Desperate Effort Made for Betting Repeal

PENSIONS TO GET RAISE IF SOLONS AGREE

AUSTIN, March 9 (UP)—A skitish over horse race betting repeal occurred unexpectedly in the Texas senate today after leaders apparently had agreed to a truce. Senator Joe Hill of Henderson proposed to adopt the joint rules used last session for this session. The purpose was revealed when Senator Grady Woodruff of DeCatur said that joint rules have not been adopted for this session. Unless they are adopted, he said, a point of order would be valid tomorrow against considering the house bill to regulate racetrack employees. Hill's resolution was referred to a committee. It was doubtful it could be adopted by both houses in time to be effective tomorrow. Meantime a truce was in effect on the outright repeal bill, which is before a senate committee. A hearing on it scheduled for tonight was postponed.

Old age pensions of not less than \$18.00 a month faced a decisive vote in the house today after barely escaping defeat late yesterday. Advocates say they may delay the final vote until members have heard from "the folks back home." Opponents say the bill would double pension costs.

POSTPONEMENT OF BILL CAUSES DIFFICULTIES
AUSTIN, March 10 (UP)—Efforts to postpone further consideration of old age pension two weeks or a month threw the pension liberalization bill into new difficulties in the house of representatives today. Action had not been taken when the house recessed at noon.

Agriculture Class To Attend Show

T. G. Caudle and his vocational agriculture students will go to Fort Worth Saturday to assist in getting the Fat Stock show off to a good start. These boys have exhibited much interest and intelligent work in stock judging and kindred lines during the past school year and it is felt that they have the opportunity of visiting the show and swapping ideas with other FFA boys on that occasion.

Mr. Caudle expects to take the entire class with him if possible. The class membership is as follows:

- Bernie Allen, Gayle Bailey, Bennie Black, R. L. Brown, Jesse Cleveland, Lowell Crowder, Walter Decker, D. L. Donaway, Almus Fanning, Carl Graves, J. M. Hazelwood, Junior Hedrick, Bob Hill, Weldon Izenhower, Howard Johnson, Glenn Jones, Howard Mayhew, Charley Bob McFadden, Thurman Mosley, P. M. Munn, Elvis Nelms, Wayne Sparks, Clayton Stephens, Durwood Thames, Edward Wendle, Joe Whitehead, Claxton Wilson, Parks Bailey, Henry Boatman, Robert M. Brooks, Roy Callaman, Alton Clark, Melvin Cleveland, Paul Davis, Billy Dawkins, Clarence Dill, Lavon Dill, Melvin Johnston, Willis Johnson, Ernest Reich, Yowell Sherrill, Lowell A. Sublet, Ramon Turknett.

Grammar P.-T. A. To Meet Wednesday

The Grammar School Parent-Teachers Association will meet at the Grammar School building at 3 o'clock Wednesday afternoon in regular session, for the installation of officers. It was announced today by Mrs. D. Ball.

All members are urged to be present.

WEIGHS MORE THAN TON LONDON (UP)—The largest horse in England was exhibited at the Shire Horse Society's Show at the Agricultural Hall. She is 5-year-old Boughrood Lady Grey and she stands 19 hands one inch, three hands higher than the average horse and weighs more than a ton.

HEN LAYS HEAVY EGGS CONWAY, N. H. (UP)—Gusie, the favorite Rhode Island Red hen of Guy Smith, has been outdoing her sisters in egg-laying. Gusie lays four-yoked eggs, each about three inches long, six and three-quarters inches around and a quarter of a pound in weight.

'Delinquency' Flood Currency

Squeezing the water out of flood-soaked bills was just so much dry routine to L. S. Monroe, money department manager, shown above as he ran through an ordinary laundry mangle some of the Louisville Federal Reserve Bank currency of various denominations. The bills were soaked by the high waters of the Ohio river which recently covered most of the city.

NEW YORK AND ILLINOIS DEBATE LEGISLATION TO END EXCLUSION OF WOMEN FROM JURY SERVICE

By KIRTLAND I. KING
United Press Staff Correspondent
ALBANY, N. Y., March 9 (UP)—New York, with more than 3,000,000 women residents, faces one of the most bitter political battles in years over legislation clearing the way for mixed juries.

