

GORDON SPOT

By DeMarquis Gordon

Eastland County farmers and ranchers who are certified as private pesticide applicators are now receiving recertification forms. The forms will help the Texas Department of Agriculture (TDA) update department files on licensed applicators.

The recertification program will continue through the summer, and all private applicators must be recertified.

The TDA has been certifying applicators for 5 years. It is necessary to have a certificate to purchase restricted pesticides. Renewal notices are being sent to applicators to update files with current addresses, and delete persons that are inactive, deceased or no longer farming.

If you have moved to a new address and do not get a renewal application, you are not relieved of your responsibility to get recertified.

If you do not get a renewal notice soon contact the TDA district office in Stephenville or the County Extension Office for the appropriate forms. The TDA inspector for our area is Doland Olson. His address is 241 E. McNeil Street, Stephenville, Texas 76401.

Only private applicators currently certified by TDA are involved in the program.

Commercial and non-commercial applicators are not included, as they are required by law to have their licenses renewed annually.

You do not have to be retrained or attend a meeting and there is no fee involved. Just fill out the certificate renewal, fold so that the TDA address is on the outside, place a postage stamp and mail.

People with pecan trees have been calling to ask when they should spray for the second generation pecan nut casebearer. We have found very few casebearers and probably will not need to spray pecans for this insect.

Most pecan trees have a big crop and the pecans are developing very rapidly. They are beginning the "water stage". At this stage of development the pecan trees have a great need for water. If they don't get necessary water at this stage the pecans will begin falling. This is especially true if the trees have a big crop of nuts.

This is also when nuts are infected by the stem end blight fungus. Shucks of infected nuts turn black and the nuts fall off the trees usually by mid-August. If you have had this problem in the past or if you want to protect that good crop, spray

the trees with Benlate or Topsin-M July 25-30. A second application should be made 2-3 weeks later. Stem end blight is usually worse on trees stressed by heavy crop loads, dry soils or hot, dry winds.

We have had a lot of calls concerning leaf drop of fruitless mulberry trees. This is caused by a leaf spot fungus. Mulberry trees are very susceptible to leaf spot and often leaf drop continues all summer. Usually this will not kill the trees, but leaf spot can be controlled with a fungicide such as Benlate for Benomyl at the rate of 1 tablespoon per gallon of water.

WORD of GOD

Remember the sabbath day, to keep it holy.

Six days shalt thou labour, and do all thy work:

But the seventh day is the sabbath of the Lord thy God: in it thou shalt not do any work, thou, nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor thy cattle, nor thy stranger that is within thy gates.

For in six days the Lord made heaven and earth, the sea, and all that in them is, and rested the seventh day: wherefore the Lord blessed the sabbath day, and hallowed it.

Exodus 20:8-11

County Agents Plan Statewide Meeting

ORANGE--Discussions aimed at professional improvement and more effective dissemination of information to meet the needs of Texans will highlight the annual meeting of the Texas County Agricultural Agents Association here Aug. 2-5.

Headquarters for the event, which should attract some 400 county agents with the Texas Agricultural Extension Service, Texas A&M University System, will be the Ramada Inn, points out Hollis Duke, TCAAA president and Atascosa County agent.

Among featured speakers during the four-day program will be noted Mississippi humorist and inspirationalist Jerry Clower, District Judge James Farris of Beaumont, State Sen. Carl Parker of Port Arthur, Extension Service Director Dr. Daniel C. Pfannstiel, and Dr. Perry Adkisson and Dr. O.D. Butler, deputy chancellor and associate deputy chancellor for agriculture, respectively, of the Texas A&M University System.

Clower will be the keynote at the "Man of the Year" banquet on Tuesday evening, Aug. 4. Seven outstanding Texans will be honored at the banquet: U.S. Congressman E. "Kika" de la Garza of Mission, State

Sen. Tom Creighton of Mineral Wells, State Rep. Dan Kubiak of Rockdale, Dawson County farmer and rancher Donnell Echols, Lancaster dairyman and veterinarian Dr. David Smokler, Glascock and Pecos counties cotton farmer Clifford Hoelscher, and Yoakum rancher Raetzsch Wagener.

Another highlight of the meeting will be the recognition of eight outstanding county agents at a noon luncheon on Monday, Aug. 3, with Judge Farris headlining the program. Seven agents will be honored as recipients of the Distinguished Service Award, the highest award given by the National Association of County Agricultural Agents.

They (and their counties) are Kenneth L. Holloway, Moore; Ronny F. McNutt, Childress; Rex Youngblood, Gregg; Duery Menzies, Gillespie; Eddie L. Orum, II, Nacogdoches; James E. Engbrock, Matagorda; and David Wolfe, La Salle. Earnest C. Kiker, Briscoe County, will be honored as the recipient of the National Achievement Award, designating him as the top county agent in Texas with less than 10 years of service.

The first day of the meeting will be devoted to registration, a memorial service, a reception for retired agents and their wives, a golf tournament, and a session for officers and directors.

Butler will address the general assembly on Monday morning. That afternoon county agents and guests will tour catfish, crayfish and Christmas tree farms and demonstration sites in Orange County. The day will conclude with an auction sale for the TCAAA Scholarship Fund.

Director Pfannstiel will address the group on Tuesday morning.

A host of special awards will be presented at the Tuesday noon luncheon which will feature Sen. Parker. Special recognition will be given to county agents for excellence in result demonstration handbooks, public information, and several other program areas. Agents who have retired during the past year will also be recognized.

A reception for "Man of the Year" award winners and recipients of the Distinguished Service Award and Achievement Award will precede the Tuesday evening banquet.

Adkisson will address the meeting at the final session Wednesday morning, which will conclude with the installation of new officers and directors.

Bentsen Testifies On Drug Law Enforcement

Washington--Senator Lloyd Bentsen on Tuesday told a congressional subcommittee that Congress must take action to cut drug smuggling along the U.S. coast.

Bentsen testified Tuesday morning before the House Subcommittee on Coast Guard and Navigation.

"The U.S. Coast Guard has long been vested with the responsibility of being this country's front line deterrent to the importation of illicit drugs by sea, while at the same time it must remain effective in the fulfillment of numerous other responsibilities," Bentsen said.

"I believe it is time to either redefine the responsibilities of the Coast Guard or to provide them with the necessary resources to per-

form those responsibilities." Bentsen cited a General Accounting Office report he requested earlier this year, which concluded that drug smuggling along the Texas coast is increasing while the ability of the Coast Guard to cope with it has declined.

The G.A.O. report to Bentsen indicated that in fiscal 1979 the Coast Guard seized 208,000 pounds of marijuana in Texas coastal waters, but in 1980 - when Coast Guard patrols off Texas were reduced in response to the Cuban sea lift to Florida - only 68,000 pounds were seized. During the first three months of this year 118,400 pounds were seized, a rate more than double that in the year prior to the Cuban sea lift.

