TELEPHONE LOAN MAY AFFECT AREA

Speculation was aroused here last week that the proposed REA telephone system for the area between Matador and Quitaque might be closer to becoming a reality following a brief news item in the Ft. Worth Star-Telegram. The item was as follows:

"WASHINGTON, Jan 17 - The Rural Electrification Administration announced Wednesday a \$510,000 loan to Cap Rock Telephone Company, Spur, Texas. Notifying Senator Ralph Yarborough of the action, the REA said the money will be used primarily to build 747 miles of line to provide service for 333 new subscribers."

The Tribune did not receive notification of the loan from any member of Congress, as is usual where funds will affect the area.

The Matador Tribune

Mr. and Mrs. Johnny Brummett spent the weekend in Spearman at the home of their daughter and her family, the Claude Sheets. Mr. Brummett stopped in Stinnett to see his doctor.

FORMER PASTOR VISITS QUITAQUE

NABS A CHICKEN THIEF

James Bartfield, Ernest Woods and others living in that vicinity northeast of town, have been losing chickens, turkeys and guineas lately but had been unable to catch the culprit.

James reported that about 3 o'clock Wednesday morning he was awakened from sleep by the barking of his dog and the chickens squawking and immediately got out of bed, dressed, took his .410 shotgun and went to investigate. Something was chasing a chicken around the house but he was unable to see what it was. He fired a shot in the air and the thief took off with the dog, a female Boxer, in hot pursuit. The dog treed whatever she was chasing some distance from the house. James said he went back to bed and to sleep. He awakened after daylight and the dog still had the chicken thief treed, so James took his gun and went to see what it was. He found a big bobcat sitting in the tree and proceeded to shoot it. The cat was knocked to the ground but was not killed. The dog tied into the cat and finished the job.

James brought his trophy into town to weigh it and plans to have it mounted.

The cat weighed 25 pounds and looked mighty big to this reporter. He was an old tom and James figures he has a family out in that vicinity.

WAYLAND COLLEGE RECEIVES SCHOLARSHIP FUND GIFT

Plainview, Special - Latest gift to Wayland Baptist College is the Campbell Scholarship Fund of \$12,000 from Mr. and Mrs. R. E. Campbell, Sr., Matador, according to Tom Z. Parrish, vice president of developmental services.

This is a gift to endowment funds of Wayland and will provide approximately \$500 a year for tuition scholarships for students. First choice of students will be made from Motley County students on the basis of need, although students from other areas may share in this scholarship program. These will be known as the R. E. Campbell Scholarships.

Since 1930, Mr. and Mrs. Campbell have been among the leaders in First Baptist Church, Matador, as well as in business and social life of the community. Both have taught Sunday School classes for more than 40 years. Mr. Campbell has been a deacon for 30 years and is a member of the Lions Club and the Masonic Lodge.

For 20 years they operated a grocery in Matador and now own the Chevrolet agency, which is operated by their sons, Forrest, and R. E. Campbell, Jr.

This gift from members of First Baptist Church, Matador, is but a continuation of an interest shown by the members since Wayland was founded in 1908. In 1916 Matador's First Baptist Church came to the rescue of the college and provided \$6000 for completion of the girls' dormitory, which the trustees in grateful appreciation then named "Matador Hall."

Panthers Top 100 Again!

The Panthers continue to roll merrily along the winning trail, but the Pantherettes dropped a game at Lakeview Tuesday night.

Both teams trimmed the Estelline High teams here last Friday night, the Pantherettes taking the first game of a double-header 46-34, and Panthers stopped the Bearcubs 57-38.

Tuesday night the Quitaque teams drove over to Lakeview where the Panthers dropped a close 43-48 decision to the Eaglettes, and the Panthers snapped out of their doldrums to blast the Eagles 101-24.

Jimmy Mayfield sparked the Pantherettes past the Estelline girls last Friday night with 20 points as Jennifer Whittington and Janice Dudley each tossed in 13 points. Stewart of Estelline also marked 20 points.

In Tuesday night's game the Pantherettes were ice cold for three quarters, then came unbound and almost pulled the game out of the fire before running out of time. Quitaque was trailing by 17 points going into the final period of play and came within 5 points before the final whistle. The Pantherettes managed only 21 points for the first three periods, then with a 19 point scoring spree staged by Jimmy Mayfield and with guards Aus-

ton, Woods, Elliott and Whittington holding down the Lakeview forwards, the Pantherettes outscored the Lakeview girls 22-10 in the 4th period. It was the second loss in district competition for the Quitaque girls. Jimmy wound up the night with 30 points to win scoring honors. Janice Dudley was next with 8 points and Jennifer Whittington made 5 points.

