QUITAQUE, BRISCOE COUNTY, TEXAS, THURSDAY, SEPTEMBER 8, 1938

Numbel 41

## Former Local Boy Killed in Auto Wreck

Pampa—One man was killed, two critically injured and one woman and three men less seriously hurt in two highway accidents near here late today. (Sunday)

All but one of the injured are in Worley Hospital here.

Dee Trammell of Olton, suffered fatal injuries in a freak accident in which two trucks and a light coupe figured on Highway 60, between Panhandle and White Deer. Trammell died en route here in an ambulance.

Critically injured are J L McDaniels of Nolita, Texas, and Leo Jureczka, Bandera, N. M. McDaniels, who is a teacher at Glazier, Tex., suffered a compound fracture of the right leg and internal injuries, while Jureczka also suffered a fracture of the right leg cut, bruises and internal injuries.

The light coupe in which Trammell and McDaniels were traveling west on Highway 60 skidded off the wet paving, jumped back on and collided head on with a truck reportedly driven by I I West, of Amarillo.

West suffered cuts about the head. Jureczka, driving a second truck behind that driven by West and traveling in the same direction, collided with the rear end of West's truck.

Both trucks and the coupe were badly wrecked.

Funeral services for Dee Trammell, 20, of Olton were held Tuesday afternoon at 2 o'clock at the Canadian Methodist church, by Rev. E. E. White of Plainview, presiding elder of the Plainview Methodist district.

Dee Trammell is the son of Mrs J H Stephens and step-son of Rev. J H Stephens, who is pastor of the Olton Methodist church. John McDaniels, who is a brother of Mrs Stephens is seriously injured in a hospital at Pampa. Bro. Stephens is a former pastor of the Quitaque Methodist church.

## Burgess Pharmacy Has Improved Fountain

Burgess Pharmacy last Friday night completed installation of a new Frigidite ice cream cabinet of rather large proportions. The insulation of the refrigerating part of the soda fountain went haywire resulting in the loss of a quantity of ice cream and other frozen confections, which necessitated the installation of the new unit.

Though coming at an inopportune time and causing the outlay of a rather sizeable sum of money, the ice cream cabinet is quite an addition to the fountain equipment and affords much more storage and packing space for ice cream, other frozen delicacies and articles that must be kept in refrigeration.

The new unit was delivered and installed by the West Texas Utilities Co.

## Infant Mortality Rate Low in Briscoe County

Austin—"In Texas during 1937, 608 mothers lost their lives through childbirth and associated conditions. Fatality struck 8618 babies under one year of age and 3,972 infants were stillborn. These facts become particularly distressing when it is realized that at least two-thirds of this motherhood mortality could have been avoided", states Dr Geo. W. Cox, state health officer.

Briscoe county had 66 total live births, of which 61 were white, 4 were Negro and 1 Mexican; 30 of the infants were male and 36 female. Physicians attended the births of 65 infants, midwives attended the birth of 1 infant; all 66 of the births were at home; one child was stillborn giving the county a rate of 1.5 per 100 live births; 2 children died under one year of age, a rate of 30.3 per 1000 live births.

## At the Methodist Church

We are inviting all college students to be our guests for the morning service next Sunday. Bring your friends and worship with us.

Yours to serve,  
G. L. Keever, Pastor

Rev and Mrs J Taylor Smithes visited their son Gordon who is working in Lubbock, last Friday. They were accompanied by Mrs. Gene Bedwell and Mrs W W Jenkins.

## Joe Frank Sutton Drowned In Colorado

Joe Frank Sutton, only son of Mr and Mrs. M M (Bill) Sutton, was born at Plainview, July 4, 1925, and departed this life in a tragic accident at Dolores, Col., Aug. 10, 1938, about 2:30 p. m.

Joe Frank, David Waters and Glen Smith had gone on a hike and coming back decided to go swimming. Joe Frank and David, getting out too far, and into a whirlpool, both lost their lives before help could arrive.

The Sutton family moved to Dolores from Sudan, Texas in Aug. 1937. Joe has won many friends, not only of his own age but among the older people as well. His friendliness was attested by the great number of friends he had. He was cheerful and affectionate in his relations with his friends and devoted to his father and mother.

A double funeral was held in Dolores at the Methodist church on Saturday, Aug. 23 at 1:30 p. m. Rev. Baker assisted by Rev. Flanders and Rev. Taft had charge of the services.

Besides his parents Joe Frank is survived by one grandmother, Mrs J F Sutton of Snyder, Texas, a number of uncles and aunts, Bud Brooks, Bryant Brooks, S L Brooks of Silvertown, Kay Brooks of Berger, Mrs J W Roe of Belen, N. M., A R Sutton of Snyder, Roy Sutton of Quay, N. M., C W Sutton of Dolores, Col., and Mrs Violet Foster of Muleshoe.

## 'Pappy to Pass Biscuits' At The Tri-State Fair

Amarillo, Sept 7—W. Lee O'Daniel and his Hillbillies will "pass the biscuits" at the Tri-State Fair here, Sept. 19.

And every day during exposition week cinema celebrities and other notables will attend.

