

## Seniors Stage Successful Carnival

The annual Hallowe'en carnival which was held Saturday night was a great success.

In the stunt contests, the first prize of \$10 went to the Senior Class, the second prize of \$5 to the Seventh Grade, and the third prize of \$2.50 went to the Sixth Grade.

The queen's race which was really close, was won in high school by the Sophomores, whose candidates were Adele Cunningham and Roy Lee Newman. The race was won in grade school by the Eighth Grade, whose candidates were Beth Pemberton and Ray Grimes.

The cafeteria, concessions, and the queen's race brought in a total of \$2,231.00. The expenses and federal taxes are estimated at \$1,200.00. The money made from this carnival will go to buy a school gift and to pay the expenses of the annual trip of the Senior Class.

The coronation program in which King Newman and Queen Cunningham received their crowns was devoted to an era of the gay nineties. Students from almost every class in the grade school took part in this program consisting of song and dance numbers.

Ladies and their escorts were Miss Thelma McDaniel and Marion Brannan, Miss Donna Gay Plunk and John Steel, Miss Kay Spuriock and Harry Oakley, Miss Linda Taylor and Duane Walker, Miss Sue Flores and Larry Goule, Miss Gracie Brooks and Henry Harrison, Miss Gwynn Clay and Jimmy Huggins, Miss Clara May Stone and Jay Harrison, Miss Rogene Seaman and John Harrison, Miss Jean Reynolds and Buddy Palmer, Miss Marty McMahan and George Stone, Miss Beth Pemberton and Ray Grimes, and Roy Lee Newman.

## Last Rites Held Wednesday For Milton Oakley

Funeral services for Milton Oakley, age 39, were conducted Wednesday afternoon in the First Methodist Church. Mr. Oakley passed away Sunday night at Wichita Falls, Texas.

Milton Sylvester Oakley was born March 10, 1911 at Winnebago, Nebraska. He moved to Eastern Colorado with his parents where he spent his boyhood days.

In 1929 he united with the Baptist Church. On August 5, 1933 he was married to Miss Liney Bethlion Reed at Lamar, Colorado. To this union three sons were born, Tommie, 16, Charles, 13, and Teddy Roy, 11.

The family moved to Dalhart in 1941 and to Stratford in 1943. Mr. Oakley leaves to mourn his passing, his wife and three sons, two brothers, Cecil and Lyle Oakley of Walsh, Colorado, and three sisters, Mrs. Sackett of Springfield, Colorado, and Mrs. Spell of Springfield, Colorado.

## J. R. Marshall Joins Army Air Force

J. R. Marshall reported in Amarillo Wednesday morning for duty with the Army Air Force. He will be assigned to the engineering division. For a short time Marshall expects to be on duty at Camp Lennanwood, Missouri.

## V. M. King Breaks Arm in Fall

V. M. King was admitted to Oretto Hospital in Dalhart Monday for treatment of a fractured arm. Mr. King fractured his arm in a fall Saturday while working on his apartment building in the Northeast part of Stratford.

Greenwich village in New York City corresponds to the Latin Quarter in Paris.

## Congressional Race Dominates General Election

Voters will go to the polls Tuesday, November 7, generally for the purpose of deciding who will represent them in Congress from this district.

The two candidates are residents of Pampa.

Ben Guill became the Congressman from the 18th congressional district in a special election, winning a plurality vote over 10 democratic candidates, to fill the unexpired term of Eugene Worley who resigned to accept an appointment as a judge.

Walter Rogers is the democratic nominee for the office, having won the nomination of the party in a run-off election with Altavene Clark, popular secretary of former congressmen of this district.

Republicans are supporting Guill almost unanimously while the ranks of the democrats are badly split in their choice between the two candidates.

The election Tuesday will decide a question which has long been the subject of considerable controversy in the Texas Panhandle.

## Baptist WMU Has Study Program

Ladies of the WMU of the Baptist Church met in the church Wednesday afternoon of last week for a Royal Service study program. Mrs. Baskin Brown was the program chairman. The song, "Throw Out the Life Line," was followed by prayer by Mrs. M. E. Upchurch. "No More Strangers," was the topic discussed by Mrs. O. H. Ingham. Mrs. Clifford Byrd spoke on "What Is the Iron Curtain." "Land of Two Customs," was discussed by Mrs. V. M. King. Mrs. E. B. McQueen offered prayer. Mrs. M. E. Upchurch discussed the topic, "Hungary in Reconstruction." Mrs. Baskin Brown spoke on the subject, "Under the Elephants' Foot." Mrs. Leon Guthrie discussed "China, the Bamboo Curtain." Mrs. W. D. Ellis discussed the topic, "The Cross Turns Not Back." Mrs. Walter Pendleton spoke on "The Moment to Decide."

Mrs. Joe Brown had charge of the Sunbeams. Mrs. Myrtle Byrd was a visitor. Mrs. W. D. Ellis dismissed the meeting.

## To Search For Symptoms Of Wheat Poisoning

Dr. N. Callhan, veterinarian assigned to the Pantex wheat poisoning experiment station, will be in Sherman County Friday to tour the county with County Agent Ernest Goule. Dr. Callahan will view as many cattle on wheat pasture as possible during his visit, searching for symptoms of wheat poisoning.

The Pantex wheat poisoning experiment station was established several years ago in an attempt to perfect a preventive measure for preventing wheat poisoning which many times develops in herds of cattle while grazing on wheat pasture.

## Attend Legion Meeting In Amarillo

Mr. and Mrs. Walter M. Pendleton, Mr. and Mrs. Donald Moon, Mr. and Mrs. Earl Bond, Mr. and Mrs. H. F. McIntosh, Mr. and Mrs. F. D. Sutton, Mr. and Mrs. T. J. Burgess, Mr. and Mrs. Chester Guthrie, Mr. and Mrs. Tom Ellison and Ernest Hubbard attended the program held in the American Legion Hall in Amarillo Thursday evening of last week, honoring Erle Coker, National Commander of the American Legion.

## CARD OF THANKS

I sincerely appreciate the patronage of the people of this territory while I operated the B&L 5c-10c-\$1 store. Mrs. Harold Leonard

# THE STRATFORD STAR

Volume 46. Stratford, Sherman County, Texas, Thursday, November 2, 1950. No. 4.

## PMA Polls Close At 5:00 November 6

Sherman County farmers were reminded this week that they have only until 5:00 P. M. November 6 to cast their ballots for Community Production and Production Marketing Administration Farmer-Committee delegates.

R. C. Buckles, county PMA committee chairman, explains that the ballots which were mailed to all known eligible voters in the county, may either be mailed to the county office at Stratford or deposited there by the voter in person.

"Any person who did not receive a ballot in the mail and believes he is eligible to vote should write, call or stop in at the county office," the chairman says.

In general, an eligible voter is an owner, operator, or shareholder on a farm that is participating in any program administered during 1950 through the county and community PMA committees.

Voters in each of the County's three agricultural communities are choosing three-man committees to represent them in the local administration of national farm programs. Each community will also send a delegate to a county convention to be held in Stratford on November 10 at which time the County PMA Committee will be chosen. Committeemen serve for one year unless re-elected.

## Honored With Wee-Pin-Up Shower

A something for someone shower was given Tuesday afternoon in the home of Mrs. Emil Blanck honoring Mrs. C. C. Plunk, who accepted the gifts for the wee-one and promised to see that they were delivered to her or she, when they arrived as the special guest at the Plunk home.

A short program consisting of a solo, "Mighty Like a Rose," by Mrs. James Cameron, a solo "A-Bye-Lo," by Linda Plunk, and a solo, "Daddy's Little Girl," by Mrs. Virgil Plunk, were given after which the gifts were presented to Mrs. Plunk in a pretty basket that had been decorated by Mrs. Elmer Finch.

The hostesses, Mrs. Emil Blanck, Mrs. Clyde Pittman, and Mrs. Elmer Finch, served delicious refreshments. After much good advice on

## Cherub Choir Sings For Lions Club

Fourteen boys and girls of the Cherub Choir of the Christian Church gave an enjoyable program at the meeting of the Stratford Lions Club Monday night in the Palace Cafe. The group presented 10 vocal numbers with Mrs. F. D. Sutton at the piano. Paul Aduddell, Jr., closed the program with a solo.

Appearing in the choir under the direction of Mrs. John Reaves were Holly Harrington, Frankie Aduddell, Jonna Knight, Kay Jacobs, Darrel Stubfield, Jerry Leonard, Gary Leonard, Gay Judd, Cleo Aduddell, Gayle Collins, Doris Dortch, Carolyn Reaves, Paul Aduddell, Jr., and Clarence Judd.

President W. O. Bryant presided at the meeting. Walter M. Pendleton led the opening song with Mrs. Walter Pendleton, club sweetheart, at the piano. This was followed by the pledge of allegiance to the American flag.

Mr. and Mrs. C. H. Purdy of San Diego, California were introduced as guests of the club. Stratford Lions voted to change the meeting time from 7:30 to 7:00 P. M. The change in time will be effective for next Monday night when a ladies night program will be presented.

Jack Golladay and J. D. McDaniel presented the program for Monday night.

Cone Donelson and Kenneth Kendrick will arrange for the program for ladies night. Dr. Huston Pearson and A. L. King are program chairmen for the following program.

## Lions Will Bring Magician To Stratford

Stratford Lions will present Bob Clark, popular Amarillo magician, in a 60-minute program in the school auditorium at 8:00 P. M. next Monday night. The public will be admitted to the entertainment for an admission fee of 25 cents.

Stratford Lions and Lionesses will meet in the school cafeteria at 7:00 P. M. for their ladies night program. The banquet will be served to Lions and Lionesses for \$1.25 per plate. A reserved section of the auditorium will be held for members of the Lions Club attending.

"Raising a Baby" was given Mrs. Plunk all departed, expressing their thanks to the hostesses for a lovely afternoon.

## 4-H Achievement Day Program November 9

Plans are being completed for a 4-H club boys and girls achievement day program to be held in the school cafeteria Thursday, November 9, at 7:30 P. M.

Since the beginning of the year Sherman County 4-H club boys and girls have been busy with their demonstration. In the fall they check results. They do this during the specially designated week, November 4 to 12. This is national 4-H achievement week and will be observed by all 4-H club members throughout the state and nation.

There are nearly two million 4-H club members enrolled in 84,000 clubs in America. The 4-H club members have produced and conserved food, have made their homes more attractive and liveable, have helped their farms produce more efficiently and profitably, have helped improve community health conditions, and have worked as responsible citizens to improve their own communities.

A special program to which 4-H club members and their families will be invited to attend, will be held Thursday, November 9, at 7:30 P. M. in the school cafeteria.

Awards will be made to boys and girls in the various projects who have been outstanding in their particular demonstrations. As a part of the program new 4-H club officers will be installed. The remainder of the evening will be spent in recreation.

Secretary of Agriculture Charles F. Brannan sends 4-H club members the following greeting:

"In keeping with your 1950 theme, 'Better Living for a Better World,' you have produced abundant food for yourself and those who need it. You have improved and made more attractive your homes and your communities. You have improved your health and conditions making for health in your homes and communities. You have practiced democracy in the regular work of your 4-H Clubs. You have shown, in your club meetings, in your farm and home activities, in your international farm youth exchange programs and otherwise, that you are interested in understanding the issues involved in the critical world situation today, and that you are developing yourselves into the kind of useful citizens and leaders that the world needs today and in the future. May all these outstanding achievements in 1950 spur you on to even greater achievements in 1951."

