CITY MAY BE FREE MAJOR DANGER SOON

SHANGHAI (Friday), August 20 (UP)—Chinese regained the offensive in one sector of the bitterly contested northern Shanghai front early today. After they had been driven back by an intense Japanese aerial and naval bombardment, they re-organized their lines and drove forward. Elsewhere Japanese forces drove along a 20-mile front, and Vice-Admiral Kiyoshi Hasegawa announced that he expected this devastated city to be free of major danger within 48 hours. Foreign commanders and diplomats met earlier in the night and reportedly discussed a drastic program in event of wreckless attacks by both sides in the vicinity of the Anglo-American area of the international settlement. With the Chinese assaults repulsed on most sides, the war again spread to Nanking, China's national capital. The Japanese asserted they were

Peanut Warehouse Is Still a Hope

Nothing definite has been done regarding installation of a peanut warehouse for Cisco, secretary of the Chamber of Commerce, J. E. Spencer said this morning, excepting the appointment of a committee to work with W. B. Starr, president of the Southwest Peanut Growers Association. The committee will go to Washington for a conference with proper authorities for the purpose of the establishment of the warehouse here. Personnel of this committee will be named by the president of the chamber. "When this committee returns from Washington," Mr. Spencer said, "then we will have something definite to say."

"Haven't I been blackened enough?" Mrs. Vera Lorden, above, pleads as she is held at New York City in \$2500 bail as a material witness against Patrolman Arthur Chalmers, who admitted killing Irma Pradier. After the slaying, Chalmers took the pretty waitress on a love tour through New England.

F.F.A. NOT TO HOLD ANNUAL ENCAMPMENT

The annual Future Farmers encampment at Lake Cisco will not be held this year, it was announced today. Decision to forego the gathering of farm students this summer was arrived at after considering various facts, principal of which was that the encampment had been postponed to next week from an earlier date in the summer, placing it so near the opening of the new school term that it was feared attendance would be materially cut and the chances of success greatly affected. The decision to postpone the encampment from the original dates of August 5, 6 and 7, had been made because of a general fear of an epi-

Texas Voters Will Decide Upon Six Amendments Mon.

AUSTIN—Texas voters will decide the question of adoption of six constitutional amendments when they go to the polls Monday, August 23. An unusual aspect of the election, probably will be the small number of votes cast, because the election will be held on Monday instead of the usual Saturday. With one exception there has been practically no campaigning for the proposed amendments. Gov. James V. Allred had announced his intention to support the proposal for the return of the fee system but spent the first two weeks of August vacationing in Mexico. County Judge Roy Hofheinz, Harris county, is responsible for

STATE PARDON BOARD REFUSES CLEMENCY FOR LUKE TRAMMELL

AUSTIN, Aug. 19 (UP)—Judge Bruce Bryant of the State Pardon Board announced today that no clemency will be recommended for Luke Trammell, sentenced to be electrocuted at Huntsville prison between midnight and sunrise. Trammell's mother, after a vain appeal to the board, left Austin for Huntsville. Two other convicted players scheduled to die tonight were reprieved. Commutation of life imprisonment saved a Wharton county negro and a Mexican murderer was granted a second 30-day reprieve. Trammell was given the death penalty for killing Felix Smith.

Berkshire School Reverses Vacation

FERU, Mass. (UP)—Feru children are going to school in mid-summer while most other children are enjoying their summer vacation. Because of the snowdrifts in the Berkshire hills, farmhouses are often isolated, and the one-room schoolhouse is closed from Christmas to March 1.

M. McCARTY IS WORLD FAIR COMMITTEEMAN

Milburn McCarty of Eastland was recently appointed New York Fair committeeman to act as one of a number of others from various Texas towns in matters of state interest pertaining to the \$125,000,000 exposition to be held in New York City in 1939. Jesse Jones of Houston has been appointed Chairman of the Texas unit of the National Advisory Committee of the New York World's Fair. In this capacity, Mr. Jones will serve as "liaison officer" between the New York Fair Corporation and the Texas unit of 190 prominent citizens that has been formed into represent the legislative, civic, commercial and professional groups of the state. The appointment of Mr. Jones was announced today by Grover Whalen, President of the Fair Corporation, before he sailed on the Normandie for his second visit to the Paris International Exposition and calls in Belgium and Italy. Mr. Whalen also announced that 30 states and two territories of the Union had already passed bills, with gubernatorial signature, providing for participation in the 1939 exposition, and that he had just received cablegrams advising that Chile and the Netherlands had accepted the American government's invitation to join in the fair, thus bringing to 29 the number of foreign governments that have made acceptances. Mr. Jones was nominated for his newest position by representative groups in Texas. Texas was one of the states whose legislatures and executives have already provided for participation in the Fair. Miss Mary Beth Langston who is in San Antonio visiting friends is expected home this week.

Retirement Affects 1,200,000 Rail Men

WASHINGTON, August 17 (UP)—Retirement legislation affecting more than 1,200,000 employees of the nation's railroads was enacted by the 1937 Congress. The measure, which was sponsored by Rep. Robert Crosser, D. C., was aimed to supplant the previous retirement act, which was under fire from the railroads in Federal court on the grounds of unconstitutionality.

The Crosser act provides that employees reaching 65 are eligible to retire on pensions ranging as high as \$120 monthly.

The new act was worked out at conferences between representatives of the railroads and labor. Funds for paying the retirement annuities would come from payroll taxes imposed equally upon railroads and employees.

Beginning as of last January the combined taxes would be during the next three years 5 1-2 per cent. In the following years, the scale would be increased gradually until it reaches 7 1-2 per cent in 1949 and thereafter.

Sponsors of the legislation estimated the tax would yield \$121,000,000 during the present calendar years. By 1949, it would be \$165,000,000.

Those eligible to annuities would be employees over 65, or those over 65 if they have 30 years of service, or those who reach 60 and have been disabled, regardless of length of service.

FATTED CALF NO INDUCEMENT BISBEE, Ariz. (UP)—When Judge Barney Norton said "ten dollars or ten days," he meant an errant Mexican celebrant had one or the other alternative, and not even a fatted calf outside the police station would help the prisoner. The Mexican tried to persuade Judge Norton the city would benefit by such a deal, but the judge said "nothing doing."

Scranton Pours It On Nance, 22 to 7

The strong Scranton outfit that has been improving with every game was really right last night and proved it by thumping Nance Motor team all over the lot to a tune of 22 to 7.

Tong and Collingsworth were the big guns in the Nance offensive. Tong hitting three for three and Collingsworth getting two for three. Every man in the Scranton team hit at least once safely and most of them of two and three hits.

