## Judge Fitts Orders Attorneys' Fees Cut

Court orders from District Judge Herman Fitts set the amount of payment for Court-appointed defense at-

torneys in the Organized Crime Case, it was disclosed at Commissioner's Court Monday.

The Judge, who lives at Mineral Wells, sat in on the two-week trial. Bill Hart was special prosecutor, with Saul

Pullman defending Richard Hinton, Keith Woodley defending Pat Starr, and George Gray defending Brenda Andrews.

Emma Morris, county auditor, presented the bills from Pullman and Woodley to the Commissioners. Bills for George Gray were not presented Monday, Mrs. Morris said, because they

had no purchase order. They have been sent back to the District Judges.

The amounts were for the actual trial only. The Commissioners had previously approved bills for pre-trial hearings. Attached to each current bill was an order from Judge Fitts, stating the amount he had cut it to.

Keith Woodley had

presented the County a bill for \$13,680. Judge Fitts cut this to \$4,578.

Saul Pullman charged the County \$19,800 for his services. The Judge cut this to \$4,250.

Judge Herman Fitts presented a bill to the County for \$426.72 for his car mileage and meals during the trial. The state will pay

his actual salary.

A tentative date for the trial of other defendants in the Organized Crime case has been set for July 27.

These are Barbara Williams and Joe Perry, and Perry will be represented by Court-appointed attorney Leslie Vance.

## Reactivated County Court Busy

County Judge Scott Bailey reported on a very active County Court at the County Commissioners meeting Monday.

are now set for trial on July 6, beginning at 9:30 a.m. Several of these are already ready for trial, Judge Bailey said.

The Judge, under a law passed by the State Legislature this spring, can now hear misdemeanor cases in his Court in addition to civil cases.

This year's Little Miss Cisco contest will be the best one ever, according to Shirley Hargrave, Chamber of Commerce director who is in charge of the pageant. The contest will be held July 4th at 7:00 p.m. at the City Park.

There is still a need for more girls to enter the contest. There were only seven girls who had signed up for the contest by early Tuesday. There were five girls in the 4-6 year old division and two girls in the 7-9 year old division. There were no entries in the 10-12 year old division. Entries are usually late coming in according to Shirley.

Shirley said the contest

will be held in the pavilion at the City Park on Royal Lane. She said there will be several flower arrangements and a flower tressle for the girls to walk under during the show. With the music that will be played during the show and the P.A. system it will be an event that each girl and her parents and family will remember forever.

The entry deadline has been extended to Monday, June 29. Girls and their parents can stop by the Cisco Chamber of Commerce during business hours and fill

out an entry form to participate in the contest. Each girl will need a sponsor but if they don't have one they can call the Cisco Chamber of Commerce, 442-2537, to obtain a sponsor. There is an entry fee of \$5.00.

Reigning queens are Rebekah Fields, age 6; Tessie Ingram, age 10; and Scooter Young, age 12. They have actively participated in home events and out of town events.

NOTICE OF OPPORTUNITY FOR PUBLIC HEARING ON PERMIT APPLICATION FOR SOLID WASTE SITE

Notice is hereby given that THE CITY OF CISCO presently holds Solid Waste Permit No. 190-A as heretofore issued by the Texas Department of Health for the operation of a Type II municipal solid waste site located on the north edge of the Cisco city limits, approximately 0.75 mile north of the intersection of State Highway 6 and U. S. Highway 183, and approximately 1,000 feet east of State Highway 6, in Eastland County.

Said permit holder has now filed with the Texas Department of Health an application to amend the aforesaid permit as follows: To add 19.57 acres to the north side of the existing 53.44-acre site.

The total site will consist of approximately 73.01 acres of land, and is to daily receive approximately 11.75 tons of solid waste under the regulatory jurisdiction of the Texas Department of Health.

The Division of Solid Waste Management, Texas Department of Health, has evaluated the application in coordination with other state and local agencies. The application adequately addresses land use, ground and surface water protection, site development and operation, and other regulatory requirements. The Division of Solid Waste Management is

No public hearing will be held on this application unless a person affected has requested a public hearing. Any such request for a public hearing shall be in writing and contain the name, mailing address, and phone number of the person making the request; and a brief description of how the requester, or persons represented by the requester, has suffered or will suffer actual injury of economic damage by the granting of the application.

If a hearing is requested by a person affected, notice of such hearing will be provided to the requester and will also be published in a newspaper regularly published or circulated in the county in which the site is located at least 30 days prior to the date of such hearing. If no request for a hearing is received within 30 days of the date of publication of this notice, the Department will make a decision. If a hearing is requested, it will be conducted, and the final decision will be rendered, in accordance with the applicable rules contained in the Department's "Municipal Solid Waste Management Regulations" (MSWMR), dated December 1986.

Requests for a public hearing and/or requests for a copy of the application shall be submitted in writing to the Director, Division of Solid Waste Management, Texas Department of Health, 1100 W. 49th Street, Austin, Texas 78756. Firemen Extinguish Blaze Friday

A thunderstorm accompanied by pea-size hail and a deluge of rain struck the Cisco area as it moved through this region around 7 p.m. Friday, June 19, causing minor storm and lightning-started fire damage. Rainfall measured about 1.5 inches.

An oil storage tank on Hanvey Oil Company's Boggs lease near the Lake Road a mile north of town was struck by lightning and ignited. One of nine storage tanks on the Hanvey lease, the tank exploded and was destroyed. Cisco firemen extinguished the burning oil tank.

