Will Vaccinate More Pet Dogs Saturday

Dr. C. A. Thompson will be at the City Hall in Stratford at 10:00 A. M. Saturday to vaccinate pet dogs of owners who were unable to have their dogs given rabies shots here Tuesday. He plans to be in Stratford until 11:00 o'clock.

Dr. Thompson exhausted his supply of rabies vaccine and tags Tuesday and will return to Stratford Saturday morning at ten o'clock to finish the job.

The City Council appreciated very much the cooperation of the people in making this program a success in order that the danger of rabies may be eliminated as far as possible in our community.

It seems that everyone is cooperating as there were dogs of every description brought in to be vaccinated. Little dogs, big dogs, short dogs, and tall dogs of every color were represented in the fire station where the work was done.

If there are any dogs left to be picked up and done away with, there must be a lot of pet dogs in Stratford.

Dog owners of 100 dogs received tags for the vaccination of their pets Tuesday. The City pays the cost of the rabies vaccination and for the tags. It is necessary for the owners of the animals to secure collars for their pets.

Stratford and Canyon clashed in one of the most thrilling games of the tournament Friday and lost the game at the end of an overtime period by the score of 54 to 53 in a time-keeper decision. The score was close during the entire game. At the end of the first quarter the Elks led 14 to 12. The score was tied 27 to 27 at the end of the half. The Elks led the score at the end of the third quarter by a score of 39 to 37. The game ended in a tie of 51 to 51.

Canyon scored a field goal and a free throw in the first part of the extra period of play and Stratford scored a field goal, making a score of 54 to 53, in favor of Canyon. With five seconds to play the Elks took the ball under Canyon's goal and started down the court. Lyle Wakefield looped a long side line shot into the basket as the game ended. The time-keeper sounded the buzzer and the referees gave the Elks the two points which would have made them the winners of the game. In the conference which followed the time-keeper ruled that the time for the final whistle was up before the ball left Wakefield's hands and that the goal did not count. This gave the game to Canyon, winners of the tournament by a 54 to 53 decision.

Tommy Wakefield was high point man for the Elks with 19 points and Bobby Lovelace followed with 12 points. Burrows, 6 foot 6 inch Canyon forward, scored 23 points.

Launch County March of Dimes Campaign Drive

Jim Taylor, Sherman County March of Dime Campaign Chairman, launched the 1952 drive this week in hopes of getting the cooperation of the public in raising sufficient funds to swell the fund remaining in the county to fight polio and to give assistance to the National Foundation in its efforts to control the dread disease.

H. L. McMahan is the county chairman. Jett Riffe and Sam Lasley are the Texhoma, Texas Community campaign chairmen and Mrs. E. W. Carter will lead the drive in the Spurlock Community.

March of Dimes campaign Iron Lungs for donations were placed in business houses Wednesday afternoon. Envelopes for direct donations will be mailed out next week.

Plans are being made for a President's Ball to be held in Stratford either the latter part of January or the first of February.

The campaign period has been doubled this year because the National Foundation has been forced into debt four year in succession by surging polio incidence. The National drive started January 2 and will continue until the end of the month.

During the last four years, the National Foundation and its chapters have spent \$79,000,000 in March of Dimes funds for patient care charges alone, as compared with \$41,000,000 in the previous ten-year span.

This situation was brought about not only by rising costs but also because there were more cases during the last four years than in the entire previous decade.

Added to increased costs and increased incidence has been a third factor that has compounded the difficulties of the National Foundation. Polio doesn't just hit and run. The effects of any one year's epidemic are not soon forgotten by many of the stricken ones, nor by the National Foundation chapters which pay the bills.

In 1951, for example, the March of Dimes organization provided care for 45,000 men, women and children stricken in prior years — in addition to the four out of five of the new patients who needed and received help.

This black picture has meant that the National Foundation is annually faced with an average of 30,000 cases, in contrast to the ten to twelve thousand cases a year formerly considered "normal."