## Russell Kelp Enters Army Air Corps

Russell Kelp reported in Amarillo Wednesday morning for service in the Army Air Force. He will be assigned to the motor repair division. For a time Kelp will be stationed at Lennanwood, Missouri.

## Town Team Defeats Elks In 63-44 Game

Stratford Elks lost their first tilt with the Stratford Town team in a 63 to 44 game Tuesday night. Marion Brannan was high point man for the Elks with a score of 16 points. Dale Knight was high point man for the Town Team, scoring 17 points.

Playing for the Elks were Marion Brannan, Gene Marshall, Fred Lee Green, Richard Williams and Tommy Wakefield. The town team was composed of Bucky Walters, Billy Malone, Dale Knight, Neil Jackson, and Bill Reed, former Elk stars.

Franc was the first country to recognize the United States of America.

## Carroll Reed Wins Honors At Wentworth

LEXINGTON — Cadet Carroll Reed, son of Mr. and Mrs. Glenn Reed, Stratford, has earned academic honors for the first six weeks grading period at Wentworth Military Academy, Major Dallas C. Buck, dean, announces. Carroll qualified for a place on the dean's special distinction list.

To qualify for this distinction a student must demonstrate superiority in at least two subjects and must have passing grades in all his courses. Students who earn scholastic honors at Wentworth are given extra privileges.

## Burgess Buys B&L Store From Leonards

Mr. and Mrs. J. B. Burgess have purchased the B & L 5c-10c-\$1 store from Mr. and Mrs. Harold Leonard. The new owners took possession of the business this week.

Mrs. Burgess plans to operate the store in connection with her work as a seamstress.

## Band Boosters Club Will Get School Banner

The Band Boosters Club, in a meeting held Thursday night of last week, voted to secure a school banner for the high school band. Plans were made to raise money for securing temporary drums for the band to use in concerts.

The next meeting of the club will be November 30. The club plans to sponsor a bake sale November 21.

## Locate One New Well; Test Nine

Phillips Petroleum Company announced one new drilling location for Sherman County. The Bert No. 1 is 1,320 feet from the north and 2,640 feet from the west lines of section 11, Block 2.

Tests of nine completed wells were made public by the Texas Railroad Commission.

Phillips Petroleum Co. Bivins "F" in section 57 of Block 3-B was completed for 340 million cubic feet of gas with a rock pressure of 377 pounds.

Phillips Petroleum Co. Druclilla No. 1 in section 6 of Block 3-B was completed for 2,207 million cubic feet of gas with a rock pressure of 428 pounds.

Tascosa Gas Co. Bertha in section 200 of Block 1-C was completed for 350 million cubic feet of gas with a rock pressure of 418 pounds.

Tascosa Gas Company Mathews No. 1 in section 71 of Block 2 was completed for 729 million cubic feet of gas with a rock pressure of 420 pounds.

Tascosa Gas Co. Meader No. 1 in section 201 of Block 1-C was completed for 2,574 million cubic feet of gas with a rock pressure of 405 pounds.

Tascosa Gas Co. Morris No. 1 in section 24 of Block 2 was completed for 2,513 million cubic feet of gas with a rock pressure of 405 pounds.

Tascosa Gas Co. Ruby No. 1 in section 54 of Block was completed for 1,282 million cubic feet of gas with a rock pressure of 373 pounds.

Tascosa Gas Company Sherman No. 1 in section 33 of Block 3-B was completed for 971 million cubic feet of gas with a rock pressure of 410 pounds.

Tascosa Gas Co. Witt No. 1 in section 200 of Block 1-T was completed for 716 million cubic feet of gas with a rock pressure of 410 pounds.

## Elkettes To Play Cotton Center Friday

Stratford Elkettes will play the Cotton Center girls basketball team at Cotton Center Friday night.

## Farm Bureau Convention November 20-22

Program arrangements have been completed for the 17th annual convention of the Texas Farm Bureau Federation to be held in Mineral Wells, November 20-21-22, it has been announced by J. Walter Hammond, Federation president.

Outstanding speakers of national prominence who will address the meeting include U. S. Senator Tom Connally of Texas, Congressman Albert Gore of Tennessee, Hassil Schenck, president of the Indiana Farm Bureau Federation, Leonard Cowden of Amarillo, executive vice-president of Consumers Cooperatives, W. R. McBeen, Dallas, executive director of Group Hospital Service, Inc., O. R. Long, Tennessee Field Representative for the American Farm Bureau Federation, Southern Region, Aubrey D. Gates, Director of Extension Service in Arkansas.

More than a thousand farm and ranch men and women from 200 Texas counties will be in attendance, Hammond said.

## Mrs. Zimmer Hostess To Friendship Club

The Friendship Club met in the home of Mrs. Albert Zimmer Thursday of last week.

Club officers were elected for the coming year. Those elected are President, Mrs. Robert Bolster; Secretary-Treasurer, Mrs. W. E. Pleyer; and Reporter, Mrs. Roy M. Latham.

Plans were made for a farewell party to be held in the home of Mr. and Mrs. Roscoe Dyess, November 4 at 7:30 P. M. for Mr. and Mrs. John Zimmer, who are moving to Amarillo in the near future.

Club members drew names for Christmas.

Refreshments were served to Mrs. Percy Pronger, Mrs. Alfred Pronger, Mrs. Kenneth Borth, Mrs. Rollo Newman, Mrs. Roscoe Dyess, Mrs. Robert Bolster, Mrs. John Zimmer, Mrs. George Bradley, Mrs. Edd O'Quin, Mrs. George O'Quin, Mrs. W. R. Taylor, Mrs. W. E. Pleyer, Mrs. Roy Latham, and three visitors, Miss Elizabeth Zimmer of Amarillo, Mother Newman of Dumas, and Mrs. A. J. Armstrong of Stratford.

The next meeting of the club will be in the home of Mrs. Edd O'Quin November 9.

## Mrs. Judd Hostess To Circle Three

Circle Three of the Christian Womens Fellowship met in the home of Mrs. Frank Judd with Mrs. R. C. Buckles as leader.

There were seven members, three visitors, and two children present. Six daily devotionals, three books read, and a collection of \$9.25 were reported.

"The Christian Way To Peace," was the topic of Mrs. F. D. Sutton. What Can Christians Do? was the subject discussed by Mrs. Paul Aduddell. Mrs. R. C. Buckles gave the devotional.

The next meeting will be in the home of Mrs. Wington with Mrs. F. D. Sutton as leader.

## Elkettes Win 42 To 19 Over Town Girls

Stratford Elkettes won over the Stratford Town Team girls by a score of 42 to 19 Tuesday night. Mrs. Gilstrap, fifth grade teacher, scored high with 12 points for the town team. Avis Parrish, scored high points for the Elkettes with a total of 12 points.

Playing for the town team were Mrs. Gilstrap, Mrs. Stubfield, Mrs. Fritz Steinberger, Mrs. William L. Pendleton, Miss Arleen Hargrove, and Miss Ila Lewis.

Playing basketball for the Elkettes were Jean Reynolds, Adele Cunningham, Jeanne Price, Dorothy Nell Harding, Charlotte Faris, Georgia Lowe, Betty Jo Huggins, Letha Gail Fedric, Martha Crabtree, and Mildred Bennett.

Hallowe'en with its weird masks and funny faces has passed for another year, but to tiny Pamela Mitchell, a patient in Scottish Rite Hospital for Crippled Children in Dallas it was not so funny. Nurse Ann Washburn did her best to reassure Pamela with the backing

of patient David Holcomb, that it was all in fun, and that there was nothing to fear. The trio caught in the picture were rehearsing for their Hallowe'en frolic, one of the occasions in which the hospital brings joy to the children from all over Texas who come to Scottish Rite for treatment.

Reporter Muffed Chance To Win Over \$500,000

LOS ANGELES — A 27-year-old reporter who won \$10,721.15 in a Las Vegas, Nev., gambling house, could have won \$500,000 if he had understood the odds.

The reporter was \$1,800 in the hole before he got the dice and held them for 25 minutes without rolling a seven. During that time he commanded every \$25 chip on two tables in a free-spending casino.

Operators of the club said it would have been easy for him to win \$500,000 in that run of luck if he had comprehended the odds fully.

"Once I started hitting," the reporter said, "I followed the example of other gamblers around the table. I tried to blanket the board with bets and let my winnings ride."

"At one time I had \$500 on the come bet line, \$500 on every number on the table, and some other chips scattered here and there. Someone said there was as much as \$5,500 on the table at a single roll."

The reporter added that he didn't understand about odds, and he couldn't ask the house man for explanation, because he had laryngitis and could hardly speak.

Dream

Lands Dreamer in Jail

JAEN, Spain — Seventy-two-year-old Juan Moral landed in jail because of a dream.

According to police shortly before the last national lottery drawing, Moral saw the number 28,221 in a dream.

Moral didn't have the 450 pesetas needed for the whole ticket, but that didn't matter. He was so sure it was a winner he started selling fractions of the number before buying the ticket.

When he finally got around to that little detail the number had already been sold.

It was bad enough for Moral when 28,221 drew third prize of 3,000,000 pesetas (\$7,500).

But that wasn't all. Before they heard the sad news, three of the people to whom Moral had sold fractions had celebrated.

One, a sidewalk candy vendor, gave away his whole stock in a gleeful spree. Another, a circus owner, threw a party on the house that included everybody but the animals, and a factory owner treated his entire staff to drinks.

Joint Freight Rates

Joint freight rates apply to shipments moving over the lines of more than one railroad, revenues from which are divided among the participating railroads on an agreed basis.

Molten Steel

The thick-walled iron molds in which molten steel solidifies into ingots conduct away heat so rapidly that the steel solidifies before it can melt the mold.

Hormone Doubles Lamb Production, Research Reveals

CHICAGO—A method to permit sheep to be bred twice a year, instead of only once as is customary, has been announced by Armour & Company.

The company said that more than 100 ewes treated with a hormone in tests had a second lambing this summer after producing lambs last winter. The significance of the tests rested on the possibility of "fall lamb" becoming a regular factor in the market as well as the prized "spring lamb."

The hormone was administered to the animals by injection in the wool-free fold between the foreleg and the body. Response to the injection appears in five to seven days.

The experiment was suggested by Garvey L. Haydon, head of the lamb division of Armour. Mr. Haydon gave this appraisal of the economic importance of the discovery for sheep raisers:

"A farmer with 100 ewes may get 125 lambs in his spring crop. Those lambs and the wool are normally all the income he gets from the flock which he must feed and care for all year.

"However, by using this hormone technique at the right time, he may get a fall crop of 65 to 85 extra lambs. If it costs \$4 extra to raise these lambs to 85 pounds and they sell for around \$22 each, there is an extra profit of \$18 per lamb or \$1,900 to \$1,500 a year for a flock of 100 ewes."

