## Life On The Quiet Side

By Sandra Prickett  
Sometimes life gets hard, even here on the quiet side. And when trouble and sadness come I want to curl up inside myself and never leave my home, face my friends and neighbors, or walk the paths I love.

"The trouble with a small town, a small community, is that everyone knows all about your business," I've often heard city friends comment. "And they tell everyone they know."

Not so, my heart cries in protest. No matter what

mistakes I've made, where I or my children have failed... I know that my little community, is much like the pioneers. We share each others problems, realizing that we may face the same misfortune as our neighbor tomorrow. We quietly accept each other different personalities and ways of life. We need each other. And can depend on one another.

And with that knowledge, I put my best face forward, and march outside to face the world I love, here on the quiet side in the slow lane of Lake Brownwood.

## Former CHS Graduate Is Member Of Group

The Howard Payne University Tour Band from Brownwood consists of approximately 43 musicians who travel across the state of Texas each year leading in worship services and presenting concerts in Christian Instrumental Music.

The band has also appeared numerous times as the official band at the Texas Baptist Evangelism Conferences in Dallas and Fort Worth.

The Tour Band is under the direction of Doyle G. Combs, Associate Professor of Music and one of the pioneers in Christian Instrumental Music. His bands appear each year at Glorieta, New Mexico; Ridgecrest, North Carolina; the Texas Baptist Evangelism Conferences and many national conferences scheduled through the Baptist Sunday School Board in Nashville, Tennessee.

Two students in the 1987 Tour Band are familiar to Cisco residents. Paul Wright is a former CJC student and led the CJC Band as the Drum Major during the

1986-87 school year. James Deadman, the son of Mr. and Mrs. Cecil Deadman of Cisco, and a 1986 graduate of Cisco High School plays trombone for the HPU Tour Band.

The Howard Payne University Tour Band will be in concert on January 12th at the Cisco High School Auditorium beginning at 7 p.m. The concert will consist of traditional Christian Music familiar to most audiences. The concert will be approximately one hour in length. It will be presented free of charge under the sponsorship of East Cisco Baptist Church. Everyone is invited to attend this special concert.

High school and college musicians from around the Cisco area are invited to visit with the band members following the performance and to meet the director and ask questions about music scholarships available through the Howard Payne University music program. ## USDA Advances Commodity Computer Marketing With Card

WASHINGTON—What do you call a plastic card with a computer memory chip in it which will be used to buy and sell peanuts?

The U.S. Department of Agriculture calls it a "smart card", and it will help USDA's Agricultural Stabilization and Conservation Service keep pace by getting into the computer marketing of peanuts.

In 1987 the new peanut marketing smart card, which is the size of a credit card, will be used by more than 50,000 peanut producers at approximately 560 peanut buying points, said Milton Hertz, ASCS administrator.

Under the new system, the paper marketing card now in use at the buying points will be replaced by the plastic smart card containing data entries indicating the farm operator's name and address, state and county code and the farm serial number for the peanut program.

"The automation of peanut buying points is in keeping with the ASCS county office automation project now underway," said Hertz.

A pilot study in 1986 at forty-six buying points in 6 peanut states found that automation using micro-computers was beneficial in reducing paperwork and delays in data entry at the county offices and peanut associations.

ASCS county office personnel will enter pertinent data on the smart card, including eligibility for buyback, producer shares, peanuts retained, farm quota, contract additional pounds, and government debts. The card is then issued to farmers who present it with each load of peanuts offered for sale.

### Christmas Visitors

Hope you all had a very Happy Xmas Day. Old Man Winter even co-operated and has given us nice weather all week. The frost Friday a.m. was nearly like a snow but the bright sunshine soon did away with it. This writer spent Wednesday and Thursday with the Homer Taylors at Sweetwater. Most of the Taylors will meet at Putnam Saturday 27th for Xmas Dinner. Expected are Bill and Dorothy of Weatherford, Gary Taylor and family of Shreveport, La., Bobbie Taylors, Snyder; Brent Taylor, Littlefield; Homer Taylor, Barry Taylor and family of Sweetwater; Cheryl and Tom Lemmons and Heather, Mr. and Mrs. Joe McHale, Lula Blakley, Abilene.

Odessa, Milton's brother, Gordon Donaway of El Paso; L.C. and family, Albany, and Lee and family of Amarillo; also others.

Ollie Burnam is spending the weekend at Coleman with the James Isenhowers. Visiting Xmas Day was Alice Rickster and son of Jourdonton and Chris Heidelberg of Breckenridge.

Don Weathermon of San Antonio spent Xmas with his parents, Sid and Ruby Weathermon.

Putnam really got publicity Tuesday and Wednesday when 24 freight cars derailed just east of town and spilled poisonous chemicals. Fortunately, no one was injured and the chemicals did not get into the water supply.

