School Board Delays Clearing Gymnasium Debris

Action on clearing away the debris of the storm-damaged gymnasium at Intermediate School was delayed by the board of trustees of the Cisco Independent School District at their meeting Monday night, Supt. James Couch reported.

Bids for the job as submitted by three area contractors were considered too high, Mr. Couch said, and the board decided to look into the matter further. The bids were from \$44,500 to \$57,500.

There were three bids, as follows: Bontke Bros. Construction Co., Abilene, \$48,700; J.J. Finley Co., Eastland, \$57,500; and, Con-

tract Paving Co., Tye, \$44,500.

Mr. Couch said the board has requested their architect to meet with them, probably next Monday night, to discuss the debris clearance and building plans at Intermediate School. The planning work has been making progress, Mr. Couch added.

The building roof collapsed in a windstorm last October.

In other action, the board accepted a report of the textbook committee for Math 1 through 8, Science 1 through 6, high school biology, and computer science courses.

A committee composed of Supt. Couch and Principals

Bob Lindsey and Jim Puryear was named as a career ladder committee to recommend bonuses as provided under HB 72. The committee will select two members of the faculty to join them in their assessment work for the current

school year, Mr. Couch said.

The board approved employment of faculty members for 1985-86. Mr. Couch said that the number of employees, including teachers and teacher's aides, would be reduced by nine due to money problems

and falling property values in the school district.

Principals for the various schools had been given new contracts at a previous meeting. Faculty members given new contracts at the Monday night meeting were as follows:

Primary School- Glenda Denison, Betty Odom, Jeanne Rains, Patsy Reynolds, Nell Seider, Rhonda Walker, Diane Yowell and Ruth Stewart.

Intermediate School- Janice Ferguson, Debra

Gosnell, Sheila Johnson, Evelyn Kirk, Nanette Maxwell, Pamela Jackson, Joyce Schaefer, Janice Hobbs, Suzette Bassham, Jon Denison, Frances Justice, Leanne Agnew, Irene Hunt, Pat Deitker and Davene Jeffcoat.

Chapter I Aides- Margaret Torres and Jeanene Puryear.

Special Education Aides- Joyce Coleman, Hattie Weathers and Olivia Zarate.

Members of the faculty and administrators at Cisco Junior College were given new contracts for the 1985-86 school year at the regular monthly meeting of the board of regents Monday night.

The board also accepted the resignation of Dr. Jerry Ables, vice president of the student services. The resignation will be effective at the end of August.

The board also approved the 1985-86 school calendar as prepared by Dr. Henry E. McCullough, president.

A bid by Taylor Publishing Company of Bedford to print the school's 1985 yearbook was accepted. Other routine matters were transacted.

Sign Dedication Program Is Set

Huge 12x18 foot U.S. and Texas flags were to be raised in a ceremony conducted by a Marine Corps team from Abilene as the new sign and flag poles of Cisco Junior College are dedicated at 10 a.m. Wednesday, March 13, at College Hill.

Dr. Henry E. McCullough, president, and L.D. Woolley, president of the board of regents, will participate in the program. The college band and Wrangler Belles will also attend to take part.

A reception will follow at Maner Memorial Library. The public has been invited to attend.

Former Cisco Mayor Dies Tuesday, Funeral Services Will Be Thursday

John H. Webb, 71, a resident of Cisco for 40 years, died in his sleep at the family home, 1007 West 7th Street,

JOHN H. WEBB

at 12:30 a.m. Tuesday. Funeral services will be at 10 a.m. Thursday at Cisco Funeral Home Chapel. Burial will be in Oakwood Cemetery.

A retired Cisco business man and former mayor of Cisco, Mr. Webb was well known in athletic circles. He was a football star during his college years at Austin College, Sherman, and compiled an outstanding record as a coach during the four years he spent in that profession.

Born Dec. 15, 1913, at Richland Springs, Mr. Webb attended high school at Cad-

do and went to Austin College on a football scholarship. He made all-conference honors and was enshrined in the Austin College Athletic Hall of Fame in 1970.

