

Hall Of Remarks

by Herrel Hallmark

HASN'T THIS been a beautiful week? Every day so far has had clear skies with plenty of sunshine and warm temperatures. Weather forecasts for the weekend call for more of the same. I hope so.

We have been working on our house during the past year, making an addition to our original mobile home, and it seems like every weekend was either extremely cold or raining. We will certainly be thankful for the opportunity to work on our home during a pretty weekend.

I have been learning some of the tricks and techniques of carpentry, thanks to the help of local carpenter, Greg Nichols. Greg has graciously helped us on our project and we certainly appreciate his help.

Greg recently started working on his own as a carpenter, as well as doing just about any type of household repairs or work.

A NOTE OF interest was sent to the Press office this week by Charles A. Spears of Sherman, Tx., a former banker in Cisco. The note contains a clipping from the Wall Street Journal talking about new inventions and practices in oil fields.

Mr. Spears said, "This insert from Wall Street Journal 2/12/82 brings to mind Harry Reynolds of Cisco and Robert E. Lee of Coleman with fond recollections of their friendship."

"For several years before 1940—Reynolds and Lee were working on the lateral drilling idea. They had a working set of tools for this Lee invention that Mr. Reynolds financed. You could drill out in every direction by pulling out the many-knuckled tool that when pushed back down rotated it some 20 degrees. Any oil man can understand the power of such a drilling tool to increase production."

"Well—what happened? From 1930 to 1940 the price of oil was so rotten that any new idea changing technology was not of much interest. Oil that in 1920 was worth \$4 per barrel was by 1932 worth 10 cents. The great Yates Field still #1 in reserves was discovered in 1928 and the East Texas 1930 bonanza still in 1982 #2 in reserves—these two giants just flooded the market. Harry Reynolds just couldn't finance Robert Lee to finish their development."

"Inventive genius seldom gets reward. Another, there in Cisco in the 1920s was Cap. Judy. His dual "Ideal Theatre" was air conditioned with 300 lb. blocks of ice before a giant fan, and you had a choice of two pictures from the same box office. Fifty years later it finally came—your choice of four pictures through one box office."

"P.S. Harry Reynolds was in on developing some of the early great oil fields of Mexico before 1920. There was some dispute (with Gen. Crude) over that early day oil game—that was life threatening to Harry."

"Col. Robert Lee was one of earliest licensed air pilots in U.S.—and had many experiences in World War I in France. He was a genius and an extroverted leader."

Children from across the country are being invited to share their concerns with top government leaders through the fifth annual national letter-writing campaign sponsored by Save the Children, the international child-assistance agency.

The theme for this year's letters is: "Dear Mr. President, if I had one wish for the world's children..."

The campaign will culminate during Save the Children Week, May 1-7, in Washington, D.C. At that time all letters will be presented at a children's hearing in the U.S. Congress and at the White House. The topics expressed most frequently by the children will form the 1982 Children's Agenda for Action. This summary of concerns will also be the kickoff of the new Children's Congress in Washington at which elementary school children, representing every state, will meet to address the problems facing today's youth.

The letters, along with the name of the teacher and school, must be received by

April 1. Mail to: Caroline Brady, Dept. LC, Save the Children, P.O. Box 911, Westport, Ct. 06881.

Save the Children Week, an opportunity to draw public attention to the needs and rights of children, will be officially proclaimed by all state governors. Julie Andrews is Honorary Chairperson.

Save the Children, which is celebrating its 50th anniversary this year, was founded to provide assistance to the disadvantaged children of Appalachia. The agency now works in 33 countries, including five regions in the United States.

FIRST NATIONAL Bank of Cisco is having its new building constructed at the corner of Avenue D and West 5th Street. The bank's vaults can be seen in this photo taken Thursday morning of this week. Bank president Dick Woolley recently stated the bank should be completed in October. Mr. Woolley said the construction project is 31 days behind schedule because of recent spells of cold and bad weather, but it is expected to be completed on schedule. (Staff Photo)

D.A.R.E. Program Set Tuesday

Marilynn Golightly will be the speaker at the P-TO meeting Monday night, February 22, at 7:00 p.m. at the Cisco High School Auditorium. She will tell everyone about the D.A.R.E., which is a war against drugs. She will also tell parents how they can become more aware and in-

formed about drugs. The P-TO would like the help of all clubs, organizations, schools, parents and children to encourage everyone in Cisco and surrounding towns to attend this very important and informative meeting so that they may work together to make the town a better place for

the children. The P-TO is grateful for the opportunity to work with the communities of Texas war against drugs. They are very pleased to have joined this effort to make a better life for the children of Texas and to make Texas a better state.

Governor Clements Texas' War on Drugs Committee chaired by H. Ross Perot has been waging this campaign with a three pronged approach: law enforcement, legislative and educational. The education, research action arm of the Texas' War on Drugs Committee, D.A.R.E., has a three pronged effect to educate the public on drug abuse: to conduct research on the effect of drugs and ways of halting the misuse of drugs; and to assess the status of drug abuse in the public schools.

Building a network of coalitions, speakers, and regional field coordinators strategically placed throughout the state, D.A.R.E., plans to reach every citizen in its efforts to greatly diminish the abuse of drugs in Texas.

This region, Region 3, is headquartered in San Angelo, 209A West Beauregard, (915) 653-2461, and the efforts are being directed by the Regional Field Coordinator Marilyn Golightly.

Bandito's Corral Specializes In Mexican Fast Foods

Bandito's Corral, 709 1/2 Avenue D, Cisco, is now open specializing in Mexican fast food. The menu includes tacos, burritos, nachos, and other specialty items, most under \$1.00. Steven and Kelly Walker, owners, would like to invite everyone to come in.

The hours will be from 10 a.m. to 8:00 p.m. Monday through Thursday and from 10:00 a.m. to 10:00 p.m. Fri-

day and Saturday. Phone orders are welcome at 442-4231, and carry out is available.

Mrs. Walker is formerly of Moran. Mr. Walker graduated from Cisco High School and Cisco Junior College. He has lived in the Cisco and Eastland area most of his life. They have just recently moved back here from the Midland and Odessa area.

Annual CJC Talent Showcase To Be Tues.

The annual Cisco Junior College Talent Showcase will be held Tuesday, February 23, at 7:30 p.m. in the Harrell Fine Arts Auditorium on the CJC campus. The general public is cordially invited to attend. Admission is \$1.00 and a \$10.00 door prize will be awarded.

Auditions for the Talent Showcase will be Monday, February 22, beginning at 5:30 p.m. in the Harrell Fine Arts Auditorium.

Ben Hubert, a sophomore band member from San

Church Holds Valentine Banquet

Last Saturday, February 13, East Cisco Baptist Church had an adult/young Valentine Banquet. The theme was "Way Out West" with everyone dressing western. The food, was served from a covered wagon, made by the young people. There were over 50 people in attendance to enjoy the program featuring Rosie Clemons and Paula Price from H-SU, Abilene.

The Adult Cowboy/Cowgirl for 1982 were Carson and Omalee Holdridge, voted on by the adults in attendance. The Youth Cowboy/Cowgirl were John Bailey and Cindy Jackson, voted on by the youth.

Saba, will be master of ceremonies for the evening's events. Young, old, and all those in between are invited to come out and enjoy the talent.

Contributions Coming In Rapidly To The John Clark Memorial Scholarship Fund

Contributions are coming in rapidly to the John Clark Memorial Scholarship Fund and a three-member board of trustees has been set up to administer the funds, it has been announced.

Mr. Clark was the driver of the truck who was killed last week in an accident near Morton Valley, when he, in a split-second decision, veered his large truck off the highway to avoid hitting a parked school bus, school children boarding the bus and an automobile stopped for the bus.

Over \$1,000 has already been donated by local citizens who are interested in helping the five children with their education.

The three trustees are Eastland Justice of the Peace I.W. Ussery, Jay Clark, brother of the deceased, of Ranger who will represent the family, and a promi-

nent local attorney.

The Eastland Goodfellows under the direction of Ed Sargent open the John Clark Memorial Fund Account at Eastland National Bank with a generous gift.

Financial instructions throughout the county are enthusiastically endorsed the effort and agreed to serve as receiving centers for the funds.

Contributions may be left at First State Bank, Ranger, First National Bank Cisco, Ranger Savings and Loan, Eastland Savings and Loan, Eastland National Bank, and at Judge Ussery's courtroom at the Courthouse.

To Meet Friday

The Cisco Softball Association will meet Friday, February 26, at 7:00 p.m. at the home of Lola Cozart, 1107 West 15th.

'Little Lobo' Basketball Tourney To Be Held Thursday and Friday

The Cisco Intermediate School "Little Lobo" annual basketball tournament will be held Thursday and Friday, February 25-26, at the Intermediate School Gym. The fifth grade teams will play on Thursday beginning at 2:30 p.m. The sixth grade teams will play on Friday beginning at 2:30 p.m.

Admission each day will be \$1.00 for adults and 50 cents for children. The Cisco P-TO will have a concession stand.

The teams are as follows:

FIFTH GRADE GIRLS
Queens—Alicia Lambeth, Cindy Choate, Loanne Southerland, Jodie Flanary, Teresa Standish, Vanessa Clement, Tammy Snyder, Julie Wickham, Melissa Husband, Sonia Reyes and Leila Hawari.

GORMAN'S FIRST National Bank in Cisco appeared to be near completion Thursday morning. The new bank outlet is located in the 200 block of West 8th Street. The sign next to the bank facility says a Teller 24 will be opening soon at the Gorman based bank. (Staff Photo)

City Council Meet Bobby Rains Files For Re-Election Postponed Until 7:30 p.m. Tuesday

Mayor Eris Ritchie has announced that the City Council meeting will be postponed until 7:30 p.m. Tuesday, February 23. The meeting has been postponed to avoid a conflict with a community school activity.

Charlie Jordan To Speak At CJC Women's Club

Charlie Jordan, former weatherman for KRBC-TV, Abilene, will be speaker for the Cisco Junior College Women's Club on Friday, February 26, at 12 noon. Jordan was a meteorologist with the U.S. Navy for a number of years. His topic will be "Doomsayers."

Club members are encouraged to invite a friend. Reservations must be made by calling Diana Fraley, 442-2567, extension 184. The meal will be \$2.50.

Bobby Rains Files For Re-Election

Bobby Rains filed as a candidate Friday for re-election in the upcoming April 3rd Ci-

Lonnie Knight Is New Member Of Police Dept.

Lonnie Knight, 34, former member of the Austin Police Department, has joined the Cisco Police Department, according to Acting Chief Raymond Blevins.

