VOLUME XXII

QUITAQUE, BRISCOE COUNTY, TEXAS

THURSDAY, FEBRUARY 12, 1948

5c Per Copy

NUMBER 4

## Items Of Interest From The SCS Office

The control of drifting snow by proper crop residue management was noted by technicians of the Soil Conservation Service this past week. Numerous instances were noted where drifts had accumulated along roads to fields where stubble had been practically destroyed either by burning last summer or by plowing. Wheat fields that had been burned retained very little of the snow while fields with a good cover of stubble held practically all of the snow. Snow that blows off and piles up in roadside ditches or in roads does no one any good as the moisture is lost to the farmer. One road just east of Silverton was blocked for almost a week following the snow.

The control of drifting snow by proper stubble management is one of the many benefits this conservation practice has. A good stubble reduces soil blowing to a minimum during windy seasons; reduces the packing effect of hard rains by breaking up the raindrops before they hit the ground; improves physical conditions of the soil by returning organic matter (rotting straw and roots); and a number of others.

Cooperators of the local Cap Rock Soil Conservation District are urged to notify the District office at Silverton if they are planning to have terrace or contour lines run or irrigation ditch lines laid out. We cannot run the lines on a hour's notice as there may be others ahead of you. We appreciate a week or two advance notice if possible.

Tom Barbee, a cooperator of the local Cap Rock Soil Conservation District, had technicians of the Soil Conservation Service lay out terrace lines this past week. Mr. Barbee, who operates a farm in the Hamilton Conservation Group five miles northeast of Quitaque, plans to terrace soon.

G. C. Morris, a cooperator farming in the Hamilton Conservation Group four miles northeast of Quitaque, also had terrace lines run this past week.

Gilford Moore, a cooperator in the County Line Conservation Group, is building terraces this week on his own and his brother's place. Mr. Moore, whose farm is two miles south of Gasoline, is using a disc-terrace on a Ford tractor.

Cooperators in the irrigation belt who plan to overseed their wheat with Hubam Clover should be getting their seed before too long. Overseeding of wheat with Hubam Clover has been tried in adjoining districts and found to be practical. The clover will furnish a summer grazing crop and possibly a seed crop after wheat is combined. Since Hubam is an excellent soil building crop it can be used very advantageously. More information on this subject can be obtained from the local district office in Silverton, Texas.

## SCHOOL BUS HEATERS

Two new heaters were received this week from Oklahoma City and have been installed on the Quitaque school buses which now equip all of the buses with good heaters, ready for operation when needed. It has been the concern lately of a number of patrons because two of the buses did not have heaters. The reason for this was that good heaters which met the regulations of the state board were not available.

The Quitaque buses were taken to Silverton recently for inspection by a state supervisor. They were found to be in need of only a few minor changes, to meet state regulations which became effective Jan. 1, 1948. These changes are being made and in a few days the buses will meet all state requirements.

## KIMBLE CLINIC TO OPERATE

The Wilson Kimble Optometric Clinic at Floydada, headed for the past 32 years by the late Dr. Wilson Kimble, will continue to operate in the same location, it has been announced by Mrs. Kimble and her son, Dr. John W. Kimble, optometrist. The latter has been associated with the clinic since his return from service with the Navy in World War II.

## Quitaque Cagers To Enter District Contest

After losing the conference game to Roaring Springs on Tuesday night of last week, the players relaxed until Friday night when A and B boys and A and B girls braved the cold over to Flomot for a contest.

The boys B squads were first to tangle and it seems the Flomot B lads have a jinx on the Quitaque six for they always manage to eke out several points in front of the youngsters from the Valley town. The boys say there is to be another day, and 'tis a long lane that never turns.

Due to a slip-up of plans in securing satisfactory referees the big game was deferred until the next Saturday night.

The A girls teams, from the rival but friendly schools, prepared for battle with the ring and sphere. Smarting from the recent defeats and the winning of the ladies' end of the Flomot tournament by the fast moving misses from Quitaque, the host sextette had he determination to score a victory. So the game was a tight affair from the opening ball toss. The Quitaque forwards drew first blood, but Flomot came right back with a field goal that left them but one point behind. The forwards from the host town gave Quitaque guards all they could do and the game was never on ice until close to the final whistle, both teams scrapping to the very last.

Both sides did a good deal of fouling, R. Barrett coming off during last of the 3rd quarter and being replaced by Melba Woods. The standby forwards for Quitaque, Stark, McFall and Morris, were able to sink the ball for 27 counters while their teammates beat down the Flomot score to 22 points.

The B's from the Queen City had recently been winning and were pretty shaky during the first quarter but beginning with the second one they began to ring an occasional shot, drawing gradually away from their opponents, and the game closed 7 to 15 in favor of the younger Pantherettes. Quitaque guards were Woods, McCracken and Carroll; forwards were Bedwell, Price, Finney and Witcher. All played good ball and are anxious for a set-to with some team soon.

