

Shirley Hufstedler

Woman judge to be first education boss

WASHINGTON (AP) — President Carter is bringing the first woman ever appointed to the federal appeals bench into his Cabinet as the nation's first secretary of education.

The president was set to nominate Shirley M. Hufstedler, a liberal-tomoderate California Democrat, to oversee the new Department of Education, according to a senatorial aide. The new agency will have a \$14 billion budget and about 17,000 employees.

An administration source, who asked not to be identified, confirmed that Mrs. Hufstedler, 54, had been offered the job and had accepted. A

formal announcement was expected

Roy F. Greenaway, administrative assistant to Sen. Alan D. Cranston, D-Calif., said Monday night that White House officials have advised the senator Mrs. Hufstedler had been

Greenaway said Mrs. Hufstedler, a Democrat, met with Vice President Walter F. Mondale on Monday morning and with the president later in the

"I have devoted a great deal of my life to education and have a commitment to education," Mrs. Hufstedler was quoted as saying in today's editions of the Los Angeles Times.

"I have intense concern about the quality of education for all Americans, particularly those in primary and secondary schools," she told the newspaper shortly after her meeting with Carter on Monday. "But I don't have any specific ideas right now about the Department of Education because I simply don't know enough

about the entire program." Mrs. Hufstedler lives in Pasadena, Calif., with her husband, Seth M. Hufstedler, a prominent California attorney. She has one son, Steven.

Observers of the federal judiciary consider her liberal to moderate in her judicial philosophy; she had been mentioned as a prime candidate to be the first woman on the U.S. Supreme

In 1969, President Lyndon B. Johnson appointed her to the 9th U.S. Circuit Court of Appeals, making her only the second woman to be named to a circuit court position and the first to

the appeals court level. Her professional life has been de-

yoted to the practice of law. Mrs. Hufstedler was born in Denver and graduated from the University of

New Mexico in 1945 and the Stanford Law School in 1949, where she served

on the Stanford Law Review. She began practicing law in 1950 and was appointed a Los Angeles County Superior Court judge in 1961.

In 1966, she was appointed to the California State Court of Appeals. She has a strong interest in education, serving as a trustee of the California Institute of Technology, Occidental College and the Aspen Institute

for Humanistic Studies. The legislation creating the Cabinet-level Education Department was signed into law by Carter on Oct. 17.

South Korea names new CIA director

SEOUL, South Korea (AP) - Acting President Choi Kyu-hah named a new director of the Korean Central Intelligence Agency today in what was seen as the first major step to consolidate the government's position following the killing of President Park Chung-hee by the

The government also announced relaxation of the curfew and other martial law restrictions, as the fourth day since Park's death passed with no disturbances

Choi appointed the vice army chief of staff, Lt. Gen. Lee Hul-sung, as acting KCIA chief to replace Kim Jae-kyu, under arrest for the assassination of Park Friday night. Sources said Choi's first appointment was an important

move by Choi and the military leaders cooperating with him to take over the now-disorganized secret police organization, a mainstay of support for Park in suppressing dissent and political opposition during the late president's 18 years of autocratic rule.

The sources also said Choi and two other former prime ministers are leading contenders to succeed Park. They said Choi, a veteran bureaucrat who was prime

minister when Park was assassinated, and top militags commanders are firmly in charge at the moment. Meanwhile, the political leadership of Park's Democratic Republican Party is in disarray and is being ignored by

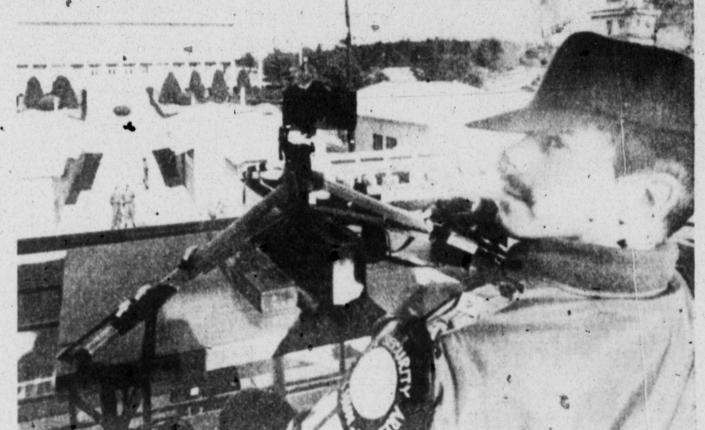

The leading candidates for the presidency appear to be two former military men who were among those closest to Park and served him as prime minister: Kim Jong-pil and Chung Il-kwon. Kim was the chief organizer of the 1961 coup that put Park in power and the founder and first head of the Korean Central Intelligence Agency, while Chung has held a number of top army and political

"However, both have been tested as prime minister and their positions are well known," said one source. "Both have some opponents inside and outside the party. Therefore Choi Kyu-hah may emerge as a compromise candidate to take power, with some understanding among the opposing political forces that political reforms will be made within a certain period.

Another source said: "Choi does not have strong connections with the military or the party. That's his weakest point, but in this situation it's also his strongest point.'

Most sources agreed that the new government would have to relax the tight restrictions on dissent and opposition to the government because of the unrest that has been growing recently.

Rosalynn, Reagan seek Houston votes and money

Ronald Reagan

HOUSTON (AP)- Rosalynn Carter came to delegate-rich and money-rich Houston Monday seeking support for her husband, while a few miles away Republican Ronald Reagan was seeking the same things--votes and contri-

Mrs. Carter, who was presented a list of 250 Texans ready to work for the renomination and the re-election of the president, put in a full day plugging for the Carter policies and attending two fund-raising affairs.

One was a \$1,000-a-person reception, the other a \$100-a-person affair. Reagan, one of the front leaders for the GOP presidential nomination, attended a reception with Houston homebuilders and then hosted a moneyraiser with singer Wayne Newton-the entertainment.

Reagan backers reportedly raised more than \$110,000 for the governor's still unannounced presidential campaign at the Newton concert, attended by a near capacity crowd in the 2,800 seat Celebrity Circle. Reagan carefully refrained from announcing he is definitely going to be

a Republican presidential candidate. "I have said it will be all right with me if people don't get committed to somebody else," Reagan said.

Reagan told a brief news conference on his arrival in Houston he would make his formal announcement Nov. 13.

The first lady told a brief news conference, "Jimmy has faced every crisis, and so few have had the courage to stand up to unpopular issues. "The American grass roots level appreciate that courage and will sup-

In answer to a question concering Chicago Mayor Jane Byrne's decision to back Sen. Edward Kennedy, Mrs. Carter said, "We were disappoined. I thought she was going to support us. Mayor Byrne will be mistaken if she

She added, "Most mayors support my husband for what he has done for

the cities. Democratic governors support my husband for what he has done for the states.'

The Texas Carter-Mondale Steering Committee list included seven county party chairpersons, including those from the populuous counties of Bexar (San Antonio), Tarrant (Fort Worth) and Dallas (Dallas).

There also were 12 legislators on the committee, including House Spenker Bill Clayton.

And there were Calvin Guest of Bryan, former state Democratic party

chairman; John Hill, former attorney general and unsuccessful gubernatorial candidate; Lt. Gov. Bill Hobby; Robert Krueger, former congressman and special ambassador to Mexico; Ms. Cecile Russell, president of the Texas State Teachers' Association; and A.C. Sutton, president of the State Conference of the NAACP.

Reagan said in a brief interview that the federal government was responsible for most of the trouble in the nation today. .

"If Washington would stop meddling with the economy and get out of the oil industry, the problems would end," he said. Mrs. Carter, in later appearances before the Texas Municipal League

and the State Democratic Executive Committee, repreated that the president had made unpopular decisions because he faced troublesome ques-In her speech to the munincipal league, she said, "In the last 2 12.

years, your president, my president, has taken on the whole range of intractable and tought and controversial problems.

"Problems that have resisted solutions for years, even decades. Yet, never once, did Jimmy Careter let considertion on popularity or political

She added, "If Jimmy had made all of his decisions based on the polls, he would be back in Plains, Ga., today.'

Recently there was a letter regarding the intersection of Cuthbert and Garfield. It was confirmed by the Traffic

Department that this is an offset intersection. The lights are cycled for three changes and a right turn on red by a motorist would be dangerous because he might be caught between two directions of traffic.

My question is why is no one concerned about the danger the elementary school children face on their way to and from school? For years, there

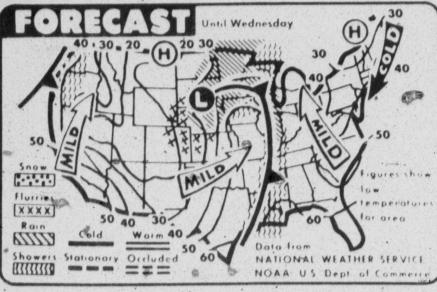

has been a uniformed crossing guard at Country Club and Garfield. I was informed that due to a survey, a crossing guard was no longer needed at that crosswalk.

Now the crosswalk has been moved from Country Club to this offset intersection that is too dangerous for a child to cross unassisted.

When I inquired about the change of the crosswalk, I was informed a button would be installed for the children

Chrysler may be misleading Congress, panel member says

WASHINGTON (AP) - The Chrysler Corp. may be misleading Congress and the Treasury Department about its ability to survive if financial troubles force it into bankruptcy, Rep. S. William Green, R-N.Y., said today.

Green, a member of a House subcommittee holding hearings on Chrysler's request for government loan guarantees, said the latest financial plan submitted by the automobile firm ignores potential sources of reve-

Chrysler officials have said that sales would plummet and suppliers would shy away if they declared bankruptcy, a legal procedure by which failing businesses sometimes can be salvaged under court supervi-

But in a statement prepared for delivery as the panel prepared to hear testimony from bankruptcy experts, Green said suppliers who already were owed money by Chrysler would have "absolute priority" under a bankruptcy proceeding and new suppliers "would have the highest securi-

Green said he had "an open mind" on aid to Chrysler but questioned the ability of its management.