Mexican Engineers Build Novel Road

AUSTIN (UP)—Texas highway engineers thought they had established an unbeatable record when they constructed a bridge in Texas then swung it over the Louisiana-Texas boundary.

Now they have learned that Mexico highway engineers have planned a more novel undertaking. They will build a road and then make it a tunnel.

The unique construction is planned on the Mexico City-Mazatlan highway.

Danger of landslides, has resulted in the plan to build the road with a protecting top, ten force a landslide over it.

'Pay-as-You-Go' is Motto of Harris Co.

HOUSTON (UP)—Harris county has appropriated \$1,000 to finance a state-wide campaign for passage of the "pay-as-you-go" amendment to the Texas constitution, which will be voted on in a state referendum on August 23.

County Judge Roy Hofheinz, prior to the election, will speak in more than 60 communities of central and south Texas in interest of the amendment which provides that counties make public improvements only when they are financially able. The amendment also would largely eliminate long-term bond issues.

A-G GIRLS WIN BY SCORE OF NINE TO ONE

The A-G Motor Company girls brought home a score of 9 to 1 in the game at Abilene last night, in one of the best games of the entire season.

Three very snappy double plays were made which are unusual in one softball game. They were Harris to Morris to Greer; Reams to Morris to Greer, and Greer to Harris to Greer.

The game was played before a large, enthusiastic grandstand. Abilene had a good team and Cisco was a bit dubious as she went into the field as to whether or not she could win.

Home runs were made by Greer and Brown and the game had no doubt as to who would win.

Starting lineup for Cisco was: Morris, 2b; Reams, 3b; Harris, ss; Greer, lb; A. Campbell, c; Woods, rf; White, cf; B. Campbell, lf; Bell, if; Brown, p. In the sixth inning Jack's went in for White and Hollis for Bell.

Portugal Severed Relations Today

BEAUMONT (AP) — August 19 (AP) — Portugal, aligned with Nazi Germany in the Spanish war crisis, severed relations with Czechoslovakia today in a diplomatic move that may have startling repercussions over Europe.

The break was made on the ground that Czechoslovakia under pressure from an unnamed third nation, refused to make good on a gigantic machine gun order for Portugal.

'By-Pass' Road to Begin Next Month

BEAUMONT (AP) — Construction of the six mile Beaumont-Voth "by-pass" road is expected to start within the next month. The by-pass flanking Beaumont on the west, will be the Beaumont sector of highways eight and 40, which lead north and northeast. It will cut down the town's congested traffic.

Friday Deadline To Absentee Vote

Friday night at 11 o'clock will be the deadline to vote by the absentee method in the August 23 constitutional amendment election. County Clerk R. V. Galloway reminded Wednesday.

Galloway stated that after that time no one will be permitted to vote personally at his office and that ballots by mail will be too late.

Little interest has been shown to date in the election gauging from the lack of absentee voting. Only two have been voted. Ballots have been sent three others but they have not been returned to the clerk's office.

Allen Wood Jr. has returned from a week's visit with relatives in Dallas.

Chinese Regained Offensives In One Sector

CITY MAY BE FREE MAJOR DANGER SOON

HANGHAI (Friday), August 29 (AP)—Chinese regained the offensive in one sector of the bitterly contested northern Shanghai front early today.

After they had been driven back by an intense Japanese aerial and naval bombardment, they reorganized their lines and drove forward.

Elsewhere Japanese forces drove along a 20-mile front, and Vice-Admiral Kiyoshi Hasegawa announced that he expected this devastated city to be free of major danger within 48 hours.

Foreign commanders and diplomats met earlier in the night and reportedly discussed a drastic program in event of wreckless attacks by both sides in the vicinity of the Anglo-American area of the international settlement.

With the Chinese assaults repulsed on most sides, the war again spread to Nanking, China's national capital.

The Japanese asserted they were

WORLD NEWS FLASHES ON WIRES TODAY

ISTANBUL, Turkey, Aug. 19 (AP)—A dispatch from Chanak said that the Spanish loyalist steamship Amura was torpedoed by an unidentified submarine in the Aegean Sea near the Turkish coast. The ship was beached and the crew rescued.

EASTLAND, Aug. 19 (AP)—The body of John Shannon, 59, oil well driller and World War veteran was sent today to Attica, Kas., for burial. Shannon died Tuesday in the Kerrville Legion hospital.

HOUSTON, Aug. 19 (AP)—A middle-aged Houston mother was shot to death on the front porch of her home today by her estranged husband who then killed himself. The woman, Mrs. Linnie Jones, filed a divorce suit two days ago against her husband, Jake Jones, a carpenter.

LOOPHOLE TAX BILL APPROVED IN 15 MINUTES

WASHINGTON, August 19 (AP)—The senate hurried one more obstacle in the drive toward adjournment today when it approved in less than 15 minutes the administration bill to close tax loopholes.

Approval of the complex measure designed to plug eight specific types of tax avoidance which the treasury estimated cost the government more than \$75,000,000 a year in revenue came without extended debate.

Passage of the bill virtually assured quitting by Saturday night.

Rev. Fielder to Sail For China Aug. 14

Editor and Mrs. W. H. LaRoque who returned Wednesday from their vacation trip to Yellowstone National Park, Salt Lake City and Los Angeles, received a card from Mrs. LaRoque's brother, Rev. Fielder is a Missionary to China, and works under the auspices of the Southern Baptist Convention. As the destination of the ship on which he and family expected to sail would be in the direction of the war zone, it is thought doubtful that they would be permitted to land.

Peanut Warehouse Is Still a Hope

Nothing definite has been done regarding installation of a peanut warehouse for Cisco, secretary of the Chamber of Commerce, J. E. Spencer said this morning, excepting the appointment of a committee to work with W. B. Starr, president of the Southwest Peanut Growers Association.

The committee will go to Washington for a conference with proper authorities for the purpose of the establishment of the warehouse here. Personnel of this committee will be named by the president of the chamber.

"When this committee returns from Washington," Mr. Spencer said, "then we will have something definite to say."

F.F.A. NOT TO HOLD ANNUAL ENCAMPMENT

The annual Future Farmers encampment at Lake Cisco will not be held this year, it was announced today. Decision to forego the gathering of farm students this summer was arrived at after considering various facts, principal of which was that the encampment had been postponed to next week from an earlier date in the summer, placing it so near the opening of the new school term that it was feared attendance would be materially cut and the chances of success greatly affected.

The decision to postpone the encampment from the original dates of August 5, 6 and 7, had been made because of a general fear of an epidemic.

