

# HALL OF REMARKS

BY HERREL HALLMARK

I HOPE you and your family had a wonderful Christmas and now I want to wish you a Happy New Year, since this Friday will be the last day of 1982.

It seems like just a few weeks ago I had to start remembering to write the date as 1982 instead of 1981 and here it is only a few days until 1983. Time seems to go faster each year.

WEREN'T YOU glad the heavy ice and freezing temperatures missed our part of the country? Cisco had some ice early Monday morning but most of it was confined to rooftops, trees, automobiles and bridges.

Nevertheless, even with minor icing of roads, there were numerous accidents caused by iced-over bridges in this area. Let's hope Cisco won't have any really bad ic-

ings in the next few months of winter.

OUR OFFICE at the Press enjoyed being closed last Friday for the holidays and will be closed again this Friday, as well. We will be putting our weekend newspaper together on Thursday and have moved our deadline up to 10:00 a.m. Thursday for news copy. Advertising is requested by 5:00 p.m. Wednesday.

We are advancing our publishing date so you will not be late in receiving your next newspaper. By printing the paper on Thursday, it can be received in the Friday mail.

Otherwise, if we waited until Friday to print the paper, you would not receive it until next Monday, since there will be no mail delivery Saturday or Sunday.

## Deadline For News Changed For Holiday

Press-time schedules are being re-arranged again this holiday week in order to meet postal delivery deadlines. The weekend paper will be printed one day early so it may be delivered to readers on New Year's Eve, and

the deadline for accepting material for that issue will be 10 a.m. Thursday.

The entire staff and management of your Eastland County Newspapers join in wishing you all a safe and Happy New Year.

## Man Critical As Ten Accidents Occur Here

At least 10 accidents, including one with serious injury to the driver, occurred in this region last Sunday afternoon when freezing rain coated roads and streets for a few hours, according to a Department of Public Safety report.

Randy Rogers, 33-year old Abilene man, was critically injured when he was thrown from his car in an accident on IH-20 in the Cisco city limits. He apparently lost control of his car when he struck a patch of ice on the Highway 183 overpass, DPS troopers reported. The car crossed the median and struck a bridge near the Fina Service Station.

A Pafford ambulance picked up Mr. Rogers, who had a skull fracture and other injuries, and rushed him to the E.L. Graham Memorial Hospital in Cisco. Pafford

later took him to Hendrick Medical Center in Abilene where he was reported in a critical condition late Monday.

The DPS report said Mr. Rogers was alone and driving west when the mishap occurred at 4:10 p.m. A Patton wrecker picked up the car that had extensive damage.

DPS Trooper Steve Foster

reported that there were five injuries in the 10 area accidents reported to DPS. The icy conditions lasted into

Sunday night. Highway workers spread sand on overpasses along IH-20 and other area highway bridges.

An auto driven by Jimmy Jackson, who lives in the Sauls place on U.S. Highway 80 west of Cisco, was

demolished when it skidded off the icy road and overturned several times into a deep ditch some two miles west of town early Monday. A Ted's and Rex's wrecker picked up the auto. Mr. Jackson was uninjured.

A new cold wave was expected in this region later in the week. Forecasters did not anticipate rain or snow. Rain gauges measured up to .3 of an inch.

A CHRISTMAS gift was being presented to Mrs. Helen Orr, administrator of E.L. Graham Memorial Hospital, by Dr. E.E. Addy, for employees of the institution when the above picture was made at the Christmas party. Mrs. Orr also received a five-year service pin.

## Most Firms Plan To Be Open Friday

Although city and county and a few other offices will be closed Friday, it will be business as usual for most business firms Friday and for some on Saturday as the new year begins.

City Hall in Cisco and the Eastland County courthouse in Eastland will be closed on Friday to give their employees another long

weekend as 1982 draws to an end. The First National Bank and the Cisco Post Office will be open Friday for business as usual.

A number of retail stores are expected to be closed Saturday as New Year's Day is usually observed as a holiday in Cisco. Local supermarkets will be open Saturday along with a few other businesses.

## Awards Presented At Hospital

Awards were presented for five and ten years of service, an employee of the year was named, and certificates in recognition of in-service training were passed out as the 55 employees of E.L. Graham Memorial Hospital enjoyed a Christmas party last Thursday afternoon.

Eleven employees were presented five-year service pins by Mrs. Emma Lee Donovan, chairman of the hospital board. The group included Harriet Collins, Hazel Damron, Opal Honeycutt, Dorothy McCune, Helen Orr, Edna Pence, Rhonda Pence, Toni Retta, Sharene Richardson, Bobbie Shrader and Dorothy Simmons.

Service pins for ten years of service were presented by Mrs. Donovan to eight employees - Viola Campbell, Robert Conner, Bess Farleigh, Katharine Fox, Ursula Guthrie, Oleta Hale, Helen Kincaid and Patti Pippen.

Mrs. Bess Farleigh, a veteran of 56 years with Cisco hospitals, was named Employee of the Year and presented a special award. Mrs. Farleigh, an LVN, has been with the hospital since it opened Dec. 1, 1970, and previously spent some 44 years with Graham Memorial Hospital in Cisco.

A native of Cisco, Mrs. Farleigh is the former Bess Swindle. She is a graduate of Cisco High School. She married Jack Farleigh, who retired recently from West Texas Produce Co., in 1927. They have one son, Jack Farleigh of Fort Worth, and a grandson, Mike.

Mrs. Farleigh has taken only a little time off since she went to work for the late Dr. Graham in 1926. She will observe her 75th birthday on Jan. 20, 1983, and has no plans to retire. She still works a 40-hour week and currently is on the hospital staff as medicine nurse. She enjoys good health.

"Mine has been a very interesting and rewarding career," Mrs. Farleigh said. She was presented the Employee of the Year award by Dr. E.E. Addy, hospital chief of staff, in an appropriate ceremony at the Christmas party. Dr. Addy said tribute to her "for many years of dedicated and faithful service."

Robert Conner, x-ray and laboratory technician at the hospital, is the director of in-service training activities for the staff, and he presented certificates to those who completed courses during the past year.

Following the program, employees enjoyed a buffet luncheon. Christmas turkeys were presented to each of the employees by the hospital. The employees presented a gift to Mrs. Helen Orr, hospital administrator.

An attractive Christmas tree was the feature of room decorations. A special guest was Garner Altom of Denver City, former administrator of the hospital.

FIVE-YEAR Service Pins were presented to 11 employees of E.L. Graham Memorial Hospital by Chairman Emma Lee Donovan of the board of directors. Shown, left to right, in the above picture are Harriett Collins, Toni Retta, Dorothy Simmons, Mrs. Donovan, Dorothy McMune, Mrs. Orr, Bobbie Shrader, Opal Honeycutt, Sharene Richardson and Edna Pence. Others earning the award were Hazel Damron and Edna Pence.

EIGHT EMPLOYEES OF E. L. Graham Memorial Hospital were qualified for 10-year service pins, and six were present when Chairman Emma Lee Donovan of the hospital board presented the award at the Christmas party. Shown, left to right, are Oleta Hale, Bess Farleigh, Robert Conner, Mrs. Donovan, Viola Campbell, Helen Kincaid and Patti Pippen.—Staff Photos.

## EMW Meets December 20

The EMW of the First Evangelical Methodist Church met Monday night, Dec. 20, in the church's fellowship hall. Ramona Nichols, president, presided over a short business meeting. New officers were appointed for the coming year. A report on the EMW knife selling project was given by Beth Spangler.

A discussion was held on the various words which can be found in the word Christmas.

Secret pal Christmas gifts were exchanged. A time of fellowship was enjoyed.

Refreshments of punch and cakes were served. Those attending were Wanda Hallmark, Ramona Nichols, Jana Spangler, Dollie Cooper, Margaret Hallmark, Evelyn Clinton, Beth Spangler and Josie Luna.

## Lake Cisco Extension Club Holds Meeting December 15th

When the ladies of the Lake Cisco Extension Homemakers club met Wednesday, December 15, at the Federated Club room they saw a very festive decor on the windows, walls, tables, and panes; sweet fragrance of the holiday season filled the air.

After the opening exercise, roll call was answered with the response "A childhood Christmas that I best remember." Mrs. Alberta Sims gave the council del gate report. Mrs. Ardythe Caldwell read a beautiful Christmas Story and an inspirational poem. Mrs. Alberta Sims accompanied on the piano the singing of Christmas carols letting her music flow into the Happy Birthday song to Mrs. Edna Bint. Refreshments of special apple cider and colorfully decorated cake squares were enjoyed by Edna Bint, Etta Judia, Maude Bailey, Ruth Brown, Betty Harrell, Lucy De Vault, Alberta Sims, Ardythe Caldwell, and Kathryn Cole.

## YOUTH ARRESTED

An 18-year old Cisco youth was arrested and placed in the Eastland County jail Monday as police investigated the recent burglary of a residence, Chief Raymond Blevins reported. Formal charges were due to be filed later in the week, the chief added.

## FIREMEN CALLED OUT

Cisco firemen took a truck to the home of Mrs. Neil Lane, three miles south of town on the Rising Star Highway, at 5 a.m. Monday after a blaze broke out in the kitchen. The fire was put out with only minor damage, firemen said.

Joyful recreational fellowship was enjoyed by all.

Club hostesses were Ruth Brown, Alberta Sims and Ardythe Caldwell.

The Lake Cisco Extension Homemakers club meets each third Wednesday. Visitors and new members are always welcome. Ruth Brown, Reporter.

## Cisco Pee-Wee B-Ball League Is Formed

A Cisco Pee-Wee Basketball League has been formed for boys and girls 3rd thru 6th grade. There will be a \$5.00 fee and will involve one hour two nights a week, plus Saturday mornings for approximately six weeks.

There will be a clinic for players and coaches January 6th at 6:00 p.m. at the Cisco Intermediate gym.

On Saturday, January 6th groups will be formed as scheduled:

- 9:00 a.m.- 3rd & 4th grade boys.
- 10:00 a.m.- 3rd & 4th grade girls.
- 11:00 a.m.- 5th & 6th grade boys.
- 12:00 p.m.- 5th & 6th grade girls.

The first game will be played on January 15th. For further information you may call, 442-4627.

## PERSONALS

Guests in the home of the L.E. Pricketts this past Sunday were their eight children, Bob and Beth Prickett, Frankie and

Lawrence Keeney, Linda and Bill Edgar, Shirley and Royce Darr, all of Cisco; Louise and Gene Childers of Wichita Falls; Ronnie and Suzanne Prickett of Weatherford; Sam and Sandra Prickett of Brownwood; and Jimmy and Linda Prickett of Euless. Also, there to help in the holiday celebration were 26 grandchildren and eight great-grandchildren. Mr. and Mrs. James Smith, a nephew from Abilene and Matt Ritchie of Cisco were also guests.

## Vallie Parker Wins Hat At Red Gap Store

Vallie Parker won the Resistol Hat given at a drawing at Red Gap Western Store on December 18.

The winning name was drawn from shoppers of the previous week by Laura Fuller, sales representative of Resistol Hats, who spent the day, selling, and styling hats.