After graduation, Mr. Webb went to Alpine in 1938 soon after his marriage to the former Miss Margaret Slayden of Sherman. In four seasons at Alpine, Mr. Webb produced several championship teams and won a state title in 1941.

From Alpine, Mr. Webb went to Beaumont as city recreation director. In 1942, he joined the Red Cross team of volunteers for service in war zones. He directed operations for the Red Cross in the Philippine Islands during several war years.

After the war ended, the Webbs moved to Cisco and purchased the White Auto Store, which he operated until his retirement. He was associated with his son, Cam, in operating a family business at the time of his death. He was a member of First United Methodist Church.

Over the years, Mr. Webb was active in sports and spent many years as a football referee, working many junior high games without pay. He was active in community affairs and served as mayor of Cisco for eight years. He was elected mayor in April 1959 and served until April 1965. In 1973, Mr. Webb was again elected mayor and served until April, 1977. During his years in the city office he always urged economy in all operations.

Surviving Mr. Webb are his wife and two sons and three daughters. The sons are Bill and Cam Webb, both of Cisco, and the daughters are Mrs. Mary Hill of Merkel, Mrs. Kay Gann of Lueders and Mrs. Terry Nelson of Eastland. Also surviving are five grandchildren and two brothers, Wendell Webb of San Antonio and Myrt Webb of California.

The family requested that memorials be in the form of gifts to the West Texas Rehabilitation Center or to the Cal Farley Children's Home at Amarillo.

HALL OF REMARKS BY HERREL HALLMARK

HATS OFF to the members of the Cisco Livestock Association who hosted a successful show this past weekend. The two-day event went well and everyone who attended seemed to enjoy the showing.

After the final beef show, the Association and some of its guests enjoyed a meal at the Cisco Steak House.

IF YOU HAVE a Shetland pony which is missing, you might like to call 442-4980 and talk to Mrs. Thornton. She reported that a pony showed up at their property last week and has been eating and drinking in a field behind their home.

They live north of town along the lake road and she said she is afraid it might get onto the highway where it could be hit by some of the traffic.

WE ENJOYED some very beautiful days this past weekend and on Monday of

The Annual Eastland County Livestock Show gets underway Wednesday with over 850 entries. All exhibit animals must be in place by 8:00 p.m. Wednesday evening. Rabbits are the only exception. They must be entered by 8:00 a.m. Friday, but may be brought to the show Thursday evening after school.

The show will continue through Saturday. A livestock auction at 7:00 p.m. Saturday night will be the final activity. There will also be a 4-H Project Show Thursday in the concession building. This is for those in 4-H who are not involved with animals.

Everyone interested in helping the youth by purchasing market animals are invited to the show sale Saturday evening. The top 50% of all market classes will be in the sale, however an exhibitor may sell only 1 lamb, 1 steer, 1 hog and 1 pen of broilers at the special sale, except when both the breed champion and reserve breed champion animals are owned by the same exhibitor.

Visitors are welcome and encouraged to attend the stock show events.

Bob Bullock Sends Checks

State Comptroller Bob Bullock Friday sent checks totaling \$68.8 million in local tax payments to the 991 cities that levy the one-percent local sales tax.

Overall the checks represented large increases over city payments made last March, but Bullock warned that the increases resulted from the way the city money was processed and did not necessarily indicate anything about the economy. "Simply, in January several really large national corporations paid late and their money is included in the March checks," Bullock said.

Houston's check was the largest \$11.7 million—and represented 17 percent of total payments. Allocations to Houston in 1985 total \$39.4 million. Dallas received \$8.8 million to bring this year's checks to \$29.2 million. San Antonio's payment of \$4.2 million increased 1985 payments to \$14.2 million.

Austin received \$3.4 million to push this year's total to \$11 million. Fort Worth's March check was for \$2.6 million and a total \$8.4 million so far in 1985. El Paso's payment was \$1.6 million bringing total payments this year to \$5.4 million.

Bullock also sent checks totaling \$28.1 million to the state's four Metropolitan

Transit Authorities. Houston's MTA check of \$13.6 million brought total payments this year to \$45.5 million. Dallas' DART received \$11.5 million for 1985 payments of \$38.8 million. San Antonio's VIA payment of \$2.3 million pushed this year's total to \$7.8 million and Fort Worth Transit Authority check for \$612,172 brought its total to \$1.9 million.