"This is the sixteenth year of the Tri-State Fair and the association is spending more money than ever for attractions," said Ray Pickney, the president.

There will be an improved midway, with many free attractions, including a death-defying loop, Butler Brothers rodeo and "Cavalcade of Hits," a spectacular show on which the association has taken out rain insurance.

The famous cowboy band from Hardin-Simmons will play a concert each afternoon at the rodeo, which will be of championship caliber with star performers appearing between the spills and thrills of the cowboy contests.

"For beauty, comedy and all around entertainment for the whole family "Cavalcade of Hits" is unsurpassed and I predict record crowds every night to see it and the climax of fireworks" said President Pickney.

## Junior Culture Club Has Called Meeting

The Junior Woman's Culture Club met at the home of Miss Minnie Mae Roberson and Mrs. Marion Roberson last Thursday for a short call meeting.

The names of new candidates for membership in the club were voted on. It was decided that the first regular meeting would be Sept. 13, which will be a social at the home of Mrs. Jimmy Baird.

Those present were Mesdames Jimmy Baird, H R Cushenberry, A C Bickford, J W Lyon, Jr, Frank Gillespie, and Misses Lorene Oliphant Seney Persons and the two hostesses, Miss Minnie Mae Roberson and Mrs. Marion Roberson.

## COTTON LOANS WILL BE 8.30 CENTS BASE

The agricultural department announced Saturday it would make loans on the 1938 cotton at the base rate of 8.30 cents a pound.

The 8.30 loan rate will apply to 7-8 inch middling cotton, with differentials for other grades and staple lengths. This compares with a base rate of 9 cents a pound on last year's crop. Loans are made to growers desiring to hold their crops off the market for possible better prices in the future.

The loans actually will range from 5.30 cents a pound of 3-16 inch or shorter low middling to 10.75 on 1-18 inch or long staple good mid dling or better cotton.

## Contour Rows Conserve Water

Contour tilling supported by terraces where necessary, holds practically all the water where it falls on the land and permits moisture to soak into the soil for use of growing crops. Residues and trash from crops provide effective protection from wind erosion. Contour rows in this field on a Soil Conservation Service demonstration project are full of water several hours after a heavy rain.

## Local Schools Began Year's Work Monday

The Quitaque schools opened Monday morning with an enrollment of 375. Supt. Scheid stated, 150 in the high school and 225 in the grammar school. He stated however it was expected that this number would be materially increased within a few days.

Introduction of the faculty was the first thing on the program, followed by classification and issuance of textbooks.

A faculty meeting was held Saturday prior to the opening Monday in order for the teachers to become acquainted and plan for the work ahead of them.

The first chapel meeting of the term will be held Friday morning at 9 o'clock in the auditorium and the public is cordially invited to be present.

Mr Scheid stated that everything was moving along nicely and that by Monday everything would be worked out to where the school work would be going on in earnest.

## MRS. TILDA BAKER AND JOHN BOYLES ARE WED

Mrs Tilda Baker of Folley community and John Boyles of Quitaque were married Monday at Major, Rev. Mr. Pipkin, a Methodist minister and former pastor at Quitaque performed the ceremony. For the present they are making their home in Quitaque.

Mrs C B Rogers and daughter Louise and Mrs D J Morgenson of Memphis spent last Wednesday with Mrs Jimmie Baird in Quitaque.

## AGRICULTURAL BRIEFS

BY THE BRISCOE COUNTY AGENT

The school kiddies may have a sour grin on their faces because school has opened, but believe you me, the parents don't have. The parents have 4 or 5 wrinkle smiles on—since it rained; and besides that they have the kids corralled for 5 days a week.

The rains were late coming but they didn't get here too late to help out some. Cotton and feed should mature a better staple and grain because of the rain and the wheat and range land will be greatly benefitted.

## Wheat Seeding Time

Some farmers got enough rain to make them want to sow some wheat. Naturally they're wondering just how much wheat they can plant. The answer to this question is none too definite but the best we can guess at (and it's a guess) is that no one should plant more than 69 per cent of his 5 year average (1933 to 1937 inclusive) if he expects to comply with the 1939 farm program.

In past years we have been permitted to sow wheat for winter and spring grazing but this time it happens to be somewhat different. We are told that compliance will be checked this fall and if we are found to have over seeded we will be out of compliance and no chance of plowing up wheat next spring.

If you have any volunteer wheat you'd like to leave for grazing that is permissible. Volunteer wheat left for grazing will not count as wheat if plowed under by April 15, 1939.

If you don't have any volunteer wheat to leave for grazing and you

## First Bale Received At Quitaque Monday

Quitaque received her first bale of cotton Monday, Sept. 5, from the 1938 crop, the bale being produced by J F (Cap) Wise on his farm at Gasoline. The bale of lint weighed 449 pounds and was classed as middling 7-8. The bale was not sold because of government restrictions.

It was ginned by Farmers Co-op gin. A premium of \$19.50 in cash and approximately that amount in merchandise was subscribed by the merchants and business men of the city.

The second bale came in Tuesday and was ginned by the Quitaque gin. This bale was produced by D A Matthews, also of the Gasoline community.

Cotton generally is not opening very fast and it will be some days yet before there is much activity picking.

