Color Picture Of CHS Seniors To Be Friday

The color picture of the Cisco High School seniors will be made on Friday, August 29, at 10:00 a.m. in the front yard of the Kamon House. The address is 1304 Avenue L.

This is the color spread for the 1981 Lobo Yearbook. All seniors need to be present and wear neat clothing - clothing that would be appropriate for school.

The picture must be made at this time in order to meet the deadline of the yearbook publisher.

Work Night

The Cisco Booster Club would like to ask for your help for a work night at Chesley Field, Thursday, August 28th, to help prepare the field for the Loboes. Work time will be 7:30 p.m. Anyone interested is asked to meet at the field, coaches will assign jobs.

See you there! **Scranton Cemetery Association To**

Knox of Eastland.

The Willis Parkers and Sutton Crofts have returned from a two week trailer trip through to the cool, cool mountains of Northern New Mexico and Colorado (and they wish they were back there).

While spending several days at Camel Rock Trailer Park above Santa Fe they took side trips to the Picuris Pueblo Indian Festival to the cliff dwellings of Bandolier National Monument, and to Taos (but they didn't see the Jerry Pruitts).

In Durango, Col-orado, they did meet the Morris Whites, who had come down from their summer home at Vallecito Lake for the County Fair, where Dorothy White took three blue ribbons and the grand champion-

Austin--The Texas long Labor Day weekend because of the increased volume of traffic which can be expected.

Colonel Jim Adams, director of the DPS, said "Labor Day, the last holiday of summer, becomes the last holiday-period-for far too many rexans and many more have their holiday ruined by a traffic accident.

"Our Statistical Services Division of the DPS, has predicted that 45 persons may die during this 78-hour period. In order to provide maximum protection for the driving public we are placing additional Troopers on the highways. Most will be in well-marked, black-and-white units, although unmarked units will be utilized to detect those determined violators who make the highways unsafe for others." He also said they will be especially watchful for drunken drivers.

Col. Adams said "we can easily overcome the predictions if motorists comply with the speed limits, use their seat belts, avoid driving while impaired by alcohol or drugs and watch out for the other driver."

A U.S. Treasury study has shown that 70 percent of the personal income taxes in this country are paid by people whose annual income exceeds \$17,000.

Provisions of the Tax Reform Act of 1976 have a great impact on mediumsized estates (taxable assets totaling \$500,000) say the experts at the American Society of Chartered Life Underwriters. That figure includes equity in a home or homes, life insurance, investments, pension or profitsharing plans, other deferred compensations and personal property

Delta Kappa Gamma

The Executive Committee and the Program Committee of Beta Upsilon Chapter of Delta Kappa Gamma International met August 21, 1980 in the Bank Building, Cisco, Texas at 10 a.m. in an all-day work session under the leadership of the President, Dr. Anna Auvenshine. Each member brought a sack lunch with dessert and drinks being furnished by the President.

Policies for the Chapter were established by the Executive Committee and recommendations were made to be presented to the

Chapter. Using the theme, Quality of Life, with "Future" "Educators" as the two key words, the Program Committee planned the activities

for the 1980-1981 year. Quality programs were designed for the chapter's future growth and interest with a variety of types of meetings as an added enrichment.

Those attending were Anna Auvenshine, President; Evelyn Kirk, 1st Vice-President and Program Chairman; Louise Taylor, Recor-Secretary; Adeline Meredith, Research Committee Chairman; Ileane Personal Beck. Growth and Service Chairman; Melba Aaron, 2nd Vice-President; Catherine Golemon, Past President and Communications Chairman.

While most Vietnam Era veterans now agree with a majority of the public that America should have stayed out of Vietnam, these same veterans are glad they served their country and would serve again if asked to.

This was among the findings in a survey conducted for the Veterans Administration by Louis Harris and Associates, which was released today by Max Cleland, Administrator of Veterans Affairs. The study was ordered by President Carter "...to better understand some of the issues that will continue to confront the Vietnam Era veteran."

The survey reflects strong patriotic feelings on the part of veterans, despite disillusionment with the war and a great deal of bitterness about their treatment after the war. Ninety-one percent of the veterans serving in Vietnam agreed with the statement: "Looking back, I am glad I served by country." Two-thirds of Vietnam veterans say that they would

serve again if asked. The survey also confirmed an advance sample finding that although only one in five Americans still supports America's involvement in the Vietnam war, a great majority of the public has a high regard for the veterans

who fought that war. Cleland said, "It appears that the public is finally separating the war from the warrior. Despite the unfriendly reception the Vietnam veterans received when returning home, which is verified in the survey, this group of veterans is beginning to find some understanding and sympathy among the American people.'

There also is evidence that most veterans of the Vietnam Era are adjusting well to civilian life, although there remains much to be done in healing the physical and psychological scars. Cleland said, "The survey underscores the need for efforts such as the VA's new readjustment counseling program for Vietnam Era veterans. Since its authorization by Congress late last year 'store-front' Vet Centers have been opened nationally to help those veterans who most need help with readjustment problems," he add-

Louis Harris and Associates interviewed 7,000 persons nationwide between November 1979 and March 1980. They fell into four groups: the general public, Vietnam Era veterans, educators and employers. The surveys are the most thorough and comprehensive ever undertaken of attitudes towards Vietnam Era veterans. An addvance sample survey of the general public was released last November.

