Just another 'nursery' story about geese

By JULES LOH

IDLAND

BRICK TOWN, N.J. (AP) - Dare to swipe a shrub from Vincent Dvorak, brother, and your goose is cooked. If you don't believe it, take a gander at what he's got guarding his nursery.

Geese "I can tell you this," Dvorak said, "they have put a stop to the pilfering

and vandalism.' Why not? If honking geese could save Rome from marauding Gauls * creeping in at night they ought to be able to protect a mere nursery, but Dvorak said that wasn't what gave him the idea.

"A wine merchant told my grandfather, who is in the liquor business, that some of the wineries in upstate New York use geese to watch over their premises," Dvorak said. "My father and I decided to give it a try. Nothing else seemed to work.

'We have six acres here. As you can see, except for the fence out front, it's wide open

"For several years we had trouble with people stealing supplies from the back - bales of peat moss, topsoil, even shrubs. There was nothing to

stop them. "We tried dogs. We had a succession of German shepherds, three or four at different times. They weren't at all satisfactory.

"The dogs had to be chained, of course, and were effective only the length of the chain. Also, we were afraid they might really hurt somebody. Watchdogs are not pets. Besides, dogs are messy and require a good deal of care.

"Geese turned out to be the perfect answer.

"They roam around the place, summer and winter, and need no shelter. They have their down jackets, you see. All they need is a little corn and a kiddie pool to splash around in. And they do the job."

My, yes. They do the job, all right, and anyone who has been the direct object of a wild goose chase can understand why. Slip up unexpectedly on those eight rascals and the whole nursery, it

seems, explodes in the wildest flapping and honking and hissing you ever beheld, truly frightening, all eight of the blamed things coming at you at once with fire in their eyes.

That racket, in turn, sets the guinea hens to shrieking and the Rhode Is-land Reds to cackling and the Polich roosters to crowing, all of which

mightily disturbs Remus, the black billygoat, who goes bucking around his pen butting errant chickens and acting crazy.

Oh, no, geese are not the only critters at Dvorak's nursery, but all the others are there for fun. The watch geese mean business.

"We started with a pair of African geese," Dvorak said. "Those are the ones with the black bills and brown breasts. They weigh about 50 pounds and have a wingspread of about five feet.

"The white and brown ones are Chinese geese. The all-white ones are plain old domestic geese. None of them fly, although they can glide low over the ground and cover a considerable distance in a hurry. "When my father went on vacation he left three of them, the African

geese, to watch his house. Nobody bothered it.

"I don't think geese could injure anyone badly. Their beaks are like little vises, though. They do hurt. Once they drove off two stray dogs that had got into the henhouse, a German shepherd and an Irish setter. Ran them off yelping.

"They're not afraid of anything."

Almost 200 perish in Indonesian jet crash

COLOMBO, Sri Lanka (AP) -Nearly 200 Indonesian pilgrims en route home from Mecca were believed killed in the crash of a chartered Icelandic airliner while landing at the Colombo airport in a severe thunderstorm.

Hospital spokesmen said there were more than 60 survivors.

The DC-8 jetliner was to refuel and then fly on to Surabaya, the capital of East Java. It crashed about a mile short of the airport runway just before midnight Wednesday, plowed up 400 yards of coconut plantation, broke into three sections and burst into flames

Icelandic Airlines said there were 246 passengers and 13 crew members

"It passes all understanding how

anybody at all could have come out alive after a wreck like that," said one official, surveying the quarteracre of charred and twisted debris.

Many of the survivors walked from the crash site to the airport on this island nation off the tip of India. Amublances took them to a nearby air force hospital or to the Ngumbo Hospital, about 20 miles to the north. One of the survivors, newspaper editor Mas Abi Karsa, said the pilot was being guided down by the airport's control tower and apparently miscalculated and missed the landing

Investigators were searching for the plane's flight recorder, the "black box" in hopes of getting clues to what

The plane broke into three sections.

Rescue workers cut through the wreckage to free bodies. Many were still strapped in the seats.

Two of the plane's four engines were torn off and hurled far from the impact site. Brightly-colored Moslem prayer rugs, other belongings and bodies littered the area.

The plane was chartered by Garuda Indonesian Airlines in October to carry Moslems from East Java to Saudi Arabia for a month's pilgrimage to Mecca and Medina, Islam's holiest shrines. Some 70,000 Indonesians are making the pilgrimage this year.

Four years ago, 194 Indonesian pilgrims returning from Mecca were killed when their chartered plane

crashed in Sri Lanka.

Egyptian President Anwar Sadat declares that the peace talks with Israel have reached a serious crisis. In a speech to university professors and students in the Suez Canal city of Ismailia, Sadat

raised the possibility of a suspension of the talks to allow both sides to reconsider their positions. (AP Laserphoto)

Israeli response awaited

WASHINGTON (AP) - President Carter awaited an Egyptian response today to a proposed American compromise for clearing a major hurdle to a peace treaty with Israel.

President Anwar Sadat's response on how to deal with the Palestinian issue was being delivered to the White House by Hosni Mubarak, the Egyptian vice president.

On Wednesday, Sadat said the peace talks are facing a "serious

crisis" and suggested a suspension might be needed while both sides think things over.

Meanwhile, the Israeli cabinet delayed its consideration of the latest U.S. proposal, waiting for the Egyptian presentation to Carter. The president had urged Israel not to take a final position on the American proposal until he had heard from Egypt.

The American compromise offer deals with several unsettled issues, including the link between the talks and future discussions on the fate of Palestinians on the West Bank of the Jordan River and in the Gaza Strip. Sadat, in remarks to university

professors and students, said "we have gone a long way at the Washington talks and have achieved 90 percent of the road."

But he added that the dispussions "are at a serious crisis and if we can avoid it in order to achieve the remaining 10 percent by suspending the talks for a while to allow the parties to think again and then resume, so be

He neither elaborated nor referred to the response Mubarak was carrying to Carter. The vice president arrived late Wednesday but said nothing to reporters about the response.

Informed Egyptian sources, requesting anonymity, said the Cairo government had formulated new proposals in hopes of avoiding a complete deadlock in the peace talks.

The sources, noting Israel's rejection of Cairo's linkage demands, said Sadat was trying to limit initial discussions to the Gaza issue, leaving the West Bank for later.

One Egyptian source said, "It is less emotional for them than for the West Bank. It would be easier to implement steps in Gaza than in the West Bank."

The U.S. ambassador to Israel, Samuel Lewis, spoke with Prime Minister Menachem Begin and said afterward that "there is no crisis."

Begin, announcing the delay of the cabinet review originally set Wednesday, told reporters that, "according to the latest reports received, Egypt is about to submit new proposals and demands related to the negotiations between the two countries. These reports are not yet official and complete.

"In view of this fact, the cabinet decided to hold the political debate after it has received all the necessary

Jury hears disputed Davis tapes

caused the crash.

By MIKE COCHRAN

aboard.

HOUSTON (AP) - "I have got the money," the voice on the tape recording reports. "He has got the gun. I have to drive to the front ... so he won't get suspicious..

With that disclosure, FBI informant David McCrory ended a videotaped encounter Aug. 20 with Fort Worth millionaire Cullen Davis, 45.

Minutes later, FBI agents seized Davis with a silencer-equipped pistol and recovered \$25,000 from McCrory which they said was earmarked for a phantom "hit man."

A sound-over-film reproduction of that pivotal meeting is the trump card in the state's case against Davis for allegedly masterminding a bizarre muder for hire scheme.

The darkly handsome oilman-in-

One-time mayor dies

degree in geology.

his office until 1975.

J.W. McMillen, 75, of 1810 W. College Ave., a Midland mayor during the 1950s, died today in a Midland hospital following a lengthy illness. Services are pending with Newnie W. Ellis Funeral Home.

McMillen was born April 27, 1903, in Indian Territory, Oklahoma. He was reared in Ponca City, Okla., and attended school there. He was graduat-

ed from the School of Mines of the University of Wisconsin in 1908 with a dustrialist is accused of soliciting the capital murder of Fort Worth Judge Joe Eidson, the presiding jurist in Davis' divorce case.

Davis contends he was framed by a vindictive wife and others, including McCrory. The Aug. 20 tape is from the second of two recorded parking lot meetings between Davis and McCrory, a one-time pool-shooting friend and employee and now the state's key witness.

McCrory, 40, was wired for sound on both occasions. Jurors heard the first tape Wednesday along with three recorded telephone conversations in which the Aug. 20 encounter was arranged between the accused and the accuser.

According to the transcripts of the tapes, there was a cryptic exchange between the two at 2:49 a.m. that day,

He became associated with Mar-

land Oil Co. at Ponca City for a few

years before moving in 1932 to Mid-

land. He and Fred Wright formed the

Wright and McMillen Petroleum Geo-

logists firm. They operated that firm

until 1968, when McMillen became an

independent geologist. He maintained

just minutes after Davis and his girlfriend returned home from a Dallas Cowboys football game.

McCrory: "...need to uh, see you. Uh, he's finished with the job and he's wanting to get out of here."

Davis: "Oh ... I have it - how how do I know?"

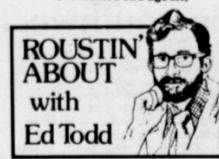

McCrory: "I got the proof. That's no sweat.

Davis: "... all that information is down at the office."

The state contends the "information" was an allusion to the payoff money for the hit man hired to kill Edison

According to the tape, McCrory arranged a meeting at 9 a.m. that Sunday morning, saying: "Cullen, for God sake's, don't leave me hung out

Delays in peace talks

continue

(Continued from Page 1A)

clarifications concerning the additional positions of Egypt," he added. Last week, Egypt demanded the treaty include specific Israeli commitments to establish a Palestinian authority on the West Bank and in the Gaza Strip.