"Perhaps...management should explain why in the face of apparent mismanagement over the past decade, Congress should expect a sudden turnabout in the quality of the corporation's thinking and execution," he said.

Chrysler, which expects to lose \$1 billion this year, is seeking at least \$750 million in loan guarantees. The administration has not announced what it will recommend

The economic stablization subcommittee of the House Banking Committee is scheduled to conclude hearings on the issue Wednesday and begin acting on legislation Thursday.

Davis' defense team objects to state's rebuttal strategy

FORT WORTH, Texas (AP) - Defense attorneys have objected to the state's rebuttal strategy in the Cullen Davis retrial, saying prosecutors tried to use the defendant's constitutional right to remain silent against

But chief prosecutor Jack Strickland countered Monday that the defendant and his attorneys were attempting to turn the "constitutional shield into a sword" through a story the defense "fabricated after the ar-

At issue was testimony by two FBI agents who said they neither spoke nor refused to speak with the Davis

after his arrest on a murder-for-hire

charge Special Agent Bob Oakley said he made "eye contact" with Davis moments after his arrest, but that there

was no conversation. Special Agent Jim Acree, who was scheduled to return to the stand today, said he arrived at FBI headquarters shortly after Davis was taken into custody, but that he had no

occasion to talk with the defendant. The rebuttal testimony was designed to cast doubts on Davis' testimony that he thought he was working with the FBI during his August 1978 meetings with informant David

High winds, tornadoes hit state

By The Associated Press

A menacing West Texas storm system spawned hurricane-force winds and tornadoes today, striking bangs in West Texas and Graham in North

The Department of Public Safety in Mineral Wells, monitoring the Graham Police Department, quoted Graham authorities as saying high winds damaged homes in the McCracken Addition in the north part of town, the Shepard Motel on the west side of the downtown area and the Golden Age Nursing Home on the West Side. There were no immediate reports of death or injury, but power lines were

Other reports had a tornado skipping through the town, about 60 miles south of Wichita Falls, and striking the affected areas

First reports of damage came at

A small tornado touched down just before dawn at Bangs, but there were no immediate reports of serious damage or injuries.

The DPS also reported a tornado to the north of Mineral Wells near Salesville in Palo Pinto County.

Howling northerly winds gusted to hurricane force in the Texas Panhandle early today as a strong storm system brought snow to northerly sections.

The storm cell set off severe thunderstorms across a vast area of West and North Central Texas, prompting tornado watches and warnings.

The storm system developed in West, Texas late Monday afternoon and was joined by an extreme cold air system moving in from Colorado in advance of a rapidly developing winter storm.

Forecasters said as much as two inches of snow could accumulate in the northern sections of the Panhandle before the snow ends tonight. The snow combined with gusty winds to create hazardous driving conditions, prompting the National Weather Service to issue a travelers' advisory for the Panhandle.

Very cold air was surging southeastward across the state. Highs were to range from the 40s and 50s in Northwest Texas to to the 80s in the southeastern third of the state.

Temperatures were expected to plunge into the middle 20s by daybreak Wednesday in Panhandle. Although the front was expected to move into South Texas by late night. early morning temperatures were expected to remain near 70 by early Wednesday.

The severe thunderstorms moved across West Texas into Central Texas by dawn, accompanied by heavy rain. gusty wind and occasional outbursts of hail.

Winds gusted to 74 mph in a thunderstorm at Amarillo late Monday as hail ranging from pea-size to golf ball-size fell. Golf ball-size hail also was reported 4 miles west of Claude and near Muleshoe.

Abilene had wind gusts to 46 mph, pea-size hail and about half an inch of rain in a 30-minute period early today. Some wind damage was' reported at Colorado City at 3 a.m. when the storm, accompanied by gusts of up to 45 mph, moved through.

Winds estimated at 50-60 mph, accompanied by hail, struck an area about 5 miles west of Reese Air Force Base near Lubbock shortly after mid-

Early morning temperatures were mostly in the 60s and 70s. Extremes ranged from 34 at Dalhart and 38 at Amarillo to 79 at Brownsville and McAllen.

Temperatures to drop near 40

Inklings of winter may move into Midland tonight as the temperature, chilled by westerly winds, is to drop to near 40 degrees

But a false "blizzard," minus the cold and snow, whipped into Midland about 11:15 p.m. Monday. Southeasterly winds gusted to 48 mph and seemed to usher in quarter-inch soft hail and .06 inch of rain shortly after midnight, said a weatherman with the National Weather Service at Midland Regional Airport.

The light rainfall brings the month's accumulation to 0.97 inch and the yearly total to 13.25 inches. This exceeds the 12.50-inch average rainfall through October.

Wednesday's high reading should be in the mid-60s, which will be about 20 degrees lower than Monday's high

Though the wintry nip of fall has yet plunged Midland into a freeze, the time is nearing, said the weather-

The average date of winter's first killing freeze is Nov. 11, though the earliest freeze on record came on Oct.

The latest first freeze on record was on Dec. 6, 1954.

The record high temperature reading for an Oct. 29 is 90 degrees in 1933. The record low for an Oct. 30 is 35 degrees in 1949. The weather was windy and chilly

throughout most of the Midland area this morning, and some weather observers in neighboring towns reported rain.

Rankin and Big Lake received a shower last night, and Big Spring got a touch of small hail and rain. Odessa was wind-whipped and recorded a

Addie Barlow Frazier, 73, active in the Ku Klux

obtained a parade permit for Dallas' first organ-Klan more than a quarter of a century, recently ized Klan march since the 1920s. (AP Laserphoto)

Dallas grandmother lives as 'dedicated Klan fanatic'

DALLAS (AP) -- Her modest home is shaded by a large pecan tree, and inside a rocking chair sits near a fireplace. But visitors suspect there is something unsual about this place from the moment they ring the doorbell.

It plays "The Star Spangled Banner." Visitors are sure when they enter and find Addie

Barlow Frazier, 73, a great-grandmother, wearing a Ku Klux Klan robe and hood, KKK earrings and a Klan She has a KKK altar and sacred sword in her

bedroom and keeps a loaded pistol by her bed. * 'We risk our lives to wear these robes and hoods,, says Mrs. Frazier, who holds the Klan post of "Kleagle of the Realm." She says she spends her time "promoting God's word through the Klan."

Mrs. Frazier has stirred a local controversy by obtaining a parade pemit for a Klan march in downtown Dallas next Saturday morning. The Klan hasn't marched in Dallas since the 1920s. Anti-Klan groups have merged for a counter-demonstration half an hour

*We're getting up the white Christian army to fight these Communist devils," she said. "We'll fight them with ballots and boycotts. We don't use bullets unless we have to - for self defense.

Mrs. Frazier says Saturday's Klan march, billed "The March of the Christian Soldiers," is being held

"to save an endangered species - the white race." "Freedom of assembly is one of the freedoms white people are losing," said Mrs. Frazier, a widow who became active in the Klan in the mid-1950s. She calls herself a "dedicated fanatic" and says her behavior carries certain risks.

"I was looking at television one night when a brick was hurled through the front door (window). I found a stick of dynamite on my driveway once. I've found dead cats in my flower bed. I've had people threaten to assassinate me," she said.

But so far nothing has happened to her.

"If I were any healthier I'd have to take something for it," she said. "Somebody will have to shoot me to get rid of me. And there are plenty of people who'd like to do it.

"I guess the reason I'm not scared is that I'm a dedicated fanatic.

Besides her Klan trappings, Mrs. Frazier keeps an American flag and a Confederate flag in her bedroom. "I used to keep them outside, but too many of them got stolen. I can't afford to keep buying them," she said. She says Franklin Roosevelt became the nation's first communist president and all presidents since then have been Communists.

"You can't get elected dogcatcher in this country without the support of the international communists." Mrs. Frazier says.

Delayed combat stress: Vietnam veterans react to 'national error'

By BARRY RENFREW

later-along the same parade route.

HUNTINGTON, W.Va. (AP) - For years, the men seem calm.

Then something sets off the guns in their heads, the long silent guns of, Vietnam, bringing back the trauma of combat and reopening the festering

Harold Mann, who was a medic in Vietnam, held 27 persons hostage at gunpoint in a tiny church in St. Albans, W.Va., nine days ago. He surrendered after making an obscene statement on the radio in which he complained of medical problems the military had ignored.

Clinical psychologists believe the Vietnam veterans who explode so violently are reacting to delayed combat stress, the haunting return of the memories and fears of combat in Vietnam.

"These people are not crazy," said Don Crawford, a Veterans Administration official. "They've been traumatized by war and need help to adjust.

Little is known about the delayed stress reaction. Researchers are just

starting to study the problem, and they warn that Mann will not be the last veteran to explode. "They have flashbacks of injury

and death. In one case, a vet kept seeing decapitated bodies after 10 years of no problems," said Malcolm Farmer, head of counseling at a local

'We're going to have to live with it for years and years," said Crawford. "If we had started doing something about it 10 years ago it might have been better. Now the problems are complex beyond our understanding.

"We've made a national error that we're going to have to live with,' Crawford said. In an effort to deal with delayed

stress and other chronic problems that trouble veterans, Congress this summer authorized the VA to set up Operation Outreach. Under Crawford's direction, 71 special counseling centers are being set up around the The program was first proposed

eight years ago.

Larry Lapelle, a VA vocational counselor in Huntington, dealt with Mann in a number of veterans programs. He also grew up with Ashby Leach, the Vietnam vet from Huntington who held 13 persons hostage at the Cleveland headquarters of the Chessie System railroad in 1976.

Both men raged at what they said was the indifference of America to the problems and anguish of Vietnam vets. Before their outbursts, they were quite different, Lapelle said.

Mann, working as an ambulance paramedica, was "very, very upset

about where he was in life and what

he wanted to do," Lapelle said. Leach - a former Chessie employee - "was a pretty solid citizen without any problems." Leach is now in an Ohio prison. Mann, charged with kidnapping, is at Weston State Hospital for psychiatric tests.