"The Coast Guard's goal is to detect or deter 75 percent of the drugs smuggled into this country by sea. At present, they estimate that they seize only some 10 - 20 percent of the drugs smuggled into the U.S. Coast," Bentsen said.

"I am personally interested in proposals that the U.S. Navy be called in to help out in the fight against drug smuggling on the high seas. I believe such a step would be of significant help in the war against drugs. Even with this, though, there is a definite need for a strong and effective Coast Guard in this battle. There is no doubt that something must be done to better equip the Coast Guard or, alternatively," redefine the numerous responsibilities now assigned to this proud service," Senator Bentsen said.

County Agent To Host Somali Agriculturists

County Extension Agent DeMarquis Gordon will host two visitors from Somali July 20-31. Hagi Ahmed and Abdullahi Ibrahim will be in Eastland County to observe dryland peanut production for the two weeks.

They are both agriculturists in Somali and are here to gain knowledge that will help them improve food production in their country.

Somali is located on the east coast of Africa. The country is faced with acute shortage in qualified manpower in almost all technical fields and specifically in the field of farm mechanization and the situation is worsening.

Gordon said the Somalis will learn as much as possible about field related equipment, maintenance of machinery, adjustment of the equipment, calibration and adjustment of sprayers, seed drills and planters and any other subjects related to dryland farming techniques.

For the past two weeks Ibrahim and Ahmed have been in Lee County. After leaving Eastland County they will spend two weeks in both Erath and Frio Counties.

Their study in Texas is being directed by the International Program of Texas A&M University.

Homemaker's Tips

by Janet Thomas

How much food in your home goes to waste? How many grocery dollars does it stand for? Most consumers throw away more food than they realize in many cases - leftover vegetables, meats, milk that turns sour and bread that goes stale. Throwing these nutritious foods out is the same thing as throwing away pennies, nickels, dimes, quarters and even dollars at meal time.

Try some of these tips to conserve food you spend money for - real savings depend on your storage and preparation habits, as well as on buying:

BUYING - Buy foods in amounts your family will eat for one meal - or amounts you can set aside in the freezer or refrigerator or later without wasting. Don't get "carried away" buying fresh foods on special if you can't store them properly to prevent spoilage. Fresh peaches at 49 cents a pound are no bargain if you buy four pounds, eat three pounds and throw one pound away.

STORAGE - Wrap leftovers properly for freezer or refrigerator. In the refrigerator, always cover foods with wax paper, foil or plastic wrap - or store them in a plastic bag or a container with a tight-fitting lid. Foods stored uncovered lose moisture and can pick up flavors from other foods. Foods for the freezer should be packaged in moisture, vapor-resistant packaging such as plastic containers, foil or freezer paper. Label packages before putting them in the freezer.

See M.H. Perry for EDUCATIONAL INSURANCE
629-1566 or 629-1095
104 N. Lamar-Eastland

Bread needs special storage, too. Store breads in their original container or in an air-tight container. It's true that breads keep longer in the refrigerator, but they also can become stale there. For toasting later, this is no problem. But for other uses, freeze bread. Freezing is best for long-term storage.

Keep fresh vegetables in the refrigerator crisper or a plastic bag - all except potatoes and dry onions. Potatoes and dry onions need cool, dry storage.

Keep milk fresh by placing it in the refrigerator IMMEDIATELY after shopping. Don't leave milk sitting on the counter - even during mealtimes!

Whole-wheat flour becomes rancid rather quickly, so keep it in the refrigerator for long-term storage.

PREPARATION - If your family doesn't like leftovers, prepare only the amount of food they will eat at one meal. Involve family members in meal planning. Ask them what and how much they will eat. A cooperative effort is a definite key to saving money on the food bill. Here are two food-saving-success steps in preparation itself:

For "no-like bread crust" families, trim off the crust and save it to toast for croutons and bread crumbs atop casseroles - if the family will accept crust any of those ways.

In buying frozen vegetables, buy the bags, take out only the needed amount and save the rest for

AMERICAN SAMPLER: A dozen pieces of fiction and one true story. Ideal gift item. \$5 at the Eastland Telegram. If

later. Create your own food-saving success steps, and before long, you will have a long list of ideas that really make an impact on the food budget.

WATCH YOUR HABITS - With rising food costs, economy is more important than ever before - in buying, storing and preparation. To ensure your family the greatest economy possible, keep a list of foods you throw away for 1 week. Study the list and decide what changes you can make. Those changes can mean a big savings on the family food dollar.

RECIPE FOR THE WEEK - With the hot weather we are surviving in these days, you may be like me and hate to turn the kitchen oven on. For this week, I have an easy no-bake cookie recipe for you to try.

No-Bake Honey Chocolates
1/2 cup cocoa
1/2 teaspoon salt
1 1/2 cups milk
1 1/2 cups uncooked oatmeal
3/4 cup chopped pecans
1 1/2 cups sugar
1/4 cup honey
1/4 cup margarine
1 cup shredded coconut

Combine cocoa, sugar and salt in saucepan. Stir in honey and milk. Cook over medium heat, stirring until honey is well blended. Continue cooking, stirring occasionally, to soft ball stage, 234 degrees. Remove form heat, stir in margarine, oatmeal, coconut and pecans. Drop quickly by teaspoon on waxed paper. Yield - 4 dozen.

Property Owners Have Legal Liability

As a property owner, you are aware of the legal liabilities to which you may be exposed?

If someone slips on the steps of your house, you may be liable for more than just medical expenses. If you have an "attractive nuisance" on your property, such as machinery, a pile of logs or a fish pond, you may have an additional obligation to protect children from injuring themselves on these objects.

Since the doctrine of an attractive nuisance applies to those who cannot appreciate the danger of the object, a "no trespassing" sign or even a woven wire fence probably will not eliminate liability.

You should keep such objects out of sight or in a location where children are not likely to trespass. Your attorney or insurance agent can give you additional insight into the various types of liability property owners are exposed to.

CHECK OUT THE EER
Air conditioning is the greatest energy consumer in most Texas homes. And when your old air conditioning unit wears out, you might consider replacing it with a new unit that has a high energy efficiency rating - or EER.

EER ratings apply to both central and window air conditioners. Units with higher ratings are cheaper to operate. For example, a three-ton unit with an efficiency rating of nine would cost the average family about \$100 less per year to operate than would a three-

not to use a professional real estate broker.

Since the role of a broker is not always understood, here are some thoughts which might help. In real estate, each unit is unique. They differ by price, location, design, upkeep, landscaping and a host of other factors. The primary role of a broker is to identify and locate a buyer for a particular house with unique set of characteristics.

A professional broker knows the market and is acquainted with a wide range of buyers. Moreover, the broker is familiar with the closing of a real estate transaction.

