w Jackets Basketball Squad Is Faly For Season Opener Tuesday

Mr. Muleshoe

This ought to be the year when a decision can be made on whether farmers are to use mechanical harvesters in gathering their cotton crop or whether hand labor is still to do most of the work. More than one farmer has told the writer they fear the machine gathering of cotton is going to ruin the staple and grade. On the other hand, two local ginners have said, one that a better grade can be obtained by mechanical harvesting, and another that he doubted if any difference would be noted from different gathering methods. It has left me all up in the air. Meantime, local machinery dealers have sold lots of them-one has sold 74 to farmers December 19, against Morton. of the territory.

Back in the Old South, where cotton grows very rank, it is out of the question to try to harvest mechanically, consequently, growers of that section are criticizing use of the machines. But in West Texas, it seems, the harvesters are here Littlefield; January 23, Olton; Jan. | main with the new management, to stay and will harvest a big part 27, Levelland; Feb. 3, Morton. of the crop.

Biggest Hoax of the year: The rumor that Edd Johnson had been out pulling bolls. It ought not to it best to tell ye editor it was all saucers, the headless horseman, and games for these two groups.

Julius Caesar (golly who wants to hear about him?) landed in Britain about 125 or 100 B. C. and his legions quickly put down what little native resistance showed up. He left one of his lieutenant generals Rome. After the customary parade, showing captives who were to become slaves, and the usual public ceremonies of praise were over, the Roman Senate got down to a consideration of how much money it would take to tide over the captured countries, including Gaul and Belgium, through the winter, expected to be a pretty rough one.

The Senate had Julius on the carpet for days, giving testimony. They finally decided they didn't have enough first hand knowledge and suggested that the army take a Senate Investigating Committee to France, Belgium, England, etc., to appraise the situation. Caesar furnished animals for the purpose. A number of reporters and press representatives, among them the leading newspaper editors of Greater Rome, accompanied the law makers. They were back in Rome after three years with their report, which, it is said, recommended the appropriation of quintillion sesterces to put the war devastated countries back on their feet and so help prevent future wars.

What, you don't believe this? I didn't read it in a book, either.

The writer of this column has a proud of the new son of Mr. and Mrs. Horace Edwards. I had been selected to pay for five cups of coffee at Bill's Monday morning when old Finley Pierson, ye pleased grandfather of said youngster, rushed in, announced the boy's arrival and said all the coffee was on him. The quarter that I had already laid out upon the altar of friendship was quickly returned to the comparative safety of my pocket. Yes,

The Freshman squad is composed of Betty Gaede, Jim Gaede, Benny Odd Fellows And have been necessary to deny it, we Douglass, Ed Nickels, Howard Tate, should have known, but Ed thought | Marvin and Marion Waggoner, Charles Taylor and Benny Goss. An a joke. He put this story in the eighth grade squad also is working class with last summer's flying out and Coach Beam will arrange

Santa Fe Reviews Wheat Situation

The drouth is considered broken in northwest Texas. Rains averaging an inch or more fell during the last half of November, wetting 12 inches. Estimates indicate that more than 60 per cent of the wheat acreage was sowed before the rains

Only a small percentage of the volunteer seed sprouted and was killed, thus most of the planted acreage will include lots of volunteer growth which is likely to result in too thick stand. Much of the volunteer will be left for a chance crop even though this practice is a gamble.

Started late, the small wheat plants will not stool much nor develop a good root system as defense against the danger of wind damage and winter killing. This, along with scant subsoil moisture. presents a questionable outlook; however, there is always a chance for improvement. It is a well known fact that December wheat in Texas can promise the least and make the most of any place in the southwest.

Harvesting of cotton and grain sorghums in the northwest is fully 90 per cent completed. Digging of sugar beets has been delayed by rain and cold weather but the processing plant requires that harvesting be completed by December 10. Range conditions are poor and there special reason for being mighty is no wheat pasture to present a scene far different from that of a year ago.

MULESHOE FACULTY PARTY WAS HELD LAST MONDAY

About thirty five attended faculty party held in the home economics department at the school urgent need for more funds, since Monday night, Nov. 24. Games of the cost of living has gone up in 42 were played and refreshments of pumpkin pie, whipped cream and

coffee were served. Hostesses for this occasion, a regular affair every six weeks, were Mrs. Harold Newsom, Mrs. Doris Moore, Miss Zeffie Childress, Mrs. Buck Ragsdale and Miss Lula Stotts.