March checks represent taxes collected on sales made in January and reported to the Comptroller by February 20.

Eastland County towns received checks totaling \$51,239.34 for this period, up from \$44,238.67 last year. This brings the 1985 total to \$182,121.37, compared to \$176,017.11 received in 1984.

Cisco's check was for \$13,495.87 as compared to \$13,770.86 for the same period last year. The 1985 payments to date are \$47,751.37, down from the 1984 total of \$50,537.64.

A check for \$28,352.72 was mailed to Eastland, up from last year's \$18,920.04 for the same reporting period. This brings the 1985 payments to \$88,195.97, up from last year's \$81,672.39.

Gorman received a check for \$1,565.92 to bring this year's total payments to \$6,415.05. Last year's pay-

ment for same period was \$1,000.46 and the payments to date were \$5,305.35.

Ranger's check for \$7,000.69 compared to \$8,882.82 for same period in 1984. This check brings the 1985 total to \$34,498.21, up from the 1984 total of \$29,466.45.

Rising Star check for \$824.41 was down from last year's \$1,664.29, and brought the 1985 total to \$5,260.77, down from the \$9,035.28 received in 1984.

Lights From The Christian World

by Josephine Cleveland

THE FIGHT OF FAITH
"I have fought a good fight, I have finished my course, I have kept the faith." -Timothy 4:7

Pearl Harbor is one of the largest and best protected naval anchorages in the world. It was here on December 7, 1941, swarms of Japanese carrier based planes bombed Pearl Harbor as the first act of war on the United States. The surprise attack heavily damaged ships and naval facilities and many lives were lost. "Remember Pearl Harbor" became a rallying cry of World War II. The damage was quickly repaired and Pearl Harbor was built into one of the largest naval bases in the world.

A small ferry takes visitors to the floating memorial erected by the United States government in memory of the hundreds of men who lost their lives on the battle ship, U.S. Arizona. The Japanese flew their planes over the water and dropped their bombs. One landed in the tall stack of the ship, U.S. Arizona. It set the ship's ammunition afire causing the ship to break in to half and sink within nine minutes.

One can look over the side of the memorial erected where the ship sank. There, a short way beneath the water is the sunken remains of what was left of a once proud sailing battleship. A voice over the loud speaker tells the events leading to the disaster.

Encased in glass and written as a tribute to those men who gave their lives for the country are these words:

Their toils are past.
Their work is done.
They were fully blessed.
They fought the fight,
The victory won
And entered into rest.

Then let our tears cease to flow.

God has recalled his own.
But let our hearts in every woe

Still say, "Thy will be done."

Beloved, sometimes we are unprepared in our Christian battle. We are in a war between good and evil. Re-

mind yourself to be alert; for the evil of the world is ever ready to come upon you unaware. Dangers lurk all about you. Jesus is telling you to watch; for—"Your adversary the devil prowls around like a roaring lion seeking someone to devour (1 Peter 5:8)."

It is better to fight the good fight of faith and even perish in this life than to be forever lost. Let "Remember Pearl Harbor" be your rallying cry. Let it be a warning. Be prepared! Then you can say whatever the outcome: "I've fought the fight..." "Thy will be done."

Vo-Ag is in Trouble!

Learning the ways of future farming has been part of life for Texas high school students and Young Farmers for generations; particularly in rural districts.

Vocational agriculture FFA and Texas Young Farmer programs are viewed in many school districts as essential education; maintaining a link with the important agricultural economy of the state. Supporters agree that skills, leadership and public speaking abilities garnered from agricultural education programs are definite

bonuses for students and young adults.

"Vo-ag is in trouble in Texas," says Dennis Engelke, an official with the newly formed Friends of Vocational Agriculture. "Current actions have already reduced the 12-month contract for vo-ag teachers, and cut funding drastically. Also area vo-ag offices are due to be closed August 31, 1985. This will cripple the FFA and the Young Farmer programs". The group consists of former students, teachers, businessmen and interested individuals.

