

Three Stratford Girls In Queen's Title Contest

Sandy Diehl

Donna Boner

Yvonne Gamble

Three Stratford girls, Yvonne Gamble, Donna Boner and Sandy Diehl will compete for the Beauty Queen title of the seventh annual Inter-State Fair to be held in Dalhart September 29 and 30. The winner of this contest will receive a beautiful Queen's Crown and \$50.00 in cash.

Mrs. Fred McDaniel of Kerrick is a director of the Inter State Fair and is director-sponsor of the arts and crafts division of the fair. Charles Durr of Kerrick is also a director and is in charge of the livestock division.

Uncle Of Local Men Is Missing

M/Sgt. Earl H. Drerup, an uncle of John R. and Phillip (Buddy) Miller, has been reported as missing in the crash of a World Airways passenger plane which slammed into the dense jungle of Mount Barrigada, Guam, early Monday Morning. The crash claimed a total of 77 lives.

Drerup is one of six listed as missing.

The master sergeant was stationed at Chaiyi Air Base, Formosa, and was enroute home when the crash occurred.

Sgt. Drerup was an instructor in hydraulics with the Chaiyi Air Base Assistance Team, Military Advisory Assistance Group. He was sent to Formosa to assist the Chinese in hydraulic maintenance.

Drerup, 41, had served about 15 years with the Air Force. After serving in the last war, Drerup went into the Air Force Reserves and farmed near Littlefield. He went into active duty after a time. The sergeant had just completed six months on Formosa and was returning home. His wife and three children are in Arizona awaiting word from him.

Amendments Will Change Ways Of Texans

(By Vern Sanford)

With all the hoopla over the national elections, many Texans may get to the polls November 8 before they realize they have other important decisions to make that day.

Four proposed amendments to the Texas Constitution will be voted on at the general election. Voting to approve or reject alterations in the state's basic law is one of the most important responsibilities a voter has. It is the average citizen's

one and only opportunity to participate directly in the law-making process.

Here, in brief, are the proposed amendments (in the order they will appear on the ballot) and what they would do:

Amendment One

Would authorize creation of special hospital districts in Lamar County, Hidalgo County and Commissioners Precinct No. 4 of Comanche County.

Approval of this amendment would not actually create these hospital districts, but would give local voters authority to do so in a local election.

Amendment such as this one, which apply only to the areas specifically mentioned, usually are passed on the grounds that they give local voters authority to take care of local affairs.

THE BIG MAIL . . . Dwarfing Marilyn Galman, 18, of Springfield, Ill., this big box was erected as an eye-catcher rather than a letter-grabber.

Since it is permissive rather than mandatory, local voters can decide for themselves whether they want to carry it through.

Some argue against such amendments on the grounds that such details as this should not be added to an already overly-long Constitution.

Amendment Two

Would permit a rate of interest not to exceed 3½ per cent on bonds issued hereafter for the benefit of the Veterans Land Fund. Present constitutional ceiling is 3 per cent.

Veterans Land Board is authorized by law to sell bonds and use the money from these sales to buy land which is resold to qualified Texas veterans. Law provides for the sale of \$200,000,000 in bonds, but the Board has not been able to sell the last \$62,500,000 of these bonds because, in today's market, 3 per cent interest does not make them an attractive investment.

Financial experts think that raising the permitted interest rate to 3½ per cent should be sufficient to make the bonds salable again.

Amendment Three

Would change the pay scale of members of the Legislature to give them annual salaries of \$4,800 plus \$12 a day for each day in session. It would limit regular sessions to 140 days (present limit is 120 days). Lawmakers would receive \$12 a day for each day of a 140-day regular session plus \$12 a day for each day of a 3-day special called session.

At present, legislators receive no annual salary. They get \$25 a day for each day, up to 120 days, of the regular session plus \$25 a day for each day of a 30-day called session. They receive no pay in years the Legislature does not convene (such as 1960). Under this proposal, they would receive \$4,800 a year base pay whether they spent any time in session or not.

Present provisions for travel expenses would not be changed. These provide for the lawmaker to receive \$2.50 for each 25 miles of the round trip between his home and Austin once each session.

This amendment is essentially a compromise between the present arrangement and the constitutional change proposed in 1958. Last time the proposal was for annual salaries of \$7,500 and no per diem. It also provided for annual sessions which, many think, contributed to its defeat.

Proponents of the current plan say that it will make it possible for better qualified people to serve in the Legislature without having to make so much of a personal financial sacrifice to do so.