## SHOWERS FELL HERE SATURDAY AND SUNDAY

Quitaque received a couple of showers of rain over the week end that totaled .29 of an inch. While the rain was not of sufficient quantity to do a great deal of good, it didn't do any harm as far as we have learned.

The rain was considerably heavier in all directions from Quitaque, according to reports of farmers, some reporting as much as two inches with many reporting three-quarters to an inch.

Mr and Mrs Noman Hamilton and Noma Lou and relatives from Floydada are vacationing this week in Colorado and Nevada.

## Quitaque Post Is Home-Owned In Fact

Since the Quitaque Post was established in 1925 it has carried a line across the top of the front page "Your Home-Owned Newspaper." With this issue of the Post that statement becomes true in fact.

After several months of "negotiation" a deal was consummated Tuesday whereby W R Scott became owner of the Post, having purchased the property from J L Nunn of Amarillo and Lexington, Ky. Mr Nunn has been paid in full and has no lien or monetary interest in the Post.

We came to Quitaque a year ago, assuming charge of the Post, Aug. 15. We formed such a liking for the people and the town we were very anxious to make our residence here permanent. This has been effected to an extent and we are glad. We hope the support of the people and business institutions will make it possible for us to stay here.

We want each one to feel that the Post is your paper, because it is for you that the Post is printed. Without you a paper would be unnecessary; without your backing and support the local paper will not be healthy. We'd like to see it grow. We will do our part to make it grow, and we ask and will appreciate the full cooperation of all.

We want to see Quitaque and this community grow and prosper and pledge ourselves to lend every effort for that cause and to that end.

## Briscoe County Allotted Seven NYA School Jobs

Austin—A quota of 7 National Youth Administration School Aid jobs has been allocated for Briscoe county under the 1938-39 School Aid Program to provide part-time employment for young people in elementary and high schools who cannot otherwise continue in school, J C Kellam, state youth director, has announced.

W Coffe, Jr. ex officio county superintendent, has been notified of the number of jobs allotted. He has been requested to organize an advisory committee of local school officials to recommend an equitable distribution of jobs within the county on a basis of youth need and availability of school facilities. As soon as this is done, the NYA state office will be in position to approve schools for participation.

School officials requiring information concerning the 1938-39 School Aid quotas should communicate with their county superintendent. They should furnish him with data which will assist the county committee in recommending the distribution of jobs.

## Population of Area Increasing Steadily

The population of this area has been increasing rather steadily the past week. A son was born Tuesday night to Mr and Mrs Pete Womack of Quitaque, weight 8 1-2 pounds.

A son was born to Mr and Mrs Arthur Arnold on the Burson ranch Sept. 1.

A son was born Aug 31 to Mr and Mrs Ike Reed of Gasoline community and a son was born to Mr and Mrs Henry Finney also of the Gasoline community on the same day.

Dr Price stated that he set some sort of record last week, delivering three young citizens and making another emergency call, some 40 miles apart, all within the period of 22 hours.

## MISS CHRISTINE FAULKNER RECEIVES B. A. DEGREE

Denton—Miss Anna Christine Faulkner of Quitaque was awarded the bachelor of arts degree by the North Texas State Teachers College in its summer commencement exercises Wednesday evening, Aug. 24.

Dr W J McConnell, president of the college, conferred 52 master of science degrees, 26 master of arts, 413 bachelor of science, and 60 bachelor of arts, for a total of 551 degrees. Dr A W Birdwell, of the Stephen F. Austin State Teachers College, Nacogdoches, delivered the commencement address.

Mr and Mrs Esker Curtis visited relatives in Lubbock Sunday and Monday.

## Flomot School Has Large Opening Crowd

The patrons and students of the Flomot school attended in full force the opening of the 1938-39 scholastic year. The new gym building was filled to capacity for the event. Everyone seemed to be wearing his or her best smile and there was happiness on every hand.

Supt. Kirk called the congregation to order at 9:20 and then asked all to stand while the invocation was said by Rev. G L Keever of Quitaque.

Mr Kirk then introduced the new members of the faculty and outlined the advances made in the new courses being offered this year. Special mention was made of the second year in home economics, business training and wood work. Two new members have been added to the faculty this year bringing the total number to eleven. Supt. Kirk expressed his and the school's welcome to the students of the districts surrounding Flomot who have voted to bring all their students to Flomot this year. Words of appreciation were given to the patrons for the fine spirit and support being given the school.

Supt. Kirk introduced Rev. Keever, pastor of the Methodist church at Quitaque who spoke to the students and patrons of the school.

The Flomot school is off to a great start.

## Young Married Folks Have Pleasant Outing

The members of Mrs Price's young married folks Sunday School class enjoyed a picnic and chicken fry Wednesday evening.

Meeting at the church about dusk, the party drove to the J L Tunnell place north of town where the chickens were already fried, and gravy bubbling in the skillet. These were served with various salads, home made potato chips, pickles, etc., and topped off with watermelon—for those who had any room left.

After supper the group joined in a sing-song and when tired of that, induced Dr Price to read in his inimitable manner "The First Settler's Story."

Thirty-four persons enjoy this pleasant evening, including Rev. Keever and family who were guests of the class.

