Fidel Castro arrives in New York

Castro arrives for U.N. address

'Happy to be in the U.S., says Cuban dictator

NEW YORK (AP) — With the familiar cigar tucked in his mouth, Cuban President Fidel Castro arrived in New York early today, tipped his military cap, and said: "I'm happy"

Castro was greeted by one of the tightest security nets ever woven for a dignitary visiting New York. He is here for an address to the United Nations on Friday.

The Cuban dictator, dressed in green fatigues, tipped his cap as he descended the stairs of his Russian-made Ilyushin-62 jet at Kennedy International Airport.

"I'm happy to be in the U.S.," the 53-year-old leader was heard to say as he was greeted by government and U.N. officials. It is Castro's first trip to the United States in

The United States and Cuba do not have diplomatic relations, and Castro is officially visiting the United Nations, which is headquartered on international soil. An angry group of about 30 anti-Castro demonstrators

shouted "Murderers! Murderers!" in Spanish as the Cuban leader's 42-car motorcade arrived at the Cuban Mission to the United Nations about 2 a.m. EDT. Castro will stay at the newly acquired mission less than a

mile from U.N. headquarters on Manhattan's East Side More demonstrations were expected. Police said pro-Castro groups and anti-Castro groups - including those New Jersey — would be separated.

U.N. spokesman Rudolf Stajduhar said Castro, the president of the Non-Aligned Movement of 95 Third World Nations, on Friday would stand on the same United Nations podium he did in 1960 to address the 152-nation assembly for about 75 minutes.

Because of "genuine threats" against Castro and reports that teams of assassins were en route from Florida to New York, police set up a four-block, barricaded "frozen-zone" around the Cuban Mission.

Officials said Secret Service agents and the more than 2,000 policemen assigned to protect Castro were more tense over this visit than any by a foreign dignitary in recent memory, including last week's 29-hour stop by Pope John Paul II.

Secret Service agents with submachine guns concealed in their briefcases were scattered around the mission area and residents or those doing business there were escorted to

Castro's entourage was said to include more than 200 aides and bodyguards. Officials said police boats would patrol the East River near the United Nations, bomb experts would rove with trained dogs, sharpshooters would man rooftops and all seven police city helicopters

The 2,000 policemen, operating under the code name "Marlin," were to be kept on "mobile reserve" in case Castro decided to change his quarters or visit other parts of

Leaders of anti-Castro groups predicted that an assassi-nation would be attempted: "Everybody wishes to do that," said Dr. Hector Wiltz, who heads the Bloc of Cuban Organizations, an umbrella group representing more than 100,000 Cuban exiles in the metropolitan area.

"He has killed thousands and thousands of innocent people who have relatives here. They hate him so much,

On the 1960 visit, the communist leader, brash from having overthrown Fulgencio Batista 20 months earlier, created havoc when he moved his entire delegation from the Shelburne Hotel in mid-Manhattan to the Hotel Theresa

A.U.N. spokesman said Castro would meet with Secretary General Kurt Waldheim on Friday morning and then with General Assembly President Salim A. Salim

After the scheduled 11: 30 a.m. address Friday, Castro is to have lunch with Waldheim, according to a spokesman. The United Nations will be closed to the public while

Midlanders have pledged a total of \$448,506.67 toward

from the more than 90,000 Cuban-Americans who live in School trustees face the people to answer questions on bond issue

By SUSAN TOTH Staff Writer

Three Midland school trustees fielded, questions ranging from "is this really necessary" to "what took you so long" at a sparsely attended League of Women Voters forum Wednesday night.

The trustees turned out to address a crowd of 12 on the \$10.2 million school

bond election scheduled Oct. 23. After a brief summary of the ele ments in the all-or-nothing, one-vote bond package, trustees Parker Humes, Ed Runyan and Johnny Warren answered questions from the audience, all of them concerning the proposed expansion of Midland High

Responding to sharp criticism of the apparent emphasis on athletics and physical education at MHS in the bond package, Warren pitched for a "a well-rounded program in the high

"I think it's criminal if we're talking about equal educational opportun- cal plant up to support the academic ities in our high schools, to look at what we have here (at MHS) compared to what is at Lee.

If we want to back up and have a downtown sidewalk high school, that's the voter's choice — but I'll move_my kid across town," Warren

Midland High School, on a 13-acre campus, has one playing field which handle all the newly required athletic serves all physical education classes,

band and on-campus athletics needs. Some athletes are bused to Memorial Stadium for practice, but the sta-

dium has no dressing facilities for girls' athletics, Warren pointed out. Lee, on the other hand, is situated on a 40-acre campus, and has practice and playing fields with adequate dressing facilites for boys and girls.

The bond package includes \$5.5 million to renovate the 50-year-old MHS

Trustee Johnny Warren

campus and build a new gymnasi-

"We didn't start out to build a

gym," Runyan answered to queries

about the expense of the added play-

ing fields and \$2.4 million athletic

program.

Wednesday night.

'We started out to bring this physi-

The current MHS building has no

study hall, an inadequate library and

no place for students to work during

free classes, Runyan claimed

A study showed the current gym as

the best place to put those facilities,

since the gym itself is inadequate to

"That backed us into building a new physical education facility. If you build that, you have to have roomaround it," Runyan said.

But we started with the academic program at the high school, not the practice fields," he added.

Humes pointed out the bond proposal calls for a half-million dollars to remodel the gym into a learning center, \$50,000 to renovate the science building, add about 11 acres to the labs and another half-million for gen-

eral classroom improvements at MHS

in addition to the physical education

Reminding Warren of a campaign

promise to "make Midland High

School one of the best schools in the

state" five years ago, one questioner

wanted to know "what took you so

"I won't take the criticism or the praise for that," Warren answered.

The bond package, he said, "is the

result of a lot of long-range plan-

at MHS during his tenure on the

P.O. Box 1650, Midland 79702

Keep it going. - Mrs. Tom Mitchell

I am writing in regard to a parking or driving problem on A Street, be tween Wall Street and Missouri Avenue. There is a private club on A Street, The parking there is parallel to the curb. I do not know if this parking is on city property.

The problem is that the street is marked off for four lanes. The people that park there do not pull up far enough or their cars and pickups are too long or they do not care.

The problem is that when you are in the outside lane, you cannot get up the street - there isn't enough room with their cars sticking out in the street. These people back out and block both lanes of traffic. I have had several near mishaps.

Everyone complains, so I thought I would bring it to your attention. The police are busy elsewhere. The club needs a parking space off

If you check this, check between 11:30 a.m. and 1:30 p.m. The people

and west side. My family enjoys your column.

ANSWER: The Traffic Division of the Midland Police Department has been notified and the division will investigate the situation.

Last Sunday's, Oct. 7, 1979, Answer Line column had a question concerning the request for a listing of hair dryers that contained asbestos. Last week, I just happened to be reading my July 1979 Better Homes and Garden magazine and I came across the answer on the hair dryer listing. I am enclosing a Xerox copy of it. I have written to the U.S. Consumer Product Safety Commission to get a listing for me as I do own hair dryer and will gladly send you a copy of it when I receive it.

I thought you might want to know that I really enjoy "Answer Line." -Juanita Hosier

The Dow Jones average of 30 indusby far the busiest day in its history trial stocks, off about 25 points at Wednesday, with 81.62 million shares mid-afternoon Wednesday, staged a late rally to finish with an 8.27 decline ous high of 66.37 million, set on Aug. 3 at 849.32. But that still left the widely recognized average with a loss of more than 48 points since the start of the week-

Bond prices likewise have been under intense pressure since the start of the week as they absorbed the shock of unprecedented increases in interest rates.

