

# Mr. Muleshoe . . .

By J. M. Forbes

In this issue we are carrying a release, with diagrams, of the Texas Highway Department, giving some valuable hints on driving on our highways. We believe any individual will profit by studying these and reading the accompanying article. More are to follow.

Disappointing is the word for the census of Muleshoe and Bailey County, preliminary estimates of which have been released by the county supervisor. Muleshoe would have garnered a cup of coffee that we had 3,500 people within our city limits. Fact is, I believe, that this was the very worst time to take the census in Muleshoe, for many itinerant workers have departed, and when things pick up people will pile in. Right now, many tell me, there are quite a few vacant houses. Nevertheless, we practically have doubled our population in 10 years, which is something many towns have not done. Muleshoe is still a great county, and we have room for many, many more people to come and make their homes here, help us to build the kind of country we want here.

Despite dry weather, had conditions in some spots maybe, ye Journal continues to grow. This week, frinstance, we are printing 16 pages, second time within recent weeks we have been forced to extend our 12-page formula. It is a concern of the editorial department to keep the editorial content growing and developing as size of the paper increases.

A wager, proposed by A. P. Stone, participated in by this veteran Muleshoe abstractor and Bailey County citizen, this writer, Lud Taylor, and Guy Nickels, the ginmer, on who could guess closest to the city's population, was won by Mr. Taylor, the lucky fellow, who guessed 2,985, was highest of the four. Some more wishful thinking.

Hereford, our neighbor to the north, now has a "drive-in bank." Have been thinking for some time that this paper needs a truck, a pick-up would probably do, to haul our money to the bank to get rid of it once in awhile.

J. W. McDermott, former citizen of Muleshoe and Bailey County, now butane dealer, president of the Chamber of Commerce at Morton, was in our midst Monday, attending to business and greeting old friends. Morton, he said, has raised quite a budget for their new Chamber of Commerce, and "you can do it here if you are determined." He said ambitious plans of Morton's up and coming business men include a overall proposition that will include a county fair grounds, swimming pool, play grounds and other community center features. I told him he still has as many friends here as he does in Morton, and big Mack said: "That's fine. This is a wonderful town and community and we sure hated ever to leave, but business called and we had to go." But old Mack is always welcome here in Muleshoe. P. S.: Mack, we ARE determined.

A Republican goes to Congress from the Panhandle. Who would ever have credited the idea. But there is and underswell that will carry us Democrats out to sea bit by bit unless we get back, or try to get back to old fashioned ideas of government, finance, national economy early day principles of individualism. That our economy is purely artificial none will deny—maybe it can be no other in the face of the present economic conditions. The Democratic party makes a gesture toward a balanced budget, toward less interference in business and industry, the party is doomed, if not in '52, then eventually.

I have just witnessed one of the most enthralling picture shows yet in my long career of movie going, and this one was free. It was entitled "Beautiful Harvest" and was shown at Fry & Cox Bros. store here Tuesday night to show "miracles of early season insect control."

I am sorry that I saw very few of you farmers there and am ready to say you missed one of the greatest pictures ever filmed. You saw the development of the insect from the larva stage to his final form; the cotton plant cracking the ground and peeping through; the boll growing; the surrounding leaves falling away and the full blown boll opening ready for picking. It was done in color.

The Sherwin-Williams company took cameras, made them focus upon a movement such as just described until it was finished. It took several seasons for the film to be made, much money was spent, thousands of dollars, then the editing began and the addition of sound. What a marvel. Jim Cox said he hopes to bring the picture back for showing again later and you boys watch for it and come on in and see it. If you don't say it's as good as The Birth of a Nation, I'll hand your money back at the door. It's an education in thirty minutes on a subject that I fancy most of us know very, very little about.

**PIANO RECITAL TO BE PRESENTED TONIGHT**  
Mrs. E. H. Kennedy will present her piano students in a recital tonight at the First Baptist Church at eight o'clock.  
Selections of various types of music will be presented. Everyone is invited to attend.

# The Muleshoe Journal

DEDICATED TO THE PROGRESS AND DEVELOPMENT OF BAILEY COUNTY AND THE GREAT MULESHOE COUNTRY

Volume 28, Number 20

MULESHOE — County Seat of Bailey County — TEXAS

16 PAGES TODAY

Thursday, May 11, 1950

## Goss To Manage New Station

Construction began Tuesday morning of a new Continental Oil Co. service station on the Plainview highway in the north part of town. The station will be managed and operated by C. W. Goss. When completed, the station will be of modern design and equipped for complete washing and lubrication service and Goss will add lines of auto accessories, tires and batteries besides the Conoco products.

## Bond Vote Set For Saturday

People of the Muleshoe school district will go to the polls the coming Saturday, May 13, to express their opinion on the proposal to issue \$100,000 in school district bonds.

Purpose of the proposed bond issue is to finance the construction of a gymnasium for the new high school building, to improve the grounds of the new school campus, and to renovate and rework the old high school building, now the junior high building.

Members of the school board have studied the needs and requirements of the big Muleshoe school district, and believe the amount asked will be sufficient to meet these needs. Regardless of what is done about the bond issue, some improvements will be necessary at the junior high school; for example, a new heating system will have to be installed before another school term begins.

A lot of lumber in this building, or remodel for a good home, a physical education program, and for the development of a satisfactory basketball program.

Board members are hopeful that a large number will register their opinion in the voting Saturday.

## John Whipple To Open Drive-In Near Texico

John Whipple is this week announcing the opening of the 4-Lane Drive-In Theater, three miles west of Texico on the Clovis highway. This theater is of new, modern construction and features excellent and individual car speakers.

Opening date has been set as Friday night, May 12, and people of this area are invited to attend. Whipple says there will be a gigantic display of fireworks of all descriptions, colors and kinds. There will also be an impressive display of the American flag and Niagara Falls.

Whipple was formerly employed by Cox Radio and Electric and has lived here several years.

## 5 Area Telephone Cooperative Has Received Charter—Interest Lagging

A charter was received this week by the Five Area Telephone Cooperative, of Muleshoe at the very time when directors and officers were pondering the surprising lack of interest on the part of the people whom this cooperative has been organized to serve.

Spokesmen for the group today told The Journal that for the cooperative ever to borrow money and begin the construction of proposed lines some 1,000 prospective users would have to be signed up, so that those who administer the act may see the scope of proposed activities.

They said that applications have been mailed out and that meetings have been held in various communities with very little result. They were at a loss to understand why more families in the rural districts have not shown more interest in getting a telephone service which, if installed, would be nearly perfect as government supervision can make it.

## First Figures of Census Reveals Bailey County Has 7,600 Population

First preliminary 1950 census figures of Bailey County were released Wednesday by James Case, crew leader of Bailey County in the 1950 Census enumeration. Bailey County was enumerated as having 7,600 population with a third of that amount, approximately 2,500 composed of the city of Muleshoe.

Case said the houses here were deceiving as to the population. In most areas each home will average five persons, but in Muleshoe, each home only averaged three persons. He said many other areas were finding the same conditions and population of other cities on the High Plains were falling way below estimates. Approximately 825 homes are in the city limits of Muleshoe.

Last day for enumeration was Tuesday, but Chase said that anyone who had not been counted may notify him and he will turn it in to the Bureau of Census. These figures released are only preliminary and final announcement will be made at a later date as soon as reports can be checked and figures tabulated by the Bureau of the Census.

## Howard & Green Open New Butane Business

C. B. (Buddy) Howard and Raymond Green are this week announcing the opening of their new butane firm. Their truck rolled out for their first deliveries Tuesday morning.

They will handle butane and propane gases and will specialize in irrigation well and home service. Storage area for the company is in the "Y" of the highways north of town.

Howard is associated with Stott Walker here as distributor for Gulf petroleum products and has been a resident of this area for 19 years. Green is also the first to be in this area in the butane distribution and service business in Muleshoe.

## New Pontiac Now On Display Here

The new "Catalina" Pontiac went on display at Davis-Lenderson today. This is the first to be displayed in Muleshoe. It has the convertible styling and has a solid top instead of canvas. People in this area are invited to come by and see the "Catalina."

Jack Lenderson, one of the owners of the firm, went to Oklahoma City the first part of the week to bring the car back.

## Gregory Second High Agent For Great National

Robert M. (Bob) Gregory has received notice from Kenneth D. Moore, manager of the South Plains Agency, Great National Life Insurance Co., Lubbock, that he led the South Plains Agency for the month of April, and is now second in the entire company for the year to date.

His record is an amazing one, and is one of the best ever accomplished by a new man in the business. Mr. Gregory has placed in force nearly \$115,000 of protection for people in and around Muleshoe. He has already attended the Institute of Insurance Marketing at Southern Methodist University in Dallas, the second oldest of its kind in the United States. Mr. Gregory and wife live at 1308 West Fourth Street.

## Biggest Gilt Show Saturday

The biggest gilt show ever held in Muleshoe was unreeled here last Saturday, with 28 fine gilts of four different breeds on display.

Jack Heald, grand champion gilt, a Poland China; Ted Harrison exhibited the reserve champion, another Poland China, which placed second in its class.

T. L. Leach, of Texas Tech, was the judge. A complete list of awards follows: POLAND CHINAS: 1. Jack Heald; 2. Ted Harrison; 3. Jack Heald; 4. Donald Harrison; 5. Don Copley; 6. Sig Kimbrough; 7. Don Copley; others who showed Poland Chinas were Donnie Giles and Howard Hale, William Ott, Lavon Copley, Jim Prather, and Tim Prather.

CHESTER WHITES: 1. Muleshoe FFA; 2. Jimmy Morrison; 3. Muleshoe FFA; 4. Jimmy Morrison; 5. Billie Joe Morrison. HAMPSHIRE: 1. Muleshoe FFA; 2. Muleshoe FFA; 3. Melvin White; 4. Ernest Ramm; 5. James White. DUROCS: 1. Sig Kimbrough; 2. Charles Seagler of Bula; 3. Dean Bryant of Bula.

Muleshoe FFA Chapter is now in the breeding business as a group. Some of their winnings were with Hampshires and Chester Whites, some of this stock coming from Oklahoma, whose boys were so hard to head off at the Amarillo Fat Stock Show this spring. Edward White, Voc Ag instructor, said the chapter owns four gilts, has one boar and another one contracted for.

## Mrs. Theron West To Open New Restaurant

Mrs. Theron West is planning on opening a new restaurant in the building that will be vacated when the post office moves into their new building. She said the restaurant would be known as the Post Office Cafe. At present, she is operating the Alcove Cafe.

New equipment will be installed throughout the restaurant and will include new booths, counter, kitchen fixtures, linoleum and other fixtures. The counter will be U-shaped. There will also be a banquet room which will accommodate any size party for birthdays, anniversaries, civic organizations, and other affairs.

Mrs. West will continue to do her cooking when she moves into her new location and said that they would serve better food than they are now serving because they would have better equipment. She wishes to thank her customers for their patronage and is looking forward to seeing them in her new location. A big opening day is being planned and will be announced later.

## All Kinds of Weather But Wet

People of this area have been subjected to almost every kind of weather the past week except the kind most desired—rainy. Last Thursday afternoon winds of tornadic intensity whipped the town and surrounding territory for a few minutes. Blasts were reported to have reached 70 miles per hour. Many reported this dust storm as bad as any in 15 years.

About 6 p. m. winds struck that resulted in slight damage to property and the sky grew almost pitch black from sand. Visibility was absolutely zero as persons could not see but very few feet for a matter of a few minutes. Three grain storage bins of Ray Griffiths Elevator were blown over and bent, rendering them useless for further storage. Damage was inflicted to several roofs and a number of tree limbs were broken off.