## Frank Miller Buys 54 Mares and Colts

Week before last Frank Miller bought 54 head of Colorado mares with mule colts which had been shipped and placed on grass near Moriarty, N M, and finished this week trucking them to the Miller ranch west of Quitaque to finish for the market later. Frank stated that the animals were in fair condition now, but it would require about 60 or 90 days on the good grass on local range to put them in the shape he desires.

He stated Wednesday that he would sell off the young mules later in the fall, but that he was undecided whether the mares would be sold or not, perhaps he would keep them for another crop of young mules, but he was undecided at this time.

Frank says they are a bunch of real stuff and when he gets them in the pink of condition they will be something to talk about.

## Baptist WMU Names New Officers Monday

The ladies of the Baptist WMU met Monday afternoon at the church in a business meeting. Names were drawn to form new circles, and officers elected.

Mrs Huck Berry was chosen chairman of circle No. 1 and Mrs H G Finley Bible leader. In circle No. 2 Mrs W W Jenkins is chairman and Mrs Ray Persons is Bible leader.

Circle No. 2 meets Monday, Sept. 11, with Mrs Fletcher Lee. Circle No. 1 will meet with Mrs W F Brittain as hostess.

Glenn Morrison was brought home from the Plainview sanitarium Saturday and is resting very well at the home of his parents east of town. He will have to go back to Plainview next week to have the fractured ankle x-rayed and examined. It will be several weeks before Glenn will be able to do any frisking around.

Day of Miracles  
(By Mable C. Bogan)

We listen most every day to the "Man on the Street" from two different stations, following directly after each other. The other day the question was asked, "Do you believe the day of miracles is over?" Why should we think it so? We cannot, unless we think things "just happen." Somebody, too, causes things to happen.

What miracle could you hope to see performed than for you to go out into the darkness of the early morning hours and watch the day come? Daylight coming from the direction we have been taught is "east." Who performs miracles? Is it science? These things are too deep for a weak mind like mine to try to study from that standpoint. I can see the miracles being performed in many ways and in every walk of life every day. God shows them to me. This is a generation of faith, too—whether we are recognizing it or not. We can be placing our faith in the wrong thing, but it seems people are trying harder to "do things" than ever before. Miracles are being worked everyday for the good of people if they would accept it in the right way. "The five thousand" are being fed. He has placed them in companies. We call them by different names. Each division has its name. The five thousand men besides the women and children, grouped themselves and did what He told them to do. They had to do that before He could feed them. Our people or someone has obeyed orders and He is performing His miracles every day. Do we recognize it?

What kind of baskets are we using to save the fragments left? Do they have holes in the bottom and wasting precious food or time?

The sick are being healed by miracles of unusual medical aid. A nearby sanitarium removed a pair of little scissors from a woman that the history of her case said had been left there twelve years ago. What greater miracle could have been than for her to carry the "foreign body"

as these things are called; of course she suffered all those years, but that woman was spared for the purpose of the work of a miracle. Any one should be able to see it and believe.

We think of miracles as God's work by His power alone. It is and His alone. You are in His keeping, no matter how rebellious you are. He keeps you and works to your good by His power. He has to press the thorn of life hard on your brow sometimes to make you feel and recognize the miracles He is trying to work while He is giving you "today and just today" before your life, that we are told, is as "the vapor and mist" passes away, and is only remembered by what we did and the influence we had while here.

**Swap-out**

A game of "swap-out" was played this week, sorta of a "fruit basket turned over" contest for a number of citizens, one new family finding a place to live in the scuffle and somehow no one being left out. Earl Allred having bought the duplex east of the Quitaque hotel, he moved into the west side last week. Hal Overstreet and family occupy the east side. This left vacant the house across the street south of the school which will be occupied by the Herringtons. Mr and Mrs Roy Leslie have the Herrington house, Mr and Mrs. Joe Slack and children are living in the house vacated by the Leslies.

Mr and Mrs Slack are newcomers to Quitaque, coming here from Olton. He is principal of the grammar school

**AND A PIONEER GOT SHOT IN THE PANTS**

Clarendon, Sept. 6—Tom Tate, pioneer settler of this county was shot in the pants Saturday as he strolled across his pasture near Hedley. Alone at the time, he heard the report, but was unable to locate a sharpshooter.

He reached for his hip to find a 22-rifle shell lodged in the hot bowl of his pipe had exploded shattering the smoking piece and ripping the pocket.

**TURKEY YOUNGSTER IS WELL 'GRANDPARENTED'**

Jerry Frank Garner, born August 10, son of Mr and Mrs Dale Garner of Turkey, has the unusual distinction of having seven living grandmothers, great grandmothers, and great-great grandmothers.

His grandmothers are Mrs. Bert Castleberry of Turkey and Mrs. Natha Fillingham of Riverside Cal; great grandmothers are Mrs. J B Chandler of Quitaque, Mrs G W Ezzell of Quitaque and Mrs Lewis Pinkerton of Riverside, Cal.; and his great great grandmothers are Mrs. H Morris of Sharps Springs, Texas, and Mrs. J. Kenith of Centerville, Ark.

