

## Seniors Have Program For Stratford Lions

Seven members of the senior class of the Stratford High School presented a patriotic program at the meeting of the Stratford Lions Club Monday night.

Miss Mildred Bennett, Miss Thelma McDaniel, Miss Marty McMahon, Miss Mary Lou Garoute, Miss Mary Nan Davis, Jerry Sherrod and George Stone appeared on the program.

Miss Mildred Bennett was in charge of the program. She led the gathering in repeating the pledge of allegiance to the American flag. This was followed by singing one verse of "America the Beautiful."

Miss Mary Lou Garoute traced the beginning of the flag, going back to the standards of the early day tribes. She told of the symbols represented by Old Glory as the reason for the nation to uphold its honor and glory.

George Stone gave instructions spoken of as etiquette in caring for and displaying the American flag.

Miss Marty McMahon told of the story which inspired the writing of the first national anthem, "America." One verse of the song was sung by those present.

Miss Thelma McDaniel read the history of the writing of the national anthem, "The Star Spangled Banner," followed by the singing of one verse.

Miss Mary Nan Davis furnished the piano accompaniment for the songs.

Miss Bennett closed the program with her comment on the pride of the student body in the county, their state, and their nation. They were proud, she said, for its opportunities of private enterprise, of initiative, of majority rule, and of the four freedoms, among which the most important was, the freedom of the right of religion.

C. D. Holmes, who presented the senior group, made the final comments on the program prepared for use in the school as an Armistice Day event.

Alfred Pronger, vice-president, presided over the meeting in the absence of W. O. Bryant. Rev. H. A. Nichols gave the invocation.

Chester Guthrie and H. L. McMahon were named as program chairmen for Monday night of next week and Ernest Goule and Rev. M. E. Upchurch were named program chairmen for the following meeting.

## FFA Team Attended PAMC Meet

The FFA Livestock Judging team went to Goodwell Saturday last week where they took part in the annual Panhandle A. & M. contest.

Douglas Carter, Marion Sears, and Donald Ellison are the boys who represented the Stratford Chapter. They have not been informed as to how they placed in the judging contest.

The Sadie Hawkins Dance here Saturday night brought the boys home before the final results of the contests were announced.

The FFA boys plan to attend contests which will be held in Pampa, Amarillo, and Lubbock.

Joe Crabtree, a member of the FFA team last year, won high honors in judging beef cattle. The judging team this year hopes to defend this title and win higher awards.

## 1951 Farm Bureau Members Exceed 1951 Goal

Memberships of 257 Sherman County wheat producers have been placed with the Sherman County Farm Bureau in the current membership drive. The quota of the county for 100% membership was set at 232. The goal set for the county by the state was 279. It is quite possible the membership of the local organization may reach this figure.

## LOCAL MARKET Thursday Afternoon

Maize, per 100 pounds .... \$1.75

## Wheat King Leaves For Fort Worth

Edwin Lee Weatherford, Texas 4-H club wheat king, left today for Fort Worth to spend the week-end as the guest of the Texas-Oklahoma Wheat Improvement Association. He will be featured on a WBAP radio program Saturday at 6:30 A. M.

Weatherford will be in a group composed of the Texas Wheat Prince, the Wheat King and Prince of Oklahoma, sponsoring FFA instructors and sponsoring county agents. The party will tour the milling and baking industries in Fort Worth, returning home Sunday.

## Bryan Clason Opens New Service Station

Bryan Clason announces the opening of a Skelly retail and wholesale station located on U. S. Highway 287 on North 9th Street. Earnest Clason will be associated with his father in operation of the business. The new firm will operate as the Stratford Gas and Oil station.

The Clasons hope to start work soon on the construction of a new building near the present business which will house a cafe that will maintain 24 hour service.

Bryan Clason has been a resident of Stratford for several years. Earnest Clason formerly drove an Amarillo wholesale truck to Stratford and chose this location for his home.

## Band Students Will Attend PAMC Clinic

Stratford band students have been invited to attend the second annual band clinic which will be held at Panhandle Agricultural and Mechanical College in Goodwell Sunday and Monday.

Directors in each school will select 12 of their best musicians. From these band students a 100 piece band will be selected to play with members of the PAMC college band. This band will furnish the music for clinic work. Music which will be played will be that which has been chosen for the state contests of each participating band.

Every member of the local school band plans to attend the clinic although only 11 will take part in the concert band. Local twirlers will attend the twirling clinic.

Professor D. O. Wiley of Texas, one of Texas' leading band directors, will conduct the clinic. Professor Wiley is secretary of the Texas Music Educators Association.

Clinic rehearsals will be conducted Sunday afternoon and all day Monday. A concert will be played at 7:30 Monday night.

Chosen to play in the PAMC clinic band from the Stratford school band are: Mary Nan Davis and Tommy Wakefield, clarinet section; Charlotte Paris, bass clarinet; Nell Foreman, oboe; Mary Lou Garoute, baritone saxophone; Thelma McDaniel and Jean Harrison, cornet section; Ealon Davis, french horn; Gene Marshall, baritone; Buddy Palmer, bass; and Kenneth Wilson, snare drums.

Tommy Wakefield has been selected as the signal drum major. Joan Collins is the twirling drum majorette. Martha Plunk and Cynthia Gamble are the band twirlers.

Uniforms for the drum major, majorette, and twirlers have been selected and will be ordered in the near future.

## Robert Keenan Enlists In U. S. Navy

Robert Keenan will report in Denver, Colorado, Monday for assignment to duty in the U. S. Navy. He is the son of Mr. and Mrs. Leslie Keenan of Las Animas, Colorado. Keenan lived with his parents near Stratford until about two years ago.

## Louisiana's Nickname Louisiana is known as the "Bayou State."

It has been said that paper begins where many things end—in rags.

# THE STRATFORD STAR

Volume 46. Stratford, Sherman County, Texas, Thursday, November 16, 1950. No. 6.

## Three Drilling Locations Announced

Three new drilling locations are announced for Sherman County.

Stanolind Oil & Gas Co. Barker Gas Unit Co. No. 1 is located 3,097 feet from the west and 2,015 feet from the north lines of section 22, Block 1 PSL.

Stanolind Oil & Gas Co. Norton Gas Unit No. 1 is 2,490 feet from the east and 2,490 feet from north lines of section 121, Block 1-C.

Phillips Petroleum Co. Dear No. 1 is 2,490 feet from the north and 2,510 feet from the west lines of section 20, Block 2-T.

The three wells have been contracted for a potential depth of 3,400 feet.

## 23 Teams Enter Junior Cage Meet

Twenty-three teams have entered the junior invitation basketball tournament which opens here Thursday evening.

Tournament games Friday open at 9:00 o'clock. Cactus and Kella Hill girls play the opening game.

Kella Hill and Cactus boys play at 10:00 A. M.

Stratford and Skelly girls play at 11:00 A. M.

Keyes and Spearman girls play at 1:00 P. M.

Morse and Spearman boys play at 2:00 P. M.

Skelly and Stratford Junior High boys play at 3:00 P. M.

Stinnett and Texline girls play at 4:00 P. M.

Stinnett and Texline boys play Friday at 5:00 P. M.

The winner of the Stratford-Skelly girls game and Morse girls play Friday at 6:30 P. M.

Winners of the Keyes-Spearman girls game and Cactus-Kella Hill girls game will play at 7:30 P. M.

Saturday's games are scheduled for 9:00 A. M., 10:00 A. M., 11:00 A. M., 1:00 P. M., and 3:00 P. M.

The girls final tournament game will be played at 7:30 P. M. Saturday and the boys final game will be played at 8:30 P. M.

## Band Boosters Food Sale Is Announced

A food sale sponsored by the Band Boosters Club will be held at the Lovelace Department Store Tuesday, November 21.

Money raised will be used to buy tympani drums for the Stratford school band. The tympani drums are the only ones which may be tuned and are of special value during concerts.

Band Boosters will meet in the band room at the school house Thursday, November 30, at 7:30 P. M.

## Eastern Star Entertains Masons

Stratford Masons were entertained with a turkey dinner Thursday night last week by members of the local chapter of the Eastern Star.

A men's barber shop quartet composed of Walter M. Pendleton, Jack Winchell, Archie Arnold, and H. C. Sherrod rendered vocal numbers. Mrs. Walter Pendleton furnished piano accompaniment.

A ladies quartet composed of Mrs. John Reaves, Mrs. H. A. Nichols, Mrs. F. L. Yates, and Mrs. H. C. Sherrod sang several numbers. Mrs. Flores furnished piano music.

Mrs. Jim Taylor and Mrs. Van B. Boston gave readings.

It has been said that paper begins where many things end—in rags.

## Star To Publish Wednesday Of Next Week

The Stratford Star will be delivered to the Post Office at 3:30 P. M. Wednesday of next week because of the Thanksgiving holiday.

The deadline for all general and national advertising will be Monday evening. The deadline for all news and grocery store advertising will be Tuesday noon.

## Elks Defeat Morse In 60-29 Game

Stratford Elks defeated Morse by a score of 60 to 29 in a basketball game played at Morse Tuesday night. Tommy Wakefield was high point man for the Elks with 13 points. Bobby Lovelace followed, scoring 10 points.

The first half of the game the score was close, the half ending with a score of 21 to 19 favoring the Elks. During the third quarter of the game the Elks started a scoring rally and continued to pile up a lead during the remainder of the game.

Playing for the Elks were Marion Brannan, Gene Marshall, Jerry Sherrod, Charley Boren, Tommy Wakefield, Bobby Lovelace, Douglas Carter, Hoyt Davis, Lyle Wakefield, Fred Lee Green and Fin Ramon.

L. Bannister of Morse was high point man for his team with 13 points.

## Joint Farmers Meeting Planned For November 28

A joint meeting of the Sherman County Farm Bureau, PMA Committee, and Sherman County Wheat Producers will be held in the district court room in Stratford Tuesday, November 28.

The purpose of the meeting will be for the election of Farm Bureau and Wheat Producers Association officers, and for an educational PMA meeting.

The decision for announcing the joint meeting was made Monday when directors of the Farm Bureau, Wheat Producers Association, and PMA committees met Monday at the court house in a joint session.

## Mrs. O'Quin Hostess To Friendship Club

Members of the Friendship Club met at 1:30 P. M. Thursday of last week in the home of Mrs. Edd O'Quin. The ladies did work on tea towels.

Refreshments were served by the hostess to Mrs. Robert Bolster, Mrs. Alfred Pronger, Mrs. Ray Brock, Mrs. Roscoe Dyess, Mrs. Bunny Pronger, Mrs. George O'Quin, Mrs. George Bradley, Mrs. Edward H. Smith, and Mrs. Kenneth Borth.

All of the members were glad to have Mrs. Ray Brock present. She had been absent for several meetings.

The next meeting of the club will be in the home of Mrs. George O'Quin November 30.

## Danger Of Pipe Line Break Controlled

A Phillips Petroleum Company pipeline gas leak 3 miles southwest of Texhoma under U. S. Highway 54 Monday afternoon caused excitement for a short time. The escaping gas was blowing sand from both edges of the paved road.

Sheriff A. L. Wilson routed traffic away from the danger area until company representatives cut off the gas pressure in the line.

The gas line was described as a feeder line from nearby gas wells.

## Luther Blades Opens Business In Stratford

Luther Blades announces the opening of his place of business, the Blades Skelly Service, located on U. S. Highway 54 just west of the Stratford Frozen Food Lockers.

The building of the new firm was recently bought from Alfred Bammes and has been reconditioned and redecorated.

Blades will handle a complete line of Skelly gasoline, oils and greases. He plans to operate an automotive repair shop as soon as he is able to get a mechanic.

## Box Supper At Spurlock November 24

The annual box and pie supper will be held in the basement of the Spurlock Chapel, Friday, November 24, beginning at 6:30 P. M. Following the auction of boxes and pies, games of "42" will be enjoyed.

The annual entertainment is held at Spurlock to raise funds for securing the Sunday School children's Christmas treats.

## Elks To Play Exhibition Games

Stratford Elks will play two exhibition games during the annual junior invitation basketball tournament played here this week-end. Friday at 8:30 P. M. they will play Keyes, Oklahoma. Saturday at 6:00 P. M. the Elks will play Hartley.

## Mrs. Burt Resigns Position With Stratford Clinic

Mrs. J. E. Burt has resigned her position as a nurse at the Stratford Clinic, due to ill health.

## Arrange For Appearance Of Santa Claus

Santa Claus and four of his arctic reindeer will appear in Stratford Wednesday, November 29, for a parade over a five block section of Main Street.

The appearance of Santa Claus is sponsored by the Stratford Chamber of Commerce in cooperation with the appearance of Christmas goods in local business houses.

The parade will begin at 10:00 A. M.

Santa will make his personal appearance in a sleigh pulled by the four reindeer.

Stratford's High School band will march and play a short concert during the pre-Christmas appearance of Old Saint Nick.

Invitations are being sent by the Stratford Chamber of Commerce to all adjoining towns to attend the Santa Claus fete.