Saturday the sand storm continued, but with decreasing intensity and Sunday was fairly pretty day. Money resulted in another duster which ushered in a calm sweltering day Tuesday which sent the mercury skidding toward the top of the thermometer. Late Tuesday afternoon the weather conditions began to change and Wednesday dawned cool and cloudy with a promise of much needed moisture. None had been received early Wednesday night.

## Valedictorian

MARY JO WHITE, daughter of Mr. and Mrs. Roy White, was awarded valedictorian honors of Muleshoe High School for the graduation class of 1950. She has an outstanding scholastic record and has been very active in extra-curricular affairs.

She was secretary of the senior class, secretary-treasurer of the student council, president of local chapter of the Future Home Makers of America, president of the Thespian Club, and a member of Hablamos Espanol.

She was one of the class favorites, being elected by her classmates as Princess of Friendship. She also made the school Register and in a new honor this year, Hall of Fame, she was chosen because of leadership.

## Phillips To Be Fertilizer Firm Sales Manager

Paul H. Phillips has become associated with the Western Fertilizer Company, of Muleshoe, as general sales manager, H. D. and Bob King, proprietors of the firm announced this week. Mr. Phillips has assumed his new duties here.

He recently has been salesman for the Continental LP Products Company, original manufacturers of steel fittings for anhydrous ammonia, used in liquid fertilizer distribution and application. He has pioneered in development of these fittings and in demonstrations of this type fertilizer.

Mr. Phillips was engaged in demonstrations of this kind in Louisiana, Mississippi, and Arkansas, setting up dealerships, showing methods employed, etc. He has been in this work for a total of 7 years.

A native Texan, Mr. Phillips has attended Texas Tech, North Texas State, Colorado U., and L. S. U. He and his wife have two children, Paul H., Jr., 4, and Yvonne Marie, 2. They are members of the Baptist church. Mr. Phillips belongs to the various Masonic orders, including the 32nd degree, and is a member of the Lions Club.

At one time he served as assistant sales manager of the J. E. Beard Company, New Orleans, manufacturers of steel equipment. During the war he was in the Air Force from 1942 to 1946, serving as a B-26 bomber pilot in the European Theater. He has always taken an active interest in the American Legion.

The Western Fertilizer Co. has taken the distributorship in this territory of anhydrous ammonia fertilizer, a new method of application developed by the Phillips Petroleum Co., and already have constructed their plant, located across the highway west of the King Bros. Grain and Seed Co. elevator in Muleshoe. In addition to this distributorship, the company will continue to manufacture in their plant here all standard formulas of dry fertilizers.

The Kings also announced they are setting up agencies to handle their fertilizers, including anhydrous ammonia. These are to be at Morton, Littlefield, and Sudan, Texas, and Lovington and Portales, New Mexico.

## Postoffice To Be Moved Soon

Muleshoe postoffice soon will be in its new quarters in the Wollard building, a half block east of its present location. A. J. Gardner, postmaster, said.

He said that depending upon progress made in finishing up the building, the move will be made the weekend of May 20 or May 27.

## 61 Seniors to Receive Diplomas In New Auditorium Fri. Night, May 19

Sixty-one seniors of the 1950 graduating class will receive their diplomas at the commencement exercises to be held for the first time in the new high school auditorium on Friday night, May 19, at eight o'clock.

Baccalaureate service will be held at the high school auditorium Sunday night, May 14, at eight o'clock with the sermon being delivered by Ebb Randall. The processional will be played by Mrs. Sam Dameron and will be followed by the invocation by Rev. A. W. Blane. The Methodist Choir, directed by Mrs. C. W. Grandy, will render "God Is Love." Announcements will be made by superintendent of schools, C. W. Grandy, followed by the sermon, "And the Glory of the Lord," from Handel's "The Messiah," will be sung by the choir followed by the benediction by Rev. T. G. Craft, Mrs.

Dameron will also play the recessional. The commencement program will begin with the processional by Mrs. Dameron and Rev. M. E. Robinson will give the invocation. Special music will then be rendered by a saxophone quartet composed of Jo Addine Wagner, Heiden Stovall, J. Ann Weyer and Janice Jordan. The salutatory address will be given by Arlyn Krieger. "Our High School History" will be given by Teddy Lawler and "Our School Today" by Bill Green. Mary Joe White will have the honor of giving the valedictory address.

Presentation of the diplomas will be by Jack Lenderson, a member of the board of trustees, and Supt. Grandy. Krieger will make the presentation of awards. "Auld Lang Syne" will be sung by the senior class followed by the benediction by Supt. Grandy. The recessional will bring to a close 12 years of school activities of the 61 graduating students.

Following is a list of candidates for graduation from the high school:

- Willis Faye Akin
- Rufus Aylesworth
- Richard Barnett
- Clynn Bartley
- Gerald Bass
- Don Bearden
- Joyce Blackburn
- Ivera Blackwell
- Gordon Blaylock
- R. E. Bryant
- Jack Charain
- Bill Collins
- Billie Margaret Collins
- Sue Creamer
- Joe Frank Cummings
- Alvin Dalton
- Joanne Darby
- Dorothy Darby
- Melba Fudge
- Rilda Gabbert
- Phillip Garrett
- Dorothy Giles
- Alma Goodman
- Bobby Goss
- Barbara Grandy
- Bill Greer
- Gene Harvey
- J. R. Henry
- Joanne Holman
- Wilma Jennings
- Ellen Johnson
- Larry Johnson
- Wanda Kimbrough
- Jeanette Kirk
- Arlyn Krieger
- Ted Lawler
- Laverne Lewallen
- Kenneth Lovelady
- Clifford Marshall
- Robert Martin
- Jasper Pruitt
- Richard Puckett
- Joe Reed
- Charles Roark
- Frances Roy
- Margaret Sanders
- Jimmie Shafer
- Irene Shanks
- Joy Snyder
- Marquita Splawn
- Glenda Stevens
- Bill Stinson
- Dorothy Stovall
- Howard Tate
- Charles Taylor
- Vernon Thomas
- Bill Thomson
- La Quintes Whatley
- Mary Jo White
- Monie Whitte
- Jimmy Wingo

## Eighth Grade Graduation Is Set For Thursday Evening, May 18, 8:00 p. m.

The eighth grade students of Muleshoe Junior High School will have their graduation exercises next Thursday evening, May 18, starting at 8:00 p. m., in the auditorium of our new High School building.

Following is their program: Processional—Miss Jane Scott.

## Johnson & Nix To Have Food Demonstration

Johnson & Nix, International Harvester dealers for this area, are planning a big frozen food demonstration at their store next Wednesday, May 17, at 2:30 p. m., and urge each housewife in this vicinity to attend.

Emma Thornton, prominent home economist, will give a complete demonstration on the preparation of frozen foods including the proper processing, packaging and wrapping of meats, poultry, fruits and vegetables.

This program, which is free to all, is interesting as well as very educational and will be worth the time of all those attending.

Invocation—Rev. T. G. Craft. Salutatory—Wanda Busby. Class Song—"Dear Land of Home, Eighth Grade. Valedictory—Laura Whalin. Solo—Keith Gaede. Speaker—Rev. A. W. Blaine. Presentation of Diplomas and Awards—Prin. Troy Perkins. Benediction—Supt. C. W. Grandy. "The motto for the class is 'If I cannot do great things, I can do small things in a great way.' Class flower is the white carnation, and class colors are pink and white. Laura Whalin, valedictorian, made the high average of 95.4; and Wanda Busby, salutatorian, made the average of 94.41. Ray West ranked third with an average of 93.95. Other honor students with averages of 90 or above were Jimmy Allison, Lavelle Beller, Edith Caldwell, Joe Edd Coffey, Donald Donaldson, Janell Green, Donald Johnson, Jimmy Clyde Holt, Madge Johnson, Barbara Jones, Wilma Jean Kelton, Betty Lee Lovvorn, Dorothy Lowery, Peggy Nell McCormick, Rachel Stone, Epper and Helen Stovall. Class sponsors are Mrs. Marvin Wilson, Mrs. Curtis Spry, and O. H. Davis.

There are approximately 105 students to graduate into high school. After graduation, there is to be a reception for the graduates and for their fathers, mothers and teachers.

### Longview Circle Has Bible Study

Circle No. 2 of the Longview W. M. S. met Tuesday in the home of Mrs. Frank Griffiths for Bible study. The meeting was opened by the group singing "Holy Bible, Book Divine."

After prayer, Mrs. Toby Hatch

led in an interesting discussion on the first seven chapters of the book of Genesis, the following women participating: Mesdames Homer Lackey, O. M. Lackey, Frank Griffiths, Mother Bailey, W. B. Hatch, Toby Hatch, E. A. Glenn and J. U. Dawson.

An invitation to meet in the Toby Hatch home next Tuesday was accepted. Mrs. O. M. Lackey was appointed community missions chairman for the Circle. The

### Kentucky Folks Visit At Colsons

Last week visitors from Kentucky arrived to spend a few days in the home of Mrs. Vera Colson, who lives on Second street. Mrs. Colson's son and family, Mr. and Mrs. J. B. Martin and Mr. and Mrs. O. C. Comer, all of Gamaliel are the visitors from Kentucky. The Comers are visiting their daughter and her husband, Mr. and Mrs. Chester Colson.

Last Sunday the visitors and other guests gathered at Mrs. Colson's home for Sunday dinner. They spent Sunday afternoon visiting. Those who were present included: Mr. and Mrs. M. L. Hogan, of Lubbock, Mr. and Mrs. T. W. Colson and family, Mr. and Mrs. Esker Colson of Clovis, Mr. and Mrs. Gordon Murrah, Mr. and Mrs. N. A. Hogan, Mr. and Mrs. Newel Hogan, Mr. and Mrs. Earl Henry Mr. and Mrs. Jack Hix, L. R. Ho-

gan and daughter, Clarke Colson, Mr. and Mrs. J. B. Martin, Mr. and Mrs. O. C. Comer and Mr. and Mrs. Chester Colson. Mr. and Mrs. Comer and Mr. and Mrs. Chester Colson have gone on to California where they plan to visit other relatives.

**MRS. HOLTON'S PARENTS VISITORS IN HOME HERE**  
Rev. and Mrs. L. C. Reece, Fort Worth, are visiting here in the home of their daughter and son-in-law, Mr. and Mrs. E. R. Holton. The Reeces are Christian evangelists, formerly lived in San Antonio where he has recently been pastor of South Side Christian Church. Two of their sons are ministers, another is employed at Kelly Field in San Antonio.

### School Annuals Are Received

The 1950 Yellow Jacket, Muleshoe high school annual, was received and presented to the students this past week. At a special assembly, Mary Jo White, editor, was introduced and she proceeded with meeting was dismissed with prayer.

presented the first annual to Mr. Kirk, for his help in getting the annual off the press.

Immediately following, Jerry Julian, Mary Jo White, and Wilma Jennings passed the annuals out. Mr. Grandy and Mr. Kirk each expressed their appreciation of the annual and congratulated the annual staff.

The art work in the annual was done by Gene Tipps. Something new this year was the Hall of Fame. Students pictured here were chosen exceeding in the various departments of subjects. The theme of this year's annual was "Transition — Twenty-Five Years Progress."

## There's Nobody Like Mom..

Sunday we pay tribute to all Mothers, young and old, all whom deserve gifts which bespeak the love we hold for them.

They share our moments of triumphs and sorrows. They remember the cute things we said and did when we were small, and forgot the troubles that we have caused them.

They have tried to teach us to be God-fearing people and to know right from wrong.

May God bestow upon them a few of the numerous blessings they have wished us in years passed.