I am sure there has been a lot more visiting over the holidays, but we have not been able to contact everyone. Anyway, our wish for the New Year is Peace throughout the world. Prosperity and good will every where, and as Tiny Tim said, "God Bless us Everyone."

**KER-SPLASH!** A wall of water shoots skyward as a boat plunges from atop Splashwater Falls, the new waterfall ride coming to Six Flags Over Texas in the spring. The 20-passenger boats are carried five stories up and then plunge over the brink of a waterfall to the lake below. The ride is expected to open in May.

## Six Flags To Introduce New Ride In 1987

Arlington, Texas—Plunging into a lake may not sound too tempting in January, but the folks at Six Flags Over Texas are counting on the idea catching on by spring. Park officials have announced plans to introduce what they call "the wettest ride ever" in May.

The ride, to be known as Splashwater Falls, is under construction in the park's USA section.

When completed, 20-passenger boats will climb an incline five stories into the air and then float around a gentle curve before plunging over a waterfall at a 35 degree angle.

As the big boats hit the quarter-million gallon lake below, they send up a wall of water which leaves passengers and bystanders soaked.

"We literally started the modern water ride business back in 1963 when we built

the world's first log flume," said General Manager Bob Bennett. "We took the concept a step further in 1983 with the introduction of the whitewater rafting ride, Roaring Rapids. Now we have the state-of-the-art in Splashwater Falls."

Bennett said funseekers can take a "double dip" on the ride if they like. "We are building the exit ramp in such a way that it crosses over the lake just a short distance from the spot where the boats hit the water. You can exit between the waves of water, or you can stop on the exit bridge and get soaked again."

Bennett said the ride's operating and safety systems will be controlled by computers.

Six Flags will begin its 1987 season March 14. Splashwater Falls is ex-

pected to carry its first passengers in early May.

Other additions to the park's entertainment lineup for the 1987 season include a major, new musical production in the Southern Palace Music Hall called "All-American Revue" and a new country music show in the Crazy Horse Saloon, "Country Express."

**EASTLAND**  
The City of Eastland has purchased the Majestic Theater to be renovated into a Community Center. The city will own the property and work out an agreement with the newly established Eastland Fine Arts Association to renovate, operate and maintain the historic building. Mr. and Mrs. Jackie Thornton operated the Theater as the Majestic until a few months ago, renting the building from the Whittington estate. After the closing of the Theater, an effort was initiated by the Chamber of Commerce to acquire the building for a Civic Center. After negotiations the contents were purchased from the Thorntons, and the Whittingtons donated half the \$100,000 price of the building. The Fine Arts Association, with John Berry as acting Chairman, will be soliciting members from all segments of the community. The purchase of this building fulfills a long-standing dream of community leaders, and should be a great asset to the town and area.

The Eastland Music Study Club has a number of activities scheduled for the afternoon of Wednesday, Jan. 7. These will begin with a Past President Assembly and Luncheon at 1 p.m. at the Frank Sayre home on Hillcrest. At 3 p.m. there will be a Founders Day Observance, followed by a Course of Study from the book "Texas Rhythm, Texas Rhyme". Debbie Parsons will lead out with the study, discussing "Jazz and the Big Bands" and "Rhythm and Blues". After this program there will be a Nominating Committee report, and the Election of Officers for 1987-88.

Earl and Billye Bradley and their Company, EBAA

Iron, were the first contributors to the Eastland Fine Arts Association and their generosity is considered an inducement to others to do likewise. "If those who can, don't do things for their town, they don't get done," Mr. Bradley commented, encouraging the efforts of the Association in securing the Majestic Theater property for a Civic Center. Mr. and Mrs. Bradley have been active in theatrical productions here, and hope to see a new day for amateur and professional entertainment in the town.

Eastland is gearing up for the Chamber of Commerce Banquet on Jan. 12 at the Siebert Elementary School Cafeteria. Among the Awards to be presented is the Golden Deeds Awards, an annual Honor given to an individual who has made outstanding contributions to the community. There have been 66 such awards given

since this program's inception. In 1985 the Award went to Earl Bradley, Jr., and in 1986 to the Rev. Larry Smith. Interest is always high for this occasion, as well as other parts of the Banquet program.

**RANGER**  
A reception honoring Dr. Donald Smith will be held from 2 to 4 p.m. Sunday, Jan. 11 in the lobby of the Ranger General Hospital. Dr. Smith is opening a Family Medical Practice in the hospital on Monday, Jan. 5. He and his wife, Ethel, moved to Ranger Dec. 30. Dr. Smith's practice will include persons of all ages, and his office will be open 8 a.m. to 5 p.m. Monday through Friday. Those wishing to make appointments until his office opens. The Hospital Board and Lena Fonville, Administrator, invite the public to the reception. Refreshments will be served.