Area offices last year coordinated 104 District FFA meetings, 1,250 chapter conducting contests, 810 public speaking events, 208 teacher-in-service workshops, were essential in the selection

process-coordination of recipients of the nearly \$500,000 in scholarships offered in 1984, and provided over 800 technical assistance meetings with local high school officials to help in planning curriculum and maintaining quality vocational education.

The goal of the Friends-group is to "influence legislative and education leaders to correct some of the inequities and policies that

are making it impossible to conduct an adequate local and state program". The group is encouraging letter-writing campaigns to legislators and State Board of Education members.

Engelke emphasizes that the immediate concerns facing the vo-ag program do not stem from HB 72 or legislative reform, but, rather from the Texas Education Agency leadership's interpretation of these actions and "obvious misrepresentation of the intent of the law"

"Educational reform was good," Engelke comments. "Attention to the basics - reading, writing and arithmetic - is essential to all

students; regardless of the vocation they later choose in life. Not everyone wants to be a computer operator. Not everyone wants to go to college. And you talk about 'basic', what's more basic than agriculture. We all get 'basic' at least three times a day."

Inquiries or monetary contributions can be sent to: Friends of Vocational Agriculture, P.O. Box 3525, Austin 78764.

Employed by Mr. Johnson is Lynn Williamson who is the Deputy Surveyor; Robert Davis, Instrument Man; Linden Lasater, Rodman; Tim Morgan, Draftsman; Jim Wortman, Part Time Computer; Billy Wayne Adams, Rodman, Part Time.

Other surveyors in Eastland County are R.P. Haun of the Texas Highway Department and Lynn Nicholson of Lone Star Gas.

Gov. Mark White has proclaimed March 10 through March 16 as Surveyors Week in Texas to recognize the important role surveying plays in Texas' history and development. During Surveyors Week, local chapters of the Texas Surveyors Association will set up exhibit booths in shopping malls to display surveying equipment and show their film, "Surveying - Texas Style."

"This is one of the best opportunities for the public to

become aware of surveying and the background of surveying," says Art Osborn, TSA past president.

Most Texans have probably noticed people in the middle of intersections wearing fluorescent orange vests and standing around a tripod with a strange, camera-like object mounted on top. The purpose of surveying is to set boundaries so landowners know where to build, plant crops and graze their cattle. They also mark the lines where roads will be built or improved.

It is important to have a piece of property surveyed before purchase, to comply with title insurance requirements and to make sure you are getting what you pay for. A 1-A, or Land Title Survey, is the kind of survey the buyer should specify. It must be performed by a Registered Public Surveyor, who has served four to six years of apprenticeship and passed an exam given by the Texas Board of Land Surveying.

A Land Title Survey is required for residential, commercial, industrial, farm,

ranch and investment property. The surveyor will prepare a written description of the survey, a certified map or plat, a report of the findings and marked boundary lines and corners. To perform the survey, the surveyor needs the most recent deeds of the property and the surrounding property, easement or deed descriptions of adjoining or severing rights of way, permission to enter the land, names of tenants in charge of the site and any historical information that might influence the location of the lines.

Surveyors can also do topographical surveys to determine which way the land drains, and prepare maps or plats of subdivisions for developers.

The practice of surveying dates back to the ancient Egyptians, Hellenes and Romans. In the United States, many prominent people have been surveyors, including George Washington, Thomas Jefferson and Abraham Lincoln.

In Texas, the earliest surveyors were the Spanish. The first recorded survey in Texas was formed in 1722 by

Don Juan Antonio Perez de Almazan. He surveyed San Fernando de Bexar, which is now San Antonio. De Almazan was lieutenant governor of the 3½ million-acre province of the Marquis San Miguel de Aguayo.

In the 1820's, Stephen F. Austin hired five surveyors to mark the land granted colonists by the Spanish Crown through Baron de Bastrop.

Because Texas was originally part of Spain, then an independent republic, Texans developed a unique surveying system using a combination of Spanish and English measuring units. Many surveys today still contain acreage in metes and bounds, the English terms, and in leagues and labor, which are Spanish units.