ALCHA STUDIO TO GIVE STEEL GUITAR LESSONS

Foy E. Waltrip, of Clovis, announces the opening in Muleshoe of the Aloha Studio for instruction in the steel guitar. His studio is located at the G. H. Davenport home, first house west of the Assembly of God church.

Lessons will be offered beginning at four o'clock on Thursdays and Fridays only.

Mr. Waltrip has been teaching this instrument for a number of years. Mrs. Waltrip also is a teacher and is in charge of the Clovis studio. They have a third studio at Portales.

AT OFFICIALS MEETING Coach James A. Beam and Supt.

W. C. Cunningham will attend a meeting of school officials of District 4-A at Levelland Friday noon to discuss the new district set-up The officials will then attend the bi-district football game between Levelland and Tahoka teams.

we are all mighty proud of young

Methodists Plan To Raise Funds For Waco Orphan Home

the First Methodist Church of Mule- | Smithville. shoe are making preparations for for the Methodist Orphan Home at R. C. Jackson and Mrs. E. E. Minor, charge of this matter is composed of Rev. T. G. Craft, pastor; R. J. Klump, treasurer; and S. C. Beavers, Sam E. Fox, Arnold Morris and Buford Butts.

In a letter to the membership, the committee called attention to the the last year.

Rev. Craft said this church last year gave \$940, but suggested that probably this sum will buy no more than \$450 would have bought before the war. Mr. Klump will receive contributions or a check may be mailed to Hubert Johnson, Supt., Methodist Home, Waco.

Rev. Craft said there are now more than 400 children in the home. "Their sole support," he said, "is derived from gifts sent by those whose hearts go out in sympathy for orphaned boys and girls."

MRS. JOHN DEAN DIES

Mrs. John Dean, of Sudan, died Monday night of injuries received Sunday morning. It was said the floor furnace pilot had gone out, al- ried. lowing gas to accumulate, and that when she attempted to light the furnace the explosion occurred. The home was badly damaged. Mrs. gin there for many years.

BUILDING AN ADDITION

Construction was begun Monday on an addition to the building of

Bula Box Supper Friday Night, Dec. 5

The annual box supper of Bula School will be held at the school Friday night, December 5, and everybody is invited to

attend. The school will use funds raised that night to pay for liability insurance on all the Bula children who ride the school buses, for additional books for all grades of the school to go in the library, and for athletic equipment, it was said.

Jack Heald At Club Congress

Jack Heald, Bailey County 4-H Club boy, is in Chicago as a delegate to the annual 4-H Club Congress, November 30 to December 4. Jack received one of 25 Texas educational awards of the Santa Fe railway, enabling him to attend the

Jack has been in 4-H club work for seven years. He has had livestock demonstrations every year, as well as grain sorghum and cotton crop demonstrations.

Although Jack has handled dairy and beef cattle, he believes the Plains country is better suited to hog raising and he is now concentrating on show animals.

Jack concentrated hard enough to exhibit the junior grand champion fat barrow at the Dallas State Fair, winning many other prizes on his swine exhibits there.

County Agent J. K. Adams says Jack is eminently deserving of the honor of being a delegate to the ored by saluting the governor as Club Congress. He is proud of he passed were: Doris Sims, Flor- Jack, just as everybody else in the county is proud of him and are glad his work has been signally recognized.

Texas Farmers Can Expect Prices In '48 To Equal '47, Economist Thinks

Half Inch Rain Fell Wednesday

A half inch rain fell in the Muleshoe vicinity Wednesday and Wednesday night, and, added to the moisture which fell here a few days ago will make the wheat picture much brighter. It is problematical whether much wheat will be planted, however, in view of the lateness

of the season. Judge R. J. Klump reported the precipitation here, including a small amount of snow, was .51 inch. The wet spell again delayed cotton pulling, which was getting underway again after the former shower.

'ARM LOANS

We've just finished housecleaning at our home, getting ready for the holiday season . . . and during the process we did a bit of re-decorating as well. The living and dining rooms were re-papered in one of the new deep colored patterns and we transformed a storage closet to a tiny combination powder room and den.

