

Mr. Muleshoe . . .

By J. M. Forbes

SAUCERS ARE FLYING!

My astronomy magazine has an article this month which may or may not be a nerve settler. But here's what the writer, a well-known astronomer said:

The following are the actual explanations of some of the observations.

1. The Planet Venus. The planet Venus is visible to the naked eye in the day time, and has been mistaken for some sort of an airship. The object which fliers were chasing some months ago at the time one was killed was actually the planet. One told me that.

2. In several cases meteorological balloons catching the sunlight have been mistaken by people who have a good bit of imagination. If an object has a diameter of five feet is half a mile away but an observer thinks of it as being 10 miles away, he automatically thinks of it as 100 feet in diameter and moving 20 times faster than it actually is moving.

3. In at least one case the flying saucer was a deliberate hoax of a prankster.

4. Blast furnaces throw a bright light on high cirrus clouds.

5. A distant aluminum covered plane very often catches the light of the sun and reflects it as a bright point.

6. At least one or two cases appear to have been observations of bright meteors.

I wish that I could believe in the truth of such visitors from space. Communication with inhabitants from other worlds would be of great value to us.

Well, that's what the man said and I hope it is not too disillusioning. This writer is all for flying saucers, or something equally fantastic, if it will for a moment take our minds off the taxes and bills that seem to be a permanent feature of this workaday world in which we live.

In another column of this paper you will read that the school board is calling an election for the purpose of deciding upon a proposal to issue \$100,000 in bonds of the school district for additions and improvements. It is incumbent upon all of us in the district to give careful attention to this matter. We have often said and will say again that the school is about the most important thing in our whole community and any move affecting it deserves our most earnest consideration. We have tried to state the case as clearly as possible, as the members of the board related it to us. Please read the article.

Seen & Heard:

Happy Dyer: I have been here on the Plains 35 years and have noticed that many times it rains between the first and the tenth of May.

We note a movement is on foot to reorganize a chamber of commerce (or to form a new organization). A live chamber of commerce with the proper leadership can do more for a town and its trade territory than most any other organization. It can do work for which the ordinary civic club is not formed. Muleshoe needs a chamber of commerce in the very worst way. Most of us, I feel, will be very glad of the opportunity to contribute real money for its support.

Kennedy High In Matched Roping Byrd Wins Jackpot At Sunday Event

First place in the jackpot roping sponsored by the Muleshoe Roping Club at the local arena Sunday afternoon went to Jimmy Byrd of Post with 10.6 seconds for roping, throwing, tying his calf.

Second place went to Troy Fort of Lovington, N. M., with 11 seconds flat, and third place went to James Kenney, with 11.4 seconds.

Other close contenders in the Jackpot roping contest were Earl Moore, with a time of 12.2 seconds, and Billy Winn, with 13.1 seconds. Thirty-one contestants were entered in this event and 18 made no time at all.

In the matched roping event, each of eight contestants roped 6 calves. Time for each was: Gene Lowe, 138.4; Earl Moore, 158.7; Jimmie Byrd, 99.7; James Kenney, 87.2; Mitsy Walling, 127.2; Fred

FFA, 4-H Club Boys To Show Gilts AT County Show Here Saturday

Approximately 30 gilts will be entered in the county F F A and 4-H Club Gilt Show to be held in the F F A building here Saturday, May 6, Ed White, vocational agriculture instructor, announced today.

Four major breeds, Poland China Chester Whites, Durocs, and Hampshires, will be represented at the show. The first place of each division will receive \$12.50; second, \$10; third, \$7.50; fourth, \$5 and all other entrants in each division will receive \$2.50. The grand champion of the show will win an additional \$10 and the reserve grand champion, \$5. The second place winner of the breed producing the grand champion will be eligible to compete for reserve grand champion.

Competition will be the greatest in the Poland China division where approximately 12 or 15 entries are expected. White said this was the third gilt show that the county had held and the stock in this one outlasted the second show as much as did the first one. These boys have about as good stock as anyone should want to find, "White added.

All gilts entered in this show were farrowed between August 1 and October 31, 1949.

Clyde D. Henry Is In Race For Commissioner

Clyde D. Henry, farmer of the Progress community, this week authorized the Journal to announce his candidacy for the office of Commissioner for Precinct 1, Bailey County. His candidacy is subject to the Democratic July 22, Primary.

Mr. Henry has farmed in the Progress community for the last eight years and has taken an active interest in community affairs. He served for a time on the Progress school board. He said his record as a citizen is open to inspection at any time.

"I will appreciate the vote and support of the people of my precinct in my race for Commissioner," Mr. Henry said. He said he will make an active campaign and will attempt to see each and every voter before election day.

"If I am elected, I will do my best to fulfill my duty to my precinct and to the county as a whole," he said.

Free Movie At Fry & Cox Bros.

A free movie, entitled "Bountiful Harvest," will be shown in the Fry & Cox Bros. store here the evening of Tuesday, May 9. Jim Cox of the firm announced today.

The film will be shown beginning at 8:00 in the evening. "Bountiful Harvest" is a story of the "miracle of early season cotton insect control."

All farmers and anyone interested is invited to attend the free show. Cotton insect spray, as well as methods of application will be depicted in the film. "Anyone interested in making more cotton per acre should see this show," Mr. Cox said.

WERE VISITORS HERE

Mr. and Mrs. Woodie Splawn of Whiteface visited here with relatives the first of the week.

Officers Installed For P-TA Groups Monday Night

"Is not to find fault, but to find facts. It is not to make every child a prodigy, but to give him a chance." A picture of the likeness of the Crusades, and pilgrims, to our own Parent-Teacher work and its membership, which also, in many ways becomes a Crusade, was made. The discouragements and obstacles that had to be surmounted and overcome made the way easier for us to follow.

The constructive movement for child welfare was most fortunate in beginning with the highest type of leadership; and down through the years until today we continue to have that same fine, high type of leadership in our national, state, and district councils and local organizations.

From their early history, even during the First Crusade, the method of negotiation was attempted and more and more the lay members of the pilgrim groups played an important part in directing the course of the Crusade. Later Crusades, even in their beginnings, were lay enterprises; the membership chose their own leaders and determined their own course. Again, there is a likeness, for in the Parent-Teacher movement it is the membership as a whole, working through local units, and the various other groups, that forms the policies, accomplishes the purposes, and brings about the actual progress that is made.

The Crusades remain a wonderful and perpetually astonishing act in the great drama of human life. They touched the summits of daring and devotion; they showed man's incessant struggle towards an ideal of good, and that is the desire of all who are concerned in Parent-Teacher work—in promoting the welfare of children to engage in an incessant struggle towards an ideal, to touch the summits of daring and devotion in the drama of life.

To start their pilgrimage the officers were challenged to study

School Bond Election Set For Saturday, May 13th

Saturday, May 13, has been set as the day for a vote by the people of this school district on the proposal to issue bonds of the school district in the sum of \$100,000 for the purpose of building a gymnasium for the new high school, improving the grounds and renovating the Junior high school building.

Members of the school board voted to call the election when it was seen that these vital additions and improvements could not be obtained without additional funds.

They point out that the Junior high building, until recently the high school building, is in a bad state of repair. Considerable renovating urgently needs to be done, and in addition the building must have a new heating system; they said the new heating system must come before another school term begins. Walls, ceilings, stairways, even the floors in places, they said, ought to be repaired now.

The old building was erected in 1925 and nothing has been spent upon its maintenance in all that time. At the time of the Open House, to be held Monday, May 8, members of the board hope that as many of the patrons as possible will tour not only the shiny new high school building but all other buildings, including the Junior high school building and see for themselves what ought to be done.

They said a gymnasium addition to the new building is necessary because it is practically impossible to have a Physical Education Department program without it, since it is hard to take high school pupils back to the Junior high building several times a day. Then, they said, it is impossible to develop a basketball program at the high school so long as the gymnasium is located several blocks away, making the daily practice sessions very difficult to manage and a waste of time is involved.

The trustees said if these bonds are voted, it is the intention for the school to manage all construction and improvements just as was done in the remodeling of the grade school building recently. They want the people to see the grade building and to judge this work, which was supervised by V. M. Collins, a local contractor, working for the district. The trustees will not award a contract on any construction or improvements which may be authorized by the people in the May 13 election.

In addition to the gymnasium addition to the high school, it is the intention of the board to improve the grounds, by hot topping a large portion of it and making other needed improvements.

The trustees point out that a lot of money has to be spent to develop and maintain a school system adequate to serve a big district such as Muleshoe. In the last few years, it was noted, as an indication of the growth in the district, the number of scholastics has increased from 400 to the present more than 1,400. They ask that the people investigate fully the present needs of their school, which will be met if they authorize the issuance of the bonds asked.

Red Cross Drive Reaches \$1,526.87

According to the latest reports released by Jeff Peeler, Bailey County Red Cross Chairman, the county Red Cross drive reached \$1,526.87, only \$151.13 short of the quota assessed for the county.

Funds reported by the divisions were: Muleshoe business, \$364.72; Three Way School District \$234.30; Circleback, \$82.20; Progress, \$26.20; West Camp, 69.00; Bula and Enochs \$107.14; Y. L. Community, \$13.50; and Muleshoe residential, \$103.81.

County chairman Jeff Peeler and division chairmen were W. Q. Casey, business; Troy Perkins, school; Mrs. Bob Gregory, residential; and Edward White, rural.

Mr. Peeler wishes to express his thanks to the division chairmen for their work and for the amount of donations turned in. He also extends his thanks to each and every person in the county who made a contribution to the Red Cross. Approximately 58 per cent of the money raised in the county will remain here for local use and the remaining will be used by the American National Red Cross for disaster use and other dire needs when and wherever they may arise.

