

Mr. Muleshoe ...

By J. M. Forbes

IT'S SAFFLOWER!

Note to the Journal Linotype operator and countless citizens we have bothered about this matter: The strange looking weed with the yellow blooms, all planted in rows and being cultivated, has been identified by one of our Voc. Ag. teachers, G. S. Dowell. He went out and got a couple of stalks, then reported to ye editor what the name of it is. It's safflower and you remember the Reader's Digest had an article on it a few months back.

The printer and his family were riding about the country Sunday afternoon when they noticed this field of a strange looking plant. He brought two stalks in but it was Tuesday night before Mr. Dowell reported the identity.

Well, Mr. Dowell says, away back in '36 or so there was an effort made to get local farmers to grow safflower, he doesn't know whose field this is in, but thinks maybe it was a leftover from the plantings of those days. The enterprise didn't go over too well.

Know what they use the seed of safflower for? They take and grind the seed and produce an oil, which, if used in white paint for instance, the paint will always remain white. See? But you will understand that even though it is important that paint remain white and not turn yellowish, we have used enough paragraphs on this subject; this ought to be sufficient explanation, we cannot linger on it, we must hurry away to other matters about which the reading public is just holding its breath.

Only tomatoes being packed any where in a big region are going to market right now from Muleshoe. Our tomatoes come on the market at a time when no other territory is harvesting. You would have to go way up in Colorado (with the exception of a small acreage around Lovington, N. M.), to find any appreciable amount of tomatoes.

And this tomato crop we are harvesting, despite the admission by all observers that this has been a tough tomato year, is scattering money right and left at a time when no other farm commodity is moving unless it alfalfa. They pay the pickers who gather the tomatoes, they pay the truckers who haul them to the packing sheds or to our cannery. For they pay 15 to 20 workers in the packing sheds and 40 to 50 workers in the cannery.

What is the future of our tomato growing industry? I am not smart enough to know but I sure wish more of our business men and farmers would investigate and learn for themselves. If this newspaper is wrong in believing we can further develop this business, we would like to know it. If we are right, we think a concerted action ought to be taken. All our crops are important to us and we are not trying to hide the fact that grain and cotton and hay and livestock are our main business. But tomato money sure comes in handy and is sure not unimportant.

Even in this bad year with hail and too much rain, farmers have made a good profit. The Case family, owners of the cannery factory, themselves cleared \$80 per acre on rented land, after hiring everything done by others. More than \$200 per acre has been realized on more than one farm, and this is net. We do not say jump out and plant the whole farm to tomatoes; but it does seem that many more farmers could profitably plant 5 or 10 acres of the crop. And many more small truck growers, we believe, could operate around Muleshoe, and in this we have a selfish interest, because the more people we have the more business will come to Muleshoe.

Guill To Report On Washington At Bovina October 12

By Mrs. Bill Liles
BOVINA, Oct. 4.—Congressman Ben Guill will make his report to the People's Chamber of Commerce in Bovina October 12, in the Bovina high school auditorium at 8 p. m.

Every citizen of Farmer County is urged to hear this highly informative report. Following Mr. Guill's report he will hold an open forum and will answer any question from the audience.

Congressman Guill's appearance in Farmer County is sponsored by the Chamber of Commerce and the Farmer County Farm Bureau, whose officials feel that this report also will be of interest to the people of Bailey County, as the report will concern Washington events that pertain to everyone in the State of Texas, whether they live in the 18th Congressional District or elsewhere.

Everyone is cordially invited to hear Congressman Guill.

Volume 28, Number 41

MULESHOE — County Seat of Bailey County — TEXAS

Thursday, October 5, 1950

Muleshoe Corporation Court Began Functioning Oct. 1—Police Named

Muleshoe's Corporation Court began functioning October 1, the city commission announced. Mayor H. D. King is ex-officio judge of the court; Karl Lovelady has been appointed city attorney; Garland Freeman has been appointed chief of police with day duties; and Bud Williams remains on the police force with night duties.

Members of the commission, announcing the setting up of the court, said the court will be operated on a courtesy basis for a time or "as long as possible." But if violations occur that cannot be condoned or overlooked then the violator will have to appear before the court.

The commission, the members said, have "big hopes that we will have better regulated traffic in the business section and particularly in the school zones and along residence streets children use in going to and from their homes."

"We urge everyone," they said, "to show full cooperation in order to show safety in traffic for himself, his fellowman, and our children."

Mr. Williams has been city night policeman for a number of months. Mr. Freeman was formerly a deputy sheriff in the south part of the county.

F. L. Oliver Rites Sunday

Frank Lee Oliver, 59, of Muleshoe, passed away Friday, Sept. 29, in Cleburne, Texas, where he had been visiting sons and daughters. He was the father of F. L. Oliver, Jr., and Martin Oliver of Muleshoe.

Mr. Oliver farmed in this section for several years. He was born Nov. 27, 1890, in McClellan County, Texas. In 1909 he was married to Miss Gallie Prince. He resided in Johnson County, Texas, for thirty years before moving to Oklahoma and then to Muleshoe. His wife preceded him in death in 1925.

He is survived by the following daughters and sons: Mrs. M. D. King, Harlingen; Mrs. J. M. Williams, Mrs. Lewis Stephens, Mrs. Bob Crosier, and Mrs. J. S. Siddell, all of Cleburne; F. L. Oliver, Jr., and Martin Oliver of Muleshoe; Otis and James Oliver, of Cleburne. Other survivors include a brother, J. L. Oliver of Cleburne; three sisters, Mrs. Etta Prince, Ft. Worth; Mrs. A. T. Wright of Spur, and Mrs. Wilda Morris of Cleburne; eight grandchildren and one great grandchild.

Funeral services were conducted at 2 p. m. Sunday, Oct. 1, 1950, at Crosier Pearson Chapel in Cleburne with Rev. Jones Weathers officiating. Interment was in Rose Hill cemetery, Cleburne. Pallbearers were F. L. Oliver, Jr., Otis Oliver, Marshall Oliver, Martin Oliver, C. V. Lenard, and L. J. Oliver.

Dairy Meeting Set For Tuesday

A dairy meeting and show will be held at the Jones Farm Store in Muleshoe the coming Tuesday night, Oct. 10. Chief Jones, store proprietor announced. The store invites everyone who is interested to attend.

Sam Merritt, district representative of the Ralston Purina Company, will be the speaker, and will bring the latest information on dairymen as developed by the company. There also will be a motion picture, "Science of Milk Production" for the entertainment of those who attend.

Mr. Jones said the meeting will take up at 8 o'clock. This is another in a series of such meetings, former meetings having had very large turnouts of interested people. Refreshments will be served.

Keeling To Head Local Polio Drive

Ray Keeling, Muleshoe Buick dealer, has been appointed chairman of the annual March of Dimes drive and has already begun making plans for the campaign, which is staged in January.

Keeling's appointment was made known by A. S. Stovall, who is the president of the Bailey County Chapter for Infantile Paralysis. A meeting of directors and others was scheduled for this week.

Bailey county this year has had several cases of polio. Funds raised in the March of Dimes campaign each year help some of the families affected to pay the expensive hospital and treatment bills.

A farm lad who took a job in the big city returned home a few months later to report he was flat broke in spite of the big pay. He said, "Most of my money I spent on women and whiskey. The rest I just wasted."

Damron's Store Is Burglarized

Someone entered the Damron Drug Store Saturday night and made off with narcotics valued at about \$150 and cash in the amount of more than \$500, Joe Damron, proprietor, told officers early Sunday morning.

The second breaking in job in Muleshoe, normally a very quiet town, within a few days. Earlier in the week, someone entered the Muleshoe Cafe, carted off the cash register, which was found a few miles west of town in a battered condition. The cash had been removed.

The burglars or burglars entered the Damron Store, on Main Street, by the front door. The door stop was pried off, then an instrument was used to work the lock catch back. The cash register was opened and about \$20 was removed, in bills, half-dollars and quarters. Nickels and dimes were not taken. Then the operator went directly to the safe in the rear, using an instrument to prize open the door and took from the safe the morphine, codeine, and morphine derivative tablets and the cash which had been taken in during the day.

Sheriff's officers and the local night watchman were on the job as soon as the burglary was reported when the store opened for business Sunday morning. Local officers summoned Ray Benfro, of Lubbock, former Bailey County sheriff, now a Texas Ranger, who came up Sunday afternoon to take fingerprints, and continue the investigation.

Checks which were also taken when the damron store was burglarized Tuesday night, were found in a bar ditch along the highway near the American Legion Home, by Leon Smith, a young boy living at Shady Rest.

The checks totaled \$150, Joe Damron told The Journal. Two narcotics bottles were lying near the checks. One contained opium containing lpecane, the other bottle was empty. Also with the checks was the firm's bank book.

Development Of Insurance Is Outlined By Pool

W. M. Pool, Jr., Muleshoe insurance executive, turned loose his silver-tongued oratory and entertained members of the Rotary Club for 15 minutes at their luncheon Tuesday. He was pinch-hitting when a program that had been planned blew up in thin air.

Every Rotarian is required to give a classification speech. Pool's was a very fine one and a perfect fill-in.

He reviewed the early efforts of the people to partially insure themselves and their property. He said that early companies were mutual companies, where neighbors paid in so much and profited in the protection on that basis.

Insurance rates, he said, always have been based upon loss experiences. When great disasters, like the Chicago fire and the San Francisco earthquake and fire, came along, the interest of the people in insurance protection was intensified and the great insurance organizations began forming. Mr. Pool said many of the insurance firms are now stock companies, owned by people throughout the country.

In conclusion he reminded his listeners that Muleshoe has just received a "good fire record" credit of 15 per cent, which will save the payers of insurance here a large sum of money.

However, he cautioned that recently Muleshoe has had some pretty serious losses and when the rate is set by the State Fire Insurance Commission next March, he fears rates will be raised. Any property of business inside the city limits which constitute a fire hazard will tend to cause an increase in rates, he said.

J. M. Forbes, who was supposed to be in charge of the program, had to admit failure to produce. He had attempted to get persons connected with the tomato movement here to tell Rotarians what the tomato growing industry here means to the grower, the worker, the merchant, etc. He read a few figures given to him in his quest for the program.

Frank Smith, a member of the Rotary Club of Lubbock, was a guest of the club. As a member of the A. E. M. football club a few years ago, he used to square off against Ray Keeling, president of the local club. Henry Schuster, Bailey County farmer, was also a guest and reminded those present of the supervisor election of the Blackwater Valley Soil Conservation District.

