

## Three Future Farmers Bring Home \$41.00 From The Guymon Free Fair

Donald Ellison, Roy Newman, and Buddy Palmer won a grand total of \$41.00 in prize money at the annual Texas County Free Fair, in Guymon, Oklahoma this week.

Donald Ellison showed the grand champion boar of the fair. This is the boar that Donald purchased from Leroy Thornburg of White Deer. Mr. Thornburg has captured many blue ribbons with the sire of Donalds animal, and it seems now, that "Ace-High", Donalds registered Poland China Boar, may have just as bright a future ahead of him as did his sire. It is with Donald's boar, that the Agriculture boys hope to build a strong herd of Poland China Hogs.

Roy Lee Newman showed the reserve champion female hog of all breeds, and grand champion of her breed at the Guymon Fair. This animal is closely related to Ellison's animal. They are both of the same high quality breeding, and were both purchased from Thornburg's show winning stock.

Capturing second and third places in the Poland China Gilt class, were Buddy Paymer and Donald Ellison. These two animals are of the same breeding as the Grand Champion boar, and the Reserve Champion Gilt.

The first, second, and third places won by the boys, was in the F.F.A. class, and the open division.

Roy Lee Newman did a fine job of showing the first place winner in the F.F.A. Summer Yearling group. Roy's calf is from Pronger Bros. herd in the open division, contesting for grand champion of the show, Roy placed third with his calf. Because of bad weather, Roy did not get to show his calf at the Stratford Junior Fair.

Johnny Summerour showed one of his father's bulls which took second in his class. From all indications, he would have placed higher, had it not been for lameness, which was obviously brought about by a long feeding period in conjunction with fitting of the hoofs for the show. Johnny did a fine job of showing the animal, and might have been rated as the best show-man at the fair. A good animal shown poorly, will often suffer great setbacks in the final placings.

## Democrats Would Force Red Registration

Mr. and Mrs. Walter Pendleton returned home Friday from the State Democratic convention held in Mineral Wells, Texas with reports of an education in observation of the working of a political party.

The convention was opened with several stormy debates when delegates were contested on a basis of having supported members of other parties in recent elections.

The disputes continued until Governor Allan Shivers took a hand to smooth the waters in asking that all delegates be seated who were now affiliated in the ranks of the Democratic Party.

Hardly had state issues been settled when dissention arose in the ranks of the Panhandle delegation over men who were to be named as district officers from this district. Pendleton acted as secretary for the district caucus.

A resolution to force all communists to register as members of the Communist party under penalty of death for failure to do so carried by a heavy majority. The proposed law would also include any penalty which might be imposed by a Texas jury.

The most coveted office in the district seems to be that of district chairman, which is held by Charlie Gibson of Amarillo, Pendleton said.

Vermont was the first state to be admitted to the Union after the original 13.

Alexander the Great wept because he had no more worlds to conquer.

## Mrs. Keenan Observes 92nd Birthday

Mrs. M. Keenan celebrated her 92nd birthday Sunday in a quiet day as the honoree at a birthday dinner attended by members of the family.

Those enjoying the day at the Keenan home were the honoree, Mrs. M. Keenan, Mrs. Jessie Wilson, Mr. and Mrs. Willis Keenan of Chillicothe, Texas, Mrs. Joe Duncan and three sons of Crowley, Texas, Mrs. Agnes Bailey of Wichita Falls, Texas, Mr. and Mrs. Wilbur Wilson and daughters of Hartley, Texas, and Mr. and Mrs. Jack Seig and Olive of Stratford.

## Lions And Lionesses Hear District Governor

District Governor Marshall Harvey of Lubbock was the principal speaker at the meeting of the Stratford Lions Club Monday night. It was a ladies night occasion.

Governor Harvey, who has held every office in the Lions Club organization, and who has a perfect attendance record at Lions club meetings since 1933, devoted his remarks to the ideals of Lionism. He pictured Lionism as an unselfish, non-political, non-sectarian organization devoting its efforts to the well being of those who needed help with no thought of personal gain.

Lions clubs, Harvey said, have the largest number of members of any organization in the world, and has organizations in 28 nations. The ideal of the 4 1/2 million is to perfect the cause of being able to live together, having fun together, and pushing together.

Lionism was founded by a Texan, the present International President, Herb Petree, is a Texan, and the Director General, Roy Keaton, is a resident of Austin, Texas. In view of the responsibilities taken in Lionism by men of the state, he encouraged members to strive to enlarge the membership of the organization with good progressive men in order that the full program of Lionism might be carried out. Harvey announced that land had been secured near the Veterans Hospital at Kerrville, where Lions will establish a summer camp for crippled children. The camp will take over where the physician leaves off to provide recreation and outdoor privileges for crippled children who would otherwise be deprived of such experiences.

Dr. Harvey closed his remarks with the following words: "This is the destiny of brothers. All we send into the lives of others comes back into our own."

Kenneth Kendrick introduced the speaker of the evening, President W. O. Bryant presided. The opening song was lead by Walter M. Pendleton. The pledge of allegiance to the flag was repeated. Rev. H. A. Nichols gave the invocation. Rev. John Reaves pronounced the benediction.

## Will Select Cage Tourney Town Tuesday

A meeting of school officials will be held in Gruver Tuesday evening of next week to elect Interscholastic League officials to manage basketball plans for District 1-B boys and North Panhandle Plains district girls.

R. W. Stewart of Stratford has served as chairman of the boys basketball league in this district since he accepted the position of coach with the Stratford High School. Maurice Norman, a former girls coach in the Stratford school, who now coaches at Dalhart, is chairman of the girls district.

At the joint session officers will be elected and towns where the district tournaments will be held will be selected. Following this meeting schedules for both boys and girls will be established separately.

# THE STRATFORD STAR

Volume 45. Stratford, Sherman County, Texas, Thursday, September 21, 1950. No. 50.

## Army Calls Three Boys For Service

Dean Edson Turner, Marvin Leon Thompson, Stratford, and Robert Dale Weller, Conlen, reported in Amarillo today (Thursday) for induction into the U. S. Army for military service. They are the first men from this territory to be inducted during the present conflict. They represent men from this immediate section who will fill the present quota of Draft Board 25, which serves Sherman, Dallam, Hartley, and Moore Counties.

### 12 Boys On Roster

Twelve young men of the four-county district passed their physical examinations for induction into the armed forces at examinations held September 13.

Physically fit and subject to orders for duty are: Rodney Lee Ellison, Joseph Lynn Skipper, Jr., Marvin Jacob Farriell, Eldon Eudell Blank, Bill Edward Williams, James Henry Bradley, Louis Lee Dowling, Benny Wallace Hargis, Walton Danny Williams, Albert Lee Moore, Bill Gene Rice, and Eugene Herman Bergner.

Under the present selective service zoning, young men of the four-county area are considered as though they were residents of one county. Induction orders are filled according to ages and physical fitness regardless of what part of the four-county area in which they may live.

## Cherub Choir Gave Musical Sunday Night

The Cherub Choir, composed of talented young singers 12 years of age and younger, presented a musical program at the First Christian Church Sunday night. Their program consisted of 21 numbers. Mrs. John Reaves, choir leader, has been rehearsing the group each Wednesday during the summer months.

The Cherub Choir will meet at the church with Mrs. Reaves at 4:00 o'clock Wednesday afternoons during the winter months. A Bible study for the children will be held on Wednesday and a quiz will be conducted Sunday nights.

## S. H. Crowe Succumbs In Tucumcari

S. H. Crowe, age 78, a brother-in-law of Mrs. Joe Brown, succumbed to a lingering illness at 12:30 A. M. Wednesday in Tucumcari, New Mexico. Tentative arrangements set the time of the funeral for 3:00 P. M. Friday. Mr. Crowe was well known in Stratford, having visited in the home of Mr. and Mrs. Joe Brown on numerous occasions.

Relatives and close friends in Stratford who will attend the funeral will include Mr. and Mrs. Joe Brown, Mr. and Mrs. Laurel Haile, Mr. and Mrs. William Hart, R. L. Baskin, T. F. Baskin, Jr., T. F. Baskin, III, Mr. and Mrs. L. B. Haile, Arlyn Haile, and Mr. and Mrs. Baskin Brown.

## Mrs. Bennett Hostess To Star Club

The Star Home Demonstration Club met Tuesday of last week in the home of Mrs. Harold Bennett with 15 members and Miss Dorothy Dixon attending. Miss Dixon gave instructions for making aluminum trays. Most members have begun work on their trays, and have hopes of having them finished by the time of the next meeting. The Star Home Demonstration Club will meet September 26 in the home of Mrs. Shuler Donelson.

## Davis Funeral Will Be Held Friday Afternoon

Funeral services for R. J. Davis will be conducted at the First Baptist Church in Stratford Friday afternoon at 3:00 o'clock. Mr. Davis died suddenly at his home in Stratford Thursday morning.

## Boy Scout Gathering Tuesday Night

A meeting to which all boys of Cub Scout and Scout ages and their parents are invited, will be held at 7:30 P. M. in the American Legion Hall Tuesday.

A covered dish luncheon will highlight the meeting.

The object of the meeting is to introduce the Fall Round-Up Program for Cub Scouts of Sherman County. Boy Scouts and their parents of the Conlen community have been invited to attend.

Boys in the age group of 8 to 9 years are especially urged to be present. For entertainment, a movie, "The Years Between," will be shown.

A court of honor will be held and at this time awards will be presented to scouts for advancements they have made while attending summer camps.

Neighborhood Commissioner Clifford Byrd will be in charge of the meeting. He will be assisted by W. M. Teague, scout field executive.