New we don't know, but we believe this is a record and one that is unusual.—Turkey Enterprise.

**LOCAL BRIEFS**

Miss Anna Belle Gregg is in Amarillo where she is working.

Mrs Kinnie Holt Rucker and daughter Mary Helen, visited Grandmother Rucker Friday and Saturday.

Miss Gladys Stroup of Amarillo spent the week end here with her parents.

W H Gunn of Flomot underwent a minor operation Friday morning at the Plainview sanitarium.

Mrs C C Meacham of Memphis spent Sunday with Mrs H E Berry and family.

**Pies and cakes for every occasion—Mity Nice Bread for every meal. City Bakery, Quitaque..**

Orval Graham and Rex Faulkner went to Lubbeck Tuesday to enter Texas Tech.

Cap Wise went to Abilene Wednesday for a visit with his nephew, Dewey Wise.

Dr. E C Price and Leon Middleton attended the health meeting at Lubbeck Wednesday.

Mrs Elizabeth Parnell and Lee Driver of Estelline visited in Paducah Monday night.

Roy Bratcher of Crowell is the new chef at the Queen Cafe, having gone to work Saturday.

**Get the fad and eat with Dad—at Dad's Cafe. Short orders, sandwiches of all kinds, hamburgers. 33tf**

Grandmother Rucker, who has been visiting her son J S Rucker in Lockney, returned home Thursday.

Mrs Anna Wellman of Sparks, Nevada, arrived Friday for a visit with her parents, Mr and Mrs W P Hall.

Mrs Anna Wellman and Mrs O E Hutcheson spent Wednesday in Plainview visiting their brother, Don Hall and family.

E A Nichols of Wichita Falls spent the week end here with his wife, who is here for the benefit of her health, and his mother and sister, Mrs. Ida Nichols and Mrs Edna Cox.

Billie Joyce Wise returned Sunday afternoon from several weeks visit with relatives in Louisiana. Mr and Mrs Vance Wise brought her home and remained for a weeks visit here.

Mrs Hattie Holcomb of Hobart, Okla., and Mrs Hazel Hollingsworth of Norman, Okla., spent Sunday here with their brother, H G Gardiner and family.

Mrs Delmer Powell returned Monday evening from a visit with a sister, Mrs Gordon Cooper and family in Crowell and another sister, Mrs Bomar and family near Vernon.

W E Schott, Jr., was in Quitaque Tuesday night. He is constructing a dam and doing some levee and terrace work on Buck Russell's place south of Quitaque.

Mrs Faye Scroggins of Clarendon has been elected to the faculty of the Quitaque high school to fill the vacancy caused by the resignation of Miss Lois McCaslin who accepted a position in the schools at Hereford.

A card from Mr and Mrs L E Graham and son Leon who are vacationing in Durango, Colo., stated they were having a delightful time, but would be home the latter part of this or the first of next week.

Mr and Mrs Bo Graham and children left today (Thursday) noon for Alpine where he will again enter Sul Ross. They were accompanied by Barney Bob Wells Harold Bogan who also expects to enter that school.

A telephone message was received Monday night of the serious illness of Mrs B D Witcher of Lovington, N. M. Her mother and brother, Mrs M J Boyles and Wirt Boyles left Wednesday night for her bedside.

Miss Seney Persons, Mrs Glenn Wise and children and Mr and Mrs Vance Wise of Arcadia, La., visited Mrs G B Wise and son Chris and other relatives and friends at Floydada Tuesday.

Mr and Mrs A B Ramsey went to Paducah during the week end and brought home their daughters, Misses Jessie Lee and Willie Joyce, who have been visiting relatives there for some time.

F M Sackre, Jr., returned to Lubbeck Wednesday morning to re-enter Tech being scheduled to report at 10 a. m. for the first football workout. He was taken over by his parents.

Mr and Mrs Paul Hamilton spent Sunday in Abernathy with Mr and Mrs Cochell and Derrell. They said the Cochells were delighted with their new home and were thoroughly enjoying farm life.

Mrs Bill Middleton and son, and Mrs E B Tunnell accompanied Mrs. Smith and little Peggy Ann Starkey to Plainview last Friday. They went over to consult a doctor for Peggy Ann.

**LEGAL NOTICE**

In the United States District Court in and for the Western District of Texas, Waco Division

J M Hubbert vs Temple Trust Company: No. 236 in Equity

Notice is hereby given that the undersigned has filed his application with the Clerk of the United States District Court in and for the Western District of Texas, Waco Division for an order authorizing him to sell and convey to Earl Allred and wife, Opal Allred, all the West Thirty-two (W 32) feet of Lot Nine (9) and the East Eighteen (E 18) feet of Lots Ten (10), Eleven (11), and Twelve (12), all in Block Eleven (11) of the Original Town of Quitaque, Briscoe County, Texas, together with all improvements thereon situated, and for a consideration of

**X-RAY AND RADIUM PATHOLOGICAL LABORATORY SCHOOL OF NURSING**

tifically "cooked" into the milk, without affecting its taste. . . . A surf automobile for use in salvaging stranded ships, catching fish, fixing wrecks, harvesting shellfish. . . . An acid treatment for opening the sealed "pores" of oil wells, thus obtaining a greater yield of oil. . . . An auto "starter facilitator" which automatically jiggles the throttle while the engine is being started.