Mr. Knight is a native of Holland, Texas, and is a U.S. Navy veteran of the Vietnam conflict. Following his discharge in 1970, he went to work for the University of Texas Police Department and later joined the Austin Police Force.

In 1978, Mr. Knight went to work for the Texas Department of Human Resources as an investigator and inspector in Austin and was transferred to Corpus Christi a year later. He came to Cisco from Houston.

A graduate of Holland High School Mr. Knight has

ty election. He will be a candidate for City Council Place 4.

an associate degree in criminal justice from Central Texas College. He has a six-year old son, Jeremy Stephen, who lives in Austin.

GOLF SCRAMBLE SET
There will be a scramble golf tournament at the Cisco Country Club at 1:30 p.m. Saturday, Feb. 20, according to an announcement. All area golfers were invited to participate.

REST OF THE GOSPEL

The body is nothing more than a flesh and blood container that houses our spirit. When we die our spirit goes to the spirit world to await the resurrection. This is the same spirit world that Jesus' spirit went to when His body lay in the tomb for three days. According to I Peter 3:19 and 4:6 Jesus went to preach the gospel to the spirits of all the dead. Jesus fully expects the spirits of the dead to abide by the gospel or He would not have gone personally to give it to them. But how can spirits abide by all the gospel, such as baptism, which is absolutely necessary for everyone who has ever lived, John 3:5? I Corinthians 15:29 is the inspired answer given by the Apostle Paul. The Rest of the Gospel, P.O. Box 763, Cisco, Texas 76437. p-17

Bonnie White To Teach Beginning Oil Painting Class

Bonnie R. White, of Eastland and formerly from the Austin area will be teaching an adult night class on beginning oil painting.

The classes are a 6-8 weeks series, one evening a week for two hours from 7 p.m. to 9 p.m. at The Frame Makers, 112 West 6th in Cisco.

A minimum class of ten students is required with oil classes beginning the week of March 1, 1982.

The classes are designed to teach beginning students to patiently reproduce on their own without the aid of an instructor. These classes will progress at a slower pace and be very explanatory.

One 16" x 20" size canvas or two 8" x 10" pictures will be completed in this series of classes. The objections of the class will be realism depth and perspective. Drawing is helpful but not necessary. There will be easy and simplified terms with arrangement of colors.

For registration, art supplies or additional information call Tommie Harris at 442-1251.

Lady Wranglers Defeat S&H Green Stamp Weatherford College Ideabook Is Available Here

Four Cisco Junior College Lady Wranglers scored in double figures, with sophomore Peggy Taylor's 28 points leading the way as Coach David Land's women retained sole possession of second place in NTJACAC play with an 88-67 win over Weatherford College in the CJC Gym Thursday night.

The victory pushed CJC's conference mark to 12-2 as the Lady Wranglers remain one game behind leading Cooke County—with the stage set for a season-ending showdown in the CJC Gym next Thursday night.

Taylor added 15 rebounds to her 28-point performance. Guard Sherri Hill pumped in 20 points while Carolyn Cheeks hit 14 and Candi Lott 10 in the victory.

CJC is now 20-9 for the season while Weatherford falls to 15-12 and 9-5.

Before Thursday's showdown, CJC must travel to Hillsboro to face Hill County and Cooke entertains Southwest Christian in Monday night action.

After a slow start, the Lady Wranglers finally got

moving and by the 6:43 mark of the first half had built up a seven-point lead. That lead went to nine by halftime, 38-29.

With 17:45 left in the second half, Hill, Lott and Taylor combined for three straight baskets to push the lead to 15 points, 48-33, and the Lady Wranglers were in command. Just before the game ended, the lead went to as much as 22.

Taylor hit 14 of 25 field goals while Hill connected on 10 of 16 for the win. Taylor, a sophomore from Bastrop, has now scored 511 points for the season and has a 17.1 scoring average. In conference play, she has 308 points and is averaging 22 points a game.

CJC hit only 29 percent from the floor in the win, but made good on six of eight free throws for a 75 percent mark.

Tipoff time for Thursday's game with Cooke County is 6 p.m. Everyone is urged to get out and support the Lady Wranglers in the season finale as they go for at least a co-championship with the Lions. Cooke won the first game, in Gainesville, by two points, 70-68.

One of the most widely circulated merchandise catalogs in the U.S., the S&H Green Stamp Ideabook, becomes available here this week. Eighteen million copies, containing many dramatic changes, contains over 1,650 items from which stamp savers can choose. "Everything from 'Redeem-A-Dream' vacations and Pierre Cardin 'designer fashions' to McCulloch chain saws are available to stamp savers," he said.

Gayland Robinson, area manager for The Sperry and Hutchinson Company, Inc., said the 1982 94-page Ideabook, which has many dramatic changes, contains over 1,650 items from which stamp savers can choose. "Everything from 'Redeem-A-Dream' vacations and Pierre Cardin 'designer fashions' to McCulloch chain saws are available to stamp savers," he said.

For the first time in its 86-year history, The Sperry and Hutchinson Company, Inc., offers discounts on a variety of vacation packages to Disneyland and Walt Disney World, holidays at Inter-Continental Hotels located in four U.S. cities, and vacations at All American Sports tennis resorts.

New items that become popular after the Ideabook is published also will be added during the year to inventories of some 500 redemption centers and catalog

Mrs. M.D. Bailey became a new member. A very interesting and educational program was presented by Mr. De Gordon, Eastland County Agriculture Agent, on "What, When, How and Where to Prune Trees, Flowering Shrubs, and Roses." Following a brief business session, Mrs. Irene Wende lead the recreation.

Visitors and new members are always welcome. Ruth Brown, Reporter

order stores operated by S&H.

"Adding items during the year allows flexibility in what we can offer and gives our stamp savers a great variety of items from which to choose," Robinson said.

Last year nearly 98 million books of Green Stamps were redeemed for merchandise that included kitchen accessories, jewelry, and outdoor furniture manufactured by Texas companies. S&H, the oldest and largest trading stamp firm in the country, has for years been a major buyer of locally produced goods and since 1972 alone has purchased over 12 million dollars worth of Texas products.

Free copies of "Ideabook '82" are available at more than 14,000 S&H Green Stamp-giving merchants and over 500 redemption facilities located throughout the country. A free copy of "Ideabook '82" can also be obtained by writing to "Ideabook '82," National Mail Order Center, The Sperry and Hutchinson Company, Inc., 5959 Butterfield Road, Hillside, Illinois 60162.

Look Who's New

WENDE MARISSA PIPPIN

Mr. and Mrs. Jim Pippin, Derek and Cade are thankful to announce the additional life that they have been blessed with, Wendie Marissa. Wendie was born on January 20, 1982, weighing eight pounds and one ounce. Wendie joined the Pippin family at age two days. Baby and family are still celebrating a new life that was not destroyed before birth. Mrs. Pippin is the former Marcia Wende, daughter of Mr. and Mrs. Ed Wende of Cisco. Paternal grandmother is Gertrude Pippin of Haltom City.

The Pippins live in Fort Worth. Mr. Pippin is athletic trainer for the Fort Worth High Schools.

CJC Wranglers Defeat Weatherford College Eastland Pastor Expresses Thanks For Success Of Flood Benefit Luncheon

The Cisco Junior College Wranglers overcame a nine-point halftime deficit as they outscored Weatherford College 13-2 during a four-minute period and then went ahead and held on for an 86-83 Northern Texas Junior College Athletic Conference win in CJC Gym Thursday night.

Charles Houston and Dwight Burr proved the difference offensively as both hit well from outside in the victory. Houston led all scorers with 26 points and Burr was second with 20.

The win pushes CJC's conference record to 9-7. The Wranglers travel to Hillsboro Monday night for a meeting with Hill County and then return to the CJC Gym Thursday night for the season finale with Cooke County College.

Weatherford took the lead with the first basket of the game and it took the Wranglers almost 10 minutes to see the score evened. That came at the 10:24 mark as sophomore Mark Priest got a tip-in to knot the score at 23-23.

After tying the game once more at 9:59, the Wranglers hit a dry spell that saw the Kangaroos push the lead to as much as 11 points before halftime. Weatherford led 51-42 at the half.

J.D. Hallman pushed it back to 11 with the first basket of the second half for the Kangaroos, but J.C. Cole's three-point play with 17:48 left and a jumper by Bruce Coleman less than a minute later cut the Kangaroos lead to six.

After Donald Jackson moved it back to eight, Houston, Cole, Burr, and Coleman produced five straight baskets before the Kangaroos could recover and the Wranglers had the lead for the first time, 57-55, at the 11:18 mark.

CJC took the lead for good on a dunk shot by Houston

with 9:54 left in the game and the Wranglers built the lead to as much as 11 points three times before Weatherford began to close the gap again.

Coleman countered a three-point play by the Kangaroos with a bucket at 0:22 to push the CJC lead back to five, 86-81, and the Wranglers held on for the win.

CJC still has a chance to make the regional tournament in Big Spring and could assure itself a spot with victories in the last two games. The top three teams and the No. 4 and 5 teams from each conference (the Northern and Western) are eligible to play in the classic March 11-13.

Investment Described To Rotary Club

Gold as good investment, not primarily to make money, but as a stabilizing factor in a world of fluctuating values, was described to the Rotary Club Thursday noon, by Stephen Wheeler, computer department instructor at Cisco Junior College. It may now be purchased at many banks, he said, with handling fees and excise taxes added to its market price, and he advised holding it once it is obtained, pointing to its long history of stability and demand.

The precious metal, international basis for most currencies, has had a volatile price history in recent years. For long stabilized by decree at \$35 a troy ounce, it rose rapidly after its release and at one time and briefly, reached a high of about \$900 per ounce. The price has now settled to about \$398 per ounce in world trading. Gold is measured in troy ounces of 12 to the pound as compared with the avoirdupois system of 16 ounces.

Pastor Wilburn Jones and the congregation of the North Seaman Street Baptist Church in Eastland wish to express deep appreciation to persons from the Churches, businesses and organizations of this area who helped make the Flood Benefit Luncheon a success.

More than 500 persons came to the Church for food and fellowship on Feb. 13th, raising funds to be used in repair of the building.

Some individuals also made personal donations by check, and many contributed time and effort.

Special thanks are due to the Victor Cornelius Co., which printed tickets without charge, as well as Mr. H.V. O'Brien of the Eastland Telegram, who assisted us with publicity and the selling of tickets.

Tickets were placed with the Eastland National Bank, as well as the Senior Citizens groups from Cisco and Eastland.

Radio Stations KERC and KVMX F.M. graciously gave publicity.

Ruth and Roy Cartee and a number of Senior Citizens from Cisco and Eastland gave money and many hours of volunteer work.