Progress Methodists To Dedicate New Church Building Sunday, May 7

Sunday, May 7, will climax the effort of the Methodist people of Progress in their church building campaign. On that date they will officially dedicate the new plant which is in reality a conversion of the old school auditorium into a beautiful and serviceable house of worship.

The pastor, Carroll M. Jones, will have the general oversight of the all-day program. Sunday school will begin at 10:00 a. m. with Gordon Murrah, the superintendent in charge. Rev. J. P. Cole, a former pastor for four years, will preach at the eleven o'clock hour.

A fellowship period with basket lunch and friendly visitation will follow the preaching service. The afternoon program will begin at 2:30 with thirty minutes of music and song under the direction of La Rue Black and Joyce Gwyn.

The formal dedication service will be at 3 o'clock with Dr. E. D. Landreth, district superintendent of the Amarillo district officiating. He will also conduct the Fourth Quarterly Conference of the Church immediately following the dedication.

Progress Baptists Dedicate New Church May 14

Formal dedication of the new building of the Progress Baptist Church has been set for Mother's Day, Sunday, May 14.

The dedication program will be at 3:00 p. m. The church is planning a big day, with dinner at the church at noon. The public is cordially invited to attend.

Abilene Minister At Lazbuddie

The Rev. John H. Crow of Abilene will preach at the Lazbuddie Methodist Church, Sunday, May 7, at the morning and evening services. Rev. Silas Dixon, pastor, announced today.

Rev. Crow will also preach each night of next week. Everyone has a cordial invitation to attend each of these services. Rev. Dixon urged the members to make it a good week and to remember the date—May 7.

Binghams Move To Oklahoma

Mr. and Mrs. Wilborn Bingham left this last Wednesday for Akmeville, Okla., where Mr. Bingham will enroll in Oklahoma A. & M. Mr. Bingham is a former employee of the Bass Firestone Store here in Muleshoe.

He plans to study refrigeration and air conditioning. The course will take about two years.

BACK FROM CONVENTION

Mary Jo White, Rilda Gabbert, Elen Johnson and Mrs. Newsom returned last Sunday from the F F A Convention which they attended at San Antonio. The three girls were delegates from the local FFA chapter at the high school. Mrs. Newsom is their sponsor.

Ted Harrison, Outstanding FFA Boy, Selected As Star District Farmer

Ted Harrison, Muleshoe high school senior and son of Mr. and Mrs. W. F. Harrison of route 2 was selected as Star Farmer of the district, consisting of Bailey and Lamb Counties at a district FFA meeting held in Littlefield Monday May 1, Ed White, vocational agriculture instructor, announced this week.

He was selected because of his work in vocational agriculture. At present he has an investment of approximately \$2,300 in farming, and has made an outstanding record for himself. He is also very active in FFA and other school activities.

On Saturday, May 13, he will represent this district at the Area 11 meeting which will be held in Canyon. Seven districts make up this area. Here the Area Farmers will be selected and will be in the race for State Farmer, who will be selected at the FFA convention in San Antonio in July.

To be eligible for State Farmer competition, a boy must meet the following requirements: (1) must have completed all agriculture courses a school teaches; (2) must have been an active F F A member for three years; (3) must be able to lead a group discussion for 40 minutes; (4) must have at least \$250 in the bank or productively invested; (5) held at least one chapter office; (6) have a satisfactory scholarship record; (7) show outstanding leadership ability; and (8) must have satisfactory plans and set-up for farming program.

Ted is active in several phases of F F A work. He now has two registered Poland China gilts and is farming 80 acres for himself this year. He is vice president of the Muleshoe F F A Chapter and 2nd vice president of the district chapter. He also has a good scholastic record.

Alton Taylor, a 1949 graduate of Muleshoe high school, is making application for the American Farmer degree, the highest obtainable in F F A work. Alton is now attending Texas Tech where he is majoring in animal husbandry.

Ernest Raman was the first boy in this county to receive the American Farmer degree. He received his Lone Star Farmer degree in 1948. Bill Stinson, another Muleshoe F. F. A. Boy, will probably make application for American Farmer next year.

JayCees Will Elect Officers

The Muleshoe Junior Chamber of Commerce will elect officers at their next regular meeting on the third Monday night of this month, May 15, for the coming year.

At their regular meeting Monday night, films were shown of the State JayCee convention held in Ft. Worth recently. A nominating committee was appointed and they met Tuesday night to select two members of the organization as candidates for each office and these will be voted on at the next meeting.

All members are urged to be present for this election.

Abilene Minister At Lazbuddie

The Rev. John H. Crow of Abilene will preach at the Lazbuddie Methodist Church, Sunday, May 7, at the morning and evening services. Rev. Silas Dixon, pastor, announced today.

Binghams Move To Oklahoma

Mr. and Mrs. Wilborn Bingham left this last Wednesday for Akmeville, Okla., where Mr. Bingham will enroll in Oklahoma A. & M. Mr. Bingham is a former employee of the Bass Firestone Store here in Muleshoe.

He plans to study refrigeration and air conditioning. The course will take about two years.

BACK FROM CONVENTION

Mary Jo White, Rilda Gabbert, Elen Johnson and Mrs. Newsom returned last Sunday from the F F A Convention which they attended at San Antonio. The three girls were delegates from the local FFA chapter at the high school. Mrs. Newsom is their sponsor.

Sewing Hints For The Home Maker

COLLEGE STATION, May 1—The homemaker who is handy with the sewing machine will probably want to take advantage of the offering now being made of summer fabrics and do some home sewing. Good equipment and the right sewing tools are important for time saving and fine workmanship, says Mary Routh, extension clothing specialist of Texas A. & M. College.

She says crewel needles should be used by the homemakers who have trouble threading them. They have larger eyes, however, the needle itself is slender. She recommends a size 10 needle for fine sewing and for sewing most light summer fabrics.

Another item that should be regular equipment in every home sewing center is size 16 dressmaker pins. She points out that these pins should be clean. If they are

RABSON DISCUSSES THE FARM SITUATION

ST. LOUIS, Mo., April 28.—As soon as I talk business conditions with anyone out here - banker, manufacturer, merchant, farmer, or wage worker - he asks: "How long do you think present good conditions can last?" They all seem to realize that the country, and especially wages and prices, are on an artificially high basis. What would cause a collapse? It will not be our banking system, nor in fact any of the things which have brought on previous depressions. The most prevalent belief is that the next business collapse will be brought about by competing labor leaders and unreasonably high taxes. Throughout the Central West, a severe crop failure, lasting two or three years is most feared. An attack by Russia, of course, could make an awful dent in the Stock Market.

Personally, I do not look for a "Bust" or even a panic during the next year or two. My fear is that of slow "erosion," caused by increasing competition, reduced profits and declining sales. There is a limit to the number of houses, autos, televisions, refrigerators, etc. which families can buy either for cash or on installments. We are fast approaching this limit. When retail sales fall off, employers lay off workers. This increasing unemployment results in still fewer sales, more unemployment, and finally we will be confronted by 15 million unemployed and a dead stock market. An excess of new labor saving machinery could also hasten this "business erosion" until employment gets adjusted thereto.

What The Charts Show

According to the Babsonchart which covers all sections of the country a business depression can be expected anytime. For over 10 years business has been above the normal line. When this Babsonchart is broken down, it is found that it is made-up of four cycles. Each of these are of different duration. These have been worked out in detail by two world famous economists—Edward R. Dewey and Edwin F. Dakin.

The longest of three cycles runs for 54 years; the second longest for 18 years; the third longest for 9 years; and the shortest for 41 months.

Ordinarily, throughout the past century these cycles often reach their high and low points at different times and hence neutralize one another. This is the reason I depend upon my Composite Chart. But a study of these four independent charts of Dewey and Dakin indicates that they may reach their low points about 1952. If so, those who are saving up to buy a home or stocks or other things, for lower than present prices, have only about two more years to wait.

What About Russia?

A discussion of when the next business depression is due must consider the Cold War in which we are now engaged. In fact, it almost looks as if we are still engaged in fighting World War II. Certainly, as a war measure, our Government cannot afford to let this country suffer from serious unemployment, failures and a collapsed stock market until we have certain peace. This might come through Stalin's death, a Russian Revolution, or through compromise due to mutual fear of the H-Bomb.

Until the present Cold War ends, our country MUST keep sending billions to Europe; MUST speed up production of armaments; MUST support farm prices and MUST help small business.

In short, I see no business or stock market collapse so long as the Cold War continues. I say this irrespective of what economists or political leaders have to say. Hence, I believe that Joe Stalin is the only one who can answer correctly our question: "When will it be time to buy houses, commodities and stocks cheap?" In fact, even he does not know! I however, do not believe that 1950 will offer this opportunity.

Farmers Are Optimists

The farmers here are fairly optimistic. Most of them are out of debt and many have a good bank account. During the past few years they have been buying equipment, repairing their buildings and improving their soil. They feel that even as prices of farm products further decline—which they expect—Congress will treat the farmers fairly.

Only two things these farmers fear: one is another long drought which may come anytime; other thing which worries them is whether Mr. Truman has the right advisors. I find out here a very strong hope that General Eisenhower will be their next President.

Edgar W. Babson

Gypsy Wiener Roast Held Friday

The Junior class of M. H. S. were entertained at a gypsy wiener roast by the seniors and their room mothers in thanks for their Junior - Senior banquet.

The usual things such as cokes, wieners, buns, dill pickles, mustard, and marshmallows made up the supper.

Everyone rode out and came back in a big semitruck.

Mrs. Roy Bryant, Mrs. O. C. Kirk, Mrs. Julian, Mr. and Mrs. L. J. Sanders, and Mr. and Mrs. Finis Kimbrough and the sponsor, Margie Moore accompanied the group of seniors and juniors.