The unfinished business of the A team contest was played as scheduled Saturday night, both A and B boys teams going over to Flomot. As per usual the B's were trounced by the Flomot lads.

Both A teams realized the significance of a victory for them—Quitaque had to win to stay in the district race. It was a great game, rising well above the level of ordinary high school basketball, with Quitaque in the position of underdog, and Flomot expecting to get the long end of the score. But such was not to be. The Quitaque defense successfully hammered down and outfought their opponents offense while her goal shooters seemed to loop the ball at will. Holcomb, the two Hamiltons and Barbee played inspired ball while Patrick generalshipped the team to 49 to 44 victory. Holcomb, G and K Hamilton each scored 13 points.

Having won from Flomot the Quitaque A squad went to the Matador gym on Tuesday night to again try their powers against Roaring Springs. This time it was to determine the second place team in this end of the district.

Both teams were ready to put all they had into the struggle and from the start the Caprock lads took charge scoring 13 points to their opponents 10 in the first half. The quarter saw the score 19-13 for the Panthers and in the last frame Lady Luck marched with the lads in Gold and victory was theirs. During the last 3-minute period Barbee sparked his teammates in placing 10 more points into the bucket. The game's end, and the scores 34 to 18 in favor of the Panther team and they will go to Childress Friday to participate in the district round robin tournament.

Mrs. Clayton Johnson and small daughter Tommie Lou, arrived Monday night from their home at Brownsville, for a visit with her parents Mr. and Mrs. J. C. Rhoderick and family, and other relatives here.

## Wayland Students Are Bapt. Church Speakers

Mr. Sam Choy, a native of Hawaii, now a student of Wayland college, Plainview, will fill the pulpit at the First Baptist church, for both services next Sunday, Feb. 15. Mr. Choy is one of the most popular and well loved students at Wayland, and he has a vital message which the Quitaque congregation will be glad to hear.

Last Sunday, Rev. Harold Diggs, a member of Wayland college faculty spoke at both services at the Baptist church. He is an inspirational speaker. He spent some time as pastor of a mission in New York city before entering the army as a chaplain. During his period of army service he was stationed in India for several months and for some time in Africa during which period he had opportunity to observe the religions of the natives of these countries. Bro. Diggs is thoroughly convinced that the time is here when Christian people must be more concerned about giving what they have to the world.

He is of the opinion that the Christian colleges of our land will play a great part in the destiny of the world. For that reason, he said, Wayland college, and other Christian colleges, are interested in students from foreign lands. A number of foreign students are now enrolled at Wayland and more are expected there soon. All of these students are not studying for the ministry or as missionaries, but many are being trained as Christian business men and women, for influence in their native countries. Bro. Diggs stated that he thinks this will help to solve our world problem.

All are urged to attend services Sunday and hear Sam Choy, who is a fine young man and a good speaker.

On the following Sunday, Feb. 22, Dr. and Mrs. Cranfield, both of whom are reputed to be fine Christian workers and speakers, will be here. A speaker is also lined up for Feb. 29.

Bro. Riley sends word that he expects to spend his time in south Texas, but is anxious to get back on the field here.

## NO TRACE IS FOUND OF SHOOTING VICTIM

Mrs. George Boyles of Quitaque reported to Deputy Sheriff Lockett Payne Tuesday afternoon that she had shot a man at her home about 2 o'clock in the afternoon, who was attempting to force entry.

She stated that she had shot the man in the hip with a .32 calibre automatic pistol, that the man who was a stranger to her had hastened as fast as he could with his crippled leg to a black Ford sedan of about 1941 model parked some distance from the house, and made his get-away.

Investigating officers failed to find any trace of the alleged wounded man at the house, and though word was flashed by Amarillo radio to all officers over a tri-state area, no information had been received at press time Thursday from any officer of the area concerning the alleged culprit.

Mrs. Boyles, before her marriage was Miss Martha Bell, daughter of Mrs. C. D. Walker of Turkey.

Miss Othelia Woodruff was in town Saturday for the first time since she became seriously ill last Fall. Othelia's many friends are rejoicing over her recovery, and admire her for the courageous fight she has made to regain her health.

## What The Veterans VA School Is Doing

A great many people are interested in the Veterans vocational school and what is being accomplished through this phase of the GI bill. The following item which is a report from the district coordinator of the work, will give you an idea of the work that is being done locally.

Briscoe County furnished its full quota of men for the armed services of World War II. Many of them gave three and four years of their prime to their country, and a goodly number of them came home disabled. To rehabilitate these men, Congress passed the G. I. Bill of Rights. This law was to aid all men who served this country in the military services in regaining, to a great extent, their economic loss and in training them for a better standard of living in their life work.

