

# THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, OCT. 30, 1941

NINETEENTH YEAR No. 41

## Dallas Bishop To Dedicate Church Hall

Bishop Ivan Lee Holt of Dallas has agreed to dedicate the new Fellowship Hall at the Methodist church here at 3 p. m., November 10. Many distinguished leaders of Methodism in this part of the country are expected to be among the visitors, as well as a large attendance from surrounding towns and communities. Muleshoe people will have a chance at that occasion to greet many friends and acquaintances. Many former residents of Muleshoe may return for the celebration, which will probably include Sunday and Monday, November 9 and 10.

A home-coming event is being considered for this occasion. Dinner at the church on Sunday with abundant opportunity for old friends and neighbors to renew fellowship together. Former pastors and members of the Muleshoe Methodist church are invited to meet each other on this gala occasion and talk it all over again. The former pastors who have already been invited to return are Dr. Wm. M. Pearce, who organized the Muleshoe church; Rev. R. S. Watkins, Rev. W. B. Hicks and Dr. O. P. Clark, former presiding elder. Mrs. O. P. Clark who organized the first missionary society, has been asked to return to greet the ladies who are still carrying on.

Much remains to be done to get ready for this dedication and home-coming occasion, according to Rev. R. N. Hucaback, pastor. "A building must be free of all indebtedness to be dedicated," Reverend Hucaback said. "But we have plenty of pledges from good friends to care for this. To build and pay for a building costing \$4,300 in six months of such a year as this denotes a people who have a very high regard for the social, moral and religious values involved. Muleshoe people are to be congratulated upon the completion of such an enterprise. The Bishop's coming is an indication of the recognition of the church at large of the heroic efforts and sacrifices made here this year for this cause."

## LAMB COUNTY'S RETURNING DRAFTS TO GET JOBS

Three Littlefield citizens have been selected to serve as a re-employment committee to re-instate returning draftees in their former positions, or to secure new jobs for men who have served their term in the Army under the Selective Service Act.

## VISITS BROTHER HERE

Mrs. R. A. Gibson of Los Angeles, Calif., is here this week visiting her brother, R. L. Karr and family. She will also visit for a few days in Pampa, Tex., with a sister before returning to California. Sunday, Mr. and Mrs. Karr, and family and Mrs. Gibson will attend a family reunion at Lubbock, at the home of their father, Mr. C. L. Karr.

## "FOOD-FOR-FREEDOM" DRIVE PLANS TO BE MADE AT LUBBOCK

Farmer-committees of the AAA and representatives of government agricultural agencies from Bailey County will meet in Lubbock Thursday and Friday, October 30 and 31 to lay plans for the Food-for-Freedom campaign in this area, according to Lonnie Arnold, chairman of the Bailey County USDA Defense Board.

The district meeting will be one of 12 similar meetings being held throughout the state at the same time to get the food production campaign into high gear, the Defense Board official said. Representatives of Bailey county who will attend are Sam Logan and Lillie Gentry, extension service; Lonnie Arnold, R. L. Ritchie, W. R. Carter and J. C. Smith, AAA; J. W. McDermott, FSA; Noel Woodley, Farm Loan Association; Cecil McLaughry, REA; L. F. Williams, PCA; A. B. Chapman, SCS. Following the district meeting, the County USDA Defense Board, working with AAA commit-

## Contract Is Let; Work Begins On New Hospital

Contract was let this week for Muleshoe's new hospital, and preliminary work started Wednesday. Higginbotham-Bartlett Co. received the contract for material and construction.

Dr. L. T. Green, Jr., is building the new hospital, which will be ready for occupancy about the middle of January. The structure of brick and tile, is 74x84 and will be equipped with the most modern appliances.

When completed, the new building will cost between \$15,000 and \$20,000. Location is in Block 1 Golf Course Addition. There will be 19 rooms, including operating rooms and nurses' quarters, all furnished with latest type furniture.

Ambulance service will be available shortly after the building is completed.

## FFA Initiates "Greenhands" Monday Night

During a ceremony at the high school building in Muleshoe Monday night, 32 "Greenhands" were initiated into the local chapter of the Future Farmers of America. Two Greenhands from Littlefield also were initiated.

Buck Robinson presided at a short business session at which time several reports were made from committees.

T. M. Cox was in charge of entertainment. Miss Gloria Gowdy played piano selections, followed by violin and guitar music by Troy Jordan and his brother. Littlefield officials, assisted by W. J. Jones, vocational agricultural teacher in the Muleshoe schools, conducted the initiation ceremonies. Officers and instructors of the Littlefield chapter made short talks. Mr. King, vocational instructor in the Littlefield schools, accompanied the "Greenhands" from that city. Ray C. Moore, J. W. McDermott, Bobby Jones, Sam Logan and A. B. Chapman were guests at the meeting. Each made talks to the group of boys.

Refreshments of cookies and hot chocolate prepared by Miss Mary Katherine Hammons and Miss Sidney Dell Johnson were served.

"Greenhands" initiated were: Pat Briscoe, Russell Bryant, Jesse Ray Carter, Olan Dee Clemens, T. M. Cox, John Fordley, Russell Finley, Ray Garman, James Hall, Jack Hicks, Duane Holley, L. F. Holland, Ray Howard, A. J. Jesko, J. R. Kin- Robert Klutz, Bosh Lowry, Elmo Lunford, A. L. Murrath, Stone Pike, Jack Schuster, Oran Sims, Grady Walker, Aaron Woodfin, Alfred Hicks, Carroll Goss, Carroll Black, Claude Garth, Jimmie Jesko, Chester Embrey and Don Quesenberry, all of Muleshoe, and Edsel Hauk and Derrill Landrum of Littlefield.

The cost of making a low-priced automobile by hand would be approximately \$18,000.

men, will undertake a farm-to-farm canvass in the food production pledge sign-up. Farmers in the county will be asked to produce their share of the foods which are needed for defense and for aid to the nations resisting aggression.

"We are undertaking the greatest food production job in the history of the world," Arnold declared. "We have the goals to meet and we will meet them. I believe the farmers of this county will go all out in their effort to do their share in the food-for-freedom campaign."

Arnold explained that the USDA Defense Board would announce definite plans for carrying on the campaign in the county after the district meeting, but it is anticipated that county and community meetings to explain what is needed will be held in conjunction with the farm plan and pledge sheet sign-up which will be handled by AAA commit-

## FURROWS BRING BACK GRASS

B. A. Keathley, Glasscock county ranchman, right, tells Howard Kingsbery, ranchman-member of the State AAA Committee, that contour furrowing done under the AAA's range conservation program has put more grass on his ranch than he ever had before. (Story on page 4).

## Local Gridders Rest For Littlefield Game

## Race Is Planned For Attendance Sunday Schools

In order to stimulate interest in the Church Loyalty movement, plans are being made for a friendship rivalry in obtaining attendance in the various departments of the Sunday schools of the Baptist and Methodist churches of Muleshoe for two weeks, beginning Sunday, November 2. Reports will be published showing the attendance in the Adult, Young People's, Intermediate, Junior, Primary, Beginners' and Nursery departments of the two churches.

Next Sunday is Young People's Day in the campaign. Special attention is being given to young people in the churches as illustrated by a young people's banquet, an Intermediate party, a Young Adult social meeting, and a Young People's district meeting to be held in a few days. "Dinner on the ground" will prove very popular at the Methodist and Baptist churches on the second Sunday in November. Invitations are being sent to friends to come in for this church family day and the dedication of the Methodist Fellowship Hall November 9 and 10. Former pastors and members are invited to come back to the best church town of its size in West Texas and witness its growth and church interest.

## Truck And Bus Inventory Is Being Made

AUSTIN, Oct. 28.—F. Thayer Stoddard, head of the Texas division of the Public Roads Administration and Director of the National Defense Truck and Bus inventory, is having trouble with Uncle Sam's mail delivery system which has returned 20,000 questionnaires because of improper address.

However, Stoddard estimated that between seven and ten thousand completed forms are being returned each day. He urged truck and bus owners who have failed to receive questionnaires through change of address or otherwise, to write the Highway Traffic Advisory Committee, 607 Highway Building, Austin, Texas. Lynn Shaw general manager of the Texas Motor Transportation Association estimated that approximately 20 percent returns have been received since the inventory began on October 1. The final figures will show between 50 and 75 percent of the trucks and buses in the state, Shaw predicted.

Stoddard emphasized the importance of license numbers being included with requests for questionnaires. This is necessary he said in order that a control file can be kept of each vehicle. The results of the inventory so far show that the percentage of vehicles operated in fleets of two or more is considerably higher than previously estimated, and may reach 30 percent.

Buy Defense Savings Bonds.

## K. K. Smith Dies Tuesday After Long Illness

Word was received here Tuesday morning of the death of K. K. Smith at the U. S. Veteran's Hospital at Hines, Ill., after an illness of more than a year. The news was not unexpected as Mr. Smith's condition had been serious for several weeks.

Funeral services will be held in Muleshoe Friday, it was announced Wednesday afternoon. Complete information could not be obtained at press time.

Mr. Smith was one of the early citizens of Muleshoe, and for many years was in the automobile business here as president of the Valley Motor Co., Inc. He was widely known in West Texas and New Mexico, having been prominent in activities which led to the development of Bailey county.