Israel wants to keep the treaty with Egypt separate from negotiations over the 1.1 million Palestinians living in the territories. Just before Egypt posed its demands, Israel had tried to loosen the connection between the two sets of negotiations.

Faced with a deadlock, the Carter administration made its move.

The U.S. proposal involves the treaty's preamble as well as letters to be included in the treaty "package." The substance of the American compromise remains secret.

The dispute has slowed negotiations to the point that there is virtually no chance of completing the treaty by Sunday, the first anniversary of Sadat's dramatic visit to Jerusalem to offer peace to Israel.

At one time, the first anniversary was an unofficial target date. Carter urged the Israeli cabinet delay in a meeting Tuesday with Israeli Defense Minister Ezer Weiz-

man, who had earlier conferred with Zbigniew Brzezinski, head of the U.S. National Security Council staff. U.S. officials insist the negotiations

are not in a state of suspension. George Sherman, an administration spokesman, cited Carter's meeting with Weizman and lower-level military negotiations.

Unsettled issues apart from the Palestinian question include the level and kind of U.S. aid to Israel to help implement the treaty, details of Israel's transfer of Sinai offshore oil fields to Egypt and some aspects of the Israeli desert withdrawal.

Ending two days of talks with Carter Wednesday, King Hassan of Morocco predicted Egypt and Israel will overcome their difficulties and sign a treaty eventually.

Clouds should begin to clear

AFL-CIO claims Carter refused to review anti-inflation plan

By OWEN ULLMANN

WASHINGTON (AP) - An angry AFL-CIO is charging that President Carter, breaking his only campaign promise to the labor federation, refused George Meany's request to talk over Carter's anti-inflation program a few days before its formal unveil-

The AFL-CIO president had tried repeatedly without success since late summer for a meeting with Carter to discuss Meany's objections to the plan's voluntary wage and price guidelines, AFL-CIO sources said Wednesday.

Carter's refusal incensed Meany, said the sources who asked to remain anonymous. The 14-million member federation's executive council subsequently rejected the program as unfair to workers and called for mandatory wage-price controls

Administration officials said a personal meeting was unnecessary and could not be scheduled. One official, noting frequent reports about Carter and Meany not mixing well personally, said the AFL-CIO would not have changed its position had the two men

with seven presidents, dating back to Harry S. Truman.

Two years ago, the AFL-CIO was revelling over the election of a Democratic president it had helped to victory. Last week, the 84-year-old Meany was reviling Carter, calling him the most conservative president since Calvin Coolidge.

Meany's last request for a meeting was made Thursday, Oct. 19, five days before Carter announced his program in a televised address. Meany had specifically asked to meet before the program was announczd.

Carter turned down the request on Oct. 20, citing a tight schedule that included a long weekend at Camp David, the nearby presidential mountain retreat, the AFL-CIO sources said

An administration source confirmed that account. He said Carter's aides had been consulting regularly with the AFL-CIO on the program and that the president, weary from campaigning and anxious to rest, felt a personal meeting would be unproductive.

White House spokeswoman Claudia Townsend said Wednesday that she

charge of a broken campaign prom-ise, she replied, "The administration and the White House have consulted with the AFL-CIO during the development of the inflation program don't think anyone could deny that the president has been in touch with them.

It is understood that Meany wanted the meeting to extract a firm pledge from Carter that his anti-inflation program would succeed in holding down prices.

Labor sources said the AFL-CIO might have endorsed the program had Meany won such a pledge.

Between August and the unveiling of the anti-inflation program, a team of officials including Labor Secretary Ray Marshall met several times with Meany and other labor leaders to discuss the emerging program and to elicit organized labor's support.

The AFL-CIO said Meany asked at those meetings for an opportunity to talk with Carter in person about the program, which sets a 7 percent limit on annual wage and fringe benefit increases and a less specific limit on price increases.

Meany's concern has been that the

Winds and seas higher near scattered showers and thunderstorms today and tonight.

Two bodies discovered in southwest Colorado

PAGOSA SPRINGS, Colo. (AP) -Two bodies discovered in southwestern Colorado are believed to be those of a young Texas couple who disappeared more than three months ago while honeymooning on a camping trip, authorities say.

'They have some pretty positive identification. We're glad they're found. It's over as far as we're concerned," said John Judge, brother of 23-year-old James Judge who disappeared Aug. 8 with his wife of less than one week, Jeanette.

Sue Beasley, a spokeswoman for the Archulete County Sheriff's Department, said Wednesday the bodies were found about 11:00 a.m. She would not provide any more details.

But Jeanette Judge's father, F.H. Davis, said in Borger, Texas, that he had been told the bodies "did show gunshot wounds."

The Judges' van was used on Aug.

"I'll guarantee you," said the en-thusiastic Cook, "there's more bow hunters" in Midland than you could cover a wall with. There's a bunch. His aim is to organize something called the Midland Archery Associa-

And it's a bit ironic that Cook, who

says he's not particularly fond of stacked committees and padded orga-nization, is himself getting into this organizational thing. But, so he says, its seems to be necessary in order to

get a archery range going. Nevertheless, he's inviting bows-men and tenderfoots to drop by for a

"We might shoot a little," he said.

.

11 by two escaped Arizona convicts, Randy Greenawalt and Gary Tison to crash a police roadblock near Casa Grande, Ariz., some 380 miles southwest of here.

Tison, 42, and Greenawalt, 29, escaped from the Arizona State Prison on July 31. They were aided by Tison's three sons, Donald, 20, Rick, 18, and Raymond, 19, who held guards hostage in the visitors' center with guns apparently smuggled into the prison in an ice chest.

In Durango, Colo., District Attorney Craig Westberg said the Judge deaths were being classified as homicides and he expected to file murder and kidnapping charges against three members of the Tison gang, who still are alive and being held by Arizona authorities.

The gang was also suspected of killing four members of a Yuma, Ariz., family near Quartzsite, Ariz., on Aug. 2. The bodies of John Lyons, 24; his wife, Donnelda, 24; and son, Christopher, 22 months; were found four days later by a game warden. The body of a niece, Teresa Tyson, 15, was found several days later. She apparently had crawled some distance away.

The five men allegedly used the Lyons' car to travel to Flagstaff, Ariz., and New Mexico and finally to the South Fork, Colo., area, where they are believed to have obtained the Judge's van.

An extensive manhunt followed, ending in the gang's attempt to run the roadblock near Casa Grande in a hail of bullets.

Donald Tison was killed by the gun-fire, and Greenawalt and the two other sons were captured. The de-composed body of Gary Tison was found 11 days later under bushes in the desert, about a mile from the

The overcast, which has lingered in the Midland area all week, should begin clearing later today.

And with the cloud dissipation will come the end of today's 20 percent chance of showers. By Friday, the area may experience a 15- to 20-degree rise in the day's maximum temperature reading.

A fairly constant misty drizzle overnight put .02 inch of water in the rain gauge at the weather bureau. That moisture increases the month's total to 2.18 inches and brings the rainfall this year to date to 17 inches, which is almost 3.5 inches above the normal rainfall for the year.

Up to .05 inch rain fell over Midland and Odessa during the night.

Spraberry, southeast of Midland, recorded .03 inch, reported Texas Electric Service Co. Monahans, well to the west, reported a trace.

Most of the area from Garden City to Andrews and Stanton to Rankin reported mist, drizzle and chilly weather this morning.

Crane received some Wednesday night rain. Today's temperature high was to be

in the mid-40s, and tonight's low is to drop to the mid-30s, said the weatherman

The high Friday is expected to be near 60 degrees.

Winds tonight should be light and variable.

Light snow fell in the Texas Panhandle early today and forecasters warned of possible flash flooding in Northeast Texas, mainly around the Dallas-Fort Worth metroplex.

The flash flood watch covered most of Northeast Texas and most of Southeast Texas.

Most areas of the state had precipitation in some form during the night and forecasts called for most of the snow, sleet, freezing drizzle and rain to start ending from the west during the afternoon with the last activity in Northeast Texas expected to end by Friday morning.

Snow was falling on a base of frozen sleet in the Amarillo area, causing hazardous driving conditions.

Parade entries still accepted

It's not too late to enter a float in the eighth anual Midland Christmas Parade scheduld for 10 a.m. Dec. 9. Entrants in the non-commercial float category will be competing for \$1,500 prize money. The theme of this year's parade is "Santa Comes to the Oil Patch."

The parade will begin at the intersection of Whitney Drive and Andrews Highway. It then will proceed down Andrews Highway, turn east on Wall Street and go towards the downtown area.

Entry deadline is Dec. 1. A \$5 entry fee is required. More information may be obtained from the Midland Chamber of Com-

nerce.

The administration source, who did not want to be quoted by name, said, "It's no secret that there's not perfect chemistry between Carter and Meany." He added that past meetings between the two "all turned out unsa-

tisfactory. "If the AFL-CIO knew the program in advance and if positions on it were already locked, it (a meeting) would have been a bust, anyway," the administration official said.

But one Meany aide charged Wednesday that "Carter broke the only campaign promise he ever made to us: 'Anytime you have a problem, come see me."

"No Democratic president has ever not seen us," added the aide, who declined to be identified.

In the 26 years that he has headed the AFL and later the AFL-CIO, Meany has worked - and tangled -

No evidence of Ray payoff discovered

WASHINGTON (AP) - House investigators say they have found no evidence that James Earl Ray was a paid triggerman in a conspiracy to assassinate Dr. Martin Luther King

Chief Counsel G. Robert Blakey told the House Assassinations Committee Wednesday that Ray conceivably could have been part of such a conspiracy - but if he was there is no evidence he got his money

"The fact is that a lot of triggermen carry out a contract and then don't get paid for it," Blakey said.

Blakey's investigators concluded instead that Ray probably financed his escape from Memphis, Tenn., to Europe after King's assassination April 4, 1968, with money from a

\$27,000 bank robbery. He said they found no payoff stashed in any bank or with any of

Ray's relatives or associates. And if Ray had been paid off, Bla-key said, he would not likely have risked robbing a bank in London when he was wanted worldwide for King's murder. Investigators say Ray robbed a London bank just before he was arrested June 8, 1968.

