

# Mr. Muleshoe . . .

By Forbes

Seen & Heard: Dr. M. F. (amateur farmer): Experienced men tell me that on my 40 acre patch of cotton north of town, if all matures that is now on the stalk, I should make a bale and a half to the acre. Will settle for 1 bale. However, the plants have never wanted for water and I have dusted twice against insects.

Harry Engelking: If all the farms that are on my cotton stalks now mature, I could make as much as 2 bales to the acre.

Engelking waters plenty and has built his soil up plenty. But, when so, ye editor would dearly love to see 2 bales to the acre cotton in this Plains country. I understand that was Mississippi River valley yields. But if he says it's loaded that way, it is, because who ever heard tell of a farmer overestimating in his forecast.

Some farmers tell this writer that "it just ain't on there." Others say their cotton is sure loaded. We will wait and see.

The ground has become pretty well sapped during these latter days of August. But Jim Clements says if cotton looks bright and green in the morning, it isn't suffering. Rain right now, or in the next few days, would mean thousands of more bales of cotton for Bailey County, some of my informants say. Forms put on in the next few days have plenty of time to make big fine bolls if a killing frost doesn't occur before the normal time, around October 15, they say.

Howard Cox: Flying down to Rio, I mean to Dallas. I learned that Pioneer, which now schedules regular flights from Clovis, Plainview, Lubbock, etc., envisions the time when "feeder" flights will be made through Muleshoe, to pick up mail, passengers, and freight for quick transportation. Therefore our airport, here in Muleshoe, no doubt will be found to be more and more valuable to us as time goes on and improvement of the field from time to time would not be amiss.

That ugly word "War" has again crept into the headlines in newspapers of the world as Russia threatens to take "more effective steps" against Tito, Yugoslav dictator, not along ago the fair haired boy. Can the rest of the world sit idly by and see the Communists enslave a big portion of the world? Trust me, the next war will be harder to start than others have been, though it will be much more destructive.

This weekend The Journal will go to work on a printed, colorful program for benefit of farmers attending home in the mountains of New Mexico high school squad. It will be a far cry from the dittoed programs used in the past, and is only another indication of how Muleshoe quietly but surely is passing from the cross roads village to the modern little city. Those of us who have been here quite a while can scarce credit what is happening.

## Lazbuddy School Starts Sept. 5 In Beautiful New School Building

Lazbuddy Independent School will begin a new term Monday, September 5.

The new school building will be ready for the opening of school. It is one of the nicest rural school buildings in this section of the Plains. The old grade school building is being remodeled for a home economics department and the agriculture department will be operated this year for the first time in the history of the school since the war.

The faculty is listed as follows by Archie Sims, superintendent: First grade: Mrs. J. A. Parsons. Second grade: Mrs. I. L. Whitfield.

Third grade: Not selected. Fourth, fifth, sixth and seventh grades will be departmentalized. Teachers are Travis Montgomery, Dale Lavender, and James Ward.

Mr. Ward is grade school principal and grade school coach. 8th Grade and High School: English, Lawrence R. Bowers. Home economics, Mrs. Ross Stuard.

Agriculture, Ross Stuard. High school principal, coach and science teacher, I. L. Whitfield. Supt. and Math teacher, Archie Sims.

Building custodian will be J. McDonald. The bus mechanic is J. A. Parsons. The lunch room ladies have not been selected.

Every teacher in the Lazbuddy schools is new in the system this year.

High school students will register Friday, September 2. Buses will not run Friday but will make their routes Monday, September 5.

## NOTICE, ARMY MEN

All Army fellows that want to play in the Army-Navy football game Sept. 2, please meet with us at Cross Roads Cafe banquet room Tuesday, August 30, 8:30 p. m. Be there. If we have not seen you, and you will play, see Irvin St. Clair, Jr., captain, or Skinny Winn, co-captain.

blanks are in the form of a three fold card; the veteran will retain one third of the card, which contains the instructions, and after filling in his name, service number, C-number if any, and insurance number or numbers if available, and address, he will place a one-cent stamp on the remaining two-fold card and mail to Veterans Administration, Washington, D. C.

Volume 27, Number 35

MULESHOE — County Seat of Bailey County — TEXAS

Thursday, August 25, 1949

## Stutterin Sam Wows Audience In National Capital

When S-S-Stuttering Sam, the well known radio comedian of Amarillo appeared before a Rotary Club gathering of members and their ladies in Washington, D. C., he told them he was secretary to the Muleshoe, Texas, Club. Likely it was for a gag, capitalizing on the unique name of Muleshoe.

The Elk City, Okla., Journal recently commented upon Sam's speech before the audience in the national capital, quoting a full page article which appeared in the Denver Post. Mrs. Lewis Stewart, former Elk Cityan, received a copy of the Elk City write-up and brought it to The Journal office.

Sam, whose name is Cecil Hunter, is himself a former Elk City man. Stuttering Sam appeared in Muleshoe at a ladies night banquet of the JayCees and he wowed the local audience just as he did the Washington group, who, according to the write-up were "holding their sides."

## Frona Polio Case Taken To Plainview

Wednesday afternoon Gaylord Maurer was seized with an attack of sore throat, and went at once to the local hospital for a diagnosis, which was at once taken by Dr. Spring, and pronounced to be polio.

The patient was at once dispatched to the polio clinic in Plainview. He was taken over by his uncle, Lawrence Lillard, and was accompanied by Dr. Spring. The case, however, was pronounced to be not of the bulbar type.

Mr. and Mrs. Carl Maurer, parents of the young man, were over in the mountains of New Mexico at their vacation lodge and were not contacted until about ten o'clock at night. They arrived at Frona during the early hours of Thursday morning.

At this writing, Thursday afternoon, no further report has been received from the victim. — Frona Star.

Read The Journal Want Ads.

## 1949 Football Squad Muleshoe High School . . .

Pictured above is the 1949 football squad of Muleshoe high school with their coaches. The squad is working out daily in preparation for the opening of the season against Springlake here Sept. 9. Front row: left to right: Keith Bray, John D. Whipple, Lee Kim-brough, Roald Johnson, Lewis Shafer, R. E. Bryant, Bill Green, Billy Morrison, Buddy Lane, Robert Martin, D. L. Morrison.

Second row: Johnny Ladd, Ray Kersey, Ted Lawler, Marion Waggoner, Marvin Waggoner, Phillip Garrett, Jimmy Gaede, Charles King, Aubrey Heathington, Kenneth Lovelady, Dwayne Burkhead, Howard Tate.

Back Row: Coach Green, Joe Cummings, Bobby Goss, Bobby Seid, Bill Gaede, Ed Nickels, Benny Douglass, Charles Taylor, Bill Thomson, Charles Hornbrook, Bill Collins, Gene Harvey, Coach Bailley.

## Army-Navy Game Sept. 2 To Open Football Season

There'll be a hot time in the old town Friday night, Sept. 2, when football teams representing the Army and the Navy meet in Muleshoe high school stadium for a knock down, drag out, let 'em lay tussle, second renewal of an annual affair here under auspices of the Muleshoe Junior Chamber of Commerce.

For the Army, Lowell Irvin St. Clair has been named Captain, with Skinny Winn as co-captain; M. W. Pool II, is Captain for the Navy and from all appearances is so tough he doesn't need a co-captain.

St. Clair, forthright skipper of the Army 25, has issued a call for all ex-Army men to show up for a meeting the coming Tuesday night, to be held at 8:30 in the banquet room of the Cross Roads Cafe.

St. Clair said some of his prospective players have been contacted, some haven't. He wants everybody out Tuesday night. Co-captain Winn went over St. Clair's head and gave The Journal editor the "inside information" that there is quite a formidable list of men who will be ready to don the moleskins for old Army. Anyway, Mr. Ex-Army, if you haven't been seen, see St. Clair or Winn.

Meanwhile, the Navy contingent, under the cunning eye of Myron Pool (Second) quietly gathers its forces for the game. In next week's Journal, there will be a list of players for both sides, and the fans will recognize the names of men who in yesteryears made their mark in high school, college, or service football.

It is no bunch of amateurs who square off against each other in this serious affair, played each year for a good cause, this time for benefit of the high school athletic fund.

Last year, one football expert, who had witnessed countless games, told this writer that the local Army-Navy game was the best contest it had been his privilege to see. The boys are playing for fun, but the fan would never know it—both sides go in there to win.

In all, there will be nearly 50 men in uniform that night. Considering that only 11 can play on each side at the time, there will be plenty of reserves, plenty of fresh men, and the game will move along at a rapid pace.

Now, let the issue be joined, and, as McBeth said: Lay on, McDuff, and derved be he who first cries, Hold! Enough!