## Mrs. Hodges Buys Home In Stratford

Mrs. Bessie Hodges has purchased a home in the north central part of Stratford from Mr. and Mrs. G. L. Taylor. Mr. Taylor recently had the house moved to Stratford from his farm west of town. The new home has been completely remodeled.

## Mrs. Earl Smith Released From Hospital

Mrs. Earl Smith was brought home Tuesday from Northwest Texas Hospital in Amarillo where she had been a patient for a month.

## 41-Piece Band Will March Saturday

Forty-one members of the Stratford High School Band will march in the Baca County Fair parade at Springfield, Colorado Saturday at 11:00 A. M. Mountain Time. The youthful musicians will leave Stratford in school buses and private cars at 9:00 A. M.

It is the hope of the band that it will receive one of the two trophies offered by the Springfield Chamber of Commerce for the two best bands entering the parade.

## Students Leave For College In Colorado

Miss Judy Sherrod, Joe Pete Flores, and Jack Reed left Saturday to resume college studies in Colorado. Miss Sherrod will attend the University of Colorado at Boulder. Flores and Reed have enrolled in Colorado A. & M. at Fort Collins, Colorado.

George I of England was a German and could not speak English.

## Revival To Continue For Third Week

Revival services at the Assembly of God Church will continue through Sunday, October 1, for the third week of the meeting, it was announced this week by Rev. I. L. Walker, pastor of the church, and Rev. Otis Runyan, who is conducting the meeting.

Services are held each evening at 7:30 o'clock except Saturday. Doors of the church are open to the public for all services.

## Warren Buys Bammes Holdings On U.S. 54

Hershel Warren, Clayton, New Mexico Skelly dealer, closed a deal for the seven lots and two buildings belonging to Alfred Bammes on U. S. Highway 54 East of Main Street Wednesday. Bammes has operated the Bammes Garage in Stratford since he received his discharge from Naval service.

## Funeral Service Sunday For Hogue Infant

Graveside services were conducted Sunday in the Stratford cemetery for the 4-day old son of Mr. and Mrs. Bill Hogue of Tucumcari, New Mexico by Rev. John Reaves. Mrs. Hogue will be remembered in Stratford as Miss Aline Eastman, daughter of a former pastor of the First Christian Church.

## Miss Bridwell Returns To SMU In Dallas

Miss Jacqueline Bridwell was driven to Dallas Sunday by her brother, Wallace, where she will take up her work as a sophomore in Southern Methodist University. Wallace Bridwell is a senior at P.A.M.C. in Goodwell, Oklahoma.

## Miss Beauchamp Married Sunday In Clayton

Miss Erma Lee Beauchamp, daughter of Mr. and Mrs. Henry Beauchamp of Clayton, New Mexico, became the bride of Guy Drenan of Boise City, Oklahoma in a wedding ceremony solemnized Sunday morning in Clayton. The double ring ceremony was read by Rev. Hubert Brown, pastor of the First Baptist Church of Clayton, in the home of the bride's parents.

Miss Mary Lou Lavake, a niece of the bride, and Bud Aycock attended the couple.

Out of town guests were Mr. and Mrs. Pruet Adkins and Eloise, Mr. and Mrs. J. B. Springfield, Mrs. John Lavake, and daughter, Mary Lou, all of Stratford, and Bud Aycock of Boise City.

The couple will make their home in Boise City.

## New Arrivals

Mr. and Mrs. Charles Simons are the parents of a 7 pound 5 ounce daughter born Friday morning in a Fort Worth Hospital.

Mr. and Mrs. H. F. McIntosh are the parents of a 7 pound 3 ounce daughter born Monday morning in Loretto Hospital in Dalhart. Little Miss McIntosh has been named Mary Katherine.

Mr. and Mrs. Alvin O'Quin are the parents of a 7 pound 13 ounce son born Monday in Dumas Memorial Hospital. He has been named Rickey Glenn.

## Wayland Group To Appear At Baptist Church

A group of students from Wayland Baptist College will conduct services at the Baptist Church Saturday night at eight o'clock, at the regular worship service Sunday morning at eleven o'clock, and Sunday afternoon at two o'clock.

The public is invited to attend any or all of these services, Rev. M. E. Upchurch, pastor of the church announces.

## Pfc. Cameron Receives High School Diploma

Pfc. Harold Cameron received his high school diploma from the United States Army at Fort Ord, California this week. Before the outbreak of hostilities he was scheduled for a leave to visit Stratford. Recent developments in the war effort will make this trip impossible. He will leave with the infantry for overseas duty the latter part of this month.

## Celebrates On Birthday

Mrs. Hollis Harrington entertained Saturday in honor of her daughter, Holly's ninth birthday. At six o'clock the honoree and her guests were served ice cream and cake from a beautifully laid table done in pink and white. Friends dropped in during the evening to admire the gifts, and were served ice cream and cake by the hostess.

Guests remaining for a slumber party were Linda Riffe, Frankie Aduddell and Sue Ellen Flores.

## Frank Judd Has Major Operation

Frank Judd underwent an operation for correction of a deformity in his spine in McBryde Bone and Joint Hospital in Oklahoma City Monday and is reported to be resting well. He was taken to Oklahoma City in the Wilson ambulance Friday night. Mrs. Frank Judd, Leroy Judd, Arthur Judd, and Mr. and Mrs. Paul Aduddell accompanied the patient to Oklahoma City.

## Mrs. Allen Complimented With Shower

Mrs. William Allen was complimented with a lullaby shower Tuesday afternoon in the home of Mrs. M. R. Robinson with Mrs. Billy Cummings and Mrs. William Hart assisting as co-hostesses.

The entertaining rooms were decorated with dahlias and a dahlia arrangement formed the centerpiece of the serving table from which Mrs. Roy Allen and Mrs. John Steel served refreshments to the guests.

## Joe Crabtree Enters College At Stillwater

Joe Crabtree left Thursday of last week for Stillwater, Oklahoma where he has enrolled in Oklahoma A. & M. College.

## Linda Plunk Released From Hospital

Little Linda Plunk, daughter of Mr. and Mrs. Virgil Plunk, was brought home Saturday from an Amarillo hospital where she recently underwent an eye operation.

The shot fired by the American colonists at Concord was the "shot heard" around the world.

## Wheat Kings To Receive Crowns Saturday

Wheat producers, 4-H club boys and girls, and FFA and FHA boys and girls will compete for honors at the Tri-State Fair in Amarillo Saturday.

Major events will be the crowning of the Wheat Kings of the two divisions and of the Baking Queen.

Miss Carolyn Folsom, winner of the Sherman County 4-H club baking contest is competing for honors in the Baking Queen contest. Her exhibit is on display in the Fine Arts building.

Jimmy Weatherford is competing for the 4-H title as a Wheat King with a sample of Cheyenne wheat and Edwin Weatherford is a contestant with a sample of Westar wheat. Adults competing in the Wheat King contest are C. A. Weatherford, N. W. Hudson, W. O. Bryant, Meritt Sweny, and Arthur Cartrite.

Miss Carolyn Folsom has won a red ribbon at the fair for her entry of a winter squash and Stanley Folsom has won a white ribbon with his entry of a winter squash.

## Youth Recreation Hall Opened In School Building

The school youth recreation hall, provided primarily for students of the eighth grade and students in high school, is open and it is the hope of school officials that the hall will be available at least three days a week. Parent-Teacher Association mothers, Band Mothers Club members, and other mothers of the town have volunteered their services as supervisors for the recreation hall which will be open from 7:00 to 9:30 on Monday and Thursday evenings, and from 7:00 until 11:00 o'clock on Saturdays.

The recreation hall facilities are open to all students of the school except those whose names appear on the failing list. It is the ruling of school officials that these students should be at home studying to make up these grades and they will not be allowed to enjoy the recreational events.

At present there are two shuffle board courts, two tennis tables, 3 divans, a radio, two easy chairs, two soft drink dispensers, and a confection counter at which candy may be purchased in the hall. Additional facilities will be added as funds are available.

## Ladies Have Luncheon At Church

Members of the Christian Women's Fellowship met Wednesday in the basement of the First Christian Church for a noon luncheon.

After the luncheon and social hour, the meeting was called to order with Mrs. T. L. Wakefield presiding.

Mrs. W. D. Brannan was the program leader. Following a song by the group several scriptures were given by Mrs. Odie Bryant, Mrs. Harmon Lowe, Mrs. Arthur Folsom, and Mrs. Demus Eller. Mrs. Ora Bomer offered prayer. Discussions by Mrs. Joe Billington and Mrs. Bernard Dovel was given on "Women's Work in the Church." Mrs. Fred Senna gave a talk on "We Have Long Arms." The devotional was given by Mrs. L. L. Lyon.

Mrs. T. L. Wakefield conducted a short business session and the meeting was dismissed with the benediction.

## FFA Boys Win Display Prize At Amarillo

Stratford Future Farmers of America were awarded third place on their educational booth at the Tri-State Fair in Amarillo. The booth was designed from theme, "Moisture in the soil" is money in the bank, summer money.

### Ben Bidy Buys New Home In Stratford

Mr. and Mrs. Ben Bidy have purchased the house recently vacated by Mr. and Mrs. Wright Davis and plan to move to Stratford in the near future to make their home.

A speculative scheme organized by John Law for paying off the national debt of France was called the Mississippi Bubble.

### 50-Piece Band Rehearsing For Concert

Band Director Dan Whitaker announces this week that a 50-piece concert band of Stratford High School students will make their appearance in a band concert in the school auditorium in November or early December.

At this time the band sweetheart will be crowned. It is quite possible the Junior Band will be presented for the first time at this concert.