Disregarding political affiliations, the only three women of the state legislature—Sen. Rhoda Fox Graves (R) and Assemblywomen Jane Todd (R) and Doris I. Byrne (D)—are leading a concerted drive for approval of the legislation.

For many years bills permitting women jurors have been introduced in both houses, but it was not until 1935 that Miss Byrne succeeded in persuading the democratic assembly to take favorable action, but a senate committee killed the proposals without a vote on the floor.

In 1936, when republicans captured the lower house, Miss Todd (CONTINUED ON PAGE TWO)

ITALIANS SAID TO BE HELPING REBEL CAUSE

MADRID, March 9 (UP)—Dr. Jose Miaja, loyalist commander-in-chief, charged today that an entire Italian division was participating in the rebel attack on the Guadajara front.

General Miaja indicated his information was obtained from prisoners. The prisoners revealed, he said, that the division was commanded by an Italian general. They said the Italian division was composed of about 7,000 men.

Class Initiation At W. O. W. Hall

There will be a class initiation at the W. O. W. hall tonight at 7:30 o'clock. Mr. J. E. Proctor announced today.

Shorter Hours Sought
Hours for women in industry would be reduced from 10 to 8 (CONTINUED ON PAGE TWO)

LOSS OF SHIP MAY BE FATAL TO LOYALISTS

ARACHON, France, March 9 (UP)—The only unaptured survivor of the Spanish loyalist freighter, Marr Cantabrico torpedoed and seized by the rebel cruiser Canarias, arrived here today and reported that the ship, instead of sinking, had been towed into port as a prize of war.

His story added a new twist to the fantastic sea incident which became a highlight of the Spanish war. The survivor Pablo Juanboo, was landed here by a French trawler. He said that the Marr Cantabrico caught fire as previously reported, but that the flames were brought under control and the freighter was towed into the rebel port of San Sebastian.

The Canarias made prisoners of 150 of the crew, he said, and eleven were drowned trying to escape.

WAR MATERIAL IS VITAL TO CAUSE

SAINT JEAN DE LUZ, France, March 9 (UP)—Madrid may fall because of the sinking of the steamer, Marr Cantabrico with \$2,000,000 cargo of war materials from the United States, government spokesmen intimated today.

Making no secret of their consternation, the loyalist spokesman said that the cargo needed most was the American airplanes and machine guns.

THINK CARGO WAS TRANSFERRED TO SHIP

WASHINGTON, March 9 (UP)—Source: close to the Spanish government said here today it was unlikely that the Marr Cantabrico's cargo of war materials was lost when the ship was sunk in the Bay of Biscay. It was pointed out that a definite plan had been formulated to transfer the cargo to another ship at sea.

Eastland Girl is Killed in Wreck

EASTLAND, March 9 — The body of Miss Frances May, 19, killed Sunday night at 7 o'clock in an automobile accident at Ada, Oklahoma, was expected to arrive last night at Eastland.

Miss May had been in Ada since December 27, visiting in the home of her mother, Mrs. Col. Smith. She was to have left for Oklahoma town Sunday and returned to Eastland, Monday.

Her mother, Mrs. Lena May, was advised of the death by telephone. Details were not learned.

Miss May, a former resident of Ranger, had attended Eastland high school. Other survivors are a brother, Howard May, San Antonio and two other sisters, Marjorie and Eileen May, Eastland.

Pecan Men Warned Against Strangers

Pecan growers of Eastland county are being warned not to allow strangers to bud, graft, spray and prune their trees as very often such "tree specialists" are only interested in the pay they receive for their work, and either cannot or do not do satisfactory work. In addition to taking money for such work, such men can damage valuable trees.

Last year the county agent personally inspected some work done by a man who represented himself as being a pecan budding expert. The work done was not only worthless but the trees were badly damaged and one year's growth was lost.

"Tree specialists who are reliable can easily establish that fact by giving references from persons who have had a job completed satisfactorily.

It takes at least three years to do a complete job of top-working a pecan tree. The average person cannot give a tree the proper after-care after it is budded and pecan growers should insist on a finished job contract with final payments due when the job is complete.

FIRST TAXPAYER FOR 10 YEARS MARION, O. (UP)—City Patrolman Bert Powell kept a 10-year record intact when he was first in line to pay this year's taxes.