Firemen went to 1104 West 9th Street at 8:30 p.m. Friday after lightning caused a minor fire. There was no damage reported. At 9:30 p.m., firemen went to the 300 block of West 8th Street where an auto gas tank was leaking following a minor accident.

The rain storm benefitted Lake Cisco as the water level there was reported to have gained a foot or more. City officials believed the lake has gained between five and six feet of new water during the past month, raising the level to the point where it was in 1983.

Another inch of rain was recorded in local gauges last Saturday.

Firemen had weather watchers out at 7 p.m. Friday and they were on the job much of the night.

Two false alarms were answered by firemen Monday.

**"YES, THERE IS LIFE AFTER BREAST CANCER. AND THAT'S THE WHOLE POINT."**  
-Ann Jillian  
A lot of women are so afraid of breast cancer they won't practice breast self-examination or ask their doctor about a mammogram. And that's what frightens me.  
Take it from someone who's been through it all: Life is just too wonderful to give up on.  
But to enjoy it, you do have to give up being afraid to take care of yourself.

**Fishing Outdoors**

By Terry Wilson

**Maynard & Wilson Win Hubbard**, "Almost" June 20, 21 Lone Star Bass Association out of Conroe, Texas held its fifth qualifying tournament on Hubbard Creek. Fishing was extremely poor with only 6 fish over 14 inches being caught during the two days of fishing.

Tommy Maynard and Terry Wilson of Eastland finished second overall. But did weigh enough pounds of fish to win the tournament. The death of a 2.12 pound bass cost them the win. In most tournaments live release of the fish is promoted. A dead fish carries the penalty of 2 ounces. This penalty placed them .2 hundredths of an ounce behind the leaders.

Why did this fish die? In this case death was due to the hook penetrating a vital area causing the fish to bleed. This coupled with the shock involved in being caught, cost a first place win.

Tommy and Terry are now in first place in the years standings, and with only one tournament remaining are assured a position in the 1987 Lone Star Bass Classic.

There are enough oddities connected to the new state record for smallmouth buffalo to fill a small novel.

For starters, two anglers caught consecutive state record buffaloes on the same day, March 28, 1987. Both fish were some 30 pounds heavier than the old state record.

Biologist Tim Schlagenhaft of the Texas Parks and Wildlife Department said both fish were caught on six-pound-test line, which most fishing experts would agree is remarkable in itself. And the fish were caught within 40 miles of each other.

Bill Redmon of Marshall submitted his fish April 1 and got the record for a 63.5-pounder he caught below the Lake O' the Pines

Dam. The fish, caught on a nightcrawler, beat the 33-pound, 12 ounce buffalo that had been the state record since 1983.

Gaylord Cole of Longview was fishing in Sabine River near Longview when he caught a 64.5 pound buffalo. His record application was submitted on May 18 for the current state record. Cole's fish could be considered an accidental catch, as he was dabbling for crappie with an ultralight rod and crappie rig.

Calling a key participant in an organization of team a "spark plug" is an apt metaphor because a spark plug in an internal combustion engine literally makes the whole thing go. Because of the importance of plugs, it's a good idea for boaters to know something about their characteristics.

How do you know when they're bad? Fouled, defective or worn-out plugs betray their presence in various ways. If the engine won't start, idles poorly "misses" or won't run as fast as it used to, the possible cause may be bad spark plugs.

To inspect the plugs, remove the cowl of your outboard, disconnect the leads and unscrew them. Clean them and inspect them visually. If the center electrode is eroded, replace the plug with a new one. Don't use any plugs that you find lying around; get the one that is recommended by the manufacturer in the owner's guide.

Check the gasket to be sure they're in good condition. Replace them if they're not.

Reinstall the plugs by screwing them hand tight, then giving them another one-quarter turn with a wrench. Do not overtighten or you may crack an insulator or strip the threads.

Connect the leads to their respective spark plugs. This is simple enough but it's sur-

old.  
All our sorrow will end,  
And our voices will blend,  
With the saved ones,  
Who've gone on before,  
In a land where,  
We'll never grow old.  
Words were never truer than those sung by Pat Parker at the funeral of Ruie Sunderman, who died on June 1, a month before her 95th birthday. Friends and family gathered at the Parker Funeral Home to celebrate her life that had come to an end after many weeks of pain.

Growing up in St. Mary's, West Virginia, Ruie, the daughter of John and Jane Hinds, had a varied career. As a young girl she worked in a glass blowing factory. Soon she was promoted to floor lady, or manager; often she spoke of her associations at the factory. After marriage, she and Mr. Massey traveled to many parts of the country managing cafes for the Greyhound Lines. At one time they worked in a California Retirement Home sponsored by the Church of the United Brethren.

During the oil boom they came to Texas to manage cafes in Van, Corsicana, Mexia, and finally to Putnam. Perhaps it was at these cafes that she earned her reputation of being a marvelous cook although it might be a family trait, for her sister Mae Hinds Sunderman was also known to be an expert cook. Their pies and breads were always welcomed by the neighbors and bought first at the Fun-Raising events.

Even better known than her cooking was Ruie's outgoing personality and spirit. As her pastor said, people were so aware of her happy, agreeable disposition and her positive acceptance of others. Her love for the Lord and His love for her made it easy to widen her circle to include those around her. She was happy and secure as a member of the Saunderman family.