Last June, a Veterans' Agricultural School was organized in Quitaque with H. L. Weatherly as teacher. In September a similar class was organized in Silverton with Lem Weaver as teacher. Both were set up under laws passed by Congress to aid the boys in the above-mentioned ways.

These classes have a broad schedule of activities totaling 36 hours per week. Six hours of this time is given to classroom instruction; the remaining time is divided on a schedule of group study, group visitation to places of interest in agricultural research, etc. The instructor spends not less than one hour per week on the farm of each man, helping him with some of his on-the-farm problems.

The Quitaque School, under the direction of H. L. Weatherly, has contoured 1874 acres of land, sprayed over 40 hogs for lice, butchered 30 hogs and calves, repaired 10 houses, repaired 4 barns, and aided in bringing about many other improvements which add to better and more wholesome living for the ex-G. I. and his family. The members of the Quitaque class operate 4330 acres of land. This is an average of 216 acres per man. The average age of the veteran is 28.3 years, and the length of time spent in the armed services averages 28.6 months for each man.

These classes are set up to operate for at least three years. At the end of this time each man who has had this training will be in a position to make his farm much more productive, keep his soil from blowing, washing, and leaching away and through his training in farm accounting, keep up for comparison a sheet showing his expenditures and his income.

All training offered to the veterans in these schools is derived from the best sources available. Every teacher is a trained specialist in the field of vocational agriculture.

## NEWCOMERS

A son who was named Ricky Hayden was born Tuesday afternoon at Matador to Mr. and Mrs. Hayden Boggs.

Friends here will be interested to learn of the arrival of a son to Mr. and Mrs. John Henry DeWitt of Atlanta, Ga. Mrs. DeWitt is the former Miss Rosemary Price and her mother Mrs. E. C. Price of Lubbock is with her. The boy was named John Price.

A daughter was born Tuesday morning at 5 o'clock at the Dr. J. M. Shy Clinic, to Mr. and Mrs. Chas. Butler of Quitaque. They are getting along fine.

## First Of Series On New Highway Rules

What is your T. L. Q.? Your traffic law quotient, that is. Do you know the laws that help protect you from an automobile accident?

To familiarize the public with traffic laws and the necessity for obeying them, The Texas Department of Public Safety is cooperating in a nationwide "Learn and Obey Traffic Laws" program during February.

"In almost every accident, one or more drivers were violating some traffic law," said Colonel Homer Garrison, Jr., Director. "Better voluntary observance of traffic laws would save a lot of lives."

One of the most common causes of accident is driving in the wrong lane, according to W. J. Elliott, Chief of the Texas Highway Patrol Division. He pointed out that National Safety Council statistics show driving on the wrong side of the road to be second most frequent violation reported in traffic mishaps.

Keep right and you'll be left—to drive another day, he said, and listed these rules:

1. Drive to the right of the centerline. On three-lane roads never drive in the far left lane, and on four-lane roads, never drive to the left of the center.

2. Drive on the left on a two lane road, in the center lane on a three-lane road, or in the lane next to the center on a four-lane road only to overtake and pass a slower moving vehicle, and then only when you are sure that everything is clear.

3. On multiple lane roads, drive in one lane. Don't change from one lane to another without looking back and on both sides. Be sure a car is not overtaking you at the side and to the rear—a blind spot in many automobiles.

4. In some cases it is legal to overtake and pass on the right, but this is not a universal rule. Even where it is legal, it should be done with care because many drivers are not expecting it. Overtaking and passing on the right may be made when:

a. The driver in front is making a left turn.

b. On "one-way" streets.

c. On a pavement wide enough for two or more lines of moving traffic in each direction.

The new Uniform Act regulating traffic requires that all movements must be made "in safety." All drivers are therefore required by law to be alert at all times.

## YOUNG WOMAN, FORMERLY OF QUITAQUE DIES AT HILLSBORO

Ona Louise Sims, 26, of Hillsboro, passed away at the home of her parents Mr. and Mrs. T. O. Mobley, at 8:45 a. m. Friday, Jan. 23, after a brief illness. She had been in bad health for five years but was only ill for five days after suffering a stroke, followed by pneumonia.

As a child she had lived at Quitaque, later in Texas City and Plainview. She had been in Hillsboro, only a month. She was a member of the Methodist church.

Survivors besides the parents, include a five year old daughter, Sandra; three brothers, J. W. Mobley of Toledo, Ohio; S. J. and T. O. Jr., of Texas City; three sisters, Mrs. Lucille Hyde of Carlsbad, N.M., Mrs. Kathryn Jones of Plainview with whom she had lived the past 8 months, and Mrs. Betty Knight of Tulsa.

Burial was at Hillsboro. A brother, Paul Mobley, was killed on Normandy Beach in June, 1944.

