## NEWSMEN FREED IN CONTEMPT TRIAL

### PAPERS HAVE AUTHORITY TO PRINT TRIALS

AUSTIN, Nov. 6 — Newspapers have a right to publish court trial proceedings, the court of criminal appeals held here discharging from contempt six Houston newspapermen who violated an order against publication by District Judge W. S. Munson of Angleton.

The six news men were Harry McCormick and E. M. Poley of the Houston Press, E. C. Rider and George Cottingham of the Houston Chronicle, Frank White and Max Jacobs of the Houston Post.

McCormick, Rider, and White were reporters at a trial of a prison farm convict charged with murder. Two other convicts were also charged in the case. Judge Munson ordered the newspapers not to print an account of the trial on the grounds that it might interfere with getting a jury for the other trials.

The decision, written by Associate Justice George Christian and approved by the entire court, was a part of a decision.

"It appears to us that Judge Munson unduly stresses the tendency of accurate newspaper reports of public trials to embarrass the administration of justice. Under our statute even opinions formed from reading accounts may not disqualify a jury from sitting in particular cases."

"The law throws adequate safeguards around the accused. The trial court is empowered to order a change of venue on his own motion. The accused may have a change of venue upon making the showing required by the statute. Great latitude is accorded for determining upon direct examination whether jurors entertain such opinion touching the merits of the case as will influence their action in finding a verdict."

AUBURN, N. Y., Nov. 6 — George Fronzek, 44, promises to use scarecrows instead of bullets to keep crows from his small city garden in the future.

Fronzek used a rifle to chase the crows from his land, and the International Harvester company had to close part of its plants when workmen were endangered by bullets from an "unknown source."

## Liquor Legislation Is Speeded At Austin

### JOINT RULES SUSPENDED TO ALLOW VOTING

AUSTIN, Nov. 6 — Liquor legislation was speeded today as the Texas senate voted 20 to 5 to let the house suspend joint rules of procedure to pass its package license bill.

The house had requested such action by vote of 87 to 27 Wednesday, under joint rules, is set aside for the house to act on bills that already have passed the senate and for the senate to act on house bills.

The senate liquor bill, passed early today, cannot reach the house that purpose. Sen. T. J. Holbrook said both house and senate liquor bills disregarded the expressed will of the people in voting for repeal and should be defeated.

Senator Clint Small, Amarillo, announced the dry plan is to let the house pass its bill today and send it to the senate. Senate dries then proposed to substitute the Small bill and send it back to the house.

House rejection of the change will throw both bills into a conference committee.

### Huge Hoppers Hurt Wheat in Panhandle

DALHART, Nov. 6 — Hordes of brown flying, inch-long grasshoppers coming from the north have destroyed more than 2,000 acres of wheat in Dallam county alone, preventing reseeding, farmers reported today.

### Former Gangman Is Now Rose Gardener

HOT SPRINGS, Ark., Nov. 6 — Flowers, shrubbery and fishing appear to be the principal interests of Owney Madden, former New York gang leader living in retirement here.

Madden, who took up his residence here some months ago, can be seen daily working around the yard of his home, cultivating plants.

### Mystery Clearing Up in Key Identity

AMARILLO, Nov. 6 — Dean Earl Miller of the University of California at Los Angeles said today after a conference with R. B. Norman, Amarillo high school principal, that "there seems little doubt that 'Ted' Key, UCLA football player is Clois Francis (Shorty) Key and not the man he says he is."

### 1,000 Year-Old Coin Retains Its Beauty

SYDNEY, N. S. W., Nov. 6 — A gold coin of the later Roman Empire, more than 1,000 years old, but splendidly preserved has come into the possession of a Sydney jewelry firm.

### Displaying Some Tall Roping

New York seems to have given Chick Byers, of Texas, world's trick and fancy roping champion, a chance to get his teeth into some real lassoing. Apparently, Cowboy Byers is about to rope the Empire State building. But it's only an illusion; Al Smith's towering structure is some 15 blocks away.

### POPPIES FOR NOV. 11 SENT TO CISCOANS

Preparations for Poppy Day, to be observed here and throughout the nation Monday, Nov. 11, went forward rapidly today with the arrival of the memorial poppies at American Legion Auxiliary headquarters. The little red flowers, 1,000 of them, came from the Veterans Hospital, Legion, Texas, where they were made by disabled World War veterans, comrades of the men in whose honor they will be worn.

The poppies are being counted and arranged in readiness for distribution to the Poppy Day workers who will offer them on the street November 11th, to be worn as a tribute to the World War dead. All work in connection with the observance is being carried out by volunteers so that every penny received as Poppy Day contributions can go into the welfare funds of the Legion and Auxiliary.

The poppies are paper replicas of the wild European poppies which bloomed along the battle front and in the war cemeteries during the World War. It was this flower, growing between the rows of wooden crosses above fresh battle graves, which inspired Col. John McCrea to write his famous poem, "In Flanders Fields." The flower is now recognized throughout the English-speaking world as the symbol of World War sacrifice.

Each of the little red flowers has been made by hand by some disabled veteran.

### Agriculture Sec'y Selection Ratified

#### BANQUET FOR BOOSTERS TO BE ON NOV. 25

Definite setting of Monday, Nov. 25 as the date for the Cisco Booster banquet was announced today, following the acceptance of Congressman Thomas L. Blanton of Abilene to appear as the principal speaker that evening.

Congressman Blanton had previously accepted an invitation, but the date was left open, to suit his convenience. Johnny Cox, booster president today announced that Blanton had written that the date asked would be suitable to him.