I was skeptical about the dark

table of the same height . for a true reflection a mirror must

college and university. Bishop J. H. Schiarman of Peoria,

Ill., declared: "The shocking examples in Germany and Russia have shown us that when man loses the concept of a spiritual being under God he becomes a regular being under tyranny."

The bishop said that the Scriptures and the prayers of the Catholic church were permeated with rural feeling and agricultural figures of speech.

As a keynote for the program of conserving food for the European needy, Bishop Schlarman quoted the Lord's Prayer as it was found in the liturgy of an East Indian sect that recently rejoined the Catholic church: "Give us this day the bread of our necessity." They ask for nothing superfluous, he said.

wall paper at first . . . but an interior decorator friend suggested using mirrors on the walls to re-flect the white woodwork and win-dow light. Well, I tried it — and

the effect is really beautiful! When we discovered the visual tricks that mirrors could perform, my husband and I began experimenting and decided to remodel the closet into a powder room and den. is old enough to enter school if a The room was long but narrow so we prepared the long walls with a gay plaid wall paper and painted the end walls. Then we found a modern desk, chests and dressing additional safeguard or without evformed them into a single unit covering one complete side wall, should be protected without fur-Above this furniture we placed ther delay, the State Health Offifour large mirrors, and that tiny cer declared.
den seemed to widen as if by
magic! Those mirrors reflected the entire room — and it actually looked twice as large! It's surprising how mirrors do brighten a room, isn't it? My decorator friend said they used them for decorating and brightening every room in the house . . . I was interested, too, in her remark that most mirror manufacturers use Pittsburgh Plate Glass because of its beauty and true reflections. She said that

be made of plate glass . . . and told me that those I had selected were. Because of that fact I am doubly satisfied with my "Mirror Decorating" — in fact, I am plan-

ning to include mirrors among my Christmas gift selections.

West Camp Club Christmas Party

The West Camp home demonstraion club met in a called session November 25 with Mrs. Beulah Williams. The meeting was called to order by Mrs. Cummins, president. who presided. Wilma Austin, assistant secretary, acted as secretary and kept a record of the meeting.

Each member answered roll call with "What I Have To Be Thankful For." Grace Snider gave a talk on "What I Like Most In My Club."

Mrs. Cummins gave the council report and also a report was given by Mrs. Bonnie Williams on the Style Show. We were very proud to have placed in as many things as we did; in fact, we had nine entries and placed on every one. We had 5 firsts, 2 seconds and 3 third places, as follows:

Peggy June Cummins, 1st on corduroy dress; Beulah Williams, 1st on suit; Wilma Austin, 1st on child's dress; Bonnie Williams, 1st on print dress and 1st on wool

Esther Cummins, 2nd on child's dress; Wilma Austin, 2nd and 3rd on child's dress; Beulah Williams, 3rd on print dress.

We hope to see all our club ladies and their husbands at the Christmas party in the home of Mrs. Beulah Williams on December 10, about 7:30 p.m. Come.

The hostess, Beulah Williams, assisted by her daughter, Jo Ann, erved coffee and doughnuts to the following members:

Joy Jones, Bonnie Williams, Wilma Austin, Doris Huckabay, Bert McClarty, Esther Cummins and Grace Snider, and one guest, Mrs. Letha Cain, of Weatherford, Texas.

Miss Ann Bates And Perry Lynskey Wed At Levelland Church

Mr. and Mrs. D. P. Bates of Levelland are announcing the marriage of their daughter, Ann, to Mr. Perry Lynskey, son of Mr. and Mrs. L. P. Lynskey of Muleshoe on Friday evening, November 21, at 6 o'clock in the parlor of the First Methodist Church of Levelland. Rev.Jordan Grooms, pastor, performed the beautiful double ring ceremony.

Mrs. E. F. Luker played an arrangement of organ music, including "Troumerie," "Ah Sweet Mystery of Life," "Always," "The Rosary," and "Because."

As the wedding party took their places before the mantel, which was beautiful with an arrangement of chrysanthemums and white candles in gold candle sticks, she played the wedding marches from Lohengrin. While the vows were being exchang* * * Fashions * * *

the table and find no syrup on the shelf, mix cream with honey and use in place of the syrup. Billing Clerk To Fashion Designer

From billing clerk to fashion designer is the step taken daily by Miss Wimfred Summers, Columbus, Ohio. Employed in the purchasing department of the Timken Roller Bearing Company's Columbus plant, Miss Summers has, for three years, tended to office routine by day and, by night, taken up her studies at an art school in furtherance of an ambition carried since her fifth grade school

Based on the quality of the designs turned out thus far, Miss Summers would do equally well as a designer or an illustrator and a career as either one would satisfy her. An ever-widening circle of friends beseech her for help in attaining that "New Look."