## THE WEATHER

This area is in the throes of another icy spell, with cold weather already prevailing a blizzard blew in Tuesday night sending the mercury down to five degrees. Though slightly milder, temperatures are still in the sub-freezing zone today.

There has been intermittent snow the past several days with almost a steady fall all day Wednesday, but it was fine in texture and did not put much of a blanket on the ground.

The gas failed again Thursday, forcing most business establishments and schools into another holiday period.

And the Ground Hog did not see his shadow anywhere in these parts on Feb. 2, if that means anything.

## Puckett Announces For ReElection

TO THE PEOPLE OF PREC. 2:

For the very fine cooperation and kind and courteous treatment which you people have shown me during the time I have been your commissioner, I want to thank you cordially and assure you of my sincere appreciation.

Now, I would like for you to take thought of the manner in which I have served you in this office. This means the way in which your roads have been worked and kept up, the type and condition of the equipment owned by the precinct and the general financial condition and other business of the county.

If I have served you in this office in such way that you approve, I will appreciate very much the privilege of serving you again, and with the assurance that I will endeavor to discharge the duties of the office to the very best of my ability, I announce my candidacy for the Office of Commissioner of Precinct Two, and solicit your vote and support.

Very Respectfully,  
E. A. PUCKETT

## FIRE BOYS GET CHICKEN BARBECUE FOR SAVING GIN

A chicken barbecue banquet last Wednesday night was a nice gesture of appreciation from the Farmers Co-op gin to the fire boys for the excellent work they did last fall in saving the gin when fire broke out there one cold night.

Bill Woods barbecued the chickens over an open pit in the rear of the City Bakery and they were served with onions, pickles, beans, salads and other etceteras on the fine new tables at the Legion Hall.

There were twenty chickens, and everybody had plenty. The boys with ulcers forgot their diets for the time, and vied with those who have no digestive disturbance. Some ate a piece or two of chicken and some ate a chicken or two and no one went hungry.

Enjoying the pleasant affair were Mr. and Mrs. Bill Woods, daughter, Mr. and Mrs. W. J. Mr. and Mrs. Sterling Herrin, Mr. and Mrs. Edgar Morris and Mrs. James W. Was, Mr. and Mrs. E. L. Boyett, Mr. and Mrs. M. L. Robb, and Mrs. Jake Merrell, Mrs. Frank Gillispie, Mr. Elmer Lanham, Mr. and Mrs. Hunter, C. T. Carpenter, Jr., Joe Earl Morrison.

## BOBBY PIN TROUBLE

Terry Don, 2 year old, and Mrs. Glynn Morris, a victim of a peculiar ailment, were cleaning his nostril with a bobby pin, which slipped down the baby's throat.

The little fellow did not suffer any bad effects from "sword swallowing" stunt, but his parents were concerned about condition at Sunday took him to Matador where x-rays were made and disclosed the bobby pin was pointed ends turned up in his small tummy. The doctors assured them that any injury from the pin was unlikely, but he is being kept under careful observance.

Bobby pins are used unwisely in many instances. Recently a popular magazine published an article entitled "Bobby Pin Teeth." Many women open the pins with their teeth when using them in their hair and this practice, dentists observe, is causing the enamel on the teeth to be broken and worn. This is a habit it would be wise to break now.

## TO SPEAK AT FLOMOT FEB. 15

Dr. A. F. Edwards, president of Hardin College, Wichita Falls, will speak at the Flomot Methodist church Sunday, Feb. 15, at 11 o'clock. A special program is being prepared. Lunch will be served at the noon hour. The public is invited to attend and bring a covered dish and help to make it a real community day.

Garrett and Earl Morrison left the first of the week to return their brother Ray Morrison to his home at Austin. They were accompanied by Morris Wilson and they all stopped enroute to take in a fat stock show at Fort Worth.

## The Bank Will Be Closed

MONDAY, FEBRUARY 23

In observance of Washington's Birthday, which falls on Sunday, Feb. 22.

Please arrange your banking business accordingly and avoid possible inconvenience. Thank you.

THE FIRST NATIONAL BANK

Member of F. D. I. C.

Quitaque, Texas

LOCALS

Mr. and Mrs. Tate Boyles and Cecil Bolyes of Amarillo came in Tuesday for a visit with relatives here.

**JUST ONE**—Received this week, Bates George Washington bed-spread.—Rice's, Quitaque.

Mr. and Mrs. J. C. Gardiner were here Sunday from Lubbock for a visit with her parents, Mr. and Mrs. Marvin Wise.

Mr. and Mrs. Dick Hooks were in Floydada last Thursday where both were fitted for new glasses at the Kimbell optometric clinic.

*Willson and Son*  
*Lumber and Hardware Company*  
*"Where Most People Trade"*

WE HAVE a fair supply of alarm clocks now, if you need one.—Pioneer Pharmacy.