An effort will be made to have as large a crowd as possible present for the banquet, it was said today.

"We will make an effort to get, as good a crowd, representing the outlying districts and nearby towns, for the banquet," a spokesman of the Boosters told the Daily News today.

### Lions Instructed By Past President

Lion President E. L. Smith had charge of the Lion luncheon today since it was a session of business activities. Lion Clubs A. G. Tuttle and Dallas Wales were instructed in the ethics of Lionism by Past President J. A. Bearman, who expounded to the new members what Lions stand for in a community.

Past President H. L. Dyer was presented a membership key from the Lions International organization by Past President W. H. LaRoque, who explained this gift for distinguished service.

Other business of a routine nature was discussed and a motion to reduce the club dues from \$2 to \$1.50 per month as of January 1, 1936, was carried.

H. D. Gorham was introduced as the guest of Lion Charles Kleiner.

### Stores To Close For Armistice Day

All stores and business houses of Cisco except drug stores and service stations will close Monday for Armistice Day, it was announced today by Miss Lucile Self, secretary of the Retail Merchants' association.

### Window Depicts 5 Scenes During War

A pageant depicting the World War in five scenes today was shown in a window of John H. Garner's department store here. The scenes represent the various phases of the war through which the veterans passed. They are a building at home, a training camp, the ocean, a battlefield, and a poppy-dotted cemetery in France.

A contest was held in connection with the decoration, which was built by James Haynie. First place resulted in a tie between Polly Ann McDaniel and Marvin Gene Swartz. Second went to Herschel Clough, and third was a tie between Mary Caldwell and Carl Page.

### Strain Is Greater As Britain Makes More Preparations in Mediterranean

With the Italian armies in Ethiopia temporarily slowed up by rains, interest in the war crisis centered today in Europe where Britain showed signs of preparing against trouble in the Mediterranean.

Britain's diplomatic approach to Mussolini about the Mediterranean situation might be interpreted in one of two ways. Either Britain is anxious to avoid a clash by persuading Mussolini to take his army out of Libya, or she believes a clash is inevitable and is paving the way to justifying her own position when that clash comes. There was no sign of yielding on either side.

Discussion of the Eastland County Livestock Show, status of highway and park projects, and ratification of the election of T. G. Caudie as agriculture secretary occupied the attention of the Cisco Chamber of Commerce as its board of directors met in regular session here last night.

The directors ratified the election by the school board of T. G. Caudie of Corsicana as vocational agriculture teacher in the high school and agriculture secretary of the Chamber of Commerce. Caudie will replace J. M. Bird, who recently resigned to accept a position with the U. S. government soil erosion service.

Bird was highly commended by the directors for his work both in the school and in the Chamber of Commerce. His work in the stock show, the F. F. A. organization, and in terracing service for farmers in this area were especially praised.

Reports were heard upon the status of the various highway projects which concern Cisco, including the Eighth street routing of Highway One, Highway 89, and the Lee Ray cutoff. The organization voted to pay \$15 expense for committee work on Highway 89, which has recently been redesignated as a part of Highway One.

The annual livestock show was termed the best ever held here, in a report upon it. Recommendations concerning the future of the show were made.

Directors present at the meeting were B. A. Butler, J. J. Collins, Dr. Charles Hale, W. H. LaRoque, E. J. Poe, R. L. Ponsler, Charles Sandler, and F. D. Wright.

### Jobs Listed For 168 Men in County

FORT WORTH, Nov. 6 — Jobs for 168 men in Eastland county were provided today by state WPA officers in work orders for two projects.

School building repairs at Cisco will cost \$1,650 in federal funds and \$1,494 in local funds, employing 33 men.

Eastland will get paved streets, curbs and drainage for \$22,380 in federal and \$2,775 in local funds. The work will provide employment for 135.

Work orders were issued also for Johnson county farm to market roads costing \$15,629 federal and \$5,629 local funds, and employing 62 men.

### Foreign War Vets Planning Service

The Veterans of Foreign Wars will meet at the chamber of Commerce Monday morning at 10:45. There will be a memorial service and a local pastor will speak. The pastor has not yet been selected.

### Mendieta Closes Business for Lunch

HAVANA, Nov. 6 — President Carlos Mendieta has determined not to permit debate on the affairs of state to keep him from his regular 2 p. m. luncheon.

Cuba's chief executive has established rigid control over the extended remarks of his secretaries in their Tuesday and Friday cabinet meetings at the Presidential Palace. He has installed a small bell by his place at the head of the cabinet table and at 2 o'clock sharp he taps it, and the meeting is over. It makes no difference who is speaking and what is the subject being aired.

After a recent cabinet session, Palace reporters asked a cabinet member how he had fared with a certain projected decree law.

"I did not have a chance to introduce it," he replied. "In fact, three or four of the secretaries were unable to talk during the whole meeting. The president rang his small bell at 2 o'clock, and we had to leave."

LONG SLEEP BRINGS SUIT LONDON, Ont. — Frank C. Calk a London railwayman, claims he slept for 11 days and nights after Dr. James A. Milne gave him an anesthetic and extracted 15 teeth. He is suing Dr. Milne for \$5,000 damages.

### Anne Shirley Wears Smart Ensemble

Anne Shirley, one of Hollywood's newcomers, is one of its leaders in the fashion parade. She is shown here as she appeared wearing a dark brown woolen sports dress with ecru felt hat to match the ecru scarf at her throat.

### More Than Half Last Year's Seniors Attending College Says Supt. Cluck

More than half of Cisco high school's graduating class of 1935 is attending college or university, it was announced today by Superintendent R. N. Cluck after a check over the records.