### Mrs. Allen Entertains Embroidery Club

Mrs. Roy Allen entertained the Embroidery Club in her home Thursday of last week with a covered dish luncheon. Fourteen members and four guests attended. Mrs. A. E. Pronger was received into the club as a new member.

### Jimmy Forester Remains Seriously Ill In California

Jimmy Forester remains in a serious condition at his home in Alameda, California. It was learned from his grandmother, Mrs. A. L. Sutton.

### LARGEST METEOR Prospector Finds Crater

TORONTO, Canada—What is believed to be the largest known meteoritic crater has been found in a silent and moss-covered granite plain of Northern Quebec.

The new crater is two and a half miles wide. It is heaped of solid granite, a party of Canadian explorers report. Walls of the mammoth ring rise 550 feet above the tundra. In the uninhabited plain around the crater are concentric ripples in the granite, like those formed when a pebble is dropped into a pond.

The crater lies at the northernmost tip of Quebec and was discovered by a prospector, Dr. V. Ben Meen, director of the Royal Ontario Museum of Geology and mineralogy who studied the crater believes it is of meteoritic origin.

He reported if a similar meteorite struck Manhattan Island the city would be torn from the earth and life would be eliminated within a radius of 100 miles by shock waves. The crust of the earth would ripple like pond water.

3,000 Years Old  
The crater is filled with water to an unknown depth. The surface is frozen three feet thick even in mid-summer. Year-round snows pile in the rocks making up the lip of the basin. The lake inside is eighty feet higher than other small lakes in the area, indicating that it was built up after an underground explosion such as a meteorite would cause on impact.

Dr. Meen placed the time of the cosmic collision, in which at least 10 billion tons of rock were gouged out of the face of the earth, at 3,000 to 5,000 years ago, reasoning the minimum from absence of mention in Eskimo or Indian lore and the maximum from the failure of the last retreating glacier, to disturb the churned up rock.

Present astronomical theory holds that all meteorites and many "shooting stars" are the result of debris from an earth-size planet between Mars and Jupiter which exploded sometime in the past. When such interplanetary wanderers enter the earth's orbit at tremendous speed, the friction of the atmosphere makes them white hot. Most of them are consumed or they fall gently as soft dust.

One of Great Wonders  
The ridge around the crater basin is lowest on the northwest side. At the southeast point, its highest elevation, 550 feet, are two peaks with a clearly defined shallow depression between them.

This indicates that the crater was formed by an obliquely driving missile, and it may indicate the direction from which the body approached the earth.

Dr. Meen said that his party felt like ants climbing up and down the sides of a baseball stadium as they tried to reconstruct what must have happened. It took seven hours the first time climbers ascended the slope.

At first the party believed that they were the first white men to visit the area. But one of them found an abandoned tin can on the shore of a nearby lake where their amphibian plane landed. Someone recently had stopped close to one of the world's greatest wonders without knowing it.

### Invisible Radioactive Dust Could Poison Large Area

CAMBRIDGE, England—An invisible film of radioactive matter can be used to make a land area uninhabitable "for several months," a British atomic scientist reports. Prof. E. S. Shire, an atomic researcher reports:

"Details are still secret about quantities, but I think that the radioactive poisons from a 1,000,000-kilowatt pile could cover 1,000 square miles, say the size of greater London.

"I should be surprised if the United States has not now atomic piles totaling much more than 1,000,000 kilowatts.

A pile is a device for "burning" fissionable matter, such as plutonium, to produce power.

### Air Force Feasts On Pre-Cooked Meals From Electric Ovens

DAYTON, Ohio—The Air Force boys cruise along at 30,000 feet these days and feast on pre-cooked meals from novel electric ovens. Housewives of the nations have never seen anything like the high-altitude devices that heats up frozen or canned food for the air force.

Chow for the big bomber crews may mean a frozen meal of meat or seafood, potatoes, as you like them, and a green vegetable—all wrapped in disposable aluminum trays. Soluble beverages and utensils come along.

Or they can open cans of boned chicken, beef and pork loaf, beef and corn, pork and applesauce.

ground meat and spaghetti or chopped ham and eggs. With them come a fruit course, crackers and cookies, and candy for dessert.

The new ovens can heat eight cans of rations in about 11 minutes. The B-3 ovens are ideal for B-29 and B-50 bombers, even under combat conditions.

Each oven has a capacity of eight cans of IF-2 rations. They get hot about 400 watt units, plus side units of 120 watts. But their thermostats keep the heat below 212 degrees. So that the cans won't become hot enough to explode.

Larger B-1 ovens can heat 48 cans of rations in 35 minutes on troop-carrying aircraft.

But the 16-man, B-36 bomber crews will have special B-4 ovens. They can heat six frozen meals in 35 minutes, as well as IF-2 rations. Each B-36 will boast two of the big

ovens, weighing 20 pounds each, plus four tiny ice boxes for the frozen meals.

And coming up is a small B-5 oven for fighter planes. It will hold two or three cans of IF-2 rations and come equipped with a motor-driven can opener.

They will permit the busy fighter pilot to heat and open his rations with one hand.

### Wet Soles

Leather soles are water-resistant. Should a rainstorm give you a drenching, dry your shoes at room temperature—never near a radiator or fire!

### Young Turkeys

Young Turkeys grow so fast and make such good use of every bit of grain that poultry specialists of the U.S. department of agriculture are taking special interest in the marketing of turkey broilers.

### Morehead Planetarium

The Morehead planetarium at the University of North Carolina is the only one on an American campus. It draws thousands of visitors.

### Thawed Poultry

When using thawed poultry, the bird should be kept frozen until time to thaw for cooking.

## Homecoming At PAMC October 14

Homecoming plans at Panhandle A. & M. College are underway according to Leo Cockrell, Durham, senior at Panhan-

dle A. & M. and student body president. Homecoming has been slated for Saturday, October 14. It will feature the Panhandle Ag-Alamosa, Colorado in a football game at 2:00 P. M. During the course of the day dinners will be held, a parade, special entertainment for grad-

uates and former students, and tours of the expanding campus. Cockrell expects to name committee chairmen and members to the various homecoming committees in the very near future.

## New Grasses For Texas

Over 650 different kinds of grasses obtained from all parts of the world have been planted by the Texas Agricultural Experiment Station during the period since 1907.

Dr. R. C. Potts, associate professor of agronomy in charge of the forage crop investigations, says that the Experiment Station is always on the lookout for new grasses. Some of the new grasses are collected by Expeditions that are sent to all parts of the world, and others are obtained through an exchange of seed with agricultural workers in foreign countries.

Dr. Potts points out that a large percent of the pasture grasses planted in Texas today are introduced species. Dallis grass, Bermuda, Rhodes, Sudan, Yellow beardgrass, Angleton grass and many others are in

Reprinted from Charleston, W. Va. "Gazette"

in this category. In the past year, over 100 different grass species have been planted in the Experiment Station introductory garden at College Station. When grasses are obtained that apparently are not adapted to the weather conditions of College Station, they are planted at the Experiment Stations at Weslaco, Chillicothe or Amarillo.

According to Dr. Potts, several years are required for observing a promising new grass and to determine its adaptation to various soil and climatic conditions in the state. It is tested for yield and chemical composition and is compared with other grasses. After a few years, the proof of its value is determined by subjecting it to a grazing test.

After the value of the new grass is definitely proven, 10 to 20 years may pass before the farmers accept it and start planting it for pasture use. As an example of the farmers' reluctance to accept a new grass, Dr. Potts points out that in 1926 the Texas Agricultural Experiment Station published a bulletin on Angleton grass, and today, Angleton grass is just coming into use.

Buffel grass of Australia, South African bluestem, Coastal Bermuda, Texas winter grass, and the perennial crab grasses are some of the new species which Dr. Potts says may become economically important in Texas in the future.

## New Mechanism Protects Coffee Taste, Quality

NEW YORK.—Housewives whose coffee tastes exactly the same each morning may owe thanks for its uniformity to a piece of clay tile—not on their kitchen walls, but in the plant where the coffee is roasted.

Coffee companies use a new photo-electric cell mechanism to keep a watchful electric eye on roasting coffee beans. The mechanism, called a colorimeter, is so sensitive it detects the slightest change in the color of the bean—which would mean a change in its taste and aroma.

Occasionally the colorimeter goes blind. It fails to function properly and can't spot small changes in the coffee bean color. To check the machine, engineers decided to expose it regularly to a substance that always retains the same color despite great changes in temperature and light conditions.

They discovered that clay tile, which holds its original baked-in-color for years despite hard wear and temperature variations, is the ideal material for checking the colorimeter. If the mechanism reacts the same every time it's exposed to the same piece of tile, it's not colorblind and can properly police the roasting beans.

So, the tile polices the machine that polices the roasting coffee. Thanks to a few small pieces of the same substance that lines many kitchen walls the coffee made in the kitchen has the same taste each day.

**Makes Heat "Bounce" Off**  
By painting the upper half of the fuselages with a finish which reflects the sun's heat, the temperature inside passenger planes has been cut by as much as 10 to 15 degrees during airport stops.

**Lima Beans**  
When shopping for lima beans, choose pods that are well filled, clean, bright, fresh, and dark-green in color.

chairman of the Sherman County PMA committee, urges all eligible farmers to get their sights set on the best possible farmer candidates. The date of the election and polling places will be announced later.

The communities for which committeemen will be elected, and present committeemen are:

"A" (Stratford) Community: Sam Wohlford, Chairman; Jim Smith, Regular Member; W. O. Bryant, Alternate; Floyd Keener, Alternate.

