

THE STRATFORD STAR

Volume 45. Stratford, Sherman County, Texas, Thursday, August 24, 1950. No. 46.

Registration Of School Students Will Begin September 1st

Registration of students of the Stratford Schools will commence at 9:00 A. M. Friday, September 1. School classes will open Monday, September 4.

Juniors and Seniors will register in the high school study hall Friday, September 1, between the hours of 9:00 A. M. and 12:00 noon.

Sophomores and Freshmen will register in the high school study hall Friday, September 1, between the hours of 1:00 and 4:00 P. M.

Eighth graders will register in the high school study hall Saturday, September 2, between the hours of 9:00 A. M. and 12:00 noon.

Saturday afternoon at 2:30 a meeting of the faculty members will be held in the high school study hall.

Monday, September 4, school begins with an assembly for all students in the grade school auditorium at 9:00 A. M.

All first grade students must have their birth certificates for entering school.

Burkham-Lee Wedding In Clayton

Mrs. Lola Burkham and Henry Lee were married in the parsonage of the First Methodist Church in Clayton, New Mexico, Thursday of last week. Rev. Paul H. Hively read the marriage vows.

Mr. and Mrs. Lee are at home in Stratford. They will be associated in operating Lola's Cafe.

Devo Oquin Recovering From Illness

Devo Oquin is reported to be in an improved condition in Northwest Texas Hospital where he had been in a serious condition for several days. Relatives and friends state that it is possible that he may be released from the hospital in a few days.

Boy Scouts Return From Colorado Camp

Billy Lovelace, Glen Lovelace, Sonny Judd, Donny Jacobs, and Byron Bain, Stratford scouts, returned home Saturday night with Ernest Lovelace after attending the Colorado Scout Camp touring the scenic spots of Colorado.

Among the most remembered pleasures were San Sibel Lake, camping with West Virginia Boy Scouts near Canon City, and the hot water swimming pools at Buena Vista. Six million gallons of fresh warm water pass through the pool daily. The fish just weren't biting, the scouts said.

Jimmy Forester Hospitalized In Dumas Tuesday

Jimmy Forester, 3 year old son of Mrs. Helen Forester, was admitted to Dumas Memorial Hospital Tuesday morning as a medical patient. Mrs. Forester and her son of Oakland, California, arrived here Friday for a visit in the home of her parents, Mr. and Mrs. A. L. Sutton.

Employees Gather At Lake McClellan

Employees of the Southwestern Public Service Co. were entertained with a picnic and barbecue at Lake McClellan Friday afternoon. Mr. and Mrs. Chester Guthrie attended the company get-together.

Qualification for a government loan requires that grain be stored in bins or granaries where it will not be subject to damage from moisture, insects, rodents, or other causes.

2nd Primary Election Saturday

Sherman County voters will cast their ballots in the second Democratic Primary election Saturday in what may be a second record of voting strength for the county which polled the heaviest vote in its history in the first primary in July.

County wide interest centers in the political contest for the democratic nomination for the office of County Judge. Kenneth Kendrick and Bob Ferguson are candidates for the office.

Precinct 4 voters will also decide the nomination of the Democratic party for the office of County Commissioner. E. E. Hamilton and S. J. Lavake are candidates for this office.

Interest continues to run high in the election of a party nominee for the office of Congressman from the district. Mrs. Altavene Clark of Potter County and Walter Rogers of Gray County are the candidates.

The Lieutenant Governor's race holds considerable interest among the voters. Ben Ramsey of San Augustine County and Pierce P. Brooks of Dallas County are the candidates.

No especial interest has been shown in the other state races, although the contested Commissioner of Agriculture election in which John C. White of Wichita County is opposed by J. E. McDonald, veteran politician of Travis County, is likely to poll a heavy vote.

Mrs. Smith Has Major Operation

Mrs. Earl Smith underwent a major operation in Northwest Texas Hospital in Amarillo Monday night. Her condition is reported to be favorable.

Cunningham Buys Arkansas Timber Land

S. L. Cunningham returned home Sunday from Clinton, Arkansas where he closed a deal for the purchase of a large tract of timber land. Mr. Cunningham plans to build a pleasure resort on the land after it is cleared of timber.

1950-51 VFW Essay Contest Announced

The Ladies Auxiliary of the Veterans of Foreign Wars takes pride in announcing its Sixteenth Annual Essay Contest for High School Students. Any student attending a public, private or parochial school may enter the contest.

First prize is \$1,000.00 in cash and a gold medal, second prize is \$500.00 in cash and a gold medal, third prize is \$250.00 in cash and a gold medal, fourth prize is \$100.00 in cash and a gold medal, and there will be 10 prizes of honorary mention and \$10.00 in cash and ten prizes of \$5.00 each.

"Freedom's Open Door," has been selected as subject material for the essay which will be limited to 1,000 words. The essays must be submitted in triplicate. They must be typed, double spaced, on plain paper measuring 8 1/2 x 11 inches. Pages must be securely fastened with either staples or brads. The student's name, address, the name of the school they are attending, and the number of words used in the essay must be clearly written in the upper right hand corner of each page. A declaration of authorship must be signed by the parents or guardian of the student.

Three copies of the essay, with attached Declaration of Authorship must be sent to the local or regional contest chairman postmarked not later than midnight, April 1, 1951.

Worms Invade Sorghum Crops In County

Reports of damage being done by worms to sorghum has been coming into the County Agent's office the past week. E. W. Carter of the Spurlock Community, had approximately 200 acres of milo severely damaged by worms. He and his brother, H. A. Carter, treated their fields with chlordane and DDT, and report very good results. These fields were treated one day, and 24 hours later most of the small worms were dead and the large worms, either sick or dead. Arthur Judd of the Stratford community, reports worms in his maize crop just east of the city, and has made arrangements to get it sprayed this week.

Apparently chlordane and DDT give very satisfactory results as a control measure for these worms when applied in time. The worms make their appearance in small numbers but the infestation builds up very rapidly, usually in two or three days after they have been found considerable damage is done unless controlled by the use of some chemical spray. In most cases this is done by use of aerial spraying so the farmers can get the crop treated in a short period of time. These worms can do serious damage in a 3 day period of time after they make their first appearance. They are usually found around the leaf area space where it joins on to the stalk, and in most cases are near the top of the plant.

Chief Defense Cost Is Not Weapons

Figures showing what the \$48 1/2 billions spent for the Military Establishment during the last four years means in terms of Federal taxes to various income groups were released by the Council of State Chambers of Commerce. These show over the four years that:

A family of three with an income of \$3,000 paid \$645.59. A family of four with an income of \$5,000 paid \$1,130.08. A family of four with an income of \$7,500 paid \$1,798.92. In addition, these family groups paid out Federal taxes for other purposes connected with defence. These totalled a little less than \$4 billion and included such activities as arms aid to friendly nations, stockpiling of raw materials and atomic energy projects. But they meant \$49.85 in Federal taxes to the \$3,000 family group, \$87.26 to the \$5,000 group and \$138.90 to the \$7,500 group.

The council's study revealed that \$6.75 out of every \$10 spent for the Military Establishment went for pay of all personnel, and for food, clothing and supplies for the soldiers, sailors and marines. Less than \$2 of each \$10 spent for defence was used to buy guns, ships and planes.

The study declared that "Undoubtedly much housekeeping waste in the Military Establishment diminished the value of the \$48 1/2 billion as an investment in preparedness, but efforts begun by Defense Secretary Forrestal and continued by Secretary Johnson to modernize the Establishment and cut out waste have now tended to strengthen that investment."

About 85,000 tanks were produced in this country during World War II. Army records at the end of the war indicated that 25,000 of them should be on hand. But the Army could account for only 16,000. The other 9,000 had disappeared.

New Arrival

Rev. and Mrs. J. W. Rosenberg, Borger, are parents of a son, James Ray, who was born in a Borger Hospital August 21. The new arrival who weighed seven pounds, has one brother, John. Rev. Rosenberg was a former pastor of the local First Methodist Church.

Stratford To Celebrate On September 8-9-10

Plans for the third annual Stratford Jamboree Celebration which will be held Friday, Saturday, and Sunday, September 8, 9, and 10, are gradually taking shape to provide entertainment for residents of the trade territory and all visitors.

According to plans, the celebration will include livestock, poultry, feed, garden products, canned goods, baking exhibits, and possibly flowers, will open in the car barn at the Stratford School building.

At 11:00 A. M. Saturday the grand parade will be held. Several business firms have already completed plans for floats they will enter in the parade.

An amateur rodeo will be staged at 2:30 P. M. Saturday. A lighting system is being erected which will make possible a night performance Saturday night. The second rodeo is scheduled to commence at 7:30 P. M.

Two dances will furnish entertainment Saturday night. Dancing will commence at 9:00 P. M. A modern dance will be held in the American Legion Hall and an old time western dance will also be in progress.

The third rodeo will be at 2:30 P. M. Sunday.

Women's Fellowship Has Meeting

The Christian Women's Fellowship met Tuesday of last week with 22 members present. Mrs. T. L. Wakefield, president, opened the meeting by leading the group in the Lord's Prayer. Mrs. C. R. Bomer was the leader. The program theme was "Study to Show Thyself Approved." "Blest Be the Tie," was sung by the group.

Mrs. John Reaves conducted a "buzz session." The object of this was to secure new and better ideas for future programs. Nine women's ideas about "God and Church," were presented by Mrs. W. D. Brannan, Mrs. J. R. Pendleton, and Mrs. Arthur Judd. Mrs. C. R. Bomer summarized the need of all people for proper attitudes and ideas concerning God and the Church. Mrs. Harmon Lowe gave the devotional with Mrs. John Reaves leading the group in singing "We Give Thee but Thine Own."

In the business meeting it was voted to have a bake sale Saturday, August 26.

Group Three has charge of the tables for the September Council luncheon.

After the benediction Group Two served refreshments in the basement of the church.

Ball Game Scheduled For Sunday

Negotiations are in progress for a baseball game between the City Club and Dalhart for Sunday afternoon in Stratford. Dalhart is said to be holding out for a different time to play the game but league rules set Sunday as the day.

Stratford is nearing the close of the season with 18 games played, 15 of which were won by the local club.

Boise City leads the league, having played 17 games and losing only one game which was won by Stratford.

Christian Ladies Sponsoring Food Sale Saturday

Ladies of the Christian Women's Fellowship of the First Christian Church announce that they will sponsor a food sale in the Lovelace Department Store Saturday. Food will go on sale at 10:00 A. M.

Weed Control Demonstration Wednesday

A bindweed control demonstration will be held Wednesday, August 30, at 10:00 A. M. at the Riffe Elevators in Stratford. The two county chemical spreaders will be used by the County Agent in demonstrating the spreading of sodium chlorate for eradication of bindweed. Johnson grass will be treated with sodium chlorate with the County sprayer.

Following these two demonstrations a short tour will be conducted and the farmers given an opportunity to see the results of treating bindweed and Johnson grass with sodium chlorate. The group on the tour will inspect one plot of bindweed treated with sodium chlorate this spring, another plot treated four years ago, and a third plot treated two years ago. On the tour they will visit the Cone Donelson farm south of Stratford, the W. F. Wington farm, and the Otis Bryant farm.

