west of Fife.

No. 1 R. L. Jones if 406.8 feet from south and 342.3 feet from west lines of section 91, H&TC survey, abstract 650. Elevation is 1,445 feet.

Cook's No. 2 Jones is 1/2 mile east of No. 1 and 355.6 feet from suth and 2,689.7 feet from west lines of section 91, H&TC survey, abstract 650. Elevation is 1.445 feet.

The projects are one and one-quarter miles southeast of the Walker-Grant (Strawn gas) field and se-parated from it by a 1,576-foot dry

Esperanza Energy Corp. will drill No. 1 Nowlin as a 1,350-foot wildcat in McCulloch County, 14 miles north of

It 330 feet from south and 410 feet from west lines of F. Roccius survey No. 589, abstract 1179. Elevation at

ground level is 1,505 feet. The site is one location east of the only well in the Byrd (Strawn oil)

SCHLEICHER TEST

Esperanza Energy Corp. also spotted location for a 7,500-foot wildcat in Schleicher County, 13 miles northwest

It is No. 1 Lux, 660 feet from north and 1,980 feet from east lines of section 52, block TT, TCRR survey.

The test is one-half mile southwest of the nine-well Velrex (upper Hen-derson oil) pool. The field also produces from the Canyon and Cisco. The upper Henderson pay in the field has no producers at the present time. The elevation is 2,511 feet.

CROCKETT EXPLORER

Dan J. Harrison Jr. of Houston announced location for a 9,000-foot wildcat in Crockett County, 16miles west of Ozona.

It will be dug as No. 2-30-30 University, 1/2 mile southwest of his No. 3-30-30- University, active wildcat one location southeast of the depleted Howard's Creek (Canyon gas) pool.

The location is ,1650 feet from north and 1,980 feet from west lines of section 30, block 30, University Lands survey. The elevation is 2,356 feet.

CONCHO TESTER

E. L. Smith III of Dallas spotted his No. 1 Sansom Cattle Co. as a 1,500-foot wildcat in Conch County.

The explorer is one location west of the depleted Sansom Ranch (1,300 oil) field and 3.5 miles west of Millers-

The location is 330 feet from north and 1,650 feet from west lines of F. Schfrader survey No. 337. Ground elevation is 1,751.4 feet.

John L. Cox of Midland No. 1-C Halff Estate has beem completed 1/2 mile southeast of a three and onequarter-mile west extension to the Spraberry Trend Area of Upton Coun-

On 24-hour potential test it pumped 77 barrels of oil and 27 barrels of water, through perforations from 6,-952 to 8,339 feet. Gas-oil ratio is 740-

Location is 1,320 feet from north and west lines of sectidon 55, block Y, TCRR survey, 15 miles north of Ran-

Cox No. 1 Langford was completed one mile north of production in the Spraberry Trend Area field of Upton County, 15 miles northeast of Ran-

It finaled for a daily pumping potential of 48 barrels of oil a24 barrels of water, through perforations from 7,202 to 8,652 feet after 130,000 gallons of fracture solution. Gas-oil ratio is

Total depth is 8,680 feet and 4,5-inch casing is cemented on bottom.

Cox will drill No. 1 H. F. Neal one and three-eighths miles southeast of Spraberry Trend Area production in Upton County.

It is 1,320 feet from north and west lines of section 5, block A, EL&RR survey. It is slated for an 8,700-foot

Cox also will drill No. 1-37 Langford one mile north of Spraberry Trend Area production. It is 1,320 feet from south and east lines of section 37, block C, CCSD&RGNG survey. It also will drill to 8,700 feet.

UPTON DEEPENING

Frank Cass of Dallas plans gto redenter and deepen to 8,700 feet for tests of the Dean zone in No. 4-21 Proctor, former Reagan County Spraberry Trend Area well. If successful, the well will be assigned to the Calvin (Dean) field. Location is 1,320 feet from south and east lines of section 21, block 37, T-4-S, T&P survey.

REAGAN PROJECTS

Hanley Co. of Midland spotted a pair of Spraberry Trend Area projects in Reagan County.