This is the reason why the 1952 March of Dimes period has had to be increased; it is also the reason why contributions will have to be increased this year, if polio is to be checked and eventually conquered.

Devotional Gems

(By N. D. Carter)
There are many people that

will shirk duty to God and their church because they are afraid that they will offend some one. They would rather offend the Lord who is their savior and

master than offend anyone in this world. Often they will repudiate their profession and even their faith in order to please man. How far would the Pauline epistles be kept in accord with the will of God had the apostle been a man-pleaser? There were many times that Paul suffered because he would compromise with no man. In Galatians 1:10, he said, "For do I now persuade men or God? or do I seek to please men? for if I yet pleased men, I should not be a servant of Christ." This is one thing that is certain and that is if Paul had been a man-pleaser, then he would not have gone through the persecution that he stood so often. In the first place, he sought to persuade men of God's truth and the way of salvation and to teach sound doctrine. Had he not tried to persuade them of right things and tried more to agree with them, then he would of a certainty have been a man-pleaser. Had he sought to please men, then he should not and would not have been a servant of Christ because there is no man that can serve two masters.

If you would rather please some preacher or even a neighbor than to stand for what God's word teaches, then you are a man pleaser, and should not be a servant of Christ and are not worthy of Him who died for you. We cannot please God and man any more than we can serve God and the world. Then we must make a choice, and that is to go all out for the Lord and truth or draw back and serve man and make ourselves reprobate concerning the faith.

SLEEPING COMFORT

... sleep under an electric blanket. Sleep soundly, sleep restfully, sleep safely — on the coldest night — under ONE electric blanket.

Ordinary blankets — piles of ordinary blankets — wear you out with their weight — make you feel like you hadn't slept at all. And then, if that pile of blankets slips off — and that often happens when blankets are piled on — Brrrrrrrr.

Don't be overcome with blanket weight, be overcome with blanket joy. Use electric blankets — single or double bed models — for your home. Automatically controlled, they keep you warm all night long — with a single setting — no matter how the room temperature or the outside temperature change. ONE blanket — of course, it's electric — will keep you warm on any winter night. See your appliance dealer now.

It's Wonderful the Way Chewing-Gum Laxative Acts Chiefly to REMOVE WASTE —NOT GOOD FOOD

Here's the secret millions of folks have discovered about FEEN-A-MINT, the modern chewing-gum laxative. Yes, here is why FEEN-A-MINT's action is so wonderfully different!

Doctors say that many other laxatives start their "flushing" action too soon... right in the stomach where food is being digested. Large doses of such laxatives upset digestion, flush away nourishing food you need for health and energy. You feel weak, worn out!

But gentle FEEN-A-MINT, taken as recommended, works chiefly in the lower bowel where it removes mostly waste, not good food! You avoid that typical weak, tired, run-down feeling. Use FEEN-A-MINT and feel your "peppy," energetic self—full of life! Get FEEN-A-MINT! No increase in price—still 25c, 50c or only 10c.

A 'Yes' to Christ
Lesson for January 13, 1952

JESUS knew some distinguished people. But his first and most intimate friends were not of that kind. Christianity started at the grassroots of humanity. It did not start in the top branches. It is a good thing, too.

It is quite true that Christianity has depths and heights to which most Christians do not attain. A St. Paul has not only mystic raptures but intellectual penetration which comparatively few Christians have shared or can share; he was a genius, and most of us are not geniuses.
But in Jesus' first group of companions there was no St. Paul. They were the plainest of plain people. The first of them were fishermen. They were not used to lectures; it is extremely doubtful whether any one of them would have understood the Epistle to the Ephesians if it had been read to them. But they understood Jesus... at least they understood what he said. He said, "Follow me," and they followed him. It was as simple as that.

Surrender
THAT is what Christianity is, at its heart: saying "Yes" to Jesus. When those fishermen said to him, "Yes" it meant three things, and those three are always involved whenever any one sincerely begins the Christian life. For this was only the beginning, of course. There was a long road ahead, much they would have to learn and do and suffer; but even the longest road has its beginning. And the Christian's road begins with this first "Yes."