The company said this year's preliminary experiments with the hormone had supplied data for further and more elaborate research next year. Many questions concerning the hormone remain to be answered, one being whether the ewes which bore the extra lambs this summer manifest their normal breeding season this fall or whether they will require new stimulation with the hormone.

Tiniest Product

One of the tiniest products of the steel industry is a coil spring which weighs only 12 millionths of a pound. Jewelers use them in necklace clasps.

HORTICULTURE

Plants Feed On Dry Milk

PULLMAN, Wash.—Believe it or not, scientists recommend giving flowers and vegetables milk to improve their growth and beauty.

Montana State College scientists have found milk is as good for some flowers and vegetables as it is for babies. Although the use of it in horticulture is new, many growers in the Pacific Northwest already are reaping benefits.

Commercial flower producers say milk makes petunias grow faster, last longer and bear larger and more brilliant blooms. It improves the color of roses, cinerarias and Chrysanthemums. Long, strong stems are commercially important for such flowers as roses and 'mums. The milk helps.

There are exceptions, however. For instance, research shows that milk shouldn't be given to pansies. And apparently it has no beneficial effect on carnations.

Vegetables Flourish

Milk-fed vegetables also do much better than those grown under ordinary conditions. One producer reported his yield of Bermuda onions jumped 35 per cent. A sugar beet grower counted results at the rate of 1,000 more pounds of sugar an acre. A little milk did a world of good for tomatoes. Roots and stems were stronger, fruit set was better and the quality of the tomato much improved.

The experiment was conducted by V. E. Iverson, member of the Montana State College horticulture staff. It has been put in practical use in a number of greenhouses.

Milk is used in the early stages of plant growth. It is applied mainly to seedlings in the greenhouses before the plants are put in the field. The milk, fed either dry or fluid form, helps the seedlings get off to a good start. It appears to protect the young plants from at least two diseases—stunt virus and damping off, which is rot condition caused by parasitic fungi. One greenhouse man reported he cut damping off by 50 per cent.

Inexpensive Plant Food

Herman J. Feiden of Great Falls, Mont., a greenhouse operator, is sold on the use of milk. He mixes dried milk with bench soil. Other growers have diluted milk and sprayed it into the soil.

Feiden buys dried milk in 250-pound barrels. The cost is eight to 10 cents a pound, wholesale. The Great Falls greenhouse man says it doesn't add much to the expense of production, because it takes only half an ounce of dried milk per flat bed in growing flower seedlings.

Since milk for horticulture purposes is new, it hasn't caused any great reaction in the dairy industry so far, but dairymen might look into the chance to promote a new market.

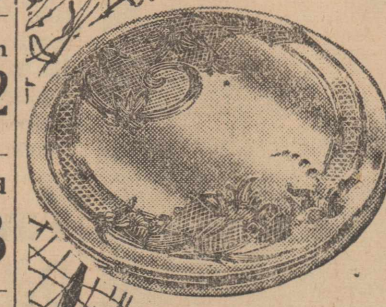

For "Home Office"

A very satisfactory desk can be constructed from two metal filing drawer sections and plywood. Place one file drawer on top of the other for one end. Use plywood for the top and other end. Finish the desk with colorful gloss or semi-gloss enamel to fit into the decorative scheme of your room. If the plywood has not previously been finished, give it a coating of sealer first, then of enamel undercoater before the final coat is applied.

Watches in Elizabeth's Time

Down through the ages women have been a tremendous influence in watchmaking; one of our oldest and most vital industries. Queen Elizabeth and her court members selected watches as modern women do their hats—to match their various costumes. In those days watches were usually worn on a chain or ribbon around the neck for display and glamour purposes. Mary, Queen of Scots, asked watchmakers for a small watch in the shape of a human skull—a cheerful fashion of the time. Many others were shaped in the form of insects, flowers, animals, etc.

"I Couldn't Put A Cow In The Bank"

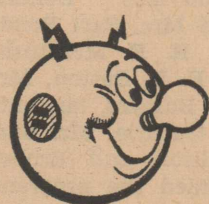

There was a time when cattle were a medium of exchange instead of money. Your "money" might get sick, might die, and you couldn't, certainly, store it in a bank and have it get more valuable with every passing year! It's no wonder that our monetary system was developed. You get better returns by banking regularly. Make it a habit.

# MAKE FENCE MUCH FASTER with this post hole digger

**Dearborn FARM EQUIPMENT**

Fine for setting out seedlings.

Makes holes for building foundations.

Why wait to build fence because digging post holes by hand is such hard work? We recommend the Danuser post hole digger that attaches quickly to the Ford Tractor and can dig up to 600 post holes a day. Lifts and lowers by Hydraulic Touch Control. Pays for itself in time and labor saved... gets fence made quickly, between rush seasons or in spare time.

If you have seedling trees to set out, or holes to dig for building pilings or foundations, there's nothing like this post hole digger. Even use it for digging trenches... saves lots of shoveling. Several size augers... Ask for a demonstration.

## SHY PATIENT 'Poor' Lady Aids Hospital

NEW YORK—The strange case of Miss Margaret Williams Pierce, who lived alone in a dingy two-room apartment and worked as a switchboard operator and receptionist until shortly before her death, has been made public by New York's memorial center for cancer and allied diseases.

On a late spring afternoon a year and a half ago, a shy, gray haired little woman appeared at the hospital. She was in pain, suffering from an advanced, inoperable cancer of the breast.

Regularly for the next year, the 62-year-old woman called at the hospital for treatment. She dressed plainly, and apparently was of scant means.

"She gave the impression she hadn't a penny to spare," a hospital spokesman said, "so she was not asked to pay private or even semi-private charges."

**Pretended to be Poor**  
This could have gone into the thousands of dollars.

Although there was no hope for curing her ailment, she was treated with new hormone compounds that give temporary relief from the great pain and swelling. Several times, when her illness was worse, the hospital sent a nurse to care for her.

Frequently she told her attendants she had "never met with such kindness in my life."

She responded well to the treatments. But as the doctors knew it would, the disease progressed, slowly sapping away the little woman's life. Last May she died.

When Miss Pierce took a sudden turn for the worse last May and was rushed to the hospital by taxi three days before her death, she said she lacked cab fare. But on putting her to bed a nurse found \$4,000 in currency on her person.

After she died a will was found among her effects.

In it she left her safe deposit box to the research department of the hospital she had learned to love. Recently startled officials announced the contents:

Gold, jewelry, cash, stocks, bonds and passbooks to 15 bank accounts, with a total estimated value of \$150,000.

**Hospital Grateful**  
How she acquired the fortune remained a mystery. Her employer, her few acquaintances and relatives were unaware of her wealth.

She wrote in her will: "I have always made it a policy through life not to incur debts, therefore there will be no debts to pay upon my decease, except funeral expenses and for my last sickness; the latter I will try to pay for as I go along."

Said the hospital:

"The humanity she shied from will benefit greatly from her generous bequest to the fight against its most brutal disease, cancer."

Dr. George C. Escher of the hospital said:

"We are still in the pre-atom era as regards cancer. We need every dollar we can get for cancer research and this bequest makes me feel like a million dollars. I will never forget Margaret Pierce."

**Toenail Trim**  
Cut your toenails straight across and not shorter than the flesh.

## Chemosphere Fuel for Space Ships

SAN ANTONIO, Tex.—Dr. J. Kaplan, professor of physics, says a flight to the moon will not be too expensive if space ships fill their tanks with "chemosphere."

Dr. Kaplan reports there is enormous photochemical activity produced by the sun in the region 26 to 70 miles above the earth surface.

"This region, low enough to be reached easily, is believed to be rich in the hydroxyl molecule, a recently discovered chemical," he said.

The hydroxyl molecule is over-stuffed with energy, and Dr. Kaplan believes it or some other chemosphere component could be used to keep space ships going. He coined the word chemosphere to describe the 44-mile layer of space that is filled with energy.

All space ships will have to do is take on chemosphere and continue on their way. It solves the filling-station problem.

**Plywoods**  
Previous to 1937, production of hardwood plywood exceeded that of softwood plywood. Due to the rapid growth of the Douglas fir plywood industry, production of softwood plywood has exceeded hardwood plywood since 1937, and now constitutes more than two-thirds of the total output.

## Modern Classroom Seating Plan Puts Dampers on Pranks

DALLAS, Texas—It's going to be tough for mischievous Johnny to get by with any pranks in the modern classroom.

School designers have discovered that the best seating arrangement places the teacher at the rear of the room, behind the pupils who face the chalkboard in front, says R. L. Biesele, Jr., head of the department of electrical engineering at Southern Methodist University.

The main objective of this arrangement is to give every pupil a fair break and eliminate "areas of high brightness in the visual field," Professor Biesele pointed out in a report to Libbey-Owens-Ford Glass Company.

It has another advantage, however. It makes for better discipline, since pupils don't know whether teacher is looking or not.

After several years of research Professor Biesele determined that desks should be set in curves, rather than in straight lines, for best distribution of daylight through larger windows.

## For Courteous Children

There would be few discourteous children if parents cared more about the child's appreciation of the rights of others than about his outward manners. Well-intended gestures of appreciation, even though awkward, should be encouraged—and eventually the child will conform to social demands.

## Tumbler for Children

No need of crying over spilled milk if George W. Poncey of Jackson Heights, New York, has anything to say about it. Mr. Poncey has invented and patented a new type of tumbler for children. It has at the base a wide ring intended to prevent accidental tipping.

## Natural Resources

Adequate supplies of natural resources can be assured for the future by: (1) organizing intensive research to develop new techniques for exploiting low-grade reserves at low cost; (2) freely relying on imports; and (3) stockpiling.

# Are Our Texas Highways Being Destroyed by 1% of Highway Users?

This question is presented squarely for the first time by the Texas Tax Journal in its booklet, "The Case of the One Per Centers."

Every Texan who wants good highways, adequate for 99 of every 100 users, should write for a free copy of this revealing booklet.

Approximately 99% of all Texas motor vehicles are registered for a gross weight of 20,000 pounds or less.\*

All Texas taxpayers, including your Texas Railroads, have reason to be concerned about the high cost of constructing and repairing our highways and the prospect of building more costly roads made necessary by the operation of highway "box cars."

No one has any desire to bar vehicles of reasonable size from our highways, so long as each pays its fair share of construction and repair costs.

Other Texas taxpayers should not be required to shoulder the burden of a roadway system for highway "box cars", representing only 1% of highway users.

Every Texan interested in good highways without increasing the growing tax burden should fill out the coupon below and get a copy of this valuable booklet.

## Let's Face Facts!

- The Panhandle needs a Congressman who will STICK — and who will STAND UP for his district—
  - It is only through seniority and experience that he can give the Panhandle the representation it needs — and MUST HAVE, if all our interests are to be protected.
  - Our all-important agriculture, our industrial development, the Canadian River dam, our rightful place in the Defense Program... a stabilized economy and a future offering continued prosperity — all of these DEMAND that we send to Washington
- **A Democrat**
- is to ignore our own self-interests and to sleep on our rights. It is time to WAKE UP, and to be realistic.
- IT TAKES AFFIRMATIVE THINKING AND AFFIRMATIVE ACTION TO GET THINGS DONE IN CONGRESS!
- WALTER ROGERS, our Democratic nominee, is mature, able and well-qualified. He offers balance and stability and is pledged to fight for all the interests of our district.
  - He offers the Panhandle CONSTRUCTIVE leadership.
  - Let's quit wasting time!