The Ranger Volunteer Fire Department wishes to thank all who donated canned goods, money, toys, and other items and time to the Toy's for Tot's campaign for the underprivileged in this area. Around 42 families and 52 kids were able to enjoy Christmas with the help of the Volunteer Firemen.

The Teen Center of Ranger

ponsored a New Year's Eve Dance for young people of the town on Dec. 31. There were special surprise goodies, party favors, hats, horns, and a lot more things to add to the fun. Soft drinks were available. The Teen Center now shares the Boys Club building at the Ranger City Park.

**RISING STAR**  
Rising Star Emergency Medical Services is stocking the new ambulance, which arrived Dec. 13. Equipment and supplies from the old ambulance is being used, but the Services will purchase a new stretcher, neck collars, a suction and other supplies. The old Ford ambulance will be kept as a back-up. Emergency Medical Service technician David Switzer voiced the appreciation of the EMS for the donations which have provided for the new ambulance and equipment. The volunteer service operates on donations.

**CISCO**  
The autumn edition of the Cross Timbers Review, published by Cisco Junior College, makes for interesting reading. This is the second year for this literary magazine, which is edited by Dr. Monte Lewis of the CJC staff. The new edition has a cover by the late Randy Steffen, and articles dealing with southwestern subjects. The journal also features book reviews and poetry. Interested persons may call the college for information on subscribing, or contact the college bookstore for any current copies available.

Billy Bacon has assumed his duties as Commissioner of Pct. 4, with his four-year term beginning Jan. 1. Bacon says he has hired three members of the county work force employed by Commissioner Dill - John Love, Alvin Kitchen and Tommy Donham. Two more men will be hired, and Bacon says he has 30 applications for the posts. The new Commissioner says that roadwork will begin Monday, and that due to the rains there are a lot of bad road conditions that need attention. Bacon is a graduate of the Cisco schools and CJC, and is a Navy veteran with the Korean conflict. He retired Jan. 1 from 37 years of service with Southwestern Bell Telephone Co.

Ken Henson of Breckenridge, owner of Ken's Fish and Chicken Restaurants in Breckenridge and Eastland, has purchased the Colony Restaurant on I-20 in Cisco. The Colony has been closed for remodeling and redecorating, and plans call for the establishment to reopen in about a month. The restaurant was built in 1969 by Mr. and Mrs. Bill Hester, who have operated it since that time.

The Cisco Lions Club will meet Wednesday, Jan. 7 at the White Elephant Restaurant, according to an announcement by President Olim Odum. The Club had been meeting at the Colony, which is now closed for its redecorating. The Club canceled out the Dec. 24 and 31 meetings, due to Holiday conflicts.

## Possible Museum In Gorman

One of the ways to find out how well an old building was constructed is to tear it down. This has been the experience of Kenneth Roberts of Gorman, as he undertakes the job of demolishing the old Blackwell Hospital. Roberts, a building contractor, reports that he has been very impressed with this old structure, especially with the quality of bricks which went into its making. He is so impressed, in fact,

that he would like to save as many other memories and artifacts of Gorman as possible. A native of the area, he spent some years away from the town. Coming back has made him realize how much all this means to him.

He hopes to begin a Museum in the town, and is making plans to construct or more some kind of building to the acreage he owns. This Museum will be operated as a non-profit project under guidelines of the State Historical Commission.

In the meanwhile he would welcome artifacts or memories relating to Gorman or its history. Anyone who wishes to contribute may find him daytime at the old hospital, or call him at night at 1-734-2495 for more information. He mentions that he will give some original bricks to persons assisting in this project.

The Cisco Writer's Club will meet Tuesday, Jan. 6 at 7 p.m. in the Community Room of the First National Bank. President Mary Ann Ziehr will lead out at the meeting. All members and visitors are requested to bring manuscripts to be read during the program. The public is welcome.

# Spotlights & Sidelights

By Julia Worthy

**DISSATISFACTION**  
It disturbs me to hear our country, the United States of America, referred to as a democracy.

We are NOT a democracy. We ARE a republic.

If you prefer the term, we are a democratic republic, but a republic we are, and republic we will remain, I trust. Though if hard-pressed I am in some doubt about how I'd reply if asked where my trust is placed.

What's the difference? I have become aware of so many platitudes spouted about our "gr-r-eat democracy" that I expect one of the things our teachers MAY be truly charged with failing to define is the differences between the two.

Therefore, I wish to define the terms here - yes, to relieve my conscience, I missed a classroom opportunity to explain them in the yesteryears.

A democracy is, by definition from Webster's New World Dictionary, "Government by the people, either directly or through representatives." More briefly put: One person, one vote. The "representative" in this definition refers to a stand-in, not to an elected representative for a specific region.

From the same source, a republic is, "A state or government in which the supreme power rests in all the citizens entitled to vote and is exercised by representatives elected by them."