Remember, whether you sell your home yourself or use a professional broker is up to you. But brokers are in a position to help you if you need them.

SAVE TAXES ON OLD BUILDINGS

If you own a commercial building that is more than 20 years old, you may consider rehabilitating it in order to reap significant tax benefits.

The Revenue Act of 1978 provides for a tax investment credit to renovate commercial buildings. To receive the maximum credit of 10 percent, a building must have a useful life to seven years or more.

For expenditures to be eligible, a building must re-

Sunday,
July 19, 1981

tain 75 percent or more of the original exterior walls after the rehabilitation is complete. The cost of acquiring the building and enlarging it do not qualify.

The tax benefits are limited to commercial uses. Even apartments do not qualify under the act. For more information, contact someone who can give you sound legal and tax advice.

UNDERSTANDING THE ROLE OF A BROKER

If you are contemplating selling a house, you will have to decide early whether or not unit with an efficiency rating of six.

So, before you invest in a new air conditioner, check its energy efficiency rating. It might keep you from sweating out your utility payments in the heat of summer.

Disabled Veterans To Meet 8:00

The Disabled American Veterans Chapter 216 and Auxiliary will meet at 8 p.m. Monday, July 27, in the Texas Electric Reddy Room, 113 E. Commerce in Eastland.

Wayne Jackson, Chief Jailer at the Eastland County Jail, has a very interesting hobby. He makes up these word puzzles in his spare time. He says he likes to do this as a hobby, but wouldn't like to do it as a living.

'Freedom' We Mustn't Forget

The great challenge facing Americans is that of maintaining their freedom. It is not a new challenge. It has faced all humans throughout history.

Tyranny, in one degree or another, has been the natural state of affairs for most people: it still is. More than 80 percent of the world's population now live under some system of tyranny.

We tend to forget that real freedom for large numbers of people never existed anywhere at any time before 1776 in our own country. Those of tyrannical temperament even now see our freedom as an aberration, an historical accident and, they hope, a brief interlude in the long progression of despotism.

Tyranny today most often takes the form of collective socialism. Collective socialism must always challenge freedom, because freedom represents the individual while socialism represents destruction of the individual.

Collective socialism always stands for state control of the everyday lives of individuals, for destruction of private property and for destruction of religion and the concept of "family."

Individual freedom and economic freedom are inseparable. Destroy one and you destroy the other. Tyrants understand this very well. They also understand they can neither rule nor survive in the face of

free enterprise.

The most devious and dangerous onslaughts against freedom are always conducted in the name of equality. Equality in a free society means equality of opportunity. Everyone has his or her chance to make the most of his or her abilities. But individuals are not born with equal abilities, equal motivation or equal desires, as we know. So, a free society must be a competitive society, a society based upon merit.

Merit cannot exist, even as a concept, in the kind of equal society envisioned by socialists. In the end, such a society is equal only in that everyone is reduced to a least-common-denominator of performance and expectation.

Such a society's "redistribution" of opportunity and money is a major cause of the decreased incentive, lowered productivity and government overspending that leads directly to inflation and the loss of personal freedom. Inflation is, indeed, the cruelest tax - a tax that misses no one.

So, let us not be confused. Let us be very much aware that the road to tyranny is often paved with what pass for good intentions - and far too little awareness of the stakes involved.

Senator Glasgow Reports

By Senator Bob Glasgow

Sen. Bob Glasgow said in a conference telephone press talk this week that he guesses that Senate Bill Three which was being heard in committee Tuesday will be the Congressional Redistricting Bill that will come out.

This bill has the approval of the Texas Congressional Delegation and Cong. Charles Stenholm would pick up Somerville County in this arrangement. Some guess that there will be a rush to get it out because the governor has indicated that he will veto it, but there might be time to try a over-ride.

Other topics discussed were the water fund, ad valorem taxes, the Pevato Bill and medical practice act.

Hot Temperature Can Harm Dogs

People who own dogs should remember that their pets can suffer the effects of summer heat and humidity just as humans do, warns a spokesman for the Texas Veterinary Medical Association.

"Don't leave your pet in a closed automobile," reminds Dr. Ben Johnston, Texas Veterinary Medical Association (TVMA) President.

When Texas temperatures soar into the 80s, 90s and even 100s, pet owners should know that five or six degrees rise in a dog's temperature can result in brain damage or death, said Dr. Johnston. And a parked car can be a death trap for the family pet, the TVMA President stressed.

"For example, if it is 85 degrees outside, it would take only 32 minutes for the temperature to rise to 120 degrees in a parked car with the windows rolled up," explains Dr. Johnston.

Any dog is susceptible to the effects of heat stress, but older dogs, puppies or animals that are overweight or have chronic health problems are more easily affected than others.

Joggers who like to take their dog along for the run should recognize that animals require conditioning to get in shape just as humans do. And the summer heat, combined with excessive exercise can cause overexertion and heat stress in the family pet.

If a dog exhibits signs of heat stress - panting, a starting or anxious expression, failure to respond to commands, warm dry skin, extremely high fever, rapid heart beat and collapse - the recommended first aid is to immerse the animal in cold water immediately. If that is not possible, spray the dog with cold water from a garden hose. Ice packs may also be applied to the animal's head and neck.

After taking these first aid measures, take the animal to your veterinarian at once.

Favorite Dishes From Vice President Bush

MEXICAN MOUND (Bush Family Favorite Taco Meal)

Easy to make - loved by all who love Mexican food. Ingredients easy to keep in house. Children or guests can all help in chopping or grating. It's fun!!

- 1) Package of Doritos
- 2) 2 pounds ground hamburger meat
- 3) Lawry's Taco Seasonings Mix
- 4) 1 cup grated yellow cheese
- 5) 1 or 2 small chopped onions (not minced)
- 6) 10 chopped ripe black olives
- 7) 1 chopped tomato
- 8) 1 cup sour cream
- 9) lettuce (1 cup shredded)
- 10) 1 can frozen avocado dip

Follow instructions on Taco Seasonings Mix for browning meat. I serve this meal in my kitchen - a big pot of meat simmering on the stove. A wooden salad bowl of doritos and seven bowls (No. 4 through No. 10) of the remaining ingredients around the table. Start with a mound of doritos, a spoon of piping hot meat, cheese, etc. A great Bush favorite!

Northern Gas Products To Construct Gathering System

Northern Gas Products Company (NGP) will construct and operate a low pressure gathering system and a 50-mile pipeline in north central Texas, announced John Hon, regional manager for Houston region.

The system will gather and transport natural gas from wells in Eastland, Comanche and Erath counties to NGP's Lipan gas processing plant in Hood County, which is located 70 miles southwest of Fort Worth.

Propane, ethane, iso and normal butane and natural gasoline will be extracted from the gas stream at the Lipan plant.