## Highway 28 Is Under Water

Since last weekend, a strip of road about a half-mile long on State Highway 28, two miles northeast of Muleshoe, has been under water—inundated by the heavy rains in this area.

In some places on the strip of roadway, the water is almost 14 inches deep. State highway employees have been stationed on the stretch day and night to assist in getting vehicles across.

This is the second time in the past few months this strip of the road has been flooded.

## HALLOWE'EN CARNIVAL FRIDAY NIGHT TO BE A GALA AFFAIR

It's in the air again—that spirit of fun and buffoonery that comes once a year with the presence of ghosts and hobgoblins that flit about performing changes, the source of which unlucky ones are never able to find out.

Already the four classes of the high school are furnishing back and forth for the suppermen that may be employed after electing their officers—Queen of the Carnival Friday night in the school and its gymnasium, the loyal and well wishing citizens of our community will meet to participate in a lot of wholesome fun and contribute to a fund that is well deserving of the consideration of every person who wants to see his home town and school at the front.

There will be eats and drinks, and noise, and games and contests, and fun, and prizes, and excitement for everybody. Come and show your girl friend the time of her life.

Highlight of the evening will be the coronation of the queen, who will be chosen by popular vote from the class representatives as follows:

Seniors: Doris Gordon.  
Juniors: Frances Williams.  
Sophomores: Bill Briscoe.  
Freshmen: Dot McAdams.

Every person attending the coronation will have a chance to compete in the drawing for a valuable door prize immediately preceding the performance. Be at the Hallowe'en Carnival Friday night, October 31.

## RAIL OFFICIAL REPORTS FOR ACTIVE ARMY DUTY

AMARILLO, Oct. 28.—J. A. Gillies, general manager of the Santa Fe Western Lines and vice president of the Panhandle & Santa Fe Railway, with headquarters here, today was enroute to Washington to report to the War Department for active duty as colonel in the Army Engineering Corps.

Colonel Gillies, veteran in Santa Fe service, yet one of the youngest railway executives to hold such an important position, is one of the most popular officials in the Southwest, where he spent the majority of his activity.

He was a Lieutenant-Colonel in the Army Reserve and while expecting a summons from the War Department his sudden departure was a surprise to many unaware of his plans.

## Drilling Underway On 'Wildcat' Test Southwest Of Town

## Davis Rites Are Held At Progress

Funeral services were held at Progress Saturday for James A. Davis, who passed away Thursday, October 23, at his home, five miles west of Muleshoe.

Mr. Davis was born Nov. 20, 1887 at Granger, Tenn., and came to Muleshoe in 1931. He bought a place on Highway 70, and went into the service station business, where he prospered and added to his holdings.

Deceased is survived by his wife, a daughter, Fay E., and three sons. Albert and Willie Davis of Muleshoe, and Ralph Davis of Portales, N. M.

Rev. J. R. Bright, pastor of the Progress church, officiated at the services.

Out-of-town relatives who attended the funeral services included Mr. and Mrs. Burge, and son Mr. and Mrs. Sam Roach, and daughter, Mrs. Mrs. Homer Roach, Charley, Lon and Albert Roach and Miss Linnie Burge of St. Vrain, N. M.

There are 37,000,000 dwelling units in the United States. The walls of most of them leak heat so freely that America's domestic heat bill is \$1,000,000,000 larger than it would be if those walls were insulated.

## Hunting License Forms Received

Hunting license forms were received this week, it was announced today by District Clerk M. C. Bass, and are available for those who wish to take advantage of the duck season which opens November 2.

Before hunting migratory fowl, however, hunters must purchase duck hunting stamps. These are obtainable at any post office. The season for geese, brant, coot and ducks, which opens Sunday, sets the time for hunting each day from sunrise to 4 p. m. The limit for ducks per person is ten each day, and possession limit is not more than two days' bag limit.

Poverty is uncomfortable as I can testify; but nine times out of ten the best thing that can happen to a young man is to be tossed overboard and compelled to sink or swim for himself.

—JAMES A. GARFIELD

## BOYS AND GIRLS FROM FSA HOMES MAY SECURE LOANS FOR PROJECTS

Farm boys and girls in Bailey county, whose parents are now cooperating with the Farm Security Administration, may obtain loans to finance 4-H Club and vocational agriculture projects, J. W. McDermott, rehabilitation supervisor for the FSA, said today.

Projects which may be financed in this manner include fawn babies, dairy heifers, small ewe flocks, bred girls, and so forth.

"These projects," Mr. McDermott said, "are to be conducted under rules of 4-H and vocational programs, under the direct supervision of county agents and vocational teachers, in cooperation with FSA supervisors."

In a letter to Mr. McDermott, outlining the objectives of such loans, Raymond O'Hara, farm management specialist of the FSA, said: "These programs give Young America its opportunity to contribute its share toward increased food supplies for the nation's defense effort."

"Although we enjoy looking at the prize-winning calves and other livestock the boys and girls produce," Mr. O'Hara wrote, "let us not forget we are primarily interested in the boys and girls and their development. After all, the youngsters themselves are our finest crop."

Drilling got underway on Bailey county's latest wildcat oil test early last week, and Tuesday afternoon was down several hundred feet. One of the most modern rotary rigs is in use on the location, nine miles southwest of Muleshoe.

The search for oil is being carried to the northern part of this section by Broderick & Calvert, Inc., and A. G. Carter of Fort Worth. The test is to go 5,500 feet, it was announced.

It is the No. 1 A. E. Kuehn, Wichita Falls, staked in the center of labor 24, league 173, Sutton county school land. Location is in rank wildcat territory, falling seven miles northeast of the nearest test, the old Humble Oil and Refining Company No. 1 Fuqua, a 4,100 foot dry hole.

George P. Livermore, Inc., Lubbock, has been awarded the contract.

The Bailey test is on a block of approximately 8,000 acres, assembled by York & Harper, Inc., Midland who turned the acreage to Broderick & Calvert and A. G. Carter, retaining some leases in the block.

Hundreds of people have visited the site of the test during the past week, the largest portion of them being from other towns and counties. Local people apparently are little concerned over the test, and many who live within a short distance of the location have not been out to see the rig in operation.

## Earth Grocery Is Remodeled

S. H. Merritt of Earth completed the remodeling of his grocery last week, and new fixtures are now being installed. The meat department will be one of the most modern in this territory, and is in charge of W. C. Maxey.

The firm has also enlarged the stock and is ready to serve the public with an excellent line of meats and groceries. The business is located on Highway 28 in the south part of town.

Mr. Merritt is an experienced groceryman, coming to Earth from Hereford only recently. He invites the people of the Earth territory to call on him at any time.

## SUFFERS CUT LEG

Junior Lambert, local high school student, suffered a deep cut below his right knee Friday while playing football on the school grounds. The youth fell against the jagged corner of a brick which was partly buried in the ground. The cut was treated by a local physician.

## Do You Know TEXAS?

A reader of this newspaper can get the answer to any question of fact about Texas by writing A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Austin, Texas.

### Memorable Passage

"Some people keep their promise only when they promise nothing."—Joachim Besen.

Q. What is the highest town in Texas?

A. Alpine, county seat of Brewster county, is known as the "mile high city of Texas." Also out in that part of the Big Bend country, located in the Davis Mountains, is the highest post office in the state, Frijoles, 5,650 feet above sea level.

### Eleemosynary Institutions

A little known grant of Texas' public domain for educational purposes is that of 410,000 acres for four eleemosynary institutions including the State Insane Asylum, the Institute for the Blind, the Institute for the Deaf and Dumb, and the State Orphan's Home. These lands were sold on the same terms and conditions as state school lands, Bascom Giles, Commissioner of the General Land Office, says. All from \$1 to \$250 an acre. Most of the land was surveyed in parts of the state suitable for farming, and it was bought by settlers who

improved it while the revenues went for the endowment of these institutions.

Q. Was there a battle at San Antonio other than the siege of the Alamo?

A. Yes. In December, 1835, the Texas Army under the command of General Milam laid siege to San Antonio de Bexar, then held by the Mexicans. It was here that General Milam was killed before the Texans drove the Mexicans from the city.

QUERY: Will someone answer these questions for Mrs. F. G. Smith, 214 Craig St., Hillsboro, Texas?

Q. What year did Captain Phillpota and the Fourth Alabama Regiment come to Texas? Was there, or is there today, a list of these men?

**Buzzard on a Rail**  
An old cattle brand bearing this name was registered by H. T. Collier in 1876, in Reeves county. H. J. Collier of Pecos, later owner of the brand, came to Texas in 1884, and went to work for the "Hash Knife" outfit. He says that at that time the outfit had 4,000 head of cattle branded with this historic old brand. There are a number of interesting and unusual branding irons on exhibit in the Pioneer Room of the Texas Memorial Museum, Austin.

Q. Please list the three largest cities in Texas with their population by the 1940 federal census.

A. Houston 384,514; Dallas, 294,734, and San Antonio, 233,834.

**Blow Hot, Blow Cold**  
Highest temperature in Texas

By ADAM FANN

Breaks went against the Yellow-jackets Friday afternoon in the Sudan game and for the fourth straight time this season they wound up on the little end of the score—12 to 6. According to those who saw the game (the writer didn't) the locals played with some of their old-time spirit, rolling up 12 first downs to the Hornets' name. Sudan, remember, is the team which played Littlefield off its feet a few weeks ago only to drop a 7 to 0 decision.