Ray pleaded guilty to King's killing and is now serving a 99-year prison sentence. He recanted his plea almost immediately after making it and now

Ray tentatively had been scheduled to testify today but the committee voted not to call him and canceled today's meeting on grounds the cost

Former Assistant Deputy Chief Counsel Michael Eberhardt, who resigned in protest of Ray not being called back, said he thinks some com-mittee members were "intimidated"

could not reach Carter to confirm that sequence of events.

Asked about the federation's

program would succeed in holding down worker wages but not rising prices, profits or interest rates.

Do you remember South Dakota bombing?

MADISON, S.D. (AP) - If you remember when the Japanese bombed South Dakota in World War II, John Peterson wants te talk to you.

Peterson is a University of Minnesota student researching the bombings, which occurred in 1945.

The Japanese launched ballons with fire bombs attached, hoping air currents would bring them over U.S. airspace and they would explode in western forests. The plan was partially successful.

Only one of the bombs which floated into the country actually killed anyone. That was in Oregon where a bomb stuck in a tree. It exploded and killed six persons who were wondering what it was.

On May 26, 1945, one fire bomb exploded at Wolsey, S.D.

Others dropped down near Madison, Red Elm, Marcus, Ree Heights, Nowling, Kadoka and Buffalo. Almost 300 were found across the nation, according to Peterson's studies

One bomb which fell at Madison was identified as a 5-KG candle-type incendiary bomb.

The information was kept quiet by defense officials at the time, and only in the last few years has the information been released. Robert Mickesh, an Air Force major, wrote an article for the Smithsonian Institute listing the locations of the fallen bombs

"It was kept pretty hush-hush in 1945, because the armed forces didn't want to start a panic," Peterson explained.

THE MIDLAND REPORTER-TELEGRAM, THURS., NOV. 16, 1978

DEATHS

Louis J. Odom

SPRINGHILL, La. - Services for Louis Jack Odom, 57, of Taylor, Ark., the father of several Midlanders, were Friday in Bailey Mortuary here with the Rev. William R. Craighead officiating. Burial was in Welcome Cemetery near Springhill.

Odom died Nov. 8 in a Springhill, La., hospital after a short illness. He lived in Odessa from 1950 to

1971. Odom was the father of Louis Jack

Odom Jr. of Lamesa and Linda Robinson, Brenda Burger and Donna Rhodes, all of Midland.

Other survivors include his wife, two sons, four daughters, four brothers, five sisters and eight grandchildren.

ABILENE - Services for Mrs. J.W. (Vida) Long. 88, of Abilene, a Midland resident 21 years, were to be at 1 p.m. today in the Elliot-Hamil Funeral Home here with burial in Elmwood Memorial Park.

Mrs. Long died Tuesday night in an Abilene hospital following a lengthy illness.

She was born Aug. 20, 1890, in Winters. She was a member of the St. Luke's United Methodist Church in Midland. Mrs. Long was married to John Walter Long Jan. 8, 1910. Survivors include two sons, J.W.

Worth: a daughter, Frances Henderson of Midland; three brothers, Ed Kendall of Abilene, Arthur Kendall of San Angelo and P.L. Kendall of Tuscola; three sisters, Mrs. Frank Fain of Duncanville, Mrs. Claude Robertson of Abilene and Laura Fisher of California, three grandchildren and

Long of Abilene and W.C. Long of Fort

Margaret Rees

five great-grandchildren.

BIG LAKE - Services for Margaret Holland Rees, 75, of Big Lake will be at 40:30 a.m. Friday in the First United Methodist Church here with burial to follow in Glen Rest Cemetery.

Johnson's Funeral Home of San Angelo is handling arrangements. Mrs. Rees died in a Big Lake hospi-

tal Tuesday. She was born Sept. 18, 1903, in Junction. She married Horace Rees Aug. 6, 1925, in Junction. Mrs. Rees had been a Big Lake resident since 1924. She was a member of the First United Methodist Church of Big Lake.

Survivors include her husband: two sons, Tommy Rees of Colorado City and Horace B. Rees Jr. of Duggoway, Utah; a brother, Ray Holland of Junction; a sister, Merle Hamilton of Sonora, six grandchildren and three great grandchildren.

Pallbearers will include Wes Pitman and Stanley Erskine, both of Midland, Roy Adams, R.L. McKinney and Tommy Hayes, all of Big Lake.

Economic expert warns of recession

WASHINGTON (AP) — The man in charge of the government's battle against inflation warns that "if inflation accelerates, there will be a breakdown of the economy — a deep depression.'

"Recession is too soft a word to describe the consequences," Alfred Kahn, chairman of the Council on Wage and Price Stability, told a group of retail store owners Wednesday.

Kahn said mandatory wage and price controls are the only alternatives to President Carter's anti-inflation program, but he added: "The public won't accept them and they won't work. I wouldn't be a party to them. I will not take a job running

them." Kahn said the problem is that "we must stop demanding more income when we know the economy can't

deliver it. That's what inflation is.' He said the administration "will be rigorously inflexible in meeting our objectives of (voluntary) wage and price controls." But he said "we must assure union leaders and others that we are being even-handed.

Kahn said he was considering seeking removal of some federal controls on the trucking industry and added that the administration has "floated the idea" of seeking to cut back planned increases in the federal minimum wage. "We will look at it seriously," he said.

JA Trade Fair scheduled Saturday

Young people selling everything from decorative matches to lamps with built-in electric meters will be in Winwood Mall Saturday.

The Junior Achievement Trade Fair will continue all day at the mall. Junior Achievement companies run by high school students throughple the free enterprise system through actual experience.

Each company raises capital through stock sales, buys raw materials and manufactures a product, sells the product, pays salaries and commissions to the employees and dividends to stockholders.

Sleep tight, but don't let the bed bugs bite

PALMDALE, Calif. (AP) - Sandy Duvall and husband Frank don't just hop into bed each night. They perform a little ritual first: shake out the bedclothes, keep the sheets and blankets off the floor, push the bed away from the wall.

It's a bothersome routine, but if neglected one night, it's possible Mrs. Duvall, 35, might never see the morning. As if in some recurring nightmare, Mrs. Duvall lives in terror in her own house.

Her enemy is a tiny insect with the harmless-sounding nickname, "kissing bug." She is so allergic to the bug's bite, which is harmless to most people, that a bite could prove fatal. She fears her "days are numbered" because the major supplier of the antigen that combats the bug's poisons may soon quit manufacturing the substance.

Mrs. Duvall's life-and-death flight from the small, black blood-sucking "kissing bug," which has the scientific name Triatoma Protracta, began in 1971.

"I was in bed reading the Sunday paper when I felt something bite me on the thumb," she recalls. "By the time Frank had returned from the bathroom with the spray, I was itching all over - my ears, my mouth, even my insides.

"My face was splotching, my throat was swelling and I could hardly breathe. I was burning up. But I didn't associate any of this with the bite. I thought it was because of something I had eaten."

Duvall rushed his wife to a hospital, where a doctor, thinking Mrs. Duvall had been bitten by a spider, gave her an injection. The symptoms eased.

When the Duvalls returned home, they found the bug in the sheets and took it to an insect expert, who identified it as a kissing bug.

Since then, Mrs. Duvall has protected herself with monthly injections of an antigen made from the bugs

1411 N. Lamesa Rd.

themselves and supplied to her by Dr. Raymond Ryckmann of the microbiology department of Loma Linda University. The antigen builds up a resistance to the bites.

However, research money that enabled Ryckmann to collect the bugs, freeze them alive and produce the life-saving antigen, has run out.

"As far as I know, I am the only one supplying them (the bugs)," Ryckmann said Wednesday. He says it's a lot of work to maintain colonies of both the bugs and rabbits, which supply blood for the insects. The bugs, he said, have only a six-month life

"My supply will.last only until next October," says Mrs. Duvall. "My doctor says after that, a sting could be fatal.

Ryckmann says he will resume collecting the bugs and manufacturing antigen as soon as he gets more money

Their physician, Dr. Alan Greenfield, says the bug "is kind of endemic to the Antalope Valley and San Joaquin Valley (of California). It isn't generally found east of the Rock-

Mrs. Duvall lives the life of a

woman on the run. They can't move from Calfornia because Duvall is allergic to weather extremes.

They are trying to outsmart the bug by trimming their lawn back because the bug likes to hide out there, they've gotten rid of their dog because dogs are sometimes carriers, and they've adopted five cats to keep away rats, which are also carriers.

And they perform their ritual every night.

"Some days I cry about the whole thing," Mrs. Duvall says. "I can't believe my entire life is at the mercy of a bug.'

Kampiles denies selling manual

HAMMOND, Ind. (AP) - Former CIA clerk William Kampiles said at his espionage trial that he convinced a Soviet official named "Michael" that he could steal classified documents at will but denied he actually sold him a top-secret satellite manual in Greece.

Kampiles, 23, testified at his federal court trial Wednesday that he passed no information to the official he identified several times only as "Michael.

The government has accused him of stealing a copy of a technical manual for the KH-11 satellite surveillance system, which monitors foreign troop and equipment movements by photographing them from outer space. The government said he sold the manual to a Soviet embassy official during a trip to Greece earlier this year.

Kampiles, who had worked for the CIA from March to November 1977, said he was in Athens in February and March visiting relatives, and that he had four meetings with "Michael.

He said he convinced the official he still worked for the CIA, that he had

access to top-secret material and that he would steal it for the Soviets.

The defense contends that Kampiles, who held a low-ranking post with the agency, hoped the CIA would rehire him as a double agent if he fooled the Russians into thinking he was on their side

Throughout the trial, questions have been raised about the CIA's internal security.