Construction of the line is scheduled to start in August with completion in November. The line will originate in southern Eastland County where the gathering system will be built. The first 16 miles of pipeline will be 16-inch diameter pipe designed to accommodate wells under 50 PSI. The remaining line will be 10-inch diameter pipe.

Larry Eledge, director of gas liquids acquisition, said producers along the final 34 miles of pipeline will be able to hook up to the line regardless of their well pressure.

When completed, the line will have the capacity to move up to 10 million cubic feet of gas per day.

Northern Gas Products Company produces ethane, propane, iso and normal butane and natural gasoline and fractionates mixtures of these liquids into commercially pure components.

Northern Gas Products is part of Northern Liquid Fuels Company, a division of InterNorth, Inc., a diversified energy corporation based in Omaha, Nebraska.

ELSIE GRAHAM and FRED WIPFF

Announces Engagement

Mr. and Mrs. William A. Graham of Cisco proudly announce the engagement and approaching marriage of their daughter, Elsie Eulene, to Fred Jay Wipff, son of Mr. and Mrs. Luther Wipff of Del Rio.

Elsie is a graduate of Cisco High School and attended Cisco Junior College. She is employed by the Fudge Co. in Austin.

Fred is a graduate of Del Rio High School and attend-

ed Austin Community College and the University of Texas. He is employed by Pfluger and Polkinghorn architects in Austin.

The couple will be married September 12, at 7:30 p.m., at The World of Pentecost, 1504 East 51st, in Austin, Tx.

All friends and relatives are invited to attend the ceremony and the reception immediately following in the church fellowship hall.

Arts and Crafts Fair Domino Tournament

For those of you who enjoy playing dominoes and 42 we are having a tournament at the Arts and Crafts Fair on July 31st and August 1st.

The tournament will be held in the concession building; (there will be floor fans to cool the building). Also there will be lots of good eats being sold by the County Extension ladies in the concession building.

The tournament will start Friday at 7:00 p.m. and will last until 9:30 p.m. Saturday evening at 7:00 p.m. the games will begin again and last until 9:30 p.m. There will be prizes given each night to those who have won the most games in 42 and dominoes.

There will be a cash prize given Saturday evening at 9:30 to the player who has won the most games in 42, and to the player who has won the most games in dominoes for the two day event.

In order to assure yourself a place at one of the tables send your name to Mrs. Nolan Butler, P.O. Box 332, Eastland, Texas.

We are looking forward to a good time at our Arts and Crafts Fair and would like to remind the children, the young and older adults to remember the frog hop; to bring your frog with you.

The children up to and including the ages of 8 years of age will have their frog hop on Friday evening at 6:30 p.m. The other two groups

will be starting at 6:30 Saturday evening; with the ages 9 through 14 starting first followed by the group from 14 years and up. Also do not forget the Pet show. This will be held at 10:00 a.m. Saturday morning, August 1st.

Cash prizes will be given to winners in all events.

We have two booths left in the 4-H Building at the Eastland County Livestock Show grounds. Door prizes will be given away all during the two day event. A large soup tourney will be given away each evening at 8:30 p.m.

The soup toureens are on display at Greers Department Store and Central Drug. The soup toureens have been donated by Willie's Ceramics.

Oil News

No. 2 Stroebel spots 450 feet from the north and 1350 feet from the west lines of Section 111.

Daily pumping potential was 160 barrels of 39 gravity oil, plus three barrels of water, from perforations at 1350-52 feet.

The 4 1/2 inch casing is set at 1397 feet and the hole is bottomed at 1400 feet.

60 Rabies Cases Reported in June

Although substantially behind the numbers a year ago, rabies was confirmed in 60 animals during June to bring the total to 431 for the year, reports the Bureau of Veterinary Public Health of the Texas Department of Health (TDH).

Despite the decline in numbers, rabies still continues as a serious threat in

the state to pets, livestock and humans.

For the first six months of 1980, the rabies count was 646 confirmed cases. Last year Texas went on to record 945 cases, which was below the 1,195 cases in 1979.

The upward trend in animal rabies began in 1976 following the relatively low year of 325 cases the

previous year.

Skunks continue to be the major source of animal rabies in the state. Of the 60 cases in June, 39 were in skunks. Rabies also was reported in two bats, two raccoons, one dog, seven cats, seven cows, one horse and one badger.

Rebekah Lodge Members Enjoy Birthday Supper

The members of Good Will Rebekah Lodge enjoyed a Birthday Supper Thursday, July 9th, at the Rebekah Hall celebrating the birthday of the members who had birthdays during the first six months of the year. The supper was at 6:30 preceding the regular meeting of the Lodge.

Following the meal, the Rev. John Hood, pastor of the Calvary Baptist Church, gave an inspiring and patriotic talk entitled "Freedom" which was very appropriate for the "4th of July Season."

The regular business meeting of the Lodge began at 7:30 with the Noble Grand, Ruby Dunlap, in the chair and with Thelma Latson in the Vice-Grand station. The Charter was draped in memory of Bro. Homer Blackwell, a Fifty year member of the Order, who had passed away in Ranger in June.

Ethel Speed was installed as Warden of the Lodge to finish out an unexpired term. Ruth Powell and Vera Darr were the Installing Officers. July the 23rd, Thursday, is the date for the next regular meeting of the Lodge.

Moran News

By Mrs. Luke Huskey

R.E. Weber of Colorado City and a former resident of Moran had heart surgery in St. Mary's Hospital in Lubbock last week.

Mr. and Mrs. M.H. Gore of Brownwood visited with her son, Thomas Holland and family, Sunday.

C.H. Bynum is receiving treatment in the Stamford Hospital.

A REMINDER

Do not forget to come to the Moran Country Musical, Friday night, July 24. The musical is held at the Moran Community Center. All area musicians are invited to attend and take part. A concession stand will be open. Sandwiches, pie, soft drinks, tea and coffee will be sold. Come and enjoy an evening of fellowship with music.

Mr. and Mrs. Mart Hitt of Tyler visited with relatives in Moran, last week.

Ladell and James Weatherby of Brownwood visited with their grandmother, Mrs. W.G. Jones and other relatives in Moran, last week.

Emery Morris is proud to be home after an extended stay in Hendricks Hospital, Abilene.

Little Geoffrey Snyder is at home from the hospital. R.E. Haynes, son-in-law of Mrs. Etta Terry had heart surgery in the Methodist Memorial Hospital in Lubbock last Friday.

Jami and Juli Adams of Milan, Tenn., are visiting their grandmother, Mildred Smith.

Mr. and Mrs. C.L. Miller and Jana visited with relatives and friends in West Texas last week.

Mrs. Tom Head of Abilene spent Saturday with her father, Emery Morris.