—Beat Littlefield—  
By taking the measure of the Littlefield eleven when they play here Friday, November 7, and winning their two remaining contests, against Morton and Friona, the Yellowjackets will be able to finish the season in a blaze of glory. If the Jackets should upset Littlefield, Slaton would be an almost sure shot to win the conference championship; Muleshoe defeated Slaton, and it all would work out as a glorious moral victory for Coach Scott and his boys. Upsets are what keep football seasons from being drab stretches of game after game, and Muleshoe is fully capable of defeating Littlefield. There is no question about how to do it—throw up an effective, low-tackling, hard-hitting defense against those end runs.

—Beat Littlefield—  
One of the best Class B games of the season will be unfolded at Spring Lake the afternoon of November 7 when the Wolverines meet the Amherst Bulldogs in what probably will prove the decisive struggle for the District 3-B crown. Springlake has lost only to Class A Muleshoe, 13 to 0. Amherst's only defeat was at the hands of Class A Sudan—6 to 0.

—Beat Littlefield—  
Slaton took it easy last Friday in a non-conference game against Post, winning 7 to 0. Etzo Collier, the equal of any Class AA back in Texas, scored the touchdown. Slaton plays host to the Levelland Lobos Friday night, and should encounter little trouble in sacking this conference game.

—Beat Littlefield—  
The Morton Indians won their first conference game of the season Friday by defeating Levelland 14 to 0. The Indians have an open date this weekend. They come to Muleshoe for a game November 14 and unless the Yellowjackets hurdle Littlefield, it'll be a battle for the cellar position.

—Beat Littlefield—  
Mighty Otton lost to Littlefield 38 to 0 Friday night, not even remotely resembling the team which had racked up lop-sided victories over Matador, Spur, Morton and Muleshoe. The Mustangs take a rest this weekend, and there is no doubt about their needing one.

—Beat Littlefield—  
Littlefield plays the Lubbock Cowhorns at Littlefield, and the Sudan Hornets have an open date.

—Beat Littlefield—  
**Conference Standings**

Slaton	3	1	0	750
Littlefield	3	1	0	750
Sudan	2	1	1	666
Otton	2	2	0	500
Levelland	1	1	1	333
MULESHOE	1	3	0	250
Morton	1	4	0	200

Twelve Things to Remember—1. The value of time. 2. The success of perseverance. 3. The pleasure of working. 4. The dignity of simplicity. 5. The worth of character. 6. The power of kindness. 7. The influence of example. 8. The obligation of duty. 9. The wisdom of economy. 10. The virtue of patience. 11. The improvement of talent. 12. The joy of originating.

### MARSHALL FIELD

Modern Orator: "My friends, I am full of uncertainty." Then a number of people in the audience looked at one another and hoarsely whispered: "He must have had hash for dinner."

was 120 degrees in Seymour, Baylor county, Aug. 12, 1936; lowest temperature ever registered in Texas was 23 degrees below zero at Tulla, Swisher county, Feb. 12, 1899 and at Seminole, Gaines county, Feb. 8, 1933.

## Food And Feed Quotas Set For County Farmers

Greater production of milk and eggs from gardens and fresh vegetables, as well as increased marketing of beef, veal, lamb and mutton, is being asked of Bailey county farmers in 1942, according to figures recently viewed by the Bailey county USDA Defense Board. These requests bear out firmly the recent statement of Secretary of Agriculture Claude R. Wickard that food will win the war and write the peace. These words of Secretary Wickard are well on their way to becoming by-words in World War II. They are more than just idle talk. They are more than just a slogan to encourage farmers to produce more food in the interest of national defense. Leaders throughout the world concur with the secretary in his belief that food will win the war and write the peace.

Food and feed quotas have been set up for each county in the state of Texas by the State USDA Defense Board. The figures, as quoted below for Bailey county, have been clearly reviewed and it is believed by the county defense board that our producers will more than meet these demands in most cases as a means of showing their loyalty to national defense, and as well as an increased income for the family budget. Our county board is composed of representatives of all the USDA agencies in the county. But this job to increase food and feed does not stop with the board itself; it goes beyond the board and these responsibilities lie with every farmer and ranchman in Bailey county.

The principal food and feed products that Bailey county producers are being asked to increase for 1942 and the amount of the increase for each are as follows: 110 more milk cows; 2, 103,000 pounds more milk; a 10 percent increase in hogs marketed and slaughtered on the farm; 47,000 dozen more eggs; 18 percent increase in beef cattle and calves, and six percent increase in sheep and lambs marketed. Other food goals set up for the county are at least 400 farm family gardens of one half acre or more in size and 900 acres of vegetables for sale excluding Irish and sweet potatoes.

In the interest of reaching these goals, the county USDA Defense Board will publish timely articles weekly for the next several weeks with the hope of being able to help some of the producers with the problems they are encountering. Our county board is attempting to do their part in the national defense movement. The defense board feels that some of these articles will be adaptable to every farm unit in the county and will greatly appreciate any constructive criticism from time to time in carrying on the campaign. These goals are a large undertaking, but if the producers go about this proposition in a business-like manner they will be gratified by knowing that they are aiding national defense as well as increasing their farm income.

Nina: "He said he would kiss me or die in the attempt." Gladys: "Well, what happened?" Nina: "I remembered that he had no life insurance and I pitted his poor old mother."

## Church Schedules

## N

NOT MUCH ACHANCE for you to go clocking different brands of motor oil to prove which one flows fastest in Eskimo season. Yet the quicker the lubrication at every cold start, the less "dry rub" on delicate surfaces in your engine. Then why not change now to Conoco Nth oil for Winter and get an OIL-PLATED engine? OIL-PLATING is high up in the cylinders to fight fierce grind, much sooner than any plain oil-flow alone could even start wiggling.

Conoco Nth oil, you see—all in addition to speedy flow—fastens OIL-PLATING to inner engine surfaces, as if by "magnetic attraction." This close-bonded OIL-PLATING is up to its topmost point before you even touch the starter—and that's "faster than fast," to aid you toward anti-friction starting.

Even up in Iceland, of course, any engine's normal firing is hotter than the Land of the Hottentots. Yet you don't want to "burn up the oil." And Conoco Nth proved it could last for more than twice the mileage averaged by the five other big-name oils in the impartial Death Valley Death-Test. When all five others were used up—engines ruined as each struck 5-quart fill gave out—the Conoco Nth oil that competed under identical conditions was still up at 2.7 quarts! Certified!

A known economy record... plus a known aid to safe prompt starting... when you change to Conoco Nth for Winter OIL-PLATING, at Your Mileage Merchant's Conoco station. Today. Continental Oil Company

## Progress News

By Bessie Vinson

Sunday school was well attended last Sunday. Everyone has an invitation to be present each Sunday morning at 10 o'clock. Miss Imogene Lowry, student at a business college in Lubbock, spent the weekend visiting her parents, Mr. and Mrs. H. L. Lowry.

Mrs. Jewell Sparks, teacher in the school here, resigned her position and the vacancy was immediately filled.

Miss Fern Kindred, who is attending school at Altus, Okla., spent the weekend visiting her parents, Mr. and Mrs. Carl Kindred.

A large crowd attended the Young People's meeting last Sunday night. The program was under the direction of Doc Wilhite. Everyone is invited back next Sunday night at 7:30 o'clock. After the Young People's meeting last Sunday, the singing class enjoyed an hour's song practice. There will be singing again the second Sunday night at 8 o'clock, immediately following the Young People's meeting. A cordial invitation to attend is extended everyone.

1st. Actor: "I played Hamlet once in the West."  
2nd. Actor: "Did you have a long run?"  
1st. Actor: "To tell the truth, it was seven miles."

## Terracing Is Coming Into Its Own In County

Terracing is finally coming into its own in Bailey county. Lonnie Arnold, chairman of the Bailey county AAA committee, announced this week.

According to information from the state office, College Station, the conservation materials and services phase of the AAA program has been enlarged to include terracing under the 1942 farm program, he said.

This phase of the AAA program, designed to assist farmers in carrying out more soil-building practices, already makes it possible for them to obtain phosphate, Austrian winter peas, common, hairy and Willamette vetch, with costs of the materials being deducted from future payments. Similar arrangements will be in effect on the terracing program, Arnold pointed out. With more emphasis placed on soil-building practices under the 1942 program than ever before, it is probably an indication that future appropriations will be more contingent upon the amount of soil-building practices carried out the AAA chairman explained.

The conservation materials and services program may result in difficulties in securing necessary seeds and supplies and terracing is being added to help farmers in earning maximum soil-building assistance.

In explaining the terracing program in Bailey county, the county chairman said that if demand is sufficient, the county committee will let bids to contractors to build terraces for cooperating farmers. The contracts will be let on a 100-foot basis and contractors will be paid by the AAA after the terraces are completed.

Under this phase of the program, farmers may use 70 percent of their total payments, less any previous assignments, for terracing.

Bailey county farmers who wish to participate in the terracing program should file their requests in the county office in order that the demand might be ascertained, the AAA official said.

## Recent Weather Good For Crops

Weather conditions since last Sunday have been the most favorable for crops in many weeks. A clear day with a strong west wind last Sunday was a big help toward drying out soggy fields. Since then the days have been only partly cloudy, and cotton has begun to open rapidly. Several farmers in this territory started picking cotton Tuesday, and if present conditions prevail gins will be running full time within a few days.

