

Four Firms Robbed

Robberies of four business firms have been reported this week. Stratford Butane Co. and Golden Spread Implement Co. business houses were entered Friday night. City Drug and Yates Drug were robbed Monday night.

Friday night an estimated \$35.00 to \$40.00 in cash was taken from the Stratford Butane Co. Entrance to the building was gained by prying open a back door.

Papers in the office of the Golden Spread Implement Co. were scattered as the intruder searched for money. Between \$1.00 and \$1.25 in pennies were taken from the cash register. Entrance to the building was gained by breaking in through a rear window of the building.

City Drug lost an estimated \$600.00 in cash, checks, damage and merchandise Monday night when thieves enter the building by cutting a hole in the roof. Mrs. L. E. Bonar, who was in charge of the pharmacy, thought at first that no narcotics were taken. When M. S. Horton arrived, he checked a report against his stock of morphine and found that 76 quarter grain morphine tablets had been taken. Checks and records were left scattered over the floor of the rear of the building and some had been left on the roof of the building where many were left. A cash drawer containing silver was also left on the roof. Little if any of its contents were taken.

An undetermined amount of merchandise, some silver in the change drawer and the receipts of Robbie's Gift Shoppe were taken from the Yates Drug safe. The safe, maintained for a protection of records from fire and could have been easily opened, was damaged. The knob of the safe was knocked off, and the safe opened the hard way. A 24-inch screw driver, possibly used to pry off ceiling boards, was also used to pry the lock from the rear door of the drug store, and left laying on the floor. When the intruder dropped through the ceiling he knocked off part of the merchandise from a display counter. Part of the merchandise was tossed back on the showcase in a hap-hazard manner. F. L. Yates said he was almost certain that a new razor and some cigarettes had been taken, but his collection of old silver dollars were left untouched. The thief boldly left the Yates Drug building, walking out under a flood light left burning above the door.

Officers from nearby towns aided local law enforcement officers in a search for fingerprints. Good records of the men's footprints were secured from the roof of The First State Bank building. Two men had walked back and forth across the freshly tarred roof, leaving well implanted foot prints. One wore boots and the other wore ripple sole shoes.

Officers believe that at least two men and possibly a third were involved in the two robberies Monday night.

C. B. Dodson In Amarillo Hospital

C. B. (Red) Dodson was taken to an Amarillo specialist Monday and is in Room 750 at North-west Texas Hospital.

Over two weeks ago, Mr. Dodson was stricken with a heart attack at his home and was taken to Coon Memorial Hospital where he was a patient until going to Amarillo.

According to friends, his heart condition is aggravated by asthma.

Cub Scouts participating in the activities will have the only opportunity in their life time to earn a 50th anniversary patch to wear on his sleeve. Cub Scouts will pay 25¢ for the patches.

Parents of the 30 cub scouts expected to take part in the golden jubilee cub scout 50th anniversary party, are invited to be guests of the boys. Cubmaster C. C. Plunk will be assisted by Assistant Cubmaster Owen Hudson in making arrangements for the entertainment for the evening.

Polio Cases Declining In Texas

At the end of June — July 2, there were only 19 cases of paralytic polio in Texas compared to 92 cases during the same period last year, State Health Department figures show.

Only two cases were registered in the week ending July 2. The five year median for the corresponding week has been 19 cases of paralytic polio.

Nonparalytic polio also shows a significant drop with a total of 14 cases compared to 39 cases last year at this time. Despite the encouraging figures, polio continues to strike hard and too often, most often at children below four years of age.

The series of three Salk anti-polio shots has proven overwhelmingly successful. Parents are urged to have their children of preschool age polio

Jack Smith On Duty With Pacific Fleet

PEARL HARBOR — Jack P. Smith, fire control technician first class, USN, son of Earl Smith and husband of the former Miss Betty J. Sims of Stratford, departed Pearl Harbor June 26 aboard the snorkel submarine USS Segundo for a six-month tour of duty with the U. S. Pacific Fleet in the Western Pacific.