Pool Will Head Bailey Co. Fair

The directors of the Bailey County Fair met Tuesday night, Oct. 3, to make plans for a bigger and better fair in 1951. W. M. Pool, Jr. took charge of the meeting and will be serving in the capacity of president of the Fair Association for the coming year. H. S. Sanders was elected vice-president, A. W. Copley, second vice-president, and Loyd Roberts, secretary-treasurer.

The directors plan to put out a catalogue for next year's fair in order that everyone can make plans for their exhibits. This catalogue should be complete in the near future.

It is desired that all of those connected with the fair that more participation will be the forthcoming next year in the way of community exhibits and from the schools and others of this trade territory. Plans are underway to provide for these exhibits.

The fair officials would like to thank everyone who helped make this year's fair the success that it was and will be looking forward to your cooperation in making the fair of '51 the best fair to be held in Bailey County.

Date of the County Fair next year will be the Thursday, Friday, and Saturday preceding the starting of the Lubbock Fair on Monday.

Judge Bills Denies Injunction

Judge E. A. Bills rendered his decision in 64th Judicial Court here Saturday on the parking meter question in Muleshoe.

In the case of Houston Hart vs. Harold King, et al, Judge Bills denied the temporary injunction preventing the installation of parking meters and the temporary restraining order was dissolved.

Hart was representing the business men of the town who are opposed to the parking meters for Muleshoe and Mayor King for the city commission. The petition asking for a temporary injunction and restraining order was filed in the district court on August 11.

Several cases for trial by jury have been filed on the docket and will be tried when the court opens its new term in Bailey County on November 6.

O. M. Cooper Addresses Lions

O. M. Cooper of Plainview, Lieut. Col. in the Reserve Corps and a member of Gen. Hershey's Selective Service Board, explained the present draft program to members of the Lion Club at their luncheon Wednesday noon. He was introduced to the club by Noel Woodley.

He gave the background of the selective service program, stating that it had been studied by Gen. Hershey and members of the Reserve Corps on his staff since World War I and when Congress authorized the conscription of men in 1940, the system sent 19,000,000 men to register in October of that year.

The only major change of the Selective Service Act of 1940 and the one of 1947 is that the president can call into service members of reserve units without waiting for the approval of Congress.

He explained how the system works from the local draft board in each county to Gen. Hershey and his staff who direct the drafting of men for service all over the United States. Cooper said the U. S. had always been short on manpower, but has the know-how and the raw materials to become one of the leading industrial nations of the world.

Cooper's opinion was that he did not believe that very many deferments would be granted because of agriculture or industry, that fewer men would be turned down because of mental and physical qualifications, but that the majority of men now between the ages of 18 and 26 would be in service before the present need for men was filled.

Visitors present for the meeting included Gordon Duncan, guest of Ed Evans, C. M. McClendon of the Case Tractor Co., guest of Morris Douglass, Porter Giles of Lubbock, and H. O. Barbour, guest of W. Q. Casey.

Bob Harvey was presented with his certificate of membership and Lions pin.

CAUTION: You'd better look close, now, before telling the wife she has wrinkles in her nose. She may not have any on!

Christmas vacations are over, which prompts us to remark that most boys like school best—closed.

Real Dwarfs To Play In "Snow White" Oct. 11

The company of "Snow White and the Seven Dwarfs" which will appear at the Muleshoe High School Auditorium, Wednesday, Oct. 11, at 1:30 p. m., under the auspices of the High School and Elementary P-TA's, includes a group of real dwarfs. These tiny men, not one of whom is taller than 4' are all expert performers. Children and adult audiences all over the country have been delighted with their hilarious comedy antics, personal charm and skillful acrobatics.

The little comedians have been in the theatre all their lives and have entertained audiences both here and abroad. Some have been with circuses and will show off their tumbling tricks to a delighted Princess Snow White. When they protect Snow White against the wicked witch, all the young hearts in the audience are with them and there is always great cheering when the news of the Queen's death is heard. It is certain the dwarfs will contribute a large share to making the musical attraction "Snow White and the Seven Dwarfs" an outstanding production.

The excellent New York company will present a musical stage version of the famous story embellished with glorious costumes, elaborate scenery. It will be a production designed for the enjoyment of both young and old. There will be comedy for children of all ages coupled with the sweet sentiment of the time honored story of Princess Snow White. The most care given to the ranks of New York performers has presented "Snow White and the Seven Dwarfs" in every section of the country. Audiences in such metropolitan centers as Chicago, Detroit, Pittsburgh, Kansas City, Seattle and many others have been thrilled with this brilliant musical performance.

It is a safe assumption that any child who sees this production will always remember it as a most joyful event. The magic of the stage, the living actor, music, dance and the colorful settings which fail to impress the young mind and to guide it towards the fuller enjoyment of the beauties of life.

All persons on committees and any other persons interested in helping in the X-ray campaign are requested to be present.

TB Meeting Tuesday Night

There will be a meeting of all committees chairmen and others connected with the campaign to assist the tuberculosis association in making free chest X-rays, on Tuesday night, October 10, in the District Courtroom at the courthouse at 7:30 p. m.

All persons on committees and any other persons interested in helping in the X-ray campaign are requested to be present.

Cash Register Is Returned To Cafe

They have retired the old cigar box that has served as a cash register at the Muleshoe Cafe, now that the cash register has been returned. Officers found the battered register several miles west of Clovis, Sheriff Hugh Freeman said. It had been taken into a field north of the highway.

Efforts to open it were apparently made on the road running west from the Puckett corner. Mr. Freeman said, for some small pieces were found at a spot on this road. Someone removed the register last Tuesday night, entering the building through a rear window.

Legion Zone 1 Elects Officers

Zone 1, 19th Texas District, the American Legion, was organized when a group of Legionnaires met Sept. 20. The meeting was called to order by Bob Kirk of Littlefield who gave a very interesting and comprehensive outline of the purpose of the organization. Zone meetings henceforth will be held each month, alternating with each post in the zone.

The following officers were chosen: Pat McCord, Earth, commander; Wayne Butler, Littlefield, 1st vice commander; Chas. Alsop, Sudan, 2nd vice commander; 3rd vice commander to be named by the Olton post; V. H. Montgomery, Muleshoe, adjutant; Dr. Slemmons, Amherst, sergeant-at-arms.

Muleshoe Tomato Harvest In Full Swing—2 Sheds Being Operated

A spirited drive for members of the Muleshoe High School P-TA was launched this week, with Mrs. S. L. Robinson as chairman.

Other members of the committee are: Mrs. Scott Donaldson, Mrs. E. W. Locker, Mrs. Loyd Quessenberry, and Mrs. O. C. Kirk.

These ladies have been contacting everybody they can to secure a big membership of the P-TA for this school term. Membership dues are only 50 cents per person.

Committee members, however, said it is quite a job to see everybody in such a big district, and they urge that people send in their dues, preferably by the coming Monday. They point out that a large membership will add greatly to the effectiveness of the P-TA, which works throughout the year for the benefit of the school and the children who attend it.

Sept. Rainfall Totals 4.88 In.

September rainfall recorded by R. L. Klump, official weather recorder for Muleshoe totaled 4.88 inches bringing the year's total to 19.19 inches.

The greatest rainfall was recorded on Sept. 25 when 2.26 inches fell. Other amounts recorded were: Sept. 4, 1.12 in.; Sept. 6, .07 in.; Sept. 7, .09 in.; Sept. 11, .44 in.; Sept. 12, .04 in.; Sept. 15, .55 in.; and Sept. 26, .02 in.

On Sunday afternoon, Sept. 10 several hundred acres of cotton, from the west of Muleshoe to the north and northeast of town were severely damaged by hail, some of it as much as 75 per cent.

Highest temperature was recorded on Sunday, Sept. 3 when the thermometer reached 89 degrees and the lowest temperature was recorded on Saturday night, Sept. 16, when it reached a low of 44 degrees.

Roy Howard In Charge Of JayCee Program Monday

Roy Howard, local employee of the post office department was principal speaker at the regular meeting of the Muleshoe Junior Chamber of Commerce at the Cross Roads Cafe Monday night.

His topic of discussion was the Hoover Commission, designed to eliminate wasteful government spending and cut red tape. He illustrated his talk with several examples of wastefulness and bureaus which duplicate each others work in our federal government.

This talk was the first of a series which will be brought by members of the JayCees in the months to come. Its purpose is to develop public speaking and give each a chance to conduct a meeting. The program committee for the next month is June Wagon and Travis Barnett.

W. M. Pool, II, vice-president of the JayCees, conducted the meeting. In charge of the program for October is Roy Howard and Dr. B. R. Putman.

The JayCees are also conducting a drive to secure signers on Freedom Scrolls in connection with the tour of the Freedom Bell which has made stops in El Paso and Houston. Texas is trying to meet their quota of 500,000 signers whose names are to be a permanent part of the Freedom Shrine in Berlin, Germany. This drive is a part of the program for the powerful radio station to be called "Radio Free Europe," designed to blast communism behind the iron curtain and in other parts of Europe.

James Wells, representing the West Texas Gas Company, was welcomed into the club as a new member.

Next meeting will be Monday night at the Cross Roads cafe.

PTA TO HEAR REVIEW OF "THE ROAD AHEAD"

Mrs. Leon Smith, reading the speech of E. A. Wells in last week's issue of The Journal, was reminded that Perry Wampler, of Clovis, is to review John T. Flinn's book, "The Road Ahead, or the Creeping American Revolution" for their January meeting. Flinn's book has been widely discussed and widely read in the U. S.

At a time when little other farm produce is moving, a few farmers are getting real cash money from tomatoes, and several hundred workers are getting real cash for their work, either in the fields picking the tomatoes, wrapping and handling green tomatoes at two to three sheds here, or working in the Muleshoe Canning Co. factory, where ripe tomatoes are being canned.

The canning company hopes to pack 20,000 cases of tomatoes this year, handling only ripe tomatoes, many of which are coming from Littlefield and Hereford.

The two packing sheds are buying green tomatoes for grading, wrapping and packing. One shed operator, W. R. Flow, Tuesday estimated that he and his partner, Mr. Melvoin, had shipped out 40 carloads of green tomatoes. He expected to pack about six carloads this week.

Asked what he thought of Muleshoe's opportunity to further develop the tomato industry, he said, "You have the best opportunity in the world." Another buyer is said to have told friends, not necessarily for publication, that in his many years of handling tomatoes he had never been able to buy a better tomato than Muleshoe tomatoes.