### Brahman Cattle May Vie With Many Domestic Kine

Cattle imported from India may some day compete with established beef cattle breeds in the markets of the Midwest, according to many livestock experts. One Nebraska farmer, a hybrid corn pioneer, believes Brahmans will be as popular as domestic breeds in the next few years.

Corn belt farmers scattered thinly from Nebraska to Ohio are experimenting with Brahman and crosses of Brahman on regular beef herds.

Do Brahman beef calves weigh 80 to 100 pounds more by weaning age and dress out two to four per cent higher than the usual run of cattle? Do they make economical feedlot and pasture gains and endure heat and insects better than other cattle? These are some of the questions to which it is hoped answers will be found through the studies and experiments being conducted.

### 4-H Club Champ

Gilbert Blakenship, 20, of Yorkville, Ill., was named national 4-H Club achievement champion at the recent International Livestock Show in Chicago.

### Farmer Hikes Spud Yield By Using Clover Manure

Using red clover as a green manure crop enabled a Duluth, Minn., farmer to beat his county's potato yield by as much as 300 bushels per acre.

Leon Massey harvests between 390 and 400 bushels of potatoes per acre as compared to a county average of 120 bushels. He does it by turning over one year's growth of clover every fourth year in his crop rotation.

### May 11 Important Anniversary For Texas Farmers—REA Created in 1935

May 11 is an important anniversary for Texas farmers. For on that date in 1935 President Roosevelt ordered the establishment of the Rural Electrification Administration, and such previously indispensable rural gadgets as the coal oil lamp, the wood cook stove, and the old-fashioned washboard were on their way into oblivion.

Texas has been a leader in the rural electrification program from the start. The first rural power lines in the country built with money borrowed from the government were energized by the Bartlett Electric Cooperative at Bartlett, Texas, in March, 1936.

Rural power lines spread rather slowly over the state for the first few years. REA provided nothing

In 1935 only 2 per cent of rural homes in Texas had electricity, while today 81 per cent of Texas farms and ranches put electricity to more than 300 different uses. Texas' 77 rural electric co-ops now serve more than 256,000 rural homes over 104,000 miles of wire, enough to reach four times around the world.

except technical advice, guidance, and loans to be paid back with interest. Rural people talked it over, organized co-ops, and built more and more power lines as it became apparent that the co-ops were financially practical and would be able to pay back their loans to REA.

But rural electrification in Texas

### How to Park

A survey of high school driving instructors by the Chevrolet Motor Division discloses parking as the toughest maneuver for students to master. The above photo-diagram illustrates correct procedure. First, stop close and approximately even with the car ahead. Next, cut your wheels sharply right, and back up until your front right bumper just clears the rear left bumper of the car ahead. Then, cut your wheels sharply left, backing slowly until alongside of curb.

### Give Food A Touch Of Spring

COLLEGE STATION, May 10.—It isn't much trouble, and it will not upset the food budget to add a touch of spring to the menu. A clever homemaker with a dash of imagination and a sharp paring knife can work wonders with crisp little radishes, green leaf lettuce, snowy onions and golden carrots, says Louise Mason, extension foods and nutrition specialist of Texas A. & M. College.

She says the family will enjoy the added touch of color and the nice crisp vegetables are just good tonic for everyone. Here is her suggestion for giving macaroni and cheese a touch of spring. Stir a couple of chopped green onions into the cheese sauce before folding it into the macaroni. She likes to use the whole onions including the green tops.

If only a few spears of fresh green asparagus are available and you want to share them with the family, the macaroni and cheese casserole makes a good setting for them. She says the cooked spears should be cut into green lengths and folded into the cheese sauce along with the macaroni.

The use of a few crisp green pepper rings on top of the casserole is another good way to perk up the macaroni and cheese. The crunchiness of the pepper is a pleasing accent to the smoothness of the main dish, she says.

Fresh tomatoes, cut in thick slices and placed on top of the casserole before it is baked, add to the dish.

Crisp radishes served with the macaroni and cheese casserole set it off to good advantage. The color of the radishes plus their crunchy texture is just right for the smooth casserole dish, says Miss Mason.

Here's something different. Instead of making fancy radish roses, try slicing the radishes in thin slices, to within about an eighth of an inch of the underneath side, and then placing them in ice water so they can fan out. Maybe you'd like to try carrot curls for a change. Here is Miss Mason's suggestion for doing the job. Slice the carrots lengthwise and very thin. The potato peeler is an excellent tool for the slicing job. While the slices are still pliable roll them up and place the curls immediately in ice water.

To get those crunchy celery sticks, she says, cut the small green stalks to a point at each end and then split them in one-eighth inch strips, cut about half way to the center from each end of the stalk. The strips will spread apart when placed in ice water.

Miss Mason says foods deserve a lift and the plentiful supply of spring vegetables now available from the home garden or the grocery store can be used to add color, vitamins, minerals and that touch of spring to the family table.

### Progress WMU Met A The Church

Progress W. M. U. met Monday, May 8th, in the Baptist Church. Vice President Mrs. H. T. Pugh called the meeting to order. Mrs. Redwine led the singing, "Glory To His Name." Mrs. Henry led the prayer. Mrs. Redwine gave a short devotional.

After old and new business was taken care of, Mrs. Raney gave an interesting Home Mission report. Meeting was dismissed with prayer by Mrs. Redwine.

Those present were: Mesdames Clyde Henry, J. J. Redwine, Walker Vernon Raney, Elton Gulley, E. L. Gouge, C. A. Bishop, J. H. Wimberly, H. T. Pugh, and Raymond Houston. Three babies, nine Sunbeams and two visitors, Miss Ann Walker and Miss Wauwell Wimberly.

The next meeting will be Monday, May 15th, at the church. Visitors are always welcome and we urge all members to be present.

The mild weather of the past winter is causing Texas peach producers much concern. Peach trees have not leafed out because there wasn't enough cold weather to give the trees the needed rest period. Orchardists should give the trees the best of care for the existing conditions may cause heavy tree losses.

### Students Enjoy Skating Party

The students in Miss Hill's room enjoyed a skating party last Wednesday afternoon. After many thrills and spills, refreshments of sandwiches, potato chips and cokes were served to:

Wayne Bristow, James Elder, Billy Ellis, Hulon Freeman, Ingle Gatewood, Gene Paul Jarman, Joe Dan Jones, Ernest Martin, Bobbie

Pinner, Sue Achtkinson, Diana Barnett, Jo Ann Boyter, Alice Dawson, Elizabeth Farley, Myra Foster, Peggy Fried, Jean Louise Gammon, Sybol Jackson, La Honda Jennings, Linda McCormick, Jean Montgomery, Daria Myers, Maxine Pugh, Reva Rasco, Ann Woodley, Patricia Wright.

Accompanying the students were Room Mothers, Mrs. John H. Farley, Mrs. Noel Woodley, Mrs. C. A. Barnett, Mrs. S. L. Jackson and Mrs. Wright. Miss Hill and Mrs. Bobbie Myers. All had a good time.

LEGAL FORMS, Notes, Bill of Sale, etc. at The Journal.

### Hospital News

Mrs. M. H. Burkhart was in for medical care. She has gone home.

The small son of Mr. and Mrs. Curtis Spivey was in for medical care. He has been discharged.

Mrs. Alice Sawyer is in for medical care. She is doing fine.

Mr. Lesley Barnes was a medical patient. He has gone home.

Mrs. J. C. Pewitt, a medical patient, has been discharged.

Mrs. J. D. Sullivan, a surgical patient, has gone home.

Congratulations to: Mr. and Mrs. L. S. Barron on the birth of a son, Phillip Luther, May 5th, 1950.

**ROTO BALING**

seals in the leaves  
seals out the rain

The Roto-Baler rolls the windrow into a bale with leaves wrapped inside, protected from the rain.

To feed it simply unroll the bale . . . and you have the hay just as it was in the field—soft, leafy, with the color and protein still there.

Rolled bales shed rain like a thatched roof. They store compactly, will not buckle, may be unrolled, or fed whole in the open feed rack.

The ONE-MAN ROTO-BALER is priced for home ownership. Stop in and talk to us about a Roto-Baler for your farm.

## Taste-Teasers

By NANCY COOK—ANS Features

Old tried and true recipes are often best. So, for you who like a rich and creamy lemon meringue pie, here's a failure-proof magic recipe that's an old favorite. The main

ingredient that turns the trick — making a pie filling that cuts perfectly, never runs and is never too thick — is sweetened condensed milk.

Don't confuse sweetened condensed milk with evaporated milk. Evaporated milk is fluid milk with some of the water removed, but sweetened condensed milk is fluid milk with water removed and sugar added.

### LEMON MERINGUE PIE

To make the filling, blend together 1 1/2 cups (15-ounce can) sweetened condensed milk, 1/2 cup lemon juice, grated rind of one lemon or 1/4 teaspoon lemon extract, and yolks of two eggs. Pour into baked pie shell or cookie crumb crust. Cover with meringue made by beating two egg whites with 4 tablespoons granulated sugar. Bake in moderate oven (325°) 15 minutes or until brown. Chill before serving.

A psychologist tells me that helping mother in the kitchen often aids the development of a child's creative sense. Take little 9-year-old Dickie Orlan, for example—one of the tots on "Juvenile Jury" (3:30-4 E.S.T. Sunday on MBS). His mother tells me he loves to cook breakfast, and with his mother's help—has tried several ways of preparing scrambled eggs.

Dickie Orlan. I served it to my

family, and won a round of hearty applause. We named the dish "Eggs Branette," and here it is:

### EGGS BRANETTE

Beat 3 large eggs. Add 1/4 cup of milk and 2 heaping tablespoons of all-bran. Season to taste, and scramble in regular way. Yield: 3 servings. You'll find the all-bran cereal gives added bulk and a delicious nut-like flavor.

Try a pinch of ground all-spice in tomatoes, baked beans, eggplant or red cabbage. Wonderful flavor!

Mother always preached the value of experience in preparing hotbreads or homemade jams and jellies. But today, with modern cooking shortcuts, experience is

not necessary to treat your family to these goodies. Take any well-known brand of prepared roll or muffin mix... add some delicious homemade peach jam, and I'll wager your family will fall for flavorful homemade spreads.

### HOMEMADE PEACH JAM

Thaw a box (1 pound) of quick-frozen sweetened sliced peaches as directed on package. Chop very fine. Place in large saucepan with 2 teaspoons of lemon juice. Measure 1 1/2 cups sugar and set aside. Put saucepan holding fruit over high heat. Add 3 tablespoons of powdered fruit pectin (mix contents of package thoroughly before measuring).

Stir until mixture comes to a hard boil and add sugar at once. Bring to a full rolling boil and boil hard 1 minute, stirring constantly. Remove from heat, skim, pour quickly into glasses. Paraffin at once. Makes about 3 six-ounce glasses.

## Kindergarten Class To Clovis

The kindergarten class of Mrs. Cecil Tate enjoyed an outing to Clovis Wednesday. The group had planned to ride the train but the railroad strike necessitated going in private cars.

The class enjoyed a picnic in the Clovis park and were treated to a free movie by one of the Clovis theaters.

Mothers accompanying Mrs. Tate and the class were Mrs. Hazel Gilbreath, Mrs. Bill Booth, Mrs. James Case, Mrs. Beryl Wingo, Mrs. A. J. Gardner, Mrs. Buddy Howard and Mrs. T. L. Glascock.

## Mail Boxes In "Poor" Condition

Annual rural route inspections have been made in the last few days by A. J. Gardner, postmaster, who accompanied route carriers and made notes on condition of mail boxes.

Mr. Gardner said that in general condition of mail boxes is "poor." Some rural route patrons have good boxes, conforming in all respects to the desires of the department, he said.

