RUCKERS LOOK BACK OVER FIFTY YEARS OF MARRIED LIFE

It was on Sunday evening at 7:00 o'clock, Dec. 24, 1911, that Miss Lois Stewart became the bride of Clifford T. Rucker at Aubrey, Texas. The young couple "set up house-keeping" in a log cabin just northeast of town. They farmed

there for one year, during which time, Mary, their only daughter was born. The Ruckers moved to a new home, about three miles away. There the older son, C. T. Jr. made known his appearance. In 1915, the family moved to Hollister, Okla., where they lived for two years. The Ruckers' vividly recall

their arrival in a heavy rain. The next morning the kitchen, which had been added to the house as an after thought, apparently was solid ice about four inches thick. Evidently, the carpenter had failed to make a snug fit and water had run down the walls. At any rate, it took an axe to chop table, chair and stove legs from the ice before being moved into another part of the house. Of course, this was all taking place in "horse and buggy" days. The Ruckers also recall an event occurring in the summer. The Commanche Indians in that sector would gather, don head-dress, authentic costumes, war paint, get into buggies, wagons and on horseback and go to Vernon, Texas for an annual celebration there. Their route just happened to be in front of the Rucker home.

Back to Texas in 1917, the Ruckers settled in Denton County, near Aubrey. In 1922, the other son, William, was born.

On Thanksgiving Day, 1925, Mrs. Rucker and the children left to join Mr. Rucker at QUITAQUE. He had come ahead with the livestock and household goods. We can remember the Model T, how it got dry on Yates Hill, and the men having to walk miles for water for the radiator.

The Ruckers farmed the first year three miles west of town. In Jan. 1927, they moved to their farm southeast of town where they remained until July 1960, when they located their new home in northeast Quitaque.

The senior Ruckers are active, yet about their daily tasks. Life brings trials and happiness to all of us and both have come to this family, which has grown to five grandchildren, Karen and Shelly Rucker of Amarillo; Ann and Kena of Silverton; Richard Pittman of Abilene, and two great-grand daughters, Cindy and Sherri Pittman of Abilene.

MEN'S OUTERWEAR IS "FOR GIVING"

Outer wear for a man's Christmas 1961 takes in a rugged, practical and thoroughly masculine look, according to the American Institute of Men's and Boy's Wear. The new coats and jackets are sure to be gift-hits with the men on your list.

High among the short jackets are quilted nylons, some in colors as reserved as navy blue or black, others as bright as the nautical signal flags from which they derive both their color and pattern.

Sueded fabrics, both woven and pile fabrics — look warm, are knitted — many backed up with warm, and are a hot fashion to boot.

Laminated fabrics with woven or knitted surfaces bonded to polyurethane foam are a sensational development. The laminates are light in weight, as warm as the warmest, and available in a wide range of models, lengths and colors. Water-resistant as well as warm, the laminates offer protection plus.

Many of the quilted jackets are reversible, too. For example, some reverse from slick nylon to Scandinavian sweater knits, others from a light to a dark shade, still others from one fabric to another.

Brand-new and high style in

outerwear is the genim "pea-coat": lined with either real or simulated shearling. Fine shearling, and genuine suede, lined with shearling, are also popular.

HOLIDAY FRUIT CAKE

Fruit cake is associated with the earliest of our traditional holiday feasts. Perhaps, because it is one of the most ancient sweets in the history of cooking. The combination of dried fruits and nuts has been handed down as a confection from the beginning of man's recorded history — the crowning glory of many an ancient feast. The fruit many evolutions, from the steamed pudding eras, to the present conception. Here are four modern methods of preparing fruit cake for the holiday feast.

Here is a very simple fruit cake recipe. There are no flour or other dry ingredients called for in the recipe.

3 cups dates
 75 candied cherries
 8 slices candied pineapple—green and yellow
 4 cups shelled pecans
 2 cups shelled walnuts
 1 4-oz. can coconut
 1 can Eagle Brand Milk
 Cut up fruit, mix all ingredients, pack in tube pan and bake 2 hours at 250 degrees.

Garnish 30 minutes before baking time is over with pineapple cubes, cherry halves and whole pecans.

WHITE FRUIT CAKE

1 pkg. Betty Crocker white cake mix
 Add 1 egg, ¼ cup water, 2 level tsp. salt and 2 tsp. lemon extract.
 Beat until smooth, about 2 mins. Add 3 eggs. Beat well, at least 2 minutes
 Add the following fruits, floured with ½ cup all-purpose flour:
 1 lb. white raisins
 1 lb. whole pecans or walnuts
 ½ lb. whole candied cherries
 ½ lb. candied pineapple, cut into strips
 Line two 3½x10½ loaf pans with triple thickness of wax paper place half of the batter in each pan
 Bake in a slow oven at 275 degrees for 2 hours (If oven glass-ware is used, bake at 250 degrees)
 Place a pan of water in oven when

baking. When the cake is cool, wrap in foil, and store. (Substitute 2 tsp. lemon juice for the lemon extract, for better flavor.

AN INEXPENSIVE CAKE, quick to fix, uses an applesauce cake base. Makes a delicious holiday cake and a perfect substitute for the old fashioned fruit cake.