BIRTHDAY CLUB
Members of the Birthday Club met last Thursday night at the Moran Snack Bar and helped Lynn

Sunday, July 19, 1981

Williams celebrate his birthday. Those helping with the celebration were Mrs. Williams, Elma May Huskey, Merle Newton, Ezra Weir, Bessie Fields, Renee Brooks, Mr. and Mrs. Robert Thompson, Frances Green, Mildred Smith, Jami and Juli Adams, and Mr. and Mrs. Lucion Brooks.

A delicious baked ham dinner was enjoyed with all the trimmings.

Bill Lewis Announces the re-opening of the Exxon Station on the corner of Avenue D and Interstate 20 with the addition of a full-time mechanic, John Allen from Hobbs, New Mexico, who moved here with his wife and family because they liked the friendly atmosphere of Cisco. John has had 14 years experience in auto repair.

His services include:

- Tune Ups
- Alternators
- Brake Jobs
- Air Conditioner Service
- Water Pumps
- Starters
- Tailpipes & Mufflers

Come in and get acquainted. You will continue to receive the same warm welcome and friendly service that you have enjoyed in the past year.

Blossom - End Rot

By: Gordon Woolam

Are your tomatoes turning black and starting to rot on the blossom-end just as they start to ripen? If they are they are probably suffering from Blossom-End Rot. This is a nonparasitic or physiological disease. That is to say it is not caused by a disease organism.

Blossom-End Rot occurs very commonly when the plants have grown rapidly and luxuriantly during the early part of the season and then are subjected to prolonged dry weather at a time when the fruits are in an early stage of development. It can also occur after periods of unusually abundant rain. Heavy applications of Nitrogen and extreme fluctuations in water supply are favorable to Blossom-End Rot.

The basic cause of the disorder is a Calcium deficiency. This can be caused by leaching of soluble Calcium. Another cause could be due to excessive total salts in the soil. When salt concentration increases, the effective concentration of available Calcium salts decreases more rapidly than other soluble salts.

Very rapid vegetative growth, which often is associated with Blossom-End Rot, draws heavily on the supply of Calcium. Since Calcium is not translocated from older to younger tissues, even a temporary deficiency of the element can cause injury to developing tissue. The Blossom-End is especially susceptible to Calcium deficiency.

On soils known to be deficient in Calcium, Gypsum or Lime may be added to the soil prior to planting. After the tomatoes are planted,

surface applications of Lime or materials containing soluble Calcium are not generally advisable. The reduced supply of soluble Calcium in the soil may be supplemented by spraying the foliage with Anhydrous Calcium Chloride (4 lbs. of 96% or 5 lbs. of 78% per 100 gallons of water). Avoid prolonged use of Calcium Chloride as it can injure the foliage.

Contact the County Extension Office with questions concerning this and other pest problems.

Favorite Dishes From Vice President Bush

ALL AMERICAN CLAM CHOWDER

3 slices bacon
1/2 cup minced onions
1 - 7 1/2 oz. can minced clams (save clam liquor)
1 cup cubed potatoes
1 can cream of celery soup
1 1/2 cups milk
Dash of pepper
Cook bacon in frying pan until crisp. Remove and break into one inch pieces. Brown onion in bacon fat. Add clam liquor and potatoes. Cover and cook over low heat until potatoes are done (about 15 minutes). Blend in bacon pieces, minced clams, and other ingredients. Heat, but do not boil. Bacon may be used for garnish.

Barbara Bush

Attention:

Shaklee Members

There will be a supper for Shaklee members at 7 p.m., July 21st, at Granny's Cafe (formerly The Longhorn), 505 East 8th, Cisco.

Dr. Jim Calvert and his wife, of Fort Worth, will present the program.

All members are urged to attend and have a good crowd. Visitors are welcome.

City Sales Tax

Receipts Are Up

Austin, Tx—State Comptroller Bob Bullock Tuesday said payments of the optional one-percent city sales tax for 1981 to Texas cities are 17 percent higher on a statewide average compared to last year.

Bullock's office Tuesday paid 713 Texas cities \$32,698,770 in sales tax rebates for July.

City sales taxes are collected by merchants and businesses along with the state's four percent sales tax and are rebated monthly by the Comptroller's office.

Statewide, Texas cities have received \$343.4 million during 1981 compared to 1980 payments through July of \$291.9 million.

Ranger has net payment this period at \$5,420 and at 1981 payments to be due is \$62,689. Percentage change to date is 21.25%.

Rising Star has net payment at this period \$0, and 1981 payments to date is \$6,410, and the percentage change to date is -14.32%.

Gorman has net payment at this period \$590., and 1981 payment to date is \$14,496, percentage change to date is 16.36%.

Eastland has net payment at \$7,250, 1981 payment to date is \$83,677, percentage change to date is 10.48%.

Cisco has net payment at this period of \$9,920, 1981 payment to date is \$97,337, percentage change to date is 20.51%.

Texan Can Claim Lost Money

James Curry of Dallas, Texas, could you use \$250.91? If so, State Treasurer Warren G. Harding needs to talk with you. And Paul Fairchild of Houston, you have \$11.51 coming your way.

Harding, who recently sent \$1,974.27 to Dominga A. Ortega of Brownsville, also has \$10.12 for John Badum of Corpus Christi, and \$11.99 for Grace Sweigart of El Paso.

The State Treasurer's Office through its Escheat Division tries to match Texans with their unclaimed bank accounts, inheritances, or insurance benefits. Amounts due to hundreds of individuals across the State range from a few cents to thousands of dollars.

After a seven year dormancy with the entity holding the funds, the money is sent to Harding's office, where the State makes a last effort to locate the proper owner by letter and advertising. Bank advertising is done by the individual financial institution during the month of May, and corporate and insurance advertising is done by the Treasury in the latter part of August of each year.

"Often the owners we do find are very surprised to learn we are holding money in their name. More than likely, we're not going to find the owner, but we do make a good effort," stated Harding.

If the lost owner appears, the money is returned to the owner. The State has custody of the money, but never becomes the owner of it. In other words, if a person can prove proper ownership,

he can claim his money even 50 years later. In the interim, Treasurer Harding has had the money invested benefitting all Texas taxpayers by the interest earned.

amounts, the more quickly your inquiry can be traced. The Escheat Division may be reached at (512) 475-3337, or by writing P.O. Box 12608, Capitol Station, Austin, TX 78711.

Oh, yes, Harding has \$0.02 for Daniel Munoz of San Antonio, and \$1,010.44 for Ronald Childs of Fort Worth.

IWU Reflections in Perspective

By: I. W. Usery

"Big bugs have little bug
Upon their backs to bite 'em.
And little bugs have lesser bugs...
And so on, ad infinitum".