## Small Fire At Seaman's Grocery Monday

Three cartons containing spices and Kool-Aid were damaged by a small fire in the store room of the Seaman Grocery Monday afternoon. The blaze was caused by stock being placed too near a gas stove.

The fire was brought under control with damage estimated as being very light.

The Stratford Volunteer Fire Department answered the alarm with both trucks.

## Cost of Accidents

Accidents cost the nation a minimum of \$7,500,000,000 in 1949. That figure out at \$14,000 a minute around the clock.

## Make Plans For Band Concert December 3

Stratford's junior and senior school bands will appear in their first concerts Sunday, December 3, it was announced this week by Director Dan Whitaker. The concerts will be presented in the school auditorium.

Fifty-four musicians will play in the senior band. Thirty-three young musicians will play in the junior band which is composed of students of the fifth and sixth grades. Glen Lovelace, a member of the junior band, will be feted in a cornet solo with piano accompaniment.

During the concert the band sweetheart will be announced. Three candidates, Miss Marty McMahon, Miss Martha Crabtree, and Miss Marjory Mathews, have been nominated for the honor.

Plans are being made for both junior and senior bands to enter the state contest which will be held at Canyon in April.

## Robert Hurst Enters College In Pueblo

Robert Hurst, son of Mr. and Mrs. L. C. Hurst, has enrolled in Midwestern College at Pueblo, Colorado. His letter to relatives here states that he likes the school.

## FFA Boys To Sponsor Cafeteria

The local Chapter of the Future Farmers of America will be in charge of the concessions and school cafeteria during the junior tournament in progress here this week. They will serve dinners Friday night, Saturday noon, and Saturday night. Baked ham will be one of the choice dishes on the menu.

Money raised from the patronage of the public will be used to purchase equipment for the Vocational Agriculture Department. The FFA boys look forward to the patronage of the public to secure equipment needed by the class.

Arrangements for operating the cafeteria and handling of the concessions were made Monday night when the FFA Executive Committee and their mothers met in the Vocational Agriculture room at the school building. Mothers attending the meeting were Mrs. Tom Wakefield, Mrs. Raymond Keener, Mrs. Mac Carter, Mrs. Rolo Newman, Mrs. Ben Biddy, and Mrs. Harry Sears.

FFA boys feel they are indebted to these mothers for working out many of the details necessary for successful operation of the cafeteria.

## County P.M.A. Committeemen Are Selected

R. C. Buckles, Stratford farmer, will again head the Sherman County Production and Marketing Administration Committee during the coming year. He was elected chairman of the county committee of three members and two alternates at the county convention of community delegates held in Stratford Friday.

Vice-Chairman of the Committee is H. O. Folsom of Stratford. Ira A. Oldaker of Texhoma is the third member. The first and second alternates are Joy D. Smith of Stratford and William H. Harland, Jr., of Texhoma.

## Postpone Laymen's Meeting

A meeting of the Laymen's Brotherhood of the local churches scheduled for November 23 will be postponed until November 30 because of the Thanksgiving holiday.

## New Arrivals

Mr. and Mrs. Fred McDaniel of Kerrick are the parents of a nine pound daughter, Patricia Irene, born at one o'clock Sunday morning in a Junction City, Kansas hospital.

Mr. and Mrs. Doss Brewer are the parents of an 8 pound 1/2 ounce son, born Friday in Dumas Memorial Hospital. He has been named Herbert Wayne. Mr. Brewer brought his wife and son home Monday.

Mr. and Mrs. Frank Fuentes are the parents of a baby son. Mrs. Fuentes and the baby were brought home Monday.

## Cafe Grease Fire Tuesday Afternoon

Grease in the dripping tray of the Handy-Drive-In Cafe grill was ignited Tuesday afternoon and sent flames almost to the ceiling and caused a fire alarm. Customers at the cafe and employers battled the blaze for about 5 minutes with salt and flour.

The flames were extinguished by an employee of the Consumers Company. A fire extinguisher snuffed out the blaze just as the Stratford Volunteer Fire Department arrived at the scene.

Damage was limited to a scorched wall and the burning into a gas rubber hose connection.

## Riffe Is Member Of Wentworth School Band

LEXINGTON — Cadet William Riffe, son of Mr. and Mrs. Earl Riffe, a member of the Wentworth Military Academy marching band, accompanied the band to Fort Scott, Kansas Saturday to participate in the Armistice Day celebration.

The Wentworth band furnished all the music in connection with the dedication of a new flag pole at Ft. Scott's national cemetery, participated in a mammoth parade, and later took part in a memorial service on the court house lawn at which time monuments were dedicated to the war dead.

V.F.W. officials who sponsored the program estimate an attendance of 25,000 people at the celebration.

## Neil Jackson Enlists As Naval Cadet

Neil Jackson, son of Mr. and Mrs. H. T. Jackson, is stationed at the Naval Training Station at Pensacola, Florida. Jackson has entered the Naval Cadet Training School. He enlisted in the Navy two weeks ago.

## Get Right-of-Way For Spurlock Paving Project

Paving contracts for construction of a hard surfaced road on the Spurlock highway from U. S. 287 may be let in December it was learned this week from informed sources.

Royal and Walter Pendleton are securing the easements for the right-of-way for the County Commissioners' Court.

The new road has been designated as Farm-to-Market Road 1573.

## Arrange Union Thanksgiving Service

A union Thanksgiving service will be held at the Methodist Church at 7:00 P. M. Wednesday, November 22.

Rev. M. E. Upchurch, pastor of the Baptist Church, will direct the service.

Rev. John Reaves, pastor of the Christian Church, will deliver the Thanksgiving message.

The choir will be composed of singers of the cooperating churches.

## Small Fire At Seaman's Grocery Monday

Three cartons containing spices and Kool-Aid were damaged by a small fire in the store room of the Seaman Grocery Monday afternoon. The blaze was caused by stock being placed too near a gas stove.

The fire was brought under control with damage estimated as being very light.

The Stratford Volunteer Fire Department answered the alarm with both trucks.

## Cost of Accidents

Accidents cost the nation a minimum of \$7,500,000,000 in 1949. That figure out at \$14,000 a minute around the clock.

## Burmese Measure

The Burmese measure called the Teng holds 23 lbs. in some provinces and 51 lbs. in others.

boys and girls observed their annual achievement day with a program and covered dish supper in the American Legion Hall Thursday night of last week at which their parents were honored guests.

Boys and girls who had received out of county trips made short talks, giving summaries of their experiences on the trips.

Barbara Weatherford, listed as a member of the Talent Club by the Producers Grain Corporation, told of the visits of the club members to various industrial plants and experiment farms over the state.

Jimmy Weatherford, who went to Houston, Texas last year as the Texas Wheat King, told of his visit to the baking and milling industries of that city.

The State 4-H Club Round-Up and dress revue was described by Letha Gail Fedric.

Mildred Bennett, one of the two girls attending the junior leadership laboratory held at Bastrop State Park, gave her impression about the laboratory and the training which she received to be a leader in assisting others in 4-H club work.

A visit to the National 4-H club congress in Chicago in November was the only national trip won by a local 4-H club member. Edwin Lee Weatherford, who made the trip, vividly described the visit during which time 4-H club delegates were entertained with 11 banquets by commercial firms interested in promoting 4-H club work, the tours of the city, and a visit to the livestock yards.

Mrs. I. D. Wall, county 4-H club sponsor, presented the awards.

Lora Ann Schafer and Vincent Meyer were presented with the gold star medal awards donated by the National 4-H Committee. To be eligible for this award boys and girls must have spent at least three years in 4-H club work and have completed all the demonstrations they

have begun.

To Nancy Bennett went the 4-H girls achievement medal, donated by the National Committee for boys and girls work.

Donna Fedric received the canning achievement award donated by the Kerr Glass Manufacturing Co.

The clothing achievement medal was presented to Letha Gail Fedric. It was donated by the Spool Cotton Co.

The food preparation achievement medal donated by the Kelvinator Corporation was presented to Carolyn Folsom.

International Harvester's frozen food achievement medal was awarded to Barbara Weatherford.

Allis-Chalmers garden achievement medal was presented to Isla Jean Spurlock.

Barbara Weatherford received Montgomery Ward's medal for keeping the best girls records.

The home improvement medal, donated by Sears Roebuck, went to Barbara Weatherford.

The Edward Foss Wilson leadership medal was given to Mildred Bennett.

Dearborn Motors Corporation poultry medals were presented to Lora Ann Schafer and Delma Dee Schafer.

Dress revue medals donated by Simplicity Pattern Co. were presented to Letha Gail Fedric, Lora Ann Schafer, Caroline Folsom, Delma Dee Schafer and Mary Nell Craig.

4-H Boys Awards  
Edwin Lee Weatherford was given the achievement award presented by the National Committee for boys and girls club work.

The best meat animal demonstration award medal and the Thomas E. Wilson leadership medal was presented to Claude Ray Harland.

To Lynn Hudson went the General Motors farm safety medal.

Stanley Folsom won the International Harvester field crops medal.

Jimmy Weatherford received the Firestone Tire Co. soil conservation medal.

Allis-Chalmers gardening medals were presented to Eugene Stumpner, James Spurlock and Jere Courter.

Dearborn Motors Corporation poultry medals went to Luther Evans, Eugene Stumpner, and Milton Meyers.

4-H Council Officers  
County 4-H Club Council officers and members were introduced. Co-chairmen of the council are Barbara Weatherford and Jimmy Huggins.

Mildred Bennett is the council secretary and Letha Gail Fedric is the council treasurer. Council members include Wanda Wilson, Lynn Hudson, Sherry Goule, Billy McMahan, Serena Kelp, John Harrison, Beverly Stradley, and Lowell McKinley, presidents of the clubs and one elected delegate from each.

Mildred Bennett acted as mistress of ceremonies for the evening.

After the presentation of medals, the remainder of the evening was spent playing various games. Eighty of the 4-H club boys and girls, their parents, and the county agents attended the meeting.

### One Case In District Court

James A. Davis plead guilty to two charges of theft of more than \$50.00 in district court Thursday of last week. He was

sentenced to from 2 to 4 years on the first charge, and sentenced to 4 years in the penitentiary on the second charge. The sentences are to run concurrently.

### Balko Wins FFA Meet At PAMC

Balko's FFA Chapter took the sweepstakes trophy for the second consecutive year at the Annual Aggie Club-F.F.A. contests held Saturday at Panhandle A. & M. College. Last Saturday's win for Balko gives them permanent possession of the trophy.

### Cows Prance Home As Retired Music Teacher Blows Horn

FENNVILLE, Mich. — A former bandmaster turned farmer brings his cows home with a bugle call.

Ami Miller, 72, says he believes his cows have a better ear for music than most people.

"I don't know why anyone thinks it is unusual for me to bring my herd home with a bugle call," he added.

"In fact, one old milk cow is music-happy. When I blow the bugle for the herd to come home, she gambols along the path in a prance that is right in time to the beat."

Miller taught band music in schools in Seattle and Spokane, and at Casco, Mich., during early life.

"We have a radio in the barn for animals, and one of the herd had a better appreciation for the classics and band music than the others. She stomps and moos her protests when we switch on a jazz orchestra," he said.

He explained that with the shortage of help he was hard pushed to farm his 80 acres. So he taught the cows to answer to bugle calls so he wouldn't have to walk down to the pasture after them."

He first started several years ago. At first the cows didn't respond, but then he took the bugle out in the field and blew it close to their ears and led them to the barn with music like the Pied Piper.

Finally they caught on and often return home from as far as a mile away when he blows the chow call. "Sometimes I'm almost convinced that it's easier to teach music to cows than it is to people," he said.

**When Painting Metal**  
Before applying paint to copper or brass the surface should be properly treated to eliminate all grease. This may be done by scrubbing the surface with mineral spirits or turpentine.

### New Type Operation Saves Rheumatic Fever Victim

PHILADELPHIA, Pa. — A new type heart operation has been performed on a 22-year-old girl rheumatic fever victim.

The heart of Lorene Bean of Hazleton, Pa., was damaged nine years ago by rheumatic fever. For two years after she was stricken she was bedfast. Then she became well enough to finish grade school and later took a clerk's job in a store. Three years ago she was forced to return to her bed.

Surgeons said she had mitral regurgitation. The mitral valve, they explained, was damaged and remained open, allowing the blood to regurgitate, or leak back, into the left auricle and into the lungs.

In a two hour operation, one surgeon cut from Miss Bean's heart a piece of pericardium, the membranous sac which covers the heart. The tissue, about the size of the palm of a man's hand, was rolled up like a cigaret and threaded into a wire probe. Then the probe was forced through the wall of the heart and out the other side, leaving a flap of tissue in the left ventricle beneath the mitral valve.

The tissue, working like a check valve, prevents the blood from leaking back into the left auricle, while blood flowing in the proper direction pushes the flap away.

### Prisoner Saves \$600 While Serving Long Prison Term

NASHVILLE, Tenn. — During a 14-year stretch in prison A. A. Wynn served as keeper of the prison's bees, and in turn, the bees served as keepers of Wynn's bank roll.

The bank roll was accumulated during 12 years in prison from shows he put on with a miniature carnival he built. He charged his prison audience whatever they could pay for the shows.