The Segundo is named after a rare fish of the Cavalla family.

Accidents to farm residents claim more than 11,300 victims and injure about 950,000 persons annually, according to the National Safety Council.

Set \$1.78 '61 Wheat Price

J. R. Leal Enlists In Air Force

Joe Ray Leal, 18 year old son of Mr. and Mrs. Steve Leal, has enlisted in the U. S. Air Force and has been stationed at Lackland Air Force Base in San Antonio. Leal was a junior in Stratford High School. He entered training in the Air Force Monday.

The U. S. Department of Agriculture, in line with currently controlling legislation, announces an "advance" minimum national average support price of \$1.78 per bushel for 1961-crop wheat, if wheat marketing quotas are approved by producers in the July 21 referendum.

The advance support price reflects 75 per cent of the estimated parity price for wheat as of the beginning of the 1961-62 marketing year July 1, 1961. This percent-of-parity level of support is indicated on the basis of estimated wheat supplies available for the marketing year.

Unless growers disapprove quotas, the law provides for a variable support (between 75 and 90 per cent of parity) based on the relationship between the estimated supply of wheat available for the marketing year and a determined normal supply for the year. The "forward pricing" provisions authorize setting a minimum wheat support price in advance of planting time, using the latest information and statistics available.

The estimated total supply of wheat for the 1961-62 marketing year which begins on July 1, 1961, is 196.1 per cent of the normal supply. With quotas in effect, this calls for a minimum 75 per cent level of support under the law's supply formula.

If marketing quotas are approved by producers, the national average support price in the commercial area will not be less than the \$1.78 per bushel announced July 5. This minimum average support will not be reduced but may be increased if the combination of the wheat parity price as of July 1, 1961, and wheat supply relationships of that date indicate a higher price.

Producers in 39 commercial States who stay within their acreage allotments will be eligible for price support. In the 11 noncommercial States, county support rates, as provided by law when allotments are in effect in the commercial States, will be 75 per cent of what they would be if the commercial counties were in the commercial area.

If marketing quotas are disapproved in the July referendum, the support level in the commercial wheat-producing States under legislation provisions will be 50 per cent of parity, or a national average of about \$1.18 per bushel on the basis of the estimated parity price for July 1, 1961. Compliance with acreage allotments would continue to be a condition of eligibility for the lower support price. Under these circumstances, noncommercial support rates would be at 75 per cent of this lower figure.

Wheat Supply Situation
In determining the advance minimum support level for 1961 crop wheat on the basis of supply relationships, the normal supply of wheat for the 1961-62 marketing year was estimated to be 1,349,000,000 bushels and the total supply 2,645,000,000 bushels. The total supply is 196.1 per cent of the normal supply and a percentage above 130 per cent calls for support at a 75-per cent of parity level.

Sorority Dance Saturday Night

The Nu Beta chapter of Beta Sigma Phi will sponsor a summer dance Saturday night in the American Legion Hall at 9:00 o'clock. Music will be furnished by Bob G. Smith's orchestra. The hall will be decorated in a Hawaiian theme. Tickets are \$3.00 per couple.

22 Boy Scouts Will Attend Summer Camp At Camp Kiowa

Twenty-two Boy Scouts will leave Sunday to attend summer camp at Camp Kiowa near Canadian.

Scouts planning to attend include: Scott Whorton, E. H. Baker, Larry Bates, Danny Brannan, Steve Dettle, Lynn Gaylord, Billy Green, Jimmy Gupton, Lanny Harris, Walter Lasley, Orland Lasley, Don Parvin, Lynn Reynolds, Teddy Reynolds, Buddy Riggs, Ted Martin, Jack Standefer, Lynn Stephenson, Allan Wells, Wesley Willey, and Donny Woolsey. Scoutmaster Jim Close will accompany the boys. Sixty boys will be at the camp, one-third of them from Stratford. Joe Willey, Emory Roper and R. W. Standefer Jr. plan to be at the camp part of the time to assist Jim Close in supervising the activities.

