the county.

cotton this year.

Mr. Muleshoe

Seen & Heard:

Dr. LaThagar: It was cold enough last night to warrant having a fire in the house. (It was about zero).

Fred Johnson, the IH man: This little cool spell reminds me of a time when I was with a gang of the great turnout of cotton that it would be around 52 degrees befire and I placed a pot of tea on this year cotton acreage, irrigatthe fire. Noticing it was too hot ed and dry land crop, has averto drink, I set the pot to one side aged producing more than 250 for one minute. The tea froze so fast that it was still steaming, more than a half bale. though a solid block of ice.

Old Timer: This snow spell reminds me of the winter of the black snow, back there in the eighties, up in the Dakotas. r.

Fred said that in the north, though the people dressed for the bitter cold, there was danger of the face freezing. If you saw someone alternately pointing their finger at your face, then indicating on their own a certain part thereof, you better. start rubbing, because your face was freezing. If your nose began to turn white it was about to freeze and you had better get some circulation started.

They used to tell about section hands or sheepherders, people who had to be out in the wind in this which sold at a high price, there country, how they wore chamois skin underwear to stop the wind.

Of course we could tell you about potatoes, sudan hay and seed, sorthe huge drifts of snow here in the early days that permitted cowboys and other vegetables, to say nothto ride their horses right over the ing of the huge income from livewire fences. But probably we have stock and chickens that yearly mains to be done is laying the tile dwelt on this subject too long al-

Latest census bureau report reveals that Bailey County in 1947 produced her greatest cotton crop, gins having reported turning out 51,786 bales from the '47 crop to January 15, 1948. Probably 2.000 bales remain to be ginned, and the total might be around 55,000.

Race, Precinct 1 No other year in the history of J. K. Freeman, of Muleshoe, has the county has even approached authorized The Journal to anworkers up in Canada. Some days was seen here last year, although nounce that he is a candidate for the office of county commissioner a smaller acreage may have in low zero. Special Election

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

MULESHOE - COUNTY SEAT OF BAILEY COUNTY, TEXAS

Citizens of Muleshoe will vote on a special proposition that concerns them on the same day as the voting on the proposal to issue city bonds for water and sewer improvements and for street paving, set for a decision on February 10.

They will vote for or against the adoption of provisions of a law passed by the Legislature in 1927 which would give a city the size of Muleshoe the power to control any subdivisions within the city lim-

Cities of 25,000 population or more already are authorized to regulate such subdivisions; the adoption of the provisions of the act would en- as Florida and the southern part title Muleshoe city government to of Texas.

have the same power. The city would not approve the subdivision of a plat of ground until streets and alleys had been designated and the plat approved, thereby keeping said alleys and s'reets in conformity with those already existing in other parts of

Members of the city commission felt that this authority to regulate the manner in which subdivisions are made is of great importance and pense of holding another election.

In technical language, the vot-

Near Zero Weather Seems To Be Ended

Clearing skies Wednesday seemed an indication that the cold spell that had lasted several days and that brought near zero weather to this territory, was on its way out. Some snow fell but apparently there was little moistur eforthcoming from it. In the first place there was little moisture forththen it was very dry and drifted badly with the high winds that

prevailed. The wind bore through the outer clothing and made outside work very disagreeable. The entire nation has been experiencing extreme cold, and to date 156 deaths had been attributed to the blizzards that brought snow and ice as far south

No great amount of snow seems to have fallen on the Plains, but in

many other sections great snow-

falls have been reported, bringing

lots of much needed moisture. 0 MOVING HERE SOON

W. T. Bovell, of Bovell Motor Supply, spent the week end in Socorro, N. M., with his family and made preparations for their early removal to Muleshoe. He recently purchased a ready built house at Littlefield and moved it here and as soon as the house is ready the family will move.

Schools, Business **Houses** Closed

THURSDAY, JANUARY 29, 1948

Now we know how the people of Europe have to do nearly all winter, and how the people of our East and North have to do occasionally as we work in cold buildings or not at all. Those who have said it couldn't happen here must revise their estimates.

Business came to a standstill in Muleshoe Wednesday morning as the supply of gas ran so low that the homes of the city were in danger of being cut off entirely. It was necessary to close business houses or have homes without fires.

But Muleshoe citizens were not alone in this situation-nearly every town of the Plains, perhaps all that are served by natural gas were

totally or partially closed down. Muleshoe schools closed as early as Tuesday afternoon as officials sensed the danger if cold rooms. The weather has been bad also and made bus travel dangerous. Public meetings scheduled in the next

few days have been postponed. All restaurants, excepting per haps one, were closed Wednesday at 1 p.m. Some closed with other businesses early in the morning, but some were permitted to continue with dinner if no more than the steam table were used. The bank, whose closing is regulated by law, continued to operate until its regperature at noon was at 60 degrees. week attended a meeting of M-M | The newspaper was told to conconvention of the Western Hard- under the linotype metal pot and time.