"B" (Texhoma) Community: Roy Schafer, Chairman; N. F. Renner, Vice-Chairman; B. W. Hale, Regular Member; S. R. Lasley, Alternate; Vernon Bullard, Alternate.

"C" (Spurlock) Community: H. A. Carter, Chairman; Roy Browder, Vice-Chairman; Joseph Morris, Regular Member; Durward Cluck, Alternate; Lacey Fedric, Alternate.

The farmers elected in the coming election will take office January 1 and serve throughout 1951. Community committeemen, chairman R. C. Buckles explains, assist in the administration of PMA and other assigned programs in their communities including the Agricultural Conservation Program, storage and loan programs, Federal Crop insurance and sugar

program. All farmers taking part in these programs are eligible to vote.

## New Instrument Aids Farmer

FORD TRACTORS now coming off the assembly lines at the Ford Highland Park, Michigan, Plant are equipped with the new Proof-Meter, an instrument which "takes the guesswork out of tractor operation." Actually five instruments in one, the Proof-Meter shows engine speed, tractor speed, power take-off speed, belt pulley speed and total hours worked by the tractor. The farmer in the picture is recording hours of tractor operation for use in determining his farming costs. In the lower right hand corner is an enlarged close-up of the Proof-Meter, which Dearborn Motors officials say is the first instrument of its kind to be made available on a farm tractor.

**Cat Worship**  
The ancient Egyptians worshipped cats and even built temples in their honor. When a favored cat died, its body was often mummified. Placed in a prayer-decorated coffin, it was sometimes buried in the tombs of princes or princesses.

## PMA Elections Coming Up

With the annual election of Production and Marketing Administration community committeemen coming up in the next few weeks, R. C. Buckles,

Here is one of the countless variations of the "Quonset 24". Three sections are used as an implement shed; the fourth section, enclosed and fitted with walk-door and window in side panel, makes an ideal workshop.

This simple adaptation, with the entire front unenclosed, is used as a loafing barn for livestock.

This sturdy, attractive roadside stand—a four-section "Quonset 24"—furnishes a fitting display for farm produce.

## THE STRAN-STEEL "Quonset 24"

Designed on a new principle and built with new materials, the "Quonset 24" is a really modern farm building, better for scores of uses. It is 24 feet wide, with the length extendable in sections of 12 feet... 24'x24', 24'x36', 24'x48', and so on.

"Quonsets" are the only buildings that combine all-steel construction with great flexibility. Each 12-foot section can be individually equipped as desired. It may be partitioned or not; the front may be enclosed, left open or fitted with roller doors; extra sections may be added whenever required. Additional windows and walk-doors, insulation and other equipment are easily installed. This wide utility is due to a unique, fast construction method, which employs Stran-Steel nailable framing members and sheet steel covering that is nailed directly to them.

Inexpensive to build, easy to erect and maintain, fire-safe, the "Quonset 24" is a sound building investment. Write us for full details.

"Quonset" buildings are products of Great Lakes Steel Corporation, a unit of National Steel Corporation

**Splutterfuss**

(The Editor's Steam Valve)  
 This week I stand at attention to extend a salute to Dean Edson Turner, Robert Dale Weller, and Marvin Leon Thompson, local boys who are today entering the armed forces to carry out the commands of military duties in the defense of the ideals of the United States.

You are sacrificing for a time at least, everything that you hold dear, and for which you have worked in preparation for undertaking. You will instead perform many duties which you will find highly distasteful.

I hope you will serve your entire tour of duty without even getting a scratch or hearing the burst of enemy shell fire.

In changing from your mode of life in which you, your loved ones and your friends have planned for you a peaceful useful career you will come in contact with the occasional thought that you are departing on a trip from which there will be no return. In this frame of mind you are very likely to conduct yourself in such a manner on many an occasion which you would never think of in the normal pursuit of life. I would be the last to condemn you for this folly during your weak moments. The facts are however that you have a large percentage of odds in your favor of returning to civilian life without any impairment other than the loss of contact with your daily pursuits of civilian life. You are entering the armed forces to complete a job. It is your desire to do this as though you were merely taking a short vacation and when it is over you hope to return home, put on your civilian clothes and continue your life just as though you had never been away. That has been the normal desire of every man putting on a uniform in time of war since time began. Unfortunately the cloths you lay aside are likely not to fit when you return home. The things you did with ease in civilian life may have slipped from your grasp. The friends with whom you talked in easy conversation are likely to carry on conversations about things of which you know nothing, and they are likely to have very little interest in the things which you consider highly important.

Your return home to civilian life will be the most grueling experience of your life. It is with this in mind that I advise you to guard your health with the same devotion with which you perform your military services.

Boys, when you have reached the breaking point of human endurance, drink if you must, but only of alcoholic beverages with which you are familiar and throw the bottle away

the minute you feel a buzz. When you have reached this point you have reached the point of relaxation and further indulgence will result only in experiences you will regret. As you go to distant points you will find many mixtures and con-

coctions. Two of these which are available to you will sooner or later result in impairment of your nervous system if not in death for the medical corps can not stand over you continually nor can they always have a laboratory available to detect the findings of the stomach pump. Whatever you do, don't drink either the mixture of gasoline and milk nor the mixture of duplicating ink and extract. The odds are against you in these two drinks and its like Russian Roulette only you don't have as many chances for survival.

**Timid Bull Escapes Death By Fleeing From Arena**

MALAGA, Spain — Cacharrero, the bull, didn't want to die so he jumped into the stands with the fans. Cacharrero leaped the arena's five foot barrier as soon as he was brought into the ring to fight a matador. Then he charged through a passageway leading to the stands. Policemen, matadors and ring attendants tried in vain to get him back into the ring. Cows were called to the task. They only infuriated Cacharrero. He charged up a stairway and into the stands. With one goal in mind, 1,000 fans stampeded for another steep stairway, pushing and stumbling over each other in the mad rush. A bullfighter finally managed to get in a sword thrust. Cacharrero made a flying leap of about 18 feet into the arena. With the resumption of the bullfight, Cacharrero turned out to be a coward.

For Better Values Swap The Star.

**Save Poultry House Labor**  
 The poultry litter problem involves storing and cleaning. Blow straw into the loft at threshing time. In multiple-story houses, use a chute for removing dirty litter for upper floors right into the manure spreader.

## 4-H Ambassador Reports From Greece

Ed Hill, the only Texan participating in the 1950 International Farm Youth Exchange program, reports from Greece that, during the first part of August, he saw the northwestern

section of the country. His headquarters in Greece are in Salonika at the American Farm School.

He has traveled extensively in western Macedonia with members of the staff from the Farm School and says that this is possibly the largest agricultural section in Greece but economically it hasn't fared so well. The present conditions are due to the destruction that

came with World War II but chiefly from damages done by the Communists during the period from 1945-49.

He reports on a visit made to Verria (called Berea in the Bible). It was here that Apostle Paul preached on his journey through Macedonia. The city is noted for the fine rugs and blankets that are made there; Ed says the work is done by hand and the finished products are very beautiful. Months are required for the weaving process and the weavers will make rugs or blankets to meet any design or specification.

His travels took him to the Presba Lakes which form the boundary between Greece, Albania and Yugoslavia. The latter two countries are controlled by Communist governments while Greece is the one country in the Balkans with a Democratic government. Two days before his visit to this border area, two Greek and 10 Albanian soldiers were killed in a border skirmish a few miles from where he visited.

He tells of a visit with a Greek mountain farmer in this area. He was plowing a hillside farm with his ox and a handmade wooden plow. The field was very small, no larger than one-fourth acre, but six hours had been required for the plowing job. Some fields in this mountainous area have a slope that approaches 45 degrees and the use of any mechanized machinery is practically an impossibility.

Enroute back to Salonika, he visited the resort city of Edessa. He says the city is located on a mountain side and overlooks the greenest and most beautiful valley he had ever seen. The valley is famous for fine peaches. He visited the city of Naoussa which was destroyed about two years ago by Communist guerrillas. It was the subject of a story in "Life Magazine" several months ago.

He was accompanied on the tour by three staff members from the American Farm School and stops were made in the farming villages for the purpose of interviewing prospective students. Boys between the ages of 14 and 16 years and who were orphaned from their fathers and had completed the six years of school work offered by the village schools were interviewed. Worthy boys are given scholarships to the American Farm School.

Hill says next month will be spent in the Peloponnese, and on Crete and a number of other islands near Athens and Crete in the Aegean Sea. He will return to Salonika around September 15 and the remainder of his stay will be spent in eastern Macedonia, western Thrace and on the Island of Thasos.

He said in conclusion that he was looking forward to his return to Texas and an opportunity to tell the 4-H members

of the state about his European experiences.

### ALCOHOLISM

## Gland Defect New Theory

NEW YORK—A new treatment for alcoholism and the discovery of a definite physical factor that may be responsible for the alcohol craving in man has been reported by medical research.

The new treatment is based on an entirely new concept of the underlying organic cause, or causes of alcoholism. It came through observations which indicated that many problem drinkers suffer from a glandular deficiency, correction of which eliminates, at least temporarily, the insane craving for drink.

Doctors have found that the chronic alcoholic suffers from a deficiency in the hormones secreted by the outer layer, or cortex, of the adrenal glands. These are the two all-important glands located astride each kidney. This deficiency, they conclude, initiates a cycle of events that leads the victim to find relief in alcohol, which actually makes the condition worse, thus aggravating the craving for more alcohol.

**Craving Killed**  
That being the case, the physicians reasoned, the only obvious way to break the vicious circle is to correct the glandular deficiency. This can be accomplished by the injection of small quantities of extract from the adrenal glands of slaughtered cattle. When this is done, the patient not only sobers up, but no longer has any craving for drink.