Salesmen Scent Townsend Dollars

Word that he had 200 "Townsend dollars" brought salesmen with vacuum cleaners, radios and even a farmer with a cow to the front porch of Henry Folz.

EDWARD LEE HEADS JAYCEES FOR YEAR OF CIVIC ACTIVITY

Edward Lee was made president, succeeding A. D. Starling to head the Junior Chamber of Commerce for the next fiscal year. Other officers, including nine directors and committees were appointed at the business session last night at which time a lunch and coffee was served.

A committee to head a drive for membership was appointed in addition to a standing committee on park development. A project that the Juniors are actively sponsoring, Sandwiches were served together with Admission coffee furnished by the local distributor, N. C. Parker.

Other officers elected were: T. G. Caudle, first vice president; O. L. Stamey, second vice president; F. B. Altman secretary; James McCracken, treasurer. Nine directors named were: G. M. Grasty, Carlton Holder, C. C. Duff, Wightman Moore, Dr. Hubert Seale, Neil Lane, H. L. Dyer, James Harvey, Horace Condeley, and A. D. Starling, ex-officio.

Membership committee: A. D. Starling, H. L. Dyer and Wightman Moore.

The proposed park for Cisco was discussed at length and will be used as a major activity for the club during the year or until their desire is accomplished.

Kellam Replaces Johnson in NYA

AUSTIN, March 9 (UP)—J. C. Kellam has been named by Aubrey Williams, executive director of the National Youth Administration, as acting state director in Texas, since Lyndon B. Johnson, state youth director, resigned March 1. On receiving Johnson's resignation, Aubrey Williams said of him, "He is one of the ablest state directors we have had" and has done a "first class job."

Prior to his present appointment, Kellam served as assistant state director. He came to the National Youth Administration from the state Department of Education, where he served for a number of years as deputy state superintendent and later as state director of the rural aid division.

He is 36 years old and a graduate of Southwest Texas State Teachers College and the University of Texas. While attending school at San Marcos, Kellam took an active part in student affairs, serving as business manager of the college paper and captain of the football team. Upon his graduation he taught and coached football at Lufkin high school for a number of years. During a summer school session he also taught at the Stephen F. Austin State Teachers College at Nacogdoches.

EGG DUMBELL SHAPED JACKSON, Mich. (UP)—Carl Van Arsdale's Buff-Orpington hen laid Siamese twin eggs. Both were joined at the ends by a long tube something like the handle of a dumbbell.

CCC DRIVES SAFELY HONOLULU (UP)—CCC workers in the Hawaii national park say they are the greatest body of sane and safe drivers in the world. During the three years of their organization, they have driven 589,806 miles without a serious accident.

LABOR TROUBLE BREAKS OUT IN OTHER CITIES

By United Press
Sit-down strikers brought to a halt production in the Chrysler Corporation and Hudson Motor company Detroit plants today, while the American Federation of Labor moved to intervene in steel-labor affairs.

This move on the part of union leadership was regarded as the start of a finish fight between the AFL and the John L. Lewis Committee for Industrial Organization for dominance of union labor.

In Detroit, the sit-down strikers ordered by the CIO union, the United Automobile Workers threw almost 75,000 men out of work. The Briggs Manufacturing Company, makers of bodies for Chrysler, was obliged to close when its market was disrupted as this shut-down was accomplished by approximately 13,000 workers.

Pickets denied Chrysler officials entry to their offices. While leaders of the rival AFL and CIO met in Washington to plan membership drives, John Frey, AFL metal trades leader, announced that he was going to Pittsburgh to investigate the possibility of steel unions joining the federation.

Francis Gorman, president of the CIO United Textile Workers, announced plans to commence shortly an attempt to unionize textile workers of New England and the south.

Meanwhile, labor disturbances occurred in many other areas. A taxi-drivers' strike in Chicago seemed to have reached a stalemate.

The nation's capital had its first sit-down strike. A hundred waitresses and cooks stopped work at the Willard hotel.

At New Castle, Penn., 300 employees of the National Paints company began the fourth day of their sit-down strike.

Determination of blind strikers to insist on increased wages, threatened to frustrate plans to settle the sit-down strike of 107 blind workers of the Pennsylvania Association for the Blind.