No. 1-58-18-A University is 1/2 mile west of production and 1,980 feet from north and 660 feet from east lines of section 18, block 58, University Lands

No. 1-58-18-B University is 5/8 mile southwest of production and 1,980 feet from north and west lines of section 18, block 58, University Lands sur-

Scheduled for 8,100-foot bottom. they are seven miles north of Texon.

Ike Loveladly of Midland No. 1 Iowa Realty Trust hass been completed as the fifth Wichita-Albany gas well in the Lehn Apco, South field of Pecos County, 11 miles south of Imperial.

It completed for a calculated, absolute open flow potential of 2,133,000 cubic feet of gas per day, with a gas-liquid ratio of 152,083-1.

Completion was through perforations from 4,441 to 4,596 feet after 3,000 gallons of acid.

Location is 660 feet from northeast and 1,980 feet from northwest lines of section 67, block 10, H&GN survey.

NOLAN OILER

Alvin C. Hope Jr. of Abilene No. 3 Arthur S. Frymire, a former Ellenburger well, has been recompleted as a Canyon sand gas production, 1/2 mile northeast of production from that zone in the Lake Trammell, West multipay field of Nolan County.

The well finaled for a daily flowing potential of 105 barrels of 40-gravity oil through a 10/64-inch choke and perforations from 6,702 to 6,712 feet.

Location is 2,025 feet from south and 1,050 feet from west lines of section 80. block 22, T&P survey.

Midland Spraberry tests staked, complete

MWJ Producing Co. of Midland No. 1-A O'Brien is to be drilled as an 8.600-foot operation in the Spraberry Trend Area field of Midland County, 16 miles east of Midland.

It is 1,320 feet from north and east lines of section 44, block 36, T-2-S, T&P survey.

Texaco Inc. also announced a Spraberry Trend Area Project.

It is a plugging back operation seven miles northeast of Midland in Midland County and will be operated as No. 1-T Midland Fee.

Location is 1,100 feet from south and 1,388 feet from east lines of sec-

> Classified Advertising Dial 682-6222

tion 31, block 37, T-1-S, T&P survey. It will plug back to 9,700 feet. It is a former Bend producer.

Parker & Parsley, Inc., of Midland No. 1-C Snyder is a new well in the Midland County Spraberry Trend

It finaled for a daily pumping potential of 49 barrels of 40-gravity oil and 98 barrels of water, through perfora-tions from 7,267 to 8,145 feet. Gas-oil ratio is 1,286-1.

Total depth is 8,950 feet and 4/5-inch casing is set on bottom. The plugged back depth is 8,666 feet.

Location is 1,485 feet from south and 1,555 feet from west lines of section 25, block 37, T&P survey and 9.5 miles northeast of Midland.

Wagner & Brown of Midland announed location for an 8,400-foot project in the Conger (Pennsylvanian) field of Sterling County. It is No. 2-15 Bade, 660 feet from north and west lines of section 15,

block 22, H&TC survey and 10 miles west of Sterling City.

Injunction refused

HOUSTON (AP) - District Judge Arthur Lesher has refused to grant a temporary injuntion against Superior Oil Co., accused by Mobil Oil Corp. of pirating Mobil employes along with trade secrets.

Lesher ordered Superior, however, to turn over materials that originated at Mobil but now are in the hands of former Mobil employes working for Superior.

The judge said Wednesday that notes gathered by B.A. Thomas, head of Superior's Neptune Oil Co. in Isreal, and L.F. Burson, an explorationist for Superior, would be kept in sealed containers pending any further action in the suit.

Thomas and Burson testified they had had taken notes on oil and gas land sales from Mobil to

Lesher had been asked to enjoin Superior from luring Mobil employes to their company in order to obtain confidential Mobil industry information.

Mobil said in a prepared statement that while the court did order the return of documents taken by two former employes "we are surprised the court did not restrain Superior from continuing its past actions until such time as the complaint can be head by the trial court."

Mobil said the ruling "does not change plans to proceed to the trial court on the merits of the case."

Thomas McDade, a Mobil lawyer, said testimony showed two men had worked for both companies on a scheduled sale of offshore leases near Puerto

McDade said Mobil doesn't want former Mobil employes now working for Superior working on the same projects at Superior that they worked on at Philip Jonn, a Superior attor-

ney, said Lesher's ruling was a

victory and "vindication of the charges made against these people and the company." John argued the employes left

Mobil because they were offered better job opportunities. "It's not a raid when people come to us and say, 'I read your ad and I want a job,'" John

OPEC firm on request

VIENNA, Austria (AP) - Oil cartel officials wound up a three-day seminar Wednesday firm in a demand for help from industrial countries to develop their own petroleum refining industries. But the exporters set no deadline for carrying out a threat to cut back oil supplies if they don't get cooperation.