Dr. James J. Smith, director of research on alcoholism at the New York university Bellevue medical center, believes that patients with acute alcoholic intoxication, acute alcoholic hallucinations, or acute alcoholic psychoses "will be brought under control well within 24 hours by adrenal cortical extract given by vein."

Hangovers, which are not peculiar to alcoholics but are a sequel to overindulgence in alcohol by any persons "can be abolished quite readily by the injection of the adrenal cortical extract. Delirium tremens—the dreaded DT's—responds in a similar manner."

**Five Year Goal Set**  
Once the acute phase of alcoholism is brought successfully under control, attention can be turned to the more important problem of chronic alcoholism—to make the drinker abstain. Dr. Smith and his group are convinced that the alcoholic is suffering fundamentally from a deficiency in hormones of the pituitary gland. This, in turn, leads to a malfunctioning of the adrenal glands and frequently also of the sex glands. Give the drinker enough hormones, they find, and he will not crave liquor.

"The goal in the treatment of alcoholism," says Dr. Smith, "must be to devise a therapy that will enable the person who is today an alcoholic and who today cannot drink, to drink normally. Although this goal has not yet been reached, work being done at present indicates that its attainment is in sight, and I think that it will be reached well within five years' time."

### Child Unconscious 40 Days Finally Answers Father

TUCSON, Ariz. — On Mother's Day, May 14, Edwin T. Murphy and his family went to visit relatives. On the way home their car collided head-on with another.

Edward E. Browne, Mrs. Murphy's father, was killed. Mrs. Effie Brown died two days later. Edwin Murphy's wife, Marjorie, 34, suffered critical head injuries. Carol, the baby, suffered shock, cuts and bruises.

Patricia, 12, was picked up unconscious and had knee and leg injuries.

Every day for 40 days after the accident Edwin Murphy would go to the hospital where Patricia lay unconscious and lean across the hospital cot and call gently, "Patricia, Pat, can you hear me?"

Every day he would rise at dawn to pass as many hours as possible with his daughter before he went to work. Then he would rush back to her bedside when the store in which he worked had closed. For endless hours he had called to his child trying to pierce the silence in which she had lain.

Nurses turned away with tears in their eyes. Doctors shook their heads.

Then on the 40th day, she finally spoke. "Momma," she whispered. Although she eats when fed from a spoon, brain specialists declare her full recovery is only possible, not probable.

### Grasshopper Control

Grasshopper control is most effective in communities where all property owners cooperate in destroying threatening infestations of hoppers wherever they are found.

### Maple Syrup Uses

Maple syrup can be used for more things than making candy and pouring over waffles and pancakes—such as a flavoring for salad dressing.

Say You Saw It In The Star

### Earthquake

Greatest in Modern Times

CALCUTTA, India — Reports from northern India on the earthquake said to be the strongest in modern times said enormous tracts of lowland had sunk out of sight and dozens of villages were engulfed.

Chasms and fissures appeared in the earth's surface, and in some places houses sank to a depth of six feet.

One of the strangest aspects of the earthquake was the behavior of the great Brahmaputra river. During the quake, it was turbulent; there were several upheavals in the bed of the river, their noise could be heard a mile away.

The following day, the level fell by eight feet, and on the next day rose above normal. Fish, apparently suffocated by gases, rose to the surfaces, where they were speared with ease or caught by hand.

### Dairy Barns

Dairymen used to the stanchion type of dairy barn should study the loose housing system carefully before changing over to it.

were visitors in Oklahoma City the first of the week.

Rev. and Mrs. Troy Plunk and daughter, Marilyn, of Beaumont, Texas, arrived Sunday for a visit with relatives and friends.

Mrs. Carlus Grissom returned to her home in Fulton, Kentucky Friday, after a weeks visit in the home of her daughter, Mrs. John Reaves and family.

Mrs. Earl Albert and sons, Russell and Raymond, Lubbock spent last week-end with Mr. and Mrs. Richard Albert and Sandra.

Mrs. H. G. Taylor has returned home from a visit in Chillicothe and Fort Worth, Texas.

Mrs. M. J. French, Calhoun, Missouri, is a guest in the home of her daughter, Mrs. Earl Phelps.

Mr. and Mrs. Henry Beauchamp returned home Sunday with Mrs. John Lavake to spend a few days visiting in Stratford.

Mrs. M. C. Reynolds, who has been visiting in the homes of her daughter, Mrs. G. C. Dortch and her son, Ted Reynolds and their families, left Wednesday for Albuquerque, New Mexico, where she will visit another son, Paul, before continuing to her home in Bakersfield, California.

Mr. and Mrs. A. J. Hill and children, Merkel, Texas were guests in the Joe Duby home last week-end.

V. W. Brands returned Monday night after visiting relatives and friends in Glasgow and Kansas City, Missouri.

Rev. H. A. Nichols was in Amarillo Wednesday and Thursday attending a Northwest Texas Conference Evangelistic meeting in the Polk Street Methodist Church.

Mr. and Mrs. Everett Palmer and Mrs. Maxine Hooley were guests in the home of Mr. and Mrs. J. H. Palmer in Garden City, Kansas Sunday.

Mrs. Ralph Harding, Mrs. Kenneth Eller, Mrs. J. G. Cummings and Mrs. G. E. Gamble were business visitors in Amarillo Tuesday.

Mrs. Robert Steel and Lynda, of Dalhart visited Mrs. L. L. Grimes Tuesday afternoon.

Mr. and Mrs. George Allen took their son Lynn to Amarillo Wednesday for a tonsil operation.

Mrs. J. L. Welch, Walsenburg, Colorado, and Mrs. Howard Welch, Dalhart visited in the W. P. Cummings home Tuesday.

Mrs. Ernest Palmer and Mrs. Richard Albert were visitors in Dalhart Monday Afternoon.

Mr. and Mrs. L. D. Spear and Larry Dale, Butler, Oklahoma, are guests in the Wayne Harding home this week.

Mr. and Mrs. A. E. Pronger, Sr. and P. J. Pronger, Sr. attended the golden wedding anniversary of Mr. and Mrs. J. E. Wilson in Dalhart Sunday.

Mr. and Mrs. Sam Wohlford and Mr. and Mrs. John Kidwell visited their sister-in-law, Mrs. Ira Smith of Amarillo, in Northwest Texas Hospital Sunday.

Rev. and Mrs. S. M. Williams, Mt. Vernon, Texas, were recent visitors here.

Mr. and Mrs. George Cannon and little daughter, Anne Rochell left for Stillwater, Oklahoma, Sunday, where he will resume his studies in Oklahoma A. & M.

Mr. and Mrs. Roscoe Dyess and children and P. J. Pronger, Sr., were visitors to the Tri-State Fair in Amarillo Tuesday.

Mr. and Mrs. Graydon Gamble and daughter, Cynthia, and Jo Wayne Harding were visitors in Amarillo Saturday.

Mr. and Mrs. Alvin Bradford, Lamesa, Texas, visited Mrs. Cloyse Box and son, Don D., in the home of Mr. and Mrs. S. L. Cunningham Sunday.

Mrs. Ernest Lovelace and Rev. and Mrs. Troy Plunk visited relatives in Liberal, Kansas Wednesday.

Misses Bess and Clara Roberts of Ontario, California, have been visiting relatives and friends in the Texhoma area for several weeks.

Mr. and Mrs. Norman Bridwell attended the Tri-State Fair in Amarillo Tuesday.

Carl Craig and family have finished the racing season in the east, and are returning their horses to Texhoma.

Mr. and Mrs. G. L. Taylor attended Old Settlers Day at the Tri-State Fair in Amarillo Wednesday.

Mr. and Mrs. Frank Pohlmann and daughter, Susan, of Anadarko, Oklahoma, and Mr. and Mrs. Jim House, Wyaconda, Missouri, were guests in the homes of their cousins, Mrs. E. O. Palmer, Mrs. Ruth Green, and Mrs. Burk Green the first of the week. It was the first meeting of the cousins since childhood.

Mr. and Mrs. Bernard Johanning and Mr. and Mrs. Francis Johnson, Glasgow, Missouri, arrived Sunday for a visit in the home of Mr. and Mrs. V. W. Brands. They were called home Monday night by the serious injury of 8-year old Myrl Johanning. The youth was struck by a car while making his route delivering copies of the Kansas City Star. Hospitalized in a Kansas City hospital, his condition is thought to be improved although physicians feared he might have been injured in-

ternally. Mrs. Pruet Adkins and Mrs. John Lavake attended a bridal shower for Miss Erma Lee Beauchamp in the Brier home in Boise City Friday evening.

Mr. and Mrs. Rex French returned home Sunday from Calhoun, Missouri, where they have spent the last two weeks on a vacation visiting with relatives.

Mr. and Mrs. M. L. Etheridge attended the Tri-State Fair in Amarillo Monday.

Mr. and Mrs. Royal Pendleton visited the Tri-State Fair in Amarillo Wednesday.

**Control...that has no equal!**

Prestomatic Fluid Drive Transmission . . . simple, cool-running, with three rugged compact units designed with a minimum of moving parts . . . gyrul Fluid Drive, the Safety Clutch, and Prestomatic Transmission. Ruggedly built for trouble-free service.