The purpose of the Eastland County Livestock Association is to put on the livestock show said one member. Another added, the members are not going to police students, this organization does not have any objections to all students showing. But, with the new

HB72, the schools are required by law to enforce the new bill.

A Grand Prairie school recently filed an injunction so that all members of their band could participate in extra-curricular activities even though some students had failing grades. This may

be the only way for Eastland County Students to be able to participate in the Stock Show.

Superintendents of the area schools are working for the students to try to find ways for them to show. Several attempts to try to find a loop hole in the new

bill have failed. People were asked to remember this when it's time to vote again.

One man said he has been on the phone for the past 25 days with state representatives to try to get help for the students, but to no avail. Another said that you cannot disobey one rule and put

Girl Scouts' Spirits Are High For Week

Cisco Girl Scouts' spirits are high as they prepare for a week of special activities March 10-16 celebrating their 73rd birthday on March 12.

"Our most recent cause of celebration is the wonderful support given the Girl Scout cookie sale by our friends and neighbors in Cisco," according to spokesman JoAnn Cermin. "Thanks to you, profits from a record sale will pay for an exciting array of program opportunities for the Girl Scouts in Cisco for the rest of the year."

Cermin said that the cookie sale is just one way in which the community supports the Girl Scout program. "It is from the community that our volunteer leadership comes—mothers and dads who invest their time and talent in the future of youth," Cermin said.

Council president Helen Taaffe of Weatherford sent a birthday message of congratulations to girls, leaders, and friends of Girl Scouting in Cisco.

"You have made it possible for Girl Scouting to serve girls more effectively," Taaffe said. "Girl Scouting is a movement dedicated to the development of girls and women from all segments of American life. Based on ethical values, Girl Scouting

offers its members opportunities to fulfill their individual potential, make new friends and make positive contributions to the larger community. I believe we can best express our appreciation to the community by doing our very best to serve its youth well." Taaffe said.

Stressing that the Girl Scout program is one of informal education, Taaffe said that the program features a broad range of activities that allow girls to have fun while they develop skills and self-confidence. Girls are encouraged to participate in meaningful community service projects so that they may acquire understanding of themselves and others.

Girl Scouts of the U.S.A., with a membership of nearly three million, is the largest voluntary organization for

girls in the world. Heart of Texas Girl Scout Council serves a nineteen county jurisdiction in north central Texas with almost three thousand members.

Donna Fincher of Brownwood, Heart of Texas Council executive director, reflects that the popular image of a typical Girl Scout of just a generation ago bears only a slight resemblance to the Girl Scout of 1985.

"Today's Girl Scouts are mastering computer technology, learning about the environment and the ecological balance, exploring the universe by telescope and getting on-the-job training through Girl Scouting's career education programs," Fincher said.

"But some things haven't changed," Fincher said. "Girl Scouting's value centered program is still helping girls grow up to be happy, healthy, contributing citizens, and in all those exciting ventures the accent is still on plain old, girl-size fun. It's the fun that continues to bring millions of girls into Girl Scouting's world of new discoveries, expanded horizons, community service and happy friendships," Fincher said.

'Roads' Still No. 1 Topic For County Commissioners

Eastland County Commissioners held a meeting in the Commissioners Courtroom on Monday, March 11. Present were Richard Robinson, Pct. 1, L.T. Owen, Pct. 3, and C.B. Dill, Pct. 4. Jack Blackwell, Pct. 2, was absent. County Judge Scott Bailey presided.

Approx. 30 residents of Pct. 4 were in the Courtroom during most of the morning session. Their stated purpose was to report on conditions of rural roads in their area and seek for improvements of same.

The first items of business were requests for pipelines to cross County roads. One was for a 3 in. gas gathering line to cross County Road 526, 2 1/2 mi. east of Gorr an. Request was made by E. Pickett on behalf of Eastland Basins. Approval was granted.

Another request was made by Westbound Water Supply to cross County Rd. 190 in Pct. 1, west of Mangum, with a water line. The request was granted.