**VOTE FOR WALTER ROGERS**  
(Political Advertisement Paid for by Democrats of the Panhandle)

**Auto Owners**  
There is one automobile owner for every four people in the United States, one for every 22 in Britain, and one for every 250 in Soviet Russia.

**Avoided Potatoes**  
Devout Scottish folk avoided potatoes because they were not specifically mentioned in the Bible. Hunger in the 1740's helped them overlook their scruples.

### Large Area Jarred As Meteor Explodes In Sky Near Paducah

NASHVILLE, Tenn. — The area from Paducah, Ky., to Nashville, Tenn., was jarred recently by a meteor which flashed through the sky and apparently exploded in the air.

The Illinois Central railroad dispatcher in Paducah said reports from all along his line to Memphis told of a jar of an explosion. He said a railroad signalman at Covington, Tenn., 40 miles north of Memphis, told of seeing a ball of fire in the sky getting larger and larger, then exploding.

At Murray, Ky., William Barnett, a filling station operator, reported a piece of the meteor fell on his farm. Observers said the object was about the size of a man's head.

One report of the sky flash was given in Memphis by American Airlines Capt. H. J. Garman, of Dallas, Tex. Garman had just landed a DC-6 with 41 passengers from Washington.

"We sighted that thing about 1:30 a. m. some 50 miles east of Nashville," Garman said. "I was flying at 18,000 feet and it looked as though it came right across our nose."

"I tell you, I never saw such a brilliant flash of light before. It wasn't clear light. It seemed to be burning with an orange, yellow and blue flame."

"I can't say for sure whether it burned out in the air or hit the ground. I've seen hundreds and hundreds of meteors, but that was the lowest I ever saw one. It lit up the whole sky."

Patrolman Albert K. Yancy at Paducah said witnesses reported the meteor lit up the Paducah area about 3 a. m. so brightly that "you could almost read a newspaper."

#### Senate Dolls Up

The senate and house chambers in Washington were not the only areas of the Capitol to receive decorative attention, recently. The rotunda hadn't been painted for 19 years and it took five days of dusting to prepare it for its new coats of color. It now has an ivory ceiling, a maize center section, a deep brown frieze and a stone colored lower section.

#### New Optical Glass

A Northwestern university physicist has developed a new type glass which may make important contributions to the world of science through its use in research instruments. Dr. Rudolph Frerichs, who came to the United States from Germany two years ago, recently discovered how to produce the first glass which can be easily molded and also has the ability to transmit infrared (heat) rays of extremely long wave lengths. These two characteristics may make the glass highly useful.

### N. Y. Indian Era Traced

ALBANY, N. Y.—American Indians inhabited New York state as long as 5,000 years ago, instead of the 2,000 years ago as previously estimated, according to the New York science service.

The announcement said hunting and fishing Indians were living in the state about 5,000 B.C., around the time the great pyramids on the Nile were built. The announcement was also described as one that would "revolutionize archeological thinking."

The new findings were made by scientists of the school for nuclear studies at the University of Chicago and resulted from measuring the amount of radioactivity remaining in samples of charcoal excavated from the fireplaces and cremation pits of the oldest-known Indian villages in the state. The measurement showed that the trees from which the charcoal came had died between 4,950 and 5,380 years ago.

#### New Method Used

The studies were based on an earlier finding that the "bombardment" of the atmosphere by cosmic rays created a natural radioactive form of carbon which is a part of the carbon dioxide in the air taken in by plants and animals. As long as these plants and animals are alive, this radioactive carbon is replenished, so that the amount in the body remains constant.

When the organism dies, no additional radioactive carbon is accumulated, and that which is present in the body begins to disintegrate at a constant rate. After 5,720 years, the evidence of this radioactive carbon is only one-half as strong as it is at the time of death.

With the aid of special instruments, scientists at Chicago University's nuclear studies school have been able to determine the amount of evidence of radioactive carbon in the remains of formerly living things such as charcoal, mummy cloth, basketry and seashells. Establishment of a ratio of this radioactive evidence to the amount present in the living body makes it possible to determine how long ago the living thing actually died.

#### Nomadic People

Samples of charcoal taken from fireplaces found in the village sites of the oldest-known Indian groups in the state and similar samples from cremation pits used by the first Indians to become acquainted with agriculture were sent to the researchers.

These earliest-known "New Yorkers" were bands of nomadic hunting and fishing people, according to the state science service. Later, their descendants acquired a knowledge of agriculture and the art of pottery making. Their mode of life became more complex, finally to be inherited by the historic Indian tribes of the state.

### Average American Spends More on Auto Than Rent

CHICAGO, Ill. — The average American bread-winner spends more money on the family car each year than he does on rent.

That may be one reason so many people have trouble balancing the family budget.

But Dean Keefer, head of the safety engineering department of Lumbermens Mutual Casualty company, reports that there are at least two ways to save money on your car operation.

One good way is to watch the speed of your driving. On a thousand mile trip, he says, you can save \$12.22 by averaging 45 miles an hour instead of 55. You can save \$19.36 by driving 35 miles an hour instead of 55. Lower per mile gas consumption is the reason.

Keefer's other money-saving recommendation is to make repairs promptly. He says it can be very expensive in the long run to postpone them. Faulty brakes, bad steering gear, etc. get worse the longer they are neglected, he points out, and by not fixing them promptly you are not only increasing your eventual repair bill, you are also inviting a costly accident.

#### Tanning

The first machine for tanning sole leather was a simple horse-driven stone mill that ground oak bark. It was invented in 1826 by Peter Minuit of New York.

#### Pasture-Raised Turkeys

Turkeys raised on pasture develop better quality because of an unidentified element in the juices of pasture grass, which was formerly only associated with butter-milk and skim milk, according to a Cornell poultry nutritionist.

### SPLIT BALLOTS WILL BE COUNTED! THEY CANNOT BE LEGALLY THROWN OUT!

Here are excerpts from two decisions by the Supreme Court of Texas:

"One who has taken the statutory pledge is legally free to VOTE AS HE CHOOSES in the General Election."—16 Tex. Jur., "Elections," Sec. 57.

"In Koy v. Schneider, 110 Tex. 383, 218 SW 479, 221 SW 880, it was declared that the qualified elector who participated in a primary and took the statutory pledge was legally free to vote as he chose in the General Election."—Love v. Wilcox, Supreme Court of Tex., 28 SW (2d) 515.

**BEN GUILL IS DOING A GOOD JOB FOR THE PANHANDLE IN WASHINGTON. LET'S ELECT HIM TO A FULL TERM OF HIS OWN.**

## RE-ELECT BEN GUILL TO CONGRESS

TUESDAY, NOV. 7

(Paid for by Democrats for Ben Guill; Mickey Ledrick, chairman)

### Judge it on DURABILITY... DEPENDABILITY

#### It rides more smoothly

Take one ride and you'll agree Chevrolet is the smoothest riding car in its field. It's the only low-priced car combining the famous Unitized Knee-Action Ride and airplane-type shock absorbers all around.

#### It drives more easily

Enjoy finest no-shift driving with Powerglide Automatic Transmission\* and 105-h.p. engine—or finest standard driving with standard engine and Synchro-Mesh Transmission—at lowest cost.

#### It operates more economically

Chevrolet's famous Valve-in-Head Engine, exclusive to Chevrolet in its price range, brings you an outstanding combination of thrills and thrift, plus proved dependability, year after year.

#### It lasts longer, too

Many Chevrolets are performing dependably after ten, fifteen or twenty years of service. That's one reason why there are over a million more Chevrolets on the road than any other make.

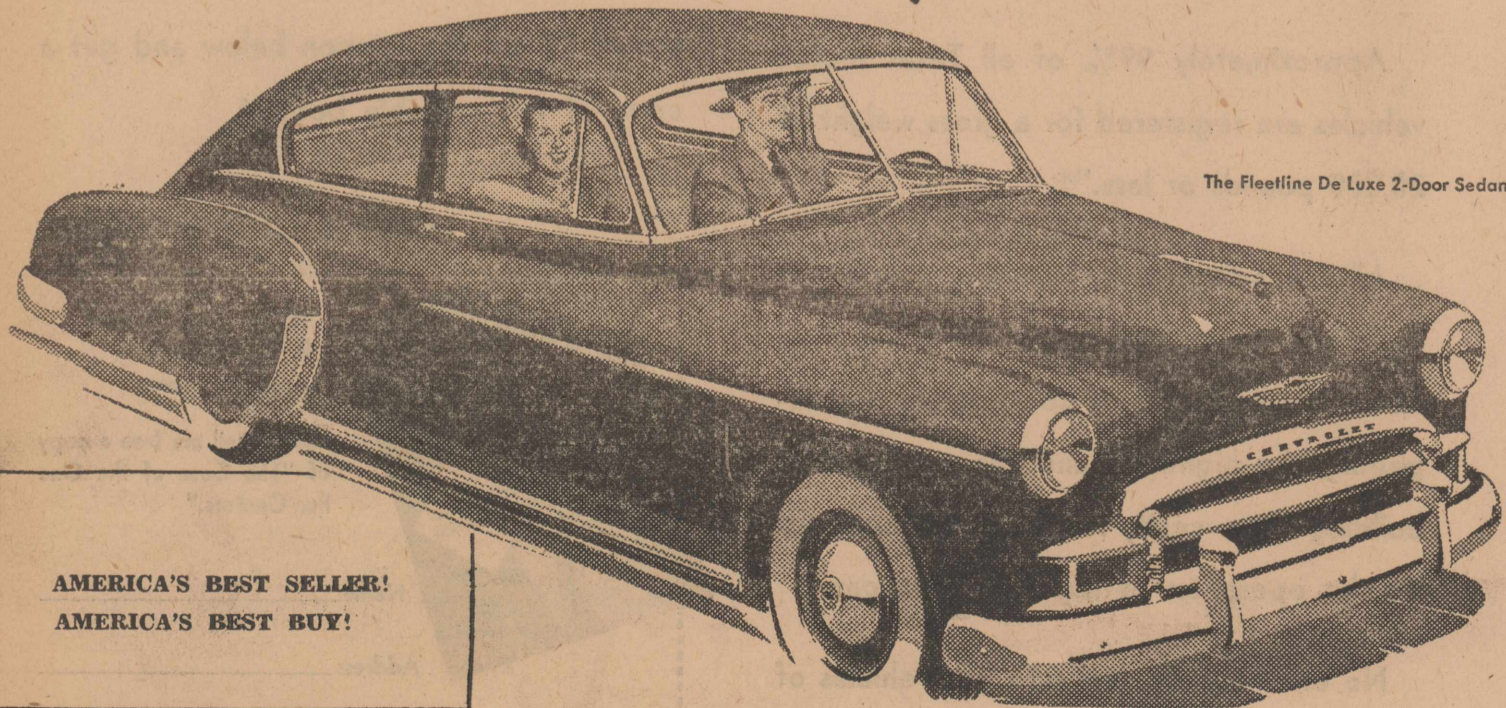

#### It's better looking all around

Outstanding good looks accompany the outstanding performance of Chevrolet cars—only low-priced car with Body by Fisher—and most beautiful in its field, according to a recent public survey.