According to the independent Harris Survey, soldiers who had not completed high school at the time they went ot Vietnam were almost five times as likely to have seen heavy combat as those who had completed college.

Administrator Cleland said, "These same educationally disadvantaged veterans were identified as needing additional assistance in President Carter's message to Congress. Congress is currently considering the President's request to extend the GI Bill time limit to provide educational benefits targeted specifically to strengthen occupational skills of this special group. I urge Congress to pass this legislation to insure these veterans have ample time to pursue

this necessary training.' The completed survey also showed that Vietnam veterans feel they have more serious problems than combat veterans of the World War II era, and the public, educators and employers agree. A majority of World War II and Korea veterans also feel Vietnam veterans have more serious problems than combat veterans of earlier wars. Significantly, recognition of the special problems facing Vietnam veterans is greatest among those groups which were most opposed to the war.

The survey also found that while the public and veterans are in substantial agreement that news media have had a significant effect in shaping American attitudes about the veterans of the Vietnam Era, they differ

Keep egg noodles no more than six months, she recommends.

PREPARATION

Cook pasta to tender yet firm stage but not sticky. Add pasta to rapidly boiling, salted water, and cook only until tender.

Thich pastas require more water. Avoid overcooking pasta-it becomes soft and mushy

Shorten the cooking time if pasta will be used in a combination dish that needs further cooking.

Cook pasta just before serving, Mrs. Sweeten continues.

DPS Urges Motorists To Be Extra Careful This Labor Day

AUSTIN -- The Texas Department of Public Safety has urged motorists to be "exceptionally careful" during the long Labor Day weekend becasue of the increased volume of traffic which can be expected.

Colonel Jim Adams, director of the DPS, said "Labor Day, the last holiday of summer, becomes the last holiday-period-for far too

many Texans and many more have their holiday ruined by a traffic accident.

"Our Statistical Services Division of the DPS, has predicted that 45 persons may die during this 78-hour period. In order to provide maximum protection for the driving public we are plac-

ing additional Troopers on the highways. Most will be in well-marked, black-andwhite units, although unmarked units will be utilized to detect those determined violators who make the highways unsafe for others." He also said they will be especially watchful for drunken drivers.

Col. Adams said we can easily overcome the predictions if motorists comply with the speed limits, use their seat belts, avoid driving while impaired by alcohol or drugs and watch out for the other driver.

Bullock said Texas cities who levy the optional onepercent city sales tax will receive two rebate checks for August.

He said this month's "extra" check will include a large amount of money from second quarter returns filed in the Comptroller's office on the July 31 deadline and normally would have been included in the Sept. payment.

He said one check represents taxes being returned from last month's rebate cutoff through the end of July. The other check is the result of allowing an extra week of tax allocations for cities during the first week of Aug.

The City sales tax is collected by merchants and businesses along with the state sales tax and is refund-Comptroller's office.

Emergency Loans Available From FmHA

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA), Jack Phillips, FmHA county supervisor, said today.

Phillips asked that those who need farm credit as a result of the drought should make their needs known at the Farmers Home Administration office at Eastland

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until May 21, 1981, for physical and production

losses. FmHA loans covering actual physical and production losses may be used to replaced installations, equipment, or buildings, (including homes) lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming (or ranching or aquaculture)

operation. "Funds can be used for essential operating and living costs," Phillips said.

Loans covering actual losses are made at an interest rate of five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon the purpose of the loan.

The interest rate for actual loss loans is five percent. Other loans are being made at an interest rate of thirteen

and one-half (131/2) percent. To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from

other sources. Emergency loans can be used to help the farmer restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficienty and better production.

Time For Pecan Growers To Have Leaves Tested

Pecan growers in Texas should collect leaf samples for zinc analysis during the next few weeks.

Purpose of the analysis is to help growers find out how good a job they did with their zinc spray programs, points out John Cooper, pecan pest management agent with the Texas Agricultural Extension Service, Texas A&M University System.

Inadequate zinc applications will result in stunted trees and reduced pecan

Enclose leaf samples in a plastic bag to prevent moisture loss and take them to the county Extension Office for mailing to the Soil Testing Laboratory at Texas A&M, University. Or mail September is the best time to

If the analysis shows zinc to be less than 60 parts per million (ppm), then the spray program was not sufficient to supply the tree with adequate zinc and reduced production can be expected,

says Cooper. The agent also advises pecan growers to continue their vigilance for black aphids and hickory shuckworms.

********* Putnam News By Mrs. R.B. Taylor

Its the same old story, hot nd dry. We just wonder if it vill ever change. Think we vill go to New Mexico, talkd to the folks up there today. It was raining. All day esterday and today. Mornng temperatures in the 40s. They were sleeping with lectric blanket on.

Charlie Gordon of KRBC is trying so hard to bring us rain. Lets hope and pray that he will do so real soon.

Life still goes on despite the heat and drought. We are thankful that most of our citizens are enjoying fairly good health. We only have one on the sick list.