But, he said, some boxes are leaky, not securely fastened to supports, not the right height, some contain holes, others have battered lids.

The department desires that boxes be used which are adequate to protect mail placed therein; that the name of the box owner be placed thereon in black, 1 inch

## Commissioners' Court Has Little Activity

Very little action was seen in the commissioner's court Monday at their regular meeting with Judge Cecil Tate presiding.

County Commissioner Tom L. Smith made the motion that the commissioners' court of Bailey County delegate to a committee the authority to designate the future road program of Bailey County. This committee would have been composed of five members, one to have been appointed by each of the commissioners and the fifth member to have been appointed by the other four. Their decision was to be final.

This motion died for the want of a second.

### FISH AT HOT SPRINGS, N. M.

A group of local citizens returned from a fishing trip at Hot Springs, N. M., Monday night and reported fair luck, catching all the fish they could eat while there and bringing home several pounds.

Included were Mr. and Mrs. Noel Woodley and daughter, Ann; Mr. and Mrs. Dudley Malone and Kay; and Mr. and Mrs. Morris Douglass and Benny Ray and Barbara; and Jimmie Gaede. They

high letters; and that the whole be maintained in a neat style.

Where exceptions were noted, Mr. Gardner will mail notices to the box owner, requesting cooperation to the end that Muleshoe rural routes, among the longest in the nation, will also be considered among the very best in the U. S.

### "SOUTH PACIFIC" FROCK

This fetching cotton polka-dot frock in the new, shorter length was inspired by one of Miss Martin's positions in "South Pacific" according to the National Cotton Council. The polka-dot design, designed by Emma Domb, has a deep pleated collar that may be used as a capelet or removed entirely for a formal effect.

THE JOURNAL Wants your news.

## Term 'Hybrid' in Swine Applicable to Offspring

The term "hybrid" has come to mean superior producing ability to the corn grower. It is natural, therefore, that the terms "hybrid hog" and "hybrid boar" should interest corn belt pork producers.

It seems quite clear, most agriculturists are agreed, that "hybrid vigor" eventually will increase greatly the efficiency of livestock production. Informed breeders, however, believe that there are not yet available adequate dependable sources of boars for producing hybrid hogs.

Furthermore, the name "hybrid" in the accepted sense of the term should be reserved for the litters produced by the market-hog farmer.

## New Dairy Element Seen As Aid in More Output

The animal protein factor—miraculous dairy element which speeds up the growth of farm animals and poultry at less cost to the farmer—is now in tonnage production and should be readily available to consumers within a short time.

Officials of the chemical company producing the element which is accomplished by bacterial fermentation, promise feed efficiency that will represent a significant new advance in animal nutrition.

The fermentation APF, as the feed component is known, has a Vitamin B12 content approximately 48 times that of good fish meal, the outstanding natural source of APF which has been widely used heretofore in feed mixtures. This vitamin compound is one of the most effective known for supplementing chicken and hog feeds.

Attend Appreciation Day

## District Court Convenes May 30

The next regular session of the 64th District Court for Bailey County is scheduled for May 30. At this time non-jury cases will be heard by the presiding judge, E. A. Bills, of Littlefield.

It may not be possible for jury trials the day court is scheduled to convene in each county, but they can usually be set down for the latter days of the week upon arrangements with the court.

Grand juries will be convened on the first day of each new term, and all dockets will be called on the first day of each new term as well as on other dates set by the Court.

The next new term of court for this county is scheduled for Nov. 6, at which time civil cases will be tried by jury. Criminal cases have been set for Nov. 7.

**LUBBOCK PREPARES FOR GEN. BRADLEY'S VISIT**  
LUBBOCK, May 10.—Plans are being made by Lubbock's Armed Forces Day Committee to honor General Omar N. Bradley, chairman of the Joint Chiefs of Staff, who will be the guest speaker at the Armed Forces Day celebration in Lubbock at 8:30 p. m., May 22, in Rosenthal Field. A western barbecue will be held prior to the general's speech, and according to the committee, tickets are now on sale at the Lubbock Chamber of Commerce office. Anyone in this area who wishes to make reservation for tickets, may do so by writing the Chamber of Commerce at Box 561, Lubbock, Texas. Price of the tickets is \$1.50, and reservations must be made prior to May 18. Also, the committee requested that persons making reservations enclose the money for tickets in order to expedite details for the feed.

**Lice, Mange Top Pests Of Those Harming Swine**

Two of the most common and harmful pests on hogs are lice and mange. If insects are permitted to feed on hogs, the animals will have stunted growth and be more subject to disease, says the University of Louisiana agriculture extension division.

Farmers are reminded that by controlling insects they increase the value of pastures and feed and thus increase their earnings.

**Cure for Swine Mange Relatively Inexpensive**

It will cost the average farmer only about 15 cents each to treat each brood sow for mange and large roundworms. But the treatments are worth several hundred times that amount in better herd health and faster gains.

Dr. M. E. Mansfield, veterinarian at the University of Illinois, reminds farmers that breeding time is a good time for parasite control. At that time the farmer usually has only a few hogs on hand, so the cost of treatment is less, and there will be less chance of trouble with the litters.

To control mange, he says, spray each sow in the herd with benzene hexachloride just before breeding time. Then the affected sows and boars will be free of mange.

**HOME FROM HOSPITAL**

J. J. DeShazo returned home Thursday morning from the veterans hospital in Dalls where he has been under treatment for some time.

**STEINBOCK-BROYLES**

Miss Fern Steinbock and Mr. Eobbe Broyles were married in Muleshoe at the First Baptist Church, Saturday morning. Only a few close friends and relatives were present.

Mr. and Mrs. Rex Steinbock were best man and matron of honor. Immediately after the ceremony the newlyweds left for Colorado Springs, Colo., for a honeymoon.

Mr. James, father of Doc James and Mrs. Don Cantrell, is ill in the Amherst hospital.

Mr. and Mrs. Reinhold Steinbock and Miss Trixie Steinbock entertained Trixie's home economics teacher, Mrs. Ross Stuard and Mr. Stuard, Monday night with a dinner.

Lazbuddie High School boys' baseball team have done themselves proud—won first place in district and will go to regional at Lubbock. The Lazbuddie team beat Vega 14-2, they also have beaten Adrian and Bovina.

The baseball team, Judd Clark manager, played Farwell Sunday and Farwell came out the winner, 15-12.

The Senior Class will leave for Colorado Springs, Colo., May 22 for a short vacation trip.

Mrs. J. E. Vaughn is now employed by the Tom Drinkard family near Y. L. Mrs. Drinkard leaves for Temple, Texas Tuesday where she will have major surgery.

Mrs. Otto Treider kept her granddaughter, Connie Lee Brown, last week while Mr. and Mrs. Dave Brown visited in Corpus Christi.

Mrs. Rex Steinbock recently returned from Fort Worth where she attended the funeral of her paternal grandfather, Mr. A. H. Lane.

Mrs. Rice of Clovis visited with the H. D. Hutchinson family one day last week. Mr. Rice has been "deep ploughing" for Mr. Hutchinson.

Wayne Vaughn of Borger was here visiting relatives last week. Wayne has just returned from three years in China with the Navy.

**Progress HD Met With Mrs. Gulley**

The Progress Home Demonstration Club met in the home of Mrs. Ed Gulley May 2 with the president presiding over the business, after the inspiration on "Friendship."

The roll call was answered with ever member telling her favorite flower and why. The flower named most was rose. The commissioners banquet was discussed as the date has been changed. A scholarship for a girl in this district was also discussed and tabled for further

**IN AREA SPELLING BEE**

Miss Laura Whalin, Mrs. Clinton Busby, Miss Wanda Busby and Mr. and Mrs. O. H. Davis went to Amarillo Saturday where Laura competed in the District Spelling Bee. Although our county did not win a place, our representative did real well. She also attended a banquet at the Herring Hotel.

Ada Thomson, Faye McCain, Fern Davis, Ina Gross, Nettice Bratcher, Elvay Sinnacher, Birda Garrett, Verma Stotts, Gorden, one new member, Mrs. Bennie Gulley, and the hostess, Mrs. Lela Gulley.

The next meeting will be May 16 in the home of Mrs. Gordon Murrah. Roll call to be answered with "Sewing Aids I Have Found Useful."

**FROM NEW MEXICO**

Mr. and Mrs. Charles Dewees and daughter, Camille, of Conchas Dam, N. M., spent the weekend with their sister and family, Mr. and Mrs. W. H. Clements.

It is possible to add an extra 100 pounds to the weight of a calf during the first six or eight months of its life through the use of creep feeding.

Use the crisp little radishes, green leaf lettuce, snowy onions or golden carrots to add a dash of color and a touch of spring to the family table.

MINIMUM DISTANCE REQUIRED FOR PASSING

Speed Of Passing And Oncoming Cars - 60 M.P.H.  
Speed Of Car Passed - 50 M.P.H.

Be Sure The Roadway Ahead Is Clear For A Sufficient Distance Before You Cross The Center Line To Pass Another Car.

SKETCH A

**CENTER LINES**

The Texas Highway Department is pulling no punches in an all out war on rural traffic accidents that exacted a toll of 1,395 lives, left an estimated 24,926 injured and maimed, and resulted in an estimated economic loss of \$43,710,600 during the year 1949. Taking note of this tremendous toll of human lives and property a safety-conscious Highway Commission has decreed that every

possible measure within the power of the Highway Department be applied to make Texas highways as safe as possible for all who use them. The decree of the Highway Commission was not an idle one; it was backed by an appropriation of \$500,000 for center lines, lane lines, and barrier lines for no-passing zones during the year 1950 alone. This sum will be applied on some 25,000 miles on the State Highway System on

which the center lane lines are marked and about 23,000 miles on which the barrier stripes for no-

passing zones are marked. These lines are just one of the many

weapons the Highway Department is employing in the battle for traffic safety.

Have you as a motorist ever thought of the meaning a center line on a pavement should convey to you? It should tell you that the right-hand half of the road is yours; it should tell you that it was not put there as a challenge to your driving skill to keep one wheel on it; and it should tell you that when you cross it to overtake and pass another car that you should be sure the other half of the road ahead of you is clear.

Failure to observe the simple but important meaning of the center line can result in a tragic end for you. Last year (1949) on rural highways there were 3,625 accidents caused by thoughtless drivers who were on the wrong side of the road, and they were not even in the act of passing another car—just driving on the wrong side of the road for no good reason whatever. These needless "on-the-wrong-side-of-the-road" accidents cost the lives of 253 people; maimed and injured 2,316 others; and caused property damage of \$7,927,400. Take a good look at that center line when you drive and think what it can mean to you.

And what happened to those who made a mistake in passing

another car when the road way ahead was not clear? These mistakes cost the lives of 46 people; maimed and injured 462 others and added more thousands of dollars to the toll of property damage. It is not too hard for the average motorist to make a mistake in judgment on the distance ahead a roadway must be clear for him to overtake and pass the car ahead of him.

Take a look at the sketch showing the distance required for a car traveling 60 m.p.h. in the opposite lane—2,360 feet or 6 1/2 city blocks! If the car in the sketch had failed to complete his overtaking and passing maneuver safely and had met the opposing car head-on at

60 m.p.h., the energy developed by the collision would be as great as though one car had been driven off the top of a 21 story building. Head-on collisions are deadly! Respect that center line and stay on your side of the road; cross that single center line to pass another car only when you are sure that the roadway is clear far enough ahead for you to do so safely, but don't ever cross that double center line unless directed to do so by an officer.

TO AMARILLO  
Mr. and Mrs. Jim Clements were in Amarillo Monday on business.