First of all, it means surrender. They took him for their leader, they absorbed his teaching, they obeyed his orders. There is a Christian hymn, "My Jesus, as Thou wilt"; one hears it most often at funerals, but it is not intended as a funeral hymn. It could well be the hymn sung when young people are confirmed or join the church; it could well be the every-morning song of every real Christian.

What do I want most? is not a Christian question. Rather it should be, What does Christ want most?

Separation
AGAIN, those fishermen's "Yes" meant separation. They left their nets, their old occupation. We must not read too much into this, as if in order to be a Christian one must leave his wage-earning business, whatever it is. On the contrary, the best place to be a Christian may be right where we are. However, no matter what we may do for a living, it is still true that saying "Yes" to Jesus means saying "No" and "Good-bye" to many other things. It means separation from all that is out of tune with him; separation from selfishness, from sin, from trash and "riffles. It means separation from habits that enslave us, from "recreations" that do not re-create but tear down, from places and opportunities of temptation, from hatred and prejudice and pride.

If a man really means "Yes" to Jesus, he cannot mean "Yes" to what is opposite to Jesus. The Christian life is a separated life. It is not that he is separated from people. Isn't it likely that the fishermen who followed Christ had a far wider circle of friends as they went with him than they had ever had before? But they were being shaken loose from what had before seemed to them most important,—yes, even from themselves.

Service
BUT that is the negative side of it. The Christian life is not only "from" but it is "for." That is, just as these first fishermen followed Jesus in order to become fishers of men, so the Christian's yes-saying always means enlistment for service.

A Christian's sincerity cannot be measured in what he says, nor even in what he does not do; it is to be measured in what he does.

It is a serious and solemn question: Suppose this is your last day in life, and all the accounts are in. Looking back on what you have done, and what you have done, has your life actually helped what Jesus Christ is undertaking in this world, or have you hindered him?
The Christian life is a surrendered, a separated life, but also a life of service. "Yes" can be said with the lips alone—that was Judas; a "Yes" to Christ can truly be said only with life itself.

DENTISTRY BY TELEVISION

(“Dentists Watch Techniques by Television”—headline.)
Patient (timidly).—If you don't mind, doc, I'll cancel this appointment and come back next Tuesday.
Dentist.—Very well, but I was all set to put you on television.
Patient (fairly leaping into the chair).—Television! Why didn't you say so? Let's go!

Master of Ceremonies.—And now, folks, a real treat. I give you that talented, charming, capable and most promising dental patient to come along in years, Prentice Doakes... And that famous, competent, unique and delightful new star of the dentistry profession, Dr. Howie Hertz.
(There is loud applause.)
Patient.—Thank you... thank you very much... It's a real pleasure to be here... What am I saying!

Doctor.—Sit back. This isn't going to hurt you.
Patient.—Not unless we are on the same hour with Cantor or Hope.

Doctor.—Open wider. I must do a little drilling.
Patient.—That isn't a drill you are trying to get into my mouth... It's a seltzer bottle.

Doctor.—My mistake. Those seltzer bottles creep into almost every video program.
Patient.—We can get laughs without 'em here.

Doctor.—Are you sure?
Patient.—Certainly. I can put on a red wig and you can operate in your underwear.

Doctor.—Do you wish more than one tooth taken care of?
Patient.—That depends on how long the program is. If it's a full hour go as far as you like. This could get us both as good a rating as Tallulah Bankhead.

Doctor.—Bankhead doesn't treat teeth. She knocks 'em out... Lie back further.
Patient.—If I lie back further I won't screen well.

Doctor.—Unless you lie back I can't get at this rear molar.
Patient.—Treat a front tooth, I want the talent scouts to get a good view of me.

Doctor.—Did you come here for dentistry or merely in the hope Godfrey might be watching this program?
Patient.—If I lie back further I won't screen well.