At Houston, Texas, machinist and iron workers held the plant of the Enso Derrick and Equipment company. The strikers demanded union recognition and a five-cent an hour wage increase. About 140 men remained in the plant.

Meanwhile, the American Federation of Labor estimated that in January there were 10,041,000 unemployed in the nation, compared with 8,800,000 in December, and 11,660,000 a year ago.

Settlement of an eight-day sit-down strike at the Detroit plant of the Advance Stamping company involving 150 workers was announced.

Packing Industry Wages Increased

CHICAGO, March 9 (UP)—The big four of the packing industry, Armour and Company, Swift, Cudahy and Wilson and Company announced today a nine-cent an hour wage increase in all plants.

The increase becomes effective March 16.

MOTHER, BABE, DOCTOR DIE AT THE SAME TIME

EHGALS, Ind., March 9 (UP)—Mrs. Pauline Boyd, 19, lay slithering on the bed of her humbled three-room cottage. Dr. Charles Hope, 89, felt her pulse and shook his head.

A new spasm of agony seized Mrs. Boyd as Dr. E. E. Long rushed to the bedside. Dr. Hope bent to his task. An instant later Dr. Hope collapsed in a chair.

Dr. Long rushed to his side. He was dead, victim of exertion and heart attack. Dr. Long turned to the patient. She was dead. He listened for the heartbeat of her unborn child. It was dead.

WEATHER

EAST TEXAS—Generally fair; warmer in northwest portion; frost in northeast and east central portions tonight; Wednesday generally fair, warmer.

About Our Friends

By WEP A. LONG

Wednesday, March 10, is the deadline for naming the well... Many outstanding highways have been turned in... one be chosen and emblazoned from skyline 100 feet above the earth all the world just enough to excite interest... to cause them to questions... to investigate

The successful name will be LAUNDRY \$10... meanwhile, the boiler being up... the boiler being going, the slushpit dug and the bit will be on the way to... is hoped to be a liberal flow of gold will revive business so want in our community now

It business is on the upward... What's News Today

Oil drilling interest in and near Cisco is increasing rapidly and signs would point to even more for the near future. The Hickok interests have by no means given up the airport locations and with new development in the Hickok Airport No. 2 and a probability that a well-placed shot may bring better production from an unfortunate condition, interest may revive in that quarter momentarily. At least we are assured that more drilling is probable in that sector in the near future.

The Bearman No. 1 townsite location is to start this week. All who see the situation say there is no doubt but what production will be obtained, which means that the Hickok development company which owns properties adjacent, will immediately bet \$25,000 on another hole. The contour extends northward and this means more wild-cattling in the direction of Avenue L and along 14th, 13th and 12th streets. There is still unleased territory that will entice further activity.

J. T. Anderson and associates are active southeast in the Romney sector where they are developing leases. A well is just beginning and production has been rather favorable in former activities.

The open weather expected with spring emerging will see more drilling in other directions from Cisco and not far away, which are now in the offing.

Dr. E. S. James, pastor of the First Baptist church, is a historian of world events as well as a student of the Bible in its historical phases. He has been preaching a series of sermons on Revelations and interpreting them in the light of historical developments, past and present.

He made a significant statement in his talk last Sunday night which couples in with developments in Europe now. He stated that Europe was the battleground spoken of in the Bible and that Austria was the bone of contention. Why? Because Europe needs raw materials—wheat, iron, and other materials so necessary to a people who are to continue to wage war.

Austria is the granary of Europe. Her vast plains and rich soil make her a food supply station while her mountains are rich in mineral, such as iron, coal, salt, oil and other minerals. We know that Germany, Italy and other nations are deeply concerned in the political future of Austria and Hungary, two countries that have formed an important part of Germany since its unification into an empire.

The world is making history fast now—important history. No teacher can afford to let her class overlook significant events of current day happening. The newspapers and editorials are the most important textbooks within teachers hands.

There is a war going on in the United States now—war, just as much so and as desperately waged as if the parties had their guns trained on each other in a civil strife equal to the great civil war between the states. This, too, will be important history within a few years from now. It is a political revolution and will have important influences on our future as a nation and in our dealings with each other.

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON—The United States Senate, which will decide the fate of President Roosevelt's request for permission to liberalize the supreme court, is composed of 75 per cent of lawyers.