To all these contributors, as well as other who came to the luncheon, heartfelt thanks.

The metal has always been in great demand as a symbol of wealth and for its imperishable properties for decorative purposes. The Old Testament mentions Ophir as a pre-historic source, a district that Wheeler confessed he had not been able to identify. Puzzling also are the sources of gold accumulated by the Incas and other South American and Central

American peoples. Wheeler suggested that gold may have existed on the surface and had been gleaned off.

The principal source of western gold at present is South Africa where its recovery often involves the processing of tons of earth for a few ounces.

The Kruggerand, a coin somewhat larger than the American half dollar and minted of 99.9 per cent pure gold, is an attractive investment item, he said. He displayed to the club one of the pieces of his ownership.

Three factors affecting the price of gold were mentioned. They were (1) interest rates, indicative of the money supply and against which the price of the metal tends to rise and fall in an inverse ratio; (2) the "panic situation" in which investors tend to rush to gold as the economic conditions worsen, and (3) the availability of the metal in the market.

WORD OF GOD

The Body of Christ

For by one Spirit are we all baptized into one body, whether we be Jews or Gentiles, whether we be bond or free; and have been all made to drink into one Spirit.

For the body is not one member, but many.

If the foot shall say, Because I am not the hand, I am not of the body; is it therefore not of the body?

And if the ear shall say, Because I am not the eye, I am not of the body; is it therefore not of the body?

1 Corinthians 12:13-16

Texas Office of Traffic Safety

Moran News

By Mrs. Luke Huskey

Jim Sailer of Rochester, N.Y., and Ray Sailor of Mumfords, N.Y., are visiting their sister, Mrs. John Mark and family.

Mr. and Mrs. Robert Hill of Corpus Christi and son, Randy, of Portland, are visiting his mother and sister, Mrs. Mattie Arnold and Mrs. Frances Green.

Those from the Moran Baptist Church attending a Workers Conference in Rising Star Monday night were Rev. Jim Smith, Mr. and Mrs. Brit Pippin, Mrs. Imogene Allen, Mrs. Gladys Louder and Mrs. Eitta Terry.

Mrs. Frances Green received treatment in Hendricks Hospital, Monday.

Mrs. Zettie Bosman of Mesquite visited with her sister, Mrs. Lillie Jennings and with Mrs. E.J. Freeman Sr. recently.

Mr. and Mrs. Robert Charles Green and son have returned to Moran to make their home after being married in California.

Mr. and Mrs. Walter McCollum of Breckenridge visited with friends in Moran last Friday.

Johnny Cottle of Abilene spent the weekend with his parents, Mr. and Mrs. Jerry Cottle.

Ladell and James Weatherby of Brownwood spent the weekend with their grandmother, Mrs. W.G. Jones.

Mr. and Mrs. Thomas Holland, Melvin and Russell, attended the Stock Show in San Antonio last week. Russell showed a calf in the show.

MUSICAL
Remember the Moran County Musical to be held on Friday night, Feb. 26, at the Moran Community Center. The musical is held each fourth Friday in each month. All area musicians are invited to attend and help entertain. A concession stand will be open.

FLEA MARKET
Weather permitting the "Flea Market" will be held in downtown Moran on Saturday, Feb. 27. Information on booths and places to display articles can be obtained by contacting Cyrilla Mark at the Moran Coffee Shop.

Announces

Engagement

Mr. Marcell Daniel of Austin and Mrs. Joy Webber of Eastland are pleased to announce the engagement and approaching marriage of their daughter, Brenda Lee, to Ralph Lee Harrison, son of Mr. and Mrs. Bill Harrison of Rt. 3, Cisco. The couple plan to be married on Saturday, February 27th at 8:00 p.m. in the First Methodist Church of Eastland, Texas. A reception will be following in the Methodist Church Fellowship Hall.

Invitations are not being sent out locally. All friends and relatives are invited to attend.

Lake Cisco Home

Extension Club

Holds Meeting

The Lake Cisco Home Extension Club met Wednesday, February 17, at the Federated Clubhouse with Mrs. Etta Judia, president, presiding. Reading in unison, the club creed and a prayer, the meeting was opened with roll call response by nine members present. "Name one qualification of a good leader." Four visitors were introduced, including Mrs. Kathryn Cole from Cisco Garden Club and Mr. De Gordon from Eastland.

Homemaking Hints

By Janet Thomas

Spring is busting out in fresh looks that have a casual air. Silhouette and fabric together spell excitement in a variety of themes. Separates remain the key to wardrobe versatility.

One of spring's favorite themes is nautical. Middy tops, sailor collars, red, white, and blue striped boatneck tops over floppy navy pleated skirts all reflect the casual look of spring. Other major impacts or the oriental looks which show an influence of Polynesian, South American and the South Seas. The Romantic theme continues with laces, ruffles, and fullness. The Americana look show an emphasis on red, white, and blue.

BODICES: Blouses shaped tops - midi blouses over flared skirts worn as

separates or dresses, banded waistbands with side buttons, and full sleeves with button cuffs. Sailor collars are big fashion. White contrast collars - foggating, ribbons, tucks, and lace trims. All shapes and sizes of ruffled collars are strong for the season.

PANTS: Shorts and pants make a strong statement in a variety of lengths and treatment. Divided skirts, claddiggers, bloomers, short shorts, bermudas, walking shorts, capri, harem, knickers, jumpsuits, and ankle length pants all state that pants are full, easy and active. The conventional trousers also are continue in popularity.

SKIRTS: Tiers and flounces with a glimpse of a ruffled petticoat showing, floppy pleated, bias cut full

skirts, and culottes all indicated fullness. Skirt length is your own pleasure - from four inches above the knee to the midi.

JACKETS: Versatility is the statement from unconstructed lined blazers worn over cuffed bermudas and culottes, to trim fitting jackets that top cropped pants or swingy bias-cut skirts. Collars are notched or unnotched, stand-up collars or no collars. Full capped leeseves either gathered or pleated. Jackets are buttoned or no buttons, belted or hanging free. The choice is yours!

DRESSES: Versatility again from nightshirts to blouses two-piece looks all depicting casual and freedom that can be dressed up or down depending on the occasion.

FABRICS: Natural fibers in all weights are still going strong - silk, cotton, and linen. Some of the old favorites are growing in popularity - seersucker, cotton sheeting, polished, chinty, and glazed cottons, poplin, and duck.

Sheer fabrics and open weaves as well as the soft flowing fabric like crepe de chine are continuing. The metallics have been carried over from past seasons.

COLORS: Colors range from brights - lemon yellows, crisp white, turquoise green, exotic blue and ceremonial reds - to darks - ruby red and cinnamon, to pastels - sky blue, mist grey, sea green, and shell pink, to neutrals - sage dust, banana, khaki, cornsilk, ivory and broze powder.

ACCESSORIES: Belts are a large accessory item. Large bold metallic buckles, knotted ropes, obis and

sashes are the looks. Bags are quilted, braided, or woven leathers and straw. Jewelry include headbands, beads, bangle bracelets, and large earrings. All of these will be seen in hammered metals, metallics and seashells. The shaw is continued in light weight fabrics. Shoes are loafers and low heels with braided leather, being the newest look. Knee socks are returning as well as light colored hose.

RECIPE FOR THE WEEK:

OVEN STEW
¾ cup celery, minced
¾ cup green pepper, thinly sliced
1 clove garlic, minced
½ cup onion, minced
2¼ tablespoons margarine
2 pounds stew meat or round steak

2½ tablespoons flour
1½ teaspoons salt
½ teaspoon pepper
½ teaspoon sugar
1 tomato, peeled and diced
1 10¼ ounce can mushroom soup
2 cups broth or water
½ cup red cooking wine

Saute celery, pepper, garlic and onion in margarine until slightly brown. Cut meat into 1" cubes; dust with flour and seasonings. Add to mixture in skillet and saute until meat is brown. Stir in remaining ingredients. Transfer to buttered 3 quart casserole. Cover and let stand several hours or overnight in refrigerator. Bake at 350° F. for 2 hours. Serve over rice or noodles. Yield: 4-6 servings. (If you are an employed homemaker, instead of cooking the stew in the oven, put the stew in your crockpot. When you get off work, you will have a delicious meal by just adding a salad.)

Gordon Woolam

I SMELL A RAT

Rats have lived with man for so long, they have also developed the sense to come in out of the rain - or snow - or heat. Extreme weather will send rats and mice scampering for the nearest shelter. And that shelter is usually someone's home or business.

The best control for rodents is prevention. Prevention is making certain there is no food, water or shelter available to rats. Homes and businesses can be made rodent proof by sealing all holes with gnaw-proof materials.

However, these dangerous and costly pests have a way of getting into even the most rodent-proof buildings. Once inside, there are two basic control methods: traps and toxicants.

Traps are best used when the infestation is light or there is danger to children or pets from toxicants. The most readily available type of trap is the old-fashioned wood base snap trap. Some of the best baits are bread, oatmeal, bacon, candy, pecans or peanut butter. Make sure baits are securely attached to the trigger.

Use plenty of traps (at least a half dozen for the home) and keep them set. Dispose of all dead rodents as soon as possible and avoid touching them with bare hands. Always place traps along walls in out of the way places where rodents prefer to run.

For large infestations, tox-

icants should be used. The least hazardous toxicant available is the anticoagulant. Anticoagulants can be purchased at most feed or hardware stores. Anticoagulants are available under such chemical names as Warfarin, Fumarin, Diphacin, Pival, or Prokin. (These are not trade names).

Anticoagulants affect the clotting ability of the blood and cause the rodent to bleed to death internally. They are multi-dose toxicants. That is they have to be taken in repeated doses to be effective. Therefore, they pose less danger to children or pets accidentally eating enough to harm them.

Ready mixed baits can be obtained and placed in out of the way places which the rodents frequent. Water baits (anticoagulants dissolved in water) placed nearby will increase the effectiveness of the dry baits.

Because the anticoagulants require repeated feedings to be effective, the baits should be left out for at least 15 consecutive days. The amount of bait to use will depend on the level of infestation, but it is better to use too much than too little.

Once all of the rodents have been eliminated, a few bait stations should be maintained permanently to help prevent reinfestations.

For more information on this or other subjects contact your County Extension Office.

Happenings

COMING SOON!!!!

A countywide 4-H workshop just for you, with awards, prizes and refreshments.

The subject: Method Demonstrations

Date: February 23, 1982
Time: 7:00 p.m.