Earlier this week, many of the nation's banks raised their benchmark prime lending rates a full percentage point, to 141/2 percent. The dollar, which had been steady Monday and Tuesday, meanwhile,

suffered a setback Wednesday in foreign exchange. Gold prices were also volatile, soaring more than \$28 an ounce to \$419.50 in early trading, but later backing off

to \$408 in London. Amid all the confusion and uncertainty, however, many Wall Streeters were unshaken in their initial approval of the Federal Reserve's decision last weekend to use some powerful new ammunition in its battle against inflation.

Many of them conceded the new steps increased the possibility of at least a moderate recession in the months ahead, and that they raised the specter of some tough going for such important industries as housing construction.

But they argued that such shortterm pain could bring with it the longer-term reward of progress against rapid inflation, which many economists and President Carter regard as the No. 1 threat to the future progress of the U.S. economy.

The market's declines this week, however dramatic, come nowhere mear the proportions of a "crash" like the devastating slide of 1929, when stock prices lost nearly 50 percent of their value over a few short weeks.

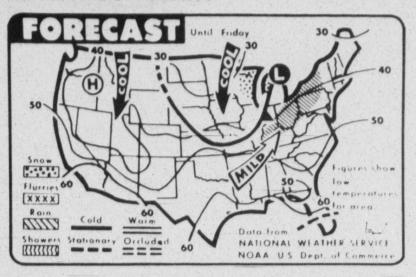

This week's drop, by contrast, has represented a loss of less than 6 percent, as measured by the Dow Jones Industrial Average.

"There is no earthly reason for a stock-market panic," said Heinz H. Biel, a veteran mrket analst with the brokerage firm of Janney Montgomery Scott Inc.

An unidentified clerk at the New York Stock Exchange leans back in exhaustion after Wednesday's record volume day of trading. (AP Laserphoto)

WEATHER SUMMARY

Rain is expected today through Friday morning from the Midwest to the St. Lawrence Valley. Snow is forecast for the upper Great Lakes. Cooler weather is expected for the north-central states, but most areas will be mild. (AP Laserphoto Map)

Fed member suggests slow effort for economic recovery

WASHINGTON (AP) - U.S. recovery from an expected recession should be purposely slow to avoid fueling inflation, says Henry C. Wallich, a member of the Federal Reserve Board.

Wallich, in a speech prepared for delivery today in New York City, said the nation no longer can shift rapidly between restraining inflation and avoiding a recession. A copy of the speech was released here.

"The traditional policy of leaning against whatever wind blows is no longer appropriate," he said. "The wind now seems to be blowing from all sides. Greater steadiness is need-

Wallich joined his six colleagues in voting unanimously last weekend to increase the board's lending rate from 11 percent to 12 percent and to alter dramatically the way it controls the availability of money and credit.

The moves, designed to slow down inflation and limit excessive credit, led to immediate surges in other short-term interest rates, including the prime rate banks charge their best customers. The prime rate is now

14.5 percent. 'The United States seems to be facing a moderate recession." Wallich said in his speech to the Investor Bond Conference. "In the interest of reducing inflation, the recovery certainly should not be hectic." Wallich also warned that rapid ex-

"The use of hair dryers containing asbestos recently has been identified as a potential health hazard. Concern focuses on the possible risk from inhaling asbestos fibers blown from the heat-shield.

"For a free list of hair dryers that contain asbestos and those that do not, based on information reported by manufacturers and private labelers. write: Hair Dryers, U.S. Consumer Product Safety Commission, Washington, D.C., 20207."

Joe Leach was considerate enough also to call in the same commission address.

Is there any insurance for rape

ANSWER: There's nothing routine about rape, but when a woman is hospitalized as a result of being raped, she should expect full hospital benefits on a routine basis from her health insurance company.

It is industry policy, reports the Health Insurance Institute, to classify rape as "accidental injury" and pay the necessary charges on that basis.

Church pushes SALT ratification WASHINGTON (AP) - Sen. Frank long series of hearings on the treaty to

Church is suggesting that the Senate ratify the SALT II treaty but delay its implementation until President Carter is able to certify a Soviet combat presence no longer exists in

Warm days, cool nights in forecast

Mother Nature apparently has decided to slip into a regular fall weather pattern of warm days and cool nights for the next several days, according to the weatherman.

The National Weather Service at Midland Regional Airport said skies should be fair and the afternoons warm through Friday.

The mercury should drop into the mid-50s tonight before warming up near 90 on Friday, the weatherman High on Wednesday was 80 degrees.

Record high for that date is 94 degrees set in 1965. Today's 'overnight low was 55 de-

grees, much warmer than the record 44 degrees set in 1936 and 1977. No precipitation has been recorded this month. Total for the year to date

Area weather watchers reported cool temperatures down to the low 50s early today

Fair skies followed a brisk cold front through Texas Wednesday during an overnight chill that left many residents shivering for the first time

New flight to start soon

A one-stop flight from Midland to San Antonio will get started Monday as one more addition to Permian Airways schedule, according to Jan Hladek, director of marketing for the commuter airline

The official festivities, though, won't begin until Tuesday, she said. At that time, representatives from Midland, Odessa and San Angelo will take the flight to San Antonio where they will be met by that city's

And when the plane returns to Midland, another passenger on board will be president of the airline, John Andrews of Midland.

Fares will be \$59 per passenger

each way, Ms. Hladek said. A morning flight will leave Midland Regional Airport at 7 a.m., stop in San Angelo and leave there about 8 a.m. and arrive in San Antonio at 8:50

Returning, it will depart San Antonio at 9:10 a.m., stop in San Angelo and arrive in Midland at 11 a.m .-An afternoon flight leaves Midland

at 2:10 p.m., arriving in San Antonio about two hours later

The evening flight will depart Midland at 6 p.m. and arrive in San Antonio at 7:45 p.m. It leaves 15 minutes later at 8 p.m. and arrives in Midland at 9:55 p.m.

Permian Airways started service. as a commuter airline in May with daily routes from Midland to Lubbock and Amarillo. It extended its service from Amarillo to Oklahoma City.

Okła., in August. In September, the airline added flights from Midland to Hobbs, N.M. Carlsbad, N.M., El Paso and Roswell,

The airline utilizes nine-passenger twin-engine Piper Navajo Chieftains.

Odessans appeal school bond case

ODESSA — A citizen's group trying to overturn the 1978 Ector County school bond election will take its case to the U.S. Supreme Court.

Notice of appeal was mailed Wednesday to the Texas Supreme Court, according to a spokesman for Gloria Svanas, attorney for the contestants.

The top Texas court recently upheld a lower court's finding against the citizen's group. The group is alleging illegal financial contributions by corporations and misrepresentation of need for the bond election project by

the Ector County school district. The contestants have been ruled against in one hearing and two appeals since the battle began in Jan-

The litigation has held up sale of the bonds, which were passed to build three new schools, enable extensive renovation to some existing schools and build a new football stadium.

a virtual end Since last July 10, the panel has heard from some 100 witnesses on the

2,000-page treaty Brown told reporters after the hearing the administration does not intend to buy votes for the treaty by increasing defense spending by 4 percent to 5 percent over the inflation rate as some senators demand.

But at the same time he said defense needs could cause a boost in military spending beyond the 3 percent real increase President Carter has promised.