The give away was in appreciation for old and new customers of Red Gap.

## WORD OF GOD

### Praise the Lord!

And when he had consulted with the people, he appointed singers unto the Lord, and that should praise the beauty of holiness, as they went out before the army, and to say, Praise the Lord; for his mercy endureth for ever.

# Highway Department Honors Retirees

From left to right: W.R. Collins, Clifford Richardson, and John T. Berry

Three Eastland men are retiring from the State Department of Highways and Public Transportation here December 31.

Clifford L. Richard, W.R. Collins, and John T. Berry will all hang up their hard hats after a combined service time of approximately 104 years of keeping the highways in Eastland County.

Richard and Berry have almost 37 years each on the job, while Collins has 30 years.

A retirement party honoring the three veteran maintenance technicians was held on the afternoon of December 16, 1982, at the Eastland Highway Department offices. Approximately 60 people attended, including guests from Brownwood, Eastland and Breckenridge.

District Engineer Lawrence Schulz and Assistant District Engineer Gordon Smith from the Brownwood Office of the SDHPT, and Maintenance Foreman Bill Claborn of Eastland all commended the men for their excellent work, loyalty and dedication.

Clifford Richardson started work with the Highway Department in Eastland on May 16, 1946. He has the distinction of receiving the first 35-year safe driving award in the state, presented to him this year. His accomplishment was

written up in the Highway Department newspaper, *Transportation News*. The article told how Richardson learned as a medical truck driver in World War II the importance of protecting himself, his vehicle, and his cargo, whether he was carrying medical supplies or wounded soldiers. But even so, he had three accidents his first two years after joining the Highway Department following the war.

"The first two wrecks, I was hit from the rear by the same guy," Richardson recalls. "He was an insurance salesman, and he hit me going out and coming back on one trip." Visibility was rather poor, Richardson remembers.

The next year, a bus driver got tired of following him on a snowy road, tried to pass, and hit Richardson from behind.

With three hits from the rear, he began keeping a close eye on the rearview mirror. Now he can look back on 35 years of protecting himself, his crew and other motorists.

Richardson and his wife Ruth plan to continue living in Eastland. He wants to devote some of his free time to a favorite pursuit, gardening.

John Berry began his career January 5, 1946, also in Eastland. He started out by operating a maintainer, his preferred job even now,

although he has done all aspects of maintenance work.

"I loved that maintainer," he reminisced.

Active in Little League, he coached a young man named Wayne Sharp for about six years. Later, as fate would have it, he found himself coaching Wayne in operating a maintainer when Wayne joined the Highway Department.

Berry has a 30-year safe driving award, but he also has had some close calls, especially while working on the interstate.

"You have to watch it," he said, "They'll run right over you."

Once while putting out signs and cones at a work

site, he saw a car coming and "just knew something was going to happen."

"I kept an eye on that car and the first thing I knew it had run right over the cones and was coming straight at me," he said. "I dived for the bar ditch just in time."

John Berry and his wife Olene have a son who is a police investigator in Abilene and a daughter who works at Cisco Junior College.

Berry's retirement plans call for "lots of relaxation and a little travel."

W.R. Collins started work in Eastland County on June 1, 1953, as a power mower operator. He lived in Gorman and commuted until about ten years ago, when he moved to Eastland. He has done all phases of highway maintenance work and for about seven years had charge of keeping all the roadside parks in the county.

He has a ten-year safe driving record to his credit.

Collins says he also learned to keep an eye out for accidents, and he remembers a time on US 80 when he was standing by a roller and saw a car that just kept coming.

"I signaled with my hand, and just in time the driver saw it and turned," said Collins. "Otherwise, he would have run over me and two or three others."

Collins and his wife Hazel have two daughters, one who lives in Cross Plains and one in Ecuador, and a son who lives in Abilene. They visited their daughter in Ecuador two years ago and may include another trip to South America as part of Collins' retirement agenda.

The retirement party ended on a light note with the presentation of a shovel, a weed cutter, and litter-getter - one for each of the retirees.

## U.S. Service Academies Nominates Cisco Man

WASHINGTON, D.C.—Congressman Charles W. Stenholm has announced that Michael Woolley of Cisco has been included in a slate of nominees to the United States Service Academies.

Woolley, P.O. Box 1269, gained nominations to both the Air Force Academy in

Colorado Spring, Colorado, and the Naval Academy in Annapolis, Maryland.

The Academies will now appraise the nominees and select a Principal for admission with Qualified Alternates. Alternates may be given further consideration, depending upon available vacancies.

## Church Of God Schedules Singing

A big special invitation is extended to everyone in and around Eastland County. The Church of God at 613 West Main will have a big singing. Singing the old year out and the new year in on

Friday, Dec. 31st beginning at 8:30 p.m. until the local singers and the Orvel Gibbs Family of DeLeon will be with us. Intermission at 10:30 p.m. and refreshments served.

**Balloon Fantasy**  
Balloon bouquets delivered for any special occasion. A clown will deliver the message of your choice to business, home, hospital or wherever you desire. Give something different to the one you love.

ABILENE'S YEAR ROUND INN-DOOR SUMMER FUN  
NEW YEAR'S EVE 1982  
A New Year With A Price To Match!

Bring in 1983 with a party at the Kiva Ballroom for only \$19.83, that is, a person \$39.66 a couple. The party begins at 8:00 pm and lasts until next year and includes hats, noise makers, dancing to the "Stewart Brothers", Hors D'Oeuvres, champagne, and midnight breakfast in the atrium.

You can enjoy all this, plus more! For \$79.00, based on two people, check into a guest room, have champagne in room upon arrival, receive complimentary drink tickets, attend the party and you have until 5:00 pm the next day to recuperate and watch the bowl games on TV.

For information on an additional room for your children and arrangements for the party, call the Kiva 695-2150. It's going to be a great year and the Kiva wants to help you get it started right!

## Spotlights And Sidelights

### YEAR'S END

Have you ever been up that well-known creek without a paddle?

I don't know that the phrase applies to me exactly, but I must say my paddle is mighty short.

How come? Thereby hangs a tale, but I need to recap a bit for those of you who have not been Spotighting and Sidelighting with me from the very first column.

The line on which I hang most of my writing is what we seniors can do or what we can remember having done. I guess I've had a pleasant life—I really go for nostalgia!

And especially have I emphasized "Action" for us elders.

Remember the admonitions? Don't let that ol' rockin' chair get you. Don't

sit home alone. Use the helping hand at the end of your arm. Help someone! It may be yourself.

The middle of November, our lives (my ever-lovin' Walton's and mine) took a turn of 180 degrees.

There's no use covering all the details that brought all the changes about—besides, I don't have any asbestos paper. I hardly think you'd be bored, but I think it's enough to say the aforementioned details have given me a new respect for soap operas. Even if you empathize devotedly with all the agonies of the air waves, it would strain you to believe the current episode in our Worthly lives.

Regardless of the reasons, we are now engaged in helping our daughter, Catherine, run the Pizza House on the

square here in Eastland. We go back to Waco on weekends—that's commuting!

Do you know how much work is involved in feeding people? I've always sort of enjoyed dishing it out—from pot or pen! But on the shady side of sixty, I really thought my quantity cooking was confined to holidays.

Not so. The family-size pizza is sixteen inches in diameter, and hopefully, you make a lot of them in the course of the day—not to mention the small ones in between the big ones.

A gallon of tea at a time hasn't been all that unusual, but eight gallons?

Three of four salads have often graced our festive board, but fifteen? Pickles, dilled, sweet, with beets for color contrast, just about did it for my relishes, but from where I sit on my stool at the cash register, I can see cherry peppers, onion slices, mixed pickled vegetables, green peppers, citrus slices and jalapenos!

That cash register! The Machine Ages does not recognize my existence. It is my own fault, I'm sure, but all my fingers turn into thumbs (left ones, at that) when I have to "run" a machine. I'm trying to make friends with this cash register, discouraging though it is. I think I punch "\$6.50 plus tax." It comes out \$6,833.33." Even I know taxes aren't that bad!

At present, we are living with Catherine in Cisco, but we are considering a permanent move from Waco. It takes time to transplant...probably not as much as it would if I had not grown up over at Moran. I am meeting many old friends, and making new ones. It's nice, and the more folks we meet, the nicer it gets.

Our pizzas may even outdo Colonel Sanders and his chickens! Who knows? I think we've already outdone the good colonel in one respect. We match him on starting a new career, but I've never heard that he started a new family, too. Now, don't get shook up! It's that we have a four-year-old grand-daughter with us "indefinitely."

Her mother (ex-daughter-in-law) called us the day before we came to Eastland to say she couldn't cope; could we pick up Mandi? As Mandi is the "real, live doll" I dreamed about in my pre-teens, we promptly agreed to bring her along. That ol' rockin' chair has a purpose now! Mandi has gone for her "Tissmus vacation," but we expect her back New Year's.

That New Year should be really interesting. Come by and check on how we're doing. Walton and I get to the Pizza House about six in the morning (as of the third of January). We'll have coffee and cinnamon rolls—Walton wields a mean frying pan, too, if your taste runs to bacon and eggs.

Come back for lunch, or we'll fix you a "brown bag" with a bunwich and fruit to take with you if noon finds you a "far piece" from a dining table.

Bring the family and come for supper—we'll even call it "dinner" if it's a special occasion.

Main thing is come—just any time!

At a time when most communities are experiencing severe blood shortages, the city of McKinney, a town of approximately 16,000 located near Dallas, Texas, has established a community blood bank. Blood banks are created when more blood is available to a community than is needed.

Local officials credit participation by the McKinney Job Corps Center as a major factor in the establishment of the blood bank, which is first for the City of McKinney.

The McKinney Job Corps Center, a federally funded job training program, initiated its quarterly blood drive in September of 1981. Since that time, over 1070 pints of blood have been donated by students and staff.

Participation in the blood drive is strictly voluntary

## McKinney Job Corp Center Begins Community Blood Bank

with all blood collected donated to the community blood bank.

Describing student participation in the blood drive program as "better than even we had hoped for", John Crosby, Director of the McKinney Center, stated, "We feel this is one of the best ways we can show our participation for the support McKinney has given our Center."

Job Corps is a program designed to train young men

and women in skills which will enable them to obtain a job with a future. The McKinney Center has trained and placed over 14,000 students since its opening in March of 1967.

Young men and women, ages 16 through 21, from Eastland County who are interested in signing up for Job Corps may obtain more information by contacting their local Texas Employment Commission Office.

## MR. & MRS. HENRY GRADY HINES Celebrate 65th Wedding Anniversary

Henry Grady Hines and Willie Rebecca (Black) Hines celebrated their 65th Wedding Anniversary on Thursday, December 30, 1982.

Henry and Willie were married December 30, 1917 by Rev. Hightower.

Henry was born in Bell County and Willie in Eastland County. They still live on the farm 5 miles west of Carbon, Texas which Henry moved with his folks

to in 1905. Henry and Willie have lived here since 1917.