And the farmer who has a little patch of tomatoes is realizing a high net return, in comparison with many other crops. Mr. Flow said he already has paid one farmer \$2,200 for tomatoes off 10 acres. This was net to the grower, who figured all expenses in connection with the crop. Most of the Muleshoe Canning Co., said there were many instances where the farmer has netted "more than \$200 per acre" this year.

It is not all a rosy situation. Hail this year came at just the right time to blast the tomato crops on many farms. Yet in most instances the crop was not totally destroyed, but the grower harvested enough to more than pay back what he had in the crop.

The Muleshoe Canning Co. will have a payroll, covering a period of a few weeks, of about \$25,000 this year. Last year it was \$16,000. They expect to ship out 20 carloads of Muleshoe canned tomatoes. The company has paid out around \$30,000 for produce of local farms, including beans and tomatoes.

The canning factory does not handle a very large per cent of the tomatoes, because most of them are sold green to the packing sheds.

It is believed that many local merchants do not realize what an important part of the yearly income is realized at the Cross Roads Cafe with the drive chairman, A. S. Stovall. They were guests of Mr. Stovall at breakfast, served in the private dining room.

Attending were team captains Blundy Ray, Ray Keeling, Dr. B. Z. Beatty, Buddy Blackman, Hap Montgomery, P. Q. Stickney, and Clyde Bray; Mr. Stovall, and J. M. Forbes.

The local post hopes to have the biggest membership ever this year and will give every eligible veteran in the county the opportunity to join. The drive will end with the traditional Legion breakfast at the Legion Home here on November 11.

C. H. Odom Gins 1st Bale Cotton

The first bale of cotton to be produced in Bailey County this year was ginned here Monday night by the Copley Gin. The bale was ginned by C. H. Odom, who farms 2½ miles west of town.

A. W. Copley, owner of the gin, stated the bale weighed only 360 pounds and would be of low grade cotton because of the damaging hail which fell in that area a few weeks ago.

NEW DAUGHTER

Mr. and Mrs. Ernest Kerr are announcing the arrival of a new daughter, Hindalee, born Tuesday, September 26, in a Hereford hospital, and weighing seven pounds. Both mother and daughter are doing nicely. Mr. Kerr is one of the owners of Muleshoe Liquefied Gas Co.

Texas Tech Sets Out To Supply This Section With Agricultural Engineers

LUBBOCK, Oct. 3—West Texas, one of the greatest agricultural areas in the nation, urgently needs agricultural engineers and Texas Technological College wants to fill that demand.

The physical facilities will soon be available. Construction already has started on the \$345,000 agricultural engineering building and four greenhouses.

Dr. D. M. Wiggins, president of Texas Tech, has approved the creation of three new departments—agronomy, agricultural engineering and horticulture and park management. Budgets for these departments have been set up.

Texas Tech's Board of Directors will be requested to approve the new setup, if the Board gives its approval, the next session of the Texas state legislature will be asked to provide sufficient funds to initiate the new program serving agricultural interests of this area.

Under the present arrangement, agronomy, agriculture engineering, horticulture and park management are a part of the department of plant industry. But the urgent need is for agricultural engineers.

If the Board of Directors and the Legislature approve, the plant industry department will be chopped up and the three proposed depart-

ments will replace it. Plant industry, however, will continue to be a subject.

Dean W. L. Stangel of the agriculture division has pointed out that numerous requests of Tech students for more specialized training necessitates the setting up of the three departments.

Principal cash income from the Tech area comes from such crops as cotton, grain sorghums and wheat. Stangel feels that agriculture—the life and pulse of the southwest—will continue to promote this area. That fact alone, he said, justifies agronomy as a major.

Mechanization on the farm is steadily increasing, he said, bringing an unusually heavy demand from students for an intensive course in agricultural engineering.

The new agricultural engineering building would provide classroom and laboratory space for the new departments.

Stangel said the new interest in the growing of vegetable crops since irrigation became widespread introduces a new need for horticulture training. And towns and cities on the treeless plains are becoming landscape conscious and want park management graduates.

In explaining his needs, Stangel said "the budgets we have set up are in keeping with the demands of students in college and will result in greater service of Texas Tech to the area which it serves."

The proposed departments of horticulture and park management will be housed temporarily in the agricultural engineering building which is scheduled to be completed next August. Later a building to house the department is planned. Laboratories for that department will be held in the new green-

An early morning scene when "Big Bertha" 5-ton elephant has a "thirsty feeling". An age old American tradition, "carrying water to the elephants". The three herd of pachyderms will be among the early arrivals with the Cole & Walters circus in Muleshoe for an afternoon and night performance on Monday, October 9 at the ball park.

Donnie Carpenter Wounded In Korea

Pfc. Donnie Carpenter of the southwest part of Bailey County has been wounded in action in the fighting in Korea. The young man is the son of Mr. and Mrs. M. L. Carpenter, of Arch Route, Baileyboro, well known residents of that vicinity.

Pfc. Carpenter was fighting with the 24th Division, which has been in action since the beginning of the Korean invasion. It was said the Bailey County boy went to Korea somewhat later with his unit.

He is said to have received several wounds in the chest and back. Mr. and Mrs. Carpenter received word from the commanding officer of a U. S. hospital in Japan where he is now under treatment.

VISIT IN ABILENE

Ceremonies and interview E. F. Hornbrook, President of the Wise County Farm Bureau; Mrs. George Clark, Treasurer of the McLennan County Farm Bureau, and J. Walter Hammond, President of the Texas Farm Bureau Federation.

Stations carrying the broadcast are KTSB, San Antonio; KGNC, Amarillo; KTBE, Tyler; KFYO, Lubbock; KTBC, Austin; KTXL, San Angelo; and KROD, El Paso.

President W. R. Carter urges all farmers in Bailey County to "roll out" early on the morning of October 10th and tune in to their nearest station for the broadcast.

Farm Bureau To Broadcast

The Texas Farm Bureau Federation will present its state-wide radio broadcast Tuesday morning, October 10th from 6:30-7:00 a. m. with Governor Allan Shivers to all farmers and ranchers of Texas according to W. R. Carter, president of Bailey County Farm Bureau.

Governor Allan Shivers will open the 4th Annual Farm Bureau broadcast over the facilities of the Lone Star Network. Layne Beatty, farm editor of radio station WBAP, Fort Worth will be the Master of

PERHAPS you've noticed that there seem to be a lot of these brawny beauties running around on America's highways—and it isn't just that boldly gleaming fore-front that spreads this impression. It isn't just the fact that folks who own a Buick get such a bang out of it that they do a lot of driving. Back of all this is another fact. It's a fact that contains a broad hint to anyone who'd like to know what's what in motorcar buys. 1950 Buicks are breaking all past popularity records, as registered in sales.

So we suggest that you do some personal investigating. Find out, for example, how mas-

terful you feel, with Fireball power purring away the miles, at a polite touch of your toe on the gas treadle.

Find out how the jolts and jars seem to disappear, when you have big soft coil springs on all four wheels, and fat low-pressure tires on wide Safety-Ride rims.

Then there's Dynaflo Drive,* which Buick owners vote the biggest automotive hit that has come along in years.

With all this, there's room, and comfort, and road-hugging heft combined with a light and willing response to your hand on the

*Standard on Roadmaster, optional at extra cost on Super and Special models.

wheel—and prices that start down with the sixes.

Seems like almost everyone wants to own one of these Buicks—and most people can. How about you? Isn't it a smart idea to see your Buick dealer now and get your name on his list?

Only BUICK has Dynaflo—and with it goes HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New I-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD front-end, taper-through fenders • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-cell springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube

October 8 To 14 Is "Fire Prevention Week"—Time To Check For Hazards

COLLEGE STATION, Oct. 3—The week of October 8-14 is "Fire Prevention Week". Texas farm families can well afford to take time out during this week to check the farmstead for fire hazards. W. L. Ulich, extension agricultural engineer of Texas A. & M. College, says that regular checking of farm buildings for fire hazards and the removal of the hazards will prevent many fires.

Each year in the United States, he says some 3,500 residents of rural communities lose their lives in fires. The farm fire loss amounts to about \$100,000,000 annually. Many farm buildings are under-insured or carry no insurance at all and with some building materials at all-time peak prices and others impossible to get, you just can't afford to have a fire, he says. Since most farm buildings are of wood construction and built with little thought for fire safety, care must be exercised at all times in the use of the buildings. Hay, grain, fuels and most other materials stored on farms burn rapidly and usually no fire fighting equipment is available for putting out fires while they are little. The wise

Income Taxes Up With This Week

The nation's taxpayers began to feel the first direct financial impact of the Korean War and the stepped-up defense program Sunday when a 20 per cent increase in the withholding tax on salaries and wages went into effect.

Forty-five million Americans will be hit by the increase, which will take 18 per cent of income after personal exemptions and deductions instead of the 15 per cent which has been taken since 1948. The boost in individual income taxes provided for in the \$4,700,000,000 tax bill recently passed by Congress applies to all income received in the last three months of 1950.

The higher taxes also will be levied on all 1951 income. There is a possibility that 1951 incomes will be hit by even higher levies, since President Truman says the rearmament program should be on a pay-as-you-go basis and taxes should be the main instrument for curbing inflation.

Schedule of Taxes

For a married man with no children, the new withholding tax will run as follows, depending on the weekly wage:

Thirty dollars per week, 90c; \$40 per week, \$2.70; \$50 per week, \$4.50; \$60 per week, \$6.40; \$70 per week, \$8.20; \$80 per week, \$10; \$90 per week, \$11.80; \$100 per week, \$13.80; \$110 per week, \$15.60; \$120 per week, \$17.40; \$130 per week, \$19.20; \$140 per week, \$21, and \$150 per week, \$23.30.

Ulich says that records kept by the National Fire Protection Association shows that most farm fires are caused by defective chimneys and heating apparatus; combustible roofs; lightning; spontaneous ignition; misuse of electricity; careless smoking and handling of matches and the improper use and storage of gasoline and other farm fuels.

A thorough check of the farmstead will reveal these hazards if they exist on your farm, and the needed repairs or removal of the hazards should follow their location, says Ulich. Delay could cost most any farmer, in a few minutes, all of the work he has done for years in getting on his farm good buildings and equipment.