Before a final vote on SALT II, the administration intends to send Congress a preview of the 1981 defense budget and highlights of defense

spending plans through fiscal 1985. Meanwhile, a number of Republican legislators were among those taking part Wednesday evening in a nationally televised reply to Carter's speech last month on the Cuban situa-

One of them, Sen. Henry Bellmon, R-Okla., said the Senate should delay any decision on SALT II until March 1 and turn instead to a wide ranging review of American defense and foreign policies, including the Cuban situation and defense spending.

Others, including Sen. Howard Baker, R-Tenn., complained that the president has, in effect, accepted a status quo in Cuba that he originally said could not be tolerated. Sen. Henry Jackson, D-Wash., the only Democratic-legislator appearing on the program voiced similar com-

But in New York City, Sen. George McGovern, D-S.D., said that rather than doing too little, Carter has overreacted. McGovern told the annual dinner of the New York Liberal Party that senators who insist there can be no SALT II treaty until Soviet troops leave Cuba are guilty of advocating 'utter nonsense.

"We watch in wonder as the president, straining to swat the Cuban gnat, orders Marines to invade our own naval base at Guantanamo, firing blank bullets into the sky," he said. "Leadership does not consist of panicked breast-beating about a complicated world or a frantic brow-beating of Fidel Castro.

Speaking at the same dinner, Sen.

Jacob Javits, R-N.Y., said he believes a way can be found to convert what U.S. intelligence says is a Soviet combat brigade into the training unit the Soviets insist it is. "The president has

provided an appropriate first step, a measured response," Javits said. In another development, former Defense Secretary Donald Rumsfeld told the Senate Armed Services Committee SALT II is a bad bargain for

the United States and should be re-

jected by the Senate. Rumsfeld, the Pentagon chief under former President Gerald Ford, said in testimony prepared for delivery today that the treaty would give Americans a false sense of security, and ratification would "codify the United States in a situation of less

than parity.' Rumsfeld noted that in his final report before turning the Pentagon over to Harold Brown in January, 1977, he warned that the Soviet Union was embarked on an arms buildup which could make it the dominant military power in the world.

He said the United States' response has been inadequate and "the situation is now even more serious.'

R.L. Hudgins, 58, no longer has a home. His Elm Reservoir was filled in by the U.S. Army hand-made cave on the banks of the Garza-Little Corps of Engineers. (AP Laserphoto)

'Squatter' loses battle, home

LITTLE ELM, Texas (AP) — A man who literally lived in a hole in the ground finally lost his battle with a couple of mattresses and a battery-powered radio. Last June, government surveyors found that the bur nent, and a bulldozer filled in his 'house" with dirt.

"I never thought they'd do this," said R.L. "Bob" Hudgins, 58, who dug a hole on federal land near Garza-Little Elm Reservoir, covered it with a makeshift roof of logs and scrap metal, and lived in it for six years. Hudgins said Wednesday that he fell in love with the area around the lake, known locally as Lake Dallas,

and decided to make it his home. "I went on a fishing trip up here with a friend about 14 years ago," Hudgins said. "I've been here ever

Hudgins leased regular, above-ground homes around the lake for eight years. The last one burned down. Hudgins said he then dug his home out of the earth with a pick and shovel. He put in a makeshift fireplace,

Last June, government surveyors found that the bunker-home was on federal land, and told Hudgins he would have to move out.

He stalled them until this week.

"We just can't let him stay here any longer," said Dwight Hamilton of the U.S. Army Corps of Engineers. This land is for people to hike on and ride horseback on, and it just can't be tied up for personal use.'

The government shovelers went to work Wednesday around Hudgin's wardrobe that was hanging from tree limbs and a wire fence. They walked across his front porch - a rickety lawn chair and a styrofoam beer cooler.

Then the buildozer.came and finished the job. 'I'm not completely decided yet what I'm going to do," Hudgins said. "I'll just have to dig out another place somewhere else:

Housing forecast includes news of skyrocketing mortgage rates

WASHINGTON (AP) - Mortgage rates could skyrocket to 14 percent by early next year, but it won't matter for people in nearly half the states because home loans won't be available to them at any price, housing officials say.

Moreover, the Federal Reserve Board's fresh anti-inflation initiatives will severely depress the housing construction industry, these experts

Housing starts will plummet as much as 25 percent next year, warned Jay Janis, chairman of the Federal Home Loan Bank Board, which regulates federally chartered savings and loan associations.

While the (Federal Reserve Board's) tight-money approach might reduce speculation in the commodities and slow inflation in other sectors of the economy, the policy is disastrous for potential home buyers and small builders," Vondal S. Gravlee, president of the National Association of Home Builders, said Wednes-

Many Americans will be completely shut out of the housing market beginning in January, said economists for the thrift institutions.

dest because they have laws limiting mortgage rates to about 12 percent or less, making it unprofitable for the institutions to lend because they must pay even higher interest rates to bor-Thomas Parliament, an economis

for the U.S. League of Savings Associations, pinpointed Arkansas, Georgia, Illinois, Iowa, Kansas, Missouri, Nebraska, New Jersey, New York and Texas as very mortgage-dry 'come the first part of the year."

Five percent and 10 percent downpayments, he said, will become virtually extinct. "Twenty percent downpayments will have to become

"Moreover, banks won't let familes assume mortgages if their carrying ordered an autopsy.

costs stretch excessively beyond 25 said percent of their income;" said Parliament

Gravlee said he foresees mortgage rates reaching 13 percent very soon. The difference between an 11 percent and 13 percent rate on a 30-year, \$60,000 mortgage is \$92 a month," he

The dramatic mortgage crunch is the direct result of the Federal Reserve Board increasing its bank lending rate from 11 percent to 12 percent and altering the way it controls the availability of money and credit.

The changes led to immediate upsurges in other short-term interest rates, with many large banks increasing interest charged their best customers - the "prime rate" - to

an unprecedented 14,5 percent. "There is no question that the Federal Reserve Board's recent actions will have a dramatic impact on housing starts next year," Janis said

"This will be the result of a lack of availability of mortgage credit generally and the high rates of mortgages where funds are available," he

Wednesday

Twenty-four states will be hit har- Midland man, 61, found dead

Bill Reed Mints, 61, whose address was given as being in the 2900 block of Michigan Avenue, was found dead about 1:30, p.m. Wednesday near his automobile parked alongside County Road 715 about six miles south of

Peace Justice John Biggs pro-

nounced Mints dead at the scene and

"I expect the (housing) start rates will be off about 20 to 25 percent from present levels during the first half of next year and that mortgage rates may reach an average of about 14 percent," he added.

Mortgages currently average about 11.5 percent, the home loan bank

Housing starts as recently as August were holding up under alreadyrising interest rates. They averaged about 1.74 million units on an annual basis, still far less than the 2 million starts of 1978, according to the National Association of Realtors.

Gravlee said starts next year could be as low as 1.5 million with the cost of construction loans to builders reaching 17 percent to 18 percent.

That increase in financing will boost the cost of building a typical & home by about \$1,000, he added.

A direct result of the housing construction slowdown will be higher unemployment. Gravlee predicts the layoff of about 500,000 workers in construction-related jobs.

Weddle was born April 4, 1896, in Glen Rose. He was married to Mary Elizabeth McDougal April 30, 1916. His wife succeeded him in death Jan.

Survivors include seven daughters, Francis Elliot of Sundown, Peggy Stacy and Dollie Winfield, both of McCamey, Emma Lou Smith of Edmond, Okla., Pat Stroud and Betty Lott, both of Grand Saline, and Bernice-Lewter of Crane; two sons, Marvin Weddle of San Ramon, Calif., and Bob Weddle of Midland; a sister, Oleta Gryder of Odessa, 20 grandm ack moved to Eunice in 1936 where children and 10 great-grandchildren.