In 1962 she married Everett E. Sunderman, an oil-field driller who had been a citizen of Putnam since 1925. He died in 1969. With this marriage the Sunderman boys who were her nephews now became her stepsons. This remained a strong family unit until her death. One of the boys, Edward, died before this marriage, Earl four years ago; of the three remaining, Eugene lives in Canyon, Texas; Chris in Fort Worth; and Frank in Sinton. Their wives and a number of the grandchildren were here to join in the celebration of her long life of giving and sharing of her love.

Ruie was often requested to perform before audiences. People marveled at her ability to recite long poems from memory, selections she had learned as a child. She also had committed to memory many of the scriptures. This was a particular satisfaction to her since failing eyesight in later years made it impossible for her to read the Bible.

For a number of years she had been a resident of the Rest Home in Baird. Moving there was a traumatic time not only for her but for her family. She did not want to leave her home in Putnam nor to relinquish her independence. However, because the staff made her feel so welcomed and special it wasn't long until she accepted them as her family and the Rest Home as her own. This transition was made even easier when she was joined by her very dear friend Veda Yarbough.

So Ruie Sunderman was laid to rest with celebration, grief was for those who will no longer be able to see her smile, hear her laugh, listen to her stories and songs, or share in her boundless love. But her light will continue to shine from the beacon that she had carried all these many years.

It was truly a celebration!

## police blotter..

A 24-year old Cisco man was released Sunday after he agreed to pay for damages caused when he threw rocks at Ingram Motor Company building at 1109 Hilton, according to a report by Police Chief Billy Rains.

Gerald Ingram of the auto firm notified police at 6:35 p.m. Saturday of the incident. Policeman Larry Weikel arrested the man at

12:35 a.m. Sunday. Mr. Rains said a window was broken by the rocks.

At 12:58 a.m. Friday, June 19, police investigated a report of theft of service at White Elephant Truck Stop. A 1983 Chevy Suburban pulling a trailer pumped \$20 worth of gasoline and left without paying for it, police reported. Efforts to locate the rig were fruitless.

## Sale Of Savings Bond In Texas Up First Half 1987

Sales of U.S. Savings Bonds for the first half of fiscal year 1987 in Texas amounted to \$232,781,413, an increase of \$44 million or 23.3% over the same period of 1986. T.J. Morrow, District Director for the U.S. Savings Bonds Division in Dallas, announced today. These sales represent 60 percent of the state's 1987 assigned dollar goal of \$388 million.

Sales of Series EE Bonds amounted to \$40,487,000 during March 1987 in Eastland County. Jim R. Wright, Volunteer County Chairman, said. The October 1986-March 1987 total for the County was \$331,747,000, which represents 165.9% of the County's 1987 assigned dollar goal of \$200,000,000.

Nationally, March 1987 sales of Series EE Bonds totaled \$703 million, an increase of 17% over last year and the highest sales for any March since 1978. Sales of U.S. Savings Bonds for the first six months of fiscal year 1987 increased 129 percent and redemptions decreased nine percent compared to the same period for 1986. Savings Bond held by the American public has reached an all-time high of \$94.7 billion. The increase in amount outstanding during March 1987 alone was \$883 million, the highest for any March since 1943.

Much of the sales growth can be attributed to the new market-based rate which was effective November 1, 1982. The current rate in effect (May thru October 1987)

for Bonds held five years or longer is 5.84%. The average rate since November 1, 1982 (five years) is 8.68 percent. Bonds held at least five years earn 85 percent of the average rate on five-year Treasury marketable securities during the holding period which is currently 8.68 percent. Bonds held less than five years earn interest on a fixed, graduated scale.

Current rate information is available by calling toll-free, 1-800-US BONDS.

## Legislature Recognizes Farms & Ranches

Pointing to the importance of recognizing and remembering the pioneer farm and ranch families in Texas, Senator Bob Glasgow (D-Stephenville) has invited long-time farming families to participate in the Texas Department of Agriculture's 1987 Family Land Heritage Program.

"Registration for the program, which recognizes families who have had land in agricultural production for 100 years or more, is now open and will extend through July 15th", Senator Glasgow said.

"To date, several properties in the Senator's district have qualified for the Family Land Heritage Program, and this year I hope we will be able to identify many more," he said. Since the program was established in

1974 to honor pioneering families, 2,090 such families have been recognized.

The basic requirements of the program include continuous agricultural production on the farm or ranch for 100 years, land ownership within the family, complete operation or supervision of the farm/ranch production by family members who are Texas residents, and a size of at least 10 acres with a minimum income of \$50 from farm or ranch products. If the farm or ranch is smaller than 10 acres, sales must total \$250 per year.

....to see that your title index records are kept up to date for that has been our business for many years. The land owner who makes it a practice of bringing his abstract to us for an occasional check has found that it pays off in dollars and cents. A title has some characteristics of the human body in that it has to withstand the ravages of time. While time may cure some titles, it destroys many others. Don't neglect your title.

# Area News Briefs

**EASTLAND**  
An ice cream social is being held at the home of Dub Hoffmann this Wednesday, June 24, 7:30 p.m. so that all members of the First United Methodist Church may meet their new pastor. The minister, Wesley A. Howard Jr. and his family arrived in Eastland June 10, and have been busy trying to get settled and do evaluation of the church. Howard comes to the local church from White Settlement, where he was pastor for three years. He is a graduate of the University of Texas at Arlington and TCU, and also served three years in the army. The pastor is active in Boy Scout work, and is also an amateur magician.