Appreciation Day is Saturday

**Handy Device**

August Bruynell, proprietor of the Forest Hill poultry farm, North Weare, N. H., has a handy device to carry feed and eggs when he works in his big laying house which houses 1,925 New Hampshire bred hens.

**Cultivator Needed In Control of Weeds**

Chemical sprays are not yet ready to replace the cultivator in controlling weeds, according to Dr. J. C. Willard, agronomist in the college of agriculture at Ohio University.

"No chemicals so far available for use in crops will kill all weeds," Dr. Willard said. "If we use chemicals without cultivation to remove the weeds left after spraying, it will be only a short time before we have fields which are as weedy as before, but the weeds will be different and of kinds harder to kill."

Introduction of new chemicals every year makes spraying more of a specialist's job, he pointed out, cautioning farmers to beware of the fly-by-night operator.

**Sleeping Sickness Menace To Livestock Is Recounted**

Each summer and fall livestock owners are warned of the toll which may be taken of animals by sleeping sickness. Losses from this disease showed a startling increase in 1947 and 1948, and figures for the past year are expected to show but little decline when finally compiled.

The virus of the disease may have "wintered over" with more virulence and in more places.

## Heart Disease Is No. 1 Killer

AUSTIN, May 10.—Heart disease is the number one killer in Texas and last year there were 18,003 deaths from diseases of the heart, said Dr. Geo. W. Cox, State Health Officer.

What kind of heart have you? The periodic check-up with your physician will tell you. The Tuberculosis Survey in the state conducted by the Texas State Department of Health has brought to light many non-tuberculous abnormalities, some of these have been heart disease. Rheumatic heart disease, the most common type of early life, occurs as the result of one or more attacks of rheumatic fever. It is a public health problem for which very little has been done, yet with early diagnosis and proper medical care during the acute and convalescent stages, the children who develop rheumatic fever can be largely spared from rheumatic heart disease in later life.

Another major cause of heart trouble is high blood pressure or hypertension. This is the most common heart disease of middle age. There is a great deal that is not known about the disease, but we do know that it is most common in people who are overweight, and that it is associated with long, continuous nervous strain, high tension and constant worry. Treatment with good medical care, rest and common sense precautions, may even live a normal life span. Syphilitic heart disease can be prevented by early and adequate care of the systemic disease, a problem which has been simplified by the use of penicillin.

Research in the medical sciences is constantly improving the outlook for the cardiac patient, yet each individual must assume the responsibility for obtaining the benefits of this knowledge from his physician for himself and family.

## More Help For Jr. 4-H Clubbers

COLLEGE STATION, May 10.—The effectiveness of the Texas Agricultural Extension Service's Junior Leadership Training program received a boost today. Extension Director G. G. Gibson of Texas A. & M. College and N. C. McGowan, president of the United Gas Pipe Line Company, announced that United Gas will provide in 1950, 84 scholarships and trips to a junior leadership training laboratory to be held in August at Eastrop State Park; 4 trips to National 4-H Club Camp, Washington, D. C., and 2 trips to the American Youth Foundation Leadership Camp, Shelby, Michigan.

Details of the awards program were worked out at a meeting held recently at College Station between Extension Service and United Gas representatives. The 84 scholarships and trips to the state laboratory will furnish awards to three boys and three girls from each of the 14 extension districts in the state. In making the announcement, Gibson stated that more and more emphasis will be placed by the Extension Service on its leadership training program for 4-H members. He said the need for trained leaders is greater today than it has been at any time and that 4-H training can fill a great need by creating a desire within

## Steps, Stairs Can Be Dangerous

COLLEGE STATION, May 10.—Home accidents took 30,600 lives in the nation last year and falls are listed as "public enemy no. 1" so far as the home is concerned for they led the home accident list. Too many home injuries, says Mrs. Bernice Claytor, extension home management specialist of Texas A. & M. College, are caused by faulty steps and stairs and she offers these suggestions for improving the situation.

She says it is dangerous economy to build steep stairways to save space, especially if they are frequently used. The treads of steps should be deep enough to hold the weight of the foot securely, and the risers just high enough for comfortable stepping. She says treads 10 inches deep, with a one-inch overhang and with risers nine inches high are satisfactory. If space is a problem, she says it may be better to use a pull down ladder from the attic store room rather than to build extremely steep stairs. Don't forget, she adds, that at least 7 feet of space should be left between the stairs and the ceiling.

Star steps need to be uniform. Off-measurement steps break the even stride and may cause a fall. Spiral staircases are a hazard because treads are tapered to the turn and two straight runs of stairs set at right angles with a square landing between are safer.

Every stairway should have the protection of a handrail, sufficiently low for children. Steep stairways need handrails on both sides. Good clear lighting for the stairs, doorsteps and porch steps is a necessity. Cellar steps too often are poorly lighted, Mrs. Claytor says, and she suggests painting them white. It is a good safety

measure to keep a flashlight handy for use when climbing stairways, she adds.

Mrs. Claytor points out that wax should be omitted or used very sparingly on stairs. Loose scatter rugs should not be used at the top or bottom of a stairway. Carpeting is desirable for the stairs but should be fastened securely on each step and kept in good repair to prevent slips and falls.

Loose boards or nails in steps and stairs have caused many falls and certainly, she adds, steps and stairs are no place to store toys, boxes, trash, brooms, mops, and the many other articles that seem to find a place there. Lastly, she says take it easy when going up or down stairs and never carry a load so large that you can't see where you are stepping.

## Overhead Water System Creating Wide Interest

The use of overhead sprinkling systems for irrigated farming has created widespread interest in areas where artificial watering is necessary to crop production.

Among the merits of overhead sprinkler systems is that land leveling—which removes valuable top soil from high spots, is not necessary, and ground ordinarily used for ditches can be utilized for growing crops.

## Chemical Caponization Held of Limited Value

The question of whether chemical caponization is practical is one which poultry raisers ask most frequently. Many county extension services also receive numerous questions on the subject.

In experimental work, the treatment stopped fighting and crowing among the cockerels.

"All things considered, it would appear that chemical caponization has very limited value at present."

## New York Farmers Hit 'The Jackpot' New Device Determines Good Soil Management

What a New York farmer gets these days when he "hits the jackpot" might not be dimes or quarters, but it may be increased crop yields in the years ahead.

Or, as the saying goes in Ithaca, Cornell's two versatile soil conservationists have "done it again." Hugh Wilson and Harry Kerr of the state extension staff have come up with another "gadget" to demonstrate the value of good soil management.

That's where the jackpot comes in. Their latest contribution has been dubbed the "one-armed bandit" because it looks like a cross-between a slot-machine and a roulette wheel. But it has proved an

Hugh Wilson, left, and Harry Kerr, originators of Cornell's "one-armed bandit," stand before the device discussing improvements.

effective teaching device to let farmers know if their crop practices are robbing the soil.

The "bandit" is in two parts: one, a chart which determines land use capability (LUC) and the other, an analyzer consisting of four concentric circles. It can set up a possible 96 combinations and a flashing green, yellow or red light indicates whether or not favorable soil balance is being maintained.

But that's the last step. First, the land use capability must be established. It is based on these physical characteristics of the land: slope, length of slope, internal drainage, texture, erosion and humus. Values determined mathematically from these characteristics are assigned to slides of varying sizes which fit into the LUC chart. The color and number which the six slides reach show the land use capability for the field.

## Cows Infested With Lice Give Poor Milk Output

Cows with lice make lousy performance records, says T. H. Parks, extension entomologist at Ohio state university. Since lice are often abundant on cattle during the winter and spring when the hair is long, he recommends treating the animals for lice as soon as possible.

Either rotenone or DDT is an effective treatment. If rotenone is used, two treatments, 15 days apart, are necessary. Only one thorough treatment with DDT is required.

Parks states that cattle with lice will not make satisfactory gains in weight, or if being milked, will not maintain a steady milk flow. Symptoms of lice include rough and coarse hair, and, sometimes, large, hairless patches on the neck and body caused by the animal rubbing the irritated area.

## WSCS Met In Barbour Home

W. S. C. S. met May 10th in the home of Mrs. H. O. Barbour, with nine members present, Mrs. G. O. Jennings, Farrell, Willman, Moore, Holt Pierson, Layne, Charles and Hostess Barbour.

Meeting opened by singing "Have Thine Own Way, Lord," and devotional by Mrs. Jennings, with the 15th Psalm and was followed by a beautiful candlelight installation service. Very impressive service. The following members were installed: Mrs. F. B. Pierson, president; Mrs. W. D. Moore, secretary; Mrs. I. F. Williams, treasurer, and Status of Women, Beulah Charles, treas.; Mrs. Farrell, secretary of C.S.R. and local church activities and secretary of missions personnel, Mrs. H. C. Holt, secretary mission education and service, Mrs. O. N. Jennings, secretary student youth and children's work; Mrs. G. O. Jennings, secretary spiritual life, Mrs. Roy Bayless, secretary supply work; Mrs. Leola Witterding, secretary of literature and publications; Mrs. I. W. Haney, voted to send \$5.00 to the Nurses' Home which was destroyed by fire at Seward, Alaska.

We hear G-Man Hoover tells friends NBC's Big Town is his favorite program because it points a moral while being exciting radio.

The CBS' Amos 'n' Andy marriage series evidently started a Sunday listening habit USA isn't going to give up. The A 'n' A show has been high in all polls ever since.

NBC's Bob Hope to do another tour expected to gross \$1,500,000. Allen Funt, of CBS-TV's Candid Camera, says men are most honest. Recently he dropped plainly addressed letters containing a \$500 ring on a busy street. A number of women picked them up and walked away—only the men returned the rings to the nearby store indicated in the address.

Staats Cotsworth, star of CBS' Crime Photographer and a man of many talents, is painting a number of pictures for summer exhibitions.

"Here when a Democrat announces his candidacy," says ABC Newsman Walter Kiernan, "a Republican also runs. In Russia, when a Communist announces his candidacy, EVERYBODY runs."

Johnny and Penny Olsen of ABC Ladies Be Seated scour rural areas for antiques. Latest buy was old-time rocking chairs from the Ozarks.

Marie "My Friend Irma" Wilson and her hubby often go to the California hills to rough it. Imagine Glamorgal Marie in fishing boots!

Dizzy Dean, (Yankee TV-baseball interviewer) learned to pitch when an Arkansas kid by tossing hickory nuts at squirrels in trees.

Blonde blue-eyed K. T. Stevens, (Lois in CBS' Junior Miss) stars with Joan Crawford in new film. Blonde blue-eyed Virginia Lee takes her place in the radio series.

Ralph Edwards found in his research for This Is Your Life (now on CBS) that the first US auto-race was held 1895 in Chicago. The winner averaged 6 miles an hour. Horace Heidt gave up nearly \$250,000 in bookings to take his CBS show troupe to Europe for the entertainment of U.S. GIs.

## Favorite Peanut Butter Cookies

Press balls of peanut butter cookie dough with tines of a fork to get the popular design for peanut butter cookies. Top each with peanut before baking.

One of the best-liked cookies for everyday service is the peanut butter cookie. Its pleasant flavor goes so well with a simple glass of milk or cocoa, and with fruit sauces, sherbets and ice creams, too. Let the youngsters eat all the peanut butter cookies they want, for they'll be getting a generous supply of essential B-vitamins both in the enriched flour and peanut butter.

Peanut butter cookies are made much like a conventional soft cake, so they have exceptional tenderness. You will find the soft dough easier to shape into balls if you chill it a few minutes. Bake cookies only until lightly browned, and be prepared to hand out samples to the family as soon as they come from the oven.