Lapelle said Mann's "reactionse were quite normal.

"We just don't know that much about these explosions. Maybe re contact with Mann could have prevented it. But there was just no time,' he said.

Charles Figley, professor of psy-chology at Purdue University and a pioneer in the study of delayed stress reaction, described the phenomenon as the eruption of long-simmering pressures and memories.

"Delayed stress basically is putting off dealing with an extremely difficult period in life," he said.

Combat stress is not new but Vietnam veterans faced unique conditions in combat and at home, Figley said. A nightmarish guerrilla war in a threatening, alien world and the nation's indifference when they returned clouded their minds with feelings that have never been confronted, he said.

"They're acting out of resentment, the feeling that they gave part of their lives and deserve some recognition,' Figley said. "If you scratch any Vietnam veteran that hostility will come through. Unlike veterans of other wars they never received any recog-

Studies suggest that up to 85 percent of Vietnam combat veterans are troubled by war memories and a sense of "bitterness and resentment over feelings of being used," Figley

to push and the lights would all turn red. Will it be instaffed before a child is injured, and will it be like the traffic light at Big Spring and Wadley - take forever? - Sandy Wilkerson

ANSWER: Doug Vanover, traffic coordinator for the city of Midland, said delivery of the equipment for installing the button to change all lights red for crossing has been very slow. He also said it will be installed as soon as possible after its arrival.

The light for the intersection of Big Spring and Wadley also has been delayed because of the lack of more necessary equipment, some of which has been installed.

I am having difficulties in getting a roofing company to honor its contract with me. What should be done? Wayne Harris

ANSWER: Contact the Better Business Bureau of the Permian Basin, 563-1880, for assistance. How do I go about donating my

body for medical science? - C.B.

ANSWER: Write to the National Society for Medical Research, 111 Fourth Street, S.E., in Rochester. Minn., and request the forms you need for such a procedure. Inciden tally, medical scientists are unable to acquire the 5,000 bodies they need fo training future scientists.

What can be done about interfer ence on television from CB users especially CB Channel 6? - Danie Ramirez

ANSWER: The only solution to this

problem, according to a local television dealer, is for the CB operator to purchase an adapter, which is available, for his equipment that will eliminate the interference. There is nothing which can be placed on a television set to prevent the prob-

I wonder why dogs running loose are not picked up? In my neighborhood, where the city

has made a count of dogs, there is a Chihuahua which runs loose. It has been picked up by the city, but the owners pay the fine and he is running loose again the next day. - J.R.

When the owners of an animal 'confiscated" by the Animal Control Center pay the fee for release of their animal, the only recourse is for the owners to regain the animal. If they allow it to run loose again, contact the center again.

Ruby Fay West

LAMESA — Services for Ruby Fay West, 96, of Lamesa will be at 10 a.m. Wednesday in First Baptist Church chapel with burial in Lamesa Memorial Park, directed by Branon Funeral Home.

She died Monday in a Lamesa how pital following a lengthy illness.

A native of Mason County, Mrs. West moved to Lamesa from Bennington, Okla., where she was a past matron of the Order of Eastern Star. She had lived in Bennington since

Survivors include four daughters, Mrs. E.E. Tarter and Thelma Tarter, both of Lamesa, Gwendolyn Horner of Durant, Okla., and Evelyn Moffett of Bennington; six grandchildren and three great-grandchildren,

Ursula Robles

LAMESA — Services for Ursula Robles, 81, of Lamesa will be at 2 p.m. Wednesday in St. Margaret-Mary's Catholic Church with the Rev. Jerome Vitek officiating.

Burial will be in Lamesa Cemetery, directed by Branon Funeral Home. Mrs. Robles died Sunday in a Colo-

rado City nursing home, where she had lived for two months. She was a native of Pleasanton. She

was a Catholic Survivors include a son, Manuel Robles Sr. of Lamesa; four daughters, Petra Arguijo of San Antonio, Lucy Gonzales and Jeannie Martinez, both of Colorado City, and Andrea Robles of Odessa; five grandchildren and 30 great-grandchildren.

Mrs. Bromley

SWEETWATER - Services for Mrs. G.C. Bromley, 73, of Sweetwater, mother of Jimmy Bromley of Andrews, were to be at 25.m. today in the Cate-Spencer Funeral Home chapel. Burial was to be in Garden of Memories Cemetery.

Mrs. Bromley died Sunday in an Odessa hospital. +

She was born Nov. 23, 1905, in Mississippi, and moved 50 years ago to Sweetwater from Snyder. Her husband, G.C. Bromley, died in 1961.

Other survivors include two daughters, two sons, three sisters, a brother, 13 grandchildren and five greatgrandchildren.

Edna Blancet

GORMAN - Services for Edna Virginia Blancet, 59, of Gorman, sister of Mona Taylor of Midland, were Sunday in Higginbotham Funeral Home chapel. Burial was in Oaklawn Ceme-

Mrs. Blancet died Saturday in a Gorman hospital following a brief ill-

She was born April 3, 1920, in Stamford and was a member of New Hope Baptist Church. She was married to J.B. Blancet on June 14, 1939, in

Other survivors include her husband, a daughter, her mother, a brother, four sisters, and a grand-

Caroll Peters

LUBBOCK - Services for Caroll Landon Peters, 24, of Lubbock and formerly of Lamesa, will be at 11 a.m. Wednesday in Bethany Baptist Church. Burial will be in Resthaven Memorial Park, directed by Resthaven Funeral Home.

He was killed Sunday in a truck mishap near Fort Stockton A Lamesa native, Peters moved to

Lubbock in 1959. He was married April 6, 1974, to Carolyn Phillips in Lubbock. He was a member of Bethany Baptist Church.

Survivors include his wife; his parents, Mr. and Mrs. Glenn Peters of Lubbock; two sisters, Della Peters and Debbie Peters, both of Lubbock; and his grandparents, Mrs. L.L. Peters Sr. and Mr. and Mrs. A.E. Gillit, all of Lamesa.

John Alfred Kee

OLNEY — Services for John Alfred Kee, 75, of Olney, brother of Silas Kee of Midland, were Saturday in Southside Baptist Church with burial in Restland Cemetery, directed by Lunn Funeral Home.

He died Thursday in an Olney hospi-

Kee was born Dec. 31, 1903, in De-Leon. He was a retired farmer and had lived 37 years in Olney. He was a member of Primitive Baptist Church. He was married to Pearl Hogan in

1925 in Munday. Other survivors include his wife, a son, three daughters, two brothers, two sisters, six grandchildren and two

Chinese scientists use old remedies successfully

WASHINGTON (AP) - Chinese scientists say they are discovering the ways many ancient folk medicines work and are using the best of these herbal, root and plant remedies to treat patients.

Chinese drug specialists told their American counterparts Monday that they have isolated hundreds of chemical ingredients from more than 80 kinds of plants and are using some of them to successfully treat everything from high blood pressure to cancer.

"In our country, increasing emphasis has been laid in recent years on researches on natural products for medicinal use," Zhang Juntien told a meeting at the National Academy of Sciences.

Zhang, deputy director of the Institute of Materia Medica in Shanghai. said there are 5,000 species of medicinal plants in China, including 1,000 that remain in common usage after hundreds of years.

The scientist said the Chinese consider traditional drugs and medical practice "a great treasure house" to be explored and exploited, an important foundation on which the country can build an extensive and independent drug industry.

The meeting was the first bilateral scientific symposium between the United States and the People's Republic of China. It was co-sponsored by the academy's Institute of Medicine and the Chinese Academy of Medical Sciences. The 10 Chinese scientists in the delegation presented technical pharmacology reports as did some of the 40 Americans attend-

Zhang said a chemical isolated from the bark of a cephalotoxus tree native to China has been very promising against certain forms of leuke-

The drug, called harringtonine, is one of thousands of herbal preparations screened for anticancer activity and was found effective against a number of animal tumors, including some resistant to other treatments.

In clinical trials with 72 leukemia patients getting no other treatment, 24 achieved complete disease remission, 38 had partial remission and 10

failed to respond, Zhang said.

The drug is being used in several clinics in China and more than 200 persons have been treated with some success, the Chinese scientists said. A major side effect of this treatment, like other anticancer drugs, is that it suppresses the body's immunologic capacity and the ability of bone marrow to produce blood cells, they added.

Ding Guangsheng, chairman of pharmacology at the Shanghai institute, reported on several plant chemicals tested by his group.

The root of the corydalis ambigua plant has been used for more than 1,000 years to relieve pain. Scientists found the active ingredient to be a chemical called di-tetrahydropalmatine (THP), shown to produce a sedative and pain-killing effect in animals,

THP was found to be a non-narcotic and there were no signs of addiction in monkeys given it continuously for five months. In clinical practice with humans, THP has been an effective pain reliever and sedative that also worked against anxiety insomnia, he

Leftists release 276 hostages after government uses force

SAN SALVADOR, El Salvador (AP) - Leftists holed up in two government buildings released 276 hostages they had held for five days after police and soldiers fired into a leftist street demonstration.

The Red Cross said at least 24 persons were killed, and dozens more were wounded Monday in the new government's first-employment of force against leftists demanding an end to military dominance of El Salvador, Central America's smallest and most densely populated nation.

About 1,000 members of the Popular Revolutionary Bloc were still holding three cabinet members, eight other officials and a Chilean official of the Organization of American States in the Labor and Economy Ministry buildings, which they took over last Wednesday.

The army surrounded the two government buildings and several downtown churches the leftists were occupying, but there was no apparent attempt to dislodge those inside.

Police and soldiers in armored vehicles opened fire on about 150 masked demonstrators marching toward the office of La Prensa Grafica, one of two newspapers bombed by leftists on Sunday. Marchers said the demonstration was a warning to the media "to quit being used by the military.