The Course of Study for the Eastland Music Study Club of the 1987-88 season will be on Musical Comedy, according to an announcement from Yearbook Chairman Virginia Russell. A book called "The World of Musical Comedy", by Stanley Green, will be used in this study. Each chapter of the book covers a different composer, beginning with Victor Herbert. The first program on this topic will be presented in October. Area musicians will perform at this and all other programs of the year.

The Junior Reading Program called "Animal Antics" is off to a great start at Eastland Memorial Library, with around 30 children participating. The program will continue through the summer months, with children being encouraged to register at the library. Other programs will be "Haffa and the Doodles", June 22, "Pigs and Feathers", July 6, "Barnyard Buz", July 13, "Pet Pals", July 20, and a Field Trip for all on July 27.

**CISCO**  
The Cisco Lions Club will sponsor an invitation bass fishing tournament as part of the July 4 celebration. Fishermen will use both Lake Cisco and Lake Leon to catch their trophy entries. Entry fee will be \$21, with a \$100 prize for the winner. The tournament will be held at the Cisco Camp for Disabled Children at Rivery. The balance of the entry fees will be paid out to winners. In addition, there will be a Big Bass Calcutta, with a \$10 entry fee and a 100 percent pay back to one winner. Entries should be mailed to the Cisco Lions Club, P.O. Box 99, Cisco, or brought to the Tournament headquarters between 7 a.m. and 7 p.m. July 4 at the City Park. This is only one of many events planned in Cisco for the Fourth of July.

Two new projects are presently being planned by the Cisco Historical Society. One involves the society's museum at the Mobley house and the possibility of displaying memorabilia of famous people associated with Cisco and its history. The list would surely include Dash Croft, baseball pitcher Dizzy Dean, etc. The other new project, discussed initially at the last meeting, is the placement of a picnic table on the property bordering the Conrad Hilton Memorial Park. This could be used by summertime visitors to the Mobley.

The Senior Class of Cisco High School, in cooperation with Class parents, is sponsoring a Fourth of July Eastland County and high school dance on Saturday, July 4 at the Corral Room in the Laguna Hotel on Conrad Hilton Ave. The dance, which is for high school students only, will begin at 9 p.m. and end at 1 a.m. Disc Jockey L&L Light and Sound will provide the music, and soft drinks will be available. Admission will be \$3 per person. For further information call 442-1090, 442-4114, or 442-3640.

Lawrence Trott of Abilene has been named interim pastor of Pleasant Hill Baptist Church, located nine miles south of Cisco. The Rev. Trott, a retired minister and native of the Pleasant Hill Community, has been pastor of several area churches. Services at Pleasant Hill will be 11 a.m.

and 6 p.m. Sunday, with Sunday School at 10 a.m.

**RISING STAR**  
The Rising Star Fourth of July Picnic will be held at the Williams Memorial Park (City Park). A parade will begin at 10 a.m., and a barbecue lunch will be served, beginning at 11:30 a.m. Area bands are invited to provide music. The lunch will sell for \$3.50, and tarps will be used to shade the eating areas. There will be a number of dessert items and other things for sale, with various organizations taking part. All are invited to spend this holiday in Rising Star.

Rising Star Emergency Medical Service is sponsoring an ice cream contest for the July Fourth festivities. To enter a freezer of your favorite cream, contact Carol Cook at 643-1114 or 643-7312. Four judges will pick winners, and after the contest the ice cream will be sold to the public. All proceeds will benefit the ambulance fund.

At least reports the reward fund for the person responsible for the rape and murder of Era Witt had increased to \$1,035. If anyone wishes to add to the amount, they may contribute to a special account at the First State Bank of Rising Star. The Rising Star Police Department has responded to the concern of townspeople by intensifying the night patrol. Patrolmen have also been making specific checks at the homes of citizens who have notified them that they plan to be out of town. Anyone with any information about the crime should call city hall or any peace officer.

The monthly dinner at Lakewood Recreation Center will be Saturday, June 27 at 7 p.m. Lakewood is particularly attractive this year, and this should be an enjoyable occasion.

**RANGER**  
Ranger City Commissioners met Monday, June 22, with a number of items on the agenda. One was the

survey for future Grant applications, and volunteers are still needed for that. There were police and fire report updates, and consideration of a petition on the James Jay property. Other business was discussed in an Executive Session.

A new "old" business is opening soon near Ranger - Ranger Hill Drive-in Theater. This is located on Highway 80 East, across

from Ranger Hill Truck Stop. This will be a locally owned and operated Theater, and will feature a family atmosphere. The opening is planned within two weeks, and scheduled film will include up-to-date movies and a classic film one night per week. Future plans also include a playground for the kids and a Saturday "Concert in the Park". Concession will be available. Managers Joe and Belinda Williams hope this facility will give families and area kids "something to do".

Members of the local Methodist Church are mainly using fans and open win-

physicals given at no charge. The Troop, along with Scoutmasters Wesley Sumpter and Buddy Davis, is now at Boy Scout Camp Billy Gibbons, where they will stay through June 27. The boys are participating in a number of different types of activities, and will have an opportunity to learn new skills and earn merit badges.

## Keeping Cool

Trying to stay cool this summer doesn't have to be as difficult as it sounds. There are many ways to beat the heat, and expensive energy costs.

Dr. Peggy Owens, a housing specialist with the Texas A&M University Agricultural Extension Service, says, "Turning up the air conditioner isn't always the best way to try to keep cool, though it's often the easiest. A little effort in other areas may be the 'coolest' thing to do."

"Air conditioners remove heat and moisture from a room, and blow it outside. Closing windows, doors, and fireplace dampers tightly, and cutting long steamy showers short will help the air conditioner run more efficiently," she says.