#### It gives more for less throughout

Only Chevrolet offers so many performance, comfort and safety features of highest-priced cars at the lowest prices and with such low cost of operation and upkeep. Come in and see it now!

**World's Mightiest Stairway Climbs Shantung's Tai Shan**

The world's greatest stairway, globe travelers agree, climbs Tai Shan, highest of China's five sacred mountains. Tai Shan, in beleaguered central Shantung, is 25 miles south of Tsinan, Shantung's double-walled and moated capital recently taken by Communist forces after a three-month siege.

There are some 6,700 stone steps in Tai Shan's shanks-mare escalator. They ascend only the steeper rises of the mountain's 15-mile Pan Lu, or Pilgrim Way. Untold millions of pilgrims through 40 centuries have struggled to the 5,069-foot summit to worship "nearest Heaven."

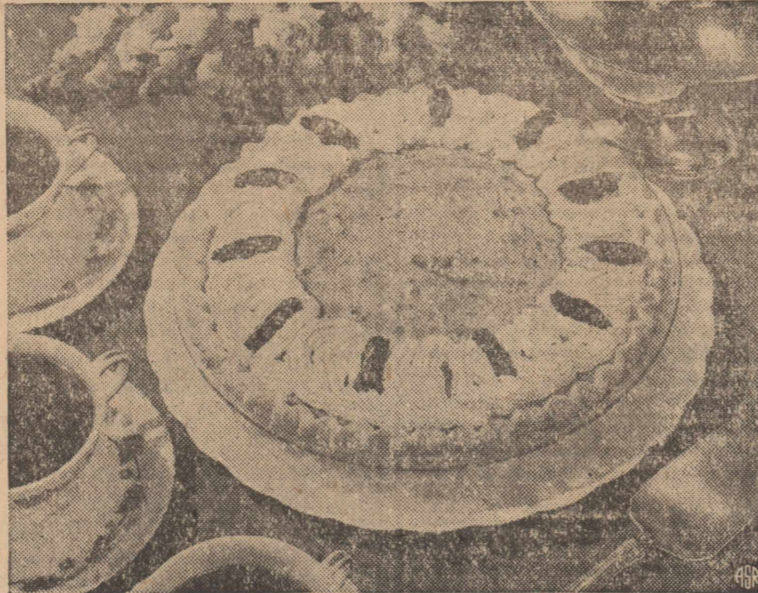

Confucius in his day (500 B.C.) was one of their number. The pilgrims have caused the winding route to become ever more lined with holy temples and towers, and with tea houses and huts to cater to the swarming humanity. Peace-time visitors in the spring have often numbered 10,000 a day. Annually on October 10, Chinese Republic day, every school child, every soldier for miles around joins the worshippers and sightseers climbing Tai Shan.

The true pilgrim first worships at ancient Tai Temple, in the walled village of Taian. He then passes through the North Gate to start the mountain ascent past myriad shrines with flowery names. At each he gives at least one coin.

There are the Heavenly Book Temple, the Temple of the Divine Employee, the two Halls of Brighter Vision, the Tower of 10,000 Fairies, the Heavenly Teapot Tower, the Temple of Fairy Dreams, Lotus Flower Peak, and Cliff of the Love of Life.

Say You Saw It In The Star

**Prune Pie Makes Economical Autumn Dessert**

Prunes, we know, are good for us, and make particularly fitting fare for small fry. Besides, they're plentiful and economical. And even this elegant chifon pie is economical, for it's one of the delicacies so easy to concoct with the new gel-cookery methods utilizing unflavored gelatine.

A good and glamorous selection for an autumn dinner dessert, it's one that will tax neither your time nor your funds.

**Prune Chifon Pie**

1 envelope unflavored gelatine  
1/4 cup water  
1/2 cup sugar  
1/4 teaspoon salt  
2/3 cup icy cold evaporated milk  
1 tablespoon flour  
3/4 cup cooked prune liquid  
2 tablespoons lemon juice  
3/4 cup chopped, cooked prunes

Soften gelatine in water. Mix together sugar, salt and flour in saucepan; add prune liquid. Cook, stirring constantly until mixture thickens. Remove from heat; add gelatine, stir until dissolved. Add lemon juice. Chill until slightly thicker than unbeaten egg white. Beat with rotary egg beater until fluffy. Stir in chopped prunes. Whip evaporated milk. Fold gelatine into whipped milk. Turn into 9-inch baked pie shell. If desired garnish with whipped cream and pieces of prune. YIELD: 1 9-inch pie.

**U.S. Investing More In Pupils, Poll Shows**

WASHINGTON — The average cost of sending a pupil to public school increased from \$88 in 1940 to \$206 in 1949, or 134 per cent, the U.S. chamber of commerce reported recently.

However, adjusting the 1940 expense to the 1949 cost of living discloses a "real increase in investment per pupil of approximately 37 per cent," the survey said.

But the national income shot up faster than school expenditures. The study, compiled by the chamber's education committee, said the percentage of total income devoted to education dropped from 2.55 per cent in 1940 to 2.27 in 1949.

The two highest states in terms of percentage of income spent on education last year were South Dakota with 3.65 per cent, and New Mexico with 3.6.

The lowest were Missouri with 1.76 per cent, and Massachusetts with 1.64.

The highest states in average pupil expenditure last year were New York, \$312; Montana, \$302; New Jersey, \$298, and Connecticut, \$297.

The lowest were Kentucky, \$109; Alabama, \$105; Arkansas, \$102, and Mississippi, \$73.

**Director Hates Bananas Except With His Gorilla**

CLEVELAND, O.—Fletcher Reynolds, director of the Cleveland zoo, wishes he had never heard of bananas, or roast beef, or plums and pears. And all because of a little girl gorilla.

The baby ape, Yokadouma, was brought from Africa earlier this year weighing a healthy 50 pounds. But after a while she stopped eating.

In desperation, Mr. Reynolds climbed into her cage with two bananas. One he ate; the other he offered Yokadouma. Watching him she ate also. But she would only take a bite when he did.

For two weeks Mr. Reynolds set an example for her by eating more bananas, roast beef, plums and pears.

He gained 10 pounds. Yokadouma gained too, but she was still underweight and the eating contest continued.

**Even Flo**  
Even Flo's a real find—pumps 500 gallons per hour—builds up pressure to over 100 pounds operating on low throttle. Fully guaranteed, this dependable pump is easily attached to the power take-off of any tractor—instantly ready for fighting fire or spraying. Even Flo's cast bronze case and yellow brass gears assure long, useful life. Accept no substitute—when you buy Even Flo you buy the best. Ask your dealer for a demonstration today.

**Continental**  
**POST HOLE DIGGER**  
**DIGS A HOLE A MINUTE**  
Here's why more farmers use the Continental automatic digger than any other. It digs deeper (up to 4 ft.) and does the job faster, even in the hardest soil. Fits any make or model tractor—adjustable for side hill digging. Continental trenching attachment digs 600-800 feet of drain ditch a day. Available with wire guard for digging in old fence row.

**Highball**  
**Salt Water Recommended**  
NEW HAVEN, Conn. — The Quarterly Journal of Alcohol carried a report recently that suggested one should take a drink of salt water when he has reached the stage of really craving alcohol.  
The report was a study by Dr. W. D. Silkworth and Dr. M. Texon of Knickerbocker Hospital, N. Y. They analyzed the blood of persons who had been drinking heavily enough to be hospitalized. In all cases they found the salt reduced.  
From this study they concluded the body is really craving salt, even though the palate says alcohol. There is nothing imaginary behind this sensation. It is purely physical reaction that fools the senses.  
The recommended salt drink, says the report, is two grams of salt in thirty cubic centimeters of water, followed by two hundred cubic centimeters of water. This amounts to a small teaspoonful of salt in a little more than an ordinary glass of water.

**Running Water Helps**  
Water under pressure on the farm saves time and labor, reminds N. H. Wooding, extension agricultural engineering of the Pennsylvania state college. It also is a contribution to good health in the family. It helps the cows to give more milk and the hens to lay more eggs, and it may save the garden in a dry spell.

**New Electric Sander Designed for Number Of Household Uses**  
CHICAGO, Ill. — One bugaboo haunting housewives' attempts to repaint furniture is the need to remove the old paint to assure a professional-like job.  
An electric sander, invented by Albert J. Dremel of Racine, Wis., and manufactured by the firm bearing his name, has solved the problem, and, in the process, has converted thousands of housewives into home furniture renovators.  
Ordinarily, the thought of sanding by hand to eliminate the old stubborn paint is usually enough to convince a housewife to turn the job over to her husband, or to change her thinking that the old chair or table is in need of a new finish.  
Weighing only two and a half pounds, the machine completely eliminates the need for hand sanding in refinishing old tables, floors, chairs, or other furniture or wood-work.  
Here's how it works: Just plug the cord into any regular AC outlet and press the switch located on top of the sander which compactly fits the hand. That's all there is to it. The sander's vibrating motion at the rate of 14,400 strokes a minute will do the rest.  
The sanding surface is designed to work on either flat, curved, or round surfaces, and to get into tight corners or other awkward spots easily and efficiently.  
The sander comes equipped with several sheets of sandpaper of varying grades. Clamps at either end of the machine hold the sandpaper firmly during the sanding operation. When fine sanding is desired, it is a simple matter—it takes only a few seconds—for the housewife to insert a sheet of fine sandpaper between the clamps.  
Versatility is another strong feature of the sander. With sandpaper removed and a polishing pad substituted, it becomes an efficient polisher for furniture, linoleum—even shoes. With polishing pad removed, it serves effectively as a massager, giving quick relief to tired muscles.

**New Policies**  
U.S. families last year bought more than 22 million new life insurance policies—an average of nearly one for every second family.

**NEW faster service anywhere in U. S.**  
Exclusive rapid road service for GMC owners—call Western Union Operator 25 for name of nearest GMC approved service

**SURE SIGN of a SMART TRUCKER!**

WHEN you see this gleaming GMC emblem on a rugged new truck, you know its owner is sitting pretty for years to come. For GMC's have a time-established reputation for long service with low maintenance cost—and with minimum down time for repairs.

That's because every GMC is a real truck—truck-built by the world's largest exclusive manufacturers of commercial vehicles. Every unit of every GMC, from grille to tail gate, is engineered for trucking service!

To find quick proof of this, just compare a GMC with any other truck before you buy. Compare engine, frame, transmission; compare cab, axles and springs—see how much extra value you get.

Or count how many new GMC's you see on the road—far more today than ever before. Then see your GMC dealer and let him give you the inside story that explains why so many cost-wise operators are switching to GMC's because experience proves them best in the long haul!

### Local News

Mrs. Violet Beard, Amarillo, was a week-end guest in the home of her parents, Mr. and Mrs. T. D. Chisum.

Mrs. James Belt, who has been a guest in the home of Mrs. D. L. Buckles, returned to her home in Oklahoma City, Saturday, with her husband, who also visited here the latter part of

the week.

Mrs. Clyde Pittman and Duane are spending the week-end in Clarendon visiting relatives.

Mr. and Mrs. L. M. Price were business visitors in Amarillo Tuesday.