Take this beautiful car out on the road . . . and you'll discover the most important driving difference in cars today. For here is the only automatic gear shifting that gives you full control of your car at all times! Here is the only automatic transmission that takes its orders from you . . . that shifts when you want to shift . . . that can't shift you up and down when you'd prefer another gear. See . . . feel . . . and hear the difference in slow moving traffic. You cruise smoothly along in high, even at 12 miles an hour . . . saving gasoline . . . saving wear and tear on your engine. But at 12 miles an hour, other automatic shifts drop you down into lower gears—and there's nothing you can do about it. Try Chrysler's Fluid Drive and automatic transmission . . . learn how Chrysler has kept far ahead of all others. And discover the built-in value all the way through that has no equal today!

CHRYSLER IMPERIAL 4-DOOR SEDAN . . . the car that has no equal at any price. One of 21 beautiful Chrysler body-styles.

See it—drive it . . . there's built-in value all the way through!

**Advantages of Chrysler's Fluid Drive**

Automatic Gear Shifting—with full control of your car! Better traction—safer on slippery roads. Convenience of clutch for easier parking. Slower Engine Speeds—reduced noise, wear. Saves gasoline! Drive in high while others drive in low in traffic.

**Advantages of Chrysler's High Compression Spitfire Engine!**

Waterproof Ignition—prevents stalling in rain or high water! Chemically Treated Cylinder Walls—for greater wear. Floating Power—helps eliminate vibration. Superfinished Parts—reduce friction, last longer. Exhaust Valve Seat Inserts—reduce need for valve grinding! Full Flow Oil Filter—keeps oil clean longer!

**Chrysler's Advantages in Comfort and Safety**

Functional Design—full room for your head, legs, shoulders. Easy to enter and leave! Safe Guard Hydraulic Brakes—smoother stops. East-Loak Parking Brake—holds car on any hill. Electrically Operated Windshield Wipers—constant speed all the time! Chair Height Seats—no crouching, you sit naturally! Safety Rim Wheels—won't throw tires after blowouts at normal speeds. Double-width Arm Rest—for arm chair comfort.

Mr. and Mrs. Bill French and Mrs. Lucy Kelp were visitors in Hereford Sunday.

Demus Eller and B. A. Donelson made a business trip to Ordway, Colorado Tuesday, returning home Wednesday.

Jesse and Tommy Adams, Plainview, Texas visited friends in Stratford Saturday.

Mr. and Mrs. G. C. Quigley, Oklahoma City, were guests in the home of Mr. and Mrs. L. L. Lyon Tuesday. Mr. Quigley, chief machinist of the Leader Press, was a former shop foreman of the Dalhart Texan

and trained Brown Ross, publisher of the Star as a linyotte machinist.

Miss Jean Anderson, Texhoma, and Billy Bob Adkins attended the Tri-State Fair in Amarillo Wednesday.

**BLIND PROVIDENCE**

**Dead Man Upsets Boat**

MILWAUKEE, Wis. — The most unusual boating accident of the year was caused by a dead man. And a 72-year-old blind man was credited with saving the life of his nephew. It happened like this:

Le Roy Scott, 61, of Woodstock, Ill., John Hill, 72, and his nephew, Ronald Hill, 54, both of Milwaukee, were visiting in Palmyra, Wis. The three obtained a 14-foot rowboat and went blue gill fishing on Blue Spring lake, about two miles southwest of Palmyra.

"At first we just rode around the lake," said Ronald Hill. "I operated the outboard motor. Le Roy was sitting in the bow seat and John, who is blind, was in the middle seat. Then we anchored and started fishing."

**Boat Capsizes**  
A half hour went by. Ronald and John Hill caught a few pan fish. "Suddenly Le Roy just slumped over," Ronald Hill said. "He didn't say a word. His body stayed in the boat, but his head went into the water and his shoulders were over the side of the boat. The boat tipped that way, and it shipped water. My uncle and I leaned the other way. Then the boat capsized."

Ronald Hill could not swim a stroke. Blind John Hill, once was a strong swimmer, but had not been in the water for years. Both came up sputtering. John grabbed in his world of darkness and found the boat. Ronald was fortunate enough to grasp it when he first came up. They hung on, but the boat kept turning.

**Went Down Once**  
"My uncle saved my life, not once but several times," Ronald said. "I lost my grip on the boat a couple of times, but I hung onto him until I got back to it. Once I went down, but my uncle reached down, grabbed me by the arm and pulled me to the surface."

There was no sign of Scott. His body disappeared when the boat tipped over.

The men were in the water about 20 minutes. Several boats were near but none answered their call for help. Finally a boat reached them, but did not have room to take them aboard. The Hills hung onto the gunwales and were pulled to shore. Firemen and volunteers found Scott's body about half an hour later. The coroner reported no water in Scott's lungs, indicating that he had died of a heart attack before touching the water.

**Race of Human Giants Predicted by Scientists**

STOCKHOLM, Sweden—The possibility of producing a race of human giants, twice the size of present man, has been announced following experiments by three Swedish scientists.

The scientists said that in three years they had produced gigantic rabbits double the size of their parents and that they are now experimenting on pigs. Next they will try cows.

They emphasized that their results were only preliminary and that much research was still necessary before the sensational possibilities could be applied to the breeding of domestic animals.

Goesta Hafggovit, one of the scientists, said human beings might be bred in giant form some day, but he warned that it would be a long time before scientists could even begin to consider the idea.

Ten to 15 rabbits weighing about 12 pounds apiece have been bred from parents weighing only 5½ pounds each.

"When we get to cows," he said, "the potential results will mean an enormous step forward, both in science and economics."

Melander said the biggest step in current research was still ahead because the giant rabbits are sterile.

The scientists said they had succeeded in increasing the number of chromosomes — heredity-bearing bodies—in mammals for the first time.

**14-Year-Old Charleston Boy Builds Flying Saucer**

CHARLESTON, W. Va. — There is such a thing as a flying saucer. Joe Ward, 14-year-old Charleston youth, who has heard so much about the saucers recently, decided he could and would build one.

He made it. And it flies. The youth is a model airplane builder of years standing. Intrigued by the thought of a flying saucer, he started out to make one. He had no model to work from.

He wound up with a doughnut shaped contraption made of balsa wood and silk. It was equipped with a motor, flaps, landing gear, wheels and propeller.

The boys of his gang scoffed at the idea that the contraption would fly. So did his father, who bet Joe two cans of gasoline that the saucer would be a flop.

The pay-off came at a large cinder plant field near the duPont plant. The saucer, attached to 50 feet of wire so that it would not be lost, not only flew but looped, hovered, circled and dipped.

Joe now has plans for a larger, radio controlled saucer that would put the last of the skeptics to rout.

**Woman Hit by Train, Thrown Into River, Escapes Unhurt**

BELOIT, Wis. — Mrs. Esther Scott's automobile was struck by a train, dragged for half a mile and then caught fire. At a trestle she was thrown into the Rock river, where she escaped drowning by grabbing an overhanging tree branch. Her injuries were only cuts on the legs.

The 37-year-old woman's automobile was struck by the freight train at a Beloit crossing. It was half a mile before the engineer could stop the train. By that time the automobile was ground beneath the locomotive and on fire.

Mrs. Scott, who couldn't swim, had been thrown from the car into the river just before the automobile caught fire. The swift current of the rain swollen river kept her afloat. A mile downstream, she grabbed an overhanging branch and hung on for dear life.

Two men in a boat found her there and rescued her. "I heard a crash. That's all I remember," said Mrs. Scott.

**Cleaning Woman Who Found \$40,000 Gets \$150 Reward**

SYRACUSE, N. Y.—The woman who found \$40,000 in the First Trust and Deposit company while sweeping up, received a reward of \$150.

Mrs. Mary Sakowski, 38-a-week cleaning woman, discovered the money in a teller's cage while at work. She said she took it home with her for safekeeping. She telephoned the bank the next day and asked that it come for the money.

The bank said the reward given her was "moderate" because she had failed to follow instructions and notify her supervisor or the bank's night watchman.

**Social Security News**

Are you among the more than three million persons now receiving monthly insurance payments under the social security law? If you are, John R. Sanderson, Manager of the Amarillo social security office, has stated that your September check, scheduled to reach you early in October, will show the increased payments given you under the newly amended social security law.

He asks you to be patient and wait until your September check reaches you early in October. That check will tell you in dollars and cents just how much your benefit payments have been increased.

Increases range from about 50% for highest benefit groups to about 100% for low benefit groups. For example, the average benefit of approximately \$26 per month for a retired insured worker will be increased to about \$48. Family benefits will be increased also. For instance, the present maximum family benefit of \$85 will be \$150 under the new law. A widow with two children now receiving \$55 monthly will get about \$110 under the new law.

All the increases mentioned apply to present beneficiaries. According to Sanderson, the new law makes it easier for workers to qualify for social security protection and become future beneficiaries under old-age and survivors insurance. This important phase of your new social security will be discussed in a future item.

**Texas Atom Detectors Are Ready**

At least four different types of radioactive detection instruments and computers are available for measuring radiation particles if and when an atomic bomb is ever exploded over a Texas community.

This encouraging bit of information was revealed by the state's chief health official, Dr. Geo. W. Cox. He's state director of health and emergency medical services, part of the Texas civil defense setup.

Radiation is one of three harmful effects of atomic explosions. Others are blast damage and burns. Using RADIAC instruments, it is possible to know what areas are safe from the tasteless, odorless, colorless radioactive particles. All RADIAC instruments are designed for use by radiation

monitoring squads. Squad members might be soldiers, or they could be civilians trained by the State Health Department's radiological division. In either case they would be trained for immediate action in atomic disaster.

"Planning emergency medical and health services in an atomic disaster has been one big mess of confusion," Dr. Cox admitted. "But we're beginning to see light now. Our radiology division is going to go right to work, now that we have it set up."