After each performance, he stuffed the "take" into a jar. When the jar was full, he stashed it away in a beehive.

The prisoner was released recently. He made a bee-line for the bank with his savings which he estimated at about \$600.

### Climbing Party Scales 24,780-Foot Tibet Peak

ZURICH, Switzerland—Two English university professors and three Swiss mountaineers have made the first ascent of one of the world's highest peaks, Abi Gaman in Tibet.

The party battled their way up the ice-locked Himalayan peak to gather information, for the Swiss alpine research foundation, Abi Gaman is 24,780 feet high.

**For Testing Soybeans**  
A new device—a hand refractometer—has been developed for the simple rapid testing of flaxseed and soybeans for the quality of their oils as measured by "iodine number."

### How Old?

Age Figures Don't Tell

ATHENS, Ga.—Dr. A. S. Edwards, head of the University of Georgia psychology department, reports a gadget that measures a finger's tremors up, down and sideways (his own invention), has proved that a man is not obsolete just because he is old.

He reasoned that a steady hand and an erect frame have more to do with fitness for skilled work than age figures. He set out to measure them with the tronometer with hundreds of subjects.

He listed them as of college age (16 to 35); senescent (60 to 85, in good health), and seniles (84 to 90, in ill health).

He found that senescent had little more finger tremor than the younger group, and in many cases were steadier. But among seniles finger tremor increased an average of 300 per cent.

### In Columbus' Day

Various estimates have been made as to the population of the western hemisphere when Columbus arrived. These estimates range from about eight million to as many as 75 million. However, a recent estimate, which is regarded as authoritative by the bureau of American ethnology of the Smithsonian institution, arrives at the hemisphere total of 15,590,000 in 1492.

### Christian Ladies Entertain Their Husbands

The Christian Women's Fellowship met Wednesday in the basement of the Christian Church for a noon luncheon. The men of the church were guests at the luncheon.

At 2:00 o'clock the meeting was called to order by the president, Mrs. T. L. Wakefield. Mrs. Demus Eller arranged the program. The song, "Count Your Blessings," preceded prayer offered by Mrs. Ora Bomer. Mrs. E. Hill gave the devotional, the theme being "From Seeds to Flowers." A talk was given by Mrs. W. O. Bryant on "The Ro-

manance of the Rural Church." Mrs. John Reaves discussed the "Hoosier Builder." A talk, "Rural Negro Churches," was given by Mrs. Orland Lasley. Mrs. J. R. Pendleton talked on "Training for the Town and Country Ministry."

The meeting was turned back to Mrs. Wakefield, who conducted a short business session. The ladies of the Christian Church will have a Bazaar and Food Sale the first and second of December at the Southwestern Public Service office.

The meeting was dismissed by the missionary benediction.

#### Cat Pens

Dirty cat pens are always bad, but they are worse in summer than winter because they draw flies and other insects that may spread disease.

### Visitors Are Honored At Courtesies

Several girls of Pampa and Stratford visited in Amarillo over the week-end to attend activities of the Amarillo-Pampa football game Saturday afternoon.

They were Phebe Ann Carter and Greta Miller of Pampa and Jeanne and Lelah Price of Stratford. They were visiting Nancy Attebury, daughter of Mr. and Mrs. A. G. Attebury, 1710 Hughes, Sally Taylor, daughter of Mr. and Mrs. Jay Taylor, 2809 Hughes, and Nanne O'Keefe, daughter of Mr. and Mrs. R. Earl O'Keefe, 2808 Hayden.

The girls were honored with several courtesies during their visit. Sally Taylor and Mrs. Taylor entertained with a buffet dinner Friday evening for the girls and their dates, prior to the victory bonfire. Elaine Ross, Canyon Highway, was hostess to the guests at a slumber party Friday evening.

Mrs. William Ford entertained with a luncheon Saturday in the Amarillo Club honoring the guests. The centerpiece was composed of individual chrysanthemum corsages, which were given to the honorees. Twelve girls attended.

On Saturday evening, the girls attended the football game in the gymnasium of Amarillo High School.

Nanne O'Keefe entertained with a luncheon Sunday in the Amarillo Country Club in honor of the visitors. Attending were Kay Ferrell, Carol McMurtry, Joan Harden Neely, Sally Taylor, Nancy Attebury, Nita Steed, Alice Wells, Sally Sparks, the visitors and the hostess.

### Seek Librarian For County Library

A librarian for the County Library is sought by the Commissioners' Court. Applicants may contact County Judge L. P. Hunter for information as to hours required and the wages which will be paid.

To be eligible, the applicant must secure a librarian's certificate from Francis H. Henshaw, State Librarian, Board of Examiners, Austin, stating education and experience.

Educational requirements are 3 hours of college work. Certificates are good for one year.

### Bale of Old Wool Yields \$9,000 in Certificates

CAMDEN, N. J.—Employees of a Camden scouring plant are wondering who lost \$9,000. The money, in old bills, was cached in a huge bale of wool.

It spilled on the floor of the scouring room as workmen began to feed the wool into machines, treasury department officials said.

The bills of varied denominations up to \$50, included \$800 of gold certificates. It was hidden in a handkerchief in turn secreted in a salt bag and was in a bale weighing approximately 700 pounds.

A spokesman for the company said that until ownership was established the money would be impounded. About \$120 was destroyed before the rest was discovered.

### Swedes Listening to Radio Faint at News of Invasion

STOCKHOLM, Sweden — Swedish radio listeners recently had the scare of their lives. Some fainted at their sets.

The excitement was caused by an announcer who said: "Swedish territory has been attacked by a western power. Swedish forces resisted the attack but many were taken prisoner. It is probable Sweden will abolish her neutrality and join Russia."

Then the announcer added: "That was what happened in 1812." But listeners who failed to catch that sentence jammed telephone lines with anxious calls to newspaper offices and the state owned radio station.

In 1812 Emperor Napoleon of France attacked the Swedish territory of Pomerania in northern Germany, which Sweden held from 1648 until the Vienna congress of 1815. In 1813 Sweden joined Russia, Britain, Prussia and Austria in an alliance against Napoleon.

After the broadcast the radio station apologized.

#### Valley Forge Today

Of interest at Valley Forge today are Washington's headquarters and the reproductions of soldiers' huts scattered through the park. Fortifications and earthworks have been restored. Relics, from Washington's tent and flags to crude copies of battle maps, tell a story in the museums in and near the park.

### \$8,500 a Year Prisoner in Big Money

KANSAS CITY—The government charged recently that a Missouri convict, Ledger D. Veazey, earned \$8,500 a year as a tax consultant for fellow inmates, and failed to report fully his own income while advising the other convicts.

Internal revenue officials asserted that Veazey, of Columbia, Mo., owes \$1,849 in taxes for 1946 and 1947. In those years, officials charged, Veazey operated as a consultant in the state prison and earned his \$8,500 a year.

Revenue men said Veazey, a skilled accountant, got new prisoners to fill out revenue bureau form W-2. If the prisoner had worked outside six months and had salary deductions of \$150 for income tax, he probably could get all this refund. Veazey split the rebates with prisoners. Veazey was serving a 20-year sentence for robbery.

### Curious Puzzled Over Barrel That Fails to Run Dry

SIMMONS, Mo. — John H. Orr would like to know who puts water in the never empty barrel in his chicken yard. So would 20,000 curious sightseers who have peered through a fence at the cask.

Last May the 70-year-old farmer set about constructing a drinking trough for his flock. He set up a 50 gallon oak barrel on a frame of two-by-sixes resting at one side on a piece of six-by-six timber and on the other against the stump of a tree. The barrel was set on two one-by-six planks laid across the frame. That raised it 14 inches or more from the ground.

An automatic valve was fixed to regulate the flow from the barrel into the chickens' drinking trough. As long as there was water in the barrel the trough would remain filled.

Orr and his wife hauled the first barrel of water from a near-by river. A week later Orr filled it a second time and placed a wash tub over the top to keep out leaves and trash.

Shortly thereafter Orr became ill and Mrs. Orr took over the chores. When she got around to checking the water barrel she was surprised to discover it brimful. She had no visitors and the Orrs' 250 chickens had been using the water supply constantly. The estimated consumption is three gallons a day.

She told the story and neighbors began dropping in to see for themselves. Eventually the story got to the newspapers. As the summer ended, first scores, then hundreds began trekking on the Orr farm.

At least once some skeptics maintained a 24-hour watch. The water level remained unchanged.

### Gen. MacArthur Voted Most Popular by School Children

NEW YORK—Life magazine reports in a survey of school children that Gen. Douglas MacArthur has taken George Washington's place in the hearts of young America.

"What persons of whom you have heard or read would you like most to resemble?" Life asked 548 school children this question in San Francisco, Denver, Dallas, Chicago, and New York. The same question was asked of 1,440 Minnesota and California children by Miss Estelle Darrah, a Mankato, Minn., teacher.

In a 1898 survey George Washington held first place. Poet John Whitler, Anne Sullivan Macy (Helen Keller's teacher), Julius Caesar, Abraham Lincoln, Clara Barton, Christopher Columbus, James J. Corbett, William Jennings Bryan, Queen Elizabeth, Napoleon Bonaparte and author Louisa May Alcott followed in that order.

In the 1950 survey, the winners in order, are MacArthur, Florence Nightingale, actresses Vera-Ellen and Doris Day, Abraham Lincoln, Clara Barton, Franklin D. Roosevelt, Joe DiMaggio, Babe Ruth, Roy Rogers, Sister Kenney and Louisa May Alcott.

### Number of 'Female Cities' On Increase in Nation

BOULDER, Col. — Dr. Joseph Greenberg, sociologist at the University of Colorado, reports the number of "female cities" is on the increase in the United States.

He says that examples of cities with large "female surpluses" are Pasadena, Calif.; Winnetka, Ill.; Beverly Hills, Calif.; Macon, Ga.; Montgomery, Ala., and University City, Mo.

He says that extensive study shows that cities of this type "tend to develop an economy specifically directed toward the use of woman-power."

### Scientists Report Niacin Can Halt Growth of Germs

CHICAGO — Two University of Chicago bacteriologists report that huge doses of the B vitamin, niacin, can halt the growth of some germs. The doses have to be 10 to 20 thousand times the normal vitamin needs of the germs. Then they apparently interfere with the bacteria's ability to make other essential foodstuffs in the fluids in which they grew.

### Mystic Finds Water in Dry Areas of India

NEW DELHI, India—A 50-year-old yogi, Jeevram Vyas, is solving India's water problems. The ministry of agriculture says the mystic locates underground water sources with uncanny accuracy merely by closing his eyes and pointing.

Now famous throughout India under the cognomen of Pani Maharaj, which in Hindustani means "water king," Vyas has been made a member of the Rajasthan underground water board at a salary of 500 rupees (\$105) a month. Recently, when the tired yogi proposed to retire to his former life of contemplation in the forest, the food and agriculture minister, K. M. Munshi, persuaded Pani Maharaj to stay on the job.

#### Called National Asset

Prime Minister Jawaharlal Nehru, an extremely well-schooled and fairly skeptical man, had Pani Maharaj brought to Delhi for a particular divining job, which the yogi performed with spectacular success. This was at Faridabad, a refugee town near the capital, where it appeared that water would have to be piped miles from the Jumna river at a cost of millions of rupees.

Pani Maharaj went to Faridabad, looked around, and showed where to dig. Today, says the ministry, eight tube wells on and about this spot are pouring out approximately 35,000 gallons of water an hour, making the costly pipeline unnecessary. Geologists are amazed.

The yogi works entirely without instruments, a ministry spokesman reported.

"Sometimes he moves his hand across the map of a region, and pinpoints the source of water," the spokesman said. "More often, sitting in a room or traveling in a car, he 'sees a cloud of haziness' in the depths of the earth below, and with mathematical precision he indicates not only the quantity of water to be found but also whether it is sweet or saline."

#### Numerous Wells Found

Numerous discoveries of underground water by Pani Maharaj are fully confirmed by the government. One well dug at Samadri, in Rajasthan, on the yogi's advice, was said to be yielding 120,000 gallons an hour. The food and agriculture ministry said he had located several sites for tube wells where the water-poor city of Jaipur could augment its supply. "In every case," the ministry's spokesman said, "water has been found."

Pani Maharaj first came into prominence when he began finding water in the dry, hungry-stricken state of Saurashtra, in far northwestern India. He moved to Jaipur and went about the great Rajputana desert, spotting new wells as he went, it wasn't long before the government, ignoring scientific scoffers, took notice of him as a national asset.

Where the yogi came from is unknown, except that he spent many years practicing the arts of yoga in the forests of Girnar. Claims made by his admirers, who are legion now, that he can divine not only water but also oil and precious minerals deep in subterranean rock, are not confirmed officially.

### Vision Institute Reports TV Doesn't Hurt Eyes

COLUMBUS, O.—Doctors at the Institute for Research in Vision at Ohio university report you can stop worrying about television's effect on your eyes.

Dr. Glenn A. Fray and Dr. Arthur M. Culler, co-directors of the institute, report their findings after a survey of 2,125 doctors in eight states served by 37 television stations.