Mr. and Mrs. Leon McCracken and son Leon, Jr., made a trip Monday to Lubbock.

Mrs. W. R. Scott, Mrs. C. C. Ham and Mrs. H. G. Gardiner made a trip last Saturday to Amarillo.

**FOR SALE**—One Ford Terracer, slightly used. Priced right, \$80.00; one 1-row Allis Chalmers combine, just right for Ford tractor, priced \$275.00.—See W. E. Morrison at Gasoline. 3-2c

Mrs. Bill Ebbs went to Plainview Monday to stay a few days there with Mr. Ebbs who is attending Wayland College.

Mrs. Bill Middleton has been quite ill the past week with a severe sinus infection. She was feeling some better Wednesday.

Gene Chandler is back on the job at the Modern cafe this week, after a two week's illness.

Mrs. Jim Baird and Mrs. Buddy Morris went to Lubbock Tuesday

where the latter consulted a specialist about a skin condition.

**USE OUR COLD CAPSULES and Rexall Cherosote to break up that cold. Start at the first symptoms and it's much easier to control.**—Pioneer Pharmacy.

Mrs. J. J. Hall and small daughter LaQueta went to Plainview this week to be with her mother who is ill.

Joe Bedwell went to Amarillo the first of the week to attend the hardware men's convention in session there.

**FOR SALE**—All porcelain divided top butane range, in excellent condition, \$75.00.—Quitaque Motor Co. 4-1c

Mr. and Mrs. Alton Johnson and boys went to Amarillo Monday where he attended the hardware convention, and returned home Tuesday evening. They were accompanied by Mrs. I. G. Grundy.

Glen Gibson and family and Jean Grundy and family drove to Amarillo Saturday night for a visit with relatives, returning home Sunday evening.

Mr. and Mrs. S. C. Brown and family moved last Friday to their farm in Gasoline community which they recently purchased. They are well pleased and like their new location fine. Mrs. Brown stated.

Mr. and Mrs. J. R. Tyson of Hollis, Okla. were here Friday visiting in the home of her parents Mr. and Mrs. J. J. Miller and her two sisters, Mmes. W. W. Brantley and S. C. Brown.

Mrs. W. R. Wixom returned home Monday morning from Portales, N.M., where she had been in attendance on her mother, Mrs. Mattie J. Dupuy, 83 years old, who is seriously ill at the home of a son in that city.

**BRING YOUR PRESCRIPTIONS**—to Pioneer, experienced service. Our stock is most complete and being added to as new remedies are prescribed by your physician.—Pioneer Pharmacy.

Fat Stock Show visitors last week end were Mr. and Mrs. Henry Hamilton, Mr and Mrs. Leron Brunson, Mr. and Mrs. James Brunson, Mr. and Mrs. E. T. Turner and Mrs. Jess Purdy.

**WANTED**—Work of any kind; typing, filing, office work or house work, or anything. Mrs. Bobbye Locke, inquire at The Post.

Mr. and Mrs. Fate Hutcheson and Johnny were here from Amarillo over the week end for a visit. They planned to take his father, O. E. Hutcheson to Amarillo this week for some eye surgery but Mr. Hutcheson was sick and not able to make the trip at this time.

W. M. Bozeman of Montgomery, Ala., who has been here for an extended visit with his invalid sister, Mrs. B. J. Rhoderick, left this week to return to his home. Mr. Boze-

man has other relatives and a host of friends who enjoyed his visit in this area.

**I AM NOW agent for the Avon line cosmetics and toilet goods. I will appreciate your orders.**—Mrs. G. H. Wagnon, Quitaque. 3-4

J. C. Rhoderick returned to Quitaque the first of the week from Groom where he had been with Mrs. Rhoderick who underwent surgery there last Thursday. She is getting along nicely at the Witt Clinic in Groom (in case you want to send a card), and plans to return home Sunday.

**FOR SALE**—One F-20 Farmall tractor, 1939 model, with tool-bar lister and planter attachment; one Massel-Harris 101 junior tractor, with lister, planter and cultivator. Coleman Garrison, Silvertown. 4-2

A. B. Ramsey, Jr. took his mother to Arlington Monday to be with her daughter, Mrs. Eskar Curtis, who was released from the hospital there Saturday. Mrs. Curtis is making a nice recovery from a serious illness, and her mother plans to stay with her until she is strong again.

**FOR SALE**—5-room frame house with bath, all conveniences, venetian blinds, in northeast part of Turkey; well located. \$2,000.—C. A. Russell, licensed realtor, Turkey. 4-2c

Mrs. C. R. Badgett returned home Sunday from an extended visit. "Miss Annie" made the trip alone in her car, going to Houston for a visit with her daughter and husband, Mr. and Mrs. F. E. King, and stopping enroute at various places to visit other relatives and friends. She also visited her grand-daughter and family, Mr. and Mrs. R. G. Edwards and boys in San Antonio, then made a swing up to

Oklahoma City for a visit with relatives there.