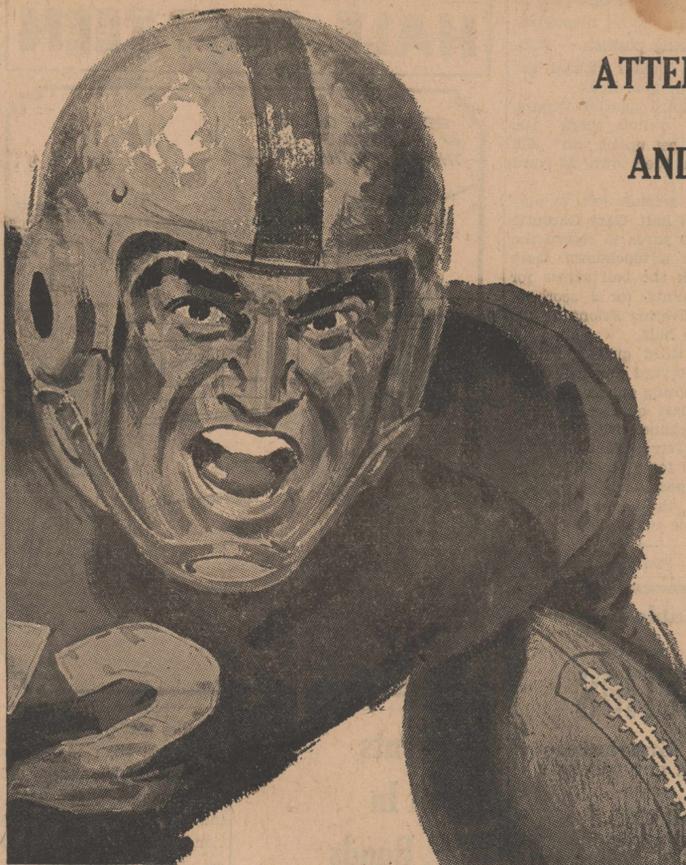

Opponents argue that it will create "professional legislators." They contend that it is better for the lawmaker to have another job in private life to keep him closer to the problems of the people.

If the amendment is passed, a Texas legislator would receive for his two-year term of office minimum pay of \$9,600. In other states, the pay for a two-year term ranges from \$200 in New Hampshire to \$15,000 in New York. Average is about \$3,600.

Amendment Four

Would give the Legislature authority to classify loans and lenders, to license and regulate lenders, to define what part of the charge made on loans should be considered interest and to fix the maximum rate of interest

Elks Lose 20-30 In Game With Friona

Stratford Elks lost to the district AA team of Friona by a score of 20 to 30 Friday night on the Friona field. The Elks lost the game marred by penalties due to youngness and lack of experience fans said.

The Elks took the scoring lead in the game in the first quarter when Willy Steinberger passed to Doug McBryde for a 40 yard gain to set up the team for a touchdown. Jerry Adams scored the touchdown for a 6 to 0 score favoring the Elks at the close of the first quarter.

In the second quarter, Friona set up the touchdown with a completed pass. Bobby Daniel, quarterback, scored the touchdown. Friona did a repeat per-

formance with a second pass to the 5 yard line to set themselves into a scoring position. Full-back Lynn Baxter carried the ball over the goal line.

In the third quarter Tommy Barker of Friona made the touchdown set up by an Elk fumble on their own 20 yard line.

With 30 seconds left to play in the first half, Gary Garoutte rambled 70 yards to return the kickoff for a touchdown. Gary Dettle took the ball across for 2 extra points, for a score of 22 to 14 favoring Friona at the end of the half.

In the third quarter Friona scored a 70 yard touchdown after intercepting an Elk pass.

In the last quarter the Elks made a sustained drive down the field, and Jerry Adams took the ball across for a touchdown. The Elks had possession of the ball and were threatening to score as the game ended 20 to 30.

Residents Invest In U. S. Bonds

Sherman County residents were congratulated Thursday for their part in swelling U. S. Savings Bond ownership to a new all-time high. County Judge F. M. Keener, volunteer county chairman for the bond program in Texas, said that nationwide holdings of Series E and H Savings Bonds stood at \$42.8 billion as of August 31, according to official word sent him from the Treasury Department in Washington. Of this total, Texans own about \$1,570 million.

The report to Mr. Keener came in the form of a congratulatory letter from William H. Neal, Assistant to the Secretary of the Treasury and National Director of the Savings Bonds program. In it Mr. Neal said that the new \$42.8 billion total tops the World War II peak of E Bond holdings by some \$12 billion, pointing out the steady growth which has characterized the bond program throughout the peacetime years since 1945.

provides that the maximum rate of interest shall be 1 per cent. This is widely, almost universally, violated by the small loan industry, usually through additional charges besides the interest, "handling charges, service charges," etc.

Attorney General's department investigations have turned up cases of flagrant abuses by loan companies, making charges that totaled altogether as much as 300% of the amount loaned. On the other hand, the investigators themselves admit that a loan company making short-term, high-risk personal loans cannot stay in the black on 10 per cent.

If this amendment is passed,

Stratford Gun Club Trap Shoot Sunday Afternoon

A trap shoot will be held at the Stratford Gun Club grounds in the western edge of Stratford at 1:30 p. m. Sunday. Prizes will consist of sausage, bacon and sporting goods. Entry fees in accordance with the prizes will range from 75¢ to \$2.00, according to an announcement made by James Crawford.