Seventy-two of its 96 members have practiced law as an occupation and many of them still do.

The other 24 are, or were, bankers, business men, school teachers, a physician, a dentist and so on.

The last time a poll was taken, the Senate was almost evenly divided in three sections—those committed to the president's plan, those committed against it and those who refused to commit themselves publicly. Polls of the Senate differ, because it isn't always possible to tell which of the three camps a senator is in. And there is a departure from the non-committal group almost daily.

FOR purposes of an analytical breakdown of the groups and the Senate as a whole, however, a recent fairly reliable poll may be accepted. It showed 32 senators registered for the plan, 31 against and 33 not committed.

The pro-Roosevelt group consisted of 31 Democrats and one Progressive. The anti-Roosevelt group included 15 Democrats and 15 Republicans.

The noncommittal group was made up of 29 Democrats, two Farmer-Laborites, one Republican and one Independent. (The third group includes several who prefer a constitutional amendment to Roosevelt's expedient, but who are likely to vote for "packing" the court in the end.)

It now appears probable that more of the Senate's non-lawyers will vote against the administration plan than will vote for it. Reversion-lawyers have declared

themselves opposed, and only one in favor, with seven still undecided. That leaves 26 lawyers for 20 against and 26 noncommittal.

THE average ages of the three groups has been figured also.

The average age of the pro-Roosevelt group is slightly less than 54 years. The anti-Roosevelt group averages just about 59 years. The undecided contingent averages about 55.7.

Of the 10 senators who are 70 or more, only one has declared for the Roosevelt plan. Six have declared against it and votes of those committed against it are those of McAdoo, of California. The six opposed are Glass of Virginia, King of Utah, Smith of South Carolina, Dorah of Idaho, Capper of Kansas and Johnson of California. The three undecided are Hughes of Delaware, Lewis of Illinois and Norris of Nebraska.

Among senators of 60 years or more, 13 have declared for the Roosevelt plan, 15 say they oppose it and 12 are undecided.

LOOKING at the list from a geographical standpoint, you find the heaviest concentration of strength against Roosevelt among senators from the northeastern states. Southern states are giving him their chief support. The breakdown goes like this:

Northeast: 3 for, 11 against, 6 undecided. Lake states: 4 for, 2 against, 5 undecided. Border states: 5 for, 2 against, 5 undecided. South: 8 for, 5 against, 3 undecided. Pacific Coast: 3 for, 3 against, 3 undecided. Mountain states: 4 for, 3 against, 3 undecided. Farm states: 2 for, 4 against, 4 undecided. Southwest: 3 for, 1 against, 4 undecided.

... and sells 90 per cent of every effort ...

May we be pardoned if we print a letter from one of our good friends in Moran, who writes us concerning his reactions to some of our musings? ...

Mr. W. H. LaRoque, Editor Cisco Daily News, Cisco, Texas.

Dear Mr. LaRoque:

I have just received the paper, and read the account of the death of little Garland Nance, and also noted the wonderful words of comfort to the bereaved, in your column, "About Our Friends."

May I here and now, take this opportunity to commend you for such beautiful expressions of Christian love and condolence, and for pointing the bereaved ones to the only One who can help and comfort in times as this. Surely He will reward you for such noble deeds.

For some time I have been a silent reader of your paper, but may I bid you Godspeed in this good work, and may He continue to own and bless you.

THIS CURIOUS WORLD By William Ferguson

THE Cassiquiare connects the Orinoco with the Rio Negro, but the water parting between the basins of the Orinoco and the Rio Negro is so low that, at high water the Cassiquiare flows in the opposite direction.

New York and—

(CONTINUED FROM PAGE ONE)

a day under three other proposals before the legislature. Two are identical and in addition to shortening the hours they would add women barbers and beauty specialists to industrial occupations.

A third proposal would exempt enforcement of an eight-hour law where there was an emergency, but limits the emergency to a period of not more than 30 days and requires that there be additional compensation.

Another measure in regard to women would amend present laws to allow transfer of women convicts from the Woman's Prison at Dwight to any other institution. This is believed to be intended for transfer of insane women convicts to a state insane asylum.