Two daughters were born to them; Arlene McCurry and Marjorie Adair. They have 2 son-in-laws, Lonnie McCurry and Charles Adair, and 4 grandchildren and 7 great-grandchildren.

Henry and Willie are members of First Baptist Church, Carbon, Texas, where Henry serves as a deacon.

## Cadets to Perform At Fine Arts Center

The Singing Cadets, music-makers who've captivated listeners from the Black Sea to the beaches of Waikiki, will perform at the Wells Fine Arts Center, Stephenville, Texas on Friday, January 7, 1983 at 8 p.m. in a concert sponsored by Cross Timbers Fine Arts Council, Inc. and Tarleton State University.

It's a personal goal of every member of the 60-plus group to listen the hearts of their listeners. Directed by Robert L. Boone, the all-male glee club has conquered terrific odds to accomplish that goal.

The Singing Cadets have bussed through ice and snow to perform. As "Ambassadors for Friendship" to Romania in the summer of 1974, they had to communicate musically with people who rarely smiled and, in the majority, understood little English. The Cadets of "Extraordinaire" and "Bravo, bravo" ringing in the air. The same kind of response was given the Cadets when they visited Hawaii in June 1979 as participants in an International Music Festival.

People enjoy listening to the Singing Cadets because the Aggie choristers enjoy singing. They perform from a varied repertoire, one

designed to please every musical taste. It includes popular music, hit tunes, classics, spirituals, patriotic selections, novelty numbers and school songs.

Singing Cadets come from every part of the country, from most of the University's 12 colleges, and from A&M's military and non-military segments.

Singing Cadets stereo record albums sample the broad spectrum of music performed by the group. One contrasts old favorites with recent hits. "In Romania" features most of the songs performed while traveling abroad. The latest album, "East On Down The Road", presents a shortened version of a typical performance.

Tickets available at the Stephenville local banks and at the door. General admission price is \$2.00 per person.

Seeds From The Sower  
Michael A. Guido

A young fellow, getting ready to go on his first hunting trip, kept looking at a compass that had a mirror on the back.

"What's the mirror for?" he asked.

"To show who's lost," said the clerk.

The Bible is like a mirror. It shows who is lost.

A thing is lost when it is in the wrong place. A person is lost when he is not walking with the Lord.

The big question is, is your face or your back toward the Lord? The first thing to do is to turn your back on your old life and

turn your face toward the Lord. You do not do that alone. The moment you are willing to become a child of God and take your place as an obedient child He is there with you.

He enables you to do what you have not been able to do—to break with your old life. But the decision to take His way is your decision.

Jesus Himself said in John 14:6, "I am the way, the truth, and the life: no man cometh unto the Father, but by Me."

I have come this way. Have you?

# Texas State Hay Show Set For January 19

Hay judging, the best hay samples in the state, and a program for hay producers will highlight the annual Texas State Hay Show at the Waco Convention Center Jan. 19.

The show is part of a three-day run of activities at the Waco Convention Center, including the Mid-Tex Farm and Ranch Show Jan. 17-19 and the annual B.I.G. (Blackland Income Growth) meeting Jan. 18. Registration for the State

Hay Show will be from 8 to 9 a.m., announces Don Dorsett, forage specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Keynote speaker will be Dr. Bob Darst of Stillwater, Okla., southwest representative of the Phosphate-Potash Institute. Darst will talk at 1 p.m. on "The Place of High Fertility Forage in Modern Agriculture."

4-H and FFA youth will take part in a hay judging contest at 9 a.m.

An educational program at 9:30 a.m. will feature discussions on "Ammoniazation of Hay," "Feeding Different Qualities of Hay," and "Kochia-Weed or Forage." Discussing

"Ammoniazation of Hay" will be Dr. Dale Lovelace of Dallas, Extension forage specialist, and Dr. Al Lane of Stephenville, Extension dairy specialist. Ammoniazation involves injec-

ting poor quality hay with anhydrous ammonia to improve its feeding value, explains Dorsett.

Johnny Cates, Wood County Extension agent, will talk about "Feeding Different Qualities of Hay."

Dorsett will lead the discussion on kochia, which some have hailed as a quality forage while others view it

as a weed problem.

A meeting of the Texas Forage and Grasslands Council will round out the morning program.

Award presentations will follow the talk by Darst and will conclude the State Hay Show. Top hay judging teams and individuals will be recognized along with producers whose hay

samples were tops in seven different classes. Special awards also will be presented to producers and industry personnel by the Texas Forage and Grasslands Council.

"The Texas State Hay Show is a culmination of more than 70 county and area hay shows held in the state each year," says

Dorsett. "We expect about 300 samples of some of the best quality hay produced in Texas during 1982."

The Texas State Hay Show is sponsored annually by the Texas Agricultural Extension Service. The program for this year's show is being sponsored by the Texas Forage and Grasslands Council.

## Letter To The Editor

EDITOR

(ED. NOTE: A copy of the following letter was mailed to Coach Rod Hess and the Maverick Football Team. We thought our readers would appreciate reading the letter).

Dear Coach Hess, Mavericks, and Staff:

On behalf of all the citizens of your neighboring community of Cisco, may I express to you our sincere congratulations upon your winning the State AA Football Championship.

No one is more aware than you of the hard work, discipline, and sheer determination that has gone into winning this notable distinction. I know that all of your school administration, parents, and boosters are proud of you beyond words. And we at Cisco are pleased to be neighbors, as well as friendly rivals, of the State Champs!

Again our congratulations. Cordially yours, Eris Ritchie Mayor City of Cisco

## Sen. Glasgow Prepares Tylenol Bill

State Senator Bob Glasgow is preparing a measure for introduction in the next session of the legislature that would make a specific offense under Texas law the lacing of medicines and foods with toxic substances.

According to Senator Glasgow the measure is a direct response to the Tylenol murders in Illinois and also the H.E.B. extortion attempt in Waco two years ago.

Senator Glasgow says that the Tylenol situation is not fully covered by our present State statutes.

"Presently, a person com-

mitting an act such as that in Illinois would have to be prosecuted either under our assault, homicide or extortion statutes and none of these statutes specifically fit the act and the makes the proof and prosecution more difficult," stated the Senator.

Under Senator Glasgow's bill, the act itself of lacing a product with a poisonous substance would be a felony of the third degree.

If the user suffers illness or bodily injury from the lacing of the substances, the offense would become a felony of the second degree. Serious

bodily injury or severe illness resulting the user would be a felony of the first degree. If death results, the act becomes a capital offense and punishment could be the death penalty or life imprisonment.

Senator Glasgow stated that he feels strongly that the seriousness of the offense and the cold random selection of victims calls for more direct action and harsher penalties.

## Jehovah's Witnesses Attend Convention

Lee Gilstrap, presiding minister of the Eastland County congregation of Jehovah's Witnesses, announced today that meetings scheduled for the week of January 3-9 will be changed in order for all area members to be able to attend a two-day convention in Arlington.

No Sunday meeting will be held at the Kingdom Hall, located at 204 N. Dixie St. in Eastland.

The two-day "circuit convention" will highlight the public address, "How Does The Truth Affect Your Life?" The lecture will be given by Wesley Benner.

All area residents are invited to attend this special program to be held at 224 N. Center St. in Arlington.

Regular meetings will resume at the Kingdom Hall beginning January 11th.

## Word Of God

For we are the circumcision, which worship God in the spirit, and rejoice in Christ Jesus, and have no confidence in the flesh.

Philippians 3:3

# County Real Estate

THURSDAY, DECEMBER 30, 1982

## Real Estate Consumer

The Real Estate Consumer is provided as a public service by this newspaper and The Texas Real Estate Research Center. Address inquiries to: The Real Estate Consumer, The Texas Real Estate Research Center, Texas A&M University, College Station, Texas 77843.

Many major corporations compensate employees for increases in mortgage payments when jobs require a move to a new location.

Mortgage rates have risen and many employees who own homes are resisting offers to move. A change in location often means giving up the benefits of a low-cost mortgage loan and taking on an expensive, possibly variable rate home loan.

In addition, certain moves may entail relocating to a part of the country where housing costs are much higher. To overcome such resistance, many large corporations offer to reimburse transferred employees for these expenses.

Although most companies are willing to bear the costs, many are discovering that the cost of transferring employees has become a substantial expense. When mortgage rate differences represent several percentage points, relocation costs can be surprisingly high.

### EFFECTS OF DEREGULATION ON HOUSING

**UNCERTAIN**  
A movement is afoot which promises to change the way our major financial institutions operate.

This movement is part of a broader effort to deregulate the nation's industries. The nation's housing industry may be affected by this deregulation.

For instance, savings and loan associations may compete more effectively for deposits and may be more flexible in their investments. Savings and loans may sell certificates of deposit offering high rates of interest. They may offer interest-bearing checking accounts. Also, limits on passbook accounts are being phased out.

In addition, new types of variable mortgages may be offered and loans may be made for many nonhousing needs. The effects of these moves on housing are still unclear, but lenders and potential homebuyers are watching with particular interest.

### CORPORATIONS OFFER JOBS IN REAL ESTATE

If you are interested in a real estate career, here is an area you might explore.

Texas corporations own property worth billions of dollars. In the past, this real property was usually treated as a stepchild among the company's assets and was

## Buying New House Can Make Relocation Costly

given no special attention. But with inflation and increasing real estate values many companies are establishing special real estate staff to acquire and manage real estate assets.

Some companies even find that expert management of such assets can create profits separate from those earned on the corporation's primary goods and services. The creation of real estate staffs is leading to a demand for real estate specialists at the corporate level, and that, of course, means increased job opportunities for people interested in a real estate career.

### GROUND LEASES OFFER HOMES AT LOWER COSTS

Are high interest rates and a tight mortgage market keeping you from buying a home? If so, a residential ground lease may offer one solution to your problem.

A ground lease separates the ownership of the house from the ownership of the land. In other words, you buy the house and lease the land. This lowers the purchase price so you can qualify for financing on an otherwise unaffordable property.

A lease usually offers an initial low rent, which may increase in later years. The lease may also offer the option to purchase the land. Typically, buyers are responsible for land rent as well as all property taxes, in-

surance and maintenance costs.

Be sure you understand and concur with all provisions of the lease. This residential ground lease concept is relatively new, but it might be one way you can afford that house you have been dreaming about.

### USE "R" VALUE TO SELECT HOME INSULATION

The type and amount of insulation your home needs depends on the local climate. Insulation should be selected on the basis of its "R" or resistance value.

The higher the "R" value, the greater the insulation's resistance to heat transfer.

Loose-fill mineral fiber usually has a lower "R" value than do batts of equal thickness. Most manufac-

turers specify the number of bags of loose fill needed to obtain a given "R" value over a specific area.

Batts are generally available in thickness of four, six and seven inches, with respective "R" values of 11, 19 and 29.

Ceiling insulation can usually be installed after a house is built, but wall insulation is far easier to in-

stall during construction. With winter coming, it may be a good idea to look at the benefits of insulating your house.