## Parmer Bond Issue Defeated

The second Road Bond election which was held throughout Parmer county met the same fate that was meted out to the first on Oct. 14, 1948. The bond issue was defeated for the same purpose that was held in May, but in this recent election, the vote against the bond issue was far greater in proportion to the total vote cast, than was the May election.

Following is a tabulation of the vote by precincts as the returns were shown to the Star:

Precinct	For	Ag't.	T
Farwell	71	99	170
Bovina	46	91	137
Frona	297	51	348
Black	14	22	36
Rhea	14	22	36
Okla. Lane	30	70	100
Lazbuddy	37	99	136
Lakeview	24	17	41
TOTALS	563	454	1017

According to the above tabulation, there was a total of 1017 votes cast in the county, and since a two thirds majority is required to carry such elections, a favorable vote of not less than 679 must have been cast favoring the bond issue. There being only 563 favorable votes cast the issue failed of carrying by 115 votes, whereas, in the former election it failed for the lack of only eight favorable votes. So what?

Try A Journal Want Ad.

## Muleshoe School Faculty Complete; Plans Complete For School Opening

All plans are complete for the beginning of a new school term, with arrangements made for housing all classes, with a complete faculty, and with all class schedules worked out, it was announced this morning from the office of Supt. W. C. Grandy.

The annual teachers meeting is set for next Wednesday, August 31.

High school students will register next Thursday and Friday, Sept. 1 and 2.

Grade school pupils will register Friday, Sept. 2.

Birth Certificates needed: Supt. Grandy said all children entering the first grade must have reached their 6th birthday before Sept. 1 this year, and they must present their birth certificates.

Final arrangements for rooms was announced by the Superintendent. Thirteen rooms are available in the barracks.

The first grade will be in the primary building; second and third grades will be in the old grade building; fifth grades in county building near old Legion Home

## Car Overturns; No Serious Injury

An automobile in which Mr. and Mrs. Frank Murdock were traveling to Albuquerque Saturday night skidded on wet pavement just west of Melrose, N. M., and overturned twice. The couple were en route to visit their son, Gene Murdock, and family.

They were brought back to Muleshoe by a Dimmitt truck driver and were met here by his brother and her sister, Mr. and Mrs. Bob Murdock and son, of Littlefield, and were rushed to the hospital at Armerst for medical aid.

Mr. Murdock was unhurt and Mrs. Murdock received injuries on the right shoulder, chest and neck. X-rays were made. No bones were broken and no internal injuries were received. She remained in the hospital until Sunday noon when she was released. She is reported to be doing nicely.

Mr. Murdock drives a delivery truck for Holt Oil Co., while Mrs. Murdock is employed at Pop's Cafe.

## First Baptist Men Will Meet Tonight

Men of the First Baptist Church of Muleshoe will meet tonight, Thursday, at 8 o'clock to decide about their proposed new church. Ray Griffiths, mailing a card to each put in parenthesis "No Collection". Plan will be explained at the gathering.

A light of a single 100 Watt bulb matches the output of 129 candles.

## No Serious Bollworm Infestation In This Area Has Been Noted To Date

Reports to date show only light scattered bollworm infestations in northern areas of Texas, especially around Lubbock. County Agent J. K. Adams told The Journal today.

## Mason Farm Sale Booked August 30

Hailed as "the biggest sale of the season," a public farm auction will be held at the Marvin C. Mason farm three miles east and two north of Muleshoe on the Plainview highway, Tuesday, August 30, starting at 10 a. m.

In addition to an extra-large collection of farm machinery, cattle, hogs, and household, a 60-acre irrigated farm will go under the hammer to settle an estate.

Two auctioneers and two clerks have been engaged to handle this large sale. Col. Dick Doshier of this city, and Col. W. D. Wanzor of Muleshoe, will cry the sale. Orval Francis and H. C. Elliott will act as clerks. Ladies of the Y-L community will serve lunch at noon.

See a complete list of the offerings in this issue of The Journal.

Electricity is a pretty cheap hired hand and one of the greatest contributions to farm civilization. day for movie color camera and camera fans and special consideration will be shown them. The public is invited to the Park.

**WHAT IS MEANT BY SOCIALISM**

From The Dallas Morning News

Former President Herbert Hoover says that we are "driving down the back road" to collectivism and socialism. We are, but it is worse than that.

We hear much mention of the welfare state, socialism, Communism, Fascism and other forms of economic, political and social organization. They are not the same thing, but they are all part of a single drift. In fact, no one of these variously tagged ideologies remains constant as the theory behind it is applied.

It is easy to tag a theory. You can put a theory down in black and white and it stays black and white, that is, as long as there is no attempt to put into practice. Karl Marx had a very pat conception of Communism as a theory and even as he would apply the theory. But Marx had no concept of what the Marxian theory becomes when actually applied. Not a single socialism experiment can be cited that has turned out as envisioned by its theoretical advocates.

A certain cross-section of humanity divides it rather definitely into two kinds of people. There are those who would lead. They have various motives, some of which are good and some of which

are evil, with varying shades and tints between. Then, there are those (the little people) who are content to live and die in a small sphere. But they have their ruling passion, too. They want security—economic security, political freedom and spiritual peace of mind. They want to have confidence in what this life holds for them, and what will come to them when they have departed from this world. Appeal to this sense of insecurity is the strongest appeal that can be made to man.

It is a legitimate field of appeal, of course. It can be—often is—the appeal of truth. But often it has the appeal of unintentional misconception or deliberate deception.

On the basis of the experience of history no combination has worked so well as that found in the slightly differing faiths based upon the principles laid down in the Old and New Testaments, democratic government and free economy. They put responsibility for individual security in this world and the next squarely upon the individual.

The new isms are all alike in attempting to delegate this responsibility—to lift it from the shoulders of the individual. And they all lead toward the same end when the theories behind them are given practical application, the oppression of the many by the few. We should try to get the full prospect when we talk of the many old and new responsibility-lifting isms and their labels.

**CHRISTIAN SCIENCE SERVICES**  
"Christ Jesus" is the subject of the Lesson-Sermon which will be read in all churches of Christ, Scientist, on Sunday, August 28. The Golden Text is: "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life" (John 3:16). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Think not that I am come to destroy the law, or the prophets: I am not come to destroy, but to fulfill" (Matthew 5:17). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Divine Truth, Life, and Love gave Jesus authority over sin, sickness, and death. His Mission was to reveal the Science of Celestial being, to prove what God is and what He does for man" (page 26).

**Babson Discusses Taxes**

Gloucester, Mass., August 19, 1949. A young friend of mine arrived home the other night to find his wife on the warpath. She had kept account, for the first time, of every cent she had spent that day on taxes. First she went shopping for some articles used in most homes as regular necessities. She bought a small container of deodorant (Fed. tax \$.08), and one large container (Fed. tax \$.12). She also bought one can of baby powder (Fed. tax \$.10), a bottle of baby oil (Fed. tax \$.20), and one medium sized jar of hand lotion (Fed. tax \$.09). Any woman who does all of her own housework will tell you that the last mentioned item is no luxury.

her, or any thinking person, a single luxury. Small potatoes? Multiply that amount by all other housewives in the United States

Roger V. Babson

**Everyone Pays The Same Federal Sales Taxes**

Next, my friend's wife paid two bills, one for her husband's safe deposit box (Fed. tax \$1.00) where a very few government bonds repose. At the telephone company where she paid her second bill there was a Federal tax of \$.56 for "local service and equipment"; another \$.38 on "message units"; and another \$.13 on a nearby toll call. The bill was \$7.82. \$1.07 of this amount went to the Government. That same morning she had the family car filled with gas. This tax amounted to \$.45 on 10 gallons, as the Mass. state tax is \$.03 on each gallon and the Fed. tax is \$.01 1/2. All these taxes are in addition to the taxes the corporations (which are already taxed to the hilt) pay.

At noon, this young housewife, sick and tired of Federal and state taxes, went to a restaurant for lunch—one where she could get a "99c special". A choice of beverage was included. She decided to have tea—"iced". When the bill came she found that 5c had been added for the ice! The bill was \$1.10. She figured that having her tea iced had cost her 11c extra, 6c of that amount going straight to the State Government for the "old age" tax.

**Multiplication**  
The above little story explains why housewife came home angry and resentful. She had turned over in that morning \$2.81 in taxes to the Federal Government and \$.36 to the State—a total of \$3.17. She had not bought what seemed to

out on a normal morning's activities and you will see where the money for social experiments is coming from—out of your own pockets.