Although not intended for the benefit of women, another proposal would change a mother's pension law so as to make it apply to illegitimate male parents of dependent children. It would set up a father's pension law identical with the mother's pension law.

New York and—

(CONTINUED FROM PAGE ONE)

took up the fight and again five bills creating the necessary machinery were passed by the assembly, only to meet bitter opposition in the senate.

Lehman Backs Bill

The women legislators this year have won the support of Gov. Herbert H. Lehman and other powerful leaders. Assembly Democratic Minority Leader Irwin Steingut paved the way for the appointment of Miss Byrne to the powerful judiciary committee, and it was that group of the lower house that favorably reported the measures only a few weeks after the 1937 session started.

According to leaders of both parties, drafting of the legislation is the center of the controversy. Many senators have moved to make the bills permissive instead of mandatory.

The women legislators, it was reported, are willing to accept the amendment, but still the senate hesitates in making its final decision.

Early Showdown Demanded

Sen. P. Williamson (R.), who is sponsoring the Todd bills in the upper house, has demanded an early showdown. Supporters of the permissive amendment, however, have failed to press their proposal.

There was no debate in the Assembly when the measures passed this year, but many opponents have publicly announced that they believe a woman's place is in the kitchen. Advocates argue that with women on juries decisions will improve. They point to the jury that convicted Bruno Richard Hauptmann to support their contention.

Mixed juries are as severe as those composed solely of men.

The parliamentary maneuvering in the senate has provoked Todd bill supporters to marshal their forces for a final drive. The upper house judiciary committee reported the bills containing the permissive clause and completely disregarded those passed by the assembly.

BOMB USED ON "GHOSTS"

HUNTINGTON Ind. (AP)—Although the rent was paid in advance and six tons of coal were in the basement, the Arthur Chenoweth family evacuated their home to trap the ghosts. Police Chief R. C. Forst threw a tear gas bomb into the house and locked the doors. No strange noises have been heard since.

Homesickness Fatal

In Gold Rush Days

EUNDAUNCE, Wyo. (AP)—"Homesickness" killed many a miner around this region in the 1870s and 1880s, a member of the federal writers project discovered.

The disease which affected the miners of the gold rush days was diagnosed by some as "mountain fever" and as "homesickness" by others. Doctors said the disease was peculiar to the mining camps and "many of the most rugged passed over the last divide," according to the field writer.

After a few months the disease disappeared and never returned.

City Announcements

The Cisco Daily News is authorized to announce the names for Mayor of the city election to be held the first Tuesday in May. For Mayor: J. T. BERRY.

For City Commissioner: H. A. BIBLE, W. J. FOXWORTH.

WARNING

This notice will serve to inform the people of the mission hereby given to them. They are going to enforce the law against excessive signs. New stop signs ordered, and upon them to be placed at proper intervals throughout the city.

From now on you are being picked up and before the Corporation answer for the charges won't fail to suffer for it. The penalty will be 10 or more for violating it. So the officers will be from now on and you watch your step. We are going to enforce this. This won't be any Court, either.

CITY COMMISSIONER

J. T. BERRY

Ross B. Jenkins, City agent, reported at a meeting of the California National Youth Administration Advisory Board that more terrace lines will be put in operation with the help of NYA.

HER NAME IN LIGHTS by MARIE BLIZARD. © 1937, NEA Service, Inc. BEGIN HERE TODAY DAPHNE BRETT, a charming young executive, rents her deceased father's magnificent estate to LARRY SMITH, attractive young bachelor architect, and promptly likes him tremendously. Daphne has one sister, JENNIFER, six years younger, just out of college and at her first job. Jennifer rents Daphne's attempts at guidance and proceeds to date the young playboy, including LARRY SMITH, AINSLEY, wealthy playboy and former beau of Daphne. Next Jennifer finds that Larry is not married and she makes a play for his attentions. This develops a strange relationship between the sisters for the same man. One night Larry dates Daphne. At the same time Daphne refuses Jennifer permission to date Tuck. Daphne spends a thrilling evening with Tuck just once more. Then, in the early hours of the next morning, she returns to her apartment and Jennifer knocks at the door. NOW GO ON WITH THE STORY CHAPTER XI DAPHNE stared at the door for a full minute, her feet refusing to obey the command of her brain. She was afraid to open that door. The pounding in the silence of the early morning struck blows of apprehension into her.