So, we have a republic. Democratic, but a republic. The system breaks at best; at worst, there have been, and will continue to be, election scandals and scandals of various types and to different degrees.

The media are in full cry on the Iranian "situation" now. Will they be as successful in pulling down President Reagan as they were with President Nixon?

Our enemies, and we have plenty of them, benefit greatly from every written, spoken, and televised word that denigrates the incumbent president of our country. It's Reagan now, but it was Nixon, and I'll wager Jimmy Carter doesn't feel that he got off free - remember the hostages in his day?

Seems like I remember the Boy of Pigs in connection with Kennedy, and has anyone in Texas really forgotten that LBJ got his start on a re-count of votes from Duval County?

However, I am cynical enough to believe that humanitarian considerations aren't nearly the issue that monetary concerns are. Oh, the tear-jerkers and do-gooders are quite real, and I do not question their integrity. I do think they are manipulated. It is very easy for good, decent people to get maneuvered into circumstances for which they must answer when they didn't know where they were going nor how they got there. It is my opinion that today

money moves more mountains than faith does. I dislike the ideas that give rise to.

It is a lot to hope for, I suppose, but it would be nice for the present hullabaloo to be reduced to a less extreme perspective. Superlatives make news, but I question news that "alleges," "infers," and reports from "an unidentified source close to..." Smoke bombs don't have to have fire to make a scene.

Some of us remember FDR's Manhattan Project which gave us the atomic bomb. What I can't recall is the media raising much of a stink about the two billion--yep, billion--dollars in unauthorized Federal funds that FDR appropriated to get that bomb made before the Germans.

I think I understand about human jealousy to some extent; I understand about a pack of jackals going after a lion; I understand that peo-

ple on pedestals are apt to get knocked off by the people who put them there.

I do not understand people who cut their own throats. I do not understand why the thousands of reliable members of the media do not curb the irresponsible activities of their highly visible and vocal representatives who seem to have a very short-sighted view of current history.

Maybe it's because we have a democratic republic.

You can be earning tax deferred interest on your life insurance. Ask E.F. Hutton how.

E.F. Hutton Life Insurance Company is now crediting 9.0 percent on the account values of its universal life insurance policies. Think of it: that's better than the 6 percent or 8 percent you'll get today on MONEY MARKET FUNDS, TREASURY BILLS, and CERTIFICATES OF DEPOSIT. And since interest credited to your Hutton Life universal life policy is tax deferred, it grows faster than in taxable vehicles. But getting the benefits, Hutton Life's universal life offers much more. Benefits like:

- Permanent life insurance, providing tax-free estate protection for your beneficiaries.
- Competitive interest rates, guaranteed for one full year.
- Tax-free access to your cash value through low-cost policy loans.

Ready to learn more? The listen to what E.F. Hutton has to say about how Hutton Life's universal life policy fits into your financial plan. Call your Hutton Life representative.

Everyone is welcome to attend, and there will be a \$1.00 admission fee for non-members.

# Income Tax Training

## Meeting For Farmers

A training meeting on farmers' income tax will be held at the Eastland National Bank Community Room Friday, January 9, from 9 a.m. to 4 p.m. according to County Extension Agent DeMarquis Gordon.

The morning session will be devoted to the 1986 tax laws and returns while the afternoon session will cover the new 1987 tax changes.

It is the time of year when farmers and ranchers are getting their records together for the income tax reporting. The Extension Service will conduct the training to help farmers and ranchers understand changes in the 1986 tax laws and provide information that could save money at tax paying time. The new tax laws for 1987 will be discussed

beginning at 1 p.m. to help farmers and ranchers plan tax management for the coming year.

Dr. Ashley Lovell, Area Extension Economist, will be discussing the tax laws in both sessions and answering questions on tax reporting as well as discussing other tax topics of interest. Farm records will also be discussed.

Everyone interested in farm and ranch income tax information including agricultural producers, wives and tax practitioners are welcome to attend.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion, handicap or national origin.

...if you are interested in buying real estate soon or at any time in the future. Buying good titles is just as important as buying good food or good medicine. Yet some people have spent life-time savings for a farm or city property with little or no thought about the title. Of course, they will learn better later, but why not avoid the pitfalls and expense of poor judgement by getting an abstract or title policy first and buying the property later.

# I've Been Wrong Before

By Gordon Clark

So, before I am influenced by others speculating on the best news story of 1986 I will say that my vote would be VOYAGER. Note: I say the best story, not the biggest. The hostage releases and Iran Arms are bigger but how about a story with no politics, money grabs, sex, or violence involved up front?

It was one of those rare efforts of man to do what had never been done before. The only words to dim it was a statement by the pilot that it was the last thing in manned flight which had not yet been done before. His own statement about, "Whatever man can dream..." stands against it being the last achievement; for men will always find a new dream.