C. E. Glander (Ohio Tax Commissioner and Pres. of the Nat'l Assoc. of Tax Administrators) says that in the past thirty years annual taxes in the U. S. A. have risen 1,500 per cent. Someone has estimated that when a baby is born in the United States he can count on spending several thousand dollars in gasoline taxes alone before he dies. "There are 200 separate taxes in the price of gasoline levied at different stages of processing from the oil well to the gas pump", according to the American Petroleum Institute.

**Where is It Going**  
You can figure that you are working for at least three months of every year entirely for the Government, not keeping a cent from your labors during that period for living expenses. These are enough to support one government employee for about every seven families in the U. S. In the last twenty years the population of the United States has increased 21 per cent. The federal employee increase has been 250 per cent. It is your money which is being spent on all "security experiments". If you save a dollar for the future you have that dollar, plus the interest it earns ready and waiting for you when you need it. But when you hand over a dollar to the Government in taxes, you have very little to show for it.

A national health program, for instance, would call for almost as

many more Government employees to operate it, and keep the records, as it would require doctors. Your doctor's bills might be less; but your taxes would be more. All these "social programs" mean higher taxes for you, both on income directly and also on what you buy. It is well said that "Government has nothing except what the working taxpayer gives it." You are the working taxpayer. What is your desire, to spend your own money as you see fit or to turn nearly one third of it over, each year, to the government to spend? Upon your choice depends the freedom of the individual in this country.

**HOME FOR WEEK END**

Miss Dolores Determan, a student at Lipperts Business College at Plainview will be home over the week end visiting her parents, Mr. and Mrs. Fred Determan.

**HOME FOR WEEK END**

Mr. and Mrs. John Faber, of Early, Iowa and Mr. and Mrs. Richard Pattee and small son, of Sioux Falls, South Dakota were visiting in the Fred Determan home.

**WEEK END VISITORS**

Mr. and Mrs. Elzie Gilbreath, and children, of Hereford, Texas were week end visitors in the Marvin Cave home.

**RECEIVES B A DEGREE**

LAS VEGAS, N. M.—Edward Burleson Choate, of Muleshoe, Texas, was granted his bachelor of arts degree at Highland University, Las Vegas with English and history as his major fields of study. Choate was among the 139 members of the summer quarter graduating class.

**COTTON LEE CLAIMS STEER ROPING RECORD**

PINEDALE, Wyo.—Cotton Lee of Fort Sumner, N. M., laid claim to a new world record of 15 seconds for tying a steer. Lee's time was five-tenths of a second faster than the record set in 1942 by Dick Truitt of Stonewall, Okla., and recognized by the Rodeo Cowboys Association. Lee took part in a \$12,000 steer roping contest. Twelve cowboys competed for the purse and one-third of the gate, another \$9,000.

**Looks new! Feels new! IS new-through and through!**

It's the new Buick SPECIAL—new in line, new in size, new in price and value!

YOU take a look—and your fingers itch to get hold of its waiting wheel.

You cast an eye over its gleaming new bumper-guard grille, its tapering fenders, its jet-plane lines—and know that this is what others have been groping for.

You slip inside. Twelve inches added to rear-seat cushions emphasize the biggest interiors you can buy for the money. A broad, curving windshield set in narrower corner posts means a better view any way you look.

Now touch the throttle. Not just high-compression power, but high-pressure Fireball power, to get the most from today's fuels today!

You finger the controls—not just standard transmission alone, but the magic smoothness of Dynaflow Drive\* at your option.

Try it in traffic—and less length bumper-to-bumper makes it a dream to park or handle. Try it on the road, and seats placed ahead of

\*Optional at extra cost.

the rear axle add even more comfort to that unequalled Buick ride. So you say, "How much?"—maybe bracing yourself mentally.

Then you learn that price is part of the good news too! Figures fit the modest budget as this handy-dandy fits the modest garage—and you get room, power, ride, and the smartest look on wheels at the lowest price you'll find on any valve-in-head eight!

So you size it all up with a happy "Buick's done it again!"—and see your Buick dealer quick as you can.

After all, the quickest way to get one of these into your garage is to get a firm order in!

**TEN-STRIKE! Only Buick SPECIAL has all these Features!**

TRAFFIC-HANDY SIZE • MOST ROOM FOR THE MONEY • DYNAFLOW DRIVE optional at extra cost • JET-LINE STYLING • NON-LOCKING BUMPER-GUARD GRILLES • HIGH-PRESSURE FIREBALL STRAIGHT-SHAFT ENGINE • COIL SPRINGING ALL AROUND • LOW-PRESSURE TIRES ON SAFETY-RIDE RIMS • GREATER VIBRATORY FLEX AND AFT • SELF-LOCKING LUGGAGE LIDS • STEADY-RIDING TORQUE-TUBE DRIVE • THREE SMART MODELS WITH BODY BY FISHER

**ENGELKINGS BACK HOME**  
Mr. and Mrs. E. E. Engelking and children returned Friday from a vacation trip to Oklahoma, Kansas, Arkansas and Missouri. They visited relatives and friends in Oklahoma and Arkansas.

**IN DALLAS SUNDAY**  
Mrs. Clyde Bray, Sr., and her father, George Carpenter, of Earth, and Mr. and Mrs. Andy Thompson of Dimmitt went to Dallas Sunday to be with an uncle, Owen Carpenter who is seriously ill.

Since we have a new billing machine in operation, all meter reading cards must be in the office by the 24th of each month or they will be estimated as the month before. We urge each member to cooperate with us in this matter.

**AIR TRIP TO DALLAS CELEBRATES ANNIVERSARY**

Mr. and Mrs. Howard Cox this week observed their anniversary by flying to Dallas for several days of vacationing and shopping for their store, Cox Radio & Electric.

They caught a plane at Lubbock. Incidentally the lines are now offering round trip fares, and where two travel together the second fare is again reduced.

Soils stay cooler in the summer and warmer in the winter when they are protected by a cover crop.

Hog cholera can be controlled if swine producers will follow a program of strict sanitation and vaccination on their farms.

**MEAT CUT QUIZ**

Q. What is the name of this cut of meat?

A. This is a wedge-bone sirloin steak. Q. Where does it come from and how is it identified?

A. This cut of meat is from the loin end of beef. It is identified by the wedge-shaped bone. This largest sirloin steak also contains a part of the backbone.

Q. How is it prepared?

A. Sirloin steak is prepared by broiling or panbroiling, depending on the thickness of the steak—thick steaks should be broiled, thin steaks panbroiled. To broil have the steak cut at least one inch thick. Place the one-inch steaks on the broiler rack two inches from the heat and two-inch steaks three inches from the heat. When one side is nicely browned, season with salt and pepper, turn and finish cooking on the second side. Steaks cut one inch thick require 15 to 20 minutes for rare done, and 20 to 25 minutes for medium done. Two-inch steaks require 30 to 35 minutes for rare done and 40 to 45 minutes for medium done. For panbroiling, place the steak in a frying-pan, cook slowly on one side, then on the other, turning as often as necessary to insure even cooking. Pour off the fat as it accumulates in the pan.

**BACK FROM ARKANSAS**

Mr. and Mrs. Ed Clark and Mr. and Mrs. Tooty Middlebrook have returned from a trip to Arkansas, Louisiana, and North Texas. It was too hot in Arkansas to hunt squirrels, but the Ozark mountain region gave the travelers some delightful scenery.

**SUNDAY GUESTS**

Mr. and Mrs. J. L. Thomas has as their guests Sunday at dinner, Mr. and Mrs. Earl Thomas of Oklahoma City; Mr. and Mrs. E. J. Thomas Sr., of Muleshoe.

## Hog Cholera In Texas Can Be Eradicated States Veterinarian

COLLEGE STATION, Aug. 23.—Hog cholera continues to take a heavy death toll of swine in Texas and there is no good excuse for this loss, says Dr. W. C. Banks, extension veterinarian of Texas A. & M. College. The disease could probably be eradicated, he continues, if all Texas swine producers followed a program of strict

sanitation and used the highly successful vaccinations recommended for the control of hog cholera.

The most widely used method of vaccination is known as the serum and virus or simultaneous method. The live virus of hog cholera and a hog cholera anti-serum are injected at the same time. This method produces immunity in from seven to ten days after being administered to healthy pigs. The immunity in normal pigs is usually strong enough to give lifetime protection and the cost is moderate, says Banks.

The big disadvantage of using the serum and virus method is that live virus is introduced on the premises. Carelessness or misuse can cause an outbreak of hog cholera. Once vaccination is done with serum and virus, it is wise,

**IN KNOX CITY**  
Mr. and Mrs. Howard Elliott spent the week end in Knox City and their daughters returned home with them. They had been visiting there several days. They returned by Lubbock and Quinell stayed over for a visit with her uncle and aunt, Mr. and Mrs. Chester Elliott.