Place: The Corral Room, 400 Ave. D, Cisco, Texas

All 4-H members, parents and adult leaders are encouraged to attend. This will be the perfect opportunity to find out how to prepare those method demonstrations for County Round-Up contest, April 1. There will be some films with past state winners of method demonstrations and Share-the Fun guests.

There will also be a guest speaker, a sample demonstration and a question and answer session. The program has been organized by John Blair and Christy Gentry, County Extension Agents and they hope everyone will make an effort to attend whether they are planning on doing a method demonstration or not.

A "Participation Banner" will be awarded to the club with the largest number of people present. Parents and visitors will count. The ban-

ner will remain in the club until the next countywide event where it will be passed on to the club with the most participation at that event.

This workshop has been planned not only to be a good learning experience, but also to be a fun time with a chance for county 4-H members to meet each other. So, mark this date on your calendars and plan to be there.

FABRIC UPDATE

By Dorothy

With spring just around the corner, those of who who sew, are looking for the "spring-look" in fabrics and colors, and also the care of the fabric we purchase is very important.

Gaberlines in a rainbow of pastel colors are very good for spring.

A.B.C. Gaberdine is always an easy-care fabric. Wash this fabric in cold water, dry on low. If you take care to remove it from the dryer as soon as the dryer completes its cycle, the fabric comes out, no ironing needed. If you don't have a dryer, hang to dry.

When you're buying fabrics, look for a brand that your store will guarantee to you. Ask your clerk about the blend and care of the fabric. She will be glad to help you.

Also to match your fabrics for the mixed look, that is good this year ask her about the manufacturer, become acquainted with brand names and fabric care.

Sew and save, for a beautiful spring wardrobe.

If you have questions about fabrics or care of fabric, write me, P.O. Box 829, Cisco, Texas 76437. Your questions will be answered in this column.

NARFE

Eastland Co. N.A.R.F.E. Chapter 555 will meet Tuesday, Feb. 23rd at 1 p.m. at the Colony Restaurant in Cisco for the regular monthly meeting.

Mr. Elmer Foster, newly elected president will preside and introduce the program of the day. Mrs. Neil Eaves will serve as secretary for the coming year. Mr. H.V. Ferguson will be the new treasurer.

Farm Program Signup Underway

We will begin accepting applications for the 1982 farm programs on February 16, James Chesshir, Chairman of the Eastland County Agricultural Stabilization and Conservation Committee, said. Secretary of Agriculture John Block recently announced acreage reduction programs for wheat, corn, grain sorghum, barley, oats, rice and upland cotton.

To be eligible for loans and target price protection farmers must sign up and comply with the acreage reduction program requirements, Chesshir said. For reducing their wheat acres by 15 percent, farmers will be eligible for the \$4.05 per bushel 1982 target price for wheat, a regular loan rate of \$3.55 per bushel, and a grain reserve loan rate of \$4.00 a bushel.

Farmers who reduce their feed grain acreage by 10 percent will receive federal target prices of \$2.70 per bushel for corn; \$2.60 for sorghum and barley and \$1.50 per bushel for oats. They will

also be eligible for loan rates of \$2.55 per bushel for corn, \$2.42 for sorghum, \$2.08 for barley and \$1.31 per bushel for oats.

According to Chesshir, 1982 wheat and feed grains will be eligible for immediate entry in the farmer-owned grain reserve. Feed grain reserve loan rates are \$2.90 a bushel for corn, \$2.75 for sorghum, \$2.37 for barley and \$1.49 per bushel for oats.

The upland cotton program offers farmers a target price of 71 cents per pound and loan rate of 57.08 cents per pound for reducing their cotton acres by 15 percent. Farmers who reduce their rice acres by 15 percent will be eligible for target price protection of \$10.85 per hundredweight and loans at \$8.14 per hundredweight.

Participation in the 1982 farm programs is voluntary. However, only those farmers who take part in the program will be eligible for benefits the ASCS official said. The sign up period ends April 16.

Beef & Cattle Course Final Session Feb. 22

The third and final session of the Eastland County Beef Cattle Short Course will be Monday night, February 22, at Cisco Junior College according to County Extension Agent DeMarquis Gordon.

Dr. Ernest Davis, Extension Economist-Livestock Marketing Specialist for the Texas A&M Extension Service, will speak on livestock marketing. Dr. Davis will discuss alternatives of feeder calf marketing, current trends in feeder calf marketing, the cattle cycle and price outlook.

The meeting will begin at 7:30 p.m. and will be in the Cisco Junior College Agriculture building. Everyone interested in beef cattle production is invited to attend.

GORDON SPOT

By DeMarquis Gordon

Have you given your fruit and nut trees their annual "lube" job? This refers, of course, to an application of dormant oil to control scale insects.

It is important to spray fruit trees, especially, with the dormant oil each year. Once every three years is usually adequate for nut trees.

The purpose of the oil spray is to kill scale insects. If a scale insect such as the San Jose scale or white peach scale gets started, it can kill your trees.

Dormant oil can be purchased at many different stores where garden sup-

plies are sold. Be sure to follow all label directions and apply the mixture when the temperature is between 40-70 degrees F. Do not apply if a freeze is likely within 48 hours after application, and do not apply after the tree has budded out. Dormant oil is applied when the tree is dormant. Spraying blooms and leaves could cause leaf burn and flower drop.

Scale insects are difficult for most people to detect, so dormant oil should be applied once each year. Sooner or later your tree will probably be attacked by scale insects, so be ready by guarding against them with an application of dormant oil.

This is also a good time to spray ornamentals that normally have scale insects. The most common plant that is always attracting scale is the eonymus. The scale insects are found on the shrub's leaves, stems and trunks.

You should spray the eonymus now with oil spray. Two or three insecticidal sprays may be needed through out the year to control the scale insects. After the new leaves begin to grow you should use the summer oil plus malathion or diagenon. Be sure to follow directions on the insecticide label.

It is also time to control soil insects in home gardens. Soil pests feed on sprouting seed, tender shoots and roots of developing plants. They are usually most severe where gardens are planted in new areas previously covered with grass.

Soil insects include cutworms, wireworms, false wireworms, white grubs, soil maggots and rootworms. For best results inspect the proposed garden plot before planting. Examine a spade full of soil at several locations. If soil pests are found, apply an approved insecticide at least two weeks before planting.

Diazinon will control most soil pests. For each 1,000 square feet use ¾ cups of diazinon 25% liquid in three gallons of water. Apply the mixture evenly and work it into the soil to a depth of 4 to 6 inches.

OILFIELD DISPATCH

Call 629-1707 to List Here.

COUNTY OIL REPORT

A 1,500-ft. Eastland County wildcat venture is scheduled to be drilled two miles northwest of the Romney townsite. The explorer well

will be known as the No. 6 Schaefer. It will be located in a 45-acre lease in the H&TC Survey, A-254. Ridgeway Oil Exploration and Development Corp. of Dallas is the operator.

The East Nimrod Field will see developmental action when Emerald Energy Inc. of Abilene starts making hole for the Nos. 1 and 2 Cooper-Schaefer three miles east of the Nimrod Community. Projected total drilling depth is 1,350 feet. Drillsite is in a 42-acre lease in Eastland County's H&TC Survey.

Dale Oil of Breckenridge has filed for permit to drill the No. 5 Robert Allen, a developmental oiler in Eastland County's Scranton Field, about one half mile east of Scranton. Location will be in a 31-acre lease in the H&TC Survey. The well is earmarked for 1,750-ft. total depth.

Charles Hale, independent operator from Ardmore, Okla., has staked location for a 2,000-ft. Eastland County wildcat a half mile north of Nimrod. The well will be designed as the No. 2 Callarman. It will be spudded in an 80-acre unit in the H&TC Survey.

Lyles Energy of Ore City, Tex., has staked drillsite for two 4,000-ft. developmental wells in the Eastland County Regular Field one mile south of the Carbon townsite. The wells will be known as the No. 4 Sandlin and No. 4 Wright. Both are in 80-acre units in the H&TCRR Survey.

An 1,100-ft. wildcat for oil or gas is scheduled to be spudded one mile north of Gorman, Eastland County. It will be designated as the No. 1 Gressett, with J&T Oil and Gas Co. of Gorman as operator. Drillsite will be in a 160-acre lease in the H&TC Survey.

Graham-based independent Ray Herring has filed for permits to drill two developmental wells in Stephens County's Stephens County Regular Field, 11 miles south of Breckenridge. The wells both are scheduled for maximum depth of 4,400 feet. Designated as the No. C-3 Scarlett and the No. 1 White, the wells are in Stephens County's T&PRR Survey. Herring has 358 acres leased for the Scarlett well and 160 acres leased for the White.

Eastland based R.G.D. Inc. has staked location for 4,000-ft. developmental probe in the Eastland County Regular Field, about three miles southwest of Carbon. It will be designated as the No. 2 Spruill, with drillsite in a 160-acre lease in the H&TC Survey.

Flowing at the rate of 85

barrels of crude per day on a 16/64 choke, a new oil producer has been brought on line in the Green Field by Trinity Exploration Co. of Fort Worth. In addition to the oil production, the well indicated potential for 130,000 CFD casinghead gas.

The operator took the well to 3,300-ft. bottomhole and perforated the Caddo Formation for production 2,656 to 2,667 feet into the wellbore. Location is in a 40-acre unit in Eastland County's Mary Ann Clark Survey, A-51, six miles northwest of Rising Star.

A flowing oiler has been completed in the Eastland County Regular Field five miles northeast of Cisco by Trinity Exploration Co. of Fort Worth. Designated as the No. 3 J.W. Childers, the well showed potential to make 28 barrels of crude and 110,000 CF casinghead gas per day on an 18/64 choke.

Drillsite was in the H&TCRR Survey, where Trinity has 567 acres under lease.

Bottomed at 3,705 feet, the well will produce from a perforated interval in the Lower Lake Sand, 3,502 to 3,511 feet into the wellbore.

The Jones Co. of Albany has posted first production data for the No. 2 Dyer "464," a developmental gasser in Eastland County's Lee Ray Field, 11 miles north of Cisco. It showed potential for 116,000 CF natural gas per day on a quarter-inch choke.

Located in a 264-acre lease, SPRR Survey, the well bottomed at 4,090 feet. It was perforated to produce from an interval in the Bond Sand, 3,611 to 3,632 feet into the hole.

Pumping 18 barrels of oil and 450,000 CF casinghead gas per day, open choke, the No. 1 Nanie Walker Estate has been finalized by Ridge Oil Co. of Breckenridge in Eastland County, a half mile north of Ranger.

The wildcat well was drilled to 3,705 ft. total depth and was perforated to produce from an interval in the Marble Falls Formation, 3,184 to 3,202 feet into the hole. Drillsite was in a 67-acre lease in Eastland County's Samuel Standifer Survey, A-442.