The shooting spread through 20 blocks of downtown San Salvador. By midnight, however, the streets were deserted, and military patrols had withdrawn after chasing away looters and demonstrators who had occupied the plazas for days. But 11 bodies wrapped in red and black flags remained where they fell, and a hospital source said "dozens were injured with bullet wounds.

French labor minister found dead; Authorities tentatively ruling suicide

PARIS (AP) - Labor Minister Robert Boulin, whose family said he was depressed over accusations he was involved in a Riviera real estate scandal, was found dead this morning, an apparent suicide, French officials said.

Boulin was found in a shallow pool near his car in the Rambouillet Forest southwest of Paris with an empty bottle of barbiturates nearby, officials said. The regional attorney general said the death "appeared to be

His family said Boulin appeared depressed and forgetful following publication last week of an expose about the alleged scandal. One of Boulin's two sons added tearfully: "Honesty doesn't pay."

Police had rushed to the Rambouillet Forest after aides in Boulin's office found a suicide note marking the location. A note to his wife and another to his closest aides were found in Boulin's car, officials said.

Before his death, Boulin had denied any wrongdoing in the affair.

Premier Raymond Barre said he was "overcome with sadness" to learn of Boulin's death. Jacques Chaban-Delmas, president of the National Assembly, praised Boulin as "an honest man. He wished that no one doubted it."

Last week the satirical weekly Le Canard Enchaine claimed that in 1974 Boulin paid about \$9,500 for five ares of Riviera real estate that sold for three times that price in 1973.

The article, published under the headline "These Exemplary Men Who Govern Us," included a picture of a house claimed to be Boulin's vacation home on the plot and a copy of alleged correspondence he had with with the broker.

A spokesman for Le Canard En-

chaine said Boulin's death was a "tragic development," but he said the weekly tried to "hold fast to the facts and avoid all innuendo or defamation of character. In any case all the elements of the affair are in the hands of a presiding judge. We have only published photocopies. Once again, we hold fast to the facts.'

Boulin, 59, had served in the government since 1961 and recently won increasing influence with President Valery Giscard d'Estaing for his effective handling of union problems.

A lawyer by training, he became labor minister in April 1978, in the cabinet Barre formed after parliamentary elections.

With the French economy stagnated by rising oil prices, inflation and unemployment, Barre's tenure has been considered increasingly shaky and Boulin was considered one of two or three likely replacements.

Ranch gone, but not forgotten

Stanton couple surrounds home with collectibles

STANTON - Homer Schwalbe spent most of his life ranching.

Often are the times he longs to be back on the range. "Oh, you bet, you bet," he said amid hundreds of artifacts, including ld ranching tools and other collectibles. "Still miss it. As far as that

It's been almost a quarter of a century since Schwalbe, now 85, ranched, nd it's been just as long since his ex-schoolteacher wife, Bertha "Bert," ran ie ranch house

ROUSTIN

Ed Todd

"I like ranch life," she said. But they put the ranching life into reir past in 1956, when they moved to tanton from Fort Hancock where ichwalbe last ranched.

Before that, he raised cattle, sheep nd goats for years around Ozona in Crockett and Terrell counties, Ranching was all he knew.

"I was born and raised at Ozona on a ranch down there," said Schwalbe. 'My father and grandfather came to Ozona country long before Ozona was

thought about. There was nothing there but wide-open land." His grandfather came "direct to Texas" from Germany and landed on

Galveston Island in 1849. He was a rock mason if Schwalbe already was a seasoned cowboy and range rider in 1918, when the Great War took him off the range and put him in the doughboy's olive-

But he never got overseas, for the war was about over when he got on the troop ship bound for the Continent. 'No, I didn't get across. We got out on the water one night...(just) before

the Armistice, but they shipped us back."

Anyway, he could do without trench warfare "over there." What really hacked off Schwalbe, though, was the Army's failure to utilize his talents. The Army put him in the wrong slot - driving a wagon -- or so he figured.

"I tried every way in the world to get in there (the remount). I wanted to get in the remount, where they handled horses, but never seemed to get in.

He tried, tried and tried again, but never did succeed. "...I had been riding horses all my life," Schwalbe reasoned, "and I wasn't used to walking, didn't walk (much), because I was used to fi-

Though he wasn't exactly born on a horse, Schwalbe had been riding since he was a tot, and he figured the Army wasn't making the most of his talents. and experience by putting him in a wagon. "I got my first saddle when I was 5 years old and didn't know nothing

But he settled down with the wagon and team for as long as the Army so After the war, Schwalbe returned to the ranch, where his memories still

'My daddy could really sing those old-time cowboy songs," he recalled.

He was an old-timey cowboy. The Schwalbe "home place" in Stanton is old-timey, antique-ish from the tin roof of the house to the motherlode of ranching tools and equipment in the house, piled up outside or in sheds Schwalbe built to

house his collectibles. 'Yeah, I've got a little bit of everything," he observed. And, indeed, he does: wagon wheels, bits and spure, his 1918 Army water canteen, woode barrels, wash pots, kegs, wrenches, barbed wire, railroad lanterns, wood churn and, among much more, his old saddle, which he inherited from his

With each passing day. Schwaibe plans on building more shed space

and organizing his and the missus' wares and things. "Some day we're going to have this place all fixed up if we live long enough," said Mrs. Schwalbe, who has been hitched to the mister of the house since 1936, "and we're planning on living a long time.

And it'll take a fair amount of sawing and hammering to fit everything under a roof, as Schwalbe well knows.

Dallas asks 'go-ahead' on desegregation plan

WASHINGTON (AP) - Dallas school officials, saying their desegregation plan is the best that can be achieved in view of the "urban condition," have urged the Supreme Court to let them proceed.

Warren Whitham, the school district's lawyer, told justices Monday. the issue before them was "whether or not the elimination of all one-race schools, given the urban condition . is the controlling factor to be consider

Opponents argued that the plan approved by a federal judge in 1976 is unacceptable because it would leave. a majority of the black students in one-race schools.

E. Brice Cunningham, a lawyer for the National Association for the Advancement of Colored People, said * more effective alternatives were available when the plan was approved.

The school district, the nation's eighth largest, is appealing a 5th U.S. Circuit Court of Appeals decision that sent the plan back to the federal judge in Dallas for further study. The Supreme Court is expected to deliver a decision by the end of its term in

Whitham said in oral arguments before the court that the school district has steadily decreasing numbers of Anglo students while the black and Mexican-American populations are decreasing.

The distance is too great to permit busing betweeen the largely Anglo sections off North Dallas and the largely black East Oak Cliff neighborhood, the school district's lawyer

The plan, yet to be applied while the issue is in the courts, would divide the Dallas school district into six subdis-

Five of the subdistricts would reflect the racial and ethnic proportions of the entire district's student population, but East Oak Cliff would remain virtually all black.

Whitham said October figures

showed the district was 32.2 percent Anglo, 17.3 percent Mexican-Ameri-

can and 49.4 percent black. The plan approved in 1976 would leave 62 of the district's 183 schools predominately populated by one race. There would be 52 black schools - 28 of them in East Oak Cliff - nine Anglo schools and one Mexican-American school.

Whitham said the district based the plan on ideas developed by a tri-ethnic committee.

School officials said about 202000 students would be bused under the

Cunningham said the plan is unacceptable to the NAACP because of the number of one-race schools, the creation of an all-black subdistrict, and the exclusion of students below fourth grade and above eighth grade from

He said the "magnet concept" designed to attract students from different ethnic groups to special interest high schools has failed in Dallaca

Professors near wage settlement

CINCINNATI (AP) - Striking professors and the University of Cincinnati were less than 2 percentage points away from a wage settlement today, but non-economic issues were still unresolved, spokesman for bothsides say.

University President Henry Winkler said Monday he was hoping for an early settlement of the strike by the American Association of University Professors at the state's second largest university.

Association President Lowell Leake said, however, "a settlement is not imminent." The union represents 1,-800 professors, associate professors and assistant professors at the 38,000student university.

Opening arguments presented in trial of Vietnamese brothers

SEGUIN, Texas (AP) - A.35-yearold Gulf Coast fisherman "was begging for what he got" when he was shot down this summer at the height of tensions involving Vietnamese crabbers, says a defense attorney for two Vietnamese baothers charged . with the slaying.

Testimony in the trial was sche-duled to get underway following opening arguments at 9, a.m. today. The jury includes two retired Air Force officers who served in Viet-

Sau Van Nguyen, 21, is charged with murder and his brother, Chinh Van Nguyen, 20, is charged as an . or Chinh, who is 5-6, 127 pounds. accomplice. The state provided two interpreters to sit beside the defendants and translate the proceedings

Lawyer Pat Maloney of San Antonio told prospective jurors Monday that the victim, Billy Joe Aplin, was "a notorious brute and bully," was

known to carry a loaded weapon and had knifed Sau and beaten him the day of the murder.

Aplin's widow and two of his three children were in the courtroom Monday for the jury selection, which ended about 6:,30 p.m. Aplin was killed with two shots

from a 38-caliber handgun on the evening of Aug. 3 near the fishing village of Seadrift, about 70 miles up the coast from Corpus Christi. Laying the ground for a self-defense

case, Maloney said Aplin was about '100 pounds larger and a foot taller than Sau, who is 5-foot-5, 120 pounds,

District Judge Clarence Stevenson of Victoria moved the trial from Calhoun County, where the slaying occurred; to Seguin because of the tensions in Seadrift, a town of about 1,000 population, including about 200 Vietnamese refugees.

No charges to be filed against man who held executives hostage

HOUSTON (AP) - No charges will a be filed against a former United Energy Resources Inc. employee who held two company executives hostage more than two hours before releasing them unharmed, police say

Houston Det. I.E. McComas said charges would not be filed at the company's request.

According to police, a man wielding a gun and carrying a bag he said contained a grenade, entered the company's executive offices Monday and barricaded himself in the offices with two company officials and two

He surrendered to Houston SWAT team negotiators after they agreed to let him air his grievances to report.