It will be up to the Legislature to decide what is a fair charge. Even those legislators who voted for this proposal admit they dread the prospect of having to decide what rates are fair.

Judging by the way some stores keep up their stocks, they need to erect a sign reading, "If it's to be had, we had it."

Old Growers Favored With Sugar Beet Acres

In an informal public hearing called by the United States Department of Agriculture for the purpose of receiving views and recommendations from interested persons on the 1961 sugar beet acreage program was held in Denver Monday. The meeting was attended by producers and processors of sugar beets from all areas of the United States who are now producing beets and those areas that are potential beet producing areas.

Representing Sherman County at the meeting were Paul Chesmer, C. W. Donelson and Duard Lamb.

The local representatives, together with groups from Dumas and Hereford attended this meeting with the hopes of obtaining information which might lead to the acquiring of sugar beet allotments for this area.

In the opinion of local representatives, three different schools of thought were presented at this meeting. None of them gave any encouragement for immediate sugar beet acreage in this area.

A trend established early in the hearing by representatives from the old beet producing areas was that allotments should be left in the hands of the Department of Agriculture. This would maintain a fair price for the commodity and would be the only way to insure against over production of sugar. This was also the opinion of the Farm Bureau. Another group of old producers and potential new growers countered with the proposal that all allotments and restrictions be removed. Testimony from this group pointed out that this would give mobility to beet acreage, which could be transferred to areas to compensate for the acreage reduction in other allotted crops such as wheat and cotton. A third line of thought was that of re-writing the sugar act which terminates in March of 1961. It was the opinion of this group that a new four year sugar act should be written, greatly reducing the tonnage of sugar which is now imported. This tonnage could be transferred to growers in both new and old beet producing areas. A sugar act of this nature would assure domestic sugar processors a minimum of four years of production in new areas which would encourage them to build beet processing plants and develop the new areas.

After listening to several hours of testimony and talking with individuals from all over the United States, the local group feels that there will be no major changes in the present sugar beet allotments. It is felt however, that there will be a ten percent increase in acreage given to old producers in areas with present facilities to process this increase. This belief is substantiated by a state-

the Pledge of Allegiance.

Mrs. Raymond Keener introduced Danny Brannan, the new Den Chief for 1960-61 and a few minutes were spent getting acquainted.

Mrs. Duard Lamb checked the advancement record, and reported that Eddy Williams and Mark Lamb had earned two silver arrow points each since the record was last checked.

Mrs. Keener served sandwiches and ice cream to the following: Eddy Williams, Roger Moore, John Lavake, Mark Lamb, Grant Keener, Danny Brannan, Karen Keener and Mrs. Lamb.

After refreshments, the cub scouts and den chief hiked to the edge of the city limits.

The next meeting will be September 27 at 4:00 p. m. in the park, where the group plans to enjoy a wiener roast.

Armyworms Are Here Again

A small destroyer is again making himself felt in Texas. Reports from many areas of the state indicate that armyworms are attacking grasses and for-

age crops. In some cases there may be more than one kind of armyworm involved. The three species involved are fall armyworms, true armyworms and beet armyworms, but C. F. Garner, extension entomologist, says that it is rather difficult to make field determinations between the species. Fall armyworms, however, are the major species attacking grass crops.

The larvae do not become conspicuous until they are nearly grown. Young larvae feed near the ground at first and are not generally noticed until they become 1 to 1½ inches long. These young larvae do not consume the entire leaves of the food plant but skeletonize them, leaving the veins and ribs. This type of damage causes whitish areas to appear in lawns and grass fields where concentrated feeding of the worms occurs, Garner explains.

Fullgrown larvae are about 1½ inches long and may be identified by the presence of a prominent white inverted Y on the front of the head, the entomologist continues. On the back there are three yellowish white hair lines running from head to tail. On each side there is a wide, dark stripe, and next to it is an equally wide, somewhat yellow, wavy stripe tinted with red.

Several insecticides are available for controlling armyworms, but the Pure Food and Drug Administration prohibits the use of certain chemicals on small grains, forage and grasses. Garner strongly recommends contacting the local county agent before using any insecticides for control of these pests.

Some armyworms are showing up in Sherman County. Farmers should watch for them in wheat fields and report any infestation before they become wide spread, E. Goule, County Agent, warns.

Fair Entries Win Prizes At Amarillo

Sherman County entries have

won prizes in the Tri-State Fair in Amarillo. Wide spread hail and insect damage have reduced the number of vegetables and fruits from the high plains. Late maturity of high plains grain sorghums have disqualified the grain from competition with the more mature grains of the south plains country.

P. J. Pronger Jr. won first

with a bale of sudan. Alfred Pronger won third with a bundle of sudan. Bob Wegner won first with a bundle of millet. E. W. Carter won third with a bundle of millet. Dean Heil won second with a bundle of sorghum and Walter Lasley placed third with his entry of a bundle of sorghum. Everett

Brothers placed fourth with a bundle of alfalfa. Mrs. Buddy Miller placed third with her entry of cucumbers.