The camp opens Sunday and will continue through Saturday.

The boy scouts will meet at the City Hall at 1:00 p. m. and the school bus taking them to camp will leave for Camp Kiowa at 1:30 p. m.

Training at Camp Kiowa consists of swimming, life saving, rowing and canoeing. Boys may earn four merit badges by attending the camp.

Liano Estacado and Adobe Walls Councils will provide adequate leadership for the boys attending the camp.

Bill Pendleton Sustains Eye Injury

W. L. (Bill) Pendleton sustained a painful injury to one eye while playing badminton Friday evening with his three sons, Bobby, Tommy and Lee. One of the birds struck Pendleton in the eye, resulting in internal bleeding.

He was hospitalized in St. Anthony Hospital in Amarillo under the care of a specialist.

Age group having the greatest number of fatalities from accidents on farmland and around farm buildings is 5-14 years.

Curbing Farm Accident Problem Is Goal Of 'Farm Safety Week'

Farm accidents claim about 3,500 lives each year, more than any other industry. Some 11,000 farm residents die each year in all types of accidents, and another million suffer accidental injuries.

To direct attention to this appalling problem, President Eisenhower has designated the week of July 24-30 as "National Farm Safety Week." In Texas, Governor Daniel has proclaimed the period "Farm Safety Week in Texas." The Texas Farm and Ranch Safety Council, together with the Texas Safety Association, Texas Agricultural Extension Service and the Texas Farm Bureau, is pushing a farm safety education program during the week.

Theme of the observance is "Enjoy Farm — Practice Safety." Objective of the educational effort is to curb the soaring farm accident problem which hits one farm family in four each year.

Texas is among the top ten states in the nation in accident rates associated with drownings, firearms, burns and electricity. The major cause of accidents across the nation is machinery,

which accounts for about 35 per cent of all accidents, followed by drownings, firearms, falls, blows, animals, burns, electricity and lightning.

In his proclamation designating National Farm Safety Week, the President noted that accidents "substantially reduce the productive capacity of our farming industry." Governor Daniel's proclamation urged farm families to "increase their vigilance against needless accidents." The Governor said the nation's economy is dependent upon the continued well-being and progress of its agricultural population, and accidents from farm work cause needless suffering, distress and loss of life each year among rural families.

The rate of accidental deaths from work and recreational activities on farms is increasing slightly each year. The death rates associated with machinery, drownings, firearms and electrical current are increasing, while those associated with animals, falls, lightning and burns are showing some decrease.

To The People Of The 18th District

(By Walter Rogers)
Paying The Price
The national figures for the 1960 census will tell a story that most of us have known for some time. In what may well be the greatest and most significant American migration in recent history, millions of people are

PRODDING THE PACHYDERM

forsaking the farm and crossroads to stream toward the great urban centers of our nation. And at least by the time children of these restless, mobile Americans reach high school, a map of the United States will be covered with huge welt-like markings to denote the most complex and awesome cities the world has ever known. Many of these city dwellers will work and play in "towns" which range across hundreds of miles without interruption.

The trend has been obvious in many ways. The most casual glance at wedding announcements in Panhandle newspapers will reveal that many young couples choose to abandon their home towns in favor of larger cities. An hour in the bus and railroad stations of a large metropolis will uncover a portion of the millions who set out for the big city each year with their high hopes, and often their ev-

ery possession, carried with them. Just a short ride along the outskirts of even a moderately large community will uncover row upon row of mass produced, FHA financed homes, the hallmark of sprawling suburbia.