Despite losing to Australia, U.S. leading bridge contest

RIO DE JANEIRO, Brazil (AP) -The United States, in firm control of first place in the World Contract Bridge Team Championships, meets its old rival, Italy, in today's competi-

The Americans have won three of their first four matches by large margins, but were drubbed 5-15 by Australia in third round play. The Italian team, which included five former remains in contention in third place.

Australia remains unbeaten and holds second place.

Standings going into the fifth qualifying round were: 1st United States with 62 victory points; 2. Australia 49.5.; 3. Italy 47; 4. Central America 30.5; 5. Brazil 28; 6. Taiwan 17.

Results of third and fourth round in April 1973. matches: Australia tied with Taiwan 10-10; Brazil beat Taiwan 16-4; Central America beat Italy 15-5; United States beat Central America 17-3; Italy beaf Brazil 28-minus 2.

A courteous gesture by a Venezue-lan player was the subject of contro-versy here among the other players. An Italian disaster was impending neil Douglas Corp., the when an Italian player misunderstood the official announcement of his partner's bid and passed a cue-bid. Steve Hamaoui, of the Central American team, not wishing to take advantage of this accident, reopened with a double, allowing the Italians to reach a

Money holdup in Congress won't stop refugee rescues

NEW ORLEANS (AP) — Whether or not the Coast Guard payroll is hung up in Congress, officials say the 8th Coast Guard District will keep on with its main mission - rescuing people and boats in the Gulf of Mexico.

'We're not going to stop picking people out of the water just because Congress hasn't appropriated any money yet," Petty Officer Joe Gibson, a spokesman for the district, said

Gibson said the Coast Guard doesn't get paid until Oct. 15, so it wasn't immediately known if the district will get its usual \$350,000 afterdeductions payroll for the 1,200 officers and enlisted men in the New

"We got a message frm headquarters saying we could spend 40 percent of our first quarter money from last fiscal year for essential operations. things that we have to do," he said.

reminiscent of the Cold War era, presidential adviser Zbigniew Brzezinski says the United States would not hesitate to use nuclear weapons against. the Soviet Union in the event of a Soviet attack on Western Europe. .

Brzezinski told a State Department gathering Wednesday that the Soviets may be tempted to declare war against the NATO allies unless they match the Soviet buildup of nuclear weapons in Europe. Brzezinski is President Carter's national security

His speech to the Atlantic Treaty Association, a private group that supports NATO, was given against a background of growing European concern over the reliability of the U.S. defense commitment. The Western European allies have

been debating the issue in connection with a U.S. proposal to deploy medium-range missiles in Europe to counter Soviet deployment of comparable weapons.

"Let there be no question about our commitment, nor of our determination to help defend Europe by all means necessary, nuclear and conventional," Brzezinski said.

'The United States commitment to the security of Europe is unshakable, it is organic, it is complete," he said. 'We view the security of Western Europe as an extension of our own

European concerns about the U.S. commitment were heightened recenty when former Secretary of State Henry A. Kissinger publicly ques-

tioned whether the NATO allies could Western Europe if the United States continue to count on U.S. security

Brzezinski said the alliance would rope be left at the mercy of the Soviets if it tial and sustained" buildup of theater nuclear weapons, particularly the SS-20 mobile missile which is capable of reaching targets in Western Europe

Down Mexico way

far from heaven, so close to the United States!" never is forgotten for long in the republic which borders our own country

Our relationship has never been easy, and it is not easy today, especially from the Mexican viewpoint.

Octavio Paz, the brilliant Mexican poet and critic, expresses for his countrymen their feeling of exasperation with the United States in a recent issue of The New Yorker magazine.

"Our countries are neighbors, condemned to live alongside each other. They're separated, however, more by profound social, economic and psychic differences than by physical and political frontiers...We are two distinct versions of Western civilization.

It is the Mexican writer's belief that because of its history the United States has always ignored the "others," the minorities inside as well as the marginal countries and nations outside the United States. He also believes that kind of ignorance must give way to knowledge and acceptance of group differences if American for eign policy is going to become

more successful in the future. The need to improve this nation's relationship with Mexico is very much on our minds because

The Country Parson

by Brickman

WASHINGTON MERRY-GO-ROUND

Findings are deleted from report

By JACK ANDERSON

WASHINGTON - The nation's banks spend millions on advertising and free toasters to promote a friendly image — no mean assignment, with Pike's Peak interest rates.

Fortunately for the money men, they have a defender - and a free one The just-concluded visit of Pope It has been thus in every country at that -in the No. 2 spot at the Treasury Department. He is Deputy Secrefary Robert Carswell

Confronted with a draft report that might lead to a suspicion that the big. banks were abetting the cash-only transactions of organized crime and the drug traffickers, Carswell simply deleted the references to such imagetarnishing possibilities. "This report makes the banks look like the bad guys, and I want that stuff out," he explained to associates at the Trea-

Oddly enough, the report he wanted to censor was ordered by the deputy secretary himself. He wanted to trace the flow of greenbacks among the country's federal reserve banks, to see if there were any unusual trends

The Treasury sleuths found that there certainly were. The Miant region's banks showed a suspicious cash surplus. Almost alone among the nation's banks, they regularly wound up with a gigantic hoard of old curreny to turn in for new greenbacks from the Treasury

The New York, Chicago and Detroit regions, by contrast, regularly required far more in new currency to do business than they had old bills to

The conclusion was unmistakable,

professionals in the Treasury and the from Latin America.

The cash paid to the narcotics smugglers was then deposited in Florda banks, which accounted for the enormous amounts of used banknotes especially 20s and 100s — that these banks were turning in to the Treasury. Since underworld payoffs are routinely made in cash, instead of easily traceable checks, organized crime was the most reasonable explanation for the Florida banks' huge

Carswell, a quiet-spoken, bespectacled prototype of the Wall Street lawyer he used to be, admitted as much to our associate Dale Van Atta. Asked about the unusual flow evidenced by the study, he said, "You and I know that it may very well be because of drugs," he said, but added that such a conclusion had no place in what was intended to be merely a "statistical"

Other sources were less sure of Carswell's motives, pointing out that he once had represented Citibank, one of the two largest banks in New York. These sources suspect that the bankrs' image could stand a little downgrading -- that some banks are failing to report large cash transactions as required by relatively new regulations aimed at exposing underworld

Though the flow of cash unearthed

at least to the seasoned, suspicious Drug Enforcement Administration: Organized crime - and particularly that part of it engaged in the drug trade - was withdrawing millions in cash from banks in the north and using it to buy narcotics smuggled in

cash surpluses.

BIBLE VERSE The vast audiences which he attracted certainly could not be

America.

Carter crowd would 'Schapp' Kennedy in Florida caucuses In the past few weeks, ousted Unit- country. Capturing the caucuses in

By ROWLAND EVANS AND ROBERT NOVAK

MIAMI - The surprising amount of political power that President Carter has focused here to avoid defeat by Teddy Kennedy in the Oct. 13 caucuses belies the moribund state of his presidency.

"If Carter would only work Congress or the Russians over like he's working Florida, he would have less to worry about." one neutral observe awed by the sheer power of the Carter performance told us.

There are reasons to spare for his doing so, even though the muscled drive for success here is raising eye brows of politicians and voters dismayed by the string of Carter failures in other endeavors of his presidency.