The next item discussed was a request for the County to relinquish property dedicated for a street in Olden. Bob Little brought the request.

Judge Bailey stated that Olden was disincorporated a number of years ago, and some of the proposed streets and alleys were never used for that purpose. A motion was approved to relinquish the property footage under consideration to Bob Little.

On the discussion of rural road matters which followed, John Gerhardt was the first to speak for the assembled group. He showed the Court photographs of roads in the Pleasant Hill - Romney area. These had been taken recently by Mrs. Hilda Wright, who was also present. They showed roads with a number of problems. Gerhardt described the situation as a "lack of bar ditches, an accumulation of sand and trash, trees growing in bar ditches - improper maintenance."

He said that the matter was no altogether the result of wet weather and heavy traffic. When the graveled roads dried out they were still bad, with rubberboard surfaces.

"Those roads are bad," C.B. Dill, Commissioner Pct. 4, agreed. "We plan to make a special effort to upgrade them." He mentioned that the type of soil in that area made the roads difficult to maintain.

"We would like to see a beginning," Gerhardt replied.

Danny Schaefer said that he considered the problem a cumulative lack of attention

over several years. "The oil development isn't the whole picture," he said. "The oilmen pay taxes. Other rural areas with oilfield travel, such as in Brown County, have roads which are like highways compared to ours."

He mentioned various problems in this area, such as an unsafe bridge on a schoolbus route.

County Commissioner Dill

repeated that he would put out special effort to upgrade the roads in the Romney-Pleasant Hill area. He remarked that he had many miles of road to cover and only 4 helpers.

Information was forthcoming that Commissioner Dill is budgeted around \$54,000 each year for road work in his Precinct.

After hearing from a number of other citizens from pct. 4, the Commis-

sioners turned to the problem of enforcing speed limits on County roads. A Morton Valley road, N. off Highway 6, is narrow and rocky, but has a heavy flow of oil field traffic near private homes. A motion was approved to keep a 20 M.P.H. speed limit on this road.

Next on the agenda was consideration of the release of a Diesel Fuel Bond in Pct. 3. This was approved.

Sheriff Don Underwood brought several matters to the attention of the court, including the consideration of Jail Contracts between

Eastland County and various cities of the county. These were approved.

The Sheriff discussed a possible program for Reserve Deputies in the County. These would be qualified persons who volunteered time for law enforcement work. The Commissioners voiced agreement with the plan, with formal approval to be granted at the next meeting March 25.

In the afternoon Court session, various budgetary matters were discussed. The Court approved the County Depository Pledge contract with the First National Bank of Cisco.

Larger Charitable Deduction For Auto Use

If you use your car while providing services to a charitable organization, you will be able to take a larger tax deduction next year, the Internal Revenue Service said.

A deduction is now allowed for either the actual out-of-pocket expenses or 9 cents per mile. Beginning in 1985, the standard mileage rate will be increased to 12 cents per mile. Parking and tolls are also deductible in addition to either the standard mileage rate of actual expenses, but nothing is allowed for general repair or maintenance.

For more information get the free IRS Publication 526, "Charitable Contributions", by using the order blank in your tax instruction package. It is also available as reference for reading at many public libraries.

RANGER

The Ranger Volunteer Fire Department announces that the recent "Country Western and Gospel Musical" at the Ranger Junior College netted around \$1100, which will go toward the building of a new Fire Station. The Firemen express thanks to all those who helped to plan and create the musical, to RJC for the use of the auditorium, and to the musicians, who gave so generously of their time and talents. Musicians were: Raymond Hart, Junior Daughtery, Roland Smith, Tommy Brashier, Roy Thackerson, Roy Don Rogers, Dale Brooks, Dana Collins, The Crawford Family, Freedom Flight, Country Strings, B.F. Fonville and Sid and Ginger Vick.

A "Roaring Ranger Cookbook" is being compiled, and fantastic recipes are coming in from all over the state. The cover of the Cookbook will be done in a "Boomtown" theme, with Ranger Times Editor Jeanne Mackey designing it. The Cookbook will be published in time for "Roaring Ranger Days" in October. So jot down your favorite recipe and bring or mail it to The Ranger Times before the deadline, April 1.