So goes a rhyme I remember from my boyhood days. And it points up the fact that almost every living animal has a natural enemy. Usually, or perhaps one should say not infrequently that natural enemy is smaller than its prey. Not always the case, of course, but quite now and then.

Some animals have no natural enemies, we are told. Only one I can think of offhand is the skunk. And a philosopher has said on this subject, in about the most succinct and emphatic manner I've ever seen it stated... "Until you've cornered a skunk; you don't know lonesome..." And that can be interpreted many ways. Ever feel the urge to go to the assistance of someone who has cornered a skunk? That's what I thought.

There's the alligator, of course. Just the sight of one of those saurian monsters makes the neck hair stand on end. I can't think of anything that could be considered to be the natural enemy of the alligator... unless it would be another alligator.

And there's a little animal, cute as a bug, alert, not at all un-handsome, and easily domesticated (if you don't have any other animals around the house) and a very popular household pet in India. It is that member of the weasel-ferret family known as the mongoose. While the mongoose takes easily to domestication, it appears to be utterly fearless. And bloodthirsty. And to assert his machismo, the mongoose seems to have chosen the mighty cobra, the most feared of all snakes as his favourite enemy. The cobra knows how the mongoose feels toward him, and never makes any move to provoke a confrontation. In a head-to-head scrap, the snake always comes out the loser.

Now everyone, or just about everyone knows that the ordinary, garden variety housecat is the natural enemy of rats and mice. And it was with that knowledge that a delegation went from the tiny island of Das in the Persian Gulf to Bahrain to get some cats. You see, rats had disembarked from a variety of vessels putting in at the island and had begun wrecking havoc on the commissary stores. And on a desert island, well-stocked foodstuffs warehouse is most attractive to the huge ships' rat. "Wharf rats", we used to call them when I was a boy. Just about the biggest of the breed. And they'd multiplied in their burrows around the warehouse.

Bahrain, or rather the capital city of the island of that name, was known to be somewhat overpopulated with cats. Cats were everywhere. You'd see them slinking along the narrow alleys in the cool of the evening, lounging on heaps of drygoods in the bazaar during the day... just in almost any direction you'd care to look there were cats. And cats take care of rats, and Das had rats... so; the delegation. It would take a few days to round up enough cats, and the time between cat hunts could be spent in the bar at the one hotel in the city, the "Speedbird Rest House".

Timing their expedition with the regular sailing of the supply vessel which served Das Island, the Cat Committee had a goodly supply of the felines by the time the supply ship sailed. They flew back to the island to report that upon the arrival of the "ADMA I" there'd be the beginning of the end of the rat problem. And so it was.

The cats went right to work, as soon as they'd learned their

way around the tiny island. And in short order there was a noticeable reduction in the amount of rat damage. But the cats became lazy. Everyone knows that the cat is the world's great opportunist. And the Bahrain cats learned before very long that a much greater variety of menu was to be had from the garbage cans outside the dining or cooking facilities around the island. Perhaps they'd grown a bit tired of a steady diet of rats, who knows?

Anyway; there commenced a steady comeback in the rat infestation. Meanwhile; the cats had followed the Biblical admonition. they had indeed "Been fruitful and multiplied". And they'd become far too lazy. Someone, a veteran of the old Indian Army, no doubt, came up with the idea of bringing a couple of pairs of mongeese in from Indian. That, of course, would require another delegation, membership on which was hotly contested. After all; a week in Bombay!

Two pairs of the little wessel-like animals were brought to the island. They were turned loose in the commissary warehouse, where it seemed they felt right at home. And in less than two days there was a noticeable decrease in rat activity. By the end of the month, there was absolutely not a single sign of a rat anywhere around the island. And the mongoose population began to grow, eventually and not too long after their emigration.

Then someone just happened to notice the population of cats seemed to be slightly lessening And so it was. Fewer and fewer cats were to be seen around the island, until finally the only cats to be found were a few scruffy, battle-scarred old tomcats that rarely wandered far from the garbage cans at the Staff Mess Hall.

Now and then we'd see a mongoose, fishing on the jetty stones around the harbour. After all; they had to eat. And they'd about run out of cats.

Eastland County Forms Child Welfare Board

Eastland County's newly-established Child Welfare Board was formed this week, with the election officers and plans set into motion for further work.

At the organizational meeting held Tuesday at the County Commissioner's Court with County Judge Scott Bailey presiding, Mrs. Christene Reich of Cisco was elected Chairman, Durel Reid of Eastland, secretary-treasurer; and H.V. O'Brien of Eastland, vice chairman.

The Board was established and the initial directors appointed by the County Commissioners Court to work with the Department of Human Resources, and others to help provide assistance to needy, abused and neglected children in the county.

Gail Jennings, Child Placement Worker Three, of

the Eastland Department of Human Resources Office, and Betty Holdrige, Supervisor for this region, attended and assisted with the organization of the local board.

The board voted to meet every other month and will meet next on Tuesday, Sept. 1 at 10 a.m. at the Courthouse, at which time a set of by-laws will be adopted and other business handled.

Other members of the board are Mrs. Mack Stubblefield of Carbon, Mrs. Virgil Seaberry of Eastland, Mozelle Rhymes of Gorman and Raymond Hart of Ranger.

Kristy Barnett - State Queen Pageant Finalist

Kristy Barnett, Eastland County Pecan Queen, was one of five finalists in the State Queen's pageant held at Sequin last week. Kristy is the 18 year old daughter of Mr. and Mrs. Gene Barnett of Gorman.

The Pageant was a part of the 60th Annual Texas Pecan Growers Association Convention. Twelve beauties from across the state competed for the title of 1981 State Pecan Queen. The title was won by Tina Brosch of Wichita Falls.

The pageant was held Monday evening, July 13 at

8:00 p.m. at the Sequin - Guadalupe County Coliseum. The winner was announced at the annual banquet Tuesday, July 14 also at the Coliseum.

Kristy is a 1981 graduate of Gorman High School and was valedictorian of her class. She was a Chamber of Commerce Scholastic Award winner. Kristy was senior class secretary-treasurer, annual staff photographer, FHA chapter

president and was first runner-up in Abilene Jr. Miss pageant.

This fall Kristy will attend Texas A&M University where she will major in Business and Accounting. The Eastland County Pecan Growers Association sponsored Kristy in the state pageant and was very proud of her accomplishment at Sequin.

'Vials of Life' Make Medical Information Available

A "Vial of Life" program, with the goal of making medical information available in emergencies, has been put into operation under the direction of the Eastland County Extension Homemakers Clubs.

A "Vial of Life" is a short form of medical history, completed and placed inside a plastic medicine bottle, which is taped inside the refrigerator in homes. The "Vial of Life" may also be carried by women in their purses.

With the "Vial of Life" past and current information

such as blood types, allergies, current medications, doctor's name, who to notify in case of an emergency, and other pertinent medical information is readily available when an emergency occurs.