Texas Voters Will Decide Upon Six Amendments Mon.

AUSTIN—Texas voters will decide the question of adoption of six constitutional amendments when they go to the polls Monday, August 23.

An unusual aspect of the election probably will be the small number of votes cast, because the election will be held on Monday instead of the usual Saturday.

With one exception there has been practically no campaigning for the proposed amendments.

Gov. James V. Allred had announced his intention to support the proposal for the return of the fee system but spent the first two weeks of August vacationing in Mexico.

PRESIDENT ROOSEVELT INVITES SEN. HUGO L. BLACK TO LUNCH

BULLETIN
 Senator Hugo L. Black today accepted the position as Associate Justice of the Supreme Court as he lunched with President Roosevelt.

WASHINGTON, Aug. 19 (AP)—President Roosevelt today invited Hugo L. Black, his selection for U. S. Supreme Court Associate Justice, to lunch with him at the White House.

The president extended his invitation after Albert Levitt, former special assistant attorney general filed a petition attacking Black's nomination before the supreme court. Although Black has not resigned his senate post and taken his new oath of office, the White House engagement list carried his name "Associate Justice Hugo L. Black."

BODIES FOUND OF COUPLE WHO DROWNED TUES.

FORT WORTH, Aug. 19 (AP)—Bodies of a man and woman believed to be Mr. and Mrs. Hovey Durringer were found today at Eagle Mountain Lake, the sheriff's office here was notified. He was 34 and she 29.

Mrs. Anna May Taylor, 40, who accompanied the couple on a moonlight swimming party Tuesday night said they leaped from a boat fully clothed. Mrs. Taylor, unable to swim, rode in the boat for five hours before reaching shore.

Mrs. W. D. Hazle is expected to return today from Temple where she spent a few days this week.

STATE PARDON BOARD REFUSES CLEMENCY FOR LUKE TRAMMELL

AUSTIN, Aug. 19 (AP)—Judge Bruce Bryant of the State Pardon board announced today that no clemency will be recommended for Luke Trammell, sentenced to be electrocuted at Huntsville prison between midnight and sunrise.

Trammell's mother, after a vain appeal to the board, left Austin for Huntsville.

Two other convicted slayers scheduled to die tonight were reprieved. Commutation of life imprisonment saved a Wharton county negro and a Mexican murderer was granted a second 30-day reprieve.

Trammell was given the death penalty for killing Felix Smith,

FORCE WILL BE STATIONED AT FAIR GROUNDS

AUSTIN, August 19 (AP)—Governor Allred today ordered 25 public safety commission police to Dallas to stop beating, tarring, or interference with public meetings.

Allred issued the instructions to Captain Homer Garrison, assistant director of the department. The force will be stationed at Centennial grounds.

Allred said it was apparent that disturbances still threatened in Dallas. He cited a threatening communication to the wife of a millinery worker union organizer.

"If 25 men are not sufficient to insure the rights of peaceful assembly and free speech, and to prevent floggings, tarings and other intimidations, more men will be sent," said Allred.

Undercover men have been in Dallas investigating the tarring and feathering of Herbert Harris socialist organizer. The Governor last Monday offered \$500 reward for information leading to conviction of Harris' assailants.

DALLAS, August 19 (AP)—City officials today greeted with varied emotions Governor Allred's announcement that he would send state police here to prevent violence during current labor trouble.

Mayer George Sprague, apparently resentful, said "Dallas police are perfectly capable of handling the situation. I see no reason for sending state police."

M. McCARTY IS WORLD FAIR COMMITTEEMAN

Milburn McCarty of Eastland was recently appointed New York Fair committeeman to act as one of a number of others from various Texas towns in matters of state interest pertaining to the \$125,000,000 exposition to be held in New York City in 1939.

Jesse Jones of Houston has been appointed Chairman of the Texas unit of the National Advisory Committee of the New York World's Fair. In this capacity, Mr. Jones will serve as "liaison officer" between the New York Fair Corporation and the Texas unit of 100 prominent citizens that has been formed into represent the legislative, civic, commercial and professional groups of the state.

The appointment of Mr. Jones was announced today by Grover Whalen, President of the Fair Corporation, before he sailed on the Normandie for his second visit to the Paris International Exposition and calls in Belgium and Italy.

Mr. Whalen also announced that 30 states and two territories of the Union had already passed bills, with gubernatorial signature, providing for participation in the 1939 exposition, and that he had just received cablegrams advising that Chile and the Netherlands had accepted the American government's invitation to join in the fair, thus bringing to 29 the number of foreign governments that have made acceptances.

Mr. Jones was nominated for his newest position by representative groups in Texas.

Texas was one of the states whose legislatures and executives have already provided for participation in the Fair.

Miss Mary Beth Langston who is in San Antonio visiting friends is expected home this week.

GEN. HOUSTON LEFT ESTATE TO MARGARET

DALLAS, August 19 (U.P.)—Historical archives uncovered in the county clerk's deed records by WPA employees conducting a historical records survey in Dallas county, revealed that Gen. Sam Houston, first president of Texas, was once the owner of 268 acres 14 miles east of Dallas.

A series of recordings pertaining to Gen. Houston's property included a copy of his famous will which is also recorded in two other

Texas counties. The records here show that in Oct. 1872, after Gen. Houston's death, Gov. Edmund J. Davis entered a letter patent in Austin, filed here in 1873 which granted to Margaret Houston, Sam Houston's widow, and his children 268 acres on North Mesquite creek a tributary of the east fork of the Trinity river, 14 miles east of Dallas.

Provisions of Gen. Houston's will read: "First, I will that all my just debts be paid out of my personal effects, as I think them sufficient without disposing of any of the family servants.

"Second, I bequeath my entire estate to my beloved wife, Margaret, and our children and I desire that they may remain with her so long as she may remain in widowhood, and should she at any time marry, I desire that my daughters should

be subject to her control. "Third, my will is that my sons should receive solid and useful education and that no portion of their time may be devoted to the study of abstract science. I greatly desire that they may possess a thorough knowledge of the English language with a good knowledge of the holy scriptures and next to these, they be rendered in a knowledge of geography and light reading. In all that pertain to my sons I wish particular regard paid to their morals as well as to the character and morals of those with whom they may be associated or instructed.

"Fourth, I leave to my wife as executrix and to the following gentlemen, my executors, Thomas Gibbs Thomas Caruthers, J. Carroll Smith and Anthony M. Branch my much beloved friends in whom I place my entire confidence, to make such disposition of my per-

sonal and real estate as may seem to them best of the necessities and interests and welfare of my family. "Fifth, to my dearly beloved wife Margaret, I confide the rearing, education and moral training of our sons and daughters.