Another new Ranger business has opened. It's "The Country Kitchen", located in the Gholson Hotel on Main Street. It is owned and operated by James and Jean Alcorn of Lake Leon. The Kitchen will serve a Continental type breakfast, and have a salad bar, fresh homemade soup, hot sandwiches, chicken and dumplings, stuffed potatoes and steak for dinner. The public is invited to come by and taste some of this good food.

GORMAN

The Gorman Chamber of Commerce is welcoming two new members this week, Blackwell Hospital District and H and N Home Improvements. The Chamber has various projects for Gorman, but the main one at this time is the up-coming Farmer's Banquet, which will be held March 21, 7 p.m. in the School Gym. Tickets at \$5 each are available from C of C Board members or from most Gorman businesses. It promises to be a gala event, with attendance from around the county as well as the Gorman area.

Bill Black, Administrator of Blackwell Hospital, states that the facility will continue to give the best care possible in the area - in spite of the apparent lessening of Federal support through Medicare. Hospitals are facing a tough time with these changes, he indicated, but the same high standards will be maintained.

EASTLAND

Joe White of White and Associates Inc. has made an offer to complete an economic development analysis for Eastland County on a one-time basis for \$15,000 on a one-time basis. The firm has an office in Dallas and others worldwide, and specializes in the location of industry in feasible areas. Besides the analysis, White says that his firm would "present as a result our recommendation for a marketing program, including targeting industries you are most likely to attract here."

Ann Justice has been presented with a "Behind The Scenes" Community Service Award by the Eastland Kiwanis Club. Club President Jerry Mathews and Roy Gevara made the presentation at her Farm Bureau office, where she has worked for 24 years. They cited her encouragement to others who have cancer, and the inspiration of her life in overcoming the horror of the disease. Besides numerous other activities, Ann Justice is a member of the Eastland County Unit of the American Cancer Society.

The West Wing has been temporarily closed at Eastland Memorial Hospital. The hospital will have 42 patient beds available, with 5 beds in the Intensive Care Unit. The closed wing contains 38 beds, and can be reopened in 30 days when needed. Hospital spokesmen indicated that the closing was due to continued low patient census at the hospital, and this will help the hospital remain a viable institution.

Cancer Society To Meet

Thursday,
March 14, 1985

The Eastland County Unit of the American Cancer Society will meet in Eastland March 19 at 6:30 p.m. in the Texas Electric Reddy Room, 113 East Commerce. Co-Chairman Becky Biggs of Rising Star and Roy Gevara of Eastland invite persons from all around the County to come out for an informative program.

Support for the work of the American Cancer Society is always needed and appreciated. The Chairmen and members of the County Unit wish to give special thanks to the Eastland County Newspapers, which have always been generous with publicity.

Roy Gevara notes that in 1984 local papers published 18 inserts from the American Cancer Society, more than area papers outside of Eastland County. In addition, much news of the local Unit was reported.

"This has been extremely helpful to our group," Gevara says. "Without it, we could hardly carry on the work we are trying to do."

Mark Pipkin, owner and manager of Pipkin Satellites and Kerry Watson of Eastland are building a new office on Highway 80 East of town. The new location is between Ken's Chicken and Fish and The Rossander Agency. Pipkin Satellites has been in operation for several months, and can be reached on the construction site or by calling 629-2986.

The Methodist women will serve their annual Bean Dinner on Thursday, March 14 from 11 a.m. until 1 p.m. at the Church. Tickets are \$2.50 each, and the meal consists of beans with ham, cole slaw, cornbread, homemade pie and tea and coffee. Everyone is invited.

CISCO

Cisco Volunteer Firemen, along with others in the County, will be out patrolling around the area anytime storm conditions prevail. The city has a storm warning siren, and the same will be sounding in case a tornado is spotted. If danger appears imminent, the sirens will sound a series of short blasts for two or three minutes. If a tornado is actually sighted, the sirens will give out a long blast - a warning to take cover.