"There is no widespread belief that television is contributing to changes in the static refraction of the eye, the status of muscle balance or to the development of such disorders as glaucoma and cataract, or to any serious impairment of the function and structure of the eye," they reported.

Some doctors said that a few patients complained of eye strain from television. That total averaged about 3.41 per cent.

But most of the troubled television viewers complained soon after they got their set and their difficulties tended to disappear with continued use.

### Amish Goes to Jail Rather Than Keep Youths in School

LANCASTER, Pa. — Refusing to pay fines levied against them for not sending their children to school, six bearded Amish farmers were sentenced to jail.

The six were sentenced to serve three days in lieu of a \$2 fine each. They were accused of violating the Pennsylvania compulsory-school-attendance law.

The Amishmen allegedly refused to permit their children to attend school after they reached the age of 14. The accused declared that Amish youth of that age should no longer mingle with non-Amish youngsters.

State law requires school attendance up to 16.

### King's Ghost Hovers Over Los Angeles Parking Plan

LOS ANGELES, Calif.—The city of Los Angeles is having trouble because of a forgotten Spanish king.

The city wants to build a 1,650-car garage beneath downtown Pershing square. But the Spanish king when he deeded the land to the village of Los Angeles specified it was for perpetual use as a spot for siestas and for nothing else.

No one challenged its exclusive use as a park until 1906 when the city decided to build a library and office building there.

But property owner J. H. Spires dragged the Spanish monarch's skeleton into court and spiked the move. His majesty had said nothing about a library-office building on the block square park, Spires contended successfully.

The matter rested until 1947 when voters passed a city charter amendment later approved by the state legislature which said the area under the square could be used for any suitable purpose that did not "breach the original conditions" or "decrease benefits and enjoyment to the public."

But city attorney Bourke Jones said this attempt to undercut the king's commands might not stand up under a nuisance suit.

"Fortunately, about the only persons who might object are tree lovers, and their case would be a shaky one. The subterranean parking lot would change the face of the park very little."

#### Chimpanzees

Chimpanzees are the smartest of all animals. They know the value of sleep and sleeping well. They prefer to sleep in cribs or beds. They don't think 12 hours of snoozing a day is too much and usually pull a blanket over their heads while they snooze. Modern zoos even put blinds over their cages to keep the light out and to deaden the noise.

White men cannot vote in Liberia.

LUCY KELP CLEANERS

The program was under the direction of Mrs. P. J. Pronger, Jr., and Mrs. Ernest Cummings. Mrs. Roscoe Dyess read a story of a missionary's message to his people. Mrs. Arthur Ross sang a solo accompanied by Mrs. Lorraine Mehner. "Even unto the Ends of the Earth," was the subject of Mrs. J. W. Elliott's discussion. Medical schools were discussed by Mrs. H. A. Nichols. General hospitals, was the topic of Mrs. W. P. Cummings talk. Mrs. Alfred Pronger talked on the subject, An Inspiring New Adventure. The meeting was closed by prayer by Mrs. C. W. Moon.

Schlofman Funeral Pending

Art Schlofman, Sr., 66-year old veteran Dalhart attorney, died at 8:30 o'clock Tuesday in St. Anthony's Hospital in Amarillo. He had been ill but a short time.

The time of his funeral has not been announced.

School Elections Saturday

Elections will be held in Stratford, Conlen, and Kerrick Saturday for voters to elect measures necessary for the operation of the Stratford Rural High School District in which the Conlen and Kerrick districts have been consolidated.

The election merely enables voters to get through the formality of accepting the apportioned bonded indebtedness and maintenance tax of the entire consolidated district as one unit.

Proposals on the ballot merely state for and against "Bond Assumption," and "Maintenance Tax."

Eccentric Wills Family \$100,000 For Day of Fun

LOS ANGELES, Calif.—A family who 30 years before befriended a lonely man by taking him to the beach for an outing has benefited by a legacy of \$100,000.

Charles Babonet, an eccentric oil man, named Mrs. Pearl A. Tyson and her family principal beneficiaries of an estate worth about \$300,000. The family picked Babonet up one day when he was poor and took him to the beach.

In his will, which was found shoved under the door of a downtown Los Angeles bank, said: "If I live to be 1,000 I will never forget that day."

Mrs. Tyson and her husband, William, 61-year-old carpenter, could barely remember the incident.

"It was so long ago—but I seem to recall a small, dark man," said Tyson.

The Tysons were vacationing in Los Angeles when they befriended Babonet. They moved there five years later.

Mrs. Tyson was left \$60,000, her husband \$20,000 and a daughter, now Mrs. Melissa Carter, \$20,000. Still sought is the daughter's playmate on that faraway day, identified in the will only as "Sue" and left \$10,000. Mrs. Carter said she hadn't seen "Sue" since childhood.

Babonet, who lived in apparent poverty, didn't forget his neighbors, although he didn't know the names of most of them. He left \$50,000 to Peter J. Kelly, "who cared for me when sick," and \$40,000 to "my four good neighbors, each man and wife 5,000."

Brothers and sisters in Austria, if living, were willed \$10,000 each.

Kelly said Babonet liked to keep cash on hand to give away, secretly. "I'd drive to a church, an orphanage or a hospital at his direction," Kelly recalled. "Then he'd slip some money in an envelope—I never knew how much—and I'd leave it in the mailbox. I delivered hundreds of Christmas baskets for him."

Shell Fragment Removed From Heart of Soldier

WASHINGTON—A jagged shell fragment was removed from the heart of a 33-year-old sergeant wounded in Korea.

During part of the three-hour operation at Walter Reed hospital the heart was carefully kept functioning by hand pressure.

It was a very rare and delicate operation. And doctors express astonishment that the sergeant, whose name was not revealed, had survived the wound. Such wounds are usually immediately fatal, they reported.

Cohen's Costly Armored Car May Never Travel Highways

LOS ANGELES, Calif.—There is a \$16,000 armor plated Cadillac in California that may never travel the highways. It belongs to Mickey Cohen.

The California highway patrol has denied the gambling czar a permit to operate the custom built car.

"I don't care about myself, but understand," Cohen said, "but what am I gonna do, for instance, when my mother comes to visit? And my wife! I gotta have some protection for my family don't I?"

The car has eight-inch thick doors each weighing 100 pounds because of a slab of bulletproof fiberglass inside. There are steel-armor plates inside the seats and the extra thick windows won't have to be rolled down. The car has an \$800 air-conditioning system and \$400 worth of bulletproof tires.

"If a permit is issued to one gambler, there will be 10,000 armored cars on the road and the police would never be able to stop them," officials said.

Soviet Union Population Reported at 201 Million

NEW YORK—According to figures published in the Swedish publication Gothenburg Trade and Shipping Journal, the current population of the Soviet Union is 201 million, not counting political prisoners estimated to number about 20 million.

Moscow is the largest city in Russia with a population of more than five million, making it the second largest city in Europe today.

The general switch from country to city is reported noticeable in the Soviet Union, the land having lost some 4 1/2 million people since 1939 and the cities having gained about 11 million.

Europes Largest Volcano Sicily's Mt. Etna, a 10,741-foot peak, which ranks as Europe's highest and largest volcano, has erupted violently some 80 times within the limits of written history.

Many of these sudden convulsions have spread appalling destruction, taking thousands of lives and wiping out many towns and villages. In 1169, for example, Etna's massive lava streams overwhelmed the whole city of Catania at the southeastern foot of the mountain, and buried about 15,000 people under steaming rocks and ruins. Five hundred years later, its explosions raged for 40 days, while hissing lava almost filled up Catania harbor.

ATOMIC CALENDAR Science Tabs Ice Age Date

CHICAGO—Dating of man's first known appearance on the North American continent, the epoch of the ice age, and hundreds of other significant events in the history of civilization has been achieved in a master "atomic calendar" prepared by the University of Chicago atomic scientist, Dr. William F. Libby.

Although the Chicago scientists' dates check in most instances with those estimated by other means, anthropologists and geologists may have to make some significant changes in their present theories, according to Dr. Libby, who is professor of chemistry in the university's institute of nuclear studies.

Radioactive carbon, which Dr. Libby demonstrated in 1947 was created in the upper atmosphere by cosmic rays, is the basis for the dating in the new "atomic calendar." The rays form the radioactive carbon when they strike the nuclei of nitrogen. Some of the carbon which reached the earth is absorbed through food and water by plants and animals during their lifetime.

Radiocarbon is Index Since the radioactivity is lost at a constant rate (half of it disappearing in 5,568 years), determination of the amount of radiocarbon in organic remains provides an index to the date. The method is accurate to within approximately a hundred years. Because all but a minute amount of radiocarbon is gone after 25,000 years, no object can be dated by the Libby method beyond that span.

Thus, ancient cypress wood from a swamp at Myrtle Beach, N. C., could be dated only as being "more than 20,000 years old." Geologists estimate the age of the cypress at approximately 200,000 years.

The ice age in the middle west, Dr. Libby reported, was 12,000 years ago, rather than the 20,000 years generally estimated by geologists. The glacial epoch was apparently contemporaneous in Europe, for samples of Ireland, England and Germany agree closely with the Wisconsin dating of the final phase of the ice cap.

Some of the evidence from which the appearance of man on the west coast was established consisted of 300 pairs of skillfully woven fiber sandals found in a cave in eastern Oregon. A fish weir made of stakes uncovered three years ago when excavations were made in Bolystun street, Boston, provided some of the organic material for humans in the east.

The age of revolution in man's development, when he turned from hunting and food available in nature to agriculture, began at least 7,000 years ago.

Scientists Partly Explain Mystery Signals from Space

WASHINGTON, D. C. — British scientists have long been puzzled by mysterious radio waves from beyond the Milky way. They have also been received by the U.S. bureau of standards.

Now, Dr. Grote Reber, physical scientist and pioneer in the study of cosmic radiation, offers a partial explanation.

He says the mysterious signals are electromagnetic waves which have been generated by passage of high speed particles of cosmic rays through interstellar "dust bins."

The bins, he explained, are clouds of dust or smoke lying within the vast distances between stars and showing up on photographic plates on the heavens as dark patches.

Reber said he had made tape recordings of the mystery waves by use of radio telescope. This instrument, he explained, receives the radio waves as an ordinary telescope receives light from the stars.

Harvard Men Find a Way; They Hire 'Date Sitters'

CAMBRIDGE, Mass. — Harvard men are hiring sitters. It's all for love.

Forbidden to pass the time with their girls in Harvard Yard, the college boys are hiring sitters to circumvent the school regulation that prevents a girl staying in their room after 8 p.m. unless accompanied by another girl.

Besides providing a new source of income for girls at Radcliffe College, it permits Harvard students to entertain their "dates" until midnight.

The only requirement of the sitters is that the couple for whom they sit, furnish sufficient light for studying.

U. S. Patent System Our United States patent system has weathered many storms during the 110 years of its existence. Down through those years it has stood as the immovable rock on which our fabulous industrial growth has been founded. The right of the inventor to profit from his invention through patent protection has provided the incentive to create new machines, new processes, and improvements over old methods.

Drugs Help Animals Drugs that have given millions of people relief from hay fever and other allergies are now helping to make life better for many pets and farm animals too. Latest reports from veterinarians in the United States, England, and France reveal that allergy-relieving drugs called "anti-histamines" are giving encouraging results against at least 15 different types of ailments in pets and livestock.

Another "First" for Russia Russia could but probably won't claim a "first" on this one, for a dog-gone good reason. Quoting French sources, the Journal of the American Veterinary Medical association reports that Soviet army of World War II trained thousands of dogs to carry bombs under the enemy's moving vehicles and explode them. "Though details are lacking," the Journal says, "it has been widely rumored that many tanks were blown up by dogs."

Keeping Bread Crumbs Bread crumbs can be kept in a covered jar. They can be prepared by putting dry bread through the food grinder.

Keep Heifers Growing Heifers running on poor pasture will need some additional feed to put them in thrifty condition by breeding time.

Most Beautiful "THANK YOU" in the world

One of our charming customs, foreigners say, is that of saying, "Thank You" to our hostess which is being widely copied elsewhere.