"Vial of Life" will be a county-wide project to distribute the vials, forms, and information. The program is designed to aid everyone, particularly people with special needs such as senior citizens, those living alone and families with children.

The "Vial of Life" are be-

ing sold for \$1.00. A special discount of 75 cents for senior citizens and college-school age youth.

Mrs. Edith Wilson, of Eastland, is overall county chairman for this project. "Vials of Life" will go on sale in all areas of the county. Other follow-up information will later announce where interested persons

may secure vials in their local communities.

The Extension Homemaker Clubs will have the "Vials of Life" on sale at the County Arts and Crafts Fair on July 31 and Saturday, August 1 at the County Livestock Show grounds announces Mrs. Janet Thomas, County Extension Agent.

Robinson Family Holds 27th Reunion

For the thirteenth year, the annual reunion of descendants of Oscar Lee and Florence Yandell Robinson was held at the home of J.D. and Mona Eakin northwest of Ranger. This year's reunion, held on July 11-12, was the 27th such reunion of the family.

Attending were Orvin and Velma Robinson of Trent; Jerry Robinson and daughter Leigh of Derby, Ks.; Leonard and Sue Robinson of Abilene; J.D. and Mona Eakin, and granddaughter Andrea Damon of Colorado Springs, Col.; S.D. and Fay Robinson of Mesquite; James and Wanda Darr and daughter Candis of Mesquite; Andy and Lonnie Robinson and daughter Dana of Garland; Elmer and Helen Robinson from Rowlett; Joe and Winnie Burleson of Hawley; Pauline Wright and son Tom from Arkadelphia, Ark.; Helen Easley, Craig and Katrina from Midland; Ted and Nancy Williams, Shera, Rod and Reid of Lancaster; and Burl Williams of Ranger.

Both Oscar and Florence Robinson were born to

ed at Trent, Texas. They raised eight children, of whom Avvis R. Williams who lived at Ranger and Mamye R. Akins who lived in Arizona, are deceased, and one child died in infancy. Members of the family feel rich, indeed, because of the Christian heritage these two sturdy parents passed on to their descendants.

BIRTHDAYS

We salute the following Ciscoans who have birthdays during the week:

July 20 - A.G. Sander, Mary Elizabeth McGrew, Pete Oakley, Laydon Stroud Jr., Beth Smith, Deborah Johnson and John Preslar.
July 21 - Bart Guthrie, Patty Thetford, Mrs. Eddie Aiken, Mrs. C.B. Leard and Mrs. Charles Roberts.
July 22 - Mrs. E.D. Farley, Sharon Johnson, Raul Addy Herrera, Patty Sharp and Janice Gale Thompson Wagley.
July 23 - Mrs. Edward Lee, Lewis Don McGough, Mrs. Durwood Morris, Bill Kendall Jr., Geneva Wilcoxen Snow, Jerry Lee Callaway and Gerald Bint.
July 24 - Freida Weiser, Drusilla Stillwell, Annita Ritchie, Mrs. H.R. Miller, Ila Wilson, Mrs. Standlee McCracken, Patty Scar-

borough, Mrs. J.B. Hagan, Mrs. John Webb, Ricky White and Sandra Address.
July 25 - Barbara Swindle, W.C. Hogue, Nora Lee Blackwell and Patsy Hunt.
July 26 - Myrtle Lee Horn, Jack Page, Mrs. Ted Hale, Terry Cleveland, Mark McGough, Gary Owens, Marilyn Williams, Alfonso Martinez, Tammy McGregor and Jackie Hunt.

Couples celebrating wedding anniversaries during the week include: Mr. and Mrs. Jack Stephenson, Mr. and Mrs. Robert Mitchell, and Mr. and Mrs. Walter Lenz, July 20; Mr. and Mrs. Gary Harris, July 21; Mr. and Mrs. Standlee McCracken, July 22; Mr. and Mrs. Al Heyser, July 24; and Mr. and Mrs. Blair Clark, July 25.

MAKING FUNERAL ARRANGEMENTS

Some persons have made funeral arrangements before. Others - particularly those under 40 - have not. When someone you love has died you must make numerous decisions. You should consider those who shared in the life of the deceased as well as the lifestyle of the person who died. Every death affects others. Most times there are relatives, friends and associates who survive. Often the community is involved as well. We will give you the benefit of our knowledge and past experience. There are needs to be met, concerns to be faced and preferences to think about. We will give you the options. The decisions will be yours.

Three New Touch-Tone Dialing Aids Introduced

Three new Touch-Tone dialing aids for disabled

customers have been introduced by Southwestern Bell. The aids are provided without charge on customer request.

"Two of the dialing aids are designed for people with motion impairments and the third is for people with vision problems," said Donna Morton, local manager.

A raised Touch-Tone grid is designed to aid customers who find it necessary to rest their hand on a surface while dialing the telephone. The grid covers the entire pushbutton area of the telephone and makes it easier for the customer to push one button at a time.

A hinged appliance will aid customers with extensive motion disabilities. The appliance fits over the push button area and allows "0" to be dialed when the appliance is pushed down. When the appliance is not used, it may be folded up, away from the dialing surface.

A Touch-Tone number overlay will aid customers with vision problems. The overlay fits directly on the Touch-Tone buttons and displays large white numbers on a black background. A rotary dial overlay has been available since 1978.

Mrs. Morton said the new Touch-Tone dialing aids are available at any Southwestern Bell Phone Center Store. The aids also may be mailed, upon customer request, from any company Residence Service Center.

1000 Things

GUATEMALA CITY, C.A. - The traditional July 4th celebration of United States Independence Day was an impressive event in Guatemala City. It began the night before at the American Club with a fireworks display that was a real credit to things American. The American Club is an

organization of U.S. Citizens plus a small number of others. The club owns 10 acres of land and has a large swimming pool, a number of tennis and handball courts, and a nice club house with restaurant facilities. A snack bar near the pool deals in things like hamburgers and hot dogs.

At 10 a.m. on July 4th, the holiday celebration began with the gathering of club families. There must have been 400 or more men, women and children in attendance. The weather was nice with temperatures in the 70s.

First on the program was presentation of the colors. Five Guatemalan Army men, in full uniform, marched out as a record player gave forth with their National Anthem. Then, a group of five U.S. Marines in dress uniform presented our nation's colors as the loudspeaker played the Star Spangled Banner. It was all very impressive.

An official of the U.S. Embassy in Guatemala was presented to read the official July 4th proclamation of President Reagan. Opening his remarks, the official told of Mr. Reagan writing in longhand on a yellow legal pad his impressions of July 4th in his boyhood years in his Ohio home town. The Reagan tribute, written at Camp David a week before, concluded with the thought that "putting people first has always been America's secret weapon."

Reading of the traditional White House Fourth of July proclamation and message concluded the program.