**INDUSTRY TWISTS**—It requires one and two-thirds pounds of live stock to produce a pound of meat for the dinner table. . . . A ton of iron can be stored in a container having a capacity of four cubic feet, but a ton of aluminum, which weighs only a third as much as iron, needs more room. To store a ton of aluminum the container would have to have a capacity of 11.6 cubic feet. . . . Nearly one-half of the men hired by the steel industry during 1936 and 1938 had high school or college education, compared with only one-fourth who had such training among those hired in 1929. . . . It takes 35 to 50 hours of labor to harvest 15 bushels of wheat with a sickle and thresh it with a flail, but a combined mechanical harvester-thresher does the job in only 45 minutes. . . . There is one mile of railroad for every 12 square miles of land area in the United States, but only one mile of track to every 99 square miles in the rest of the world.

**Walking Into Trouble**

In its interesting analysis of the hows, whys and whens of automobile accidents in 1937, The Travelers Insurance Company has published some revealing figures relating to pedestrian deaths. With fatalities and injuries to pedestrians rising at an alarming rate, the figures are worth the attention of every individual.

Nearly 28 per cent of the deaths, the figures indicate, resulted from the obviously unsafe habit many walkers have of crossing in the middle of the block.

Of the 27.5 per cent or a total of 4,450 pedestrians killed while crossing at intersections, only 280 met death while crossing, as they should, with the signal. No less than 1,100 died when they attempted to cross against the signal light or the officer's signal. The remainder were killed while cross-

ing diagonally in the intersection or while crossing at intersections where there was no signal.

Other leading causes of pedestrian deaths, in order of their importance were: walking on rural highways, children playing in the street, coming into the street from behind a parked car, men at work in the roadway, and hitching rides.

**LISTEN TO THIS**

By TOM FIZDALE

**Discovery:** It was a happy day for Ruth Hilda Somer, 16-year-old Austrian girl, when she was selected from steerage passengers to play a stip's concert on the Normandie a few weeks ago. With her mother, the young girl was fleeing Austria. The concert, she believed, was her last opportunity for a long time to follow her career as a concert pianist.

Joan Kay

Poverty and the struggle for existence lay ahead. Then, Eddie Cantor, who was acting as master of ceremonies on the concert, heard her. Like many other unknowns he has sponsored, Cantor took her under his wing. Now she is rehearsing in New York for her radio debut and a concert tour.

**Renamed:** It is almost traditional that people change their names when they get into the entertainment business. Usually it's for the sake of euphony or that their real name is hard to remember. Pretty Joan Kay, the High School age daughter of "Those Happy Gilman" on NBC, changed hers from Phyllis to Joan. Now, in her new daily NBC role, she has her right name back again—she's Phyllis Gilman. Such is the way of radio.

**Athletic Tenor:** Donald Novis, Fibber McGee's new singing star, is one tenor who is also a real athlete. Novis, who has won fame on the air, the stage and the screen, was a star in football, basketball and swimming both at Pasadena High School and Whittier College. He is the newest member of the Fibber McGee company, heard every Tuesday night over the NBC-Red network.

**French Star:** Jean Sablon, handsome French troubadour, has been signed for the new Hollywood Hotel program on CBS. Paris born, Sablon made an enviable name in European theatres, clubs and music halls before coming to this country. His winning manner and unusual style of singing both English and French songs, has won him a great American following. He will be teamed with Frances Langford on the re-designed show.

Jean Sablon

**Steelmakers:** One of radio's most unusual shows, the "Musical Steelmakers," returns to the air via Mutual networks Sunday night. Talent for the popular program is composed entirely of the sponsor's employees and their families.

**Bob Hope,** comedy star who will head a new variety show from the west coast, come the end of the month, is still in a huddle with his program producers on the supporting talent. Hollywood reports are that an announcement of the all-star lineup should be forthcoming within a week.

**Betty Lou,** Tommy Riggs' little girl who is a creation of his voice only, is a radio star in her own name and she and Riggs will headline a new show starting next month. But unlike Edgar Bergen's Charlie McCarthy, insurance companies refuse her as a risk. They say she's too ethereal. So Riggs has to go along just praying that he doesn't get a cold or a frog in his throat.

**Sweet and Swing:** The Mid-West is getting a chance to take its choice of sweet or swing music these days with Benny Goodman and Horace Heidt, leading exponents of opposite schools, playing theatre dates in key towns.

**At The Methodist Church**

We are now in September and just a few days over two months until Conference. If we are to do all that we should do then every member must be in his or her place every service. There are young people and others who should be won for the Master this year. If we have not put our best effort forth to reach them then let us do it now.

G. L. KEEVER, Pastor

Laying hens need a diet with 16 to 17 percent protein in the summer, poultry husbandmen of the Texas A and M College Extension Service say.

The membership in farmers' cooperative associations has increased by more than half a million in the past ten years.

In less than 5 years the cold storage locker systems for fruits, meats and vegetables has grown until community units are in operation in 24 states. Many families who use lockers prefer them to canning or curing.