Asked what relation there was between roller bearings and ladies iashions, the pert young miss replied: "Naturally there is no relation between roller bearings for freight cars and the lines of an evening gown. But, there is a difference between the employee with a hobby and one without. The person with a hobby is inquisitive and business today is seeking inquisitive employees. Just look at the suggestion awards made regularly by Timken and other big companies." The point was well made.

Sequin studded silhouettes created with an eye toward MiLady, to make her elegant! Lovely Robes rich velvets, black chiffons, crepes, in all the shades she'll be delighted with Shop early.

Men Favor Daring Dresses On Other Girls-Not Theirs

Confidential tip to the girls - men like daring dresses only on the other fellow's girl - not theirs.

That was the essence of opinion expressed by a group of collegians, including Eugene Rossides of Columbia football fame, who served on Cosmopolitan magazine's maletested fashion jury at New York's Stork Club.

Believe it or not they voted consistently for gowns with some pered to a narrow hemline, but covering over shoulder or upper arm or with narrow shoulder straps," Kay Wister, fashion editor of the magazine declared. "The completely bare shoulder decolletage was something de-lightful—to them—only on the other fellow's girl."

Typical of college men throughservice, they represented a crosssection of male opinion as to how length dresses. they like their women to dress. They represented Yale, Princeton, and thrash this thing over," was Cornell, Amherst, Columbia, Dartmouth, the University of Missouri and the University of

Nebraska. Generally the boys approved of dresses that had a sophistirated but not too exposed look," Mrs. Wister said. "In fact it's a.

Ressides was particularly imone of the winning dresses which embodied all the fashion points gowns," he said. that had been emphasized.

the slit allowed plenty of freedom

for dancing." "Sophisticated and relaxing" was the way Paul Stessel of the University of Missouri described one of the winning dresses in the groups shown.

Bob Folan, Yale hockey player,

and Be Slocum, who pitches for out the country, many of them the Princeton baseball team were having returned from overseas inclined to "make aste slowly" in appraising some of the newer "We had better take our time

> the way Folan expressed it, while Slocum said "The length is too sudden a departure.' When a colorful group of floor-

length gowns was danced into the room, Soth Baker, vice chairman of the yearbook and member of the student council at Amherst, the boys pronounced became a bit confused in his articulation:

"These are a great improvesed with the slit bemline of ment on gownless evening straps - 1 mean strapless evening

Win Texas 4-H State Honors

TEXAS 4-H State winners in the 1947 Better Methods Electric, Field Crops, Poultry and Dress Revue awards programs, who will each receive a trip to the 26th National 4-H Club Congress in Chicago, Nov 30-Dec. 4 and brief outlines of their records follow:

Alvin Davis, 20, of Post, won highest rating in the 1947 state 4-H Field Crops activity, in which International Harvester provides the awards. During seven years of club work, he produced 187 acres of cotton and 136 acres of grain sorghum, with estimated incomes of \$8,700 and \$5,207 respectively, which brought his total 4-H income to \$16,190.00. Alvin reports cotton yield of 5% and 10% above average with Half and Half and Acola, and 15% above average with Western Prolific. He has increasingly adopted approved methods including poisoning of insects and use of certified seed properly suited to the locality. Alvin has been president of the Post High, Texas A. & M. and District 2 4-H Clubs, and has done fine work as cotton insect pest reporter.