"I'm sorry it happened but I needed to let somebody know that I have feelings," Raymond Garza, 29, told reporters. "I also have a little girl I have to support and I don't want to be

Garza said he had been fired from his job and said he had not been satisfied in his efforts to get a meeting with company officials

The bag contained only a cigarette

Congolese children are sent to Cuba, but not without OK

dent Denis Sassou Nguesso, in France sources have comfirmed the reports.

Asked if the parents had given apthat hundreds of Congolese children have been sent to Cuba for training but denied news reports they were sent without their parents' consent. "There are several thousand young

Congolese of all ages in training in different countries, including France," Nguesso told reporters Sunday. "I don't see anything extraordinary in the fact that there are also some in Cuba.

The leader of the central African nation was responding to reports in European newspapers that his Marxist-led government had sent about 1,000 children to Cuba without paren-

proval, Nguesso said "that is not even worth a denial." He did not elaborate on the nature of the Cuban training or provide other details during a brief

French sources said at least 600 of the estimated 1,000 children sent to Cuba were between 10 and 15 years old. Some European pilots of the Air Afrique charter planes taking the children from Brazzaville, capital of the Congo, to Havana refused to take off, contending the airlift violated international regulations' concerning the transportation of unaccompanied minors, the sources said.

Testimony set to begin in murder trial of 55-year-old Midlander

here today in the murder trial of

55-year-old Thirley Freeman. Freeman, 1501 S. Marshall St., is charged in connection with the Aug. 13 shooting death of 35-year-old Robert Armsted Roseberry, 1605 E. Golf Course Road.

Freeman has pleaded innocent to the charge.

A 10-man, two-woman jury was selected Monday to hear the case, being tried in 142nd District Court before Judge Perry Pickett.

· Testimony was to begin at 9 a.m.

Roseberry was fatally shot about

9:30 p.m. Aug. 13 following a series of disturbances at the Texas Street Bar, 805 E. Texas Ave., according to police

Earlier that evening, Freeman had been taken to Midland Memorial Hose pital for treatment of a stab wound in the right arm, police said.

According to police reports, the fatal shooting occurred in the parking

lot outside the bar.

Freeman was indicted Aug. 15 by the Midland County Grand Jury

Assistant District Attorney Richard Davis is prosecuting the case. Freeman is being represented by attorney Trey Lohmann

LEE YOUTH CENTER CHATTER Spook house hair-raising and horrifying experience

> By GINA BARD KAREN FIDLER & LEIGH ANNE JONES

The Rebel Express rolled back onto the track Friday night, defeating the Big Spring Steers 41-0! Way to hustle Rebs!! This Friday we will stop that so called "Mojo Magic" and show them that Mojo Magic ends in 1979. Be sure and make the trip to Odessa for the kickoff at 8 p.m. as we Pink the Panthers.
The sun began to shine on Dixieland again as our mighty Stonewall Bri-

gade stewed those Steers 17-6. Be sure and come out to Midland Memorial Stadium Thursday niht as we panic the puny Panthers

This Friday night our mihty Rebel Express will "Ring Permian's Bell." There ain't gonna be "No Stoppin' us Now" as our Dixie "Babes" stop that "Strange Magic" and put Mojo to "Shame." But "It Don't Hurt to Dream" because "Life's been Good" to them so far. But Rebeland feels they've had enough." And make Mojo "Lonesome Losers." Immediately following the "Main Event" of the evening everyone, will return to "Boogie Wonderland" to "Dance the Night Away" as they celebrate another one of their Rebel Victories.

REBELETTES: Be at squad meeting Wednesday morning at 7:45. It's very important that you be there, because there is a SURPRISE for

100 CLUB: There will be a meeting at 3 p.m. Tuesday to sign the November work calendar. It is imperative that you be there. You also need to discuss a few wrong doings?"

If you want to have a hair-raising experience, we recommend the Choir Spook House where you will experience horrifying people and faces. (Rob Know, Eddie Pleasant, Lee Andrews, Debra Steele, Gina Bard and

Last week we really had a great pep Rally; thanks go out to the Origin for its 50's performance. Everybody loved it. Be sure and come Friday morning for our "Mojoke" pep rally. The guys really need ou support, so come on and Pink the Panthers as we try for spirited Spirit

Hey Band: Wow! You really knocked the crowd out Friday night with your spine-tingling half-time show. Keep up the good work. Girls, in Junior Council and 100 Club, be thinking about who you want for your November Sweetie.

Until next week, Gina, Leigh Anne, & Karen

Postcripts: John Holmes: When's the next PARTY? Thanks to Scott Collins and Cliff Collyer for co-writing today. Cammy, do you always have accidents while vacuuming? To ALL Juniors girls - YAA!!

Ships unloading food for Cambodia

BANGKOK, Thailand (AP) - Four ships are reported unloading food and other relief supplies at Kompong Som, Cambodia's chief seaport, and a fifth vessel is on the way

A spokesman for UNICEF said a ship chartered by it was unloading 300 tons a day at the south coast port 160 miles southwest of Phnom Penh; three Soviet ships were unloading food and other supplies, and a barge chartered by the British relief organization Oxfam left Singapore Monday for Kompong Som

The spokesman said the UNICEF ship and the Oxfam barge each were loaded with 2,000 tons of supplies and the UNICEF cargo also included

The Oxfam barge is the third relief shipment sent by the British organization to Cambodia

UNICEF and the International Red Cross are also flying 15 tons of relief supplies daiily to Phnom Penh. But, the Vietnamese-backed government there rejected an American plan to ship 1,000 tons a day overland by truck convoys from Thailand because part of those supplies would have gone to areas controlled by former Premier Pol Pot's Khmer

Kompong Som was built in the late 1950s by the French to handle more than 80,000 tons of cargo a month. But years of silting, the destruction of warfare and lack of repairs has drastically reduced its capacity.

A group of Americans from the Church World Service who visited Cambodia recently said there was also a shortage of trained personnel and the Vietnamese had to bring in 20 men from the northern Vietnamese port of Haiphong to help.

The Mekong River, which flows across Cambodia and southern Vietnam to the South China Sea, provides another water route to Phnom Penh. The Cambodian government reported last week that Soviet ships had delivered 200,000 tons of food that way. But an Oxfam representative in Singapore said officials in Phnom Penh informed his organization the Mekong River was not navigable because of "wrecks" in it.

684-7804

also "threaten serious harm" to farmworkers and persons living near some DBCP-treated crops and fields. Costle's order halts use of the pesticide for peach trees, citrus fruit trees,

grapes, soybeans and golf course turf, said agency spokesman Marlin Fitz-

The action is based on Costle's agreement with Judge Gerald Harwood, an EPA administrative law judge who concurred earlier this month with an agency staff report that said DBCP should not be sold in the United States.

Costle exempted Hawaiian pineapple groves from the ban, Fitzwater said. The pesticide leaves no residue on pineapples and almost two years elapse between DBCP soil treatments. and harvesting, he said. DBCP - dibromochloropropane -

has been manufactured since the 1960s and is used to kill small worms that attack plant roots. In 1977, the

EPA banned its use on some vegetables and California banned it entire-

A total ban was sought after researchers reported DBCP caused cancer in laboratory animals and re-

duced sperm counts in men. Fitzwater said the ban announced Monday will become permanent if pesticide manufacturers do not file the expected appeal.

The pesticide is manufactured by the Amvac Chemical Corp. of Los Angeles and the Gowan Co. of Yuma, Ariz., Fitzwater said. Officials of those companies could not be reached immediately for comment on Costle's

EPA officials said levels of the pes ticide as high as 39 parts per billion have been found in irrigation and drinking water in California, Arizona and Hawaii. The government has cautioned the public against drinking water with DBCP levels higher than one part per billion.

DA, chief of detectives indicted for conspiracy to commit perjury

AMARILLO, Texas (AP) — A grand jury has indicted the Potter County district attorney and a chief of detectives for conspiracy to commit aggravated perjury in connection with the investigation of the slaying of a legislator's daughter.

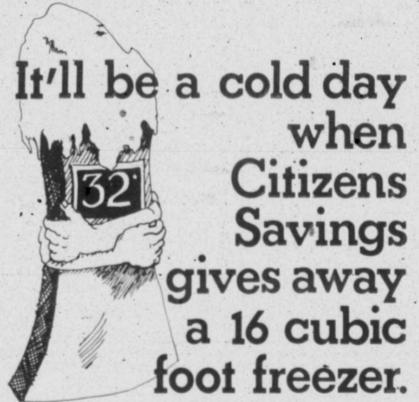

Capt. E.N. Smith, chief of detectives of the Amarillo Police Department, testified in pre-trial proceedings Feb. 5 that former Amarillo policeman Jimmy Vanderbilt never asked for an attorney while he was being questioned in the 1975 killing of Katina Moyer, 16, daughter of thenstate Rep. Hudson Moyer. Later, a tape recording of Vander-

bilt's interrogation revealed that Vanderbit asked several times for an

The indictment says District Attorney Tom Curtis was present during the questioning of Vanderbilt and that he conspired with Smith to give false testimony "The allegations are groundless.

I'm guilty of no wrongdoing in connection with this case," Curtis said Monday

Vanderbit was convicted in Amarillo, but won a new trial when an appeals court ruled that Curtis reneged on a promise not to seek the death penalty if the suspect signed a

Guess the time and date of the first freeze in Midland* and win your choice of an upright freezer or a \$320 savings account.

> 1st PRIZE - 16 cu.-foot Kenmore upright freezer or a \$320 savings account, plus a \$25 bonus if the winner has a savings account at our Dellwood branch office.

> 2nd PRIZE - \$100 savings account, plus \$10 if the winner entered the contest at our Oak Ridge or Downtown branch offices.

CONSOLATION PRIZE - \$10 savings account plus three empty ice cube trays (for the early bird whose guess was closest to 24 hours before the correct time).