Loren Everett is still in the hospital at Cisco, but we hear that he is doing nicely. The Senior Citizens met at the Community Center Thursday for their monthly

covered dish luncheon. A good crowd attended despite the heat. The work on the city dump ground is progressing. They have the fence all around it

as soon as permission from Austin is granted. Also work at the Cemetery is going along. The old fence across the front has been removed and the corners leveled in preparation for a

and a pit dug. It will be open

David Donaway of Odessa visited the Milton Donaways several days last week.

Burette Ramsey, Ollie Burnam and Faye Wood of Cisco went to Hamlin one day last week. Ollie's parents are buried there.

Mrs. James Isenhower of Coleman made a trip to Salt Lake City, Utah, last week to a Tupperware convention.

Mrs. Annie Merle McGowen of Pecos spent two weeks in Baird visiting relatives, Mrs. Maggie Cook, Mrs. Fred Heyser and Mr. and Mrs. Howard Farmer. Judy Maxwell, Belinda

and Andy of Albany were visiting in Putnam Tuesday. We still miss them. Mr. and Mrs. John Petty

Parkers And Crofts Return

(Continued From Page One) highlight of the stay in Ouray was a jeep trip up Box Canyon for a catered steak, baked by the beautiful stream. While in the Black Canyon of the Ouray they ran into the Vernon Honeas of

Cisco.

Gunnison was a spectacular sight, and at Three Rivers, north of Gunnison, the party took a raft trip down the Gunnison River, besides driving over some hair raising mountain roads and enjoying the scenery.

On the way to Colorado Springs, they paused to walk over the suspension bridge 1053 feet above the Royal Gorge of the Arkansas River.

One of the interesting events in Colorado Springs was a western show and dinner at the Flying N Ranch. Fourteen hundred people were served at the outdoor barbecue that night. Other trips included a jount up Pikeo Peak and a very bumpy drive through the Phantom Canyon to Cripple Creek. While there the Crofts visited Sandra Turknett Duke and Faye Redwine

Cisco residents. Coming home a good, hard rain in Dalhart encouraged the travellers, but their hopes were dashed when they arrived home to find the same old 100 degree temperatures.

RUIDOSO, N.M.-Without the tourist and horse racing, this community would be a village of perhaps 2,000 people. That's a statement we heard here the other day. And a look around the area bears out the man's

People

thoughts. Tourists have been coming to the Ruidoso region this year in increasing numbers, the CofC office told us. This has likely been the result of the rising costs of gasoline and transportation, for Ruidoso is the closest mountain resort area for Texans and those of the southwest.

The permanent population has been estimated at about 7,500 with the summer figure. several times that number. There are literally hundreds of tourist type businesses motels, restaurants, drivein, gift and art shops, service stations and garages, and

Ruidoso and the area are very scenic with pine trees and greenery. They get between 20 and 30 inches of rain every year. Mountains tower to 12,000 feet. The city is a little over 6,000 feet.

You see quite a lot of for sale signs and there are a lot of sales, we're told. Property values are very high, as you might imagine.

A few days here makes one wonder if arrangements to live in Ruidoso during the summer months wouldn't be real desirable. Day-time temperatures may reach the mid 80s, and the nights are in the 40s and 50s. You see no mosquitoes and few flies.

RUIDOSO HORSE racing features the quarter horse so named because of its ability to run a fast quarter mile (440 yards). Two quarter horse races will have purses of more than \$1,000,000 this year - the All-American Derby on Aug. 24 carries a purse of about \$1,250,000 and the big event, the All-American Futurity on Labor Day will have a purse of \$1,280,000. And the 1981 Futurity purse will be \$1,500,000. The Futurity is an

event for two-year olds. The Futurity cash build-up begins a year or more ahead of race time with horses being nominated with a payment of \$50. Payments are nominees until the final \$750 a few days before the race. In 1978, some 1,500 horses were nominated. The number dropped with each

payment (by elimination etc.) to 301 in August before the Labor Day running. The final field was selected from that group.

There are several hundred

horse owners here for the season that begins in early May and runs through Labor Day. Racing is every Thursday through Sunday . . Trainers get 10% of the winner's purse in each race every day, and the jockeys get another 10% . . . Bettors bought over \$32,500,000 worth of tickets at the windows last year, and 1980 is

year. The racing program calls for 12 races beginning at 1 p.m. and ending around 6 p.m. They have parking for 4,000 cars and seats for 5,000 or so people

Brian Fleming Elected To Angus Assoc.

Brian Fleming, Cisco, has been elected to membership in the American Angus Association, reports Dr. C.K. Allen, executive vice president of the national organization with headquarters in St. Joseph, Missouri.

The American Angus Association, with some 38,000 active life and junior members, is the largest beef cattle registry association in the world. Its computerized records include detailed information on nearly 10 million registered Angus.

The Association records ancestral information and keeps records of production on individual animals for its members. These permanent records help members select and mate the best animals in their herds to produce high quality, efficient breeding cattle which are then recorded with the American Angus Association. Most of these registered Angus are used by the U.S. farmers and ranchers who raise high quality beef for U.S. consumption.