In the Estelline game Friday night, Jack Johnson topped the scoring parade for the Panthers with 13 points; Robert Phelps was next with 12 points; Sammy Johnston and Dellis Monk each contributed 10 points; James Starkey made 9 and A. B. Lyles 3.

Tuesday night at Lakeview the starting five ran up a 36-4 first period lead, then retired to the bench until 4 minutes deep in the final period when Coach Roberts let the mgo back in and finish out the game.

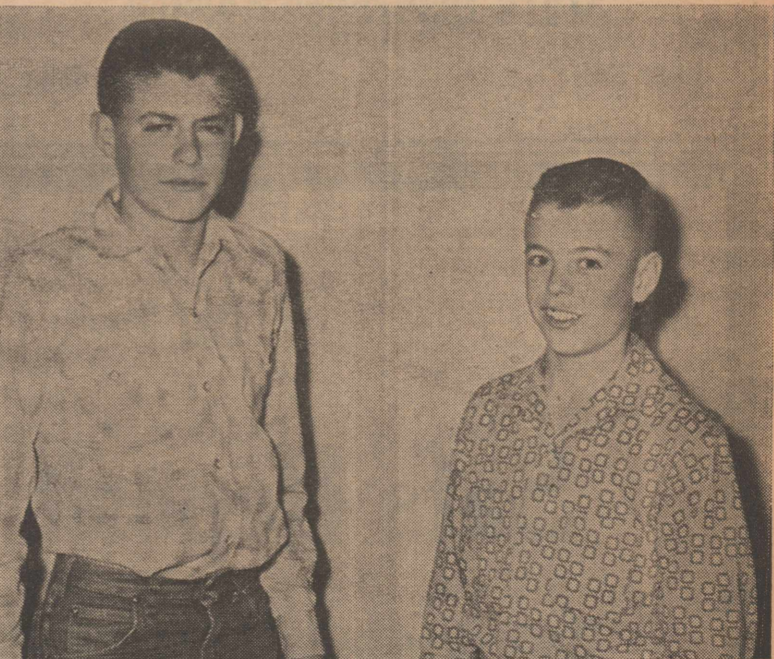

Player	FG	FT	PF	TP
Johnson, Sam	5	4	2	14
Starkey, James	4	1	0	9
Monk, Dellis	3	3	0	9

Lyles, A. B.	6	0	3	12
Saul, Bob	1	0	3	2
TOTALS	42	15	10	101

Jim Saul captured scoring honors for the night with 18 points.

The regular district schedule will be wound up here Friday night when the Matador teams come here for a pair of games. Tuesday night the home season will come to a close when Happy comes for a pair of games. Early in the season the Panthers trimmed the Cowboys at Happy while the Pantherettes were beaten by the Cowgirls and the locals would like to upset the dope bucket and wind up the home season with a win.

Thursday, Friday and Saturday of next week the District Tournament will be played at Matador. The schedule has not been released as we go to press but both teams will probably see action Thursday.

The Panthers will be heavily favored to retain their district crown. The Pantherettes are not out of the running yet, although they have dropped two district contests. If they can win over Matador tonight, they have a good chance of winning a District Championship, too. We think they have a good chance of doing it. Fans are urged to turn out and help them beat Matador.

Warren Lee Merrell of Quitaque, above left, won 3rd and Wayne Nance of Silverton, above right, won 5th in the Pronger Brothers Herdsman Award at the Amarillo Fat Stock Show. These awards are based on showmanship, courtesy to show officers, and neatness of exhibit. The awards are made possible by the Registered Hereford Breeders of Stratford, Texas.

1961 GOOD YEAR FOR MOST TEXAS COTTON FARMERS

College Station, Feb. 1 — The past year wasn't what cotton growers in many Texas counties would classify as a good one, but for the state as a whole, lint yields were the second highest on record, 348 pounds an acre. Thus, low yields in some areas were offset by record yields in others.

Fred Elliott, extension cotton specialist, in his 1961 annual report highlights some of the year's achievements. He said the 7-Step Cotton Committees, working on all levels, continued to be a major factor in the progress made by the producers of the state's most important crop. Since the program, initiated 16 years ago by the Texas Agricultural Extension Service, has been operating, lint yields have climbed from 134 pounds an acre to 1961's 348 pounds. But perhaps of equal or even more importance have been the changes in production and harvesting, ginning and soil management practices.