"Sixth, to my eldest son, Sam Houston, Jr., I bequeath my sword never to be drawn only in defence of the constitution, the laws and liberties of his country. If any attempt should be made to assail one of these, I wish it to be used in its vindication.

"Seventh, it is my will that my library should be left at the disposition of my dear wife.

"Eighth, to my dearly beloved wife, I bequeath my watch and all my jewelry subject to her disposition.

"Ninth, I hereby appoint my dearly beloved wife, Margaret, testamentary guardian of my children their persons and estates during minority. But should a wise providence through its inscrutable decrees see fit to deprive our offspring of both parents and make them orphans indeed, it is hereby delegated to my executors who are hereby confirmed to make such disposition in regard to their welfare as they may think best calculated to carry out the designs as expressed in this my last will and testament.

"Tenth, and I direct and enjoin my executrix and executors that after the probate and registry of this my last will and return of inventory of my estate the county or other court of probate have no further control over my executors or testamentary guardian or of my estate.

day of April, 1863." Witnesses to the will were James R. Cox, Jacob Banton, W. H. Randolph, and W. T. Robinson.

People on Relief Eat Many Onions

COLLEGE STATION (U.P.)—Families on relief rolls are seasoning their meals plentifully with onions these days, if they are following through on the purchases of the federal surplus commodities corporation division of the agriculture adjustment administration.

The corporation purchased 358 carloads or 9,128,000 pounds of Texas onions during the past growing season when it became evident the onion market would be burdened by current supplies in excess of normal consumption.

DESDEMONA

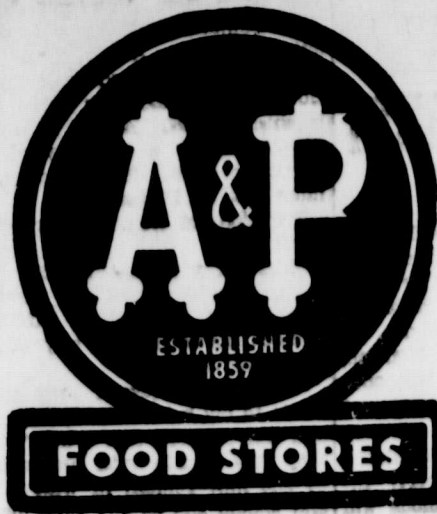

By MRS. W. C. BEDFORD

Ed T. Cox of Eastland was among the hundreds who came Saturday to the Home-Coming celebration. In the afternoon he made an interesting address on pioneer days in Eastland county and also gave some statistics as to crops in early days and at the present time showing the effect of lack of soil conservation. On account of the large crowd and the fact that old friends were meeting old friends whom they had not seen for a long time, it was difficult for the speaker to make himself heard but he gave a splendid address.

Rushing who had gone there with his mother came home with Mrs. Williams and after visiting with friends and relatives Saturday, he left that evening for his work at Lake Charles, Louisiana. Rev. and Mrs. Z. L. Howell and daughter, Miss Lois Howell, of Gordon, were among the large number who came to the Home-Coming Saturday. Rev. Howell was pastor of the Methodist church here from Nov. 1932 until No. 1934 and he and his family will always be welcome visitors here. Walter Horton of Gorman attended the Home-Coming and visited his old friends the Powers family, Saturday. Mr. and Mrs. Chaney of Snyder, Oklahoma, were guests of Mrs. S. E. Snodgrass and family Saturday. The Chaney community was named for them and a number of their family still live in that neighborhood. Mr. and Mrs. Howard and children returned Thursday night from Rockstown, near Corpus Christi, where they had spent a week with Henry Gentry and family. Rev. and Mrs. Sherrod Stover and baby son, Billy, left early Saturday for their home at Morris, Okla. after having visited his parents Mr. and Mrs. S. T. Stover several days. Glenn Maltby who has been

working at Freer the past few months spent the week end with his parents, Mr. and Mrs. C. W. Maltby. Carl Robert came with Glenn and visited the Maltby family and other friends. Not only their school-mates but their friends among the older people were delighted to see the two boys. Mr. and Mrs. Clay Ende of London, Texas, were here for the Home-Coming and to visit his mother, Mrs. Mollie Ende. Mr. and Mrs. Earl Stewart and baby daughter, left Sunday morning for their home at Perwell after having visited here two weeks with her parents, Mr. and Mrs. Mabory Wilcoxson, and with his parents who live a few miles south of town. Mr. and Mrs. Fred Stover of Conroe, left Sunday for their home after having visited his parents, Mr. and Mrs. S. T. Stover two days. Mrs. David Parks returned Wednesday from Lamesa where she had been with her father, Mr. Williams, who was taken there when he was able to leave the Midland hospital. The Methodist Missionary Society met Monday afternoon at the church and had the World Outlook program which was led by Miss McIlle O'ear. Others who took part on the program were Mrs. W. H. Whitworth and Mrs. Preston Sparks. During a short business session it