*OFFICIAL RULES

1. The object is to predict the date, hour, and minute the temperature will first reach 32" F. this fall on the Citizens Savings time and temperature sign at the home office on Andrews Highway. This is one contest only, not a separate contest at each branch To enter the contest, YOU MUST SUBMIT YOUR ENTRY AT ONE

OF OUR FOUR OFFICES: Home, Oakridge, Downtown, or Dellwood

3. Anyone can enter except Citizens Savings' employees and mem bers of their families. There is no fee, nothing to buy, and to enter, you are not required to have an account with Citizens Savings

4. All entries submitted the day the temperature first reaches 32°F will be INELIGIBLE. Your entry must be submitted at least one business day prior to the date you guess the temperature will first reach

5. To be eligible, your entry must be submitted on an official entry form at one of our four offices.

6. You are limited to one entry per day at each office.

7. The correct prediction with the earliest entry date shall be declared the winner. In the event of a tie, a drawing will be held to determine the winner. Citizens Savings will be the sole judge of all winners; winners are limited to one prize each.

Official source for the minute when the temperature first reaches 32°F, will be the time and temperature sign at the Citizens Savings home office on Andrews Highway. It has been wired to stop when the temperature reaches 32°F, and will continue to flash the minute the 32°F, was attained until it has been recalibrated. In case of a sign malfunction, the sign at our Oakridge Branch (Wadley at Garfield) will be used as a substitute.

9. If no one predicts the exact minute or date the temperature first reaches 32°F., the nearest prediction will be judged the winner

10. Illegible writing or incomplete entries will be disqualified at the sole discretion of the judges.

11. No prize substitutions other than the one listed will be considered.

"I'm all right," Staubach said in the locker room after the game. "I got a little lump on my head, but those things heal ... I was going up the middle and somebody landed on me. I remember that - but that's all. I was knocked out. I had a numbness in my face and had a big jump on the left side of my head. I guess I really didn't come to until I was on the sidelines. I told them I could go back in, but the doctors wouldn't let me because of the lump on my head."

One of the Steelers, cornerback Ron Johnson, also suffered a concussion when he and Dallas running back Tony Dorsett met head-on. Johnson staggered and fell, left the field under his own power after a few minutes, then re-entered the game several plays later. But on Monday he was hospitalized and was expected to miss the Steelers' game Sunday against visiting Washington .

start next Sunday's game against the sizzling New York Giants. The availability of running back Preston Pearson is questionable, though. He was carried off the field on a stretcher later in the fourth period after suffering bruised ribs and a sprained

For Pruitt, though, the season may be over. He sustained a torn right knee ligament in the first play of the Browns' 38-20 victory over St. Louis.

"I guess my leg was just in the right place at the wrong time, or in the wrong place at the right time," he said. "I knew right away it was going

to be bad. The play was "not designed to go all the way, just to gain four or five vards. I hit into the hole and it was a pretty good one, but then it collapsed quickly," said Pruitt, making his first start since suffering a sprained right knee five games ago. Cleo Miller took

"I've been on some Browns teams.

that didn't have much chance of winning," Greg said. "Now that we've come out of the woods and have a legitimate chance, I can't help. That's what hurts more than the injury."

THE DOLPHINS' roster was literally depleted by their injuries. Williams, their No. 1 halfback, sustained two cracked ribs when he was hit while carrying the ball during the second period of Miami's 27-7 victory over Green Bay.

"If it's only a hairline fracture he'll probably only be out two or three weeks," said Dolphins trainer Bob Lundy. "If it's a complete break I'd say six." Gary Davis will replace Williams next Monday night against the visiting Houston Oilers.

On the same play, Langer, their All-Pro center starting his 117th consecutive game and playing in his 141st in a row, suffered a broken bone under his right kneecap and underwent surgery Monday, knocking him out of most of the rest of the season.

Wilson charges Tech had A&M game plan

Texas A&M football Coach Tom Wilson has told the Bryan Eagle that an anonymous telephone caller gave the Texas Tech athletic department vital information about the Aggie game plan before the two schools played Oct. 6. However, Texas Tech

Longhorns score 50 points on their standings Rex Dockery treated the in the six team catecalls as a prank and told gories. Texas leads all Wilson about the inforthree defensive columns mation - which turned for 27 points, is second in out to be highly accurate both total offense and before the two teams rushing offense for 16 kicked off in a game more points, and third in Tech won 21-20. passing offense with an-

"I'm not making excuses for my losses nor have I before this," Wilson. "The fact remains we have learned that someone has been contacting some of the schools with some of our game plans."

Wilson kept silent Texas Tech with 25, Rice with 18, TCU with 17, and about the affair because he said he didn't want it to sound like sour Houston has averaged 377.6 yards per game in Dockery said, "One of

Court limits allowable questions in rape trial

LITTLE ROCK, Ark. (AP) - The state Supreme Court refused Monday to broaden the areas in which attorneys can question a woman who allegedly was raped in the University of Arkansas athletic dormitory.

The decision came in an appeal by two former Arkansas football players, Donny Bobo and Micheal Forrest. They are charged with raping the woman in the early morning hours of Dec. 12, 1978 at the Wilson Sharp athletic dormitory in Fayetteville.

The two athletes wanted the Supreme Court to expand the areas in which the alleged victim could be questioned. However, the court opinion by Justice George Rose Smith went along with a ruling by Washington County Circuit Court Judge Paul Jameson.

JAMESON SAID attorneys for Bobo and Forrest could question the woman about her prior sexual conduct with the defendants during the 18 months prior to the alleged rape. He also said their attorneys could question her about her sexual activities on the same evening, in the same room, with another football player, Bobby

In the appeal, Bobo and Forrest contended that Jameson also should have ruled that at the trial he would permit:

-Introduction of proof about Duckworth's sexual relations with the woman prior to the night of the alleged rape.

-Cross-examination of the woman about her prior sexual relations with some 15 other persons, at least four of whom were athletes.

-Introduction of a nude picture of the woman. The picture was published in 1977 in the magazine "Gal-

Smith wrote that the court had ruled in other cases that the complete sexual history of a woman who is prosecuting a charge in an alleged rape "is usually totally irrelevant to the charge of rape.'

That pattern of rulings, the court said, came under a state law that prohibits evidence of an alleged victim's prior sexual conduct unless the evidence first is shown to be relevant. The woman's sexual activity with Duckworth on the night of the alleged rape did not make any prior sexual activity between herself and him relevant to the trial, the court said.

THE DECISION said that Jameson rightly prohibited broad cross-examination of the woman about prior sexual relations with other people. That would have no relevancy to the question of whether she consented to the sexual activity that the charge alleges to have been rape, the court

The state law prohibiting broad, general interrogation of an alleged, rape victim about sexual activity that has no relevance to the charge is designed "to protect the victim from unnecessary humiliation," the court

As for the picture in "Gallery," the court said the woman posed privately for the photograph, but did not send it to the magazine, consent to its publication, or receive pay for it.

"Thus, all that was actually shown was that about a year and a half before the alleged rape, when the prosecutrix was 17, she posed in the nude," the Supreme Court said. "The court did not abuse its discretion in holding that the probative value of the exhibit was outweighed by its inflammatory or prejudicial nature.

Victoria stalked up and

down in the tall thin

grass at the edge of the

the "boss" birds.

(Continued from 1C)

THE TOP of the pecking order seemed clear: Bigbeak, the name I had given to the boss male, went first and took longest, spending about three minutes in the dustbath. Wide-wings, a female, followed with 2 1-2 minutes and Wiggles, a hen with a curious, frenetic waddle, bathed almost as long. Then came the five of the second wave, three cocks and two hens, who spent a mainute or so each at their toilet, interrupted by a brief flurry between two of the cocks as to which would go first It came to a standoff and they went into the bath together like twins in a

The four juveniles, either all females or males too young to have developed the distinctive eyestreak, sat submissively in a row until all but " the sentry birds had bathed. It seemed to me that the last adult before them was blind in the right eye and may have been the female that was lying on its side earlier. Then the kids began to dust in one joyful, twittering bunch. Several minutes passed with-no sign that they were through, but when the sentinel cock came down from his post they hopped out while he was still two feet away:

The old boy dusted quickly and gave way to the sentinel hen, who may have been the senior bird in the covey. She was noticeably bigger than any of the others and there was a tattered air about her. She may have been one of those rare quail who live into a fourth season, a veritable Methuselah among birds whose normal life span is about 18 months whether they are hunted or not. She took her sweet time in the dust, almost 10 minutes, while the others waited. I revised my guess at the pecking order because of

A tire you'll never hate...

Dayton DELUXE 78

Reliable 4-ply bias-built body

This is the traditional American way to build tire bodies - 4 criss-crossed plies of rugged fabric cord. And the cord is "no thump" polyester, proven in billions of miles of use. That's reliability.

Stock market mixed

NEW YORK (AP) - Stock prices were mixed in light trading Monday, the 50th anniversary of "Black Tuesday," as thousands demonstrated outside the New York Stock Exchange to demand an end to Wall Street support of nuclear power.

About 850 persons were arrested at the anti-nuclear demonstration, which failed in its stated purpose of keeping the NYSE from opening. But some analysts said the low volume might be partly due to the demonstrations. The Dow Jones average of

30 industrals fell .68 to 808.62 but advancers led losers by an 8-7 margin.

Volume was 22.72 million shares, the lowest since May 14, a fact that shows how much the NYSE has grown since "Black Tuesday," when the 16.41 million shares traded broke the previous volume record by 27 percent and staggered the market.

The demonstrators asked the NYSE to stop trading in companies that are involved in the nuclear industry, and some of those issues dropped in price.

