Richard... demonstrating a hearty... Dr. Charles Hale... wearing suspenders... Shepard getting a haircut... mostly shave... Moore shopping... Pete... Lloyd Hughes... borrow a post hole digger... Davidson, at Moldave's... named his little boy yet... one suggest a name?... after his dad, some one... calling him "Happy"...

## Bill McMahon Is New Cisco Golf Champion

### BEATS JONES OF EASTLAND TO WIN TITLE

A local boy came home yesterday to win the fourth annual invitation golf tournament yesterday as Bill McMahon, youthful Longview star, formerly of Cisco, took off the championship to East Texas. McMahon defeated Doug Jones, Eastland, 2 and 1, to win the title, after both boys had shot stellar golf throughout the match. He won his way into the finals by defeating Sam Conner, also of Eastland, 7 and 6. Jones had advanced to the finals by winning from Joe Bihl, Lubbock, an early favorite, 2 and 1. McMahon was co-medalist with Gid Faircloth of Ranger, who lost to Tom Barnett of Eastland in the first round. McMahon defeated Joe Dick Slaughter of Lubbock, 4 and 3, in the first round, and then advanced to the semi-finals with a one-up win from Clinton Bussey, Lubbock, former West Texas champion.

### Tourney Praised

Tournament officials and players alike were strong in their praises for the tourney, which they characterized as the best yet held here. There were 77 entries in 5 flights. Ranger club members already were looking forward today to next year's tourney, with expectations of at least 100 entries. Tom Barnett of Eastland defeated Jack Phippen of Cisco, 3 and 2, to win the second flight. Jack Gourley, Eastland, won from Forbes Lee Wallace, 6 and 5, to take the third flight. O. M. Moore, Ranger, won the fourth flight by defeating George Irvine, Jr., Cisco, 2 up. O. J. Russell captured the fifth flight by winning from Glenn Little, Cisco, 1 up.

### Half Million Jobs For Women Planned

WASHINGTON, June 24 — Plans for employing half a million women with a part of the nation's \$4,000,000,000,000 were presented today by Mrs. Ellen Woodward, assistant program director. Her projects will range from adult education classes employing women teachers to sewing classes, where women on relief can learn to make clothes for their families.

### Lobos and Humble Will Play Tonight

The Lobos will play the Humble Boosters in the City Softball League today at 7:30 p. m. at the City Softball field. Tuesday, Nance vs. Humble; Thursday, Community vs. Garner's.

### FEARS FOR EUROPE

PINE BLUFF, Ark. — War will come to Europe within five years, and a "Red" flag will fly over the continent, Capt. H. H. Railey, student of European politics and organizer of Admiral Richard Byrd's first Antarctic expedition, believes.

### DEcries WOMEN'S TRENDS

ROCK ISLAND, Ill. — Modesty and purity among women have been "thrown to the winds" since repeal of prohibition, Dr. Augustana Lutheran president of the synod's synod, said in opening the synod's diamond jubilee celebration.

### RABBI TAKES EARNED REST

BOSTON — Boston's oldest rabbi in point of service, S. J. Friedlander, is about to take his first vacation in 43 years. One-time rabbi of the Congregation Shara Jerusalem, he will spend his vacation in Palestine.

### TWO CRIMES IN ONE

SMITHFIELD, N. C. — It was as much a crime to leave the three-day-old chicks unprotected from the cool night air as it was to steal the mother hen, a judge decided, and sentenced the negro defendant, who pleaded guilty to 60 days.

### FAMOUS PIKE RESTORED

NEW ORLEANS — As the first unit of a nine-mile Louisiana Purchase Memorial Park, extending along the Old Spanish Trail, eastward from New Orleans, restoration and beautification of Fort Pike has been completed.

### Students Get Medals From Boss G-Man

These boys know that crime doesn't pay. They're graduates of a course of study offered by the Boys' Anti-Crime Council of New York's lower east side, and 25 of them were sent to Washington to receive medals from the boss of the G-Men himself. Some of them are shown here being decorated by J. Edgar Hoover, chief of the Bureau of Investigation of the Department of Justice.

