# MENINGITIS FRIGHT HERE BASELESS

## CITY HEALTH OFFICER SAYS NO EPIDEMIC

Dr. W. P. Lee, city health officer, Saturday spiked a rumor of a spinal meningitis epidemic here, following a report of at least one case of the disease near Cisco.

"There doesn't appear to be any danger of such an epidemic here," Dr. Lee said, "although of course it is always well to be on the lookout for any sort of contagion or infection."

The rumor, he said, had resulted from the illness of a patient near the city who had believed she was suffering from the disease which spread in epidemic form in Oklahoma, causing a mass quarantine, and was reported in Central Texas. "There really were no symptoms of the disease in this case, however," Dr. Lee said.

**Form of Paralysis**  
Dr. Lee pointed out that the disease is infectious rather than a contagious and that it is far less dangerous than many persons believe. It is not contracted as easily as many diseases, such as small pox, simply by coming into contact with some article which a person suffering from the disease has infected, but usually results from direct contact.

Spinal meningitis, known to the medical profession as acute poliomyelitis (meningo-encephalomyelitis) was described by Dr. Lee as a form of infantile paralysis which results in inflammation of the meninges or spinal cord covering.

Relatively few persons, especially adults, are susceptible to the disorder, he said, with more than one case seldom occurring in one family.

**Symptoms Listed**  
Some of the symptoms of the disease are fever, drowsiness, headache, stiffness, photophobia, sore throat, and sweating. Medical authorities are at variance over the exact cause of the disease, he said, although a number of predisposing causes have been listed.  
Dr. Lee pointed out that there is a disease which, while not so severe as spinal meningitis, somewhat resembles it and is sometimes mistaken for it. This, he said, is epidemic encephalitis or inflammation of the brain, which occurred in this country in epidemic form for the first time in 1918.

# Laval Bares Secret Diplomatic Movements

## WINS VOTE OF DEPUTIES FOR HIS POLICIES

PARIS, Dec. 28 — (U.P.)—Premier Pierre Laval laid bare vital secrets of "behind the scenes" diplomacy in the chamber of deputies today and won a double vote of confidence in his foreign policy during the Italian-Ethiopian crisis.

In his desperate fight for the life of his cabinet, Laval prided off the lid of his diplomatic "Pandora's box" and disclosed important details of France's relations with Italy, Britain, and Germany to prove he had clung to the traditional pattern of French diplomacy.

His daring gesture was successful. He weathered the first vote of confidence on a radical socialist motion of censure by a majority of 20 and increased it to 43 on a second test on a left radical order of the day commending him.

**SANCTION RAISED TO SAVE VILLAGE**  
NICE, France, Dec. 28 — (U.P.)—The mayor of the unhappy village of Molliere in the "sanctions no man's land" high in the Alps tonight appealed successfully for help from the French government—although politically the village is Italian.

Molliere lies within Italian territory but on the French slope of the Alps. Roads to Italy are now blocked an trade with France is barred by League sanctions.

**Continued Recovery Forecast by Roper**  
WASHINGTON, Dec. 29 (Sunday) — (U.P.)—Continued economic improvement in 1936 "because of a broader and firmer foundation" for recovery was seen today by Secretary of Commerce Daniel Roper in a New Year's statement.

He reported a gain of 10 per cent in national income "widely diffused" with farmer and wage earner gaining considerably.

He just donned a sou'wester and here is shown braving the bitter Seattle weather—and ready to embark on the stormy seas of the 1936 campaign.

## PERSONNEL OF COTTON GROUP IS COMPLETED

The Eastland county community cotton committeemen setup for next year's program was completed when producers in the Cisco territory elected Joe Donoway at the Chamber of Commerce in Cisco Friday.

Local committeemen are divided into three groups — Ranger, Gorman, Rising Star-Carbon, and Eastland-Cisco — and will pass on allotments of producers in their sections.

## Governor's Newest Neighbor Oil Well

OKLAHOMA CITY, Dec. 28 — (U.P.)—Long plumes of white steam from noisy boilers rose over the mansion of the governor of Oklahoma tonight. Another drilling rig was added to those in the city's new oil field just north of the mansion.

**WEST'S STORY LIKELY TO END TODD INQUIRY**  
LOS ANGELES, Dec. 28 — (U.P.)—Unless Roland West can give some evidence that would warrant further inquiry into the death of Thelma Todd, the investigation probably will end with his testimony Monday, County Grand jurors declared today.