Water, Sewer, Street Improvement **Bond Election Set For February 10**

February 10 is the date set for against future water shortages. This the election to determine whether is something that is not left to the city shall be empowered to is- choice but is a mandate of the Texsue bonds for sewer and water system improvements and to pay for

the city's part in future city paving. It is proposed to issue bonds in the sum of \$200,000 for sewer and water extensions, improvements and repairs, and to provide for the issuance of \$100,000 in bonds for city street improvements as they are needed when the people get ready for more paving.

Among improvements planned by the city commission is the erection of a new overhead water tower to provide additional fire protection for the city property and insure

as Fire Insurance Commission. Additional water mains are to be laid.

Several sections of the city have no water or sewer services, and the bond issue would supply funds to extend these systems to the new sections. The commission believes this is required from a convenience and sanitary point of view. The city commission believes that

all these measures are necessary for the growth and progress of Muleshoe. Some, including the sewer and water extensions are an absolute must.

Since completion of the small paving program here last year, more citizens have seen the desirability of paving and improving the streets and the commission feels that demand for this improvement will continue to increase from time to all the bonds to be voted at once, but only as they are needed. Hence no interest charges will accrue, nor will any debt payment be due until the work actually needed is

Muleshoe is a growing city and its growth necessitates the expenditure of money. However, it is believed that the amounts asked for in the coming election will provide sufficient money to care for several years of expected growth. _0_

Ed Clark, employe of the Johnson-Nix company, has recently returned from Amarillo where he was a patient for three weeks in Veterans Hospital. Ed spent Christmas there, and said the Amarillo Elks Lodge and the local V.F.W. were especially attentive to the men there at Christmas time.

Making Hay

Even in these days of the atom and high-flying airplanes, "mak-ing hay while the sun shines" is still the rule! And with farm labor costs at an all-time high, farmers find the modern sweep rake a fast and economical one-man way of handling hay to the barn or stack. The rake is lowered and raised by the tractor's hydraulic system. It has an automatic unloading device and can handle more than a quarter-ton at a time.

Lo enjoy all the conveniences and luxuries of modern electric living, you must have adequate wiring. That means large enough wire to operate your electric range, water heater and refrigerator, outlets placed so that you can use your electric cleaner any place you wish.

To help you get ready for better living electrically, your Public Service Company will be glad to send a specialist to your home to check your wiring for you. There is, of course, no obligation-just call or write your nearest Public Service office.

Adequate Wiring MEANS:

ENOUGH CIRCUITS for serving efficiently and safely all the appliances you have. LARGE ENOUGH WIRE for serving your present and future needs.

ENOUGH OUTLETS AND SWITCHES for convenient

We have nothing to sell but good electric service.

GO EAST OR WEST OR STAY HOME

Go east, go west, or stay at home! Choice is the keynote of today's enlistment opportunities in the Regular Army. If you've had prior service in the Armed Forces and sign up for at least three years, you have not just two but three choices of location open to you! You may sign up for a job in Europe, or if you prefer, you may stay in the United States within your own army area for at least a year, or be assigned to one of the number of units of your choice now stationed in the United States if you

have prior service.

you may choose assignment to one of the five famous combat divisions in Japan or Korea.

Officers at your nearest Army and Air Force Recruiting Station located in Clovis, N. M., at the Post Office or see the Recruiting Sergeant when in your town for additional information. All high school graduates have an excellent chance to get training in a trade or science before doing service with the Army.

T-Sgt. Leon A. Reynolds from the Clovis Recruiting Office will be in Muleshoe on February 4 between the hours of 9 a.m. and 4:30 p.m.

HONOR ROLL

The Journal has received a number of new and renewal subscriptions. Those who have paid a year's subscription in the last week are:

A. G. Tunnell, City. Lewis Stuart, City. O. B. Harrah, City. Claude Riley, City. Mrs. Nettie Bruton, City. E. E. Holland, City. Ralph Randolph, City. Mrs. Vernice Snyder, City.