Cutting of feed started again this week, and hundreds of acres have been harvested. Feed damage has been the most severe in many years, but the county will still put up a bumper crop if rain holds off a few more days.

## Tax Deadline Is Saturday

Bailey county taxpayers will have the remainder of this week in which to pay up delinquent taxes and avoid penalty and interest and to take advantage of the 3 percent discount for full payment of the 1941 taxes.

Deadline for tax payments is at midnight Saturday, and all payments which are postmarked before the deadline will be honored.

Attaches at the collector's office today reported that "quite a few" delinquent tax payments were being made, but added that the full payment of 1941 taxes could not be expected until the last day.

Property owners who owe delinquent taxes may pay all delinquencies prior to the year of 1941 without interest and penalty during the remainder of this week, in accordance with an act passed by the recent state legislature.

## FUTURE WEATHER "DOPE"

Mr. George P. Johnson, local wheat and cotton expert, took three lessons from the Indians in Arizona last summer on forecasting the weather. He mixed his first batch this week and dishes out the following: "November 1 will be the beginning of the Second Ice Age." So from now on we can expect tropical weather.

Crocheted bedspreads can be washed, but they should be carefully spread out on a clean sheet to dry and not hung on a line.

## THEY FLED THE NAZI YOKE

THEY REACHED BRITAIN SAFE: Five young French boys (top), left) and two Dutch Army officers (left) by canoe, the two Norwegian children (above) aboard a British raiding vessel from Spitzbergen.

FROM Norway, from the Netherlands, from Belgium and France— from every one of the Channel and North Sea countries which Hitler has occupied—a steady stream of daring men and women is trickling toward the British Isles, to swell the ranks of the Allied armies and Allied workers who are carrying on the fight against Hitler from British or African soil.

Some come singly or by twos—mostly young men and boys who are hardy enough to survive a few wind-tossed nights and days in small rowboats or sailboats, and agile enough to dodge the German guards who patrol all coastal points day and night. But others, fortunate enough to own a fishing boat or

some other sea-worthy vessel, come with their whole families, or even in groups of families. One young Frenchman appeared in England in an airplane which he himself had built from parts taken from wrecked French fighter planes left from the Battle of France, and two Dutch officers recently showed up in a German plane, stolen from a well-guarded German airfield in the Netherlands. These last two had to dodge not only the German guards on their way, but also the RAF.

How many people thus actually get away from the Germans each week is a secret, known only by the Allied military authorities in London. But Free France reports that the armies of General de Gaulle have more than doubled within the

## Muleshoe Women Attend Annual O. E. S. Convention

A group from Muleshoe was among the 2,400 people who marveled at the blue and white spectacle that was the stage as the curtain raised on the opening of the 59th general assembly of the Grand Chapter of Texas, Order of Eastern Star, in the Municipal Auditorium Monday night in Amarillo.

Among those representing the Muleshoe chapter were Mesdames Beulah Carles, Mary Hart, R. N. Huckabee, Naomi St. Clair, Jane Beavers, Elizabeth Gardner, Billie Mathis, Hattie Griffiths, Inez Bebo, Elizabeth Hardon, and Jackie Tate. Other local people present were Cecil H. Tate and Miss Hortense Nordyke.

The Blackburn-Shaw quartet sang "Winter Wonderland" as the raised curtain revealed a "snow-covered" winter scene against a sparkling blue cellophane background. Frosted evergreen trees and frosted tumbleweeds with the blue cellophane, carried out the colors of the administration of the worthy grand matron, Mrs. Robbie Dyer, and a lighted star and underlying inscription in neon illustrated her theme for the year, "Light."

Mrs. Riva G. Burnett, of Miami, past worthy grand matron, presided in a most impressive manner, sharing honors with her was Floyd Easterling, past worthy grand patron, who presided with Mrs. Burnett when the convention last met in Amarillo in 1933.

Following a colorful drill, welcomes and numerous addresses, the program was climaxed by an impressive tribute to the Texas flag by John L. McCarty, past patron of the Amarillo chapter.

After group singing of "God Bless America," the 18 grand officers retired, the public was dismissed, and the delegates and Eastern Star members remained for the formal opening, which lasted far into the night.

A partial report of the credentials committee revealed that 410 Eastern Star chapters were represented at the opening session.

Several other Muleshoe Eastern Star members went to Amarillo later to attend the convention, among them being Mrs. Charles Holderman, Mrs. W. B. Wagon, Mrs. Clarence Goins, Mrs. Harold Clements and Mrs. Jess Osborn.

## FARMERS' PRIORITIES?

Many farmers are complaining to the Office of Agricultural Defense Relations that local dealers have told them they needed a "priority rating" to buy certain things. To correct this situation, OADR Director Townsend has broadcast the information that all farmers are in the privileged class and require no priority rating of any kind to purchase ordinary farm machinery.

Food production is a part of the defense program, and no restriction prevent the farmer from buying his equipment, repair parts, fertilizers, insecticides, nails, fencing, roofing, and the like. Of course, there may be some things he cannot get, such as aluminum cookers, because the manufacturers are affected by priority ratings. Special classes of machinery, such as heavy duty electric motors, which are not limited to farm use, may require a preference rating. This, however, can be applied for at the OADM on Form PD-1. Director Townsend advises farmers to write to the Department of Agriculture if dealers ask for "priority ratings" on regular farm equipment purchases.

Remember, it is easier to float a rumor than it is to sink the truth.

## SCIENCE FACTS

What is believed to be the most powerful stroke of lightning ever recorded was measured by a fulcrum-chronograph last summer atop the 585-foot stack of the Anaconda Copper smelter at Butte, Mont. Its current totaled more than 160,000 amperes of electricity and the estimated pressure exceeded 15,000,000 volts.

In states where pre-marital tests for syphilis are required, the infection rate among marrying persons during the last five years is reported to have been only 1.24 percent. This compares with the 1935-40 rate of 3.24 percent among the general adult population, as estimated by the American Social Hygiene Association.

In the new German fire bombs, in which thermite is used only to ignite the magnesium shell, the shell will burn for 10 or 15 minutes at a temperature of 2,372 degrees Fahrenheit.

**DEPRAVITY OF RACE PROVES FAILURE TO CURB EVIL, SAYS DR. MAIER**

The present-day depravity of the human race proves the failure of education, legislation and diplomacy to curb evil or promote good, Dr. Walter A. Maier of Concordia Seminary declared last Sunday in his coast-to-coast Lutheran Hour broadcast.

"The progress of this generation," declared the radio evangelist, "has been scientific and mechanical, not spiritual. We boast of our stratosphere flights that streak across the continent in less than twelve hours, but let us also remember that such speed also enables the criminal to commit forgery in Los Angeles before breakfast, bigamy in Chicago before luncheon, and murder in New York before dinner—all in the same day.

"If humanity is constantly on the upgrade, as some people claim, why is it that ours is the only generation that has witnessed two world wars—at a time when men have more learning and laboratories, more culture and college than ever before? Moreover, it is, not the Zulus,

the cake walk for their booth at the carnival.

We have been working hard to put our queen over. We now have 600 votes. Each week the class that is paid in full in the 10 cents a week plan, gets 300 votes. We have got it for the past two weeks.

Our queen, Billy Briscoe, and class will appreciate every vote given toward us, the Sophomore class.

the Hottentots or the Congo pygmies leading this ruthless warfare, but the principal civilized nations."

Dr. Maier said even the most skeptical critics of the Bible should be forced by human events to acknowledge the basic teachings of the Scriptures. He took issue with the claim that the post-war period will be one of peace and plenty, and contradicted the notion that war brings a people closer to God. No war, he added, has ever built up the church or produced a widespread acceptance of Christ, which he asserted, is the greatest world need.

**Washington Snapshots**  
by JAMES PRESTON

Preparations are quietly advancing in Washington for a broad economic attack on the Axis powers. The Economic Defense Board—which was created in June—will shortly begin to open its economic "blitz."

The weapons for this attack were forged when the President set up this Board of the Vice President and seven Cabinet members to insure full use of the enormous economic power of this Government in the effort to help Great Britain in her job of defeating the Axis. Top officials of the Board will tell you they see it as having two main objectives: first, to conserve for the United States and its friends large stocks of vital materials; second to prevent their flow to unfriendly nations.

This Economic Defense Board has a collection of not-to-be-smeered-at weapons in its arsenal — weapons of considerable striking power against the Axis nations, already showing signs of shortages of important materials and of financial strain.

Financial pressure is one of these weapons. Washington hopes to cripple the Axis wherever possible through financial manipulations, such as the step already taken of freezing bank accounts of unfriendly powers, coupled with increased financial assistance to friendly or neutral nations, and other means of using money to obtain cooperation, materials or good will at the expense of the Axis.

Through the export licensing control, major economic weapon No. 2, the government can control shipments of materials abroad, prohibiting sales to neutral countries when government information is such as to indicate the materials may ultimately end up in one of the Axis nations.

Control of imports is another weapon in the economic warfare category. From Latin America and other foreign countries, the Government can insure our industries of supplies of native materials and make certain these strategic materials are not sold

**Grass Returns; Ranchman High On Furrowing**

COLLEGE STATION, Oct. 27—More grass than we've ever had before" is the way B. A. Keathley, Glasscock county ranchman, describes his rangeland since it has been contour furrowed under the AAA's range conservation program.