The specialist reported that an estimated \$68 million plus was saved last year in harvest costs through the use of machines - 33,089 stripper harvesters and 4,782 spindle pickers. Harvesting machinery doesn't come cheap, the specialist said, as verified by the expenditure of over \$32 million in 1961 alone for new picking and stripping machines.

HIGHWAY COMMISSION PRAISES NEW FARM TO MARKET ROAD BILL

AUSTIN, TEXAS — The Texas Highway Commission today praised the new Farm to Market Road Bill as a "constructive piece of legislation" and announced that the bill will pave the way for an eventual 15,000 mile increase in total Farm Road mileage in the State.

(Governor Price Daniel today signed the Farm to Market Road Bill into law)

"The establishment by the Legislature, through this legislation, of a

long-range maintenance program for Farm Roads will make increased new mileage possible," said Herbert C. Petry, Jr., Chairman of the Highway Commission. "The Texas Highway Commission," he said, "has this day passed a Commission Minute Order expanding the objectives of the Department from the present 35,000 mile system of Farm to Market Roads to a 50,000 mile system". It was pointed out that this is in accordance with the agreement made by the Highway Commission to all of the interested road development groups to coordinate with the new legislation. "The increased mileage will be developed over a period of years, logically balanced among the various areas of the State," Petry said. "Such a system of roads will be selected for the over-all benefit of the road system and the areas involved and with the objective of developing all areas of the State up to the 50,000 mile system as uniformly as possible."

A total of 34,294 miles of Farm to Market Roads have already been designated.

"We are confident that we can secure under the new Farm to Market Road Bill more miles of newly designated Farm Roads than we have been getting in recent years," he said.

MARSHALL FORMBY AUTHOR OF NEW HISTORY OF WEST TEXAS

The growth of Texas is not boom and bust but a steady progress. That is the conviction of Marshall Formby of Plainview, Texas, candidate for Governor and author of a new outstanding history of early Texas settler, THESE ARE MY PEOPLE. The book points up Mr. Formby's contention that what our ancestors did, their present-day descendants can continue. Building on the solid foundation already laid down, he knows that Texans can

develop their agricultural potential in order to create more jobs for a growing Texas population which he estimates will number 12 million by 1975.

Dedicated to the pioneers who struggled westward, THESE ARE MY PEOPLE, published in January by The Naylor Company of San Antonio, Texas, is a history that comes alive in the author's vivid portrayal of the characters who settled in Texas, their lives and the lives of their descendants.

Of particular interest are those chapters dealing with the settling of the Cap Rock country, a unique part of Texas where the plains join the brakes country. Early life here was hard and rough, as it was throughout Texas. The first settlers found buffalo aplenty, grass knees high and even Indians.

Beginning his political career as County Judge of Dickens County in 1936, Mr. Formby's public offices have included presidency of the West Texas County Judges' and Commissioners' Association in 1939 and 1940, State Senator for four years beginning in 1940, the latter part of his term while serving with the Army Corps of Engineers for four years, with 20 months' overseas service. By 1959 he had completed six years on the Texas Highway Commission, of which he was chairman the last two years.

A practicing attorney in Plainview and a farmer, Mr. Formby is also a business man and co-owner of four radio stations in Texas.

Born in Hopkins County in 1911, Mr. Formby attended McAdoo and Spur schools in Dickens County; holds a BA from Texas Tech; MJ from the University of Texas, and attended Baylor Law School. He is married and has two children.

4-H LAD HAS BUMPER GRAIN SORGHUM YIELD

College Station, Jan. 17 - Though Texas grain sorghum producers set an all-time high of 45 bushels or 2,520 pounds an acre in 1961, they still have a long ways to go to match the 9,383.9 pounds an acre produced by Bill Cole, a Deaf Smith county 4-H boy. Cole's production was made under irrigation and won for him top honors in the 1961 Texas Hybrid Grain Sorghum Program. His RS 610 was planted on June 19 after a preplant irrigation and at the rate of 10 pounds of

seed an acre in 27-inch rows. It followed a cover crop of barley and received an application of 131-0-0 fertilizer as a side dressing. The crop was irrigated four times during the growing season.

The top dryland yield — a new record — was posted by Fred D. Campbell of Birome, Hill county. The 8,004.3 pounds or just under 143 bushels was also from RS 610. Campbell planted 7 pounds of seed an acre in 38-inch rows following a cover crop of peas. He applied a 73-40-0 fertilizer before planting his State winning crop. It was planted on April 1.