Radiac instruments got this

official explanation: Film badges can be pinned onto the lapel, strapped onto the wrist, worn in a ring, etc. They consist of a piece of photographic film, and are used to show the amount of radiation to which the monitor has been exposed. Radiation particles affect the film like light. Dozens of "tracks" are visible when the film comes in contact with heavy concentrations of radiation.

Film badges are a permanent record of the exposure to which the monitors have been subjected. Dr. Cox says they show

whether or not the wearer has received the "maximum allowable lifetime dosage."

Pocket dosimeters, like the film badges are for the protection of the monitors. They look like fountain pens, and gauge on-the-spot amounts of radiation.

Geiger counters and ionization chambers actually count the number of radiation particles, gamma rays, and alpha and beta particles present in an area. So sensitive is the Geiger counter that if it could be wired to a fly his footsteps could be heard distinctly.

**Middle of the Road  
Is Place to Marry**

VIENNA, ILL.—For happiness, try a "middle of the road" marriage.

This is the advice of Mr. and Mrs. John W. Carlton.

Learning that funeral services were being held in the church where their marriage was scheduled 50 years ago, the couple waited for the minister to come outside.

He married them in a horse-drawn buggy in the middle of the road. Some 100 persons who attended the funeral stayed for the marriage ceremony.

**Now She Shops "Cash and Carry"**

Without Painful Backache

As we get older, stress and strain, over-urination, excessive smoking or exposure to cold sometimes slow down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

**DOAN'S PILLS**

## World Evangelist

Lesson for September 24, 1950.

IT IS not only the ignorant and the prejudiced who claim that Protestant Christianity did not start till the 17th Century. Even Protestants can make this mistake. The real founder of Protestantism is Saint Paul. What the Reformers of the 17th Century did was to re-discover Paul. The doctrines of Protestantism are not some peculiar invention of Luther, not a vagary nor a quirk, still less a heresy; they are simply Christianity according to Saint Paul. If for no other reason, Paul is one of the most important figures in Christian history, perhaps in all history.

## The World is My Parish

THERE is another reason why Paul is important. It is not too much to say that if it had not been for him, there never would have been any Christianity, as a world-religion. It would have died as a Jewish sect.

What the history of the world would have been in that case, God only knows. But although our so-called Christian era is still not exactly Christian, it is vastly different from what it would have been if Christianity had been no more (say) than Essenism, a word you would have to look up in the encyclopedia, an antique and forgotten sect.

To many unnamed Christians, but to Paul more than any other person, we owe the fact that ours is a religion with a world-outlook.

## First Great Missionary

PAUL was not a typical Christian any more than George Washington was a typical American. To this day, missionaries can hardly be called typical Christians. They are far too few, and their quality is far too high, to stand for the "average" Christian—who in fact does not even understand missionaries, as a rule. Nevertheless, the missionary now as in Paul's time is the burning-point of Christianity, the front-line patrol, the cutting edge.

What made Paul a missionary makes missionaries today. One thing was his vital experience of Christ. Jesus, for Paul, was not somebody he had read about in a book, he was not a statue on an altar or a picture in a museum, he was not a definition in a catechism. Jesus was Someone he had met on the Damascus Road.

Second, Paul loved people, all kinds of people. (After his conversion, not before!) He could see in the most pitiful little moron of a slave-girl, the meanest jaller, a sister or brother for whom Christ died, as he put it. Nowadays you sometimes hear church people saying about others outside the church, "They're not our kind. They wouldn't make good Presbyterians (or Baptists or whatever the speaker's church may be)." It never occurred to Paul that anybody would not make a good Christian, if only Jesus Christ got hold of him.

Furthermore, Paul had a world-horizon. There are hole-and-corner Christians and there are world-Christians. Paul was a world-Christian. He "thought big." To this day, the wide-horizon, big-thinking Christians are either out there on the mission field, somewhere, or they are supporting missions with all their might.

## Bibles Across the Sea

THERE is one thing which you, reader of these lines, can do right now, if you have some of this world-vision. This week, today, you can help in a great missionary enterprise which is not confined to any denomination.

Over in Japan, General MacArthur says, Christianity and the Bible are the dykes holding up the flood of Communism. Dr. Shiro Murata, a Japanese Christian, also says: "The eyes of Japan are fixed on two books. One is Das Kapital by Karl Marx. The other is the Holy Bible. Japan is at the crossroads."

A campaign is being conducted this year to send to Japan five million Bibles and Testaments. The Japanese can read; they have the largest non-Christian population in the world reading one language. Through your local church, or even by yourself, you can contribute to this great undertaking to bring the Bible to a people sorely needing it.

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

**Farm Topics**

## Grassland Farming Is Most Mechanized

Farmers Find Meadows Cheapest Feed of All

Grassland farming continues to spread throughout the United States and has become an example of the mechanization of farm jobs.

Farmers are switching to more and more grass because they have learned that grass is the cheapest of all feeds and that grass also conserves the soil, increases yields of intertilled crops and is the easiest

of all crops to harvest and handle. One of the major reasons grass is cutting dairy production costs as much as 25 percent is the sharp reduction in labor costs. With grassland machinery, today's farmers can make hay and grass silage in half the time it once took them.

Since the 1930's, when farmers were urged to cut down on corn and small grain, the grasslands of the nation have increased tremendously.

And with the increase manufacturers have produced farm machinery with which to cut, chop, bale and store this low cost farm feed.

One of the newer machines in modern farming is the field forage harvester. This power take-off unit can chop up to 15 tons of hay per hour. Attachments let the farmer use the same basic unit for chopping corn at up to 20 tons per hour.

## Avoid Fall Milk Drop By Good Management

Most of the drop in milk production in late summer and fall can be prevented by good planning and management.

Good permanent pastures, supplemented by temporary pastures of sudan grass or some other hot weather and drought resistant pasture suited to the land and climate conditions, will mean more milk at less cost. In many cases, failure to avoid the slump in milk production is because dairymen do not recognize that summer and fall pastures are not as nutritious as early, succulent, high-protein pastures.

Even though summer pastures may look good, it is necessary to feed a limited amount of a well-balanced grain ration if the summer and fall milk production slump is to be avoided. Enough feed in mid and late summer will hold production higher and allow cows to go into the fall and winter months producing well and carrying good flesh.

## Both-Way Gate

A convenient both-way gate does not require any hinges or any hardware material at all.

It can be made any height or length desired. Have a 2x4 at each end which extends up about two inches higher than the gatepost and far enough below to go into a hole in stone at the foot of the gatepost. Nail a board at top of gatepost with a two-inch hole in it for the 2x4. On the other side have a hole one inch wide and three inches long chiseled in the post at the other side.

## Pyreneone Is Effective Control of Horse Flies

Horse flies are troublesome pests during the hot months and difficult to kill. Extension entomologists suggest the use of pyreneone as an effective control of horse flies.

Pyreneone, although expensive, will control horse flies on cattle for about one week. One part of pyreneone to nine parts of water is recommended. About two pints to each cow is net fed. This should rid the cow of the bothersome pest.

## Junior Style Frock Is Fresh and Attractive

8392 11-18

Crisp and Fresh

IT'S CRISP, fresh and attractive! This handsomely tailored junior style suits practically all occasions. Note the pretty keyhole neckline, the effective use of buttons for trim.

A pleasure to bake, and a joy to serve... that's the kind of baking you can depend upon with confidence whenever you bake with Clabber Girl Baking Powder. Doubly sure, in the mixing bowl, in the oven, Clabber Girl's balanced double action is the home baker's stand-by.

## CLABBER GIRL

THE BAKING POWDER WITH THE BALANCED DOUBLE ACTION

WHEATON & COMPANY, ST. LOUIS, MO.

## New Vegetable May Edge Out Spinach

Faithful, old spinach the nutritious vegetable whose edibility has been challenged by generations of children and many of their parents, may be pushed off the American dinner table.

A new green vegetable from Java which tastes better than regular spinach will be marketed in a limited way for the first time this year, frozen or canned.

## The contender is called Florida

spinach, but will grow over most of the United States in spite of its name. It is low in fiber, high in vitamins and has no oxalic acid the chemical which makes spinach and beet greens hard to digest for some people.

## Packing Peaches

Peaches or pears that must stand between peeling and packing should be placed in cold salt

water to prevent discoloration. Add two teaspoons of salt to each quart of water. Rinse in clear, cold water before packing. Or use a Vitamin C tablet or special ascorbic acid preparation now available.

## What cigarette do doctors themselves smoke?

## MORE DOCTORS SMOKE CAMELS than any other cigarette!

Three nationally known independent research organizations put the question to 113,597 doctors. Doctors in every field of medicine were asked, "What cigarette do you smoke, Doctor?" The answers from this nationwide survey revealed that

more doctors smoke Camels than any other cigarette!

## At Last! It's Now Possible to RELIEVE THE CAUSE of YOUR NEURITIS ACHES and PAINS

When Due to Vitamin B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron Deficiencies HADACOL—One of the Greatest Blessings of the Times!

### A Big Improvement Is Often Noticed Within a Few Days' Time!

We are delighted to tell the readers of this paper about the wonderful new HADACOL which is bringing radiant hope to such sufferers. Because now you no longer have to go on taking products which bring you symptomatic relief from cruel, stabbing neuritis aches and pains, when the REAL CAUSE is that your system is deficient in the important Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin.

Now, thanks to this wonderful new HADACOL, you can relieve the REAL CAUSE of these miserable aches and pains—when due to such deficiencies.

### How HADACOL Works

HADACOL supplies deficient systems not only with extra quantities of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin but also helpful amounts of Calcium, Phosphorus and Manganese—elements so vital to maintain physical fitness and guard against such deficiency sickness.