1 cup butter
 2 cups sugar
 2 cups applesauce
 4 cups flour
 2 eggs
 1 tsp. nutmeg
 1 tsp. cloves
 2 tsp. cinnamon
 2 tsp. soda
 2 cups raisins
 1 cup nuts
 1 9-oz. pkg. mince meat
 Cream butter and sugar; add eggs, and beat well. Add applesauce. Sift dry ingredients together, and add first mixture, mix well

THE QUITAQUE TRIBUNE — Thursday, December 14, 1961

and add mince meat, raisins and nuts. Other fruit added to this will make a delicious and richer fruit cake. Bake in tube pan for 1½ hrs. at 300 degrees.

"M" NIGHT AT FIRST BAPTIST WELL ATTENDED
(By Mary Ellen McCracken)

"M" Night at the First Baptist Church was well attended last Monday night, December 4. There were 112 present, including 11 pastors from the Caprock Association. The Choral Choir furnished good numbers, as well as the congregational singing. Special music was also presented by Bro. Benson from Ralls Baptist Church.

J. E. Wimberly of South Plains brought a special message on Training Union.

Main speaker for the evening was Dr. Fred Howard, head of the Bible Department at Wayland College. There are thirty churches in the Caprock Association and 16 of them were represented in last week's meeting. It was a very interesting and educational evening for our church.

Bro. Dallas Roark, his wife and

baby, from Wayland College visited First Baptist Church Sunday morning. Bro. Roark spoke in the absence of pastor Bob Beck. The Rev. Roark is director of religion at Wayland.

We wish to extend sympathy to those in sorrow and to wish a very speedy recovery to those who are ill in our church family.

G.A. Notes —
The G. A.'s met last Tuesday, Dec. 12 with vice-president Connie Bummett presiding.

After the G.A. hymn and Christmas Carols were sung, a missionary program "Little Island - Big Missions" was presented under the direction of program chairman, Becky Berryhill, with Becky, Suella, Anita and Sherry giving parts.

We then checked the progress the girls had made on the Forward Steps. The girls had saved \$14.89 for the Lottie Moon Christmas Offering. Next Tuesday we will stay until 6:00 P. M. for our Christmas party following our regular meeting. We hope all members will be there.

OFFICERS ELECTED FOR FLOMOT CEMETERY ASSOCIATION

The Flomot Cemetery Officers for the new year were elected in connection with the Lions Club Christmas Party and supper, Thursday evening at the Flomot gym. Ballots were passed out and each member of the Cemetery Association was asked to mark their ballot and return them so that the results might be announced before the group was dismissed that night. A financial report from the treasurer was also distributed. Tallying of the ballots revealed that the following officers were elected:

- President, Johnnie Speer
- Vice-president, Alfred Martin
- Secretary, Mrs. J. H. George
- Assistant-Secretary, Mrs. Wilburn Martin
- Trustees, Wendell Morris, John Jones, and Harmon Moseley
- Miss Neval Smith and her brother

FRUIT CAKE CAN BE MADE MORE TASTY

For a rich moist fruit cake, baking time and temperature are just as important as the ingredients. Dry, crumbly flavorless cakes are caused by too-high temperatures or over-baking.

According to Margaret Spader, home service editor for the Gas Appliance Manufacturers' Association, a 2-lb. fruit cake (baked in a 1-lb. coffee can) should bake at 300 degrees for 2 1/4 hours in a gas oven.

One pound cake should bake at 250 degrees for 3 1/2 hours. Individual cakes baked in muffin pans will take 30 minutes at 250 degrees.

One reason for many traffic violations is the fact that the long arm of the law is often short-handed.

HIGHLAINS HILITES
In the 1961 season fifty-six varieties of grain sorghum were tested under dryland at the High Plains Research Foundation. The highest yielding variety in 1961 was 512 pounds above that of the highest yielding hybrid in 1960. The average yield of all hybrids and varieties included in the test was 462 pounds above the 1960 average. Dr. Earl Collister, Chief Agronomist, conducted the test.

The fifty-six hybrids and varieties were planted June 13 and harvested on October 3 and 17. Fifty pounds of anhydrous ammonia were sidedressed on July 28. The dryland varieties were aided by 4.46 inches of rainfall in July and August of 1961. The area had been planted to wheat in the 1960 season.
The first twenty-eight hybrids and varieties yielded so nearly the same that they are considered equal in ability. The least significant difference in this test was 621.34 lbs. of grain per acre. This means that there must be at least this much difference between the yield on any two hybrids or varieties before one

would be considered superior to the other, Dr. Collister said.
The twenty-eight varieties were: Amak R-14, 3723.06; Excel B-52, 3710.91; P.A.G. 625, 3636.21; Excel, P-38, 355.26; Steckley R-108, 3543.25; Frontier 411, 3515.31; Horizon 78, 3490.37; Texas 660, 3471.50; Standing 3434.27; Cheyenne, 3360.49; Texas 601, 3278.96; Horizon 79, 3274.11; DeKalb C-45, 3258.50; Richardson's 303R, 3252.82; WAC 750, 3251.43; Te 77, 3239.54; Lindsey 788, 3234.84; P.A.G. 430, 3219.21; NK 210, 3215.39; DeKalb C-44-b, 3204.79; P.A.G. 665, 3184.14; Martin, 3173.06; Comanche, 3158.20; DeKalb D-55, 3156.70; Standmaster, 3138.04; R. What's that, Mom?
That's a stove, Son. Trying to think.
What's it trying to think about, Mom?
Where its next meal is coming from, Son.
Why, Mom?
Because some people have been saying the stove can almost cook by itself.
They shouldn't tell the poor stove that, Mom.
That's right, Son. Nor people either.