The same Breckenridge operator has successfully completed a marginal oiler one mile north of Ranger in the Northwest Ranger Field. Designated as the No. 1 Stubblefield, it pumped at the rate of two barrels of oil per day, along with 32,000 CF casinghead gas, open choke.

Ridge drilled the well to 3,875-ft. total depth. The production will be from a set of perforations in the Marble Falls Formation, 3,400 to 3,430 feet into the hole. Location is in a 150-acre lease in

the Stubblefield Survey, A-978.

A potent natural gas well as been completed six miles north of Dothan in the Eastland County Regular Field by North American Exploration of Abilene. The No. 1 J.C. Coates showed potential for 981,000 CF natural gas per day on a 3/8 choke. The absolute open flow came in at 1,900,000 CFD.

Bottomed at 4,115 feet the well was perforated to produce from an interval 3,618 to 3,620 feet in the Lake Sand Formation. Location is in a 160-acre lease in the TE&L Survey.

Pumping six barrels of oil and 40,000 CF casinghead gas per day, open choke, the No. 2 Terry Jacobs has been brought on line in Eastland County's Penn Field, three miles northwest of Rising Star.

Southeastern Resources Corp. of Rising Star is the operator.

The well went to 3,545-ft. bottomhole and was perforated to produce from an interval in the Marble Falls Formation, 3,274 to 3,282 feet. Location is in a 161-acre lease, ETRR Survey.

Eastland County Newspapers Salute the Oil Industry

The Golden Triangle - Linking Cisco With Australia

ROBERT KAMON is shown at the south end of his home in Cisco.

By Viola Payne
Kamon House of Cisco, the home of Golden Triangle Royalty & Oil, Inc., resembles a beautiful southern estate more than a typical Corporate Headquarters. The large white columns of the two-story house, with the spreading arms of trees above neatly trimmed lawns, give a tranquil appearance. But a sign with an astonishing list of company names indicates that the home of Robert and Effie Kamon has a lot of activity.

Golden Triangle Royalty & Oil, Inc., with Robert Kamon as President-Director, is the most recently acquired corporation among those based at Kamon House. Controlling interest in this corporation, which was formerly located in Pennsylvania, was acquired May 15, 1979. Other corporations based here include International Royalty & Oil Co., Black Giant Oil Company, Kamon Petroleum Exploration, and U.S. Representatives.

Golden Triangle has issued more than 13 million shares, of which 4 million are publicly traded. The stock is listed with brokers in a number of U.S. cities and in London, England.

On May 6th about 60 out of approximately 3,500 Golden Triangle stockholders are expected to attend the annual Stockholder's Meeting at the Kamon House, enjoying a mixture of hospitality and reports from the Company's extensive royalty holdings. They will discuss late developments with the management of the Corpora-

tion - President/Director Robert Kamon, Vice President/Director Ivan Webb of Cisco, Secretary/Treasurer/Director Effie Kamon, Chairman of the Board Thys B. Johnson from Goldn, Colorado, Director Howard Siegel, Houston, Vice President/Public Relations Randy Agnew of Cisco, Lloyd London of Cisco, Vice President/Geology Robert Hare of Ft. Worth, and Attorney C.J. Eden of Breckenridge.

Various companies will meet during different times of the day, and all are expected to have favorable business reports.

Golden Triangle, as a royalty corporation, is not providing the actual drilling on the land where its mineral interests are held. It seeks and acquires favorable royalty and mineral rights, and is an owner of a percentage of the oil developed on the properties. Although Golden Triangle has oil royalty and working interests in the United States (including Eastland County), and Honduras, its main holdings are under approx. 88.5 million plus surface acres in the state of Queensland, which extends from northeastern Australia to the center of the country. These acres exceed an area over half the size of Texas, with the majority of the net royalty acres adjoining a block with major oil production.

Australia, according to the experts, is about 25 years behind the United States in oil exploration and development - and it is making a

probably follow to determine the size and structure of the reservoir.

Other exploration in this general area of Australia is being conducted by Esso Exploration and Production Australia Inc. (Exxon) and Abbott Petroleum Co. Harken Oil & Gas is scheduled to begin exploratory drilling on Golden Triangle royalty acres by December, 1982.

Much of this exploration lies in a remote, arid, picturesque area of domes and basins. Robert Kamon and his son, Ken Kamon, made a geological field trip to the area in the summer of 1980. They made extensive surveys of the Warbreccan Dome, as well as other areas on the eastern portion of the concession.

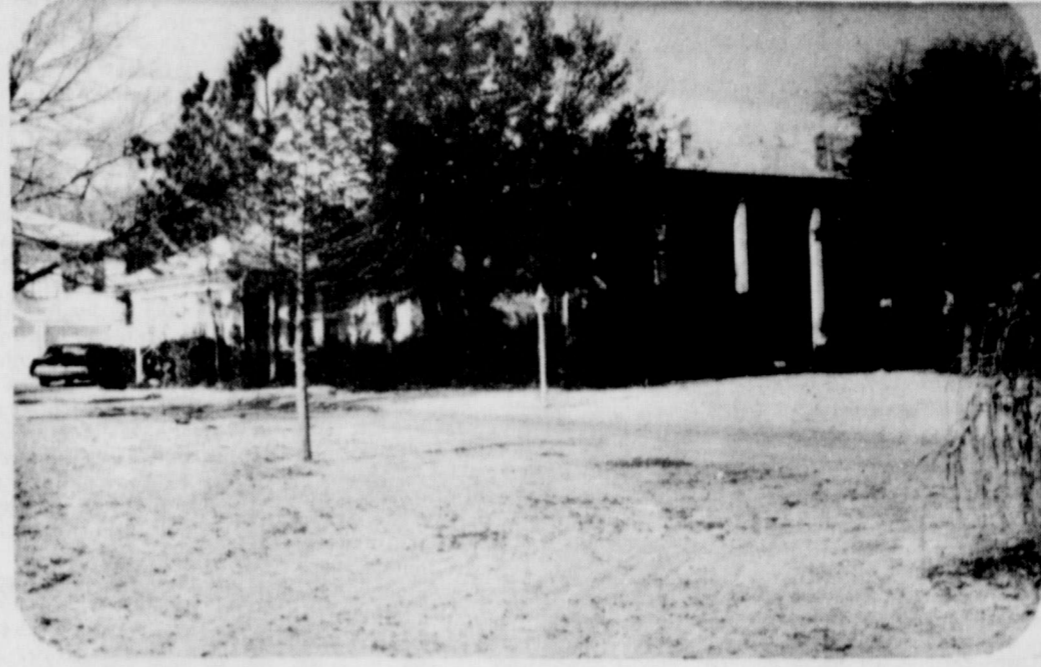

Robert Kamon is the son of the late Rudolph and Isabel Kamon, long time residents of Cisco.

Rudolph Kamon was born in Poland, and in 1910 he came to America to study at the University of Chicago. In 1914 war began in Europe, and he learned that his family in Poland had been killed by invading armies. After that Kamon enlisted in the American Army. After the war he did extensive geological work, finally moving to Cisco with his family in the 1940's. He completed Australian work and a number of projects before his death in 1979.

Robert Kamon graduated from the University of Texas at Austin in 1949 with a Degree in Petroleum Engineering. He married Effie Hart of Cisco, daughter of a prominent ranching family, and made his exploration headquarters here from that time on. Effie and Robert Kamon have a son, Ken, who recently graduated from the University of Texas (Austin)

feverish attempt to catch up. The government has welcomed American companies into the country, and they are doing the major part of the drilling at the present time. But Australian, English and French companies are also involved in all phases of the operation.

Even a glimpse of that is happening around the Golden Triangle property shows the extent of the search, and the high stakes involved. Australia's largest onshore production site, held by Delhi International and partners, adjoins GTR "Authority to Prospects" land along its 319 miles of the southern border. This adjoining Delhi et al block contains proven and probable reserves estimated at 317 million barrels of liquid hydrocarbons and 3.4 trillion cubic ft. of gas. One new well in this area, the Jackson No. 1, is initially reported to be flowing 4,200 barrels per day, heralding a large new oil field. Further seismic tests and more wells will

THE FRONT of the Kamon House

with a Degree in Geological Engineering. Ken now works out of Abilene. The Kamon's daughter, Kaye, is presently a student at the University of Texas.

In spite of the activity stirring around, Kamon House retains an atmosphere of graciousness. Visitors are ushered into a living room with a deep red carpet and French Provincial furnishings. A desk nearby holds maps, charts, and other materials describing far-away places with exotic names. On down the hall are the real working quarters - spacious rooms with more desks and secretaries tackling correspondence. Mrs. Kamon, an unhurried hostess, greets guests.

Robert Kamon's office is as quiet as the eye of a hurricane. Kamon is slender, soft spoken, and energetic. ("We can hardly keep up with him!" smiles an employee.) A filing cabinet across one side of the room contains minute data about every tract of royalty the corporations own from here to Australia. These are probably filed in Kamon's mind also, for he can rustle through papers and bring up information quickly.

When asked about Australia, and how he can handle property so far away, Kamon simply states that he has a lawyer in Australia who keeps him informed of what is going on. Of course, he makes numerous trips, not to mention the phone calls back and forth. As for the Australian Land and Cattle Co., in which he is a partner - that ranch has a foreman who handles things well. It lies in an area on the

east coast which as 43 inches of rain annually, contrasting with the 7 inches in the interior.

"I feel at home in that interior of Australia - it is almost exactly like some parts of west Texas," Kamon says. "A few cattle ranches operate on the fringes of it, and occasionally an aborigine will come through hunting. There are herds of kangaroo and packs of dingos (wild dogs) in the area. Generally the natives have moved to reservations set up by the government, where they find living easier."

Kamon mentions that the roads are rough back in the area of the domes - that it

takes a 4 wheel drive Land Rover to get there. Drinking water is scarce, and must be carried in with other supplies. The Australian people - if you meet any in the back country - are friendly and easy to communicate with. They look and act like Texans, in fact, until you notice their speech.

Mr. Kamon believes that Golden Triangle has good oil prospects in the United States as well as Australia, and these will go along with the production it already has. He mentions a deep gas well in Pecos County as an example. There are others in Oklahoma and Louisiana, oil wells in the Austin Chalk formation, and production in Kansas.

GTR owns a 4% working interest in 5 wells drilled in Clyde Houston here in Eastland County. Furthermore, in a joint venture with Houston Oil & Energy, GTR recently formed G&H Water Injection Co. for the purpose of disposing of salt water from area wells for 65 cents per barrel. The Company has converted one of its wells in the Foster Field to a salt water injection well.