Be fair to yourself. Be fair to your family. Why continue to suffer so and drag yourself around when relief is as close at hand as your nearest drugstore? Start taking this great HADACOL today. It's inexpensive—costs only a small amount a day.

And one of the many wonderful advantages of HADACOL is that continued use helps give you continuous complete relief and helps keep such miserable aches and pains from returning. Trial-size bottle, only \$1.25. Large family or hospital size, \$3.50.

### These Are Just a Few of Thousands of Records of Folks Who Once Had Such Deficiencies

Mrs. Mabel Kitchen, 1650 Amsterdam, Cincinnati, Ohio: "Before I started HADACOL, I had aches and pains of neuritis in my shoulders, my back and arms. I could hardly move without having those terrible aches and pains. Then I heard about HADACOL from a very good friend of mine. After the second bottle the aches and pains were about gone. I'm just starting my fourth bottle and now I'm on top of the world. The aches and pains are completely gone. I recommend HADACOL to all my friends."

Harry Springer, 5608 Greer Avenue, St. Louis, Missouri: "I had neuritis pains for quite some time and tried expensive treatments but continued to suffer. Then I read about HADACOL in the newspaper and I bought my first bottle. Within a week I felt quite a bit better. After the third bottle I had no pains or trouble at all. I was always tired and listless, but after a few bottles of HADACOL I felt like getting out and doing things. I recommend HADACOL to anyone. Right now, five of my co-workers are taking HADACOL on my recommendation."

Why not start taking HADACOL this very day. Give it a chance to relieve the REAL CAUSE of your cruel neuritis pain when due to lack of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin in your system. YOU OWE IT TO YOURSELF.

### Why HADACOL Comes in Special Liquid Form—Why It Reaches Every Part of Your Body

Vitamins and Minerals to be absorbed by the blood must be in soluble or emulsion form. That's why HADACOL comes in this special liquid form so that its precious elements are more easily and quickly absorbed and assimilated by the blood stream—ready to go to work at once.

HADACOL even helps build up and fortify your red blood cells (when Iron is needed) to carry these precious health-building Vitamins and Minerals to every organ and part of your body—to the heart, lungs, liver and kidneys.

Often within a few days' time a remarkable improvement is noticed! Because remember—you are now relieving the REAL CAUSE of such deficiency aches and pains.

### Sold on a Strict Money-Back Guarantee

If after taking HADACOL for a reasonable period of time, you don't notice a great improvement in the way you feel—if you aren't experiencing fine results—your money will be refunded. Could you ask for anything fairer? You stand to gain simply wonderful benefits—and you can't lose one penny. It's your own fault if you continue to suffer so.

### W.S.C.S. Ladies Celebrate 10th Annual Birthday

The Ladies of the Womans Society of Christian Service met at the First Methodist Church Wednesday for their tenth birthday monthly meeting. Mrs. A. L. Harrison led the worship service.

Mrs. O. L. McMinn was the program leader. Mrs. Lorraine Mehner sang a solo. Others tak-

ing part on the program were: Mrs. Graydon Gamble, Mrs. J. G. Cummings, Mrs. Billy Pendleton, and Mrs. J. W. Flores. The subject for study for the year is "Thy Saving Health Among All Nations."

Mrs. Ralph Harding conducted the business meeting.

Ladies attending the annual W.S.C.S. birthday party were Mrs. J. G. Cummings, Mrs. Grady Mullican, Mrs. M. L. Robinson, Mrs. A. E. Pronger, Mrs. Graydon Gamble, Mrs. W. T. Martin, Mrs. Agnes Foster, Mrs. J. W. Elliott, Mrs. Hattie Flores, Mrs. Emil Blanck, Mrs. M.

Dortch, Mrs. Billy Cummings, Mrs. C. W. Moon, Mrs. Vern Reynolds, Mrs. A. L. Harrison, Mrs. A. L. King, Mrs. K. L. Eller, Mrs. J. W. Flores, Mrs. W. R. Gamble, Mrs. Lorraine Mehner, Mrs. Evelyn Harding, Mrs. O. L. McMinn, Mrs. J. B. McWilliams, Mrs. W. P. Cummings, Mrs. Don Tusha, Mrs. Arthur Ross, Mrs. Billy Pendleton, and Mrs. A. W. Allen.

After the monthly program the ladies assembled in the church parlor for the birthday program. Birthday greetings were given by Mrs. Emil Blanck. A tenth anniversary litany was read in unison. Candles on the birthday cake were lighted by the president, Mrs. Ralph Harding. Coffee and cake were served by the hostesses, Mrs. W. P. Cummings and Mrs. Don Tusha.

**Social Friday Night**  
A fellowship supper and white elephant sale to which every Methodist is invited will be held at 7:30 Friday evening in Fellowship Hall.

### Right Figures; Wrong Word

County Judge L. P. Hunter has been accused wrongfully of appropriating a county budget of \$12 million for the approaching year, as published in the Star last week. The tax budget was based on a \$12 million tax valuation of the county. The County tax rate will be 95 cents on the \$100 valuation. Road district one will pay a tax rate of 55 cents to retire bonds for paving 10 miles of road. Road district two will pay a 90 cent tax rate for paving 19 1/2 miles of road.

The Editor openly apologizes to Judge Hunter for the error which has caused him to be the target of conservative tax payers during the week.

### Students Trek To Colleges

Stratford students continued entering colleges of their choice this week to commence fall studies. Bill Boren and Bill Malone, who entered West Texas State College in Canyon last

week, spent the week-end with their parents in Stratford.

Keith Green and Jimmy Summerour left last week for Stillwater, Oklahoma, where they entered Oklahoma A. & M. College.

### Rembrandt Unknown Panel Sold

LONDON, England — An unknown Rembrandt panel, probably painted about 1635, was sold recently for \$28,000. The painting is called "The Flight into Egypt" and was owned by Baron Clinton, 87, who decided to sell all his pictures when his North Devon home became an agricultural college, according to the London Daily Herald.

The auction drew art dealers from all over Europe and the United States. The panel was bought by a London dealer.

The sale recalls another London auction, in 1929, in which an "unknown" Rembrandt painting of a man in armor was sold for more than \$79,000. It was owned by a woman who did not bother to attend the sale as she thought the painting would not bring more than about \$2,500.

The recently sold panel is believed to have been acquired by Lord Rolle, a predecessor of Baron Clinton. It was never lent for any public exhibition. The panel, measuring 20 1/2 by 16 1/2 inches, contains Rembrandt's signature and a date, 1635 or 1638.

### Soviet Propaganda Pictures Football As Murder, Mayhem

WASHINGTON — Soviet propaganda is in constant search for some phase of American life to ridicule. The latest is a picture of American football as a carnival of murder and mayhem.

The Soviet radio also doesn't like American lady wrestlers or macaroni eating contests.

According to radio Moscow all these things are part of a capitalist plot to whip the toiling masses into a "bestial" frame of mind for World War III.

As a horrible example, the radio cites conditions at the University of Michigan, where, it says:

"Players are often carried from the football field to the hospital or even straight to the cemetery."

Football promoters in the United States are so profit-hungry that they are trying to turn every game into a fight, the Moscow radio said.

"Football players are forced obediently to carry out the orders of their bosses under the threat of unemployment," the radio said.

"For the men who treat sport as a money-making proposition, people's health and lives are of no concern."

Nothing like that exists in the glorious sports world of the Soviet Union, listeners were assured.

The athlete in the United States is just the tool of the Wall Street bosses.

"Let the people become used to seeing death," the Russian announcement explained. "Let them learn to attack each other. This is the reasoning of the business men. After this training, it will be easier to send them to the shambles."

The Moscow listener got this word picture of a women's wrestling match:

"Two women enter the ring and start pummeling each other. This lasts until one of them faints. The spectators of this barbarous affair are few, but they pay well, and this is just what the profiteers want."

Lucy Kelp Cleaners SERVICE

### Iron Better Cottons On The Wrong Side

Shiny spots from ironing which are frequently seen on cotton dresses, especially dark cottons, can be prevented by ironing the better cotton garments on the wrong side and then finishing on the right side, says Mary Routh, extension clothing specialist of Texas A. & M. College.

A garment may either be allowed to dry just the desired amount and then ironed, or it may be allowed to dry completely and then sprinkled before ironing. Miss Routh says that warm water is best for sprinkling because it spreads through the cloth more easily than cold water. Home management specialists recommend a bottle with a sprinkler top for doing a quick but thorough job.

Miss Routh says that, since any moisture left in the cotton fabric will cause it to pucker and wrinkle, each part of the garment should be ironed completely dry as the work proceeds.

Double thickness such as waist bands, hems, and seams should be ironed on the wrong side and then finished on the right side with light, quick pressure of the iron.

To avoid small creases at the seams, Miss Routh advises pulling the seams straight and smooth and holding them at a slight tension to keep them straight while ironing, being careful not to stretch. Pressing with the thread, or grain, of the fabric avoids sagging results.

Using a sleeve board or sleeve pad on the end of the ironing board helps in pressing difficult parts of a garment. Best results are obtained by nosing the point of the iron around buttons and placing tiny rows of buttons face down on a soft pad and ironing on the wrong side of the material. Laces and embroideries should also be ironed on

the wrong side over a soft pad. A general order of ironing which Miss Routh suggests is: cuffs, sleeves, ruffles, collar, sash ends, blouse, and skirt. Any parts that are wrinkled in handling must be pressed again, and all dresses should be hung at once on hangers to allow any possible moisture to dry out before storing.