Ulich points out that every farm should at least have available such fire fighting equipment as fire extinguishers, water pails and if water under pressure is not available, barrels filled with water and located at strategic points will help. Garden hose and a pressure water system provide valuable protection. Ladders should be available for reaching roofs or other high places. Cisterns or stock tanks located near the farmstead furnish good water supplies for the pumper trucks if a fire department is available. Family fire drills help to keep each member of the family informed on how to operate the equipment and how to get it into operation in the shortest possible time, says Ulich.

He suggests that this might be a good week for your community improvement group to look into the possibilities of organizing a rural fire department in your community. Don't, he says let the week pass without doing something on your farm to prevent fires.

KITCHEN MEMO
BY ANN CLARK

EASY for supper and what to serve? So easy on the budget is **Macaroni Meal-In-One**. To 3 qt. actively boiling water, add 1 tbs. salt. Gradually add 6 oz. elbow macaroni. Cook until tender (about 12 mins.). Drain and rinse. While macaroni is cooking, melt 3 tbs. butter or margarine in top of double boiler. Stir in 3 tbs. enriched flour. Gradually add 1 1/2 cups milk, stirring until thickened. Add 1/2 tsp. dry mustard, 1 tsp. Worcestershire sauce, 1/2 tsp. salt, 1 cup grated cheese. Stir until cheese is melted. Add macaroni and blend well. Pour half of macaroni mixture into bottom of well-greased 2 qt. casserole. Cover with 2 1/2 cups cooked drained green beans (1 No. 2 can). Top with remaining macaroni. Arrange 6 strips bacon over top. Cover and bake in moderate gas oven (350°F.) 15 mins. Remove cover and bake 15 mins. more.

No matter how clean your home, there's bound to be some dust in the air. An air filter, easily installed, on your forced warm air gas furnace screens out dust, keeps it from going through the house.

Emergency plumbing: A handful of soda and a half glass of vinegar poured down a stopped-up drain usually clears it.

A new control for automatic gas water heaters is marked Warm, Lukewarm, Hot and Very Hot to guide the householder to correct temperature hot water.

The equivalent of a 2 1/2-ton truck is lifted every year when women hang laundry on the line. An automatic gas dryer, controlled to any drying temperature, eliminates such laundry drudgery.

Quicker than a knife, and safer, too, are kitchen shears for cutting up chicken, ham, salad trimmings, and such.

Electricity can lighten farm chores and greatly increase productivity. How it's done is shown in a new color film, "Electrified Farming" which has been released by General Electric.

Crop dryers, barn cleaners, milking machines, water pumping systems, electric brookers, and ventilating fans are cited as examples of the widening use of electricity in production on modern farms.

RECITAL GROUP TO BE PRESENTED

Mrs. Horace McAdams will present her recital group in a Western Recital next Tuesday night, October 10, at 7:30 at the Fellowship Hall.

readings, three short skits and one act play. The public is cordially invited to attend.

State Health Department To Begin Training To Handle Atomic Hazards

AUSTIN, Oct. 2—A new service has been established within the Bureau of Sanitation Engineering at the State Department of Health to handle the thousands of radiation hazards an atomic bomb burst would bring, State Health Officer George W. Cox has disclosed.

It will perform six vital functions, all dealing with finding and decontaminating dangerous radioactive areas, Dr. Cox said. He listed those functions as:

1. Pre-disaster training program. Men and women will have to be trained in the use and interpretation of radioactivity detection instruments. Of course the training program will have to be started immediately, so they will be ready to handle their jobs if and when an atomic bomb is dropped anywhere in Texas.

2. Detection device distribution. Those men and women will naturally need instruments to detect radioactivity and to protect themselves. Getting such items as geiger counters, ionization chambers, pocket chambers and film badges—all radioactivity detection instruments—will be on the job.

3. Monitoring crews, rescue workers, doctors, and nurses will have to have protective clothing such as hoods, gloves, respirators, and coveralls before they can safely go into contaminated areas. Clothing for this work must be secured.

4. Field monitoring. Teams of radiation experts will locate areas of residual radioactivity. Geiger counters and the other detection devices can seek out the odorless, tasteless, and colorless radioactive particles that can burn and destroy an tissue and cause changes in cell structure. Experts will build buildings, streams, medical files, food and so forth, that it have been contaminated, er zones will be marked so people can keep out of them. Decontamination. Radioactivity be destroyed by scrubbing,

3 Marriage Licenses Issued In Sept.

Three marriage licenses were issued by the Bailey County Clerk's office here during the month of September. They were:

Wyatt Ray Trest of Plainview and Alma Jean Palmer of Friona, Route 1.

George Davis Elder of Muleshoe, Route 1 and Bessie Ruth Griffing of Muleshoe, Star Route 2.

Gilbert Joyce Dupler of Morton Star Route and Peggy Jo Sowder of Maple.

THREE MULESHOE STUDENTS ENROLL AT ABILENE CHRISTIAN

ABILENE, Oct. 2—Three students from Muleshoe have enrolled in Abilene Christian College for the 1950 fall semester. They are Jacques Baker, son of Mr. and Mrs. C. M. Baker, 902 W. 5th; Bobby Goss, son of Mr. and Mrs. C. W. Goss; and Richard Barnett, son of Mr. and Mrs. C. A. Barnett.

sand-blasting, burying, and isolating the objects or areas found to be contaminated with the tricky gamma rays, and Alpha and Beta particles. Monitoring squads and rescue workers will have to be cleaned when they come in from the field.

6. Exposure histories. The radioactivity to which emergency workers have been exposed will have to be recorded. This can be told from readings on film badges and pocket chambers. If workers get more than their "maximum allowable lifetime dose" of radioactivity, they will have to be kept from getting any more or it could be fatal to them, Dr. Cox said.

ORDER OF ELECTION TO CHANGE FROM COMMISSION TO ALDERMANIC FORM OF GOVERNMENT.

THE STATE OF TEXAS, COUNTY OF BAILEY:

WHEREAS, on the 18th day of September, A. D. 1950, a petition was presented to me, signed by more than ten per cent of the qualified voters of the City of Muleshoe, for an election to be held in the City of Muleshoe on the question of determining whether or not a majority of the legally qualified voters of the City of Muleshoe desire to change from the Commission Form of Government to the Aldermanic Form of Government.

IT APPEARING to me that said petition is in due and legal form and is signed by more than ten per cent of the qualified voters of the City of Muleshoe, and that said city has been duly formed and created under the Commission Form of Government.

THEREFORE, I, in my capacity of Mayor of the City of Muleshoe, Texas, do hereby order that an election be held on the 28th day of October in the City Hall of the City of Muleshoe to determine whether or not a majority of the legally qualified voters of said city desire that the form of Government be changed to Aldermanic form.

I further order that said election shall be held at the City Hall within the city limits of the City of Muleshoe.

I further order that TOM ZIMMER be and he is hereby appointed presiding officer to hold said election and he shall select two judges and two clerks to assist him in holding the same and he shall within the time prescribed by law make due return thereof as is provided by law.

All persons who are legally qualified voters of the State of Texas, County of Bailey and who are resident voters within the city of Muleshoe shall be entitled to vote at said election, and all voters who favor the proposition to change from Commission Form to Aldermanic form shall have written or printed on their ballots, the words:

"FOR CHANGE TO ALDERMANIC FORM"

And those opposed to the proposition to change to Aldermanic Form shall have written or printed on their ballots, the words:

"AGAINST CHANGE TO ALDERMANIC FORM"

Notice of this election shall be given by publishing such notice in some newspaper within the city limits of the city of Muleshoe thirty days, if there be one, and if none, then by posting notices of same at three public places in said city of Muleshoe.

Dated this 18th day of September, A. D. 1950.

H. D. KING
Mayor of the City of Muleshoe.
39-3tc

Defoliation Of Cotton Depends On Conditions

COLLEGE STATION—Oct. 3—Defoliation of cotton, either naturally or with chemicals, is a must if the crop is being harvested with machinery. And even if the cotton is being picked by hand, the speed of picking is increased and a higher percentage of the crop is harvested when the plants are defoliated.

The specific chemical defoliant to use and the method of applying it will depend on the growth of the cotton plants and the weather conditions, according to F. C. Elliott, cotton work specialist for the Texas A. & M. College Extension Service.

When dust defoliants are used, plenty of moisture in the air and a heavy dew on the plants are necessary for satisfactory results. For best results the dew should remain on the leaves for at least three hours after the dust has been applied. Elliott says that the dust may be applied ahead of dew.

Dusting by airplane usually gives better results than applying the defoliants with ground dusting machinery, especially when the cotton plants are large.

In an experiment recently completed at the Weslaco substation of the Texas Agricultural Experiment Station, research specialists found that defoliants can be applied effectively with a ground spray machine in wind velocities too high for the application of dusts. Fenders were used in front of the tractor wheels to prevent damage to the cotton plants, and the spray machine did an excellent job of covering the leaves with defoliant in a ten mile per hour wind.

Elliott advises applying the chemical defoliants after the youngest bolls are 25 days old, but at least two weeks before the first frost is expected. When the cotton is being grown under irrigation on light, sandy soils, the defoliants are applied about 15 to 18 days after the final irrigation. On the heavier soils, 21 to 30 days after

August Draft Quota For State Set At 10,366

AUSTIN, Sept. 25—State draft boards were called upon to furnish 10,366 men for armed forces pre-

the final irrigation is best. If calcium cyanamide dust is being used for defoliating cotton, Elliott recommends that it be applied only when adequate dews are present or expected. Apply at the rate of 30 to 40 pounds per acre.

The spray defoliants are prepared by mixing the chemical powders with water at the rate of one pound of powder per gallon of water. Sprays can be used effectively in the absence of dews and when there is very little moisture in the air.

Ammonium thiocyanate may be used for defoliating fully mature cotton at the rate of ten gallons of spray per acre. When potassium cyanate spray is used, Elliott recommends that it be applied at the rate of seven to ten pounds per acre in seven to ten gallons of water.

Six to seven gallons per acre of a pound-per-gallon solution of sodium pentaborate solution is recommended for defoliating with this chemical spray.

Defoliation with sodium monochloroacetate requires five to nine pounds of powder per acre in five to nine gallons of water. Elliott recommends that cotton growers who use the chemical defoliants check with their local county agents or with the chemical supply representatives in regard to the recommended applications per acre. An over-dosage of some of the defoliants will freeze the leaves on the cotton plants, and an under-dosage also gives poor defoliation.