Master of Ceremonies.—Ladies and gentlemen, let me at this time call attention to the grip employed by Dr. Hertz... not too heavy and, on the other hand, not too loose. Note the skill with which he takes the drill and applies it to the patient.

Patient.—What's the dentist got to be nervous about? If you wish to note genuine courage keep your eye on me. Ouch!
Doctor.—Did I hit a nerve?
Patient.—The way it hurt, I think you hit my coaxial cable.

Doctor.—Maybe we need music on this program. I'll have the nurse bring in her ukulele and play something. Have you any favorite?
Patient.—Play anything except "I'll See You Again Some Day."

Doctor (suddenly waving into the camera).—Hello, mom! Hello pop! Patient (doing likewise).—Hi there, kiddies! This is Uncle Toothache.

Doctor.—Somehow I feel this act is not telecasting well.
Patient.—We need a cup-custard and false-nose interlude right away. And we've got to get a strong finish.

Doctor.—I have it. You hum a tune while I'm drilling. The first person identifying it gets \$18,500 and all the teeth extractions the whole family needs for the next five years.

Video Fan (phoning in).—I recognize it. The tune is Wagner's O Du mein holder Abendstern from Tannhauser.
Patient.—No, but with the dentist's fist in my mouth that's the way it probably sounds!

The Democrats and Republicans both have had \$100-a-plate dinners. This shows both parties want to show that they are having as much trouble eating these days as anybody else.

Adrian W. De Wind is associate counsel to the Senate sub-committee probing the latest Washington scandal. We hear that a fellow ousted as a result of the exposures is working on a book to be called "Gone with De Wind."

We have spent days studying pictures of the sculptures awarded top prizes in the recent Metropolitan Museum of Art's prize contest and are still groggy. First prize, \$3,500, went to a study called "Two Men" and to us it looked like something done by Junior to represent a composite study of Jimmy Durante, "One Eye" Connelly and Harry the Horse. Second prize of \$2,500, was "Animal Form," out of which we could only make a peccary trying to palm itself off as a Hubbard squash.

Smart Menu Plans Call for Tempting, Attractive Salads

MANY HOMEMAKERS find that their families like certain main dishes served time after time, as long as they're not repeated too frequently to become tiresome. How can she add interest and variety to meals, in that case?
Variety in the salad department adds zest to any menu and is much appreciated by the family. Most salads can be made so very easily, either quickly or ahead of time, that they need add little work to the preparation of a meal.

If you want your salads to have as fresh and appetizing appearance as possible, arrange them in the last few minutes before serving. Everything, however, can be made ready before then, like the greens, chilling plates, fruit or vegetables.
Basic salad ingredients can be treated with new color and flavor combinations to keep them varied and attractive. Make them the lighter part of a heavy winter meal that keeps the folks from saying, "Are we having the same old things tonight?"

Cottage cheese is a favorite but it need never grow tiresome when treated with grated orange rind, maraschino cherries and canned cling peaches:
Cheerio Cottage Cheese Salad
(Serves 4)

- 1 pint cottage cheese
- 2 teaspoons grated orange rind
- 2 tablespoons chopped maraschino cherries

Lettuce
8 canned cling peaches
Maraschino cherries
Mint springs, if desired

Blend cottage cheese, orange rind and chopped cherries; form into rough ring on each of 4 lettuce-garnished salad plates. Arrange 2 drained peach halves in each crotch of lettuce ring. Garnish with cherries and mint.