**CISCO LEADS IN RED CROSS MEMBERSHIP**  
Cisco led Eastland county in the number of members enrolled in the county Red Cross chapter this year and was second in the amount of money turned in by the various cities, the annual report of County Chairman J. E. Spencer showed Saturday.

**Townsendites Claim 39 Congress Votes**  
WASHINGTON, Dec. 28 — (U.P.)—Thirty-nine congressmen have signified their intentions of voting for the Townsend plan at the coming congressional session, the Townsend Weekly, organ of the old age pension movement, will say on Monday.

**Says Lindy's Move Clemency Protest**  
WASHINGTON, Dec. 28 — (U.P.)—Senator M. M. Logan, of the senate judiciary committee, suggested today that the motive for Col. Charles Lindbergh's departure from America might have been to protest against the possibility of clemency being extended to Bruno Hauptmann.

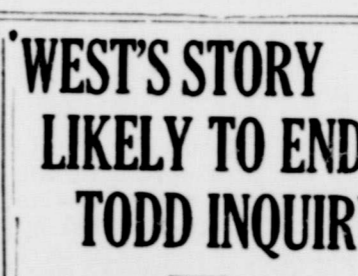

**Retains Roosevelt Friendship Ends**  
WASHINGTON, Dec. 28 — (U.P.)—Senator George McGill, d. Kan., another member charged with suppressing crime legislation, expressed belief that Lindbergh's departure was less connected with crime than popularly supposed. He said the flier might have planned his departure so as to be absent at the time of execution of Hauptmann.

**Final Contract Check**  
Final check on compliance of corn-hog contracts of this year is being made by the committee under the chairmanship of E. F. Alton of Cisco. Checks for the producers are expected after the checkup which Alton estimates will require a week or ten days work.

**'Stop Borah' GOP Slogan for East**  
WASHINGTON, Dec. 28 — (U.P.)—Western republican leaders were reported looking for a man to lead the "Stop Borah" movement at the Cleveland convention which will nominate a GOP candidate.

Reports, widely circulated in the Midwest and echoing in the capital suggest the eastern choice may finally fall on either Senator Arthur Vandenberg, Michigan, or Senator L. J. Dickinson, Iowa. Both senators told the United Press they were aware of it if their records were being scanned by eastern leaders in search of a presidential nominee. The tentative and wholly unofficial presidential candidacy of Senator Borah has developed rapidly in the last two weeks.

The Christmas Baskets

The distributing of Christmas baskets this year was perhaps the best and most systematic that it has ever been in Cisco.

Although there were several organizations, including churches and fraternal bodies, at work on the basket idea, each working independently...

Through a series of contacts between organizations lists each had made were checked and each family taken one basket rather than some of them taken two or three and others none at all.

Texas Meningitis Scare

The spinal meningitis fright in Oklahoma apparently has spread to Texas, with eight deaths reported in the central part of the state during the last two weeks.

The meningitis epidemic, if it should gain a strong foothold in the part of the state where it was reported, might become a real menace, due to the fact that living conditions in much of that section and especially in the colored population, are far from desirable.

The Oklahoma epidemic appears to be somewhat checked, following the mass quarantine clamped down in Kiowa county. The success of the quarantine might lead such a measure to be taken in Texas if it became necessary in order to stop the spread of the disease.

Meanwhile, the Christmas holidays in the public schools likely will aid in preventing the spread of meningitis. If necessary, the schools of the central part of the state, where the disease has been reported, can extend the holidays until the medical authorities think it safe to resume classes.

Mussolini on the Spot

Premier Benito Mussolini is on the well known spot in Italy. He is an absolute dictator. But dictators hold their jobs by being able to show that they can do so by force or by producing some definite, constructive results.

With the Ethiopians starting their long delayed counter offensive on the African battle lines and the prospects of a new rainy season staring him in the face and nothing appreciable accomplished in his colonial adventure, the rumors are getting around that Il Duce is going to have to make peace soon or he will be out looking for a job.

With plenty of home cooperation and little outside interference almost any nation can carry on a war of one sort or another. But when the home folks become dissatisfied and the outsiders positively "get in the hair" of a dictator, he has a tough time concentrating on the war problem.

The League of Nations has placed sanctions or penalties upon Italy as the aggressor nation in the Ethiopian war. That makes it hard for Il Duce to buy anything, especially armaments, from any outside nation.