## PAT MAYNARD REAL ESTATE

629-8568 EASTLAND INT. 20 E. NORTH SIDE 442-1880 CISCO

**Cisco Homes**  
An assumable 9 3/4% loan on this one! A 3 bedroom, 1½ bath, brick home. Separate den, utility room and large closets.  
Spacious rooms in this 3 bedroom frame home. Carpeted with large carpet, pecan and fruit trees. Two lots go with this one with a good garden spot. Reduced to \$20,000.  
A 2 bedroom, 1 bath older home with separate dining and utility rooms. Partially carpeted, assumable loan, \$22,500.  
A large 2 bedroom home with carpeting, screened in porch, fenced yard and a small office building for a business.  
Large 3 bedroom, 1 bath older home. Has large rooms, separate dining room. Bathroom and kitchen have been remodeled. Also has separate garage and storage. \$21,000.  
New vinyl siding on this 3 bedroom, 1 bath home. Large rooms, carpeted, storage building, combination garage and shop and fenced backyard.  
A large 2 story with 5 bedrooms, 2 baths, den, separate dining and breakfast rooms, located on corner lot. Has apartment attached. A very scenic yard with lots of trees.  
A nice 3 bedrooms, 1 3/4 bath home on corner lot. Central air and heat, new carpet, modern kitchen and built-in dishwasher. Also a garage and storage area. \$25,000.  
Three bedroom, 1½ bath, brick home with carpet. Fenced back yard, fruit trees, double garage. \$3,000 and assume loan.  
2 bed, 1 bath frame home. 1½ lots. Pretty yard-lots of trees. Garage. Separate breakfast area. Master bedroom very large. \$24,500.

**Small Acreage With Homes**  
Located in Ranger! A 4 bedroom, 1 bath frame home on 5 acres. There is an old motel on this property that could be possibly restored. Home is in good condition with plenty of highway frontage. All this for only \$55,000.  
40 acres approximately 3 miles south of Cisco with a 3 bedroom frame home. 4 tanks, city water, and mostly cleared. Tractor and equipment will stay. \$51,000.  
72 acres with a nice 3 bedroom, 2 bath home, dairy barn, 2 hay barns, tack room and corrals. Some minerals. Located near DeLeon. \$87,500.  
2½ acres near Lake Leon with water well, tool house and pecan trees. Only \$7,000.  
11.9 acres with a nice 2 bedroom home, 3 car garage plus barn and other outbuildings. The house is carpeted, has built-ins in kitchen and a fireplace. Lots of fruit and pecan trees. Beautiful place. \$64,000.  
30 acres near Cisco with I-20 frontage. A very versatile place. Would be a good location for a business or home. \$45,000.  
A very nice 3 bedroom, 1 3/4 bath stone and brick home on 4.38 acres. Carpeted, central heat and air, fireplace, bookshelves, screened porch, and many other extras in this 2150 sq. ft. home. \$88,500.  
A 3 bedroom, 1½ bath home on 2 acres. Carpeted, some paneling. Has approximately 28 pecan and 12 fruit trees. Located in Olden. \$45,000. Terms can be arranged.  
A 3 bedroom, 1 bath home on 40 acres located near Gorman. Has a 24 x 40 building, plus barn and other sheds. The land is all cleared and has been in cultivation. \$68,000 and owner will carry a note.  
New on Market! A very nice 3 bed, 2½ bath brick home on approx. 3 acres. Lots of extras with this one including swimming pool. Call for details. Cisco area.

**Homes-Eastland & Ranger**  
Located close to downtown, a 2 bedroom, 1 bath home with fenced yard and attached garage. Priced at only \$28,500.  
Just been remodeled on inside! A 2 bedroom, 1 bath, home within walking distance to town and doctors. \$24,500.  
Just like new, this very nice 3 bed, 1 3/4 bath brick home. Located near all school. Carpeted, built-ins, central heat and air. New loan or assume old one. \$59,900.  
A large 2 bed, 1 bath home that is carpeted. Large double carport and also garage. Owner will carry second or down payment. \$29,500.  
Close in! A 3 bed, 2 bath older home that has been remodeled. Fully carpeted, ceiling fan, fenced back yard. \$29,500.  
Located in Carbon! A 2 bedroom home on one acre. Just like living in the country and only \$16,000.  
Magnificent can only begin to describe the den area in this 3 bedroom, 2 bath home. Excellent location. 2400 sq. ft. of living area, and many other features. \$85,000.  
Located in Ranger! A 3000 sq. ft. home on over an acre of land. 3 bedrooms, 2 baths, den, playroom dining area. A fantastic home priced to sell at only \$79,500. Extra bonus! An assumable loan.  
This 2500 sq. ft. home has 4 bedrooms, 3 baths, living room and den. This is a very neat and attractive place with a fenced yard, double carport and storage. Assumable loan. Total price \$48,000.  
8 lots located in the northwest part of Eastland. \$25,000.

**Commercial**  
Located near downtown, an older building that would make a good location for a business. \$35,000.  
In Cisco, a 100' x 50' building with office space and a shop area of 4400 sq. ft. Owner will finance on this one with reasonable down payment and interest. \$75,000 for building or \$95,000 for everything as is, as a business.  
In Cisco, a small office building for a business with covered parking area. Included is a large 2 bedroom home with screened in porch, fenced yard and lots of trees. \$33,000.  
In Ranger, a large 2 story brick building with good sized fenced yard. Located near railroad tracks, with spur. \$85,000.  
Good location! We have a quick stop grocery doing a good business. All fixtures, shelves and stock are included. Also, a trailer park with spaces for 21 trailers. There are assumable notes with good interest. \$91,000. Will lease.  
Located near downtown! A two story brick building, 4 lots and a house. All this for \$40,000. Will consider splitting.  
Ideal location for a business. A 4,400 sq. ft. building on large, paved corner lot. Close in. \$60,000.  
2 acres on I-20 Olden Ramp East. Ideal location for a business. \$20,000.  
Valuable I-20 property! Approximately 4,600 sq. ft. building very versatile, easy accessibility. \$87,500.  
In Cisco! A nice brick building with 5,000 sq. ft. in prime downtown location, near new bank. \$60,000.  
In Ranger. 4½ acres on highway 80 W. 1,800 sq. ft. office, 24,000 sq. ft. shop building, 2400 sq. ft. warehouse, other buildings and commercial antenna. Owner will consider terms. \$170,000.  
For commercial use only. One to five acres with I-20 frontage.

## 40th Anniversary

### Mr. & Mrs. Carl Stroebel Will Be Honored Jan. 1

Mr. and Mrs. Carl Stroebel will be honored Saturday, January 1, from three to five p.m. with a 40th wedding anniversary reception at Redeemer Lutheran Parish Hall, 18th and Conrad Hilton, Cisco.

Hosting the reception will be the couple's children and grandchildren. The children are Ken and Chris Leach, Kelli, Heather, and Jonathan of Houston; Carl Jr. and Linda Stroebel, Jeffery, Janecka, and Jason of Dallas; Randy and Jo Ann Rust and Aaron of Cisco.

Carl, son of the late Henry and Christina Stroebel, was born June 17, 1915, south of

Cisco. His wife Muri, daughter of Emery and the late Inez Hallmark, was born June 16, 1922, west of Cisco. They were married January 17, 1943, at Grace Lutheran Church, Cisco, by Rev. W.H. Symack and have lived in the Nimrod community and Cisco area all their married life.

Carl is a semi-retired rancher. Muri is a nurse retired from nursing home administration. Both are members of Redeemer Lutheran Church. All friends and relatives are invited to come and celebrate with them.

The couple has requested no gifts, please.

## Total Lunar Eclipse

The third and final total lunar eclipse of 1982 will be visible in the western sky during the early morning hours of December 30th, according to astronomer Michael Walker of the Fort Worth Museum of Science and History's Noble Planetarium. Most North American observers will not get another chance to view a total lunar eclipse until 1989. The occurrence of three total eclipses of the moon in one

calendar year is very rare and such an event will not be repeated for another 500 years.

Unlike solar eclipses, a lunar eclipse is entirely safe to look at, and is best observed with the unaided eye. The eclipse will start at 2:52 a.m. CST when the moon enters the outer part of the earth's shadow, called the penumbra. This event will go largely unnoticed, except for a slight graying in the moon's

color. At 3:50 a.m., the curved outline of the umbra, earth's inner shadow, will appear on the eastern edge of the moon. Totality will begin at 4:58 a.m., when the moon has completely entered the umbra. "Once in the umbra, the moon may either turn copper or blood-red in color, or it may completely vanish," Walker said. Walker explained, "Sunlight is bent into the umbra by the earth's atmosphere where it is then reflected by the moon. Our atmosphere scatters the blue

ly red light to reach our eyes. Currently, our atmosphere contains large amounts of volcanic ash from El Chichon in Mexico. This volcanic ash may render the earth's atmosphere nearly opaque thus preventing any sunlight from entering the umbra. As a result the moon may entirely disappear." Mid-eclipse occurs at 5:29 a.m., and totally ends at 5:59

a.m. as the moon emerges from the umbra. The moon will not completely leave the umbra until after sunrise at 7:02 a.m.

While not nearly as long in duration as the eclipse of this past July, this will be the last such event seen by Texans until 1989. If observing the eclipse, be sure to dress appropriately for the early morning temperatures. Pro-

vided the sky is clear, this final total lunar eclipse of 1982 should be a memorable event.

# 1982 - A Year Farmers And Ranchers Are Trying To Forget

By Bill Braden, Communications Specialist Texas Agricultural Extension Service

No opinion poll is needed to find out how Texas farmers and ranchers feel about the past year. 1982 was a disaster in almost every sense of the word—a year that most farmers and ranchers would just as soon forget.

The year started out with many producers in bad financial shape due to poor prices the past two years. And from there things got worse. Farm prices continued to suffer as commodity supplies mushroomed, and producers found little

encouraging news as 1982 drew to a close.

### A FEW BRIGHT SPOTS

A few things did happen during the year for which farmers and ranchers can be thankful. Interest rates eased down a bit and that old nemesis, inflation, finally cooled off to slow the rise in production costs. 1982 also turned out to be a fairly good crop year for some producers.

At the outset of the crop year, many farmers were in a dilemma about what to plant. For most it was a matter of choosing the least of several evils. Many opted to plant less cotton—more than a million acres less—due to poor price prospects. Rice plantings were also down for the same reason. The slack was taken up by corn, grain sorghum and soybeans, but the outlook for those crops was lukewarm at best.

### HEAVY WEATHER LOSSES

Extensive wet weather in the spring delayed planting operations in some western areas and in the state's mid-section. That caused many crops to be late, making them prime targets for the long, hot summer that followed. So some areas went abruptly from extreme wet conditions to a season-long drought that cut crop yields severely.

Of course, the usual spring storms with heavy rains and cool weather reduced young crop stands in some sections, particularly in central and eastern areas and in Southwest Texas, where hundreds of acres of corn, cotton and vegetables were lost to flooding, hail and high winds. Earlier, dry conditions had delayed plantings in parts of Southwest Texas and other areas.