Reason No. 1: A loss to Kennedy, who's almost-candidacy could be damaged but not possibly destroyed by even a big Carter victory, would finish Carter off as a national leader. It would render the balance of his presidency all but superfluous, particularly in view of Carter's natural constituency in much of the state that borders

That explains the phenomenal and seemingly effective - political engineering plotted by Hamilton Jordan in heading off Sen. Edward M. Kennedy. Jordan's work in the stretch drive to the non-binding but psychologically important Oct. 13 caucuses proves that in the game of elective politics, the flawed White House chief of staff is still very much

Nevak

By no means is a Carter victory positively assured in the obscenely confusing process that will select 879 delegates at 67 county caucuses Oct 13. These, along with 838 non-elected delegates, will then choose their favorite for the 1980 Democratic presidential nomination in a legally meaningless straw vote at the party's November-mock-convention. Next March, the legal Florida primary election will select the actual delegates to the party's New York conention next summer.

But the Oct. 13 caucuses ('a wild animal" in the words of Richard Swann, Carter's chief fund-raiser here) contain so much potential for Carter's political demise that he has galvanized his whole administration to help him. He has also commadeered 99 percent of the highly-effective state administration and political apparatus of popular Gov. Bob Graham, while pulling in money and workers from all over the country.

ed Nations Ambassador Andrew Young personally telephoned three black delegate-candidates on slates committed to Kennedy. His stern message: Don't desert Jimmy Carter now. Two at once removed themselves (one of whom, persuaded to to show broad Kennedy strength. risk-Carter-Young wrath, lateragreed to get back on). Scores of Carter and potential

arter backers have been flown off to a full day of frilly "briefings" on world problems in the White House all expenses paid - to soften them up. A Kennedy leader in Jacksonville's Duval County told us that a contributor to the Kennedy campaign asked to

be relieved of his \$1,000 pledge on grounds that Graham was about to appoint him to a state commission. What is unique is not such routine political arm-twisting but its eye-popping volume. "What we really want, said one of Carter's chief political operatives here, "is not just to defeat Kennedy but to Schapp him. Carter's spectacular ascent four years ago started right here in Florida when he swept the party's mock

with 67 percent of the vote. The "Kennedy '80" leaders, stripped of any public help from the senator, will pull heavily in Carterhating Jewish precincts, particularly the three large counties of Dade (Miami), Broward (Ft. Lauderdale) and Palm Beach. That is Kennedy

convention. His only serious opponent

was then Gov. Milton Schapp of Penn-

sylvania. Carter swamped Schapp

all three big counties would give him 43 percent of the elected delegates. and his top managers - disenchanted 1976 Carter activists — are trying to cut into the traditional, non-liberal yote in central and northern Florida

They might conceivably do that; ina political process that defies accurate forecasting, they might even do better. If they do not, Carter will have proved that even a president flattened by political reverses in Washington can still focus the awesome power of his office to score a local victory. Such a triumph would portend little if any thing for the serious Kennedy contests next winter, nor would it visibly elevate the benighted presidency of Jimmy Carter.

Midland fireman Capt. Corbie D. Friday, left, receives the Firefighter of the Year Award for 1979 from Ray Gwyn, president of the Downtown Lions Club, at the club's luncheon meeting Wednes-

day, Friday, a Midland High School graduate and State Certified Firefighter who served with the Midland department for 33 years, retired earlier this year. (Staff Photo)

Corbie Friday recognized as 'Fireman of the Year'

The Downtown Lions Club recognized its "Fireman of the Year" and heard a talk on "Today's Arson Problem," as it marked the observance of Fire Prevention Week at its Wednesday noon meeting in the Midland

Capt. Corbie D. Friday, a veteran of 33 years with the Midland Fire Department, was inroduced as "Firefighter of the Year." He received a plaque and a check for \$100, awarded by the club and presented by Ray

Jerry Petree, assistant fire marshal, discussed the arson problem in an informative address. He defined arson as the malicious burning of property. He mentioned various reasons for such action, and said that regardless of reason, "you and I suffer the burden of loss in multiple

"Arson is the fastest-growing crime in America today," Petree said, explaining that arson is responsible for 40 percent of the nation's building

"It is increasing at a rate of 20 to 25 percent annually," the speaker said. "It has increased 325 percent over the past 10 years.

"Arson is a serious crime, yet it is one of the hardest crimes to solve," he continued. He said that "fire for hire" is a profitable business for the "profess-

onal" arsonist. He also cited numerous ways in which the arsonists Petree mentioned that an increase in automobile arson has been noted

in recent months, adding that 90 percent of all car fires "are set." He said all of this has resulted in increased arson investigation nationwide, using improved methods of detection. He said that since last Sept. 1, Texas laws have become more favorable for prosecuting the arson-

Friday, one of the club's "Firefighters of the Month" from whom the "Firefighter of the Year" was selected, served as a volunteer fireman for five years prior to serving the city's organized fire department for 28 years. He retired from active service earlier this summer

The 53-year-old fireman is a native of Canton, Texas, but has resided in Midland since he was 6 years old. He and Mrs. Friday, who reside on Star Route A, have a son and a daughter. He was graduated from Midland High School and attended Midland

College for two years, taking fire related courses. He has attended the Texas A&M Fireman's Training School. He is a Certified Firefighter and a State Certified Class "B" instructor Friday has been a first aid instructor for the American Red Cross for 25

years and has been active as a leader in Boy Scout and Cub Scout activities. He is a member of the Odd Fellows Lodge and is affiliated with the North Main Street Church of Christ.

NEW

Named Junior Lioness of the week is Shelley Paxton, 17, daughter of Bob Paxton. The Midland High School senior maintains a 4,3 grade average and is captain of the Packbackers, corresponding secretary of Student Council and a member of French Club, National Honor Society, Junior Council, track and junior varsity volleyball teams. She was junior class president, sophomore class secretary and was an exchange student in Greece.

Practice assault on Cuba put off

MOREHEAD CITY, N.C. (AP) — Bad weather has further delayed deployment of Marines for a mock assault on Guantanamo Bay, Cuba, military officials

The exercise, ordered by President Carter last week as a show of United States military muscle in the face of Soviet troops stationed in Cuba, was dubbed "Operation Reinforcex."

But several setbacks cropped up along the way. The three ships for the expedition were assigned on Oct. 2, but they arrived Tuesday at Morehead City one week late. It had taken four days to load food and one ship arrived without the required combat sup-

Bad weather created high seas Wednesday, making it tough for pilots to land crafts used to ferry soldiers and equipment to the ships.

The unit was scheduled to move into the Atlantic. late Wednesday night for the trip to Cuba, but officials said the loading of ships continued past

"This was a complete surprise to us," said Navy Commander Bill Shannon, in charge of supplies or the USS Nassau, one of the three ships. "It took us four days to load the food."

He said food was loaded from barges at sea near Norfolk. Usually, he said, it is loaded from a dock. where it can be driven aboard by tractors, a quicker

The actual date of the mock attack is being kept a secret, according to Col. Lou Piantadofi, commander of the operation. The Marines began moving equipment into Morehead City from Camp Lejeune, Tuesday might and troops from Camp Lejeune, the New River Air Station and Cherry Point arrived by bus on

The Marine unit is made up of 1,200 combatequipped personnel, a 300-member logistics support unit and a 300-member helicopter squad.

It was equipped with five tanks, 15 halftracks, a battery of 105mm howitzers, eight antitank guns, eight 81mm mortars, 35 heavy machine guns and 26 helicopters. It carried 40 tons of live ammunition, said by officials to be enough to last three to five days under battle conditions.

Military officials said the exercise is no different in size or in routine than other regular deployments

Ector juvenile board to review charges

ODESSA — Ector County's five-member juvenile board was to convene at 10: 30 a.m. today to review evidence of abuse of office against two employees of the county's Youth Detention Center.