Superintendent Cluck said that of the 72 pupils receiving diplomas attending some institution of higher education.

Of the 38 in college, he pointed out, 27 have chosen Randolph college, remaining in Cisco and attending school at the same time.

Nine colleges are represented in last year's class. They are Randolph, Texas A. and M., TWC, Texas Tech, Howard Payne, CIA, Daniel Baker, McMurry, and Kent College of Ohio.

Following is a list of pupils from last year's class, and the colleges they are attending:

Randolph: Garner Alton, O. C. Barnhill, Dary Bruce, Mignon Clark, Durene Cogburn, Varge Daniels, Elaine Exum, Earline Farmer, Maxine Gallagher, Lota Guffy, Mabel Halbert, Sybil Holder, Norvell Huddleston, Enders Huey, Katherine Ramsey, Elsie Richardson, Lynn Robertson, J. G. Rupe, Johnnie Hunterman, Robert E. Lee, Shannon Sue Slaughter, Daskam Stephens, Doris Surles, Donald Surles Blowslyn Thomas, J. W. Thomas, Kathleen Wilson.

Texas Tech: Billy Doty; Howard Payne, Jeanne Hageman; TWC, Thomas Graves, Theron Graves; Texas A. and M., Harry Brennan, Sentell Caffrey, Drew Gorham; CIA Rubye Thompson; Daniel Baker, Elizabeth Waters; McMurry, Edwin Curry; Kent College, Ohio, Norris Littlepage.

### Cooler Is Warmed Up With Bonfire

There was a hot time in the old town last night. At least there was a hot time in the city jail. A woman prisoner, placed in the city cooler on a drunkenness charge, became dissatisfied and set fire to papers and bed clothing, police reported this morning. The fire was extinguished with little damage, it was reported.

Two women had been placed in the jail on drunkenness charges. One was fined and the other released on probation this morning.

A man also was jailed on a charge of intoxication but was released on bond last night.

### WEATHER

East Texas—Cloudy with local showers south tonight and Thursday; warmer north and west tonight and northeast and southwest Thursday.

West Texas—Fair, except extreme south; warmer north and east tonight; with light frost extreme west.

### About Our Friends

By STEPH A. LONG

R. Warwick is a witty rascal who furnishes his friends on the much meriment at the expense of the other fellow.... But we drop a word of warning that tarry too long when he is on the street and starts in tracks.... Just about the time you are having a good time at the expense of some one else, a little group which always gets when Warwick starts, he is to deal you a backhanded by turning on you very suddenly and then you find the crowd laughing at your expense.... It's a case of "Dangerous when you see yourself safe"....

Among the world war relics displayed in the window of Jno. H. is a machine gun that is an annual sight for those who live this part of the Gangster-Free territory.... The motif of the war relics carried out in the display which begins at the home, Texas, and proceeds to the training camp, thence across the state, through the barbed wire enclaves and on to the poppy cemetery.... very tragic if it dwells too long on the thought....

Max Spears ran up against a thought today that fully impressed him with the magnitude of deposits and resources of his...

He went over to a Burroughs adding machine to add up bank statement figures about to be published.... He was unable to do so because the machine had capacity of only \$111,111.11, while statement figures called for the total amount of \$1,180,505.88....

More than ten times the adding machine capacity.... who said we were a little peanut town?... we may be the first National has found out of money somewhere....

Conversations to the entire person including the depositors.... and borrowers.... they are important....

### BUDGET GOAL UNCROSSED IN SEASON PLAY

Cisco Grammar School Midgets met their goal line uncrossed for season yesterday when they defeated the Rising Star Wildkittens by a score of 6 to 0 in the mud at...

Way Tipton scored the touchdown in the last three minutes of play when he dashed down the field yards on a punt return. He failed to kick goal for the extra point.

Rising Star had a heavy line and heavy backfield that gave the Midgets trouble all afternoon.

The Midgets threatened just before the first half ended when they lined the ball down to within the Rising Star 10 yard stripe. The kick held, however, and the half ended just as the ball went over.

Rising Star team threatened in the final period but the go forwards stiffened and held down.

H. Robinson, first string center for the Midgets sustained a collar bone in the contest. The Midgets will play Moran at Thursday afternoon.

### Calendars Clear; Legislators Take Holiday Saturday

By United Press SAUMON, Nov. 6 — W. Perry Eadmon, wealthy Jefferson county cattle man who boasted he would live 100 years, went to his last sleep today.

Eadmon, widely known in south Texas, died at his home last night, less than a week from the appearance to a modern coin. It is slightly smaller than a shilling and is made of almost pure gold. Besides the portraits, the coin carries lettering in the modern manner.

## Corn Loan Fixed at 45 Cents

All corn growers are interested in the announcement of the department of agriculture that there will be a 45 cent bushel loan on this year's corn crop. The commodity credit corporation has asked the Reconstruction Finance corporation for a maximum of \$150,000,000 to finance the loans to farmers who sign the national corn-hog adjustment contract. Very significantly Secretary Wallace called attention to the new requirement that cribs in which the corn is stored for loans must be capable of permitting proper storage for two successive years. On the heels of the returns from the corn and hog referendum victory, outstanding leaders of the republican party of Kansas warned the men who are to make the platform of the party next year that the AAA program must not be overlooked or slighted when the national convention meets in Chicago. Likewise, all concerned in the set up of the AAA program are reminded that the supreme court of the United States is expected to hand down a decision as to the constitutionality of the AAA farm act in the month of January.