**FOR SALE**—The home place of Mrs. A. V. Tipps, four room modern house, with several lots.—See N. V. Hamilton, Quitaque. 4-1c

Mrs. A. V. Tipps moved this week to Amarillo where she will make her home for the present with her daughter and husband, Mr. and Mrs. Bill Weatherwax. Mr. and Mrs. N. V. Hamilton helped her move and took her to Amarillo, returning home Monday evening.

**FOR SALE**—Kerosene 5 burner table-top cook stove, New Perfection. Practically new.—Edgar Adams, Rt. 1, Flomot. 4-1

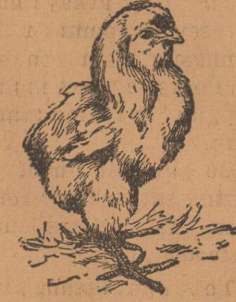

**LET ME do your quilting. Drop me a card or leave word at City Grocery. Mrs. Perry Neil, Quitaque.**

**THANKS TO FRIENDS:**  
I would like to thank my friends for the gifts and cards I received while in the hospital. I also wish to thank my class and Mr. McAdams for the lovely flowers.  
Jerry King

**You Can Clean a Gas Range Like a Dish**

*Good Housekeepers Keep Gas Ranges Spotless For Efficient Use and Sparkling Appearance*

ACCIDENTAL spillovers on today's automatic gas ranges are nothing to get excited about, for their modern finish is as easy to clean as a dish or glass. Aside from spillovers, some grease is bound to splatter over on to the working surface and burners from open pots or frying pans. Don't worry about it because you can keep that gleaming, clean look for years with just a little simple care.

Since the greater part of the range top is porcelain enamel—a glass-like material fused on metal, it merely requires washing with a cloth slightly dampened with warm, soapy water. Rinse and dry. The most important point to remember, however, is that this should never be done when the range is hot. Wait until it cools off. The easiest cleaning habit is to wipe off the top and around the burners after every dish-washing — by which time the range has cooled off.

Milk, fruit juices, vinegar and other acid foods will eventually dull porcelain-finished tops even though they are acid resistant. A dry cloth or fold of paper towel will take care of these emergency wipe-ups.

#### Cleaning Top Burners

Automatic gas ranges are equipped with burner grids of cast iron which can be washed in warm, soapy water. You can lift out the burner heads and wash them the same way, rinsing and turning upside down for quick drying so that burner ports (where gas flame comes through) will not be clogged with dampness. Aluminum burner heads can be cleaned with steel wool or mild cleanser but on chrome heads use a soft abrasive, not steel wool. If chrome or aluminum burner heads lose their gleam, clean them with a metal polish as you would an aluminum kitchen utensil.

The holes or "ports" where flame comes through can be cleaned with a stiff brush and warm water. Old-

type burners may sometimes clog with spillovers. If this happens push a wire into the hole or port, twist and remove the dirt.

Removable drip trays underneath burners found on some models can be cleaned with warm, soapy water, always remembering to wipe dry the bottom of the tray, as well as the top, before replacing.

#### Cleaning the Oven and Broiler

Since broiler and oven linings are made of porcelain enamel they are as easy to clean as a porcelain pot. As soon as food is cooked, take out the broiler pan and grill and, if very badly spattered, soak in hot water while you are doing the dishes. Then wash with warm water and soap using very fine steel wool or a stiff brush for the dirtier spots.

Occasionally, the inside of the broiler compartment itself, including top, sides and bottom, can be washed with warm, soapy water. The same method of cleaning applies to the oven. Oven racks can be lifted out and washed. Don't forget the top of the oven while you're at it. Grime collected here comes from food vapors which rise from the baking dishes.

If, as occasionally happens, your baking dish has overflowed because it was filled too full, allow the oven to cool, then remove the oven bottom and clean as usual. The bottom of the oven can be completely immersed in soapy water if it's not insulated. Otherwise, just clean the top section.

These simple, time-saving habits will guarantee that your gas range will look spanking new as long as it stands in your kitchen.

*West Texas Gas Company*

### This And That About One Thing and Another

More renewals to The Post were received this week and we appreciate these and also the friendly little notes that come with them. We're always happy to hear from our friends who have moved away, and very glad to know that they want the paper so they can keep in touch with the folks here who are too busy to write. (If you have a news item you wish to convey to your out-of-town friends, call 100 and we'll be glad to send it on to them via the paper.)

Mrs. Weldon Findley (nee Miss Grace Swinney) of Littlefield says she wouldn't want her paper to stop at all, "It's like a letter from home every Monday." And she says she's planning to come down for a visit some week end soon.