When the 80-year-old ranchman gets to talking about the value of contour furrowing, his eyes light up and he points to the green grass which is growing on land which in previous years was "just plain naked." With his hand he will point out the curve of the furrows by the extra greenness in the grass.

"Why, the water used to rush right off this land as soon as it fell," the ranchman, who complains that his sons have made him stop riding horseback, declares. "On rainy days, the water would be stirrup-deep in the lowlands, while the uplands hadn't kept any water at all. But it's not that way any longer. Now the furrows hold the water and put it to work. Just look at that grass."

Keathley claims that there is six times as much grass on the land today as there was before the AAA inaugurated the range program, but others discount his statement by half—that is, that

there is only three times as much. "I never bought anything in my life more worth the money than those furrows," the ranchman, who uses all of his range-building allowance and then digs into his pocket to do more work, said.

**Dallas Man Heads Statehood Affair**

AUSTIN, Oct. 27—Celebration of Texas' Centennial of Statehood was implemented today by the appointment of Karl Hobbeltzelle of Dallas as chairman of the Texas Centennial of Statehood Commission.

The appointment of Mr. Hobbeltzelle, widely known philanthropist and theatre head, followed a conference between Gov. Coke R. Stevenson, Statehood Commissioner A. Garland Adair, Col. Paul Wakefield, and other leaders in the celebration movement.

The regular session of the 47th Legislature gave approval to a plan for state-wide observance of the 100th anniversary of Texas' admission to the Union.

The celebration will be held in 1945-46, marking the centennial of the occasion when the Republic of Texas became the 28th state admitted to the Federal Union.

Legal Notices

CITATION BY PUBLICATION

TO: M. J. Lindsey, and W. J. Pullam, if living and if dead the unknown heirs and unknown legal representatives of the said M. J. Lindsey and W. J. Pullam.

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation.

The names of the parties in said suit are: Jim Claunch, Plaintiff, and M. J. Lindsey, and W. J. Pullam, if living and if dead the unknown heirs, and unknown legal representatives of the said M. J. Lindsey, and W. J. Pullam.

The nature of said suit being substantially as follows, to wit: TO THE SHERIFF OF BAILEY COUNTY, TEXAS, GREETING:

You are hereby commanded to serve M. J. Lindsey, and W. J. Pullam, if living, and if dead the unknown heirs and unknown legal representatives of the said M. J. Lindsey, and W. J. Pullam.

That the defendants entered on said premises and ejected him therefrom in his damage in the sum of \$500.00, and that the reasonable annual rental value of said land is \$500.00.

Plaintiff further alleges that he has had and held peaceful, continuous and adverse possession by and under the three, five and ten year statutes of limitation.

Plaintiff prays for judgment for the title and possession of said land, asks for writ of restitution for his rents, damages, and costs of suit and has endorsed on said petition that the same is brought as well to try title as for damages.

Issued this the 7th day of October, 1941.

Given under my hand and seal of said Court, at office in Muleshoe, Texas, this the 7th day of October, A. D. 1941.

(SEAL) M. G. BASS, Clerk, District Court, Bailey County, Texas.

By Lela Barron, Deputy. (Published Oct. 9-16-23-30, 1941)

Articles of Incorporation of the Bailey County Cooperative Association

We, the undersigned, all of whom are residents and citizens of the State of Texas, engaged in the production of agricultural products, do hereby voluntarily associate ourselves together for the purpose of forming a not-for-profit cooperative marketing and processing association, with capital stock under the Cooperative Marketing Act of the State of Texas.

1. The name of this corporation shall be BAILEY COUNTY COOPERATIVE ASSOCIATION.

2. The purpose for which this corporation is organized is to engage in any activity in connection with the marketing or selling of the agricultural products of its members, or with the processing, packing, storing, handling, shipping or utilization thereof, or the marketing of the by-products thereof, or in connection with the selling or supplying to its members of machinery, equipment or supplies; or in the financing of the above enumerated activities; or in any one or more of the activities specified herein. Provided, however, any

such activity may extend to non-members, and their products limited as provided by the Cooperative Marketing Act of Texas, as amended.

This corporation shall have and enjoy all of the powers granted by the Cooperative Marketing Act of Texas, as amended, or which may hereafter be amended.

3. The place where the principal business of the corporation will be transacted is Muleshoe, Bailey County, Texas.

4. The term for which this corporation is to exist is fifty (50) years from and after the date of incorporation.

5. This corporation shall be managed by a board of nine directors. The names and addresses of those selected to serve for the first year and until their successors shall have been elected and qualified are:

J. Martin Wilson, Star Route, Sudan, Bailey county.

W. R. Carter, Star Route 2, Muleshoe, Bailey county.

Lawrence Nickels, Maple, Bailey county.

R. Q. M. Beasley, Enoch, Bailey county.

Roy F. Sherriff, Route 2, Muleshoe, Bailey county.

E. L. Gant, Star Route, Goodland, Bailey county.

M. G. Bass, Muleshoe, Bailey county.

Walter E. Howard, Route 1, Muleshoe, Bailey county.

A. B. Simmons, Bula, Bailey county.

6. This corporation shall have a capital stock of \$10,000.00 which shall be divided into 500 shares. Said capital stock shall also be non-assessable and classified as Common and shall have a par value of \$20.00 per share.

Said stock shall be issued and sold as provided by the Cooperative Marketing Act of Texas, as amended. At the time of the issuance of the Common Stock, the Board of Directors shall fix the rate of dividends to be paid, which shall not exceed 8% per annum, such dividends to be non-cumulative and payable only out of the net income of the corporation as and when declared by the Board of Directors in its conclusive discretion; and such stock shall have all of the voting power of the corporation.

Dividends on stock shall be payable as and designated by the Board of Directors as provided in the By-laws of the corporation. Upon liquidation or dissolution of this corporation, the holders of the Common Stock shall participate in the distribution of the assets on the basis of face value.

Each member-stockholder's interest in the property of the corporation shall be determined on the basis that the number of shares of Common Stock held by him bears to the entire issue of Common Stock, after all debts of the corporation have been paid.

No member-stockholder shall be permitted to hold or own more than one-twentieth (1-20) of the Common Stock of the corporation.

Each member-stockholder of the corporation shall be required to subscribe and pay for at least one share of the Common Stock, and such additional shares of the capital stock of the said corporation as shall be provided in the By-laws of the corporation.

Patronage dividends may be paid to both members and non-members, as provided in the By-laws of the corporation.

The voting power of the member-stockholders of this corporation shall be equal, and no member-stockholder of the corporation shall be entitled to more than one vote because of his membership herein or the number of shares of stock owned or held by him.

IN WITNESS WHEREOF, we have hereunto subscribed our names, this the 20th day of September, A. D. 1941.

J. MARTIN WILSON, W. R. CARTER, LAWRENCE NICKELS, R. Q. M. BEASLEY, E. L. GANT, ROY F. SHERRIFF, M. G. BASS, WALTER E. HOWARD, A. B. SIMMONS

Man can criticize women all he wants to, but he knows three things in her favor:

1. She never wastes two dollars worth of shotgun shells in order to get a 25c rabbit.

2. You never hear of one going into a restaurant and ordering a 25c meal and giving the waitress a 25c tip because she smiled at her.

3. We've never heard of a woman yet who will use twenty gallons of gas and \$25 for boat hire to get where the fish are not.

The trend in setting life insurance policies is away from lump sum payments in favor of periodic payments to beneficiaries. More than one-third of a billion dollars of 1940 insurance death benefits were settled this way, four times the amount of ten years ago.

FINAL INSPECTION

Under the impetus of war Canada has become a vast arsenal out of which millions of rounds of ammunition and vast quantities of explosives are being poured annually. War expenditures will cost the Canadian people about 40 percent of the national income, a sum which fits terms of comparative population and income would be the equivalent to an expenditure of the United States of about \$35,000,000,000 in a single year.

MATERIALS FOR DEFENSE

This is a story of shortages—shortages of raw materials, raw materials vitally necessary for the defense of the Nation and its people. To make guns and tanks and planes and ships, to make the United States an actual Arsenal of Democracy for embattled free nations throughout the world, vast quantities of these raw materials are needed.

We are just beginning to realize how big these quantities really are. When this country started its great defense production program, no serious shortages of raw materials existed. Production experts knew that we faced a tremendous problem in stepping up machine tool output, in retraining personnel and reorganizing factories, but our material supply did not appear too bad.

But modern warfare is a war of machines; machines demand metal. Thus even America's vast productive capacity in steel, copper, aluminum, and other alloys has proved insufficient to meet both military and civilian demands.

This problem has been met in the embattled nations by virtually stopping non-essential materials and the civilian population gets along as best it may. England, for instance, now is down to about 400 new civilian automobiles per month. We, too, are going to have to get along without some of the luxuries to which we are accustomed if we are going to produce as we need to produce.

Defense materials are sometimes classified in two general categories: "critical" and "strategic." Critical materials, in the technical sense, are those which are produced in this country and in which supply problems exist. The method to be followed with these is to increase our output, build new factories, open and locate new mines and new sources.

At the same time, we must reduce non-essential production using these materials, reduce waste, and conserve articles made with them which can be reclaimed for future use. In this category fall steel, aluminum, magnesium, and other chemicals.