Defense attorney Michael Monico read a letter Wednesday from Theodore Anderson, acting chief of the special security center of the CIA. The letter, dated Nov. 1, 1978, and addressed to the director of security. says 16 of 349 copies of the satellite manual are unaccounted for, including 13 assigned to the CIA.

Mead's death 'great human loss'

By KEVIN MCKEAN

NEW YORK (AP) — The walking staff which supported her tireless, inquisitive march between the world's simplest societies and its most complex lay propped near the hospital bed when Margaret Mead died.

"It was in a corner, waiting for her to get up and use it," said Dr. Rhoda Metraux, a friend and associate for 36 years.

years. The famous American anthropologist and outspoken advocate of human tolerance died Wednesday after a year-long struggle against cancer of the pancreas. She was 76.

A memorial service was scheduled Friday at Columbia University with private funeral and burial at an undisclosed time in Buckingham, Pa.

Miss Mead's black, lacquered staff, which was often mistaken for a tribal token, was a traditional British walking stick known as a thumb-stick. She began carrying one in 1960, when a doctor advised her to use a cane after an ankle injury. She said she adopted the stick rather than be forced to stoop.

The injury healed but the staff remained, giving Miss Mead's short, rotund, often robed figure a Biblical air. Sometimes, she would wave it at meetings to gain the floor.

It was Oct. 2 when Miss Mead abandoned the tower office she had occupied for 52 years at the American Museum of Natural History here to

Manson parole hearing today

VACAVILLE, Calif. (AP) — Mass murderer Charles Manson gets his first parole hearing today, but authorities were not sure if he would be there.

"He indicated at first that he wasn't going to appear," says Bill Heise, a spokesman for the California Medical Facility at Vacaville. "More recently he has said, 'Oh, I guess maybe I'll go."

"He's very unpredictable," says Heise. "He may get to the board room and he may not."

Prison officials have said that Manson spends most of his time alone in his cell, drawing on the walls.

Manson, who was 44 last Sunday, was convicted of nine murders including the seven notorious Tate-La-Bianca killings of 1969.

The judge who sentenced him to life in prison in two of the murders said that Manson should never be released. State law requires that prisoners sentenced to life in prison be granted a bearing after

enter New York Hospital. A niece, Madeline Lee, said she

talked, wrote and read avidly until only a few days before her death. Miss Mead was unconscious on the morning of her death, said Ms. Metraux, a research associate at the museum and among those at her deathbed. But at the moment of death, she smiled, she said.

death, she smiled, she said. "It was as if she knew where she was going and it was where she wanted to go," said Ms. Metraux, who, as an anthropology student during World War II, belonged to the first of three generations of young people to come under Miss Mead's influence.

"It was a very gentle and quiet smile so that you felt very sad. But also — I'm sorry this seems a little sentimental — as if she had at the end of the illness returned to us from a far country and said goodbye," she said in a telephone interview.

At the White House, President Carter issued a statement saying Miss Mead's life was "impressively full and productive."

At the moment of death, Miss Mead smiled.

"It was as if she knew where she was going and it was where she wanted to go. It was a very gentle and quiet smile so that you felt sad — as if she had at the end of her illness returned from a far country and said goodbye. can't," she told an interviewer that year. "It's all one world, there are no islands anymore."

She married three anthropologists and divorced them all, joking later that her marriages were "endogamous," an anthropological term meaning sticking to one's own clan.

But Miss Mead, a devout Episcopalian, was an ardent supporter of family life and kept touch with her family. She was especially close to her only child, Mary Catherine Bateson Kassarjian, born in 1939, the daughter of her third husband, British anthropologist Gregory Bateson.

Mrs. Kassarjian, dean of social science at Rexa Shah Kabir University in Iran, visited her mother in the hospital several weeks ago but could not return for her last days because of the unrest in Iran, Ms. Lee said.

Other survivors include Mrs. Kassarjian's daughter, Sevanne, and a sister, Elizabeth, of Cambridge, Mass.

At her death, Miss Mead was working on an article "scolding" the United States for being one of only four countries in the world which have not converted to the metric system, Ms. Metraux said.

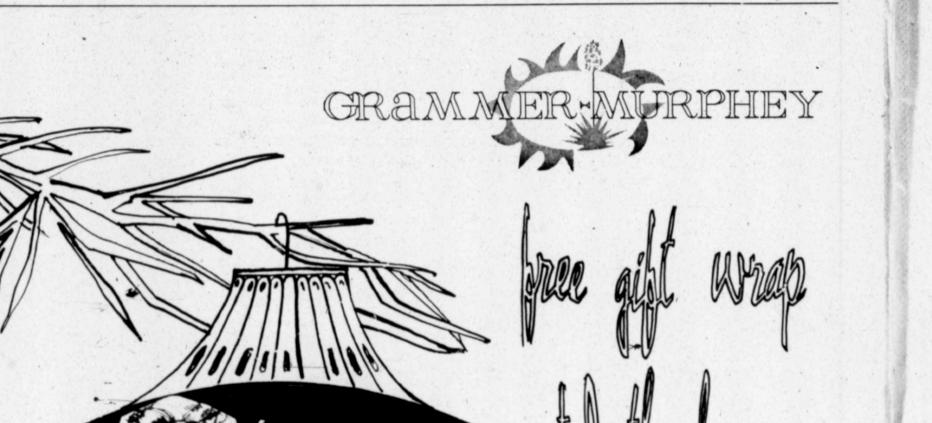

She also was talking about setting up small research centers where information and articles on a single culture could be collected. "It grew out of her perception that

the field materials on very small societies could be important to the problems one faces in a very large society," Ms. Metraux said.

AAUW For ERA ERA ERA

Margaret Mead

tenced to life in prison be granted a hearing after serving seven years of a sentence.

The short, dark-haired Manson, who often displayed a hypnotic stare, traveled across California in the late 1960s inducing young people to join a cult.

At his highly publicized trial in 1970, Manson followers told how Manson programmed their thoughts with the use of LSD and other drugs.

Manson "family" members said they vowed to follow Manson's orders — even when they involved murder.

Testimony in the trials of Manson and several followers showed that he ordered or participated in the killings of nine persons: actress Sharon Tate, coffee heiress Abigail Folger, hairdresser Jay Sebring, Polish moviemaker Voityck Frykowski, Stephen Parent, musician Gary Hinman, stuntman Donald "Shorty" Shea, and Leno and Rosemary LaBianca.

Last month, the Community Release Board refused parole bids of Bruce Davis and Charles "Tex" Watson — both Manson followers — citing the "unusually vicious" nature of the Manson-ordered killings they committed.

Watson, a former honor student who became Manson's chief lieutenant, burst into tears as he testified before the parole board.

"I was an animal," he said.

Manson has never publicly acknowledged his guilt. In a statement last summer, he said, "I got in trouble for going through changes, for cutting people, for shooting people — not because I wanted to, but because I was forced to."

Social climbing course teaches 'chutzpa' methods

WASHINGTON (AP) - Want to be mentioned in a gossip column? Crash an embassy party? Or learn the fine art of name dropping?

PAGE 4C

Then there's a course here just for you.

Called "The Washington Connection," its subject is social climbing. And Rozanne Weissman, the Cleveland-born instructor, says she has taught 18 classes since last January to about 400 students.

"I found that I was meeting a lot of people who were reading about the glittery Washington social life and knew nothing about it, even though they lived here," said Ms. Weissman, 36, a free-lance writer and public relations woman who has lived in Washington for 11 years.

Ms. Weissman teaches the threehour, \$9 course, sponsored by the

Testimony conflicting in McInnnis murder trial

EDINBURG, Texas (AP)-Three Villanueva in Reynosa days of lengthy testimony in pretrial motions here have left conflicting stories concerning a murder plot purportedly hatched by suspended Hidalgo County District Attorney Oscar McInnis.

The longtime South Texas prosecutor is named in an indictment alleging he plotted to have a friend's ex-hus-band kidnapped and killed. The murder solicitation charge carries a possible 20-year prison term and \$10,000 fine.

The hearing ended Wednesday when State District Judge Vernon Harville of Corpus Christi postponed ruling on two key requests from the defense team. Defense attorney Frank Maloney of Austin argued here for dismissal of the charge on the grounds that McInnis was entrapped.

Harville asked the attorneys to submit briefs concerning the entrapment question and a defense motion to suppress secretly compiled tape recordings. Harville postponed ruling on the motions pending the filing of the briefs. The judge did rule on one motion-denying a state change of venue request.

In final arguments here Wednesday, attorneys for the defense and prosecution disagreed on who initiated the alleged plot to have Noe Villanueva lured into Mexico and killed.

Maloney argued that McInnis was entrapped-the helpless victim of a trap set in part by a vindictive local sheriff.

"The question is who solicited whom," Maloney said.

Prisoner Daniel Rodriquez-the prisoner who says he went to Hidalgo County Sheriff Brig Marmolejo after McInnis approached him about finding a hit man-testified here that he first suggested to McInnis that they get someone to "blow (Villanueva's) brains out."

But Rodriguez said the suggestion was offered "jokingly."

But Maloney argued that a tape made when Villanueva called Miss Parada from a Houston FBI office shows that Villanueva suggested Revnosa for the meeting. Hinton countered by saying Villanueva had suggested several Rio Grande Valley cities before Miss Parada agreed on the Mexican border city.

The three days of testimony included a parade of criminals and lawyers on the witness stand. Villanueva testified that McInnis had harassed him in the past.

The emotional witness said McInnis maliciously prosecuted him for violating court child custody orders. The district attortney had also represented Miss Parada in the child custody battle.

Villanueva's testimony-marked by outbursts of sobbing-was the first to include statements about what sources close to the prosecution say is the purported motive.

Villanueva said he heard a "rumor" that McInnis was dating Patricia Parada-Villanueva's exwife. Miss Parada, 24, of McAllen had been named in a dismissed federal indictment stemming from the alleged plot.