Mr. and Mrs. C. H. Purdy, San Diego, California, are guests in the home of Rev. and Mrs. John Reyes this week.

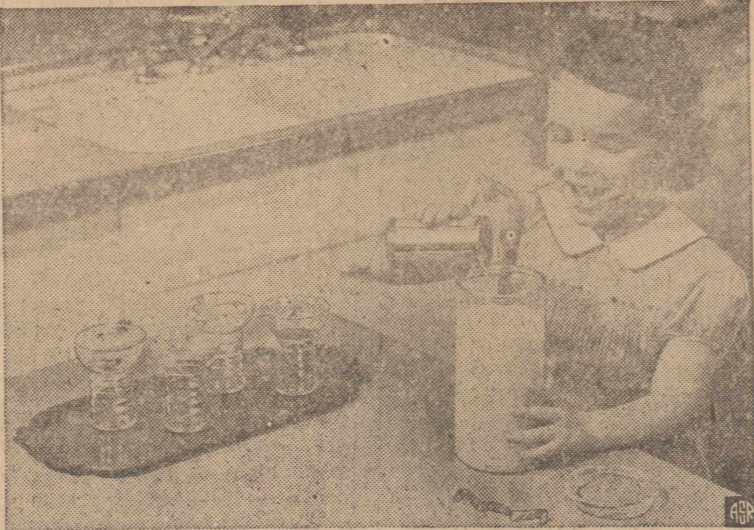

Mrs. J. K. Richardson returned Monday night from a visit in the home of her son, Dr. Kenneth Richardson and family in Sweetwater, Texas.

Mrs. Arthur Ross, Mrs. Lorraine Mehner and Ann Frances returned Monday from visits in Stephenville, Weatherford, Dallas and Fort Worth, Texas.

Mrs. May Placey, Hot Springs, New Mexico, was a week-end visitor in the home of her daughter, Mrs. W. C. Harbour and family in Kerrick.

Mrs. M. R. Robinson and Chucko were dinner guests in

### The No Squeeze Way Is Child's Play

No excuse any more for not getting your glassful of orange juice every morning—they've even taken the squeezing out of this daily chore and made it literally child's play! Homemakers are becoming well-acquainted with Florida frozen orange juice concentrate, a boon to busy breakfast hours. Packed in 6-ounce cans which fit neatly into freezing compartments, the concentrates offer peak flavor plus convenience. To the 6-ounces of the frozen highly concentrated juice, you add 18 ounces of water and stir well just before serving. Best of all is the assurance from government bureaus of the high vitamin content of the concentrate. With new processing methods, all the Vitamin C which has made citrus our most prized and most generally used fruit crop (as well as our biggest!), is sealed into the sterile little cans so that we may enjoy it every day, regardless of season or geography.

the home of Mr. and Mrs. J. E. Burt Tuesday night.

Mr. and Mrs. Lester Plunk had as guests Sunday and Monday, her parents, Mr. and Mrs. R. C. Reeder, Bushland.

Mrs. Dow Winn, Dallas, visited in the home of her sister-in-law, Mrs. T. L. Taylor several days this week.

Mr. and Mrs. W. N. Price, William Leslie, Jeanne and Lelah were business visitors in Amarillo Friday.

Mr. and Mrs. Edgar Spurlock are moving to Stratford to make their home. Mr. Spurlock, who has been employed at Cactus for several years, is retiring.

Mrs. H. A. Nichols left Sunday for Fort Davis, Texas, after receiving word Saturday that her sister was very ill.

Mr. and Mrs. A. W. Allen were visitors in Amarillo Wednesday.

Mr. and Mrs. J. N. Foster and Tommy accompanied Mr. and Mrs. Paul Spruell to their home in Tulla Saturday afternoon for a short visit.

Mr. and Mrs. Alex Coats were business visitors in Dalhart Monday.

Mrs. E. J. Massie and John Marvin Wilson visited friends and relatives in Dodge City, Kansas from Thursday until Sunday.

Johnny Lyons, a student at Texas Tech, spent the week-end in the home of his parents, Mr. and Mrs. Royal Pendleton.

Mr. and Mrs. C. T. Watson were visitors in Amarillo Thursday of last week.

Miss Patricia Kalka made a business trip to Amarillo Monday afternoon.

Mr. and Mrs. Ernest Kelp of Hot Springs, New Mexico, are guests in the home of Mr. and Mrs. Russell Kelp.

J. G. Cabbell, Berger, District Superintendent of the Panhandle Division of the Southwestern Public Service Co., was a business visitor here Monday.

Among the college students spending the week-end with parents in Stratford were Howard Hart, Jackie Vincent, Wendolyn Flores, and Jack Reed.

Mrs. Van D. Dowda left Tuesday for her home in Helena, Arkansas after a visit in the home of her parents, Mr. and Mrs. E. W. Butler. Mrs. Cone Donelson and Mrs. E. W. Butler accompanied Mrs. Dowda to Amarillo.

Clyde Pittman will attend a school in Oklahoma City Thursday and Friday.

Mr. and Mrs. F. D. Cummings and Cynthia, and Mrs. Harold Leonard were business visitors in Amarillo Monday.

G. L. Taylor was a business visitor in Colorado Sunday and Monday.

Mrs. Marguerite Wilson visited relatives in Dodge City, Kansas Sunday.

Frank Sutton, Randolph McAdams, and Miss Rowena McAdams drove to Iola, Kansas

Tuesday to bring home the car belonging to Mrs. Sallie V. McAdams.

#### CARD OF THANKS

I wish to thank all my friends for the kindness shown me while in the hospital and convalescing.

Mrs. Alex Coats

#### APPRECIATION

We know the teachers and our parents are backing us to the fullest extent because in helping us, they prove it. We appreciate more the fact that we know they are willing to help us and that they take great interest in us. We take pride in our parents, community, teachers, and fellow students. We appreciate their helping us in our big event of the year, our carnival.

The Senior Class

### Circle One Meets With Mrs. Fedric

Circle One of the C.W.F. of the Christian Church met Wednesday in the home of Mrs. Byron Fedric with Mrs. Bob Stublefield as hostess.

The meeting was called to order by the Circle Leader. The business was disposed of and the meeting turned over to the leader for the day, Mrs. Arthur Folsom, who gave the following interesting program.

A short discussion of the lesson theme, "Think on These Things," was given by the leader. The devotional was given by Mrs. Jewell Doyel. Mrs. Ida Billington gave a very interesting article on "Japan Calls." Mrs. Clyde Hill gave a discussion on "What It Means to be a Refugee."

A very interesting letter was read from a cousin of Mrs. D. L. Buckles who is a Methodist missionary in Japan.

Mrs. Leonard joined our circle.

A report was made of 10 books being read and 12 daily

devotionals conducted. An offering of \$13.38 was taken.

The next meeting will be in the home of Mrs. Ida Billington with Mrs. Jewell Doyel as leader. The meeting was closed with the missionary benediction.

The hostess served delicious refreshments and an enjoyable time was spent visiting.

### Mrs. O'Brien Entertains El Martes

Mrs. J. C. O'Brien very graciously entertained with "42" the El Martes Club in her home Tuesday afternoon. Those present included two guests and thirteen members. Mrs. John Kidwell won high score for the afternoon. After an enjoyable interlude of "42," the hostess, Mrs. O'Brien, served lovely refreshments to the guests.

A short business meeting was held with the following officers being elected for the ensuing year: Mrs. W. A. Milton, President; Mrs. Royal Pendleton, Secretary-Treasurer; Mrs. John Knight, Reporter.

### Honor Guests With Dinner

Mr. and Mrs. R. C. Buckles entertained with a dinner in their home Friday evening, honoring Mr. and Mrs. James Belt of Oklahoma City. Other guests were Mr. and Mrs. Arthur Milton, Mr. and Mrs. L. J. Davis, and Mrs. D. L. Buckles.

#### Ability to Sleep Deeply Of Vital Concern to All

While sleep has been an important part of the routine of living since the beginning of time, very little is actually known about it. Science has found that during sleep large muscles relax first, tiny ones last. The power to make conscious movements and the sense of smell go first—then vision, hearing and touch follow in that order. The metabolic rate becomes slower.

Just recently, Dr. Henry K. Beecher, Door professor of research in anaesthesia at Harvard Medical school, discovered that the transition from wakefulness to sleep involves the shifting of brain activity from the back to the frontal region of the brain. Dr. Beecher is continuing his work on the many other physiological mysteries concerning sleep.

However, what really happens during sleep is not of nearly so great concern to most of us as being able to sleep restfully so that fatigue and tension can be eliminated from our lot of life's little problems. Lack of proper sleep is probably responsible for more personality changes, more dissension, more failures than any other one factor.

To "set the stage" for relaxing slumber pays great dividends in health, success and enjoyment of life. It must start with well constructed, comfortable bedding which yields proper support for correcting fatigue posture. Good ventilation, quiet, darkness, loose nightclothes are other important "props" for setting the stage.

#### Change Shoes Often

Never wear the same pair of shoes two days in succession and change socks or stockings once or twice a day

**Child Psychology**  
Overindulgence, overprotection, or possessive love limits and holds back the normal development of a child. The wisest parents guide in a way that enables a child to become as self-reliant and independent as he is able to be. They encourage him to make decisions and help him evaluate those decisions.

**Care of Mahogany**  
Mahogany furniture that has been given a fine finish requires only a minimum amount of care. An occasional waxing with paste wax will keep it at its best. If it gets dirty, clean it with lukewarm water and a little pure soap. Wring the cloth well and finish by wiping with a soft, dry cloth.

Fire in the A. W. Allen stubble field North of Stratford burned over an estimated 6 to 8 acres of land Tuesday night before the flames were brought under control by volunteer fire fighters and the Stratford Fire Department.

Say You Saw It In The Star

**"SMALL BUSINESS"**

By C. WILSON HARDER

Small businessmen are reporting signs of a business slump. While mounting prices are a contributing factor there is a greater primary cause.

"We are being jaw-boned into a depression," observers say. They point to the great number of bureaucrats, from cabinet rank on down, who miss no opportunity to cry "Woe!"

An example of this is the statement by Commerce Secretary Sawyer that heavier taxes, serious shortages, and business controls can be expected for many years to come.

Observers say Sawyer may or may not be a competent Commerce Secretary. But all agree he is ill-equipped to assume the role of a prophet; even less qualified in international relations.

It is pointed out that bureaucrats were almost openly scornful when Gen. MacArthur in July said the turn in Korea had been reached.

Yet, MacArthur with inspired American fighting men scored a success. But since the end of World War II in 1945 no single bureau plan for the promotion of peace has succeeded.

According to all reports, there is now a concerted drive to keep war scares and rumors flying so that the people will not get curious about domestic affairs.

Responsible military men are saying nothing. Some did explain how peace could be secured; were immediately cracked down on by bureaucracy.

The facts are that socialistic planners have been uncured too

©National Federation of Independent Business

long. That's the reason for the present inflation.

Now there's only two alternatives. One is to honestly admit what has happened. The other is to further socialize private enterprise.

Washington observers don't look for honesty. They see, instead, the drive under way to further socialize America being pushed.

The plan is "Scare them to death, and a frightened people will sign away their freedom."