The complete list of winners as released by Ben Spears, extension agronomist, shows six Tom Green county 4-H Club members taking the first five and seventh places in the dryland division for West and Northwest Texas. A joint 4-H entry from Ochiltree county by Bobby and Dale Githens took sixth place. The Tom Green entries in order of placings included Joe Shriver, Eola, 4, 494.1 pounds an acre; George Schriever; John Wilde, Wall Rt., San Angelo; Charles Kahlig, Rt. 2, Miles; Thomas Strube, Rt. 3 San Angelo and Larry Riemenschneider, Rt. 2, Miles, whose yield was 3,361.9 pounds an acre. All seven planted RS 610.

LUA BEA WADDELL IS BRIDE OF ROY PATRICK

Wedding vows were exchanged in the chapel of the First Baptist Church by Miss Lua Bea Waddell of Plainview, and Roy Franklin Patrick of Amarillo.

The bride is the daughter of Mr. and Mrs. Louis Waddell, 2910 West 10th Street. Mr. Patrick's parents are Mr and Mrs. J. K. Patrick of Quitaque.

A candelabra arch with lighted tapers, baskets of carnations and mums and palm greenery marked the nuptial area at the altar.

The wedding music was presented by Billy Webb of Plainview who played traditional selections on the organ, and Miss Wanda Dickson of Littlefield sang "O Perfect Love," "Barby," and for the benediction, "Bless This House."

Mr. Waddell gave his daughter in marriage. Dr. Roy McClung performed the double ring ceremony.

The candles were lighted by James Golden of Levelland, nephew of the groom. Ushers were A. E. Patrick, Quitaque, brother of the groom, Louis Waddell, Jr., Plainview, brother of the bride, and Lonnie Shoemaker.

Miss Jeanie Gudgel, Mobeetie, was maid of honor, and best man was Charles Melton, a cousin of the bride, from Lubbock.

The bride's dress of Chantilly lace over taffeta, was styled with tightly fitted bodice, Sabrina neckline and long tapered sleeves. The extremely full floor length skirt of taffeta was banded with lace. Her veil of silk illusion was held by a queen's crown of seed pearls, and she carried her cascade bouquet of white roses on a white Bible.

Miss Gudgel wore a dress of royal blue satin, styled with bell shaped skirt, rounded neckline and brief cap sleeves. A blue circular veil was held by a bandeau to form her headpiece, and other accessories were white. She carried a colonial bouquet of white mums.

The church parlor was the setting for the reception which followed the chapel ceremony. The three-tiered cake and punch were served from a lace covered table, centered with the wedding bouquets arranged with a candelabra holding blue tapers.

Miss Barbara Golden, Levelland and Miss Ruby Jones, Trent served the punch. The guest book was in charge of Mrs. Tony Smitherman of Hart.

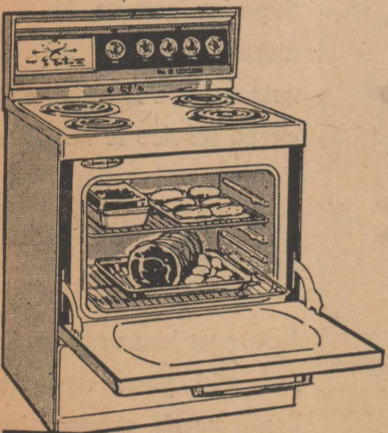

Among the out-of-town guests were Mr. and Mrs. J. W. Patrick of Farwell, Mr. and Mrs. Jack Daniel of Abilene, Mr. and Mrs. Fred Waddell of Roby and Mr. and Mrs. Earl Patrick of Flomot.

CAPROCK SOIL CONSERVATION DISTRICT

OUR SOIL ★ OUR STRENGTH

Most people in this area have seen the fine planting of Indian and Switch grass on the Joe Oneal place southeast of Quitaque. The above planting is as good as any we have seen anywhere. Oneal now plans to try something that we feel can be of great benefit to the very sandy area southeast of Quitaque.

He has about eighty acres of deep, sandy land that has never been cultivated. However, through overuse and due to other factors, there is simply no good grass left on this field. It is grown up in weeds, some annual grasses and some sand sage brush. It will not even pay taxes as it is now. It is excellent grassland, however, and Oneal plans to get good grasses back on it. First, he plans to shred the weeds and scattered sage brush. This will allow him to get over the land with a grass drill. It will also leave a litter on the soil surface to prevent wind erosion and will help hold moisture for the young grass seedlings. Following seeding, Oneal plans to spray for weed control at least twice. He might spray three times if necessary. We feel that spraying for weed control will be the key to success. He plans to seed a mixture of Indian grass, Sand bluestem, Switch grass and Little bluestem. There is no doubt that these grasses will do on the sandy soil which Oneal has. He has some in an adjacent field that is over head high now.