Now there is a limited supply of gold in the world, and the United States has a great quantity of it in proportion to the other nations. Italy is in bad shape financially. Ordinarily when a nation needs money it borrows it, either from the people at home or from other nations.

That is the reason that Mussolini is having to think of something new to do to please the people. England is the nation which has been foremost in the enforcement of sanctions against Italy.

But whatever Mussolini decides to do, he is certainly on the spot at present.

Weekly Sunday School Lesson REVIEW

Golden Text: Psalm 108:17 The International Uniform Sunday School Lesson for Dec. 29. BY WM. E. GILROY, D. D. Editor of Advance THE 12 lessons of the quarter, dealing with the later prophets and leaders of Judah, have come with particular appropriateness to a nation and a world in the grip of depression. A great and prosperous city, the scene of unusual splendor attaining its climax in the days of Solomon had gone down through causes easily traceable to ruin and desolation. The people of that city and the surrounding Kingdom of Judah had been carried in exile to Babylon. Here when it was too late to save their homeland, the exiles had their hearts turned through great religious teachers to the spiritual values and the social truths that they had refused to recognize or follow in their days of prosperity. OUT OF the experiences of exile and suffering come Scriptures of the highest nobility and beauty, though touched with the poignant cry of expiation. We have the inspiring picture of the Suffering Servant, the man of holy purpose bringing salvation through suffering, of the good bearing the burdens of the sin full and the redemption of purification and devotion. We have a great prophet like Jeremiah sounding in his lamentations, in the midst of despair the note of a great optimism of recovery, of God's willingness to help those who would put their trust in Him and of the sureness of salvation. If men will turn from their sins and will establish truth in individual and social life. Later we have the overthrow of the dynasty of Babylon itself and the coming to power of rulers favorable to the remnant of Israel, and with a vision of reconquering the fallen Jerusalem and of building it back into prosperity. IT is the story of this effort to rebuild that applies so strongly to our own country, seeking to find a way of security and solidity and construction out of the chaos of social debacle. The story is not all one of inspiration. We have prophets such as Ezekiel and Haggai and Zechariah, seeking to fire the people with inspiration and zeal. We have religious leaders such as Ezra, more earnest and devoted than efficient in action, and we have men of action such as Nehemiah, supreme in his usefulness of purpose and thoroughly efficient in administration and leadership. But we have to face the sad realization that the people themselves failed to make adequate response. When Nehemiah came with his efficient leadership, there were very much at a standstill, despite the high ideals that Ezra and his religious associates were proclaiming. Nehemiah managed to organize the people for both military defense and constructive building. The means and attainments, as well as the ways of failure, are well exemplified in these lessons, but they leave the clear assurance that there can be no true social building not established upon honesty and unselfish devotion to the commonweal. # MAJOR ISSUES FOR CONGRESS FEWER IN 1936

WASHINGTON, Dec. 28—Congress assemblies Jan. 3 for a session expected to be short, snappy and generally devoid of the New Deal legislative novelties that marked previous Congressional meetings under the Roosevelt administration.

Unless unanticipated difficulties are encountered, the session is expected to end by late May or early June. The fact that 1936 is election year makes both senators and legislative duties promptly.

The legislative session will not, however, be lacking in controversial issues.

Among the measures to receive attention are:

The soldier bonus.

Permanent neutrality legislation.

Permanent public works program.

Relief.

The Townsend plan.

Remedial legislation in case of supreme court invalidation of the AAA and other New Deal laws.

"Little" NRA proposals for textile manufacture and possibly other industries.

Thirty-hour work bill.

Ship subsidy legislation.

Changes in housing regulation.

New food and drug regulation.

Frazier-Lemke inflation bill.

**Bonus Comes First**

The bonus issue will be the first to come up. Bonus forces probably will center their drive behind the Frazier-Lemke compromise bonus payment plan. This would permit veterans to change their compensation certificates for bonds, payable immediately in cash or accumulating in value to 1945, when the certificates normally become due.

The new neutrality legislation would replace the present temporary act, principal provisions of which expire at the end of February. The new act is expected to provide that date. Administration efforts are intended to increase President Wilson's persuasive powers in declaring embargoes and to broaden embargo power to cover raw materials essential in warfare and possibly loans and credits to belligerents.