In the meantime, bureaucratic spending of taxes takes weird forms. Now, it develops Marshall Plan funds are being used to play traffic cop to the world.

ECA Bulletin #6 reports that Marshall Plan funds have been used to build a traffic inspection station in Athens so Athenian police can check vehicle registration, license plates, brakes and lights.

Use of American tax dollars for such purposes could create a storm that would topple over entire bureaus.

So public attention is kept focused on a constant series of alarms. Loud mouthed bureaucrats fail to realize they are shattering public morale; slowing down the American economy.

And this fact may cause the eventual disappointment of Socialist planners.

For when, and if, they take over the goose that laid the golden eggs—independent American enterprise—they may find the goose died from fright.

**A PLAN FOR RELIGIOUS UNITY**

(By Clyde Aly)

Text: Ephesians 4:3-6.  
"Endeavoring to keep the unity of the Spirit in the bond of peace. There is one body, and one Spirit, even as ye are called in one hope of your calling; One Lord, one faith, one baptism, one God and Father of all who is above all, and through all, and in you all."

The one Spirit is the Holy Spirit, almost every one will admit. The Spirit revealed the truth.

"Howbeit when he, the Spirit of truth, is come, he will guide you into all truth for he shall not speak of himself; but whatsoever he shall hear, that shall he speak and he will show you things to come." John 16-13.

"Now we have received, not the spirit of the world, but the Spirit which is of God; that we might know the things which are freely given to us of God." I Cor. 2:12.

"Which in other ages was not made known unto the sons of men, as it is now revealed unto His holy apostles and prophets by the Spirit." Eph. 3:6.

Not only did the Spirit reveal the truth to the apostles but he also enabled them to confirm the word preached by miracles and signs. Mark 16:20, Heb.2:3.

There is only one Spirit and he certainly works in harmony with himself. There are a number of religions today claiming

to have their origin through an inspired man or woman since the days of the apostles of Christ. For example, the Mormons claim that Joseph Smith received special revelation from the Spirit. Yet, what he taught differs from what the inspired apostles taught. If all were inspired by the Holy Spirit, they would have all taught the same things.

There are several religious bodies that claim to receive the baptism of the Spirit, they all teach and believe differently and will not fellowship with each other. Is this not a strange situation?

All truth is in harmony with all related truth. There is only one Holy Spirit. All so-called revelations that differ from the Bible are false. Those making the claims are false apostles, deceitful workers. II Cor. 11:13.

Without lengthy discussion, the universal hope of man is eternal life, in the world to come. Mark 10:30; Col. 1:5. Christ has gone to prepare a place for the obedient and faithful. John 14:1.

"For we know that if the earthly house of our tabernacle be dissolved, we have a building from God, a house not made with hands, eternal, in the heavens." II Cor. 5:1.

However, there are some exceptions to the one true hope of heaven. Some have the false hope of reigning with Christ here on earth instead of going to heaven in glory. The early Christians looked forward to a heavenly home. Heb. 11:16.

Address comments and queries to the Church of Christ, Box 631. "We Strive Not to Be the Only Christians, But to Be Christians Only."

**Two Cases In County Court**

Clayton E. Webster, charged with driving on a public highway at a speed in excess of 6 miles an hour, was fined \$22.10

**Sunray Will Play Here Tuesday**

Three Sunray basketball teams will play here Tuesday night of next week with the opening game starting at 6:30. Games will be played between the Junior High girls, Junior High boys, and the Senior girls.

**Bad for Calves**  
There's trouble ahead when calves make pigs out of themselves on pastures, veterinarians warn. Calves under six months of age are unable to store large amounts of grass, due to underdevelopment of the rumen. Moreover, grass is largely water and does not provide nutrients in the volume needed for rapid growth. The result, usually, is that the youngsters scour and fail to gain weight, especially if they fill up on grass and refuse grain.

**Wether Lambs**  
Sex hormones are regarded as a promising means of making wether lambs attain market weight faster on less feed.

**Old Mother Goose Joins 'Cold War' on Soviet**

WASHINGTON — The Voice of America is using nursery stories on its overseas propaganda broadcasts to kid Moscow's extravagant charges against the west. They try to expose by ridicule the upside-down arguments of Jacob Malik, Soviet delegate to the United Nations security council.

The voice version of Mr. Malik says Cinderella was a victim of craven monopolists, and what's more, her case is on the agenda illegally. Mr. Malik is quoted as saying the sparrow that killed Cock Robin was just on a training mission, and was not armed. The unfortunate fate of Little Red Riding Hood's grandmother—says Malik—cannot be discussed before the wolf is consulted.

This music-hall approach to propaganda is used in the voice's political cabaret program. This broadcast is beamed to eastern Europe, where the people are used to political farces on the stage.

The voice stories try to show that Mr. Malik's reports on international affairs are just as absurd as the upside-down nursery stories.

**Don't Be Satisfied With Symptomatic Relief! It's Possible To RELIEVE THE CAUSE OF YOUR AILMENTS**

**When Lack of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin Cause Stomach Disturbances, Gas, Heartburn, Indigestion, Nagging Aches and Pains and Certain Nervous Disorders**

Just A Few Of Thousands Of Records Of Folks With Such Deficiencies Who Have Been Helped

**Mr. Link Robinson** (steel worker), 519 Lindsey, Newport, Kentucky: "When your stomach is in bad shape as mine was, couldn't eat, gas pains, stomach bloating and nervousness, then your body doesn't get the proper foods it needs. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat anything. Best of all, I haven't those gas pains and bloating."

**Mrs. Mabel Kitchen**, 1650 Amsterdam, Cincinnati, Ohio: "Before I started HADACOL, I had aches and pains in my shoulders, back and arms. I could hardly move without having those pains. Then I heard about HADACOL. After the second bottle the aches and pains were about gone. I'm just starting the fourth bottle and am on top of the world. My aches and pains are completely gone. I recommend HADACOL to all my friends."

**Mrs. J. Scieszinski**, 514 Kruger, Ottumwa, Iowa: "My daughter, Marilyn Sue, is five years old and for some time lacked pep, had a poor appetite, was generally run-down. Since giving her HADACOL, we've noticed wonderful results. She has a much better appetite and doesn't seem tired like she used to be."

**Harry Springer**, 5608 Greer Street, St. Louis, Missouri: "I suffered from aches and pains for quite some time and continued to suffer. Then I read about HADACOL and bought my first bottle. Within a week I felt better. After the third bottle I had no aches at all. I was tired and listless but after a few bottles of HADACOL I felt like getting out and doing things."

**The Man Who Gave The World HADACOL!**

**Senator Dudley J. LeBlanc**

Thanks to the tireless efforts in scientific research of Senator Dudley J. LeBlanc—eminent statesman of Louisiana and creator of this great new HADACOL you don't have to be satisfied with symptomatic relief—because it's possible to relieve the real cause of such ailments as stomach distress, gas pains, heartburn, indigestion, aches and pains, certain nervous disorders and a general rundown condition, due to lack of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin.

HADACOL not only supplies deficient systems with more than your daily needs of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin but also beneficial amounts of precious Calcium, and Phosphorus—elements so vital to help maintain good health and guard against such deficiency ailments. A big improvement is often noticed in the way you feel within a few days. And LISTEN TO THIS! Continued use of this great HADACOL helps keep such distress from coming back.

Don't delay. Don't continue to suffer. Remember HADACOL relieves the cause of such ailments above. You owe it to yourself—to your family to start taking HADACOL at once.

## Now She Shops "Cash and Carry"

**Without Painful Backache**  
As we get older, stress and strain, over-exertion, excessive smoking or exposure to cold sometimes slows down kidney function. This may lead many folks to complain of nagging backache, loss of pep and energy, headaches and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, dampness or dietary indiscretions.  
If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

## DOAN'S PILLS

## WHEN SLEEP WON'T COME AND YOU FEEL GLUM

**Use Chewing-Gum Laxative—REMOVES WASTE... NOT GOOD FOOD**  
When you can't sleep—feel just awful because you need a laxative—do as MILLIONS do—chew FEEN-A-MINT.  
FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "pushing" action too soon... right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy—you feel weak, worn out.  
But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, tired feeling. Use FEEN-A-MINT and feel fine, full of life! 25c, 50c, or only **10¢**

## Your Worst and Best

Lesson for November 5, 1950  
"Within my earthly temple there's a crowd,  
There's one of us that's humble,  
One that's proud;  
There's one that's broken-hearted for his sins,  
And one that, unrepentant, sits and grins.  
From much perplexing doubt I could be free,  
If I could once be certain which is me."

FROM some anonymous rhymester comes this complaint, which any of us might have truthfully written if we had thought about it. Which is me, anyway? I seem to have three selves. One is a good deal better than my everyday or ordinary self. On rare occasions he will do something or other so good it surprises even my best friends—it "isn't like me."  
On the other side is another self, much worse than my everyday personality. He too surprises me by acts or thoughts so dreadful I am afraid of him and ashamed to do. Yet both these "other selves" are "me" too.

Life is a Fight  
**THE TRUTH** of the business is that life, when a man takes it seriously, is a fight. It is a war between your best and your worst self. Your two other-selves are there every moment, like ghosts, or rather like a bright angel and a dark one.

It is always possible to become a better man than you are; also, alas, it is possible to become far worse than you are. No man stays the same through life. He is continually pressing upward, or plunging downward, or varying between the two. There has been only one person, Christians believe, who actually fulfilled all the good that was possible for him. The possibilities for evil in his life remained only possibilities—he never let them come to pass.

The possibilities for good, on the other hand, became real. His dark angel remained only a ghost; his good angel was simply his real self. At no point in his life was he forced to say to himself, "I wish I had... I wish I had not." And yet, even for him life was a struggle. We do not believe he sinned. We do believe he was tempted; and if the temptation was real, then he could have sinned. No man can be really tempted to do what he cannot do. Yes, the Master had his fight. But the point is: he won.

The Way to Win  
**CHRISTIANS** are not exempt in this war of good against evil. We are not "carried to the skies on flowery beds of ease" any more than Jesus was. We do not drift into the Promised Land. We have to fight our way uphill.  
Yet Christians are expected to win. That is, God stands beside each Christian in his fight, and God's power is for the Christian's use. As Saint Paul says, with each temptation God provides a "way of escape." Our prayer "Lead us not into temptation" can always be answered. Sometimes it can be answered by ourselves. That is, we cannot leave the fight to God.  
But we can win as Jesus won: sometimes by standing and doing battle where we are, sometimes simply by leaving temptation behind. For often the best thing to be done is to retreat. Get as far as you can from whatever tempts your worse self. Don't stand debating between right and wrong when you know which is which. Turn your back on the wrong... run, don't walk, to the nearest exit!

Is Alcoholism a Disease?  
**ONE OF** the common temptations of millions at all times is alcoholism. It is popular to speak of this as a "disease," and yet it is the only disease of which victims have actually cured themselves.  
Dr. Brady, whose medical column is well known, reminds us that nobody ever got over migraine headaches, or heart disease, simply by deciding to be well. But men and women have got over alcoholism, essentially by deciding to be well, and sticking to that decision.  
Alcoholics Anonymous, that well-known group of former victims, who have been very successful in helping slaves of this habit to become their best selves, use much the same methods we find in the New Testament: (1) staying out of temptation's way, (2) overcoming evil with good; and (3) laying hold of the "Power, not ourselves, that makes for righteousness."