He also warns farmers to take necessary precautions when applying the chemicals to prevent the rusting of machinery, damages to other nearby crops, and injury to the operator's eyes, skin, and lungs.

induction examination from October 16th through October 27th.

This brings the number of men called for these tests in Texas to 40,516 since the beginning of the Korean conflict, Brigadier General Paul L. Wakefield, state director of Selective Service, said.

First inductions of Texans into the army since early 1949 began on September 18th. More than 2,500 are scheduled to be inducted in September, and a like amount in October, all previously announced and broken down by local board quotas.

A state call of 3,453 for induction in November has been received from National Headquarters, General Wakefield advised. Quotas for local boards for this induction

call will not be issued by state headquarters until early October.

October examinations will be held at Abilene, Amarillo, Corpus Christi, Dallas, El Paso, San Antonio, Houston, Texarkana and Shreveport.

Board No. 4, Muleshoe, for Bailey, Lamb and Cochran County will furnish 54 men for examinations in October.

An announcement by Henry J. Kaiser

The Henry J... the lowest-priced car in the low-price field.

The most important new car in America!

Here today... The

Henry J

Available in two models: Henry J (as illustrated above), Henry J Deluxe (six-cylinder at additional cost).

Important because... it's Smart! Smart to look at... smart to own! Notice the extra-wide doors... front seat 58 inches wide... head room and leg room galore! And—look! The back of the rear seat folds forward, giving you 51 cubic feet of storage space, almost double that of the largest sedan trunk compartment!

Important because... it's Tough! Husky, Double-Channel Frame, reinforced like a steel bridge! The rear axle Hypoid geared, as in most expensive cars. Extra-wide windshield and windows give you the largest vision area in any low-priced car... short turning radius permits the easiest parking.

Important because... it's Thrifty! You get 30 to 35 miles per gallon from the quiet, responsive Super-sonic Engines. (Henry J—4 cylinders, Henry J Deluxe—6 cylinders.)

Lower first cost... lower maintenance... lower repair bills... lower insurance... lower operating cost. Your savings, in just two years, can more than total the down payment on the Henry J.

Built to Better the Best on the Road!

Costs less to buy... less to drive... less to maintain!

WATERMELON FEAST IS ENJOYED BY SORORITY
 Epsilon Sigma Alpha chapter of Epsilon Chi met in the home of Jean Lovelady for a watermelon feast Wednesday night of last week. The general round of business and the pledges for the coming season were discussed. Members attending were Gwyneth Bigham, Lois Witherspoon, Jean Ferrell, Ann Howell, Jane Scott, Dorothy Beddingfield, Ellen Gupton, Marjorie Precure, and the hostess, Jean Lovelady.

Luncheon Honors Mrs. Dale Covert

Mrs. C. W. Grandy entertained with a buffet luncheon in honor of her daughter, Mrs. Dale Covert, who was recently married, Saturday afternoon, September 30, in her country home west of Muleshoe.

Twenty-four guests, all friends of Barbara, gathered at two o'clock for the luncheon and an afternoon of visiting and playing canasta.

Centered on the serving table was a bridal cake decorated with orchid lilies of the valley. Tall white tapers were on each side of the cake.

Mrs. Lud Taylor took moving pictures of the group.

Dodge is first again! NOW! TRUCKS WITH Fluid Drive!

New smoothness! New handling ease!

Yes, gyrol Fluid Drive is now available on Dodge "Job-Rated" 1/2, 3/4, and 1-ton models. No other truck can offer you such smoothness of operation, such ease-of-handling!

When you start, your truck moves forward smoothly. No clutch grabbing! No jerky starts! Smooth application of power is easy on all parts . . . transmission to rear axle gears. Result: long life . . . low upkeep expense.

When you stop, or slow down for traffic, simply apply the brakes. No need to use the clutch! Your engine won't stall. When you're ready to start again, just shift into gear and step on the gas. Result: the smoothest driving you've ever done.

When roads are slippery—in snow or slush, on ice or in mud—rear wheels "take hold" firmly. Any tendency to spin or skid is greatly reduced. Result: time saved . . . safety increased.

Get the complete story of the advantages that are yours with Fluid Drive. See us today for a demonstration of a Fluid Drive Dodge "Job-Rated" truck.

First Baptist Homemakers Class Holds Installation Program

The Homemakers Class of the First Baptist Church met Tuesday afternoon, in the home of Mrs. Aileen Dyer for the installation program. Mrs. Lela Barron had charge of the program. The opening song as led by Mrs. Truma Griffiths, prayer was given by Mrs. Claudia Hinkle.

Officers installed were Presta Hale, teacher; Aileen Dyer, president; Bessie Harlan, vice-president; Myrtle Harper, fellowship; Grace Winn, stewardship; Ellen Spence, 1st group captain; Beulah Motiferal, 2nd group captain; Vivian Morris, secretary and reporter.

Beulah Motiferal was presented with a red rose corsage, she is the one that organized the Homemakers Class and is a very faithful worker. The new teacher, Mrs. Presta Hale, was presented with a corsage.

Mrs. Bessie Harlan, outgoing teacher, was presented a gift from the class as their thankfulness for her faithfulness during the past year.

Truma Griffiths favored the group with some special songs. A

letter from Miss Blanche Groves, a missionary in China, was read. Mrs. Harper passed out the year books.

Those present were Mesdames Bessie Harlan, Myrtle Harper, Beulah Motiferal, Ellen Spence, Lois Shook, Grace Winn, Bessie Haines, Myrtle Maxwell, Emily Snow, Claudia Hinkle, Lovie Benson, Presta Hale, Vivian Morris, Truma Griffiths, and one guest, Mrs. Gene Cox, who assisted her mother in serving refreshments.

Mrs. Hale dismissed the meeting with a prayer.

Sunshine Club Meets Kolar Home

The Sunshine Club met Thursday, September 28, in the home of Mrs. L. V. Kolar.

The meeting was called to order by the president, Mrs. Kolar, and roll call was answered by each member reading a verse from the Bible.

The club apron was passed around and club finances were also discussed. A motion was made and carried to have a Christmas Bazaar. Items suitable for Christmas gifts and baked goods will be sold. This sale is to be December 9th, but the place was not decided upon. The money is to be used to help needy persons for Christmas.

It was decided to have a canned food shower for a family that has had sickness. Members are asked to bring their jars and cans to the next meeting.

Several songs were sung and games were played. Mrs. Kirk read "Out To Old Aunt Mary's" and Mrs. Simmons read the "House by the Side of the Road."

Delicious refreshments of marble angel cake, cocoa and coffee were served to the following: Mesdames Wimberly, Hart, Patterson, Williams, Stas, Gatlin, Barnhouse, Wilkinson, Kirk, Simmons and visitors Mesdames Dave Stovall, S. Goucher and Randolph.

The next meeting will be October 12, in the home of Mrs. George Chambliss.

Shower Honors Mrs. H. Thomas

A "come and go" wedding shower honoring Mr. and Mrs. Hoshell Thomas was given Monday night, October 2, from 7:30 to 9 o'clock in the Fellowship Hall. Mrs. Thomas is the former Miss Alvera Blackwell.

Mrs. John Dudley, Mrs. Ott Testerman and Mrs. Ebb Thomas presided at the punch and gift tables.

Guests were met at the door by Mrs. Jimmy Brown and registered in the guest book.

Yellow and green drapes decorated the tables where the gifts were attractively displayed. Mums and dahlias carried out the floral decorations.

A lovely lace cloth covered the serving table which had a centerpiece of red dahlias.

Cake, coffee, and punch were served to about 70 guests.

Rainbow Assembly Installation Held

The banquet room of the Masonic hall was the scene of public installation of Rainbow for Girls, last Sunday, October 1, in which Miss Jeri Nell White was installed as Worthy Advisor.

The hall was beautifully decorated with yellow fall cut flowers and greenery. On each color station was a flower bowl in which was placed a large yellow mum. Peggy Robinson was installing officer.

At the close of the installation ceremony, Miss White had her parents, Mr. and Mrs. Thurman White, introduced behind the bow, they were then escorted to the East, where she presented her mother with a beautiful corsage of three baby vanda orchids, and Mr. White a white carnation boutonniere. Miss White's grandmother, Mrs. W. H. White was also present for the installation.

During the program, Peggy Robinson was presented a past Worthy Advisors pin in behalf of the Assembly in appreciation for the work she had done.

Mrs. Juanita Roberts sang "Dear Lord and Father of Mankind" accompanied by Mrs. Helen Gardner at the piano. At the close of the program, Mr. C. W. Walker, uncle of Miss White gave the benediction.

The refreshment table was laid with a lace cloth, the center piece being a bowl of yellow cut flowers. The large cake was decorated in yellow and orchid with the name Jeri in the center.

Miss White served the cake while past Worthy Advisor, Miss Robinson presided at the punch bowl.

ATTEND CANYON-MCMURRY GAME

Among those from Muleshoe who attended the football game at Canyon Saturday night were Mr. and Mrs. Paul Gardner, Mr. and Mrs. H. C. Holt and Mr. and Mrs. Horace Holt and family of Amherst.

Society News

(THE MULESHOE JOURNAL, Thursday, October 5, 1950)

Installation Luncheon Held By Baptist Fidelis SS Class

The Fidelis Class of the First Baptist church of Muleshoe met in the home of Mrs. Ray Griffiths Thursday, Sept. 28 for a covered dish luncheon and installation service with 33 members and three visitors present. Mrs. Cecil H. Tate was installing officer. Mrs. Clifton Green, outgoing president, called the house to order at 2:30.

Mrs. Tate used as her theme a miniature football field, the football representing Christianity and each officer representing certain positions on the team, by proper teamwork showing to others the way to Christianity.

Each officer was presented with a corsage of golden marigolds and purple ribbons. The flower itself represented the Virgin Mary, and the ribbon represented the robe in which Christ was crucified.

Officers installed were: Mrs. Ray Griffiths, teacher; Mrs. Ed Johnson, assistant teacher; Mrs. C. M. King, president; Mrs. R. D. Preure, vice president; Mrs. Arlie Thomas, secretary; Mrs. L. C. Roddam, assistant secretary; Mrs. W. M. Pool, Jr., corresponding secretary; Mrs. W. B. McAdams, recording secretary; Mrs. J. V. Peeler, treasurer; Mrs. T. C. Young, reporter.

Miss Ray Buster, a visitor, also a missionary to Brazil, gave some interesting thoughts on Brazil, and gave some facts about Miss Laurdes, the girl in Brazil who the Fidelis Class is educating for a missionary to her own people. Miss Buster passed out some pictures of Miss Laurdes made in different departments of her study.