Another witness said she had seen McInnis and Miss Parada at a Reynosa restaurant. The witness testified McInnis and the woman were seated together at a table and eating.

Health agency to select officers

Selection of new officers for 1979 should highlight the agenda when the Permian Basin Health System Agency Governing Body meets at 7: 30 p.m. Monday in the West Texas Education Center at Midland Regional Airport. Draft of the revised Health Systems.

Plan for 1979-1984 and Annual Implementation Plan for 1979-1980 will be

city's Open University, in an overheated second-story classroom wedged between a pizzeria and dry cleaner not far from the zoo. Calypso music from a dance studio next door blares in the background.

"To make it in this town, you need chutzpa — gutsiness. No social climber has made it in this town without that quality," Ms. Weissman told her students, including a gray-haired Air Force instructor new in town, a computer analyst from suburban Virginia who wante to be invited to the White House and a nurse who dreams of being invited to a party at the Washington Post.

Bob Barr, 36, a bearded safety specialist with the Coast Guard, took notes. "The gutsiest thing I ever did in Washington was join the ski club," he said. "This course sounded interesting.'

To make it on the embassy circuit, Ms. Weissman advises: "Forget Great Britain and France. Go to the smaller embassies. Say you're in-

terested in visiting their country, and do they have any activities you could attend.'

On crashing an embassy party: "If you look nice, chances are they won't mind.... Ambassadors don't like to pay all this money for appearances and not have a full-house. Sometimes crashers end up on invitation lists if they are good conversationalists."

Ms. Weissman said secrets to crashing other parties include: -Go later in the evening when no

one is checking invitations.

-Go in a side entrance.

-Whiz past the front desk and say you have an important message for Senator So-and-So

-Hold a glass in your hand and back in the door, so when you turn around, you'll look as though you've been there awhile.

And most important, dress appropriately, preferably designer dresses for women, three-piece suits for men. "I don't want to see any man who has taken my class appear anywhere in a

social pages to find out where the stars hang out. Then go to an event and telephone the gossip columnist with tidbits.

outfit.

Call often and you may get men-tioned too, she said. "All Elizabeth Taylor has to do is sneeze to be in, but you have to do more."

leisure suit," said Ms. Weissman, who

was wearing a two-piece gray wool

To be mentioned in a gossip column,

Ms. Weissman suggests reading the

Ms. Weissman also suggests students learn the art of "negative name-dropping — like saying, 'I had Julia Child for dinner and dropped the souffle.' That way they'll know you had someone important over but feel you're making fun of yourself."

The class listened attentively as Ms. Weissman recounted how she managed to meet Robert Redford and what she said to Henry Kissinger at a party. "I picked a Senate campaign Robert Redford was doing some work on," she said. "Then I kept running

into him at the Madison Hotel coffee shop.'

As for Kissinger, she told him she had a ceramic piece of pottery shaped like him. "I said that I hoped he stayed in the news so my pot would appreciate in value."

Ms. Weissman recalled a unique experience she had at the White House when she was invited there once in connection with her job with an educational association. "I fainted in the rose garden and ended up in the

Asked how many of the social climbing techniques have worked for her, Ms. Weissman said, "I've been to a lot of embassy parties, but I think they're a drag. But I started giving the course because there is a need to know how this town operates so people don't have any illusions, whether

Is she a regular on the social circuit?

"I work three jobs. Who has time to run around to parties?" she said.

Trial ordered in caged prisoner case

ATOKA, Okla. (AP) - A 31-year-old Atoka welder was ordered Wednesday to stand trial after being accused of shooting at a teen-ager who testified he was kept prisoner in a cage with three bobcats last month

But District Judge John Lawson withheld a decision on whether John Williams will face trial on a kidnapping charge. He also is charged with assault with a deadly weapon with intent to kill.

David O. Hall, 25, an employee of the Oklahoma Corrections Department, also is accused in the alleged abduction of 17-year-old Jerry Lewis Atkin-

"I huddled in a corner with a blanket ... I couldn't move or they'd growl," Atkinson testified Wednesday of the alleged 36-hour ordeal involving the bobcats

The youth testified he was seized when he stopped his car near an Atoka service station by Williams on Oct. 1 and was driven to a welding shop south of town where he was thrown into the cage.

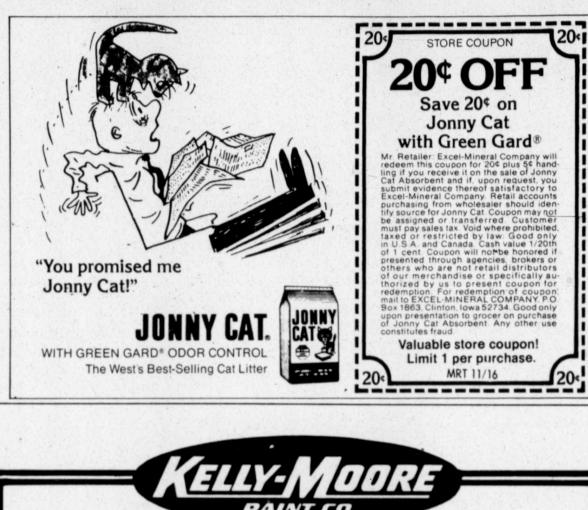

He said Williams accused him of "ripping off his house" and promised punishment until certain stolen goods were returned.

He said during the night of Oct. 1 someone fired a gun at him in the cage, but conceded he couldn't be sure who pulled the trigger.

Atkinson said he was bound when put into the cage, but managed to cut himself free with a small knife that was in his pocket.

He testified that while he was in the cage, about 50 feet from Williams' welding shop, he saw at least five persons at various times. But he said he was afraid to call out to them and ask for help because he feared they might be friends of his abductor.

Finally, he said, he asked a person who happened by for help and a short time later, Sheriff Cecil Frazier and an Oklahoma Highway Patrol trooper

hammed Reza Pahlavi.

WASHINGTON — Despite the near certainty of an inflationary rise in world oil prices next year, President Carter plans to push for an increase in American oil prices, the president told the Los Angeles Times Wednes-

The expected increase in world prices, coupled with an increase in domestic prices to world market levels, could raise gasoline pump prices 10 cents a gallon or more, federal officials estimate, and higher petroleum costs would ripple through almost every corner of the U.S. economy

Carter, in an exclusive interview, said it is his "present intention" to send Congress à controversial crude oil tax measure that would gradually raise domestic prices to world market levels. The tax proposal, after months of skirmishing, was deleted by Congress earlier this year before it passed other elements of the president's energy program.

"There may be some modification of it because of congressional action and more recent experience," Carter said, "but I intend to fulfill, as time goes on, the major parts of the proposal, which do include increasing the price of domestic oil."

Carter, answering questions on a wide range of domestic and foreign topics during a 30-minute interview in

Lubbock well potentials

Fort Worth Production Co. No. 1-A W. T. Wynn is a new well in the West (Clear Fork) pool of Lubbock County, three miles south of Shallowater.

Operator reported a daily pumping potential of 42 barrels of 25-gravity oil and six barrels of water, through perforations opposite the Clear Fork from 5,582 to 5,650 feet.

Gas-oil ratio is too small to measure.

The pay section was acidized with 12,000 gallons.

The Cross Cut was topped at 1,706 feet on ground elevation of 1,506 feet. Other tops include the Caddo at 1,974, the Marble Falls at 2,163 and the Ellenburger at 2,380 feet.

Location is 467 feet from north and west lines of Bronaugh Brothers survey No. 4, abstract 1623.

The operator has suggested Wallope Creek; Doole, Northeast or Guice as the name of the new field.

CONFIRMATION WELL

Blair No. 3 Guice, one location north of the discovery, was completed for a calculated, absolute open flow potential of 5.091,000 cubic feet of dry gas per day, through perforations from 1,710 to 1,718 feet after 2,000 gallons of acid and 10,000 gallons of fracture solution.

Total depth is 1,779 feet and 4.5-inch casing is set on bottom. The plugged back depth is 1,723 feet.

Location is 467 feet from south and west lines of Peter Knopp survey No. 832, abstract 1294.

Operator called the following tops on ground elevation os 1,512 feet: Coleman Junction 370, Home Creek 1,136, Ranger 1,230 and Cross Cut 1708 feet.

OFFSETS STAKED

Blair spotted two offsets to the new field area. No. 1 L. Deakins is one location west of the No. 1 Guice and 467 feet from south and east lines of secton 1, H&TC survey, abstract 601. It will drill to 1,700 feet. Elevation is 1.527 feet.

Blair No. 2 L. Deakins is 467 feet from the north and east lines of section 1303, F. J. Leyendecker survey, abstract 918. Contract depth is 1,800 feet

EDDY RE-ENTRY

Yates Petroleum Corp. of Artesia, N. M., announced plans to re-enter a 568-foot dry hole originally drilled by Holly Energy Corp. as No. 2-23 Holly-Federal in Eddy County, five miles southeast of Lakewood.

Yates will deepen to 700 feet as a wildcat.

It will be operated as No. 1-KD **Yagtes-Holly**

Location is 660 feet from north and 660 feet from east lines of section 23-20s-26e.

CHAVES WELL

Depco, Inc., of Odessa No. 1 R&S-Federal Communitized has been completed in the Buffalo Valley (Pennsylvanian) area of Chaves County.

Operator reported a calculated, absolute open flow potential of 38,300,000 cubic feet of gas per day, through perforations from 8,936 to 8,939 feet, from 8,943 to 8,950 feet and from 8,952 to 8,966 feet.

Total depth is 9,186 feet and 4.5-inch casing is set on bottom.

The well is 1,980 feet from south and 900 feet from west lines of section

10

Wellsite is 1,980 feet from south and 1,320 feet from west lines of section 67. block OW, R. Maxwell survey.