Cisco Junior College's new sign, located halfway up College Hill, is visible from the road day or night - since four lights are mounted on the ground in front. Two flagpoles, one on either end of the sign, have flags flying from them. The dedication was Wednesday, March 13.

Mayor Eris Ritchie reports that construction on the Mobley-Hilton Hotel will begin in May, 1985 and the Hotel will be dedicated in May, 1986. This will be Cisco's project for the Sesquicentennial. It is reported that Wesley Valek, CJC Instructor and Historian, is doing a video of the Mobley and its history.

A number of citizens who reside in Pct. 4, which includes portions of the County north and south of Cisco, met with County Commissioners this week to seek County road improvements. Roads in the area around Romney and the Plea-

THESE
IMPORTANT
TIPS...
YOU
AUTO
KNOW

Oil and oil filter changes are extra-important in cold weather, because crankcase condensation and water vapor dilute the oil, and the engine may not get hot enough to burn off the moisture. More frequent oil changes protect your car.

Listen to your car. A chirping noise when front wheels are turned is usually a sign that the belt to the power steering pump is loose. Have it tightened.

It takes longer to get sober than to get drunk. Six drinks in two hours will make almost anyone too intoxicated to drive (over .10 percent alcohol). More than six hours is needed to clear that alcohol from the blood.

If you have to pump the accelerator again and again to start the car, you may have a choke that doesn't close when it should—or a worn accelerator pump.

Regular washing and waxing helps your car keep its good looks—and ups its resale value. Once-a-week wash is ideal.

CAPITOL UPDATE

by Jim Parker

Hopefully, you folks would be interested in knowing what happened on pari-mutuel wagering legislation that the House took up on Wednesday, March 6, 1985. So many of you had expressed an interest, either pro or con, and what did occur is so unusual, I hope you will find this explanation informative.

At any rate, the pari-mutuel wagering bill, carried by Hugo Berlanga, of Corpus Christi, underwent 3½ hours of debate. My observation is that Berlanga had made a conscious decision to accept whatever amendments he had to accept just to get some sort of bill out with hope of cleaning it up at some future date. This is a bad way to approach the legislative process because it relies wholly on the "trust me" theory.

About twenty amendments were attached to the legislation and, while the bill lacked some being squeaky clean before amending, it was, quite simply, a piece of trash after the amending process.

Examples of the amendments are: (1) regulate the advertising of Mexican racetracks in Texas (undoubtedly unconstitutional), (2) requirements dealing with elections, on a local option basis, where racetracks would be located within municipal boundaries of home rule cities in the optioning county (as ridiculous and hard to understand as it sounds; probably in direct violation of more state election laws than I have time to enumerate), (3) an exemption of counties with certain

populations from the local option process (problem of unconstitutionality because of the equal protection clause of the U.S. Constitution), (4) the restriction of ownership interest in racetracks to no more than two in the state (also probably in violation of the protection clause; no doubt in violation of Business and commerce provisions of the Constitution), (5) a requirement to have sunset pari-mutuel wagering in 1991 (the referendum vote could not have been before 1985, no racetrack construction would have been completed before 1986, and no one in their right mind would invest millions of dollars in an enterprise knowing there is an excellent chance of being out of business in 4 to 4½ years), (6) numerous other amendments insignificant standing alone but absolutely frightening in their cumulative effect.

The bill, in its original form, contained certain "minority benefits" that satisfied neither minority nor conservative members.

The "minority benefits", and I use the term advisedly, were particularly odious because they appeared to give some benefits to minorities when, in truth and in fact, they provided very little benefit and created yet another illusion detrimental to everyone involved.

The bill quite simply acquired too much excess baggage and was defeated by what some referred to as "an unholy alliance" of the ultra-liberal and ultra-conservative members of the House.

I do not think even the most avid proponent of pari-mutuel wagering would have realistically wanted this measure passed in its final form.

The actual vote was 52 in favor, 95 opposed. Perhaps I should add, this vote is no reflection of the House sentiment on pari-mutuel wagering itself, only this bill. A reasonable, clean, straight forward bill may well have passed.

The bottom line is that the horse racing proponents had their gun oiled and fully loaded, and immediately proceeded to shoot themselves in the foot.