With all these projects going on, there is little chance that the Kamon family or associates will be idle or bored in the foreseeable future. They are looking forward to this future - which is an attitude which will probably pay dividends along with oil.

FUTURE FARMERS OF AMERICA

Proclamation
FFA WEEK - 1982

WHEREAS, the Future Farmers of America with vocational agriculture education is a strong force for America's agriculture; and
WHEREAS, members of the FFA are playing an outstanding role in assuring the future progress and prosperity of our nation; and
WHEREAS, the FFA motto - "Learning to do, doing to learn; earning to live, living to serve" - gives a direction of purpose to these future leaders for tomorrow's agriculture; and
WHEREAS, the FFA performs the valuable service of developing leadership, encouraging cooperation, promoting good citizenship, teaching modern agricultural information, and inspiring patriotism among its members.

THEREFORE, I, *Charles P. Schell*, hereby designate the week of February 20-27, 1982, as FFA WEEK.

VOCATIONAL AGRICULTURE
Growing For America

An American Success Story

One of the best examples of youth in action on the American scene today is the FFA, the national organization for the students studying vocational agriculture in the public high schools. The Future Farmers of America is an organization run by the student-members under adult guidance.

Soon after vocational agriculture became a subject in many of the nation's high schools in 1917, instructors became aware of the need to provide practical training beyond the traditional classroom approach. Their idea was to make the instruction more interesting by making practical work experience competitive livestock judging, and agricultural leadership development activities part of the instruction. Vocational agriculture instructors and students eagerly accepted the learn by doing principle of a new organization called, Future Farmers of America.

The FFA was founded nationally in 1928 after similar organizations had started in several states. Right from the beginning, the FFA has stressed leadership, cooperation and citizenship—all vital to success in modern agriculture.

Today the FFA has a membership of 485,000 with chapters in approximately 8,000 high schools throughout the nation. The organization has state associations in all states and Puerto Rico.

Vocational agriculture or agribusiness programs are funded in part by the National Vocational Education Acts through the U.S. Office of Education, state departments of education and the local school systems. The FFA operates under a federal charter

granted by an Act of Congress in 1950 (Public Law 740, 81st Congress). The charter provides for all national board of directors and a board of student officers elected from the membership.

FFA activities are specifically designed to be a part of the instructional program in vocational agriculture. Members learn through active participation how to conduct and take part in public meetings, how to speak in public, and how to take a leadership role in their school and community.

Each local chapter and each state association elects its own officers each year. In all cases the teacher of vocational agriculture is the advisor of the local FFA chapter and the state supervisor of agricultural education is the advisor of the state association.

FFA members have full opportunity to practice the principles of democracy in conducting the affairs of their organization by exercising their privilege to vote at chapter meetings, serve on committees, and otherwise assist in carrying on the work of their organization. Elected delegates to the state and national convention, held each year, are asked to decide on major issues facing the organization.

Advancement through the degrees in the organization from the Greenhand through the Chapter Farmer, State Farmer, and American Farmer or Agribusinessman is based on achievement in farming, ranching, or agribusiness careers.

Nearly 8,000 public high schools have FFA chapters. One of the requirements for membership in FFA is that a student be enrolled in vocational agricul-

ture. Students may retain their membership until they are 21. Competition is a key element of the FFA from the chapter to the national level. Each year the FFA recognizes more than 80,000 members at local, state and national levels for outstanding achievement in activities related to agriculture career and leadership development.

Funds for awards are provided by more than 800 businesses, organizations, and individuals that sponsor FFA programs through the National FFA Foundation, Inc. The Foundation provides over a million dollars to make the incentive awards available to deserving FFA members in the following award programs: Star Farmer and Star Agribusinessman awards, 22 agricultural proficiency awards, public speaking, national chapter awards, national chapter safety, Building Our American Communities Awards, national judging contest, establishment in agriculture awards, and through state initiated programs for improving agricultural leadership. The cry for food in this country and around the world reaffirmed the need for continuing a strong program of vocational agriculture and the FFA. Thus there is a bright future for trained agriculturists growing for America.

Plans For A 'Texas Independence Express'

With the Texas Sesquicentennial coming up in 1986, various plans are being formulated for the celebration. The State Commission which aids in preparation would like to see a special train traveling through Texas during the year, carrying historic material of interest to citizens. During a January meeting in Austin the Commission explored the possibility, indicated that the train would be named the "Texas Independence Express".

The Commission already has a special train in mind - a 19 car life-size train that toured the United States during the Bicentennial. The Freedom Train, as it was called during the Bicentennial, traveled 17,000 miles through 48 states in 21 months carrying historical

memorabilia. After the tour, the train was sold to the Canadian Government, which used it for another touring exhibit. State Rep. Chris Semos, commission chairman, stated the Canadian officials wanted to sell the train soon, but have indicated they may delay if the Commission can find a group to buy the train.

The major drawback to the plan, Semos said, is a \$700,000 price tag.

"Unfortunately we don't have state funds to buy it, but we are looking into private funds," he added. He called the concept of a traveling exhibit "one of the finer projects" of the Commission.

"This is one of the things that could go around to some of the smaller and medium-sized towns," he said.

STROKE

Allan R. Magie, Ph.D., M.P.H.

The brain is a glutton. It demands one-fifth of the blood the heart pumps. But it also starves quickly. If its supply of blood is hindered for any reason, permanent damage can occur within five minutes. That's what happens when a stroke strikes—a sudden interruption in the blood flow to the brain and subsequent brain damage. Four out of five victims will survive the first stroke with only partial brain damage and handicaps of varying degrees. But strokes account for one of every five deaths from cardio-vascular disease. About 80 percent of these occur in people over 65 years of age.

The symptoms of stroke can develop within minutes. The victim usually loses consciousness and collapses. The face may be flushed. Vomiting or convulsions may follow. Often the damage is only on one side of the brain, so it affects only one side of the body. The pupil in one eye may appear larger than the other. The muscles may be weakened on one side of the body. The mouth may be pulled to one side. Immediate medical attention is important.

Recovery is slow and tedious and often involves a program of muscle therapy. Exercises may help a person regain some of the functions that were affected by the stroke. Many have to learn how to walk again. Though it takes time and patience, the effort often means being able to resume former responsibilities.

The tragedy of stroke is that though it strikes suddenly, the weakened health condition which leads to it is one that develops slowly and is usually preventable. The cause of stroke is often traceable to lifestyle—lack of exercise, high stress, or a diet high in fats, particularly hard or animal fats.

If a person has arteriosclerosis, a floating piece of blood clot can lodge in one of the narrow arteries in the brain. Sometimes, because of high blood pressure a brain artery may rupture at a weak point, causing blood to flow into the brain tissue and cutting off the supply of blood to other areas of the brain.

Developing a lifestyle that includes attention to health habits will pay off in the long run. Reducing the chances of becoming a stroke victim is just one of the benefits you'll receive.

Patricia Ferrell & Danny Wilson In Concert Feb. 21

The Eastland Music Study Club will present Patricia Ferrell, pianist; and Danny R. Wilson, clarinetist, in concert Feb. 21, at 2:00 p.m. at the Women's Club.

Patricia Ferrell is the former Patricia Liles of Eastland. She and her husband, Johnny E. Ferrell, Jr. have two sons, Richard and

Cheese Give-Away February 22

The distribution of the government cheese surplus will take place in Eastland Monday, Feb. 22 and Tuesday, Feb. 23 from 9 a.m. til 6 p.m. each day. Distribution will take place at the Camp Inspiration dining hall. This program is being sponsored in our area by the Eastland Ministerial Alliance.

All communities within Eastland County are invited to share in this program. If a local organization hasn't made arrangements for local distribution, please feel free to come to Eastland. Gorman, Rising Star, and Cisco will have their own distribution centers.

To be able to pick up your cheese you must sign a form with your name and address stating that you are a needy person. You will then receive 5 lbs. of free cheese. Please do not come planning to pick up cheese for other families and friends. Each one must pick up their own cheese. If this is absolutely impossible due to physical disability, then contact should be made with the ministerial alliance and arrangements will be made to get cheese to you.

This program is being sponsored as a service to this community under designated guidelines. Your cooperation will be greatly appreciated as the ministerial alliance seeks to distribute this cheese to as many as possible.

Larry, and reside at 1301 S. Bassett St., Eastland. She is the daughter of Mrs. Glenn Liles and the late Artie Liles of Eastland.

Currently a sophomore music major at Tarleton State University, she is the recipient of the Lucille and Charles Froh Piano Scholarship Award.

When Patricia was a freshman in high school, she performed with the Eastland High School band as soloist in their presentation of Edvard Grieg's "Piano Concerto in A Minor". She played Mendelssohn's "Piano Concerto in G Minor" when she was a sophomore in high school.

Currently the organist for the United Methodist Church in Breckenridge, she has also taught private piano lessons for 21 years. Some of her former teachers include the late Mrs. A.F. Taylor, Ben Karnes, the late Charles Kiker, Mrs. Donald Kinaird, Ms. Monte Hill Davis, James Petty, and Barbara Chung.

Mrs. Ferrell is currently studying under Dr. Jeffrey Shumway, asst. prof. at Tarleton. He holds a Bachelor of Music degree from Brigham Young University and a Master of Music from Juilliard School of Music in New York City. He just recently completed his Doctor of Music Degree from Indiana University. He has performed throughout the United States, most recently appearing as a guest artist at the 1981 Summer Piano Workshop of Brigham Young University. He was a prize-winner in 1978 Gina Bachauer International Piano Competition and in 1971 was sponsored by the U.S. Information Service on a nine-recital tour of India and Pakistan.

Also performing with Mrs. Ferrell will be Danny R. Wilson, Clarinetist, of Granbury, Texas. He is the son of Mary Earline Wilson of Hurst and is a sophomore music education major at T.S.U.

Wilson received his basic

music education in the Hurst-Eules-Bedford school district in Hurst, Texas under the direction of Earnest Reppas at Hurst Jr. High and Roger Winslow at L.D. Bell High. Before coming to Tarleton, he attended Baylor University.

He has studied privately under John Goldberg, and Richard Shanley of Baylor University. His awards include: All Region Band (1968-73), All-State Band (1971-73), Texas State Honor Band (1971), Baylor University Music Scholarship (1973-74), and the Baylor Symphony (1974).

Mr. Wilson and his wife, Margie, have one son, David Bryan, and reside at 1020 W. Bridge Street, Granbury.