All measures to control soil erosion have at least one aim in common—to increase the amount of water soaking into the land and to reduce the amount that runs off.

**"Behind the Scenes In American Business"**

(By John Craddock)

**BUSINESS**—Prices in retail stores registered the smallest monthly decline during July since September, 1937, when a downward trend began that has lowered average retail prices nearly eight per cent. Reports from the country's manufacturing plants continue to indicate reviving employment. Last week thousands of telegrams were sent to employees of leading motor plants telling them to report for work immediately. Intensive operations in the Detroit area are about to start. America's export trade is holding up nicely. Business prospects generally are bright, except for a disturbing decline in farm prices the last few weeks. In the last month cash wheat prices have dropped about nine cents a bushel, corn 10 cents, rye 10 cents, oats five cents, pork \$1.50 a barrel and beef \$6.00 a barrel. This means a loss of rural purchasing power, which enlightened business men today recognize as an indispensable factor in keeping the wheels of industry turning.

**CLOSE SHAVES**—Men with whiskers, who use more than a million and a quarter razor blades every year, according to the latest Department of Commerce estimate, will be interested to know the tax collector is nicking them, too. One blade in every ten purchased by bewhiskered brethren—there must be forty million of them—goes to the tax collector in the form of hidden taxes. When 45 cents is paid for a package of blades, more than four cents is taken by taxes, and 37 hidden taxes are included in the price of every package of blades, according to the tax reports of a leading razor blade manufacturer.

**THINGS TO WATCH FOR**—Milk that will keep sterile and fresh at room temperature for as long as four months; a little hydrogen peroxide and potassium iodide is scien-

### Baylor Golden Bears Show Added Strength

WACO—Baylor University Golden Bears will be much more powerful—both offensively and defensively—this fall. You can take Coach Morley Jennings' word for that.

With seventeen lettermen returning from last year's team, the Bruins will pack plenty of power at every position except the center position. Hoyt Williams is the lone returning letterman at center but will get help from Sherill Bailey and Virgil Floyd, both squadmen of the '37 team.

The end play should be stronger this year and it was at end that the Bears became the talk of the nation last year. On one wing, fighting for an all-American berth will be Sam Boyd, the classiest end Jennings ever coached. Sherman Barnes and W J Wimpee, both lettermen, will battle it out for the other starting place.

Four veterans of last year's eleven hold full sway at the tackle holes. Frank Marx, Jack Black, Bennett Edwards and Louis Robinson, all who saw plenty of action last year are ready to fill the gap left by the graduation of Hervey Blue.

Leonard Akin, Billy Fester and Bobby Taylor lead the way in the scramble for guard slots. David Beck and Jack Willis supply the reserve strength.