The County has purchased two chemical spreaders, one a small type that can be pushed or pulled by an individual, and a large spreader which can be pulled behind a pickup or with a tractor. The time for treating bindweed with sodium chlorate is August, September, and October. The number of farmers in the County who have purchased sodium chlorate along with the Commissioners Court will use these spreaders in this work.

These demonstrations are for the purpose of acquainting farmers with the use of this machinery, and explaining the amount of chemical to apply for the eradication of bindweed and control of Johnson grass. Farmers who are interested in doing this work this fall are encouraged to make these demonstrations and the general public is invited.

Another demonstration will be held at the Fred Mason farm in the Texhoma community August 31 at 2:00 P. M. A third demonstration will be held at the J. B. Craig farm, known as the old Western farms, Friday, September 1, at 2:00 P. M.

Family Gathers For First Time In Thirty Years

Mrs. A. A. Scott, Bakersfield, California, Mr. and Mrs. Earl Bohrer and Earl, Jr., Raton, New Mexico, Mrs. Cal Richardson, Roff, Oklahoma, Mr. and Mrs. Virgel Lively and daughters of near Conlen, Mr. and Mrs. L. V. Lively, Borger, attended a reunion at the home of Mr. and Mrs. M. R. Robinson Tuesday. All of Mrs. Robinson's family except her mother who lives in Columbia, Louisiana were present. It was the first time all of the children in the family had been together in 30 years.

Mrs. Lamb Honored With Tea Shower

Mrs. Duard Lamb was honored with a tea shower in the home of Mrs. Newton Crabtree Sunday afternoon. Mrs. Crabtree was assisted by her niece, Mrs. Ted Meyer.

Flowers from the Crabtree garden, decorated the entertaining rooms. The long refreshment table was covered in a lace cloth over blue and centered with a blue pottery bowl filled with pink gladioli. On either side of the centerpiece, pink and blue tapers burned in crystal candelabra. Other table appointments were in crystal.

Martha and Mary Crabtree, daughters of the hostess, served, and the youngest daughter, Minnie, was in charge of the guest book.

The honoree wore a shoulder bouquet of dainty variegated

Brandon Bros. Circus To Show Here Monday

Brandon Bros. Circus will appear in Stratford Monday night, August 28, sponsored by the American Legion. The show will be set up on the old ball grounds south of the Rock Island tracks.

According to advance publicity, Brandon Bros. have several new features, with groups and entire companies of arenic stars. Among the features Brandon Bros. offer the famous Knight Troupe, high wire act, consisting of 4 people, 1 man and 3 girl performers executing difficult feats with precision, not the least of which is a high jump over the back of one of the young ladies.

There is plenty doing when the act is on, a rapid-fire succession of dances on the silver thread as well as high jumping feats, with individual members contributing their specialties and all four jumping together on the mass numbers.

This young and talented group of performers just returned to the United States after a successful engagement at the Folies Begere in France.

Also included in the stars that are featured in this one and one-half hour performance is Miss Monte Saxon, America's featured aerialist; the Craigs, artists of the rolling globe; Hans Claire, the world's greatest juggler; Brandon Bros. Hollywood Canine Comedians; the Aces, famous hand balancers; Brandon Bros. Aerial ballet; Zetta, one of the best trained elephants in America, and many other outstanding arenic features.

Kendrick Will Speak At Wheeler

Kenneth Kendrick will be a guest speaker at the meeting of the Farm Bureau in Wheeler September 1. The meeting will be held at Wheeler at 3:00 P. M. according to Mr. Daugherty of the Wheeler County Farm Bureau.

Kendrick will talk on the facts of the cost of the support price program of major farm commodities. He states that if the government were to sell their storage of the major farm commodities on the present market, it would produce a profit. The greatest loss in the farm program has been caused by the support price on the potato crop. This one program has caused publicity which has placed the entire farm support program in a misleading manner.

Released From Hospital

Henry Luther was brought home Tuesday from Northwest Texas Hospital in Amarillo. He was rushed to Amarillo Sunday of last week for treatment of complications following a recent operation.

Buy New Power Mower For Cemetery

A new power mower has been secured for use in the Stratford cemetery. Purchase of the new mower was made possible through contributions of the citizens of Stratford and Sherman County.

Calling In Baseball Uniforms

R. W. Stewart requests that all American Legion baseball players turn in their baseball suits before September 1.

For spraying grain bins for insects before filling them with grain, a water suspension of DDT can be prepared by mixing ten and one-half pounds of 50 percent wettable DDT powder in 25 gallons of water.

flowers, centered with pink gladioli.

County Gets Four Drilling Locations

Four new drilling locations were announced for Sherman County this week. Tests of one completed gas well was made public.

Tascosa Gas Co. No. 1 Salvador is located 2,310 feet from the north and west lines of section 25 in Block 2.

Skelly Oil Co. Harold J. Collier No. 1 is 2,590 feet from the west and 2,640 feet from the south lines of section 179, in Block 1-C, 11 miles southeast of Stratford.

Skelly Oil Co. L. B. Haile No. 1 is 2,590 feet from the west and 2,690 feet from the south lines of section 182 in Block 1-C, 10 miles southeast of Stratford.

Phillips Petroleum Co. Walsh No. 1 is 2,639 feet from the south and 1,651 feet from the east lines of section 24 in Block 2.

Shamrock Oil & Gas Corporation No. 1 Atha in section 205, Block 1-T, was completed for .659 MCF of gas with a rock pressure of 400 pounds. The well produced pay from 2,903 to 2,951 feet. It was drilled to a total depth of 3,024 feet.

Announce Approaching Marriage

Mr. and Mrs. Joe Duby announce the engagement and approaching marriage of their daughter, Sheila Jo, to Marion Moss, son of Mr. and Mrs. Otis Moss of Altus, Oklahoma.

The wedding will take place September 12 in the First Methodist Church.

Brooks Pushes An Active Campaign

Pierce Brooks, Dallas insurance executive, took his aggressive campaign for lieutenant governor into East Texas this week and told supporters that he was supremely confident of winning the Democratic nomination for lieutenant governor on August 26th.

Brooks said he was greatly encouraged by the tremendous number of pledges of support he had received in East Texas. "The groundswell for Pierce Brooks which started out in West Texas has swept into East Texas," he said. "The people are thoroughly aware of the vital issues in this campaign and the smear campaign launched by supporters of the other candidate has been met with cold resentment."

The Dallas County candidate pointed out the lieutenant governor's office is a business office and that the state's financial affairs, now at their lowest ebb in history, can best be solved by a business man.

"The political experience that has brought the state to the brink of its worst financial crisis in history," Brooks said, "is not the type of experience to get the state out of the present financial mess."

Brooks called upon all Texans who believe in free and clean government to go to the polls on August 26th and vote.

"The people have a choice between two candidates for lieutenant governor," Brooks said. "One, Pierce Brooks, is a business man without any political obligations or alliances; the other is a professional office holder who is being supported by a group of power thirsty and money hungry individuals and corporations."

Mrs. Welch Hostess To Priscilla Club

Members of the Priscilla Club met in the home of Mrs. Earl Welch Thursday afternoon. Each one hemmed a tea towel while they visited.

Refreshments of sandwiches, marshmallow delight, and tea were served to the following: Mrs. Twila Blanks, Mrs. May Brantner, Mrs. Sybil Ponev, Mrs. Velma Wyatt, and the hostess, Mrs. Earl Welch.

The next meeting will be with Mrs. Lester Wells August 24.

Annual Meeting Texas HDA In Session

The annual state convention of the Texas Home Demonstration Association opened in Big Spring Wednesday. According to Mrs. R. L. Campbell of Wildorado, president of the THDA, the theme of the meeting is

"Better Homes Make For a Better World".

Mrs. Roscoe Dyess, Mrs. John Lavake and Mrs. F. D. Cummings are representing Sherman County at the gathering.

Eight hundred people are attending the meeting. Guest speakers include Dr. L. D. Haskew, dean of the College of Education, University of Texas, and Beverly Runnels, 1950 winner of the Maggie W. Barry Scholarship. Miss Runnels spoke on "What 4-H Work Means to Me".

In order that each county may have more delegates at all the workshops, two workshop sessions were held for each of the five committees: 4-H, Recreation, Legislative, Education and Marketing.

New officers for the THDA were installed on Thursday evening, following the election on Thursday afternoon.

A skit, "United We Stand", showing the relationship of the THDA and the home demonstration clubs to the Extension Service, was included on the program. Mrs. Bob Potter, Legislative Committee Chairman, directed the skit.

At a meeting of each district, a report of the work done in carrying out the committee recommendations for the past year was given in panel discussion.

During the business session of the convention, the program of work for 1950-51 was adopted.

Princesses of Sho Live in Poverty In Orphan Home

SHUI, Okinawa—The two little princesses of Sho, direct descendants of the Sho kings who long ruled Okinawa before the Japanese took over in the 19th century, are the forgotten royalty of the Pacific.

Instead of living happily ever after, they are living in a squalid, tumbled down orphanage, barefoot, undernourished, and wearing rags.

The girls are Etsuko Sho, 10, and Sachiko Sho, 11. They were orphaned when their parents were killed during the wartime bombings.

Both are stunted in growth from malnutrition. Sachiko has an infectious skin disease. And they eat the substandard, monotonous meals which are all the Shuri orphanage and old folks' home can provide. Their daily 1,400 calories consists of rice, soy beans, barley soup and occasionally a little fish.

The princesses eat at rough hewn wooden tables and benches. The rice and beans are cooked in large iron pots over open wood fires, and are stirred with a stick. Roaches, rats and mosquitoes are everywhere.

The well pump in the compound is broken. The orphans have to draw water by hand. Soap is scarce, so washing clothes is a luxury.

The only thing they have is companionship. There are 224 other war orphans in the orphanage. And there are 60 old people sharing the pitiful huts of Shuri.

They sleep on hard grass mats on raised platforms in huts. The only play equipment they have are some homemade swings and slides. The children have to ride down the slide with grass pillows strapped behind. The slide is not very smooth.

Many of the inhabitants, like the princesses, were once prosperous.

of the structure. The larger the structure, the less the cost will be per bushel of storage space.

Due to the lack of sufficient labor in many localities, some farmers may prefer to buy prefabricated bins or granaries. This year, most of these prefabricated structures are costing about 30 cents per bushel of storage capacity.

Allen cautions that regardless of whether the farmer builds his storage or buys a prefabricated bin, there are several things to be considered when planning for grain storage.

Low moisture content is necessary for long, safe storage of grain. This is particularly true of grain sorghum which should not test over 12 percent. Construct a strong, durable building and eliminate cracks and holes through which moisture and insects may enter. Provide facil-

ities for fumigation where necessary. Rat proof the grain structure and locate it conveniently on a firm, dry site. Plan an easy way for moving the grain in and out. Build the structures so they will last for many years.

Allen points out that the qualifications for a government loan require that the grain be stored in bins of granaries where it will not be subject to damage from moisture, insects, rodents, or other causes.

If you are in need of blueprints and additional informa-

tion about building on-the-farm storage, Allen suggests that you contact your local county agent.

Heart Operations Successful

PHILADELPHIA—Dr. Robert P. Glover, one of the surgeons who perfected the technique of operating on the mitral valve of the heart, reports 90 percent of the patients who have undergone the operation are living fairly normal lives.

The first operation to correct mitral stenosis, a closing of the valve—was performed two years ago.

"Since that time there have been 50 cases," Dr. Glover said. "Of these, eight died within the first month and a ninth died later of an infection not connected with the heart condition.