To save on air conditioning costs, the specialist suggests turning up the thermostat a few degrees. The savings from this small sacrifice can add up over a long, hot summer.

"Fans are regaining their popularity," says Owens. "Ceiling fans and portable fans circulate air around the room and often make a room feel much cooler than it actually is. They can effectively cool a room or a home, and are less expensive to run than air conditioners."

"Whole house, or attic, fans were widely used before the invention of air conditioning, and are making a comeback. They are mounted in the attic, to pull outside air through open windows and exhaust it through the attic. An attic fan increases air circulation through the house, and carries out built-up heat, but shouldn't be run simultaneously with an air conditioner," says the specialist.

"Cutting back on the use of major appliances will help too. Appliances, especially water heaters, dryers, and ovens, give off a lot of heat, which works against any cooling efforts," the specialist says.

"Little things like closing shades and draperies to keep out direct sunlight, and turning off unnecessary lights will also make for a cooler home," Owens remarks.

Owens suggests long term cooling plans for those who are really cost conscious. Planting large trees which will shade not only the windows, but the whole house can help. So can using light colored shingles on the roof. These efforts will keep the attic cooler and less heat will get into the house through the ceiling. Extra insulation in the attic also is a good idea.

Owens adds, "Check air conditioners periodically and make sure to clean the filters. Keeping the units running efficiently is the key to controlling cooling costs."

# Budget Hearing Quiet - Other Topics Discussed

Eastland County Commissioners held a regular meeting on Monday, June 22, in the County Courtroom. All Commissioners were present: Richard Robinson, Pct. 1; Norman Christian, Pct. 2; L.T. Owen, Pct. 3; and Billy Bacon, Pct. 4. County Judge Scott Bailey presided.

A Public Hearing on the County's proposed operating budget for the fiscal year 1987-88 was on the agenda, but no one appeared before the Court to give any testimony. This proposed budget includes any revenue sharing funds that might be re-authorized by Congress.

Judge Bailey said that it appears the budget for the up-coming year will be "in the neighborhood of last year", which was more than \$2.7 million for county operation.

No raise for county employees and officials is figured in the budget at this point, the Judge said. The Commissioners Court is waiting for figures from the County Appraisal District before approving the final budget.

Another item on the agenda

concerned jail standards and jail inspection report and compliance. Commissioner Billy Bacon reported that there were now 22 prisoners in the local jail, with none in the jail in Breckenridge. Brenda Andrews, Charles LeFlore and Thomas LeFlore have been sent to State Prison.

The intercom system in the jail, Bacon said, has been referred to James Wheeler, Abilene architect, for fixing. The lighting system is now out for bids.

Judge Bailey reported on the work-load of the reactivated County Court, and said that July 6 will be the trial date.

The Commissioners approved payment of fees set under court orders from Judge Herman Fitts for defense attorneys in the organized crime case.

They also approved two indigent health care claims for an Eastland woman. One was for \$724 for surgery, and one for \$151.45 for the anesthesiologist.

The commissioners discussed work on the replacement of faulty bridges on county roads, and

what they considered a lack of inspection by the State Highway Department.

"They haven't been back to look at the bridges we fixed," one commissioner said.

They also referred to a communication from the Department saying "You may order your signs now", when they had thought the State would furnish the bridge signs. These signs give the load limit and number of each structure.

Billy Bacon mentioned some of his other problems on faulty bridges: "People go to Putnam, get beer, then come back and throw the barricades in the creek."

Other commissioners said they had experienced barricades being taken down from faulty bridges.

It was reported that a new ruling from the Attorney General's office does not hold the County responsible for accidents on bridges where the Commissioner has made every reasonable effort to barricade the structure and post load limits, even if warning signs are removed without his knowledge.

## Charles Spears

CISCO-- Charles A. Spears, 72, Cisco native and former president of the First National Bank here, died last Saturday afternoon in Sherman where he had lived for 33 years.

Memorial services for Mr. Spears were conducted Tuesday at the First Presbyterian Church in Sherman with burial in the cemetery there. Death came one day before his 73rd birthday.

Mr. Spears was born June 21, 1915, in Cisco. He finished high school here and earned a degree in finance from the University of Texas in 1936. He served in the U. S. Navy as an officer aboard an LSD during WWII. He was given an early release by the Navy when his father, the late Alex Spears, passed away, and he returned home to become at age 32 the youngest bank president in Texas as he succeeded his father at the First National.

In 1954, Mr. Spears bought control of the First State Bank at Sherman and moved his family. He was serving as chairman of the bank's board when he died. The Sherman bank's resources, which were \$7 million when Mr. Spears took over, exceeded \$114 million last year.

Mr. Spears married the former Charlotte Russell in 1946. He was a life-long member of the Presbyterian church.

The Sherman newspaper credited Mr. Spears with contributing much to the progress of that community during the past 30 years, noting that he was instrumental in organizing Grayson County Junior College, building an industrial district, the Texoma Na-

tional Bank and Texoma Savings Association, re-routing a major highway, and re-locating the Sherman Post Office.

Mr. Spears like to refer to himself as a country banker and in recent years he signed correspondence: Charles Spears, Country Banker for 48 years and Student of History and Economics.

Surviving Mr. Spears are his wife and four children, Betsy Hudgins, John Spears, Brad Spears and Russell Spears, all of Sherman; two sisters, Mrs. Lillian Marshall of Sherman and Mrs. Betty Fee Drumwright of Cisco.