He is currently studying

under Alois Piskor of TSU. Mr. Piskor holds a diploma from the state school at Ticha, Czechoslovakia; a Bachelor of Music from the Conservatory of Music, Ostrava, Czechoslovakia; and Master of Music from the University of Houston. He has performed as clarinetist in the summer symphony orchestra concerts in Hermann Park, Houston, Texas. He has also performed with the theatre orchestra and the Ostrava Philharmonic in Ostrava, Czech.

Mr. Pisko has spoken to civic groups and schools in the Stephenville area, and judge contests throughout the Big Country.

The public is invited to the concert. There will be no admission charge.

Tutoring School To Open

Mrs. Colleen Barker

He can be taught listening, speaking, spelling and arithmetic skills by Mrs. Barker.

Should your child's teacher have suggestions, they will be carried out to the letter. A really good tutor is a good "Teacher's Aid."

Mrs. Barker has a Master's Degree in Elementary Education and many years of experience with very high recommendations from people she has taught under - while teaching full time.

Also she has very high recommendations from the parents of children she has taught.

The longer one waits for extra help, the more difficult the child's work is, she said.

Classes begin March 1st with limited enrollment.

The child will come twice a week. His fee is \$3.00 an hour or \$6.00 per week.

Kindergarten and 1st graders will meet at 3:10 p.m. (Cookies will be ready.)

2nd and 3rd graders will meet at 4:10 p.m.

4th, 5th and 6th graders will meet at 5:10 p.m.

Mrs. Colleen Barker is at 308 South Oak, just across the street from the Eastland High School.

Texas Department of Public Safety

SEEDS FROM THE SOWER

By Michael A. Guido, Metter, Georgia

While speaking in a state prison an inmate said, "I want to tell you about two prisoners."

"Tom asked, 'Where are you going?'"

"To the electric chair," answered Joe.

"More power to ya," shouted Tom."

That is a little extreme, but the Lord wants you to have more power.

There is the power of authority. The Bible says, "As many as received Him, to them gave He power to become the children of God."

What God offers, man must appropriate. God offers you and me the author-

ity to become His children. But we need to accept it. And we accept it through believing on the Lord Jesus. That is, putting our trust in Him for everything.

There is the power of ability. "You shall receive power," said our Lord, "after the Holy Spirit is come upon you; and ye shall be witnesses unto Me."

This is not specifically the power to heal, but to help; not to perform wonders, but to preach the Word; not to elevate ourselves, but to evangelize others.

Like the convict said, "More power to ya!"

Lights from the Christian World

By: Josephine Cleveland

HOUSE OF PRAYER

One of the great Christian writers of our day is Helen S. Rice. She wrote, "The House of Prayer is not farther away than the quiet spot where you go to pray."

Life on earth grows more involved with endless problems that seemingly can't be solved. But God only asks you to do your best. He will take over and finish the rest if you but allow Him. Often when you are blue, tired and discouraged and there seems no door open for you - remember there is one and that is the door to the House of Prayer.

Friend, you will find God waiting to meet you there - This door is no farther away than the place where you pray. Your heart is the temple when God is there. As you place yourself in His loving care, He hears every prayer and answers each one when you pray in His name.

You may find at times you do not know how to pray; for your needs seem so complex. Paul, the Apostle wrote a letter of encouragement to the Christians in Rome and gave them instructions when such arose in their life. He wrote, "Likewise the Spirit also helpeth our infirmities: for

County Now Has Chapter For Disabled Veterans

Eastland County now has a chapter for Disabled American Veterans. They are Chapter No. 92.

Members of Chapter 92 are: O.D. Cooper, Joel O. Baker, Jr., Richard I. Mix, Charles R. Maffey, Johnnie W. Morren, Tom J. Rainey, Homer H. Kirk, Pink Haley, B.L. Phillips, Henry A. Scitern, Jack H. Tucker, Rufus A. Carr, Floyd A. Alldredge, D.H. Livingston, Sr., Walter L. Tucker, Homer R. Johnson, L.L. McIlvain, Charles Johnson, Arnold C. Nelson, Robert W. Mortimer, Norman C. Gilbert, Alba G. Stanley, John R. Holt, Weldon H. Carroll, Lee L. Williamson.

Commander of this Chapter is Pink Haley of Eastland. B.L. Phillip of Olden is the Senior Vice Commander. Junior Vice Commander is Larry Cozart of Mineral Wells. Rufus Carr of Eastland is the adjutant-treasurer. Homer Johnson also of Eastland is Chaplain. Legislative Representative is Johnnie Morren of Eastland.

CHURCH SERVICES

Sunday, February 21, 1982

FIRST CHRISTIAN CHURCH
Church School begins at 9:40 a.m. and morning worship at 10:50. The JYF will meet at 4 p.m.
The afternoon CWF will meet at 3:00 p.m. Tuesday. The choir will meet at 7:00 p.m.
The general council of CWF will meet at 7:30 p.m. Wednesday.

REDEEMER LUTHERAN CHURCH
Sunday School and Bible classes begin at 9:30 a.m. The Lutheran Hour will be aired over KVMX FM, 97, Eastland, at 9:30 a.m. The worship service begins at 10:30 a.m. Pastor Crockett's message is entitled "Eternal Servants With Our Lord!" based on II Kings 2:1-12a. The Lutheran Hour will be aired over KERC at 12:30 p.m. Pastor Wallace Schulz, in his sermon "Unbreakable

Promises!" reminds everyone that God keeps His covenant to forgive all sins for the sake of Jesus.
The Cisco Nursing Center worship service will be on Wednesday at 10:00 a.m. Catechism class will meet in the Parish Hall at 3:45 p.m. The Ash Wednesday Communion Service will begin at 7:30 p.m. Milton Endebrock will be the Lector for the service.
Jesus' Friends will meet in the Parish Hall on Thursday at 9:30 a.m. for ages three through five. Adult Information Session will meet at 9:45 a.m. Jesus' Friends for kindergarten through grade five will meet at 2:45 p.m.

BIRTHDAYS

We salute the following Ciscoans who have birthdays during the week:
February 22--Mary Jane Little, Neva Sublett, M. Slaughter, Rose Clark, Rita Webb Fink and Roy Speegle.
February 23--Gary Lauderdale, Mrs. Joyce Schaefer and Mrs. Eva Laws.
February 24--Adam Velez, Mrs. Charles Clark, Jer-

rilyn Stephens, Paula Agnew, Trera Wilcox, Mrs. G.A. Love and Glenda Carroll.
February 25--Chuck Cleveland, Charles Cleveland, Mrs. Henry A. Schaefer, Mrs. C.B. Midkiff, Ann Wagley, Stanley Gilbert, Alan Echols and Darlene Hunt.
February 26--Dixon Seider, Henry Huestis and Ronnie L. Jones.
February 27--Donna Foster, Terri Reese, Ella Sue Steddum, Patricia Ledbetter, Mrs. Arthur Blair

and Kelly James Housh.
February 28--Mrs. Forbes Wallace, Jammie Fry, Kathleen Ziehr Weiser, Marcia Kelly, Laura Maynard, Tora Maynard, Sandra Ingram, Jerry Slatton and Elvin Lee Hogue.
February 29 (no birthday this year)--Mrs. C.L. Webb, Mrs. Joe Custer, Mrs. G.W. Horn, Herrel Hallmark and Elizabeth Love.
Couples celebrating wedding anniversaries during the week include Mr. and Mrs. M.D. Lee, Feb. 24; Mr. and Mrs. Luke Barber, Feb. 28.

Senior Citizens Nutrition Menu

Last week we talked about some of the items of interest in regard to the filing of your income tax return.
This year you may file the 1040A (known as the short form) even if you have taxable income to \$50,000.
You do not have to file a declaration of estimated tax if you expect to owe less than \$200 in 1982. If you retired during 1981 or plan to retire in 1982 you may have to file a declaration of estimated tax.
If you receive sick pay you will be required to file form W-4P showing that income tax was withheld from the earnings. Be sure and discuss this with the person preparing your tax return.
You may claim up to \$2000 for insulating your house. The purchase of storm windows and storm doors and the caulking of doors and windows may be included in the deduction.
There has been a change, October 1, 1981, in regard to the railroad retirement. Once again talk with the person preparing your tax form in regard to this item.
Next week we will con-

A THOUGHT FOR THE WEEK

Many of us are concerned with the problems our Government in Washington face today. Perhaps we can find some reassurances in remembering some problems faced by George Washington in the years that made us independent.
He had a problem of men. The state's militia were all short time volunteers. Enlistments were constantly running out at the wrong time. Desertions were frequent.
He had a problem of officers. The officers were to be elected by the men in this democratic army. Some were elected who were better vote getters than soldiers. Congress gave promotions to many men who were not as capable as the men who were leading troops in battle. Many good officers resigned rather than serve under these politicians.
He had a problem of food and supplies. It was not uncommon to hear the cry: "No bread, no meat, no soldiers!"
He had a problem of soldiers' health. Inadequate food, clothing, and shelter caused many to become violently ill.
These were some of the problems in 1776. They were just as difficult for the men of the Revolutionary period as our problems are today. We, as a nation, came through that critical period. However difficult and complex our problems may seem to us today -- are we not, as a nation, equal to them?

Cisco Funeral Home
442-1503 203 West 7th Cisco

SCHOOL MENU

The breakfast and lunch menus for the Cisco Primary and Intermediate Schools during the week of February 22-26 is as follows:
Monday: breakfast--oatmeal, apple juice and milk. Lunch--corn dogs, cheese stick, pork and beans, applesauce, roll, cake and milk.
Tuesday: breakfast--cinnamon toast, orange juice and milk. Lunch--spaghetti and meat, tossed salad, garlic toast, mixed fruit, cookies and milk.
Wednesday: breakfast--pancake, syrup, cranberry juice and milk. Lunch--barbecued chicken, green beans, whipped potatoes, roll, ice cream and milk.
Thursday: breakfast--rice, bacon, apple juice and milk. Lunch--hamburgers, bun, lettuce, pickles, french fries, jello and milk.
Friday: breakfast--toast, jelly, orange juice and milk. Lunch--burritos, cheese, tater tots, fruit, roll and sugar cookies.
The menu each week is subject to change.
The weekly publishing of the school menu is sponsored by the P.T.O.

People n Things

THE E.L. Graham Memorial Hospital has a brand new flag to fly atop their flag pole. It was a gift of the John William Butts Post 123 of the American Legion to the Hospital Auxiliary. And the Auxiliary will look after flying the flag at the hospital.

A story in The Press the other day about the Auxiliary installing new officers shows you that this organization is very valuable to the hospital. Since it was organized a few years ago, Auxiliary members have donated more than 15,800 hours of volunteer work. They do everything from answer telephones and help in offices to giving aid and comfort to patients in the hospital.