### Denver Policeman Is Charged With Murder Following Drunken Shooting

DENVER, June 24 — A charge of murder was prepared today against a Denver policeman who awoke from a drunken slumber to learn that a bullet from his service revolver had killed Arthur P. Ware, Jr., 23, wealthy drug company executive. The slaying followed the coming out party for Miss Edith Malo, daughter of Mr. and Mrs. Oscar Malo, one of Denver's wealthiest families. Miss Malo made her debut Saturday night. The victim, a friend of the Malo family, though not a guest at the reception, was assistant manager of the Ware Brothers Wholesale Drug company. He was the fiance of Miss Emma Jean Denou, who sailed recently for Europe with her father. They were to have been married in September. The policeman, Ernest Ayers, 38, was assigned, with several other officers, to the Malo party. Ayers, investigators learned, was drunk and Ware volunteered to drive him home. Seven and a half hours later, Ayers awoke to feel the pressure of a body against his side. He flickered out his saw Ware's lifeless body and his own .45 revolver lying in a pool of blood on the floor. "I don't remember anything until I woke up in the car and found young Ware beside me," Ayers told the police today.

### 80 Horses To Be In Races at Dalhart

DALHART, June 24 — Between 80 and 100 horses will take part in Dalhart's three-day racing season here July 4, 5 and 6, according to John Colquitt, manager of the affair. Many prominent stable owners will be in perfect condition, according to Colquitt.

### CLAIMS "CLIMBER" RECORD

KNOXVILLE, Tenn. — Lloyd Garrison Jr. is said to be the youngest "climber" ever to reach the Chimneys, peaks of the Smoky Mountains here. Only fifteen months old, he recently reached their top after a ride on his father's shoulder all the way.

### FASTER LILY TRACED

HARRISBURG, Pa. — The Easter lily popular today is a descendant of a native wild flower of Bermuda, propagated in Philadelphia greenhouses and given advanced training in Japan, according to G. B. Stichter of the Pennsylvania Bureau of Plant Industry.

### BLACK DEATH DISPLAYED AS FIRST BLACK WIDOW SPIDERS CAPTURED; CITY HEALTH OFFICER WARNS OF DANGER FROM BITES

Jet Black death, identified by its blood-red marking, was on display under glass today as the vanguard of Cisco's threat from the insect kingdom was brought into captivity. Black widow spiders, which have caused illness and death in Oklahoma and Texas with their bites recently, were exhibited in bottles, so that all might look upon them and avoid their kind in the future. Dean Drug company displayed one of the deadly black spiders, who was just becoming a widow through the process of devouring her husband, a meek little fellow who fell into the

toils of love for an unscrupulous woman. Along with the black widow and the remains of her late husband were two egg sacs, representing approximately 600 baby spiders when hatched. The whole was emmeshed in a web spun inside a bottle. A. T. Boland brought in the exhibit, capturing the spiders in Comanche county. Eugene Lankford, proprietor of the Gene's Tire Shop had the unpleasant experience this morning of finding one of the deadly spiders in a tire he was working on at his shop. He promptly took steps to capture

### Speaker Wants Tax Action This Session

WASHINGTON, June 24 — Speaker Joseph W. Byrns today favored enactment of President Roosevelt's tax redistribution program by this session of congress, "even if we have to stay here all summer." He added, however, that it still was doubtful whether that would be done. Byrns predicted that there would be little opposition to the program if it were brought to a vote in the house. Democratic Senate Leader Joseph P. Robinson joined with Byrns in favoring action this session, but some other leaders believed the program of higher inheritance and income taxes on the rich and larger levies on big corporations was too important and complex to be undertaken this late in the session. Leaders hoped to clarify the situation soon by obtaining a direct statement of the president's desires. They were expected to try during the day to arrange an appointment with him. Byrns argued for action this session so that business could know "what is ahead of it" and congress could avoid a long session next year.

### VENUE CHANGE IS SOUGHT FOR WOOD'S TRIAL

BROWNWOOD, June 24 — Defense attorneys filed a motion today for change of venue for the trial of Stanley Wood, charged with murder for the killing of Fred Brown, Talpa ranchman, May 2. Brown was beaten and robbed and his automobile driven over a cliff, to give the appearance that he had been killed in an accident, the state alleges. Officers who found the body discovered the killers had overlooked a sack containing \$1,700 in currency tied under Brown's arm. Witnesses were heard this morning on the motion, giving their views as to whether they thought Wood could obtain a fair trial. Prosecutors indicated they would demand the death penalty. The case was brought here on a change of venue from Coleman county, Wood and Louis Reis both were charged with murder in the indictment. Reis still awaits trial.

