Public School Week Program Tuesday

in observance of public school week during March 2 to 6, will be held at the school house in Stratford Tuesday night.

A smorgasboard dinner, sponsored by the Band Boosters Club, will be served in the school cafeteria from 5:00 to 7:00 p. . m. Class rooms will hold visitation hours from 6:00 to 7:30 p. m. and from 8:45 to 9:30 p. m. A musical program will be

presented in the school auditorium beginning at 7:30 p. m.

The First Grade Rhythm Band and the Second Grade Chorus will each present two numbers under the direction of Mrs. Lorraine Mehner.

Joe Mack Hill will present the Stratford school bands in their performances. The Eighth Grade Band, composed of 7th and 8th grade students, will play four numbers. The High School Band will play eight

The public is invited to attend and enjoy the entertainment. No charge will be made for the musical program.

April 15 Is Car Inspection Deadline

An Injustice To Grain Sorghum **Producers**

(By Walter Rogers) The farmers were, undoubt-

edly, dismayed last week when Secretary Benson announced support prices for the 1959 grain sorghums crop at \$1.52 cwt. He had previously announced a support price for corn at the price of \$1.12 per bushel. I heartily disapprove of the action of the Secretary in these two matters. I feel that he has indulged in favoritism to the corn producers and has subjected the grain sorghum producers to rank discrimination. The support price for corn was fixed in the law to be 90 percent of the preceding 3-year average price of corn received by farmers. Although it is openly admitted that grain sorghum has at least 95 percent of the feed value of corn, the Secretary did not want the law to specify that grain sorghum supports should be 95 percent of the price support of corn. It was argued that the Secretary would be fair and reasonable in fixing the price supports on grain sorghum on a basis in relation to the feed value of the two grains. Under the circumstances, the law contained the provision that the price supports on feed grains, including grain sorghums, would be fair and reasonable in relation to the support for corn, and listed as one of the major factors for consideration the feed value of grain organization for girls at West returned home Wednesday. Jim sorghum in relation to corn. It was felt by the Congress that the Secretary would carry out his obligation to keep these two grains in relative relationship based upon feed value. However, the Secretary did not do this. He has indulged in favoritism to the Midwest corn farmers and, I repeat, in rank discrimination against the grain sorghum producers of this country. Had he followed the in- graduate of Stratford High tent of Congress and a fair and honest approach to the problem, the price support on grain

This practice concerning agriculture in this country is going to cause future trouble. I have said it many times, and I paganda and government practinued. City Stop Signs **May Prevent** Accidents

A warning is being issued this week to the citizens of Stratford who may become involved in traffic accidents because of their failure to observe city stop signs. Too many are driving through them officers observe.

According to the voice of the City Council, stop signs have been erected only where it is necessary, to prevent hazards to safe driving. Yield the right of way signs have been used as a precautionary measure in all locations where an absolute stop can be avoided.

Unless stop signs are observed, there is little hope of preventing a serious accident on the streets of Stratford before the close of the year.

In 1957, makers of automotive parts and accessories increased their advertising in newspapers by 141 per cent over the pre-

JUST EXACTLY

What Is A Bank?

A Bank is technically a repository for money. It is a chartered and incorporated institution established to receive and safeguard money — to invest that money — and to act as an agent in the transfer of funds from one source to another.

It is, in a sense, not unlike a department store. But instead of dealing in commodities, a bank deals in money.

To facilitate its money transactions, your bank divides its services into departments - with each department responsible for a specific kind of financial transac-

Your bank has many such departments, falling into general categories of checking accounts, loans, and specialized departments which offer such services as money orders, travelers checks, drafts and safe deposit boxes.

WHAT IS A BANK?

To a community, it's a partner in progress and stability; to business it's a partner in growth and expansion; and to a housewife, it's a partner in convenience and money management.

Your own definition of a bank depends, we suggest, upon how you use your bank. But whatever your definition — you can look upon your bank primarily as a good friend.

Morning-Chevy panel hustles over causeway to St. Petersburg.

Chevy panel steps lively in Florida...runs day and night, delivers 19.3 miles per gallon!

This '59 Chevy panel is on the go, morning, noon and night; it covers as much as 587 miles a day . . . runs so constantly that its engine never cools off completely. Yet Mr. Clark Farber, the Tampa Tribune's circulation manager, reports that the truck is delivering 19.3 miles per gallon!

This year, the light-, medium- and heavy-duty trucks of the 1959 Chevrolet Task-Force fleet are out to whip anything that comes their way-and they've got what it takes to do it!

NORTH SECOND AND MAIN

Take the panel pictured above, for example. Powered by the '59 Thriftmaster 6 with new economycontoured camshaft, it's building a sensational economy record, despite the sizzling pace of its work. That's typical of the way Chevies of all sizes are turning-to on the most challenging jobs in America. The way they're made, with tough-built truck components, they make the hardest hauls look easy!

If you have a job that puts a truck on its mettle,

No job's too tough for a Chevrolet truck! CHEVROLET

electric clothes dryings a breeze!

* We'll all agree, to dry clothes you need a breeze - and breezes come in two styles. There's the outdoor breeze that tears clothes, covers them with dust particles, and chills you to the bone. Then there's the indoor breeze which is gentle as a lamb on the clothes and on you. An electric clothes dryer is the way to get that soft and fluffy breeze, and it's the way to have the sweetest, whitest wash in town. Make clothes drying a breeze - electrically.

Breeze down to see your Reddy Kilowatt Electric Appliance Dealer and see the appliance most wanted by most women It's the electric clothes dryer.

Tabulate 12 **Rural Accidents** During 1958

The Highway Patrol investigated 12 rural traffic accidents that occurred in Sherman County during 1958, Sergeant D. W Duggan, Patrol Supervisor of this area, announces. Property damage accidents account for six of the total, personal injury for 4 and 2 were fatal accidents. These accidents caused a total property damage of \$16,907.00 with 17 persons injured and 4 lives lost.

"In 1958 Texas recorded 1,869 traffic deaths.'