## And Japan Goes On

While the eyes of the world are focused on Africa, the Japanese continue to make their customary amount of hay in China. The latest dispatch has it that a movement to detach a vast section of north China from the rule of Chiang Kai-shek is under way; if successful, an "independent" state along the lines of Manchoukuo would be set on a basis of complete friendship and co-operation with Japan.

Mussolini strikes for a comparatively small slice of African jungle and rugged mountains and sets all Europe by the ears. The Japanese quietly care out a tremendous empire in the Orient—and nobody seems to worry about it.

It seems obvious that the extent of Japan's takings will be limited only by Tokio's idea of what Japan needs. The dismembering of China appears to be going forward at a rate that must make Mussolini green with envy.

## General Advance In Business

Conditions are improving everywhere under the skies of Texas. A general advance in business, industry and agriculture is reflected in the monthly business review of the Federal Reserve Bank at Dallas. There were many significant features of a further advancement in the retail buying in large cities, and a continuance of general improvement in the agricultural and livestock industries. September sales of department stores increased 41 per cent as compared with August. In the wholesale trade there was a considerable lack of uniformity in merchandise distribution.

Heavy rains were beneficial to late maturing crops and sub-soil seasoning obtained enabled farmers to proceed with fall plowing and seeding operations. Condition of ranges and livestock reflected a marked gain during the past month. Prospects for winter pasturage are good in practically all sections. Livestock are in better flesh than usual for this season. Commercial reports indicate that range trading has been very active and that wool and mohair have been moving in volume and increased prices.

Thousands of idlers have been taken from the relief rolls. A vast number of federal aid jobs which represent an outlay of more than \$150,000,000 are in the offing and thousands of additional mechanics and laborers are promised employment during the late fall and winter months.

Texas always comes back. Depressions come and depressions go and it is ever the thinkers and the planners who are unafraid, and who teach the diggers and workers that the wealth of the world comes out of the earth and those who battle for higher standards of living ever come out of the ditch and make a safe landing on the road to Prosperity Hill.

## Texas Topics

By RAYMOND BROOKS

BROOKS

Representative Vernon Lemons of Somervell county, Rep. Raymond K. Stanfield of Amarillo and Rep. E. L. Rogers of Ochiltree, Rep. E. Harold Beck of Texarkana, are a few of the many present members of the Texas house of representatives likely to be in races next year for seats in the senate. Sen. W. R. Poage and Sen. John S. Redditt are prospective aspirants to congress. Sen. Ben G. Neal and Sen. H. Grady Woodruff are reported as definite candidates in their congressional race.

The federal census will change many a Texas law, so far as making it applicable to a county or taking it off a county.

Hundreds of statutes have been passed applicable to "counties having a population of not less than a specified figure, "nor more than," another, "according to the preceding federal census." At each census period, the growth of population in a county is liable to take that county out of a lot of these statutory brackets, and put it into a lot more.

It is a difficult and most impossible thing to find out all the general laws, passed for the benefit of some particular county, that may thus become applicable to other counties.

The situation would have been much worse except that the courts not long ago nullified about half these bracket statutes as being un-reasonable and evasive.

Representative Jack Padgett of Austin has voiced keen disappointment that this legislature will not get a chance to consider whether it would raise the salaries of district judges in counties of less than 100,000 population above the present \$4,000 level, so that the judges would not continue to get less compensation than district clerks or district attorneys. The judiciary, he has pointed out, is made up of the ablest and more mature members of the legal profession, and to his mind it is an extreme anomaly that despite the position of high dignity occupied by the judge, he should be paid less than the clerk or district attorney.

Coke Stevenson, only two-time speaker of the Texas house in half a century, is considering the field of politics for 1936, but has not yet reached the point of making known what he will seek. His term as a house member expires with next year. Among his choices are a return to the legislature, a race for congress, or a race for state office such as attorney general or governor. If Governor Allred and Attorney General McCraw seek reelection there is little likelihood he would oppose either.

The railroad commissioners' race may possibly hold interest for him; but this has not been indicated. He is in Senator E. M. Davis' senatorial district, and Davis has just been elected for a four-year term.

Senator Clint Small of Amarillo has announced and Senator E. J. Blackett of Victoria apparently has indicated, without definite announcement, that neither will be a candidate for re-election to the senate in 1936. Senator Will Beck of Bowie county has decided to retire from the senate also.

Small and Beck are two of the veterans of the upper house. Sen. Blackett is completing a four-year term. His course will depend on such decision as he may reach as to offering for re-election.

This year, four of the veterans went out of the senate: Parr, Woodward, Purl and Joe Moore. Two changes have come about since the beginning of the year, and the body more rapidly than usual is changing in its personnel.

EDSON R. WAITE

Homer Guck, publisher of the Chicago Herald and Examiner, says: "When the late great Will Rogers said 'All I know is what I read in the appers,' he paid high and conscious tribute to the press of America."

"Beyond being its foremost humorist, he was consistently one of the nation's best informed citizens. It wasn't what he heard which made him that. It was what he saw—what he read."

"You remember the old adage, 'Seeing is believing. No one, you notice, says, 'Hearing is believing.' For through our eyes comes 87 per cent of the knowledge we possess."

"The contents of the newspaper of today may safely be believed. Its advertisements are to be trusted no less than its editorial columns. And this is simply because the modern merchant realizes as does the modern editor that it's plain good business to keep the faith."

## Practical Suggestion for the Organization

### WOMEN 4 DAYS WITHOUT FOOD

SYDNEY, N. S. W. — Four days without food or water, and confined in a narrow space in the darkness of the liner Marama, was the experience of a woman who was discovered in an exhausted condition when the liner arrived in Sydney recently from New Zealand.