County Judge Gary Watkins, a member of the juvenile board, authorized the inquiry about two weeks ago after district attorney's office investigator Jerry Davis received a tip about alleged incidents at the center involving the two employees, a man and a woman.

A seven-page report by Davis has been supplied to other members of the board.

No specifics have been released, but Chief Juvenile Probation Officer Danny Ray Vanderburg confirmed the allegations against the male employee center around an alleged April incident with a 15-year-old girl on a camping trip near Austin.

Allegations against the female employee involve her being found by a policeman last November in a car with a 16-year-old male student.

The woman told police she was in the car with the youth for counseling purposes.

Members of the juvenile board other than Watkins are County Court-at-Law Judge Phillip Godwin, 244th District Judge Joe Connally, 161st District Judge R.L. McKim and 70th District Judge Gene

Arson suspected in Pizza Hut fire

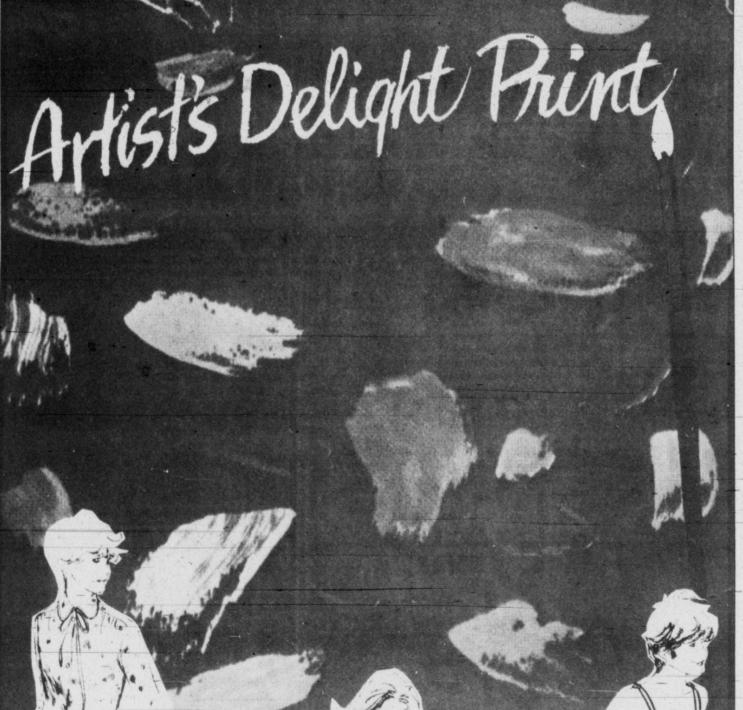

Arson may have been the cause of a fire early today at Pizza Hut, 427 Andrews Highway, fire

"At this point in our investigation the fire seems to have been set," Fire Marshal Herbert L. Bloomer said early today. The attic, rear door and wall of the business were

damaged by the fire about 3 a.m. today, according to a fire department report. The interior of the building was damaged by

smoke, the report added. Six firefighters were at the scene of the fire until

4: 29 a.m., officials said.

New short courses to start next week

Midland College has scheduled five new short courses beginning next week.

An intermediate course in belly dancing and an advanced course in automotive tune-up are on the schedule as are courses in gift wrapping, stained glass construction and an introduction to the commodity futures market.

Belly Dancing II is a continuation of the beginning class and is designed to teach students proficiency as well as new and more difficult dances.

Karen Sharma is class instructor. Classes meet from 7 to 9 p.m. on Mondays and Wednesdays for four weeks.

Classes are limited to 20 students, and the course fee is \$16.

Stained Glass Construction is a six-week course

taught by Beverly Wagner.
Students work on their own projects and learn design, construction of leaded glass planels, copper foiled panels, leading, soldering, putty work and three-dimensional construction.

Classes meet from 7 to 9 p.m. each Monday and are imited to 16 students.

Materials, costing about \$25, may be purchased at

the first class meeting. Course fee is \$25. Lupe Terrazas holds a two-evening course in Gift Wrapping which meets from 7 to 10 p.m. on Tuesday

and Wednesday Timed just before the gift-giving season, students will discover ideas on the neatest way to wrap a package, how to use ribbon and bows to decorate, and many hints on how to make gift wrapping more

eye appealing. Fee for the course is \$9. An introduction to the Commodity Futures Markets will be given by Douglas Forshagen in a four-

week course beginning Thursday. Foreshagen includes information on the use of futures in speculating, the mechanics of trading, market strategy, leverage in buying or selling,

interest rates and futures in cattle and cotton. Classes meet from 7 to 9 p.m. each Thursday, and the course fee is \$11.

An advanced course in automotive tune-up will be taught by Ernest Beck on Saturday mornings from 9 a.m. to noon for six weeks.

Course involves technical aspects of tune-up, including carburetion, scope patterns and engine ana-

Classes are limited to 15 students.

The fee for Automotive Tune-Up II is \$22. Preregistration for all classes is in progress now in room 156 of the Administration Building. Office hours are from 8 a.m. to 5 p.m. weekdays, including the lunch hour.

Students should report to room 156-A 15 minutes before the first class meeting.

More information may be obtained by calling 685-7851, extension 147 or 216.

New York planning to publicize 'Johns'

NEW YORK (AP) - Names of men convicted of patronizing prostitutes in New York are going to be broadcast over the city-owned radio station, says Mayor Edward Koch, who hopes embarrassment will do more to stop the sex trade than some judges have.

"We're going to call it the 'John Hour," the mayor said, using the slang word for those who hire prosti-

Koch said publicizing the names would be similar to the early American custom of locking lawbreakers in wooden stocks and putting them on publi

'That was a deterrent because who wants to be in stocks," Koch said. "But we're not allowed to put people in the stocks any more, so instead, what I'm going to do is to focus public attention by putting their names in the stocks, meaning reporting them on the radio," he said.

The city operates radio stations WNYC-AM and FM. Sources close to the mayor said that no specifics had been determined on the format of such broad-

casts or when they would start.

Koch also said he hoped newspapers would print

The mayor criticized judges for failing to enforce a two-year-old state law increasing the penalties for customers of prostitutes to a maximum 90 days in jail. He said many judges "set their own standards on what the law should be.'

"I believe that it is unfair that we assess criminal penalties for prostitutes, but that we don't assess criminal penalties against the Johns, the men who

use prostitutes," Koch said.

The mayor said he came up with the proposal after a survey of "john cases" handled by Manhattan Criminal Court in April, May and June found that charges were dismissed in 311 of 384 cases.

Koch's proposal was praised by Queens District Attorney John Santucci, but was criticized by a religious leader and the New York Civil Liberties Union, which supports eliminating criminal penal-ties for prostituion.

Armed Forces news

Pvt. Alan M. Morgan, whose brother-in-law and sister, Mr. and Mrs. Jackie R. Brookshire, live in Midland, recently completed Phase I of the two-sta-tion test at Fort Knox, Ky., where he is stationed with the U.S. Army. The test is being conducted to see if basic entry

training can be effectively reduced from 16 weeks to 12 weeks and still be administered at two stations. The second phase will be held at Fort Benning. Airman Linda D. Burnett, daughter of Marie G.

Tyler of Midland, has completed Air Force basic training at Lackland Air Force Base in San Anto-nio and received an initial duty assignment.

