Looking Things Over

By "MACK"

MUSINGS—its hot—cotton sure growin'—looks like this next fall will be the one—bet the play bunch are having a good time at the Centennial—wish I was there—its still hot—hot weather is sure hard on a fat man—wonder where I'm going to raise the cash to go to the Centennial—glad the boys got their bonus bonds, they earned them—bet Mr. Roosevelt and Mr. Allred are re-elected—ain't it hot—everything's hot but local politics—we just gotta go to the Centennial—want to go Fort Worth Frontier celebration to—wish I was rich this year so I could travel all over Texas—am glad I'm a Texan—I envy the baby cause she don't have to work and can lay around the house with just infant's underwear on which looks cool—guess the hot weather makes me lazy—don't like to be lazy—am glad they are finally going to 'black top' the streets—wish they'd rush things on Highway 86 cause we don't like rough roads—ice cream is rather a popular food these days—so is ice water—fourth of July comes on Saturday this year so guess the boys in the stores will have to stay on the job—course bankers and postmasters will take the day off—why is it the other fellow's job always looks the best—will be glad when cool weather comes—so will the gas man—wonder how rabbit twisting would be on these hot days—am too lazy to even go take care of the farmers who are being ruined by rabbits—bet the fight tonight will be a dandy—am expecting the colored boy to win—big league baseball is pretty interesting now—wish it was football season—gee! it's hot—bet it'll be hot tomorrow—(thank goodness, this space is filled up).

—M—
Texas is the land of promise. If you don't believe it just wait until the campaign really gets underway.

ELECTION JUDGES ARE APPOINTED FOR PRIMARY

Election Judges for the July 25th primary were appointed this week. For the region "under the cap," the following Judges will serve: Quitaque, Henry J. Bailey; Gasoline, Boone McCracken; and Antelope, W. N. Bullock.

SOME SUMMER DON'TS

Don't attempt to get tanned in an hour or in one day—do it gradually.
Don't drink questionable water.
Don't take chances with boats and speedy autos.
Don't neglect the babies—summer is their hardest season.
Don't over-exert in hot weather.
And keep cool with fruits, good water, vegetables, milk, and ice cream.

Luke Barker Says:

Zeb Pike sez that he's etc so much cracked wheat an' oat meal he's scared t' look a donkey in th' face.
A lot o' June newlyweds find that th' sea o' matrimony begins t' git purty rough about Septem-ber.

BRISCOE COUNTY BEAUTIFICATION AWARDS MADE

Hamilton Home, Rock Creek Station Winners

State Highway Department Beautification awards were presented Saturday to J. N. Hamilton, of Quitaque, for the most attractive farm home, and to J. C. Johnson, owner of the Rock Creek Service Station of Rock Creek, for the most attractive service station, on Highway 86 in Briscoe County.

1936 awards were made Saturday morning by a committee of three, Mrs. Finley White and Roy Hahn of Silverton and C. B. McDonald of Quitaque, appointed by Mrs. W. Coffee, Jr., of Silverton, County Chairman of the Highway Beautification program.

The awards, beautiful plaques suitable for highway display, are made annually in the Highway Beautification Program sponsored by the Citizen's Organization for Highway Beautification.

Prizes are awarded each year for the most attractive farm or ranch home, the most attractive service station, and for the most attractive rural school. All entries to be considered in the contest must be located on a state or federal highway.

The local committee this year agreed to make no awards to the rural schools on the highway, since it was felt that none deserved the honor—hoping to stimulate competition in this division next year. Due to the limited time allowed the committee, no publicity was arranged in advance of this year's contest.

The attractive farm home of J. N. Hamilton, located a short distance west of Quitaque, and the Rock Creek Service Station will display the State awards on the highway during Centennial year.

The committee plans a county-wide contest in 1937—and will consider every home, school, and filling station located on Highway 86 as an entrant.

Pensions To Be Paid In July Says Director

Special investigators for the Texas Old Age Assistance Commission are completing their work speedily this month, investigating several hundred applications for pensions in this district, to complete their rolls in time for first pension payments on July 1. It has been announced definitely that first payments on the pension, ranging from nine to thirty dollars, and averaging approximately twenty dollars, will be made early in July.

All pension payments will be based on the need of the applicant, according to Orville Carpenter, Old Age Assistance director, in accordance with statutory requirement. The maximum permitted is \$30, with \$15 from the state and \$15 from the federal government.

Approximately 65,000 persons in Texas over the age of 65 will meet requirements as fixed by the Federal Social Security Law and the Texas Law, Carpenter said. Each will be eligible for the maximum of thirty dollars a month.

Carpenter advised there was no doubt that payments would start July 1, as both state and federal money would be in the state treasury. Texas was recently granted \$1,181,250 by the social security board.

"Payments will be based on need. It is also true that payments will be \$30 a month to those whose needs require it. However, the general average will be about \$20 to each old person on the pension rolls. This average is in itself \$5 a month more to each needy old person than he or she could get if Texas had a blanket pension program of \$15 a month only," Carpenter added.