was voted to help buy an oil mop for the church. It was also stated that a new supply of Betty Brites had been received and were ready for sale. Mrs. M. R. Dunlap of Breckenridge was the guest of her mother, Mrs. S. E. Browning and family Saturday. Luther McMillan from O'Donnell, Loren and Elvis McMillan, from Hermleigh, Mrs. J. R. Duncan and son, Jimmy, and Cleta Fern Anderson of De Leon were guests of Wiley Powers and family Saturday. Other guests during the week were S. S. and O. C. Powers of Hobbs, New Mexico Payton and Dan Powers of Lubbock and M. H. Powers of Lamesa. Mr. and Mrs. G. S. Bruce returned on Tuesday afternoon of last week from their vacation trip. During the two weeks they were away they visited their daughter, Mrs. R. D. Hendrickson and family at Fort Arthur and their youngest daughter, Virginia Bruce, who is staying at her sister's home while attending Fort Arthur Business College. From there they went to Louisiana where they visited at several different places, the last one being Shreveport. While in Louisiana, Mr. Bruce visited his only brother and two aunts whom he had not seen for 49 years and he recognized both of them but they did not recognize him as he was a very small boy when they saw him the last time. Mr. and Mrs. Bruce also visited their oldest daughter, Mrs. Bill McKain and family at Gladewater. C. B. Hughes and Walter Hughes of Dallas spent the week end here with their sister and brother-in-law, Mr. and Mrs. George Patterson. We are glad to report that Mrs. Joe Wilson is able to sit up part of each day after having been very ill last week. Mr. and Mrs. T. H. Key returned Friday from San Angelo where they had visited Mrs. J. H. Key the only living aunt of Mr. Key. He had not seen her for 8 years. While there his aunt showed him a quilt she had pieced that had 6,313 blocks in it. That was her 17th quilt to piece in the last 10 years, making 106,321 blocks used in these quilts. Mrs. Lark Bishop and daughter, Mrs. Williams, both from Morgan, and her son, Arnold from Cleburne visited quite a few old friends here Sunday. They had come for the Home-Coming but had been mistaken about the date. Edward May and family of Amarillo visited his parents Mr. and Mrs. W. B. May a few days last week, staying over for the Home-Coming where they visited many old friends. A. A. Brown and wife of Munday Texas were guests of her brother, the Koonce family near Jakenation on Tuesday of last week. They regretted that they could not stay for the Home-Coming. Mr. and Mrs. W. H. Davis visited friends at Gorman Sunday afternoon. Donald Howell and family of Kilgore and Style McEntire and family of Odessa are visiting Mrs. J. E. Derrick, mother of Mrs. Howell and Mrs. McEntire. Mr. and Mrs. F. E. Walker and Mrs. J. R. Buchanan, mother of Mrs. Walker, left Tuesday night of last week for Monahan to visit Mr. and Mrs. A. T. Wilhite. Mr. and Mrs. O. G. Lawson of Cisco were among those who were at the Home-Coming, greeting old friends and neighbors. Mrs. J. S. Howell of De Leon and her daughter, Miss Effie Howell came over Saturday afternoon to be present at the Home-Coming. They lived here for many years and had not been back in quite a long time to see their many friends. Mrs. Bobbie Terry and her mother, Mrs. S. K. Shuler of Stephenville, were among the 90 old friends who ate picnic dinner Saturday at the home of Mrs. S. E. Snodgrass. Billy Merton, who lives near Big Spring and who was visiting relatives at Eastland, came down Saturday morning and visited for an hour with his old friend, W. C. Bedford. These two old friends had moved from Alabama to Eastland in 1876, coming with a party of 28 by covered wagon. They left Alabama on May 15th of that year and reached Eastland on July 12th. Green Wright, of Eastland also visited with these two old friends. Mr. and Mrs. C. H. Genoway had a family reunion during the Home-Coming but we failed to get a list of their relatives who came. El Sparkman was among the number of Desdemona people now living at Freer who came for the Home-Coming. Mr. and Mrs. O. Hilliard also of Freer, came to visit Mr. and Mrs. W. G. Sparkman. The reporter regrets not being able to give a full list of those who attended the Home-Coming but it was impossible to get all the names.

A "bargain" is sometimes a bargain --

Good many people look on August as their lucky month and we don't mean those who spend it lying on the sand and taking in salt air.

We mean those people who have formed the habit of buying things when other people aren't ... porch rugs and luggage and towels and lamps and all sorts of things, for use now and for use next season.

Of course they have learned that "bargains" are not always bargains. They know how to recognize quality and styles and worth, how to find the strong points and how to avoid weaknesses. And much of their knowledge comes from the advertisements in this newspaper.

All of us follow advertising, but some people study so thoroughly that they know exactly what they want and where to get it. They are the ones who find the real bargains. Their money buys more things and better things—in August and all through the year.

LEGEND GROWS WITH MARCONI AS SUPERMAN

By RALPH E. FORTE United Press Staff Correspondent. ROME, Aug. 19 (AP)—The death of Guglielmo Marconi has robbed the Italian people of a hero whose acts and thoughts they unanimously considered mystical.

Marconi fed their vivid imagination for unreal, and psychologically speaking his death was an irreparable loss for them. A proposal to erect a monument of him at the 1941 world exposition in Rome, has met with spontaneous popular approval.

Thousands upon thousands of plain people, workers in denim, heavy women with nervous babes in arms, poor priests, beggars, soldiers and sailors, mourned and many others filed reverently past Marconi's body as it lay in state in the majestic Galatea Hall of the Italian academy.

A study of their faces as they entered the room holding their breath and fixing their eyes on the inventor's soft features offered valuable material for thought. Only a few actually noticed the scientist's gorgeous uniform of president of the academy, or his score of medals or even the wide green sash of the royal decoration of the knighthood of Saints Mauritius and Lazarus which crossed his chest sideways, Marconi was the poor people's champion.

Regarded as Superman

The Royal Academy is housed in a beautiful building of the 16th Century known formerly as the Farnesina picture galleries. The district is Rome's most popular and incidentally, toughest. It's inhabitants since birth had come to believe that Marconi was superhuman. How could death steal the "man who invented radio?"

For the two days of his death and funeral, shopkeepers, barbers, mechanics and waiters were unusually mute and when ready to talk, the subject could only be of him.

In recent years Italians have almost lost the habit of reading newspapers regularly. When Marconi died, however, newsstands were rushed and copies soon ran out. Readers were primarily interested in one story, the obituary they carried. Just ordinary folk would stand in groups all over the city and any bystander could learn that Marconi was not a scientist but a "genius." He was, they argued, a man in whose head God had placed an idea which He did not give to anyone else or ever will. It was clearly understood that Marconi did not invent the Hertzian waves which belonged to that official science which stubbornly considered "il nostro uomo" as an "amateur." They declared, however, that the idea that with those waves it was possible to telegraph was the discovery of a genius!

Firm Roman Catholic

Another fundamental reason for Marconi's popularity was his religious faith. A firm Roman Catholic in his later years, he requested last sacraments 10 minutes before dying.

During the Ethiopian campaign the people believed in Marconi almost as though he were the nation's guardian angel.

Why could he not halt enemy airplanes with a tiny box? There was a daily plethora of reports at-

tributing mysterious experiments to Marconi. Once people passed along rumors that the inventor had stopped the motors of all the automobiles which ran over a certain stretch of the Rome-Ostia highway.

At the time of sanctions and the concentration of the British fleet in the Mediterranean, simple women marketing in the mornings would philosophically conclude their arguments: "Let the entire world fight us. We have Marconi."

His death was a severe loss to Italy for the very human reason that popular admiration for Marconi was quiet but profound and limitless. At the time of his death Italians forgot Spain, home politics and even to follow the progress of favorite bicycling champions.

Girl of 3 Plants, Hoes Own Potatoes

PLAIN CITY, Utah (AP)— This community lays claim to possessing the world's youngest practical farmer, Aleta Van Sickle, not yet 4 years old.