Strategic materials are those which must be imported, entirely in part from other countries and in which serious supply problems exist. Our supplies depend upon shipping facilities and free shipping lanes.

Our attack on this problem is two-fold; first, to increase domestic production, if that is possible, to its limits and second, to build up a reserve supply in the United States sufficient to tide us over any probable stoppage of imports.

Here again limitations on civilian consumption are necessary and conservation of reclaimable material important.

The only real limits to the productive capacity of the United States translated into military equipment are limits of materials. We can and we are turning out machine tools; we can and we are training workers in defense skills; we can and we are bringing industry large and small into defense production.

All of these methods, however, call for vast and increasing quantities of materials.

"All Out" for Production The Office of Production Management, the Defense Plants Corporation of the RFC, other governmental agencies, and private industry are now engaged in a world-wide program designed to increase the flow of raw materials into American industry.

The one great question confronting the people of the United States today is how rapidly we want to get this job done. If we want to tighten our belts go "all out" for military production, it is virtually certain we can halve aggression in a comparatively short time. We have productive capacity unmatched in the world. It is up to the American people whether or not we use all of it for defense production.

Texico-Farwell Women Hostesses To Study Club

Tuesday evening of this week, members of the Muleshoe Study Club were guests of the Texico-Farwell Women's Club in the home of Mrs. Claude Rose.

A very interesting and entertaining program was given. Mrs. Aldridge of Farwell was the principal speaker of the evening. She reviewed an article "The Life of Ed Howe" father of Gene Howe, Gene Howe is author of the current issue of the Saturday Evening Post.

Readings, piano numbers and vocal solos were a part of the program. Tea was served by the club hostess to the following from Muleshoe:

Mesdames Jane Beavers, Elizabeth Gardner, Melzine Elliott, Melba Moore, Marie Lenau, Jo Woods, Blanche Lancaster, Bula Moeller, Drucilla Gowdy, and Essa Lee Roberts.

Mrs. St. Clair Entertains 1939 Study Club

Members of the 1939 Study Club met in the home of Mrs. Irvin St. Clair Thursday evening, October 23. The meeting was opened with the song, "America," after which Mrs. Ray Griffiths took charge of the evening's program.

Mrs. Griffiths' talk on "Hobbies" was enjoyed and followed by a round-table discussion. Refreshments were served to 15 members.

The next meeting will be Thursday evening, November 6, with Mrs. Jess Mitchell as hostess.

CHRISTMAS TOYS

A teaspoon of baking powder in the water in which meat or vegetables are cooked will help make them tender.

A preview staged by toy manufacturers for the nation's buyers in New York City showed miniature battleships, submarines, destroyers, mine sweepers, airplanes of every type and anti-aircraft guns manned by tiny American soldiers.

There were new and striking scientific toys with which the youngsters (and their daddies) can put up buildings, bridges, gas stations, work magnetic cranes and run a new train that really "choc-chocs" and picks up a mail bag by remote control.

Though shortages of materials hit the business the total volume of toys is expected to exceed last year's \$240,000,000 worth by a slight margin.

Attends Funeral For Son At Irving

C. C. Carlisle, employe at Skeet's Barber shop, received word the first of the week of the death of his son, Pvt. Marvin Carlisle, which occurred at Fort Bliss, El Paso.

Private Carlisle was injured in a motorcycle accident. He had been stationed at Fort Bliss for several months.

Upon receipt of the message, Mr. Carlisle left for Irving, Tex., where funeral services were held.

American spend \$3,000,000 a day for amusements and \$2,500,000 a day for hotel service.

FREE DEMONSTRATION OF F-M HAMMER MILL

When you see the Fairbanks-Morse line of hammer mills, compare their construction, their grinding efficiency, ease of operation, and compare prices. You'll see why they are going places on the farm. Go to show you any time.

E. R. HART Company MULESHOE, TEXAS

Students at the Rouge Prepare for Defense Jobs

DEARBORN, Mich.—When the average person visualizes a big industrial plant, he (or she) usually views it in terms of mechanical operations done by mechanical marvels. Few think of a factory as a "school house," yet the vast Ford Rouge plant has an industrial school system comparable in size to a large university.

With the opening this year of two important new units, the Ford school system now enrolls nearly 10,000 students. Latest additions are an aircraft apprentice school and a U. S. Navy Service school to train Uncle Sam's blue-jackets.

Henry Ford started a school system in his automobile factories 25 years ago when he foresaw a future need for skilled manpower in industry. This foresight now is expected to go a long way toward solving his need for skilled hands in filling more than \$700,000,000 in national defense orders.

Ford training facilities have grown in the past year to become the largest of their kind in the world. Space within the 1,200-acre Rouge plant devoted exclusively to classrooms, laboratories and school shops has been increased from three to five acres. One hundred instructors have been added.

In the new aircraft apprentice school, youths are being trained in machine shop, assembly, disassembly, inspection and testing of the Pratt & Whitney airplane engine which Ford is building for the U. S. Army. The school is located in the front portion of the new \$27,000,000 airplane engine plant on the Rouge grounds.

Another unique Ford school project linked closely to national defense is the Navy Service School. Costing around \$1,000,000, this school was provided and equipped through the Ford Motor Company, at no expense to the government. The first sections were erected in the record time of 40 days.

Two students in the Ford aircraft apprentice school operate a test cell panel used in checking navy engines. The instructor, with hand on the engine control, explains the test instrument readings. In the photo above, cadets march across the grounds in their uniformed attire. Day's classes...

MARINE VISITS FAMILY

Willis Farrell son of Mr. and Mrs. C. R. Farrell, is here this week visiting with his family and friends. Willis is in the Marine Corps, and has recently completed his preliminary training at San Diego, Calif. He stated that he liked the Marine Corps very much, and is getting along fine with the "leathernecks." He will return to his post early next week.

P-T. A. MEETING TO BE HELD MONDAY, NOV. 3

Regular meeting of the Muleshoe P-T. A. will be held Monday night, November 3. The following patriotic program has been arranged:

Patriotic songs by band and grade school chorus. Reading by speech department. Special music by Mr. Finley. Principal speaker, Reverend Hamilton.

A method of processing ordinary steel so that it may be used instead of aluminum and special alloy steel in the manufacture of certain airplane equipment has just been announced.

The dollar value of goods produced per worker in American factories in 1914 was \$3,000. In 1940 the value of goods produced per worker was \$7,200.

Prices received by farmers have increased six points in the past month and are 131 percent of the 1909-1914 parity average, the Agricultural Marketing Service.

A recent 12-day strike by union seamen meant delaying the delivery of bauxite that contained enough aluminum to make 1,000 dive bombers.

Buy Defense Savings Bonds.

Buy it in Muleshoe.

### LOOKING BACKWARD

**FIFTEEN YEARS AGO**  
(From files of Oct. 29, 1926)  
D. P. Brown of Varnville, S. C., is here visiting his brother, R. L. Brown. D. P. is interested in one of the largest sawmills in the South. He will go from here to Arizona where he will visit a number of points.

Muleshoe and Sudan tied, 7 to 7 on the Yellowjacket field. Glascock passed to Lee, who ran 27 yards for Muleshoe's touchdown. Muleshoe almost won by coming down to the Sudan 10-yard line. At this time, however, a small boy threw a stone hitting one of the Sudan players in the chest and the Yellowjackets were penalized 15 yards, stopping the threat.

A. J. DeBord had his home pebble-dashed this week, using a pink mixture, which gave it a nice color.

P. E. Wilmon has treated his home to a nice coat of stucco.

**TEN YEARS AGO**  
(From files of Oct. 29, 1931)  
O'Neil Rockey gave a stag dinner Monday night at his home following a successful hunt in New Mexico. Those enjoying the venison feast were: Bill Garrett, Bert Corr, Leonard West, Buster Ragsdale, Herschel Alsop, Ed Adams, Buford Butts, Wesley Osborne, Jimmie Cox, Leland Aycock, D. L. Kendrick, Richard, Glen and O'Neil Rockey.

Miss Walsie Williams and Harvey Brewer were married at the Methodist parsonage in Clovis Tuesday evening of last week. They will make their home in Muleshoe.

R. P. McFarridge of Fairburn has succeeded Fred S. Reynolds as farm agent of Bay County.

Chester Layne, experienced highway builder, last Monday completed a half-mile stretch of road, leading out north on Highway 7 into the vicinity of the gins and elevators near Santa Fe railroad.

B. Burrow, local ginner, was taken to a Plainview hospital Monday for a stomach operation. He is reported recovering nicely.

**FIVE YEARS AGO**  
(From files of Oct. 29, 1936)  
The first white northerner of the season struck Muleshoe Thursday morning when it began snowing, continuing intermittently throughout the day, leaving as much as two inches of snow in protected places.

Miss Billie Pace and Allen Gunn of Muleshoe were married Sunday morning at 9 o'clock at the Baptist parsonage in Clovis by Rev. J. F. Nix. The couple will live in Muleshoe, residing in one of the Rocky apartments in the west part of town.

Mr. and Mrs. J. B. Waide, Jr., are the parents of a baby girl.

Curtis Spivey was taken to a Lubbock sanitarium the latter part of last week to receive medical attention for pneumonia. He is recuperating nicely, according to his sister, Mrs. W. C. Cox, who is with him at Lubbock.