Roper Greeted at Exposition

SECRETARY ROPER AT FAIR.—Secretary of Commerce Daniel C. Roper is shown above, left, as he arrived in Dallas Saturday for the opening of the is shown above, left, as he arrived in Dallas for the opening of the \$25,000,000 Texas Centennial Exposition. He is being greeted by Governor James V. Allred, with whom he participated in the opening ceremonies.

Gregg Pitches Local Nine To Win Over Kress

Virgil Gregg, right handed moundsman, recently returned from Sul Ross STC at Alpine, pitched the Quitaque Baseball nine to a 6 to 0 shutout over Kress on the Kress diamond Sunday afternoon.

Gregg allowed the rival sluggers only four scattered hits, hurling the entire game for the locals, while his teammates came through to collect fifteen base hits, crossing the plate for six tallies, to put the game on "ice."

Gregg himself hit two triples and a single in five trips to the plate.

The locals will meet Lockney in the fourth game of a series on the Lockney diamond next Sunday afternoon. The two teams have met three times this season, each winning one game, while the third encounter was halted by rain in the fourth inning.

Batteries for the game Sunday have not been announced.

PLAY TO BE PRESENTED AT GASOLINE FRIDAY

The play entitled "When a Woman Decides" will be presented at the Gasoline Community building Friday night, June 19. Everyone is invited to attend. An admission of 10c each will be charged and the proceeds will be used to buy equipment for the Rinky Dink Ball Club.

Rain Fall Totals Nearly Half Inch Last Friday A. M.

A steady downpour between midnight and dawn Friday morning brought half an inch of rain in Quitaque—the first moisture received here this month—lowering temperatures which had reached a high mark of 105 degrees earlier in the week.

The rain was general over this immediate territory—covering the entire valley and plains area.

Rainfall north and northwest of town—in a region where previous rainfall has been light—was considerably heavier, totalling an inch or more in most sections, farmers in that vicinity estimated.

Forty eight one hundredths of an inch was measured in Quitaque on the Weather Bureau gauge at the Quitaque Post, bringing the total for this year, since January 1, to four and three quarters inches.

JOHN BOYLES UNDERGOES OPERATION AT PLAINVIEW

John Boyles was rushed to Plainview Tuesday evening for a major operation at the Plainview Sanitarium. Mr. Boyles was operated early Wednesday morning for appendicitis, and is reported doing well. He was accompanied to Plainview Tuesday night by Dr. E. P. Rumph, Mrs. J. H. Boyles, Everett and Wirt Boyles, E. G. Rice, Sprout Craig, and P. O. Woods.

AGRICULTURAL BRIEFS

BY THE BRISCOE COUNTY AGENT

Closing date for filling out work sheets has already passed in Briscoe County. A preliminary check of all work sheets filled out so far shows that about 99 per cent of all farmers in this County have signed up. Of course we didn't expect a 100 per cent sign up so we are not at all disappointed. We believe that the only fellow who will be disappointed will be that fellow who failed to sign his work sheet.

Harvest Time

Our days are numbered that we will have to watch and pray that there will be no hail, for it won't be long til the combines will begin their search for ripe wheat. In some fields they won't have to look so close to find a little wheat, but in others they will have to cut awfully close over a wide range of territory in order to find enough to reseed with. Crops this season are estimated at from 0 to 25 bushels. Most estimates, however, call for 5 to 7 bushels.

New Program Points
A birds-eye view of the things to be remembered in the new farm program are given here for you to think about.
The new program calls for a minimum of 20 per cent of your cotton land to be taken out of cotton production. It allows (and will pay for) a maximum of 35 per cent of your cotton land taken out. It calls for a flat 15 per cent of your general soil depleting base left out of production. The general soil depleting crops include corn, grain sorghums, mellons, potatoes, garden truck, broom corn, pop corn, wheat, barley, oats and mixtures of these.
The acres removed from soil de-

4-H Club To Sponsor Political Pie Supper On Friday, June 26

Candidates for political offices in this section will be given an opportunity to air their views on the coming campaign at a Pie Supper and vaudeville program presented by the Quitaque 4-H Club at the school Auditorium Friday evening, June 26, C. T. Rucker, Jr., secretary of the organization, announced Wednesday.

Sponsored by the 4-H Club boys, the community pie supper will be presented in connection with a snappy musical program at the auditorium. Candidates will be limited to five minute speeches, Rucker stated.

Proceeds from the event will be used to send members of the Quitaque Club with the Briscoe County 4-H delegation on a ten day trip to the Texas Centennial Exposition at Dallas and the Future Farmers Centennial Short Course at Texas A & M, College Station.

A delegation numbering between fifteen and twenty-five boys from clubs in this county plan to leave on July 16th for Dallas, where they will attend the Centennial—leaving Dallas July 20th for College Station to attend the five day Centennial Short Course at A & M until the 25th.