The flight of motorless aircraft with human power was itself an inspiration. But the Gauguin Moth was like the Wright Brothers short hop beside circling the Earth. But sad to say, even now we have seen subliminally the ugly head of commercialism reared. There were logos of companies on the suits worn. It seems impossible for the individual to do much alone and without big Mamon.

First there had to be that

dream but then it had to be taken up by designers, technicians, and MONEY. If at any point a weak link snapped the dream would never have come true.

I know a local man who put his money behind many dreams and thinks he deserves to see more of them come true. You can't win 'em all but I doubt there is a rule that you can't win AT all.

Then again, dreams die like dreamers and heroes can be thrown from pedestals. Consider Charles Lindbergh. The "Lone Eagle" of the Atlantic was the target of crooks and liars long before he said that Hitler's air force was the best in the world. Suddenly he was hated by people up to and including Franklin Roosevelt. It was not just Lindbergh's opposition to those trying to involve us in the war, but many simply couldn't accept the truth so they hated the man who told it.

The man for whom streets and children had been named became anathema. Names of streets were changed and in some cases named for the pigmies who opposed him. Not even the fact that he flew ferry missions and was denied his re-

quests to fly combat were permitted to redeem him in the eyes of the haters. His efforts were given the "silent treatment", the news blackout which politically awake Americans have learned to recognize and expect.

Recent history is often perverted but as time passes those who pervert it fade and most take a more equitable place in the books.

Billy Mitchell had to wait until the tragedy of WWII to vindicate his insistence that planes were superior to battleships. Even then some insisted that he deserved court martial because he "didn't go it in the right way." But, pray tell, is there a more right way in the face of obstinate ignorance?

Even when a Messerschmidt 109 won the Akron air races in 1939 and some who looked it over closely said, "This is not just a race plane, it is a fighter without the guns mounted," the powers refused to admit

they were wrong. The Nazi air force dominated the skies for years and at great cost. I lost a boyhood friend and Sunday School classmate to their fighters when Jo Chadwick was shot down in a dogfight over the channel. Only when ground down by vastly superior numbers were the Germans defeated. The only compensation offered by those who tried to destroy Gen. Billy Mitchell and Lindbergh were gold stars in windows. They will go to their reward as most already have still refusing to admit that they hated the better men.

Now we have leaders who, as others before them, refuse the sage advice of George Washington and others when they advised "Keep out of foreign entanglements," and "Special Relationships with any power fosters a belief in a commonality of interest where none in fact exists and causes us to take on their enemies as our own when in fact they are not."

# CJC Now Preparing For 1987 Spring Semester

Cisco Junior College is making preparations to begin its 1987 Spring Semester. Registration for the spring semester at the Cisco campus will be held in the Harrell Fine Arts Building from 9:00 a.m. to 12:00 noon and 1:00 p.m. to 4:00 p.m. on Monday.

We have Judas-goat preachers helping lead sheep to the slaughter but telling them they will be snatched to safety. Thus they have rejected. "Blessed are the peace makers," and eagerly promote Armageddon. If then, they have rejected the blessing of the peace makers, does not reason indicate that in their ignorance they labour for the very opposite of a blessing?

A watchmans warning may be vindicated but "I told you so," tastes like ashes in the mouth.

Ahead we have a new year. Will it bring personal satisfactions, dreams come true, or just more of the same sensational froth leading nowhere?

January 12 and Tuesday, January 13. Night registration is scheduled for one night only, Monday, January 12 from 6:00 p.m. to 8:00 p.m.

# School competition not reserved for athletics

By DR. RHEA WILLIAMS

Editor's note: The following article is based on excerpts of a speech given by former UIL director Dr. Rhea Williams. The speech was presented to delegates attending the National Federation of State High School Associations convention.

All state activities associations philosophically, if not in principle, are based on educational competition and the values inherent in activities offered to the students in their respective schools. Educational competition, which could also be called educational rivalry, is as old as life itself. Rivalry and competition have been used from the very beginning of society as a family unit, as a tribe, as a state and as a nation.

There are many historical references to educational competition with the first records coming from China where the educational system was based completely on competition and controlled by the state. These early competitive situations were not always sound educationally as they were administered under unsufferably hard conditions with very little consideration for individual welfare. The Greeks ushered the world into true educational competition with the Homeric philosophy that a good program of education trains a person "to be able to speak when speech is fit and to do when deeds are done." The methods to develop these skills were taught on the athletic field and in the open amphitheater set aside for public speech and discussion. It is worthy to note that practically all high school plants in this nation include stadiums and auditoriums to fulfill the Homeric principle of education. Plato, Socrates, Confucius and most of our early philosophers were advocates of controlled education competition. Later on, the

Jesuits developed an entire philosophy of education based on educational competition and through this system developed the better educational schools available at that time.