Without assistance from other members of her family, the young girl farmer cut and planted potatoes in a row 50 feet long. She also irrigates and hoes without help. She says she expects "a lot of potatoes."

Aleta is owner of a calf named Boots, has a share in a flock of bantam chickens, owns a Brahma rooster she calls Chaps, helps to care for her pony Queen, and says she would like to be a farmer when she "gets big."

Expectancy Reaches High for Insured

NEW YORK (AP)—The life expectancy of some 17,500,000 industrial policy holders reached an all-time high record of 60.31 years in 1936, the Metropolitan Life Insurance Company has revealed.

The company said that in the last 25 years there has been a gain of 13.68 years in the average length of life among industrial policy holders. It was added that in the 1911-1912 period the expectation of life at birth was only 46.63.

The increase in life expectancy was attributed principally to improvement in "personal hygiene and the trend to higher standards of public health."

STRIKES IN GREAT BRITAIN

Dealers To New Permits And No Renewals

Administrator of the Liquor Control Board, has

in letters to county officials plained that beer retailers in the future must obtain a new license each year instead of receiving a renewal as before.

R. V. Galloway, county clerk, furnished the following copy of the explanation:

To County Tax Collectors-Assessors, County Judges, County Attorneys and County Clerks:

Under the provisions of Section 7 (a) Article II of the Texas Liquor Control Act, as construed by an opinion of Attorney General of Texas, each applicant for any class of license authorized under Article II of the Act as well as a wine and Beer Retailers' Permit must file an application for a license as in the case of an original applicant has been in business and has theretofore had a similar license. In other words, no license can be legally procured by filing a petition for renewal with the County Tax Collector except in such instances where the license expires at a date subsequent to Sept. 1, 1938 (not 1937).

Applicants whose present licenses expire during the first few days of September will of course be compelled to file their application some time during the month of August. In such instances the new procedure should be followed and the Tax Collector-Assessor should forward to the Board's office at Austin the required instruments even though the procedure is begun and completed prior to Sept. 1.

The fee of \$5. allowed on all applications for licenses according to the Attorney General's opinion would be deposited to the General Fund of the County and may not be retained as fees of office.

County Tax Collectors are respectfully asked to see that the other county officials named in the salutation receive a copy of this let-

ter, a sufficient number being enclosed herewith.

Very truly yours, Texas Liquor Control Board, Bert Ford, Administrator.

Thief Kills Chicks On Spot and Flees

FORT WORTH (AP)—A surgically-minded chicken thief took 24 of Fred Bayer's flock recently and left without a sound.

The thief entered Bayer's chicken barn, snipped the heads from 34 chickens with some instrument that must have been specially designed for that work. Next morning Bayer found 24 heads, and 24 fewer chickens.

Famous Strasbourg Clock on 99th Year

STRASBOURG (AP)—The astronomical clock of Strasbourg Cathedral, which has attracted more than 2,500,000 visitors to the city during its career, will celebrate its 100th anniversary next year.

Started in 1538, the famous clock tells the time of day, indicates religious and civic festivals, the hours at which the moon and sun rise and set, eclipses, and the average revolution of each planet. Allegorical personages figure in the action of the clock and at noon visitors come to see the Twelve Apostles appear and kneel at the feet of Jesus Christ while the cock crows three times.

The present clock is considered a mechanical masterpiece, and is the third to be erected on the cathedral. The first clock, begun in 1382, was used for 200 years and in the latter 16th century a second astronomical clock replaced it, remaining in use for more than 300 years.

JAPAN'S SPIRIT LIKENED TO 1917 FERVOR TO U.S.

for almost any eventually also over night.

Within a week following the North China incident that brought Japanese and Chinese troops clashed the War Ministry in Tokyo became one of the busiest places in the world.

The long, two-story structure, before which armed sentries always are stationed, blazed with lights throughout the night. In key offices extra batteries of telephones were installed. A new electric transformer had to be put in to take care of increased kilowattage.

Most active room in the whole place was the office of the chief of Asiatic affairs. Three additional phones, connecting him with naval general staff, the War Ministry itself, and the Navy Ministry, were placed on his desk. Principal officials also got extra thermos bottles for ice water.

Bedbugs Trk Officials

Tension mounted hourly. High officials, reluctant to leave their post, ordered cots brought in, so they could snatch a few hours' sleep. But relief was denied.

The "Nanking insect"—The venereal term for bedbug — had found repose within the feather mattress even before the army officials lay down to sleep.

"Due to the hot, rainy weather," says one account, "the bedbugs multiplied and turned guerilla attack

on the Japanese war heroes who would drop into bed for short naps at night."

Pests Have Chinese Names

According to custom, many unnamed pests encountered in the course of Japanese life are given titles which indicate they are undesired imports from the Chinese capital.

As the Sino-Japanese crisis became more acute, people throughout Japan began sending money contributions and gifts to the War Ministry for shipment to soldiers abroad. The usual staff of 10 men detailed to handle that department was increased.

Persons in all circumstances, rich and poor, professional workers and laborers, poured their donations into Tokyo.

Even hospital patients were eager to help. More than 400 inmates of a leper asylum in Gunma Prefecture offered a contribution from the money saved by cleaning, nursing and farm work.

RA Supervisors Go To College Station

Resettlement supervisors of Eastland County have received authorization to attend RA's annual rural rehabilitation conference August 23 to 27, according to Geo. I. Lane. Making the trip, in addition to Mr. Lane, will be Robert Fisher, District Rural Supervisor, District No. 11; Mrs. Lena W. Taylor, District Home Supervisor, District No. 11, and Miss Louise Johnson, District Secretary, District No. 11.

The local supervisors have been asked to prepare suggestions which will be discussed at the conference.

"It seems that this is to be a truly Democratic conference, with discussion by all rather than speeches by a few," the local farm supervisor said. "Every committee will have a county supervisor as chairman. The committee findings will not necessarily be adopted by the Dallas or Washington offices, but will certainly have influence."

Prominent Resettlement officials from Washington as well as from the regional office, are expected to attend.

For the first time, the annual meeting is being held at College Station, where it will be more accessible to the agricultural specialists who will take part. They will join RA workers in small committees, which will report later to the main conference on methods of developing the live-at-home program which is required of rehabilitation borrowers.