BRIGHT NEW TOUCH TO A BIG BOLD BEAUTY
See something new here! That's right—the gleaming sweeperspear now adorns the fenders of this ROADMASTER Riviera Sedan. An extra touch of distinction that's yours as a standard item.

What's the secret of the **"UNRUFFLED" RIDE?**

SOME car makers say springs make the ride—and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is important—how power is transmitted to the rear wheels.

We agree—and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find low-pressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers—we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames—and car weight—and engine mountings, which on Buick are a very special kind used nowhere else.

They're all important—yet the plain truth is no one of these things—or two or three—gives a ride you can truly call "unruffled."

We feel it takes all of them—springs, tires, shock absorbers, drive, engine mountings—carefully and precisely brought into balance with each other.

You can see why we think so in any Buick—SPECIAL, SUPER or ROADMASTER.

You can feel it on cobblestones and car tracks, washboard gravel and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick—especially when it has Dynaflo Drive?

So we would like you to try a ride that is truly "unruffled." Free of harshness—undisturbed by jounce and jitter—level—steady-going—smooth.

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"—and the buy of a lifetime too!

*Dynaflo Drive is standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Only Buick has Dynaflo—and with it goes:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.)

NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from oil-coil springing, Safety Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

Someday, Farmers May Fight Insects By Using Insecticides When Planting

College Station May 1 — Someday farmers may put insecticides in the soil at planting time and forget about insects.

That's probably a long way off, but last year three USDA entomologists, E. E. Ivy, Wm. Iglinsky, Jr. and C. F. Rainwater, in laboratory tests at Texas A. & M., found cotton plants would take up poison from the soil and that the treated plants killed cotton aphids and red spider mites. If they used enough poison, they got the fleahopper, too.

Scientists have long dreamed of getting plants to pick up insecticides from the soil. They even had a name ready for it — systemic entomology. But the plant would never cooperate until 1947, when it was found that corn roots would take up parathion and that the leaves and stalks of treated plants were toxic to the corn borer.

Parathion is the one of the new organic insecticides. Plants won't absorb the others, such as DDT and BHC; but parathion is a phosphorous compound and phosphorous in the form of superphosphate is one of the three main plant foods elements used as fertilizer.

Parathion didn't get the job done on cotton insects in 1948 soil tests at A. & M. but in 1949 another of the many new phosphorous pyrophosphoramide, showed a lot of promise in its tests run under a Research & Marketing Act project. Among other things, as little as one-fifth of a pound per acre applied to cottonseed a planting time took care of aphids and red spider mites for two months.

Now Dr. R. D. Lewis of the Texas Agricultural Experiment Station has announced that two acres of seed treated with octamethyl pyrophosphoramide have been planted in the Brazos River field laboratory.

It is the nation's first field test of systemic entomology.

Dr. J. C. Gaines, the research entomologist who is making the tests, says it will be a big thing for the cotton farmer if he plants absorb the insecticides under field conditions and keep off aphids and mites during the critical two months when cotton is in the seedling stage.

One thing he is worried about is that the seed might absorb the phosphorous and so be unfit for cottonseed cake, margarine and other seed products. He won't know the answer until this fall.

Right now the new insecticides is very expensive, but if manufacturers go into production on it seed treatment which would be similar to use of ceseran for plant disease control — should get down to about 50 cents an acre.

Dr. H. G. Johnston, head of the A. & M. department of entomology thinks systemic entomology has a lot of possibilities, not only for cotton but for other crops, but warns that it will be a long time before all the details are worked out.

"It would be unusual if we hit it on the first trial," he pointed out, "but if octamethyl pyrophosphoramide doesn't work, maybe some thing else will."

"We're testing eight new organic phosphate compounds at A. & M. this year that aren't much past the test tube stage. We already know three of them are stronger."

Texas Takeoff Spans Border

LAREDO, Tex.—First model airplane ever to fly across an international border has its cargo, an Elgin watch, checked by E. L. Haley (center), customs inspector, before Ray Mathews of Oklahoma City (right) stows it in plane before epochal flight across Rio Grande river into Mexico. Mathews designed and built prize-winning plane.

A WORD OF THANKS FROM MRS. HERRINGTON

The lovely gift of appreciation presented to me at the last meeting of the P. T. A. year is to me a token of the warm Texas friendship extended to myself and my family during our stay in Muleshoe.

I would like to express my thanks and appreciation to my officers and committee chairmen for the friendly cooperation and untiring efforts in carrying out our year's program.

To the co-workers, teachers, parents, to The Journal editor, and his staff and to all of you, who have given of your talents and time, toward promoting our goals and achievements, and to the students of Muleshoe, a most personal "Thank You."

MRS. R. E. HERRINGTON
Retiring President, Muleshoe P. T. A.

Legionaires Lose To Morton, 6-5

Last Thursday afternoon the local American Legion baseball team played the Morton nine. At the end of the fifth inning, the locals were on the short end of a six to five score.

Doing the pitching for the Muleshoe team was Bobby Seid. He did a pretty good job and was credited with nine strike-outs. Rathoun, who pitched for Morton, had seven to his credit.

M. Wagner got a round tripper in the third with two men on bases. Webb hit a homer for Morton.

Muleshoe will travel to Clovis some time this month, the exact date hasn't been set.

TO AUSTIN

Mr. and Mrs. John Laing and daughter, Janabeth, and Mrs. Horace McAdams left Thursday for Austin, where Janabeth will enter the state declamation contest to be held there. She won first place in the senior B-class of Springlake and Mrs. McAdams is her sponsor.

AWTREYS TOUR SOUTHWEST TEXAS AND THE COAST

Mr. and Mrs. W. H. Awtrey, Sr., returned last week from a tour of the coast. They went by way of San Antonio, took sight seeing bus in San Antonio, a three hour tour of the city to all the interesting places, such as the Alamo, the old mission, Fort Sam Houston Army base, and many more interesting places. They also visited Corpus Christi, Galveston. On the way home they visited in Shreveport, La., with Mrs. Juanita Robicheaux, and two sons, S. J. Jr., and Billy Don.

Mrs. Robicheaux is a daughter of Mr. Awtrey. Then they visited in Hugo, Okla., with friends of Mrs. Awtrey as she formerly lived in Hugo in her childhood days. They also visited Sam Correll, who formerly lived at Muleshoe and were neighbors of the Awtreys. They report that it rained on them some every day except the last two days of their trip.

VISITED PARENTS

Mr. and Mrs. Travis Barnett visited at Abilene last weekend with her parents. They ran into a terrific hail storm before reaching Abilene late Friday, had dents in their car to prove it.

GOES TO DENVER

Mrs. Mary Hart went to Denver, Colorado over the weekend.

HERE FROM MISSOURI

Rev. E. M. Jennings of Springfield, Mo., visited his brothers, O. M., Finis, and families and other relatives last week. Mr. and Mrs. Finis Jennings accompanied him to Amarillo Thursday where he boarded a plane for home.

CARD OF THANKS

Wichita Falls, May 1. I wish to thank all who were so kind and thoughtful as to send me flowers, cards, etc. and their good wishes during my illness. I expect to be back in Muleshoe by May 8.

MARIE WHITE.

ATTEND HOTPOINT MEETING

Howard Cox, owner of Cox Radio and Electric, and John Dempster attended a Hotpoint sales meeting in Amarillo Monday night.

SAW THE ICE CAPADES

Mr. and Mrs. O. N. Jennings returned from Fort Worth last week where they enjoyed the Ice Capades. At Grand Prairie they made a short visit in the home of his nephew, R. M. Jennings and family. At Dallas a reunion of cousins, (some first double) was held in their honor at the home of Mrs. Chilton Stafford. In the house party were Mr. and Mrs. Bennie Davis of Floydada, Mr. and Mrs. John Davis of Waco, Miss Ann Davis of Denton, and Mrs. Leo Couch of Dallas.

GO TO OKLAHOMA

Don Jackson and John Dee Whipple went to Elk City, Oklahoma over the weekend visiting with friends and relatives.

Sunshine Club Met April 27

The Sunshine Club met in the home of Mrs. M. M. Simmons on Thursday, April 27. Meeting was called to order by the president, Mrs. Kolar. The roll call was answered by reading a verse from the Bible. After the business meeting, an auction sale was held, which netted \$10.65 of which we are very proud. Mrs. Stinson led in several games and they were enjoyed by all. We had two visitors and one new member. The next meeting will be in the home of Mrs. L. D. Tipton. Every one come early so we can quilt. We will also have a "Mother's Day" Program.

Refreshments of cake and punch were served to the following: Mesdames L. V. Kolar, J. C. Hart, Ike Stinson, Cecil Harvey, Mable Barnhouse, N. W. Lee, I. H. Gatlin, C. W. Patterson, George Chambliss, R. L. Lewis, Tom Payne, S. D. Williams, O. C. Kirk, Herbert Nash, Mrs. Pat Haley of Lubbock, and the hostess, Mrs. Simmons. Mrs. Haley and Mrs. Patterson were our visitors and Mrs. Williams is our new member.