Mr. and Mrs. Drumwright spent last Friday and Saturday in Sherman.

BOB GLASGOW, Senator,

If you want a rosebush to grow, there are two things you must do. First, cut off the suckers; second, cultivate the bush.

If you, as a Christian, want to grow, you, too, must cut off the suckers. And what are they? The Bible answers, "Get rid of every kind of wickedness and deceit, hypocrisy, jealousy, and every kind of slander."

How do you cultivate the Christian life? The Bible urges, "Like new-born babies, thirst for the pure milk of the Word."

Life is an incline. If you don't go up, you go down. If you don't grow in grace, you'll go into disgrace. Wouldn't you rather grow in grace?

## I've Been Wrong Before

By Gordon S. Clark  
I have been asked several times lately if I have had enough rain. To that I always reply that I have lived through enough droughts that I would never think of complaining about rain.

I can remember when the city lakes were our only water supply and they outlasted washing cars. Then came Lake Leon and we thought we would not be caught short again. HOWEVER, with recent growth and expected (some even hope for) further increase we might have another long dry spell as the late 40s and early 50s then the people might get hot about further water development.

Just consider how much we have progressed since the dry years of the 50s. In order to build Lake Leon there was no environmental impact study made and GOOD HEAVENS, we may have destroyed the habitat of something like the snail darter or the Concho water snake! If we did I somehow have failed to feel the loss. Nevertheless, if another dam is considered you can bet that study will be required. PROBLEMS PROBLEMS PROBLEMS. I sometimes consider doing things just for the satisfaction of showing that something can be done. Not that that would ever make optimists of obstructionists but it shuts them up for a bit. A lot of things change but I doubt they ever disprove such sayings as, "Nothing ventured-nothing gained." Or how about scripture reading, "Where there is no vision the people perish." All the futuristic predictions I recall included a bit about the world's supply of water becoming more limited. It has generally been a case of "first come, first served" so if it should fall out that more and more development takes place down stream they will resist any impoundment of water here if such a dam is not in place before the critical time.

BUT LOOK HOW MUCH IT MIGHT COST. Yes, I can remember when a Coke cost a nickel and a hamburger at some places was a dime. Renovation of the Majestic theater reminds me that we used to see pictures for a quarter and kids tickets were ten or twelve cents. But living in the past won't wash dishes in the future.

I am almost afraid to mention things that can go wrong. It is because of what I heard as a child. The colored woman who looked after four wild boys while Mother was at work once heard Mother say, "John, come out of that tree. Someday you'll fall and break your arm."

Oh, Miss Helen, don't put that on that child, Maud cried. "Don't you know there's power in the spoken word? You say it and it's sure to happen so don't put that on him."

Well, I didn't say it. I just wrote it so if ill befall, I ain't to blame because I didn't speak it into being.

I tried reading Gibbon's "DECLINE AND FALL OF THE ROMAN EMPIRE". Now that is a literary "tour de force" as the French say, literally a forced march. I fell out along the line. I just didn't feel that strongly forced. Maybe I will pick it up again sometime.

I was once dared out on a Kennedy fitness hike and my legs were stiff for two days afterwards. Bernard Hanna said at the time that anything over thirty miles in a day was what the army called a forced march and he for one would have to be forced before he went for that. But from reading what I got over in "DECLINE AND FALL" - "I reached the conclusion that while conser-

vatives did slow the decline of Rome at times the descent soon continued. So maybe I won't be so conservative from here on. After all if the ship is sure to sink then let's all pile on and enjoy the trip instead of trying to bail her out with a tea cup. So a new dam will cost a heap. The federal government will be snookered into paying 90% of the cost.

It is an economic fact, so they say, that each dollar injected into the economy changes hands enough times that the ripple effect generates over five times as much business before government gets it back in taxes. Thus the ten percent local money should certainly filter back into the local economy with a lot extra. I still don't think you can spend your way into prosperity if it all goes for consumer goods but something which contributes to long term growth or production is a horse of a different color.

A bigger dam here cer-

tainly benefits us more than any foreign aid give away ever will. I feel sorry for third world have-nots but unless we look to our own future there will soon be nothing to share.

I certainly don't believe in equality. FIRST it is contrary to nature. SECOND: an ant hill existence isn't my idea of desirable living. Well, maybe Eddy Cantor best expressed it a silly election year song during the depression. He called it "WHEN I'M THE PRESIDENT" and one verse was about how he would divide everything up equally. It ended with the words "We'll all have half of nothing, when I'm the president."

No do I want the swarming of millions from Asia any closer to me than they now are. Like "DON'T FENCE ME IN". America didn't have more natural resources than China. We just had more elbow room to develop them.

## City Of Cisco Asks Help From Citizens To Control Misquitos

As you know, we are now into "mosquito season" and we have had an unusually wet spring which will make the mosquito problem especially bad. In fact, a study done by Texas A & M University indicates that because of the unusual amount of rain which Texas has received, mosquito infestation this summer will be one of the worst in history.

Water is the key ingredient in the breeding of mosquitoes. All mosquitoes start their existence in water and they need water through their early life stages. Adult flying mosquitoes frequently rest in grass, shrubbery or other foliage, but they never breed and develop there, unless there is standing water. In breeding, some mosquitoes lay their eggs in standing water where the eggs hatch in a day or two. Other mosquitoes however, lay their eggs in old tires, tin cans, or other water-holding containers in which they may remain unhatched for weeks or even months until the eggs are covered with water.