"Twenty of the remaining 41 are in excellent condition and have lost all the symptoms they had before the operation. It is fair to say that they are living normal lives.

"The other 21 have retained some effects of the disease because the disease had reached an advanced stage. However, many of them have returned to work and all are living fairly normal lives."

Immigration Officials Probe Muldorf Killing

NEW YORK—Immigration officials and the FBI have a strange case to investigate. It originated in Germany.

In April, 1945, Benjamin Krieger, and his brother, Zelman, then 48, were getting their rations in the Muldorf prison camp. Zelman tried to get some extra food. An impatient young trusty hit both men over the head with a pot. Zelman died three days later with a fractured skull.

Recently Benjamin Krieger looked out his store window in New York and saw a man passing. He rushed out, grabbed the man's arm and asked him:

"Were you in Muldorf?"

The man nodded.

"Then you are the man who killed my brother," Krieger shouted.

The stranger broke away and ran into a bookstore and a crowd of Krieger's friends gave chase. Police rescued the man, who said he had been in the camp but knew nothing of Krieger's brother.

The case was turned over to the FBI and immigration officials for investigation.

Industrial Injuries Total 80,000 in First Quarter

WASHINGTON—The labor department has announced industrial injuries to 80,000 workers during the first quarter of the year, costing them \$16,000,000 in pay.

Three hundred workers were killed and 4,300 permanently injured during the quarter, the bureau said. The total time lost was estimated at 1,900,000 man-days.

The number of injured during the first quarter of this year was 2 percent more than in the last quarter of 1949, but 11 percent less than in the first three months of last year.

The biggest accident increase was in the logging industry, which usually leads in injuries per man-hours worked. The rate jumped from 77.9 to 87.8 injuries per million man-hours.

In twenty-eight of the 120 industries surveyed, the injury rates were lower than in the previous quarter. Rates were higher in 41 and there was virtually no change in the remainder.

Control Insects In Farm Stored Grain Sorghum

With another bumper crop of grain sorghum being harvested in Texas, the farmer is again faced with the problem of disposing of his grain. Although several million bushels of storage space have been provided on Texas farms since last year, additional space may still be needed to take care of this year's crop.

W. S. Allen, extension agricultural engineer of Texas A. & M. College, points out that on-the-farm storage gives the farmer insurance that his crop can be taken care of and enables him to qualify for government loans. It also allows him to store his grain and feed it to livestock, if that appears to be his most profitable method of marketing it.

According to Allen, storage facilities can be constructed at a cost of from 15 to 50 cents a bushel, depending on the size

KILROY WAS HERE

Elusive GI Back on Duty

WASHINGTON, D. C.—Is the elusive, irrepressible Kilroy back again on active global duty?
According to a story from an American air base in Japan, this ubiquitous legendary veteran of World War II has again put in a word, if not his appearance, as Uncle Sam's Korea-bound fighters are departing for combat duty.
Taking up where he left off after defeat of the Axis, the Kilroy of today had the last laugh after a wall scribbler at the Japanese embarkation base claimed to be the first there. "Sorry to spoil your little joke," went Kilroy's latest rhyming riposte, "I was here, but my pencil broke."
The Kilroy jest that lightened fighting men's spirits during World War II followed American forces all over the Eastern and Western battle theaters. At home, in endless variations on the theme, it went into the permanent American language.

High-Low Humor

The impudent announcement that "Kilroy was here" (always before anyone else) decorated walls and any other handy surface, from Hitler's "Eagle Nest" at lofty Berchtesgaden to the depths of volcanic craters of the Pacific. One intrepid prankster scrambled several hundred feet down into a deep, sheer-walled pit near Kilauea Volcano in Hawaii. With conveniently loose stones at hand, he spelled out on the polished lava floor of the crater the eloquent word "Kilroy."
How did the redoubtable Kilroy get his start? The explanations are almost as varied as tales of the mystery warrior's exploits. Some say the saga all began in the Air Transport Command of the U. S. Air Forces. A real Francis J. Kilroy, this version goes, had come down with influenza while stationed at a Florida airfield. On his improvement, a friend posted a bulletin-board notice, "Kilroy will be here next week," and the game was on.

Another Air Force version makes the first Kilroy a frequently missing enlisted man whose irate commanding officer was fooled in tracing him by the Kilroy-was-here, there, and everywhere technique. And still another story has the original Kilroy a GI sergeant in a Kansas camp. This Kilroy, after being marked absent from a special detail and having his name posted, indignantly wrote a denial under

his name in the now familiar phrase.

Civilian in Act

A civilian account bobbed up on a postwar radio program. Its author, James J. Kilroy, explained that he had started the Kilroy legend as a wartime inspector in a Massachusetts shipyard. To avoid losing time by re-inspecting already approved work, he claimed he had chalked on the ship's parts "Kilroy was here."

Another guest on the same program put up as her candidate for the honor an Irish-American who was serving during the war in the Royal Air Force. Her Kilroy, she stated, had crashed near Dunkirk. He had been rescued by the Underground and smuggled out of the country, but his name lingered on as a promise of future liberation.

Whatever the source of the play, Kilroy-isms have spread over much of the world, from Natal, Brazil, to Karachi, Pakistan. In the Aleutians and Africa, in England, Italy, Australia, the Philippines, and no one knows how many other unexpected places, the mark of Kilroy has become a symbol of the speed and scope of today's global warfare. Among the assorted spots from which some Kilroy phrase has been reported are the Capitol dome in Washington, the Statue of Liberty, and the guinea pig battleship Pennsylvania in which the words were found after it was blasted by the atomic bomb at Bikini.

Pigeons Taught to Play Piano, Understand Colors

CAMBRIDGE, Mass.—Those pigeons you have in your barn mister are mighty smart, so says Prof. B. F. Skinner of Harvard.

The professor has a flock of pigeons that play tunes on a piano, play table tennis, push buttons to get food, tell time, and understand changing colors—like traffic lights.

Dr. Skinner is using the pigeons to discover new methods for studying human behavior. He has arrived at the theory that reward is more effective than punishment.

The birds have learned to peck signs labeled "yellow," "green," "blue," and "red," always picking the proper sign when a light of the same color is flashed on.

He has taught pigeons to play a modified table tennis—without net—on a two-foot-square table. One pigeon, using his beak, tries to bat the ball past his opponent. Rallies sometimes go three or four shots—though most are aces.

An advanced lesson is to play a tune on a piano of seven keys. By rewarding the pigeon when he strikes the keys in a certain sequence, Dr. Skinner and his assistants have taught pigeons to play

simple tunes such as "Over the Fence is Out, Boys," and "Take Me Out to the Ball Game."

Old War Bombs Explode; 14 Killed, 60 Injured

CATANIA, SICILY—Fifteen salvage workers were blown to bits here recently when 70 tons of aerial bombs left by the Italian air force were exploded by one of the workers.

The salvage workers were removing explosives from 35 two-ton missiles. A worker's hammer set off the explosion that killed 14 and injured 60 other persons.

The blast dug a crater 25 feet deep and 300 feet wide. Most of the dead were mangled beyond identification.

Thousands of persons in the city of 245,000 ran through the streets in panic. Bomb splinters and flying glass caused most of the injuries in the greatest disaster of the area since the war swept through Sicily in 1943.

IMPERIAL...is the word for it!

"Imperial," says Webster, means "superior excellence." IMPERIAL, says Chrysler, is this luxurious new car that excels anything on wheels in the sheer exquisiteness of its styling. Come look inside this reigning beauty... look at the lavish wool broadcloth fabrics, tastefully combined with topgrain leathers. Look at the lovely color harmonies, the soft sheen of the butler-finished chrome. Consider the advantages of Fluid Drive... exclusive new automatic transmission... Waterproof Ignition... Full Flow Oil Filter... High Compression Spitfire Engine... electric window lifts... the CLEARBAC rear window for exceptional driver vision... and dozens more. Surely, of all the world's fine automobiles, only the Chrysler CROWN IMPERIAL, this car's running mate, achieves the same aristocratic distinction. Come see the flawless workmanship, the fine materials, the superb Chrysler engineering... and you'll agree that no other car, at any price, compares with the Chrysler IMPERIAL. Inside or out, there is no finer car in America!

ONLY THE CHRYSLER IMPERIAL offers you this absolutely unique system of window control! Each window has its own separate electric motor... each one can be raised and lowered independently from the driver's seat or at the window itself. And that's not all! So many other de luxe features... the kind you think of as being in the "special order, extra cost" category... are STANDARD EQUIPMENT on the Chrysler

Imperial. For example: armrests on all four doors... foam rubber seat cushions and seat backs... double-width center armrests in front as well as rear seats... stainless steel wheel covers... white sidewall low-pressure tires... carpeted luggage compartment! Full flow oil filter and many other engine features! Yes, you get all these extras as standard equipment with your beautiful new Chrysler Imperial.

New beautiful Chrysler Imperial... one of 21 lovely Chrysler body styles!

Inside and out... it has no equal at any price...

U.S. Women Harming Teeth With Bobby Pins

BOSTON, Mass.—Dr. S. S. Livingston reports that American women are causing great damage to their teeth with bobby pins.

The reason, women roll up their hair, hold it with one hand and then holding a bobby pin in the other, open it with their teeth.

A simple homemade device for opening bobby pins is to place as many pins as are needed for the hairdo around the rim of a drink-

ing glass. With the flat side of the bobby pin facing the inside of the glass, one can pick off each bobby pin, already open—and the teeth need not be used.

Dangerous to Teeth

Besides opening bobby pins with their teeth, many girls are forming the dangerous habit of digging between their teeth with hairpins, bobby pins, common pins and toothpicks. Some do it to remove food; others, because they are nervous.

Toothpicks in one form or another have been in use probably for thousands of years. They are traceable to A. D. 23, when their use was first recorded. They were used in the Roman, Grecian and Chinese periods of history.

Various materials have been utilized—gold, silver, ivory, quills and now wood. It was a custom in colonial days for the luxurious host to

offer his dinner guest an expensive gold or silver toothpick after his meal.

Chips Enamel

Today toothpicks are usually made of hard wood, such as birch or maple. Soft wood is avoided by manufacturers because it tends to fuzz and splinter, shedding slivers in the mouth when used.

Dr. Livingston says the bobby pin may add to feminine hair beauty, but they have come to be serious threats to the dental charm of the girl who uses her teeth to open them. When a girl opens a bobby pin with her front teeth, she usually chips or breaks off the biting edge of her teeth. The tooth enamel microscopically is made up of enamel rods, just like the bricks that go to make up a brick house. Once these enamel rods begin to chip, they continue to break off until a part of the crown surface of the tooth is destroyed.

Americans Just Can't Take It Physically, Doctor Says

MEMPHIS, Tenn.—The modern American can't take it, Dr. C. H. McCloy of the University of Iowa, told a recent meeting of the association for physical and mental rehabilitation.

In fact, the average person who works is so out of shape physically that when the week-end arrives he has to take time off to rest up, says Dr. McCloy, although he admits fewer people get sick today.

"Americans seem to specialize in getting out of shape," the professor asserted. "Twenty years too soon they get down to the point where they don't have much life."

He believes a person 70 years old should be able to do a day's work if it is not too strenuous without feeling exhausted.