The scope of the public works program already has been indicated by President Roosevelt. He has set a \$500,000,000 limit on the new appropriation and said Congress would be asked to specify individual allotments of funds.

**Relief to Be Delayed**

The relief issue, it is believed likely will not bulk large until later in the session. The amount of relief to be asked of Congress and the method of expending it has not been indicated. It is expected to depend in part at least, upon the progress of the \$4,000,000,000 work re-program. Meantime, Republicans have demanded investigation of the present huge sum.

A good share of the session's firestorm is expected over the Townsend plan for \$200 a month pensions for the aged. Speaker Joseph W. Pendergast of the House expressed himself not averse to a vote on the plan.

It is generally believed that present forces would not have sufficient force to win adoption of a plan in either house. However, efforts to liberalize the present security benefits are forecast.

Early in the session the court is expected to rule on case challenging constitutionality of such New Deal foundation stones as the AAA, Bankhead cotton act, and taxing taxes under the AAA amendments. Other tests are due.

Should any of this legislation be passed, Congress almost certainly will be put to the task of devising a plan to meet such objectives as the court might offer.

Other business items from the Senate include proposals for the new form of control over industry and suggestions for "little" bills for textile, anthracite and other industries.

**Guffey Act to Be Tested**

Attention on these bills may await, however, a Supreme Court ruling on pending test of the Guffey act, on which model the new act probably would be drafted.

The bill will renew its drive for the

# Outstanding Cafe Lloyd Doyle's Aim

In re-opening a new cafe in Cisco, the Club cafe, Lloyd Doyle has announced that he expects to render a service to the eating public that will make his place outstanding.

Doyle has found through many years in serving food that there are certain things that people want and will go far to obtain. These characteristics he expects to embody into the service that the Club cafe will offer. He announced that his prices will be very reasonable but food will be on a plane that customers will appreciate. He wants a trial and then he thinks customers will come again and bring a friend with them.

# C. S. Karkalits To Seek Tax Office

Clyde S. Karkalits has announced that he will be a candidate for the office of county tax assessor and collector in the next election. His formal announcement will be made later in the Daily News.

For five years he has been chief deputy in the office. He is well known over the county, having been a resident for many years.

Karkalits formerly lived in Cisco, later moving to Eastland in order to be nearer his work at the court-house. He is the father of C. S. Karkalits, Jr., and Miss Louise Karkalits, both of this city.

# Dividends Largest Since 1931 With Exchange Issues Recording Big Gain

By M. L. BROWN

United Press Financial Writer

NEW YORK, Dec. 28—Holders of stocks listed on the New York Stock Exchange received \$1,652,221,397 in dividend disbursements during 1935, the largest total since 1931, a United Press compilation revealed today.

That was \$148,249,873 above the 1934 disbursements, \$343,675,066 over 1933, and some \$350,000,000 over 1932.

During the final two months of the year many corporations ordered extra payments and increased annual rates for 1936, indicating that disbursements next year might be larger than the 1935 total and near the \$2,000,000,000 peak which prevailed some five years ago. From November 1 to the end of the year 140 companies paid \$113,500,000 in cash extras.

**31 Yield \$10,000,000 Each**

Thirty-one issues on which \$10,000,000 or more was paid showed an aggregate return of \$751,459,830 or 45.48 per cent of the total year's payments.

A year ago 29 issues were in the \$10,000,000 class and yielded \$688,724,417 to stockholders, 45.08 per cent of the 1934 total payments.

There were 204 favorable dividend changes this year compared with 209 in 1934. Of these, 122 represented increased payments and 82 resumed dividends or payments on new issues. This compared with 126 increased dividends and 74 resumed and new payments last year.

There were 67 unfavorable changes in 1935, 54 representing decreases and 13 omissions, against a total of 28, 18 and 10 respectively in 1934.

A large percentage of the decreased payments this year were attributable to the fact that many organizations made extra disbursements in 1934 because of fear the government might place heavy taxes upon all types of corporation surpluses.

**Utilities Cut Dividends**

Actual reductions in annual payments were about equal to last year, but the dollar volume of such decline was swelled by the fact that utility organizations with millions of shares outstanding cut their rates.

The largest individual payment—\$167,960,475—was made by the American Telephone & Telegraph Company on the basis of \$9 a share, a rate which has been maintained for more than 15 years.

General Motors held its second place position, yielding \$97,897,745, or \$32,647,745 over last year's payment which in turn was \$10,875,000 over the 1933 total.