The real blow as far as spring crop losses are concerned came in the Texas Plains. Farmers saw most of their cotton crop wiped out by some of the most severe hailstorms in the area's history. Almost half of the South Plains' five million acres of cotton were reduced to stubble by the savage storms. Since the storms hit so late in the season that cotton could not be replanted, most farmers went to alternative crops such as soybeans and sunflowers. A considerable amount of grain sorghum also replaced hailed-out cotton.

Texas wheat yields in late spring was "so-so" as the crop endured extremely dry conditions in late winter and early spring followed by heavy rains. Rust disease also was severe in many areas. This year's wheat acreage was the largest ever in Texas, spurred by good price prospects. But when harvest time rolled around, prices had cooled off considerably.

### INSECTS AND OTHER PROBLEMS

Insects once again made the scene as the crop season progressed. Yellow sugarcane aphids, greenbugs and

cutworms dealt a lethal blow to thousands of acres of grain sorghum in coastal and central areas.

By mid-year the weather has settled down into its usual pattern—hot and dry. Most crops progressed well for a while, but soon spring moisture was gone and drought stress set in. In irrigated areas, farmer had irrigation pumps going full blast to keep their crops watered. Needless to say, running those pumps pushed production costs up sharply.

The hot, dry summer weather continued into the fall, providing ideal harvest conditions in most areas. Most farmers reaped good cotton, corn and grain sorghum harvests despite slow crop starts in the spring. However, the summer-long drought cut into crop yields in some areas, particularly cotton and dryland peanuts in central areas and soybeans and peanuts in coastal and eastern sections.

The summer drought also dealt a blow to this year's pecan crop, which already had it share of disease and insect problems. In addition, this was an alternate-bearing year for most pecan trees.

### RANCHERS ALSO HAD PROBLEMS

While farmers were enduring all these problems ranchers weren't faring any better. 1982 started out extremely dry so cattle had little grazing on small grains such as wheat and oats. A siege of extremely cold weather followed which brought snow to much of Texas and caused a surge in livestock feeding. Spring brought warmer weather and some rain, but much of the state continued dry until May—and even later in some areas—extending the feeding period due to lack of grazing. Of course, this pushed costs up.

May rains gave a big boost to pastures and ranges and brightened the outlook for most livestock producers. However, market prices remained weak for the most part and tended to waver downward as the year progressed.

Stockmen again had to be on guard for screwworms—perennial livestock pests. The first case of screwworms in Texas in more than a year was confirmed on May 18 near the Starr-Hidalgo County line. But only a few more cases followed to bring the 1982 total to six, compared to five in 1981.

As the hot, dry summer

weather wore on, ranchers had to contend with short grazing conditions, so they started to feed hay. Some had plenty of hay from an abundant harvest or past seasons but others faced short supplies, particularly in coastal, central and southern areas. As the dry siege continued, ranchers started culling their herds heavily. They shipped calves and lambs to market earlier than usual. And these heavy runs at local auctions sent prices plummeting.

The dry weather continued into the fall, causing delays in small grain plantings for fall and winter grazing. Some fields were dry-planted but didn't come up due to lack of moisture. Limited small grain growth hampered the movement of stocker cattle into the plains area where small grain grazing traditionally is big business. However, the demand for lightweight stocker cattle picked up in early December followed widespread rains, with some going for up to \$1 a pound.

These December rains gave a big boost to small grains although much of the western half of Texas remained short on soil moisture. Stock water also continued short in some sections due to lack of runoff.

What's ahead

Undoubtedly, Texas farmers and ranchers are putting improved prices for their products at the top of their list of New Year wishes. There are two chances of that happening—slim and none. So what's there to look forward to?

Most farmers will need to take a hard look at their operations to try to cut costs wherever possible. They will also need to consider participating in the 1983 government farm program which offers some price protection on their investments and can supplement their income.

Ranchers also need to adopt efficient management practices—those that can bring in extra dollars—and they need to cut out anything that might be draining their pocketbooks.

Farmers and ranchers must strive to become better businessmen if they expect to financially survive the year ahead. If U.S. and world economic conditions improve some, the demand

for agricultural products could increase and prices could strengthen. But that may not happen for some time. So farmers and ranchers must continue to hang on for survival—a situation they have become accustomed to over the past several years.

## Sheep Projects Popular In 4-H

4-H members learn by doing through 4-H projects. Projects abound for city kids, country kids and kids in between and one of the most popular projects in Texas is the sheep project.

In the sheep project 4-H'ers not only learn how to raise a lamb, but the lamb often becomes a special friend who helps 4-H'ers learn about nutrition, genetics, reproduction and health, says John Blair, county 4-H program coordinator with the Texas Agricultural Extension Service, Texas A&M University System.

Because lambs are clean, quiet animals and require little space, they can be a good backyard project, even for kids who live in town.

The sheep project is not all hard work and lessons.

4-H'ers develop responsibility by learning to provide feed, water and shelter on a regular schedule. Many youth develop their own flocks which can lead to a valuable business. Numerous former 4-H'ers have paid their way through college from money made in their sheep projects.

All young people relate well to raising animals, and the sheep project is a fun way to learn and meet new friends. It may be just right for you.

Contact the County Extension Office to learn more about the 4-H sheep project and other 4-H programs and activities, suggests Mr. Blair.

## The Garden Editor

Ted Brice

We are now hearing the word "recycle" more than ever before, recycle aluminum cans, paper, plastic, cloth, and tires, etc. Yes, I did say tires. We have recycled tires for years and called them re-treads.

We can also recycle our Christmas trees to perform several other functions. This is provided that your Christmas tree is not an artificial one. After the Christmas tree has completed its holiday service, take it outside and remove the limbs from the main trunk. Then cut the main trunk into the proper lengths to fit into your fireplace burning. Also, the limbs that you have removed can be placed around various plants in the yard. This will give your plant material protection to some extent from the winter. Another way to give your plants this same protection is to run your lawn mower over these limbs and collect the particles and place this residue in your beds.

If you do not want to place the limbs or the residue in your bed, you can burn the limbs in your fireplace along with the rest of the tree.

After you have burned your tree, collect the ashes from your fireplace and work them into your beds in the coming spring. The adding of these ashes to your bed will add the much needed pot ash to the soil as well as other needed nutrients that will enhance the plant material your bed.

This last method of recycling your Christmas tree is in reality a double recycling process of the Christmas tree. First it provides your home with joy during the holiday season then with heat by burning the tree in your fireplace after the holidays and then as a supplement (ashes) to your flower and vegetables in the spring.

Friends, do NOT overlook this dual function for your Christmas tree. This will be a good way to bring your gardening year of 1982 to a close and to begin your gardening year of 1983.

Don't forget, Gardening Friends, make your New Year's Resolutions. Have a Happy New Year!!!

Good Gardening Until Next Week From Your Garden Editor, Ted Brice!

## P&R Oil Inc. Schedules Wildcat In Eastland

A wildcat for oil or gas is scheduled for spudding six miles northwest of Eastland by P&R Oil Inc. of Eastland. The well will be known as the No. 3 White, with projected total depth of 4,200 feet. It will be situated in a 332-acre lease in Eastland County's H&TC RR Co. Survey, A-1913.

Westwind Exploration of Abilene has filed for permit to drill the No. 1 Wharton, a projected 4,200-foot wildcat for oil or gas, two miles southwest of Lee Ray. The venture will be in a 483-acre lease in Eastland County's H&TC Survey, Sec. 70, Blk. 4.

New West Exploration Inc. of Abilene has filed for permit to drill a 1,000-foot wildcat for oil, two miles north-northwest of Carbon in Eastland County's H&TC RR Co. Survey, Sec. 40, Blk. 2. The explorer will be known as the No. 1 T.E. Eaves. The operator has 307-acres under lease.

Location has been staked by Snow Oil Co. of Ft. Worth for a 4,000-foot developmental probe in Eastland County's Mary Fury Survey, A-126, three miles northeast of Eastland. The well is designated as the No. 2 Searight-Harrell. Drillsite will be in a 130-acre lease in the Eastland Regular Field.

Pumping 294 barrels of crude oil per day, a new producer has been finalized in the Hawk-Eye Field by Buck Wheat Resources Inc. of Eastland.

The location is in an 80-acre lease in Eastland County's H&TC Survey, Sec. 58, Blk. 3, 10 miles south of Cisco. Well's designation is the No. 1 T.P. Simpson.

Total drilling depth was 1,180 feet, and the pay zone was entered at 1,089 feet. The well was perforated to produce from an interval 1,089 to 1,093 feet.

At a location 10 miles northwest of Cisco, EnRe Corp. of San Antonio has completed the No. 4 Mitcham Estate H, new oil well in the S.E.D.R.S. Field.

Drillsite was in a 640-acre lease in Eastland County's SPRR Survey, Sec. 493.

The well showed daily potential for 184 barrels of oil and 347,000 CF casinghead gas on a 12/64 choke, with tubing pressure of 810 PSI. Production will be from an interval 3,856 to 3,881 feet. Well's total depth was 3,968 feet, with top of pay logged at 3,852 feet.

Ridgeway Oil Exploration & Development Inc. of Houston has revealed plans to drill a 2,000-foot developmental probe in the Hawk-Eye Field, one mile west of Romney. The well will be located in a 120-acre lease in Eastland County's H&TC Survey, Sec. 57, Blk. 3 and is to be designated as the No. 28 Delbert Tarver "A".

Two new oil producers in the Midkiff Field have been finalized by Dallas Energy Development Corp. of Dallas. Designated as the No. 1 and No. 2 A.H. Stover, the wells indicated capacity to produce 60 and 32 barrels of oil per day on an open choke.

The locations are 10 miles south of Cisco, in a 112-acre lease in the James Gann Survey, Sec. 77, Eastland County.

Both wells had a total depth of 1,200 feet with the No. 1 well entering the pay zone at 1,137 feet. It will produce from a perforated interval 1,137 to 1,143 feet into the hole. The No. 2 well entered the pay strata at 1,178 feet and is producing from perforations 1,178 to 1,183 feet into the hole.

North Ridge Corp. of Grand Prairie has posted initial production figures for the No. 1 Ray Mond Beck, new oil well in the REB Field, five miles north of Eastland.

The well indicated potential for 46 barrels of oil per day on an open choke. With drillsite in a 35-acre lease in Eastland County's H&TC RR Survey, A-305, the well had total drilling depth of 3,950 feet. It entered the pay horizon at 3,758 feet and will produce from a set of perforations 3,453 to 3,472 feet into the wellbore.

A natural gas wildcat has been successfully completed four miles north of Cisco by Brice A. Wilbanks of Midland. The new Eastland County producer, designated as the No. 3 J.C. Carr, is situated in a 320-acre lease in the SPRR Survey, A-465.

It was drilled to total depth of 3,986 feet and will produce from a perforated interval 3,558 to 3,568 feet into the wellbore.

Showing daily potential to yield 305,000 CF gas on a three-eighths choke, the well was given an absolute open flow rating of 850,000 CFD.

Tri County Oil of Abilene has revealed plans to drill a 1,300-foot developmental well in the Midkiff Field. The operator has 94-acres leased, with drillsite in Eastland County's H&TC RR Co. Survey, A-254 and has designated the venture as the No. 1 Morris. Drillsite is 10 miles south of Cisco.