### SPIDERS TAKE TO FIELD

PUEBLO, Col. — Black widow spiders apparently have stopped pestering the city residents here and have moved into the country to give the farmer a scare. The watermelon harvesting season was delayed in some sections of Pueblo county by the poisonous widows.

### FISHING'S GOOD IN FIELD

STURGIS, Mich. — Local fishermen made a big haul here and did not go near a lake or stream. A truck, loaded with frozen perch, crashed through a guard rail one mile east of here and scattered about 1,000 pounds of the fish in a nearby field.

# Mild and yet they Satisfy

—how do you do that?

Well, to start with, we take tobacco from our own Southland — mild ripe tobacco with lots of natural flavor but no harshness or bitterness.

THEN AS A SECOND STEP—  
We blend this home-grown tobacco with spicy, aromatic Turkish tobaccos from across the seas. These Turkish tobaccos, you may know, have a flavor and fragrance entirely different from our own.

AS A THIRD STEP—  
These tobaccos are cross-blended—welded together—the best way we've found to get a more pleasing flavor and a better taste in a cigarette.

THAT'S WHY CHESTERFIELDS ARE MILD AND YET THEY SATISFY

In a single day people from ten different states visited our Chesterfield factories. 8,200 visitors during the past year saw Chesterfields made.

# New Ranger Team to Meet Stubborn Loboes

## DOPE PLACES TWO ELEVENS ABOUT EQUAL

The new and greater Ranger Bulldogs will meet the determined Loboes when they clash on the field here Monday afternoon. The dope places the teams on an equal footing.

The Bulldogs, trampled by every team they have met so far, will be clinging in a comeback effort. They leave no stone unturned to grab a victory over the Loboes.

On the other hand, the Loboes, who have also had to take defeat at the hands of most of the other teams, will be ready to shoot their strength against Ranger in the hope of avenging their losses in the several years.

The Bulldogs have been able to score only one touchdown this season. They scored against Eastland, but Cisco failed to do. They lost to Eastland, while the Loboes beat the Mavericks to a scoreless tie. While the Bulldogs have done very well in their opponents have been beaten by fewer points at the hands of San Angelo than was Ranger, but lost to Sweetwater by a score of 14-0.

## Golf Chat

By WILLIAM PHILPOTT  
(Professional, Cisco Country Club)

I was recently introduced to a local golfer and after the formal introduction he remarked, "From reading your golf chats I expected to find you a much older man." It is only fair to myself to explain that I was raised in an atmosphere of golf.

My father was a golf professional living near London, England, and kept open house for golfers visiting the British metropolis. Long before I gave any serious thought as to what I would do to earn a living, it was my good fortune to meet such old timers as Andrew Kirkaldy, Ben Sayers, Sr., Willie Park, Jr., Matt Dunn, Horace Hutchinson, J. H. Taylor and Harry Vardon.

Not yet in my teens, I listened to them discuss championships, golf courses and golfers and became possessed of a valuable fund of golf information.

**LARGE RAIL ORDERS PLACED**  
OTTAWA, Ont. — Orders for nearly \$10,000,000 worth of new railway equipment, financed by the Canadian government, have been placed with five manufacturing plants in Eastern Canada, it is announced.

## PENN CHOOSES EAST'S TITANS FOR '36 GAMES

By ROBERT V. VERMILLION  
United Press Staff Correspondent

PHILADELPHIA, Nov. 6 — The Quakers from the University of Pennsylvania are coming back to the big time football wars.

The Red and Blue is on the rebound from the regime of passive acceptance of defeat. The big push to regain Penn's once nation-wide football prestige is under way.

This is apparent in the sudden rebirth of campus enthusiasm and the significant action of schedule makers who have removed the "easy marks" from the Penn football program for 1936. Even the 1935 schedule felt the rejuvenation movement.

During the past decade the Quakers eased through a series of "soft" games, meeting an occasional major opponent.

**Defeat Formerly Accepted**  
Defeats by smaller schools and the few major teams were accepted and forgiven. The season was considered a success if Penn upset Cornell in the traditional Thanksgiving Day game.

The "new deal" began discouragingly this season with defeats by Princeton and Yale. The Tigers had been off the schedule for more than 40 years. Yale also was a recent addition.

Next year, Columbia, victims of Penn's sudden rejuvenation following the first two defeats, will be replaced by Brown, expected to be a "worthy opponent."

**Open With Lafayette**  
Returning to a custom in favor of most of the larger schools, the Quakers will open the 1936 season with a comparatively weak team, Lafayette. However, Lafayette, a formidable rival, always has been formidable on Franklin Field.

Penn then will meet Yale, Princeton, Brown, Navy, Michigan, Penn State and Cornell in that order.

Typical of the new spirit was campus enthusiasm reached on the eve of the Columbia game. Penn students, fired by indignation at suggestions that the team lacked courage, staged an old-fashioned "Rowbottom" opposition to the Gates Plan, which abolished the athlete's training table and imposed other regulations tending to demoralize football, grew steadily.

Coach Harvey Harman believes that, discounting the slow start his predominantly junior and sophomore team had this year, the revival of Pennsylvania football prestige is well on its way.

## Steers Trying For Comeback on Grid

AUSTIN, Nov. 6—Their chances in the Conference flag race virtually ruined by their second defeat in two starts, the University of Texas Longhorns Tuesday afternoon started pulling themselves together with a view to gaining enough victories down the "home stretch" to avoid a really bad season. Three wins and three losses to date make it imperative for the Chevignets to win the remaining four games to approach the success of last season.