A motion was made and carried that we open our birthday bank and contents to be sent to Miss Laurdes for needed expenses for her graduation, which will take place in November.

Announcement was made of the next regular meeting, October 5, in the home of Mrs. A. W. Crow. Everyone is urged to come and help start the new year off with good attendance.

Library News ...

One new book has been added to the Library shelves this week, it is "The City In the Dawn" by Harvey Allen. This book is a historical novel.

Visitors are welcome at the Library at any time. The hours are 1-5 p. m. each day except Saturday and Sunday.

Lazbuddie WSCS In Meeting

The Lazbuddie W. S. C. S. met at the Church, Thursday, October 28, with 10 members present.

The meeting opened with Mrs. Dixon playing "Break Thou The Bread of Life." Mrs. J. L. Seaton read Mark 4:1-20 followed with a prayer by Mrs. H. W. Carpenter.

The study, "The Near East," was introduced by Mrs. H. W. Carpenter. She brought the purpose of this study, the geography and the problems of the people and the gifts which have been handed

down to us from the near East, followed by a Moslem tea.

Mrs. Beverley brought the illiteracy and the human rights of the people of Algeria.

Mrs. Silas Dixon brought the introduction of Islam, the birth of Mohammed.

Mrs. H. L. Ivy brought the Oriental Carpet, the Arabic people and their culture.

The meeting was adjourned by each repeating the Lord's Prayer.

NAVY ENLISTMENT QUOTA FOR OCTOBER IS DOUBLED
 Lieutenant Commander Marcus N. Howard, officer in charge, Navy Recruiting Station, Albuquerque, announces that the quota for first enlistments for the month of Oct. in the West Texas-New Mexico area will be about twice that of September's quota. This new quota should clear up the waiting list of applicants and make rapid enlistment possible for new applicants.

RECENT VISITORS
 Recent visitors in the home of Mr. and Mrs. Chester Colson and family were her sister and husband Mr. and Mrs. Ralph Proffitt of Gamaliel, Kentucky and Mr. and Mrs. L. C. Parker of Lafayette, Tenn.

BABSON DISCUSSES RUN-DOWN FARMS

NEW BOSTON, N. H., Sept. 29—In view of the Korean situation I wish to repeat some advice which I have given before. It is not written for those who live in small self-sustaining cities or rural communities. Rather, I am writing for those in New York, Chicago, Philadelphia, Detroit, Los Angeles, Cleveland, Baltimore, St. Louis, Boston, Pittsburgh, and Washington, D. C. In some one of these cities almost every reader has relatives or friends. When World War III does come, some one or more of these 11 cities may suffer a terrible loss of life.

Readers who live in the Central West are especially fortunate and have nothing to fear. You are in "the richest in time of peace and the safest in time of war" of any part of the U. S. Probably every state has some similar safe, productive and attractive sections. Readers who live in such places should be very thankful. With the above introduction I will sail ahead.

WHAT HAVE I DONE
 For some time my Statistical Organization has been building a branch here at New Boston, N. H. for use in case of World War III. We bought an old brick building which we could use for offices and several nearby homes in which we could house a limited number of executives. We believe that many more business concerns in each of these vulnerable cities should do the same thing. We all

owe it to our customers and clients. Most employers have summer places to which they personally could flee, but such places do not provide an emergency plant or emergency offices.

I, however, have not been content to do only this. Hence, I have been picking up some old farm houses to which the families of our employees could move. These are from one to three miles from our Emergency Plant at New Boston, a distance which could easily be covered with a horse and wagon if no gasoline is available! Such modern conveniences and can be bought for one quarter what it would cost to build them today.

The authorities tell me that to be absolutely safe one should be about 60 miles away from any of the above big cities. It also is important to be in a locality where there is a bountiful supply of water, food and fuel which makes it independent of railroad transportation. This last requirement rules out many places which are good for summer residences but are not self-contained. Hence, I prefer a small acreage of fertile land which—in an emergency—could support a family. If it now has a house on it, so much the better.

I am sure that property in these large cities will decline in price and small surrounding farms will increase in price until peace is made with Russia. The purchase of such need not be considered an investment any more than an insurance policy is an investment. Such a farm would give a family wholly dependent thereon only a meager existence. The same time and energy spent on a city job would pay three times as much as if expended on this farm;—but for employees who work in a large

Winter Legume Planting Time is Here Now

The time for planting winter legumes for soil improvement and seed production is here again. In most areas, the best time for fall planting is from the middle of September to November 1—not later than November 15.

E. A. Miller, agronomist for the Texas A & M College Extension Service, says that the legume to plant depends upon the section of the state in which you live. He adds that hairy vetch, Singletary peas, Austrian winter peas, Dixie wonder peas and crimson clover are good winter legumes to plant in the East Texas Timber Country. Common and Willamette vetches are also adopted to the southern half of this region.

The annual yellow blossom sweetclover, *Melilotus indica*, is the most desirable legume to plant in the Gulf Coast Prairie, but the other legumes named above can also be grown. Hubam and Madrid sweetclovers do well in the river valleys. Miller recommends that Hubam and Madrid sweetclovers be given first choice in the Blackland region because of their ability to increase crop yields, reduce losses from cotton root rot, and open up the soil with their deep root systems. He says the Evergreen biennial is also an excellent sweetclover for this area, but seed of this variety are still scarce.

Hairy vetch and winter peas are also adapted to the Blackland region, but they are not as effective in controlling cotton root rot as the sweetclovers. Miller recommends planting the sweetclovers in the fall in the area south of Waco, but he points out that they

city, it is an excellent insurance policy.

FARMS AS INSURANCE

This is not a recommendation that educated young or old people try to get a living on such a farm. The experiment would probably end in disappointment. Such farms are useful as summer homes for employers and executives within commuting distance, or those who have saved or inherited a modest nest egg. This, however, is an appeal that medium sized corporations provide not only for their owners and the business, but also for their key employees and families.

I believe that more corporations should buy a few of such farms within 20 to 60 miles of their plant. These farms should be fairly close together; they should be expected to pay only enough to compensate for maintenance and taxes. They should be furnished so each house could—in an emergency—take care of four families (with one central kitchen). I repeat: Whatever happens in Korea, there someday will be a World War III. When it comes some of the above cities will be bombed. Old employees, who have not the money to buy and maintain such places of refuge, should be protected in this way by their employers. Time to buy such farms is NOW.

Oct. 10-17 Farm Bureau Week

Governor Allan Shivers has proclaimed October 10-17 as Farm Bureau Week in Texas, and will officially launch Farm Bureau Week on the federation's statewide broadcast to be heard on Tuesday morning October 10, over the Lone Star Chain Network. J. Walter Hammond of Tye, Texas TFBF president, will appear on the program with the Governor. Layne Beaty, WBAP farm editor, will be master of ceremonies and the program will originate from the studios of WBAP in Fort Worth.

Some 8,000 workers in 200 Texas counties will be assembled at broadcast meetings to hear the broadcast before going into their respective counties to ask friends and neighbors to become members of the organization with them. Counties have accepted quotas which will net the state more than 60,000 members in their annual membership enrollment program which will be conducted during Farm Bureau Week. Present state membership is 47,000.

Appearing on the statewide broadcast with President Hammond and the Governor will be Mrs. George Clark of Rosenthal, treasurer of the McLennan County Farm Bureau, and E. H. Hornbrook of Decatur, president of Wise County Farm Bureau.

ARCHITECTURAL COMPETITION DRAWS TEXAS TECH STUDENTS

LUBBOCK, Oct. 3—(Special)—Senior architectural students at Texas Technological College will be eligible to enter a contest sponsored by the Texas Society of Architects.

Other institutions competing include Texas A. & M. College, The University of Texas, Rice Institute, and the University of Houston. Each institution's faculty and staff will screen entries so that only the three top competitors from each school will be entered in the contest.

will probably do better if planted in the early spring north of that area. For the West Cross Timbers area, hairy vetch is the most desirable legume; however, winter peas and the sweetclovers are also adapted to this region. Hairy vetch, winter peas, and sweetclovers are good legumes for the Rolling Plains, and alfalfa also does well in this area of the sub-irrigated soils.

Miller says that alfalfa is the principal adapted legume to be grown under irrigation on the High Plains and in the El Paso and Pecos valleys, but the biennial sweetclovers, hairy vetch, and winter peas can also be grown under irrigation in these areas.

TODAY'S meditation

The Upper Room
 © THE UPPER ROOM, NASHVILLE, TENNESSEE
 THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

ONE FAMILY IN CHRIST
 "... let us build a city and a tower, whose top may reach unto heaven;..." (Genesis 11:4.) Read Genesis 11:1-9.

According to the Bible story, men tried to build a tower "whose top (would) reach unto heaven." One reason for doing so was to make for themselves a name. God confused their language so that they were unable to complete their task.

The story illustrates the universal dilemma. If people seek solely their own security, they will be thrown into confusion. We shall have constructive unity only when we seek security for all.

In the midst of war, Japanese churches were united into one. Some may call it a form-unity, not spirit-unity. Even so, this could never have been effected apart from the language of God. Japanese Christians have learned much through a great experience, an experience of cooperation and fellowship.

PRAYER
 O Father, give us hearts friendly toward all those who know Thee as Lord and acknowledge Thee as Savior. Bind all our hearts together in Christian love. In His name. Amen.

THOUGHT FOR THE DAY
 Am I building for self or God and others?

RIGHT HALF RAY KERSEY is scooting around right end for much needed yardage against the Brownfield Cubs late in the third quarter of last Friday night's game. Following him is Roald Johnson, Jim Gaede and Gerald Byrd. The contingent of Brownfield players closing in are D. Carey (21), D. Murphy (47) and H. Swan (41). Tomorrow night the Mules play Hereford here. (Journal Staff Photo)

Mules Drop Game To Cubs, 19-14, For First Loss Of Season

By Travis Barnett and Harry Linderer

The Mules lost their first game of the 1950 season to the Brownfield Cubs 19-14 here last Friday night when their ground offensive failed to click and their air offensive was hindered by a fast charging and alert Cub eleven.

The loss of this conference game was a blow to the Mules and resulted in being tied for second place with three other district 4-A schools while the Littlefield Wildcats remain the undisputed district champions, having won 17 straight victories, and heading for the state championship again this year.

Last Friday night marked the Cubs second win since the 1948 season, having dropped from the AA to the A football bracket. They defeated the Lovington, N. M. gridsters in their opening game of the season.