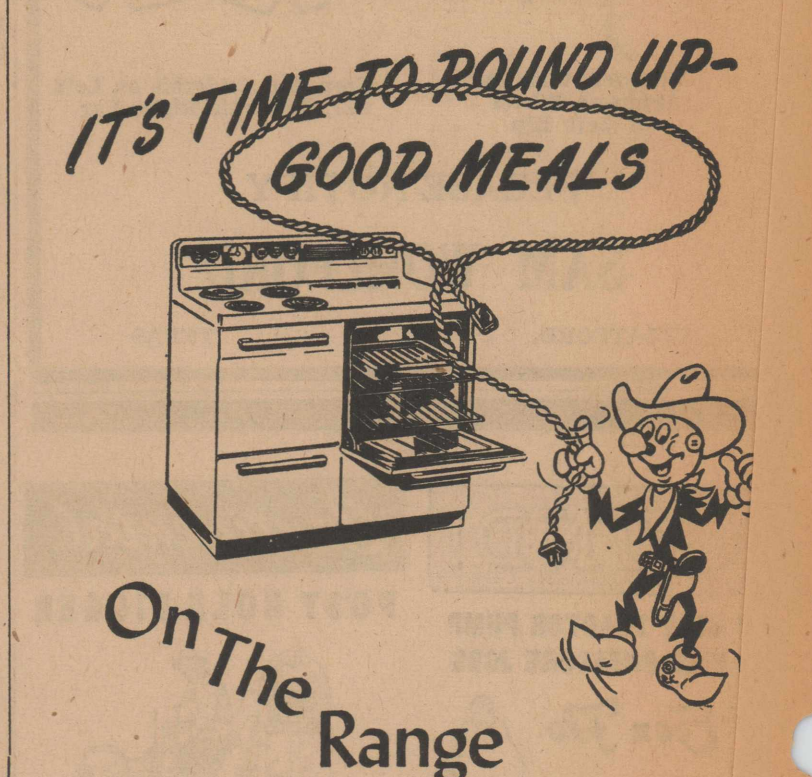

Every Woman Loves Flowers, and flowers are the one gift that man, woman, boy or girl may send with equal gracefulness.

## Ealon Norvell Circle Has Mission Study

Ladies of the Ealon Norvell Circle met at the Baptist Church in regular session at 2:30 P. M. Wednesday.

Mrs. V. M. King gave the scripture reading. Mrs. Ione Taylor offered prayer. "After Baptism What," was the subject of the topic discussed by Mrs. O. H. Ingham. The song, "Open My Eyes That I May See," was sung. "Saved to Serve," was the subject of Mrs. Clifford Byrd's talk. This was followed by the song, "Let Others See Jesus in You." "Am I My Brother's Keeper" was the subject discussed by Mrs. E. B. McQueen.

Others attending who did not take part on the program were: Mrs. E. W. Butler, Mrs. A. H. Ellison, and Mrs. W. D. Ellis.

Mrs. Clifford Byrd dismissed the meeting. Mrs. L. C. Hurst had charge of the Sun Beam Band.

## Good Crowd Attends Singing

Singers who filled the Church of Christ to capacity gathered Sunday afternoon for the gospel singing sponsored by the church. The crowd included visitors from several adjoining towns.

## Woods From Five Continents Used In Bank Murals

LOUISVILLE, Ky.—Four murals, perhaps the most unusual in the United States, will adorn the walls of a Louisville bank this winter.

The murals, each six feet long and four feet high, are fashioned from hundreds of tiny pieces of wood and present typical scenes of the life of Kentucky—a steamboat, coal mine, sorghum mill and a tobacco auction.

No stains or paints are used—just the natural tints of some 50 different pieces of wood from five continents.

One has only to watch Fritz Bade, their creator, at work, to realize that here is no stuntman, like the fellow who builds a model of the Eiffel tower from 11,000 toothpicks.

Although Bade has been an artist in oil, pencil, etching and wood all his life, he pursues art as an avocation. He has been a manufacturer and salesman for years.

For several years, Merle Robertson, president of the Liberty National Bank & Trust Co., has been giving an original Bade etching each Christmas to some of the bank's larger depositors. After seeing some of the artist's inlaid wood pictures, Robertson decided a set of Bade murals would lend distinction to the bank's proposed new building.

There is color, depth, perspective and expression in these glorified jig saw puzzles. Blistered poplar has just the right blotches of light and dark to make a "buttermilk sky" over the steamboat. Timber on the boat, standing out white against the cloudy sky and the muddy water, are cut from holly. The shadowy deck is Brazilian rosewood and a tiny awning on the afterdeck is tulip wood with lemon and orange colored stripes. Black and white striped zebra wood from Africa makes a sweater for one of the deckhands.

"Grain for anatomy, color for effect," is Bade's rule.

"I never use a straight grained wood to depict a rounded surface of a body," he explains. The grain must conform to the shape to be portrayed.

Bade says he never has counted, but he estimates there are from 750 to 1,250 pieces of wood in a picture, perhaps as high as 1,500 in some. It takes him 200 to 300 hours to make one picture.

### Tea Leaves

Because tea leaves pick up strong odors, always store tea in a glass or metal container, away from any strong scented foods. And never wash the tea container with strong soap. Instead, keep it sweet and fresh with baking soda and hot water.

## Pilot Rides Plane Down After the "Bubble" Bursts

NEW YORK—A jet fighter pilot recently told what happens when a person is exposed to the rarefied atmosphere at 30,000 feet.

Lt. Charles Robert Hearn, 28, was flying a Thunderjet plane on a routine training flight over New York when the plexiglass "bubble" inside which he sat burst.

"It felt like being torn apart from within," he said afterward. The "explosion" left him dazed and deaf. In a semi-conscious condition he managed to fly the plane down to 15,000 feet. For the next 8,000 he reckoned he was totally unconscious.

By the time he was fully conscious he was directly over the Empire State building. From there he could see Idlewild airport and asked permission to land. He landed safely and remarked it was lucky his safety belt had been attached and that his oxygen mask remained on when the bubble burst.

## Fighter Pilot Lands Plane On Big Fragmentation Bomb

Somewhere in Korea—After dodging enemy fire on 142 missions during World War II and again in the present Korean fighting, Captain Lawrence R. Denham, 26, of DeLand, Fla., recently experienced what he calls his closest shave.

He landed his plane on a huge fragmentation bomb. The captain, a member of the marine all-weather night fighter squadron, was returning from a Korean night mission to a base in Japan. In his path and completely hidden in darkness was the bomb, which is believed to have been jarred off another plane as it landed earlier.

Captain Denham, who once flew fighter bombers under General MacArthur's command in close air support in the Philippines, was disgusted with the accident—it blew out a tire and gave him a bouncy landing.

For Better Values Shop The Star.

## Hydrogen Bomb Could End All Life on Earth, Report

CHICAGO—Dr. James R. Arnold of the University of Chicago believes it might be possible to make a hydrogen bomb that would come close to killing everyone in the world at a minimum cost of between \$4 and \$40 billion.

He declared, however, it would take perhaps five or ten years to make such a bomb. The burden of producing the bomb is so great that there is no "immediate danger" that anyone will make it, he added. But Dr. Arnold doubted that the human race could be eradicated to the last man.

He pointed out that the death-dealing effect would come from radioactive dust spread by a terrific explosion. He held that cobalt was the only practical element to make that dust, and that only the hydrogen bomb would be powerful enough to distribute it.

Although the danger that such a bomb will be produced is not real and immediate, Dr. Arnold said that "it is an ominous circumstance that we can come so close to a practicable method for self destruction with present-day technology."

## Book Borrowed in 1772 Returned to Columbia U.

NEW YORK—Robert Harpur, librarian at Kings College, as Columbia university was known in 1772, borrowed a book and forgot to return it. He was a mathematics professor and tutor to Alexander Hamilton.

Enos M. Johnson of Brooklyn, a descendant, took the book back to the college recently.

Johnson explained he found it while looking through family heirlooms in the attic of his aunt, Miss Susan Ruggles, Binghamton, N. Y. The book—"A System of Natural Philosophy," by T. Rutherford—was accepted by a grateful library staff.

A whitesmith is one who works with tin.

## 79.68% County Taxes Have Been Paid

Sherman County tax payers have taken advantage of discounts to pay 79.68% of their county taxes, representing a savings of \$5,238.60. County taxes are payable during November at a 2% discount.

### Loggers' Town

About the time of the first big lumber migration across the nation in 1860, Saginaw City, Michigan displaced Bangor, Maine as the bigger, lustier and wilder loggers' town, boasting grander hotels, gay "hot spots", bigger barrooms and bloodier brawl than any previous logging town.

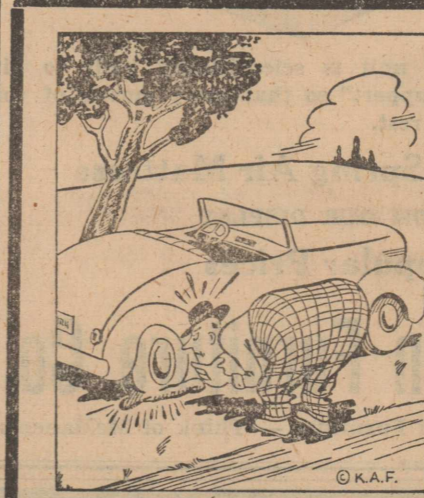

## Pvt. Turner Visits Home

Pvt. Dean Turner, one of the first boys to be inducted into the army since selective service started operating, spent the latter part of last week visiting his parents, Mr. and Mrs. J. L. Turner. Pvt. Turner is stationed at Fort Sill, Oklahoma.

## Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin Which Her System Lacked

—elements so vital to help maintain good health and physical fitness.

### Why These Vitamins and Minerals Come in Liquid Form

There's a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are more easily and quickly absorbed into the blood stream this way—ready to go right to work. A big improvement is often noticed within a few days.

### Don't Be A 'Doubting Thomas'

After reading Mrs. Adele's wonderful experience with HADACOL how can you doubt that this great new nutritional formula will help you if your system lacks Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin? What HADACOL did for Mrs. Adele, it can do for you if you're troubled with aches and pains in the shoulders, legs, and arms, certain nervous disturbances, insomnia when due to an upset stomach, stomach distress and a general run-down weakened condition due to such deficiencies.

So what are you waiting for? Don't you see that HADACOL is the kind of product you need—the kind you should buy and the kind you should start taking immediately!

### Sold On A Strict Money-Back Guarantee

HADACOL even helps build up the hemoglobin content of your blood (when Iron is needed) to course through your body, carrying these great health-building elements to every body organ. No wonder HADACOL helps you feel wonderful!

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief may be as close at hand as your nearest drugstore if you suffer a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron. This great HADACOL is inexpensive, too—costs only a small amount a day. Trial size, only \$1.25. Large family or hospital size, \$3.50. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana.

© 1950, The LeBlanc Corporation.

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

### Why HADACOL Gives Such Fine Results

HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin but also helpful amounts of important Calcium and Phosphorus

# Time to buy trucks on something besides hearsay!

You can't afford to buy trucks by guess-work today. What you carry—how far and fast you carry it—under what road and traffic conditions—all must be considered in specifying the right truck for you in times like these.

That's our specialty as a GMC truck dealer—we are first and foremost transportation engineers. Our one aim is to recommend the exact combination of engine, frame, axles, transmission, cab and optional equipment that is best suited for your year-round hauling requirements.

Come in and see us—whether you want a 1/2-ton pickup or a giant Diesel 90,000 lb. GCW six-wheeler. We can give you exactly the right truck—designed for longer mileage with less maintenance expense—and it will be a real truck, engineered for your type of work.

That's why GMC sales are greater today than ever before. Truckers find they are best in the long haul. Let us show you why.

## Get a real truck!

LIGHT • MEDIUM • HEAVY MODELS • Made in widest variety of engine-body-chassis combinations to fit every trucking need

Mr. and Mrs. Fred Burgess and daughter, Jonny, of Maryville, Missouri, are guests in the homes of Mr. and Mrs. T. J. Burgess and Mr. and Mrs. J. B. Burgess.

Mr. and Mrs. O. L. McMinn, Mr. and Mrs. Charles Wisdom, and Mr. and Mrs. A. J. Armstrong left Sunday to attend a meeting of Ford dealers in Tulsa, Oklahoma.

Mr. and Mrs. Roy Chamberlain and sons returned to Colorado Springs, Colorado Sunday after spending their vacation in the home of Mrs. Chamberlain's parents, Mr. and Mrs. C. W. Moon.

Mr. and Mrs. L. F. Denney were visitors in Amarillo Monday.

N. D. Kelp was a business visitor in Amarillo Tuesday.

Mr. and Mrs. C. C. Plunk, Ralph and Hugh Stewart were dinner guests in the home of Mr. and Mrs. C. W. Moon Thursday and spent the evening visiting with Mr. and Mrs. Roy Chamberlain.

Mrs. Leslie Keenan and son, Robert, of Las Animas, Colorado, were visitors here Monday. Mrs. Lena B. Keenan accompanied them to Amarillo for a visit.

Mrs. Bessie Hodges left this week for Amarillo where she will make her home.

Eddie Brooks and Bud Coffman left Wednesday morning on a deer hunting trip to South Texas.

Marcie Willingham, Amarillo, spent the week-end with her parents, Mr. and Mrs. J. B. McWilliams.

Mrs. W. P. Cummings, Mrs. M. Dortch and Mrs. Billy Cummings were Amarillo visitors Monday.

Mr. and Mrs. Peter Gunzelman spent the week-end with relatives and friends in Woodward, Oklahoma.

Mr. and Mrs. Edgar Brannan, Amarillo, were guests in the home of Mr. and Mrs. L. E. Brannan Sunday.

**CARD OF THANKS**

We acknowledge with sincere appreciation your many acts of kindness during our recent bereavement.

The Family Of Orr Lasley.

**TALLEST MAN**

**Youth Passes 9-Foot Mark**

SURREY, England—Ted Evans, 26, of Surrey, the tallest man in the world, is still growing. At present he stands 9 feet 3 1/2 inches—barely six inches short of the biblical Goliath.