The chief concern staring the Orange and White squarely in the face this week is the Saturday encounter with the Baylor Bears at Waco. The surprising Bruins, undefeated until last Saturday, are the main object of the Longhorn program to break back into the win column and march in closely behind the leading teams.

## Peasants Use Pigs To Find Truffles

AVIGNON, France, Nov. 6 — Pigs may be pigs in other parts of the world, but they are kings in the province of Vaucluse. Intelligent ones are prized for their ability to find truffles, and in the late fall and winter every peasant takes his pet hog to the woodlands to hunt these subterranean fungi.

When ever a pig roots out a truffle, it demands a reward, such as a few acorns, a piece of cheese or even a small truffle, and if none is forthcoming, it loses interest in the game and refuses to dig. Hogs detect truffles through the sense of smell, then root them out with a metal-tipped muzzle. The muzzle serves a double purpose; it is useful in the digging, for truffles often grow a depth of a foot, and it prevents the pig's eating them the moment they are rooted out.

Varying in size from a walnut to an orange, truffles are used in pate de foie gras, sauces, garnishings and turkey stuffing.

## Centennial To Aid Area Says Expert

DALLAS, Nov. 6—Improving business conditions in the southwest on the impetus of the Texas Centennial Exposition were predicted today by Stuart Chase, internationally known economic expert and writer, who is visiting in Dallas.

## BIG DAM CHATTER

Who said football weather? The good California liquid sunshine is making the football teams hereabouts in the same manner that it is helping the Italians in their invasion of Ethiopia.

The boys can't work out very well in the rain and the cold and must be hurrying the attendance when they have to play.

Last weekend some of the games in the far west were postponed because the mercury dropped low. The boys just couldn't take it. No matter how cold the weather, but the small crowds that were sure to attend instead of the great stadiums full of fans.

From all the publicity that Sam Houston of TCU has been getting, it seems to look as though he might be among the fortunate ones when the All-American roll is called at the end of this month.

This writer has not seen Baugh since early last season, but he was not of all-American caliber at that time, he certainly was above the average Southwest conference back.

The Southwestern conference has been getting a lot more recognition than it once did. One year Matthews of TCU was the best in the conference and perhaps the greatest defensive wing-back ever to step out on a Southwest field. He was merely mentioned for All-American, along with other Texans, and went out to California to play in the East-West game.

It was out of the game about 15 minutes and during that time he made a touchdown around the end. Previously it had been unobtainable to gain there, and the moment he returned to the game the end zone activities stopped. Incidentally, the Texans—Jerry Mann and Hunt—did the scoring for the

# MAN AS HEAD OF TEACHERS

**Nov. 6** — South Texas school officials and instructors support for Superintendent M. Gregory of the McAllen schools for the president of the Texas State Teachers' association in an effort to place a woman in that position for the first time.

The annual convention of the association will be held in San Antonio during the Thanksgiving holiday. Gregory's name will be placed on an official ballot of the association and will be opposed by a woman.

Gregory is superintendent of one of the state's largest school systems and is president of the South Texas State Teachers' association and is president of the superintendents' and principals' associations. He has served as president of the South Texas State Teachers' association for the past two years, except for a year's service during the war.

Gregory is a graduate of the University of Texas and has a master's degree in education. He has been in school work for the last 22 years, except for a year's service during the war.

Gregory's campaign for the presidency has been pointed to his long record of service to the teachers' association. He favors a per capita apportionment of the state's contribution to the state's schools. He believes that the state should bear a larger portion of the school expenses with revenue from sources derived from other than ad valorem taxes. He proposes a single salary schedule for teachers, with equal compensation for equal training and service. He is an advocate of a teachers' pension system, organized and administered on a statewide basis with adequate safeguards for protection of teachers' investments.

### PEASANS BANE TO LINEMEN

SENVILLE, Nev. — Pelicans may be creatures of the most persons, but to line-men of the Sierra Pacific Power company they constitute a great nuisance. The linemen reported the birds electrocuting themselves, and short-circuiting the wires.

### WALKERS WARNED

MASS. — This city is using a new method to curb jaywalking. Signs bearing the single word "Look" have been placed at street intersections for the warning of pedestrians.

SPENCER, N. C. — W. Henry Smith, 84, suffered broken ribs when he tumbled out of an apple tree at his home here. Recuperating, Smith was undaunted. He asserted he would be ready to climb trees again by the time the possum hunting season opens.

**TARDY JUROR DISMISSED**  
BOSTON — Edward Farley, of Hyde Park, was dismissed from jury service after he returned one minute late from lunch. The court resumed its duties on the dot of 2 p. m. with only 11 jurors. Judge David P. Dillon ordered Farley dismissed from further service.

## Breadon Asks Open Mondays in Leagues

SARASOTA, Fla., Nov. 6 — Sam Breadon, president of the St. Louis Cardinals and head of the far-flung Cardinal system, while here on a vacation proposed a radical departure from the daily schedule now in use by the major leagues.

Breadon proposes double-headers on Sunday, with Mondays open, and he cites reasons for his suggestion. "During the past season," says the Card's boss, "we packed them in every Sunday, especially when we had a doubleheader. The fans came from miles around. They came when we offered a bargain day in the form of a doubleheader, but a lot of them wouldn't have come for one game."

"Monday is always a sort of 'off-day' for us, and we never draw very well on that day, compared with the other days."

Breadon also thinks the day will appeal to players, because it will give them a day off once a week, break the monotony of a 154-game schedule with only one or two open dates.

The proposal meets with favor among baseball players who have been queried on it.