STERLING WELL

Wagner & Brown of Midland No. 1-11 Reynolds is a new well in the Conger (Pennsylvanian) field of Sterling County, nine miles southwest of Sterling City.

On 24-hour potential test it pumped 70 barrels of 47-gravity oil and 20 barrels of water, through perforations from 7,044 to 7,788 feet (three sets), after a total fracture job of 100,000 gallons.

The hole was drilled to 8,025 feet and plugged back to 7,828 feet, with 5.5-inch casing set on bottom.

Location is 660 feet from south and east lines of section 11, block 22, H&TC survey.

EDWARDS PRODUCER

Amoco Production Co. No. 15 Stanley F. Mayfield has been completed as a new well in the Sawyer (Canyon) field of Edwards County.

The well, extending production one mile northeast, was completed for a calculated, absolute open flow poten-tial of 800,000 cubic feet of gas per day, through perforations from 2,916 to 3,150 feet after 3,000 gallons of acid.

Location is 1,100 feet from south and 9,000 feet from west lines of S. P. Blackwell survey No. 3, abstract 1956 and 17 miles northwest of Rocksprings.

SUTTON WELL

Amoco also completed its No. 12-D E. S. Mayer as a location west offset to the Sutton County portion of the Whitehead (Strawn) field.

It finaled for a calculated, absolute open flow potential of 94,000 cubic feet of gas per day, through perforations from 7,753 to 7,958 feet. The pay was acidized with 600 gallons. Location is 933 feet from north and

4.654 feet from west lines of McMullen County School Land survey No. 4, abstract 503.

CONCHO TEST

Southern Union Exploration Co. of Dallas announced location for a south offset to its No. 1 M. W. Stasney, discovery well of the Fuzzy Creek (Goen oil) field of Concho County, five miles northeast of Paint Rock.

Slated for a 3,600-foot bottom, it is 5,660 feet from north and 467 feet from east lines of Moor survey No. 27, abstract 607. It will be drilled as No. 2 M. W. Stasney.

tion 6, block O, G&MMB&A survey.

RANK PROJECT

east of Wickett.

Tejas Production Co. of Houston spotted location for a rank wildcat in Mitchell County, 14 miles south of Colorado.

It is No. 1 C. C. Franklin, 2,182 feet from south and 99 feet from east lines of I. L. Ellwood survey No. 1-A, abstract 281.

Contract depth is 7,300 feet.

SCHLEICHER TRY

J. Cleo Thompson of Dallas No. 4 Rousselot is to be drilled as a 9,000foot wildcat in Schleicher County, 16 miles northeast of Ozona.

Location is 1,320 feet from north and east lines of section 14, block EF. GC&SF survey and 1/2 mile west of the Ozona, Northeast (7800 Canyon) field.

IRION WILDCAT

Simpson-Mann Oil Producers of San Angelo No. 1-26Reva K. McMillan is a 1,600-foot wildcat in Irion County, five miles southreast of Mertzon.

It is 990 feet from north and 1,140 feet from west lines of J. L. Foster survey no. 26. Ground elevation is 2,570 feet.

The site is 5/8 mile northwest of the MIM (San Angelo oil) field but separated from it by a 1,446-foot dry hole

RUNNELS TRY

Hamco Explortion & Development Co. of Dallas announced sites for a pair of 4,000-foot wildcats in Runnles County, seven miles northeast of Ballinger.

No. 1 Spreen is 467 feet from north and 2,335 feet from west lines of section 159, ETRR survey. It is 3/4 mile northeast of the depleted Byers, South field.

No. 2 Spreen is 1,400 feet from north and 3,269 feet from west lines of section 159, ETRR survey.

DRY HOLES

CONCHO COUNTY

Karma of San Angelo No. 1 Hartgrove, wildcat, 1,100 feet from south and 467 feet from east lines of E.D. Miller survey No. 12, two miles north of Millersview, td 3,350 feet.

CROCKETT COUNTY

Exxon Corp. No. 1-ED State University, wildcat, 2,200 feet from north and 1,400 feet from west lines of section 30, block 40, University Lands survey, six miles southeast of Barnhart, td 9,007 feet.

ECTOR COUNTY John L. Cox No. 1 Sallie Ratliff, wildcat, 660 feet from north and east lines of section 11, block 42, T-1-S, T&P survey, 13 miles north of Odessa, td 13,490 feet.

GAINES COUNTY

Mobil Oil Corp. No. 1 Thomas J. McDonnell, wildcat, 1,980 feet from north and east lines of section 125, block G, WTRR survey, six miles northeast of Seminole, td 5,515 feet.

Florida Gas Exploration Co. No. 1-8 Florence Read, Joahoma, N. (Fussleman) field, 660 feet from south and 960 feet from east lines of section 8, block 30, 7-1-N, &P survey, 13 miles northeast of Big Spring, td 9,000

MITCHELL COUNTY MGF Oil Corp. No. 1 Blassingame, wildcat, 660 feet from north and 1,860 feet from west lines of section 11, block 28, TAP survey, five miles northeast of Colorado City, td 7,635 feet.

YOAKUM COUNTY G.W. Brock, Inc. No. 1 Palmer-Fitzgerald, wildcat, 1,990 feet from north and east lines of section 375, block D, John H. Gibson survey, four and one-half miles mertheast of Plains, td 5,420 feet.

Reagan gets three tests

Three projects have been announced in Reagan County. Saxon Oil Co. of Midland No. 1-9-10-

A University is to be drilled as a 7,600-foot operation in the Spraberry Trend area field, eight miles north of Big Lake.

It is 1,295 feet from south and 1,320 feet from east lines of section 9, block 10, University Lands survey.

Way & Mills of Midland No. 2-15 University is a new 2,700-foot project in the Farmer (San Andres) field of Reagan County, eight miles southeast of Big Lake.

The site is 890 feet from north and 330 feet from east lines of section 15, block 49, University Lands survey. Costa Resources, Inc., of Dallas announced it will re-enter and deepen an old Spraberry well from 6,410 feet to 8,400 feet for completion attempt in

the Calvin (Dean) field. It is No. 1 E. B. Gidney, 660 feet from south and 1,993 feet from east lines of section 37, block 36, T-5-S,

T&P survey and 18 miles southwest of

Upton well potentials

Garden City.

Mobil Oil Corp. No. 2509 Pegasus Spraberry Unit, a re-entry project in the Pegasus multipay field of Upton County, has been completed from the Spraberry.

The operator reported a daily pumping potential of 63 barrels of oil and 183 barrels of water, through perforations from 7,610 to 8,002 feet after 7,500 gallons of acid and 100,000 gallons of fracture solution.

Gravity of the oil is 34.3 and the gas-oil ratio is 302-1.

The well, formerly a Pennsylvanian producer, is bottomed at 10,365 feet and plugged back to 8,180 feet. Location is 1,980 feet from north

and 669 feet from west lines of section 42, block 40, T-4-S, T&P survey, abstract 765 and 18 miles southeast of Odessa.

Increase reported

political prisoners

By KENNETH L. WHITING

JAKARTA, Indonesia (AP) - Little by little, the Indonesian government is opening prison doors to political detainees linked to a communist coup attempt 13 years ago - in the days of President Sukarno.

Thousands of others await reclassification or trial. The official timetable calls for the release of all of them by the end of 1979.

There is no indication they will include former Foreign Minister Subandrio, 64, one of the leading figures of the time. He was condemned to death in 1966 but the sentence never was carried out.

Gen. Yoga Sugama, chief of staff of Kopkamtib, the internal order and security command, said recently 14,-234 prisoners are still held.

About 4,500 prisoners are scheduled to be freed in December. Officials say 1,324 more were released last month and 3,921 earlier in the year.

Among those still in custody are some of Indonesia's better known writers, poets, educators, journalists, film directors and intellectuals. They are a legacy of the most traumatic event in Indonesia's 33 years of independence from the Netherlands.

Political upheavals that followed a pro-communist coup attempt in Octo-

"more than 55,000 political prisoners are distributed through the many islands of the Republic of Indonesia and the correct figure is probably as many as 100,000."

Adm. Sudomo said the release of detainees was done on the government's initiative and not in reaction to pressure from other countries or international organizations.

Those released accepted the national philosophy which includes a belief in God, Sudomo said. Some observers said many of those freed either developed or pretended strong religious feelings to demonstrate a rejection of communism.

The constitution calls for a secular state although Indonesia's population of 140 million is more than 90 percent Moslem.

The slow screening and piecemeal release of men and women who were never brought to trial is believed to be partly due to Moslem opposition to any concessions to suspected communists or leftists. This opposition hardened when it was reported that 47 percent of the inmates of one prison opted for Christianity in response to official efforts to steer them toward religion.

For many ex-detainees, release at first consisted of house arrest, then restriction to local communities and weeks later a parole that required

ber 1965 toppled President Sukarno six months later and brought Mai Gen. Suharto and the Indonesian armed forces to power. It also set off a bloodbath of reprisals that the Kopkamtib commander, Adm, Sudomo, has said left about half a million dead and some 600,000 behind bars.

Sukarno died eight years ago while under house arrest.

Most of those rounded up were released due to lack of evidence in the years immediately after the coup attempt. About 1,000 of the remainder were tried and the rest were classified in five categories.

Catzgory A prisoners are supposed to be awaiting trial. Many are expected to be reclassified to Category B due to lack of evidence, Indonesia sources said. Category B inmates were suspected of involvement in the coup, but there was insufficient evidence for trial.

Those in Category C were said to have been only peripherally involved. Category C prisoners once accounted for most of the 600,000 picked up and later released without judicial process

Category X was described as an interim status for those awaiting classification. Category Y serves the same purpose as X but covers only those seized since 1976.

Detainees were never told what category they were in, diplomatic sources say. They add that the remaining inmates are all in classes A, B, X, or Y.

The government freed 2,500 prisoners in December 1976 and then announced that about 10,000 more would be released in both 1977 and 1978 and the rest in 1979.