During the six weeks at Lackland, the airman studied the Air Force mission, organization and customs and received special instruction in human The airman will now begin on-the-job training in

the transportation field at Francis E. Warren Air Force Base, Wyo. Airman Burnett is a 1970 graduate of Midland High

DES MOINES, Iowa (AP) — Central U.S. carlot beef report — includes, the major production areas in the Midwest and Texas Oklahoma Panhandle as of 11-15.

Compared with Tuesday's close trade slow early, turned moderate. Demand moderate with reported sales steers and heifers steady. Best interest for choice 4 and good 2.3 both classes. Interest in chicago good on heifer beef for Lomorrow delivery, although offerings scarce. Demand for future arrivals cautious as already poor cut-out margin into boxed cuts dropped nearly 50 Pewt on tuesday. Sales reported on 17 loads of steer and heifer beef.

"Steer beef 11 loads (fob Omaha basis), 6 choice 3, 600-800 lbs, 102-25-103-00, steady, 4 choice 2, 600-800 lbs, 102-25-103-00, 1 choice 4, 600-900 lbs, 94-75.

Limited test heifer beef 6 loads (fob Omaha basis), 2 choice 4, 500-700 lbs, 92-75, steady, 4 good 2-3, 500-700 lbs, 493-75. Steady, 4 good 2-3, 500-700 lbs, 493-75. Steady than Friday.

No sales reported on cow beef. Demand light offerings scarce.

Primal beef cuts 12 loads (fob Omaha basis), choice, 3-2, hinds(h), 120-470 lbs, 14-25, 1 fores 130-210 lbs, 85-75, 1-50 lower, 6 fores, 130-210 lbs, 87-25-88-25.

Selected 2 12 arm chucks, 75-120 lbs, pt 1ds 89-75, firm; 12 ribs, 30&dh lbs 138-25.

BUSINESS MIRROR

market

NEW YORK (AP) - The

stock market fell sharply but recovered much of the loss

in an avalanche of trading

today as investors felt the impact of Federal Reserve

moves that drove up interest

rates and worried about the

possibility of a deep recess-

The New York Stock Ex-

change said the record vol-

ume of trading for a single

day - 66.37 million shares,

set Aug. 3, 1978 - was bro-

ken more than 11/2 hours be-

Analysts said much of the

drop, which had been as

much as 25 points on the Dow

Jones industrial average,

was due to selling by traders

who bought their shares on

borrowed money and who

find it unprofitable to hold

the stock while paying inter-

est above 15 percent on their

"panic selling" by some

stockholders, said Robert

Loeb, resident partner of

L.F. Rothschild, Unterberg.

Besides the high interest

rates that drove some mar-

gin traders to sell and fears

of a recession or credit

crunch, Newton Zinder, ana-

lyst at E.F. Hutton & Co.,

noted that some investors

may simply have decided to

sell and take profits after the

Dow industrials nearly hit

KANSAS CITY, Mo. (AP) — Quotations for Tuesday. Cattle 500: Slaughter steers and heifers scarce. Slaughter cows 1 00 1 50 higher than last Wednesday. Feeder steers and heifers little changed. Slaughter cows, high cutter, utility and few commercial 47.75-51.00, higher dressing 51 50-52 50 Feeder steers, medium frame No. 1 muscle thickness 360-500 lb 86.50-93:25, 550-370 lb 74.50-80.00. Feeder heifers, medium frame No. 1 and 2 muscle thickness 530-600 lb 70.50-76-50.

Hogs 1,600. Barrows and gilts steady to firm. 1-2 215-243 lb 35-50-36.00, 13-245-255-4b 35-00-35.50, 255-265 lb 34-50-35-00. Sows, weights under 500 lb steady to 50 lower. 500 lb and heavier steady. 1-3 330-500 lb 30-00-30.50, 500-650 lb 32-50-31.00.

Sheep 50. Slaughter lambs steady. Slaughter lambs, choice, few prime 110 lb with. No. 1 pelts 65-00, wooled 90-105 lb 20-06-300.

Estimated receipts for Wednesday. Cattle 700-bogs 2,000, sheep. 100

AMARILLO, Texas (AP) — Texas Pan handle and western Oklahoma feedlot roundup. Confirmed, 9300. Trade moderate in the Panhandle area

Wednesday. Slaughter steers 1:00-1.5t Lower, heifers fully 1:00 Lower. Feedlow reported only fair inquiry from most buy ing sources. Sales on 6100 slaughter steer.

Slaughter steers, good and mostly choice 70-80 percent choice, 2:3.1075-1150 lb 63.00-66.50. Mixed good and choice, 2:3-1050-1200 lb 64.00-61.50.

900 last Friday.

loses

Inflation could defeat plungers By JOHN CUNNIFF

AP Business Analyst

NEW YORK (AP) - "Invest in inflation - it's the only thing that's going up.

Will Rogers offered the advice partly in jest, but speculators in recent weeks have accepted it as the best tip since somebody discovered the certain route to riches, "buy low, sell high.

They've been investing in inflation, in bars of gold and or silver, in currencies and commodities, not because they need them, to produce goods, for example, but because they think they'll rise in

In fact, it is more correct to say they are investing in price, not product.

Price and profit - that's their interest. To many, the product would be a terrible nuisance. They might not recognize it; they couldn't handle it; they wouldn't know what to do with it.

But they certainly know what to do with the price. When it rises they cash in and look for something else that, because of the underlying energy of inflation, looks as if it could be rocketed even faster. In so doing, as you can readily understand, they

have contributed mightily to some astounding price rises. Gold has risen 40 percent or so in just a couple of months, and silver has increased even more. Currencies, including the dollar, have fluctuated The flood of sell orders that hit the exchange at Many who buy commodities and currencies do times also represented

indeed hold them, but others - too many, apparently jump aboard merely for a free ride. That ride, a joyride for them, means ruinous inflation for serious

It is at speculation, among other things, that recent action by the Federal Reserve Board is aimed. It seeks to bring calm to the marketplace by denying speculators the money with which to specu-

When high expectations are removed, by making it more difficult to obtain money, investments might then be considered more soberly, and more likely

channeled into economically productive projects. The Fed moves in intricate ways, but the net impact of any of its moves is to make it more difficult or more costly for commercial banks to obtain funds

In doing so, it assumes banks will be more cautious about projects on which they lend money; it assumes also that borrowers will think twice or more before seeking loans at increasingly higher interest rates.

It hasn't been alone in delivering the bad news. Other government offices, bank officials and economists have joined in a psychological blitz to shock speculators, other bankers and the public in gener-

John G. Heimann, U.S. currency comptroller, delivered perhaps the most upsetting warning of all, telling the American Bankers Association convention that we should be prepared to see some large banks go under. That message might have had special meaning to

those who survived the Great Depression of the 1930s, but it had significance also to younger people who have been reading anniversary reports of 1929 Leveraging, or building the greatest assets from

the least capital, is part of the American way of doing things but, Heimann very strongly reminded his audience, that it leaves a heavy structure on a Such structures need time to mature, to secure

their base, and that becomes increasingly more many economists now expect will be the case When an economy shrinks, prices tend to con

down, or at least to move higher more slowly. Those highly leveraged folks who bet on inflation might then find themselves without profits and even with-

Will Rogers didn't address himself to that.