The City of Cisco has already started a program of regularly "fogging" to help control the mosquito infestation, and plans to continue

the program throughout the summer season. However, to help eliminate, or certainly alleviate, the mosquito problem there are many things individuals can and should do. Some of the things that should be done to help alleviate the mosquito problem around your home and community are to properly dispose of old tires, tin cans, bottles, jars, buckets, drums and other containers and debris on your property; empty small toddler-sized plastic wading pools weekly and store indoors when not in use; repair leaky pipes or outside faucets; scrub and change water in bird baths twice weekly; empty water pans of pets daily; and most importantly keep your lawns and alleys mowed regularly.

Of course, the problem of mosquitoes cannot be completely solved, but every effort made to remove any place where they might breed or develop will be of great help. With the cooperation of all of its residents, the mosquito problem in Cisco can be controlled.

We're Fighting For Your Life.

## Life On Quiet Side

By SANDRA PRICKETT  
If there's one place in the world a country girl who lives on the quiet side in the slow lane doesn't belong it's at the Dallas/Fort Worth Airport.

We left Lake Brownwood five hours before our son, Rod, fresh out of boot camp in Georgia would land.

Now getting to the city limits of Dallas wasn't too bad - but getting to the airport while I back seated in the front seat of my slow laner husband is another story. We thanked God we didn't have to travel with the fast laners daily as we made our way through the maze of cars.

"There's the airport," my husband shouted. But we only thought we had arrived. Once inside, we were shocked when we were told to turn our radio on to a certain station to receive instructions.

I turned the radio on. "You are now in the Dallas/Fort Worth Airport." And we began yet another journey. We entered several wrong entrances, parked in a number of wrong places, while trying to understand the instructions on the radio.

A line from an old Paul Newman movie came to my mind. "What we have here is

a failure to communicate." Finally we found ourselves seated in the right waiting room. I'd never seen so many kinds of people in one place before. People standing, sitting, walking, kissing and hugging. People with weird hair styles and hair colors, beautiful people, ugly people. I couldn't take my eyes off all the people of all different shapes, sizes and colors. And little cars running down the inside walkways, honking threatening to run over anyone who didn't step aside. And everyone looked so unconcerned.

"Is that blond over there in the tight red dress hooking?" I asked my husband.

"Hooking, what's that?" he asked.

"Oh, never mind." But he continued to watch the blond in the tight red dress with a deep slit in the side.

My eyes were glued to the little old ladies and to the too young girls who wore eyeshadow and boots. I guess I didn't notice the normal people.

And then the plane arrived. And from far away I saw our son, the soldier coming toward us in his Army uniform.

"Oh, he's lost so much weight," I cried in anguish.

"That's not Rod," my husband said.

And as the young soldier came closer I could see it was not our son.

He finally came, toward the end of the long line - a healthy young man with almost no hair.

And we took him home for a while, away from boot

camp and Georgia, and the Dallas/Fort Worth Airport - here to the quiet side in the slow lane of Lake Brownwood.

## Cisco Man Receives Four Prison Sentences Monday

A 21-year old Cisco man received four prison sentences that will run concurrently when he entered a guilty plea Monday in 91st District Court to charges of cattle theft, felony theft, passing a forged check, and theft of a goat.

Sentenced by Judge Jim Wright was George Wayne Montgomery who received seven-year sentences in two cases and five-year sentences in the other two.

Montgomery was charged with stealing five head of cattle on June 20, 1986, from a ranch in south Eastland County and for stealing two rifles and a shotgun Nov. 26, 1986, from a home west of Cisco. He received seven-year sentences in both cases. One of the stolen guns was recovered.

Montgomery received five-year sentences for passing a \$200 forged check stolen from Ted's Service Station in Cisco May 3, 1986. The other five-year sentence

**A SPIRIT STICK** and three superior ribbons! That's what the Cisco High School cheer leaders brought home from Denton last Saturday after attending a five-day school for cheer leaders at North Texas State U.

The awards were given for excellence in cheer leading and not too many school groups won that many.

Making the trip were Misses Debbie Endsley, Christy Smith, Leigh Callarman, Laurie Cagle and Shannon Anderson and two mothers, Mrs. Johnny Cagle and Mrs. Bruce Stovall ... Akiko Kleiner, the sixth member of the group, was unable to go as she and her mother, Mrs. Carl Kleiner, departed a few days before to visit and vacation in Japan.

**OUR SCOUTS** report that the Cisco Little League will announce members of the 1987 All-Star team and tournament plans on Sunday, June 27 ... And there's a big watermelon party at Rylee Field this coming Saturday night for Little Leaguers, we were told.

The teenage league has some good games going out at City Park Diamond several nights a week. Understand there's to be a tournament here this coming weekend ... Softballers are also seeing a lot of action.

**THE 40 YOUNGSTERS** enrolled for a special summer program at Cisco Junior College are getting some interesting days and nights thrown in with their study courses. They went over to Albany the other night and took in the Fandangle. The group enjoyed a swimming party Sunday afternoon at the Cisco pool.

Plans call for the group to go to Fort Worth to tour the Kimball Art Museum, to attend Omni Theater and to take in a Ranger baseball game. What is more, they'll go to Austin before their summer school ends and tour the state capitol building.