Fred Warner said, "That would be a great idea."

Lloyd Brown, Cleveland Indians pitcher, agrees with Warner, as does Willis Huhn, another Indians hurler, and Johnny Moore, outfielder for the Phillies, and John Cooney, Dodger.

**TRIFLE CLIMBER, 84, FALLS**  
SPENCER, N. C. — W. Henry Smith, 84, suffered broken ribs when he tumbled out of an apple tree at his home here. Recuperating, Smith was undaunted. He asserted he would be ready to climb trees again by the time the possum hunting season opens.

# The GOLDEN FEATHER

Chicago. But one of the agents, who had formerly served as a narcotic squad officer with the Treasury Department, had contacted a weak, smiling little cocaine addict, a hanger-on at the fringes of Chicago's gangland; and this man had told him something that might, just possibly, be important.

There was in Chicago a doctor named Jeckers; a twisted and corrupted man who had been barred from practice and sent to prison, some years before, for selling morphine to a dope peddler. On his release from prison Jeckers had specialized in underworld practices. He would treat a gunshot wound for a gangster, and see that news of it did not reach the police; or he would perform a face-lifting operation for a criminal who did not care to be recognized; or, in short, he would do any of the innumerable little jobs that the underworld could not safely get done at the hands of reputable physicians.

The little cocaine addict knew Jeckers—who, as it happened, was an ancient himself; and he had learned that Jeckers, a night or two previous, had been called to a North Side apartment to treat a gunshot wound.

That was all there was to the information; but Gunderson, the agent who had obtained it, thought it a promising lead, and Larry readily agreed with him. He asked Gunderson where Jeckers could be reached.

"I figured you'd want to know, so I got it out of this coked fellow I was talking with him," Gunderson said. "Jeckers has a little apartment up on North Dearborn, a dozen blocks beyond the river; has his office in his apartment, and seldom goes out. The number's 3527—suite two, on the second floor. You ring the bell, and you don't get in unless you say, 'This is Markus,' up the speaking tube."

AND so, at 10 o'clock on a bright summer morning, five United States government officers—Larry Glenn with his two assistants from Dover, and Matthews and Gunderson of the Chicago office—drove out North Dearborn street to pay a call on Doctor Jeckers. Larry had with him a hastily obtained warrant charging the doctor with harboring a fugitive.

They drove past the 3500 block, turned to the right, and parked on a side street just off North Dearborn.

"Just in case," said Larry, "someone ought to watch the rear. Tony, suppose you slip up that alley—see, it's the third house. If he tries to come out the back way, collar him. You won't know him when you see him, of course, but collar anybody that tries to slip out. Maybe AP'd better go with you. The three of us ought to be enough for the front way."

Peters and LaRocco strolled up the alley, to stop nonchalantly at a gate in a dilapidated wooden fence. The other three walked around the corner to North Dearborn and went down the sidewalk to the house.

The three agents went up the steps, pulled open a massive, time-stained door, and entered a small lobby, with the usual letter boxes and call-buttons on one marble wall. Larry bent to inspect the names on the boxes. The one

Today you can use a winter oil which builds itself right into the "innards" of your engine. That is, a certain portion of Conoco Germ Processed Oil really forms a BOND with metals, and stays on continuous duty where all the worst friction used to come.

This uncanny action, created by the patented Conoco Germ Process, automatically wipes out the costliest winter wear...

"Dry," un lubricated, wracking starts? ... Not with the oil that's Germ Processed to stay up on the job every minute, every hour, every day that you park—whatever the weather! ... Not when Germ Processed Oil has become a part of all metal surfaces... Not with the Hidden Quart, which has enabled many an engine to run with the crankcase absolutely empty—in verified show-down tests.

And this same patented Germ Process means extra protection not only for the conventional babbitt bearings, but for the newest bearings—whether copper-lead, high-lead or cadmium-alloy. Germ Processing also creates the high durability oil film... hence a light, free-flowing winter oil that's tougher too, for the toughest going of all the year. You and your Conoco man can make this whole Winter "act gentle" to your motor, beginning today. Drive in.

**Calendar Raids Are Started by Chinese**

SHANGHAI, Nov. 5.—Police raids similar to those of prohibition days in America are under way in Shanghai, with the familiar accompaniments of barred doors, lookouts, surprise searches, seizures and confiscations.

But in Shanghai the contraband material is not liquor, but calendars.

When the national government decreed the abolition of the lunar calendar observed for centuries by the Chinese and proceeded to enforce the decree, a profitable business of "bootlegging" printed forms of the lunar calendar sprang up in Shanghai.

Despite vigilance by authorities, the market continued to be flooded with date blocks and calendars bearing lunar dates only or both Gregorian and lunar dates. The fact that most of the outlaw print-

ing was done in the International Settlement, outside the jurisdiction of the Chinese authorities, made the task of suppression difficult.

Finally the Chinese Bureau of Public Safety enlisted the assistance of the Settlement police, and the series of raids began. To date several hundred thousand of the "bootleg" calendars have been seized in dozens of small printing shops, and prosecutions launched against the owners.

The offensive has caused the market price of the lunar calendars to rise sharply, as a steady demand for the old style date blocks continues among the Chinese residents of the city. To guard against arrests and raids, a number of shops have barricaded their doors and posted lookouts to "tip" off the pressmen when police appear.

**Poppies For—**

ed veterans in need of employment. For each poppy the Auxiliary has paid its maker one cent, enabling hundreds of veterans to support themselves and families through the winter and spring. Approximately ten million of the poppies have been made this year, meaning earnings of \$100,000 placed in the empty pockets of these disabled veterans.