Tomorrow night the Mules tangle with Hereford here for the second non-conference game of the season. Hereford has a record of two losses and two wins and should give the Mules lots of trouble. Last week Hereford downed Friona 34 to 12.

kickoff to his own 38. Muleshoe held the Cubs booted to the Mules 40. The Cubs held and Muleshoe booted out on the Cub 10. Jones skipped to a first down on the Cub 24. Swan then took over and rolled to the Cub 48. Brownfield tried to carry 3 for a first down and the Mules took over on their own 45.

Carey intercepted a Muleshoe pass on the Cubs 35.

FOURTH QUARTER

Carey, unable to pass, skirted right end to the Muleshoe 37 before Harvey, 135-pound guard stopped him. Brownfield gained to the Mules 35 before Mayhugh threw to Carey for 5. Then Willie As dropped Billings for 3 more when Carey punted over the goal line. R. Johnson made 9 and a quarter-back sneak made a first down. Brownfield held and Muleshoe booted short to the Cub 45. Then the Mules held and Brownfield punted out on the Mules 30.

Nickels passed to G. Byrd on the Brownfield 43. Carey stopped the Mules threat when he intercepted a Nickels pass on the Brownfield 20. Carey went all the way but an official detected him stepping out of bounds on the Brownfield 32.

CARD OF THANKS

We want to thank each one for their gifts, flowers, and cards and helping us during my husband's illness. Thanking you again, Mrs. J. R. McPike and Richard

Amarillo Men Here Oct. 12

More than 100 business and professional men of Amarillo will visit Muleshoe on Thursday, October 12th, arriving by special train at 3:00 p. m.

This goodwill tour is sponsored by the Amarillo Chamber. The goodwill delegation will be headed by A. F. Madison, Vice-President of the Amarillo Chamber.

Accompanying the goodwill trip- pers will be the Amarillo College Band of which Charles Kiker is Director.

After a welcome address and a brief response by one of the visitors, the band will present a concert.

Souvenirs will be available for the kiddies.

Hornets Beat Canyon, 13-12

Sudan Hornets beat the Canyon Eagles Friday night, by a close score of 13-12.

The game got off to a thrilling start when Sidney Plant, left half-back on the Class A Eagles, intercepted a Sudan pass and went 60 yards for a touchdown.

In the second period Don Whitney scored for the Class B Hornets on a 42 yard run, climaxing a 77 yard drive. Whitney carried for the extra point.

Sudan drove 69 yards in nine plays for the second touchdown, Bobby Crouch driving over from the 3 yard marker.

Canyon scored in the fourth on a 57 yard drive, John Miller going over from the 4 yard line.

Hereford Wins Over Friona, 34-12

Hereford ran up a 27-0 score in the first half, then coasted to a 34-12 victory over Friona in a non-conference game there Friday night. Jack Stanton and Dwaine Walker scored touchdowns for the winners in the first period.

Stanton added another in the second and Bill Engman intercepted a pass and ran it back for the fourth score also in the second.

Darrell Robbins ran five yards for Friona's first touchdown in the third quarter. In the fourth, Bill Kelley took a pass from Stanton on a play that covered 59 yards for a Hereford score, and W. L. Cleveland counted for the losers. Hereford plays Muleshoe tomorrow night.

Colts Lose To Brownfield, 35-0

The Muleshoe Junior High Team lost to the Brownfield eleven last Thursday afternoon 35 to 0. The little Mules could not keep up with the fast pace set by the Brownfield eleven.

The faster and heavier Brownfield team out played and out rushed the Mules, scoring easily and deciding the game in their favor in the early quarters.

This afternoon the Mule Colts will tangle with the Levelland Junior high team here.

AWTREY GUESTS

Guests in the W. H. Awtrey home Sunday for a birthday dinner for Mrs. Awtrey's sister, Mrs. E. T. Ward of Portales were Mr. and Mrs. Mack Hale and family, Mr. and Mrs. Dean Awtrey and family and Mr. and Mrs. E. T. Ward of Portales. Mrs. Eula Bryant, mother of Mrs. Awtrey, who has been here visiting for the past two weeks, returned to her home in Portales.

Don't Be Satisfied With Symptomatic Relief!

HADACOL NOW MAKES IT POSSIBLE TO RELIEVE THE CAUSE OF YOUR SICKNESS

Neuritis Pains, Stomach Disturbances, Indigestion, Gas, Constipation, Certain Nervous Disorders and a General Run-down Condition

When due to lack of Vitamins B₁, B₂, Iron and Niacin in your system!

Read How These Folks Benefitted Who Had Such Deficiencies

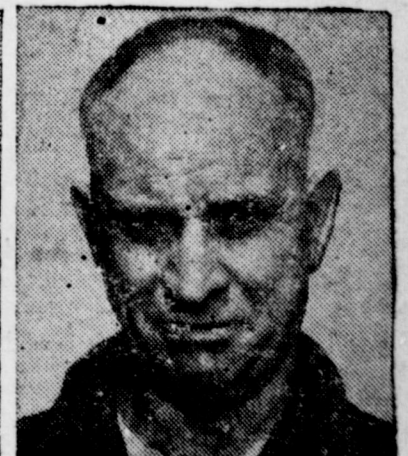

Mr. Anthamatten, 4731 South 32nd West Ave., Tulsa 7, Oklahoma, suffered from stomach distress for quite some time. He had spent much money trying everything possible for relief and was in bad health when he started taking HADACOL. He says, "After taking three bottles of the \$3.50 size, I've gained 27 pounds and now eat anything I desire and positively have no trouble." (HADACOL gives such wonderful results because it actually relieves the REAL CAUSE of stomach distress (gas pains, heartburn, indigestion, after eating) due to such deficiencies. And continued use of this great HADACOL helps prevent such distress from returning.)

Mrs. Mabel Kitchen, 1650 Amsterdam, Cincinnati, Ohio. "Before I started taking HADACOL I had aches and pains of neuritis in my shoulders, my back and arms. I could hardly move without having those terrible pains. Then I heard about HADACOL. After the second bottle the pains and aches were about gone. I'm now starting my fourth bottle and am on top of the world. I eat well and, best of all, the aches and pains are completely gone." (Mrs. Kitchen is a very smart woman because she relieves the REAL CAUSE of her neuritis pains due to such deficiencies. HADACOL often brings a wonderful improvement within a few days' time.)

Mrs. J. Sciassinski, 514 Kruger, Ottumwa, Iowa, writes: "My daughter, Marilyn Sue, is 5 years old and for some time lacked pep, had a poor appetite, was generally run-down. Since giving her HADACOL, we have noticed wonderful results . . . she has a much better appetite, eats everything on the table and doesn't seem tired like she used to. Incidentally, she likes to take HADACOL, too." (HADACOL is a great 'builder-upper' for sick, nervous, puny kids whose systems lack precious Vitamins B₁, B₂, Iron and Niacin. A big improvement in their well-being is often noticed within a few days' time after taking the great new HADACOL.)

Mr. Henry Angel, RD No. 1, Springfield, Ohio. "I used to suffer great pain from neuritis aches in all parts of my body, especially in my legs, arms and shoulders. I never got any real relief until I tried HADACOL. After taking several bottles, my pain is all gone. And I'm working every day." (Now there's a smart man! Mr. Angel took HADACOL and relieved the REAL CAUSE of his neuritis pains because they were due to such deficiencies. HADACOL is helping thousands upon thousands of grateful men and women troubled this way. Why don't you give HADACOL a chance to help you? Start taking it today!)

IMPORTANT!

Why don't you get that wonderful HADACOL feeling everyone is talking about? In this modern age, wise folks are no longer satisfied with symptomatic relief — because now it's possible to relieve the cause of such deficiency sickness with that wonderful new HADACOL. HADACOL not only supplies deficient systems with extra quantities of

Vitamins B₁, B₂, Iron and Niacin but also helpful amounts of precious Calcium, Phosphorus and Manganese — vital elements every human being must have to maintain good health. You owe it to yourself to give HADACOL a fair trial. Many doctors recommend this great new HADACOL. It's sold on a strict money-back guarantee. Trial size, \$1.25. Large family or hospital size, \$3.50.

HAVE NEW SON
Mr. and Mrs. G. W. Fine of Watson community are parents of a 7 pound boy, born in Morton hospital.

Thanks

I wish to thank all my friends and customers for their fine patronage during the time I operated the City Cafe. I heartily recommend the new management to you and hope you will see fit to continue your patronage there.

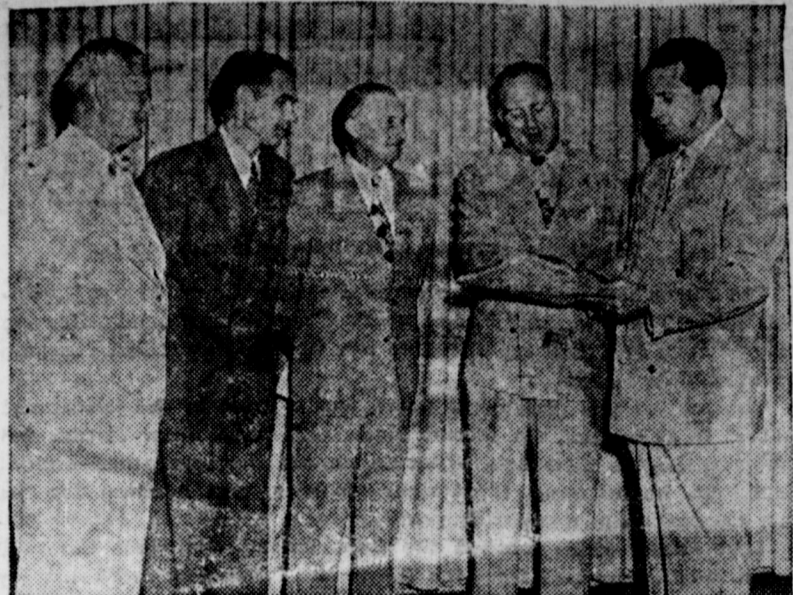

Gladys McWilliams

FORMAL OPENING, DEDICATION CEREMONIES McMURRY COLLEGE

Formal opening of Radford Memorial Student Life Center and Dedication ceremonies will be held at McMurry College October 10-11. Bishop A. Frank Smith, Dr. Ray N. Johnson, Bishop H. A. Boaz, Bishop Charles C. Seelman, Bishop Paul E. Martin, Bishop W. Angie Smith and Bishop William C. Martin will give the addresses and perform the ceremonies. There are to be luncheons and barbecues during the two day ceremonies. Those desiring reservations will please notify Housing Committee, McMurry College, Abilene, Texas, stating number in party, dates and kinds of accommodations.