The call for a joint approach and a dialogue between crude oil suppliers and consumers was made by Kuwaiti Oil Minister Ali Khalifa al-Sabah at the end of the seminar on "downstream operations," or the manufacture of finished petroleum products. organized by the Organization of Petroleum Exporting Countries.

Members of OPEC are unhappy that such operations and marketing are dominated by industrialized nations. OPEC claivs that efforts by member countries to diversify into refining and petrochemical industries are being discouraged, and even obstructed, by the developed nations.

Sabah, who presided at the seminar attended by OPEC officials, oil industry executives and other experts from 35 nations, said if this attitude continues, OPEC may be forced to tie the quantity of crude oil supplied to industrialized countries directly to the quantity of finished products OPEC is able to sell in those countries.

Sabah did not specify any particular country and did not mention any specific cases of obstruction. He said producing countries do not want "to remain residual suppliers of raw ma-

'They look at the problem of downstream operations from the standpoint of technology acquisition and a greater measure of knowhow, employment, long term economic balance, especially external payment balances. In other words, the producers investing in downstream operations are considered to be instrumental in speeding up the process of structural diversification of their economies and enhanced capital ac-

cumulation of their nations." Sabah said that as far as penetration of markets by OPEC members was concerned, "they cannot dissociate the market penetration for their products from their considerable weight as the major supplier of crude oil. This means that ultimately the oil producers may be confronted with linking the exports of products to their exports of crude oil.

"We have been seeking cooperation for a long time," he said, but "not even lip service was paid. Now there is an opportunity. If we waste it, and if development plans are frustrated, not us, the decision-makers, but conditions in our countries would dictate that we take a more aggressive approach. This is the nature of the

House leaders trying to merge bill facets

By TOM RAUM

WASHINGTON (AP) - House leaders are trying to merge a tax on fuel-wasting cars and tax credits for home insulation with other parts of President Carter's energy program on the theory that the larger the package, the better its chance of pas-

The House Rules Committee scheduled a meeting today to consider putting the fragmented energy plan back in one piece.

Consolidation would set up a final House vote Friday on the remnants of the program Carter submitted in April 1977 as "the moral equivalent of

However, opponents of the controversial section calling for natural gas deregulation by 1985 are vowing an all-out fight, saying they want separate votes on each of the five compromise bills submitted by conference

committees. There also was a question on whether the final part of the plan - calling for higher taxes on gas-wasting autos and lower taxes for homeowners who upgrade the insulation of their homes can make it to the House in time to be included in the package.

The energy-tax legislation emerged from a House-Senate conference committee on Wednesday. Senate action on it was expected sometime

Leaders first planned to bring it before the full Senate on Wednesday, but senators representing auto-making states threatened a filibuster unless changes were made.

That sent negotiators back to the conference room to modify the proposal to make it more palatable to the auto industry and its allies in Con-

The proposed compromise tax on big, uneconomical cars would start on 1980 models instead of 1978 models as once proposed by Carter.

It would add at least \$200 to the sticker price of 1980 cars getting less than 15 miles per gallon. The tax would escalate in yearly steps to a maximum tax in 1986 of \$3,850 on cars getting less than 12.5 mpg.

Borden gets wildcat site

A wildcat operation has been staked in Borden County by Cotton Petrole-

um Corp. of Midland. It is No. 1 Good and will be drilled seven miles northeast of Vealmoor and 1.980 feet from north and 660 feet from east lines of section 4, block 32,

T-3-N. T&P survey. It is one location south of production in the Good (middle Clear Fork)

GULF WELL

Gulf Oil Corp. No. 1-QK State has been completed in the Caprito (middle Delaware) fiel - 3 Ward County. Operator reported a daily pumping potential of 12 barrels of oil and 89 barrels of water, through perforatins from 5,001 to 5,011 feet after 9,000 gallons of acid.