Ted dislikes traveling in busses. His head catches the luggage rack when he sits in a train. During clothes rationing days he was allowed double coupons. Outgrowing his clothes at six inches a year, he still gets double food rations—and needs them.

Even the army gave him up as too big a job. He went into boxing and people laughed as soon as he entered the ring. Piano playing proved fiddling, for he can stretch two octaves with one hand. In the hospital he sleeps on three beds placed lengthwise. In hotels he curls up on the floor of a double room rather than make a fuss.

**Outgrowing the Giants**

The youth is outgrowing the giants of history. Even Barnum had to be content with matching midget Tom Thumb against a mere seven footer. The Royal College of Surgeons in London preserved—until the blitz—the 8 foot 4 inch skeleton of the Irish giant, Charles Byrne.

Hitherto the tallest man in Britain was 8 foot 7 inch Patrick Cotter, who enjoyed every inch of his height. Back in 1806 he scared city watchmen by lighting his pipe at street lamps. Sometimes he reached up to kiss pretty girls who leaned out of upper windows as he passed. Height brought him prosperity and he drove in his own carriage with a box sunk in the bottom to hold his legs.

His hunger was suitably gigantic. Four steaks at a sitting; 20 eggs, three large loaves and three quarts of milk for breakfast sometimes left him unsatisfied.

Robert Wadlow of Alton, Ill., who was 8 feet 9 1/2 inches tall when he died in 1940, ranked as America's tallest man. Weighing only eight and one-half pounds at birth, he weighed 30 pounds by the time he was six months old, and went into long pants at the age of six years. At nine, he had reached 6 feet 1 inch.

Among the world's tallest women, 8 foot 6 inch Brunhilde Van Drysen says that she has had several offers of marriage but never found a man able to keep her.

**Gland Deficiency Cause**

This excessive growing could happen to anyone. Hypertrophy of the pituitary gland speeds growth, boosts ears to oversize and diminishes sensations of touch, pain or temperature in the feet. Thus most giants have foot trouble. Pituitary failure may cause self-consciousness but, luckily, it doesn't spoil a giant's sense of humor.

Wadlow use to grin whenever he refused a cigarette. "No, thanks," he'd say. "It might stunt my growth."

America's tallest sideshow exponent, 8 foot 6 inch Jack Earl, has to have even his ties specially made.

**Mrs. Sloan Recovering From Operation**

Mrs. Claude Sloan is recovering at their home in Stratford from an operation which she underwent week before last in Northwest Texas Hospital in Amarillo. Mrs. Sloan was brought home from the hospital Friday.

**Speed of Light Is Found Faster by Eleven Miles**

LONDON, Eng.—Light travels 11 miles a second faster than was hitherto believed.

Dr. Louis Essen of the London national physical laboratory has just confirmed his theory. The new figure is 186,282 miles a second instead of the 186,271 miles postulated by Dr. Albert L. Michelson in the United States in 1935.

Dr. Essen reported that Carl I. Aslaksen of the United States coast and geodetic survey had arrived at the same result using radar measurements.

Dr. Michelson used a tube a mile long; Dr. Essen one of seven inches. Through it he impelled a radio wave—it is generally assumed radio waves and light waves travel at the same speed—and reflected it backward and forward until he produced an electrical resonance that could be measured with a high degree of accuracy, better than one part in a million.

The new figure will become a physical constant in many calculations in radio, radar and nuclear physics research.

**Wife Finds She Really Is Divorced After 29 Years**

OMAHA, Neb.—Mrs. Martin E. Johnson of California discovered after her husband's death that she had been legally divorced during 29 years of marriage.

While trying to gain a clean title to a \$20,000 payment awarded by her husband's employer after his death in June, 1950, she uncovered her dilemma.

She said she married Johnson in 1920, but a year later they decided on a divorce. She signed a document allowing the court to issue the decree without her appearance.

The same day, however, she said she and her husband changed their minds about the matter and let the proceedings drop—she thought.

They lived together for 29 years. She never knew the decree had been granted until the recent court action.

**Sand at Start**

When preparing a wood surface for varnish, always sandpaper with the grain of the wood. Use No. one-half sandpaper at the start and finish with No. 0. For turned surfaces, such as table legs, chair legs and spindles, steel wool is best.

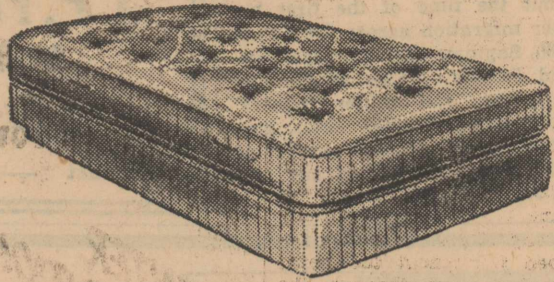

**Largest Flag**  
The J. L. Hudson store in Detroit has the largest flag in the world. It is over 100 feet high, 230 feet long, and weighs about 1500 pounds.

Beethoven wrote some of his greatest music after becoming deaf.

**In Old England**  
Two centuries ago, in England, bars of iron were frequently sold by peddlers traveling the countryside carrying their wares.

Ronald Amundsen discovered the South Pole.

**MAKE FENCE MUCH FASTER with this post hole digger**

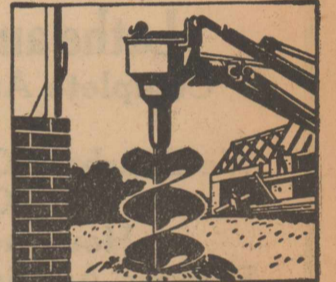

Why wait to build fence because digging post holes by hand is such hard work? We recommend the Danuser post hole digger that attaches quickly to the Ford Tractor and can dig up to 600 post holes a day. Lifts and lowers by Hydraulic Touch Control. Pays for itself in time and labor saved... gets fence made quickly, between rush seasons or in spare time.

If you have seedling trees to set out, or holes to dig for building pilings or foundations, there's nothing like this post hole digger. Even use it for digging trenches... saves lots of shoveling. Several size augers... Ask for a demonstration.

**FARM EQUIPMENT**

Fine for setting out seedlings.

Makes holes for building foundations.

**A Plan For Religious Unity**

(By Clyde Aly)  
Part 3: Text: Ephesians 4:3-6  
"Endeavoring to keep the uni-

ty of the Spirit in the bond of peace. There is one body, and one Spirit, even as ye are called in one hope of your calling; one Lord, one faith, one baptism, one God and Father of all who

is above all, and through all, and in you all."  
God is the one to be worshipped. The angel commanded John to "worship God." Rev. 22:9. We worship God in and through Christ our mediator. Heb. 7:25.

"But the hour cometh, and now is, when the true worshipers shall worship the Father in spirit and in truth: for the Father seeketh such to worship Him." John 4:23. God has revealed in His word how we are to worship. Worship must be in spirit and in truth, according to truth which is the word of God. John 17:17.

After the church was established, we are told: "And they continued steadfastly in the apostles' doctrine and fellowship, and in breaking of bread, and in prayers." Acts 2:42. They met on the first day of the week to break bread. Acts 20:7. They were commanded to use vocal music in worship, singing. Eph. 5:19; Col. 3:16. If all would follow these simple commands and plain examples, there would be unity of worship and all would be walking by faith. But men come along and omit the Lord's Supper because they do not think it should be observed weekly as by the early Christians. Then men add mechanical music because they like, and want it; hence, division arises and continues because men will not follow the Bible.

"Yet if any man suffer as a Christian, let him not be ashamed; but let him glorify God on his behalf." I Pet. 4:16. The revised version reads, "in this name." Wearing unscriptural names keeps the religious world divided. To glorify God in the name Christian is a command. No one can obey the Lord and wear a human name. There is something in a name, the difference between obeying the Lord by wearing the right name, or disobeying Him by adding an unscriptural name. Furthermore, religious parties are built around party names. The prayer of Christ for unity can never be answered until all par-

ty names are discarded. Why not be content to be a Christian only. No loyal wife will add another man's name to that of her husband. Neither can one be loyal to Christ and add an unscriptural name. Let us be one in name, faith, doctrine, and practice, and we can be if all will just follow the Bible and the Bible only. The Bible only makes Christians only.

**Kerrick Club Meets With Mrs. Boren**

The Kerrick Home Demonstration Club met in the home of Mrs. Allen Boren Friday of last week with six members, one visitor, and Miss Corrine Stinson present.

Miss Stinson, Dallam County Home Demonstration Agent, gave a demonstration on "Playing in the Community," during the regular meeting as she had to go on to Lubbock. Members and guests played several games for an enjoyable afternoon.

Mrs. Bill Johnston gave the report on the October Council meeting in the absence of Mrs. Fred McDaniel.

Mrs. Ray Taylor and Mrs. Louis James were honored with pink and blue showers.

Refreshments were served to: Mesdames Ray Taylor, Pete Taylor, Bill Johnston, Robert Elms, Louis James, Allen Boren, and the ten children attending with their mothers.

Mrs. Virgie Mathews and Miss Stinson left the meeting early.

**First Walnuts**

The walnut, for which both California and Oregon have climates that are especially attractive, called "Jupiter's Acorn" by the ancient Greeks and Romans, first was known to have existed in ancient Persia.

**Animal, Bird Beauty Shop Opened in California**

LOS ANGELES, Calif. — Loa Busche, 26, has opened a beauty shop for animals. She has opened the animal laundry which she believes is the first of its type in the country.

She guarantees to get the customers clean by this routine:

(1) Dunk it in suds and scrub (unless it's a bird, in which case she dry cleans it), (2) manicle and buff nails or horns, and (3) administer a thorough brushing.

Her most exciting "laundry"? The Java monkey which nipped her finger and the 16-year-old Indian leopard—which behaved like a perfect gentleman.

**Working Girls' Job Market On Wage Upswing, Report**

NEW YORK—A New York employment agency reports happy job hunting days are here again. Big companies are hunting for \$15,000 a year executives and girls right out of a typing course say, "I want a job for \$50 a week."

Suzanne Mathias, partner in the agency, says, "It's almost impossible to find a girl who'll take a job at \$40 a week now. Six months ago, although they weren't exactly crying for them, the girls would take the job at that figure."

She hastened to add that things are not yet as tough for employers as they were during World War II.

"Companies are still being choosy about the men they hire for those executive jobs. And a girl still has to prove she has something to offer before an employer will hire her at \$50 or more a week."

The labor scarce war years, when companies had to hire inexperienced and often unqualified people, are too fresh in most memories.

"Those days when an employer would say, 'Just send me anybody, so long as she breathes and is warm,' aren't back with us. But if job applicants keep holding out for higher salaries and our old clients keep calling up to fill jobs they haven't filled for years, then something's got to give."

**Canadian Mining**

The mining industry is Canada's third largest primary industry from the standpoint of gross value of products, agriculture being first and forestry second. Canada today leads the world in the production of nickel, asbestos and platinum, and is the second largest producer of gold, zinc, cobalt and aluminum.

**Rare Heart Ailment Found To Affect Dogs, Report**

CHICAGO—A rare heart condition similar to the one that causes human "blue babies" may also affect dogs, veterinarians have found. The American Veterinary Medical association reports that doctors at Washington State College's veterinary medical school have reported the case of a Cocker Spaniel that suffered from the "blue baby" condition.

When the animal became excited, or following exercise, it would faint. It sometimes had difficulty in breathing and the skin assumed a bluish tinge.

An examination revealed that the dog's trouble was due to a heart condition similar to the one which causes somewhat the same symptoms in human beings.

An opening between two chambers of the heart which normally closes soon after an animal is born had remained open, interfering with the circulation of the dog's blood. Part of the blood which normally passes through the lungs before being pumped throughout the body, by-passed the lungs through the opening.

The Washington State veterinarians also reported several cases of inherited heart defects in cattle. Such conditions appear to be quite rare among animals, they said, since only six serious heart irregularities were found in 2,000 post-mortem examinations they conducted.

**Priest Reports Phenomenon Seen by Several Persons**

BUCKNER, Mo. — A "phenomenon" in the noon day sky—the letters "M-A-R-Y" and "V" and a figure holding a cross, was reported recently by Father B. H. Luebbering, pastor of St. Mary's church at Wien, Mo.

He said about 15 other persons, including Father O. L. Munie of Belleville, Ill., and three nuns, also saw the phenomenon.

Father Luebbering said the images appeared one at a time, formed mostly in a golden light and at times in deep blue, against the cloud studded sky near the sun. The occurrence lasted an hour, from noon until 1 p.m., he stated.

"The cross was very plain, and there appeared to be the figure of a person holding it," Father Luebbering added. "I would not call it a miracle. I would call it a phenomenon."

A man reported at Buckner that he saw the image of the cross when he was 20 miles from Wien.