The No. 2 Powell is slated to be drilled in the Madewell Field by Leslie Oil & Gas Inc. of Columbus, Ohio. With projected total depth of 2,000 feet, it will be spudded in a 40-acre lease of the H&TC RR Co. Survey, Sec. 58, Blk. 3, eight miles south of Cisco, Eastland County.

Hamilton-based B&L Operating Co. has turned in first production figures for its No. 8 Midkiff, a successful developmental well in Eastland County's Midkiff Field.

Pumping oil at the rate of 44 barrels per day, the well was tested on an open choke. Drillsite was in a 35-acre lease in the Antonio Miller Survey, A-38, three miles south of Romney. The well was taken to a total depth of 1,170 feet after entering the pay zone at 1,083 feet. Production interval will be 1,083 to 1,093 feet into the wellbore.

Pumping at the rate of 39 barrels of crude oil per day on an open choke, the No. 6 Maxwell was completed in the Hawk-Eye Field by Nimrod Operating Co. of Cisco.

Drillsite is in an 80-acre lease in Eastland County's H&TC RR Co. Survey, Sec. 57, Blk. 3, one mile southwest of Romney.

After entering the pay strata at 1,084 feet, the well went to 1,520 foot bottomhole. It was perforated to

produce from an interval 1,086 to 1,101 feet.

Nimrod Operating Co. has also recorded another successful developmental well in the Hawk-Eye Field. It is the No. 21 McCall, showing potential for 23 barrels of oil per day on an open choke.

Drillsite was in a 42-acre lease in the G.A. McCall Survey, in Eastland County.

The well was drilled to a total depth 1,214 foot bottom after entering the pay structure at 1,152 feet. It was perforated to produce from an interval 1,154 to 1,169 feet into the hole.

At a location one mile north of Romney, Eaton Petroleum Inc. of Graham has completed the No. 2 Ford "A", new oil well in the Eastland Regular Field.

Drillsite was in a 74-acre lease in Eastland County's J.W. Simpson Survey.

The well showed daily potential for 8 barrels of oil on an open choke. Production will be from an interval 1,470 to 1,480 feet, with top of pay logged at 1,470 feet.

A new oil producer in the Eastland Regular Field has been finalized by Command Carriers Inc. of Ft. Worth. Designated as the No. 1 Peel, the well indicated capacity

to produce 4 barrels of oil per day on an open choke.

The location is five miles northeast of Eastland, in a 160-acre lease in Eastland County's TC RR Survey, A-819.

Bottomed at 3,650 feet, the well will produce from an interval of perforations 3,426 to 3,429 feet into the hole. The pay formation was first encountered at 3,426 feet.

A 1,750-foot wildcat for oil is planned by Investek Inc. of Wichita Falls at a drillsite four miles south of Caddo, Stephens County. The location is in a 31-acre lease in the T&P RR Co. Survey. Well's designation is the No. 4 Gardenhire "B".

Ridge Oil Co. of Breckenridge has staked location for the No. 1 Brittain in Stephens County's Ranger Field. It is scheduled for 3,750 feet of hole making. The location is in an 80-acre lease in the HT&B RR Co. Survey, about 14 miles southeast of Breckenridge.

The No. 9 R.W. Brooks, a developmental try in Stephens County's Manning-O'Conner Field, is scheduled to be spudded 15 miles southwest of Breckenridge. With projected total depth of 3,600 feet, the well will be in

a 300-acre lease in the T&P RR Co. Survey. Enserch Exploration Inc. of Dallas is listed as the operator.

Sun Exploration & Production Co. of Abilene has filed for permit to drill the No. 21

### Oil Facts

#### DRILLING

A total of 23,940 wells were drilled in Texas last year, including 370 test and service wells. This represented 30% of U.S. drilling.

A daily average of 1,317 rotary drilling rigs operated in Texas during 1981, a 33.5% increase over 1980.

The Giddings Field on the Austin Chalk Trend led the nation last year in the number of producing wells completed with a total of 1,105, including 948 oil wells and 97 gas wells.

In 1980, the cost of drilling an offshore well averaged \$3,186,593; the cost of drilling an onshore well averaged \$376,527.

Crude oil production from Texas offshore wells totaled 14,471,000 barrels in 1981, with 12,782,000 from federal leases and 1,689,000 from state leases.

Ackers-State Unit, a 3,400-foot developmental well in the Stephens Regular Field, two miles northeast of Breckenridge. The operation will be in a 318-acre lease in Stephens County's ME&P RR Co. Survey.

Keystone Oil Co. of Abilene has posted first production data for the No. 1 Ledbetter, a new gas well located four miles southwest of Wayland. Drillsite was in a 160-acre lease in Stephens County's T&P RR Co. Survey.

With total depth of 4,257 feet, the well entered the pay stratum at 3,620 feet and will produce from an interval 3,620 to 3,628 feet. It showed potential for 1,183,000 CF gas per day on a half-inch choke.

Absolute open flow was rated at 2,220,000 CFD.

The Stephens Regular Field gained a new gas producer when the No. 1 Hagaman-Jennings was completed by Fishop Energy Co. of Archer City, six miles southeast of LaCasa.

On a half-inch choke, the well showed ability to yield up to 79,000 CF gas per day. The absolute open flow came in at 79,000 CFD. Location is in a 284-acre lease in Stephens County's E.L.R. & RR Survey.

Fishop took the well to 3,800 foot bottom and perforated for production 3,0509 to 3,064 feet into the hole.

**Putnam News**  
By Mrs. R.B. Taylor

The big day is over. The packages opened, the stockings emptied, the Christmas feast eaten and the good will and love abounded. It is wonderful when families can get together with friends and enjoy each other as well as celebrate the birthday of the Christ child.

A lot of Putnam residents had most or all of their families with them and some went other places to be with

their folks. The weather was not too bad but chilly. Today is pretty bad and I just hope and pray that those who are traveling will have a safe trip. The folks in the mountains will have to wait a while before they can travel.

The Nutrition Program served Christmas dinner and gave a musical program at the Community Center Thursday.

Mr. Buster Black of the Atwell community visited Jack Ramsey and Maxie Solomon Tuesday.

Mrs. Naomi Heysler of Baird had lunch with Mrs. R.B. Taylor Thursday.

Mrs. Veda Yarbrough is

home from Eastland hospital. She is staying with her daughter, the John McIntyres for a few days.

Mrs. Maxie Solomon is spending the holidays at Houston with her children, the James Bursons and the Billy Solomons.

The George Weeks have had most of their families with them this weekend. G.W. and family of Brownwood, R.D. and family of Eastland, Dick of Abilene and Norris and family of Baird.

Visiting the Milton Donaways were their daughter, Mr. and Mrs. George Lee Ramsey and

Tim of Glenwood Springs, Colo., Hubert Donaway and family of Odessa, Mr. and Mrs. L.C. Donaway and girls of Albany, Lee Donaway and family of Amarillo, Mr. and Mrs. Warren Donaway and Leslie of Brownwood, Mr. and Mrs. Melba Sutton and son of Pottsboro, Mrs. Trezia Moseley and daughter of Burnett, Pat and Cheryl Hazelwood of Dothan and Mrs. Speegle of Putnam. Mr. and Mrs. Ramsey flew from Denver. They may be stranded here a few days.

The John D. Isenhawers also had most of their family home for Christmas including Mr. and Mrs. Donald

Isenhower of Ames, Iowa, Mr. and Mrs. Butch Petty and family of Eastland, Mrs. Gaye McClenan of Dallas, Kerry Petty and friend of ACU, Mr. and Mrs. David Isenhower and son, Mr. and Mrs. John Doyle Isenhower and Martin of Putnam, Mr. and Mrs. Darrel Green of Clyde, the James Isenhower family of Coleman, Mr. and Mrs. Calvin King and Mr. and Mrs. Buford Green of Putnam.

This writer was very proud to have most of my family home also. My folks in New Mexico and Colorado could not be with us. Enjoying the day were Bill and Dorothy Taylor of Weatherford, Homer and Carolyn of Sweetwater, Bobbie Taylor of Snyder, Gary Taylor and family of DeRidder, La., Mr. and Mrs. Rick Sales of Arlington, Mr. and Mrs. Tom Lemmons and daughter, Heather of Abilene, Kirk and Barry Taylor and friend, Joy of Lubbock, Mr. and Mrs. C.L. Lemmons of Sikeston, Missouri, Brent Taylor of ACU, Mr. and Mrs. Joseph McHale and Mrs. Lula Blakley of Abilene, Mr. and Mrs. I.G. Mobley and Mr. and Mrs. Billy Jim Everett and Ann of Merkel.

Our wishes for all is good health and prosperity in 1983. Also peace throughout the world.

**Moran News**  
By Mrs. Luke Huskey

Miss Carrollyn Louder of California spent the Christmas holidays with her mother, Mrs. Carroll Louder.

Mr. and Mrs. Wayne Brown and sons of Land-o-Lakes, Florida, spent the holidays with her parents, Mr. and Mrs. Paul Harper.

Mr. and Mrs. Kenny McKinney of Fort Worth and Pat McKinney of Dallas visited with their parents, Mr. and Mrs. Kenneth McKinney during the holidays.

**CHRISTMAS HONORS LIGHTING**

In the Christmas decorations for Moran, the Young Homemakers awarded plaques for the decorations. In the judging, Mr. and Mrs. Rollin Fuller received the plaque for the "Most Attractive" lighting. Mrs. Mae Delle Jones received the plaque for the "Most Traditional" lighting and Mr. and Mrs. Dick Cockrell received the plaque for the "Most Original" lighting.

Mr. and Mrs. Munk Offield spent the holidays in Hurst with their children.

Mr. and Mrs. Robert Thompson spent Christmas in Georgetown with Mrs. Ila Thompson and Mr. and Mrs. Cliff Sill and children.

Mrs. Dallas Johnston of Houston visited with her parents, Mr. and Mrs. Will English during the holidays.

Mr. and Mrs. G.E. Gore and children of Plano, Mr. and Mrs. George Fletcher and children of Crowley, and Mr. and Mrs. Charlie D. Harber and children of Copperas Cove spent Christmas with their parents, Mr. and Mrs. Charley Hagemann.

Mr. and Mrs. Wayne Knowles and Johnny Kaufman spent Christmas with his mother, Mrs. Jewel Knowles.

Mr. and Mrs. M.H. Gore of Brownwood visited with their son, Thomas Holland, Mrs. Holland and sons Christmas.

Mr. and Mrs. William Howard and Sunny spent the Christmas holidays with their parents, Mr. and Mrs. Jim Howard and Mr. and Mrs. Rollin Fuller.

Elma May Huskey spent the Christmas holidays in Fort Worth and Burleson with her nephews, Foy, James R. and Bill Dunaway and families. She returned by way of Mineral Wells and visited with friends.

Mrs. Etta Terry is visiting her daughter, Mrs. Helen June Dennis and family in Belton and Austin.

**New Era in Photography?**

Several weeks ago, Eastman Kodak announced a worldwide press conference on a subject which promised to "change the world of photography." Now, I've attended such conferences before. In fact, by informal count, I'd say they number roughly three a year.