Gravity of the oil is 37.6 degrees and the gas-oil ratio is 1,417-1. Location is 1,980 feet from north and west lines of section 22, block 17,

University Lands survey.

LYNN PROJECT Grand Banks Energy Co. of Midland No. 1 W. G. Lumsden will be drilled as a 10,500-foot project in Lynn County, one location south of the two0well Tahioka (Pennsylvanian)

Location is 467 feet from north and 2,1173 feet from east lines of section 143, block 12, EL&RR survey and 14 miles northwest of Tahoka.

CROCKETT WELL

Shell Oil Co. No. 2-B Forristall has been completes as the sixth Wolfcamp well in the Tippett, West multipay field of Crockett County.

One mile est of other production, it finaled for a daily potential of 2 9 barrresl of 37.6-gravity oil, plus 183 barrels of water, through a one-inch opening and perforations from 5,465 to 5,927 feet. Gas-liquid ratio is 13,440-

Location is 5,812 feet from northeast and 440 feet from northwest lines of section 31, block 31, H&TC survey. A fre-entry project, it originally was drilled to 6,310 feet. It was a lower Leonard oil producer.

The location is 10 miles southeast of

Crude spill reported

EL PASO, Texas (AP) - Fire officials kept some families from their homes throughout the night while workers cleaned up about 40,000 gallons of spilled gasoline on the city's sparsely-populated east side.
Chief M.L. Coleman estimated

about 200 persons were evacuated, but only the residents living nearest a million-gallon tank at a Texaco refinery were not allowed to return home. The spill from one tank into a ditch containing the large tank was reported about 8 p.m. Monday.

The last-minute modifications sought by automakers resulted in conferees agreeing to make the mileage thresholds about 1 mpg more lenient than under their original proposal, which covered for model years 1983-

The tax is the only one of four taxes Carter included in his April 1977 energy program to survive. The crude oil tax, which Carter once called the centerpiece of his energy program, as well as proposed taxes on gasoline and industrial uses of oil and natural

The energy-tax compromise reached Wednesday also contains tax credits of up to \$300 for home insulation and storm doors and windows and up to \$2,200 for solar energy.

House leaders contend that these politically popular credits would "sweeten" the energy program, enhancing chances for passage.

Senate critics of the energy plan have hinted they may use delaying tactics to try to keep the energy-tax bill from passing the Senate in time to be combined in the House with other

Land bill passage prospects get better

WASHINGTON (AP) - Prospects of passage for the Alaska lands bill, President Carter's top environmental priority, are picking up, although suc-

cess is far from assured. Sen. Henry Jackson, D-Wash., Senate manager of the bill, is predicting a compromise version can be put together in time for passage before Congress' scheduled adjournment

And Sen. Mike Gravel, D-Alaska, said Wednesday he could be convinced by fellow Alaskans to drop plans to kill the legislation through parliamentary maneuvers.
Gravel said, "I can let a bill pass this year or I can stop anything from

passing. It is only fair in the light of this situation to involve as many Alaskans as possible in my deci-Gravel's Alaska colleague, Republican Sen. Ted Stevens, is working with Jackson and key House mem-

bers to arrive at a compromise that

could be passed in the Senate, sent

quickly to the House and on to President Carter. "We're close," Jackson told a re-

But without Gravel's cooperation it would be impossible to bring any compromise to the floor. Gravel feels that a bill more favorable to Alaskans

can be passed next year. Nevertheless, Gravel said he will step aside and let Stevens and the others work for a compromise, if that

is the will of Alaskans. Both the bill approved by the Senate Energy Committee and the version passed by the House would set aside at least 100 million acres of federal land in Alaska as national parks and other conservation areas.

Conservationists and House managers of the legislation say the Senate committee bill leaves too much of the conservation land open for mining, logging and hunting.

The incentive for Stevens and Alaska in passing a bill this year is that it would transfer to state control 75 million acres of land promised under the law which admitted the state to the union in 1959.

Industry groups prefer the Senate bill, claiming it would be less harmful to development in the resource-rich

A tiny IBM memory chip is dwarfed by the three fingertips holding it at the firm's General Technology Division lab near Burlington, Vt. Representing new technology, the chip is the densest ever produced by IBM and can hold up to 64,000 individual pieces of information for use by the firm's 8100 Information System. (AP Laserphoto)

For rent to ghost: House, gloomy attic

PITTSBURGH (AP) - What are the chances that a ghost will take a liking to your home on Halloween night and decide to move in?