The philosophy and principle upon which state activities associations operate is that competition is an essential part of all life and should be provided in all schools as a preparation for life. We are all competitive individuals and from birth to death we compete for favors, grades, position, prestige, yes, and even for the companion whom you choose as your wife or husband. Competition is at the very core of our capitalistic system and even though this is not always perfect, it has brought to us the highest standards of living anywhere in the world.

In association activities, as in a capitalistic system of government, rivalry does not work properly unless it is controlled. Competition in schools, unless properly controlled, can create and develop personal, individual and group problems if allowed to run rampant. Just as in our government where we have anti-trust laws, regulations and courts to govern the conduct of business in a controlled fashion, activity associations must have rules and regulations to control competition and keep it educational. In fact, the only reason activities associations sprang up through the nation was to control competition and make it educational.

Rules relative to age, amateurism, passing grades and many other regulations were placed in our state association handbooks to control competition. Therefore, competition is like atomic energy in that it may be good or bad depending on how it is used and controlled. Educational competitive activities should be provided for both individuals and groups, and should be provided in both athletic and non-athletic activities. These activities are needed for

individual development and for training in group cooperation. Both individual training and group cooperation are essential in the development of a well coordinated individual.

If an association believes in educational competition, it is difficult for me to understand why there should not be opportunities provided for all talented boys and girls in their particular area of ability. It is not philosophically tenable to offer activities for exceptional athletes and not to offer competition to students talented in music, mathematics, drama and speech. There are several reasons why some state associations do not have well rounded activities programs and specialize only in athletics. One is the viewpoint that competition is justified in the area of athletics but not justified in the areas of music, literary and academic activities. This philosophy is not sound to me as in life you compete in all areas of life—not just athletics. To single out and say one is positive and all other negative just does not make good sense. Many accreditation organizations have advocated the viewpoint for years that only athletic activities are educationally sound.

Another reason why many state associations do not offer non-athletic programs is that not enough pressure from the community is given for these activities. Athletics, because of emotional appeal and spectator interest, are demanded by the school and community while other activities with less spectator interest and emotional appeal are not given the same emphasis by schools or communities. In many cases school administrators prefer not to go into non-athletic activities because it means extra effort, extra personnel, extra time and more money. These reasons are hard to justify philosophically if the purpose of the school is to meet the needs of the students and to teach them to be better citizens.

## Homemaking Hints

From Janet Thomas, County Extension Agent

Farm, ranch, and agribusiness women can display their fashion and sewing skills at the Natural Fibers Fashion Showcase to be held at the Southwestern Farm and Ranch Exposition in Fort Worth on February 28, 1987.

The showcase demonstrates what beautiful finished products come from cotton, wool and mohair—all Texas Agricultural commodities.

The entrants will compete for first, second, and third place awards in four divisions: custom sewn garments, knitted, and crocheted garments, coordinated mother and child ensembles, and former grand award winners.

Each garment entered in the show must be made of a minimum blend of 50% cotton or 50% wool and/or mohair.

Contestants must be 18 years or older, and actively involved in farming, ranching or agribusiness or be a member (or member's spouse) of an agriculture-related organization such as Extension Homemakers Clubs, Young Homemakers, Young Farmers, 4-H Leader Association, producer associations or auxiliaries and tractor pullers' clubs.

We hope that a number of women representing Eastland County agriculture will enter the showcase.

Sponsors of this event include the Texas Agriculture Extension Service, Southwest Hardware and Implement Association and Progressive Farmer.

Entries must be submitted by February 7, 1987. Contest rules and entry blanks are available at the County Extension Office, Eastland County Courthouse.

RECIPE FOR THE WEEK: Every woman enjoys having some quickie recipes. The recipe I am enclosing this week is a "no crust, no fuss pie."

APPLE PIE  
6 cups cooking apples, pared, cored and sliced  
1 1/2 teaspoons ground cinnamon  
1/8 teaspoon ground nutmeg  
1/4 teaspoon ground allspice  
1 cup milk  
2 eggs  
2 tablespoons butter or margarine  
Streusel topping

Grease a 10-inch glass pie plate. Mix apples with spices

and spread them in a pie plate. In a blender mix remaining ingredients except streusel until smooth. Pour on top of apples. Sprinkle with streusel and bake at 325 degrees for 55 minutes. Cut in wedges and serve warm with whipped topping or vanilla ice cream.

STREUSEL TOPPING  
1 cup biscuit baking mix  
1/2 cup chopped pecans  
1/2 cup brown sugar  
3 tablespoons butter or margarine

By Josephine Cleveland

I was sitting in a church speaker recently when the speaker asked the audience, "Is there anyone here who would like to tell us what the word 'new' means?"

Someone responded, "It is something which has never been used, or it can be old, but new or fresh to us."