Lutheran groups take significant unity steps

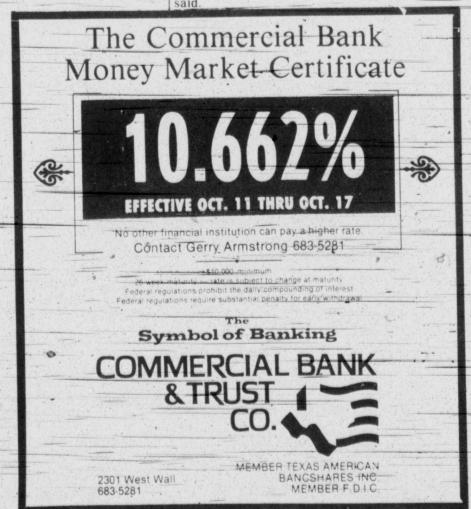

COLUMBIA, S.C. (AP) - The heads of three major Lutheran denominations say they have taken strongly favorable" steps that could lead to uniting he organizations.

The Rev. Dr. Donald W. Preus of Minneapolis, president of the American Lutheran Church; the Rev. Dr. William H. Kohn of Milwaukee, head of the Association of Evangelical Lutheran Churches, and the Rev. Dr. James R. Crumley Jr. of New York, head of the Lutheran Church in America, met for three days in Columbia this week. Greater Lutheran unity could mean "a deep

sense of Christian witness," Preus said in an interview Tuesday. Kohn added it would mean better use of church resources in the mission of the Lutheran The three denominations already are cooperating

through the Lutheran Council in the U.S.A. and in overseas missions through the World Lutheran Fed-But some changes sought by the leaders may not

be easy to accomplish since polity, or the way of onducting denominational business, varies in the The major changes will require constitutional revisions, and may take most of the 1980s, Crumley

What else is new?

WASHINGTON (AP) - President Carter says there is a good chance worldwide crude oil production will decline in the fu-

Overall, there is "the very strong possibility that the trend in production will be downward," the president said Wednesday.

He told a delegation of community leaders at the White House the amount of oil produced by members of the Organization of Petroleum Exporting Countries likely would decline for a number of reasons.

Among them, he said, was the possibility that some OPEC nations would simply find it more profitable to let the oil stay in the ground.

He said the United States is not the only country that is running out of oil, and noted crude has become a political weapon for some oil-producing nations.

Meanwhile, the administration was expected to announce it today it has succeeded in stockpiling 240 million barrels of home heating oil and diesel fuel before winter, according to The New York Times. The newspaper said in today's editions the administration was to release statistics showing it already has met the goal set for the end of October.

Last week, the American Petroleum Institute announced that the nation's inventories of heating oil and other "distillate" fuels jumped by 8.6 million barrels - to 226.8 million barrels - in the week ending Sept. 28. That marked the largest weekly increase of the year.

Industry sources said that substantial gain meant refiners were likely to meet Carter's stockpile goal by mid-October, two weeks early.

Distillates are used for diesel fuels as well as for heating oil. A barrel contains 42 gallons

Suit filed in Houston

HOUSTON (AP) - Two oil reseller companies and four Houston oilmen were indicted by a federal grand jury on charges that they defrauded the government and made false statements by selling low-priced oil as higher-priced crude.

Named in the first nine counts of Tuesday's indictment was Aramada Petroleum Co. of Houston. Armada's president, James E. Fisher, was named in all 21 counts.

The conspiracy count included Mick Hajecate, B.A. Williams and R. Stanley Corbitt. Williams is the former president of Summit Gas Co., which also was charged in the conspiracy

Less ambitious but generally given better odds of success is the other amendment, by Rep. Peter H. Kostmayer, D-Pa. It would freeze the prices of home heating oil and diesel fuel at current levels - and in some cases roll them back slightly - for six

the last day of the fiscal year.

the House debate.

Committee tries to give poor people special aid

By DAVID ESPO

WASHINGTON (AP) - The Senate Finance Committee, nearing the end of its work on President Carter's proposed "windfall profits" tax, is trying to find a way to give special help to poor people hit hard by rising energy

Committee members all but wrapped up work on the tax itself Wednesday, coming up with a plan estimated to produce \$65 billion for government coffers through 1990.

Sen. Russell B. Long, D-La., the committee chairman, said he hoped the panel's members could agree today on a low-income fuel assistance provision for the measure.

Beyond that, the committee must make final decisions about what taxcredits to offer to businesses or homeowners as an inducement to conserve energy or produce alternatives

The Carter administration has recommended spending \$1.6 billion this winter alone to help the nation's poor handle their energy bills, and also is proposing a longer-range program at a cost of more than \$20 billion.

Included in the \$1.6 billion targeted for this year is \$1.2 billion that would give qualifying poor and elderly single people government checks of about \$100. Families could receive

Carter administration officials have said the president's plan is "contingent" on passage of the proposed windfall tax. The president has asked Congress to approve the tax on a portion of increased revenues the oil industry will receive because of his decision to remove federal price conrols on oil.

There are several rival fuel assistance proposals pending in the Senate, including some for "energy stamps" patterned along the lines of the existing food stamp program.

Some senators also favor special tax breaks to help offset the cost of heating a house.

The Senate committee, in one of its last major decisions on the tax portion of the legislation, refused Wednesday to levy the tax on oil owned by states or local govern-

The committee had voted earlier to exempt such oil from the tax, but Sen. John Danforh, R-Mo., tried to force a change on grounds the exemption, unlike others the panel has approved, would not result in increased oil production, and would cost the government an estimated \$4 billion through

His proposal was defeated, 12-5, with several committee members elaiming the tax would be an unconstitutional federal levy on state prop-

The committee also agreed to a proposal by Sen. Malcolm Wallop, R-Wyo., to begin phasing out the tax when the government has received 90 percent of the revenue it is estimated the levy will produce. The tax would be phased out over 34 months.

In comparison to the \$65 billion the Senate committee tax would raise, the House approved a bill estimated to raise \$104 billion. The Carter administration's latest recommendations are for a tax resulting in \$118 billion in revenues.

lax on state oil rejected WASHINGTON (AP) — The Senate

Fnance Comittee rejected a move Wednesday to impose a "windfall profits" tax on oil owned by state or ocal governments.

The vote was 12-5 against a proposal by Sen. John Danforth that would have added an estimated \$4 billion to the government's tax revenue over the next decade.

The committee is working on a tax HOWARD COUNTY
Tom R. Metcalfe No. + Kim Unit, that officials estimate will produce about \$65 billion through 1990. The House approved a "windfall profits"

for tax earlier this year with estimated

for the standard for the standard for the form of the form \$104 billion.

The Senate committee has voted several exemptions from the tax as it has gone along, including one earlier for oil owned by states or local governments.

crucial test in Congress 'That would get us through the winter," Kostmayer said.

President Gerald R. Ford removed

price controls from these so-called

Oil de-control policy faces

middle distillate" fuels in 1976. Carter has the power to reimpose them administratively but has declined to do so. Kostmayer's amendment has solid

backing from Northeastern members and is also drawing considerable support in the Midwest, where the cost of diesel fuel is a big concern of farmers and truckers.

The White House is entering the battle without help from its traditional No. 1 ally on energy issues. House Speaker Thomas P. O'Neill, like other members from New England, finds himself under heavy pressure from constituents to do something about rising home heating oil prices. O'Neill is a Massachusetts Democrat.

In most of the Northeast, the price of heating oil has risen to more than 80 cents a gallon since last winter, a

climb of about 60 percent. House supporters of a return to petroleum price controls said the time was ripe to strike in view of recent actions by the Senate Finance Committee to water down the president's 'windfall profits'' tax. Moffett contended that decontrol would lose its attractiveness in the absence of a

strong windfall profits tax. The House-passed tax would soak up some of the additional revenues oil companies will reap from decontrol and channel the money into social and

energy-research programs. But the Senate panel whittled down the tax to where it would raise about \$65 billion through 1990, about half what the House and administration