In addition to the earnings of the veterans making the poppies, the poppy funds bring aid to thousands of needy families of veterans throughout the year.

**THIS CURIOUS WORLD** By William Ferguson

IN the past 200 years, the dunes of the Sahara have moved southward more than 186 miles, and ruined what once was fertile farm and grazing land. The settlers themselves are much to blame for this, since they pay little attention to soil control.

**Music Juniors In Meeting Saturday With Miss Clark**

The Junior Music Lovers club met for a regular business meeting Saturday afternoon at the home of Mildred Clark.

Miss Betty Lou Powell was leader for the afternoon. After the business was attended to, a parliamentary drill was conducted by the club parliamentarian, Miss Marcell Robbins and Bobbie Grace McWhorter.

The entertainers on the musical program were Daisy Wood, Julia Moore and Mrs. Troy Powell. Following the musical numbers the members were served with refreshments of hot chocolate and cake.

The following members and visitors were present: Betty Lou Powell, Julia Jane Moore, Daisy Wood, Imma Jessen Curry, Sue Witten, Joyce Rainbolt, Velgie Wood, Charles May Pross, Marcell Robbins, Bobbie Grace McWhorter, Mrs. John Kleiner, Mrs. Ben Krauskopf, counselor and Mrs. Troy Powell, assistant counselor and the hostess, Mildred Clark.

**Mrs. Warwick Leads Program at Circle**

Mrs. P. R. Warwick directed the lesson study from the mission book, "That Other America," Tuesday afternoon when members of Circle Two of the First Presbyterian Auxiliary met in the home of Mrs. W. R. Simmons, West Eighth Street.

Mrs. C. H. Fee led the devotion. A social hour was enjoyed during which time the hostess served coffee, pie and mints to members and visitors: Mesdames H. C. Henderson, M. Johnson, S. E. Hittson, C. F. Fee, P. R. Warwick, E. P. Crawford, John Kleiner, Ernie Wilson, and Homer Ferguson.

**PERSONALS**

It was reported that the condition of Joe Caldwell, son of Mr. and Mrs. W. P. Caldwell, of El Paso,

**Miss Coldwell Is Hostess to Class**

The 14-year-old girls class of the First Baptist church were entertained last evening in the home of their teacher, Miss Frances Coldwell, with a party and business meeting. After the important business session a social hour was enjoyed by playing games. Miss Mary Helen Russell was surprised on her birthday with a handkerchief shower.

Popcorn and candy were served to Misses Mary Helen Russell, Bobbie Grace McWhorter, Helen Louise Lawson, Mary Louise Poe, Dora Faye Collins and Marcell Robbins.

**YWA Members Meet On Monday Evening**

Y. W. A. members were guests Monday evening in the home of Miss Mary Beth Langston on West Third street.

Miss Lurline Poe led the invocation, after which she was received for the study of the book, "The Wandering Jew In Brazil." Plans were made for a yearbook of programs, meeting places and entertainment.

The program subject was "Revealing Christ in China" under the leadership of Bessie Rae Coates, Lurline Poe and Doris Surles. Helen Stokes led the society in a prayer for China.

Refreshments were served to Misses Lurline Poe, Bessie Rae Coates, Doris Surles, Frances and Lillian Coldwell, Sybil Holder, Helen Stokes, Willie Frank Walker, Lucille Flaherty and a new member, Carrie Belle Perdue.

**Dr. Sun's Daughter Thrilled at Games**

HONOLULU, Nov. 6.—As excited over football games and college life as the average American co-ed, Sally Sun, daughter of China's illustrious Sun Yat Sen, is studying social service work at the University of Hawaii, preparing for a career in her native land.

Shy of officials and newspaper men who met her upon her arrival, Sally quickly melted into the life of the university, where she is enrolled as a freshman.

She prefers poring over her sociology books to indulging in campus activities. Honolulu is no strange place to the Sun family. Fifty-six years ago, this pretty Chinese girl's

**Believe It or Not, I'm Well.—Ripley**

It was almost a "believe-it-or-not" proposition to Herman Ripley, 3215 Kings Road, Dallas, formerly of McKinney, when he obtained relief from acid stomach trouble of long standing in two days. "Pains in my stomach, pain around my heart, dizziness, and gas and bloating after meals, had been he said. "In two days after starting on Girden's Compound, all distress stopped. I had been restricted to soft foods, such as cereals, now I eat whatever I like."

**How Calotabs Help Nature To Throw Off a Bad Cold**

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic kidneys, promoting the elimination of cold poisons from the system. Calotabs serve the double purpose of a purgative and diuretic, which are needed in the treatment of colds.

Calotabs are quite economical—only twenty-five cents for the package, ten cents for the package. (Adv.)

**AGAIN, A NEW AND MORE BEAUTIFUL FORD V8**

*Speaks for Itself*

"If the people who use our cars every day are not praising them, it matters little what we may say. The last word must be spoken by the car itself."

{FROM AN ADVERTISEMENT SIGNED BY HENRY FORD IN JULY, 1935}

**MORE than two million Ford V-8's, in America alone are now in the hands of drivers. These owners have heard, from the car itself, a clear story of motoring value and pleasure that far outstrips all previous achievements in low priced cars.**

Now, the 1936 Ford V-8 speaks for itself... new beauty of line; new, brighter colors; easier steering and gear-shifting; super-safety breaks. We urge you to get this car's story from the driver's seat—to know at first hand its V-8 performance—its luxury-car comfort and roominess.

Let the last word about the 1936 Ford V-8 "be spoken by the car itself."