Was Kodak's "revolution" really all that spectacular? In a nutshell, yes.

How else but "spectacular" could one describe the radical departure Kodak has bravely undertaken from conventional photography? Who but Kodak would take flat film wound on a spool and replace it with film set in a disc?

That's what I said—a disc. Fifteen frames placed side by side in circular configuration. Why, you ask? Well, according to Kodak, one major reason is so that the film can be advanced from frame to frame automatically by a small, efficient motor. But that's only the tip of the iceberg. Let's look a littler deeper.

Kodak's new disc camera utilizes two integrated electronic circuits to analyze the scene, set the proper exposure, activate built-in electronic flash (when necessary), take the picture, advance the film to the next frame, and recharge the flash, all in a split second's time. What all this means to the average amateur photographer, according to Kodak's Chairman of the Board, Walter A. Fallon, is better photos. "We believe the yield of good to excellent pictures routinely produced by consumers will increase by 25 percent when disc cameras and film are used," Fallon says.

At the heart of the new disc system is a newly designed lithium power cell which contains more energy than most shooters will need for years of camera use. Combined with an "electronic brain," the Ultralife energy source provides 1-1/3-second electronic flash recycling time, automatic film advance, and automatic exposure control. Remarkable. And fast.

"Users can now take pictures practically as fast as they can press the shutter release, indoors or out," according to Fallon.

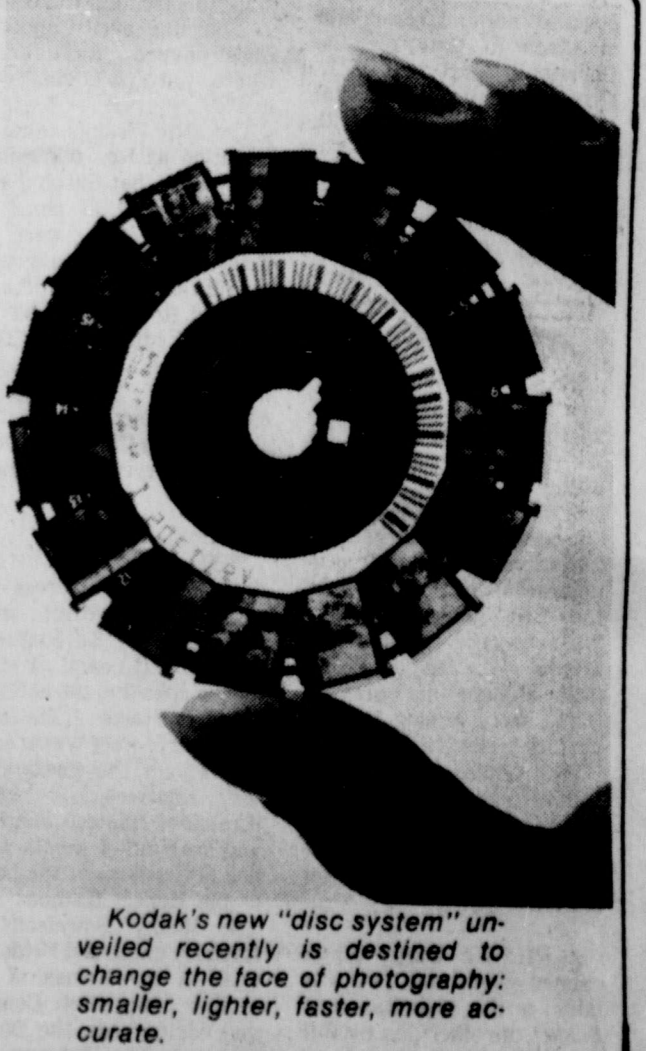

One of the keys to the new disc system is the development of Kodacolor HR disc film for use in the extremely small (about 8 x 10 mm) format the system requires in order to provide maximum user benefits. To permit the smaller size, the 200 ISO-speed film has a lower granularity and more sharpness than current 100-speed Kodacolor II film.

With the small format, Kodak needed to design a short focal-length lens which combines a fast speed (f/2.8) with the depth-of-field necessary for most picture-taking situations with fixed-focus cameras. Kodak describes this new lens as "being near the theoretical limits of perfection."

But film in a disc! Is it really necessary? According to Fallon, yes. "Kodak disc cameras and Kodacolor HR disc film should reduce the change of underexposure by half, camera shake that result in blurred pictures to less than two percent, and blank frames and flash failures to less than a fraction of one percent." And that's substantially less than corresponding failures with 110 cartridge cameras.

When the new disc cameras become available in the U.S. in May, here's what consumers will find:

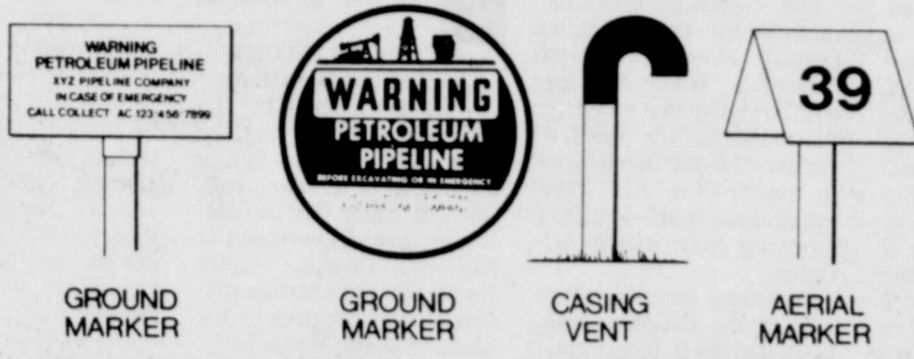

- The Kodak disc 4000 camera outfit, listing for \$67.95 and featuring a sliding cover to protect the lens and finder.
  - The Kodak disc 6000 camera outfit, listing for \$89.95 and offering closeup capacity to 18 inches and cover/handle.
  - The Kodak disc 8000 camera outfit, listing for \$142.95 and featuring all the above features plus a self-timer, rapid-sequence film advance, and a digital alarm clock.
- Each disc camera outfit will come with two film discs. Additional discs will cost \$3.19 for 15 exposures, according to Kodak.
- Who could ask for anything more?

**Pipelines... make good neighbors**

America has over 220,000 miles of petroleum pipelines carrying crude oil and products to refineries and storage terminals across the United States. Each day, more than 1.5 billion ton/miles of crude oil and products move through this network. These pipelines have a safety record second to none in the transportation industry... and we want you to help us keep it that way.

- liquids on or a mist above the ground in the area of a pipeline.
- Flames originating from an opening in the ground.
- If you become aware of a pipeline leak...
  - LEAVE THE LEAK AREA IMMEDIATELY.
  - Avoid driving into vapor clouds.
  - Avoid direct contact with the escaping liquids.

When you see signs like those shown above, they tell you that there's a pipeline nearby. If it's underground, you can't see it, of course. But it's there, working quietly to provide energy for you and other consumers throughout this nation.

Some of these signs list the commodity transported in the pipeline, the name of the operator, and a telephone number where the operator's representative can be reached at all times.

- Although pipelines have an exceptionally good safety record, once in a while a leak can occur. Indications of a leak might include:
- A strange or unusual odor in the vicinity of a pipeline.
  - A hissing or roaring sound (caused by petroleum or product escaping from a pipeline).
  - A dense white cloud or fog.
  - A spot of dead or discolored vegetation.
  - An accumulation of petroleum

- Avoid creating sparks or sources of heat which could cause the liquids or vapor to ignite and burn. If you find yourself in a suspected vapor area, do not light a match, start an engine or even switch on an electric light.
- Notify the pipeline operator as soon as you reach a safe area. Call collect. Give your name, a description of the leak and its location. If you do not know who the pipeline operator is, call your local fire, police or sheriff's department, or the state police. Advise them of the nature and location of the emergency.
- If you see someone digging near a pipeline or doing other construction work... or if you plan to do such work near a pipeline yourself... please call the telephone number shown on the sign and let the pipeline company know so damage can be avoided. It's in your interest... and the nation's.

**America's Petroleum Pipelines**  
Pipelines are the safest way to move petroleum and products and you can help keep it that way!

# People n Things

CHRISTMAS WAS A pretty nice affair in our community, according to reports from all directions. The weather man didn't add much to the situation. There wasn't enough snow for a white Christmas. And there was too much drizzle and icy weather for comfort, and travel was restricted for those planning visits.

Over at the Eastland County jail, which handles prisoners for most cities of the county as well as the sheriff's department, the prisoner count was from 19 to 23 from Dec. 24 to Dec. 27. Sheriff Johnny Morren reports.

On Christmas Eve, friends and relatives and church groups took boxes of candy and cookies to the jail for the prisoners. And at noon Christmas Day, the jail kitchen came up with a menu that featured turkey and dressing with all the trimmings, including pumpkin pie.

"Christmas was as merry as could be expected for the prisoners under the circumstances," the sheriff said.

THE NICEST Christmas decorations we've noticed at homes in our town are those at the residences of the Dennis Campbells, 1307 Bliss, and the Ron Rhodes, 1505 Rodman (near the entrance of Cisco High School building).

The Campbell home has a big MERRY CHRISTMAS with Santa and a scroll that has been signed by neighborhood folks plus other items—all in colorful lights. And the scene in the Rhodes yard is outstanding. You'll want to drive by and notice both homes.

Understand both Mr. Campbell and Mr. Rhodes are with Germania Mutual Insurance Company here.

THE ABILENE TV Channel 32 (7 on the cable) had a nice report on the 1927 Santa Claus Bank robbery last Dec. 22nd at 6 p.m. Their Big Country Reporter (Frank Healer) came over and made pictures of the old bank alley, the historical marker in front, pictures from the Santa Claus Bank Robbery booklet that the First National Bank gives to visitors, and a shot of the new bank building. Justice of the Peace Carlton Holder, who was here at the time, was interviewed.

Another Ciscoan who witnessed the bank robbery is Mr. Jack Farleigh, who retired recently. He recalled standing across the street from the bank and witnessing the bank robbers coming out with hostages and the shooting as they fled.

LaVerne Comer, the girl that Santa Claus grabbed and used as a shield as he fled the bank, and Jasper Cook, Cisco city judge, were schoolmates in the 7th grade here at the time, Mr. Cook recalls.

ONE OF THE most unique Christmas cards we saw during the season was an anonymous card addressed to Dr. E. E. Addy. If he still has it, maybe he'll show it to you. The Garner Altoms of Denver City, where he is hospital administrator, got to Cisco in time for the Christmas party at E.L. Graham Memorial Hospital (where he used to be administrator) last Dec. 23rd. They went on to Temple and Corpus Christi to visit relatives over Christmas weekend. Garner recently enjoyed a sandhill crane hunt with son Doug of Amarillo.

MRS. VERDENE Nichols, who works at Dean Drug, tells us that her brother-in-law is doing nicely following kidney transplant surgery over in Dallas recently.