When the Bruce Brownings at Spur were reminded that their subscription had expired, Bruce wrote: "Dear Scotts, Imagine my embarrassment to learn that I was in arrears with my subscription. My wife had reminded me a number of times to examine the wrapper to learn of our standing, but me—I am the true example of the absent-minded professor. We enjoy the Post immensely. It is the only communication we get from "The old home town". And many thanks to you Mr. and Mrs. Browning, for the two years renewal.

Mrs. Mollie Chambers from Bakersfield, Calif., says "We surely wouldn't miss a copy of the Post. It's a letter from home we can count on every week. Hope you folks are enjoying the snow; we could use some moisture here, as this valley is experiencing the worst drouth in history." Mrs. Chambers liked the recipe idea, and sent a hot bread recipe for "busy folks" which will be published in the near future.

Mrs. Inez Garner sends her subscription from Pueblo, Colo., with a note which says: "We are about to get thawed out after it being 29 degrees below zero. Still have about 12 inches or more of snow and haven't seen the ground in three weeks."

Mr. and Mrs. Billy B. Hutcheson of Amarillo have a renewal as a gift from his mother Mrs. O. E. Hutcheson.

And thanks also to the C. E. Smiths of Lemoore, Calif., for a two years renewal.

The editor went to Amarillo Saturday and had some new glasses fitted. It was none too soon—in fact a little late, as the only excuse we can offer for publishing Lincoln's birthday as January 12th, was that we needed new glasses. After one look at last week's glaring error, we made a bee line for the doctor despite the threatening weather.

Women love to cook. Why, we don't know. And we doubt if they do, unless it is for the deep satisfaction that comes from achievement of any kind. But women will slave for long hours with painstaking effort to prepare and serve a tempting dish which in the twinkling of an eye disappears down the gullet of some unappreciative male. And if it isn't all gone in a hurry, the cook is terribly

disappointed. In the culinary art, the more ephemeral the creation, the happier the artist.

Several readers responded to our request last week for a vinegar pie recipe. Each one told us they had the best one there is, and we plan to try one or two soon. We'll get the recipe in the paper as soon as possible. Several have requested recipes, like for instance, Mrs. Rices spoon bread, and Minnie Mae's crunchy cookies, and one lady is anxious for a sour dough recipe. And someone wants Lola Middleton's Russian tea recipe.

One or two tried the Sunday Morning cake, and liked it fine. We hope some more recipes come in this week. Here is Mrs. Rice's spoon bread:

- #### SPOON BREAD
- 1 cup meal
  - 1 cup sour milk
  - 2 cups sweet milk
  - 2 eggs
  - ½ tsp soda
  - 1 tsp baking powder
  - 1 tsp salt
  - lump butter
- Beat eggs well, add milk, then meal sifted with salt, baking powder and soda. Add butter and pour in greased casserole and bake. Just before it is done, break crust with spoon to allow the air to escape.

That long item in last week's issue about the proposed highway to Fort Worth should be of special interest to this area. It would be faster and better delivery of cattle and other produce to market from this section and also would bring a main artery of travel directly through Quitauque. Quitauque's

Dr. W. O. Ervin, doctor of optometry, of Tulla is opening an office at Turkey in the City Drug Store and will be there each Friday. Dr. Ervin has been practicing for the past year with Dr. R. F. McCasland at Tulla.

He is a graduate of the Northern Illinois School of Optometry and previously had studied at Texas Tech. Following his graduation from the school of optometry he was with Dr. Carol of San Angelo, and later was associated with Dr. Anderson at Lubbock.

Dr. Ervin who was reared in San Angelo, now makes his home at Tulla. He has a wife and small son. For the convenience of his patrons in this area Dr. Ervin has estab-

lished the office at Turkey and invites his friends and those needing his services to call on him there.

### METHODIST WSCS

Mrs. Venus Gillespie was hostess Tuesday evening to the Methodist WSCS, the meeting being held at the church. The new president of the society Mrs. Bill Woods presided at the business session.

Mrs. Frank Gillispie, spiritual life chairman, led a devotional which included a prayer, a short talk on the theme of race relations, and a hymn presented by a quartet composed of Mes. Frank and Mort Hawkins, F. E. Benson and N. V. Hamilton, accompanied by Minnie Mae Roberson.

Mrs. Mort Hawkins had charge of the program on race relations and introduced two discussions, on the Negro problem, by Mrs. W. R. Scott, and on the Mexican situation by Mrs. E. W. Scheid.

The hostess served a delicious refreshment plate of lemon pie and tea, to sixteen members.

Following this meeting, the pastor showed a moving picture depicting an interesting story, based on an actual episode of the war, and revealing the wide influence of missionary work.