CHICAGO, ILL.—Joe E. Brown, stage and motion picture star, gives Niver W. Beaman, author of the book "Fat Man In a Phone Booth," a handshake of congratulations. "It's a pip" says Brown of the book, "You ought to sell a million copies." Screen star, left, and author gripped over the white rabbit for luck on Joe E.'s prediction. "Fat Man in a Phone Booth" is a clean-as-a-whistle, humorous, adventure tale of Beaman's own newspaper experiences. The author was city editor of a daily newspaper that won the Pulitzer prize for distin-guished public service. The dramatic story of that editorial crusade is part of the book, which is packed with drama and sparkles with humor. The introduction to the book was written by Clare Booth Luce, playwright and former congresswoman. The book has been praised playwright and former congresswoman. The book has been praise by the nation's press as a true, entertaining story of newspaper work and by outstanding clergymen for its passages on tolerance and for its overall "cleanliness of writing"—fit reading for any boy or girl.

Don't **Be** Late In '48

IF your tractor is not in A-1 condition you will have less than half a chance of finishing your planting without costly delays. Give us a ring now and make an appointment to have your tractor completely overhauled — Don't be late in '48.

Whether you need a minor adjustment or a complete overhaul, we have the trained mechanics and the equipment to provide you with the best service obtainable anywhere. We can make your tractor perform like a new one. Get ready now for 1948!

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engi-neers, Brotherhood of Locomotive Fire-men and Enginemen and the Switchmen's Union of North America, representing 125,000 railroad employes, have refused to accept the offer of the Railroads of a wage increase of 15½ cents an hour. This is the same increase awarded 1,000,000 non-operating employes by an arbitration board in September, 1947. This is the same increase accepted by 175,000 conductors, trainmen and switch-

175,000 conductors, trainmen and switch-

175,000 conductors, trainmen and switch-men by agreement on November 14, 1947. Agreements have been made with 1,175,000 employes, represented by nine-teen unions. But these three unions, rep-resenting only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and train-

Incidentally, the Switchmen's Union of North America represents only about 7% or all railroad switchmen, the other 93% being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat

The leaders of these three unions spread a strike ballot while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employes in the presence

signed by the employes in the presence of union representatives. When direct negotiations failed, the leaders of these three unions refused to join the railroads in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been earnestly attempting since November 24, 1947, to bring about a settlement. The Board on January 15, 1948, announced its inability to reach a mediation settle-ment. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroads accepted.

and we are the set

What Now? The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

the President. The railroads feel it is due shippers, passengers, employes, stockholders, and the general public to know that through-out these negotiations and in mediation, they have not only exerted every effort to but they have also met every requirement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of

labor disputes. It seems unthinkable that these three unions, representing less than 10 per cent of railroad employes, and those among the highest paid, can successfully maintain the threat of a par-alyzing strike against the interest of the entire country—and against 90 per cent of their fellow employes.

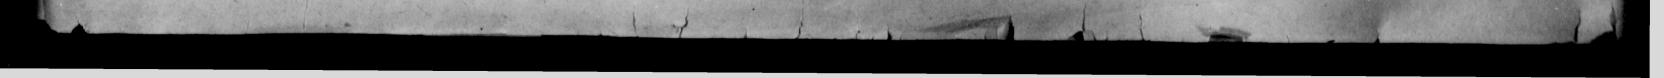

fellow employes. The threat of a strike cannot justify grant-ing more favorable conditions to 125,000 em-ployes than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage in-creases or to changes in working rules which are not justified.

A glance at the box shows what employes represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Here is a comparison of average annual earn-	Type of Employee	1936 Average Brenst Earsings	1847 Average Armel Earnings	1967 Arenage Assoc 1 Bersings with 1916 Secto per Boar Added

Prune Coffee Cake

For an energy pick-up, quick and nutritious, serve this excellent prune cake with mugs of milk.

Hot breads are an appetizing invitation to "come and get it", especially when winter storms are blowing outside. This year's good supplies of dried fruits make them a good item to team with enriched flour's thrifty protein, iron and B-vitamins for nourishing, flavorful coffee cakes.

A versatile bread, indeed, is this prune coffee cake with its attrac-tive crumble topping. Serve it for breakfast, of course — but also for luncheon with a Lenten salad plate of diced fruits and cheese, and when friends drop in for "a snack".

If you dip your scissors in water before cutting the prunes, the fruit will be less likely to stick to the blades. You will also find it a good idea to "dust" the chopped fruit with part of the sifted dry ingredients to keep the fruit from sticking together.