Even doctors ignore the importance of the annual physical examination, he said, adding:

"I'll bet that if you asked 10,000 doctors if they had a check-up last year, only 5 per cent of them could say they had."

Conducting research on physical education at the University of Iowa, Dr. McCloy said exercise is important in that "while it does not prolong life, it raises the quality of living."

Livestock

Livestock of all classes should receive green feed regularly because it helps them build resistance to disease.

Apostle Peter His Bones Recovered?

ROME, Italy—A Vatican newspaper has reported "incontrovertible proofs" will be offered in the near future that the Apostle Peter lived and came to Rome, where he was crucified head downward in Nero's Circus.

The newspaper reported on the excavation work under the present Basilica of Saint Peter where the tomb and remains of the Apostle were reportedly found.

The sensational find is the most important in the history of Christianity, many observers reported. What are believed to be the bones of Saint Peter still are being kept by the Pope in his private chapel.

The newspaper said on the wall behind the altar there is bronze grating from which can be seen "the blessed stones of the very ancient altars erected above the tomb of the Roman Catholic Church's first pope."

Eye Cataracts Turn Up Among Japanese Atom Bomb Survivors

WASHINGTON—Eye cataracts have turned up in recent months as the first evidence of delayed effects among the survivors of the atomic bombings of Hiroshima and Nagasaki, the U. S. Atomic Energy Commission has announced.

The AEC announcement said: "Following the discovery that radiation similar to that released in an atomic bomb burst had caused cataracts to form in the eyes of research workers in this country, a preliminary ophthalmic survey was started at Hiroshima last year."

"This survey, led by Dr. David G. Cogan and R. S. Forrest Martin of the Harvard Medical School, revealed 10 cases of cataracts believed to have been caused by the atomic bomb. Subsequent examination of 1,000 persons, most of whom were within 3,000 feet of the point above which the bomb exploded, has led to the discovery of about 40 certain cases of radiation cataract and an additional forty suspected cases.

A full-scale ophthalmological study is underway at Hiroshima and a survey of survivors at Nagasaki is also planned. Annual follow-ups will be made of a statistically significant sample of all persons known to have been within a certain radius of the bomb's hypocenter. More frequent follow-up of all known and suspected cases of cataract are planned."

The AEC is also continuing its overall survey of the medical and genetics effects of the bombings on the populations of the two cities. The AEC said its findings would "have important significance for scientists and for military and civil defense planning in the United States."

Firemen Cut Through Eight Inch Steel to Free Worker

CHICAGO—Louis Mantey has decided he doesn't like his job of cleaning out grease chutes.

He came to that conclusion recently after being trapped in a chute of a Chicago building for five and a half hours after his rope became snagged.

He was freed by firemen who drilled and chiseled for three and a half hours to cut an exit in the chute. He suffered treatment for a cut and shock.

Employed by an industrial cleaning company, Mantey was trapped after he was lowered into a chute through an exhaust fan opening. He worked down the narrow chute in a boatswain's chair. When he finished his job he found the rope used to pull him up had become snagged.

His foreman, George Kaforski, tried to release him via the bottom of the shaft, but a series of sharp turns made it impossible. Kaforski called firemen and pushed milk and cigarettes up to Mantey from the bottom. Next he set up a fan to blow up fresh air.

Firemen cut through metal eight inches thick to form a two foot hole through which Mantey could be removed.

"I've been in this business three years, but I don't know if I'm going to stay in it any longer. I don't like this forced overtime," he said when released.

Hope Named in \$100,000 Libel and Slander Suit

NEW YORK—Bob Hope, the funny man of screen and radio, has been sued for \$100,000. The libel and slander suit was brought by a Manhattan hotel over a wisecrack the comedian used during a personal appearance at Paramount Theater.

The complaint in the suit said the remark was as follows:

"I got into town today and the mayor met me and gave me the key to the city and I checked in at the Forrest Hotel on 49th Street where they gave me a cell — the maid changes the rats every day."

The hotel charged that besides making the statement from the stage, Hope had it written into a script, thus making it libel as well as slander.

In an affidavit Hope denied he had used a script, and said any reference to the hotel was without malice.

Truman Collects 32 Year Old Debt on Western Tour

BURLINGTON, Iowa — President Truman collected a 32-year-old debt on his recent nation-wide tour.

Elmer Van Tine, an employee of the Iowa Ordnance plant in Burlington, borrowed \$25 from the President after the armistice in 1918 so he could make a trip to Kansas City to join the Shrine with Mr. Truman.

When the President's special train stopped at Burlington on the nation-wide tour, Van Tine came aboard and handed Mr. Truman a check for \$50, explaining that half of it was interest.

The President accepted the check and told Van Tine: "Thank you. You didn't have to do this."

Van Tine was a cook in the President's World War I company.

Truthfulness Doesn't Pay Off for Chicken Thief

PITTSBURGH, Pa. — Matthew Simpson, 30, found that persistence and truthfulness, long considered virtues, did not pay off for him.

Hailed into court, he admitted taking the same automobile from the same parking lot twice within four days. He also was charged with

using the car in the theft of 30 chickens from Mrs. P. J. Roaza. "That's not true, your honor," he said. "It was only 28, honest."

Simpson drew a two to four year term in the workhouse.

Texas' Population

If Texas were as thickly settled as Rhode Island, the Lone Star state would be able to boast a population of almost 178,000,000.

Black is White

Titanium dioxide, the white pigment which is derived from the blackest of sands — ilmenite — by chemical processing is regarded as the greatest advance in the white pigment field in modern times. It is used by the paint industry in exterior house paints to control chalking. It is also utilized in enamels to secure superior durability and whiteness.

SLAY'S APPLIANCE STORE

TO THE VOTERS OF THE PANHANDLE:

I know you are tired of politics, but the decisive election is at hand as you select your Democratic nominee for congressman.

I entered this race a strong believer in local, self-government; I am alarmed at the power given to bureaus and boards, at your tax dollars wasted and at the dangerous trend toward centralization and socialism in your government at Washington.

As your congressman, I will do my part to check these trends, to abolish waste, to get our defense forces adequately prepared; I will do my best to return your government from the bureaus to the people. I pledge my efforts toward a sound, practical and alert administration in Washington, and my loyalty, and unstinted service to all the people of the district.

May I solicit your vote and support in behalf of these aims?

Sincerely,

Walter Rogers

CANDIDATE FOR CONGRESS

Vote For Pierce Brooks

FOR

Lieutenant Governor

With the State plunging wildly towards a financial crisis, the Lieutenant Governorship is a business rather than a political office. It needs a Business Man With A Business View-point.

While he was Chairman of the Board of Stewards of a Dallas Church, he was instrumental in building one of the largest Sunday Schools in Methodism. He is really a "go-getter and a worker."

(Paid Political Adv.)

Notice

I'm still in the Race for Commissioner of Precinct No. 4. I have not come around with a card or a pat on the back as I know you are all intelligent people and still know who is running, and don't need to be reminded who to vote for.

If elected I will fulfill the duties of this office to the best of my ability.

S. J. Lavake

Candidate For Commissioner of Precinct No. 4

Dallas Men Are opposed In State Races

The country boys' campaign to "scratch Dallas" in the August 26 run-off election is sweeping the state, Chairman Emmett Alexander of Marble Falls said today.

The Marble Falls businessman who announced plans last week for the revolt against Dallas

County's control of state government, said he had received hundreds of letters, telegrams and phone calls in support of his plan.

The plan calls on Texans to vote against the four Dallas County candidates in the five statewide races, to elect their four opponents and to thereby strengthen representation of other areas in the government.

"The reaction to our drive to decentralize the power held by Dallas County in state government has been more than satisfactory," Alexander said. "And

we expect it to snowball into victory by Saturday.

"We are not running any one man. We have picked the opponents of the four Dallas candidates because we do not want Dallas to boss the entire state and because we think the out-of-Dallas candidates are equally as well qualified for the different state offices."

Alexander said Texans in all parts of the state, especially in the small towns, were working for the "scratch Dallas" idea. The Dallas County candidates and their opponents are Pierce Brooks of Dallas and Ben Ramsey of San Augustine County, for lieutenant governor; Will Wilson of Dallas County and Fagan Dickson of Bexar County, for Supreme Court, Place 1; George W. Harwood of Dallas County and Meade F. Griffin of Hale County, for Supreme Court, Place 3; and Robert L. Lattimore of Dallas County and W. A. Morrison of Milam County, for Court of Criminal Appeals.

Alexander said an eight-member committee, including Mayor R. O. Smith of Marble Falls and M. C. Winters, Johnson City rancher and merchant, vice-chairmen, were pushing the "scratch Dallas" campaign.

call. The signal had full approval of the chamber of commerce and a few months later a second set was installed. However, Hoge's success was cut short when the lights were declared unnecessary and impractical.

Retired Officer Says Stalin Had Heart Attack

SALEM, Mass.—Col. Roland W. Estey, retired, a former office of strategic services officer, has reported that Premier Stalin suffered a heart attack in June while on a plane flight.

The former officer said he received the news in a letter from Europe and that the information had been turned over to our intelligence agency.

According to Estey, Stalin was en route for a conference in the town of Chita, about 100 miles north of the Chinese border.

The attack apparently was of such a nature, Estey said, that it seemed wise to return him to Moscow and permit his impersonator to proceed on the trip.

The letter also contained this message, Estey said: "Watch Formosa or Chosen before the first of July". Chosen is another name for Korea.

Estey said his friend had the in-

formation six days before the aggression, leading to the belief the Communists in North Korea jumped the gun.

Nephew of King Sells Estate to Pay Taxes

LEEDS, England — Nobility throughout the world has been having a tough time of it for a number of years, for the most part finding themselves without people to rule.

In England, however, it is a little different. English nobility is finding it difficult to pay taxes. The latest example is the Earl of Harewood, nephew of King George, who has been forced to sell a third of his ancestral estates at auction to pay inheritance taxes.

Most of the happy buyers were his old tenants—farmers and tradespeople. A total of 7,000 of his 22,000 acres were sold to pay the taxes, amounting to approximately \$2,196,480.

The Earl told his tenants he would like to have them bid in the homes and fields they had rented.

Mrs. Annie Mary Ridsale, 83, bought the cottage she had lived in 40 years. When it was knocked down to her for \$588, she said, "I am so happy I could walk home the 10 miles to Leeds."

The post office, with 6½ acres, went for \$7,420 and the shoemaker bought his shop for \$168.

One tenant paid \$33,880 for two farms his family had worked on or around for 300 years.

Single farms brought as much as \$23,100 for 175 acres and a house. Two others were withdrawn from sale because bids were too low. A King George III period stone house dating from American Revolutionary times brought \$5,880.

Independent Africans Libya, scheduled by United Nations resolution to become independent by January 1, 1952, will be the fourth independent African country. The three already free of ties to colonial empires—Egypt, Ethiopia, and Liberia—comprise only about one-fifteenth of Africa.

On The Farm Grain Storage

Much of the bumper crop of grain sorghum being produced in Texas this year will be stored on the farm. J. A. Deer, assistant extension entomologist of Texas A. & M. College, recommends that farmers give special attention to controlling insect infestation in the stored grain.

Thorough cleaning of the bins is necessary to prevent the new crop of grain being mixed with old grain which is already infested. If the bins are constructed of wood, apply a residual spray to the walls and floor at the rate of two gallons of spray per 1000 square feet of surface area. Spray steel bins around door frames and other places where the insects may be concealed.