**VISITING PARENTS**  
Mr. and Mrs. Clyde Bray, Jr. and children of Tampa are visiting here this week in the home of his parents, Mr. and Mrs. Clyde Bray, Sr.

says Banks, to repeat the vaccination year after year on all pigs raised.

The advantages of the "kill" vaccine method are based on the facts that the virus in the vaccine have been killed and it will not introduce hog cholera on clean premises nor can susceptible pigs become infected from it. In addition, this vaccine can be used on ailing or unthrifty pigs without the risk of adding one disease to another.

One disadvantage with this method is that about three weeks are required for the animal to develop immunity. Pigs do not develop a lifetime immunity from this vaccine. For this reason, swine kept for breeding purposes must be given several injections, says Banks. An injection given about two weeks after weaning will give protection until the pigs are fat and ready for market. Breeding animals should be re-injected after about six months and again once each year.

On the basis of available information, Dr. Banks says he believes that the use of the animal vaccine is better suited to the needs of a majority of the swine producers in Texas. Its use will eventually lower the incidence of hog cholera in the state, he thinks.

Dr. Banks believes that outbreaks caused from faulty vaccination or from the vaccination of parasite infected animals can be prevented if a veterinarian is employed to do the job. He is in a position to examine the pigs and to determine the proper procedures to follow in safely immunizing the herd.

## Soil Temperature Means A Lot When It Comes To Raising Crops

COLLEGE STATION, Aug. 23.—Can you remember how hot bare ground felt when you used to go barefooted? How you hunted grass-

sy spots to walk on? That was just probably what you called a natural reaction, but the matter of soil temperature is a very important item in a soil building program, says Roy L. Donahue, extension agronomist of Texas A. & M. College.

### Tweed-Duet

Any resemblance between this girl's outfit and her beau's sport togs is purely deliberate—for sentimental as well as practical reasons. The odd jacket is a distaff version of his favorite wool tweed, and the skirt, of similar material, will keep in fashion stride with his slacks. She chose the jacket from a gray, green or brick assortment—for about \$18—and the skirt, in black spiked with red checks or green with gold, was hers for about \$11. This Tilly Schanzer ensemble is from four pages of "I wear fabrics like his" in the August issue of Good Housekeeping magazine.

A summer crop keeps the soil cooler in hot weather and a winter cover crop helps to hold the temperature up in the winter time. This cover is important for Donahue says that for every 10 degree rise in temperature most chemical reactions are doubled and there are plenty of chemical reactions taking place in the soil. The rotting of organic matter is a chemical reaction.

So when the soil is allowed to go without summer cover, it gets very hot and this causes the organic matter to burn up faster. Soil low in organic matter doesn't take up moisture when it rains and is drier when the rains don't come often. In areas where wind erosion is a problem, it blows away easily, and in areas of heavy rainfall, it washes badly, says Donahue.

It may be too late to plant a summer legume or grass crop this year, but it is not too late to plan your cover crop for this winter, next summer or for that matter for each season over a five year period.

What can you expect from a program? Donahue says averages from extension service demonstrations in 86 counties show that when corn followed a soil building legume, yields increased 41 percent. When the soil building legume was fertilized, the corn produced an additional 8 bushels per acre on the average.

Reports from 21 counties showed that grain sorghum following a fertilized legume made a 70 per-

cent increase in yield and cotton yields were increased 60 percent, says Donahue.

He adds that if you are interested in getting a soil building program started on your farm, visit the local county agent and talk

the situation over with him. Chances are good that he can show you demonstrations where soil building crops are being used to increase crop yields and too, he can help you make that long time plan for your farm.

## New Muleshoe Sub-Station

The Muleshoe substation located one mile west and one and a half miles north of Muleshoe is now serving the Muleshoe, Springlake, Earth, West Camp and Needmore area. This is one of the most complete substations of its size in the

state of Texas operating 7 circuits, and the best protective devices known to the electrical world. Another substation is under construction at Springlake to serve that area and when completed, outages will be to a minimum.

## Glimpse At Life Behind "The Walls"

Surely there never was a newspaper man sent to the penitentiary. That being the case, the editor of The Echo, Texas Prison System publication, has certainly learned fast since he went behind the walls (unless he's a civilian). However it is, The Echo is one paper that is always welcome to the exchange desk of The Journal. The Journal clipped the following little piece entitled "Echo Editor Goes To Farm", and we believe

it will be of interest and help us to understand how things go in a world of which we know nothing.

Oh! My aching back. What I saw a couple of weeks ago when I took a little trip with Mr. Dobbs and Mr. Turner makes me plenty glad to do a little overtime work here in the walls. You guessed it—cotton. Acres of it. Miles of it. As far as the eye could see, nothing but grand, sturdy, waist-high cotton.

We went to Harlem, the Central Unit and Central No. 1 to get pictures. The day was cloudy, but Mr. Dobbs managed to get some pretty good ones. I ate dinner at Harlem and can give those cooks the highest praise. The food was swell.

The day before we arrived, the boys there had picked a truck-load of two thousand watermelons for use at the walls. They were picking more the day we were there. Peas, corn, cotton, okra, in fact everything was the best in years.

It was too muddy to work when we got to Central One, and the boys were all in the buildings. We especially wanted pictures of their tractor train in operation. When we explained what we wanted, Mr. Bledsoe, who happened to be in charge at the time called the men to ride the train for a picture. The cooperation was good. The men turned out without a grumble; guards had to be rounded up but obliged with a smile and Mr. Bledsoe went out of his way to see that everything went just the way Mr. Dobbs wanted it for his pictures. That's the kind of spirit that is giving the system the best crops in many a moon.

## Sheriff's Report . . .

Hello everyone: Here we are back again after missing last week. Sorry to have missed an issue, but last Wednesday morning we had a little disturbance down south. Nothing serious, just some family spat, no arrest was made on this case and we hope everything is straightened out. That is our excuse for not having a report in last week's paper.

Everything for the past week has been quiet as far as law enforcement was concerned.

However we did get one bootlegger last Saturday night. We also got a Negro on the same night carrying a gun and one drunk driver was arrested.

These negroes were taken in down at Circle Back Negro dance hall.

Here we must make an apology for not having been down there before. We had had several complaints of this place, and others said they were quiet and orderly, but to our notion they were not so quiet and orderly.

We do not want to hinder a farmer in any way nor to molest his hands, but we can't stand by and let such as this go on. As most of you know this was the very place a murder occurred something like a year ago and it looked like they were getting in a good way the other night. There were a few whites, more Mexicans and from the looks of the negroes you would have thought it was Africa. In fact I have never seen that many negroes at one place since I was last in Africa.

This was my first time to ever go to a negro dance, but some of the other fellows had been and knew what would happen. The

dance hall is of an old Army Barracks with doors in each end. Buck and Wayne were going in at one door, Ralph Carpenter, our new nite deputy and myself were going into the other door. Buck and the patrolman got to their door first. Ralph and I never got to our door but we almost got trampled for those negroes came out our door like a bunch of chickens that had been disturbed. Boy I'll know next time to be at that door on time.

To this time there has been 114 in jail. All in all, justice, county and district court. We have arrested 18 for bootlegging, 16 have been convicted and one released and one case pending.

### SEWING MACHINE CLINIC

Are you interested in learning how to clean and make minor adjustments on your sewing machine? If so plan to attend the

THE MULESHOE JOURNAL, Thursday, August 25, 1949

sewing machine clinic sponsored by the Bailey County Home Demonstration club women on September 16 at the Corrington home on the corner of H and West 2nd street at 2:30 P. M. This training meeting will be conducted by Mr. Strow and a clothing instructor from the Singer Sewing Machine Company located at Clovis, New Mexico.

Demonstrations will be given on

the use of some of the new attachments now available, as well as the general care of the machine. This is probably the only meeting of its kind to be held in the county this year. It is open to anyone who is interested regardless whether they are club members or not.

Why are more and more families choosing the Servel GAS Refrigerator?