General Public Utilities, the utility that owns the crippled Three Mile Island reactor, fell 1/4 to a new low for the year of 7%. GPU announced lower earnings after the market closed. J. Ray McDermott, whose Babcock & Wilcox subsidiary designed the reactor; dropped 1/4 to 20 1/8 But Westinghouse, an-

other designer of nuclear power plants, rose 1/8 to 18%. General Electric was unchanged at 47%. Oil issues were mixed, and

Gambling issues were strong. The market showed little

reaction to the announcement by the Federal Reserve that it had found another \$800 million error in the money supply, on top of the \$3 billion error previously reported. The Labor Department said productivity rose in the third quarter, the first increase of the year. The NYSE's index of more

than 1,500 common stocks rose .09 to 57.05 and the Amex's Market Value Index climbed 1.67 to 202.46.\$

Standard & Poor's index of 400 industrials rose .17 to stocks was up .14 to 100,71. In the over-the-counter

market, the NASDAQ composite index rose .16 to

ANSWER TO PREVIOUS PUZZLE

Voluntary wage restraints asked

WASHINGTON (AP) - Members of a presidential pay board are suggesting that President Carter's lone wage guideline of 7 percent be replaced by several voluntary restraints that vary depending on the industry or inflation rate.

"This mad infatuation with a single figure bears with it the seeds of destruction," AFL-CIO Secretary-Treasurer Lane Kirkland said Monday as the 18-member Pay Advisory Committee met to consider new anti-inflation guidelines.

The AFL-CIO wants the administration's rigid 7

percent guideline thrown out in favor of a sliding wage guideline that would rise with increases in consumer price inflation. "The problem is people want something very simple ... but it isn't that easy," said Robben W.

Fleming, president of the Corporation for Public Broadcasting and one of six "public" members on "One figure alone does not seem to solve a lot of

problems. Several figures may," said Fleming, a former University of Michigan president. Former Labor Secretary John T. Dunlop, who is chairman of the board, noted that inflation-fighting

wage boards set up during World War II and the Korean War established different sets of guidelines for different industries. Dunlop, now a professor at Harvard Business School, hinted he might favor a return to such a system. The board, which also has six business and six labor members, was created by Carter to recom-

mend new voluntary wage guidelines for the second year of the president's anti-inflation program. The panel was set up largely to win cooperation from labor, which had opposed Carter's first-year guide-

The panel, which has yet to make any specific proposals, met for the second time Monday, engaging in debate on both general and specific problems involving inflation and wages.

The discussion revealed sharp differences between labor and management, underscoring the difficulty the panel faces in finding agreement on new guide-

Kirkland, who is expected to succeed retiring George Meany in three weeks as AFL-CIO president, complained that the 7 percent ceiling on annual wage increases, which the administration set one year ago, "has gotten further and further from any basis in reality.

Kirkland said the administration chose the figure at a time when it was forecasting a 6 percent inflation rate for 1979. But with inflation actually running at 13 percent a year, the government should have abandoned the 7 percent figure, he said.

The administration should not commit itself to a single, "mythical" guideline that reduces a worker's real income as inflation rises, said Kirkland. "It breeds disrespect ... and a sense of unfairness' among workers.

John T. Connor, chairman of Allied Chemical Corp., said voluntary guidelines will have little impact on inflation unless the government continues to restrain the supply of money and federal spend-

But Jerry Wurf, head of the American Federation of State, County and Municipal Employees, countered that such tight money and spending policies are "disastrous and counter-productive.

John Lyons, president of the Iron Workers, said the board should take into account industry profits, such as gains recently reported by oil companies, in determining wage ceilings.

But Heath Larry, president of the National Association of Manufacturers, said profits as a percentage of the gross national product have declined in the last decade. Business does not want to depress workers real earnings, he said, "but we must We must accept recognize what is possible the current economic realities."

Establishing minority businesses gets priority

BALTIMORE (AP) - Some 200 black businessmen and women attending the Second National Black Economic Summit have launched plans to make sure minorities are getting their fair share of

Although some of the nation's most successful black businesses were represented at Monday's meeting, the chief concern was keeping minority businesses afloat and getting new ones started.

Lack of sufficient money for opening a business and poor communication from government agencies were cited as factors working against minority companies.

Rep. Parren J. Mitchell, D-Md., organized the conference after receiving "hundreds of requests" from black businessmen who wanted to talk about where they fit in the economic picture. Committees formed during the meeting will iden-

tify problems and offer solutions. Mitchell is expected to take recommendations to the White House Conference on Small Business scheduled to meet in

Community finally finds required black worker

CLINTWOOD, Va. (AP) - After a three-year fight for a federal grant, the town of Clintwood hopes it has finally qualified - by hiring a black woman from a neighboring county.

To be eligible for a \$256,000 grant being sought from the Environmental Protection Agency for a sewer project, Clintwood needed at least one black employee on its payroll of six. But local officials said they couldn't find one because nearly all the 1,500 residents of this southwest Virginia community were

Pat Talford learned from her sister-in-law that the town was looking for a qualified black employee.

Now, she is driving nearly an hour to work each morning from her home at Castlewood. She said in a recent interview that her new duties include typing, filing "and all kinds of stuff."

"Oh, I love it. When I was in Lebanon, I did outside work," said the former recreation worker. "Now I'm doing inside work, the kind I went to school for."

North Sea firms asked to cut back By ED BLANCHE

LONDON (AP) - The Conservative government ordered the Shell and Esso oil companies to cut production by almost 50 percent at their jointly owned Brent field in the North Sea to curb the loss of natural gas that must be burned off as it comes to the

Energy Minister Hamish Gray said the cutback from 185,000 barrels a day to 100,000 will reduce the supply of domestic oil products in Britain this winter by about 10 percent.

Spokesmen for Shell and Esso warned the move could push up prices for gasoline, fuel oil and heating oil in Britain and winter shortages could not be ruled out.

Gray announced the reduction after members of Parliament complained about the loss of up to 350 million cubic meters of gas a day — which is burned, or "flared off," because a collection system to siphon it for storage has not yet been connected.

The gas is forced to the surface as rigs pump up crude oil from the rich North Sea field, which has an expected lifespan of 30 years and is considered the linchpin in Britain's economic recovery program.

Britain is already self-sufficient in gas production, but some fields are expected to run out in the mid-1980s. The nation hopes to be self-sufficient in oil production next year.

Legislators in the House of Commons gasped when Gray told them that the amount of gas flared off by North Sea production rigs every year equals 15 percent of the natural gas supplied to the country by the staterun British Gas Corp. The 350 million cubic meters lost every day is equal to about 10 percent of Britain's daily gas consumption — enough to supply a major city for several days.

An interim plan to collect the gas and reinject it into the North Sea field ran into technical problems and Brent, is not expected to be linked into the national gas system until late next year at the earliest, officials said.

Gray said the government order will reduce the flare-off to about 170 million cubic meters a day. All the oil from Brent, the biggest oil and gas field in the British sector of the North Sea, is used in Britain.

The current daily production of 185,-000 barrels is nearly 10 percent of the daily consumption of 2 million bar-The oil companies said they would not be able to make up the shortfall

with boosted production from other North Sea fields until spring at the earliest. Shell and Esso, who run two of Britain's major filling stations chains, say they may have to buy oil on the open market to make for lost. supplies. Spot prices for crude run as high as \$40 a barrel - almost double the \$23.50 average for North Sea

Error may be cause of cheap lease

LITTLE ROCK, Ark. (AP) - Oil and gas rights to about 33,000 acres at Fort Chaffee may have been leased for \$1 per acre on the basis of a faulty geological finding, the Arkansas Gazette reported in a copyright story

Assistant Interior Secretary Guy Martin has said in a preliminary report on the matter that he was not sure that it was appropriate for the leases to be granted without competitive bidding.

Interior Secretary Cecil D. Andrus asked for the study to help him decide whether to rescind the leases, which were awarded to Texas Oil and Gas Co. in July.

Martin said in his report that the land in question clearly has oil and gas potential.

The leases were granted under a program designed to spur oil and gas exploration by providing cheap leases on sites where productivity is consid-

Andrus is expected to receive a final staff report on the leases in about two weeks. The area leased by Texas Oil and

Gas is surrounded by producing wells and is part of the Arkoma Basin. The basin is one of Arkansas Louisiana Gas Co.'s primary sources of

natural gas! Arkla has requested that the leases be rescinded. Sens. Dale Bumpers, D-Ark., and Henry Bellmon, R-Okla., have criticized the Interior Department's determination that gas production on the site was uncertain. The leases could

tive bids were taken, Bumpers argued. Sens. Russell B. Long and J. Bennett Johnson, both D-La., noted in a letter to Andrus that more than a dozen pipelines are dependent on pro-

bring a much higher price if competi-

duction in the Arkoma Basin. 'Only a very narrow and restricted interest is served by maintaining the noncompetitive leases," the letter

Operators report Basin area oil, gas operations

will drill the No. 2. Harris as a location southwest offset to its No. 1 Harris, recent three-quarter mile northeast extension to the Lygas oil and gas

field of Coke County. * Scheduled depth is 5,900 feet on ground elevation of 1,904 feet.

Wellsite is 2,900 feet from north and 2.750 feet from east lines of Snyder & Von Rosenburg No. 4, four miles south

CROCKETT RE-ENTRY

Mesa Petroleum Co. of Midland filed application to re-enter and clean out to 4,234 feet for re-completion attempt as an upper Clear Fork gas producer and a one-mile northeast extension to that pay.

Operating as the No. 1-64 Hoover, former Clear Fork gas opener of the American (Clear Fork) field of Crockett County.

Originally drilled as a Canyon test to 7,650 feet and then plugged back to 4,234 feet, it completed for a calculated absolute open flow of 430,000 cubic feet daily, through perforations from 4,094 to 4,110 feet:

Location is 1,450 feet from north and east lines of section 64, block MM, T&StL survey, 29 miles southwest of

CROCKETT SITE

Dameron Petroleum Corp. of Midland announced plans to drill the No. 1-96 W.P. Hoover, two and seveneighths mile southwest of the six-well American (Canyon) field of Crockett County.