Among the more prominent speakers will be Dr. T. O. Walton, President of the College; H. H. Williamson, Director of Extension Service; Roy W. Snyder, director of short courses; Miss Mildred Horton, Assistant Director of Extension Service; C. M. Evans, Assistant Regional Director in Charge of rural rehabilitation; Mrs. Laura Neale Love, Regional Home Management Supervisor, Resettlement Administration; E. H. Holmgreen, Administrative Assistant, AAA; and Louis P. Merrill, Regional Director, Soil Conservation Service; and the following college and Extension Service specialists: E. R. Eudaly, dairy specialist; Grace I. Neely, specialist in foor preservation; G. G. Gibson, assistant dairyman; E. M. Regentbrecht, swine husbandman; D. W. Williams, Head, Animal Husbandry Department; S. A. McMillen, Extension economist; Boss Edwards, Assistant State Home Demonstration Agent; J. W. Chapman, Assistant Agricultural Engineer; G. W. McCarthy, poultry specialist; J. F. Roseborough, horticulturist; Bernice Clayton, specialist in home improvement; Lala M. Dilworth, specialist in food preservation; C. E. Murphy, Jack Shelton, Assistant Director of Extension; Dr. D. H. Reed, Head, Faculty Department; C. E. Bowles, Extension specialist in co-operative marketing.

SHANKS' MARE

Having nothing more exciting to do, George C. Hadley, shown smiling into Los Angeles, walked to that city from Springfield, Mass. Hadley, a World War veteran, claims a world record, having completed the trip in 57 days. He averaged six miles an hour and from 60 to 70 a day. He weighed 125 pounds at the outset and lost seven on the route. The former transcontinental record on Shanks' mare was set by the renowned Edward Payson Weston in 1902, when he did the 3000 miles between New York and Los Angeles in 77 days and 22 hours.

Resolution Adopted By Cisco F. L. Ass'n

The Cisco Farm Loan Association, at a meeting of its Board of Directors, adopted a resolution following the death of Birt Britain and same is submitted as follows:

Whereas the Ruler of the destiny of men has called from the walks of this life, to take his place in the Home prepared for the children of God, our co-worker, fellow director, and dear friend, Birt Britain; be it resolved that we the Board of Directors of the Cisco National Farm Loan Association; has sustained the loss of a valued and most noble leader. That we will miss his sound judgment in the handling of the problems we meet and feel the added load to carry on without him.

We shall ever remember his nobility for the right and at all times his efforts to be of help to those that he could, to the limit of good business judgment. His life, and our association with him, will be an inspiration to us to carry on for the sound management of the affairs of the Cisco National Farm Loan Association, and to be better friends to our fellow man. It can truly be said of Birt Britain, "He was a friend of man." He met every call on his time, talent, or his finances, to his full ability, and as a true and noble gentleman at all times.

His life has set a worthy example and inspiration for his sons and daughter and left a sacred memory to cheer his noble wife along the way of her journey in this life, to be completed without the aid of his tender care and devotion.

Birt, has gone home to his God, and our God, where we have that hope to join with him again in the life Eternal. There, we are sure he will be found doing the will of His Master, with the same nobility of purpose as directed his life here, and with a better understanding of the ways of God.

Resolved, that this resolution be sent to the family of Birt Britain, that it be spread on the minutes of this Association, and that copies be furnished local papers for publication.

Famous Composers Appear in Fiesta

FORT WORTH, August 19 (AP)—Melody Lane, starring the composers of the greatest song-hits of yesterday, is now offered as a free attraction at the Fort Worth Frontier Fiesta.

Think of hearing "Sweet Adeline" sung by a quartet consisting of Harry Armstrong, who wrote the immortal song; Joe Howard, composer of "I Wonder Who's Kissing Her Now"; Fall Baxter, "Piccolo Fete," and J. Russell Robinson, "Margie." This is just one of the highlights in Billy Rose's sentimental show with its circle of 9 grand pianos and a white piano in the center where the composers, one by one, play their great songs.

Some of the composers sing and the other melodies are sung by Bess Coehntin, "songbird of the Southwest," and Charles King, star of the great motion picture, "Broadway Melody."

Melody Lane has been one of the most popular shows on the grounds and, now that admission is free, even larger crowds are expected to enter the huge circular red building, with a seating capacity of 3,500. There will be three performances nightly. Melody Lane succeeds "Flirting with Death" as a free attraction.

Composers — besides Armstrong, Howard, Baxter and Robinson — are Vincent Kane, who wrote "Avalon"; Ernie Burnett, "Melancholy Baby"; David Guion, "Home on the Range," and Euday Bowman, "Twelfth Street Rag."

50 Cents Saves Man \$144 in Jury Pay

LCNGVIEW, Aug. 19 (AP)—An investment of 50 cents saved Gregg county \$144 in jury pay, according to Dezier Skipper, Jr., district clerk.

Attorneys on both sides of a case told Judge D. S. Meredith, Jr. they wanted to try it.

"Are you sure?" the judge wanted to know. "It's the only jury case on the docket."

"They were sure, so Judge Meredith had the jurors summoned. Then one of the attorneys announced that it would be impossible to try the case.

It was then that Skipper bought 50 cents worth of post cards and sent them to 50 men who had been summoned, telling them they would not be needed.

Two of the 50 men came in for jury service, not having got the card countermanding their summons. They were paid the regular \$3 daily fee. But the other 48 men got their penny postcards and did not appear.

ASSES IN MEXICO FACE WANT; FOODSTUFF MUST BE IMPORTED; DIVISION OF FARM LAND BLAMED

WILLIAM H. LANDER
Press Staff Correspondent
MEXICO, D. F., August 19 (U.P.)—

Times have set in throughout the country. Many people are finding it difficult to make ends meet. Agricultural production, under the agrarian policies, has declined the face of an increase in population.

Mexico — the original source of cocoa and corn (maize) to support both these commodities Venezuela and Argentina. The price of wheat is so high that importation may be necessary to obtain foodstuff abroad, how the consumer finds the extra cost working against him.

The Mexican peso was devalued in 1932, from 2 to the United States dollar to 3.60. This was done to stimulate exports. The ratio works all right for the mining and oil companies, which export, but it is a further hardship on those who have to eat food imported from abroad.

Everybody realizes that the situation is grave. The Department of Education has ordered all teachers throughout the land to lecture on "the people's struggle against the high cost of living."

Called "Hunger Crisis"
Vicente Lombardo Toledano, the powerful leader of the CTM (Confederacion de Trabajadores de Mexico — Confederation of Mexican

Ex-First Lady Has Birthday

Leader in point of age in the select company of living ex-first ladies of the land, Mrs. Edith Roosevelt, widow of Pres. Theodore Roosevelt, shows no trace of failing health as she celebrates her 76th birthday at

the famous old Roosevelt home- stead at Oyster Bay, Long Island, surrounded by loyal and loving friends and relatives. Left to right: Mrs. Roosevelt, Leonard Hall of Oyster Bay, and Archie Roosevelt, her third son.