**PEANUT BUTTER COOKIES**  
1 1/2 cups sifted enriched flour  
1 teaspoon soda  
1/2 teaspoon salt  
1/2 cup shortening  
1/2 cup peanut butter  
1/2 cup brown sugar  
1/2 cup white sugar  
1 egg, beaten  
1 teaspoon vanilla extract

Sift together flour, soda and salt. Blend together shortening and peanut butter. Add sugar and cream until light and fluffy. Add egg and vanilla extract. Mix well. Add flour mixture to creamed mixture and mix well. Chill. Form dough into small balls the size of marbles. Place on greased cookie sheet about one inch apart. Press crosswise with a fork. Bake in a moderate oven (375 degrees F.) 12 to 15 minutes. Makes 40 cookies about two inches in diameter.

## Insect Control Program Presented By Fry & Cox Bros.

Several area farmers attended an educational program on the advantages of early insect control sponsored by Fry & Cox Bros. here Tuesday night. A technicolor movie that should be of interest to every farmer in this area showing the advantages and emphasizing early control of insects was shown by the Sherwin-Williams Co., one of the leading manufacturers of field crop insecticides.

Tom W. Lowery, a representative from the Amarillo office of Sherwin-Williams, was present to answer any questions asked by the group and to point out the further advantages of early insect control.

The best time for control of insects is when cotton or other crops are young, he explained, because eliminating them at this early stage prevents them from laying eggs which will result in millions more insects in the mid-season stages of the crops when they are harder to kill and can cause hundreds of dollars of damage.

Killing these insects early also saves a great expense in poisoning because it does not take as much spraying or as many applications. Damage from insects migrating from other fields is very small compared to the damage inflicted by those which have hatched in the field from eggs laid by the earlier insects.

Several farmers at the meeting expressed their intentions of using this early method of insect control. Jim Cox, one of the owners of the firm, stated the film would be shown again in the near future and it will be worth while for every farmer to see it. This firm is also distributor for Sherwin-Williams "Kiltox" and other insecticides and the new type of sprayer. The date of the movie will be announced later.

### VISITORS FROM DETROIT

C. M. Scott from Detroit, Texas, is here this week visiting with his brother, M. M. Scott, who lives near Needmore.

### HERE FROM CROSBYTON

Mr. and Mrs. Jesse Bass of Crosbyton visited in the homes of Harvey Bass and Melvin Bass over the week end.

### GO TO AMARILLO

Mrs. Lila Pence and daughter, Billie Ann, were in Amarillo last Thursday shopping.

## Water Meeting Focuses Attention On District Conservation Units

### Are You A Flirt?

"Most women," says Alice-Leone Moats, "are born flirts. A village maiden of fourteen may well have the skill of a Cleopatra." Alice, who obviously has her share of natural qualifications, outlines the "six stages in a flirtation" in the May issue of Cosmopolitan magazine. She tells why "women flirts are often admired, although men flirts are invariably condemned by society." While admitting that flirting is an art, she laments that it "has fallen into the same class as the art of lacemaking—ornamental, charming, an aesthetic delight, a joy to the connoisseur, but almost a roccoco affection in this machine age." One look at Alice, we suspect, could make old-fashioned men out of mechanical wizards.

Appreciation Day Is Saturday

The High Plains Water Conservation and Users Association, in a meeting Thursday in Plainview, focused attention on movements by water users in Dallam, Hockley, and Lamb Counties to organize underground water conservation districts and commended the action.

Dallam and Lamb Counties are represented on the executive board of the High Plains group which also has affiliate organizations in Randall, Hale, Swisher, Lubbock, Parmer, Bailey, Castro, Floyd, Deaf Smith, Briscoe, and Crosby Counties.

Among speakers at the meeting were James S. Guleke of Amarillo and Austin, member of the Texas Board of Water Engineers, and William L. Broadhursa of Austin, ground water geologist from the U. S. Geological Survey.

W. O. Fortenberry of Monroe, president, presided at the all-day session in the Hilton Hotel, Plainview.

Guleke reported that the Board of Water Engineers had completed its field work prior to designating a water reservoir in the Dallam County area, commenting that "Dallam County seems to be very anxious to organize a district."

Designation of the boundaries of a reservoir is the first step towards organizing a district under House Bill 162, passed by the Texas Legislature in 1949. After reservoirs and corresponding districts are determined, elections creating districts may be called.

Guleke told the group "It is a pleasure to be working with home folks on this matter of water conservation. I am glad to be of service in trying to work out a plan ready for action in case waste and need course of usage."

Broadhursa told of experiments conducted by ground-water geologists in re-charging reservoirs. He admitted that the re-charge possibilities in some areas are negligible, but gave the opinion that in many other areas the ground water supply could be replenished successfully. One of the powers of water districts is to re-charge.

Broadhurst added that experiments in irrigation methods carried out by water districts would be valuable in gathering information for farmers who singly would not be able to afford the expensive tests.

Fortenberry declared that re-charging and educational projects alone would make a district worth while but said that districts should be made operative soon to be ready for action in case waste and abuses became prevalent. Districts could enforce waste prevention and other rules and regulations through injunction proceedings.

"The longer we wait, the more complicated it will be to organize districts," Fortenberry said.

Guleke, Broadhursa, and Fortenberry went from the Plainview meeting to Amherst Thursday night scheduled to speak at a Lamb County water rally, they were delayed en route by a bad sandstorm and arrived just as the meeting of 250 irrigation farmers was breaking up. The meeting in Lamb County was expected to result in action towards organizing a district. It will be held later in May.

### IN AMARILLO ON BUSINESS

Mrs. Lucille Wright and Mrs. Olin Jennings and daughter, Dixie, were in Amarillo last Sunday on business.

### JACKSONS MOVE

Mr. and Mrs. Marvin Jackson have moved to their farm west of town after selling their house in town.

### IN MULESHOE

Mr. and Mrs. W. L. Harris from Levelland were visitors in Muleshoe last Tuesday.

### GO TO ALBUQUERQUE

Russell Finley visited with Mrs. R. C. Spence and her family this last week end. Mrs. Spence is his sister.

### VISIT IN FARWELL

Mr. and Mrs. L. T. McKillip and Mrs. Leona Mason and children spent last Sunday in Farwell visiting with their brother, L. E. McKillip and family.

### VISIT MCKILLIPS

Sunday night guests in the home of Mr. and Mrs. L. T. McKillip were Mr. and Mrs. Morris McKillip of Portales.

## H. J. Blanchard Announces For Legislature

H. J. (Doc) Blanchard

Realizing the responsibilities and duties of the office which I am seeking, and with the desire to undertake the high trust imposed thereby, I announce my candidacy for Representative of the 120th District in the State Legislature.

It is only by knowing and understanding the platforms of each candidate that you are able to select the best man for the job. I would consider it a pleasure to speak to each of you concerning any part of my platform. Many of you I already know and the rest I am looking forward to meeting during the coming few weeks. I believe in continuing support for the farm to market road program. I believe that a small claims court should be set up to speed the processes of justice to those people

who have small claims, so that they may settle them speedily and without the necessity of hiring a lawyer to handle their interests. This would also do away with the evils of a fee system which is so prominent today. I also favor streamlining the entire judicial system so that justice will be aided and not hindered by legal technicalities. I believe in a reduction of taxes to the farmer and small businessman by improving the taxing machinery, thus reducing duplicity of taxes and red tape which forces the cost of government up. I believe in improving the old age management so that the old folks will be able to get a liveable allowance.

Son of Mr. and Mrs. C. H. Blanchard of Sudan, I am 26 years old, married and have a small daughter. I am a member of the Methodist Church, Masonic Lodge, Scottish Rite, Shrine and the American Legion. I am now a senior in the S.M.U. School of Law, finishing there this year with the intention of practicing law in this district. I took my undergraduate work at Texas Tech.

I have lived in this district all my life with the exception of about four years which I spent in the armed forces, a big part in the Pacific.

I will appreciate anything the people of Bailey County can do for me and if you can see your way clear to vote for me next July 22, I will do my very best to make you a good representative.

Thank you,

H. J. (Doc) Blanchard.

### FROM TUSCON, ARIZONA

Visiting in the homes of her brothers and their families, Mr. and Mrs. Thurman Glasscock, Mr. and Mrs. Woodie Glasscock, and Mr. and Mrs. Johnnie Glasscock this week are Mr. and Mrs. Charlie Dotson and two children. Also accompanying the Dotsons to Muleshoe are his parents, Mr. and Mrs. C. E. Dotson, all of Tuscon, Arizona. The Dotsons formerly lived in Bailey County and have a host of friends here.

## Muleshoe Wallops Bovina Nine

Muleshoe emerged 20-8 victor over Bovina Sunday on the oppositions home field when they broke loose on a hitting spree that could not be stopped. At least four of the Muleshoe sluggers were credited with home runs and several more bagged doubles and triples. The game was scheduled to start at 2:30 p. m.

Local fans should witness a good game here Sunday when the Dimmit team plays Muleshoe. The game is scheduled to start at 2:30 p. m.

### LOCAL SHRINERS ATTEND

**KHIVA SPRING CEREMONIAL**  
Several local Shriners were in Amarillo Monday for the Spring Ceremonial of Khiva Shrine Temple, and three from Muleshoe went across the burning sands. The three were F. L. Shelby, Ray Keeling, and Hoyt Morgan. Other local members attending included J. E. Mills, Herb Covin, Bill Collins, John Farley and Jack Lenderson.

### HERE FROM CALIFORNIA

Mr. and Mrs. Doss Tracey from Oakland, Calif., are visiting with Mr. and Mrs. Carrol Goss. They plan to be here about two weeks.

### GO TO ARTISIA

Mr. and Mrs. Carrol Goss traveled to Artisia, New Mexico, to visit their son and family, Mr. and Mrs. Truitt Goss.

**FOR BETTER MAILBOXES**

Most of us insult our most constant visitor to our farm homes. Our mailman, 300 times a year stops at delapidated mail boxes, hanging askew from rotting posts, with names either completely obliterated or faint and smudged. Not only does our mailman deserve the consideration of uniform mail boxes, neatly lettered and firmly set up level to his car window, but our pride in our community is important.

Mail box improvement is really a matter of individual pride, but through the efforts of Home Demonstration Clubs and other community clubs in Alabama and Tennessee, country roads and highways are taking on a straightened air, in keeping with neat farm homes and green pastures.

In an article "How Does Your Mailbox Rate?" in the February issue of Farm & Ranch-Southern Agriculturist, L. R. Neel, senior editor, delivers a pat on the back to these communities who have taken steps in the right direction of mail box improvement, and gives specifications for large and

**RABSON DISCUSSES FARMERS BUYING STOCKS**

EUREKA, KANSAS, May 5—Every year since 1940—while traveling through our great central West—I have seen a great improvement—better homes, new factories, finer cattle and prosperity everywhere.

**What About Investments?**  
 This is my first trip—however—when farmers and ranchers have asked me about bonds. Heretofore, they have been interested only in land values, price of farm products and the condition of their banks. Now these men are convinced that both their farms and their banks are on a good sound basis. They are for other forms of safe investment. This is especially true this year as crops are poorer and farms less profitable.

Probably one reason for these change is the selling campaigns which the Mutual Investment Trusts are putting on in this part of the country, plus the enticing national advertising which the New York Stock Exchange and their members are doing. Furthermore, many of the farms are being owned or operated by sons and daughters who have been to college and studied economics, investments and allied subjects.

**Farmers Want Interest On Their Money**  
 Heretofore, farmers have only been borrowers with no money to invest. Now with money to invest they see the other side of the picture. They have been trained to believe anyone who borrows money should pay 6% to 8%. This rate they have been forced to pay.

and small boxes to those of us who are still neglectful.  
 Editor Neel says, "Small boxes should be 48 inches from the ground and large boxes, 40 inches. Small boxes should be placed on 6-inch square posts and large ones on posts 8 inches square."  
 How does your mailbox rate?—Victoria (Tex.) Advocate.