These are the hard facts of an important feature in American life since World War II. In some ways, the massive "urge to move" is perhaps inspiring insofar as it demonstrates that we have not lost the pioneering spirit which made America great. Our people still have the courage to venture into new environments and test new ways. Many of them, I am sure, are hopeful of benefiting their countrymen as well as themselves. We are not, as our enemies would have us believe, such an entirely contented and declining nation at all.

Nevertheless, the discomfort-

So many, many homemakers depend on Reddy Kilowatt to lighten their chores with the four basic appliances; range, freezer, clothes dryer and dishwasher. The Walkers are another 4-appliance family who especially make good use of the space saving electric

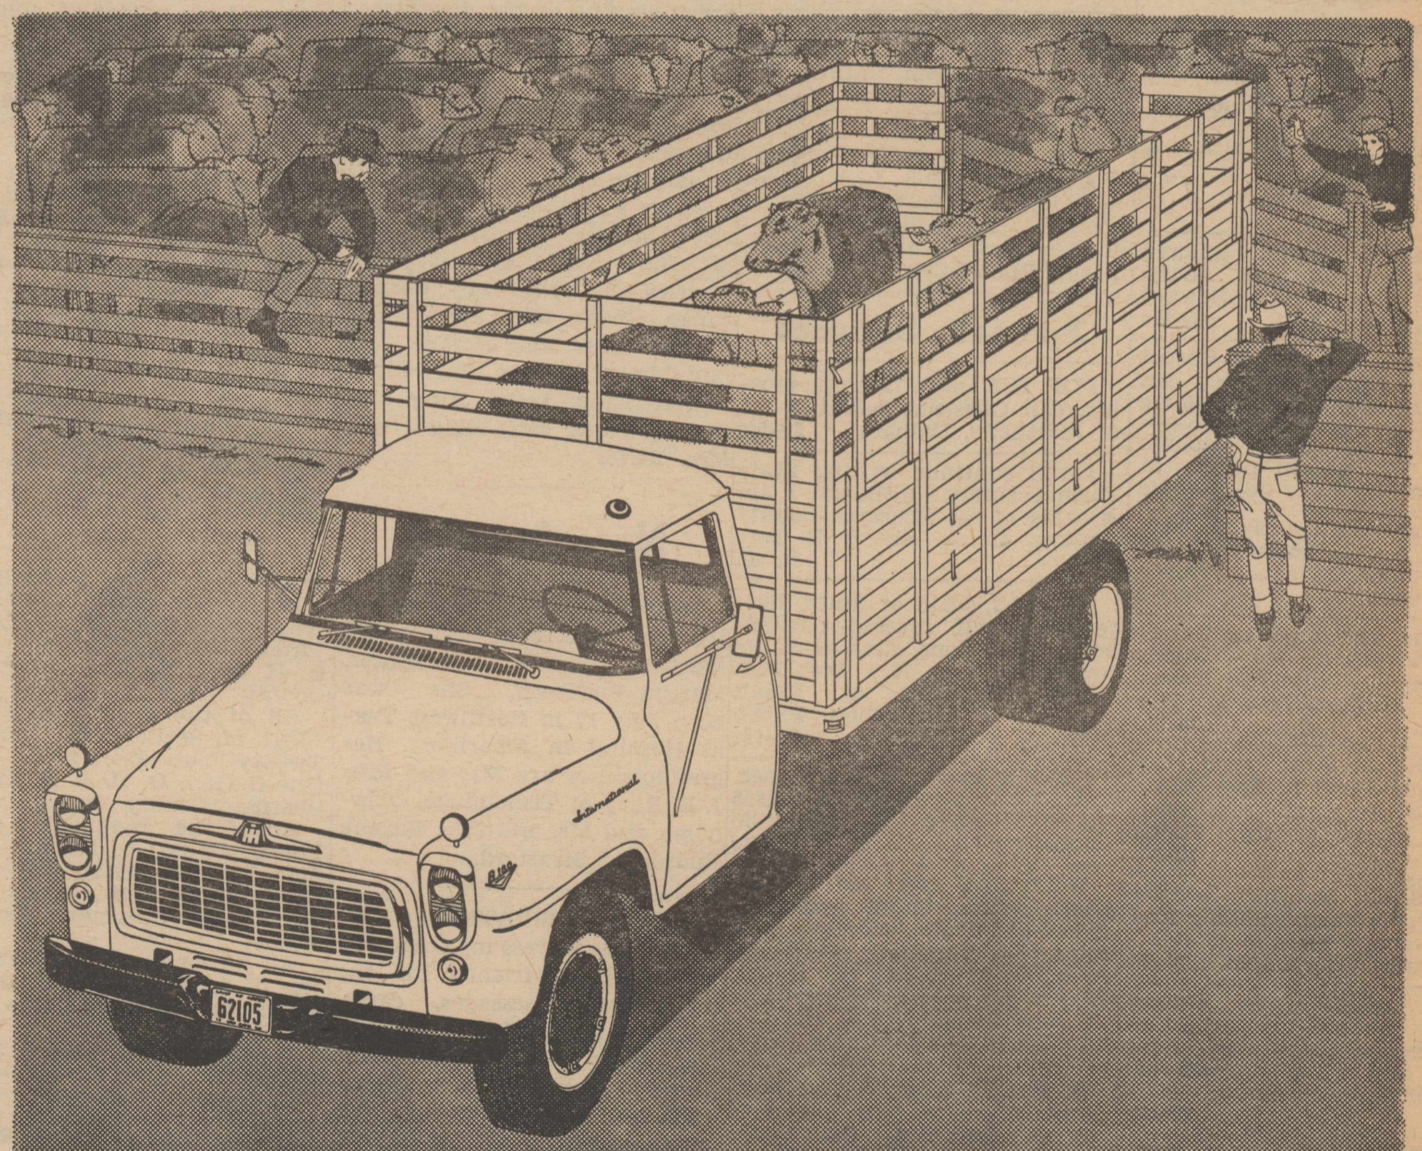

clothes dryer. Here's what they say, "Our electric clothes dryer helps make it possible for us to have our own park and playground in the back yard. We have no clothes lines to take up valuable space — and whoever heard of a clothes line in the middle of a park?"

WATCH AND WIN!

WATCH AND WIN at your Reddy Kilowatt dealer. It's fun, it's easy! Just ask for a demonstration on one or all of the four featured electric appliances — range, clothes dryer, dishwasher or food freezer. Then register for each demonstration you receive. census, a Legislature Redistricting Board shall take over.

This insures, as it did in 1951, that the Legislature will redistrict — somehow, some way.

Battle will be between big city delegations who will demand more representation in line with their swelling populations and rural members who will try to hold on to as much as they can.

In their election campaigns, many representatives promised their constituents they'd be in there pitching for the home area. Members from growth areas said they'd go after extra representatives, state senators and congressmen.

A rural legislator told his people, "At least twelve rural districts will disappear in the next redistricting. I certainly do not want this district included in that twelve."

Incumbents cited their experience as an asset. Personal feeling often enters into redistricting, and lawmakers are notably reluctant to "squeeze out" a popular and respected senior colleague by erasing his district.

Home Insurance Cut

Beginning August 1, premium rates on certain types of homeowner's insurance policies will be cut 10 per cent.

State Insurance Board announced the new lower rates would apply to the "homeowners package" policies which account for about 80 per cent of the home coverage sold in Texas.

Reductions were made possible because insurance com-

panies have had a relatively low loss ratio on the package policies, first introduced about three years ago.

(By Vern Sanford)

Although budget balancing is the most discussed of the problems facing the next Legislature, many lawmakers expect redistricting wrangles may raise more blood pressures.