Laborers, who has been nicknamed the "John L. Lewis of Mexico," describes the situation as a "nationwide hunger crisis."

Lombardo has publicly warned the government that unless something is done soon, "nobody can hold back the masses in their demands for food. It is necessary that the government listen, think and put through an efficient program to remedy the problem. Never before has the specter of hunger hovered over the nation as it does today."

The scarcity of charcoal has further complicated the situation. The average Mexican woman cooks her tortillas on little charcoal burners. This year the rainy season has been so intense that a shortage of charcoal has developed. To get this fuel, it is necessary to stay in a queue for hours. Many humble families are eating only two hot meals a day instead of three as a result—and the price they pay for their charcoal is much higher than usual.

Beyond 1929 Level
The official index price of basic commodities on July 9, 1937, was of 123.09 (with the 1929 level as 100). The week ending June 11 it was at 120.36; the preceding week it had been at 118.55. A month before it had been at 115.34, and in March, 1936, it was at 94.6.

The Board of Experts which recently investigated the financial conditions of petroleum companies and their employees said the following about the high cost of living:

"The prices of the articles which go into the food basket of a laborer's family of five members in the oil fields have increased by 88.96 per cent between June, 1937, and

the middle of 1934."

Wages Behind Price Rise

Under President Lazaro Cardenas laborers' wages have risen steadily, but the cost of living has gone up even faster, nullifying their increases. Various labor unions have announced that unless the prices of commodities drop to the levels existing before Dec. 31, 1935, they will demand 50 per cent wage increases. If these are not given, they say they are ready to strike.

The situation is such that it overwhelms talk of everything else—even of the weather and the Spanish civil war. Not only are the labor people complaining; some diplomats say that it is now more expensive to live in Mexico City than in Washington, D. C. Tourists are not finding the bargains they expected.

Cardenas Not Attacked

Nobody so far has attacked President Cardenas directly for this situation. Many people do accuse his subordinates. Others lay their blame on adverse weather conditions, while others blandly say that it will take several years for the new agricultural communities to begin operating efficiently.

Labor leaders are also careful to avoid antagonizing the army. This is very significant. Two years ago they used to insult the army with impunity. Ever since the Spanish civil war, however, they have catered to the army.

The main persons attacked in connection with the high cost of living are the bankers, the Spanish middlemen (most of them pro-Franco), and government officials.

GASOLINE GAGE FOR U. S. READ 40 DAYS AHEAD

By JAMES J. DOWNING
United Press Staff Correspondent
TULSA, August 19 (UP)—Mr. average Motorist, who drives into a corner filling station and says "fill 'er up," is a small but very important cog in the machinery of one of today's largest industries—the manufacture and sale of gasoline.

Without the average motorist and his average daily driving in an average car on average roads in average weather, the gasoline industry conceivably might go to pot at an astonishing rate of speed.
Checking on daily average consumption of gasoline as a Federal department known as the U. S. Bureau of Mines. Today the mines bureau and its monthly reports constitute the industry's watchdog, preventing wasteful overproduction of fuel, or, even worse, underproduction.
Monthly Consumption Estimated
How much gasoline will be used in the United States in August? The answer to that question is important to the oil industry and its million employees to State and Federal governments which collect taxes totaling \$1,000,000,000 annually on gasoline and other petroleum products, to road builders who depend on gasoline taxes to pay for the work, to the steel and other in-

A CAPITALIST is one who accumulates beyond his consumption. It is said that a thrifty man will save 20 per cent of his earnings and that a tightwad will save 60 per cent. In the pursuit of wealth men have endured hardships, exile, hunger and even death and very often, when it seems almost within their grasp, or even after it is accumulated, it takes wings and flies away. Money, which is by no means the greatest thing in the world, is the power which moves most men to their best endeavors. After it is accumulated, it should be carefully guarded and scientifically invested.

150 Dead in 142 Texas Accidents

AUSTIN (UP)—The speed demon again held high cards in traffic deaths last month in Texas. Figures compiled by the department of public safety show 142 fatal accidents resulting in 150 deaths in Texas.

Half of these deaths were non-fatal collisions and fixed object wrecks, caused by speeding and reckless driving, losing control of a car and

plunging off the road. Nearly 90 per cent of the drivers involved in fatal accidents have no one to blame but themselves, the department officials reported.

Cars crashed into culverts and fences and draped themselves around trees, hurling occupants through the windshields. In several cases, hours elapsed before the tragedy was discovered.

industries which sell supplies to the oil industry.

The answer is known approximately 40 days in advance. More than a month ago the bureau of mines completed its calculations for August and made them known to the industry.

In August, the bureau said, the average motorist, including truck and bus drivers, motorcyclists and airplane pilots will drive about 34.8 miles a day and consume 2.52 gallons of gasoline a day.

Many Factors Studied
The bureau arrived at that answer after considering a vast accumulation of data concerning the general business index, automobile registrations, tourist travel, airplane consumption, agricultural conditions, seasonal trends and improvements in automotive engines. National Park registrations and reports from the few remaining toll bridges added their bit to clock tourist travel.

The bureau took into consideration current trends in railroad passenger travel. Mounting ticket sales mean less motoring.

After considering all these factors and conferring with the long-range weather forecaster, the bureau announced its estimate of consumption, a figure which in the past has proven to be 97 per cent accurate.

Percentage Error Small
The Western Petroleum Refiners Association checking on the mines bureau predictions, found the bu-

reau from September, 1935 to today. For the first five months of this year the bureau was 99.85 per cent correct in its monthly forecasts.

In addition to revealing the probable use of gasoline motors next month, the bureau of mines goes farther and tells refiners how much gasoline should be produced to meet the demand, considering stocks on hand, imports and also exports.

It estimates how much crude oil should be run through the stills to produce required gasoline. It estimates how much crude oil should be produced by the nation's oil field to supply refiners and replenish stocks.

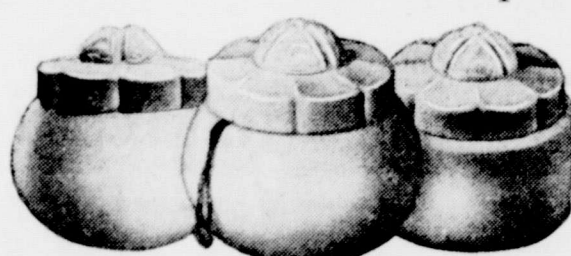

A recent move to curtail the bureau of mines' operations brought a resounding protest from the petroleum industry.