There was a carnival like the one in Cisco each year that the Lions Club stages at City Park. This one was primarily for children and they enjoyed it very much.

The program continued through much of the day with the families enjoying the pool and club facilities.

Went to the Union Church of Guatemala, which is within walking distance of our hotel. The congregation numbers several hundred and they have a nice building with a full-time minister.

Ladies of the church are busy with assorted projects that benefit the needy. The church has a library with a good assortment of books of all types that you can check out.

The minister was away on vacation - in Colorado. His pulpit was filled last Sunday by a missionary pilot who has been in the country for 17 years. He flies mercy missions and tends to groups in small villages in several areas that can only be reach-

All the Ladies Teams from Cisco will be playing at Whitley Field.

ed by a small airplane.

U.S.-made automobiles are in a considerable minority in Guatemala. You see Japanese and German cars in a big majority - probably five to one. Most taxicabs here, however, are U.S. cars - Chevrolets, Fords, Plymouths and the like. Taxi fares are pretty high since gasoline is \$2.10 per gallon.

It is interesting to note the taxi situation around the hotel. There are some 15 cabs lined up along a street beside the hotel. They blow a whistle when a cab is needed, and the line of waiting taxis moves up. The drivers usually push their autos up in line, probably to save gas. They have several five-gallon buckets that they fill with water to wash their cabs.

An enterprising lady locates near a high fence in the taxi-waiting area and she has a supply of bread and sandwich material that she sells to the cab drivers and others who might want refreshments.

On each side of the busy four-lane highway beside the hotel are a number of small merchants, including booths that sell cut flowers, assorted rugs, furniture, fruit and vegetables and the like. Guatemala is a land of the small merchant.

You see folks who don't look too prosperous but you don't see anybody who looks hungry or underfed.

Cisco's Gain Is California's Loss

Lennell Arnold and her mother, Mrs. Nancy Arnold, said they were overjoyed to have purchased the roomy three bedroom residence located at 405 West 7th Street. Also having purchased the property through the Garl D. Gorr Real Estate Brokerage by telephone and not having seen it until arriving in Cisco from California with their possessions they said "it exceeds our expectations, thanks to Mr. Gorr, we are very happy."

AMBER LEIGH WINGE
Amy Winge, 13 months old, is proud to announce the arrival of a new baby sister, Amber Leigh, born Wednesday, July 15, 1981, at Hendrick Medical Center.

She weighed six pounds and six and one half ounces and was 18 1/2 inches long. The proud parents are David and Lena Winge of Carbon.

Maternal grandparents are Mr. and Mrs. J.L. Liles of Alvarado, formerly of Cisco. Paternal grandparents are E.H. Winge of Scranton.

Senior Citizens Nutrition Menu

A specialist in program management once said, "Any social organization is as strong as the volunteer program." This is certainly true of the Senior Citizens Program and activities in Cisco. It would be impossible to operate the Senior Center if the large number of volunteers did not assist.

Cisco should be proud of its contribution for the Senior Center because the program brings together a group of people that like to share their talents and work in a constructive manner.

We encourage you to contact people who are 60 years of age, or older, and ask them to contact the Cisco Senior Center, phones 442-1557 or 442-2263, and to become an active member of the program. People of this age need help in fellowship, nutrition and activity.

The programs during the past week were: Rev. and Mrs. W.E. Hallenbeck and Mrs. Larry Smith sang several old religious songs (Mrs. Hallenbeck accompanied the trio at the piano); Mildred Priest with country and western music; and special music being sung by Jack Robinson, Ila Wilson, Ruby Dunlap and Vernon Hagar. Addie Mae Cooper, Anna Dytzel and Cora Lee Thomas played dinner music at various times during the week.

The menus for the week are:

MONDAY - Swiss steak, macaroni with cheese, mixed vegetables, spice cake, bread, butter and drink.

WEDNESDAY - Beans/franks, pickled beets, spinach, apple sauce, cornbread, butter and drink.

FRIDAY - Luncheon steak, okra and tomatoes, glazed carrots, fruit cobbler, bread, butter and drink.

To Meet Monday

The Disabled American Veterans Chapter 216 and Auxiliary will meet at 8 p.m. Monday, July 27, in the Texas Electric Reddy Room, 113 E. Commerce in Eastland.

PUBLIC NOTICE

NOTICE OF CALCULATION OF EFFECTIVE TAX RATE

I, Ettoy Bryant, tax assessor-collector for the City of Cisco, in accordance with the provisions of Article 7244c, Sec. 1, VTCS, have calculated the tax rate which may not be exceeded by more than three percent by the governing body of the City of Cisco without holding a public hearing as required by Art. 7244c, Sec. 2, VTCS. That rate is as follows:

\$.81 per \$100 value.

OBITUARY

Services For Myrtle Collings Held Friday

Funeral services for Myrtle N. Collings, 99, a longtime Cisco resident, were at 2 p.m. Friday in Cisco Funeral Home Chapel. Elder Alton Richards of Ralls officiated and burial was in Oakwood Cemetery.

Mrs. Collings died about 4 p.m. Wednesday in E.L. Graham Memorial Hospital after a short illness.

She was born June 6, 1882, in Jack County and was a member of the Primitive Baptist Church.

Her husband and a son preceded her in death.

Survivors include three sons, J.C. Jackson of Oklahoma City, Newman Jackson of Austin, and Howard Jackson of Abilene; a daughter, Crystal Hobson of Midwest City, Okla.; seven grandchildren; 15 great-grandchildren; and two great-great-grandchildren.

Final Rites For Ira Willis McCrum Held Saturday

Funeral services for Ira Willis McCrum, 80, of Cisco, were 4 p.m. Saturday at Kimbrough Funeral Home. The Rev. Buddy Sipe officiated and Masonic graveside services were at Oakwood Cemetery.

Mr. McCrum died at 6:10 p.m. Thursday at E.L. Graham Memorial Hospital.

Funeral Services For W.C. Bennie Held Saturday

Funeral services for W.C. (Bill) Bennie, 70, a longtime Cisco resident, were 2 p.m. Saturday at Cisco Funeral Home Chapel. Rev. Buddy Sipe officiated and burial was in Oakwood Cemetery.

Mr. Bennie died at 4:30 p.m. Thursday at E.L. Graham Memorial Hospital after a short illness.

He was born November 13, 1910, in Thurber and married Lillie Allsup February 10, 1933 in Cisco. He retired from Humble Pipeline in 1966. He was a member of the First Baptist Church.

Survivors include his wife of the home; four sons, William C. Jr. of Mineral Wells, Robert U. of Cisco, Richard D. of Sherman, and Timothy M. of Barnhart; one daughter, Linda Hutchison of Houston; one sister, Evelyn Cassidy of New York City; and nine grandchildren.