Holt Family Has Hectic Week End

Mrs. Clyde Holt, Journal society editor, can report a hectic week end which few people in this area can equal. It all began when they visited her mother in Clyde, Texas over the week end. Not more than 20 minutes after they had arrived there Friday afternoon, a tornado struck, killing three persons and coming within two blocks of her mother's home. Mrs. Holt said the tornado was coming straight for their home and they did not have time to do anything. They jerked a mattress off the bed and placed the children under it. Suddenly the tornado seemed to hover in one spot and they jumped in their car and ran away from it. All communications from the town were disrupted and while on

Muleshoe HD Club With Mrs. Carney

The Muleshoe Home Demonstration Club met with Mrs. Roy Carney Friday afternoon, April 28. Final arrangements were made for the Muleshoe club's part of the annual Commissioners' supper which this year will be a buffet supper and tacky party to be held at the Three Way school Friday night, May 5. We're really planning to have a good time, so everyone be sure to go. Mrs. S. C. Caldwell gave a good report on the council meeting, after which Mrs. A. W. Copley gave a report of the district meeting which was held at Littlefield. Refreshments of delicious freezer cream and cake were served to Mesdames D. R. Aylesworth, president, John Mock, S. C. Caldwell, O. L. Dutton, Roy White, J. W. Jarman, Jack Stallings, D. E. Bellar, Byron Jeffcoat, E. H. Baugh, C. E. Moore, A. W. Copley, Mack Hale, Max Ragsdale, and the hostess, Mrs. Carney. The next meeting will be Thursday afternoon, May 11, with Mrs. S. C. Caldwell.

HERE FROM OKLAHOMA
Mr. and Mrs. A. C. Bray from Oklahoma City visited this last weekend with Mr. and Mrs. Horace Blackburn and Joyce. The Blackburns moved into their new house last week.

VISITORS FROM LEVELLAND
Mr. and Mrs. W. L. Harris and son, Don from Levelland were visitors in Muleshoe last Sunday.

their way to Abilene to notify Muleshoe relatives they were safe, they ran into a hail storm and their car suffered dents and paint chipped off. Suddenly a bolt of lightning struck the car and shocked the occupants, stunning part of them momentarily. Coming back to Muleshoe Sunday night, a son, Jimmy Clyde, became seriously ill. After they reached Muleshoe, Mr. Holt became ill and about 11 p. m. they were taken to Littlefield Hospital where their illness was diagnosed as ptomaine poisoning. Monday afternoon their condition was reported to be improved, however, they remained in the hospital for further treatment.

Society News

THE MULESHOE JOURNAL, Thursday, May 4, 1950

Laura Whalin Is Champ Speller Of Bailey County

Laura Whalin of Muleshoe Junior high school has been selected on the basis of her high scholarship to represent Bailey County Saturday at Amarillo in the district Junior Spelling Bee. The contest is open to thirty-eight counties in the Amarillo district. Miss Whalin is highest honor student of the eighth grade and will deliver the valedictory address at graduation exercises of the eighth grade on May 18. Miss Whalin will be accompanied to Amarillo by Wanda Busby, second high honor student of the eighth grade and by Mr. and Mrs. O. H. Davis, sponsors. The Spelling Bee will be broadcast over Station KGNC at 2:00 p. m. Saturday.

The champions of the 38 counties are invited to attend a banquet in their honor Saturday evening at the Herring Hotel. The Bee is sponsored by the Amarillo Globe-News, and the winner is to get an expense paid trip to Washington, D. C.

Longview W.M.S. Met In The Home Of Mrs. O. M. Lackey

Circle No. 2 of Longview Missionary Society met in the home of Mrs. O. M. Lackey. The program was opened by the group singing "Blest Be The Tie" with Mrs. Glenn at the piano and Mrs. Griffiths leading.

West Camp Club Meets April 26

The West Camp Pollyanna Club met Wednesday, April 26, in the home of Mrs. Nathan Harding with ten members and one visitor present.

Roll call was answered with "The insects that gave me the most trouble last year."

The program was garden and yard insect control, and was led by Mrs. Woodrow Couch.

Mrs. Guy Austin gave council report and Mrs. Willie Williams gave a report on the district meeting at Littlefield April 25.

Refreshments were served by the hostess to Mesdames Frank Akin, Guy Austin, Elmer Hargrove, Willie Williams, Seaborn Busbice, Pershing Busbice, Johnnie Williams, Austin Jones, a new member, Mrs. Ernest Brock and a visitor, Mrs. John Wilson of Roosevelt, Okla.

The next meeting will be May 18 with Mrs. Elmer Hargrove and the program will be corsage making.

VISIT IN POST
Mr. and Mrs. Cecil Osborne visited in Post this last Sunday.

TAKE FISHING TRIP
A group from Muleshoe travelled to Lake Kemp near Wichita Falls on a fishing trip. They left last Friday and returned late Sunday. Those who went are Mr. and Mrs. C. A. Barnett and children, Mr. and Mrs. Don Barnett and Mr. and Mrs. R. C. Gaede and children.

Mrs. Homer Lackey brought the devotional, using the scripture in Mark 8:27-38. After prayer, Mrs. Dawson gave a splendid introduction to a Woman's Missionary Society as we are "Laborers Together with God." Then using our 1950 watchword, Mrs. Tobey Hatch made a most touching talk on "Light For Darkness."

The "History of Our Hymn for the Year" was given by Mrs. W. B. Hatch. Mrs. O. M. Lackey gave information on "Prayer Plans" that had proven powerful and have been adopted by women's missionary organizations.

Mrs. Glenn concluded our program by introducing "Roy Service" as a source of our program material and an aid to our missionary education. A brief business meeting was held and we accepted an invitation to meet in the home of Mrs. Frank Griffiths next time with our Bible study program. We were dismissed in prayer by our Circle chairman, Mrs. Tobey Hatch.

We promised to forgive Mrs. Lackey for serving delicious refreshments of cake and lemonade since it was our first circle meeting. This may seem strange but we want every one to understand—we just don't want our meetings to become burdensome to our hostesses.

Ladies present for today's meeting were: Mesdames Tobey Hatch, W. B. Hatch, Homer Lackey, E. A. Glenn, E. L. Daniels, Frank Griffiths, Allen Stanell, J. U. Dawson, and the hostess, Mrs. O. M. Lackey.

O.E.S. Initiates Mrs. Ada Thomson

Muleshoe chapter Order of the Eastern Star met in regular session Tuesday night, May 2. Mrs. Clyde Holt, Worthy Matron, was in charge of the regular order of business and the initiatory service. Mrs. Ada Thomson was initiated. Mrs. Jaunita Roberts sang, accompanied by Mrs. Helen Gardner throughout the initiation.

Election of officers was held and Mrs. Margaret Collins was elected Worthy Matron; R. J. Klump, Worthy Patron; Mrs. Bettie Burkhead, Associate Matron; J. E. Mills, Associate Patron; Mrs. Lou Green, Secretary; Mrs. Dorothy Barron, Treasurer; Mrs. Viola Layne, Conductress; Mrs. Ruby Cox, Associate Conductress. The other officers are appointive and will be announced later.

Refreshments were served to 32 members and officers present in the banquet hall by Mesdames Ray Griffiths, H. C. Holt, F. H. Davis, Hattie McPike, Joe Damron, Louise Busbice, and Mary Hart. Installation of officers for the year 1950-51 will be held in the hall, Wednesday, May 31, at 8:00 p. m.

Football Banquet Is Friday Night

Preparations are complete for the football banquet, to be given in the new high school building tomorrow (Friday) night in honor of the 1949 Muleshoe high school football squad. The public is invited and all who can are urged to attend.

Polk Robinson, assistant football coach at Texas Tech, will be the master of ceremonies.

A feature of the program will be the showing of this year's Cotton Bowl game in Dallas between Rice Institute and North Carolina University.

Afterward there will be a junior prom for the football boys and their guests.

Progress W. M. U. Met Monday With Mrs. Vernon Raney

The Progress W. M. U. met on Monday afternoon in the home of Mrs. Vernon Raney.

The meeting was opened with Mrs. Redwine leading group singing, "Ready". Mrs. Walker led in prayer. Mrs. Locker gave a short devotional. Mrs. Henry read minutes of the last meeting.

Vacation Bible School Plans were discussed. All children who plan to attend are requested to register Saturday morning, June 3, between 9:30 and 10:30. Vacation Bible School will begin Monday, June 5, and run through June 9. Classes will start at 2 p. m. and close at 4:30 p. m.

Officers and teachers were elected. Refreshment committee: Mrs. Wimberley, principal, Mrs. Pugh; Secretary, Mrs. George; Beginners, Mrs. Gully and Mrs. Redwine, and Mrs. Locker; primary, Mrs. Houston and Mrs. Raney; juniors, Mrs. Thomas and Mrs. Bishop; intermediates, Mrs. Henry and Mrs. Walker. All children are invited to at-

tend this Bible school. The meeting was closed with prayer by Mrs. Thomas. A social hour was enjoyed by everyone and then the hostess, Mrs. Raney, served cookies and punch.

Those present were: Mesdames Wimberley, Pugh, Gouge, Walker, Henry, Houston, Thomas, Bishop, Locker, Redwine, and the hostess. Two babies and three Sunbeams also were present. Misses Lillie Ruth Lee, Delores Locker, Ann Walker, and Waunell Redwine

came before everyone left for their homes. In last week's report it was written that Mrs. E. L. Locker was a new member. It should have read "One new member, Mrs. E. L. Gouge". We have 13 members on roll and would like to have everyone present at our next meeting, which is to be held Monday afternoon, May 8, at 2 p. m. in the Baptist church house. Each member is urged to be there and all visitors are welcome.

McWHORTER'S

Band Contest Is Held At Canyon

The Muleshoe high senior band under the direction of Bob L. Gray traveled to Canyon the past Thursday, where they entered the Region I Instrumental Music Contest at West Texas State College for Class A.

The senior high band played their three contest numbers, Storm King, Shalimar, and Rusticon, at

11:30 in the morning. Immediately after that, they went to the sight reading room for that part of the contest.

At one o'clock they were given their criticisms in which the judge stressed the point that our band should work more on fundamentals.

Later in the afternoon a twirling contest was staged in which a number of our majorettes entered.

At seven-thirty that night a contest in marching was staged in which a new band was on the field every seven minutes.

Football Banquet To Be Friday

Our long awaited football banquet is scheduled to be held the coming Friday. It will be the first banquet of its kind to be held in the cafeteria and all food will be prepared in the new cafeteria.