### Woman Jailed, Man Sought After Riot

OKLAHOMA CITY, June 24 — One woman was in jail, another in a hospital with an eye injury, and a man was sought for investigation after a riot with rocks, sticks, and fists between pickets and strike breakers at the Wilson and company meat packing company here. Three hundred union Wilson employees have been on strike three weeks over differences with the company as to working conditions and collective bargaining rights.

### Mrs. Waley's Trial Is Set For July 5

TACOMA, Wash., June 24 — Mrs. Margaret Waley, accused accomplice in the Weyerhaeuser kidnaping, will go on trial July 5 on charges of kidnaping and conspiracy to kidnap. Federal Judge E. Cushman ruled today. Mrs. Waley remained in her jail cell in Olympia today while her attorney, Steve O'Brien of Tacoma, tried to have the trial delayed until July 9. Harmon M. Waley, her husband, was sentenced last Friday to 45 years in federal prison.

### Allred At Funeral Of His Benefactor

AUSTIN, June 24 — Gov. James V. Allred today went to Marlin to attend the funeral of Martin Allday, 45, the man who gave Allred the job that started him to the governorship of the largest state. DANIELSON SCORGE WINS ALAMOGA, Colo. — There are no dandelions in Alamosa, Mayor Everett Cole recently offered a theater ticket to each boy and girl who would gather 15 pounds of dandelions. One hundred pounds were turned in the first day and 200 the second.

### W. A. Morgan Buried Sunday afternoon

Funeral services for W. A. Morgan, 78, were held at the First Baptist church here yesterday at 2 o'clock. Rev. E. S. James officiating. Interment was in Oakwood cemetery, Green in charge. Mr. Morgan was born in Mississippi and came to Texas six years ago. He moved to Cisco eight months ago, residing with his son, Knox Morgan, an employee of the Humble company. Mr. Morgan died Friday night at 11 o'clock at his son's home, 1700 D avenue. He is survived by a daughter and three sons. SNAKE IN RADIO TAYLOR, June 24 — E. H. Vorwerk's radio refused to operate. He called a repair man who removed a 26-inch chicken snake from the mechanism.

### Out To Save All The Good In NRA

Hoping "to save all that is good of NRA," James L. O'Neill, formerly its control officer, became head of the stopgap organization created by President Roosevelt to replace the outlawed bureau.

### JOHNSON SAID DISTURBED BY RELIEF TALES

AUSTIN, June 24 — State Relief Director Adam R. Johnson early in the week told county administrators and chairman of county relief boards that he is "greatly disturbed" by rumors from several counties to the effect that "as soon as the group which is in the county conducting a re-examination of steady and fairly rapid growth in the next few months. In Dalhart recently, he pointed out that five new oil well locations have just been made, four by the Shamrock Oil & Gas company, and one by the Watchhorn company which last winter brought in one of the largest wells in the field. The Shamrock company, he said, plans to spend \$250,000 to double capacity of its McKee stripping plant. The enlarged plant, to be in operation about August 1, will use 250,000,000 cubic feet of gas per day, producing approximately 100,000 gallons of gasoline. Three miles of new 16-inch gas line are also being laid in the expansion program.

### Little Oil Town Due For Big Boom

DALHART, June 24 — Jack C. Collins, who laid out the townsite of Sunray, feels that the little oil city, 30 miles east of here, will see a steady and fairly rapid growth in the next few months. In Dalhart recently, he pointed out that five new oil well locations have just been made, four by the Shamrock Oil & Gas company, and one by the Watchhorn company which last winter brought in one of the largest wells in the field. The Shamrock company, he said, plans to spend \$250,000 to double capacity of its McKee stripping plant. The enlarged plant, to be in operation about August 1, will use 250,000,000 cubic feet of gas per day, producing approximately 100,000 gallons of gasoline. Three miles of new 16-inch gas line are also being laid in the expansion program.