If you're interested in being an Auxiliary member, active membership is \$3 per year; or, you can be a sustaining member for \$5 yearly. Ruth Heidenheimer will accept your dues.

LAST TUESDAY was the most beautiful day of the year 1982 to date. It was a balmy day with temperatures in the mid-70s with light wind - a perfect day for golf. And that probably was a contributing factor for Mr. O.L. (Robbie) Robinson to get his golf game together.

In a nine hole round that we witnessed, Robbie has a stretch of five consecutive pars and wound it all up with an off-green hole-out for a birdie three on No. 9 hole!

Another golfing feat of the day was a 40-foot putt that Wallace Johnson, who lives out near the golf course, had on No. 2 green. A group of six lady golfers, who had stopped to let the men's foursome go through, witnessed the Johnson birdie and applauded. Charlie Graham, another regular at the CCC course, had a tap-in birdie on No. 6 when his 2nd shot from 90 yards out came to rest six inches from the cup. And George Owens got to the golf course, put golf shoes on and discovered that he had left his golf clubs at home.

LITTLE MISS Holly Ritchie, six-year old daughter of the Eris Ritchies, is out of the body cast in which she

lived for near two months after a fall last December. And she has a sweat shirt imprinted with "I Fell Out Of My Tree House" on the front side. It was a gift from relatives.

Holly, a first grader, has been attending classes on a limited basis. She will use a wheel chair for a time.

A LADY WE know received a letter from a friend in Duncan, Okla., the other day. And the Duncan friend reported that their interim pastor at the First Baptist Church there is Dr. Robert Sloan on Southwestern Baptist Theological Seminary, Fort Worth. . . and his wife is from Cisco," the letter reported.

Dr. Sloan's wife, of course, is the former Sue Collier, daughter of Mrs. Lucy Collier and the late J.D. Collier. And she grew up here.

DR. ROBERT Clinton of the state junior college agency in Austin was in Cisco recently to visit his mother. He was president of Western College at Snyder for a number of years before taking his job in Austin. Sorry to hear that Mrs. Ken Russ is a patient in West Texas Medical Center, Abilene. She was taken there last Sunday after becoming ill. Understand she is doing nicely. Glad to hear that Mr. A.G. Sander of Western Auto Store is on the mend out at E.L. Graham Memorial Hospital.

MR. GARL GORR, local real estate broker, underwent surgery a few days ago over at West Texas Hospital in Abilene. He is doing nicely and was due home by this Saturday. CofC Manager Gene Abbott was the speaker at the Kiwanis Club breakfast last Thursday morning. He talked about the CofC and its program. Isn't Rick Whatley growing a mustache? He's the DE teacher out at CHS.

OUR SCOUTS report that the State Highway Department wants to widen Highway 183 (South Avenue D) from IH-20 north to the business district. Understand that officials are examining problems, if any that might need examining.

W.E. (Dizzy) Dean was undergoing a medical checkup the other day. They aimed a machine at his head and it made noises. "We

draw a blank - it must be empty," a technician said. And then they showed him results - a picture that indicated good health.

HOME FROM THE hospital is Mrs. A.B. Waters of 600 West 11th Street. She suffered an ankle fracture in a fall during recent icy weather. She fell on the ice-coated front walk at her home, and her son, Albert Waters, went to her rescue. Mr. Waters, who lives with his mother, also fell and sustained a broken wrist bone.

Mrs. Waters spent nearly two weeks at the Graham Hospital as her ankle was broken in four places.

THE CISCO Civic League is expecting a good crowd for their formal Winter Ball out at the Cisco Country Club this Saturday night, reports Mrs. Allen McGinness, publicity chairman. CJC Band Director Tim Jones has assembled an orchestra to provide music for the event.

Mrs. Ayres Cermin is president of the Civic League, which sponsors the annual Folklife Festival in our town.

AN OFFICIAL of the Cisco P-T-O called to say that they haven't properly expressed their thanks to Mr. Neal Moore for being their Santa Claus during the recent Christmas season. Bet he was a good one. Mr. Ward Arnold moved his wife Carla and children Kim and James to near Rankin last month when Odessa Products Corp. promoted him to be superintendent of their plant Benedum, near there. He had been an engineer with their plant at Carbon for a few years. Several CJC English teachers attended a Creative Writing Seminar down south in Texas Friday

Letters TO THE EDITOR

Editor: I would like to thank all who made my open house the great success it was. Thanks to all for the flowers and the telephone calls for best wishes.

I especially thank the newspapers for the nice coverage of our open house. To the girls in the office, Herrel Hallmark and Mr O'Brien.

A special thank you to all my good customers for stopping by.

Dorothy Guenther

NOTICE OF MEETING OF GOVERNING BODY OF CITY OF CISCO

Notice is hereby given that a regular meeting of the governing body of the City of Cisco will be held on the 23rd day of February, 1982, at 7:30 p.m. in the Council Chambers at which time the following subjects will be discussed, to wit:

Call to Order
Invocation
Minutes:

Item I: Regular Meeting of February 9, 1982

Reports:

Item I: Financial Report for January, 1982.

Item II: City Manager Report.

Old Business:

Item I: Consider Approval of a Resolution Calling for a Municipal Bond Election for April 3, 1982, for Waterworks and Sewer System Improvements.

Item II: Re-set the Town Hall Meeting Date to Monday, March 22, 1982.

Item III: Discuss Status of Funding Application to Texas Water Development Board.

Item IV: Consider Award of Bid for Street Paving Contract.

New Business:

Item I: Consider Approval of a Plat of "The Oaks" Addition, located in the Vicinity of West 14th Street and Avenue Q.

Item II: Consider Approval of an Ordinance Vacating the Alley Right-of-Way Behind the Mobley Hotel - 1st reading.

Item III: Discuss Oil and Gas Leasing at the Landfill Site, Municipal Airport, and other city owned properties.

Item IV: Citizen-Council Discussion.

Item V: Executive session.

I, the undersigned authority, do hereby certify that the above Notice of Meeting of the governing body of the City of Cisco is a true and correct copy of said Notice and that I posted said Notice on the bulletin board in the City Hall of Cisco, and said Notice was posted on February 19, 1982, at 10:00 a.m. and remained so posted continuously for at least three days immediately preceding the date of said meeting.

Lions Hear Talk On School Bus Driving

Public schools make every effort to select bus drivers who are well qualified people to transport students some 700,000 miles daily on Texas streets and highways, Supt. Kenn Norris of the Carbon Schools told the Cisco Lions Club in a talk at their Wednesday noon luncheon.

Mr. Norris, who teaches a course in school bus driving

for the schools of this region, said that drivers must pass physical exams, have acceptable driving records, be at least 18 years old and have a chauffeur's license.

Before he begins hauling students, the driver must take and pass a 20-hour safe driving course and qualify for a certificate. Every three years, the driver is required

to take an eight-hour refresher course.

Bus drivers need to know their vehicles plus all the traffic rules and regulations, Mr. Norris added. He needs to know first aid, how to keep his bus servicable and clean,

and have enough public relations ability to reflect credit on his school.

"The school bus driver, who hauls precious cargo, needs all the respect you can give them," Mr. Norris said.

State laws require motorists to stop when school buses are loading or unloading students, Mr. Norris said. Each bus has two lights at the top, front and rear, and a yellow light shows 500 feet before the bus plans to stop. Then, a red light signifies that the bus is loading or unloading.

Mr. Norris, formerly of the Cisco Public School faculty, was introduced by Rick Whatley, program chairman.

Bill Blanchard of Medfield, Mass., father-in-law of Lion Ivan Webb, was a guest. He is president of the Lions Club at Medfield and presented the Cisco Club with a flag from his club.

Petitions Being Circulated To Legalize Bingo Locally

Petitions are being circulated asking for a local option election to legalize bingo for charitable purposes in Eastland County.

The County Clerk's Office as required by law issued the petitions upon duly-presented requests.

Upon their return to the County Commissioners Court, it will be the clerk's office's responsibility to determine if sufficient number of qualified voters have signed necessary for the Court to call the election.

Required is ten percent of

that number of voters who voted in the last election at which a governor was elected.

The propositions comes as a result of legislative action following the constitutional amendment referendum held last fall. A number of counties, and/or precincts throughout the state are holding similar elections.

The propositions, if it comes to a vote, is a "for" or "against" Legalizing bingo games for charitable purposes as authorized by the Bingo Enabling Act in Eastland County."

PUBLIC NOTICE

CITY OF CISCO PUBLIC SERVICE ANNOUNCEMENT

The City of Cisco is currently looking for an appropriate 40 to 50 acre tract of land to the north or east of the City to acquire in connection with proposed wastewater facility improvements. The tract of land must be relatively level and preferably within four miles of the City. The site is to be used for the construction of a facultative pond wastewater treatment facility for the City of Cisco in compliance with regulations

and requirements of the Texas Department of Water Resources and the U.S. Environmental Protection Agency. The water from the system would provide a tremendous irrigation potential to the landowner or adjoining landowners.

All interested landowners should contact Michael Moore, City Manager, at City Hall, 116 West 7th Street (P.O. Box 110), Cisco, Texas, 76437, or call 817-442-2111.

OBITUARY

Funeral Services For Ella Hasty Held Saturday

Funeral services for Ella Mae Hasty, 77, of Cisco, were at 10:30 a.m. Saturday at Kimbrough Funeral Home Chapel. Burial was in Oakwood Cemetery.

Mrs. Hasty died at 12:15 p.m. Tuesday at E.L. Graham Memorial Hospital. She was born March 4, 1904, in Clarksville. She married Will Hasty in 1917 in Cisco.

Survivors include a son, Bobby Lee Hasty of Los Angeles, Calif.; eight grandchildren; and two great-grandchildren.

Services For Lena Weatherby Held Saturday

Funeral services for Lena C. Weatherby, 78, of Cisco, were at 2 p.m. Saturday at Greater Mountain Top Pentecostal Church. Rev. John Jones, pastor, officiated. Burial was in Wayside Cemetery in the Cook Community, directed by Cisco Funeral Home.

Mrs. Weatherby died at 4:45 p.m. Thursday at Eastland Memorial Hospital.

She was born October 5, 1903, in Eastland County. She was a member of Greater Mountain Top Pentecostal Church. She married Prince T. Weatherby on August 10, 1923.

Survivors include three daughters, Mrs. Jack W. Courtney and Mrs. Jerry Wayne Hall, both of Longview, Mrs. Billy Jack Price of Midland; two sons, Andrew T. Weatherby of Washington, D.C. and C.G. Weatherby of Abilene; a brother, Clay Cade of Cisco. Her husband and a daughter preceded her in death.