Want to make a hit with all your smoking friends this Christmas? Here's what you do: Check-off the names of all your friends who smoke cigarettes. Give them a carton of Camels! Cool, mild Camels are a welcome gift to any smoker because more people smoke Camels than any other cigarette! And for all your friends who smoke a pipe or roll their own cigarettes, give a big pound-tin of Prince Albert Smoking Tobacco! When you give a man Prince Albert, you're giving him the real smoking pleasure. And when you go to your local dealer, be sure to get the colorful Christmas packages. Both Camels and Prince Albert are available in red and green packages in the spirit of the season. All you have to do is write your personal greeting on the built-in gift card on the package. Save time and money this Christmas by giving cool, mild Camels and mellow Prince Albert Smoking Tobacco. See your dealer today.

**Made It**  
A firm of shipowners wired one of their captains: "Move heaven and earth; get here on Friday."  
Just as they were becoming very anxious, they got the reply: "Raised hell and arriving Thursday."

**WHEN SLEEP WON'T COME AND YOU FEEL GLUM**

**Use Chewing-Gum Laxative—REMOVES WASTE...NOT GOOD FOOD**  
When you can't sleep—feel just awful because you need a laxative—do as millions do—chew FEEN-A-MINT.  
FEEN-A-MINT is wonderfully different! Doctors say many other laxatives start their "flushing" action too soon—right in the stomach. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy... you feel weak, worn out.  
But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes only waste, not good food! You avoid that weak, retching feeling. Use FEEN-A-MINT and feel fine, full of life! 25c, 50c, or only 10¢.

**WARFARIN KILLS RATS!**

Mix a little Black Leaf Warfarin with corn meal or other bait. Destroys entire colonies of rats and mice. Tasteless, odorless, never develops "bait shyness."  
Sold at drug, hardware and farm supply stores. Send for free Rat Control Circular "A".  
Tobacco By-Products & Chemical Corp. • Richmond, Va.

**Economical Cough Relief! Try This Home Mixture**

No Cooking. Makes Big Saving.  
To get quick and satisfying relief from coughs due to colds, mix this recipe in your kitchen.  
First, make a syrup with 2 cups granulated sugar and one cup of water. No cooking needed. Or you can use corn syrup or liquid honey, instead of sugar syrup.  
Then get 2½ ounces of Pinex from any drugist. This is a special compound of proven ingredients, in concentrated form, well-known for its quick action on throat and bronchial irritations.  
Put Pinex into a pint bottle, and fill up with your syrup. Thus you make a full pint of splendid medicine—about four times as much for your money. It never spoils, and tastes fine.  
And for quick, blessed relief, it is surprising. You can feel it take hold in a way that means business. It loosens phlegm, soothes irritated membranes, eases soreness. Makes breathing easy, and lets you get restful sleep. Just try it, and if not pleased, your money will be refunded.  
**FOR EXTRA CONVENIENCE GET NEW READY-MIXED, READY-TO-USE PINEX!**

**Christian Worship**  
Lesson for November 19, 1950

**Christian Worship**  
Lesson for November 19, 1950  
SOME one has said that if the Christian church did nothing else but offer a regular opportunity for public worship of God, she would have a justified her place in the sun. This is a rather misleading truth, for if a church did nothing but worship it would not be doing its whole duty, indeed it would not be a true church. As our Scripture plainly shows, worship disconnected from life is not only good, it is sinful.

**Why Worship?**  
WHAT is worship, and why do we worship at all? We might define it as a meeting with God, both conscious and desired. "He shines in all that's fair," and in truth we are in his presence all the time. But we are not conscious of him all the time. When we are conscious of him, then one of two things happen. Either we hastily shut our minds and run away from him in fear, which is sin. Or we linger, feeling it is good for us to be here.

And then it is worship. Or again, we might call worship conversation between man and God. Every part of it is either our listening to God speak to us, or our speaking to God in some way.  
Why worship? We worship because we love God. Otherwise it would be a bore at best, or a kind of self-torture at worst. We worship because we need God. If Jesus needed both public worship and private prayer, so do we far more. We worship because we need to know God's will.

**Why Worship Together?**  
PUBLIC and private worship cannot be substituted for each other. Readers of the Bible know how they were intertwined in the experiences of God's people, and how our Lord himself, who used to attend the synagogue services regularly, also sought God on the hills alone. A man who never meets with God alone in prayer will not know how to come to public worship in the true spirit; and a man who habitually stays away from church for no good reason is not a person whose private prayer-life is likely to be a healthy one.

We need to worship together with other Christians. We need this experience to strengthen our own prayer-life. We need it to keep us from selfishness in our prayers. Intense, earnest prayer, and full of faith too, may be seriously wrong if it is essentially selfish.  
In corporate, public worship we are reminded that none of us stands alone; that God has many children. We need to worship together because it is one of the very few things, perhaps the only one, that all human beings can do as one. No two of us are alike, yet we are alike in this one thing: We are all human beings in need of God. To worship together is to be reminded of this.

**Why Worship As We Do?**  
IT OUGHT not to be surprising that men worship God in so many ways, for there are all sorts and conditions of men. But within the Protestant churches, our differences are not important. Essentially we have much the same "pattern" of worship. It will be helpful to you, the next time you are in church, to ask, at each part of the service: Why do we do this? What good does it do? Could it be left out without being missed?

As you visit other churches from time to time, take note of any differences, not in a spirit of criticism but considering whether you might learn from them. What do you and they have in common.  
You will agree that there are hardly any parts of a typical Christian worship service which we could do without. We need the prayers, for in them we all pour out our hearts together before God. We need the hymns and psalms, because they express the beauty and the joy of our faith; most of them are prayers set to music. We need the Scripture reading, because in it we hear the Word of God. We need the Word of God to our own lives and problems. We need the offering too—why? But the offering is true worship only on one condition. Do you know what it is? After all, the real test of every part and variety of true worship is: Has this experience brought man and God closer together in spirit and in truth?

(Copyright by the International Council of Religious Education on behalf of 40 Protestant denominations. Released by WNU Features.)

**Proud Hubby**  
A newly-married woman was showing off to a friend the treasures of her home, including a neat sports-car.  
"I suppose your father got you that?" said the visitor.  
"Not likely," was the indignant reply, "George wouldn't accept such a thing. All that father pays for is the rent and the housekeeping expenses."

**No Sure Cure**

"Flinching" is one of the most aggravating afflictions that can beset the hunter and skeet shooter, and is an unconscious reaction that might be called "shooting paralysis."  
The "flinch" causes the shooter to react in several different ways. Sometimes he "freezes" just before he intends to pull the trigger, causing a slow shot or making it necessary for him to get on the target again. At other times he closes his eyes or raises his head to get his face away from the gun stock. The most common fault, however, is to jerk the shoulder away from the butt of the gun in an effort to avoid the recoil. Sometimes the confirmed flincher combines all these reactions. Then he might as well shoot up in the air... and some do just that.

"Perhaps the predominant cause of flinching is fear of the gun's recoil," says Gail Evans, manager of advertising and shooting promotion, Remington Arms Company, Inc. "This is not true in all cases, however, and in many instances a flinch is inexplicable. Experienced trapshooters may go along for years shooting thousands of rounds each year and then all of a sudden develop the habit of flinching without knowing why. And when flinching enters the target shooter's ballwick, good scores fly out of the window."

"It is sometimes hard to determine the cause of flinching. It may be that the comb of the stock is too high, causing the shooter to take considerable of the recoil on his cheek. This can be remedied by scraping the comb down to the proper height. At any rate, the first thing the flincher should do is to check his gun and find out if it fits him properly.  
"The stock may be too long or too short. These are matters of easy correction. It may be that the grip of the gun does not fit the hand properly, thereby cramping the hand. If it is too large, it can easily be sanded down a bit. If too small, it can be built up.

"Fear of recoil is by no means the only cause of flinching. Disordered nerves may easily bring about the trouble. Once the shooter starts flinching he is prone to build up his trouble into a mental hazard that may prove a great stumbling block in his path to good marksmanship.  
"No sure cure for flinching has been discovered. So-called anti-flinch triggers have been developed, some of which are released by a push of the thumb. Fore-end triggers have also been made, and while they may work for some people, they are still not a cure-all for flinching.

"Perhaps the best treatment is to stop shooting for a while... a month or even two. Don't touch a shotgun in that period. Forget, for a time, if you can, the sport of shooting. Then try "dry shooting", i.e., swinging an unloaded gun on a moving target and pulling the trigger at what would have been the right time. After several sessions of this practice and when your nerves have returned to normal, resume shooting, but use light loads. If there is no recurrence of the trouble, try shooting with the standard loads, but shoot only a few rounds in a single practice period. Concentrate on the target and not on the gun. Try to forget you ever flinched and start anew."

**Disease Hits Deer**

A serious disease of cattle and sheep has been implicated for the first time as a killer of wild deer, according to a report in the Journal of the American Veterinary Medical Association.  
Known as blackleg, the malady is fatal to young cattle, and sometimes attacks sheep and other livestock.  
Lt. Col. H. L. Armstrong and Major J. K. MacNamee, army veterinarians, tell of the disease's first known outbreak in deer in an issue of the Journal.  
The outbreak occurred on the army's proving grounds at Aberdeen, Md., populated by about 2,500 wild deer. More than 400 of the animals are known to have died of the disease.  
Investigating veterinarians were hampered in making a diagnosis of the trouble because, although a number of dead deer were found, it was difficult to find sick animals.  
Two infected animals finally were obtained, and laboratory examinations revealed that both were infected with the blackleg germ.

**Dry Fly "Tops"**

Of the two kinds of artificial flies, wet and dry, the dry fly takes top place because, with all its limitations, it is the highest development of fly fishing. The dry fly is fished on the surface to lure a surface-feeding trout. Its chances of producing a strike on every cast are greater because evidence of surface-feeding trout is easily seen, and therefore the cast can be designed and with a degree of confidence not possible with the wet fly.

**A Fitted Daytime Dress With Scallops, Half Belt**

**Wide Size Range**  
A BEAUTIFULLY fitting daytime dress that's designed in a wide range of sizes. Soft scallops trim the waist top, a narrow half belt ties neatly in back. Short or three quarter sleeves.

**LENZ FUR CO.**, 5659 Levee, St. Louis, Mo.

### Another Champ Tottering

**THIS HAS BEEN** a rough year on champions. Notre Dame fell. Joe Louis tottered and was badly beaten. And now Calumet stable and the Jones boys are running second in the Big Money stakes after taking top honors in 1946, 1947, 1948 and 1949. Brookmeade's able stable, owned by Mrs. Dodge Sloan and trained by Preston Burch, is now in front with Vanderbilt closing in from third place.

Both Calumet and Vanderbilt are on their way to California where the Hollywood track and Santa Anita are offering a flock of purses from \$100,000 to \$230,000—with \$10,000 and \$50,000 pick-ups scattered all over the Western Coast. At least that part bordering Los Angeles.

The \$230,000 purse will be for the Maturity Stake, a four-year-old affair where Hill Prince will be the horse to beat now that Middle-ground's racing career has been ended by a broken ankle. It seems impossible to realize that Calumet is no longer at the top. You turn back and see Citation, Coaltown, Whirlaway, Armed, Ponder, Ferret, Two Lea, Bewitch and many, many others who have dominated the tracks from here to nowhere and back.

Ben and Jimmy were dividing their big stable and were mopping up. Both are among the great trainers and they had the horses, largely the offspring of Bull Lea.

In 1947 Calumet piled up over \$1,400,000, an all-time high. They won \$1,269,710 in 1948 with Citation and Coaltown mopping up at every track. Ponder was a big money winner in 1949, ably abetted by Coaltown, and the stable's winnings totalled \$1,128,943. But suddenly something happened. Something always happens in racing. And not all ways for the financial best. Bull Lea suddenly quit sending those crack two-year-olds to the tracks—two-year-olds who grew to be fine three-year-olds and four-year-olds.

Calumet was certain Citation, rated with Man o' War as a three-year-old, would collect most of the gold in California last winter. I saw him run several times, but the 14-month absence from competition had taken its toll. Citation was no longer Citation and then there was Noor who would have taxed Citation even at his best on the coast tracks. Citation may come back again later. So may Coaltown, who won 12 straight in 1949.

### Bowl Phantoms

It is still much too early to start lining up the various Bowls. But you can gamble each Bowl has more than one hard-working inspector working on the job. There are now four veteran Bowls with several added attractions. The four major Bowls are the Rose, Sugar, Cotton and Orange, at Pasadena, New Orleans, Dallas and Miami.

The Rose Bowl is the most uncertain of the lot. The Pacific coast champion will be in doubt for several more weeks. If Ohio State wins the Big Nine or Big Ten title, the second-best team will head west. The Big Nine has no outstanding delegation today. It could be Michigan, Purdue, Ohio State, Wisconsin or some other. The Big Nine is in the throes of an off year, compared to its big years in the past. California and Stanford still lead the west coast people with Washington close up.

The Sugar Bowl at New Orleans, another 75,000 crowd-getter, is eyeing Kentucky, Tennessee, Maryland, Oklahoma and either Texas or S.M.U. As the Cotton Bowl at Dallas is banking on Texas or S.M.U., unless Rice can slip in, it appears that the winner here will remain in Texas on New Year's Day. Just at the moment the Cotton, Sugar and Orange Bowls are all watching the same teams—Texas, S.M.U., Rice, Tennessee, Kentucky, Maryland, Oklahoma and any outsider who may pop into the middle of the picture.