### FAIRNESS OF GATE RATE ON GAS ARGUED

AUSTIN, June 24 — Fairness of the 40 cents per thousand cubic feet charged by West Texas gas companies for domestic gas delivered at gates of 42 West Texas communities was subject to a hearing today before Olin Culbertson, head of the gas utilities division of the Texas railroad commission. Culbertson announced he would recommend that the commission overrule an objection that the commission has no power to fix the gate rate where the same company distributes gas to consumers. He made a similar ruling on an objection that if a gate rate is fixed, the commission also must specify the burner tip rate. The same questions are pending decisions in a case now before the third court of civil appeals. An agreement was reached on the value of physical properties used in transmitting gas. The figure was \$5,640,609 admitted by both sides to be the reproduction cost.

### WEATHER

West Texas — Increasing cloudiness tonight; Tuesday partly cloudy to cloudy, cooler in Panhandle. East Texas — Partly cloudy tonight; Tuesday partly cloudy.

# OD SUPPLY SAMPLE FOR NEED OF U. S.

WASHINGTON, June 24. — This food supply will exceed average consumption during the year, according to estimates by the bureau of agricultural economics. It will be somewhat less than the average supply of the last year, but will be about 5 percent more than domestic disappearance in 1934, and about 9 percent more than in 1933.

The supply of cereals may be 25 percent less than the average of that year, but probably more than ample for domestic requirements plus a normal carryover.

Present indications of production of fruits and vegetables point to a somewhat larger supply than during the last two years, and a supply slightly larger than the recent 5-year average. Should growers' early planting intentions be carried out and average yields are obtained, the supply of vegetables for canning since 1929. More than an average crop of potatoes is in prospect.

The bureau has prepared estimates of the total prospective food supply in terms of calories. Relations this year compared with last are shown for meats, poultry, and eggs as a group; for milk and milk products; for sugar, and for fats and oils excluding butter. Increases are shown for cereals, fruits, and vegetables.

Since meats are relatively short, the principal decrease this year is in the supply of protein foods, but

by to be about 25 per cent less than in 1934, and about 20 per cent less than the average of recent years.

Total milk production probably will be about the same as in 1934, says the bureau, or about 2 per cent less than the recent 5-year average.

The supply of cereals may be 25 per cent less than the average of that year, but probably more than ample for domestic requirements plus a normal carryover.

Present indications of production of fruits and vegetables point to a somewhat larger supply than during the last two years, and a supply slightly larger than the recent 5-year average. Should growers' early planting intentions be carried out and average yields are obtained, the supply of vegetables for canning since 1929. More than an average crop of potatoes is in prospect.

The bureau has prepared estimates of the total prospective food supply in terms of calories. Relations this year compared with last are shown for meats, poultry, and eggs as a group; for milk and milk products; for sugar, and for fats and oils excluding butter. Increases are shown for cereals, fruits, and vegetables.

Since meats are relatively short, the principal decrease this year is in the supply of protein foods, but

This shortage can be offset by proteins obtained from wheat, beans, and other foods, says the bureau. The large prospective crops of fruits and vegetables this year appear to provide adequately for mineral and vitamin requirements.

**NOTICE TO CREDITORS OF THE ESTATE OF D. D. LEWIS, DECEASED**

Notice is hereby given that the undersigned on the 4th day of June, 1935, was by the County Court of Eastland county, Texas appointed independent executor of the estate of D. D. Lewis, Deceased. All persons having claims against said estate are hereby required to present the same to me within the time prescribed by law. My residence and post office address are DeLeon, County of Comanche and State of Texas.

R. R. HARVEY,  
Independent Executor of the estate of D. D. Lewis, Deceased.—Adv.

**RE-ENACTS STATE LAWS**

CHARLESTON, W. Va. — Charleston is in West Virginia, but it doesn't believe that laws passed by the state are enough in themselves, so it re-enacts them verbatim. Such was the case here recently with liquor laws.

## PICTURING OF EARTH STRATA IS EXPLAINED

DALLAS, June 24. — How geologists and oil well drillers can form a picture of formations thousands of feet below the earth's surface through the use of an electrical device, was explained here by Dr. J. C. Karcher, inventor.

The device, Karcher explained, is known as an electric logging machine and it can be attached to rotary rigs.

Illustrating his explanation with stereopticon slides, Karcher showed the results of a large amount of core drilling in Texas and Colorado which he did especially to test the readings of his machine.

The device practically eliminates the necessity for core drilling, he pointed out, as the driller can learn more accurately what formation he is in by the electrical measure of resistance than by frequently incomplete and unsatisfactory cores.