Special club rates are offered 4-H boys at Dallas and College Station, including general admission to the Centennial, accommodations and meals. The local group plans to make the trip by truck.

Plans for the pie supper and program were laid Tuesday evening at a meeting of the Quitaque club at the school auditorium. Finley White, County Agent, assisted Bud Bailey, president of the organization, in completing the arrangements. Nineteen boys were present for the meeting.

Veterans Receive Over \$10,000 In Bonds this Week

Payment of the soldier's bonus began here Monday afternoon—one day earlier than expected—as twenty envelopes containing more than ten thousand dollars in bonds and treasury checks arrived by registered mail at the local post office.

Two additional payments arrived Tuesday, while eight or ten more are expected soon, according to Postmaster S. T. Bogan.

Sam Fairchild, local trucker, was the first to sign and receive payment Monday afternoon, and was also the first to surrender his bonds, totalling over five hundred dollars, to the Postmaster to be cashed.

The largest payment made to date was received by Jack Troutt, here on a visit from Safford, Arizona. Troutt received fifteen bonds, totalling \$750, and a check for \$16.57.

The largest payments to be made here, however, will go to Orlin Stark president of the First National Bank, who will receive over \$1250, and to Charlie Clark, proprietor of Clark's Cafe, whose payment is expected to total more than \$800. Both bonus payments are at the local office now—uncashed for—as the two men are out of town.

The bonus is being paid in bonds of fifty dollar denomination—odd amounts being paid in treasury checks.

According to Postmaster Bogan, a large majority of the bonds are being surrendered to be cashed immediately. The certificates are mailed to the Dallas office for payment, and checks are expected to be returned within a week.

Individual payments here average between \$450 and \$500, Bogan estimated, and range from fifty dollars to more than \$1250. Most of the local veterans have already taken advantage of a fifty percent loan on the bonus granted in 1932.

Speedy payment of the bonus is being rushed through a well-organized Postal Department staff, and should be completed within a short time.

A small number of the bonus bonds to be paid here have been delayed, but will arrive within a few days, it is believed.

TO COMPLETE CITY PAVING THIS MONTH

"Black Topping" Will Start Next Week

Completion of the \$2 paving project under the Works-Progress Administration is definitely scheduled, 30th, S. R. Powell, local engineer, announced Wednesday.

Hard-surfacing of a variety on the six block construction will be started, Powell stated, and will be on schedule on or before July 1.

Caliche base and curbing on the entire street complete, and plans are being made for starting the "hot-top" Main Street Monday or Tuesday.

A \$20,000 appropriation WPA funds was granted earlier, and work on the project started January 1. According to Powell the work must be completed before July 1.

Six blocks of city streets were included in the plans for hard-surfacing. Two blocks on Main, two blocks on First Street, one north and one south of Main, and two blocks on Second north from Main to the school campus will be surfaced.

Plans for hard-surfacing a third block on Main Street have been abandoned.

One block on Second Street is still under construction—work on the remaining five having been completed in preparation for topping.

Powell definitely dispelled all rumors that paving on local streets will not be completed, stating positively that, barring unforeseen delay, the final surface coat will be laid on schedule.

Folk Festival Play Given At Dallas Wednesday

Sixteen members of the cast of Quitaque's Centennial Folk play, "After Supper at the Old F Ranch," with their director, Mrs. E. C. Price, left Tuesday for Dallas, where the play was to be presented as a part of the National Folk Festival at the Texas Centennial Exposition Wednesday afternoon.

Mrs. Joe Graham, author of the play, was unable to accompany the cast, due to illness.

The local folk drama will be presented on the same date with entries from Crowell and Childress, forming a complete program from this district, according to announcement by Sarah Gertrude Knott, Festival director. Crowell, Childress, and Quitaque were joint winners in the Regional Folk Festival at Memphis in May—all three plays receiving invitations to take part in the national event at Dallas.

Two replacements in the cast were announced last week by Mrs. Price. Virgil Gregg will replace George Owens in the cowboy chorus, while Isabel Price has been selected to relieve Mrs. Paul Hamilton as Reader. Mrs. Hamilton and Mr. Owens were unable to make the Dallas trip at this time.

Expenses of the trip are being partially covered by proceeds from programs presented here, at Turkey, and at Flomot last month.

Members of the cast who will make the trip are Isabel Price, Mrs. A. L. Patterson, Ila Steele Patterson, O. S. Cutbirth, Rucker Hawkins, Amos Persons, Gaston Owens, Virgil Gregg, Charles Walden, Mrs. J. W. Ewing, Amelia Tunnell, Ronald Kitchen, W. F. Brittain, H. E. Berry, Jack Stroup and S. T. Bogan Jr.

Accompanying the cast and director, Mrs. Price, are Mrs. Cutbirth and Mr. Patterson, and Mrs. H. E. Berry and children. Mr. and Mrs. Berry and family left for Dallas last Thursday, planning to return with other members of the cast.