### RA MINUTES

The RA's met at the church Feb. 9. We repeated the watchword, said the Ambassador allegiance and repeated the commission and decla-

**PLAINVIEW PIONEER, WAYLAND COLLEGE FOUNDER, PASSES**  
Plainview, Feb. 7—Final rites honoring the memory of the founder of Wayland College, Dr. J. H. Wayland, were held at 3 o'clock Sunday afternoon in First Baptist Church here.

Dr. Wayland, 84 years old, died Friday night in Plainview Sanitarium & Clinic. He had been a resident of Plainview since 1891, when he moved from Hunt County.

He practiced medicine over the far corners of the Plains, and was active in his profession until some 20 years ago. He was the principal backer in the founding of the college which bears his name. He also was a leader in securing construction of the First Baptist Church.

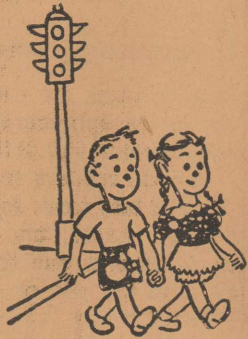

A true medical pioneer of the Plains region, Dr. Wayland first practiced over a territory which included Dimmitt, Hereford, Lubbock, Silverton, Canyon and the Howhouse Ranch headquarters. He made his rounds on horse or in buggy. He later purchased the automobile in Plainview.

He was married in 1883 to Miss Sarah Frances Tucker of Azel, who survives him. The first home of the Wayland family in Plainview was a three-room frame, constructed with timber hauled by wagon from Amarillo. The Wayland's first home was about three blocks from the Wayland Hotel, which Dr. Wayland operated after his retirement from medical practice.

Friends here will be interested to know that Mrs. G. Tunnell bought and is operating a gift shop in Plainview. The shop is located in the building with the Granada Theatre, and Mrs. Tunnell has a beautiful line of fine gift items. **FOR SALE**—500 chick capacity electric brooder; one 6x12 granary; one 8x8 brooder house.—Harvey Williamson, Quitauque. 4-1

Mrs. J. T. Bradley returned home last week end from Anson where she visited her daughter Mrs. C. C. Moss and family, and also visited a daughter Mrs. W. A. Beard at San Angelo, her brother F. S. Hunt at Rule and a sister Mrs. T. J. McClure at Crosbyton.

## It's a-MAZE-ing!

Husbands, please note! The average housewife performs 70 different tasks in her normal day's work! (Frankly, most women will think that figure is far too low, but it comes from the U. S. Government's Office of Education!)

Yes, home-making is a big job—but the housewife is spared one task... you don't have to shop and wait days for the delivery of electric service.

Dependable, time-and-labor-saving, Reddy Kilowatt, your electric servant, is always ready to help a housewife skip through her maze of tasks. Electric service saves her steps, lightens her work, gives her more leisure, makes life healthier and happier for her and all her family!

And it costs so little! In an era of sky-high prices, a kilowatt hour of electric service costs that same average housewife 17% LESS than it did ten years ago!

ration. Then Mrs. Dunavant led us in prayer for Mr. J. B. Lawrence.

We elected Harold Tant and Winfred Walker into the chapter.

We saw a good program put on by the GA's. We had 12 boys at the meeting. If you were to count Mrs. Dunavant, we had 13 present. We had more than the girls did.

The boys present were Robert, Donald, Willie, Gene, Winfred, Roy, Harold, Willie, Leroy, James Arthur, Elmer, John Lewis. Reporter

### G. A.'S MEET

The GA's met Monday at the church. We put on a play. The name of the play was "At the Dinner Table". The girls planned a

party to be given Saturday afternoon at 2:00 at the annex. All G. A.'s are invited.

The R. A. boys visited the G. A. girls to hear the play.

The girls present at the meeting were Earlette Grundy, Janette Reynolds, Gwendolyn Chase, Alpha Jean Allen, Rochelle Craig, Mattie Graham, Joanne Hanney, Pearl Chandler, Floretta Stone, Jeanette Berry, Carol Berry and Mrs. Gragson.

From where I sit... by Joe Marsh

## Will's Proud of His Big Ears

Will Dudley's mighty proud of his big ears! Best crop of corn he's grown since '38. And Will, like so many other farmers, has plenty of reason to be proud of what he raises.

The farmer has always been a keystone in our economic life, and the key to our national well-being. But from where I sit, he's more important now than ever. He's not only feeding America—but friends of America overseas—building good will for this country at a time when friendship for democracy is most important.

And farmers have willingly shouldered that responsibility. Will spends extra hours in his cornfield... comes home tired to a temperate glass of beer and early bed, to be ready for the next day's work.

From where I sit, America can be mighty grateful for her five million farmers... for their productivity, hard work, and temperate living—of which Will's moderate glass of beer is proof!

Joe Marsh