The Quarterback Club is sponsoring the banquet but all townspeople who are interested at all are welcome to the affair which will start at eight o'clock.

As yet no announcement of the speaker has been made. Football boys and their dates will be honored guests.

"Pops" Concert Is Slated May 12

With the contest over the Muleshoe high school band is planning to stage a "Pops Concert" May 12. They will play some semi popular music and such.

This is another one of the programs staged to help pay for the newly acquired instruments. This concert will be done entirely by the senior high band.

The band was planning to move in the new band room yesterday if all the new equipment arrived.

Seniors To Have Week Of Festivities

A week of commencement festivities is being planned for all of the members of this year's graduating class.

May 14, the day of Baccalaureate, all the seniors will attend the morning services at the Methodist Church. After baccalaureate practice in the afternoon they will be honored at a tea to be given by the room mothers, at the home of Mrs. Roy Bryant.

On Monday and Tuesday, a breakfast is to be given in the home of Mrs. Tye Young by Mrs. Young and Mrs. Roark, and a barbecue will be given at the home of Mrs. Bill Collins with Mrs. Collins and other senior mothers as hostesses.

On Wednesday a chicken dinner will be given by Miss Margie Moore and Mrs. Bill Moore.

Friday, after the commencement activities are over a reception will be given for all seniors their parents, and the faculty by the room mothers.

So, as you can see, there will be a pretty tired bunch of seniors come Saturday morning after the graduation.

Saturday was spent touring the Alamo, the San Antonio missions and shopping. The girls returned home Sunday.

All the group agreed they had a wonderful time and they would never forget the trip.

1950 Annuals To Be Here Friday

A late report on the arrival of M. H. S. 1950 annual states that our annuals were being bound yesterday and that they may be here Wednesday but should be here for sure Friday.

Report On F. H. A. Convention

Three delegates, Rilda Gabbert, Ellen Johnson and Mary Jo White, and their sponsor, Mrs. Newsom, from the Muleshoe Chapter of the Future Homemakers left Wednesday for San Antonio to attend the Texas Convention of F. H. A. They went as far as Amarillo in a private car where they boarded a chartered bus for the four-day convention. They stayed all night in Abilene Wednesday night and arrived in San Antonio Thursday afternoon. That night a recreational mixer was held in the crystal ball room of the Gunter Hotel for the eight thousand delegates attending. A program, which was highlighted by the Tumbling Tumble Kids with their tumbling acts and a mock wrestling match, was presented followed by a mixer and square dancing.

Attend State FHA Convention

Ellen Johnson, Rilda Gabbert, and Mary Jo White, along with the sponsor, Mrs. Newsom left the past Thursday to attend the F. H. A. state convention in San Antonio.

Ellen Johnson and Rilda Gabbert won their two trips as two highest in the point system used by the F. H. A. for work done for the club.

Mary Jo was given the trip by the F. H. A. on the basis of her work as president and for years past.

They returned Sunday.

After the marching contest ratings were announced. You were not voted on a competitive basis as one school against another but on a national set-up.

Muleshoe was given a fourth on their contest numbers and a third in sight reading.

All who attended the festival were in high praise of it.

Friday morning the first general session of the State F. H. A. meeting was called to order by the state president, Betty McDaniel. The program for this session excelled in interest, entertainment, and educational value. Friday afternoon a movie was shown and the A Capella Choir from Stephenville College in Missouri entertained the group. The remainder of Friday afternoon was spent at the Breckenridge Park and Zoo.

MULESHOE, TEXAS

Here's a home built by United States Savings Bonds; Independence Drive has real meaning to this family

Navy worker's reserve of Savings Bonds enables him to remodel old garage into comfortable home. Photo at left shows garage before H. A. Berggren began alterations. At right, is the way building looks today. Mr. Berggren at left is seen showing his two children Liberty Bell symbol of Independence Drive now under way.

Most everyone envisions a pretty little home they would like to own some day. Many Americans are doing the one thing which will turn that dream into reality, and that is saving a portion of their income systematically.

A stalwart advocate of that custom is Harold A. Berggren, supervisor of the Electronics shop at the U. S. Navy Underwater Sound Laboratory, New

London, Connecticut. Due to the habit of regular saving by investing in U. S. Savings Bonds Mr. Berggren now owns his own home at Old Lyme, Connecticut. Before starting on this venture he had built up a substantial reserve of Savings Bonds which provided him with sufficient security to permit the utilization of his regular earnings for the added expense incurred, some \$7000.

Married, and the father of a son, 12, and a daughter, 7, Mr. Berggren had long dreamed of a home of his own where he could be independent and enjoy a happy home life with his wife and children. The dream began to materialize in 1946 when he purchased an old garage, vintage of 1923. Despite its age Mr. Berggren realized that it was structurally sound and was able to visualize the improvements needed to convert it into a modern home. In the fall of 1946 he set about the task of rebuilding. Doing the bulk of the work during spare time with some help from relatives, and from Mrs. Berggren, he remodeled the entire exterior. The interior job included new parti-

tions, walls, ceilings, installation of a heating system, plumbing, electrical system, and insulation for six large rooms and bath. He dug a half-cellar, cemented the floor and walls, installed a heater and laundry and still had space for a workshop. Next, Berggren did all the painting and paperhanging. With all this completed he moved into the home in June, 1947. To date he has partially completed landscaping the property and has started construction of a garage.

Mr. Berggren shares with his son David enthusiastic support for the symbol and slogan of this year's Savings Bonds drive, the "Liberty Bell" and the slogan "Save for Your Independence." When asked "what does the Liberty Bell mean to you," David replied: "It means independence for our country, the right to freedom of speech, of press and of religion. It means we can do anything inside of the law without anyone telling us not to do it." And David wants to start investing in U. S. Savings Bonds just as soon as he is old enough to earn some money. As he explains it: "They make it possible for people to have their own

homes, such as we have, to educate their children, and to be able to retire when they are old."

U. S. Savings Bonds enabled Mr. Berggren to build his home without arranging any further financing. Having realized this first ambition he continues to invest in Savings Bonds looking forward to the day when these Bonds will supply the money necessary to educate his children, and to the day when he can retire with the realization that in his home dwells all that a real American holds dear: love—companionship—industry—pride of country and of the individual, and independence. Mr. Berggren is an outstanding example of the U. S. Savings Bonds slogan: "Save for Your Independence."

The U. S. Navy Underwater Sound Laboratory, under direction of Capt. W. L. Pryor, Jr., has consistently maintained an outstanding record for Payroll Savings participation with 65 per cent of the some 600 employees enrolled. Mr. Berggren was one of the first to sign up for the purchase of Savings Bonds. U. S. Treasury Department

CHRISTIAN SCIENCE SERVICES

"Adam and Fallen Man" is the subject of the Lesson-Sermon that will be read in all Churches of Christ, Scientist, on Sunday, May 7.

The Golden Text is: "When I said, My foot slippeth; thy mercy, O Lord, held me up" (Psalms 94:18). Among the citations which comprise the Lesson - Sermon is the following from the Bible: "This I say then, Walk in the Spirit, and ye shall not fulfill the lust of the flesh" (Galatians 5:16).

The Lesson - Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "When speaking of God's children not the children of men, Jesus said, 'The Kingdom of God is within you' that is Truth and Love reign in the real man, showing that man in God's image it unfallen and eternal" (page 476).

Hospital News

Karl Lovelady was a medical patient one day. He has gone home.

R. L. Roubinek was in and underwent an appendectomy. He is much improved at this time.

Mrs. A. E. Redwine was in for medical care. She has been discharged.

Adrian Baker, son of Mr. and Mrs. H. E. Baker, Goodland, is in for medical care. He is resting much better.

Sylvia Pool is showing much improvement.

Mrs. H. E. Goodman, an accident patient, is much improved.

Mr. R. D. Dale, an accident patient, will soon be discharged.

CONGRATULATIONS TO: Mr. and Mrs. Boyd Burelsmith, on the birth of a son, Randy Boyd, April 27.

Mr. and Mrs. Don Nix, on the birth of a son, Jerry David, April 30.

Mr. and Mrs. Raymond Hall on the birth of a daughter, Sharon Joyce, April 30.

New Selling System Aids Hog Producers

Price Agreed Upon Right in The Pen

Under a new system of selling hogs, buyers and salesmen at the markets agree on the price right in the pen before the hogs are weighed. Thus the old weight-schedule is being replaced by a pen-to-pen system of marketing. The buyer is given a chance to recognize quality and pay a premium for good hogs.

The quality of this Chester White sow and litter is apparent even to the casual observer; but under the old weight-schedule of selling hogs, breeders who produce such quality stock would receive nothing extra for the added time and care they had expended to bring their hogs to such a degree of excellence.

The reason advanced for increased interest in marketing is that the weight-schedule system fails to recognize the difference between hogs. It also fails to pay for true quality.

Under the old schedule-selling, salesmen and buyers at a market would agree in the morning how many hogs each buyer would get. A schedule of process was set up according to weight. "Hogs was hogs" and the scales determined the price.

But that system is gradually being abandoned. Under the old method, farmers judged probable market prices by estimating the weight of their hogs. A premium of 50 cents per hundredweight was considered unusual at the market although the real value of hogs of the same weight varies as much as \$5 or \$6 per animal. Such premiums offered poor pay to the expert producer who raises top-quality hogs worth more money.

Another reason for the new system is the fear that if a better job of selling isn't done, hogs may be sold on a dressed-carcase basis. This method of marketing (which is used in Canada) is being explored by many farmers, cooperatives, agricultural experiment stations and studies under the federal research and marketing act. Many public market operators also are worried about the decline in volume of hogs arriving for sale at terminal markets.

DANGER: RUST SPOTS!