"BARNUM WAS RIGHT"

The one and only P. T. Barnum is alleged to have said many things that never found their way into our copy books—things to which few of us would wish to subscribe. But he uttered a profound truth when he said "If you don't advertise your business, the sheriff will."

Firms which intend to stay in business, that is, firms which deal directly with the public, must advertise. By the same token, it is a sign that they mean to stay in business when they do advertise. For they are offering, through advertisements, the values in their stores.

You, the customer, will decide whether or not they ARE values. If they are not, it is "just too bad" for the firm that claimed they were. Don't you see, therefore, that no merchant can afford to misrepresent himself or his goods in print? Advertising merely magnifies a misrepresentation—brings the fatal day nearer.

Naturally, then, you can trust the advertisements in this paper. You can believe that the stores signing those advertisements want your trade, and are willing to earn it—with honest values and fair treatment. Read the advertisement. Patronize the advertisers. It is to your selfish interest to do so.

If you're a normal adult, you have from three to four quarts of blood coursing through your body.

Second Little Girl: "We take from him, too."

Maybe the reason some citizens often get on the wrong track is because their parents misplace the switch.

Where the Taxes Come From

By RAYMOND PITCAIRN
National Chairman
Sentinels of the Republic

"Taxes are paid in the sweat of every man who labors."
Congress, as this is written, is beginning to remember that profound truth—and to realize that the public remembers it, too.

Therein lies a headache—not only for Congress but for all other officers of government, whether national, state or local, who have spent the people's money at such amazing speed during recent years.

The trouble is that in proportion to public expenditures, there are fewer earnings for the tax-collectors to levy on than there were, let's say, a decade ago.

Recently - published figures have brought this fact dramatically to the taxpayer's attention. They show, for example, that whereas in 1929, taxes took one-eighth of the national income (which means the earnings of all the people), by 1932, they took one-sixth, and by 1935 more than one-fifth.

Or put it another way! In 1928, the average American labored one day out of every eight to pay the costs of national, state and local government; in 1932 he labored one day out of every six for the same purpose, and in 1935, one day (and a few hours over) out of every five.

Yet even that didn't meet the whole cost. If government last year had paid all its bills in cash, nearly one-third of all the money earned by the American people would have been required to balance the account. Instead, government borrowed, which means that the bill must be paid out of future earnings of the workers or their children—still in the sweat of the man who labors.

Today the politicians are searching feverishly for a method of producing taxes without the inevitable sweat. They find it a difficult job. Perhaps they are approaching it at the wrong end. If they want to make things easier for the people, who ultimately pay the bills, why not turn their thoughts to the problem of spending fewer billions, rather than to the question of how to collect more?

HIGHWAY BOOTHS GUIDE VISITORS TO CENTENNIAL

DALLAS — Information booths built in the form of the historic Alamo are located on nine cardinal highways leading to Dallas. Here visitors may obtain rooms, apartments, complete houses, or other accommodations before reaching Dallas. The attendants will merely telephone the Centennial Exposition Housing Bureau and visitors will be routed from the booth at which they inquire.

There were opery town loafers in Quitaque in the olden days, too, but nobody thought of paying them for it.

A FARMER'S LIFE "AS HE LIVES IT"

By ED HOLMES
(Station C. E. H. Farm)

FLOYDADA—I talked one week too soon. Along came a rain and hail that "Busted" some of my terraces. Burst may be proper English but "busted" explains better the way those new terraces went out. All I have to do is build them higher and more of them. Just a simple matter of moving some "dirt." There might be "dirt" other than on farms that it might help to move.

Many farmers through here had their wheat and cotton hailed out completely. Only about 50% on this 140 acre farm. You sure better put your ducks in the barn when everybody starts planting cotton. They are liable to get drowned.

Arthur Womack along with others says this is the last "big" wheat crop failure they will ever make.

Saturday I questioned ten farmers and found that they owed loan companies in round numbers, \$66,000.00. Every one of them had heard of the Frazier-Lemke farm refinance bill and all were in favor of it. In round numbers, if this bill had passed last month these ten farm producers would have saved annually, an average of \$198.00 each—probably the difference in success and failure.

Here is the pitiful thing! When I asked them personally if they knew how our Representative Mahon voted on the bill, only one out of ten knew. Good for U. A. Williams.

I walked right straight and asked the first ten business men of Floydada that I came to this same question. Only one of them knew—Walter Collins. Five of them didn't even know what the bill was about. No wonder this farming section can be exploited. Do you know what the bill was about or how your representative voted?

Sure, Mahon voted FOR the bill even though it was defeated.

Marvin Jones voted against it.

I reserve the right to change my mind when the facts are presented to me, but at the present time I believe there are just two sides to this interest rate business: The producer pays and the non-producer receives. When the interest rate goes down, the producer is helped. When the interest rate goes up the non-producer is helped.

The only consolation I get out of it is: "It is more blessed to give than to receive."

You can tell which side your representative is on by his actions and voting, not his oratory just before election time.