Amnesty International, the London-based civil rights organization, claimed in a report a year ago that

tion Detainees who do not wish to return to their homes may opt for resettlement communities in the outer is-

about their confinement.

lands which actually are designed to relieve population pressure on Java and Bali. As "transmigrants," they are entitled to six acres of land and a food subsidy for one year.

Several members of Sukarno's Cabinet have been released, but there is nc sign that the No.2 figure in the old regime will be freed in the forseeable future.

Former Foreign Minister and Deputy Prime Minister Subandrio was jailed in March 1966. Seven months later a military tribunal found him guilty of "crimes against the state" and sentenced him to die.

His lawyer contended unsuccessfully that one of Subandrio's alleged crimes - tilting Indonesia toward China - was not illegal at the time he did it.

Most sources say the death penalty has been effectively commuted to life imprisonment

Subandrio's wife and only son died since he was jailed. Informed sources say he is kept at Nirbaya, on the outskirts of Jakarta, and is allowed to leave prison regularly for medical treatment and visits with his relatives.

Former prisoners from the same prison say that the man once branded a communist and the official most closely identified with the defunct Ja-. karta-Peking-Hanoi alliance has become a devout Moslem

continues upward climb

WASHINGTON (AP) - Americans are drinking more wine than ever an average of seven quarts per person per year, a new Agriculture Depart-

The figures for 1976, the latest year for which statistics are available, showed that average wine drinking doubled from the early 1960s, when the consumption was less than four quarts annually

Department figures for other beverages show that Americans drink nearly 17 quarts of orange juice and 132 quarts of milk a year on the average.

A soon-to-be-published report on wine drinking based on research by economists Raymond J. Folwell and John L. Baritelle shows that California continues to dominate American wine production, accounting for 80 percent of the U.S. wine flow.

The new issue of the department's Farm Index magazine notes several

observations from the economists' wide-ranging study, which was based on a scientifically selected sample of 7,000 households around the country. Among those observations:

-More than 30 percent of the popu-lation doesn't drink wine. Most abstainers are in the South.

-The burgeoning popularity of wine is least felt in the South. -Almost four out of 10 non-drinkers

said they abstain for religious or personal reasons. But the majority "indicated they didn't know much about wine and therefore were reluctant to try it.

-Regular drinkers with higher incomes, better education and smaller families prefer table and sparkling wines. Others lean toward desert and flavored wines.

More than half of all wine is urchased at supermarkets, 39 percent at liquor stores and 4 percent at drugstores.

OU's Sims shakes off injury jinx

NORMAN, Okla. (AP) - Billy Sims finally appears to have shaken off the injury jinx and, as a result, Oklaho-ma's opponents are feeling the pain. When he came out of Hooks, Texas, in 1975 with more than 7,000 yards to his credit as a high school sensation, the projections were that Sims might turn out to be the greatest back ever to run wild for the University of Oklahoma.

Finally, after three years of nagging injuries, Coach Barry Switzer says that Sims is "playing up to our expectations...playing the way we always thought he could play.

What Sims is doing is leading the nation in rushing with an average of 155 yards per game, including a national record-tying three 200-yardplus games in a row when ended when he was "held" to 153 in last week's loss to Nebraska. With 1,550 yards in 10 games, he needs 116 against Oklahoma State on Saturday to break the school record of 1,665 set by Greg Pruitt in 1971.

Obviously, the time has come to mention Sims in the same breath with Joe Washington, Steve Owens and Pruitt, the three leading ground-gainers in Oklahoma history.

"Earl Campbell and Billy Sims are the two best running backs I've ever seen," says Switzer, linking Sims with last year's Heisman Trophy winner from the University of Texas.

"I coached Owens (the 1969 Heisman winner) and he was a big, strong, durable back. Pruitt had sensational speed with great moves and acceleration. Joe Washington ... we had Mike Thomas for a while ... Horace Ivory ... Elvis Peacock...Billy's got as much speed as any of them.

'He beat Peacock in the 40 as a freshman and Peacock ran a 9.4 hundred. And at 207 pounds he's heavier than any of them but Owens and Peacock and he's bigger in the upper body than everybody. He just knocks people down.

"He has his own style of running. Joe Washington was probably more elusive but Billy snakes and slithers through there and he breaks so many tackles with his strength.'

In truth, Sims' style of running is difficult to describe. Even Billy can't do it.

"I feel like I've got my own style," says the 6-foot junior. "I made it up myself. Sometimes it could be wild but it never could be a simple style of running

"I just go out and perform and things happen."

THE MIDLAND REPORTER-TELEGRAM, THURS., NOV. 16, 1978

"Crazy George" leads the cheers for the Superdome. His real name is George Hender- leading - a perpetual motion maniac. (AF New Orleans Saints in a recent game at the son and he is the ultimate weapon in cheer- Laserphoto).

'Crazy George' is ultimate weapon

NEW ORLEANS (AP) - Crazy George is the ultimate weapon in cheerleading - a perpetual-motion maniac who can wrap up a crowd and deliver it at full volume for his teams.

He's George Henderson, a balding 34-year-old former high school electronics teacher whose antics as an undergraduate at San Jose State University evolved into a professional cheerleading routine that now takes him from Vancouver, to British Columbia, to New Orleans.

He goes by the name ."Crazy George," and he's a pushover for underdogs - currently working for three National Football League teams, and five pro hockey and soccer teams.

"I was up in the stands at San Jose State with a friend of mine, and San Jose had a record like 1-9 that year," he said. "There were 27,000 students in the school and only about 3,000 at the game, and none of them was cheering

"So this friend and I started doing some easy cheers - we were sort of drunk - and pretty soon some other people joined us. The next game, a few more people joined us. By the end of the season everyone was with

He graduated and starting teaching, but expanded his cheerleading to the now-defunct California Golden Seals of the National Hockey League. It snowballed, became a money-making sideline, then - last year - became a full time job.

He spent Friday night in Denver at a Colorado Rockies hockey game, flew to New Orleans for a Saturday night public television fund raiser, then worked the New Orleans Saints football game against Atlanta Sundav

He charges around the stands among the people, using a tom-tom to attract attention, then buyg caoing and entertaining until he gets the sectators cheering.

He's all over the stadium, directing cheer with exaggerated hand motions and promoting competiton between opposite sides of the field. His gesture of disgust at a low-volume cheer is a masterpiece of eloquence in mime, easily interpreted from 50 yards away.

New Orleans took to him immedatly - and he took to the city. "I hadn't followed very closely," he said. "But I walk into the Superdome and there were 50,000 people there for a team that had never won more than five games. That's really neat. You've got to love them.

Crazy George does a television commercial for a mobile dealership here - the first TV commercial he's ever done.

"That's fun, but it just proves how weird this town is," he said.

A set of ethics has evolved with his traveling. For instance, he said he'll skip the game when the Houston Oilers visit the Saints later this season because he works for both teams and doesn't want his loyalties questioned.

And he's not worried about competition:

'Let them imitate me," he said. "In a lot of places, they have had people come and try out when I don't show up.

"They get booed. For them, it's just an act. I'm doing it because I love sports and because its me. I guess it's the perfect job for me, because its what I love to do.

Loughery is a show by himself

PISCATAWAY, N.J. (AP) - Kevin Loughery is a show all by himself.

During their first two years in the National Basketball Association, the New Jersey Nets were a dismal crew. Loughery, their coach, was often a lot more interesting to watch. His 29 technical fouls last season exceeded the Nets' victory total by five."

His volatile, constant harrassment of the officials often overshadowed the team's ineptitude. Bouncing from baseline to baseline, Loughery was chiefly responsible for a new rule prohibiting coaches from wandering beyond the vicinity of the bench.

NOW THE NETS are on the verge of respectability. The players say Loughery is the reason.

"The guy is one hell of a man. He has the characteristics that relate to a person as a human being. He wants to know a person as a person," said guard John Williamson. "It's unbelievable how he gets along with his players. He's a players' coach."

'We're a whole family and Kevin is the key. He runs the show, he's the best," added high-scoring forward Bernard King, who has been known as a problem child in the past but credits Loughery for keeping the team together during the rough periods. "There's no question Kevin is the reason why we're winning. He's a former player and knows how to communicate with us. He teaches us a lot about the game."

"I FEEL CLOSE to my players and associate with them," Loughery said. "I don't hang out with my players all the time, but I like to be with them."

Loughery played 11 years in the NBA with Detroit, Baltimore and Philadelphia. His coaching career got off to a rocky start when he took over in midseason for Roy Rubin in Philadelphia six seasons ago and guided the 76ers to five wins in their last 31 games.

Despite Loughery's 51-144 record as an NBA coach, he is generally regarded as one of the best. After leaving Philadelphia, he joined the Nets and coached them to a pair of American Basketball Association championships in the three years before the merger. His 168-84 ABA record proved, that with talent, he could win.

ANY CHANCE the Nets had of becoming a contender in their firstUNBA season was sabotaged by the team's money problems. Then-owner Roy Boe traded his two best players, Julius Erving and Brian Taylor, after he was unable to sign them. This helped transform the Nets into a bad joke around the league. It ate Loughery up inside. He hated to lose as a player and took defeat just as badly as a coach. But he retained his players' respect. Through the Nets' first 13 games this year Loughery was ahead of his record-setting pace for technicals, which Williamson interprets as his support for the team.

all wine is tets, 39 per-4 percent at Character key quality for making playoffs

By GEORGE ALLEN The Los Angeles Times Syndicate

Whether an NFL team makes it into the playoffs depends largely on what qualities the coach emphasized when he picked his squad at training camp in August.

In these last games of the season, character, experience and desire are what count. (Ability is a distant fourth.)

Character - This is the most important quality for a winning stretch drive. The dictionary defines it as "moral strength, self-discipline, fortitude.