The southwest now has more bowl entries than any other sector. Texas, S.M.U. and Rice are all strong. T.C.U. can move up. There are no Bowl entries from the east. There are none from the midwest except the Rose Bowl nominee.

### What To Do?

I checked last fall with graduate managers from Pennsylvania, Yale, UCLA and Southern California. Each figured television had cost them around 11,000 paid admissions each game—especially each important game. This was equal to a loss of \$33,000 a game. They were getting \$7,000 a season for television rights—not nearly enough to make up the heavy deficit and keep the sport going in the schools.

### ANOTHER FAMILY PRAISES ANAHIST FOR COLDS

**Stops Cold Symptoms in many cases in a single day!**  
Just use as directed on label

At the first sign of a cold... take ANAHIST! "We've all used ANAHIST to relieve cold symptoms," writes A. E. Lawrence, Anahist contains pure antihistamine. Safe, effective—just follow directions on label. Now in two convenient products—25 mg. ANAHIST TABLETS and the new ANAHIST ATOMIZER—at your Drug Store!

### Pasture Renovation Pays Big Dividends

#### Better Grass, Legumes Build Production Power

"Punch-drunk" pastures can be put back on their feet by a renovation program that will build up their milk and beef producing power.

Killing out the old grass and growing alfalfa-ladino-brome grass mixtures doubled yields of forage in Wisconsin tests, the middle west soil improvement committee said. The old grass yielded 1,800 pounds of forage per acre, carrying some 200

pounds protein. The new alfalfa-ladino-brome grass seeding yielded close to two tons and 800 pounds of protein per acre. To get these better grasses and legumes, lime and fertilizers carrying phosphate and potash were needed to build the soil's mineral nutrient content.

Completely killing the old grass involves thorough fall working of the field. On heavy sod, criss-cross the field with disc to cut the sod into chunks. Then dig the field twice with the field cultivator, working around the slope the second time. Just before freezing, dig the field to leave it rough. Lime and plant food can be broadcast before the field is worked or can be put on at seeding time.

Then, next spring, seed the higher producing deep-rooted legumes and grasses. A field cultivator and spike tooth harrow in tandem will leave a good seed bed.

### Beef Demand to Remain At High Level, Report

The demand for beef as one of the best preferred foods in the household shopping list will probably remain strong for some time, as full employment at good wage seems to be in the picture for this country.

Breeders of foundation stock, growers of feeder cattle and finishers of feed-lot beef are directly concerned with the expansion of the beef industry to meet this growing demand, says Charles A. Burmeister, the U. S. agriculture department.

Burmeister says that statistics of the cattle industry show that producers have been and are now building up their breeding herds.

"The present beef breeding herd of the country is the largest on record, while the 1950 crop is apt to exceed that of 1949 by 800,000 head. Much of this gain if numbers will be in beef type calves," he said.

### Market Trends

If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 16 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

### DOAN'S PILLS

Are you going through the functional "middle-age" period peculiar to women (38-52 years)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! Regular use of Pinkham's Compound helps build up resistance against this annoying middle-age distress!

**LYDIA E. PINKHAM'S VEGETABLE COMPOUND**

### DAIRMEN LOSE MILLIONS BECAUSE OF LOW QUALITY

Every year the dairy farmers of the United States suffer heavy financial losses because too large a proportion of the milk and cream they market is lower in quality than it should be. It is estimated conservatively that they could add millions of dollars annually to their income simply by giving attention to those factors that promote high quality of product, dairy specialists report.

### Sing Something Purple

The fact that music can bring certain colors to mind has long been recognized by psychologists. Two of them, Henry S. Odert and Theodore F. Karowski, found that—out of 148 college students—39 per cent were able to "see" a color or colors while listening to music. Of the number, 53 per cent were able to associate a color and 31 per cent felt a color response. Newton related colors to the diatonic scale in this manner: Do, red; re, orange; mi, yellow; fa, green; sol, blue; la, indigo; and si, violet. Attempts have been made to fashion color organs and other devices to express the correlation of color and music.

### Better Cough Relief

When new drugs or old fail to stop your cough or chest cold don't delay. Creomulsion contains only safe, helpful, proven ingredients and no narcotics to disturb nature's process. It goes right to the seat of the trouble to aid nature soothe and heal raw, tender, inflamed bronchial membranes. Guaranteed to please you or druggist refunds money. Creomulsion has stood the test of many millions of users.

### Ceramics Club Meets With Mrs. Phelps

The Mud Daubbers Club met Tuesday night in the home of Mrs. Earl Phelps. Mrs. Little of Borger, the class instructor, displayed ceramic objects of art. An open discussion was held in which many helpful suggestions were made to 14 members present.

For Better Values Shop The Star.

### Embroidery Club Meets With Mrs. O'Brien

The Embroidery Club met in the home of Mrs. Curran O'Brien for their annual Thanksgiving luncheon Thursday of last week. After a lovely meal a business meeting was held at which time names were drawn for the Christmas gift exchange.

New officers were elected for the coming year. Officers are: Mrs. H. L. Vincent, President;

Mrs. A. E. Pronger, Vice-President; Mrs. R. C. Buckles, Secretary and Treasurer; Reporter, Mrs. C. W. Moon; Assistant Reporter, Mrs. M. Dortch; Flower Committee, Mrs. Emil Blank and Mrs. G. L. Taylor.

The next meeting of the club will be the Christmas party which will be held in the home of Mrs. H. L. Vincent.

The remainder of the afternoon was spent visiting and playing "42."

Those present were: Mrs. Osa Gamble, Mrs. E. W. Butler, Mrs. Earl Shirk, Mrs. G. L. Taylor, Mrs. A. E. Pronger, Mrs. H. L. Vincent, Mrs. W. E. Kelly, Mrs. Roy Allen, Mrs. J. K. Richardson, Mrs. Emil Blank, Mrs. Hattie Flores, Mrs. W. G. O'Brien, Mrs. M. Dortch, Mrs. C. W. Moon, Mrs. D. L. Buckles, Mrs. R. C. Buckles, and the hostess, Mrs. J. C. O'Brien, and five guests, Mrs. Ione Taylor, Mrs. W. D. Vincent, Mrs. M. H. Harrison, Mrs. Roy Chamberlain of Colorado Springs, and Mrs. Robert Laptad of Lawrence, Kansas.

### GENIUS AT WORK

## Cellar Lab ACTH Home

SAN FRANCISCO, Calif. — The famed discoverer of ACTH, Dr. Choh Hae Li, is satisfied with his dingy laboratory where he successfully isolated five wonder working hormones.

The 38 year old genius of biochemistry recently declined an offer by the University of California of a fancy setup in keeping with his scientific eminence.

"I've had so much luck here," he explained, "that it would be silly to take a chance and move."

To reach Li's laboratory in the basement of a university building, you've got to duck under the pipes of a boiler room. Every so often top executives of giant corporations do just that. The most recent emissary offered Li \$100,000 a year if he would transfer his research projects to the company pay roll.

Credited by University "I appreciate the value of money and the comforts it could buy for my family, but I couldn't accept the job," he said. "The company would want to patent my discoveries and make money out of them. And they'd be justified in doing so if I went working for them."

"But I feel that my findings should belong to the entire public, to benefit all mankind as much as possible. Besides, I can get along on my university salary—modest as it is."

Li is credited by the university with being the first man to isolate the adrenocorticotrophic hormone—better known as ACTH—seven years ago. ACTH opened new avenues for the treatment of arthritis, rheumatic fever, hay fever, asthma, allergies, eczema and nephritis. It is being used in research seeking the cause and cure of alcoholism and some forms of mental illness.

Li is distressed by the fanfare over the accomplishments of ACTH. His theory is that human welfare would be better served by an all-out research offensive to determine why the hormone relieves pain and suffering than by experiments with its immediate utilization.

### Other Findings Told

However, he is cooperating closely with scores of researchers throughout the world who are experimenting with practical applications of hormones he isolated at California, where he began as a graduate student in 1935.

He first produced the growth hormone, which may have eventual application to human growth problems. He isolated ISCH, a hormone without which reproduction is impossible, and which may some day solve the problem of childless couples. He discovered the lactogenic hormone, which makes it possible for women to nurse their babies, and was the first biochemist to isolate FSH, a hormone that controls fertility.

Li agrees that he doesn't know much about the astounding chemical magic of hormones, although he has devoted his life to their study.

"Twenty years from now," he said, "I hope to know something about the pituitary gland, its secretions, and their effects. Until then, I cannot permit anything to interfere with my studies."

### Symphony

Warmongers and Idiots

WASHINGTON—According to the Communists the national symphony orchestra is a bunch of warmongers and idiots.

It all began when the orchestra played Tchaikovsky's "1812 Overture." The score calls for the firing of cannon in the climatic passage—and that's just what the national symphony did.

The Budapest Nepszava reported the event as the result of the merger of American militarism with musical idiocy. The newspaper also said that former Defense Secretary Johnson ordered the cannon used in the July 6 concert to express the "true American spirit." This, the paper added, was in preparation for the Korean war.

It forgot to report that the 1812 Overture was composed by a Russian in celebration of that country's victory over Napoleon.

### Major Sugar Source

Cuba has been the major source of sugar for this country ever since colonial days.

### Brick Structure

An uncoated brick structure will absorb tons of moisture that can invade the inner walls and cause discomfort as well as costly damage. If adequately painted or given a clear waterproof coating, rain will be kept out. As a result, the structure will remain dry and warm. Fuel will also be saved.

Men, more than women, are afflicted with color blindness.

### Etruscans

The Etruscans, who left Asia Minor before 1000 B. C. and later settled in Northern Italy, would do well on our television shows of today. They held outdoor festivals with pirouetting ballerinas draped in graceful transparent costumes. The dancers clapped castanets and jingled silver bells which were strung on a flimsy stole.

### Elkettes Lose To Morse Girls

The Elkettes played at Morse Tuesday night and lost a most thrilling game 33 to 37. The Elkettes stayed up with the Morse team all during the game but at the end of the quarters the Morse girls managed to take the lead.

With a 6-4 at the first quarter, and 12-13 at the half, scoring started in the last half. The Elkettes led the score during most of the third quarter but let Morse get ahead just as the time period ended.

The Elkettes and Morse teams both lost two players by fouls. Georgia Lowe and Millie Bennett fouled out of the game. Marie Womble and Richardson of Morse also fouled out.

Jean Reynolds scored high points for the Elkettes with 17 points. Avis Parrish followed with 7 points. Jean Womble starred for Morse with 24 points and Cator of Morse scored 8 points.

### Astronomers Report Comets Are Great Celestial Snowballs

SCHENECTADY, N. Y. — Dr. Fred L. Whipple of Harvard and Dr. Gerard P. Kuiper of Yerkes observatory at Williams Bay, Wis., recently told the National Academy of Sciences of a new theory concerning comets.

The two men report comets are big snowballs, formed at the same time as the earth and the other planets of the solar system.

Dr. Kuiper explained how moisture gathers into drops in a rain cloud. The drops never get very large, he said, because the earth's gravitation pull drags them to the ground.

But put a similar cloud, made of dust and gas, the same sort of cloud that telescopes now see, out in space by itself.

Each particle will attract others by gravitation, and the particles will coalesce into solid bodies, which may be the size of comets or of planets.

Kuiper said the sun formed first, and afterward the planets, where the dust particles were far enough away from the sun that their attraction for each other was stronger than the pull of the sun.

Far out on the edge of the dust cloud that condensed into planets, Dr. Whipple said, much smaller clouds coalesced into comets.

There are possibly hundreds of millions of comets, he said. They average two miles in diameter, too small to be seen even if they came close to the earth. The biggest ones, he said probably are not much more than 10 miles in diameter.

Comets are largely made up of water — in the form of snow — he said. They also probably include frozen ammonia and frozen methane, or marsh gas. This celestial snow is dirty with the dust of meteors and of other substances, including bits of iron, which were part of the original condensation.

Gases form in comets when they approach the sun. The gases glow and sunlight reflects from the snow, making the comet visible. Close up, a comet would look like a huge snowball, he said, adding, "You could dig off pieces with your fingers."

### Animal Disease Prevention

All efforts to stop the spread of contagious animal diseases should center on these three procedures: (1) Immediately isolate sick animals from well ones, (2) Have the trouble diagnosed without delay, (3) After isolation quarters are vacated, thoroughly disinfect and air them before occupancy by healthy stock.

## Specialist in the treatment of JOHN DEERE Farm Equipment

Our shop is in the hands of factory-trained mechanics — first-class mechanics with the special training that gives them expert knowledge of all your John Deere farm equipment. They have the "know how" that makes for quick, accurate and efficient work.

That means a great deal to you, Mr. John Deere owner. It means that all required work will be done — nothing omitted, and nothing unnecessary added. It means the work will be done in the shortest possible time — no cost for the time an untrained mechanic wastes in finding how to do the job. And, most important of all, it means that your John Deere equipment will be in perfect condition to deliver full, uninterrupted service when the next season comes.

ONLY GENUINE JOHN DEERE REPAIR PARTS fit and wear like the Originals!