PRUNE	COFFEE	CAK
2 packages yeast, compressed or dry grànular 1 cup lukewarm water 1/4 cup melted shortening	3	cup ch 2 cups OPPIN
1/2 cup sugar 1/2 cup sugar 21/2 teaspoon salt 1 teaspoon cinnamon 2 eggs, beaten		cup b cup g cup cup cup cup teaspo

Soften yeast in ¼ cup lukewarm water. To remaining water add shortening, sugar, salt, and cinnamon. Cool to lukewarm. Add two cups flour. Mix well. Add eggs and softened yeast. Beat thor-outhly. Add prunes and mix well. remaining flour. Mix well. Pear into greased bowl, cover and let rise in warm place (80 degrees th 85 degrees F.) until light and

puffy (about two hours). Stir down and pour into greased pans nine inches in diameter. Sprinkle with topping mixture made by mixing sugars, salt, and flour and cutting in margarine or butter. Let rise until doubled (about two hours). Bake in moderate oven (350 degrees F.) about 30 minutes. Yield: Two coffee cakes, nine

inches in diameter. Lemond was educated at Lub-

bock high school, Texas Tech and at Tri-State College, Indiana, where he studied chemical engineering. John Lemond, Jr., recently of He began photographic work about Lubbock has moved to Muleshoe | eight years ago and had some training in the work during the war. He served as an Air Corps pilot, being separated from the service as a captain.

NOW Homogenized Milk

In keeping with the trend of the times Malone's bring you Homogenized Milk. Homogenization is a process which breaks up the fat globules in cream (which contain valuable food elements) and distributes this butterfat evenly throughout the bottle of milk.

Homogenized Milk is the same good pasteurized milk you have always been able to obtain from MALONE'S with the Homogenization process applied.

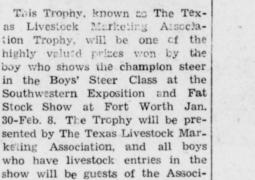

You will find a much smoother, more palatable and richer tasting milk. Try It Today.

You are invited to visit MA-LONE'S gleaming milk plant and let us explain this new pro-

cess.

meals; buy wisely in order to obtain the quality and quanitity of food to meet the family's needs; buy abundant foods, as they are generally cheaper; store food prop-

College Station-Although the erly to prevent spoilage and waste; world peace, Miss Mason says, as well as to better family living.

College Station-The saving of grain is still essential if the Unittion. The shortage of grain is expected to reach its peak during the spring, which means there can be no let-up in the conservation drive. The USDA, in cooperation with

_0.

the Poultry and Egg National Board and other poultry industry groups, is making a concentrated effort during the month of January to move grain-eating, low-producing hens into consumer channels as one grain conservation method.

Myrtle Murray, extension marketing specialist for Texas A. & M. College, says that farm families may help in any one of several ways to get culled hens to market. For instance, she says home demonstration club women, PTA's, or other groups, may lead a countyor community-wide campaign by staging a "Hen Party." The basis for the party would be the evening by a banquet for the

husbands featuring a main dish of chicken pot pie, baked chicken, or chicken a la king. As an enter-

- 1. No more heavy, wet clothes to carry.
- 2. No more stooping and lifting.
- 3. No more waiting for the weather to behave.
- 4. No more clothes pins and clothes lines.
- 5. No more soot and dust to mar your wash. 6. No more messed-up back yard.

Now any day is a perfect drying day and every washday is much easier! For, this way, a simple twist of a dial gets the clothes fluffy-dry for storing . . . or damp for ironing . . . in a matter of minutes!

Automatically, your Bendix Dryer tumbles the clothes in a revolving cylinder while clean, heated air blows through them. Then, when clothes are just the way you want them, the dryer shuts itself off.

E. R. HART COMPANY

Tomorrow's sales depend on how well we service your Ford today ...

Frankly, we Ford Dealers are looking ahead.

We want to make every Ford owner a Ford owner for years to come.

Our method is simple. We're keeping the Fords we service in the very best condition.

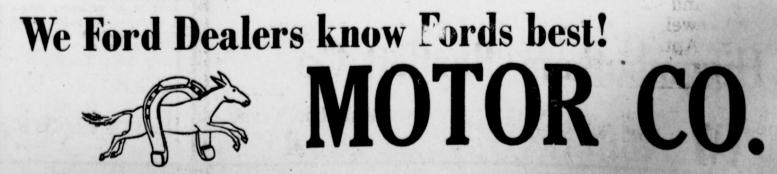

And we're keeping our service prices down!

We can do this because of our four Ford service advantages: Ford-trained Mechanics, Genuine Ford Parts, Factory-approved Methods and Special Ford Equipment.

If you're one of the small percentage of Ford owners who hasn't yet discovered this special kind of service you get from Ford Dealers, you'd better come "home" today for real savings of time, money, and trouble. Your Furd Dealer invites you to listen to the FRED ALLEN SHOW, Sunday Evenings-NBC Listen to the Ford Theater, Sanday afternoons-NBC network. See your newspaper for time and