To this I would add: playing to win

It is treacherously easy for a team to fall into the trap of playing merely to survive in the stretch. Without

character there is a tendency to just play out the schedule, to be distracted by the holiday season, to think of the relaxation of home and family when the season is over.

Character cannot be injected into a team in late November. It must be there in August.

Experience - many young player show an abundance of character men like Brad Duzek of the Redskins, Jim Jodat and Bob Brudzinski of the Rams, Jeff Siemon of the Vikings.

With several young players of that caliber, a team will win its share of games and pull off some upsets. But in the stretch, experience is vital. Older player must show the younger ones how to win in the clutch.

Jack Reynolds and Tom Mack of the Rams; Craig Morton of Denver; Jim Marshall, Carl Eller and Mick

Tinglehoff of Minnesota: Joe Greene of Pittsburgh; Kenny Houston, Bill Kilmer, Chris Hanberger, Jake Scott of Washington - these are among the old pros I'm talking about.

Too many teams are better than their records, because they don't know how to win when the chips are down. They blow leads and lose in the fourth quarter of the game -- or the fourth quarter of the season.

Desire - Players must want to win. That goes without saying. Or does it? Every player wants to win, but will he do something extra? Will he run extra laps on a dark November afternoon to get himself into still better shape? Will he take home film to study? Will he inconvenience himself to help another player improve in some area? Will an offensive man, for example, stay late to help a defensive man practice pass coverage?

Ability - This is perhaps the most overrated quality in a player and is responsible for some of the biggest letdowns in a stretch drive.

In selecting his team in August, a coach must not let ability outweigh performance. Someone may not look like a football player, may not be the strongest or quickest or fastess or possess the best physique. But he may be the type who gives 110 percent of himself. Give me that player over the one with tremendous natural gifts who contributes only 70 percent.

This year, especially, there seem to be numerous players with spectacular talent, yet they continue to make mistakes, do not improve, exhibit a lack of discipline.

They are great at 23 or 24, but they'll be gone in three or four years,

to be replaced by less flashy players of character quietly acquiring seasoning

Many squads are picked on talent and ability, with character, experi-

ence and will-to-win ignored. In the stretch this mistake exact its price. At this stage of the season many players have acquired nagging injuries that, while painful, do not measurably restrict performance. Players of character, desire and experience will play through these injuries This, again, has nothing to do with ability

The equation would be incomplete without another factor: the team. Down the stretch, units within the team must be willing to assume an extra share of the load. If a weak defense allows points, the offense must find a way to score extra ones themselves. Individual statistics don't matter. If the team's best running back amasses only 28 yards, but the team wins, he should celebrate the victory.

A loss in the stretch is the greatest measure of a good team's true worth. If it comes back to win the following week, the coach has chosen his team well. If it loses a second game, fatigue and pain have won, and it's "wait until next year," Some organizations are always rebuilding, always waiting.

"HE'S ALWAYS in your corner, always up and down during the game,' Williamson said. "Kevin will fight for you. If you have a problem off the court - money, your wife, anything - he understands and will help. He'll sit down and talk to you. He's very likeable, a flamboyant character."

Loughery's greatest talent as a coach is keeping everyone happy and getting the most out of what's been made available to him. Eric Money, another talented player with an attitude reputation, is an example.

"He has a rapport with the young people," said Money, acquired from Detroit in the off-season. "He has something instilled in him that you just don't find very often.LHe has the instinct and the incentive to win. He's tough, but he's down to earth.'

Ithaca wins

NEW YORK (AP) -- Ithaca College edged St. Lawrence by a single point, 66-65, to win the 1978 Lambert Bowl, symbol of NCAA Division III football supremacy.

The award, announced Wednesday, was Ithaca's third.

John McEnroe set for first Davis Cup match

WEMBLEY, England (AP) - John McEnroe, 19 years old and already ranked sixth in the world, is set to play his first Davis Cup singles matches for the United States in the final against Britain at Palm Springs, Calif., Dec. 8-10.

The left-handed New Yorker defeated world No. 1 Bjorn Borg in the Stockholm Open last week and Wednesday provided British Coach Paul Hutchins with food for thought when he downed British doubles expert David Lloyd 6-4, 6-2 in the first round of the \$175,000 Grand Prix tennis tournament at the Empire Pool. McEnroe, scheduled to play 34year-old Dutch veteran Tom Okker in today's second round, will play Britons John Lloyd and Buster Mottram in the Davis Cup final. His teammates

will be Brian Gottfried and the doubles pair of Stan Smith and Bob Lutz

"I didn't really see any problems we couldn't cope with," said Hutchins after McEnroe had taken less than an hour to dismiss Lloyd. "McEnroe looks a solid, dependable player, but John Lloyd is capable of beating him on the day and is certainly quicker, while Buster Mottram has got better groundstrokes than McEnroe.'

In second-round fatches Wednesday, eighth-seeded Roscoe Tanner day, eighth-seeded Roscoe Tanner lost to his compatriot Dick Stockton 6-3, 6-4, then Italian Adirano Panatta put down second-seeded Eddie Dibbs 6-1, 6-3 in just 44 minutes. In other first-round matches Wednesday, Harold Solomon, seeded

seventh, scored a 6-2, 6-2 win over fellow American Eliot Teltscher while fifth-seeded Corrado Barazzutti of

Italy downed Lutz 6-0 6-1. Another British Davis Cup player,

Mark Cox, had a 6-2 6-4 win over Polish No. 1 Wojtek Fibak. Tim Gullikson made a shaky start here but defeated Vladimir Zednik of Czechoslovakia 7-6, 6-7, 6-2.

McEnroe, who only turned professional this year and has never played a Davis Cup singles match before, said he was very keen to play in the final.

"I'm certainly looking forward to it," said the brash, confident teen-ager. "The only trouble is that we field a different team every match we play. Jimmy Connors hasn't been available all year and Vitas Gerulaitis, who played in the semifinals, has a prior commitment.

'But I think I'm playing pretty well now and I've just got to keep it going. I don't think all the pressure will be on me," he said.

David Lloyd, despite his crushing defeat by McEnroe, shared Hutchins view that Britain can win the Davis

Cup. "Sure, McEnroe will be tough to beat," he gaid. "He serves very well and I think there are lessons to be learned from watching him play. But I still think we can win. We've been together as a team since March. On paper they are a much better team than us, but I still think we will have a good shot."

One British player who will have to improve his play substantially is John Lloyd. He lost in the first round for the fourth successive week here when he crashed to a 6-3, 6-4 defeat against Smith Wednesday.

Smiling with good reason is Enid, Okla., pawnbroker Delbert Cearley. That large ring next to his wedding band is a ring he says belongs to Joe Namath, a souvenir of Super Bowl III won by the New York Jets. Missing for five years after a robbery, the ring should be back in Namath's hands soon. (AP Laserphoto).

The Texas Department of Human Resources — formerly the welfare department — challenged the constitutionality of the law in a Dallas case. The department sued Ricky Chapman to establish that Chapman was the father of an illegitimate child. The child was born in January 1976, and the suit was filed in February 1977. Chapman argued that the suit was barred by the statute of limitations and lower courts agreed. The department contended that the law "invi- diously discriminates" against illegitimate children

The Texas Department of Human Resources — formerly the welfare department — challenged the constitutionality of the law in a Dallas case. The department sued Ricky Chapman to establish that Chapman was the father of an illegitimate child. The child was born in January 1976, and the suit was filed in February 1977. Chapman argued that the suit was barred by the statute of limitations and lower courts agreed. The department contended that the law "invi- diously discriminates" against illegitimate children and thereby denies them equal protection of the law. The Dallas Court of Civil Appeals stated, "The question presented here is whether a requirement that this proof be made within one year from the birth of the child is reasonably related to a legitimate state interest. We conclude that it is. No supreme court case has held that illegitimates must be given an unrestricted right throughout their minority to bring a paternity suit."

The Texas Department of Human Resources — formerly the welfare department — challenged the constitutionality of the law in a Dallas case. The department sued Ricky Chapman to establish that Chapman was the father of an illegitimate child. The child was born in January 1976, and the suit was filed in February 1977. Chapman argued that the suit was barred by the statute of limitations and lower courts agreed. The department contended that the law "invi- diously discriminates" against illegitimate children and thereby denies them equal protection of the law. The Dallas Court of Civil Appeals stated, "The question presented here is whether a requirement that this proof be made within one year from the birth of the child is reasonably related to a legitimate state interest. We conclude that it is. No supreme court case has held that illegitimates must be given an unrestricted right throughout their minority to bring a paternity suit." The department also argued that the law denies an illegitimate child due process of law in that the child's right's are "impermissibly tied to the willing- ness and ability of the mother to assert those rights within the prescribed time."

The Texas Department of Human Resources — formerly the welfare department — challenged the constitutionality of the law in a Dallas case. The department sued Ricky Chapman to establish that Chapman was the father of an illegitimate child. The child was born in January 1976, and the suit was filed in February 1977. Chapman argued that the suit was barred by the statute of limitations and lower courts agreed. The department contended that the law "invi- diously discriminates" against illegitimate children and thereby denies them equal protection of the law. The Dallas Court of Civil Appeals stated, "The question presented here is whether a requirement that this proof be made within one year from the birth of the child is reasonably related to a legitimate state interest. We conclude that it is. No supreme court case has held that illegitimates must be given an unrestricted right throughout their minority to bring a paternity suit." The department also argued that the law denies an illegitimate child due process of law in that the indid's rights are "impermissibly tied to the willing- ness and ability of the mother to assert those rights within the prescribed time." "In department said the mother may not sue for fear of publicity or because she still feels affection to the father. "In our judgment," the Dallas appeals court said, "the Legislature could reasonably conclude that the support right of an illegitimate child is best protect- ed by requiring the suit to be brought by the mother, and that the potential harm to putative fathers greater than the potential harm to illegitimate chil- dren whose support is forfeited by the mother's