Mrs. Alex Paul left Monday afternoon for Mingus to attend funeral services for her stepfather, Charley Scanland, 78.

Boneless beef, shipped frozen in containers was being substituted for carcass beef as a field ration for soldiers in Louisiana army maneuvers.

### What To Do In November

By LILLIE GENTRY  
County Home Dem. Agent  
**PLAN YOUR LANDSCAPE!**

The present is a suitable time to make a landscape plan which may be carried out during this year's planting season. Anytime after frost and until the next growing season begins will do for making your plantings.

To landscape the home grounds successfully requires a great deal of study and forethought. A plan should include the planting of grass, shade trees, fruit trees, windbreak hedges, screening plants for work areas, convenient arrangement of walks and drives, outdoor living rooms and play areas. Why not include the home garden in the rural landscape plan? It can be a thing of beauty and a pleasure to look at.

Try one of these five suggested shade trees: Chinese elm, Russian olive; silver-leaved maple, elm, or catalpa.

Fruit tree plantings might include apples pears, peaches, plums, cherry plums, cherries and grapes. Fruit trees serve a double purpose in producing fruit as well as furnishing a shade.

Privet hedge, Chinese elm and salt cedar are good screening shrubs.

**PUT OUT A STRAWBERRY PATCH!**  
If you expect to have strawberry berries next spring, you must put out plants in October or November. Seventy-five to a hundred plants will produce enough berries for one. Five hundred could be considered a family size order of plants. If you have an extra yard for strawberry shortcake or preserves, then a thousand plants would not be too many. A good variety for West Texas is the everbearing.

**PUT OUT ROSE CUTTINGS!**  
November is a good month in which to root rose cuttings under glass. It is important that the plants from which cuttings are made be healthy and free from leaf diseases. The cuttings may be made to include one bud, but it is preferable to include two or three buds, removing the leaves except the ones at the top bud. The stem is in condition for cutting about the time the flower opens.

### LOCALS

Atty. Charles Clements of Plainview was in Muleshoe on business Monday.

Judge and Mrs. Jim Cook and Miss Lory Covington were in Amarillo Thursday of last week.

Miss Dorothy Schuster and Alfred Coward were Clovis visitors Sunday afternoon.

Francis Miller of Sudan transacted business and visited friends here last weekend.

Mayor R. L. Brown was in Dalhart Tuesday on business. He said that country had some big rains recently.

Mrs. George Johnson visited in Amarillo Tuesday of this week with her daughter, Miss Nona Faye Johnson, who is attending business college.

Misses Lory Covington, Avis Coopes, Juanita Smiley, Mary Locke Howell and Dorothy Schuster attended a picture show in Littlefield Monday night.

Mrs. R. W. Tyson of Bartlesville, Okla., former resident of Muleshoe, arrived here Wednesday afternoon for a visit with Mrs. J. T. Gilbreath and other friends.

Mrs. W. B. McAdams and daughter, Mrs. Martin Oliver, and Mrs. R. L. Jones, and daughter, William Ed, were in Clovis Wednesday.

### VISITS RELATIVES HERE

Mrs. Storm Whaley of Siloam Springs, Ark., arrived in Muleshoe Friday night of last week for an extended visit with her mother, Mrs. W. C. Bucy, her grandmother, Mrs. R. L. Paukner and other homefolks. She was met in Amarillo Friday by her mother, Mrs. Bucy, Mr. and Mrs. Charles Lenau and Mrs. Lilla Melendy.

An easy way to coat doughnuts with sugar is to place them in a paper sack with powdered sugar. Shaking the bag will do the rest.

Since July, 1940, American airplane deliveries have increased 20 percent.

### DOWN IN TEXAS

By EDMUNDS TRAVIS

Texas officials who are asking that oil tankers released by Great Britain be returned to the Texas-Atlantic coast trade are certain to have their request granted.

Some of the tankers, at least, must be put back in this trade for the simple reason that there is nothing else to do with them.

It is believed here that a big factor in the release of the tankers was increased efficiency in the protection of trans-Atlantic shipping from Axis submarines and surface raiders. It is probable, also, that past shipments to Britain have enabled that country to build up considerable stocks of petroleum and its products.

Our Government's decision to supply Russia through White Sea ports may result in the use of some of the released tankers for that purpose but it will also make available for other uses vessels now plying between our Pacific coast and Vladivostok. One way or another, Texas stands to get all the tankers needed for her oil trade with the east coast.

Senator W. Lee O'Daniel has not allowed Harold L. Ickes, secretary of the Interior, to escape the "gasoline shortage" controversy by pointing to the return of forty oil tankers by the British government. The Texas Senator insists there never was a gasoline shortage except in the mind of the Secretary.

Irascible Ickes seems ready to have met his match in the Junior senator from Texas. In a recent Senate Committee hearing, the cabinet member quickly got into difficulties under O'Daniel's questioning, and for the first time in his official career, he has failed to make devastating remarks about an active antagonist.

The old bank building in which O. Henry worked is soon to be torn down to make way for a Woolworth store. It stands at Sixth street and Congress avenue on what is regarded as the most valuable ground per foot in the capital city. Here, in the days of the Republic, stood the old Bullock Hotel, in which the foundation of Austin was celebrated at a banquet attended by President Mirabeau B. Lamar, Gen. Edward Burleson, Gen. Albert Sidney Johnson, and other famous Texans.

In the backyard of the Bullock House were buried the archives of the Land Office, after Sam Houston had had them removed by a force of soldiers, and citizens of Austin had recaptured them. The three-story structure occupying this site dates from the 70's of the last century. While it has been occupied by many other enterprises, it is still referred to by some old Austinites as the First National Bank Building.

### LIEUT. ALSUP AND WIFE VISIT IN MULESHOE

Lieut. and Mrs. Herschel Alsop are here this week visiting Lieut. Alsup's parents, Mr. and Mrs. J. L. Alsop.

Lieut. Alsop is an artillery staff officer and was with the troops in Louisiana during maneuvers this past summer. He stated that the boys didn't do nearly so bad as they were pictured in press reports, and says the efficiency of the Air Corps is something of which to be proud. Texas officials will soon begin receiving additional equipment he stated, and will again go into intensive training, especially the artillery.

### Hallow'en Party Given For Study Club Members

Mrs. Marie Lenau and Mrs. Bula Moeller were co-hostesses at a Hallow'en party for members of the Muleshoe Study Club at the Lenau home Thursday night of last week.

Autumn flowers and leaves were used for decorations throughout the entertaining rooms.

A weird ghost story started the evening's fun and the remainder was spent playing bingo games. Refreshments of pumpkin pie and coffee were served to the following members: Mesdames Jane Beavers, Mary Hart, Druella Gowdy, Blanche Lancaster, Elizabeth Gardner, Melba Moore, Katherine Taylor, Jo Woods, Lois Lenau, Elizabeth Woodley Inez Bobo Melda Smithson, Ella Ruth Williams, Jackie Tate, Melzine Elliott, Miss Eunice Florence and Essa Lee Roberts, and one guest, Mrs. Ernest Kilough.

Buy Defense Bonds.

MANLY OF AMERICA'S NEW ROADS ARE MADE PARTLY OF COTTON. SPECIALLY WOVEN COTTON MESH IS USED TO REINFORCE THE ASPHALT.

A NEW KIND OF LABORATORY THAT WILL CREATE THUNDER STORMS IS BEING BUILT TO TEST THE "STORM-RESISTANCE" OF ELECTRICAL EQUIPMENT DESIGNED FOR USE OUT OF DOORS.

AMERICAN RAILROADS USE 1,285,898 MILES OF TELEPHONE AND TELEGRAPH WIRES IN THEIR OPERATIONS—ENOUGH TO REACH MORE THAN 51 TIMES AROUND THE GLOBE BY THE ROUTE.

LET'S STOP BEING TOO MODERN!

A SEMIOLITE INDIAN WOMAN PUTS ON A NEW NECKLACE AT EACH IMPORTANT EVENT IN HER LIFE. (SOME WEAR TWO SCORE OR MORE AT A TIME)

A RAO IS CALLED A "COURT" WHEN CARRIED BY UNMOUNTED TROOPS. A "MOUNTED" UNIT, CARRIED BY MOUNTED UNITS, WHILE ON SHIP IT'S AN "ENSIGN"

Green pasturage which is succulent and high in protein, is better for dairy cows because it will produce more milk than will any other kind of roughage.

According to the Census Bureau, a baby is born every 14 seconds in the United States, while the undertaker is called every 23 seconds.

### DELAY MAY COST FARMERS SOIL-BUILDING ASSISTANCE MONEY

farmers failed to use, Arnold pointed out.

Improving the fertility of the soil is all the more important now, the official said, since the demands of the consumers in this country and the needs of nations resisting aggression require still greater food production in the interest of national defense.

Practices which still can be completed by the end of the contract year on farms and ranches include planting winter legumes and applying phosphate, cherting, contour ridging, listing, chiseling and furrowing non-crop pasture and building earthen tanks and reservoirs.

These practices tend to preserve soil and moisture, prevent erosion and improve grass supply, Arnold said, in pointing out their soil-building merits.

The first commercial tung nut crop for Southeast Texas and Southwestern Louisiana is estimated at 500 tons. There is no tung oil mill in Texas, but there are two or more in Louisiana.