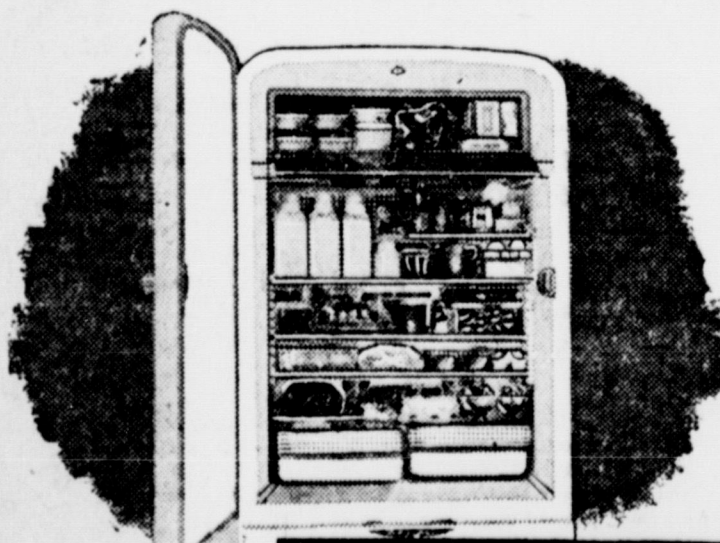

## IT'S GUARANTEED FOR TEN YEARS!

### ONLY SERVEL STAYS SILENT, LASTS LONGER

Talk to folks who've had experience. They'll tell you, "The Gas Refrigerator is your big refrigerator value! It guarantees silent, dependable performance for ten full years!"

How is this possible? Because Servel has no motor, no machinery. There's not a single moving part in its freezing system to cause noise or wear. A tiny gas flame does the work. So, Servel stays silent, lasts longer.

See the new Gas Refrigerator. You'll find every new convenience. Big frozen food compartment. Plenty of ice cubes. Flexible interior. And remember—you're sure of long-lasting noise-free, trouble-free performance with Servel!

STAYS SILENT... LASTS LONGER

**East Vs. West in College Wear**

CHICAGO—What does the college man wear to class? That question, asked by Marshall Field & Company's Store for Men in a back-to-school survey of 32 colleges and universities, revealed a drastic difference of fashion opinion. On the left, in loafers, slacks and a sports shirt, is the typically casual Western man. His Eastern friend, however, is dressier by far in his knit tie, white shirt, jacket, slacks and white shoes. Eighty per cent of the Ivy Leaguers wear shirts and ties to class, while 90 per cent of Western boys wear sports shirts, according to Field's survey, which was made for use in correctly outfitting collegians in its Quadrangle shop.

**Leather Craft Training School To Be In Corrington Home September 12**

Are you interested in learning to make a purse, a billfold, a belt or some other leather article? If so plan to attend the 2 day training meeting September 12 and 13 conducted by Mrs. Pauline Davis of San Angelo. The meeting will start at 10:00 A. M. and be held in the Corrington home on the corner of H and west 2nd street unless more space is needed. Then another meeting place will be secured. Anyone interested is welcome to attend one or both days. Mrs. Davis will have for sale various leather articles cut ready to start work on, as well as the various tools and other equipment needed to do leather work with. The expense of this training will be what each person wants to make plus a 50c registration fee for the two days. This registration fee will be used to pay the travel expenses of Mrs. Davis and other expenses for the meeting. The noon meal will be paper bag lunches brought by each person attending. Everyone will eat together and the bag lunches will be supplemented by a salad and a drink for the entire group. Extra card tables are needed to work on. Include yours if it is convenient. This is your chance to learn to make that toiled bag you have so long been wanting. Christmas is only around the corner and a hand made belt for the boy in the family should be welcomed. Don't miss this training meeting. For further information contact Mrs. S. C. Caldwell, Route 1, Muleshoe or your local home demonstration club president.

**Griddle Cake Breakfast**

Start cool days with a platter of tempting hot cakes enhanced by broiled pineapple and peach slices. The brisker the morning, the heartier the appetite. That's why griddle cakes are top favorites for fall and winter breakfasts. Give hot cakes extra glamor for a special affair by serving them with broiled pineapple, apricots, or peaches. Such flavorful meats as sausage, bacon, ham, or lamb kidneys are generally preferred to round out a griddle cake meal. Besides pleasing the family, griddle cakes can be relied on for much good food value. Enriched flour is a good source of essential B-vitamins and iron, plus protein and food energy to keep morale high. This recipe makes extra glamor for a special affair by serving them with broiled pineapple, apricots, or peaches. Such flavorful meats as sausage, bacon, ham, or lamb kidneys are generally preferred to round out a griddle cake meal. Besides pleasing the family, griddle cakes can be relied on for much good food value. Enriched flour is a good source of essential B-vitamins and iron, plus protein and food energy to keep morale high. This recipe makes extra glamor for a special affair by serving them with broiled pineapple, apricots, or peaches. Such flavorful meats as sausage, bacon, ham, or lamb kidneys are generally preferred to round out a griddle cake meal.

**GRIDDLE CAKES**

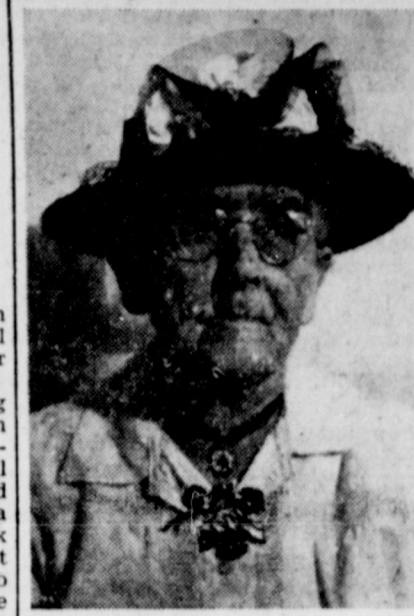

2 cups sifted enriched flour  
4 teaspoons baking powder  
1 teaspoon salt  
1 egg  
2 1/2 cups milk  
1/4 cup melted shortening

Sift together flour, baking powder and salt. Beat egg slightly and add milk. Add to flour mixture, stirring until flour is moistened. Add shortening. Bake on ungreased, hot griddle. Makes about 30 four-inch cakes.

**Lazbuddy News**

Mr. and Mrs. Truman Gleason and children Jerry and Linda visited Mr. and Mrs. Paul Gleason of Odessa over the weekend. Dan Winn Jr., is helping Alex Steinbock irrigate this week. T. D. Vaughan made a business trip to Clovis this week. Rev. L. L. Freeman and children left by truck for Salem, Oregon, Tuesday to move back their household furniture. Mrs. Freeman left for Oregon last week and disposed of their property there. Mr. and Mrs. Jimmy Seaton have returned from a trip to Corpus Christi. While there, they visited Mrs. Seaton's sister, Mrs. Dave Daniel and husband. Mr. and Mrs. Carl Lane and daughter Barbara Nell, have moved from Roswell, N. M., to the farm of Mr. Gordon Duncan, where Mrs. Lane is now employed. Mr. and Mrs. Merle Gough and children were here visiting Mr. and Mrs. Riley Goodnough and family this week. Mr. and Mrs. Judd Clark and Emil Hansen are visiting the Northwest Pacific states and will be gone about three weeks. The Clarks are making the trip in their new Chevrolet. Mr. Warren Bartlow left for his home near Waynoka, Okla., Tuesday. Mr. Bartlow has been here helping Mr. H. D. Hutchison on his farm and ranch. Mr. and Mrs. Alford Mayfield and Margaret Fern had as dinner guests Sunday, Mr. and Mrs. Willie Steinbock and son Max, and Jo Ann Pruitt. Mr. and Mrs. Truman Gleason entertained their domino club Friday night. Refreshments of sandwiches, cheese, pickles, ice cream and pineapple cake and punch were enjoyed by those present. Terry, small son of Mr. and Mrs. Eulan Parham had an attack of tonsillitis this week. Mr. and Mrs. I. C. Mahan of Lazbuddy Store, will soon enjoy an addition of two new bedrooms. The kitchen will also be remodelled. A young folks domino club has just been organized. Those participating will include Mr. and Mrs. J. P. Mayfield, Mr. and Mrs. Ralph Broyles, Mr. and Mrs. Marvin Mayfield and Mr. and Mrs. Rex Steinbock. Mr. and Mrs. W. S. Menefee recently purchased a new Chrysler and have gone on their vacation. Mr. and Mrs. Dave Brown are the proud parents of a baby daughter, born at Friona hospital

**Pioneer Is Now Approaching 90**

MRS. S. F. TIPTON

Mrs. S. F. Tipton, above, having just celebrated her 89th birthday, having been a pioneer settler here, and having never had her picture in the paper, "thought it was high time such was done." Mrs. Tipton was 89 July 5. She is a native Texan, as was her late husband, Rev. S. F. Tipton, a supply pastor of Missionary Baptist Churches of the Plains and New Mexico for many years prior to his death in 1940. They resided in West Camp community for a long time after moving here in 1910. They were married in Bosque County June 10, 1875. Mrs. Tipton's half sister is Mrs. B. E. Chaney, residing two and one half miles northwest of Muleshoe, with whom she makes her home part of the time. She also makes her home with an adopted son, A. A. Tipton, and family of Lubbock. Mrs. Tipton is hale and hearty and gets around mightily brisk to be in her ninetieth year.