TO AUSTIN

Mr. and Mrs. T. C. Young and Mr. and Mrs. Miller and daughter, of Sudan visited in Austin over the week end and attended the Texas-Puduc football game. The Youngs visited their son, Jack, and the Millers visited their son.

Newly elected officers of Better Texas Pastures, Incorporated, receive files of the organization from Governor Allan Shivers, far right, who recently proclaimed a pasture decade for Texas and appointed a state wide pasture committee which formed the new club. The officers are, left to right, E. L. Boston of Angleton, Treasurer; Dr. Bruce McMillian of Overton, Secretary; Tommie Brooks of Camp San Saba, Vice-chairman; Clyde W. Voyles of Austin, Chairman; and Governor Shivers. Purpose of the newly organized group is to assist all agricultural efforts in improving Texas pastures.

Mix Shipment Damage

Packers throughout the country are reporting damage, running into millions of dollars, from the mix shipment of cattle and hogs. The hog carcass (left) shows result of trampling by cattle in mixed shipment, with bruised meat trimmed out, as compared with an un-damaged carcass at right.

SHEPHERDS COME THROUGH

Mr. and Mrs. John Ben Sheppard and family came through Muleshoe Saturday on a Santa Fe train and were visited for a few minutes while the train stopped by their old friends, Mr. and Mrs. Ray Keeling. At the same time they showed Mr. Sheppard the fine new Buick automobile which Sheppard had purchased while on a visit to the JayCee Club here a few weeks ago. Mr. Sheppard is Texas Secretary of State. They will stop here on the way back and take over their new car.

BLACK ELECTED SUPERVISOR

The Blackwater Valley Soil Conservation District of Bailey County held an election Tuesday afternoon October 3, in the district courtroom. B. H. Black, Muleshoe, Route 2, was elected supervisor of Subdivision No. 2.

FROM ARLINGTON

Tip Horsley of Arlington, Texas, visited his brothers, R. G. and J. S. and their families last Friday.

BEAUTY News & Views

By TONI WOODWARD-ANS

DEAR SCHOOL-AGER, I see a change for you—a change of places and a change of faces, all grouped in a school room bent on cornering new wisdom, new friends and a new life in general. "Beauty is as beauty does" it is said—for the face reflects our thoughts and our mirror gives us an opportunity to see how we are doing, so give a little thought to make-up, for first impressions are always most important—all views in which we heartily believe. The news however, this week, is a new exciting Magic Red make-up line—of lipstick, rouge and nail polish, all perfectly matched. Avon, the creator, says: "Fall's fashion colors have set the stage and Magic Red adds a dazzling accent—natural, alive and vibrant. Not that it is overly bright, on the contrary it is rich warm and lively and most of all natural. The result is that it can be worn by any type person—blonde, medium or brunette with all of autumn's new fall colors." This means, incidentally, that you don't have to be weighed down with a cosmetic wardrobe the size of a television star's, this year, to have the equipment for perfect make-up at your finger tips.

"Cry Rooms" For Local Theatres

"Cry Rooms" have been installed at both the Valley and the Palace Theatres for the convenience of folks who wish to bring their young babies to the show. Mrs. Hertha Walker said the mothers may retire to these rooms when desired so that the baby will get over his fretful spell. It is another step by the local theatres to enhance the pleasure and comfort of their patrons.

GOODLAND FOLKS HERE

Mrs. L. D. Sanderson, Jr., and Mr. and Mrs. E. L. Gragg, of Goodland, were in the county seat on business Wednesday. The Graggs operate the store and postoffice in Goodland. Gragg modestly admits that he is the mayor of Goodland, also J. P., president of the civic club, C. of C., and of the Goodland Riding Club (membership one), and supervises the employment agency. He says he is a busy little bee.

BROTHER IS ILL

Mrs. Pauline Tunnell, who is employed as bookkeeper by the Muleshoe Gin Co., was called to Lubbock Tuesday because of the illness of her brother, Jeff Wells. Mr. Wells is known by several persons here as a missionary and a pastor of a Lubbock church for a number of years.

Feed Grinding For Small Pigs Is Not Economical

Dick Carlisle, livestock specialist in the Illinois College of Agriculture, reports that pigs under 150 pounds chew their food so well that farmers seldom save enough feed by grinding to pay for the cost of grinding.

But for hogs above 150 pounds, grinding will save about five percent of the corn. If the cost of grinding 100 pounds is less than the value of five pounds, it pays to grind for hogs over 150 pounds.

CHRISTIAN SCIENCE SERVICE
"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 8.

The Golden Text is: "Salvation belongeth unto the Lord; thy blessing is upon thy people" (Psalms 3:8).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Know therefore this day, and consider it in thine heart, that the Lord he is God in heaven above, and upon the earth beneath: there is none else" (Deuteronomy 4:39).
The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "All reality is in God and His creation, harmonious and eternal. That which He creates is good, and He makes all that is made" (page 472).

ENTERS TSCW, DENTON

DENTON, Tex., Oct. 4—Miss Mary Irene Shanks, daughter of Mr. and Mrs. R. A. Shanks, recently enrolled for the fall term at Texas State College for Women.

One hundred and eighty-four out of 254 Texas counties are represented in the registration figure as well as 19 foreign students from 10 foreign countries and 284 registrants from 30 other states.
Housing facilities are the best in the college's history as all girls are housed in brick, fireproof, modern buildings. An upperclassmen dormitory is under construction and is scheduled to be completed in time for the second semester.
A new dining unit, Hubbard Hall, seating 2400 accommodates the entire student body at one time.

EMPLOYMENT OF HANDICAPPED STRESSED THIS WEEK

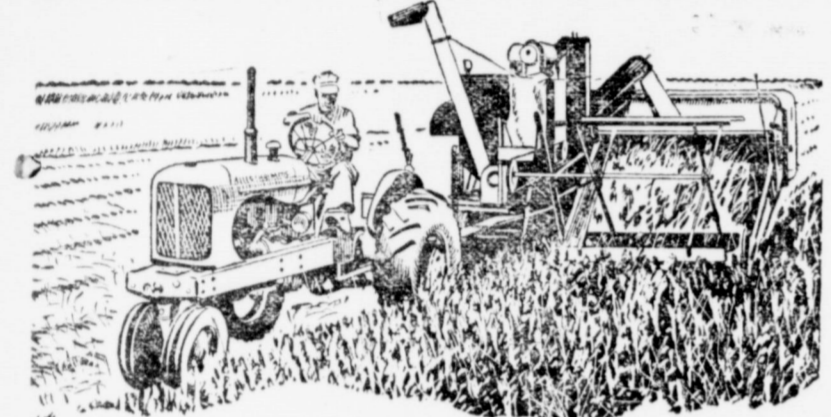

Employers from the largest cities to the smallest hamlets will join hands this week to observe National Employ the Physically Handicapped Week in accordance with a proclamation issued by Governor Allan Shivers in Austin Wednesday.

The Governor has set aside Oct. 1-7, 1950, as a week in which all-out efforts will be made to place in gainful employment a major

portion of Texas' disabled workers. "NEPH Week will see Federal, State and local agencies of government collaborating with many private ones, and with business and industry, in organized and directed effort to develop for greater contribution to the national welfare and security, a large segment of the most precious of our country's resources—a human work potential heretofore largely neglected or entirely wasted," Governor Shivers said.

HERE'S THE "LOW-DOWN" ON SUCCESSFUL BEAN HARVESTING

1. A header with down-slanted guards to comb out low-hanging beans; straight-back draper movements to keep sickle clear. Hydraulic lift for any standard ASAE remote ram (hand lift optional).
2. Rubber-cushioned shelling contacts to avoid crackage; five feet of cylinder width to handle crop in a thin stream.
3. Air blast separation and oversize straw rack for better cleaning and more beans in the bin.
4. Your own machine, priced for individual ownership on family farms, designed for power take-off operation with any full 2-plow power.

TASTEFUL COOKING

* of course, it's electric!

... and with ease! Yes, cooking electrically these days IS easy and fast. Top-of-range elements heat instantly... give off uniform heat to assure fast, even cooking. Cooking electrically IS easy but baking, it seems, is still easier. Baking electrically is as automatic as can be. You place your mixings in the shining oven, set the controls, then, if you want, go to an afternoon movie or have fun on a shopping trip to town. When you return your baking has been done for you... and that honey-of-an electric range has even shut itself off. You'll love your electric range... your husband will love the meals you cook on it. He'll compliment you on the flavor of the food... not just one time but every time. Why not see about your electric range tomorrow?

THERE'S AN ELECTRIC RANGE TO SUIT YOU
Thirty makes of electric ranges are represented in the Panhandle-Plains-Pecos Valley-Eastern New Mexico area served by Your Public Service Company. These thirty makes offer many, many models... one for your needs. Visit the electric appliance dealers in your city... see the many makes and models of electric ranges now available.

SOUTHWESTERN PUBLIC SERVICE COMPANY

World Renowned Road Record for Economy and Long Life

Thoroughly Good—and Looks it!

Wherever you drive, you are certain to see a great many new Pontiacs—for two reasons. First, more people are buying new Pontiacs than ever before. Second, Pontiac, with its distinctive Silver Streak styling, just can't help being seen and admired. Pontiac is a stand-out, too, for performance, dependability, and real economy. Come in and see the new Pontiac any time.

Dollar for Dollar you can't beat a PONTIAC

This Winter

Winter can be tough on you... but tougher on your car! Sub-zero temperatures slow your starts, cut down your power. Corrosive combustion acids—created by winter driving—cause extra engine wear that cuts down your gasoline mileage.
That's why it's so wise to protect your engine with the winter grade of new Conoco Super Motor Oil.

Dejected?

Protected!

get **Super Protection!**

Change now to the amazing new Conoco Super Motor Oil... proved by two winters' testing in the freezing cold of the Colorado and Montana mountains to be the great new winter wear-fighter! Conoco Super Motor Oil safely gathers up acids and harmful moisture... flushes them out of your engine when you drain!

Want instant starting, lightning pickup, surging power? Then drain and refill with the winter grade of new Conoco Super Motor Oil.

Ask Your Mileage Merchant About: "50,000 Miles No Wear!"