**OIL MAN** Stanley Pirtle, whose head had been in ban-

dages for a week or so after surgery, is due to report to his doctor in Big D on Friday for a "coming out party." They're taking off the bandages, he reported ... Aren't the Shasta Daisies out at The Potting Shed nice? ... Robert Smith, young golfing son of Bobby and Beverly Smith, is expected to play in a statewide junior golf tournament for under-18 golfers at Athens during the week of July 12 ... CPA Bobby Smith reports that his wife Beverly, who underwent major surgery in Big D recently, is doing nicely and he thinks she'll be "back in full charge" at home soon.

**DRIVING IN** from Lake Cisco the other late afternoon, we came upon a road block. DPS troopers were checking driver's licenses and car liability insurance credentials.

"Most folks have their papers in order," the DPS man told us. "First, as they approach, there's a mad scramble to buckle seat belts and then they're smiling if their papers are in shape."

City Judge Doug Fry told us that the state sets the fines that are charged for violations - \$95 for no liability insurance and \$36 for no seat belt. Trouble galore could happen if you don't have a valid driver's license, he added. Judge Fry, just back from an Austin meeting, says the penalty for no insurance will go up \$75 come Sept. 1.

**MET UP WITH** Mr. A. R. McIntyre of 1003 Beech Street the other afternoon. He reports that he and his missus have recently moved back to Cisco after an absence of 34 years. They left here for Odessa and 16 years ago they moved to Lake Whitley.

Mr. ARM, who is 83 years old, told us that he worked at Dean Drug here before moving away. He came here originally in 1906 at age two.

**TV REPAIR** Store Operator Richard Riggs told us that a number of folks had damage to their television sets after last Friday night's bad electrical storm ... Miss

Janice Justice, Lubbock High School counsellor, is spending a good part of the summer here with her mother, Mrs. Ellen Justice. Miss JJ's summer plans will include a vacation visit to Washington, D.C., and occasional trips to Lubbock to inspect progress on a new home she's building for herself there ... The Rev. Buddy Sipe and wife Carolyn are attending conferences in Glorieta, N. M., Baptist Encampment this week. They're moving July 1 to McGregor, McLennan County, where he becomes pastor of First Baptist Church.

**MRS. MARY BOB** Leveridge and a couple of friends, Catherine Goleman of Ranger and Pat Goleman of Houston, made a flying vacation to Mexico recently. Mrs. MBL's bag (suit case) was lost but it arrived safely back home a couple of days after she did. They had a nice trip ... Brad Kimbrough and Steve Thomas loaded up the Rev. Harry Garvin and wife Doris and two daughters and took their eight large suit cases and assorted flight bags last Friday and put them aboard an airliner at Abilene. Also waving goodbye were a number of Garvin relatives. They were off to Uganda and two or three years in the missionary field.

**THE TRIP** to Dallas to hear the Mormon Choir last Saturday night was very nice, indeed, according to reports from several of the 48 folks who went on the Hilton Community Center sponsored outing.

A bus started in Abilene with several people who took the trip. In Cisco, they loaded the biggest group and stopped in Eastland and Ranger for still others. President Eris Ritchie of the Hilton board and his family went along and a number of his friends and relatives from Troup joined them in Big D.

The trippers enjoyed supper at the big Spaghetti Warehouse Restaurant before going to concert, which was held in the arena where Maverick basketballers play their games. The huge Mormon Tabernacle Choir put on a super performance, we were told. And a 48-voice group known as the Vocal Majority, a group of Dallas men, sang

several numbers to add to the program.

The bus got back home around 1 a.m. Understand the Hilton Center may sponsor other outings of a cultural nature.

**AND THE BIG Delta** Kappa Gamma convention in Dallas last week was an event to remember, reports President June Hicks and Members Ruby Lee Pirtle and Lela Lloyd of the local chapter. It was held at the new Registry Hotel and everything was super.

Mrs. Lloyd was honored along with other DKG members for accomplishments during the past year - Mrs. LL for her Hilton book ... They met up with a former CHS teacher, Cheryl Lutgens, and enjoyed a visit with her ... And Mrs. LL had a reunion with Essie Heirren, formerly of Rising Star and now of the Rio Grande Valley, who was editor of the student newspaper at CJC when Mrs. LL was the paper's sponsor.

**EVERYTHING IS** all set for Foxfire, the new CJC Dinner Theatre Musical which opens Thursday, June 25, 26 and 27 shows this week and for the three shows next weekend when we checked with reservations (442-2567) Monday ... The Rev. Russell Pogue, who has been named interim pastor at First Baptist Church, was in the church pulpit last Sunday. He reported that he has commitments for the next two weekends and will be here full time July 12th ... New officers will be installed at the conclusion of the regular Rotary Club luncheon at the Ritz Thursday noon. Banker Jerry Morgan takes over as the proxy ... And neighbor Jones offers this bit of sage: "Never buy anything with a handle on it - it could mean work."

**Morgan Reunion**  
**To Be Held**  
The annual Morgan family reunion will be held Sunday, June 28, at the Cisco Country Club. All friends are invited to come early for coffee, stay for the covered dish dinner and visit with the Morgan family.

## Social Security Checks

Social Security checks usually arrive in the mail about the same day each month, most often on the 3rd; however, if the 3rd is a Saturday, Sunday, or legal holiday, the check should arrive on the last banking day before then, Glyn Hammons, Social Security manager in Abilene, said recently.

The check received in one month is actually for the previous month's benefit. Occasionally a check may be late, whether because of delays in the mail or for some other reason. If the check is not received by the

6th of the month, the beneficiary should contact a Social Security office, Hammons said.

The people there will help get the check delivered as soon as possible.

The Abilene Social Security office is located at 142 S. Pioneer. The telephone number is 698-1360.