The Chinese jubjub, sometimes called Chinese date, is extremely hardy and produces a crop of fruit yearly. It grows well in west Texas areas having 18 inches rainfall.

The average American will consume 8,000 pounds of meat during a reasonable life expectancy. Assuming that appetites also are average, this poundage will include six steers, five sheep, three calves and 39 hogs.

Grain in commercial storage at 40 terminal markets reporting to the Department of Agriculture's marketing service increased nearly six percent during August. About 85 percent of available commercial space was occupied September 1, compared with 80 percent a month earlier.

Heat from an airplane engine is used to increase the lifting power of the plane, according to a patent just granted. Heated exhaust gases operate a fan that sends a stream of air over the top of the wing, thus increasing its lifting efficiency.

Some machine tools used in making defense equipment weigh more than 50 tons and stand as high as a three-story house.

# WHAT! Wasting Food at Prices like these

## THIS 1942 SERVEL ELECTROLUX WILL SAVE \$50.00 to \$75.00 BEFORE SPRING...

Going Up! You think food prices are high yet? Compare these 1918-1919 food prices with today!

	1918	1919

**Mrs. A. P. Stone Entertains Half Century Club**

Thursday afternoon of last week, Mrs. A. P. Stone was hostess to members of the Half Century Club at a regular meeting in her home. Knitting and games provided entertainment.

Delicious refreshments were served to: Mesdames C. C. Mardis, Anna F. Moeller, J. F. Wallace, Beulah Carles, Mary Snow Davis, J. W. Finley, Mattie Duke and the hostess, Mrs. Stone.

A Halloween party had been planned for Thursday afternoon at the home of Mrs. Moeller, but the affair was called off due to the death of K. K. Smith. Members had not been informed what day funeral services would be held, so the club will not meet until Thursday afternoon of next week.

First aid has been prominent on programs for most 4-H Club girls' encampments this year.

**W. S. C. S. Group Enjoys Luncheon All-Day Program**

The Women's Society of Christian Service met at the Methodist church Tuesday for an all-day program and covered dish luncheon.

Two chapters of the study book "A Christian Imperative," were led by Mrs. Clyde Holt and Mrs. Horace Holt. A round-table discussion followed.

The meeting adjourned and the group went to the Fellowship Hall, where a delicious covered dish luncheon was served.

The afternoon's program consisted of an observance of the Week of Prayer, and self-denial offering.

Mrs. Roy Bayless was general leader.

Mrs. E. J. Killough presided at the piano throughout the day's program, interspersing the meditation with soft music.

The program included: "Imperative Needs of Medical Missions," given by Mrs. Finley Pierson.

"Brewster Hospital — An Avenue of Christian Service," given by Mrs. H. C. Holt.

"When Our Deaconesses Retire," given by Mrs. Horace McAdams.

"Undergirding Missionary Emphasis with Christian Literature," given by Mrs. Mills Barfield.

Those assisting with the meditation were Mrs. Jess Mitchell, Mrs. Cox and Mrs. Clyde Holt.

The program was closed by all present going to the altar where they were led in prayer by Rev. R. N. Huckabee and the sacrificial offering was given.

—Reporter.

**Officers Elected By B&PW Guild Monday Night**

Monday evening of this week members of the Business and Professional Women's Guild met at Fellowship Hall for a regular meeting, at which time new officers were elected as follows:

Mrs. Noel Woodley, president; Mrs. Jim Cox, vice president; Mrs. Dick Rokey recording secretary; Mrs. Gale Holt, corresponding secretary and Mrs. Houston Hart, treasurer.

It was decided to have two meetings each month—the second and fourth Monday nights being selected. The next meeting will be November 10.

Social and recreational features will be emphasized at each meeting. An interesting discussion was held Monday evening by the group in regard to the purchase of roller skates for members who wish to use them after the meetings. Much enthusiasm was shown and inquiries will be made as to prices and places where roller skates may be bought.

**Congratulations To**

Mr. and Mrs. John L. Norris of Muleshoe on the birth of a daughter Friday, October 24, at the local clinic. The new arrival was named Jeanette Kathleen. Mr. Norris is minister of the Church of Christ.

Mr. and Mrs. Kenneth Burton of Muleshoe on the birth of a daughter named Jacqueline Kay, Monday, October 27 at the clinic here. Mother and daughter returned home Tuesday afternoon.

Mr. and Mrs. E. C. Huber on the birth of a son named Walter Raleigh, Monday, October 27 at the local clinic.

Mr. and Mrs. Morris Childers of Muleshoe on the birth of a son, Monday, October 27, in Amarillo.

**CARD OF THANKS**

We wish to express our appreciation of the kindness and floral offering given us during the illness and death of our beloved father and companion, Mrs. J. A. Davis and children.

A new smooth awn barley, named Texas, and developed at the Denton sub-station of the Texas Agricultural Experiment Station, is being made available to farmers this year. Its qualities include resistance to disease and superiority in yield in central Texas.

The less people speak of their greatness the more we think of it. —BACON

**Ford Speeds Defense Work With New 400,000-Volt X-Ray Machine**

DEARBORN, Mich. — With greater speed and manufacturing perfection essential these days to national defense production, the Ford Motor Company has just taken another big step toward faster action on its defense work. A new 400,000 volt X-ray machine (upper photo) has been installed at the Rouge plant automotive laboratory to locate quickly any possible flaws in heavy steel castings.

The lower photo shows a laboratory technician studying an X-ray negative of a crankshaft. Tell-tale shadows reveal any flaws in the internal structure of metal.

**Progress H. D. Club Meets At Auditorium**

Members of the Progress Home Demonstration Club met at the auditorium Tuesday afternoon of last week.

New officers for the coming year were elected, being as follows: Miss Dyalitha Swift, president; Mrs. Harold Mardis, vice president; Miss Evadna Holley, secretary-treasurer; Mrs. G. T. Maltby, council delegate; Mrs. W. O. Holley, parliamentarian; Mrs. Doc Wilhite, reporter.

The club decided to have a Halloween party at the home of Mrs. W. G. Kennedy Wednesday afternoon of this week. Pollyanna gifts will be exchanged, not candy, popcorn and apples will be served. Plans for achievement day will be made at this time.

A show was given by the club members for Mrs. Cap Needham. Those present were: Misses Eunice Humphrey, Bessie Vinson, Evadna Holley, Elzada McMahan, Dyalitha Swift, and Mesdames: Ross Goodwin, Margie Springstube, John Tucker, Velma Gwyn, Lula Needham, Etiole Holley, Lema Cook, D. C. Lumpkin, Joe Thompson, W. E. Renfrow, Lela Gully, Marie Maltby, Ellen White, D. O. Smith, W. G. Kennedy, Mattie Griffin.

**Muleshoe Library News**

If the people of Bailey county are interested in reading for either pastime or profit, they should visit the public library, which has most any kind of book one would want to select. There are about sixty mystery stories, any kind of light romances and several historical novels, as well as many non-fiction books of interest.

Two new books have been received. They are: "Above Suspicion," and "The Strange Case of Dr. Jekyll and Mr. Hyde," by Robert Louis Stevenson.

Here is Stevenson's immortal tale of dual personality—the story that makes all other ventures into the nerve tingling unknown seem child's play beside it. Dr. Jekyll—loved by everyone, sought by society, Mr. Hyde—fiend and criminal, unbearable in his hideousness. They are one and the same man!

How was it possible? What was the reason behind this strange and appalling transformation of an upstanding physician into a brutal monster spreading horror and fear in his wake? You will find the answer in Dr. Jekyll's own private journal and from the testimony of the friends and servants of this man whose home gradually became a dwelling of terror and dread. It is all here—recorded with unforgettable reality by a master hand.

Visit your Public Library. —Library Committee.

**LOCAL HAPPENINGS**

Miss Janice Brooks and Phoebe Clark, who are attending a business college in Lubbock, spent the weekend here visiting their parents, Mr. and Mrs. Bill Brooks, and Mr. and Mrs. H. L. Clark.

**THIS BUSINESS OF Living**

By SUSAN THAYER

Already we're talking and planning for the days when there will again be "peace on earth" and this great nation can once more devote itself to the business of every-day living.

All sorts of people are talking of this future. Ministers in their pulpits... teachers in their school rooms... women in their homes and most important of all, manufacturers in their factories and in conference groups all over the country. For the manufacturers and business men of our free industrial system have the most vital part of all to play in the period of readjustment that will come when we can put all our energies into peace-time work once more.

For months now industry has been building new plants... creating new machines... training new mechanics and workmen, and this increase will continue until the end of the emergency. This means that we will emerge from this time of defense production with a capacity for mass production such as the world has never known before — or even dreamed of. Before we began to work for defense we could build a good many automobiles and refrigerators and radios and stoves. But when the emergency ends, we'll be able to build twice as many for example, and the woman next door. Aren't you going to want a lot of things after the world settles down again and new merchandise appears in the stores? Just multiply the needs and desires of your one family by the number of families in the country and you get a vague idea of the amount of goods industry must produce after this defense job is finished!

Free American industry is producing for the days when there will be "peace on earth" and this great nation can once more devote itself to the business of every-day living.

Mass production and free men working together can make it function more effectively than men under the control of the state can. So let's make certain that American industry stays free and is allowed to do as much for the satisfaction of the citizens of this country as it is now doing for their defense!

It takes less sugar for stewed apples if sugar is added after cooking.