Deer says that sprays consisting of two and one-half parts DDT or chlordane as emulsions or water suspensions have been found satisfactory for treating grain bins. A water suspension of DDT can be prepared by mixing ten and one-half pounds of 50 percent wettable DDT powder

in 225 gallons of water.

As further precaution against insects, Deer advises removing all sources of infestation, including feed, waste grain and other materials stored near the bins, before the new grain sorghum

is moved in.

Deer warns also that the grain sorghum should be as dry as possible when stored. If the moisture content is higher than 12 percent, the insect infestation will be heavier.

Baltimore School, Babe Ruth's Home, Closed to Juveniles

BALTIMORE, Md.—For 84 years since 1866—St. Mary's Industrial school in Baltimore carried on the work of turning many juvenile delinquents into solid citizens. Now it has closed its doors.

Among its products were two famous men—the late Babe Ruth and Al Jolson.

Babe Ruth entered the school when he was seven because his father, a saloon keeper, thought his environment around his place wasn't too good. Young Ruth was listed as an incorrigible, but in later years you could never get the monks at the school to agree that he was.

He stayed there until he was 18. The school must have made an impression on the future home run king. Father Albert, who knew him at the school, said Ruth once told him, when he was at the height of his glory: "We're all in life to do good. And I hope that when I die I will have lived so I can help the boys of America to live straighter and cleaner lives."

And there's Jolson. He visited the school last September for the first time in about 50 years.

"That's the yard where I used to play," the singer and actor said. "When was that? About the time of the Spanish-American war."

"I was a bad boy then, but not too bad. I had run away from home. I gave my brother's name, because he was supposed to be the black sheep of the family. After a few months my parents came from Washington and took me home."

President's Fancy Tie Puzzles Newspapermen

ST. LOUIS, Mo.—Two St. Louis newspapermen were trying to decide just what pattern appeared on one of President Truman's ties.

"What's wrong, boys?" the President asked.

They told him. Mr. Truman looked down at the design as if seeing the tie for the first time, and said: "I don't know what it is—swans or something, I guess."

Now the newspapermen are wondering if Mrs. Truman picks the President's ties for him.

74-Year-Old Marine Takes Rifle Firing Test

QUANTICO, Va.—Usually it's the old salts in the Marine Corps who teach young leathernecks how to shoot with the startling accuracy for which the Marines are noted, but that situation was reversed recently when 74-year-old Master Sergeant Harry D. Bartley, of Philadelphia, reported to the rifle range along with many younger men to fire the carbine for annual re-qualification. His coach was a 20-year-old private.

Bartley, whose uniform sleeve is covered with bright red hashmarks representing 42 years of service, could have stopped firing the weapons courses when he was 35, but he chose to fire again this year. He has more straight enlisted time in the military service than any member of the Marine Corps.

Cleveland Man Invents Traffic Light 36 Years Ago

CLEVELAND, O.—August 5 will be the 36th birthday anniversary of the traffic light—that instrument that has given many Americans high blood pressure.

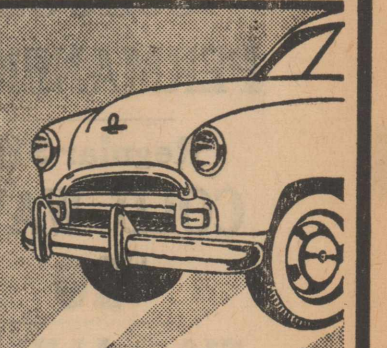

According to the Cleveland Automobile Club, on that day James E. Hoge hung up the first traffic light at a now bustling east-side intersection in Cleveland.

Hoge's first signal was hand operated by a policeman stationed at the corner, who would ring a bell and turn the light on whenever the nearby firehouse received a

IT'S TIME for BROOKS! Because...
 Something must be done now about the runaway cost of our state government—a cost which has increased more than 500 percent in the period between 1935 and 1950. Aside from the cost of World War II, the cost of the Federal government did not increase that much during the same period.
 With the State plunging wildly towards a financial crisis, the Lt. Governorship is a business rather than a political office. It needs a business man with a business viewpoint.
 Only by the election of a business man can the people of Texas be assured of a direct and vigorous attack on this runaway cost, useless waste, and needless extravagance in our State government.
 Only a business man who has not been a part of the system which spawned this era of waste and extravagance can give the problem that searching inquiry and impartial analysis needed now. Pierce Brooks is that man.
 The next Lt. Governor of Texas should be above any internal friction, beyond all cross currents of politics, and completely judicial when clashes of personalities arise among members of the Senate. He must be in a position to treat them all alike, to be fair to each, and also to be true to his obligations to the people. Pierce Brooks meets these tests.
 Pierce Brooks is the only candidate completely free from the entangling alliances, political obligations, cliques, clans and groups which grow up when men stay in office too long.
 The Lt. Governor to be elected in 1950 should not come from the confused atmosphere of the State government, but direct from the people with a program for the people. Pierce Brooks is such a man.
 In these crucial times the next Lieutenant Governor should be answerable to the people of the State and not to any group of special interests that has made millions of dollars off the taxpayers.
Pierce Brooks for Lt. Governor

Genuine International Army Needed

General MacArthur, making his first report to the United Nations as commander of UN forces in Korea, urges member nations to speed reinforcements. He is particularly interested in having ground forces already promised by eight countries actually started toward the battle front to ease his manpower shortage. This military need is more visible but only slightly more urgent than what might be called the psychological need to make not only the UN mandate but the actual operations in Korea genuinely international. Let us keep the issue clear. It is aggression. The general power struggle between Russia and America is secondarily affected. But primarily Korea is an issue between UN representing world order and an aggressor representing world anarchy. At Lake Success, Mr. Malik is plugging the Kremlin lie that this is an attack on the Korean people by the United States and a few "colonial powers." The Soviet line is to claim that UN action on Korea was illegal and that, with these exceptions, the

THE STATE OF TEXAS

TO: Hicks Cook, Laura Christian, Florrie Adams Reid, Ruby Reid, and Maggie Adams Cook, and husbands of each and all of the above female persons who may be married, but whose husbands are not named, the respective names of such husbands, if any, being unknown, and the unknown heirs, their heirs and legal representatives of each and all of the above named persons and unknown husbands, if any, who may be deceased, DEFENDANTS, GREETING: You are hereby commanded to appear before the Honorable District Court of Sherman County, at the courthouse thereof, in Stratford, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 18th day of September, 1950, then and there to answer plaintiff's petition filed in said court on the 2nd day of August, 1950, in this cause, numbered 1223 on the docket of said court, wherein G. E. Cummings, J. W. Flores, Roy Allen, E. W. Butler and L. F. Denney are plaintiffs, and each and all of the above named persons, unknown husbands, unknown heirs, their heirs and legal representatives, are defendants. A brief statement of the nature of this suit is as follows: A suit in trespass to try title, for rents, damages, costs of suit, general and special relief, in law and equity, of and concerning the following described land, to-wit: Lots 18, 19 and 20, Block 46; Lots 1, 2 and 3, Block 50; Lots 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10, Block 24; Lots 4 and 5, Block 33, all in the original town of Stratford, Sherman County, Texas, as shown by the plat of said town recorded in Volume 3A, page 645 of the Deed Records of Sherman County, Texas, plaintiffs pleading title by five (5) years limitation, and plaintiffs alleging statutory trespass to try title, as is more fully shown by plaintiffs' petition on file in this suit. The officer executing this process shall execute the same according to law and make due return as the law directs. If this citation is not served within 90 days after the date of issuance, it shall be returned unserved. ISSUED AND GIVEN UNDER MY HAND and the seal of said court, at office in Stratford, Texas, this 2nd day of August, 1950. (Seal) LELAH BONEY, Clerk of the District Court, Sherman County, Texas. (Pub. 8/3-10-17-24.)

62 nations supporting it are not in fact supporting it with fighting men. Visible disproof of this propaganda is almost as urgent as the military need for more troops on the Korean front. Happily, the military emergency promises to ease, but the value of active participation by non-American forces may well increase. For as North Korean power ebbs and a time for peacemaking approaches it will become more than ever essential that the moral force of international law rather than any narrow view of national interest should be established. The might of American arms probably could eventually dictate peace. But the UN should do both a quicker and more lasting job. Korea is only a segment of the struggle to win Asia. Military victory there by one western power will arouse old fears of imperialism, already played upon by Russian propaganda. Victory there by a genuine international army, particularly one which includes Asian contingents, will be more readily recognized as the arrest of an aggressor by a police force. The presence on the ground of a genuine international force should help, too, in the unification of Korea, originally blocked because Russian armies held half of the country. But Korea, either present or

future is only a part of the story. Korea offers an opportunity to get UN police force into being. And the help of such a force, ready to move as a fire brigade (Continued on Page 12)

When Mr. Alexander Gun was dismissed from the customs of Edinburgh, the entry made against his name in the books was: "A Gun discharged for making a false report."

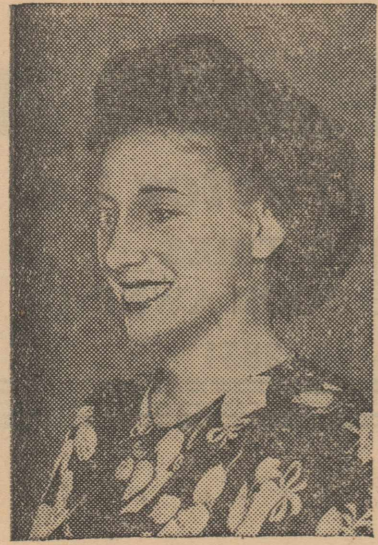

OVERJOYED! YEARS OF LAXATIVE DOSING ENDED!

"I had to write! After 25 years of dosing for constipation, I started to eat ALL-BRAN for breakfast. The results are wonderful!"
Andrew H. Truby, Box 42, Woodland, Ill. Just one of hundreds of unsolicited letters from ALL-BRAN users. Marvelous results can be yours, too, if you suffer from constipation due to lack of dietary bulk. Eat an ounce of tasty Kellogg's ALL-BRAN daily, drink plenty of water! If not completely satisfied after 10 days, return empty carton to Kellogg's, Battle Creek, Mich. GET DOUBLE YOUR MONEY BACK.

HOT FLASHES?
Are you going through the functional "middle-age" period peculiar to women (38-52 years)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Regular use of Pinkham's Compound helps build up resistance against this annoying middle-age distress!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Alma Kincaid, 2125 East Adelaide, St. Louis, Missouri, who was suffering from deficiencies of Vitamins B₁, B₂, Iron, and Niacin, has turned into a regular clock-watcher since she has been taking HADACOL. Yes, she keeps her eye on the clock all day long, just waiting for breakfast, dinner and supper time. Imagine how unbearable life can be without enjoying good, wholesome food.