**Garden Clinic For Morton Announced**

The Cochran County Garden Club, of Morton, will hold a garden clinic at Veterans Hall Friday, September 2, from 10 a. m. to 4 p. m. The morning session will be lectures and demonstrations on horticulture, which will include preparing soil, planting, feeding, spraying, disbudding, and curing diseased plants; and flower show practice with instructions on how to exhibit in and how to stage a flower show. Corsage making and flower arrangements with special attention to table settings and color harmony will be given in the afternoon. This clinic is open to all women whether garden club members or not and will be conducted by Mesdames R. C. Badgett, John Powers, J. A. Fortenberry, and Claud Keeton, all of Lubbock and all recognized authorities in their fields. Women of the Muleshoe area who are interested in a garden club are invited to attend this clinic where they may obtain information on organizing one. At a dinner party, a rather self-assured young man found himself seated next to Mrs. Sidney Webb. After some rather impertinent preliminary remarks, he said, "All this talk about feminism seems absolute nonsense to me. Why, there isn't a woman on earth today who wouldn't rather be beautiful than clever." "I admit that," replied Mrs. Webb. "But did you ever stop to think why? It's because so many men are stupidified—and so few are blind!"

**RETURN FROM COLORADO**  
Mr. and Mrs. Morris Douglass returned Sunday from a weeks vacation in Denver and Idaho Springs Colo.

**Are You Concerned About The Movement Of Your Grain This Fall?**

**FURNITURE FASHIONS** by Frances Ainsworth

GRAND RAPIDS, MICHIGAN — Chests that may be combined and arranged to fit the needs of any room in the home are becoming more and more popular with modern homemakers. Such designs are those illustrated — a pair of modern chests from The Widdicombe Furniture Company's complete grouping of contemporary furniture for living room, dining room and bedroom. Made in all mahogany and mahogany core, the pieces are shown in light Bisque Mahogany finish, and are also available in Cordovan Mahogany, a dark highly polished color to harmonize with other dark wood pieces.

**Clean Cook Stoves Cook Much Better**

A clean kitchen range looks and also cooks better than one allowed to gather grease, spilled food, dust, or rust. For full, even, efficient heat cleanliness is important. Reflecting surfaces must be kept shining to do their job of throwing out heat. A clean range also helps keep the kitchen clean and free of unnecessary smoke and odors. The manufacturer's booklet which comes with a new range includes advice on cleaning, but here are some general hints on cleaning methods. Wipe up spills and splatters promptly with a dry cloth or paper. Acid foods may eat into enamel surfaces if left on. Other foods, especially grease, may scorch on until they are difficult to remove except by strenuous scouring, likely to be hard on the surface. Grease comes off most easily when fresh and hot. Metal and porcelain surfaces need frequent washing with a cloth moistened in warm suds of mild soap or a detergent, but this should be done only after the stove cools. A wet cloth on a hot stove is a hazard to hands and may crack enamel. Many good housekeepers make an after-the-dishes habit of washing the stove. Go easy on water, the specialist says, so that it does not drip or run down sides or into burners, leaving streaks or rust. Charred particles on burners or heating units, or in the bottom of

**Pleasant Valley Club Meeting Held**

Pleasant Valley Social Club met Wednesday, August 10, in the home of Mrs. E. K. Angeley with 17 members, 4 visitors and one new member. A number of games were enjoyed during the social hour. Then lovely refreshments were served by the hostess, to members, Mesdames Seal Moore, Floyd Andreas, Oscar Allison, Jerry Allison, R. L. Roubinek, Jack Epps, and the new member, Mrs. Herman Haberer, and visitors: Mrs. McKinstry, Mrs. J. P. Lilly, Mrs. Julian, Mrs. O. K. Angeley. Next meeting will be Wednesday, August 24, in the home of Mrs. Floyd Andreas. The oven may be brushed out after the stove cools. If gas burners become clogged, they may be cleaned with a metal hairpin or wire. Ovens often are neglected in cleaning because they are closed and out of sight. Yet a dirty oven may smoke when heated so that food cooked in it takes on an unpleasant taste. Diluted ammonia helps remove scorched-on grease in ovens. Apply with a cloth. Or set a dish holding an ammonia-soaked cloth in a closed oven overnight to let the fumes loosen the soil. Then scour lightly with very fine steel wool or fine scouring powder like whitening. Leaving the oven open to cool helps keep it clean and fresh and prevents rusting from closed-in steam.

**HOTPOINT'S Dishwasher** with FRONT opening and ELECTRIC drying!

**SENSATIONAL NEW Automatic**

**EASY TERMS \$12.78 per month**

DOUBLE WASHES DOUBLE RINSES DRIES ELECTRICALLY

Now you can banish dishpan drudgery... save seven hours a week... for only four cents extra a day! Ding-a-ling-a-ling! Ding-a-ling-a-ling! "Everybody in his seat. Get out your notebooks and pencils." In case you haven't guessed, that's school starting. It's apple-for-the-teacher time or it will be very soon. We know you Mothers will be glad to have the children off your hands after these hot summer months, but you do want to start them off to school right. Sharpen up their pencils, but also sharpen up their appearance. Sure, reading, ritalin and rithematic are first on the report card, but somewhere in the fearful reckoning will be an accounting of your child's grooming, and that's where you come in. It may not be teacher's idea of ethics for you to help your cherubs with their adding and subtracting, but it certainly is right and necessary for you to check behind your second-grader's ears—those who-see-em, can't reach-em places. And as for teeth—that with shoes ranks first on teacher's checking list. You just have to stand over Sissy and Junior and see with your own eyes, that they brush those teeth. As for shoes, well, that's a daily brush job, too. Just what age to start your youngsters polishing their own shoes is up to your own good judgment, but when you do feel it's about time they assumed that responsibility — make the job fun. Have a which-shoe-gets-the-shiniest contest. Let them rig up a shoe kit — complete with brush, cloth and plenty of the ol' shinola. Then watch them set off to the little red school house with sparkling toes... a sure sign of success. Hair is next for the trouble-shooter. Curis hanging down the sides are pretty, but perishable. After recess time, they generally look bedraggled, so save them for pictures, Sunday and company. Looks as if summer laxity must end. It's back to school time any-day, and let's make it a gold star day for your youngsters.

**CARD OF THANKS**  
We wish to sincerely thank our friends and neighbors for every kindness extended during the illness and death of our loved one. Each expression of sympathy, the many floral offerings, the nice food, the kindness of the pastors and everyone who helped in any way will be always remembered. We especially thank the Doctors and Nurses of the Green Hospital, also the Special Nurses, for their untiring efforts. To each of you we are more than grateful. May the blessings of our Heavenly Father abide with you always. Mrs. Mary E. Hart, Mrs. Anna Margaret McGraw, Mr. and Mrs. Houston Hart, Mr. and Mrs. Bill Hart.

**FIREWORKS ORDNANCE**

AN ORDINANCE PROHIBITING THE SALE AND DISCHARGE OF FIREWORKS, TORPEDOES, ROCKETS, ETC., WITHIN THE CITY OF MULESHOE, TEXAS, REPEALING ALL ORDINANCES IN CONFLICT HEREWITH, AND DECLARING AN EMERGENCY. BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF MULESHOE, TEXAS:

Section 1. No person, firm, company, corporation or association shall cast, throw or fire any squib, rocket, cracker, torpedo, grenade, gun, revolver, pistol, cap or cartridge, or other combustible fireworks of any kind in the City of Muleshoe, Texas.

Section 2. No person, firm, company, corporation or association shall exhibit or have in his possession, with intent to give away or sell or offer for sale or sell, within the City of Muleshoe, any squib, rocket, cracker, torpedo, grenade, gun, revolver, pistol, cap or cartridge, or other combustible fireworks of any kind in the City of Muleshoe.

Section 3. Any person, firm, corporation, company or association who shall violate any of the provisions of this ordinance, or suffer or allow the same to be violated, shall upon conviction therefor be subject to a fine of not more than One Hundred Dollars (\$100.00).

Section 4. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

Section 5. In view of the fact that this ordinance is necessary for the immediate protection and preservation of the public health,

**Mechanical Cleaner Suggested for Barns**

If you're building a new barn, or remodeling an old one, it would be a good idea to include plans for installing a mechanical barn cleaner.