According to Alan Van Dine, author of "Unconventional Builders," many people who believe in ghosts think architecture can make a difference. "For instance, some people believe

that features such as balconies, long stairways, attics without windows, big basements, towers, clocks or chimneys are open invitations to ghosts," sáys Van Dine. "Other features are thought to repel them," adds the 45-year-old au-

thor, who discusses these ghostly

preferences in the chapter, "Designs

for the Haunted House." It was originally one of 17 narratives in a series called "Tangents," conceived by Koppers for the building design profession and subsequently published as a book. "Ghosts are believed to hate mirrors," he points out. "When confront-

ed by one, the ghost vanishes - some say because it is terrified by its own reflection. So a house with a mirror on every wall would be ghostproof." A house surrounded by a moat is also thought to be safe, because the

majority of ghosts can't - or won't cross the water. However, a rival faction of ghostbelievers discounts the architectural attract-or-repel theory. They say a ghost simply haunts the place where he left traumatic unfinished business such as death or a crime, reports

Van Dine. Some of the more infamous ghost houses in this category include:

- The U.S. Military Academy at West Point, N.Y. There, the ghost of a 19th-century maid is said to rumple the bedclothes in the superintendent's mansion. And, a woman who died in a nearby house is said to frighten guests by floating in through an upstairs window.

- The Tower of London, with a violent 800-year history of murders and executions is also said to be haunted. According to report, two of its recurrent supernatural visitors are two wives of Henry VIII. - Once occupied by Toronto's first

mayor, the William Lyon MacKenzie Homestead in Canada is allegedly the home of rowdy ghosts who tramp the steps and pound the piano. - In addition to unexplained boot-

steps heard in the Ford Theater, where John Wilkes Booth shot Lincoln, other evidence suggests ghosts. A Matthew Brady photograph of the empty theater the day after Lincoln's assassination shows an eerie transparent figure close to the president's

According to Van Dine, the heir to the Winchester Rifle fortune was one of the strongest believers in the power of architecture to attract or repel ghosts. Fearing a problem with vengeful ghosts (the victims of the repeating rifle), Sarah P. Winchester set out to create a house that would attract friendly ghosts and repel hostile ones.

"Through a spiritualist," says Van Dine, "she was told that she would be safe as long as builders were busy providing accommodations for friendly spirits."

In 38 years, the Winchester House

near San Jose, Calif., was worked on and added to continuously until it became a \$5-million, 700-room house. As the story goes, Sarah not only kept construction going, but she let the ghosts design the house them-

selves - the building plans were received each evening in a seance. "Unfortunately, the ghosts turned out to be very demanding and untrained. Their plans included intersecting balconies, lots of chimneys for their entrances and exits, 47 fireplaces, bell towers, and a floor made

of seven kinds of hardwood," says Van Dine. "When Mrs. Winchester died in 1922, it took six weeks just to move the furniture - partly because the movers got lost in the labyrinth of

Father clings to faint hope

SEATTLE (AP) - Bill Wilson won't believe that his mountainclimber son died in a North Cascades crevasse, and he intends to take what he calls a "10 percent long shot" to

after he flew here from his Denver home Tuesday. "I know his capability of staying alive," he said of his 25year-old son, Lloyd. But officials say Lloyd is dead, the victim of a 400-to-500-foot fall during a descent of 8,815-foot Forbidden Peak.

"I am going in there," said Wilson

Officials say his fellow climber, Dave Hedrick, also died in the fall Sunday. "I told him there was no hope, Skagit County Coroner Colin Verner Two other climbers, Pat Millegan

and Michael Eastburn, told authorities they saw young Wilson and Hedrick fall from about the 8,100-foot level. But the two other climbers could not reach the men, so they hiked for some 18 hours to notify author-

A Navy helicopter found the fallen men in a crevasse about 7,600 feet up on the northeast side of the mountain, officials said. A Navy nurse, lowered from the helicopter, got within 10 feet of young Wilson and Hedrick and determined they were dead, said John Jensen, manager of the North Cascades National Park's Skagit Dis-