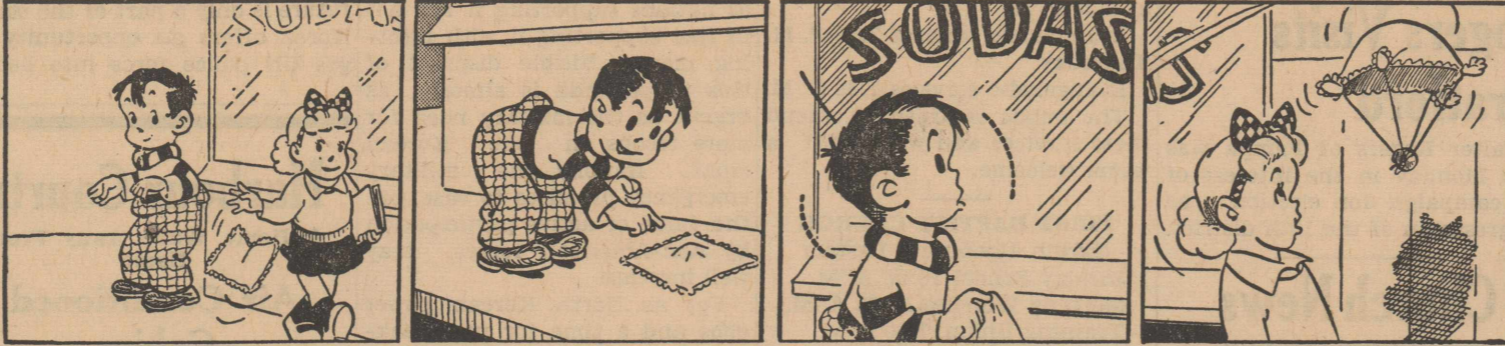

Here is Mrs. Kincaid's statement: "I have been taking HADACOL for over a year. Before taking HADACOL, I had stomach distress for quite sometime. Imagine how awful hard it is to live a normal life when you can't eat such delicious things as tomatoes, oranges, grapefruit, etc., or drink milk without getting horrible cramps and upsetting your stomach. One day I took my husband's advice and got some HADACOL. A good friend of his told him of the fine results he had gotten from HADACOL. And now, since I have been taking HADACOL, I can eat anything I want and really enjoy it. I have a wonderful appetite, too—thanks to HADACOL. Naturally I recommend HADACOL to all my friends."

Yes, HADACOL is Truly Wonderful in the way it has helped countless thousands of folks whose systems were deficient in Vitamins B₁, B₂, Iron, and Niacin. HADACOL can help you, too, if you will just give HADACOL a chance. If you suffer from stomach distress, nervousness, insomnia, constipation, aches and pains of neuritis, or a general run-down condition, caused by such deficiencies, let HADACOL help you as it has helped others all over the country. Even hundreds of doctors are now recommending HADACOL to their patients suffering from such deficiencies.

Give remarkable HADACOL a chance to benefit you. Remember, you have nothing to lose. HADACOL will make you feel great after the first few bottles you take, or your money will be refunded. Only \$1.25 for Trial Size; Large Family or Hospital Size, \$3.50.

If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, Louisiana. Send no money. Just your name and address on a penny post card. Pay postman. State whether you want the \$3.50 hospital economy size or \$1.25 trial size. Remember, money cheerfully refunded unless you are 100% satisfied.—Adv.

Old-Fashioned Coal Oil Aviation Fuel of Future

NEW YORK—Alexander Ogston, member of the aviation department of a large petroleum company, believes that kerosene, the old-fashioned coal oil that grandmother used in her wick lamp and still used in many farm stoves, is the fuel of the future airplane.

Ogston said that while the conventional type of airplane engines would be built for at least 10 years, eventually air liners will be jet propelled. He believes kerosene will fulfill the needs of a safe and economic fuel.

"There is little doubt that a fuel of the general characteristics of kerosene comes closer to satisfying the requirements than any other," he says.

He admitted that there have been some "severe fires" following the crash of a jet fighter plane, using kerosene, but that such crashes have been where the aircraft has hit the ground at high speed, causing complete disintegration of the structure.

Ogston said research was now under way to find means to protect kerosene from freezing at extremely low temperatures. That will be necessary if military planes using kerosene are to operate in the arctic regions.

Young Calves
Young calves that get too much grass and too little hay and grain may scour and fail to put on weight.

White House Reinforced With Steel Skeleton

WASHINGTON—One day during the Christmas holidays, 1947, the 210-pound butler at the White House walked across the second floor study and produced an "over the waves" sensation and tinkling of the chandelier in the Blue room directly below.

That was the first indication that old age was creeping up on the historic structure and it was time to call in the experts.

A problem presented itself. To build a strong modern structure within the walls of the old which was first occupied by John and Abigail Adams in 1800. There were proposals to tear down the entire building and put up a brand new, more modern home for the president.

But the people of the country would not stand for this and the decision was made to spend 5.4 million dollars on rebuilding within the old shell.

Delicate Operation
The work of tearing down the interior is finally finished and the job of rebuilding has begun. The reconstruction job should be finished sometime in October 1951.

Preserving the outer wall of the White House has been a delicate operation. To keep the stone outer wall and the roof it has been necessary to plan a strong steel frame, with new inner walls and floors. Workmen dug 25 feet below the surface to find a solid gravel footing and then built 120 concrete piers to support the outer wall.

Steel H columns resting on separate footings will support the floor beams and the base of the roof trusses. Heavy anchor bars will tie the steel columns to the stone wall. When this job is done the president's butler, no matter how heavy he is, will be unable to make the chandeliers tinkle merely by walking across the floor above.

New Features Added
Although there will be no changes made in the historical rooms, and they will have the same locations and appearances as before, the White House will not be put back together exactly as it was. The building will have three new features—a two level basement, a grand stairway and a modernized third floor.

The two story basement will provide additional space since the height of the White House cannot be changed. There will be offices for a doctor and a dentist, and a room for a barber. The basement also will house a heating system and air conditioning machinery, and will provide needed storage space.

Most striking change will be the new grand stairway—a dignified, winding, open stairway from the second to the first floor. The old stairway was enclosed. In former days, when cabinet members and their wives marched down the stairs at formal receptions while the red coated marine band played the Blue Danube waltz, they would not be seen except at the bottom two steps.

The new third floor was an attic until 1927. Now this floor will have eight guest rooms with baths, all decorated in the same style as the second floor bedrooms.

Pilgrim's Progress Heads List of Most Boring Books

NEW YORK—The Columbia University Press held a poll to determine the 10 books readers considered the most boring and came up with some surprising answers.

Nearly all of the first ten were required reading in high school. Some still are. John Bunyan's "Pilgrim's Progress" took the doubtful honor of first place. These round out the first 10 in the unpopularity contest:

"Melville's 'Moby Dick', Milton's 'Paradise Lost,' Spencer's 'Faerie Queene,' Boswell's 'Life of Samuel Johnson,' Richardson's 'Pamela,' Eliot's 'Silas Marner,' Scott's 'Ivanhoe,' Cervantes' 'Don Quixote' and Goethe's 'Faust.'"

Shakespeare led the field with 17 of his 37 plays gaining mention at least once. However, only one, "As You Like It," ranked as high as 41st place.

The balloting cited works ranging from the Old Testament to Dr. Alfred C. Kinsey's "Sexual Behavior in the Human Male" as at once classic and tedious.

Russians Charge Americans Preparing Bacterial War

LONDON—The Soviet Union, just recovering from the famous potato bug scare, has charged that "American militarists are actively preparing bacterial war."

The United States was accused early this year of dropping potato bugs on East Germany in an effort to destroy the potato crop.

Now the Moscow radio charges: "At the beginning of 1946 eighteen Japanese specialists were sent to the United States—bacteriologists who handed over to their new masters all their material on the production of the bacterial weapon."

The broadcast said secret laboratories in Maryland and Utah were working on the weapon.

Paratrooper Sets Record With 107 Drops in One Day

FAYETTEVILLE, N. C.—A former paratrooper from Dillon, Mont., has set a world's record for parachute leaps in a single day by making 107 drops.

Averaging better than one jump every 6 minutes and exhausting seven pilots, Sgt. John W. Swetich, broke the record with his 107th jump 10 hours to the minute after his first leap.

He successfully topped the official record of 75 leaps by a Yugoslav in London and the unofficial record of 105 leaps claimed by Juan Iriarte of Buenos Aires.

He made his leaps into a plowed field. He wore a sweat shirt and regulation paratrooper trousers, boots, and helmet. He taped his arms where the chute straps bound him.

After each jump, a jeep and a pickup truck met him. The jeep rushed him back to the Piper Cub plane which took him aloft again, while the truck took his chutes to the hangar where six men were kept busy repacking them.

His only complaint at the start was, "If I can survive those jeep rides, I'll be O. K."

Swetich twisted his ankle and sprained his knee on the 51st jump, and slowed down long enough to have his right leg taped. After the 99th jump his aides, all buddies from the 82nd Airborne Division,

decided he should jump from 900 feet instead of 700 because his reactions were slower. From 900 feet he would have time to use his emergency parachute if necessary.

He took only two 5-minute breaks throughout the grind, and ate only a milk shake with three eggs in it and a few candy bars.

110-Year-Old Maryland Woman Registers to Vote

BALTIMORE, Md.—A registrar at the office of the board of supervisors of elections was so startled he had to ask the lady her age a second time.

"One hundred ten," answered Mrs. Annie Ross without batting an eye.

She went on to explain she was born in slavery on Maryland's east shore during the term of President Van Buren. This was the first time she had registered to vote because "nobody influenced me before."

She said she owed her good health to "a little gin now and then."

Precious Alloys

For jewelry platinum, hardened with 5 to 10 percent iridium or five per cent ruthenium or palladium with five per cent ruthenium, is generally employed in the United States. Such tarnish-resistant alloys have very satisfactory mechanical properties, too.

A person married legally the second time is a digamist.

Business Leader With Great War Record Tells How Hadacol Has Rebuilt Him Physically

Was run-down, weak, after service in South Pacific due to deficiencies of Vitamins B₁, B₂, Iron and Niacin

Mr. Donald Hedburg, who resides at 1812 Parker in the fashionable Riverside District of Wichita, Kansas, has been an up-and-coming executive member of the staff of the great Wichita Eagle newspaper for over four years.

Mr. Hedburg has an enviable record of combat with the U. S. Army in the South Pacific in World War II. He is very active in civic affairs. And just as he was anxious to pitch in and do a job during the war—he now wants to help his fellow citizens who (like he was once), are physically run-down and weak due to lack of Vitamins B₁, B₂, Iron, and Niacin in their systems.

Here is Donald W. Hedburg's witnessed statement: "When I returned from service, I faced the problem of rebuilding myself physically. I was in a general run-down condition."

"In my present capacity of advertising salesman for Kansas' greatest newspaper, The Wichita Eagle, it's absolutely necessary that I have plenty of vitality—'get up and go.' I had real cause to worry. Nothing seemed to rebuild me constitutionally. Then a friend of mine on the national staff told me about HADACOL—he asked me to try at least five bottles. I'm on my fourth bottle and already I feel like my old self. I look forward to a day's work and go home—play with the children—work in the yard—fish until midnight! Thanks again to HADACOL, energy and vitality once again course through every fiber of my body. You bet, I too, am now a missionary for this great new HADACOL."

Get That Wonderful HADACOL Feeling Everyone is Talking About

HADACOL gives such wonderful results because it not only supplies deficient, weak run-down systems with more than their daily needs of important

Vitamins B₁, B₂, Iron, and Niacin—but also helpful amounts of precious Calcium, Phosphorus and Manganese—elements so vital to help maintain good health and physical fitness.

If you are a victim of neuritis, certain stomach and nervous disturbances, constipation, insomnia or a weak, run-down condition due to such deficiencies, HADACOL will start you on the road to feeling better often within a few days. Thousands upon thousands of records of grateful men, women and children proved this to be so.