That's the advice of M. W. Forth, an engineer with the University of Illinois college of agriculture. Forth says it would pay to make provisions for a barn cleaner even though plans might not call for one right away.

**Soil Check May Answer Slow Tile Drain Puzzle**

If tile-drained land is slow in drying, check the organic matter content of your soils before blaming the tile system. Many tile lines that worked well when originally laid are now hampered because the water can't get through the soil to the tile. You open your soil and improve drainage when you grow well-fertilized deep-rooted legumes in the rotation and put back straw, cornstalks and manure.

safety and general welfare, it becomes necessary that this ordinance shall be in full force and effect immediately from and after its passage and it is accordingly

**Put this FIREBALL into your trusty Buick**

Here's a power package that will put new performance into your present Buick—a bonnet full of thrilling liveliness for thousands of happy miles to come.

At the moment, engine production is running ahead of car production in Buick factories—so we have a few brand-new Fireballs right out of the 1949 assembly line to offer Buick owners. If your car is not more than 12 years old, it will fit right in place of the old motor that has carried you so many miles. Presto! In a matter of hours you have the old zoom and zip that made your Buick stand out when it was new!

Why not come in and talk over the arrangements with us this week? The price is no more than a major overhaul—and payment can be spread over several months.

**EASY CHOP SUEY**

- |                              |  |
|------------------------------|--|
| 1½ cups diced "raw meat"     | 2½ tablespoons chop suey sauce                   |
| 1½ tablespoons shortening    | 2 teaspoons dark corn syrup                      |
| 1½ cups thinly sliced onions | 1½ tablespoons flour                             |
| 2½ cups diced celery         | 1½ tablespoons water                             |
| 1 cup liquid off green beans | 1½ cups drained cut green beans cooked or canned |
|                              | 2-3 cup Pet Milk                                 |

Put meat into skillet with hot shortening. Cover and cook slowly about 30 minutes, or until tender and brown. Add onions, celery, bean liquid, chop suey sauce and corn syrup. Cover; cook slowly 10 minutes longer. Stir in mixture of flour and water. Boil and stir 2 minutes. Add green beans and milk. Heat thoroughly, but do not boil. Serve with boiled rice, spaghetti or macaroni. Makes 4 servings.

## Slants From The Sidelines ...

By W. E. HUI

Last Sunday afternoon one of the best baseball games that has been seen here this year was played between Earth and Muleshoe. The final score was 7-6 in favor of the home boys, but the game was one of the tightest and cleanest games played here this year.

Word via the grapevine has come up from a few miles down the road that Sudan is getting ready for their best season ever in football.

Now if the boys here think they are working hard, they should see the Sudan crew at work so we have heard via the grapevine.

The Sudan crew took a trip to the mountains according to the story, and on their arrival back home they were dumped out of their bus at the football field and were immediately put through a tough and strenuous session right then and there and have not slowed down since.

Also via the grapevine we hear that Littlefield is expecting to produce another great this season which we don't hesitate to doubt for one second.

We noted that an Amarillo sports writer gave the Muleshoe boys the nod for championship favorites in this district.

We don't know where he got his

information, but we do know that even though the Muleshoe boys are looking fairly good, they still don't look like they could whip Springlake much less think about beating always strong and powerful Sudan, Littlefield and Levelland, not to mention Sundown and Morton. Not only that, but then the south half of this district has to be taken into consideration . . . they may come up with some extra good teams down there.

This is no time to talk district championship, the Muleshoe boys just have too much hard work and lots to learn before they could even beat Springlake.

Let's forget all about championships. Let's concentrate on one thing for the present. That is to learn the game and how to play it. Next let's concentrate on Springlake a few days before the game just as if they were Notre Dame and Muleshoe had the high honor of playing such a team with the possibility that we might pull a fast one and win it.

After the game with Springlake, let's forget it regardless of the outcome and concentrate on Portales and on one else until after the final whistle of that game has sounded.

The only way any team can get to the top is to concentrate on only one game at a time, forget how your next door neighbor is getting along or how good a team he is supposed to have until it comes time to prepare for them.

If you are a member of the local squad there is only two or three things that should be on your mind while on the practice field at least and they are: Learn your assignments and carry them out to perfection. Stay in physical and mental shape by obeying all the rules that have been laid down by your coaches. Do not cause any kind of dissension in

MULESHOE JOURNAL

# SPORTS

THE MULESHOE JOURNAL, Thursday, August 25, 1949

## Absentees Hindering Football Practice; Squad Looks Good, But Need To Improve

Football practices are being hindered slightly by the fact that a few of the boys, mostly boys who live on the farm, are still working and are unable to be at every practice session.

However despite this fact the boys are showing much improvement and are showing even more spirit than they did at the beginning of the practice sessions almost two weeks ago.

Coaches Green and Bailey have been working the boys hard for the past two weeks on fundamentals and from the looks of things they will probably be working on fundamentals at every session. After all many football games have been won by the teams knowledge of fundamentals alone.

The boys are looking good on their tackling and the linemen are showing plenty of knowhow in the linework and are executing their assignments to near-perfection.

The backfield men look good on some plays and on others they don't seem to be doing so well, but that can be expected at this time of the season.

The main fault of the boys so far is the lack of giving the ball

carriers good down field blocking. Also the ball carriers are not showing up too well on following and taking advantage of the down-field blocking that is being given to them.

On the whole, though, the boys are looking good and are improving with every workout. Some of the boys are a little slow in learning their assignments, but with a little more time and a little more practice this will take care of itself.

So far coaches Green and Bailey have been working the boys on ground plays, but a little more emphasis will be put toward the passing part of the game as the pre-season practice sessions come closer to an end.

So far there is no man that has made the team and every position is still wide open so far as the coaches are concerned. The boys are being constantly switched from one position to the other with backfield candidates being moved into the line and linemen being moved into the backfield.

The boys are looking very good, but there is plenty of work and plenty of improvement to be made before they will be ready to meet an opponent.

## 22 New Football Uniforms Ready For First Game

The first twenty-two men of the 1949 Muleshoe high school football team will get to wear the brand new uniforms which are being purchased from the proceeds derived from the merchants who are buying advertisements in the football programs that are to be printed and used at each home game this season.

The uniforms will be black with silver numerals on the jersey's and silver stripes down the seams of the pants. The headgear will also be solid black.

The school colors will remain purple and gold, with only the uniforms being changed.

The programs which are to be used for this season's games are being sponsored by the Muleshoe Quarterback Club. The programs will be a big improvement over the programs which were used at last year's games.

## Muleshoe Drops Earth Nine 7 To 6

The Muleshoe baseball nine nipped the Earth nine here last Sunday afternoon in a matched game between the two clubs by a score of 7 to 6.

Hurling for the local nine was Alvin White who gave up only 8 hits, two of which proved to be home runs and walked five men. Hartley was on the mound for Earth nine, giving up 11 hits and walked only two men.

Strikeouts were not marked in the score book, therefore we are unable to tell how many men the pitchers left standing in the batters box.

Muleshoe took an early lead in the ball game, scoring 2 runs in the first inning and 2 runs in the third inning for a 4 run lead in the ball game. Earth came back strong in the fourth frame and scored 2 runs closing the gap in Muleshoe's lead to only 2 runs. In the sixth frame Muleshoe scored 2 more runs to go out in

front 4 to 2, but in the seventh inning Earth came back by scoring 2 runs, closing the gap again with the score standing at 6 to 4. The local nine scored another run in the eighth inning to run their count out to seven and in the ninth inning the Earth nine nearly caught up with the local boys by scoring 2 runs, running the score out to 7 to 6 with Muleshoe still leading when the game was over.

Strott Walker, manager of the local team stated that this was the best game either one of the two teams had played all season and that it was a very clean, hard fought game all the way through.

Walker made no announcement as to whether the local boys would play again this season, but it is presumed that they may play a return game with the Earth team.

**VISITORS FROM CALIFORNIA**  
Mr. and Mrs. Melvin Priboth and children and Mrs. Hattie Jones of Long Beach, Calif., arrived Saturday to visit in the home of his mother, Mrs. Mertie Priboth and other relatives and friends.

From where I sit ... by Joe Marsh

If They're Wild, They Belong To Tiki

Saw Tik Anderson last week and was reminded of the first time I ever spoke to him. The misadventure sent me out one Saturday afternoon to hunt for some blackberries.

I took a long hike and couldn't find any. Finally, I came to Tik's house along that low stretch east of the fork on River Road. "Hi there," I says, "any blackberries around here?"

Tik says, "There used to be—but I don't know much about things that grow wild." Later, I found how Tik supports his family by picking berries. Ever since, I've

been like the rest of folks in town—respectful of his right not to tell where "his" berries grow.