## Save Money On This Home Mixed Cough Syrup

**Big Saving. No Cooking. So Easy.**  
You'll be surprised how quickly and easily you can relieve coughs due to colds, when you try this splendid recipe. It gives you about four times as much cough medicine for your money, and you'll find it truly wonderful for real relief.  
Make a syrup with 2 cups of granulated sugar and one cup of water. No cooking needed. (Or you can use corn syrup or liquid honey, instead of sugar syrup.) Then put 2 1/2 ounces of Pinex (obtained from any druggist) in a pint bottle, and fill up with your syrup. This makes a full pint of medicine that will please you in every way.  
It never spoils, and tastes fine—children love it.  
This simple mixture takes right hold of a cough. It loosens the phlegm, soothes the irritated membranes, quickly eases soreness and difficult breathing.  
Pinex is a special compound of proven ingredients, in concentrated form, well-known for its quick action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.  
**FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!**

## HOT FLASHES?

# NEW IMPROVED

# 3 WAYS BETTER!

...say Cookery Experts

"Easier to use" says Ida Bailey Allen, world-famous food authority and well-known radio and television personality. "There's no long waiting, no difficult 'special' directions with Fleischmann's New Improved Dry Yeast. I've never known a yeast that's faster and easier to use."

"Faster dissolving" says Natalie Scott, cookery expert and editor. "It's faster dissolving—no other yeast can top it! Just combine Fleischmann's New Improved Dry Yeast with water, stir it well and that's all! You're all ready to start in half the time. It really is the finest yeast I know!"

"Faster rising" says Elizabeth Balmer, food authority and cookbook editor. "When you bake at home, depend on Fleischmann's New Improved Dry Yeast to cut down rising time, give finest results. It's more active than ever and stays active for months—just keep it cool and dry."

### Star Club Meets With Mrs. Borth

The Star Home Demonstration Club met Tuesday of last week in the home of Mrs. Kenneth Borth. Miss Dorothy Dixon had charge of the demonstration on making cutting beds. Two visitors and twelve members were present. The next meeting will be November 14 in the home of Mrs. Raymond Keener.

### Mrs. Bingham New Clerk In Agents Office

Mrs. A. N. Bingham has accepted a position as clerk for the county agent and county home demonstration agent's office. She assumed her new duties Wednesday morning. Mrs. Sears, who formerly held this position, resigned to take over her duties as County Treasurer.

### Mrs. Wakefield Entertains Circle Two

Circle Two of the Christian Womens Fellowship met at 2:30 Wednesday afternoon in the home of Mrs. T. L. Wakefield with eight members present. The meeting was called to order by the leader of the group, Mrs. Elmer Hudson, and the meeting was opened with prayer by Mrs. L. L. Lyon.

A short business meeting was conducted and the meeting was turned over to the program leader for the day, Mrs. H. E. Lowe, who gave the following program:

Mrs. L. L. Lyon gave the devotional on "Peace." Mrs. June Salesman sang "Sweet Peace the Gift of God's Love." "The Victory the World Needs," was discussed by Mrs. Elmer Hudson. "Colegio Ward's Quintuplets Celebrate," was the topic for Mrs. Everett Palmer's talk.

The next meeting will be in the home of Mrs. Harmon Lowe and the program leader will be Mrs. J. R. Pendleton.

The meeting was closed by the missionary benediction. Delicious refreshments were served by the hostess while a social period was enjoyed by the group.

### Atomic Energy Turned Directly To Electricity

CHICAGO—Scientists have discovered the first practical method for the direct conversion of atomic energy into useful electricity. Their accomplishment, acclaimed as a significant advance in nuclear research, does not involve the use of boilers, steam-driven dynamos or other intermediate steps to convert the one kind of energy into the other.

The device perfected for the conversion of atomic energy is called a neutron thermometer. As a mechanical watchdog it enables atomic furnaces to be run at top efficiency without danger of explosion.

The thermometer has been used so far only to harness the atom for the generation of a feeble current approximately one-quarter of a watt. It weighs two ounces, six and a half inches long and one-half inch in diameter. It was first installed in an atomic furnace in 1944. It is said to be one of the principal devices that enabled the government vastly to increase its production of plutonium, an atomic bomb ingredient.

Hundreds of thousands of dollars have been spent in perfecting the thermometer to its present state of efficiency in using what is known as the Seaback effect to transform heat into electrical energy.

It will probably be the forerunner of a host of new type atomic measuring devices, including a dosimeter to be worn by civilians for measuring the amount of lethal radiation to which they have been exposed in an atomic bomb explosion.

Because the new detection devices will generate their own current they will need no batteries or periodic re-charging such as are required by present day instruments. These are regarded as too complicated for civilian use in the event of atomic attack.

When used to control atomic furnaces several of the new thermometers are inserted directly into the invisible fires of atom-smashing devices. There they spot check atomic combustion at various points and levels within the furnace.

Wires leading from the thermometers run outside the furnace and carry the electrical current generated by the instruments.

This electrical energy, which is directly proportionated to the efficiency of the atomic fires, operates control instruments for speeding up or lowering the atomic reaction at any point in the furnace.

The new thermometers will replace older regulating mechanisms that relayed their signals through another set of electronic controls.

Conceivably the new thermometer, it is estimated, can help reduce atomic furnaces to less than one-fifth their present size. It also is presumed that the instrument is one of the key factors on which A.E.C. scientists are said to be depending in their previously announced efforts to build an atomic furnace small enough to power a submarine.

### Small Homes Council Offers Some Valuable Suggestions

The lowest-cost house can be as livable and as successfully decorated as a large home, declares the small homes council at the University of Illinois in issuing a revised edition of its circular on "Interior Design."

It points out that "interior design must serve the living habits of you and your family; satisfy your ideas of comfort, beauty, economy, and ease of maintenance; and satisfy the broader standards of good design."

Text of the circular is by Prof. James R. Shipley of the art department; designs and illustrations are by William S. Pusey, Small Homes Council artist.

Among suggestions presented are: Don't clutter your rooms with too much furniture.

Keep conversational groups away from lines of traffic. Pull chairs out of far corners; group chairs together.

Place tables and lamps near chairs and sofas. Where possible, make a table and lamp serve two or more seats.

Hang pictures at eye level. Furnishings should be similar in scale to achieve harmony. A small, spindly end-table looks out of place beside a large davenport.

Diagonal pieces in corners waste space. Strive for ease of maintenance. Eliminate bric-a-brac, excessive carving, and anything else that makes cleaning difficult.

### Home Skating Rink

Before attempting to make a backyard skating rink by flooding there should be several inches of frost on the ground, with the air temperature well below freezing, 25 degrees or even lower. The first water should be spread very thinly, so that it will be quickly cooled. If not, the heat in the water may thaw the ground in one spot, and the rest of the water will soak into it. After a good base coat of ice is established, apply about an inch of water and let it freeze on top of the first layer. Repeat this until it is thick enough to cover any grass or other stubble that might stick through. Apply as little water as possible at one time and don't let it run very long on any one spot of the ice.

### Strength of Materials

New basic information dealing with the irregularities of atomic arrangements in solids—believed to be the key to the study of the strength of materials—may soon be greatly increased as a result of recent Rutgers university research. Austrian-born Dr. Alfred J. Reis, research specialist in the state university's bureau of engineering research, and Sigmund Weissman, his associate, have used X-rays to produce more accurate and complete pictures of these irregularities than ever made before. The work is being sponsored by the office of naval research.

### Popularized Gift Watch

Napoleon's Josephine popularized the watch as a gift for sweethearts. In 1800 she received from Napoleon a watch studded with 1,741 pearls and 158 turquoises on the case. He even went to the point of having watchmaker Piquet Meylan add a quarter-hour to the accompaniment of moving figures—a boy playing a mandolin and another blowing upon reeds as a miniature windmill turns.

### Ragweed

The scientific name of ragweed is ambrosia. Sounds very nice.

### U.S. Returns Battle Flags Captured in 1846 to Mexico

MEXICO CITY, Mexico — The United States formally handed back 69 battle flags to Mexico. The flags were restored at the spot where six Mexican cadets leaped to death from the walls of Chapultepec castle, 103 years ago, rather than surrender to United States invaders. Captured in the war of 1846-1847, the flags had been at West Point military academy ever since.

President Miguel Aleman, flanked by his military staff, accepted the flags as Ambassador Walter Thurston read a message from President Truman that said the flags were returned with assurance of "friendship, understanding, respect and peace."

When the Liberty Bell cracked in 1835 it was tolling for the death of John Marshall.

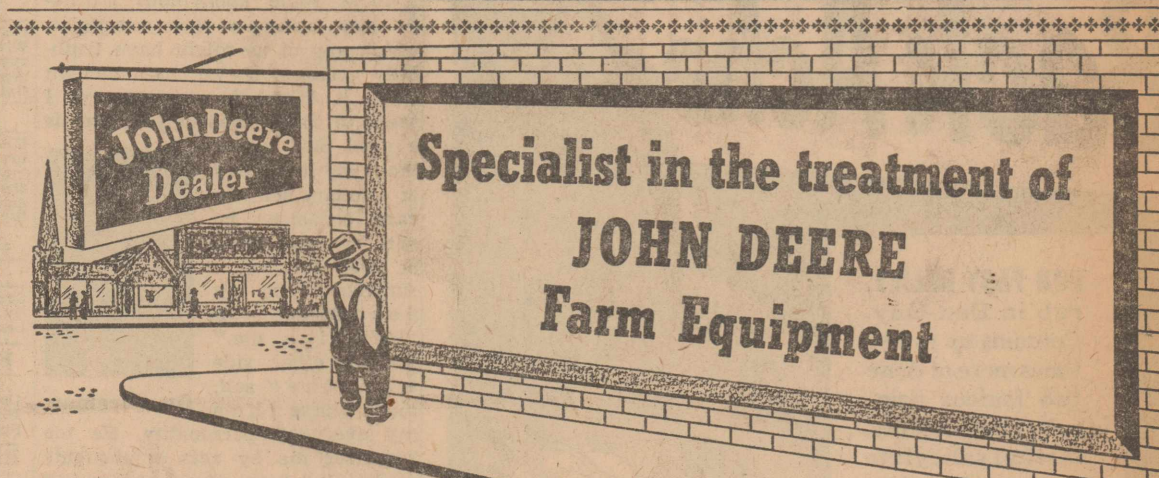

**A Handmade Luxury**  
Ice cream shops began during the war for independence. Merchants catered to the Redcoats' taste for ice cream. At the turn of the 19th century shops in New Orleans were getting ice for their new wares from the upper Mississippi. Ice cream was still made by hand, and only the wealthy could afford it at the fashionable shops.

Say You Saw It In The Star

**For Brides**  
Blankets are a favored gift for brides. Select blankets that are long enough if you want them to wear for many years. The blanket which will give the most comfort and will reduce strain of the fibers is 10 inches longer than the mattress, says Miss Kathryn McNeely, home furnishing specialist, Colorado A. & M. extension service. It should also be 18 inches wider than the standard-size mattress.