Battered and dented old milk cans, such as the one to which Winnifred Rogers is pointing above, are breeders of dangerous rust spots which affect the premium quality of milk and cream. Such old milk cans should be replaced promptly to protect the dairy farmer against down-grading or rejection at the milk station. Strong, new cans similar to those shown in the background above are again in good supply and are essential to good dairy operations, inspectors say.

MOM'S TREAT

Four layers of this feathery cake, fluffy sweetened whipped cream frosting and banana-maraschino cherry decoration add up to unlimited dessert time enjoyment.

Water Meeting Amherst, May 4

J. B. Linn, farm editor of Radio Station KGNC in Amarillo, will be the main speaker at a county-wide rally of irrigation farmers set for Thursday, May 4, at 8 p. m. in the Amherst school auditorium.

Linn, known to thousands of radio listeners as "Uncle Jay" has accepted an invitation from the Lamb County Water Conservation Association to speak at the "know your water law" rally.

The Water Conservation Association this week sent letters to 1200 irrigation farmers, urging them to attend the meeting, one of a series designed to familiarize farmers with the Underground Water Conservation Law. A special invitation was also issued to well users in the Anton, Levelland, and Muleshoe areas.

Every farmer and water user should be familiar with this law and how it affects him," Gus Parrish of Springlake, president, said in announcing the Thursday meeting.

Meantime, the Underground Water Conservation Law was getting attention this week from another source, the Texas Water Code Committee. An announcement of John Bliss, New Mexico State Engineer, said the Texas group would visit Santa Fe Monday, May 1, to study the New Mexico law regarding use of irrigation water. The committee also was to visit the Roswell artesian basin for a survey there, press reports said. In New Mexico, the state controls and regulates underground water use.

The Texas Water Code Committee was appointed by the Legislature to study water laws and re-

Dr. Cox Says Flies Are Health Menace

AUSTIN, May 3.—"Go in and out the window" is a line from a children's game which thousands of little youngsters have played for years. It may be used to describe something else, too, for FLIES like to go in and out the windows—Dr. George W. Cox, State Health Officer, reports that fly infestations will be heavy this year. So, now is the time to kill those early flies—before they have a chance to produce thousands more during the summer.

These pests love to buzz around in uncovered garbage pails, stables, old privies, and in homes around uncovered food. Do you

commend a water regulation code. Another group, the High Plains Water Conservation and Users Association, of which the Lamb Co. group is an associate member, announced that a meeting is called for May 4 in Plainview to discuss recent developments towards organizing water districts and to map plans for a strong campaign to keep the present "local-control" water law. The main criticism of the present law is that no districts have been formed.

Among those expected to attend the High Plains meeting are Mayor A. C. Chesher, of Littlefield, a member of the executive committee; Arthur P. Duggan, Jr., of Littlefield, an attorney for the association; Gus Parrish and Les Watson of Springlake, president and secretary, respectively of the Lamb County group.

It is expected that interested persons around Muleshoe will be in attendance at both meetings.

have a metal garbage pail with a tight fitting lid? Are screens on your windows and doors in good repair? Waste should be removed from stables often, for horse manure is one of the chief breeding places for flies. Children can help to keep flies out of the house by keeping screen doors closed, and swatting the flies that enter the house.

Flies carry germs on their fast-moving wings, in their tube-like mouths, and on their furry legs and feet. What are some of the diseases spread by flies? Typhoid fever, dysentery, and tuberculosis are spread by these insects who feed on germ-laden filth.

Poultry Protection Pointer

Added protection for the poultry flock now may be obtained through the use of improved building materials. The walls of this laying house, for example, have been lined with asbestos-cement flat sheets. These easily-applied sheets keep out rats and other rodents. They're peck-proof and fire resistant as well. Ease of cleaning helps promote sanitation and ward off poultry diseases.

TO SOUTHERN CONVENTION
Rev. A. W. Blane, pastor of the First Baptist Church of Muleshoe, and Rev. Bruce Giles, pastor at Earth, are to leave Sunday afternoon by train for Chicago, to attend the annual Southern Baptist Convention. The convention will end the following Friday.

DR. BILL MARSHALL TO FILL PULPIT HERE SUNDAY
Dr. J. W. "Bill" Marshall, president of Wayland College, Plainview, will fill the pulpit at the First Baptist Church for Sunday morning worship. Rev. A. W. Blaine, pastor, said he would likely bring some young singers and other workers with him.

CARD OF THANKS
We desire to express our thanks and appreciation to all our friends and neighbors for their many kindnesses, the flowers, food, and other acts of sympathy in our recent bereavement. May God bless each of you in our prayer.
The Irvin St. Clair-Family.

Savings Bonds Drive Features Liberty Bell

The Liberty Bell, America's historic symbol of Independence, will step into present-day America's affairs as the symbol of the Treasury's Independence Savings Bonds Drive from May 15 to July 4.

The campaign will urge the people to "Save for Your Independence" through U. S. Savings Bonds.

Mayor Bernard Samuel of Philadelphia visits Independence Hall to give official approval to the "bell and the bond" campaign.

Fifty-two full-size exact duplicates of the Liberty Bell will tour the nation during the drive due to the generosity and cooperation of America's copper producers. One of these bells will be on tour in this state.

CHILEAN PRESIDENT TO GET WESTERN WELCOME AT TECH

LUBBOCK, May 1.—Gabriel Gonzales Videla, president of the republic of Chile, will get a western welcome when he visits the Texas Technological college campus May 1 as on the highlights of his West Texas tour.

President Gonzales is scheduled to receive a ten gallon hat and cowboyboots at a convocation in Jones stadium at 11:15 a. m. Monday. U. S. Rep. George W. Mahon also will speak at the convocation, Pres. D. M. Wiggins said.

The Chilean chief executive will arrive in Lubbock after a tour of T V A projects in Tennessee. He will be escorted by a caravan which will visit irrigation facilities in this area and the recently-completed oil refinery at Leveland.

Following the convocation and a luncheon, Gonzales and his party will fly back to New Orleans.

HOME ELECTRIC LAUNDRY
takes the hard work out of Washday

Wash-day a pleasure? Almost . . . when you leave the hard work to electricity! Soak, wash, rinse, dry . . . your electric washer and drier does it all. And all you do is simply put the clothes in, set a control . . . take the clothes out. So efficient and dependable is this streamlined method of laundering . . . that even the most delicate linens and laces may be trusted to its gentle care. You can even breeze through ironing the results of an entire family wash. New, improved, completely automatic . . . electric ironing is speedier, more efficient than ever.

Ask your dealer about an electric home laundry. You'll find units to suit any house-plan . . . any budget. Laundering electrically is so economical. Electric service makes it that way!

ers College at Canyon. They have one small son.

Harley Winters was elected as a grade school teacher. He is married and has a small son. He is now a student in West Texas State College.

Mrs. Alice Harrington was elected as grade school teacher. She is now teaching in the Olton school. She has two sons.

Conservation Methods Prescribed By High Plains Water Conservation Ass'n

(Editors note: This is one of a series of articles prepared by the High Plains Water Conservation and Users Association, of which the Bailey County Water Conservation Association is an associate member.)

A recent article in Reader's Digest, written in connection with the current New York water shortage, declared that repairing leaky faucets alone would save 100 million gallons of water daily in that city.

If a single precaution against waste can save so much water, how much more could be saved by practicing not one, but several

proven water-saving rules. A tremendous amount of water—more than is used by New York's eight million residents—is pumped from irrigation wells out here on the High Plains of Texas. New Yorkers use 1.2 billion gallons a day. Plains farmers use about 10 times that much in pumping seasons.

A good irrigation well will pump 1,000 gallons a minute. That's 60,000 gallons an hour and 1,440,000 gallons a day, for one well. Multiply that by 12,000 wells on the High Plains and the figure zooms

to more than 17 billion gallons a day. Of course, some allowance must be made for the fact that all wells don't pump 1,000 gallons a minute, and all of them don't pump 24 hours a day.

In 1948, 97 per cent of the water pumped from the underground water reservoirs on the High Plains was used for irrigation. About 1.4 million acre feet were used.

With the privilege of using the water goes the responsibility of protecting the supply and conserving it so that it will last as long as possible.

Our underground water supply, where it exists, can be made to last forever, if use is soon enough made of the Texas Underground Water Conservation Law. Enacted in 1949, this law makes it possible for water users to band together in local, independent districts to

protect, preserve, conserve and recharge the underground water supply.

So far, no districts have been formed to carry on this work. Until the organization can be effected, water users as individuals can practice conservation by observing these recommendations, made after extensive studies by a group of ground water geologists:

1. Conserve rainfall by proper methods of cultivation.
2. Select crops that produce the greatest returns from a minimum of irrigation water.
3. Locate new wells as far possible from existing wells to lessen mutual interference.
4. Drill wells through the entire thickness of water-bearing sediments so that all sand strata will

Is Commander

BOB KIRK

At the 19th District Convention of the American Legion held in Big Spring on Saturday and Sunday, April 28 and 29, 1950, the District was divided into seven zones. A commander was appointed by District Commander W. T. "Pete" Bridges for each zone. Zone One is composed of Muleshoe, Sudan, Amherst, Littlefield, Olton and Earth.

Bob "Bob" Kirk of Littlefield was appointed Commander of Zone One.

VISIT IN PORTALES

Mrs. Leon Mason and children spent this last weekend in Portales with Mrs. Mason's brother, J. E. McKillip.

VISITORS FROM POST

Mr. and Mrs. Percy Parsons of Post visited here this last weekend with Mrs. Parson's mother, Mr. and Mrs. J. O. Aday.

contribute to the well.

5. Case the wells with pipe of sufficiently large diameter to permit the pumps to be lowered as the water table declines.