Now that these farmers themselves have money to loan, they also want to get these high rates. When the banks offer them only 1% to 3%, they are disgusted. As very few farm loans are now available, the stock market is the only place where these farmers can get the 6% to 8% which they have been forced to pay for years. Their children believe that the stocks of our large industrial companies which pay 6% or more are perfectly safe. They are gradually selling this idea to the old folks. The children are not talking "profit" but only safety and income. As a result good dividend paying stocks are being bought here in large quantities.

**Will Farmers Ever Get Frightened and Sell?**  
 Farmers are paying cash for these stocks and putting them in safe deposit boxes. What these buyers will do when the next depression comes, no one knows. My guess is that if reasonable dividends are continued, these farmers will continue to hold the stocks however much they may decline in price. The newspapers out here give little financial news and—very few quotations. Farmers are not speculators, but are income minded. Many also are depending upon the Weekly Reports of long established Investment Advisors which is much to their credit.

This new development is a good thing for investors everywhere. It opens a new market for those eastern estates which are compelled to liquidate upon the death of some prominent member; further it puts the stocks in the hands of permanent investors. This is more to be preferred for all concerned than to have the stocks in speculative broker accounts in New York or other cities. In fact, I feel much better about the stock market today, than when leaving Washington several weeks ago.

**Employment Outlook**  
 Due to the increasing number of young people reaching working age plus the better health of the older people and the greater use of labor-saving machinery, a rise in unemployment may be expected through out all sections of our country. This will reach about 6,000,000 during 1950. This unemployment will not be evident here in the Central West until October; but over the entire year it will be considerable. Remember this western section is fast becoming industrialized.

I am glad to report that farmers

are not responsible for the nation's great rise in installment buying which has now reached about \$11,000,000,000—a gain of \$2,500,000,000 over a year ago. Money in saving accounts for the entire nation—thanks to the farming sections—continues to equal 1949's figure of \$4,300,000,000. The city people, however, are now saving less than 2% of their income while the "average American" of the rural sections is saving 6%. Retail sales and new building are now less in the large cities of the East; but are holding up through the Central West and Pacific Coast. It rather looks to me that the Central States through which I am traveling will do much to cushion the next depression, including stock market and commodity prices.

**AMHERST SUPERINTENDENT**

W. D. Kay has been elected superintendent of Amherst schools. Mr. Kay, formerly superintendent at Bula, has been principal of the Amherst high school until his recent election.

Naturally, we like to hear people talk about Pontiac's new low price—Pontiac value is something to talk about! But the most important fact about Pontiac is this: Pontiac's value is far bigger than its price! That's why more people are buying new Pontiacs today than ever before. Pontiac is a wonderful car to own, a wonderful car to drive, a wonderful car to be seen in. And, with only ordinary care, Pontiac keeps on being a wonderful car for a long, long time. Come on in and see for yourself.

## Colored School Program May 17

The Muleshoe colored school is having its program Wednesday night, May 17, at St. Matthew Baptist Church. The white friends are cordially invited.

We also take this opportunity to thank the superintendent and the school board for making it possible for our group to attend the interscholastic League meet that was held April 14 in Lubbock, and, too, we want you to know that we appreciate the building that we are now enjoying. It is our objective to assist in

## Egg Preservation Methods Seen Due for Improvement

Present methods of preserving table eggs may be revolutionized by the use of a new compound developed by Dr. Alexis Romanoff and W. D. Yushok of Cornell's agricultural experiment station. The compound, a mixture of a plastic substance called polystyrene, with chlorinated rubber and other chemicals, forms a film over the egg and preserves it at ordinary temperature.

making better boys and girls of our race.

## LIVING MEMORIALS

Richard C. Yarbrough, Quanah, Tex., and 6-year-old Freddie Gilbreath, Cookeville, represent two generations of polio victims who have benefited from bequests left the Texas Scottish Rite Hospital for Crippled Children, Dallas. Freddie is a patient now and Yarbrough, now a State welfare worker, was a patient in 1933. The annual Memorial Services, May 7, will honor the men and women, who in leaving bequests to the hospital in their last wills and testaments, made possible the help to Freddie, Yarbrough, and thousands of other young Texans of generations past, present and future. Hastings Harrison, Dallas, will be the principal speaker for the services which will be broadcast at 3:30 p.m. over TQN network.

## Texas Water Code Committee Will Meet May 24

The Texas Water Code Committee will hold its regional hearing in Houston at the Rice Hotel in the Crystal Ball Room beginning at 9:00 a. m. May 24, and running through May 25th. On the 25th the meeting will be held in the South American Room beginning at the same hour.

This meeting had been postponed from April 24th and 25th because of insufficient hotel accommodations to handle the large crowd expected for this meeting.

Mr. Victor Bouldin and Colonel George Knapp, of Houston, the host members of the Committee for this meeting, have announced that they have made satisfactory arrangements for ample hotel accommodations for these dates and that all interested citizens and organizations who desire to be heard will be able to find places to stay in Houston during the two day session.

More interest has been manifested in this regional hearing than any other which the Committee has held to date, and it is

expected that between fifty and seventy-five witnesses will be heard.

Senator Rogers Kelley, Chairman of the Committee, will preside, and he urges that all persons and organizations desiring to be heard at this meeting notify the Executive Secretary, L. Hamilton Lowe, P. O. Box 2331, Capitol Station, Austin, Texas, not later than May 20th, if possible. The agenda for home.

the meeting will be long, and it is to the best interest of the Committee and the witnesses that the order of testimony be arranged well in advance of the meeting.

### VISITORS FROM CHICAGO

Mr. and Mrs. Ray Harmatys of Chicago, Ill., visited this week in the home of her sister, Mrs. M. F. Green and family. They will visit in California before returning 20th, if possible. The agenda for home.

**PRELIMINARY FIGURES RELEASED**

**Bailey County Retail Sales Jump 415 Per Cent In 10 Year Period**

Retail, wholesale, and service establishments located in Bailey County showed a substantial expansion in dollar volume of trade from 1939 to 1948 according to preliminary figures from the 1948 Census of Business released today by the Bureau of the Census, U. S. Department of Commerce.

Retail sales in the county during 1948 aggregated \$6 million, an increase of 415 per cent over the \$1.3 million in 1939, when the preceding Census of Business was taken. Wholesale sales in the county reached a total of \$9.3 million in 1948 as compared with \$0.9 million in 1939. The service trades included in the Census of Business recorded receipts totaling \$265,000 in 1948 as compared with \$54,000 in 1939.

Employment in the county also rose over the nine-year period between 1939 and 1948 for the above trades. Establishments in these trades reported a combined total of 382 paid employees for the week ended nearest November 15, 1948. This compared with a total of 167 employees reported for the week of November 15, 1939.

These preliminary figures have been compiled from a Census report on the part of a new Texas. Final figures by Dr. Albert D. Yushok of Cey County, will be published in the next issue of the monthly bulletin for the county. The preliminary figures are based on data which are being checked by the Bureau of the Census, Washington 25, D. C.

**Rites Held For Mrs. W. Miller**

Funeral services were held for Mrs. Willie May Miller at Mt. Vernon, Texas, May 6, at 2:30 at the First Baptist Church. Burial was in the Mt. Vernon cemetery beside the grave of her husband, who preceded her in death.

Mr. Miller died in Clovis May 4, where she had resided for 10 years after leaving Muleshoe in

**Rotarians Tell Club Of Duties**

Each member of the Rotary club has been assigned a duty on a committee of one kind or another and by last meeting, which was Friday noon, the president, Ray Keeling, began calling on individuals to explain his job to the other members. Those who talked briefly included Hoyt Morgan, Jerry Kirk, Edward Hicks, E. O. Baker, Alf Stovall, Woodie Lambert and Chief Jones.

Guests of the club included F. L. Shelby and Loyd Roberts of Muleshoe, and J. K. Reece of San Antonio, father-in-law of Bud Holton, club secretary.

Chief Jones called attention of the club to the fact that Muleshoe is not included in plans to receive waters through canals from the Canadian river when the new dam is built and the president appointed him, Forbes, and Baker to bring the matter to the attention of the city commission.

Lambert, who is in charge of attendance, read out the names of four Rotarians who were absent, and obtained volunteers to see that these four get to the next meeting.

1941, where she made her home with her daughter Miss Mildred Miller.

She is survived, besides her daughter, by one son, Martin G. Miller, former county judge of Bailey County; and two sisters, Mrs. J. O. Sanders of Big Spring and Mrs. Ida Bounds, Winfield, Texas, and several nephews and nieces.

**JayCees To Elect Officers Monday**

The Muleshoe Junior Chamber of Commerce will elect officers for the coming year at their regular meeting Monday night, May 15. Eleven officers are to be elected. They are: President, first vice president, second vice president, secretary, treasurer, state directors, and five local directors.

Monday night a delegation from here attended the installation of officers and buffet dinner of the Levelland JayCees at the Rodeo Association clubhouse. Ten officers were installed by a national director of the state association, Charles H. Gibson, of El Paso.

JayCees and their wives attending from Muleshoe were Dr. and Mrs. B. Z. Beaty, Mr. and Mrs. M. F. Blackman, Mr. and Mrs. C. W. Goss, Jr., and Mr. and Mrs. Roy Howard.

### New Fish Added To Hunke Collection

Hundreds of local residents have been going to see the beautiful miniature tropical fish at Harper's Appliance Store.

Several species have been imported the past week and although this is a comparatively small collection in relation to the number of known species, nevertheless the varying colors, sizes, and habits of the fish will delight visitors. Each species has its own distinguishing characteristics to fascinate young and old alike. It is difficult to say which fish

is the most favored by the visitors but perhaps the Pink Kissing Gourami has aroused the most amused comments. The purpose of the kissing between the fish is not known.

The most beautiful is the Neon Tetra, generally regarded as the aristocrat of all small aquarium personalities. This tiny fish has been accorded a unique compliment some years ago: Several aquarium societies having competitions for "the best fish in the show" added the words "except Neons" thus barring them, as they took all the awards and spoiled the fun. Part of the body is red with a brilliant, luminous blue-green line across the body.

Among the collection is also the Glass Fish. Translucent, it is a very fascinating fish that resembles a bit of crystal moving about the aquarium.

Many of the rarer fish are Tom Hunke's private collection, put on display for visitors.

THE JOURNAL Wants your news. Write, come by, or phone 54.

### REAL ESTATE TRANSFERS

The following property transfers were made through the office of county clerk, M. G. Bass, during the last week.

Henry H. Williamson and wife to Raburn R. Holton and wife. All South 10 feet of Lot No. 2 and North 40 feet of Lot No. 9 in Block 1, Skyline Addition, \$7,700.

R. L. Kimbrough and wife to J. E. White, all Block No. 1, Lakeside addition, \$1,00 and other valuable consideration.

Burford Butts and wife to Dudley Malone, All NE 1/2 Lot No. 9 and all Lot No. 10, Block No. 9, Warren Addition, \$5,010.

### Sunshine Club Honors Mrs. Adams With Bridal Shower

The Sunshine Club gave a miscellaneous bridal shower for Mrs. Doug Adams in the home of Mrs. Herbert Nash with Mrs. N. W. Lee as co-hostess. She received many nice and beautiful gifts. Mrs. Adams was Miss Sue Johnson before her recent marriage to Mr. Doug Adams at Needmore.

The ladies present with a few stitches quilted the bride a quilt, and everyone had a good time.