"Right," he said. "And that is the way the new year is to us. It is a time of fresh beginnings."

Louduan Wainright in Life said, "Perhaps the best reason for having calendars and for marking life in years is that the cycle itself offers hope. We need fresh starts and new chances, the conviction that beginnings remain available, no matter how many we've blown."

Even though our past is muddy, God is telling us that He will forgive and forget. There is a new day before us. We can start all over. We may feel we can't accept the challenge as it is too difficult. The good news is we

chairman of the event with Dr. Billy Dippel of Brownwood serving as dinner chairman, Allen Thomas of Comanche and Jim Dublin of Mullin serving as organization chairmen.

don't have to do it alone. Paul said, "I can do all things through Christ which strengtheneth me" (I Philippians 4:13). When Paul declared, "I can do all things," it was not a habit Paul had acquired by fre-

quent exercise. The ability was given to him by God's grace; and he was enabled to do all by the power of an endwelling Christ. As with Paul, God's helpfulness is adequate anytime and anywhere.

## A Fishy Idea To Recycle Christmas

Good-bye Santa Claus--until next year! 'Tis the season to de-Christmas the house and undecorate the tree.

But wait! Before you drag your Christmas tree to the curb for the trash collectors to haul off, you may want to consider our 'fishy' suggestion.

The now-dry, \$19.99 cedar tree you enjoyed for three weeks in December can provide hours of entertainment all year long if you like to fish. All you have to do is sink it with concrete masonry blocks in your favorite fishing hole.

Here's what happens: Small fish gravitate to shelter and brush to hide from enemies. Big fish (such as bass) know where to look for an easy meal, and a food chain begins.

Fishermen help create underwater ecosystems by placing shelter where none exists. By marking the spot and fishing close to the submerged Christmas trees, fishermen increase their odds of landing a big one.

To take a good idea and expand it, several trees work better than one. Collect leftover Christmas trees from neighbors and the artificial reef can be as large as you like.

It is very important to remove masonry blocks from trees before submerging them. Curious fish may

eat the silvery 'bugs' and die from intestinal blockage.

Our resident fishing expert at the International Wildlife Park in Grand Prairie says the artificial reefs may not work at first. "Trees secrete a resin which actually repels fish," explains Ray Sutton, wildlife manager of the tourist attraction. "However, it (the resin) dissipates after a couple of weeks."

Also, if your favorite fishing hole happens to be a public reservoir, do not make your 'fish attractor' until you speak with the controlling water authority. They take boating traffic into consideration and may stipulate guidelines for you to follow.

Small farm tanks and ponds on private property are ideal spots for Christmas tree reefs because many are barren, watery wastelands.

Artificial reefs provide food and shelter for many different species of fish. If Mother Nature smiles on you with a five-pound bass, then your creative recycling efforts will be doubly rewarded. Happy fishing!

If you have a question about wildlife you would like to see answered in this space, write to GNUS YOU CAN USE, 801 Wildlife Parkway, Grand Prairie, Tx. 75050.

Stephens County law enforcement officials were busy this past week seeking information from anyone who might know anything about a burned automobile on Hwy. 207, inside the Stephens County line, according to the Breckenridge American.

Stephens county officials received a call about a burn-

ed car Monday morning, and Stephens County Sheriff James Cain, upon checking out the registration, found the car belonged to John Gilmore of Ranger.

In a conversation the Ranger Times had with Gilmore Friday morning, Gilmore said that someone

had wanted to buy the car, but the car had a flat on it and was left in Strawn. Gilmore went to Strawn to pick the car up and found it had two flats. Gilmore was

on a Christmas trip, and told the people in Strawn that he would pick the car up on his return from his trip.

The Ranger Police Department contacted Gilmore and told him where his car was and that it had burned. According to Gilmore, the car had apparently been stolen, the motor and transmission removed, and then the car was set on fire, completely destroying what was left of the vehicle.

**ALTHOUGH** Battle Creek has done very little running since the railroad mishap last week, city officials are checking their pump station reservoir and watching for signs of contaminated water, reports City Manager Mike Moore. He ordered the pumps shut down after the accident that caused several railway tank cars to rupture and leak. EPA officials remained on the job several days to make sure there was no problems.

Battle Creek, you know, is an alternate source of water for Lake Cisco via pipeline and pumps. City officials believe the creek will be in good shape by the time rain clouds return to our region.

**MR. CAM** Webb, local business man, isn't such a small fellow but he felt pretty small the other day when he met up with Ralph Simpson, the 7 foot, two inch Houston pro basketball player, at Houston airport. Cam said he had to look almost straight up to talk with Simpson while the athlete signed an autograph for the Ciscoan.

Cam and his missus flew to Tampa, Fla., to spend Christmas with her parents. And Mrs. Cam remained for an extra week while Cam came back home to help mind the store.