There are large acreages of land in the sandy area southeast of Quitaque that would lend itself to the treatment which Oneal plans for his place. This can be cost shared. Others interested, should contact the S. C. S. office for further information.

OVER 900 ATTEND WITNESSES' ASSEMBLY AT LUBBOCK

W. R. Thomas of Brooklyn N. Y. closed out a three-day convention of Jehovah's Witnesses, Sunday in Fair Park Coliseum, Lubbock, when he spoke to 923 persons on the subject: "Uniting Men in a Split-up World."

In speaking to the 18 congregation assembly, Thomas said: "Unity! The celestial heavens have it. Man does not have it. Man will attain it when God's will is done on earth like it is in heaven."

The theme of the assembly was to "Assist One Another to Do God's Will."

V. D. Tiffin, presiding minister of the Flomot Congregation of Witnesses, said the assembly was designed to aid us to be more efficient in our house to house visitation, calling back on interest found and

carrying for it with home Bible service.

Circuit supervisor, R. H. Smith, speaking on the subject, "Manifesting Christian Manners", said, "In your house to house visits remember the proverb, 'An answer, when mild, turns away rage'."

Texas Circuit No. 9 covers an area from Wichita Falls to Hobbs, and from Lamesa to Plainview.

PROCTOR CANDIDATE FOR ATTORNEY GENERAL OF TEXAS

Austin, Texas — Travis County District Attorney Les Procter announced last week he is a candidate for attorney general on the Democratic ticket, and at the same time criticized big spending in political races.

The announcement came on the effective date of 40-year-old Procter's resignation from the prominent prosecution office he has held for seven years.

"One issue we can decide in this race," Procter said, "is whether a poor man has an opportunity in Texas politics today."

"I do not have the money to urge that I am better breakfast food or a brighter soap suds."

Procter, a Marine Corps veteran of World War II and Korea, said he would conduct an enthusiastic Spartan campaign "With no luxuries and only the bare necessities."

"I have only enough money, most of it mine, and half of that borrowed, to go among the people of my state and ask them sincerely to permit me to be their attorney general," said Procter.

Procter said he had been told by political professionals that a candidate with a small campaign fund can not hope to win a statewide election — that he would not be taken seriously.

He said it was his "hope that the

voters will base their decision on the sincerity, ability and qualification of the candidates and not upon the stage effects of big campaign spending."

Procter said he would cover as much of the big state as possible, but would rely heavily on "self-appointed spokesmen and friends who will raise their voices in my behalf."

He said he was staking his hopes on voters who want clean government, and desire an "uncommitted attorney" representing them in the attorney general's office.

Procter said that since the attorney general is the lawyer for all the people of Texas the office should not be sought on the basis of platform but on principle.

"That principle is the fair and just interpretation and administration of the law without fear or favor — the product of hard work and not of political consideration", he said.

Procter has become widely known in recent years through his prosecution of criminal cases arising from the veteran's land, insurance, and legislative bribery scandals.

Referring to this he said, "I have represented all of the people of Texas in the prosecution of cases which have cast reflection upon

the good name of our state."

"I am sure I had the moral support of all Texans in the prosecutions which set the record straight"

Procter said he was not claiming full credit. "I can point to 31 grand juries, countless trial juries, many judges, assistants, investigators and witnesses, and say that to them belongs a large share of the credit," he said.

"But I can say that I did not shirk or hold back from the fray — that I tried to walk the extra mile for the people of Texas."

Procter is a native of Temple, where his father, L. C. Procter, was superintendent of schools for many years. At the University of Texas, where he took his law degree in 1947, Procter was a member of the conference champion 1942 football team that beat Georgia Tech in the Cotton Bowl.

He is a major in the Marine Corps Reserve, a member of the American Legion and the Veterans of Foreign Wars. Before his election as district attorney, he served four years as county attorney for Travis County. A member of the American, Texas and Travis County Bar Associations and the American Juricature Society, he is also a past chairman of the Criminal Law Section of the State Bar of Texas in 1957.

In 1955, Procter was named Austin's outstanding young man, and in 1956 was selected by the Texas Law Enforcement Foundation as one of the state's four outstanding prosecutors.