Present were Mesdames Tom Payne, George Chambless, Dave Coulter, S. E. Odum, W. M. Stass, Rudolph Moray, Cecil Harvey, L. V. Kolar, M. M. Simmons, Lillie Belle Baker, Vina Voy, Clara Harrison, C. W. Patterson, S. D. Williams, Virgil Webb.

C. L. Long, Vernon McGinn, Viola Blanscet, C. H. Odum, George Gabbert, J. W. Johnson, J. W. Williams, M. M. Scott, Miss Helen Blanscett, Miss Linda Johnson, the honoree and the hostesses. Many sent gifts who were unable to attend.

### VISIT WITH HARPERS

Mr. and Mrs. Joe Crowley and children, Joe Bill and Bob, of Amarillo and Mr. and Mrs. C. E. Harris of Sudan were Sunday visitors in the home of Mr. and Mrs. Will Harper. Mrs. Crowley and Mrs. Harris are daughters of the Harpers.

### TEE TIME!

"His spring — and golfers have taken to the greens. One of the new additions to the course this season is a "knee-action" canvas bag designed for the man who carries his own clubs. Attached to the canvas bag are legs that unfold, forming a tripod to hold up the clubs. When the golfer picks up the bag by the shoulder strap, the legs automatically retract. The "Tri-Pak" canvas bag weighs less than most conventional bags.

### HERE FROM LITTLEFIELD

Jack Cummings of Littlefield was here last weekend visiting with his parents, Mr. and Mrs. Frank Cummings, and with friends here.

### GO TO LUBBOCK

Mr. and Mrs. L. Hamilton's went to Lubbock last night to visit with two of his children, Claude and Omer. They will be back here later than the agenda.

**\$70 BILLION FEDERAL BUDGET SEEN BY 1960**

Continued pressures on the Federal Government to increase expenditures could result in a Federal tax burden of \$70 billion or more annually within the next 10 years unless the public puts a brake on them. This is the conclusion of the Council of State Chambers of Commerce. Here are some of the facts assembled by the

Council's research team which lead to that conclusion:  
Scores of new Federal spending measures are now being urged upon Congress. If passed, they could add as much as \$25 billion eventually to the nation's annual tax burden.  
The President's 1951 Federal Budget Message calls for a total expenditure next year of more than \$45 billion, including \$3 billion for social security programs

financed by payroll taxes. But that is just the beginning.  
The proposed budget contains almost \$1 billion (\$956 million to be exact) to initiate 34 new Federal spending programs. Many of these would carry on indefinitely and grow much larger. It is estimated that they would eventually add \$4 billion a year to present Federal tax burdens.  
Then there are the President's proposals for expanded Social Security benefits and for a National Health Insurance system, often referred to as "socialized medicine." Financed by payroll taxes, they would require an estimated outlay of \$13 billion annually when fully under way. And the cost would increase with the passing years.  
Congressional approval is being urged for the Brannan farm subsidy plan. Promoters of this plan have offered no estimates of its probable cost. A conservative estimate by several authorities places it at \$5 or \$6 billion a year.  
Legislation authorizing nearly \$2 billion in new public works projects has just been approved by both houses of Congress. This expenditure is to be spread over a period of years. Congress also has before it more than 300 bills providing for a wide variety of new Federal grant-in-aid to states and local governments. If all the programs covered in these bills were to win approval, they would eventually add over \$6 billion a year to the Federal spending budget.  
Meanwhile Uncle Sam finds himself with insufficient tax revenues even to balance his 1950 and 1951 budgets. Latest Budget Bureau estimates indicate a \$3½ billion deficit this year and another of equal size next year. This, of course, unless Congress makes substantial cuts in appropriations.  
Where, then, would the Federal Establishment obtain the additional taxes needed to support a 70-billion dollar a year spending program? Except for the Administration's two social welfare measures which would be financed by payroll taxes, the advocates of new spending legislation offer no answer.

**Creep Feeding Is A Good Practice**

COLLEGE STATION, May 9—Many ranchers and stock farmers in the state have found that creep feeding for calves is a practical and economical practice to follow. According to Dr. U. D. Thompson, assistant extension animal husbandman of Texas A. & M. College, now is the time to start the young calves on creep feeders.

He says the feeders are easy to build and are not expensive. The

**Library News . . .**

A new book added to the library this week is "The Grand Alliance" by Winston Churchill. Winston Churchill's great history, begun with "The Gathering Storm" and continued in "Their Finest Hour," now broadens its sweep and reaches a climax with Pearl Harbor and the historic Christmas of 1941 at the White House.

Here is the war on a world scale. The German drive to the east, threatening the life line of the Empire, the battle of the Atlantic, with the story of the sinking of the Bismarck and above all the entrance on the stage of the strange new ally, Russia.

He alone can tell how the Grand Alliance was forged—how Soviet Russia and the United States were attacked and rallied to the cause on which their hearts had long been set.  
Mrs. E. R. Wright, Librarian

**WEEKEND VISITORS**  
Judge and Mrs. Cecil Tate and son, Gaylord, visited in Lubbock and Lamesa during the week end.

enclosure or fenced area should be constructed with an opening large enough for the calves to get through but too small for the older cattle. Place the feeder inside the enclosure and fill with whole grain. He points out that it is a good idea to confine an older animal in the creep pen as a decoy for the calves and also as an aid in getting them to eat from the feeder.  
He points out that as much as 100 pounds of meat may be added to the calf's weight the first six to eight months through the use of creep feeding. It has other advantages, too; permits marketing at an earlier age; the mother cows stay in better condition; calves are more uniform; shrinkage is less at weaning time; it shortens the feeding period after weaning and serves as a good market for home grown feed grains.

There are certain disadvantages that might make creep feeding impractical on some farms and ranches and Thompson points them out. Extra equipment may be needed and there is the problem of getting the calves to eat. Hogs, sheep, and goats must be kept out of the feeders and it would do well to check the prices you can expect for the calves when they are ready for market. The extra cost of production might not be justified. Creep feeding doesn't work so well in pastures that contain more than two sections and sometimes the location of the creepers creates a problem.

Thompson suggests that you check your own situation and if the advantages outweigh the disadvantages, give the creep feeding program a trial. Your local county agent can help you with plans for the enclosure as well as plans for the creep feeder. He can give you a suggested ration or two for use in the feeders and can probably clear up a lot of other questions that you might have on creep feeding.

**TO TRUTH OR CONSEQUENCES**  
Spending the weekend in Truth Or Consequences, N. M., fishing, were Mr. and Mrs. Dudley Malone, Mr. and Mrs. Noel Woodley, Mr. and Mrs. Morris Douglass.

**STUDY CLUB TO MEET**  
Muleshoe Study Club will meet tonight (Thursday) in the banquet room of the Cross Roads Cafe with Mrs. H. S. Sanders, Jr., as hostess and Mrs. Milton Forbes co-hostess.

From where I sit ... by Joe Marsh  
**Mud Lake Gets "Cleared Up"**  
County officers got a notice from the government not long ago, asking them to change the name of Mud Lake. Seems it's a pond, not a lake, by government standards.  
Because it lies entirely inside our town limits, we asked to do the name-changing ourselves. Figured we'd think up a brand-new name. Mud Lake's really not very muddy—sort of pretty, in fact.  
County people said go ahead, so we held a Town Meeting. Everyone suggested something. Windy Taylor thought "Taylor Pond" would be nice, because his place borders it—for about 80 feet! But we finally decided to call it "Turtle Pond" in honor of the real owners.  
From where I sit, naming that pond wasn't the most important thing in the world—but the way we did it was. Everyone offered his opinion and then the majority vote decided it. That's the way it should be—whether it concerns naming a pond, or having the right to enjoy a friendly glass of beer or ale—if and when we choose.

**Family Reunion Held In Home Of C. L. Bracken**

Forty-three relatives gathered for a family reunion in the C. L. Bracken home in Friona Sunday, May 7, including Mr. and Mrs. Fred Bruns, Mr. and Mrs. Gene Bracken and family, Charles Bracken of Friona; Miss Jennie Snell of Clovis; Mr. and Mrs. Julius Bracken and sons of Morton; Mr. and Mrs. Bob Jack Kemp and sons of Amarillo; Mr. and Mrs. T. V. Bracken of Billings, Mont.;

Mr. and Mrs. Bill Southward of Texoma; Mrs. Ann Bracken, Mr. and Mrs. Leslie Bruns and family, Mrs. Don Bruns and children, Mrs. Kenneth Briscoe and daughters, Mr. and Mrs. Tom Zimmer, Mr. and Mrs. Jack Bruns and son, all of Muleshoe; and the hosts for the group, Mr. and Mrs. C. L. Bracken and son.

After a bountiful noon meal the afternoon was spent in visiting and taking pictures. Steve and Wayne Bracken also entertained the group with their guitars.

All of the C. L. Bracken family were together but two sons of Mrs. Ann Bracken.

**Half Century Club Honors Mrs. Moeller**

The Half Century Club met in the home of Mrs. Anna Moeller May 4, to help her celebrate her birthday with a covered dish luncheon.

She received many lovely gifts and cards. All enjoyed the day very much as Mrs. Moeller is a very gracious hostess. There were five guests and 16 members present.

The next meeting will be with Mrs. Gilbreath, May 18, at 2 o'clock.

The singing of "There Is A Fountain" followed by a prayer by Rev. T. G. Craft.

Mrs. Francis Gilbreath brought the program "Mother's Day."

Final plans were made for the Mother-Daughter banquet to be given at Fellowship Hall, Friday night, May 12.

A nominating committee composed of Mrs. Jim Burkhead and Mrs. Fred Johnson was appointed and are to make their report at the next meeting, to be held May 22, in the home of Mrs. Johnson.

Home made ice cream and angel food cake were served to the two visitors, Rev. T. G. Craft and Mrs. G. O. Jennings and members, Mesdames H. A. Phillips, Jim Burkhead, Jim Cox, Craft, Johnson, Gilbreath, Harold Weaver, Delma McCarty, Homer Sanders, Jr., Ma Mae Lawler, James Case, N. H. Greer, Buford Butts, and Miss Elizabeth Harden.

**TO ATTEND MEETING**

YOU'LL REALLY SHINE HERE—because this is the de luxe version of the popular four-door SPECIAL Sedan, made bright by silvery fender trim and window moldings. Many extra luxury touches inside too.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.

**Why just listen to reasons? COME SEE FOR YOURSELF!**

THIS TIME we'd like to tell you about something that you cannot see in this picture—something, in fact, you cannot know about from looking at someone else in a passing Buick—or from viewing a Buick on our showroom floor.

It's the feel you get from a Buick in motion.

You are going to find out that it is something like traveling on your own private, jet-propelled cloud—only firmer.

Maybe you know a stretch of washboard road, where you have to slow down, or bounce and jitter.

Try that in a Buick and see how you keep a level, comfortable boulevard smoothness.

Maybe you're always on edge to dodge dips and chuckholes. Those also lose

most of their jolt when you're at the wheel of a Buick—or in the rear seat.

In a few simple words—the ride of any Buick—SPECIAL, SUPER or ROADMASTER—is out of this world.

We could give you a lot of reasons. Soft coil springs on all four wheels, for example—the firm linkage of the torque-tube drive—the distribution of weight—big soft tires on wide rims—the way Buick engines are mounted.

**ONLY BUICK HAS Dynaflo AND WITH IT GOES:**

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD farside, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

Even Dynaflo Drive\*—always silk-smooth and free of geared-drive harshness—plays its part in the marvelous Buick ride.

But why simply listen to reasons? Experience is still the best teacher.

Come see for yourself why the Buick ride is called "matchless"—and how little it costs to replace a jitterbuggy with one of these level-striding honeys.

\*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.