Joline Dyer, 16, of Houston, receives the Chicago trip award provided by the Simplicity Pattern Co. for making and modeling the top rating outfit in the State 1947 4-H Dress Revue, Her winning out-fit is a flesta wine wool suit. The skirt has a full length tuck down the front and a kick pleat in the back. The cardigan jacket has a scalloped detailed front with set-in pockets. Joline knitted a white wool sweater to wear with her suit, made a black kid bag and trimmed a black felt hat with white and wine-colored ostrich feethers. The total cost of her costume was \$27.83. State winners who particl-pate in the National 4-H Dress Re-

vue Presentation at the Chicago Club Congress will each receive a \$25.00 U. S. Savings Bond. Gayle West, 17, of Memphis, re ceived the state award of a Chi

4-H Better Methods activity. Gayle than the United St. has been a 4-H'er for six years the line" on prices. Among his work simplification ao complishments on the farm and in the home are using electricity in place of the farm tractor to grind feed, wiring the poultry house and shop, and fencing pastures with electric fences. Gayle has also made Agricultural Experiment Station, dairy cows, installed an electric can Society of Agronomy at its anwater pump, rewired a sewing ma nual meeting last week in Cincinchine and made a two-way tele phone between the house and the chicken house. His work has in creased farm production, saved money and energy and removed drudgery on the farm and in the

the Chicago trip award provided by Swift & Co. for her top-ranking 1947 4-H Poultry Achievement rec ord in the State. During seven years in club work she raised 443 chickens, mostly white Leghorns. Lola estimates her income from 4-H Poultry projects at \$2,353.00. She has completed 11 4-H projects, including 4 in Poultry Achievement, and has made many poultry demonstrations. She has served her local club as president, vice president and secretary.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

tioning the integrity of the dollar. On the contrary, all reports show virtually the entire world seeking to accumulate dollars.

It may give small comfort to the housewife, but the United States has fared better than most of the rest of the world. IT'S YOUR BUSINESS

Considering all the factors pushing upward, business analysts say it is surprising that prices are no higher than they are.

Federal statistics for the period since 1939 show this over all picture: 1. The money supply has increased 225 per cent.

2. Physical production of indusrial goods has increased 70 per cent. 3. National income has increased

4. Gross national production ncreased 150 per cent. 5. Wholesale prices of all comnodities have increased 100 per

From these statistics, analysts find that the present level of prices actually is low in relation to the na-

In addition, it is deduced that there is little if any danger of a collapse of either prices or production, so far as buying power controlled by the public is concerned, because the gross national product is low in comparison to the money

Another important fact, it is pointed out, is that the American

SEEK FUNDS TO BRING THE TEXAS BACK HOME

Houston-Texas Jaycees are determined that the Battleship Texas will come home to the Lone Star State and upon the suggesion of Governor Beauford Jester and the Battleship Texas Commission, will spearhead the statewide campaign to raise the \$225,000.00 needed, it was announced today by John G. Flowers, Jr. of Houston, State Jaycee Chairman for the drive.

On December 7, Pearl Harbor Day, a Junior Chamber of Commerce drive will be launched all over Texas, with all 120 Jaycee clubs participating.

Steel Spends A Billion Dollars For Expansion and Improvements

Record peacetime shipments of | this year, if shipments continue at steel, plus record breaking expendi- the same high rate for the balance tures during 1947 and 1948 on im- of 1947, is in excess of 1,200,000 net provements and expansion of the tons of steel products for the ultisteel industry's facilities will go mate use of farmers throughout far toward bringing about a bal- the country. Such a total would be ance between demand and supply of steel, according to American

Iron and Steel Institute. Postwar expansion and improvement plans of the steel industry, which will involve an expenditure of more than one billion dollars by the end of 1948, mean more steel than ever before for the manufacturers of sorely needed farm equipment. It means more machinery. fencing wire, steel for silos, barbed wire, bale ties, and roofing, added to an already record total for shipments of finished steel products

during the first half of 1947. During the first six months of this year the industry exceeded any previous peacetime production pace with a total of more than 42,000,000 net tons of steel ingots and steel for castings. In that pe than the earnings of the entire riod, users of steel received twothirds as much finished steel as in years. In addition, the industry the entire year of 1940.

of finished steel was shipped to dollars to that total. The steel inmanufacturers making agricultural dustry believes that record producimplements and machinery and to tion plus record plans for expanother farm outlets. During the first sion and improvement will insure four months of 1947, over 405,000 a steady supply of steel to meet the net tons went to the same steel unprecedented demand built up consumers. The indicated total for during the war years.

an increase of roughly one-third over 1940, reflecting the record breaking pace of steel production so far this year. Expansion and improvements of

the steel industry's equipment will involve the following additions: 2,500,000 net tons of ingot capacity; 3,000,000 tons of added sheet and strip capacity and substantial additions to facilities for finished steel products other than sheet and strip.