**A HOLIDAY** season visitor with his parents and home folks was Mr. Trey Kendall, son of the Billy Kendalls, who is a student at Longy Conservatory in Boston. Trey is studying to be a concert pianist and works full-time at a job in Boston.

Trey is a graduate of CHS, CJC and Abilene Christian University and is in his first year at the conservatory.

**PLANS ARE IN** the planning stage for Trey to be presented in a piano concert at the Hilton Community Center here in late spring. And the Hilton Center's official board is working on plans to obtain for the Center a grand piano, which would be used in the concert.

A good piano is needed at the Center and donations to a piano fund would be appreciated, President Eris Ritchie of the Center board reports. A fund raising effort will be announced soon, he indicated.

**SURGEONS** took their knives to the leg of Miss Holly Ritchie, 12-year old daughter of the Eris Ritchies, at Hendrick Hospital in Abilene one day last week. And they repaired damage in the limb that was broken five years ago and had been in trouble ever since.

Miss Ritchie will be on crutches for a time and is all set to return to school on Monday. Doctors think the leg problem was cleared up as a result of the operation.

**THERE WAS A** good chance that a championship bike rider would be in Cisco this weekend. He is Joe Richardson, 17-year-old son of Mary Carey's daughter who live in Houston. The Richardsons were due to visit Mary here in the home of Lela L. Lloyd.

Joe won a world's championship bike race two years ago. He was invited to Cleveland this weekend for a bicycle event but had about decided to visit Cisco instead of going there, we were told.

Mrs. Carey, you know, lives in Alaska and is wintering in Cisco with her sister, Mrs. Lloyd. Mrs. Carey is putting the finishing touches on a book tentatively titled "Jane Long-Belle of Texas Freedom"—that is due to go to her publisher before she returns to Alaska.

**LELA LLOYD** will review her Hilton book as the program feature at the Delta Kappa Gamma meeting on Jan. 10th ... Lenora Preston of Anchorage, Alaska, has been visiting friends and relatives in Cisco and her mother, Mrs. Annie Rendall, in Ranger ... The Lee Wallaces left out early Wednesday for their home in Fayetteville, N.C., after a holiday visit here with their parents, Mrs. Forbes Wallace and Mr. and Mrs. Marshall Jones ... The Mike Moore family enjoyed a Christmas visit with relatives in Amarillo.

**LINDA FOSTER**, one of the nice ladies who wait on you when you pull in at the First National Bank's drive-in window, will be the Artist of the Month for January at FNB. She is a "repeat" artist of the month and will be displaying a number of her recently completed oil paintings ... One of the patients out at the offices of Dr. Tim Boersma was admiring an attractive green plant in the waiting room. "It's a mother-in-law plant," said Mrs. Kitty Stovall of the doctor's staff. "A mother-in-law plant?" questioned the patient. "Yes, it thrives on neglect," replied Mrs. KS.

**THERE WILL BE** a public announcement one day before long about a 60th wedding anniversary reception honoring Mr. and Mrs. Rudolph Schaefer of our town. Plans for the event began taking shape last week when the four children of the Schaefer and their families gathered for Christmas. The reception will be held on Jan. 24th.

The Schaefer clan, including Sons Gene and Joe Edward and Daughters Norma and Gloria, were here for Christmas. They gathered at the Corral Room of the Laguna for lunch, and Oscar Weeks catered the affair.

**THERE WERE** no Christmas presents for E. L. and Elsie Jackson when their son Robert arrived for a holiday visit. A thief broke into his car that had been parked near a place he was visiting in Fort Worth. And his luggage, Christmas presents and the spare tire and everything else loose were taken by the thieves. There was quite a bit of damage to the car, too.

The Jackson's other three children, Son Eddie and Daughters Pat and Eugenia, and others were here. They all ate Christmas dinner at the Colony Restaurant. And

this was the last big family gathering served at the Colony by Bill and Lucille Hester, who have sold the restaurant to Mr. Ken Henson of Breckenridge. (The Colony is closed for a few weeks while Ken prepares to re-open as Ken's Restaurant).

The Jackson's holiday visitors included their grandson, Mike Ryan, who came with his mother, Dorothy Ryan, of Marfa. Mike recently returned home after spending six months in Europe, touring and working here and there. He'll go to college out in New Mexico during the coming year.

**WE HAD A** piece here recently about Mrs. Dean (Ann) Madison's bird dog kennels at their place south of town. They're breeding and selling a bird dog of German origin. A year or so ago a man from Iowa came and bought one of their dogs.

A letter came the other day from the man who was so very pleased with his dog that he wanted to write and tell them. He concluded that he wouldn't take a million dollars for his dog. If you got right down to it, said Dean, the man would probably take a million or maybe a little less, but this was a testimonial that they appreciate.