From where I sit, respecting other folks' rights comes natural in our town . . . in America for that matter! Whether it's a person's right to enjoy a temperate glass of beer or ale, or whether it's Tik Anderson's right to keep secret where his berries are, it's all a big part of a real democracy!

Joe Marsh

## Army - Navy Game Next Friday Night To Open Football Season Here

The annual Army-Navy football game will open the 1949 football season in Muleshoe next

any way on or off the playing field between teammates.

Cockyness and dissension between players, have caused more great teams to fall before a weaker foe than any other thing in football. Either one of these diseases can slip up on you before you realize that it has done so, and usually it is too late to do anything about it until the next game or maybe until the next year. Watch it fellows, let's don't let either of these two diseases infect our football team this year, keep your guard up against them at all times.

Friday night, Sept. 2. The game will be reeled off on the local football field and will feature about fifty ex-high school, ex-college and ex-service men that you all know.

This annual affair is being sponsored this season by the local JayCees. Half of the proceeds received from this game will go to the local high school athletic fund it was announced by JayCee officials this week.

Everyone is urged to attend this game. You will see many stars of yesteryears in action again on the football field.

No announcement was made by the officials as to the admission price for this event, but the prices will be low enough that all who wish to enjoy the first game of the season can afford to attend this big game. At the same time they will be helping their own school's athletic program as well as the JayCees who will use the other half of the proceeds for the good of Muleshoe.

## Season Schedule

- Sept. 9—Springlake, here
- Sept. 16—Portales, there
- Sept. 23—Slaton, here
- Sept. 30—Sudan, here
- Oct. 7—Seagraves, there
- Oct. 14—Littlefield, here
- Oct. 21—Sundown, there
- Oct. 28—Open Date
- Nov. 4—Levelland, there
- Nov. 11—Morton, here

The Morton game will be an afternoon game. All other games will be at night.

There is no substitute for the superior flavor and delicious goodness of vegetables grown in your own garden.

**Baylor President  
Back On The Job**

Dr. W. R. White, President of Baylor University, who has been ill for the past several months, is pictured above—back at his desk after completing a period of rest prescribed by his physician. His first question upon his return was "How's the Stadium Campaign doing?" Waco, with more than \$300,000 in the till, answered, "Fine!"

**New Licenses  
Needed After  
September 1**

The Game, Fish and Oyster Commission announce new licenses effective September 1, 1949.

**Big Game Hunting License**  
Required of all residents of Texas who hunt deer and turkey. License also valid for hunting all other species of game during open season.

**Exemptions—Citizens under 17 years of age and those hunting on land on which residing are exempt, but must hold an Exempt Big Game Hunting License if deer and turkey are hunted. Exempt license does not permit citizens 17 years of age or over to hunt on land other than where he resides. Exempt license may be issued, without charge, upon application by qualified persons—no written application required.**

**Resident Hunting License**  
The Resident Hunting License remains in effect and is valid for hunting all species of game except deer and turkey, but is not required of a person who holds a Big Game Hunting License.

**Resident Fishing License**  
Resident Fishing License is required of all citizens who:

1. Fishes anywhere with artificial lure.
2. Fishes outside the county of his residence with live bait.
3. Fishes outside the county of his residence and adjoining counties with any kind of bait.

**Exemptions—License not required of any person under 17 years of age or one who holds a Commercial Fisherman's License.**

**Non-Resident Fishing And Five Day Fishing Licenses**  
Non-resident Fishing and Five Day Fishing Licenses are required of all non-residents who fish in the State of Texas.

**Exemptions: Licenses not required of any person under 17 years of age.**

**Licenses And Fees**  
Big Game Hunting, \$2.15; Exempt Big Game Hunting, none; Resident Fishing, \$1.65; Non-resident Fishing, \$5.25; Five-Day Fishing, \$1.65.

All special licenses are repealed as of September 1, 1949.

**Open Season On Mourning Dove**  
Open season, North Zone, September 1st to October 15th. Bag limit and possession limit 10. Shooting hours—one half hour before sunrise to sunset.

Harvey S. Firestone, Jr. (right), President of United Service Organizations, talks over plans for 1950 USO activities with Karl K. Van Meter, recently elected Executive Vice President of the reorganized USO.

Presently operating 170 clubs and other activities both here and abroad, it is expected that 242 will be in operation by 1950 with 25 of them being outside the United States. In addition, USO finances the Veteran's Hospital Camp Shows bringing live entertainment to hospitalized veterans. In conjunction with Community Chests and in some places, independently, a national fund-raising campaign for \$10,100,000 will be conducted by USO this coming Fall and Winter.

**Electric Co-op  
Directors President**

WILLIS BRANSCUM

Willis Branscum, president of the Board of Directors, was born in Cassville, Missouri in 1903. He attended some five different schools in Oklahoma and Texas and came to this country from Tarrant County, Texas in 1924.

Willis is a successful farmer and stockman, and as a hobby furnishes stock and acts as master of ceremonies for all the local rodeos.

He is very civic minded and often neglects his own business for some cause that will help the community.

He was elected to the Board of Directors January 18, 1946, and has been President since January 18, 1949. He has been very active in the Cooperative's business, keeping himself well informed in regard to the building program and all things pertaining to the operation of a successful Cooperative. His expressed desire is to make this the best REA association in the State of Texas.

**BUSBY'S RETURN**  
Mr. and Mrs. Clinton Busby have returned home after a weeks visit with Mrs. Busby's relatives at Stephenville, Texas.

They buy, sell and trade.

This is a good time of year to give a little thought to electric fence controllers. An insurance company reports that in just a two-month period several summers ago, eight persons were electrified by home-made electric fence contraptions. No accurate count has been kept of livestock killed in this manner, but the actual figure would probably be astonishing.

Many types of controllers are in use today. Many are excellent from both a safety and efficiency standpoint; some are poor, and some are very dangerous. One of the best KILLERS in the business is a home-made affair connected to the 120 volt power circuit.

In testing all types of controllers, engineers found that a steady flow of eight milliamperes (eight thousandth of an ampere) is about the limit of electric current that an adult can stand without injury. With the intermittent type of controller, the safe limit of current flow is about sixteen milliamperes. Further tests proved that animals were able to stand even less current flow than people. Limiting the amount of electricity to these maximums is almost impossible with a home-made device.

The Underwriters Laboratories have established certain rigid requirements that a controller must meet before it can be stamped with their seal of approval. Controllers are tested not only for safety, but for efficiency and durability as well.

Any controller that is to be connected to 120 volt central station power should carry the stamp of approval of the Underwriters Laboratories. Don't use a controller unless it is approved—for the safety of yourself, your family and your stock are all at stake.

**AN EXCELLENT PRAYER**

"Give me a good digestion, Lord, And something to digest; Give me a healthy body, Lord, And sense to keep it at its best; Give me a healthy mind, O Lord, To keep the good and pure in sight, Which seeing sin, is not appalled, But finds a way to set it right. Give me a mind that is not bored, That does not whimper, whine or sigh; Don't let me worry over much About that fussy thing called 'Worry'; Give me a sense of humor, Lord, Give me the grace to see a joke, To get some happiness in life And pass it on to other folk."

"Dear Teacher," wrote an indignant mother, "you must not whack my Tommy, he is a delicate child and he isn't used to it. We never hit him at home except in self defense."

**Correct Posture  
Very Important**

AUSTIN, August 23.—Correct posture in school children, and adults as well, is necessary to proper physical and mental development, says a warning from the Texas State Department of Health. "Good posture is a sign of self respect and plays an important part in winning the respect of others," said Dr. Geo. W. Cox, State Health Officer.

"Many of the ills of childhood and the deformities of adult life have their beginning in poor posture acquired during childhood," he said, "and it is particularly important that the child's posture conform to nature's dictates. Most children are born in good physical condition and yet examination of large groups of school children show a high per cent to be suffering from poor posture. Malnutrition and fatigue are products of poor posture. These lessen the size of the chest and decrease the lung capacity. Abdominal organs may also be pushed out of natural position, which may seriously interfere with their action. These conditions may be corrected before the body is able to attain normal weight and nutrition standards."

"School children who have poor posture are said often to average lower in attendance and in school mental and physical activities

than those who have good posture. A child may be forced to hold his body in an unnatural position by a desk that is too high or too low. Desks and work tables should be just high enough to allow the feet to rest on the floor and the fore-arms and hands to rest upon the tops without the shoulders being hunched up.

"Begin early in life to teach your children to stand straight and sit straight for health and self-confidence, and they should grow into strong, well-built men and women."