Steel's program for 1947 alone, which in large part involves completion of schedules that were undertaken as long as two years ago, will mean the expenditure of \$450,000,000. By the end of 1948 the postwar total will have reached the sum of \$1,000,000,000, an all-time record. The latter amount is more steel industry during the four war plans further improvements that In 1940 a total of 919,500 net tons will add several hundred million

Rebekahs Enjoyed

It was 7:30 p.m. on November 26 at the Crossroads cafe banquet room in Muleshoe that the Needmore Rebekahs enjoyed their Thanksgiving feast—a turkey dinner with pumpkin pie and whipped cream for dessert.

Gladys McWilliams and Florence Holmes had the tables beautifully decorated. They carried out the Thanksgiving theme by using small candle turkeys and pilgrim figures, flowers and large candles.

Invocation was given by Maud Young, after which everyone was seated. And they soon learned, to their surprise, that one of their own Sister Rebekahs, Lilly Belle Carpenter, came from Carrott County-her costume was a bit queer. She came from a small familyjust eleven of them, well, there were twelve counting the cat. This was really a comedy dialogue given by Lily Belle Carpenter and Jean Moore. Estelle Heald gave a very interesting talk on "Thanksgiving and Why We Should Be Thanksful," which was followed by a special vocal solo by Minnie L. Sims. Just before leaving everyone

down cold drafts which lower milk

Cows which have to work their way through muddy lanes and feedlots use up energy which otherwise would have produced milk. That's where a slip or fresno comes in to make feed go further by draining off standing water and building up low spots.

Dairymen won't save any grain by cutting down on the milk cow's ration, Gibson says. The cow is going to take care of herself first and if her feed is cut, she'll cut the amount of milk she gives. Always give cows all the roughage that they will clean up daily and feed hay according to milk production to get maximum return.

Another little trick that will hold up milk production is to warm drinking water in cold weather. Milk is approximately 87 per cent water, and if the water is icy cold the cow won't drink as much as she needs. A simple way to warm water is to sink a half oil drum in the trough with rocks and start a fire

TEXANS ARE GRATEFUL

College Station-A recent state-10 Texas families say "grace" or a blessing before each meal.

A national organization polled families in the United States on this and other religious habits not long ago. The percentage of families in the country as a whole that say grace before each meal is four

Mrs. Eloise T. Johnson, extension family life education specialist for Texas A. & M. College, says that families tend to do in their own homes what they learned as children. Cne-half of the people who do not offer thanks before meals said that the custom had not been observed in their homes when they were children, while 84 out of 100 Texans who offer thanks reported that this was a family custom as they grew up.

BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

Complete plans of conservation operations were worked out last week with Travis J. Wellborn, Eddie Ramm, H. H. Hart, J. T. Huckabay, Rufus Gilbreath, L. M. Hennington, V. Schneider, J. H. Garrett, W. T. Cherry, T. F. Maddox, and E. F. Cherry.

A well location was made last week for Willie W. Williams.

T. J. Wellborn was assisted by Soil Conservation Service technicians in running terrace lines. Mr. Wellborn is planning to build his own terraces which will help prevent water erosion of the soil.

U. L. Childers' tenant, Tom W. Drinkard, made application for soil conservation assistance on 80 acres of land. Applications were also received from M. L. Collins-177 acres, and M. A. Snider, Jr.,-240

When Not Controlled Water Causes Great Damage

Uncontrolled water moving swiftly down our slopes and hillsides is the greatest destroyer of valuable topsoil and soil nutrients. Muddled streams and rivers after each torrential downpour ... and even after comparatively light showers ... record the toll exacted from loose, unprotected soil,

The mighty Mississippi alone dumps at least 730 million ton: of soil into the Gulf of Mexico. To this tremendous tonnage must be added the million of tons of soil washed off fields and dropped

Farmers use thousands of tons of commercial fertilizer every year in an effort to maintain and improve the fertility of their soil. This tonnage is puny in comparison with the soil nutrients erosion removes each year. Even the volume of soil nutrients taken from our fields in the form of crops is small when compared with losses due to erosion

Not only does uncontrolled water destroy soil and soil nutrients, but to it also must be charged the loss of human lives, homes, roads and bridges.