"If you don't keep up with how your representative's vote how can you elect them intelligently?"

You business men, if you don't know the farmer and know that the farmer is poorer when we do, why do you vote for us lower that terrible producing section through the best rate route? This bill will come up and you will have a copy of the bill and know how he stands—then you will write your Representative to know how he stands—then you will have new candidates and find them out. You can then vote intelligently.

You will admit that present conditions warrant intelligent voting.

Sleep Urged As Necessary Aid to Health

AUSTIN—Sleep is a necessity of life and health, and habitual loss of sleep will tend to retard the body's recovery from fatigue of the day's activities, advises Dr. John W. Brown, State Health Officer.

"The average healthy adult," he said, "spends about one-third of his life in sleep. Far from being a waste of time, this one third of your life spent in restful sleep will make possible a happier, healthier and longer life."

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged length of time will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one. When good health can be maintained to such a large degree by merely sleeping and thus allowing overtaxed bodies and minds to regain a proper balance, it is hard to understand why so many persons are heedless of this necessary requirement of a balanced program of life."

"Some individuals need more sleep than others, and the most valuable experiments in this line are the ones each person makes on himself. We must each take into consideration in this experiment, however, that how well we sleep is as important as how long we sleep. A 'good night's' rest means a sufficient number of hours spent in sleep to enable each individual to feel well, do efficient work, and to keep in a cheerful humor the next day."

So You're Going To Be Married In June—

Keeping house is FUN, if your new home is equipped with an automatic gas water heater. Hot water for dishes, laundry and personal needs—INSTANTANEOUSLY day or night—and the upkeep won't strain a newlywed budget either. Gas rates are so low.

The low gas rate fixed by the Railroad Commission of Texas, and put in effect by the Company is lower than the rate in 591 other Texas cities and towns having gas service. Minimum bill also reduced.

West Texas Gas Co.
Good Gas With Dependable Service

Every housewife is confronted with the three-day question of variety in the meals she serves. In beef we become addicted to roasts or steaks and forget all about the other good beef cuts which will give pleasing variation and be easy on the pocketbook, too. Perhaps our trouble lies in the fact that we are not as familiar as we should be with many of the possibilities offered by beef. If you are one of those whose use of beef is limited to a roast or a steak, the chart given above will be invaluable in learning to identify and locate the many retail cuts of beef. The chart will show you at a glance just how each one should be cooked. You will want to preserve this chart for ready reference.

GET GULFLUBE— It's "Stripped for action"!

Poorly refined motor oils, like a swimmer with all his clothes on, can't do an efficient job. They carry too much excess baggage—waste that should be "stripped off" by refining.

Most 25c oils, like a swimmer stripped of part of his clothes, are rid of some waste—but not enough for best performance. No refiner of 25c oils could afford to go further, before Gulf's Multi-sol process was perfected.

GULFLUBE MOTOR OIL, like a swimmer stripped for action, is rid of every bit of excess waste. It's the only Multi-sol-made 25c oil—the finest, purest oil a quarter ever bought. Gulflube gives you better lubrication, lower hills and a cleaner motor. Prove it—at the Sign of the Orange Disc.

Local Tennis Tournament Lauded by Visiting Netter

Tournament Sidelights

By CHARLES NEWTON

(Editor's Note: The following interesting comments on the tennis tournament staged here on the fifth and sixth were written by Charles Newton, Managing Editor of the Floyd County Hesperian, Floydada. Newton was a prominent contender in the tournament, and was a member of the winning doubles team. His views are interesting and complimentary.)

The Panhandle Invitation Tennis tournament at Quitaque a fortnight ago was a huge success. At least a success from the player's point of view, in my opinion. Looking back over those two days spent in Quitaque, I cannot find many improvements that could be made on the generous hospitality of the people of Quitaque. I have never been treated more kindly than I was during that tournament. I enjoyed myself immensely. I think I speak for all others in the tournament, for I was as single note of discord among the participants during those days. The quality of play exhibited by those entered, I am of the opinion that it exceeded the expectations of those who engineered the playing. Quitaque is blessed with a large number of tennis fans and the gallery that turned out for the matches was gratifying both to the Quitaque and to the "foreign" players.

Such enthusiasm as was shown by the Quitaque tennis fans should not be lost, but should be nurtured into something even greater in its inclusion.

That tournament was good advertising for Quitaque and should grow

to greater proportions in later years. With continued support of the citizens, it should be one of the outstanding events among Panhandle-South Plains racquet wielders each year.

If perhaps two more courts could be built, preferably adjoining each other, Quitaque could have as good a tennis tournament, if not better, than any town in this area.

Again, I commend you for the excellent manner in which the tournament was run off and hope that you will be able to hold the tourney another year and for many more years to come.

Panhandle-Plains Singing Meet Opens Saturday

LUBBOCK, June 16.—Saturday and Sunday, June 20 and 21, the Panhandle Plains Singing Association will hold its annual convention—Centennial Session—in Lubbock, Texas, at the Sled Allen Auditorium.