6. Use a power unit adapted for the load to maintain maximum efficiency.

6. Reduce ditch losses by using pipe or an impermeable liner.

8. Apply water at proper times and in proper amounts.

9. Maintain supervision while applying water to prevent waste.

New Hats Are Going Forward

Hat fashions are moving to the fore as brims and trims take new directions for Spring 1950.

Graceful, feminine silhouettes have smoothly balanced contours, posed level on the head with brims swinging out and up from the hair-line.

Asymmetrical silhouettes, which harmonize attractively with dynamic costume lines, have the same feeling of forward movement. Many brimless or tiny-brimmed hats have peaked crowns and high-flying trimmings that are an attractive complement to high, flaring collars.

ROAD NOTICE TO NON-RESIDENT LAND OWNERS

THE STATE OF TEXAS, COUNTY OF BAILEY, ss.

We the undersigned Jury of Freeholders, citizens of said Bailey County, Texas, duly appointed by the Commissioners' Court of Bailey County, Texas, at its March Term, 1950, to view and establish

the brim. And sometimes the prettiest "natural straw" hats are not straw at all, but fabulous modern inventions of scientific laboratories.

In a season of feminine, softly draped hats, the lovely lightweight pastel felts will also be widely used for Spring and Summer. But ribbons and novelty fabrics are particularly new-looking hat materials this year. Rayon belting ribbons, wide grosgrain and crisp cotton piques make attractively tailored hats for town and travel wear.

Fragile-looking taffeta and moire ribbons, draped into festive little hats for afternoon and evening wear are frequently made of spot-resistant, non-wilting nylon. Filmy nylon veillings, too, fashion sophisticated little evening hats or for glamorous wide, garden-party picture hats.

Colorful Season

The Spring color palette is tinged with sunlight gold, in a wide range of straw shades from the palest ivory to a rich suntan. Vivid tangerine, soft apricot; tender bud green, lime, chartreuse and emerald; daffodil, butter yellow; beige and golden brown are among the warm accent colors favored by the milliners.

Pretty pinks, vivid flamingo and soft mauves; pale twilight grey; lilac, violet; aquamarine, sky and sapphire blue; as well as color-accented black, brown, navy and pure white will also be seen in great numbers.

HAVE YOU TRIED OUR 18 MONTHS UNCONDITIONALLY GUARANTEED TIRES
H. C. HOLT

HE HAS PLENTY OF TIME

Harold Scheer is one of the few people who always has plenty of time—for he is custodian of the world's largest clock (which is perched atop the Colgate-Palmolive-Peet plant in Jersey City, N.J.) and masters 150 other smaller timepieces throughout the company. Colgate's "King of Clocks" pictured is 50 feet in diameter with a minute hand that travels at a rate of nearly 3/4 of a mile in a 24-hour day. The tiny dot between 3 and 4 o'clock is a workman who is only about half an hour tall. Thousands of commuters, ferry boat captains, tourists and most of the Hudson River traffic and New York City shore line depend on the big clock to keep them posted on the correct time. Scheer, (at lower left) is examining the mechanism behind the clock.

a 50 foot first class road beginning at the Northeast corner of Section Number 39, Block "X", and to end at the Southeast corner of Section Number 7, Block "Y", W. D. and F. W. Johnson Sub-division No. 2, Bailey County, Texas, and having been duly sworn as the law directs, hereby give notice that we will on the 16th day of May, 1950, assemble at the beginning of said road and thence proceed to survey, locate, view, mark out and establish said road, beginning at the Northeast corner of Section Number 39, Block "X", W. D. & F. W. Johnson's Sub-division, Bailey County, Texas, said Northeast corner of said section Number 39, being the center line of the proposed road at its point of beginning said center line running South along the section lines between said sections Number 39, Block "X", and Section Number 11, Block "Y", continuing along the section lines between Sections 8 and 10, Block "Y", and continuing along the Section lines between Sections 6 and 9, Block "Y", and continuing along the Section lines between Sections Numbers 7 and 8, in Block "Y", said proposed New Road Right of Way to extend 25 feet on each side of said above described centerline and said proposed new road and the center line thereof to end at the Southeast corner of Section Number 7, Block "Y", W. D. & F. W. Johnson Sub-division Number 2, Bailey County, Texas.

And we do hereby notify E. K. WARREN & SON, A CORPORATION, OF THREE OAKS, MICHIGAN, and any and all persons owning lands through which said road may run, that we will at the same time proceed to assess the damages incidental to the opening and establishment of said road, when they may, either in person or by agent or attorney, present to us a written statement of the amount of damages, if any, claimed by them.

Witness our hands this 10th day of April, A. D. 1950.

National Home Demonstration Week To Be Observed April 30 To May 6

COLLEGE STATION, May 2.—Home Demonstration Clubs in 56,000 American communities will join in the observance of their 5th annual national week. Their national theme is "Today's Home Builds Tomorrow's World" and their meetings, tours, achievement days, radio programs, exhibits and articles in the press will all feature the theme, says Gladys Martin, acting director and state HD agent of Texas A & M College.

From a small beginning in 1913, the home demonstration program of the Cooperative Extension Service has grown to the point where more than 3 million women are now participating. According to Miss Martin, approximately 43,000 women were enrolled in home demonstration work in Texas last year. Helping the county home de-

F. M. Jones part of survey 33 in block "Y", W. D. and F. W. Johnson subdivision No. 2, son Subdivision No. 2, \$1,650.

monstration agents spread information on nutrition, food production and preservation, home management, use of equipment, family relations, clothing the family, community activities, consumer buying and many other interests, of rural families is being done by the thousands of volunteer leaders in the local clubs. Miss Martin reports that some 9,400 leader training meetings were held in Texas last year by local leaders.

Home demonstration work was conducted last year in approximately 170 Texas counties and 2,122 local home demonstration clubs. In the U. S., Puerto Rico, Hawaii and Alaska, there are home demonstration agents conducting programs with homemakers in about 2,500 counties. These agents are cooperatively employed by the local county government, state agricultural college and the U. S. Department of Agriculture.

In Texas, as in other states, the rural homemakers are working to improve their own homes and to keep their families well and at the same time are joining their neighbors to make their communities more desirable places to live. They are broadening their horizons and developing a better understanding of national and international af-

Littlefield Will Observe F - Day

LITTLEFIELD, May 1.—May 8 is F-Day in this community of 6,500.

On that day Littlefield will launch an all out attack against fire by opening every school and home for a rigid inspection in an effort to run down potential causes of a blaze.

Superintendent of Schools Joe Hutchinson said that the schools will be checked from attic to basement by a quintet of trained experts representing the West Texas Field Club of the Texas Insurance Advisory Association.

They'll have a look in every nook and cranny of every school building in their search for fire hazards.

Residents will inspect their own homes, using special blanks and instructions provided by the experts.

F-Day is the forerunner of a complete inspection Littlefield will receive May 17-18. On those two days, more than 40 experts from the West Texas Field Club will check hotels, churches and every mercantile business house for fire hazards. They will leave each tenant a list of recommendations for correcting the hazards found, Mayor Art Chesher said.

The West Texas Field Club is one of four similar organizations in the state sponsored by the Texas Insurance Association. Field members are all special agents of stock fire insurance companies.

Members are actually participating in activities and programs that know no boundary lines.

During the week of April 30 to May 6, Texas Home Demonstration Club members will be busy showing and telling the world just what they have done and what they expect to do. Their activities for the week, says Miss Martin, will be built around their state theme, "Better Homes Make for a Better World."

Cash Income On Farms Increases

AUSTIN, May 1.—Farm cash income in Texas totaled \$51 million in March, a 24 per cent increase from February's total and a 6-per cent drop from March 1949.

Littlefield is the first community in the Plains to be given such an inspection, Mayor Chesher said.

SAW NO WHEAT

When Mr. and Mrs. Bud Holdeman and little daughter, Texann visited in the north Panhandle, at Booker, Peryton, and other towns, they saw no wheat worth remembering, Mr. Holdeman said. They went to the Kansas line, still saw no wheat.

Cattle was the greatest source of income in March, bringing in \$18,852,000. Milk products amounted to \$9,475,000 and eggs brought the University of Texas Bureau of Business Research reported.

There were notable increases over February in marketings of mohair, wool, cattle, calves, hogs, sheep, and lambs, while there were decreases in corn and fruits and vegetables.

LEAVE YOUR CAR WORRIES TO US

Why drive a car that is giving you lots of trouble—and causing you no end of unnecessary expense. Here at our shop, we have experts that know cars . . . and will gladly give you the low down, on what it will now take to fix up your car, so that it will look good and run good.

Ford does it again

Ford's first car ever to receive the coveted New York Fashion Academy medal in two consecutive years

Named "Fashion Car of the Year" second year in a row

All the world of Fashion looks to New York's famed Fashion Academy as an authority on style. So it's no wonder Ford is proud to receive their medal as "Fashion Car of the Year" for the second straight year. Never before was a car honored by two Fashion Academy Awards in a row! Here's proof that Ford has succeeded in bringing style to the low-price field—style even far costlier cars can't match.

And handsome it is as handsome does. A "Test Drive" will show you the quality that makes the '50 Ford the one fine car in its field. You'll feel the smooth, quiet getaway power of Ford's new V-8 engine (or advanced "Six" if you prefer). You'll feel the 35% easier acting King Size Brakes. You'll feel the "Mid Ship" comfort of Ford's 13-way stronger "Life-guard" Body . . . now "sound-conditioned." Yes, here's quality you'll see, hear and feel when you "Test Drive" the '50 Ford.

"It's the one fine car in its field"

"TEST DRIVE" it at your FORD DEALER'S

It's New... It's Super!

Here it is . . . the amazing new motor oil you've heard so much about . . . new Conoco Super Motor Oil . . . proved by a punishing 50,000-mile road test!