Out on West 14th Street, the Christmas lights and decorations are nice at the homes of the Bill Ashs, the E.L. Walkers and the Wilson Smiths. Mr. and Mrs. C.W. Bunker of Sallisaw, Okla., were among holiday visitors in the Walker home. Bill Collins, also of West 14th Street, plowed his garden just before Christmas. Neighbors report that he has a real green thumb.

A PICKUP truck full of canned goods and food was taken to the Boys Ranch at Burnet the other day by Bill Philpott and Bud Coats of

First Baptist Church. The church held a White Christmas Sunday on Dec. 19 and members brought the items, which they do annually. The Ben Stieffs of Hempstead, formerly of the First Baptist Church here, were through our region (Local folks saw them as they went through Abilene.) en route to Lubbock for a holiday visit with relatives. Iris Tipton, CHS and Texas A&MU graduate and an outstanding athlete, is spending the holidays with home folks. She coaches and teaches at a high school down south.

HOW COME THEY were closed Christmas Eve night at Ramona's the Mexican food place over on I-20 near Eastland? Maggie Jimenez, the head waitress, told us they closed for a Christmas party for employees. And they ate Mexican food. Christmas Eve visitors in the E.L. Jackson home included sons Eddie of Garland and Robert of Fort Worth and daughter Eugenia of Mena, Ark., and their families. Thirteen people ate at the dinner table that day. Daughter Dorothy of Marfa was due for a visit this week. The Truman Kirks had everybody home for Christmas weekend, and it was a nice affair, he reports.

OUR REPORT here the other day about Mr. Willis Parker, the peanut farmer and rancher winning a hat because his wife's name was drawn from a door prize box, was correct in all respects except the store that sponsored it. The folks at Red Gap Western Store on IH-20 held the contest and a lady from a hat factory was here for a day to help. And Mr. Parker is real proud of his hat.

Wasn't the poem in the Red Gap Christmas ad nice? Bet a lot of folks clipped it to save.

NEXT DOOR to the Red Gap Store is the Pitt Grill and our Scouts report that Danny Boyd had quite an experience there the other morning around 5 a.m. He had stopped at a convenience store and picked up a couple of loaves of bread. While he was unlocking the store, a thug hit him on the head, grabbed the sack of bread, which had been mistaken for a money box, and fled. Later, the bread was found in a ditch near the store.

And down the street at the Texaco Service Station, somebody broke open a restroom and went through the ceiling to drop down into the station office. The money box was missing next morning.

CHRISTMAS EVE visitors at the Roy Hathaway home in Cisco were Marilyn and Mike Wragg and two small children, Carolyn and David, of Lubbock. Roy has a CB in his car and a CB base station at home so he can talk to home folks from his car.

Around 9 p.m. Friday, the CB in the Hathaway house called out Roy's name. And when Roy answered, the voice came in again to say that "this is Santa Claus and I'm circling over Lubbock. Does anybody there know where Carolyn and David live?"

The little Wraggs came to attention as Roy told Santa via the CB that Carolyn and David weren't at home in Lubbock—they were in Cisco. The two youngsters hurried off to bed after Santa assured Roy that his sleigh would be stopping in Cisco before long.

Hathaway daughters and their families got home for Christmas. And Santa was very good to them all.

THE JAMES Cottons drove up to Childress for Christmas dinner with relatives. Ed Pugliese, teacher and coach at Monday, is spending the holidays with home folks. The Mike Morris of Fort Worth were in town for the weekend to visit relatives. Ken Kamon of Houston and Kay and husband of Austin were holiday visitors at the home of the Robert Kamons. The Ronny Powelsons of Lubbock came last Friday to visit in the homes of his mother, Mrs. Bob Conner, and her parents, the Danny Claborns. The Claborns also

had daughter Pam and husband of Dallas here for Christmas. The Jerry Finches and children of Garland were holiday visitors in the home of her mother, the Derwin Honeas.

LET'S ALL HELP Mrs. Sopha Eudy of 1605 Avenue E find her fawn colored Chihuahua. The little male dog answers to the name of Paco. He disappeared last Friday from the Eudy home. If you've seen Paco, call Mrs. Eudy or her son, Bill Eudy. David Hageman, who is due to get a degree in computer science next May out at Texas Tech, gave his dad a quartz cigarette lighter for Christmas. And Dad Buford is real proud of same. Mary Chadwick, waitress at the Colony Restaurant, almost didn't make it home Christmas Eve. She used the wrong key to open her door and it broke off in the lock. She finally went in through a window. The Bob Black family was up from Houston for Christmas at the home of her parents, the Stanley Pirtles. The George Callarman of Grand Prairie came over Sunday to visit his mother, Mrs. Dovie Callarman. The Louis (Jake) Morgans had their daughter Susie and family of Austin up for the holiday weekend. And Santa Claus brought Jeweler Al Anderson a bit of jewelry for Christmas—a tie tack that looks like a fiddle. His missus had it made special.

Justice of the Peace Holder reported Tuesday that on the basis of a preliminary coroner's report, he was rendering a verdict of death by self-inflicted gunshot wound. A .410 shotgun was found near the body, authorities said.

Mrs. Thompson was born May 13, 1955, in Cisco. She was employed as a seamstress at Russell Newman Company here. She was a graduate of Cisco High School.

She married Alvin Thompson in 1982 in Cisco. She was a Cisco Church of the Nazarene member.

Surviving Mrs. Thompson

appreciation for the support McKinney has given our Center.

Job Corps is a program designed to train young men and women in skills which will enable them to obtain a job with a future. The McKinney Center has trained and placed over 14,000 students since its opening in March of 1967.

Young men and women, ages 16 through 21, from Cisco, who are interested in signing up for Job Corps may obtain more information by contacting their local Texas Employment Commission Office.

The McKinney Job Corps Center, a federally funded job training program, initiated its quarterly blood drive in September of 1981. Since that time, over 1700 pints of blood have been donated by students and staff.

Participation in the blood drive is strictly voluntary with all blood collected donated to the community blood bank.

Describing student participation in the blood drive program as "better than even we had hoped for", John Crosby, Director of the McKinney Center, stated, "We feel this is one of the best ways we can show our

Letters TO THE EDITOR

Dear Editor: With such a renewed interest in "roots" during recent years and because many citizens now living in the area served by your newspaper had ancestors who lived in Georgia during the past 250 years, we want to call to the attention of your readers the current availability of the landmark and highly-acclaimed 7 volume set of books by Folks Huxford entitled "Pioneers of Wiregrass Georgia." The set contains sketches of some 3,000 Georgia pioneers dating from the founding of Georgia in 1733 up to the turn of the 20th century. Also available is a set of monaural but excellent sound cassette recordings of a series of genealogical "how-to-do-it" workshops presented in 1971 by Judge Huxford, whose life-long hobby was genealogy and who was the only Fellow of the American Genealogical Society south of the Mason-Dixon Line until his death last year at age 87. For further information, those interested may contact the Huxford Genealogical Society, a non-profit organization; the society's address is Box 595, Homerville, Georgia 31634.

Sincerely yours, Huxford Genealogical Society, Inc. Randall Walker, President

## Mrs. Thompson Is Buried In Tuesday Rites

Funeral services were held at 2 p.m. Tuesday at Kimbrough Funeral Home chapel for Mrs. Debra Sue Thompson, 27, who died Saturday at her home in the Bungalow Courts on Highway 80 East in Cisco. The Rev. C.L. Reaneau, pastor of the Church of the Nazarene, officiated.

Authorities reported that Mrs. Thompson had apparently been dead an hour or two when relatives found her at 4:20 p.m. Saturday when they went for a visit. An autopsy was ordered by Justice of the Peace Carlton Holder before rendering an inquest verdict.

Justice of the Peace Holder reported Tuesday that on the basis of a preliminary coroner's report, he was rendering a verdict of death by self-inflicted gunshot wound. A .410 shotgun was found near the body, authorities said.

Mrs. Thompson was born May 13, 1955, in Cisco. She was employed as a seamstress at Russell Newman Company here. She was a graduate of Cisco High School.

## Services For Al Fannin Are Tuesday

Funeral services for Almus Lee (Al) Fannin, 61, of Cisco, a retired butane dealer, were at 4 p.m. Tuesday at Kimbrough Funeral Home. The Rev. R.E. Zell, Nazarene minister officiated, assisted by the Rev. David Adkins, Wesley United Methodist Church pastor. Burial was in Oakwood Cemetery.

Mr. Fannin died about 4:45 a.m. Monday at the Hendrick Medical Center in Abilene after a long illness.

He was born November 24, 1921, in Carbon, he was the former owner of Fannin Gas Company in Cisco. He married Evadene Ellis October 18, 1952, in Moran. He was an Army Air Corps veteran of World War II and a 32nd-degree Mason. He was a member of Wesley Methodist Church, Cisco Masonic Lodge No. 556, Scottish Rite in Dallas and Shrine of Suez Temple in San Angelo.

Survivors include his wife; a son and daughter-in-law, Alan and Pam Fannin, of Fort Worth; two grandsons, Blayne and Shane Fannin, both of Fort Worth; and several nieces and nephews. He was preceded in death by his parents and a sister.

Palbearers were Grant Robinson, E.D. Farley, R.F. Leard, J.C. Cooper, M.M. Parmer and J.H. Penn.

Regular meetings will resume at the Kingdom Hall beginning January 11th.

No Sunday meeting will be held at the Kingdom Hall, located at 204 N. Dixie Street in Eastland.

All area residents are invited to attend this special program to be held at 224 North Center Street in Arlington.

The presence of excessive turbidity or cloudiness in drinking water may interfere with the effectiveness of disinfection of the water. Permitting the turbidity level to exceed the standard may present a risk to the health of persons drinking the water.

However, up to five turbidity units (TU) may be allowed if the supplier can demonstrate that the higher turbidity does not: (1) interfere with disinfection, (2) prevent maintenance of an effective disinfectant agent throughout the distribution system, (3) interfere with microbiological measurements.

The water system is being studied to correct any high turbidity at any future date.

The notification of the public is in compliance with Texas "Drinking Water Act," as a means of keeping the public informed.

## PUBLIC NOTICE

### NOTICE TO WATER CUSTOMERS OF HIGH TURBIDITY

Dear Customer: The City of Cisco during the month of October, 1982, supplied water that exceeded the Texas Department of Health's "Drinking Water Standards," which were promulgated as required by the "Safe Drinking Water Act," Public Law 93-253 (US), for turbidity. The water supplied failed one or more of the following criteria: (1) the monthly average exceeded 1 turbidity unit (TU). The presence of excessive turbidity or cloudiness in drinking water may interfere with the effectiveness of disinfection of the water. Permitting the turbidity level to exceed the standard may present a risk to the health of persons drinking the water.

However, up to five turbidity units (TU) may be allowed if the supplier can demonstrate that the higher turbidity does not: (1) interfere with disinfection, (2) prevent maintenance of an effective disinfectant agent throughout the distribution system, (3) interfere with microbiological measurements.

The water system is being studied to correct any high turbidity at any future date.

The notification of the public is in compliance with Texas "Drinking Water Act," as a means of keeping the public informed.

Michael D. Moore  
City Manager