Du pont moved into third position, disbursing \$54,775,220—including a stock extra of 1-55 share of General Motors for each share of Du pont held—or \$18,811,747 over last year when a gain of \$5,532,842 was recorded.

The Standard Oil Company of New Jersey which was fourth made a cash disbursement of \$32,320,101 and a stock extra, compared with the 1934 payment of \$32,298,223 and the 1933 disbursement of \$25,838,578.

Sears Roebuck went into the \$10,000,000 list with a payment of \$12,349,465 as dividends were resumed for the first time in two years.

Homestake, another member of this exclusive performer, paying an aggregate of \$14,064,960, an increase of \$6,530,160 over last year and of nearly \$10,000,000 over 1933.

Chrysler also stepped up payments bringing disbursements based on the year-end dividend to \$13,453,125 an increase of \$7,848,656 over 1934, and compared with \$8,968,750 in 1933.

General Electric showed an increase of \$5,769,188 to \$23,076,749, or \$11,538,376 over 1933 disbursements.

# OLYMPIC FIRE FOR '36 GAMES DUE BY RELAY

By ROBERT BEST

United Press Staff Correspondent

VIENNA, Dec. 28—The Olympic fire which will burn during the 1936 Olympiad at Berlin will be kindled by the sun.

The actual fire which will flare in Berlin will be kindled by a torch brought from Mount Olympus in Greece by relay runners. But the torch, it was learned, will receive its original light from the sun.

During conference between representatives of countries which provide the relay runners, someone suggested the idea that the torch be kindled by the sun.

According to plans mapped months ago, the first runner would receive the torch at midnight of July 20, and proceed with it to runner number two.

**Day Starts Likely**

Due to the new idea, the program is expected to be pushed up to noon of July 20 to make it possible to have the torch lighted by rays from the sun focussed through a burning glass.

During the time preceding the start of the marathon relay, Greek pagans and others will offer prayers.

ers to Apollo, mythical Greek god of light, to provide brilliant rays on July 20.

During the time preceding the torch and carry it the last few hundred yards to the Olympic Stadium where it will be used to light the fire which will glow throughout the games.

Seven countries will provide runners for the relay—Greece, Bulgaria, Yugoslavia, Hungary, Austria, Czechoslovakia and Germany.

The torches will be made of magnesium mixtures which will continue to burn despite possible winds or rain. Samples already have been sent by Germany to the runners who now are using them in test races.

## Choral Club Tea For Next Saturday Is Being Planned

The Cisco Choral club members are making elaborate plans for a tea which will be given Saturday, January 4, at the home of Mrs. H. V. Heiser.

Club women of the city are asked to call between the hours of 3 and 5 o'clock. A musical program will be the highlight of the afternoon staged in a setting of lovely tea gowns to be worn by the girls of the club.

Guests, if desired, will be given choice flower seeds for their gardens and homes. Four of Cisco's most popular club women will preside at the table while light refreshments will be prepared also by the club members. Three hundred guests are hoped for and expected.

## Social Calendar For Week

**Monday**  
Circles of the First Baptist W. M. S. will meet at 3 o'clock at the church.

**Tuesday**  
Circle Three of the First Presbyterian Woman's Auxiliary will meet at 3 o'clock in the home of Mrs. R. B. Carswell, Humboldt.

**Thursday**  
The Progressive Study club will meet in the club house at 9 o'clock with Mrs. Asa Skiles as leader.

## Circles Planning Business Meeting

All circles of the First Baptist W. M. S. will meet Monday afternoon of this week at the church in a business meeting.

The circles were to have met the following week, but because of the worker's conference meeting at the church that week, the circles will hold their meeting a week early.

## Goats Are Asset As Wool Price Rises

SAN ANGELO, Dec. 28.—(UP)—Texas goats, at least, have demonstrated that they were not "goats" of economic depression.

Since last January almost 27,000,000 pounds of mohair have been sold in Texas, which began the year with a carry-over of 14,000,000 pounds. Now less than 100,000 pounds of mohair remain unsold.

Latest sales have brought 60 cents a pound for kid hair and 50 cents a pound for grown hair.

Revival of the mohair market has brought a corresponding increase in the value of the animals. Ranchmen are giving them much greater care, since good muttons are now worth \$2.50 each and mixed kids \$2.50 to \$3. Two years ago they could be bought for 50 cents a head.