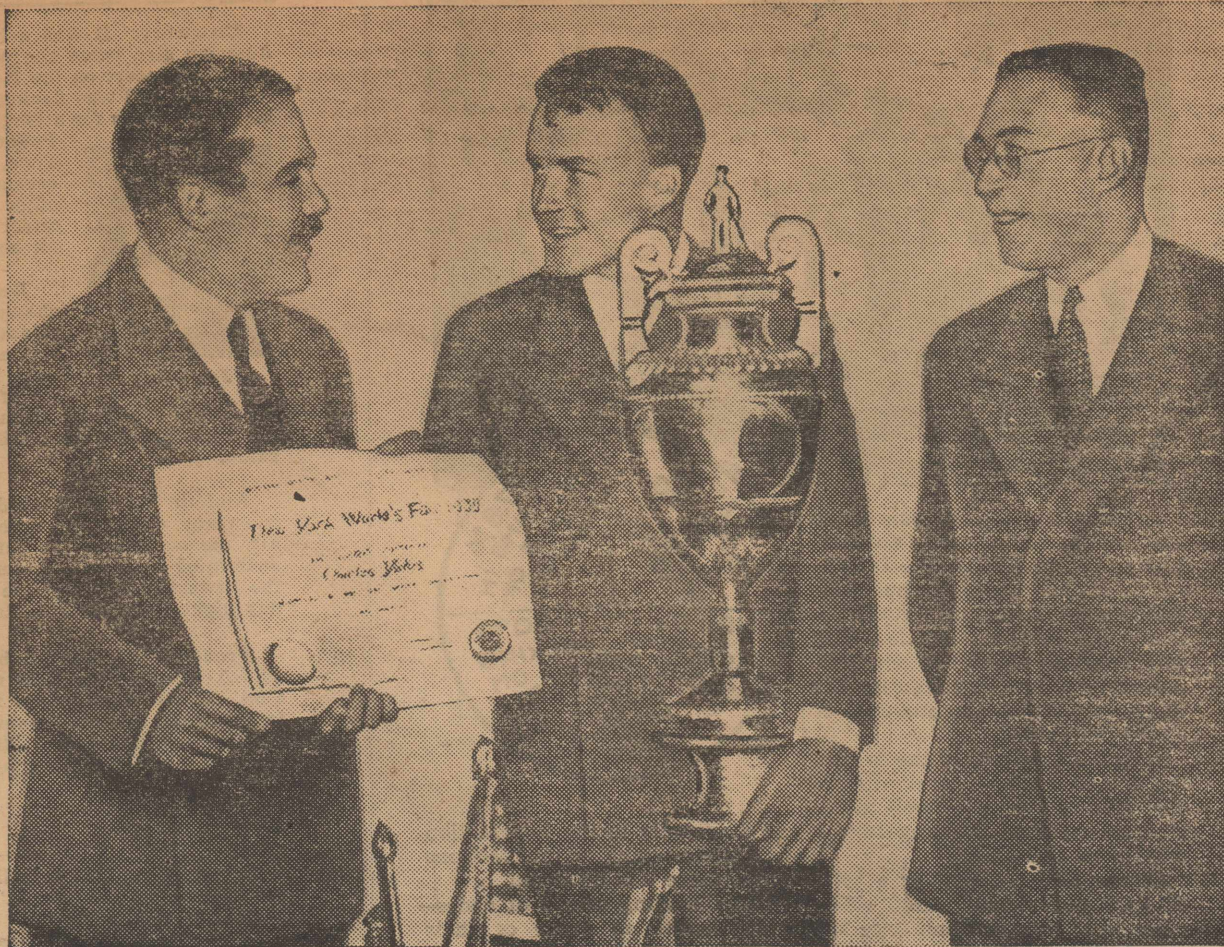

The biggest test of the Bruin team will be to fill the shoes of Carl Brazell, outstanding line backer and all-conference fullback of last year, during the spring practice session. Twelve men were tried at the place but none came through. Of the lot, James Witt, a 180 pound sophomore from Kemp will probably get first chance at the fullback slot.

Bullet Bill Patterson, voted the most valuable back in the conference last season will be back to guide the destinies of the Bruin eleven. A triple threat, and a passer deluxe, Patterson will carry the chief offensive burdens of the Baylor team.

In another corner will be Elwin Williams, letterman from last year who was finally uncovered as the man to handle the fourth spot in the Bruin backfield.

A galaxy of backfielders will be struggling for the place left by Bubba Gernand of the '37 team. Milton (Crazy Legs) Evans and Malcolm Linder, the Floydada flyer lead the way with reserve help coming from

### Golf Champion of Today Sees World of Tomorrow

NEW YORK—Upon their return from England the American Golf Team inspected the grounds and buildings of the New York World's Fair 1939. Grover A. Whalen, President of the Fair Corporation, presented Charles Yates, winner of the British Amateur Championship, with a scroll and appointed him a member

of the Fair's Advisory Committee on Sports with this remark: "We are very happy to take the golf champion of today into the World of Tomorrow—the New York World's Fair 1939." In the picture, left to right, are Mr. Whalen, Mr. Yates with trophy, and Francis Quimet, captain of the team.

A group of friends from Atlanta, Georgia, the home town of Yates, accompanied him to the Fair grounds. In this group were George B. Hamilton, Treasurer of the State of Georgia, James D. Robinson, President of the First National Bank of Atlanta, Thomas B. Paine, James C. Malone, and O. B. Keeler.

Fred Graham, Odell Griffin, Bob Foster, Durham Bivins, Frank Grumbles and Ted Lewellen.

The 1938 Schedule:  
Sept. 24, Southwestern at Waco.  
Sept. 30 Okla. A. & M. at Wichita Falls.

Oct. 8, Arkansas University at Fayetteville, Ark.

Oct. 15, Centenary college at Waco

Oct. 22 Texas A & M at Waco (Homecoming)

Oct. 29 Texas Christian University at Fort Worth.

Nov. 5 Texas University at Austin

Nov. 11 Loyola of the Pacific at Los Angeles, Cal.

Nov. 19 Southern Methodist at Waco.

Nov. 26 Rice Institute at Houston

### The Low Down From Hickory Grove

A shoe salesman he is maybe alright, viz, as a person. Most of 'em are nice to their wife, I reckon, and maybe go to church or loan their lawnmower to their neighbor or do lots of things which shows he is OK—or fairly so.

But when it comes to giving you a shoe that fits, a shoe salesman, he is a demon. It is the last thing in the world he will ever do. He will even send to the factory and get one that will not fit. The more you say you want one big enough, the harder he tries to give something else.

If you have big feet and know it and don't care, and you like to walk and not hobble or take off your shoes soon as you get home—like your wife maybe does, sometimes—you will not like shoe salesmen.

And a salesman who says, "that makes your foot look trim" there should be an open season on him. And the Govt., it jangles around and experiments with everything like farming, and the weather, etc.—and then it goes to work and overlooks shoe salesmen.

Yours With the low down  
JO SERRA

Worst enemies of tree nesting birds in May are wind, grackles, and snakes in the order named.

Grackles not only eat many dove eggs, they devour many of their own eggs as well.

It is estimated that there are between 2,500 and 3,000 antelope on Hudspeth county ranches.

Workers of the Texas Cooperative Wildlife Research Unit found a quail nest that was being filled at the rate of two eggs a day and was being incubated by a mail quail.

Sale of deer hunting privileges in Colorado county earned 22 landowners more than \$3000 in 1937-38. Preserves ran from 170 to 11,000 acres.

Plenty of sales pads for sale at the Quitaque Post.