FRECKLES and His FRIENDS — By Blosser I KNOW YOU'LL THINK I'M CRAZY, SHERIFF, BUT IT'S A ONE-LEGGED SOMETHING I TELL YOU! IT FOLLOWED MY SON RIGHT TO THE HOUSE! HE WAS ON HIS SKATE COASTER! I KNOW THERE AREN'T SUCH THINGS AS GHOSTS, BUT CALL IT WHAT YOU WILL, IT FOLLOWED MY BOY WITHOUT MAKING A SOUND! AND IT WAS ONE-LEGGED... ONLY THE RIGHT FOOTPRINTS SHOW ON THE PAVEMENT!

END! WHY, I... IT'S HORRIBLE! EH? OH, OF COURSE BUT I MEAN, IT'S A MOST FORTUNATE BREAK FOR US! I SEE, YOU FIGURE THAT WHILE THE TOWN IS IN A COMMOTION, WE CAN SLIP IN UNOBSERVED! PRECISELY, MY DEAR.

At last she reached the door and locked it open. "Hi, there! You're a sound sleeper." It was Jennifer, a little less lovely in the gray light. The hem of her white satin gown was soiled. Her hands were blue where they clutched her evening wrap about her shivering shoulders. Her hair was in disarray but her manner was jaunty enough. Daphne was unable to speak. Her fears turned to swift anger that bubbled up in her throat. Without speaking she turned and went into the bath, started the hot water in the tub. Then she stepped back to the living room and lighted the heart fire. "Sit here," she said shortly and drew a chair up before the fire. Jennifer sank into it and waved her chiffon handkerchief airily above her head. "Thank you, I call service. You're a good sport." Daphne had knelt down to take off Jennifer's slippers. "Thank you," she said gently, "have you been drinking?" Jennifer kicked off her slippers and sat up a bit straighter. Her head moved in a gesture Daphne knew too well but her voice was not as brave as she meant it to be.

INSTEAD it had been a day filled with heaviness and weariness. With the weight of her responsibility and the knowledge that it was unfair that she, who was only a girl herself, should have to meet the problem that Jennifer had proved herself. She had expected to be greeted with sullenness, with defiance. Perhaps Jennifer would not be there at all. "Jennifer!" "Hello, darling, welcome home. I've a treat for you tonight. I'm making something you like for dinner." Jennifer was in the kitchen. Daphne caught her breath in sheer surprise while she took in the unexpectedness of fresh flowers in the bowl on her desk, the small table smartly set for two. She took firm hold of herself. She was not to be wooed this way. But she took her cue from Jennifer and responded brightly to Jennifer's questions about the day until they had cleared away the dinner and sat, with their coffee, before the blazing hearth. "Might as well make up your mind to it, Jennifer, the time has come to talk. I want to know where you were last night." "You might as well make up your mind, you're going to hear some unpleasant things yourself, Daph. One of the things is that I'm not going to be treated like a child anymore. However, I'll tell you where I was last night. I went on a party with George Blumenthal." "Who in heaven's name is George Blumenthal and why did you lie to me about wanting to go out with Tuck?" "George Blumenthal is a very charming, very rich young man that I met at a party somewhere. He... he knows a lot of people and he happened to call me up and ask me out after you had left." Daphne knew that Jennifer was lying.

SALES MAN ASKS Return to Jail CLEVELAND (UP)—Harold Smith, 43-year-old Coshocton, Ohio, shoe salesman, appeared in court and asked to be returned to the jail cell from which he had been released only a few days before. "It's cold and miserable outside and I can find a job," Smith told the judge. "I didn't want to stay at a hotel, because Your Honor placed me in probation only last week for owing a hotel \$28." Smith got cell-space.

SLUM CLEARING TO BE PUSHED BY HONOLULU HONOLULU (UP)—A plan to rebuild Honolulu's slum districts, involving approximately \$4,000,000 in government and private capital has been disclosed by Mayor Fred Wright. It is estimated the project, intended to eliminate unsightly and unsanitary buildings, widen the streets and generally improve utilities in the district involved, will necessitate expenditure of \$1,000,000 in government funds and \$3,000,000 in private capital. Preliminary surveys indicate 15,000 persons will be affected directly or indirectly by the new program.