The site is five-eighths mile southeast of its No. 1-95 W.P. Hoover, scheduled outpost to the same field. Location is 1,056 feet from south and 3,810 feet from west (Pecos River) lines of section 96, block 1, I&GN

survey, 47 miles southwest of Ozona. Contract depth is 7,500 feet, with ground elevation 1,870 feet.

IRION EXTENDER

Meadco Properties of Midland has extended Wolfcamp gas production one mile northwest in the Ela Sugg (Wolfcamp) field of Irion County.

The No. 1-20 Cravens completed for a calculated absolute open flow potential of 1,765,000 cubic feet of gas per day, through perforations from 7,643 to 7,608 feet after an acid treatment of 3,000 gallons.

Scheduled as an 8,200-foot wildcat and as an outpost to the field, it was drilled to 7,850 feet, with 4.5-inch casing at that depth, and plugged back to 7.745 feet

Location is 5,500 feet from south and 660 feet from east lines of section 20. block 27. H&TC survey, 15 miles northeast of Barnhart.

HNG Oil Co. of Midland will drill the

No. 3-58 Clark as a link test, one-quarter mile south and one-half mile north of production in the Schleicher County portion of the Sawyer multipay field. Located eight miles southwest of

Eldorado, it spots 2,253 feet from north and 933 feet from east lines of section 58, block D, GC&SF survey. Contract depth is 7,400 feet on ground elevation of 2,398 feet.

Mobil Gil Corp. of Houston announced plans to drill three projects in the Caprito (Middle Delaware) field of Ward County.

The No. 4-AG State is a south offset to production and 660 feet from south and 1,980 feet from west lines of section 37, block 17, University Lands

The No. 2-AK State is a location north of production on the west side of the field and 660 feet from north and east lines of section 2, block 18, University Land survey

The No. 1-AL State is a location west and the same distance south of production on the west side of the field and spots 1,980 feet from south and 660 feet from east lines of section 2, block

17. University Land survey. All of the projects are scheduled to 7,000 feet and are five miles northwest

PECOS PROJECT

Lewis B. Burleson Inc. of Midland has scheduld his No. 1 University one-half mile northwest of oil production in the Leon Valley (Obrien) field

of Pecos County. Gas production in this field was

reclassified to oil in 1973. The site is 2,173 feet from north and 2,177 feet from west lines of section 7, block 28, University Land survey, six miles southwest of Fort Stockton. Contract depth is 2,900 feet.

REEVES GASSER

Cola Petroleum Corp. of Midland has announced potential test on its No. 1 Oney Brothers, one-half mile east and slightly north of the discovery well of the Hamon (5270) field of Reeves County.

Operator reported a calculated absolute open flow potential of 4,000,000 cubic feet of gas per day, through perforations from 5,150 to 5,176 feet. The pay was acidized with 1,000 gallons and fractured with 20,000 gal-

Total depth was reached at 5,380 feet, with 4.5-inch casing set at 5,374

Location is 467 feet from south and west lines of section 15, block 50, T-8-S, T&P survey, 20 miles southeast of Pecos.

pay airline

LOS ANGELES (AP) - Union Oil Co. of California has agreed to pay Western Airlines \$10 million in an out-of-court settlement arising from a four-year-old dispute over whether Union overcharged Western for jet fuel.

Western announced it was filing the suit in 4975. Arthur Kelly, then president of the airline, said that in the first three months of that year,

Western's jet-fuel costs increased 41 percent over the year while fuel consumption rose only 7 percent.

The settlement was reached March 30, but both sides agreed not to disclose the terms of the agreement. Ray Silvius, a vice president of the Los Angelesbased airline, said the agreement was reached nine months before the suit was to go to trial.

He said that starting in the first quarter of 1979, Union will pay \$2.5 million per quarter. A Union official would confirm only that a settlement had been reached and that each side would pay its own attorney

Earlier, an official for the Los Angeles-based oil company said the dispute arose over different interpretations of Federal Energy Administration, regula-

Silvius said at the time the suit was filed, Union was supplying about 75 percent of the airline's fuel. This year Union is supply. ing 42 percent, for a total of about \$100 million.

Union Oil to | Carter accuses committee of decimating windfall plan

By TOM RAUM

WASHINGTON (AP) - President Carter is back lobbying Congress for his energy plan, accusing the Senate Finance Committee of decimating his windfall profits tax and urging the House to join him in fighting for a stronger tax.

Carter also told a group of congressmen he will sign the recently passed standby gasoline rationing bill even though he doesn't think it gives him enough flexibility.

The president reportedly said he was unhappy with the requirement that a gas shortage be at least 20 percent before rationing could be used, but would sign the bill as the best compromise he could get from

And in a move almost certain to

ENERGY OIL & GAS

alienate environmentalists, Carter announced his preference for the stronger of two versions of his proposed energy mobilization board now

before the House. With the House beginning debate on the legislation today, Carter reportedly expressed a clear preference for a bill by the House Commerce Committee over a rival version that originated in the House Interior Committee.

The board would oversee major energy projects and cut through government red tape to see that they're Carter made the remarks at an

unusual "working dinner" Monday

night at the White House, at which

Energy Secretary Charles Duncan and Treasury Secretary G. William Miller also spoke. The dinner was attended by a bi partisan group of about 100 congressmen, most of them members of com-

mittees dealing with energy or tax

According to many of those who attended, the president made a forceful pitch for his proposed windfall profits tax and scored the Senate Finance Committee for adding weak-

ening amendments. He urged the House members to stand firm behind the strong version of the tax the House had passed last July. In fact, according to those present, Carter pressed for enactment of an even stronger tax. Carter, according to those at the

soaring profits by major oil companies made a strong tax that much more Commonly called a windfall profits tax, the administration proposal actually would take away a portion of

panies will realize as a result of oil price decontrol. The president's White House remarks followed his claim before a Providence, R.I., audience earlier Monday that his move to decontrol U.S. crude oil prices could amount to a "trillion-dollar giveaway" to the oil

the additional gross revenue oil com-

industry if not coupled with a strong windfall tax. "He said he did not want to be negative, but thought Congress should be more willing to make hard decisions," said Rep. Peter H. Kost Gulf No. 1-AW Eddy State; drilling mayer, D-Pa. "He said the Senate Finance Committee had decimated his windfall profits tax with exemptions. That's the word he used, 'deci-

Carter "made a strong pitch" for the windfall tax. "He spoke about the dramatic increase in (oil eompany) profits. He said he felt the times warranted a tax stronger than had passed the House," said Rep. Phil

Sharp, D-Ind. The president also said he would support the stronger version of the Energy Mobilization Board over the

Jack-up rig completed

HOUSTON - The first mobile, selfelevating, self-contained mat-support drilling jack-up type rig built in Japan has been completed by NKK (Nippon Kokan K.K.) for J.F.P. Well Service, Inc., Houston.

The J.F.P. Rig One is now being towed from NKK's Tsu Shipyard to Greece where it will be put into service by North Aegean Petroleum Company.

J.F.P. officials said the new drilling jack-up will be positioned in an area of the Aegean Sea which has a soft bottom suitable for maf-supported rigs. Drilling operations will begin by the end of 1979.

NKK Houston said the BMC-250 class rig with 2 cranes is based on one of the designs of Baker Marine Corporation. NKK entered into a license agreement with Baker Marine in August 1978. J.F.P. Rig One can drill up to 9

normal weather and 200 feet in hurricane conditions. NKK, Japan's second largest steel manufacturer, has increased its activities as a leading heavy industry contractor. The contract for the J.F.P. Rig One was negotiated by

NKK Houston,

wells to a depth of 25,000 feet without

relocation. It is designed to operate at

water depths of 35 to 250 feet in

weaker, environmentalist-favored version. He said the weaker version, championed by Interior Committee Chairman Morris Udall, D-Ariz., could lead to lengthy court delays of major energy projects.

However Carter reportedly said the administration would submit amendments he would like to see enacted that would, among other things, prevent the mobilization board from being able to waive state laws.

According to sources, Carter said he would submit such an amendment to honor a commitment he made to the nation's governors. Rep. John Dingell, D-Mich., chair-

man of the Commerce subcommittee that proposed the more powerful board, said in an interview, "He indicated a strong preference for the Dingell bill over the Udall bill. I do welcome it.'

Dingell said that, overall, "I thought the president gave a balanced

and sound presentation.' Carter also emphasized the need to move ahead with a strong energyconservation program, according to

those present.

Lone Star says it needs more money for service

AUSTIN, Texas (AP) - Senior Vice Pesident Douglas Williams of Lone Star Gas Co. testified today the company is not making enough money to provide "first-class, quality ser-

for delivery at a Texas Railroad Commission hearing on Lone Star's request for an annual natural gas increase of \$40.9 million. Cities opposing Lone Star's applica-

Williams' remarks were prepared

tion include Dallas, Fort Worth, Waco, Abilene and Denton. Lone Star is seeking an increase in what it charges 1.1 million residential and commercial customers in 421

The average residential customer's bill would rise approximately \$28 a Lone Star also is seeking authority to pass on 100 percent of its natural

gas costs. Currently Lone Star is allowed to pass on 85 percent of the average cost of gas.

"Lone Star's average cost of gas in

June 1979 was \$1.7836 per 1,000 cubic

feet (mcf)," said Williams. "But

since Lone Star has the 85 percent

limitation on the cost of gas above \$1.1802, the company in effect lost nine cents for every mcf of gas sold

that month. That's like a baker not

being able to include the full cost of

flour in the price of bread.' Williams said because of the 85 percent limitation, Lone Star failed to recover \$12 million in the 12 months

ending in April. "We must earn enough to pay competitive wages, to buy the supplies and all the other things necessary to get gas to our customers on a dependable, high-quality basis," said Williams. "We have to earn enough to keep investors interested in letting us have the money necessary to keep everyone's service as good as it

should be." "Right now, as we will prove to the commission," he said, "we are short of earning enough to do all that should be done to assure first-class, quality service. That is why we are requesting this increase.

The Lone Star hearing had been postponed twice - once to give customer cities time to fight a similar phone company rate increase.