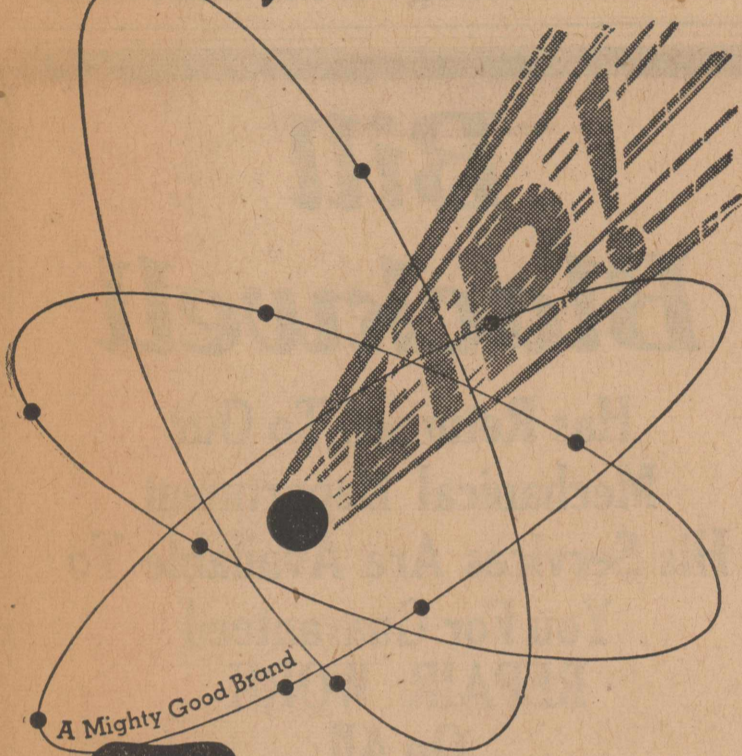

Many Doctors Recommend It
HADACOL is recommended by many doctors not only to their patients but to members of their own families who have such deficiencies. Before giving up hope—you owe it to yourself to at least give HADACOL a chance to help you. Why keep dragging yourself around feeling "half-alive" when it's so easy to have that wonderful HADACOL feeling that everyone is talking about! Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50. Refuse substitutes.

Ears

Jimmy Gets First Ones

GREENVILLE, Pa. — Little Jimmy Meadors has never been an unhappy child because he was different from other children. He didn't have any ears.

Now Jimmy is getting the ears that nature forgot and in another six months he will be just like another nine year old boy. And he's happy about it. The Greenville Rotary Club heard about Jimmy and arranged for the surgical program. The plastic surgery began more than a year ago. First doctors packed rib cartilages in ear-shaped molds and planted them in Jimmy's abdomen to grow. Then the doctors transplanted the ears to Jimmy's head.

At the moment the ears are a little flat, but a few more operations will take care of that as well as the external blood vessels that now run from his new ears a short distance down to his neck.

Cattle Disease
Leptospirosis is a dangerous cat disease which first appeared in this country six years ago and appears to be spreading.

FORMER PLAYBOY

Expects War With Russia

NEW YORK — James Hazen Hyde, the man who once gave parties costing as much as \$200,000 each and spent 36 years of self-imposed exile in France, has returned to the United States to live.

"America is a great and wonderful country," he observed after so many years abroad. He lived in France until 1941.

Hyde fell heir at 23 to the controlling interest in Equitable Life Assurance Society of the United States, a company with a billion dollars worth of insurance on its books.

Shortly after he became head of the company, he was taken in tow by unscrupulous financiers with an eye on the 400 million dollars in Equitable assets. These funds were manipulated to make enormous profits for the operators.

Gave Expensive Parties
Meanwhile, Hyde was throwing some of his biggest parties. The last one was held at Sherry's ballroom in New York and is reported to have cost between \$100,000 and \$200,000. It drew criticism from newspapers throughout the country. Hyde was called a gilded, scented youth in editorials and the incident helped to end his career as an executive.

Insurance policy holders sued the company charging officers with squandering company funds and receiving extravagant salaries. As a result, Charles Evans Hughes directed a cleanup of the affair and enactment of legislation controlling insurance companies. It made Hughes a great public figure.

When the investigation reached the courts Hyde took the stand and hurled charges at nearly every important executive in the company. He indicated that he had been used as a catspaw.

When he left the stand, hundreds of people followed him through the streets, cheering.

Views Russian Power
To get himself out of the mess, however, Hyde sold his interests in the company for \$2,500,000 and went to Paris to live. He had an important part in liaison during World War I.

Now, back in New York, Hyde said he is going to spend the coming war—he believes there will be one—in America.

In explaining the present European situation, Hyde said, "The only thing the Russians understand is force."

He believes our state department is doing a good job fighting communism in Europe through the Marshall plan, and favors the Atlantic pact.

But Americans do not always understand the position of western European countries, he said. Those nations admire and like the United States, but they are living in deadly fear of the huge military force maintained in Europe by Russia.

"Before the United States could ever come to their aid, England and France would be destroyed," he added.

Hyde said the western powers are handicapped in their battle with Russia because the governments of France and England are in control only by bare majorities and because the state department is "weakened by the unfortunate scandal and investigations in Washington."

U.S. Locksmiths Making It Tough Upon Spies

NEW YORK — American locksmiths.

They have come up with some new locks which they say will defy the best efforts of the finest espionage agents in the world.

Even our own agents, and there are none finer, admit they can't crack the new locks.

As for burglars and criminal safe crackers, they just aren't in the running.

Three new locks now are being shown. One already is in use, a second is ready for general distribution, and a third was set up on an experimental basis only a

few days ago. All three are made by Sargent & Greenleaf, Inc., of Rochester, N. Y.

The company, founded in 1857, says its invention of the time lock was the greatest forward step in the industry until today.

To mark that milestone, Sargent Greenleaf invited to a private showing in a New York hotel what it considers some of the best picklocks in the country. They also invited bankers, businessmen and government agents.

Some of these lock experts can be quoted. The agents can't, because their job is two-fold. One is to pick the other fellow's lock. The second is to protect their secrets. Combination locks are simple. Discs with slots are aligned until a lever falls into the slots. Then the lock opens. The moving discs and the falling lever makes a noise.

Legendary cracksmen filed their fingertips to the quick and felt the movement. So locks were refined. Then cracksmen used stethoscopes to listen to the movement. Locks then were made too smooth for that device.

Boll Weevil Threat

At the beginning of the 1950 season the boll weevil threat to cotton appears even greater than 1949 when damage amounted to an estimated \$470 million. Boll weevil population last season was extremely high even in areas where pests seldom occur. Many went into hibernation and the mild winter has been favorable to their survival. It appears likely, therefore, that in a great many areas there are a record number of weevils in the cottonfields and the nearby woodlands.

Nazis

53 Still Active

BONN, Germany. — After months of research it was announced that there are 53 former Nazis in the German government, members of the popularly elected Bundestag, or parliament, of west Germany.

Of the 53, three were members of the elite guard. The three party government coalition breaks down like this: Of 139 Christian democrats, 21 were Nazis. Of 52 Free Democrats, 16 were Nazis. Of 17 German party deputies, six were Nazis.

The cluster of nazis represents more than one-eighth of the 402-member Bundestag. Most of them probably were pressured into joining the party after Adolf Hitler came to power, but nine joined up before he became chancellor.

Ten of the Nazis were from United States-occupied Bavaria. The British-occupied area of northern Germany contributed 27. The Rhur state of North Rhine-Westphalia, the most populous in western Germany, had only seven former Nazis in its 109-man delegation.

Macadamized Roads

John L. MacAdam, the distinguished Englishman, in the 18th Century utilized scientific principles in the repair and construction of roads. MacAdam emphasized surfacing and drainage. Macadamized roads are named for him.

Uses of Papain
U. S. imports papain in relatively large quantities. Such imports amounted to 334,000 pounds in 1947. The greater part came from British East Africa, but Ceylon also contributed a significant share. Papain is utilized commercially in medicinal preparations for digestive ailments and in "tenderizers" for tough meats.

U.S. Has Greatest Food Supply Of Any Country in World Today

A Michigan farmer drove up to his grocery store with 250 pounds of sugar in the back seat of his automobile. He told the merchant he had purchased the sugar before World War II and wanted to exchange it for a fresh supply. The merchant told him, not too politely, where to go. That, perhaps, was an unusual incident, but throughout the nation the greedy have been rushing to purchase large supplies of sugar, nylons, cigarettes, liquor, sheets and even automobiles and household appliances. In some instances the scare buying has reached almost hysterical proportions.

The average citizen, who remembers the shortage of World War II, is not entirely to blame. Inclined to believe the hints and rumors that always prevail in time of national emergencies, the consumer has been listening and following the nudging of many retailers and manufacturers that there will be future shortages.

In one southern town, for instance, a shoe store called its regular customers and told them to come in and buy two or three pairs of shoes before leather became scarce.

Warehouses Overflowing

One customer replied he had need for only one pair of shoes, a steel-toe pair with which to plant a swift kick to the merchant's posterior.

For every one of those persons who are hoarding, however, there are hundreds who listen to the voice of the government proclaiming there will be no shortages. And for every merchant that urges scare buying, there are hundreds who have advertised in newspapers telling consumers their stocks are adequate.

Some stores are offering large sacks with the word "hoarder" in large letters to their customers who they suspect of buying more than their immediate needs. Many others are refusing to sell in large quantities.

All this excess buying and shortage hysteria is about the silliest thing that has overtaken the American public since the wave of gold-fish gulping by college boys a number of years ago.

Food, for instance, is overflowing government warehouses. The department of agriculture has so much wheat, corn, eggs, milk, butter, and other farm commodities on hand it would like to give them away. The government actually doesn't have room to store all of its surplus stocks. On top of this, farm crops are expected to be near record peaks this year and meat production will top last year.

While the scare buying and hoarding appears ridiculous, it has a serious and almost tragic angle, too. Americans are undermining their own economy, forcing prices upward, and thus presenting the possibility of defeat from within.

Americans are remembering 1942 and trying to put the same coat of circumstances on 1950. It will not fit, however.

In 1942 this country took up on itself to feed most of the world, while today we have only ourselves to feed. Barring the kind of buying that brings on controls there will be enough of everything for every American.

In 1942 the United States had to build war plants. Today they are waiting to be reopened and retooled.

During the last war our supply lines reached in every direction, extending thousands of miles over the oceans of the world. Today they stretch across the Pacific ocean where there are no submarines to hinder shipment.

This country has stockpiles of

strategic materials such as lead, bauxite, mica and raw rubber. We have numerous government owned synthetic rubber plants that can more than fill our needs.

Farm Production High

Steel production is greater now than at any time during the war and the petroleum industry has increased production far beyond the peak World War II output.

The farmers of the nation more than anyone else realize how silly it is to hoard. Here are some of the reasons:

Fats and Oils—Stocks are ample because of our near record supplies of cotton seed, soybeans and lard.

Meat—We have over 80 million head of cattle, over 60 million hogs, and the annual output of meat is rising steadily.

Milk—Production will reach a new all-time high this year.

Wheat—We have on hand right now a surplus of nearly 500,000,000 bushels—a half year's supply—left over from last year's crop.

Corn—We have a surplus supply of nearly a billion bushels—half again as much as in 1941.