This fact and the immediate knowledge of any change in formation giving very accurate logs are among the advantages of the device. The apparatus will be manufactured on a commercial scale before long, Karcher said. It is relatively simple, consisting of an insulating collar above the bit and an insulated conductor tube running down through the drill pipe to connect with the bit.

The bit is kept as stubby as possible to indicate as rapidly and as exactly as possible any change in resistivity, measured by the ohmmeter at the top of the hole.

The machine also charts formations on a resistance curve. It is generally geared to register half an inch on the log for every ten feet of hole.

**UNION EMBARRASSED**

GADSDEN, Ala. — When the Alabama Federation of Labor met for its annual convention here there was not a union restaurant worker in the town. Miss Thelma Black, of Birmingham, organizer for the Restaurant Employees Union, got busy between convention sessions. Today there is a local of 18 members.

## SOUTH PLAINS THOUGHT BEST FOR DAIRYING

LUBBOCK, June 24. — The South Plains area of Texas is destined to become one of the leading dairying centers of the country, according to H. L. Wilson, cheese specialist with the Department of Agriculture.

Wilson said he believes branches of several large cheese manufacturers would eventually locate in this area.

In 1935 Texas cheese production will be approximately as large as in 1933, when this state led the South with 8,095,000 pounds of commercial cheese, ranking eighth among all the states, Wilson said.

Texas became important for cheese production in 1928 when 983,000 pounds of cheese was made. In 1929 2,202,000 pounds was produced and in 1930 2,621,000.

In 1931 the production figure jumped to 4,406,000 pounds. In 1932 it was 6,641,000 pounds and in 1933 7,095,000. No figures are available for 1934.

There are now 14 cheese factories in the state and the plant at Denison is reported to be the largest in the country.

"Nearly all Texas plants use pasteurized milk in making their cheese," Wilson said, "and I think that this makes a more uniform type of product."

"It is the only safe method of utilizing milk that is shipped in from over a large area."

## YOU ALWAYS GET BETTER QUALITY AT NO HIGHER PRICE WHEN YOU BUY A FIRESTONE TIRE WITH FIRESTONE NAME AND GUARANTEE

Tires may look alike on the outside, but on the inside where counts start, they are different. Firestone Tires are made blowout-proof by Gum-Dipping, a patented process which soaks every man cord and insulates every man cord with pure liquid rubber. In every 100 pounds of cotton linters absorb eight additional pounds of liquid rubber. This special extra prevents internal friction heat, the main cause of blowouts. No other make of tire is Gum-dipped, yet you pay no more for Firestone blowout-proof protection.

The make of tires you buy for your car becomes a matter of vital importance when you realize that 39,540,000 accidents were caused by blowouts, punctures and skidding.

Firestone High Speed Gum-dipped Tires hold all world records for road and track for safety, speed, mileage and endurance — undisputed evidence that Firestone Tires are not only blowout-proof but give extra protection against skidding.

**HERE ARE THREE QUESTIONS AND ANSWERS THAT WILL SOLVE YOUR PROBLEM OF WHAT TIRES TO BUY**

"Will the tread give me the greatest traction and protection against skidding?"

Recent tests by a leading University show that Firestone Speed Non-Skid Tires stop a car 15% quicker than any other leading makes.

For silent, comfortable years Firestone Tires have been on exhibition in the dangerous Pike's Peak Race where a single slip means death. This is undisputed evidence that Firestone gives owners greatest protection against skidding.

"Are they blowout-proof?"

Firestone Gum-Dipped Tires have the most amazing proof of being blowout-proof of any tires ever built. In the famous 500-Mile Race at Indianapolis, May 30th, every one of the 33 cars was equipped with Firestone Gum-Dipped Tires, and they won the race and broke the record over this treacherous rough track without the trouble — in fact, none of the 33 drivers had tire trouble of any kind.

Ab Jenkins drove his 5,000 pound car on Firestone Gum-Dipped Tires over the hot salt beds of Utah, 5,000 miles in 21 1/2 hours, at an average speed of 127.2 miles per hour, at temperatures as high as 120°, without tire trouble of any kind. These are most amazing proofs of blowout protection known.

"Without sacrificing these two important safety features will they give me longer mileage, thus making them the most economical tires I can buy?"