An anticipated attendance of between ten and fifteen thousand people will include some of the outstanding leaders and singers in Texas and adjoining states.

V. O. Stamps, president of the Stamps-Baxter Music Company of Dallas in charge of the Centennial Singing in Dallas, will conduct the program here.

A \$10.00 cash prize is in store for the best amateur quartet Saturday afternoon.

S. B. Summers, president, and Earl Roper, vice-president, together with the city of Lubbock extend their cordial invitation to all singers and music company representatives to be here for the program which starts promptly at 2 o'clock Saturday afternoon in the Auditorium.

A frequent cause of off flavor in cream is rust in the can.

Frontier Show Opens at Fort Worth July 1st

FORT WORTH, June 16.—Rehearsals got under way last week for two of the major productions of the Fort Worth Frontier Centennial, the 162 acre fun festival and theatrical round-up opening here July 1 under the aegis of Billy Rose.

Most elaborate of the shows, and the one which gave Fort Worth this week the feverish excitement of Broadway before a big opening is the Frontier Follies, a lavish musical production to be staged in the cafe-theatre called Casa Manana.

The vanguard of Broadway show-girls and male dancers were brought in to augment the vast array of Texas beauties selected for the Casa Manana show. Principals will include Everette Marshall, famed baritone who appeared last season in Ziegfeld's Follies and has recently completed a moving picture for MGM. The Lime Trio who appeared in the New York success, "Life Begins

at 8:40", and the team of Walter Dare Wahl will carry the comedy roles.

Paul Whiteman's Orchestra will play and stars such as Dick Powell, Fannie Brice, Maurice Chevalier, and others hold the spot on successive weeks throughout the summer.

Other major show in rehearsal this week is the Wild and Whoop-ee show called "The Last Frontier", a

hard riding, shoot-em-up, cowboy, soldier and Indian melee to be staged on a vast piece of out-of-doors built up to look like a section of Palo Pinto County.

Third major show of the Frontier Centennial will be Billy Rose's famous "Jumbo", brought down from

New York where it ran last season at the Hippodrome.

If the 17-year old locusts do visit the Panhandle this summer its hoped that President Roosevelt and the A. F. of L. leaders will see that they observe the 30-hour week.

Lemons for Rheumatism Bring Joyous Relief

Want to be rid of rheumatism or neuritis pain? Want to feel good, years younger and enjoy life again? Well, just try this inexpensive and effective lemon juice mixture. Get a package of the REV PRESCRIPTION. Dissolve it in a quart of water, add the juice of 4 lemons. A few cents a day is all it costs. If you're not free from pain and feeling better within two weeks you can get your money back. For sale, recommended and guaranteed by all leading druggists. Any druggist will get the REV PRESCRIPTION for you.

Absence makes the meat grow tender

• The new Hotpoint Ranges bring you a great new gift of electricity. "Absent Cookery"—a modern miracle of electricity—enables you to cook an entire meal while you are away from the kitchen, and results are wonderful. Meat perfectly cooked and tender, vegetables tasty and healthful, pudding, pie, rolls, etc., beautifully browned and deliciously flavored.

Come in and learn the whole wonderful truth about cooking with these Hotpoint Electric Ranges. See how clean, glowing electric heat creates no "combustion dirt," keeps pots and pans, stove, walls and curtains clean.

We will show you why Electric Cookery is COOL. There is a whole lot more to this wonderful feature than the insulated oven. The beauty of it all is that you can enjoy these advantages of electric cookery and save money at the same time. See these Hotpoint Ranges today.

FEATURES

Calrod, hi-speed, clean-heat coils... "Chef's Brain" (automatic timer clock)... Thrift Cooker... new type oven temperature control... fully insulated oven... table-top model... all porcelain enamel... trimmed with chromium.

HOTPOINT CALROD

What Mazda means to light, Calrod means to cookery. Calrod is the name given to Hotpoint's hi-speed sealed-in-metal cooking coil which has revolutionized electric cookery. It brings new speed, new cleanliness and new economy to the kitchen.

THRIFT COOKER

Economical. Uses only about as much current as the kitchen light. Cooks an entire meal of meat, vegetables, dessert—or bakes small quantities, like a few potatoes, without need for heating up the oven.

- Liberal Trade-in Allowance
- Low Down Payment
- Easy Monthly Terms

Shooting Stars

Joan Blondell

Joe E. Brown

Olds Officials at Centennial

There were scrolls and scrolls and scrolls when the Oldsmobile good will caravan arrived in Texas. One, with more than 100,000 signatures, was presented to the people of Texas. Another from the governors of other states was given to Governor Allred. A third was presented to Mayor Sergeant of Dallas. All carried messages of good will to the people of Texas from the people of the rest of the coun-

try. And just to make it unanimous Oldsmobile dealers in Texas presented D. E. Ralston, vice-president of Oldsmobile, with scrolls pledging to put Oldsmobile in fourth place in their territory. Presenting these scrolls are, left to right, W. J. Bryan, zone manager at Houston; D. E. Ralston, J. R. Austin, zone manager at Dallas, and L. J. Blunden, regional manager in the south-west.

planting crops may be planted to sudan and harvested or grazed. It may be summer fallowed or it may be planted to any of the beans and pea family—not for harvest.