Legislature is required by the Constitution to redefine legislative districts after each federal census. It used to put off this troublesome task, but a 1948 law provides that if it fails to act in the first session after a

Not a single cracked egg since Chevy took over the route

That '60 Fleetside pickup you see takes whatever kind of road comes along, and makes about 250 stops a day delivering eggs house to house for Mr. Harry Hansen of Missoula, Montana. "With my previous truck," Mr. Hansen writes, "I always had some cracked eggs. Cargo damage always cut into my profits. But the new Chevy eliminated that problem completely. I haven't had one cracked egg with my new truck and I've had up to a ton of eggs in it without any difficulty. . . . I didn't know a truck could ride so nice."

Chevy rides nice, all right: takes good care of fragile cargoes. But that's not even the half of it. Torsion-spring suspension also means longer life for the truck, extra thousands of working miles, because the sheet metal and body components take less of a beating. You can run off-road or over back trails at faster safe speeds, too; get in more trips a day, make more money. Those facts are as true of the big Chevrolet heavyweights as they are of the pickups. Any model you name. Get one on your job and you've got the world's most efficient, most economical way to haul any load over any road. Your dealer will be happy to prove that statement any day you say.

◀ "I'm getting close to 20 miles to the gallon," Mr. Hansen states, "and that's on stop-and-go delivery."

of credit insurance rates. The Board says that even now rates seem high, with losses running 27 per cent of the premiums paid in. If losses run less than 50 per cent of the premiums, rates are considered too high.

Speaker's Battle Boils

Candidates for Speaker of the House continue their month-long battle of "claimsmanship." Rep. Wade Spillman added five to his list of House members pledged to support him and said this gave him a "rather conclusive" lead. Rep. James Turman of Gober claims a definite majority of 79.

Votes of 76 of the 150 House members are needed to elect. Spillman also has invited the House General Investigating Committee to look into charges that members were being subjected to improper pressure on how to vote.

Prison Needs Cited

Texas Board of Corrections also wants more money — a \$2,654,846 increase over their present allocation for the next two years.

"If the amount is granted, Texas prisoners will cost the state \$1.89 per day per man," said State Prison Director O. B. Ellis. "This is just a little more than half the national average."

Ellis and Corrections Board members regard prison needs as critical. Board Chairman H. H. Coffield of Rockdale reported that "the prison population trends indicate it will keep on multiplying."

DINOSAURS ONCE ROAMED TEXAS

Prehistoric dinosaurs once roamed Texas. Just 20 miles west of Cleburne at the town of Glen Rose, you can find fossilized dinosaur tracks along the beautiful Paluxy River. They have a fine specimen on exhibit downtown too.

Glen Rose is a vacation health spot, famous for its mineral water.

To The People

(Continued from Page 4)

able feeling remains that much of this surging movement toward our urban complexes is inspired by rather grandiose propaganda. To say that our smaller communities offer no opportunities is, in most cases, sheer fiction. To complain that the more rural areas of our country are "dull" displays an unpleasant modern neurosis, an unhealthy grasping for "something to do" and a strange inability to find it. And to paint universally rosy pictures of life in the metropolis is particularly deceptive, for the individual tragedies that can sometimes occur are as old as O. Henry's writings.

Old men whittling in front of the country store are as much a part of America as the high pressure brokers on Wall Street. We should be as proud of the kindly old general practitioner as we are of the most eminent heart specialist. And the man who rides a tall, bumpy tractor has fully as much stake in the American experiment as does the man who rides from directors meeting to directors meeting in a low, smooth limousine. We have, I think, committed

a fundamental error in emphasizing a certain brand of success all out of proportion to its true worth. We have too often dwelt upon the slick, the super-sophisticated, the "gee-whiz" type of endeavor. We have sometimes been willing to exchange quick, easy fame and success for slow, difficult, but profound satisfaction. This attitude has not been without effect.

We are now beginning to pay the price, and the amazing rush of so many of our people to urban areas is perhaps not the only toll. The source of many of our worries, such as conformity or trend toward bureaucracy, can also be traced to a shift in values. We would do well to