Firestone High Speed Tires not only give you more than 100 miles longer wear, but also lowest cost per mile. This is made possible by the tough, wear-resisting tread built with higher rollers and a wider, flatter contour. This thick, rugged, scientifically designed tread is held securely to the Gum-Dipped body by Firestone's patented construction of two extra layers of cords under the tread. This is a special construction that is not used in any other tire. Unequaled mileage records throughout the car owners' and reported evidence of the longer and greater economy of Firestone High Speed Tires.

All officers and Circle leaders of the W. M. S. of the First Methodist church will meet at 9 a. m. in the home of Mrs. W. G. Powell.

All Circles of the Woman's Council of the First Christian church will meet in the church for a business meeting.

### Wednesday

The Humble Bridge club will be guests of Mrs. W. A. Phippen at 3 o'clock in her home in Humboldt.

## TWENTY-FOUR PRESENT FOR TOURNAMENT.

Twenty-four women enjoyed a bridge tournament Saturday afternoon at the Cisco Country club.

A committee including Mesdames R. L. Fousier, W. W. Wallace and W. J. Armstrong had charge of all arrangements. Soft summer shades predominated in blossoms which decorated the huge room where games of contract bridge were played. The colorful note was repeated in bridge accessories and refreshments of ice cream, cookies, tea and mints.

Prizes for the afternoon games were awarded: High, a large rock-crystal cake plate, Mrs. H. Brandon; second high, a rock crystal relish dish, Miss Wilma Thomas; cut, a rock-crystal fruit bowl, Mrs. I. J. Henson; consolation, small rock-crystal cake plate, Mrs. Richard Bearman.

## OHIOAN HOSTILES FATE

CINCINNATI, Ohio — Fate can't "out-fox" Robert J. O'Brien, Cincinnati, a former state senator. O'Brien was born at midnight, and so to make sure of his birthday anniversary he celebrates two days each year, June 4 and 5.

### SYNAGOGUE IS CABARET

BOSTON — A picturesque building erected in 1843 for a synagogue has had several transformations. Later it was purchased by the Scotch Presbyterians and served as a church. For the past 10 years it has been a cabaret.

### HITS CHAIN LETTERS

PHILADELPHIA — Chain letters and God do not mix. Dr. Ross Storer said in speaking to his congregation. "Between the lines of every letter you can read 'the love of money' which, as St. Paul said, is the root of all evil," he declared.

## THE NEW FANGLES (Mom'n Pop)

## Former Slave Has Lost Count of Age

CONROE, June 24. — "Uncle" William Butler, former slave on a Virginia plantation, has lost count of his years, but he has lived in a little cabin near here for 70 years and his friends claim he is far past the century mark.

Uncle William was born on the Col. Alf Butler plantation "in de Blue Ridge mountains," near Stafford, Va., and was "drapt off" an army wagon in Montgomery coun-

ty "by de Yankees" at the close of the Civil War.

He said he didn't return to his former home because it "gits so cold back in de Blue Ridge mountains." He exhibited his crippled feet as evidence.

When he was a little fellow, "old Colonel Alf" sent him for some whiskey. On his way home he decided to "tap de jug."

Soon he was "dard drunk." He lay on the roadside all night and his feet froze.

He was hired as personal servant to a Federal officer and traveled with the Northern army many

places and through many battles, but Uncle William has forgotten the names.

He has nine sons, three daughters and numerous grandchildren.

### HOME BUILDING UP

CLEVELAND — Building of small homes in Cleveland, which started this spring after many months of inactivity continued in June with the announcement by the city building department that 19 new permits for construction had been granted.

## Ducked For Failure To Advertise Rodeo Way To Eradicate Web Worms Is

BORGER, June 24 — Because they failed to wear 10-gallon som-breros to advertise the July 4 rodeo celebration to be held here, two prominent citizens were ducked in the swimming pool.

The victims were J. C. Phillips, publisher of the Borger Daily Herald, and H. W. Price, head of the Huber Petroleum company.

The men were seized by the "Sherlock Holmes committee" and tied to a ducking stool while the band played a funeral dirge.

SAN ANTONIO, June 24 — Because of recent wet weather, can be used according to Fred W. Mally, agricultural agent.

A long pole, one end with rags saturated with kerosene, can be used to spray worms out of the infested trees. Spraying is not advisable, said, because the web produces a sticky substance which frequently infests peach and plum trees. Mally they were not exterminated would eventually strip the tree of its foliage.