OUR NATIVE LAND, A Trust to Keep*

Christmas Tree Lights Care May Avoid Yuletide Tragedy

A Yuletide tragedy may be avoided by observing a few simple precautions when you are setting up your Christ-

Today's electric-lighted Christmas tree is not nearly, the fire hazard that its predecessor—the candle-lighted tree was-but there is still potentially grave danger unless certain precautions are observed, according to an article in the December issue of Good Housekeeping magazine,

"Inspect your tree-lighting sets before trimming the tree," the article urges. "If the insulation is worn or damaged, so that bare wires are exposed or may become exposed when the set is in service, or if the sockets are cracked or broken, discard the set. It is misplaced economy to gamble on re-

pairs that may not be adequate. "Check the condition of your extension cords, too, and see that they are long enough to reach easily from the convenience outlets to the lighting sets. Do not structions that may come with the your back-yard incinerator."

sets. See that all the bulbs light. "In buying tree-lighting sets, it is good insurance to choose only those that meet recognized safety requirements. To be sure of this, always look for a label on the set stating that it is listed by Underwriters' Laboratories. "As a last precaution take down

your tree soon after Christmas is past-the sooner the safer. Don't dispose of it where small boys will be tempted to make a bonconnect too many lighting sets to fire. Give it to the rubbish man one outlet. Be guided by the in- or cut it up and burn it safely in

Name State's 4-H Winners to Compete for Sectional Honors

TEXAS' top ranking participant in each of the 1947 4-H Dairy Production and Soil Conservation activities has been selected to compete for a sectional award, which is a trip to the 26th National 4-H Club Congress in Chicago, Nov. 30-Dec. 4. In case either wins sectional honors, he will relinquish his state award to the next highest rating member. The two state's representatives and brief outlines of their 4-H records in their respective activities are as follows:

Carroll Fowler, 18, of Lakeview, 1947 state winner, will compete for a sectional award in the Firestone 4-H Soil Conservation activity. During nine years as a 4-H'er, he has realized a yield of over one bale of cotton to the acre as a result of soil conservation practices along with good crop management. Car-roll has carried out a complete conservation program on his ranch, including strip cropping, terraces, grass waterways, use of legumes, pasture improvement, cover crops and proper layout of fields and fenc-ing of the farm. He has also conducted poultry, swine, baby beef, and cotton projects with outstand-

C. W. Grissom, 19, of Farwell, is the state's representative named to compete for sectional honors in the 4-H Dairy Production activity, in which all awards are provided by Kraft Foods Co. During nine years in club work, he developed a herd of 10 Jersey dairy cattle, the

income from which was \$13,460.00, including \$165.00 in cash prizes. Grissom showed the grand champion cow at the county dairy show for three consecutive years, and won many placings in the show at Plainview. He has given many dairy demonstrations, and is dairy leader of his local club. He stresses the importance of having the cow's udder clipped and clean, and the milking machines properly steri-

These activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

J. R. Young Died At Chillicothe

J. R. Young, 75, father of W. E. and W. R. Young of Muleshoe, died unexpectedly at his home near Chillicothe, Texas, Tuesday at 7:30 p.m. Mr. Young had been in good health, in fact had seldom had an illness in his life.

Mr. Young had been living on the same farm in Big Valley community, near Chillicothe, for 41 years. He is survived by his wife, four sons and three daughters.

The two Young families here left Wednesday morning to attend funeral services, which were pending the arrival of a sister from Georgia, Interment was to be made in Big Valley cemetery.

KEX VARDEMAN BREAKS LEG

Rex Vardeman, 8, had the main bone in his leg broken Thanksgiving Day when he fell from a fence at the home of his parents, Mr. and Mrs. Wayne Vardeman. A foot hung in a crack and the fall twisted the leg. He was treated at Green Hos-

Uncle Sam Says

Christmas? There's nothing comparable to the warmth of Christmas feeling. Second best perhaps is the feeling when you have the money to make dreams come true for you and your family. The most efficient and sure way to build up a healthy backlog of savings is through your company's Payroll Savings Plan for buying United States Savings Bonds or your bank's Bond-A-Month Plan. Every extra savings bond you add to your bond holdings is one more powerful stride toward secu-rity. The best Christmas gift you can give your family is to start a 10-year plan of automatic monthly bond buying. For example, your investment of \$18.75 a month in a savings bond every month until Christmas, 1957, will result in a nest egg of U. S. Treasury Department