Molded Raisin Salad
(Serves 6)

- 1/2 cup seedless raisins
- 1/2 cup cider vinegar
- 1/2 cup granulated sugar
- 1 teaspoon salt
- 4 teaspoons plain gelatin
- 2 tablespoons cold water
- 2 eggs
- 1 tablespoon prepared horseradish
- 2 teaspoons mild prepared mustard
- 1 teaspoon onion salt
- 1 tablespoon lemon juice
- 2 cups coarsely shredded raw carrot
- 1/2 cup finely cut sweet pickle
- 1 cup mayonnaise

Salad greens
Cover raisins with boiling water and let stand 5 minutes; drain thoroughly. Combine vinegar, sugar and salt, and bring to boil. Remove from heat. Soften gelatin in cold water and dissolve in hot mixture. Pour hot mixture over beaten eggs, stirring briskly. Add horseradish, mustard, onion salt, lemon juice, carrot, pickle and raisins. Blend well. Cool until thick but not firm. Blend in mayonnaise. Pour into 6 individual molds and chill until firm. Unmold on salad greens.

Colorful canned fruits either by themselves or molded in gelatin make picture-pretty salads that

An unusual molded salad uses raisins, carrots, mayonnaise and gelatin as its base. It's good for a luncheon when you entertain or it can enhance the family dinner to a great extent. Here it's served with sandwiches, potato chips, ripe olives, pickles and a glass of milk.

can serve as a dessert course, as well as the salad. Plan to use them for parties and special occasions, too.

***Fruit Ring Salad**
(Serves 6-8)

- 2 packages lemon-flavored gelatin
- 1 1/2 cups hot water
- 2 cups fruit syrup (drained from peaches and pineapple)
- Canned peach halves, drained
- Canned pineapple slices, drained
- Canned dark sweet cherries, drained
- Salad greens

Dissolve gelatin in hot water. Add fruit syrup and chill mixture until slightly thickened. Pour 1/2 cup gelatin into the bottom of an 8-inch ring mold (1 1/2 quarts) and chill until almost firm. Set pineapple slices in gelatin with a dark sweet cherry in the center and pour in gelatin just to cover. Stand 1 hour. Stand 2 peach halves upright against sides of mold and place cherries above pineapple slices. Pour in gelatin to cover peaches about one-half and chill until firm. Add remaining gelatin and chill thoroughly. Unmold and garnish with salad greens. Serve with a whipped cream dressing.

Buffet Fruit Platter
(Serves 6)

- Canned peach halves, drained
- Canned fruit cocktail, drained
- Canned pineapple slices, drained
- Cottage cheese
- Bananas
- Salad greens

Place peach halves, cut side up, on salad greens in the center of a large plate. Fill with fruit cocktail. Spread pineapple slices with cottage cheese and top with another pineapple slice, sandwich style. Fill centers with cottage cheese. Cut bananas in half and slice from tip in, spreading apart to make a fan. Dip in pineapple syrup. Arrange pineapple sandwiches and banana fans around peaches. Garnish with salad greens. Serve with desired dressing.

Frozen Fruit Salad
(Serves 8)

- 1 No. 2 1/2 sized can fruit cocktail
- 1 teaspoon unflavored gelatin
- 2 tablespoons lemon juice
- 1 3-ounce package cream cheese
- 1/2 cup mayonnaise
- Dash salt
- 3/4 cup whipping cream, chilled
- 1/2 cup sugar
- 1/2 cup chopped nuts

Drain fruit cocktail. Soften gelatin in lemon juice, then dissolve over hot water. Blend cream cheese with mayonnaise and salt. Stir in gelatin. Whip cream until stiff, adding sugar gradually during last stages of beating. Fold in cheese mixture, nuts, and fruit cocktail. Pour into refrigerator tray that has been lined with waxed paper. Freeze until firm with refrigerator set at coldest setting (approximately 4 hours). Turn out on platter, remove paper, cut into thick slices. Garnish with watercress. Note: Let the salad stand at room temperature for a few minutes just before serving. The flavor and texture are ever so much better.

To arrange fruits in a gelatin mold in a definite pattern, use a thin layer of slightly thickened gelatin. Chill this with the fruits until firm and then add the next layer in the same way.

Large gelatin molds should be prepared the day before they are served so they will have a chance to become thoroughly firm and molded, before serving time.

For easy unmolding, have large molds as full as possible. Then you can slip a spatula easily around the edges for loosening the mold.