It is a motor oil so tough that in this killing 50,000-mile test, engines lubricated with Conoco Super Motor Oil showed virtually no wear at all . . . in fact, an average of less than one one-thousandth of an inch on cylinders and crankshafts!

In this same 50,000-mile test, gasoline mileage for the last 5,000 miles of the run was actually 99.77% as good as for the first 5,000 miles.

Yes—Conoco Super Motor Oil has definitely proved that it can keep your new car new.

Come in and let me tell you about "50,000 miles no wear!"

Coffee Cake is Luncheon Feature

Cinnamon spiral coffee cake, hot from the oven, stars at a light luncheon of fruit salads and cheese.

When you plan menus around fruit platters and crisp vegetable salads, be sure to include one hot food at the meal. Hot pan rolls, yeast breads or quick coffee cakes are an excellent choice, for they satisfy hungry folks, and complete the menu nutritionally, too. These enriched breads are a good source of the B-vitamins and iron important for good health.

Cinnamon spiral coffee cake is a new member of the family of yeast breads. The home baker will enjoy making it, for it is easy to shape. A roll of the sweet dough is coiled round and round in a tube pan. Cinnamon and nuts go on each layer to make the bread spicy and good.

Serve cinnamon spiral coffee cake on a large plate, garnishing with stuffed prunes and cheese wedges. Cheese in the picture was cut with scalloped cookie cutter, then quartered. Complete the menu with fruit salads and baked custard.

CINNAMON SPIRAL COFFEE CAKE

- 1 1/2 cups sifted enriched flour (about 2 1/2 cups)
- 1/2 cup sugar
- 1/2 cup milk
- 1/2 cup shortening
- 1/2 cup yeast
- 1/2 cup cinnamon
- 1/2 cup nuts
- 2 1/2 tablespoons melted shortening
- 2 1/2 cups sifted enriched flour (about 2 1/2 cups)
- 1 egg
- 1/2 cup milk
- 1/2 cup shortening
- 1/2 cup yeast
- 1/2 cup cinnamon
- 1/2 cup nuts

Soften yeast in lukewarm water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add enough more flour to make a thick batter. Mix well. Add softened yeast and egg. Beat well. Add more flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in greased bowl. Cover and let rise in warm place until doubled (about 1 1/2 hours). When light, punch down. Let rest 10 minutes. Divide dough in half. Roll under hand to 1 inch thickness. Coil around in greased ring mold 6 1/2 inches in diameter, brushing between each roll with melted butter or margarine and sprinkling with cinnamon sugar and chopped nuts. Bake in moderate oven (350 degrees F.) 30 minutes. Makes two cinnamon spiral coffee cakes.

BEAUTY AT EASE

Beautiful Virginia Mayo relaxes in a regal hostess pajama outfit designed in cotton satin by Margaret Newman. A detachable skirt ties over the one-piece cotton hostess pajama. The blonde movie star chooses a delectable shade of par-fait pink for her easy-time ensemble.

Homemaker Class Met Benson Home

The Homemaker's class of the First Baptist Church met in the home of Mrs. Lovie Benson Tuesday afternoon for their regular business meeting and social hour. The opening prayer was given by Mrs. Claudia Hinkle. Mrs. Dora Riddle brought the devotional. The minutes were read and approved and the group captains gave their reports which were approved. There were 8 members and one honorary member present. The group was dismissed by Mrs. Benson.

MUSICAL PROGRAM HEARD AT LIONS CLUB MEETING

Members of the Lions Club in luncheon meeting Wednesday enjoyed the singing of little Misses Anne Woodley and Barbara Douglas, accompanied at the piano by Mrs. Noel Woodley. They sang several songs. Cecil H. Tate was in charge of the program. The club voted not to hold the "All Kids Day" which has been staged at the end of school each year for the last three. Instead, the club will concentrate on their summer youth recreation program.

PLANTING IS STARTED

Some have started planting in the Muleshoe country, although it is the driest season on record. Irrigation farmers have watered their fields during the last few days and so are prepared to proceed with planting, but in dry land fields there likely is not enough planting moisture. Lloyd Davenport, farmer of near Needmore, is reported to have planted some cotton during the last three. The Journal they will plant corn this week. Further east on the Plains it is reported that much cotton has already been planted.

3 M's MET MONDAY

The Muleshoe Model Makers met Monday night. A new name was decided upon for the club, the 3 M's. Officers were elected and plans made for a meet between Clovis and Plainview and possibly some other club.

Construction was begun on a Waco, or scale model, the club has taken as a project. Everyone is invited to watch the model flying on the football field Sunday afternoons.

The next regular meeting will be Monday night, at 7:30. There is to be a short business meeting and then the club will work on the Waco.

MAY ERECT BUILDING

Dr. S. E. Goucher has sold V. M. Collins a lot adjoining one that he already owned, on Main Street next to the Buick place. Mr. Collins is reported to be figuring on a fifty foot front building on the two lots.

Ringold Lady Dora Garners Extra Star First Sow Ever To Raise Nine Champion Litters

America's champion production sow, the most prolific purebred sow in the country, has added still another star to her crown. One hundred and five pigs raised to weaning age is the remarkable new record of this queen of the hog world, the first and only of any breed to raise nine production star litters.

To qualify for production registry, conducted by the purebred associations, a sow must raise a litter of at least 8 pigs to a minimum weight of 320 pounds within 56 days of birth. The pigs must be approved breed type, free from fault or defect, and at least half of them must be eligible for registration. The sow gains a star in her breed production registry books each time she repeats the performance.

The champion, Ringold Lady Dora, No. 753,056, a Hampshire owned

Queen of the hog world, Ringold Lady Dora, first and only sow to raise nine litters to qualify for breed production registry honors is shown accompanied by latest litter which weighed 369 pounds at the 56-day weaning date.

by Meadowlark Farms, Inc. of Sullivan, Indiana, has repeated that performance nine times. Her first qualifying litter was farrowed September 6, 1944. Since then she has farrowed and raised spring and fall litters without a single interruption, and has raised an average of 9.5 pigs per litter. She has farrowed a total of 129 pigs and has raised 105 of them herself.

Her ninth star litter, farrowed this past fall, consisted of 10 pigs, nine of them eligible for registration. They had a litter weight of 369 pounds at the 56-day weaning age.

During that period her breeding and feeding was watched carefully. She was fed a ration consisting of corn, oats, a pelletized dairy product, some meat scrap or tankage, a little bran, and alfalfa pasture or alfalfa meal prior to each farrowing.

Grain-Blower

This grain blower, made on an Illinois farm, is constructed from scrap 14-gauge steel for the case and 1-1/2 angle iron for the frame. It is all arc welded. Grain is fed into the blower by an auger feed.

New Pig-Feeding System Paying Off for Farmers

A pig-feeding device which might be adopted profitably by many swine raisers has been developed in northeastern California.

The "pig strainer," as it is popularly known, was invented by Jess Steiner who lives in Modoc county near Cedarville.

A new kind of creep, the "strainer" sorts pigs out by size at feeding time.

Here's how it came about: Steiner purchased buttermilk from a creamery at Alturas which he feeds as part of the ration to his hogs. He figured out that it was necessary to feed the pigs according to size, since the small animals had difficulty in getting their fair share of feed alongside the larger hogs.

Therefore, he arranged his pigs at the trough where the buttermilk and concentrates are fed in such a way that, by using creeps, the hogs naturally arranged themselves according to size.

Tree Roots Troublesome When Invading Sewers

Tree roots mean trouble when they grow into sewers. Costly digging to free clogged drains can be avoided by a simple practice. George Adamson, of the Michigan state agricultural college, recommends use of copper sulfate or blue vitriol in freeing sewers of tree roots that may be causing stoppages.

These moderately fine crystals dissolve easily.

Soil Loss From Rain Costly to Acreage This Type of Erosion Studied by Government

If all the water in a two-inch rain should be dumped on a field at one moment it would have power to lift a seven-inch layer of soil three feet into the air—a monstrous splash. This figure has been calculated by scientists of the soil conservation service, U.S. department of agriculture.

Of course, the department specialists say, such a calamity never occurs. In most areas, rainfall at the rate of one inch in 15 minutes is an extremely heavy and destructive rain, and the total of smaller splashes in such a rain can cause serious splash erosion.

It is against the forces of falling rain that the soil conservation service is centering its efforts to keep a protective cover on the

Mrs. Neil Rockey Honored By Club

Mrs. Neil Rockey was an honored guest of the Floyd, N. M., Home-making Club Wednesday and broadcast over the Portales, N. M., radio station Wednesday morning. Mrs. Rockey helped organize this club in 1921 in her home and is one of the seven charter members. The club now has a membership of approximately 75 ladies and has recently helped to build a community center for Floyd.

The club first began as a social organization but within a short while they were helping one another to can vegetables, quilt, and numerous other things. They helped secure a county home demonstration agent and have aided in various other civic affairs.

The club paid tribute to Mrs. Rockey for her active work in the years past by presenting her with a corsage and several gifts. She was accompanied by Mr. Rockey.

ROTARY CLUB HEARD CONFERENCE REPORTS

Members of the Rotary Club who attended the district conference in Amarillo last week gave other members the lowdown when the club met at Gerald's cafe Friday noon. Rotary President Ray Keeling reported that the club had a 20 charter members, and that all were present for the meeting Friday excepting two.

Officers directors and some committee heads are to meet tonight for a monthly session, to be held in the home of the secretary, Bud Holden.

EDGAR WAGNON HERE

Edgar Wagon, of Reno, Nevada, is here to visit his brothers, Happy, Vance, F. M., F. C., and B. H. Wagon, and a sister, Mrs. George Johnson, all of Muleshoe, and their families. The local brothers and sister had not seen their brother for 20 years.