A & M Short Course

Its only a month now till we'll be packing our bags and baggage to take off for the Short Course down at College Station. Plans are now underway to take a group of 4-H Club boys down to Short Course and visit the Centennial at Dallas on the way down. That means that July 16 will see us load out for Dallas in order to make the stop over and still get to A & M by Monday morning. Watch your local community advertising mediums for the 4-H Clubs to do some advertising about the Short Course and the Centennial—I'm sure they're going to advertise it some.

DOUGLASS OPENS CAMPAIGN FOR SENATOR

Douglass opened his campaign for the 31st District of the North Panhandle by speaking to an interested gathering at 2 o'clock in the afternoon and at 4 o'clock in the evening. He was accompanied by a like gathering of friends. Mr. Douglass was accompanied by 42 of his friends and neighbors from his home County, who were enthusiastically endorsing his candidacy and urging him to be elected.

Mr. Douglass was devoted largely to the issues of his campaign. The most universal back-bone of his home County people and interest with which his talk was received by the voters of Hansford and Ochiltree Counties indicates that his campaign is off to a good start and his supporters are confident of his decisive selection at the July primary.

A schedule of speaking dates has been arranged that will enable Mr. Douglass to reach every nook and corner of the district during the remaining days of the campaign.

Erosion Control Experiment Work Results Given

"Erosion control work on the Soil Conservation Service projects is serving as a guide in the fight to control erosion and conserve the soils of the nation," said H. H. Bennett, Chief of the Soil Conservation Service, U. S. Department of Agriculture, during a recent visit to Texas. Commenting on his visit to Soil Conservation Service experiment stations and project areas in Texas, Bennett said: "One heavy rain on cotton land at the erosion experiment station at Tyler early this month swept off soil at the rate of 63 tons per acre and lost 31 per cent of the precipitation in run-off. On the same kind of land, but which was covered with grass, not a particle of soil was lost and the loss of rainfall in run off was reduced to three-tenths of one per cent."

"Last year at the erosion experiment station at Temple, land with four per cent slope in cotton lost 105 tons of soil per acre and 25 per cent of the precipitation in run off. At the same station Bermuda grass lost only three-hundredths of one ton of soil per acre and only four-hundredths of one per cent of the rainfall by run-off. These records show that by the proper use of vegetation we can greatly decrease soil losses on our farming lands."

Remarking on the erosion control work being done on the Texas Soil Conservation Service watershed projects and camps visited, Bennett said that in spite of the record rains of the past week that erosion control measures applied to the farms of cooperators with the Service held to a degree of 95 per cent effectiveness while on untreated neighboring farms soil losses were tragic and terrible.

"This work is so good," Bennett continued, "that it marks a real historic step in the agricultural history of Texas."

MARRIED FOLKS LIVE LONGEST

Statistics compiled by a leading life insurance company indicate very decidedly that the relative staid and regular course of married life is far healthier than the free and easy ways of the unmarried. These figures show that marriage is conducive to longevity. They show that the death rates from nearly all the important causes of death are lower among married men and women than among spinsters and bachelors.

HELPFUL HINTS

To wash black cloth garments, add a tablespoonful of vinegar to every gallon of water and wash in hot but not boiling water with soap. If very dirty use turpentine instead of vinegar, rinse thoroughly, put into strong blue water, leave for six hours, then dry without fire or sun.

Potatoes to be French fried will be more crisp if allowed to stand in cold water for half an hour before frying.

Properly fitting shoes will solve the problem of corns, callouses, aching arches and tired swollen feet.

Green vegetables will retain their natural color if cooked in an uncovered saucepan.

WHY THE STORK?

The legend of the stork delivering new born babies is connected with the stork for the reason that the long-legged bird is foremost among all fowl in extending affection to its young.

Two Texas Governors on Midway

ALLRED AND NEFF RELAX A BIT.—Gov. James V. Allred found a bit of time to frolic on the \$5,000,000 Midway as he helped open the Texas Centennial Exposition in Dallas. He is shown here pushing former Governor Pat Neff, now president of Baylor University, in a ricksha. Janice Jarratt, "Sweetheart of Texas," is in the other ricksha.

GASOLINE NEWS

ETHEL CARTER

Bro. G. M. Covington of Turkey preached here Sunday morning at 11 o'clock. His wife and Mrs. Harry Folley accompanied him here. Bro. Covington will be with us again on the next fourth Sunday.

Miss Euna Bradshaw, Mrs. Edgar Morrison and Earl and Lela Faye Morrison visited in the B. T. Rogers' home in the Buffalo Flat community one day last week.

Mrs. Richmond of near Turkey spent a few days last week in the T. L. Bradshaw home.