These supplies could be doubled if necessary, because:

1. Tractors have more than doubled on our farms since 1941, with over 3 1/2 million of them multiplying farm production today.
2. Animals are bred for far better production; a dairy cow now gives one-fifth more milk than one did 25 years ago; a hen lays 43 more eggs per year than one did 15 years ago.
3. Chemical fertilizers have more than doubled in farm use since 1941, greatly increasing crop yields.
4. Over two million trucks, and nearly 6 million automobiles—practically one to each farm—are speeding all farm work.
5. Electrification has spread to over 4 out of 5 farms, vastly increasing use of power equipment. In 1941, only about one-third of our farms were electrified.

Sugar Stocks Adequate

The American people do not like rationing and price controls because it smacks of regimentation and dictatorship, but continued scare buying and hoarding will bring it about quicker than anything except total war.

Sugar buying is perhaps the silliest of all hoarding. Americans generally don't seem to think so. The agriculture department reports the nation's primary distributors sold 37 per cent more sugar during the first three weeks of July than in the corresponding period a year ago. A total of 880,695 tons were distributed between July 1 and July 22, compared with 554,309 in the like period last year.

What makes this ridiculous is the fact the government has made arrangements to purchase Cuba's entire reserve stocks of sugar, totaling some 600,000 tons. This is on top of the largest stock of sugar this country has ever held.

The total available for consumption in 1950 is 8,450,000 tons, compared with the peak consumption of 7,500,000 tons of last year.

Sour Note for Sugar Hoarders

A Washington, D. C., grocer recently stacked sugar outside his store and put up a sign reading, "Special, Five Pounds Sugar, 98c." Lines formed, he said, and he sold about 800 pounds in four hours.

Grocers across the street continued selling sugar at five pounds for 59c and had no rush.

"I just wanted to see the reaction," the grocer said. "I wanted to prove that the price doesn't mean a thing. If they want it they buy it."

THE BIBLE SPEAKS

SCRIPTURE: Luke 1:46-55; 2:17-19; 40-52; Mark 3:31-35; John 2:1-12; 19:25-27; Acts 1:13, 14.

DEVOTIONAL READING: Luke 2:22-35.

Blessed Woman

Lesson for August 27, 1950

A PROTESTANT Christian is essentially a Bible Christian. Among other things, this means he will form his ideas about Bible characters from the Bible itself and not from books about the Bible, not from legends long afterwards invented.

Some Protestants seem not to realize that even a reverent book like "The Greatest Story Ever Told" is as much fiction as it is fact. Yet Protestant Christians are sometimes inclined to go to the opposite extreme. In reacting against the tall tales, they overlook the facts.

If some Christians overdo reverence for Mary, offering prayers and incense before her statues and even going to the point of saying we cannot come to Jesus except through Mary—an idea totally false to the Christian gospel—other Christians make the mistake of neglecting her memory altogether.

Surely we ought not to forget or under-rate the woman who of all the women in the world was chosen of God to be the mother of our Lord Jesus Christ.

God Knew Her Heart

NAZARETH was a small village with no good reputation. Yet it was in that town that Mary grew to womanhood. Man looks on outward appearances, but God looks on the heart.

You might have not selected Mary for the mother of Jesus, or to put it in another way, you would hardly have expected Mary's child to be the person Jesus became. She was very young, for girls were engaged early in that climate and country—perhaps no more than sixteen. She could have had no great education. She was poor, as the whole story shows.

Yet it was not for her education or her social standing or her experience or any such thing, but because of her heart, her character, herself, that the angel came to her that spring day in Nazareth.

Mary's Song

THERE IS no room to tell all that can be known of Mary from the Gospels. We can know or guess much from that one song, the "Magnificat" as it is called from its first word in the Latin translation. (Luke 1:46-55.)

We can tell from this that she was a woman who knew her Bible. Moffatt's translation of the New Testament uses italic type to indicate quotations from the Old Testament; and in this Song of Mary, of its sixteen lines all but two are printed in italics.

Words and phrases came to her in the familiar cadences of the book she knew and loved. Further, she was of a poetic turn of mind. This "Magnificat" has been set to music and sung in churches all over the world. Since Mary was herself a poet, it is not surprising to find that Jesus often spoke in words which sing with the beauty and rhythm of fine poetry.

Patriotism and the Poor

MARY WAS A woman who loved her country. We are so familiar with the "Magnificat" as a church anthem that we overlook it actually and originally was; a hymn of praise to God for his mercies to Mary's nation, Israel.

Her people, so long enslaved, were to be set free. It is a revolutionary hymn, too. Princes are to be dethroned, the proud cast down, the rich made empty; but God will give his help to the hungry and the poor.

Mary and Jesus

LOVE OF HER Bible, love of beauty, love of her country; and most of all, love of God. You could guess this from the words of the angel, but you can see it plainly in this song. It is an outpouring of joy and thankfulness to a God who is very real and near and loved.

Every mother lives again in her sons; in Jesus we can see the manner of woman Mary must have been. When the boy Jesus called God his Father, who had taught him that word? When the young man Jesus fought off temptation by using the Word of God, who had first guided him to do this? Where had Jesus learned Scripture except under his mother's roof?

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by W.P.F. Features.)

This Afternoon Dress Becomes Larger Woman

8398

Interesting Treatment

MANY NEVER SUSPECT CAUSE OF BACKACHES

As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 60 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Use Chewing-Gum Laxative—REMOVES WASTE...NOT GOOD FOOD

When you can't sleep—feel just awful because you need a laxative—do as MILLIONS do—chew FEEN-A-MINT.

FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon...right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy...you feel weak, worn out.

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25¢, 50¢, or only 10¢

Nation Faces Long Term Preparation

Walter Lipmann recently made a point of the highest importance. It is simply that this is the first war in which we have ever engaged where we were heavily outnumbered by our potential enemies. In all past conflicts, the great weight of manpower was on our side, and our basic problem was to organize and equip it for battle. It is true, of course that we have many allies, active and potential. But it is also true that most of them will not or cannot contribute much in the way of

either men or materials to the present fight. The Western European countries are weak and frightened, and they are communists within. A really effective Western military organization exists only on paper, and, at best, it is years away. What is the solution? There are many answers, one being, if we still have the time, to build up our allies and ourselves, to meet force with force. It is generally believed that Russia respects nothing except force, and that nothing else is of any value of substance. That may be correct, and if it is correct, the world has little to look forward to, war or no war, save a long period in which more and more of the country's energies and resources and labor must be given to military machines.

But there are those who believe that, much as force is needed, there are other weapons and that force alone is not enough. Norman Thomas, who has been an implacable foe of communism for many years, is one of them. In an article in the New York Times magazine, he writes of the enormous success communism has had in winning recruits to its side. He says, "Within the confines of the U.S.S.R. Stalin has far more manpower than the United States. But he has not had to invest the lives of his own troops to win any of communism's victories since V-J Day. The 'fanatical hordes' of North Koreans of which we read, heretofore regarded as a peaceful folk, who offered little effective resistance to Japanese conquest. It is certain that neither in Korea nor elsewhere in Asia has our conception of democracy or the idea of peace under law represented by the UN made any such progress as communism has made in winning the devotion of the masses."

Mr. Thomas goes on to consider communists techniques in the field of propaganda, and to describe some of the misconceptions that are felt about us in important circles abroad. Then he writes: "The best answer to these misconceptions is the propaganda of the deed; a steady and relentless effort to put our own house in order. But it is immediately legitimate and important to do a better job than we have done in presenting concretely facts about poverty in Russia, her complete lack of freedom, the extent and significance of Russian slave camps, the terrible thralldom in which the Politburo holds science and art and religion, and the exploitation of the satellite states by the Kremlin."

There are great difficulties here, every man has a different idea of what should be done to "put our own house in order." But it is certainly true that we must do a far better job than we have done in the war of ideas if we are to win real converts to our side and our cause.

Genuine — (Continued from Page 7) to quench quickly sparks of aggression in any part of the world, can hardly be overestimated. We honor countries which have other obligations or seem to be under little immediate threat from aggression in

Korea, but which are contributing men to the UN force. America would like to see countries which have not done so give more consideration to the opportunity to serve the cause of peace in deed as well as word.

Radiation Death Rate Down

CHICAGO — Scientists have announced they can slash the death rate sharply in usually fatal doses of atomic radiation. The University of Chicago research team discovered a few weeks ago the cause of post-radiation infections. This radiation was found to damage the lining of intestines in mice. Bacteria normally present in mice intestines then invaded the blood stream through the damaged lining, causing blood poisoning. The next step was to find an agent that destroyed the bacteria in the blood stream. They tried eight antibiotics. Streptomycin was the most effective. In one group of experimental animals, the streptomycin treatment brought the death rate down to 14 percent, compared with the 80 percent that occurred among untreated animals. In the wartime atomic explosions in Japan, infections of this kind caused the deaths of many persons who survived the blast and heat of the bombs.

British Explorer Plans Expedition For Lost Atlantis

LONDON, Eng.—For centuries men have discussed the legend of the lost continent of Atlantis and the hope of someday discovering it. Soon such an expedition will get underway. Egerton Sykes, 55, explorer and former British diplomat, hopes to go to the Azores some time this year to try to photograph evidence of the submerged continent of Atlantis from a bathysphere. Sykes is chairman of the Atlantic Research Center and last year planned an expedition to Mount Ararat in Turkey to find the original Noah's Ark. The Soviet government charged his mission of seeking the Ark was a cover for espionage activities and the expedition was blocked. The Ararat expedition was planned earlier but was delayed by security considerations which placed on the top-secret list some of the underwater apparatus he intended to use. The apparatus included underwater radar and echo sounding devices which Sykes said could have been used to determine a contour of any submerged architectural structure. Sykes now hopes to get pictures of the relics of the vanished civilization of Atlantis by using submarine cameras from a bathysphere. "I have a fairly good idea where to look," he said. "Obviously we cannot hope to find very much because the area in the Azores I plan to investigate would have been high on a mountainside in Atlantis." "It will be much the same as an explorer of the future relying on relics on the upper slopes of Mount Blanc in the Alps to prove the existence of civilization in Europe." He thinks, however, there should be traces, perhaps even a temple, which will give photographic proof of a civilization which vanished about 10,000 years before Christ.

Weevil Threat in South Greatest in Many Years

ATLANTA — The boll weevil threatened more devastation this spring in the south since it first invaded this country, agricultural experts reported. The onslaught was attributed to two mild winters in a row that spawned a record-breaking number of the pests. In the moist regions of the Gulf Coast and in Texas, where an early drought was followed by excessive rains, farmers had difficulty poisoning the weevil by airplane and other methods. Early reports indicated the Texas crop was heavily infested. Louisiana, Mississippi, Alabama, Georgia and the Carolinas reported the worst sprinkling of the pest in years, some the worst in history. The early counts also were heavy in Arkansas and west Tennessee. Tennessee, Arkansas, Georgia, and parts of other states had several hot, dry weeks. Farmers took

advantage of the break to pour on the poison.

THEY MEANT IT

An insurance agent asked a cowboy if he had ever had any accidents. "No," replied the cowboy, "none to speak of — a bronc kicked in a couple of my ribs and busted my collar bone and a rattlesnake bit me last year." "Goodness gracious," said the

agent, "don't you call those accidents?"

"No," said the cowpuncher, "they done it a-purpose."