Lighthouse in Hawaii Wins Efficiency Prize HONOLULU (UP)—Manuel Ferreira, keeper of the only lighthouse in the United States equipped with a "hyper-radiant" lens has been awarded his 10th consecutive annual efficiency pennant by F. A. Edgecomb, superintendent of the lighthouse service in the Hawaiian islands. The lighthouse with its unique lens is situated on the extreme eastern point of Oahu Island. Ferreira also is in charge of the radio beacon station there. The "hyper-radiant" lens is unique in the fact that although the light penetrating it is rated at only 150,000 candlepower, the beam is visible 35 to 40 miles at sea. The lens is composed of 1140 prisms of hand-cut, highly polished glass, stands 13 feet high, and measures nearly 9 feet in internal diameter.

HER NAME IN LIGHTS by MARIE BLIZARD. © 1937, NEA Service, Inc. BEGIN HERE TODAY DAPHNE BRETT, a charming young executive, rents her deceased father's magnificent estate to LARRY SMITH, attractive young bachelor architect, and promptly likes him tremendously. Daphne has one sister, JENNIFER, six years younger, just out of college and at her first job. Jennifer rents Daphne's attempts to guide her and proceeds to date the young playboy, including LARRY SMITH, AINSLEY, wealthy playboy. Next she meets Larry and, finding he is not married, makes a play for his attentions. This develops a strange relationship between the sisters for the same man. One night Larry dates Daphne. At the same time she refuses Jennifer permission to date in the Ainsley set. Daphne spends a thrilling evening with Larry, only to come home and find Jennifer gone. At dawn Jennifer knocks at the door. NOW GO ON WITH THE STORY CHAPTER XII "TUCK, please," Jennifer urged gently at Tuck Ainsley's sleeve. She snuggled to him in the low-slung roadster. "Please be my lamb and stop here. Do you want to start something at this stage of the game?" He reached for the gear and pulled it back. "Young lady, are you trying to kid me? This is schoolgirl stuff, stopping the car a block from your apartment. I won't have it. You're a strange mixture of a sophisticated woman and a child. I can't dope you out." "Just make up your mind that I'm a jemie fatale, or was," she said, lowering her voice and brushing his cheek with hers, "until I met you."

DIAMONDS TO CUT ROCKS JOHANNESBURG (UP)—Random mining may be revolutionized and the past by a new machine with small diamonds. The new cutter slices through the hardest rocks like cheese. Two hundred National Youth Administration workers have begun on the University of Houston campus beautifying and improving the school grounds. W. O. Alexander, district supervisor, has reported to Lyndon B. Johnson, state director.

Public Health Course Offered by University BERKELEY, Calif. (UP)—The need of university-trained public health officials has become so great the University of California has instituted a spring course to cover the subject. Sixty public health officials from eight western states and the territories of Alaska and Hawaii have enrolled. The course is destined for public health officers generally, sanitary engineers, public health laboratory technicians and vital statisticians. Let us figure your next job of printing. FREE MILK OFFERED THREE SAN JOSE, Cal. (UP)—A dairy company has advertised that if the person who has been stealing quart bottles of milk from doorway deliveries is really in need of milk and will report the fact to it, the company will be glad to supply him free with all he needs. It would be cheaper than replacing the stolen deliveries. TANK HEATED BY SUN HONOLULU (UP)—The manual training department has completed and installed the largest solar water heater in America at Punahou school. O. F. Shepard, president, reports. The heater, utilizing the sun's rays to supply the school with hot water, covers 300 square feet of roof area and has 1,400 feet of copper tubing.

There Is No Substitute for PAID Circulation

Margot Grahame agrees that Luckies are gentlest on the throat

"I've smoked Luckies for eight years—ever since I was introduced to them in London by an American motion picture producer. He put forward the very sensible argument that they are the gentlest cigarette in the world on the throat—and fine tobacco. Since then I have made many pictures, and I must say Luckies have always been considerate of my throat. In fact, my throat practically insists that I choose a light smoke—why for a voice strain picture-work entails

Margot Grahame
FEATURED IN THE RKO RADIO PICTURE "MICHAEL STROGOFF"

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Miss Grahame verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.