News has been received here of the death of R. Hoggard. Mr. Hoggard will be remembered by many here since he and his family lived in this community some few years ago, having moved from here to near Brownfield. His home was at Fort Worth at the time of his death.

Mrs. Guy Waters and Letha Faye and Wynola spent last week-end in the home of Mr. and Mrs. J. Whittington.

Mr. and Mrs. Levi Bedwell and family and Mr. and Mrs. Lawrence Bedwell spent Sunday in the home of Mr. and Mrs. John King of near Silverton.

Lucille Nichols of the Follie community spent the week-end in the home of her sister, Mrs. Andrew Williams.

Mr. and Mrs. Joe Bedwell and Mr. and Mrs. Ordis Chandler left last week for Collins County, where they will work during the onion harvest. They also plan to visit the Centennial.

Mr. and Mrs. J. Russell and family of near Turkey visited in the home of Mr. and Mrs. Edgar Morrison Sunday.

Mr. and Mrs. Boone McCracken and children visited Mr. and Mrs. Leroy Dry of the Tampico community Sunday.

Mr. and Mrs. Leon McCracken and family and Mr. and Mrs. Gene Chandler visited Mr. and Mrs. Otho Meacham of Wolf Flat community Sunday.

John Whittington, Jesse Couch, and Marion Whittington made a business trip to Childress one day last week.

Mr. and Mrs. Ben White spent Sunday with Mr. and Mrs. Bob White of Follie.

Mrs. W. P. Dendy and children of Edgin visited in the G. E. Lay home Saturday.

Mrs. Smith Purdy and children of Folley attended Church here Sunday morning.

The Girl's Tennis Club met Friday and changed the plans for the location of the court. The court is to be placed in the Northwest corner of the school ground. Through the efforts of Commissioner L. E. Graham the ground has been dragged and work has been started toward the erection of the wire and nets.

At the Methodist Church June 21

Dr. Barcus failed to reach us last Sunday but will be with us for the morning hour next Sunday. Lets give him a good hearing. The business session of the third quarterly conference will be held in the afternoon.

We were unable to have the pews in readiness for the night services on the outside last Sunday evening. They will be ready with plenty of light next Sunday evening. Come and make the service a success.

Let everyone of us do our best to reach a high mark in attendance. If at first we do not succeed, lets keep shooting at the mark until we do.

We are always happy to have visitors in our service. Bring your visitors with you to the services.

G. L. Keever, Pastor

The first petroleum refinery in the United States was built in 1855 at Pittsburgh, Pa., by Samuel Kier. Its capacity was five barrels daily.

There out of every four families in the United States, or a total of 22,869,000, own radio sets, according to figures compiled by the National Broadcasting Company. There are approximately 3,000,000 automobile radio sets in use.

Mayor Christens Dallas Thriller

WEE VISITOR GETS FIRST RIDE.—Mayor George Sergeant, of Dallas, and little Marcia Massmann christen the "Rocket Speedway," on the Texas Centennial Exposition Midway, then go for a first ride, as part of the June 6 opening of the \$25,000,000 Texas Centennial Exposition, which will run until November 29.

CARD OF THANKS

I wish to express my sincere thanks and appreciation to the Baptist ladies for their kindness to me during my illness. I have suffered long and much but their visits and words of cheer and beautiful flowers and nice useful gifts have served to lessen my pain, give me endurance and courage to help bear my suffering. May God bless each one of you for your thoughtfulness and kindness to me.

NORGE SETS THE PACE

NORGE
ORIGINATED 30
OF THE MOST
IMPORTANT FEATURES
IN MODERN
REFRIGERATION

THE ROLLATOR cold-making mechanism—introduced in 1926.

MODERN STYLING—introduced in 1932.

COMPLETELY SEALED ICE COMPARTMENT—introduced in 1926.

And 27 other outstanding features. Norge sets the pace in the past. Norge sets the pace today. Norge will set the pace in the future.

Be sure your refrigerator has the Press Action Latch * Improved Automatic Flood Light * Adjustable Shelf * Sliding Bottle and Dairy Rack * Closely Spaced Shelf Bars * Rubber-sealed, Odor-proof Door on Ice Compartment * Many other distinctive Norge features.

ONLY NORGE HAS THE ROLLATOR COMPRESSOR

... smooth, easy, rolling power instead of the hurried back-and-forth action of the ordinary refrigerating mechanism. Result—surplus power, more cold for the current used, greater over-all economy.

"How Big is the Motor?"

Norge is powered with a motor so big that the surplus-powered Rollator, the Norge cold-making mechanism, will have plenty of drive behind it. That means lasting refrigerator satisfaction—surplus power necessary for greatest over-all economy. Norge gives ample protection to foods on hottest days. Moreover plus power in the Norge motor means that it runs less time, uses less current, and cuts current costs.

Learn how Norge leadership adds extra years to the life and style of Norge refrigerators. See the Norge before you buy.
